Richard Critz Named To Pierson Vacancy

Richard Critz, an outstanding lawyer and leading democrat, was named by the governor to fill the Pierson vacancy. He is widely known the state over. A native of Mississippi, he came to Texas with his family at an early age.

This new associate justice of the supreme court is a thoroughly seasoned jurist. He did not come unprepared for the post which he has been named to fill. Taylor had been his home for years. He had won his spurs in Williamson and neighbor counties. He is a prominent member of the state bar association. He has practiced law successfully in the high as well as the minor courts of the commonwealth.

Judge Critz is experienced as a member of the commission of appeals and his present knowledge of the legislation now pending before the supreme court in my judgment evidences the fact that he is probably the best qualified of all the distinguished gentlemen who have been suggested for this place. For years the bar has generally recognized that he is one of the strongest men who ever sat on either the supreme court or the commission of appeal.

A tribute and endorsement that should be placed in the scrap books of all the lawyers of Texas regardless of politics or creed as the last word that could be said of any worthy citizen—either lawyer or layman.

Connally Leads Fight on Anti-Lynch Bill

Ten years ago a measure was introduced by United States senators calling for the enactment of a nationwide anti-lynching bill. This measure has been smoldering in ashes or embers ever since. Now it has the backing of Sen. Robert Wagner of New York and Sen. Costigan of Colorado as well as many republican members of the senate. It has the violent opposition of all southern senators and the senators from the southwestern states. Its critics say that "it robs the state of its police power."

Sen. Costigan of Colorado is of Virginia origin. He is a byproduct of great ability but he does not appear to be a states rights democrat. He admits he is a devoted follower of Thomas Jefferson but Jefferson ever championed state sovereignty and the absolute right of the people of a commonwealth to make their own statutory laws and elect their own judges and other officials for the enforcement of the laws they make and the procedure guaranteed to them by the makers of the federal constitution.

There is a negro district in the city of Chicago. A majority of its voters are of the black race. Its congressional representative is a negro democrat. He was elected by the democratic voters of this widely known black belt. He was educated in the school of Booker Washington. He was born in the south. He is a leader of his people. Two years ago they defeated a republican leader and placed a democrat of his own color at the head of the winning ticket.

There is a famous so-called black belt in the city of New York. Another in the city of Philadelphia. These two congressional districts elected members of the house of representatives on a New Deal ticket. Racial hates and creed prejudices, like the ghost of Banquo, are ever bobbing up in these days of experimentation on the part of the New Dealers who are following the flag of that messiah who was elected by a tremendous majority in the third revolution at the polls in the year 1932.

House Votes For Security Act

President Roosevelt continues the throne and the power behind the throne—and the house of representatives of the congress by a vote of 10 to 1 elected his social securities measure. Many republican members voted for it. Now it goes to the senate. It is a remarkable bill. It has a human side as well as the human touch. It is designed eventually to levy upward of \$2,789,200 in new taxes and in return give financial aid to the aged and the jobless and the children and mothers. On the final roll call 372 voted for it and only 23 against its enactment.

And What Else?

cotton do not enter international trade in material volume. The most significant cotton areas from the standpoint of international competition are first, the U. S.; second, India; third, Egypt; and fourth, on the basis of 1934 performance, Brazil.

Prohibition's End Hits Tennis Racket

LONDON, May 3 — The death of prohibition in the United States is hitting the British tennis racket industry. It's hard to connect these two facts but the missing links are sausages and gut.

110 BLOOD TRANSFUSIONS VERSAILLES, Mo. — George Frisbie, who received 110 blood transfusions in four months in 1932, recently returned to a hospital at Eaganville for a few more Frisbie was operated upon three times in the four-month period in 1932. He was given 14 gallons of blood, all supplied by friends.

THIS CURIOUS WORLD

CAVE MEN

WERE NOT PHYSICALLY SUPERIOR BEINGS, BUT WERE FAR INFERIOR TO THE MAN OF TODAY. THEY HAD STOOPING POSTURES AND ATTAINED HEIGHTS RANGING FROM FOUR FEET, EIGHT TO FIVE FEET, THREE.

IT is a common impression that the ancient Neanderthal was a giant in size, with broad shoulders and bulging muscles, surviving bones have shown him otherwise. He was short, walked in a stooping posture, with his head thrust far forward.

