CONFESSES TO ARSON CHARGE

YOUNG AUTHOR

CHICAGO, May 2 uthor of adventure storics, embell shing his confession with excerpt from a 300 page diary, told police today that he set fire to nearly 50 partment houses.

'I couldn't fight off the mad thrill of it," the 30-year-old author, H. Carl Peterson, said.

Peterson, former student Northwestern university, confessed to setting 17 fires in recent weeks. He added that "all the fires would nearly 50, but some of them were long time ago."

Police announced Peterson had been identiifed by a woman previously had been described by woman as "a man with a face like a de.non" who ran from a blazing north side apartment.

Norvell-Miller To **Change Locations**

said W. R. Miller of Norvell-Miller we are going to put in swell place, going to buy a new n.eat refrigerator and display case We'll start fixing up the building

Miller was refering to the fact that this firm is going to move its big grocery business to the old telephone building at the corner of E and Eighth street.

For some time, Miller explained the grocery company has been cramped for room to display properly and sell the enormous stock that is constantly carried. "We hardly have room for our customers to get inside on busy Saturdays, to sav nothing of having room to display goods," he has remarked many

OSCAR CLIETT GETS TOE HOLD ON GIANT CATFISH IN ROWBOAT

Best of the first day fish yarns coming in this morning after the opening of the season yesterday deals with the great physical prowess of Oscar Cliett, who is both a wrestler and a track man of no mean

Cliett and C. B. Powell celebrated the opening of the season by bringing from Lake Cisco two blue catfish weighing eight and a half and nine pounds respectively. "As soon as we got those fish in the sack and Oscar grabbed them and started, those long legs of his working as hard as they could," said Powell, who,

not being built on the same type of chassis as his fishing partner, was unable to keep up with him. "He nearly ran me to death going up that hill, he was in such a hurry to get to town and show those two fish." But his recital of his friend's athletic ability did not stop

"You ought to have seen him when we pulled the biggest fish into the boat. I thought he was going to jump on top of it. The fish was flopping around and he was trying to hold it as tight as he could, all the time yelling, 'Get the sack; Get the sack! Get the sack! On the sack! Thought he was going to hold it.

GARNER'S AND **NANCE TEAMS ARE WINNERS**

Garner's took advantage of breaks and made a storybook last inning rally yesterday to defeat the Loboes by a 7 to 6 score and slip into second place in the city softball

A fluke hit by Bennie, left hand er, over third base tied up score and a moment later the Garher crew took advantage of an error to score the winning run, after two

men were already out. The Loboes had scored two runs in the first inning and had led most of the time until the last half of the

seventh inning. At the same time, Nance was knocking the W. O. W. from second place in the league standing by a score of 12 to 7 and giving Garner's

chance to come to the front. Friday's game will bring together Randolph and Garner's at the college, City and W. O. W. at Chesley Harkrider, 64, who died at 8:15 last park, and the Tigers and Loboes at the grammar school.

Christian Endeavor Plan Is Presented

Francis Bruce, Midwest district C. E. president, and Joe Bob Winston, Mid-west district secretary, visited Ranger Sunday evening. Both Bruce and Winston are active workers in the Christian Endeavor of the Christian church in Cisco.

They visited the Christian Endeavor of the First Presbyterian church and of the First Christian church of Ranger and presented to them a plan for forming a union of the endeavors of Cisco, Ranger, and Eastland. The plan was heartily accepted by both of the endeavers. This county union will meet once a month and it was agreed that the first meeting would be held at the First Christian church in Eastland on May 13. At the meeting union officers will be elected and plans will be made to forward the interest of activity in the county.

Simmons and His Message to Texans

"There has been so much misinformation going out by some newspapers and as there are several hundred petitions presented to the parole board asking for commutation of the death sentence to life in the Raymond Hamilton case, it is only fair that the statement of District Attorney Max Rogers should be placed before the reading public," writes General Manager Lee Simmons of the Texas Prison system. "The sentiment of a few misguided folk through misdirected sympathy, in my judgment, is serious. Taken on the unsworn and unsupported statement of Hamilton himself many thousands of people believe his statements to be true are signing petitions entirely ignorant of the fact that honest men in the discharge of their duties have tried his case in the legally constituted courts of the state. And I think this condition being brought about by misled enthusiasm will have more to do in undermining the very foundation of our courts than the criminals at large today.

