COLD WAVE SWEEPS DOWN ON TEXAS FROM NORTH

About Our Friends

By STEPHEN A. LONG

W. P. Caldwell says if you want to keep your hair from growing you have it cut on the light of the moon... you can't very well argue against his philosophy since he has plenty of hair to prove his theories...

Fred Grist says his wife has the humps... leaves him in rather a bad way... his clean collars and clean shirts don't happen to match in pattern.

John H. Garner has the following telegram on his window... looks like sheep owners are going to have more money to spend and men who have no money to buy clothes with now are going to pay a penalty next spring.

Sept. 23, 1935. New York City, N. Y. Mr. H. Garner, Dept. Store, Cisco, Texas.

We advise men to order their fall and winter clothes immediately, stop raw wool very strong and advancing in price daily stop compelled to pay higher prices for cloth for immediate delivery stop much higher prices for spring stop prices at which you are selling men's suits and overcoats today represent very substantial savings to

Baby Bond Plan For Finance Of Gov't Explained

Business men of Cisco Wednesday heard W. A. Thomas, Dallas, collector of internal revenue, explain the purpose of "baby bonds" as a means of junior government financing. The small bonds, Thomas pointed out, are for the purpose of enabling persons of limited means, by systematic investments, to build up an estate. At the same time, by spreading the investments over as wide a group of the population as possible the government is able to bring about greater interest in and sympathy with it.

Two Treated After Car Strikes Truck

Two Cisco youths were treated at Graham sanitarium Thursday night following a car wreck on Highway 80 halfway between Cisco and Eastland. Those injured were Bill Dolinger, treated for head lacerations, and Beryl Shirley, treated for a lacerated hip. They were released from the hospital immediately after being treated.

Plans Drafted For College Building

AMARILLO, Sept. 26 — Plans have been drafted for the construction of a new \$106,000 home for Amarillo college students. The new building will be modernistic in design, of sufficient size to accommodate 400 students, and will incorporate in one structure all departments of the school. Steel and scrap lumber from old college structures will be used for economy. The exterior of the new building will be of Terra Cotta, and the halls and staircase will be terrazzo.

LEAGUE WILL USE PENALTY ON ITALIANS

GENEVA, Sept. 26. — The League of Nations council today decided to invoke the League covenant in defiance of Italy's wrath to deal with the Italian-Ethiopian crisis. It voted unanimously to act under paragraphs three and four of Article 15 of the covenant, leading directly to penalties against the aggressor in case of war.

Opportunity To Win Prize Given By The American

Ethiopian Affair Has Funny Side

If it weren't for the fact that a great many men are likely to get killed because of it, the present squabble over Ethiopia could provide us with a good deal of coarse laughter. Laughter Number One, of course, would arise from Italy's frantic protestations that she is obliged to move in on Ethiopia because Ethiopian aggression threatens her national security.

Laughs Number Two, Three, Four, and upward would come from the pious and solemn attempts of England and France to stop her.

To appreciate this, let your mind roam back just 20 years.

England and France had a fight with Germany on their hands, and it was a good deal more than they had bargained for. They needed help very badly, and they weren't in a mood to care how much they had to pay for it. So after much coaxing, they got Italy into the war, hailing her as a great liberty-loving nation and promising her a man's-sized share of the swag.

In the course of time the war ended, and the Allies got out their knives to have at Germany's colonial possessions. When the dust cleared away, England and France had all the choice pieces and Italy had nothing at all.

Keeping that fact in mind, have a look at a map of Africa. Those parts which are not under either the British or the French flag are comparatively negligible. All Ethiopia, with its 350,000 square miles of land, could be swallowed up many times over in the colonial empires of these two nations.

How did these two nations get those vast territories? They got them in exactly the same way Italy proposes to get Ethiopia—by walking in and sticking a gun at the original owners.

With this as a background, then, the French and British moans about Italian rapacity have a somewhat phony ring.

If Italy is driven into this African adventure by her need for colonial markets and sources for raw materials, and if England and France are so desperately anxious to see the peace well and truly kept, one would suppose that the simplest solution would be for them to disgorge a little of their own takings.

Italy would unquestionably settle for a fair slice of Tanganyika, which England took from Germany, or of Algeria, which France took from the natives.

England and France, of course, aren't making any such proposition. Their diplomats would assume expressions of well-bred pain if the idea were even suggested.

It is simpler to call Heaven to witness the wickedness of the greedy Italians—who made the overwhelming mistake of trying to get a slice of Africa after England and France had all the good pieces nailed down.

A Battler for 'Rule of the People'

Colonel Ernest O. Thompson has announced for re-election as railroad commissioner. He has made history since he was appointed as successor to Pat M. Neff. Colonel Thompson has had a remarkable career in the military service of his country as a battler, as a public servant and citizen as a champion of the rights of the state to do its own conservation of natural resources and to place the state first at all times in the rights granted by the federal government and constitution in its articles of annexation. In a foreword he said:

"My race should decide whether we have truly represented the people's view in the matter of protesting the consumer as well as the producer of oil in Texas."

He never stammers or hesitates or dodges an issue. Like him or dislike him, Thompson takes the people into his confidence and throws down the gauntlet to all concerned. He is not a trimmer in politics nor a fence-rider in the campaign that follows. He stands for certain fundamental issues and never goes half the road and then quits—he goes all the road and awaits the verdict of the people at the primaries. He has ever been a champion of state rights, meaning the rights of Texas to administer the regulation of railroads, gas utilities, and oil, without domination of monopolies or those enjoying special franchises and privileges. He has made the issue of the campaign of 1936. In his announcement he very boldly says it is his aim and intention to run for re-election as railroad commissioner and that at the proper time his complete platform will be announced.

Construction of Cotton Road

Federal officials and representatives of several nearby state will foregather at Greenville, Miss., to witness the construction of the first cotton road in the Bilbo state. A section of the Greenville-Scott highway nearly one mile long and 20 feet wide will be built with a reinforced cotton fabric membrane between the road base and the bituminous top surface. This method is regarded by many highway engineers as most practicable for adoption in the building of rural and secondary highways as contemplated in the farm-to-market national road program. Sotton roads, however, are not new. An experimental road was built at Gonzales, Tex., a number of years ago and similar experiments have been made in South Carolina, Georgia, and New Jersey. Widespread adoption of this method, it is claimed, would provide an important outlet for the lint; an equivalent of six to eight bales of cotton per mile of road is required. It is asserted the cotton fabric membrane provides an almost indestructible bond between the road base and the top surface, minimizing

OUT OUR WAY

the possibility of surface rippling, cracks and other faults. Army engineers a few days ago approved the use of a cotton fabric membrane in airport runways and other reservation roads to be constructed at Fort McClellan, Ala.