RARE OPERATION BOSTON, U. S. S. R. — A rare operation was reported to have been performed with success here recently upon a six-year-old boy who complained of "pains in his chest."

10 PER CENT INCREASE IS SEEN IN FOREIGN COTTON PRODUCTION

WASHINGTON, May 3 — Foreign cotton production, exclusive of China and Russia, for the current season is now estimated at 8,842,000 bales which is slightly smaller than the 1933-34 crop in those countries, now estimated at 8,865,000 bales. This is about 10 per cent larger than the average production in those countries for the 10 years ended with 1932-33, but 100,000 bales below the previous peak of 1925-26.

COLLEGE TRIES EXPERIMENT IN SPORTS WORK

INDIANAPOLIS, May 3 — An experiment in college athletics has been conducted at State Teachers college here, and promises to upset the accepted standards in most universities. Championship teams have been turned out without the award of medals or subsidies, and most of the 1,200 students in the school have participated in intramural sports. No students are subsidized. Instead, certificates of participation are given. They are awarded as follows: 1. For a specified amount of participation. 2. Additional participation plus a knowledge of the rules of five sports. 3. Participation and knowledge of rules proficiency in managing and coaching. The school has set up a program of intramural athletics which has two objectives: 1. Participation in physical activities from a health standpoint, to be continued in adult life. 2. Experience in a wider variety of sports and games which will be taught by graduates as teachers in public schools. Two points attained. These two points have been attained, officials said. Results of the program have been the elimination of much expense. The football schedule was shortened by one game and basketball practice curtailed by four hours a week. The school had a championship basketball team in 1933-34; second place in 1934-35; and a championship football team in 1934-35—and not a cent for subsidies.

Water Minimum At Kerrville Boosted

KERRVILLE, May 3 — Kerrville citizens will have a gallonage of water they may receive for the minimum charge of \$1.50 increased from 2,000 to 4,000 gallons a month by order of officials of the city-owned waterworks plant. The increase was ordered in order to encourage watering of home gardens and lawns in connection with a city-wide beautification project.

MRS. GRAHAM ENTERTAINS WEDNESDAY CLUB

The home of Mrs. E. L. Graham in Humboldt was charmingly decorated with lovely hedges, roses and various cut flowers Wednesday afternoon when she entertained members and guests of the Wednesday bridge club. Games of contract bridge were played during the afternoon with high club prize, a beautiful silver bowl, going to Mrs. F. D. Wright; an attractive bedspread lamp, to Mrs. Graham Connally for high guest prize, and a colorful cookie jar to Mrs. Alex Spears as consolation. Mrs. R. W. Mancill assisted the hostess in serving a delicious refreshment plate of moulded chicken salad, wafers, rolled sandwiches, almond pudding and iced tea. The guest list included Mesdames Alex Spears, H. S. Drumwright, Charles Brown, Leon Maney, Guy Dabney, P. D. Wright, J. A. Bearman, Nancy McCrea, Paul Woods, Oscar Clift, Will St. John, K. H. Pittard, K. N. Greer, Vance Littleton, Charles Kleiner, Graham Connally, C. H. Parish, Charles Trammell, Miss Mary Jane Butts and Mrs. Frank Blankenbecker of Lubbock.

MISS BUTTS WINS HIGH AT 1929 CLUB

Emphasizing a pink and green color scheme in bridge accessories, Mrs. A. C. Green was high for the guests and Miss Mary Jane Butts high for club. A delightful salad plate was served Mesdames A. D. EXPERT MAKES RACIAL SURVEY OF THE WORLD

DUBLIN, May 3 — In an effort to clear up Irish history Dr. C. W. Dupertuis, on behalf of Harvard university, is making the world's first racial survey. His object is to find the best types of men in each area of Ireland and to find out the difference in the types of people living in the various areas. Those who submit themselves for examination are put through a series of careful body measurements. Dr. Dupertuis also measures the head and makes observations of its general shape and observes the color of the eyes and hair, the features of the face and the teeth. Many Types Examined. Among those examined are aged, middle-aged and young men in various occupations — farmers, merchants, professional men, laborers, et cetera. It is believed that the occupations of the people may have some effect on the body structure. The doctor already has made a survey in the south west of Ireland and now is making investigations in county Mayo, particularly around the seacoast towns. Some rather fair types are still to be found in some parts of the county and in Lackan the doctor discovered a very interesting type of big, powerful men. Irish In U. S. Before arriving in Ireland over a year ago, Dr. Dupertuis examined a number of Irishmen in the United States. He will compare data gathered on these Irish-Americans in Ireland to see if the second generation of Irishmen in the United States have changed in type by reason of living under the conditions existing there. "We are trying to find out," Dr. Dupertuis told the United Press, "exactly what are Celtic types. We are interested also in actually determining what types of people in the present-day population are actual descendants of the earlier types that came into Ireland."

