BURGLARS CATCH SELVES

SALT LAKE CITY, Utah — Two young thieves unwittingly set off a burglar alarm in a store. After leisurely choosing their loot, they stepped from the door into the waiting to attend these demonstrations at arms of police they had summoned.

This expert will demonstrate efficient and economical canning by means of Ball Glass jars. She will show that vegetables meats and fruits may be canned at home safely and with little cost.

All women of Cisco are invited to attend these demonstrations at arms of police they had summoned.

IS BEATEN ON **POWER ISSUE**

BULLETIN PARIS, June 4 - The gov-Bouisson was defeated in the chamber of deputies today on its demand for semi-dictatorial powers to govern by decree and save the economic situation and

the franc. The vote was so close that at first it was announced that the government had been given full powers, but an official recount was demanded and a roll call showed the government was beaten, 264 to 262.

PARIS, June 4 - The fate of the French government was in the balance today when Premier Fernan Bouisson presented to the chamber of deputies a demand for full power to deal with the monetary and economic crisis by decree.

The government won a vote of confidence to suspend debate, 390 to 192, and then asked for a vote of confidence on the full power issue Bouisson presented his project for

the semi-dictatorship and it was handed to the finance committee to return with recommendations within an hour. Debate was suspended while deputies stormed in the corridors final aprpoval or disapproval of the cabinets full power proposal.

Revival Service Attendance Grows

The Church of Christ congregation attentively heard Rev. D. W. Nichol last night on the subject of 'The Thief on the Cross." Rev. Mr. Nichol said that the Bible taught that the thief was saved, or was in obedience to the gospel of Christ. This morning's service showed an increase in attendance. The subject agreed, would "force veterans to of pale and hysterical relatives 'The Divine Pattern' was chosen make a serious sacrifice.' from a reading of the last paragraph of the second chanter of Acts.

Eastland County C. of C. Work

What has the Chamber of Commerce been worth to Cis-What have the efforts of the combined directors and ecretaries of the county been worth to Eastland county?

These are questions that have often been asked and failre to answer them satisfactorily has many times led to doubts in the minds of the uninformed as to the value of hese bodies to their communities.

At a recent convention held in Vernon, a young attorney from Hamilton, Herbert B. Gordon, in the course of a speech mentioning the new highway chairman, Mr. Hines, he said he hoped that now some other parts of the state beside Cisco and Abilene could get some highway money.

This led us to consider just what Cisco and Eastland county had secured in the way of highway improvement during the immediate past and what was practically assured for

J. E. Spencer, secretary of the chamber of commerce, who has kept a close touch with highway officials and prospective for his board of directors, gives us these approximate

Cisco to Romney, \$80,000; LeeRay road, \$62,000; Rising tar to Pioneer, \$43,000; Eastland, straightening highway, \$38,500; through Ranger, \$70,000; straightening curve, 4 miles east of Cisco, \$8,000.

This makes a total of \$301,500 spent. New work coming up:

Relocating Highway No. 1, through Cisco, \$162,000; underpass on D avenue, \$100,000; rebuilding Highway 23 one mile south, \$5,000; hard surfacing LeeRay road, \$13,000.

This makes a total of \$28,000; to be spent immediately. to this, the new bridge across the Leon river at Eastland, \$30,000, and the rebuilding of Highway 67 (Carbon to Gorman,) \$48,000, and you have a total of \$358,000 to be spent this year and next-or a grand total of \$659,500 that has been secured from the highway department as a result of direct work and contact by the Chamber of Commerce di-

Is \$659,500 worth of work and improvements" done in Eastland county worth anything? But that isn't near all they have accomplished. We will tell of that later. First di-federal referee in bankruptcy here,

Cotton Makes First Comeback

William T. Meyers of Houston is the governor of the ederal farm credit administration. His interesting comment the conditions of the day.

now livestock and poultry. At the present time the outlook till to pay a groceryman. for agriculture is the best in five years. The government removed a surplus from the market last year and this year later paid a debt of its own with depth of 5,650 feet. Operators are ployment, hogs, beef and poults and I farm products will bring a good price. They will be produced in greater abundance.'