Texas is the banner cotton state. Texas is a great builder of highways. Now farm-to-market roads construction may be inaugurated on a huge scale. It is up to the builders and the engineers as to the value of the cotton highway to be tried out in the state of Mississippi.

Texas Topics

By RAYMOND BROOKS

AUSTIN, Sept. 26 — Representative Franklin Spears and other house members and probably Senator W. R. Poage and others in the senate are likely to tack the 10 per cent gross natural resources tax into the middle of the old age pension law when it comes before either house, subject only to being able to muster the votes in either branch to do it.

It is a measure which the senate could, under the present procedure, levy a tax in the bill without any semblance of taxation in it as it came from the house.

The house has shown it will not accept a sales tax, so that the senate committee proposal is in effect surplusage. The senate itself has not voted approval of a sales tax.

Gov. James V. Alfred said, concerning the sales tax: "I stand on the democratic party platform which contains a definite commitment against it."

Senator Ben G. Oneal of Wichita Falls will be in the congressional race next year, it appears certain. He will oppose former Senator W. L. McParlane, now in congress.

A further possible candidate is T. H. McKee of Vernon, former public relations director of the Texas relief administration, and for a time transient relief administrator of the state of Washington.

Texas once had in its constitution a section denying membership in the legislature to any gospel minister. Since its repeal, several have served, occasionally furnishing an effective and outstanding member.

Numerous physicians have served as lawmakers; and on occasions one like Senator Will Beck has been of outstanding eminence in the legislature. Others have been and are effective and able members.

The legislature has seemed especially to welcome these men of professions other than the law who have a broad philosophy of life, sympathy for the every-day layman's viewpoint, and the flexibility needed for the give-and-take of legislative debate. Lawyers of course predominate, and often give a tinge of inflexibility there is some peculiar or special right or privilege of the profession to public and legislative office.

Legislatures have seemed most

effective of the broadest range of interests, professional and occupations, especially including business from varied walks of mercantile and industrial life.

LETTERS FROM READERS

Cisco News: Because of the great number of requests that I have had and the expense to the state in stenographic work in the house, I would appreciate if you would convey this from its inception. We each worked independently of the other in preparing our various bills and found upon coming into the committee with them that there was quite a divergence in point of view as to how this subject should be properly handled. Each of us felt that we had the best bill and were preparing to fight for the principle in this respect which we originally had in mind.

The state affairs committee anticipated the deadlock on this legislation, so they appointed three members of that committee who, along with the four authors of the different bills to act as a subcommittee to rewrite a bill which will be submitted back to the state affairs committee for its final approval before it is submitted to the house for final disposition.

We have worked night and day on this matter and though there has been a great difference of opinion on some of the major features of this all important legislation, I am happy to report that we have completed a rough draft of the bill which though some of the features did not appeal to me personally, I feel that it is a fair and practical piece of legislation. Some of the major features of this bill are property disqualification for those persons owning property on or above \$4,000. This feature to me is objectionable for the reason that it penalizes those persons who have accumulated comfortable homes who might in spite of the fact have no income.

Also persons having over and above \$300 per year income will be disqualified. This feature I objected to, but because I feel that the rates should have been slightly higher; other features with respect to disqualification are convictions of crime wife desertion, other pensions, inmates of institutions, etc.

I was particularly interested in cutting the cost of administration and so I felt my part to do, mainly to permit the county commissioners' court to receive application with the state supervisor in each district to approve applications submitted to the county commissioners' court and finally submitted for final approval to the state board which is composed of three members who receive \$10 per day while they are in session, who shall not sit more than 15 days in one month or 120 days in one year, except the first year, was the more economical way of handling it efficiently.

The board shall invest in a state administrator complete power of administration whose main duty is to keep in motion the administration of this pension law.

To assure speedy action from the state affairs committee in getting this legislation on the floor of the house, we did not burden the bill to the committee as a tax bill carrying only very small taxes on domino halls as a rider so that it will be possible to amend the bill on the floor of the house with additional revenue raising riders so as to assure sufficient sum to carry out its purpose.

The major feature of the bill is to my mind this fact that warrants will be drawn on the general fund rather than a special fund to be created. In this way the general fund will be assured their money instead of in the event there was a special

fund and it was depleted, they would not have to pay one-third or more of their pension money to loan sharks to cash their warrants as has been the case in many other pension cases.

"Though the bill does not measure up in all respects to what I had in mind, I will say that it will be a good bill, a safe bill and the administrative machinery will be able to work accurately, justly and efficiently."

I want to thank you for your kindness in the past and assure you that I appreciate all favors that you have extended me on numerous occasions when I have imposed upon your good nature.

With best wishes, I am,
Your friend
GEO. A. DAVISSON, Jr.

UNDER THE DOME AT AUSTIN

AUSTIN, Sept. 26 — Texas will get a single three-cent stamp issue in honor of its Centennial under reported approval of Postmaster General Farley and President Roosevelt.

The stamp will combine on one little oblong, the Alamo, the battle of San Jacinto and preserve room for portraits of Sam Houston and Stephen F. Austin.

Advance description indicated that the stamp would be as crowded as the recent Mother stamp that chopped off part of Whistler's famous painting.

The Texas legislature had asked for five Centennial stamps. They were requested in one, two, three, five and 10 cent denominations. Proposed designs were:

One cent stamp-panel picturing the siege of Bexar, Dec. 5, 1836, with oval portraits of Edward Burleson and Benjamin Bowie.

Two cent stamp-portrait of Stephen F. Austin, with the inscription "Father of Texas" and the dates 1783-1836.

Five cent stamp-panel of the Goliad massacre and ovals of James W. Fannin and William Waard.

Ten cent stamp-panel of the battle of San Jacinto with ovals of Sam Houston and Thomas J. Rusk.

House members held out until pay day and then capitulated to the senate on \$100,000 appropriation for expense of the special session of the legislature.

There was no dispute about appropriating \$100,000 but, mindful that the senate had attempted to build a senate elevator and pay for it with the expense fund of the regular session, house members put a clause prohibiting use of any part of the \$100,000 for capitol improvements.

Senators say they had no intent of attempting to provide for the building of the elevator at this session. But they took offense at the clause prohibiting use of appropriation bill.

