## Cisco Section Gets Good Rain Early Today

### MIDLAND IS DAMAGED BY WIND STORM

Rain, which soaked a wide territory to the west, south and east, but little to the north, began falling here this morning at an early hour and recorded one and one-half inches at eleven o'clock with lowering clouds giving promise of more to come.

The rain fell slowly, enabling the thirsty earth to soak almost every drop that fell, very little runoff being remarked up to the present time. Stock water is badly needed and it is being hoped by cattlemen that the rains will continue so that tanks, and streams may be filled to replenish the depleted water supply, caused by the extended drought.

Farm operations have been hindered, many not being able to plant and secure stands of corn. Some land in the harder sections of the country is still unbroken and much garden, potatoes, and feed is not growing even where a stand has been secured.

Grain, which has held up exceedingly well also, will be greatly benefited by this rain. There is an increased acreage in oats, wheat and barley, and only slight damage has been reported by the late freeze.

Pastures are showing the need of rain, but this morning farmers and ranchmen are jubilant. Merchants are rubbing their hands in gratification as they know moisture means more sales, not only to the farmers but to others, who have been hitting on account of arid conditions.

Through the courtesy of Phillip Pettit, telephone superintendent we have placed the extent of the rain fairly well for the morning.

No rain is reported for Lubbock, to the northwest, none for Breckenridge to the north, slight sprinkle at Mingus to the northeast, small rains at Stamford, Coleman and San Angelo.

The heaviest rains recorded are at Brownwood and Abilene, where the gauges showed 2 inches late in the morning.

The report shows as follows in Abilene 2 inches; Albany 2 1/2; Cross Plains 1; Brownwood 2; Breckenridge none; Graham 1 1/2; DeLeon 1; Dublin 1; Stamford 4 3/4; Lubbock none; Coleman 0 7/8; San Angelo 5/8; Colorado 1; Baird 1; Winter 1; Ballinger 7 1/2; Sweetwater 1 1/2; Ranger, fairly good rain; Springfield at Mingus.

## Unpolished Diamonds

"I'd promote that girl," said a merchant indicating a young woman who stood behind a counter, "if she had better manners, but she doesn't seem to understand what courtesy is. She is bright, she knows the stock, she is quick and obliging, but she has had no bringing up and she doesn't seem to be able to get the idea of courteous deportment.

"A customer will say something to her and she will answer 'Huh?' or 'Uh huh,' or give a couple of nasal grunts to indicate negative reply. She will sniffle into one's ear or cough full blast into one's face as unconcernedly as would a baby. I have tried and tried and tried to teach that girl to be polite; and she seems anxious to learn but she doesn't get the idea.

"Now just listen to her." The merchant raised his voice and called, "Miss Smith!"

The girl lifted her nose like a setter pointing a bird and barked out, "What?"

The merchant motioned toward a customer to be waited on, and continued:

"Did you hear how she answered me? I have told her a hundred times if I have told her once to say 'Sir' when she replies to me, or if she doesn't want to say 'Sir' to say 'What is it, Mr. Jones?' But it looks as though she can't change her style."

There are thousands and thousands of persons holding jobs smaller than they could hold and drawing salaries smaller than they would draw if they were only long on pleasing demeanor. Politeness and pleasantness are worth just as much to a person as is paint to the automobile—or the flapper. Gruffness, uncouthness, are liabilities. They are expensive things to have. They pay no dividends of any size, shape or description. Agreeable ways are to a person what perfume is to the flower; there are beautiful flowers that have disagreeable odors; one does not care to come into too close contact with such flowers. There are efficient persons with disagreeable manners; and one does not care to come into too close contact with such persons.

The parent who permits the child to grow up unmindful of the principles and details of courtesy and good manners is doing that child a wicked injustice, for that parent is going to send the child into the world without finish; which is something that the cold-blooded manufacturer wouldn't do to an automobile.