Manager Simmon presented a summary of the facts and the court's charge in the Hamilton and Palmer cases. Hamilton and Palmer were indicted for the killing of Major Crowson, a prison guard. On the trial of Hamilton it was proved that he had been previously convicted in Fayette county of robbery with firearms and sentenced to life imprisonment and in Hill county for the murder of J. N. Bucher and a life sentence there imposed. It was also proved that while Hamilton and Palmer were confined on the Eastern state farm, Hamilton employed and later paid a convict, who was to be released in a short time, over \$600 to contact his brother, Floyd Hamilton, and Clyde Barrow to the end that automatic pistols and other help, including the presence of Clyde Barrow and Bonnie Parker in an automobile, armed with machine guns, be furnished with which to effect an escape. In pursuance to this plan the pistols were furnished and the escape was effected as planned by Hamilton and that

in effecting the escape Major Crowson was killed. This evidence the record shows was undisputable, and according to eye witnesses the conspiracy which resulted in the murder of Crowson, a prison guard and an ex-soldier, was originated wholly by Hamilton and not Palmer. The evidence showed that in the break away, Hamilton and Palmer both had automatic pistols and were shooting at both of the guards and that both Crowson and Bozeman were hit and

These are the facts as presented by District Attorney house or the secretary of the senate, and subsantiated by Manager Simmons and prison employes who were eve witnesses to the escape of the secretary of the senate, and then through the house and senate withson employes who were eye witnesses to the escape of the delivered to the secretary of state. out any amendment. The amendconvicts including Hamilton after a cold blooded murder had been perpetrated. Facts are facts. They should be given to the people of Texas Criminals at the people of been perpetrated. Facts are facts. They should be given to graduated into "acts" and those that the people of Texas. Criminals should be punished, crime did not make the grade. The lost amendments is engrossed. Then, afminimized. Justice should be done and the majesty of the ones are stored in a dusty vault.

President Roosevelt's Radio Message

people who are able to read, by all the people who think and by all the people who are interested in the welfare of the republic. In that speech the president pledged "no sectional and no political distinctions in distributing the \$4,000,000,000 call for a "certified" copy. Then the session. The governor's signature, the McAllen Chamber of Commerce fund to be used for recovery." He laid down the principles to act is taken out, transcribed, the govern the allotment of money from the \$4,000,000,000 fund: ccpy double checked and a notation makes the bill finally a law. irst, that the projects should be useful. Second, that a large proportion of the money spent should go into wages. Third, that a considerable part of the cost should be returned to the call any specific requests to produce the session at which it was enacted. federal government. Fourth, that the money expended on each project should be actually spent during "the next fiscal year." Fifth, that the projects should give employment to persons on relief and that these projects should be located in relief areas in relation to the number of workers on relief rolls

It was a direct from the shoulder address. It was a message of cheer as well as confidence. It came from the heart as well as the brain of the statesman-leader who saved the nation from a revolution of violence. It is for all the people who believe in the institutions of democracy and government of and for and by all the people who prefer the rule of democracy to the rule of the dictator to continue the battle under the banner of F. D. R. until national recovery has been achieved, standards of living have been upheld, jobs are found instead of doles for all men and women who are fit to work and that idlers who refuse to work shall be compelled to earn their bread by the sweat of their brow and the move-

The National Recovery Program

Democrats control the senate and the house of the American congress. They control both branches by huge majorifor the legislation to be enacted ties. They are respon and the important less 'ation or rather measures which have been lock-jammed by the leaders of factions in the senate. These are the major bills on the "must" slate of the president: First, social security. Second, the new banking act. Third, public utilities, holding company legislation. Fourth, measures to improve transportation agencies. Bear in mind these all important measures, (according to the president), are essential factors in a rounded program for national recovery. They are on the calendar of the congress. Favorable committee reports have been made. Under the big dome of the capitol of Texas there is another jam of important measures or bills-all recommended by the governor and his house and senate leaders.

A Roosevelt congress has been grinding since the first of January. The legislature of Texas has been grinding for months and months. Now what will happen to the important measures marked "must" by a democratic president and the important measures marked "must" by a democratic governor-in the immediate future. It will be for the voters to make answer in the campaigns and elections to come.

her again.

THERE'S good news for the young ones in a recent scien-ic investigation that reveals tates as a fine natural spring tonic, a regular sulphur and molasses substitute! And there's even better tidings for the housekeeper in the market announcement that, due to a bumper quality crop, dates now are at their lowest price in twenty-five years.