Friday, house members prepared to go home for the weekend. They found they couldn't get their first week's pay. They also were unable to get their travel expense for coming to the session.

At noon, house conferees looked up the senate's conferees. They took out the objectionable elevator clause, so each branch can spend out of the fund as it desires. The senate agreed that the interim expense of house committees appointed at the regular session may be paid from this session's fund.

The absent-minded professor has been "out-forgotten," apparently, by an absent-minded federal agency that moved from Austin to Dallas.

An arriving substitute agency was surprised to find that part of the staff of the other agency had been left behind. It was the leasing section of the Resettlement Administration. Whether the existence of the section was forgotten, or notification of its disposal overlooked, was unclear.

Mrs. Carl Louise Snow Phinney, chief clerk of the house of representatives, has discovered that the office carries with it a strange occupational malady.

As chief clerk she must sign each document each time it passes through the house. She must sign each check issued for session expense and certify the progress of all measures daily. Frequently she signs her name 1,000 times a day.

Strangely, she finds that writing her name 1,000 times is more tiring than writing an equal number of different words. The same movements are repeated each time, the same muscles used. Intense suffering results.

Railroad Commissioner Lon A. Smith corrects Federal Judge J. C. Hutcheson of Houston. The judge chided the state railroad commission with trying to be "father of the country," and attempting to punish an oil concern that benefited from 127,000 barrels of excess oil.

"Not the father, just the step-father," corrected Commissioner Smith.

"This is a most unwelcome baby in the commission's household. The baby is too big for a bottle program and I am happy the court is willing to adopt the youngster."

John Walker, Weimar, Colo., county stockman, doesn't want a state job. He turned down the chairmanship of the state Live-stock Sanitary commission. Governor Alfred offered Walker the place when Dave Nelson resigned to be-

RESETTLEMENT OFFICES WILL BE MOVED FROM EASTLAND TO DALLAS

EASTLAND, Sept. 26 — Removal of district Rural Resettlement Administration offices and supervisor Robert W. Fisher from Eastland to Dallas was announced Saturday by George I. Lane, county supervisor.

The office removal followed on the heels of a personnel decrease in Texas from 1,900 to 900 employees. Four were discharged at the Eastland office, which is in the city hall.

State headquarters of the administration last week moved from Austin to Dallas.

Personal of the Eastland county office is composed of Lane, Miss Madge Wagner, rural home supervisor, and Miss Louise Johnson, office manager and stenographer.

Counties in the district for which Eastland was headquarters were: Taylor, Shackelford, Stephens, Fisher, Parker, Palo Pinto, Coleman, Brown, Eastland, Callahan, Erath, Tarrant, Johnson, Comanche, Hood, Somervell and Nolan.

Mile High Scenic Road Is Proposed

AUSTIN, Sept. 26 — A "mile-high" scenic highway in Texas' Davis mountains has been proposed to the Texas planning board for early construction.

The proposed route is 75 miles long. Ten of the 29 land-owners along the route have promised to give 2,300 acres of land for a state park.

The project has been referred to the board's land use committee.

1,000 WOMEN ATTEND TWO FOOD CLASSES

More than 1,000 Cisco women attended one of the most successful and largest cooking schools ever held in Cisco yesterday and today, according to H. L. Dyer, district manager of the Community Natural Gas company, sponsor of the school.

The large number who attended has made it necessary to transfer the moving picture, "Alice Adams," starring Katharine Hepburn to the Palace Theater Thursday evening to accommodate the throngs who received tickets at the school, Dyer said.

Miss Albertine Berry, cooking and home economics expert, conducted the school, demonstrating more than 20 new recipes and cooking innovations. Miss Berry who has had as high as 1,200 women attend one session of her cooking school in large cities remarked that she had never before witnessed such a large crowd in a city of 6,500 population.

"Never have I received such a cordial welcome as I received Wednesday and today and I shall always have a warm spot in my heart for Cisco and its housewives," she said.

Torn Books Warn Against Vandals

AUSTIN, Sept. 26 — Book-lovers at the University of Texas this fall were greeted by a library "chamber of horrors" exhibit designed to prevent library vandalism.

Librarians devised the display showing results of tearing out pages, turning down page corners, and roughing up covers and pictures on page margins that destroy books.

Other practical lessons in using library books are to follow.

Randy Frosh Wear Weird Costumes On Slime Day

Monday night high and mighty seniors of Randolph college adorned lowly slimes in costumes which smacked of revenge for indignities of previous years and a sense of humor as part of initiation ceremonies in anticipation of Slime Day celebration today. Red evening dresses on male slimes; abbreviated costumes, despite the Dean's censoring endeavors, which sent slimes scurrying for warmer garments as the rain lowered temperatures; grotesque as well as comical make-ups were featured at the evening frolic to the delight of seniors and chagrins of slimes.

Daskam Stephens, junior class president and master of ceremonies, was regaled in a navy blue silk dress with a dashing pink sash. A saucy black hat decorated with a red feather completed his ensemble. A critical senior chose a green dress, white satin shoes, and jet black hose as appropriate for Miss Madie Fern Evans's reading. Misses Maxine Gallagher and Almon Clark, dressed in abbreviated cotton frock and satin dress, entertained with vocal selections.

Miss Doris Surles, wearing a yellow dress and exaggerated facial make-up, gave a reading. She was followed by Jay G. Rupe who made a big hit by singing "The Lady in Red" while adorned with brilliant red evening dress and purple picture hat adorned with roses in full bloom. "Sweet and Low" was sung by Elouise Wigal, costumed as a negro mammy and carry a wash basket. Another hit was a quartette composed of Wm. Hoyt, Varge Daniel, Robert E. Lee, and Glynn Robertson. "Simple Simon Met a Pieman" was interpreted by Miss Johnnie Sue Slaughter garbed as a football player.

A burlap costume with printing scattered over it was the costume chosen for Miss Pat Prewitt who accompanied Stephens in a trombone solo. Numerous other costumes added to the laughter of the evening.

Retail Sales Show Jump During August

AUSTIN, Sept. 26—August retail sales in Texas showed a substantial increase over the previous month and were above normal on the seasonal incline, the University of Texas research bureau reported today.

Reports from 90 representative stores indicate a 7.7 per cent sales increase in August over July, and a 10.7 per cent increase over August, 1934. Total sales for the first eight months of 1935 were 5 per cent above those for the corresponding period in 1934.