was beautifully decorated with garlands and ferns. Mrs. Bill Dean and W. C. Clough, high score, and Mrs. Henderson and Mr. Clark made low. A delicious salad dish was served with punch to Messrs. and Mesdames W. C. Clough, Blair Clark, Bill Dean, O. V. Cunningham, H. C. Henderson and the host and hostess.

MISSOURI COACH PLEASED COLUMBIA, Mo. — Don Faurot, new head football coach at the University of Missouri, is pretty well pleased at the manner in which his Tigers went through their chores at Spring practice. Faurot is not given to predicting victories in advance, but he agrees there may be cause for cheer at Missouri next fall. "The boys have worked hard and will be ready in the fall," he said. "The big thing now is to see that everybody stays on the eligible list. A few need jobs, too."

CISCO'S ADULT SCHOOL ONE OF BEST IN STATE

Cisco's adult education program Thursday was praised as "one of the best in the entire state" by W. E. Marshall, state adult education supervisor for this district and director of publicity for Texas. "I would say that the school here is one of the two best in the entire state," Marshall said. "I know of only one which could compare with it. That is Waco, which is undoubtedly the best in the state." "I recently sent some supervisors into the south and east parts of the state. They visited Houston, Beaumont, and Port Arthur and even went as far over as Baton Rouge. We found that those systems could not compare with Cisco's." Cisco's program, Marshall said, is becoming known all over Texas as outstanding "partly because I tell everybody about it and partly because it is so good that it just can't help becoming known." Marshall praised the Cisco school board and Supt. R. N. Cluck in turning out such a program of adult education. "We in the local board," he said, "it has been able to do a great deal to help adult education for the state. When we get the county board thoroughly sold on the idea, I think it will be able to do even more." "Mr. Cluck is sincerely interested in this phase of education and it is largely through his efforts that such a program has been worked out."

Capable Teachers

He pointed out that Cisco has been able to gather together a faculty of highly capable teachers qualified to teach their respective subjects or trades, and that the enrollment, attendance, and results show that the school has been a success. "Adult education, in Marshall's opinion—and he quoted well known educational authorities to back up his statement—is the thing which will reshape the trend of education during the next few years. "Some seem to think that the adult schools are just a temporary relief measure," he said. "But they are already a part of the state department of education. They are simply supported by federal funds instead of those from the state." "We are teaching practical things in the adult schools," he said. "The things we learned when we were in public schools were all right but we never use many of them. Everything that is taught is in the adult classes is something that can be put into practical use." He pointed out that the practical value of what is being taught is what keeps adults interested in the school here. "I don't care whether the women of a sewing class can write things in a notebook and make it look pretty. I want to know if they are learning to sew."

O. J. Russell Is Elected President Of Rotary Club At Meeting Thursday

O. J. Russell was elected president of the Cisco Rotary club at its regular weekly luncheon Thursday. He will succeed B. A. Butler as head of the club. R. N. Cluck was named vice president; J. E. Spencer, secretary; and J. B. Cate, treasurer. R. L. Ponsler and Garland Nance were elected directors of the organization. The new officials will take office at the first meeting in July. As the new president of the club, Russell was chosen to be the club delegate to the Rotary conference held at Midland April 6-7, before the annual convention of Rotary International in Mexico. Cluck was named alternate delegate. Looking forward to national music week, J. M. Bird, program chairman for the day, presented a musical program under the direction of Mrs. S. E. Hittson. Mrs. Hittson traced the development of music in Texas from the days of the earliest settlements up to the present. She pointed out that Texas music has been influenced by Spanish, French, Anglo-American, and German types. Mrs. Lee Clark, head of the fine arts department of Randolph college, sang two solos, both selections of Texas music. BOOKS DONATED Persons donating books to the library of the colored school this week were listed as follows: Mrs. W. Frank Walker, Mrs. I. N. Hart, Mrs. B. W. Stansbury, Mrs. J. W.