## Thrift and Cruelty

Wives and children sometimes think that husbands are stingy when they insist on keeping the family expenditures within the bounds of thrift. They do not understand that the family finances which do not go forward must to some extent be drifting back. They cannot stay put in one spot any more than any other affairs of man or the universe. A woman who writes for women says in a recent article that it is cruelty for the husband and father to allow a family to be extravagant. It is too easy to lose everything by misplaced investment or by the death of the earner. The point she makes is that the standard of living which means comfort and satisfaction to people who are on the way up means a cramped living which spells misery to those who have to put up with it on the way down from luxury. This

## Behind the Scenes in Washington

BY RODNEY DUTCHER

NEA Service Staff Correspondent  
WASHINGTON—That Pan American peace conference we are going to have late next summer in Buenos Aires is no empty gesture.

To be quite frank about it—as nobody else is being—the main idea is to imbue the Latin American republics with a pro-United States psychology and to dissuade any of them from getting too chummy with Japan.

The administration hopes that a non-aggression treaty, if not a mutual assistance pact, with provision for economic sanctions against aggressor nations will be one result. In other words, it wants the good old Monroe doctrine to flourish more healthily than ever on a co-operative basis.

The Japanese have been making commercial advances in South America, notably in Chile, Peru, and Ecuador. They have been playing up to the politicians of those three republics in a manner which long ago lifted State Department eyebrows at least half an inch.

The nitrates and copper of Chile appear to possess an especial appeal for Nippon and "realpolitik" suggests to our statesmen that we should be in position to have influence on that business should certain eventualities arise.

THE "good neighbor policy" of Roosevelt, which seems to have charmed Latin America, is regarded by insiders here as shrewd from several angles. Not only trade, but also military-naval strategy, are involved.

The way it works is seen in the case of the new Panama treaty. After wrangling for years over the issue of Panamanian sovereignty,