Clothing and department stores showed the greatest improvement.

Plan Jersey Show For Denton County

DENTON, Sept. 26—Preparations are under way for the Jersey show and fall auction sale to be held at the Denton county fair Oct. 10 and 11.

Only Jerseys will be shown in the cattle section of the fair and stall space at Denton this season because Dallas will hold no state fair. The premium list offers awards of \$25 each for the boys show. A county herd award of \$50 will be offered on three heads in Denton county.

E. R. Thompson of Oklahoma, one of the official judges of the American Jersey Cattle club, will be the judge.

WORDSWORTH, Sask.—Banana corn is the latest in farm products being grown here. One farmer found a cornstalk with 23 cobs on it. Another found several with 8 cobs.

Oldest House is At San Augustine

AUSTIN, Sept. 26—Texas' oldest remaining house is at San Augustine according to Miss Fennie Ratchford, University of Texas authority. The house was built in 1820.

Miss Ratchford, who has toured East Texas to study early architecture, found two classes of homes predominant in Civil War days in Texas. They were the solitary log cabins of lumber settlers and the plantation mansions of wealthy pioneers.

mer's choice of a \$80, either ladies or gentlemen's Elgin, Bulova, or Gruen wrist watch, was purchased from J. A. Jensen the jeweler, Cisco, and is on display at his store.

The ninth grand award is something every one has always at some time or other wanted, a yearly pass good for two people to the Palace Theatre. You can use it day or night, Sundays or holidays for 365 days in the year if you want to.

Last but not least, all entrants in the Opportunity club will be guaranteed a good day's pay in the form of cash commissions to be paid to all active club members who do not win one of the nine grand awards, as 10 per cent of their entire sales will be paid to them if they remain active in the campaign from the time of their entry to the close under the rules and regulations published elsewhere in today's American.

How To Enter

First turn to the big double page announcement in today's paper; clip your entry blank which you will find there, along with your first subscription blank. Fill them both out properly and then mail or bring them in person to Opportunity club headquarters at The Daily News, along with your first subscription payment, and you will be started toward the ownership of that 1935 Master Six Chevrolet sedan or the 1935 Ford V-8 De Luxe coupe or one of the other nine awards. Full details and necessary supplies will be given you at Opportunity club headquarters without one cent of cost to you now or at any other time.

Remember, all who enter have an equal opportunity, and it costs nothing now or at any time, to enter, to compete, or to win.

The Why of It

The Opportunity club, announced today by The Cisco Daily News and Cisco American and Roundup, is being inaugurated for the twofold purpose of still further increasing the large circulation of these newspapers, placing them in every home in this trade area and thereby better serving the merchants and business people of Cisco and giving these residents of this area who enter the Opportunity club the fair and equal pay for their services in helping to build to a new high level the circulation and reader interest of these newspapers instead of using the old-time method of engaging professional outside solicitors. This tremendous appropriation has been expended in securing a magnificent list of awards, the value of which will attract members of many of the most substantial families in this section. The class and character of these awards and the fair and equal plan as to how they will be given not to mention the short time available to secure credits to win them, is expected to create a wave of enthusiasm throughout the territory served by these papers.

Now Time to Start

Early starts always help and in order to win you've got to begin so—now for these shears. Clip your entry blank and you're started soon as your first subscription blank is turned in.

Then on through Effortville, piling up a total of credits that will be unbeatable at the end and make you—a happy winner.

Valleys Heated By Steam in Far North

WINNEPEG, Man., Sept. 26—Steam heated valleys are hidden among the mountains of the far north where the Rocky Mountains end in a plateau and the McKenzie range begins, according to Dr. Charles Camsell.

Dr. Camsell, minister for mines and natural resources for Canada, has been making a photographic survey of the unknown region to get data for a relief map.

The tropical valleys, existence of which was brought out through explorers' tales, have been investigated by him. He stated that they are almost inaccessible because of the steep mountain slopes and treacherous streams.

Vegetation in the explored valleys was rank and spring bubbled up hot and steaming. Several adventurers have at times lived in the valleys and a tumble-down cabin in one of them denotes the ten-year stay of Tom Smith and his daughter, Jane.

Records left by these few visitors, however, are sketchy, and Dr. Camsell hopes to get the first reliable knowledge of this area through his survey.

SHORTEST WHEAT CROP

WASHINGTON, Sept. 26—The smallest wheat supply in 12 years were forecast today by the bureau of business economics. This year's world crop were reported at 230,000,000 less than the short crop of 1934.

Patronize Our Advertisers

Profit Is Seen In Holdover of Rice

AUSTIN, Sept. 26—Prices offered farmers for their 1935 rice crop are the lowest since 1910, and those who hold their crop stand a good chance of profiting according to J. E. McDonald, State Commissioner of Agriculture.

The price now is \$1.60 to \$1.95 a barrel compared to \$3.36 in 1912, \$6.90 in 1916, and \$3.58 in 1929, McDonald said.

There is practically no carry over and a heavy export demand, McDonald said.

Canning Record Is Made at Crockett

CROCKETT, Sept. 26—Mrs. I. E. Craven, 4-H club demonstrator of the Friendship Women's Home Demonstration club, has set a canning record for Houston county this season.

Mrs. Craven canned a total of 877 containers of food, including 210 cans of green vegetables. This was more than was canned by the entire club during 1934.

Goal of the Friendship club is to preserve sufficient foodstuff this year to provide at least one green vegetable per family per day throughout the year.

Texas' Oldest Town Plans Exhibit

DALLAS, Sept. 26—The town in Texas will have an exhibit at the Texas Centennial Exposition next year.

Penitas, a village in the Grande Valley, near McAllen, claims to have been established between 1523 and 1530 and to be the first community settled in the territory which now composes Texas. This little town will be represented in the extensive Rio Grande Valley exhibit which will be a feature of the exposition.

The town has made application for a \$1,000,000 monument designating their town as the oldest settlement in the state.

Farmers Organize To Aid Marketing

LIBERTY, Sept. 26—Farmers in 17 voting precincts are being organized into community associations by County Agent W. L. David, to improve cooperative production and marketing.

Each association will be represented in a countywide organization having elective officers. The organizations will assist farmers in buying fertilizer and seed, inform them of AAA developments and aid in financial affairs and marketing.

Two New Prizes In Club Are Announced

This is nomination time! Nominations are in order now! For there's money in nominating winners.

The nominees to be named are the two ultimate winners of the two cars in The Cisco Daily News and Round-Up Opportunity club campaign which has just been announced.

