#### Tourist Cash This Summer

Surpassing even the optimistic estimates of native Texans, a practical national statistician of tourist trends today predicted that 11,565,000 persons will visit Texas this year, spending \$446,255,700 to share in the Lone Star State's celebration of its first hundred years of history, growth and development. The figures are those of Joe H. Thompson, who as national director of a Travel Bureau, Denver, has achieved recognition for conservative accuracy in many years of plotting the itineraries and spending plans of the American Motorist.

The amount to be spent represents approximately \$7. 500 for each man, woman and child in Texas. Thompson points out it will find its way into the channels of established business in the state as follows: \$89,245,000 will go for lodging and a like amount for gasoline, oil, garaging and automotive repairs; \$93,707,000 will be spent for assorted retail purchases; \$111,556,000 will be spent for food, \$26,- demonstration agent, showed the 897,000 for amusements, and \$25,773,000 for miscellaneous girls where to put their names on refreshments, smokes and confections. refreshments, smokes and confections.

"There can be no doubt," Thompson declared, "that the determination of residents of all the other states to see Texas this year is the most significant development on this year's travel calendar. It is just one of those things, the proportions of which even we, who are closest to the hopes and aspirations of the nation's motorists, find hard to

#### Will It Ever Be Thus?

Mrs. Newlywed answered the real estate agent who was trying to sell her a home, as follows: "Why buy a home? I was born in a hospital ward, reared in a boarding school, educated in a college, courted in a college, courted in an automobile, and married in a church; get my meals at a cafeteria, live in an apartment, spend my mornings playing golf, my afternoons playing bridge; in the evenings we dance or go to the movies; when I'm sick I go to the hospital and when I die will be buried from the undertakers. #### Tax Survey Head Asks Cooperation

Cooperation of farm and ranchmen in compilation of statistics for the state wide tax survey has been solicited by T. L. Overbey of Eastand, supervisor of the tax project in Eastland county.

Overby released the following

To Farmers and Ranchmen The state wide tax survey is great ly misunderstood by the public. The great purpose of this survey is to gather statistical information and it is not the intention of its sponsors to increase taxes. The survey itself has absolutely nothing to do

The preferential primary wever, means little as convention delegates are not bound to support the candidate receiving the voters' reference. Republican candidates for delegates have not pledged their support to Borah. Best information is that at least 11 of the 14 who seem likely to be elected will vote for Governor Alf Landon after a omplimentary ballot for Borah.