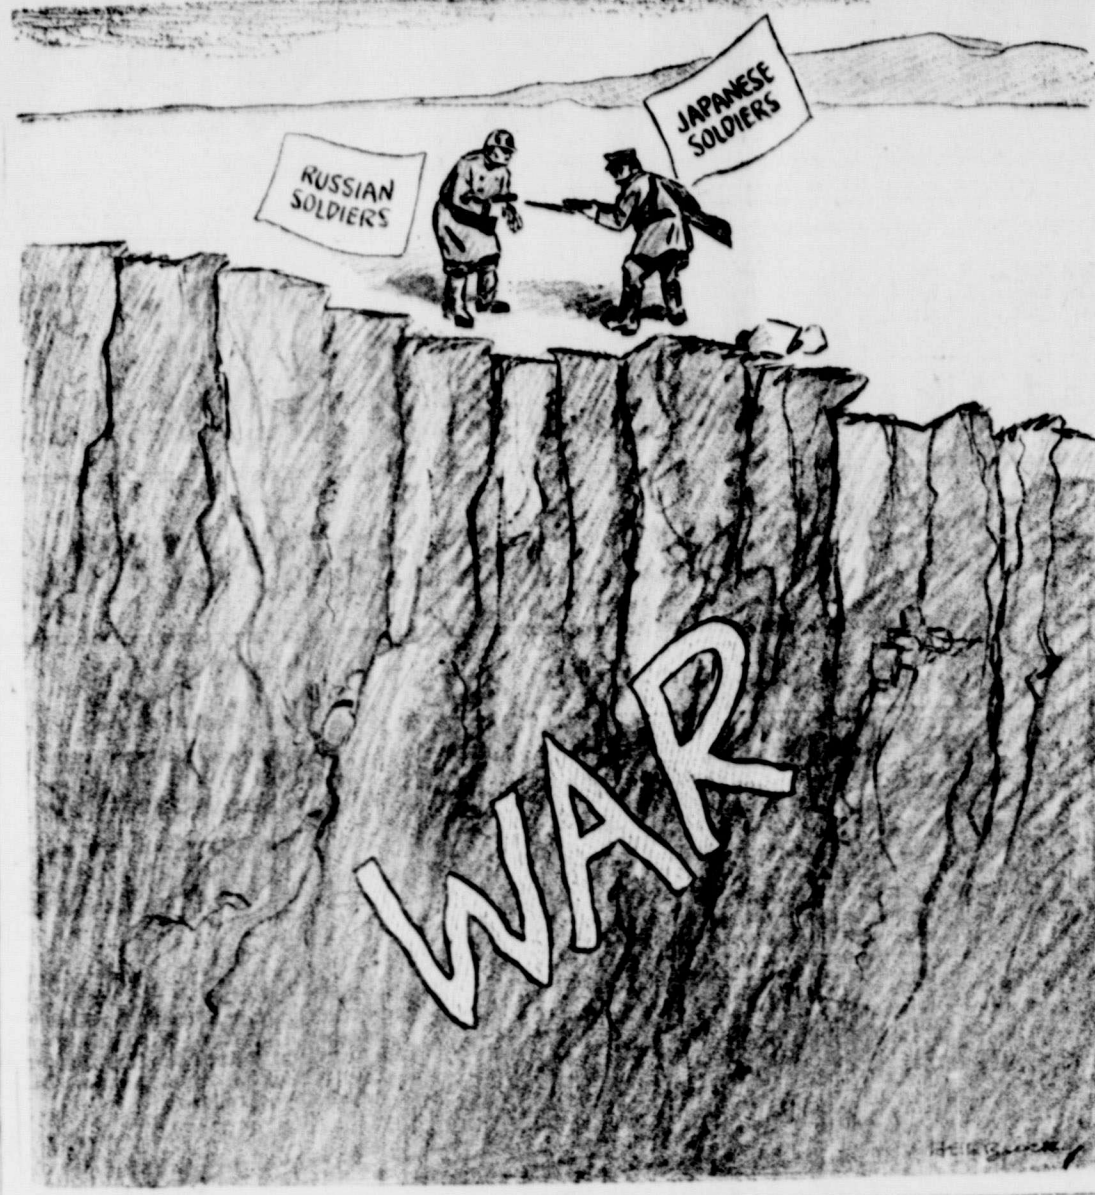

this government has negotiated a treaty which recognizes Panama as an equal and makes protection of the canal and its zone theoretically a matter of joint defense.

On paper this country has given up its right to intervene in Panama at its discretion, although actually any intelligent person knows it will intervene in case of emergency. The Panamanians are as pleased as Punch. The U. S. generals and admirals balked with more or less customary stupidity, but Secretary Hull beat them off. From the standpoint of defense of the canal, it seems much better to have the Panamanians pleased than aggrieved.

JAMES MONTGOMERY BECK: Philadelphia ex-congressman, who now carries the Constitution around under his wing and keeps clucking over it, made a speech the other night to the Rhode Island Bar Association, from which New Dealers are mimeographing excerpts. Beck ventured the startling opinion that the spirit of the supreme court's decision in the TVA case was due to "enlightened expediency." The court, he said, "cannot be ignorant of the fact that there is a rising storm in Congress" to curb its powers. Mr. Beck himself had declared TVA unconstitutional.

The admission by Mr. Beck that the court was susceptible to outside pressure is considered astonishing. Anti-Beck lawyers have felt that a majority of the justices were susceptible to the pressure of their backgrounds as corporation lawyers or economic prejudices, but they never expected Mr. Beck to admit the court to be susceptible to such pressures or any other.

## BORDER CLASH

is putting it strongly, but perhaps not too much so. The point to watch in any consideration of saving or handling money is that thrift is not a virtue, and not a little tin god. Thrift is merely a method of attaining freedom from worry. The family which hoards and never enjoys is not thrifty of the right things—it is not attaining freedom. The family which lives beyond its means is selling itself into slavery. Kindness to wives and children consist in holding out a good percentage for the rainy day, in teaching them the things which will make them self-supporting and self-reliant, and then spending the rest cheerfully and sensibly to get the most out of the sunshine.