Two extra awards to be made at large—just for winning nominations have been added to the already large list of rich and valuable prizes, making eleven in all. These two special awards can be won by members of the Opportunity club or by anyone not an active member of the Opportunity club—anyone eligible.

The first of these special awards is \$15 in cash and will go to the man, woman, or child who nominates the winner of the grand capital award, the 1935 Master Six Chevrolet sedan, and the second is \$10 in cash and will go to the man, woman, or child who nominates the winner of the second grand award, the 1935 Ford V-8 DeLuxe coupe.

you will receive the \$10.00 award. Should you by any chance nominate the winners of both cars, correctly then of course you will receive both of these two special awards—making a total of \$25 just for sending in the name of the winners.

Nominations Registered

All nominations made will be time stamped and registered at the Opportunity club headquarters, the Opportunity name laced on file in the Opportunity club headquarters and will not be divulged to anyone until the close of the Opportunity club campaign when the winners of the two cars but all of the major awards will be announced, along with the names of the persons who nominated them. Precedent will be given to earliest nominations. Nomination blanks that are incorrectly filled out will be void, as will any nominations received at Opportunity club headquarters after the closing of the third period of the campaign.

Open to All

The rules and regulations of the Cisco Daily News and The Cisco American and Round-Up Opportunity club which a nominee accepts and abides by in accepting nomination have been made the easiest ever known in a campaign of this kind.

The big list of rich and valuable awards is topped by two automobiles, one for each district besides seven other awards and hundreds of dollars in cash commissions so that every member of the Opportunity club will be more than well paid for their effort. There will be no losers as under the published rules and regulations. Everybody wins—a car, or one of the seven other major awards or ten per cent cash commission of the total amount of their subscription sales.

Right now the air of opportunity is shining brightest for today while the Opportunity club is yet in its announcement stage—just getting under way—is the time for you to cash in. Remember, it costs nothing to enter—nothing to try and you have everything to gain and nothing to lose.

That nomination blank spells money—cash—to you in two ways now—it is the same as an entry blank if you want to use it yourself. It might just as well be used as someone else that wins one of these two smart cars.

Fill it out now—but be careful you don't toss a brand new 1935 Master Six Chevrolet sedan worth \$846 or a brand new 1935 Ford V-8 DeLuxe coupe worth \$724 into someone else's lap when you can take it.

How Nominations Count

On all nominations made now and up to the close of the third period of the campaign, 5,000 credits will be issued to the person who accepts such nomination and enters the Opportunity club. Only one nomination blank however will be credited to a club member. However, there is no limit to the number of persons you may nominate and if one of those you nominate accept nomination and is declared the winner, by the official campaign judges of the car you nominated that person to win, then you will be awarded one of these two extra cash prizes accordingly: if you nominated the winner of the grand capital award, the 1935 Chevrolet Master Six sedan correctly you will receive the \$15.00 award, or if you nominated the winner of the second grand award, the 1935 Ford V-8 DeLuxe coupe, correctly,

GRADUATE OF SCHOOLS HERE DIES TUESDAY

Word has been received here of the death of Mrs. Leslie H. Crist, formerly Miss Ruby Grace Stanton, daughter of Mr. and Mrs. A. C. Stanton of Clifton, Ariz., formerly of Cisco.

Mrs. Crist died Tuesday morning, Sept. 20, in the Masonic hospital, El Paso, Tex., after an extended illness. Her death was due to general peritonitis.

Mrs. Crist was graduated from Cisco high school and was an art student under Mrs. D. E. Waters. At the time of her death she was recognized as an artist for her desert scene paintings.

Survivors are her husband, Leslie H. Crist, Hot Spring, N. M.; parents, Mr. and Mrs. A. C. Stanton, brother, Phil Stanton and sister, Mrs. Yiada Cotey, all of Clifton, Ariz.

Golden Powder For Makeup in Autumn

CHICAGO, Sept. 26 — Women will go on the gold standard this fall if they keep their eye on the complexities of smart complexion.

The wave for the decorative launched by Renaissance styles and colors has cast its influence on makeup, say nationally known beauty specialists in the Merchandise Mart here. The result is a new golden treatment for eyelids, a magic-making shade of blue for lashes and brows and a number of new and exciting shades in lipstick.

Despite the definite trend toward the new and unusual in makeup, complexion approach the natural, more closely than for many seasons. Foremost news in makeup is the new golden powder, with infinitesimal flecks of gold blended into its base. Discreetly applied on the lids of brown and hazel eyes, this new powder gives them glamour. It also can be used effectively by the woman who knows her makeup calculus to accentuate the best lines of cheek and jaw. The gold powder can be used during the day if discreetly applied, experts say.

Azure blue mascara, introduced by the more daring delivers in make-up last year, is definitely accepted by the more conservative.

In lipstick the newest shades are champagne for blondes and a deep russet color for brunettes.

Rustler Is Jailed After Six Years

REGINA, Sas., Sept. 26 — Mill ton Talbot, one of the last of Western Canada's cattle rustlers, has been caught and sent to prison after eluding police for six years.

Talbot was sentenced to 15 months in jail at Assinibois, in Saskatchewan, for stealing 15 head of cattle in 1928. His conviction brought to a close a six-year hunt.

Talbot, an American, allegedly rustled the cattle into Montana and vanished. Ordered to be extradited, he was trailed for six years by American police. They traced his movements through nearly every state in the Union. Three weeks ago he was located working under an assumed name in Wyoming and was brought back to Saskatchewan.

DOGS RUN DOWN CHILD

PHOENIX, Ariz. — To 4-year-old Charles Brown of Phoenix goes the doubtful distinction of being the first recorded victim of "hit-and-run" bulldogs. Charles was run down by two bulldogs with whom he was playing. He suffered a broken leg.

AIR MILEAGE TO COAST CUT

NEW YORK — By changing the airway lighting on United Air Lines' coast-to-coast route, the plane distance from San Francisco's Golden Gate to New York's Statue of Liberty has been reduced to 2,533 miles or 538 miles shorter than rail mileage.

Long Estate Said Not Over \$130,000

By United Press
NEW YORK, Sept. 26 — The estate of Huey Long will not exceed \$130,000, Seymour Weiss, confident of the slain legislator, has estimated.

Here to attend the Louis-Baer fight, said most of Long's assets would come from insurance policies providing double indemnity in case of violent death.