You may have fun with them at almost any meal from breakday and attended an Eastern Star dren, formerly of Desdemona but is, you can use them for every occasion in unexpected ways and with intriguing results

Dates in a cooked cereal for breakfast add nutriment as well as interest to the meal. One cup servings of cereal, or you may allow four dates for each person.
The directions of the package of cereal should be followed, stirring the dates into the cooked cereal (350 degrees F.). Cut, in strip just long enough before serving to allow them to become heated

Stuffed dates are both a fruit and a confection and the youngsters can make them themselves Spiced date bars will be as de-

teaspoon cinnamon. 1-4 teaspoon a moderate oven (375 degrees F.

## Credit.....where credit is due

This Is The BANK that **SERVICE** Is Building

> Modern Safety Deposit Service

This bank is a firm structure. It has withstood past depressions and it will withstand others in the future. It has faithfully safeguarded the money of its depositors. The reason for the absolute stability and security of this bank is our adherence to sound banking principles. We extend credit, yes ... and in this way materially promote the prosperity of the community. But we only extend credit where credit is due...never varying from strict principles of good banking.

## Public Tested in Texas by Texans

## ublic Tested HUMBLE MOTOR FUEL

### You, too, can make this test

Humble Motor Fuel was first introduced to the motorists of Texas without exaggerated advertising claims. We simply asked Texas motorists to find out for themselves what it would do by testing it in their own automobiles. Its success was immediate. Publictesting demonstrated that Humble Motor Fuel definitely delivers smoother performance.

Since then, Humble Motor Fuel has been changed and improved to keep pace with the changes and improvements in automotive design. This is in keeping with Humble's policy to give Texas motorists the right product at the right price. And to confirm our own laboratory results, we have from

time to time continued to invite our customers to make a publictest of Humble Motor Fuel in their own automobiles. The results are recorded on thousands of check cards in our files: these say, Humble Motor Fuel is second to none, that it fills a definite public need.

With confidence that you, too, will like the performance of Humble Motor Fuel, we invite you to test a tankful in your car and to compare performance with any gasoline sold for regular price you have ever used. Test it in traffic, test it on the highway, test its pick-up and the way it starts. Public-testing is a more powerful argument than any we could use

## Time Lost is Money Lost

It costs money to be sick. You see it directly if your pay envelope is short. You . You lose out on some important work if you live on a farm or if you are one of the few who are not docked for lost time. You can't afford to show up on the job unless you are feeling fit. The boss wants results-not excuses.

How many times do Gas on Stomach, Headache, Sour Stomach, "That Tired Feeling," That "Morning After" Feeling, Neuralgic, Rheumatic, Sciatic, Muscular or Periodic Pains keep you at home or interfere with your doing a full day's work?

All these troubles are caused or made worse by too much acid in your body. To correct this condition take

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, effective, non-laxative.

Why don't you try it? Get a drink at your drug store soda fountain for a nickel. Buy a package for home use.

Before Buying See Our Good-

## FOR FULL MOTOR PROTECTION

## oil with extra

THE development since 1931 of motors of 80 to 180 horsepower has brought about correspondingly increased bearing pressures and crankcase temperatures. Motor manufacturers have turned to new alloy metals of extra strength and durability to meet these new conditions.

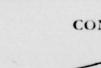

For full protection of such motors, you must have oil with enough extra oiliness and film strength to get safe lubrication under extreme pressure and heat.

Yet motor oils generally have no more oiliness and film strength now than they had ten years ago. Some oils have less, because overrefining to eliminate carbon and sludge has robbed them of oiliness and film strength.

There is one exception-Conoco Germ Processed Motor Oil. It, too, is free from carbon and sludge troubles, as its users know after millions of trouble-free miles of driving. But more important, Almen and Timken machine tests prove it has more oiliness and 2 to 4 times the film strength of any straight mineral oil! That added oiliness and film strength protect your motor under all conditions.

Germ Processing-adding concentrated oily essence to highly-refined oil-gives other valuable advantages. Because Germ Processed Oil penetrates and combines with metal surfaces, a "Hidden Quart" stays up in your motor and cuts down starting-period wear. Germ Processed Oil gives longer mileage with greater motor protection, as proved by the famous Indianapolis Destruction Test.

Say "O.K .- Drain" -- fill with Conoco Germ Processed Motor Oil and get full motor protection!

## **HOUSE PAINT**

The Modern Multi-Pigment Paint There is one way to be sure of a low

cost paint job. Just insist upon SWP. Then have it applied by a good painter. Years of scientific research have developed this paint from the old fashioned single pigment and oil (mixed with a stick) paint into a superior product. SWP covers better, lasts longer, spreads farther than ordinary paints. It is the economical house paint to use.