Tillie Twinkle says she will never marry a man for his money, she'll divorce him for it.

If nudist colonies were made up of people whose legs looked like this ( ) or this ( ) they would soon go out of existence.

The man who wants women to eat out of his hand should start a delicatessen shop.

The modern girls seem to think that home loving is parlor petting.

Sally Rand says that dancing behind a bubble is not immodest, it's art. Now we know why so many of the stronger sex are interested in art.

News writer says the republican party is suffering from lack of leadership. After looking over the results of the elections in Illinois and Nebraska, we'd say it is suffering from the lack of followers.

After reading over the story of politicians trying to stir up racial prejudice with the Roosevelt pictures, it makes a fellow wonder whether all snakes are in the jungles or if some are running around in pants.

Our subscriber from East Texas says he's sure sorry he took that memory training course, because every time he sees a pretty girl, he remembers he is married.

Our subscriber from East Texas says that after he wrote that long and frank letter to that dashing widow his hands sure ached—to get it back and tear it up.

## UNDER THE DOME AT AUSTIN

By GORDON K. SHEARER

United Press Staff Correspondent

AUSTIN, April 15 — (UP)—Nudity of any sort in connection with the Texas Centennial would be rejected

by state officials, it was announced today. Gov. James V. Allred promptly vetoed a suggestion of a California nudist colony that they take up a 1936 picnic at the Texas Centennial Exposition.

Let Gov. Walter Woodfill thunder: "There will be no nude statutory exhibition at the Pioneer Women of Texas who were clothed in modesty if not in silks and satins."

Attorney General William McCraw was aghast that a nude group should be suggested for the campus of the state's college for women and numerous other officials were shocked at the suggestion.

"I couldn't believe it," John Wallace of the State Board of Control said when notified that the nude group had been selected by a jury of art experts.

Jurors defended the choice as art. Some did not feel it necessary to fall back on the suggestion of the artist, William Zorach, that the figures might be draped.

Representatives of art museums and art instructors made up the jury with two exceptions. One was a lawyer, the other, Goldwin Goldsmith, professor of architecture at

the University of Texas, was absent and did not vote.

The Centennial publicity committee was quick to get on the topic when it was seen that the nude group had given the Centennial more free publicity in two days than had been obtained in four months with a \$500,000 publicity fund.

Always interested in history, Gov. Allred has spent much time in research for his centennial addresses. As a result, Texans have been surprised at his familiarity with little known incidents of the first fight the declaration of independence, the battle of the Alamo, the Goliad massacre and other events of 1836.

He is making an even more intensive research in preparation of the address he will make at San Jacinto battlefield on April 21.

T. P. Walker, now of the state department of education, was the governor's school teacher at Bowie, Texas. He recalls that even then Allred's chief interest was in history and English. He made "just average" marks in each. Walker recalls he didn't care for mathematics.

Stamp collectors who are recoiling over possession of Texas centennial stamps cancelled at Gonzales on the first day of issue, do not have the choicest of the stamps.

These choice stamps are on cover with the photograph of Governor James V. Allred and the governor's autograph. Gonzales' postmaster Fred Boothe sent a number of this type to the governor to be autographed.

Celebrities who have experienced cancellation of their commissions as Kentucky Colonels may be solaced with commissions as honorary Texas Rangers. A Centennial Ranger has no more real authority than a Kentucky Colonel has war record. The commissions are issued by the governor on requisition of the publicity staff of the Texas Centennial Exposition. About 100 have been issued. A commission as a Texas Rangerette is even less official. They are issued direct from centennial exposition headquarters quarters with out the governor's signature.