Bees Are Killed By Cotton Poison

BELTON, Sept. 26 — Apiculturists here have lost considerable money this year through the killing of bees feeding on poisoned cotton.

Some owners have reported that almost all their swarms have been killed. The cotton, which has been poisoned in this section, affords almost the only source of food for the insects.

A few owners managed to save their hives by shutting the bees up during the season while the cotton was being poisoned, feeding them water and sugar. Even these owners, however, suffered serious losses.

Citrus Marketing Will Be Discussed

WESLACO, Sept. 26 — Citrus fruit packers and shippers in the Lower Rio Grande Valley will meet soon to discuss plans for establishing a centralized citrus marketing organization to handle the fruit during the coming season.

According to the plan outlined by Banks L. Miller, McAllen, packers could use the existing packing facilities on a cost plus basis, each retaining his own fruit label, but marking "Texas" on each individual fruit.

The chief objective of the centralized marketing plan is to bring larger returns to growers.

HEMP INTEREST SOUGHT

DALLAS, Sept. 23 — George E. Trout, president of the World Fiber Corporation of Chicago, which is advocating the raising of hemp in the United States as a new fiber crop substitute for articles now imported, will tour Texas in an effort to stimulate interest in this new crop.

FORMER CISCO WOMAN TO BE BURIED HERE

Mrs. Edith Langston, 46, of Amarillo, formerly of Cisco, who died Saturday night, was buried in Oakwood cemetery here at 11 o'clock Tuesday morning.

Rev. E. S. James, pastor of the First Baptist church, will officiate. Funeral services were held in Amarillo this afternoon.

Mrs. Langston was the wife of Dr. J. E. Langston and the couple had just returned from a visit here when she became ill. Dr. Langston is the son of Mrs. J. F. Langston and a brother of G. B. Langston and L. L. Langston, both of Cisco.

Other immediate survivors include the parents, Mr. and Mrs. J. Van Stenwyk of Amarillo, two brothers, and two sisters.

Authority for Two New Rivers Sought

AUSTIN, Sept. 26 — A new "authority" for the Guadalupe-Blanco rivers, has been asked by representatives of 11 Central Texas counties.

Technically the Guadalupe-Blanco river authority is not new since it has been operating under a preliminary bill of the Texas legislature.

Representative T. J. Dunlap, San Marcos, has revised the original bill, modeled it after the successful Colorado River Authority, and asked permission for the body to seek \$5,000,000 PWA aid.

Of that sum, 45 per cent would be a grant, the remainder a loan. Two-fifths of the state taxes paid in Comal, Hays, Guadalupe, Kerr, Kimble, Gonzales, De Witt, Victoria, Calhoun, Refugio and Caldwell counties would be diverted to repay the loan.

Plans of the authority would call for a system of four dams. Two major dams, one at Wimberley reservoir on the Blanco river and the other above New Braunfels on the Guadalupe, would cost \$2,000,000 each. Two smaller dams would be built below these.

TO RECONSTRUCT CABIN

DALLAS, Sept. 21 — An accurate reconstruction of the first log house built in Dallas—that of John Neely Bryan which was located near the present court house—will be on display during the Texas Centennial Exhibition.

Pecans Sought Here By Chicago Company

Fame of pecans grown around Cisco has reached distant markets according to a report by J. M. Bird, agricultural farm expert. A Chicago firm has requested the names of Cisco area pecan growers who can make up a car-load for shipment to the northern city. Bird prepared an extensive list of such growers and forwarded it to the firm today.

Pecans produced in this area are noted for high quality meats with full flavor desirable for pecan products of all kinds. Pecan growing in this area has been on the increase in recent years and promises considerable additional revenue for this agricultural district, Bird said. Growers have specialized in better quality nuts rather than quantity.

Jurors Discharged In Pennington Case

EASTLAND, Sept. 26 — Jurors in the case of the state of Texas vs. Dick Pennington, who is charged with assault to murder, were dismissed Thursday afternoon by Judge George L. Deavenport in the 91st District court after they were unable to agree. The jury received the case Wednesday afternoon.

Pennington is charged in connection with the assault to murder R. E. Bowden on July 2.

The Cisco Daily News and ANNOUNCE \$3,500 IN the OPPORTUNITY CLUB

Rules and Regulations:

1. Any reputable individual, man, woman or child residing in the City of Cisco, or anywhere in Eastland or the adjoining counties is eligible to enter the Opportunity Club and compete for an award. Nominations and entries may be made at any time during the first three periods of the campaign.
2. No employe or blood relative of any employe of either of these two newspapers is eligible to enter the Opportunity Club and compete for an award. The management reserves the right to reject any nomination or entry for cause.
3. The winners of the awards will be decided by their total number of credits, being represented by ballots issued on subscriptions to these two papers and by credit coupons clipped from these papers.
4. Club members are not confined to their own particular town or community or the district they enter from in which to secure subscriptions but may secure subscriptions anywhere.
5. Cash must accompany all subscription orders whereon credits are issued. There will be no exception to this rule. Club members are allowed to collect subscriptions in arrears and renewals as well as entirely new subscriptions. Credits will be issued on all.
6. Credits are issued on all subscriptions. They cost the subscriber nothing extra and subscribers should ask for credits when paying their subscription. However, credits may not be purchased. Every cent accepted thru the Opportunity Club must represent subscription payments.
7. Credits are not transferable. Club members may not withdraw in favor of others. Should a club member withdraw from the campaign his or her credits will be void.
8. Any collusion on the part of club members to nullify competition, or any other combination or arrangement or effort, to the detriment of club members or these newspapers will not be tolerated. Any club member entering into or taking part in such an agreement, arrangement or effort, will forfeit all right to an award or cash commission.
9. Any ballots issued on subscription payments may be held in reserve for publication at the discretion of the club member to whom issued and the club manager.
10. The credit coupons appearing in these newspapers from time to time must be turned in and voted before they expire, according to the date printed thereon.
11. In the event of a tie for any of the awards, awards identically alike will be made to Club members.
12. In case of typographical or other errors, it is understood that neither the publishers of these newspapers nor the Opportunity Club managers shall be held responsible, except for necessary correction of same.
13. No statement, assertion or promise, either written or verbal, made by any solicitor, agent or by a club member will be recognized by the publisher or the club management.
14. Extensions of subscriptions will receive credits according to the schedule in effect when the first subscription payment was made except that no extension credits will be issued during the final period.
15. It is distinctly understood that all club members will be responsible for money collected on subscription payments and that they will remit such amount in full at frequent intervals or on demand of the club management.
16. There will be several other awards made to club members besides the two automobiles and in addition a cash commission of Ten Per Cent will be paid to all ACTIVE non-prize winning club members, but should any club member become INACTIVE, failing to make a weekly cash report of subscription payments, totaling not less than three yearly subscription payments each week from the time of their entry until the close of the campaign; he or she will, at the discretion of the club management become disqualified and there by forfeit all right to an award or a cash commission.
17. The publishers guarantee fair and impartial treatment to any and all entrants in the Opportunity Club but should any question arise the decision of the committee of judges who make the final count of credits to determine the winners of the two cars and other awards; and the club manager will be final and absolute.
18. The campaign opens with the publication of this announcement—closing on Saturday, December 21st, 1935.
19. All matter contained in this announcement and published therein pertaining to the Opportunity Club in this issue of these newspapers hereby becomes a part of the rules and regulations of the campaign. The right is reserved herewith by the publishers and the management to add to the rules and regulations and to offer extra or additional awards to club members for their efforts.
20. IN ACCEPTING NOMINATION AND ENTERING CLUB MEMBERS AGREE TO ABIDE BY AND TO BE GOVERNED BY THE ABOVE RULES.

