### Go To Church During April

The Go-to-Church movement that was started last Sunday had a good beginning, all church reporting good attendances. A much larger one should swell all churches Easter, when they have special services.

The church has been recognized by most people as the keeper of the streets.

Back of the police officer stands the law; back of the law stands a Public Will, which is stronger and more relentless than any police force. It is formed, nurtured and supported by a righteous institution-religion-which in its organized form, is known as the Church

Thus the Church makes the city streets safe for life and property. A clean, decent and sober city is the result of that Public Will, which is molded in sentiment by the forces of the churches.

In order that the churches function to the uttermost, they should have the attendance of at least, a goodly number of people, so that this sentiment for the public good may be crystalized and attain its proper fruition-mold public will to force right living and proper behavior of the her father walks in. community's people and kept in bounds by the police who represent the law.

The Church maintains the stability of the economic world. Obviously, even if all churches were closed, commerce and industry would have to go on. It is equally obvious that commerce and industry would go on under increasing difficulties and with mounting costs due to the moral decline of employees and employers alike . . . Who, or what institution or influence known to our world, gives this moral stability to human character without which industry and commerce cannot prosper, other than the church?" Therefore, ATTEND SOME CHURCH TODAY.

Well this is Thrusday night the 9 and another sand storm raging; and this wind is about as void of water as the Townsend old age pension plan is of logic. While thinking 13 Begone! plans and setups, lets take one lit-the peek at this land (discriminating) or generally known as the conservation program. It is planned to use the same base acreage as of 1935 under the tripple A setup and if that be so, then some of us old razor backs down here in these sand 21 Myself. jacks will likely sit down rather than up, I am truly acquainted with the farming system in central 25 Storehouses Texas. I know that for the last 27 Indian. twenty years those people planted 28 Quotes. on an average 80 per rent of their 29 Right. farm land to rotton, and did not 30 Negative make any reduction until this government paid those people a nice rent for their retired cotton acreage Now lets see, out of 80 per cent in cotton, to reduce 25 per cent would still leave that brother with sixty acres in cotton. All right now here comes those sand jack razorbacks with from no cotton to 35 or 40 per cent of his farm land in cotton; yet he is required to at least reduce that 25 per cent, in order that he may be eligible to collect as rent about two dollars per acre for his retired cotton acreage. More over should you run here and yonder, to sign this and that as we did last year, it would necessiate the rent-ing out all the feed land to pay running expenses and loss of time Now I am to some extent acquaint-ed with at last a small portion of my dense ignorance. But as for myself I shall not sign no kind of paper. that cuts my cotton crop to where I am unable to buy one box of Dewitts carly risers. While at the same time the central Texas man is profitting at our expense. It looks like a conglamorated mess to me, that we are not due just consideration. Why not all cotton farmers plant more than 50 per cent of their farm land to cotton. Boys that would rement is equipped to serve your never do. That would make Mr blackland, lord sore. You know h has a wonderful farm, and a little political pull. We gota handle him judicially you know. Some may ask hasn't the new farm setup put every thing up? O. yes, it has, but so high the most of us are naked and under nourished. I believe I had rather have 30 cent wheat than to have none. I'd prefere 3 cent hog: to no hogs at all, I prefere 4 cent cotton instead of nudness. So that where I set. I am trying to stay out here on Mr. Will Poe's farm. TOM LITTLE.

### **HOUSTON GETS** RELIEF FROM THREE SOURCES

HCUSTON. April 11 - (U.P) -Houston people are getting relief from three sources, W. W. Whitson, Texas Relief Administrator pointed cut in an interview of the relief

The Federal government is entirely out of direct relief an dhas only work relief program, the WPA. This is now furnishing jobs for 5,-808 family heads here. More than 1,000 have been cut from the WPA rolls since March 15.

The Texas Relief Commission, under very strict regulations, is taking care of families with no employable member. This aid is being extended to 3,900 cases in this coun-ty. It will continue until July. Then about 1,600 of the cases will be elig. ole for old age pensions.

Surplus commodities from the Federal Surplus Commodity Corporation are being used to supple-ment cash relief from the state.

Unemployables are receiving these commodities through relief commis-sion case workers. The articles were bought by the government because of surplus market conditions. They do not form an adequate diet. These are the only agencies to

which the unemployed can turn for

They are already operating at full capacity and no more can be added to the load. Whitson said. The WPA must continue to reduce

its rolls. Another 1,000 must go by May 31. The WPA is expected to last through June. The Community chest recently

exhausted its relief funds and stopped aid to 700 or 800 families which could not qualify for either WPA or

#### THEN LOOK AT THE PRICE

Considering what you get, the Ford V-8 is the lowest priced car in America.

No other car with a V-8 engine can be had within a thousand dollars of its price.

These are just plain facts. Price is not the most important thing about a car. But in the Ford V-8 you get a big, roomy car with a V-8 engine, a 112-inch wheelbase, and a low price too. A car with fine quality in the unseen parts as well as where it shows. A car that is economical to run and stays out of the repair shop.

Check up on what you get and what it costs and you will find it pays to put your hardearned money in a Ford V-8. No extra charge for Safety Glass all around or 6-inch air-balloon tires. This applies to all Ford cars.