This market nugget of news from Chicago is interest-The once lowly hog assumed the position of financial portance today. Hog prices here swept up 25 cents in an active round of buying to a top of \$10, the highest in 55 months-since October, 1930. It was also 10 cents above the previous 1935 peak. The spectacular advance was reflected in other primary markets and was, of course, more than welcome throughout the corn belt. It was attributable to the old law of supply and demand. Only 9,000 porkers were received here (May 21) including 3,000 direct packers.'

Mother Nature is a grand dame. There is moisture in the earth from the Canadian border to the Rio Grande river. There are other very encouraging signs

in Texas names are being dropped from the relief rolls daily. There is a growing demand for manual labor in country and city and the building activities the Southwest over have taken on new life and mechanics and contractors and material men are promised a busy season. Congressional action on the measure increasing the bond issuing authority of the Home Owners Loan corporation by \$1,750,000,000 has been completed with adoption by the senate of the conference report committee after having been approved by the house. Now F. D. R. has the measure and it is said he will give it a warm reception as well as a prompt approval.

A man without faith in this wonderful land of ours is a man to be pitied. Civilizations perish. A new order takes the place of the old order-but the old world goes on forever and each new civilization recorded on the dial plate of passing time is vastly superior to the dead civilization that has been blotted out of the picture.

A Solution For Reckless Driving

During 1934, the automobile caused the deaths of 24.7 persons out of each 100,000 of our population.

Each 100,000 cars in use killed 130.4 people

Every time 10,000,000 gallons of gasoline were consumed. 20.1 persons died.

There are three different ways of looking at the automobile accident problem-and any one of them should be sufficiently impressive to make the public think, and think seriously. The problem would be bad enough if it were no greater than in previous years, but statistics show that it is steadily becoming more acute. In 1931, for example, automobile registrations were 3 per cent greater than in 1934 and gasoline consumption about one per cent greater-but 1931 automobile deaths were 8 per cent under 1934. This year. with automobile registrations and gas consumption again on the up-grade, it isn't pleasant to speculate on what the death toll will be-unless that proportion of the motoring public

Who Wants to Lay The Cornerstone

which is reckless, incompetent and plain discourteous is forced to change its ways.

A glance at the records shows that the so-called "unavoidable" accident is so rare as to be practically non-exisexpenditure, and who has handled the work of money getting tent. All but a handful of accidents are caused by one of two things-mechanically defective cars, or a defect in the person behind the wheel. And of those two, the last is infinitely more important-93.9 per cent of the cars involved in accidents last year were in apparently good condition.

The time has passed when appeals to the reckless driver to improve his ways are sufficient. He has refused-and the force of public opinion, backed by modern, aggressively en- even more serious than a supreme forced laws, presents the only solution to the problem.

MONEY VALUE

question mark of which the value of money?"

As referee Baker presents the hotel and asked the manager to put a \$100 bill in the hotel safe.

The salesman left next day on a rip of several weeks. The same day, the prospect of an oil field extend- sense, from the industrial strikes Cotton made the first comeback. Next came grain, and manager of the hotel used the \$160 ing toward Quanah from the Alma yet many Texas undertakings, if

water and light rates, or the ta rates through profits of the water and light system. Yet they all is nore the possibility of greatly r ducing the gas rate of every citizen and at the same time bringing the profits of the gas service to the city treasury. They seem to think because this public service is own ed by some private corporation, tha

Campaign Platform

His comment indicated the poss bility that a city political campaig ticket upon this platform may b the product of public interest an public discussion of municipal ga

operation.

The Texas bill of rights, Yar rough pointed out, prohibits th legislature, or cities or governmen tal agencies, from making any per nanent or irrevocable grant special privilege or immunities. Thi has been construed by the court to mean that no franchise-holde could prevent the granting of addi tional franchise for the same ser-vice to the same consumers, or could prevent the municipality public agency from engaging in the same services.

Yarborough's legal practice ha been chiefly centered upon the pub lic side of similar issues. As assis ant attorney general, he began th huge suit for the recovery by the state of mineral rights in school lands under the relinquishment ac which recently resulted in the Tex as supreme court decision giving the state more than \$20,000,000 This was the biggest direct recor ery to the state of any lawsuit is its history. After he retired from the attorney general's office, Mr Yarborough continued to assist the department through final disposi tion of the school land case.