Great Britain's Naval Might Is Massed In Mediterranean Waters

Tremendous power of the fleet which Britain is massing in the Mediterranean sea at Gibraltar, Malta, and Suez is graphically shown in this picture, of warships at anchor in Gibraltar harbor during previous maneuvers held by the combined Atlantic and Mediterranean fleets. Ready also for one of the greatest sea battles in history if war comes, the Italian navy is massed on both sides of the peninsula between the Adriatic and Tyrrhenian seas. From home waters all the way to the waters of far-off China, British warships were ordered under forced draft to the zone of danger as the war threat grew more menacing.

Mayor Sets Week Of Fire Prevention

Dr. J. A. Shackelford Is Dead at Ranger

RANGER, Sept. 26. — Funeral services for Dr. J. A. Shackelford, 49, who died at his home Saturday were conducted Sunday afternoon from the First Baptist church with Rev. George W. Thomas conducting the services, assisted by Rev. H. H. Stevens, pastor of the Central Baptist church and Rev. H. B. Johnson, pastor of the First Christian church, Ranger.

Dr. Shackelford served in the army as a captain during the World War overseas. In 1923 he joined the Ranger Medical Clinic with which he was associated at the time of his death. Beside his medical practice he had been engaged in all activities.

Survivors besides his widow and son are two brothers, Joe of Cisco and Pearce of Putnam; two sisters, Mrs. Mary Thompson and Mrs. Wilda Thomas, both of California.

Jurors Summoned To County Court

EASTLAND, Sept. 26. — The following have been summoned to serve as petit jurors during the fourth week of the September term of the county court beginning Monday, Sept. 30, at 10 a. m.:

East, Cisco; G. L. Bailey, Scranton; Stanley Webb, Rising Star; Fred Mitchell, Eastland; J. W. Thornton, Pioneer; J. Meador, Rising Star; E. P. Weeks, Ranger; E. E. Ivey, Ranger; J. T. Tallerson, Pioneer; A. F. Wetz, Desdemona.

OLDEN WINS OPENER

EASTLAND, Sept. 26. — Olden high school opened its 1935 football schedule Friday afternoon with a 20 to 0 victory over Colony.

Olden accounted 11 first downs, Colony for 25.

SCENT MONEY

COLUMBIA, Mo. — J. S. Fenton's bloodhounds can't work with proficiency if Fenton isn't being paid enough for their services. That was the reason Fenton refused to track four escaped insane convicts. He was offered only \$25.

Mayor J. T. Berry Saturday issued a proclamation setting aside the week of Oct. 6-12 as Fire Prevention Week for Cisco.

At the same time, it was pointed out by Fire Marshal O. Gustafson that the city can cut down its fire losses, and consequently its insurance rate, by cooperating in the matter of preventing fires.

"So far this year we have had only about \$800 of fire damage," Gustafson said. "Last year the damage was \$8,000, and in 1933 it was \$10,000."

"This shows that we can prevent fires. We want everyone to observe fire prevention week, as the mayor has asked, and cooperate with the fire department and the schools in the educational campaign to prevent fires."

Following is the mayor's proclamation calling for the observance of fire prevention week:

Proclamation

"Fire uncontrolled is one of the most serious problems that confronts us today, by reason of the fact that it has taken a heavy toll in the number of people burned to death annually and by reason of the further fact that this form of waste has proven to be a heavy financial burden on each of our citizens.

"Fire to a very large degree is preventable by the proper application of education in fire prevention and fire protection.

"Now therefore, I, J. T. Berry, Mayor of the City of Cisco, do hereby proclaim the week of October 6 to 12 as Fire Prevention Week, during which week I most respectfully urge our civic and commercial organizations, our school officials and teachers, and our citizenship as a whole, to cooperate and work with the fire chief, fire marshal and city officials in an effort to control this useless loss of life and property by fire. Every home and place of business should be inspected carefully and all fire hazards removed.

"In testimony whereof, I hereunto sign my name and affix my seal of office on this, the 21st day of September, A. D. 1935.

J. T. BERRY, Mayor

LIQUOR RETURNED

EVERETT, Wash. — Herbert Clough, lunchroom proprietor, is one of the first Everett citizens to have confiscated liquor restored with apologies. Superior Judge Guy C. Alston held the liquor was taken without a proper search warrant.

BOLT WRECKS AUTO

SPRINGFIELD, Mo. — Lightning tore open a hole in a garage roof and struck a car. Examination showed one tire blown out, the paint on the four rims burned off, small holes burned in the body and holes burrowed beneath each of the wheels.

BOY BAKES PRIZE CAKE

SUPERIOR, Wis. — Cooking doesn't make a boy a sissy, says Martin Barnes, 14, Lake Nebagamon, who baked a strawberry shortcake that won first prize in the 4-H club exhibit at the Tri-State Fair.

MOUSE CREATES STATIC

COLUMBIA, Mo. — W. H. Knight restaurant owner, noticed his radio was sputtering and stuttering. "Natural causes," he said, calling in a radioman, Emmett Bicknell. He removed the condenser, and a mouse hopped from its snug nest.

GET ASBESTOS SUITS

LONDON. — An improved asbestos suit, which enables the wearer to withstand for some minutes the intense heat of a fire burning round him, is now being supplied to fire brigades in Britain. The outfit includes boots, gloves and a large helmet with mica panels through which the firemen can see.