The Ranger Commissions are being issued also to officials who have been helpful to Texas. Conrad L. Wirth, assistant director, and Herbert Maier, regional officer, National Park Service have received Ranger Commissions. Along with the commissions went badges and ten-gallon hats sent by employees of the federal and state park service. The grants were in recognition of their co-operation in development of parks in Texas. Both have Oklahoma City headquarters.

T. W. Sharps, Austin, former employee of the U. S. Bureau of Biological Survey, has been appointed secretary of the Texas Wildlife Federation, recently organized. The secretaryship was tendered to Will J. Tucker, secretary manager of the State Game, Fish and Oyster commission, a statutory body. Tucker decided to stick to his state job but

Gorgeous

BY LAURA LOU BROOKMAN. TOBY RYAN, 19, is a photographic model, posing for photographs to be used in advertisements. Unknown at first, she is now in high demand in the studios, particularly after she is chosen as "The Hillyer Soap Girl." Toby shares an apartment with HARRIET HOEM, another model, engaged to marry CLYDE SABIN whom Toby distrusts. Wealthy TIM JAMIESON shows Toby with attentions for a time, and then asks to forget her. Toby's oldest friend is BILL HILLYER, who works for an advertising agency. She is fond of him, but has never thought of him romantically. JAY HILLYER, president of the Hillyer company, sees Toby posing for some photographs. He takes her to dinner and later she has frequent engagements with him. Clyde Sabin marries a wealthy widow and breaks the news to Harriet in a letter. Toby and Bill reach the apartment to find Harriet weeping by gas she covers, after a serious illness, and goes to the country for a rest. Toby, on her way to a movie one afternoon, meets Tim Jamieson. NOW GO ON WITH THE STORY CHAPTER XXXII AFTERWARD Toby thought she managed very well. If she hesitated for an instant, if her voice was not quite as level as it should have been, there was no sign of disconcertion in her face as she said, "Why, hello, Tim—what a surprise to see you!" "It's a surprise to see you, too," he told her. "I thought you must be out of town. You seem to have stopped answering telephone calls; at least you don't answer when I call." "I'm sorry," she told him regretfully—politely as one is speaking to an acquaintance rather than to a friend. "If you called and no one answered, I must have been out somewhere. Harriet's away, so there's no one to take messages." "Where's Harriet?" "Up in the country. She'd been working too hard and needed a rest." The traffic light flashed red then, and they crossed the street. "Where're you bound for, Gorgeous?" Tim asked. She changed her plans abruptly. She didn't want to say that she was going to a movie to escape the heat. So, instead, she said, "Eighty-seventh street. It's the day for the beauty shop." "Beauty shop? That's the last place I'd say you'd need to go." Once the compliment would have thrilled her. Now Toby knew how easily Tim said such things—and how little they meant. "Oh, there's always the upkeep," she told him lightly. "Tim turned to her appraisingly. 'I don't think you need to worry about the original job or the upkeep, either. As it happens, I'm headed in the same direction myself. Mind if I walk along with you?'" "Of course not." They went on in silence for several moments. Suddenly Tim said, "Oh, by the way, Gorgeous, I've noticed you've taken to decorating the news stands. Decorating them very nicely, too. That picture of you on the cover of — (he named a widely circulated magazine) last week was a knockout." "Thanks. That was one of Durrell's pictures. I liked it myself." "It was a beauty!" Tim said enthusiastically. "And you can take that more than one way." "Oh, yes, factory came easily to him. Why hadn't she understood

## Cisco Section Gets Good Rain Early Today

### Calles As Exile

Saved by deportation from the violent fate that has ended the careers of other former presidents of Mexico, Plutarco Calles is pictured as he stepped from the plane on arrival at Brownsville, Texas, an exile from the country he dominated for more than 10 years. Deliantly he charged the present regime was seeking to establish a dictatorship "on the Russian plan."

### MIDLAND IS DAMAGED BY WIND STORM

Rain, which soaked a wide territory to the west, south and east, but little to the north, began falling this morning at an early hour and recorded one and one-half inches at eleven o'clock with lowering clouds giving promise of more to come.  
The rain fell slowly, enabling the thirsty earth to soak almost every drop that fell, very little runoff being remarked up to the present time. Stock water is badly needed and it is being hoped by cattlemen that the rains will continue so that tanks, and streams may be filled to replenish the depleted water supply, caused by the extended drought.  
Farm operations have been hindered, many not being able to plant and secure stands of corn. Some land in the harder sections of the country is still unbroken and much is in a cloddy condition. Farm gardens, potatoes and feed is not growing, even where a stand has been secured.  
Grain, which has held up exceedingly well also, will be greatly benefited by this rain. There is an increased acreage in oats, wheat and barley, and only slight damage has been reported by the late freeze. With the nice season, grain will begin to bunch out and spread over the ground instead of remaining as a thin stand which dry conditions always cause.  
Pastures are showing the need of rain, but this morning farmers and ranchmen are jubilant. Merchants are rubbing their hands in gratification as they know moisture means more sales, not only to the farmers but to others, who have been halting on account of arid conditions.  
Through the courtesy of Phillip Pettit, telephone superintendent we have placed the extent of the rain fairly well for the morning.  
No rain is reported for Lubbock, to the northwest, none for Breckenridge to the north, slight sprinkle at Mingus to the northeast, small rains at Stamford, Coleman and San Angelo.  
The heaviest rains recorded are at Brownwood and Abilene, where the gauges showed 2 inches late in the morning.  
The report shows as follows: Abilene 2 inches; Albany 25; Cross Plains 1; Brownwood 2; Breckenridge none; Graham 15; DeLeon 1; Dublin 1; Stamford 43; Lubbock none; Coleman 07; San Angelo 5; Colorado 1; Baird 1; Winter 1; Ballinger 75; Sweetwater 15; Ranger, fairly good rain; sprinkle at Mingus.

### Eastland Builds Soft Ball Park

Sponsored by the Fireman's Department with the cooperation of city commissioners and merchants, Eastland will soon have a lighted softball field.  
Work on the project estimated representing an investment of over \$800 has been in progress two weeks and Fire Chief A. W. Hennessee believes the opening will be possible by May 1.  
Eighty-five-foot six and five-eighths inch oil well casings painted in aluminum, point skyward and indicate progress which has been made on the community project.  
The field is located on property deeded to the City of Eastland in the 400 block of North Seaman street. It has been plotted according to national soft ball association rules.  
The poles carry two sockets in which 500 watt bulbs will be placed, giving the field the brilliance of 24,000 watts.  
Lighting of the field was planned by John Hume, lighting expert of the Texas Electric Service company. Permanence was aimed for in erection of all equipment. The poles are imbedded securely in eight feet of concrete.  
Stands constructed of six inch pipe will seat 400 to 450 persons. The fire department which is to maintain the field, plan assessment of a small admission fee.  
One feature of the Eastland field which is attracting commendation is the ample parking space and standing room.  
Beside the many Eastland merchants who contributed to cost of the project, the following firms have either donated pipe or sold, or many both, for the field: Magnolia Petroleum company, Hoffmann & Page, States Oil Corporation, Lone Star Gasoline company and Texas Electric company.  
Majority of the work has been donated by soft ball enthusiasts, but some has been paid.

### Serious Problems Now Facing League In Effort to Bring Peace In Ethiopia

GENEVA, April 16—(UP)—League efforts to arrange peace agreement between Italy and Ethiopia became serious when Ethiopia reported it could not accept the Italian proposals for negotiations.  
Italy denouncing the League's authority, demanded Ethiopia to sue for peace direct to the army headquarters of Marshal Badoglio in his applicant. Peace negotiations then would be held between the two nations in Switzerland with participation baring.  
The Ethiopian representative informed Salvador de Madariaga, of the League's committee of 13 on peace efforts that Ethiopia could not agree.  
The United Press was informed that Baron Popeo Aloisi for Italy had made the following proposals:  
1. Ethiopia must start negotiations following the world war precedent when an armistice was signed by agreement between the allies and Germany.  
2. Italy then would be ready for direct peace talks in Switzerland.  
3. Italy would keep the committee of 13 informed of the progress of negotiations.  
4. The league must guarantee Italy's security against attacks in event Italy agrees to cease hostilities.