Oldest Negro Here Is Buried Friday

Cisco's oldest colored citizen, a former slave, was buried here Friday.

Mitchell Allen, 89, who was born in Mobile, Ala., in 1846, died Thursday. His funeral was held at the Second Baptist church, colored, with Rev. J. A. Burdian of Breckenridge officiating. Interment was in Oakwood cemetery.

He was the father of Mary Floyd and was well known to both the white and the colored population of the city.

Publicity Talked At Meeting of C. E.

The Young People of the Christian Endeavor discussed the value of publicity at their meeting Sunday evening, September 22.

Cleon Cogswell gave a talk on the necessity of publicity of C. E. Eston Dennis spoke on "Myself As A Committee of One, What Can I Do To Promote C. E. Publicity?"

The items that count as points in the state contest for this advertising movement were listed. Officers who were appointed were: Phillip Dudley, song leader; Helen Burleson, pianist; Elouise Wigal, reporter.

Successor to Famed Mascot Is Sought

DALLAS, Sept. 26. — A successor to Peruna, the famous mascot of the Southern Methodist university football team, is being sought.

According to Band Director Tom Johnson, a search is now being conducted for a new mascot to replace Peruna, the "half-pint" pony which was killed by an automobile last fall.

Already Johnson said, he has received numerous offers for a new mascot, but has not accepted any of them. He wants to be sure to choose something acceptable to the students.

MINIMUM AGE FOR ENLISTING IN CCC LOWER

AUSTIN, Sept. 26. — Minimum age limit for CCC enrollees has been lowered from 18 to 17. State Enrollment Supervisor Neal E. Guy announced Saturday.

The ruling will apply for the October enrollment, when every eligible person in the state is expected to be given a chance to enlist in the CCC.

Enrollment will be open for all unmarried men between 17 and 28 whose families are on relief rolls. The date are inclusive and a person who has passed his seventeenth birthday is eligible, as is one who has not reached his twenty-ninth.

Mandatory discharges have been discontinued, and enrollees may stay in camps indefinitely. Also, persons honorably discharged may re-enlist provided their previous service was not less than four months. Eligible enrollees, however, honorably discharged prior to October 21, 1933, may be re-selected without regard to length of previous service.

Guy advised persons in the lower age brackets, particularly the 17-year-olds who are in school, to continue their schooling as long as possible, with the hope of enlisting later. For those who cannot continue in school, the CCC conducts an educational program in each camp, he pointed out.

"TERROR" SCALDS VICTIMS

TEN PER CENT CASH COMMISSION

Each and every member of the Opportunity Club who remains active in the campaign from the time of his or her entry throughout to the end of the campaign turning in not less than three yearly subscriptions each week from the time of his or her entry to the finish, together with the cash for this number or more subscription payments, each week and who fails to have a total of credits large enough to win one of the nine Grand Awards will be paid a cash commission of ten per cent of the total amount of their subscription sales, either new or re-newals. So all active members of the Opportunity Club will win, regardless of where they live; either one of the two cars, one of the other eight Grand Awards or a cash commission. There will be in this way no losers.

HOW CREDITS ARE SECURED

Credits cannot be purchased and they can not be transferred from one Opportunity Club member to another. Once issued to a club member they cannot be transferred to another. This rule is imperative.

There are just two ways to obtain credits; one is by clipping the free credit and Opportunity Coupons published from time to time in these newspapers until further notice. These free credit coupons are good only for the number of credits stated and must be polled before the expiration date thereon and may be cast for publication at the discretion of the Club member.

The only other method is thru securing subscription payments to the Cisco Daily News and the Cisco American and on these subscription payments whether they be for subscriptions in arrears; renewal or new subscriptions; credits will be issued on these subscription payments only when these payments are made in cash or by check.

Credits are issued in large numbers on each subscription payment according to the published schedule below. Note especially the tremendous value of NEW subscription payments.

PREFERENCES FOR RANDOLPH PUPILS GIVEN

Enrollment at Randolph at the end of the first two weeks had reached a total of 83. It was announced by registrar E. B. Isaacs Saturday.

On the corresponding date last year the enrollment was 73. This showed a gain of 12 students for the 1935-36 school year.

Several other students are on the hill, visiting classes, but have not yet enrolled. These and a number of others are expected to enter school the first of next week.

Of the number now in school, 48 are girls and 37 are boys. One Foreign Student

The students come from one foreign country, three states besides Texas, and from 22 communities in Texas besides Cisco.

One student is from Monterrey, Mexico, one from Newburn, N. C., one from Huntington, Ark., and two from Corinth, Miss.

Divided by classes, 33 of the students are seniors and 52 are juniors. A few listed as seniors are really graduates students and some, included in the junior group are special students or are students taking some academy work.

Religiously Inclined Apparently the student body is religiously inclined, for all except 10 gave a church preference and of the other 73 all except 10 are already members of the church of their choice.

SHORT STAPLE COTTON SHOWN DURING WEEK

For the third consecutive week, the classification of samples received currently from representative gins in Texas has shown a change toward shorter staple lengths.

The grades for the cotton classed this week are lower than for the two previous weeks. Only 12 per cent of this week was strict middling against 32 per cent last week.

The proportions of cotton shorter than 7-8 inch have increased steadily for the past few weeks. This week over 11 per cent of the samples classed was shorter than 7-8 inch.

About 4 per cent of the total samples from Texas gins classed to date has been shorter than 7-8 inch; about 17 per cent has been 7-8 inch; 7-8 inch; 53 per cent 13-14 inch; 24 per cent 1 inch; and about 2 per cent has been 1 1-16 inches and longer.

YIELDS HAIRPIN ROCHESTER, N. Y. — Catherine Giovanni was sent to hospital when she complained severe pain in her nose. Physicians found a hairpin in one nostril.

The leaves of Turkish tobacco are strung one by one like beads (see how it is done in the picture). After the leaves are strung they are packed in bales (see picture) — sometimes as many as 80,000 leaves to the bale.

We have on hand at all times for CHESTERFIELD cigarettes upwards of 350,000 bales of Turkish tobacco...

The pleasing aroma and flavor of Turkish tobacco is almost necessary if you want a good cigarette. Turkish tobacco is more costly when you take into account that you have to pay 35c a pound duty, but we have to have it to blend with our mild ripe home-grown tobaccos.

Outstanding for mildness for better taste