### HEAD WOUND SHOWS PATH OF BULLET

The body of J. C. Porter, paper hanger, was found shot to death and the pistol, a .38, lying at his side, just back of the grand stand at the football park about 1 o'clock today, when Chief Police Perdue went to investigate a rumor brought to the station that a man was lying in the park.

J. V. Picher, Jack Stephenson and Blake Stephens, three school boys, going home for lunch at noon reported the dead man to the police, who thought they were only joking but as soon as the police car came in, went to investigate.  
Judge Joe Wilson after examining the body at Green's Funeral home, said he would render a verdict of death from self-inflicted wounds. The wound which was said to have caused Porter's death was about 3 inches behind his right ear and came out about two inches further back, just barely touching the kitchen of his brain. The body was covered with mud and his tracks were full of water thus showing that his death was before or during the rain, which began falling about five this morning and ended about eleven o'clock.  
Mr. Porter was not living with his family at the time, it is said, they having moved from Cisco some time ago.  
The children, a daughter, Jacqueline, about 17, and a son Jerry, 14, are thought to be in El Paso.  
W. F. Walker, who often talked with Mr. Porter, a member of the First Baptist church, talked with him early this morning but had no idea that there was anything wrong with him. Mr. Porter had been to East Texas hunting for work and mentioned going to the west in order to secure employment. Had had no work for some time.  
L. F. Flemming, ice man here, is said to be a brother-in-law of Mr. Porter but Mr. Flemming could not be reached over the telephone.

### JAYCEES VISIT CITY DADS IN REGULAR MEET

Discussing cleanup plans with a committee from the Jaycees and canvassing the returns and declaring the city election, the dads transacted routine business and deferred reorganization of its self until the meeting on April 28.

A committee from the Junior Chamber of Commerce met with the city commission Tuesday night and made suggestions regarding cleanup and garbage matters. A declaration of full cooperation was given by the commission.

Health Officer Dr. W. P. Lee made his regular report to the body. Fee-Esta park was placed in charge of Joe Clements, street superintendent to be kept as other city parks. Signs for the approaches to the city over highway 1 and 23, were ordered painted and installed with the statements of a 20-mile speed limit for the city limits. This matter will be handled by the street department. There are four approaches.

Dallas Wales said this morning in connection with the visit of the body of which he is president that the Jaycees were shown every courtesy and expressed himself as well pleased with the cooperative spirit shown by the commission.

### LETTERS FROM OUR READERS

Cisco Daily News, Just thought I would blurt out a little.

Well this is Thursday night the 9 and another sand storm raging and this wind is about as void of water as the Townsend old age pension plan is of logic. While thinking plans and setups, lets take one little peek at this land (discriminating) or generally known as the conservation program. It is planned to use the same base acreage as of 1935 under the tripple A setup and if that be so, then some of us old razor backs down here in these sand jacks will likely sit down rather than up. I am truly acquainted with the farming system in central Texas, I know that for the last twenty years those people planted on an average 80 per cent of their farm land to cotton, and did not make any reduction until this government paid those people a nice rent for their retired cotton acreage. Now lets see, out of 80 per cent in cotton, to reduce 25 per cent would still leave that brother with sixty acres in cotton. All right now here comes those sand jack razorbacks

with from no cotton to 35 or 40 per cent of his farm land in cotton; yet he is required to at least reduce that 25 per cent, in order that he may be eligible to collect as rent about two dollars per acre for his retired cotton acreage. More over should you run here and yonder, to sign this and that as we did last year, it would necessitate the renting out all the feed land to pay running expenses and loss of time. Now I am to some extent acquainted with at least a small portion of my dense ignorance. But as for myself I shall not sign no kind of paper that cuts my cotton crop to where I am unable to buy one box of De-witts early riser. While at the same time the central Texas man is profiting at our expense. It looks like a conglomeration mess to me, that we are not due just consideration. Why not all cotton farmers plant not more than 30 per cent of their farm land to cotton. Boys that would reduce a plenty of oil but that would never do. That would make Mr. Blackland, lord sore. You know he has a wonderful farm, and a little political pull. We gota handle him judicially you know. Some may ask hasn't the new farm setup put every thing up? O yes, it has, but so high the most of us are naked and under nourished. I believe I had rather have 30 cent wheat than to have none. I'd prefer 3 cent hops to no hops at all. I prefer 4 cents cotton instead of no cotton. So that where I set, I am trying to stay out here on Mr. Will Poe's farm.

TOM LITTLE.

Local farmers in Cisco trade territory are divided as to whether the pecan crop is killed. Some farmers questioned think that pecans were injured by the freeze, but it develops that they do not have pecan trees themselves. Others who have trees are of the opinion that they were not injured.

Dr. Charles Hale, pecan enthusiast in Cisco says his pecans were not injured but his English walnuts were killed.

Other sections of the country have not been so fortunate, which fact will make for a better market here. Abilene's pecan crop has been virtually destroyed, according to local growers.

From 75 to 90 percent of the trees were already in bloom when the freeze arrived Monday night, killing both fruit buds and blooms. Only native trees withstood the freeze, said C. C. Sellers, E. L. Harwell and A. J. Shirley, Abilene growers.

Reports indicated that what promised to be a bumper crop has been killed as far south as San Antonio, but Cyde orchards will yield fifty per cent of the crop if conditions remain favorable. With the exception of berries and grapes, other Cyde crops were killed.

### Cisco Choral Club Wins Second Place

Eighteen members of the Cisco High school Choral club under the direction of Miss Ella Andrews, represented Cisco Saturday in a Texas interscholastic music meet at Mary-Hardin Baylor college, Belton.

Fifteen choral clubs were entered in the contest composed of classes A and B. Under class A, Cisco was awarded second place with Waco first. Miss Majorie Ruth Hoyt won first place and violin scholarship.

Mrs. W. M. Hoyt accompanied the club as pianist. Girls of the club who represented Cisco were: Misses Gene Alexander, Frances Gorham, Mildred Curry, Harry Curry, Marina Jacobs, Opal Sutton, Dorothy Slaughter, Sue Witten, Ruth McKissick, Jane Kiser, Dorothy Sterling, Louise Stenhouse, Dorothy Pean Walker, Norma King, Alice Estel Spencer, Myra Jean Tompkins, Betty Baginn and Lillian Farris.

### SHREWD BUYING NOTED

FINDLAY, O. — (U.P.) — A pair of size 39 shoes, costing \$85 was made here for Robert Wadlow, the 18-year-old giant of Alton, Ill. The shoes, probably the largest ever made, were returned, however, because, Wadlow said, they "pinched" his feet.

### Pecans Safe Here Killed In The West

Local farmers in Cisco trade territory are divided as to whether the pecan crop is killed. Some farmers questioned think that pecans were injured by the freeze, but it develops that they do not have pecan trees themselves. Others who have trees are of the opinion that they were not injured.

Dr. Charles Hale, pecan enthusiast in Cisco says his pecans were not injured but his English walnuts were killed.

### Mother of Cisco Woman Dies Sunday

Mrs. John D. Waring, mother of Miss Laura Lu Waring, died Sunday morning at 10 o'clock of a heart attack in Dallas where she has been under medical care for the past four months.

The death of Mrs. Waring came as a shock to her children and friends, as her condition lately appeared to be improving. She was 63 years of age and is survived by her husband and four children. Her home is in Comanche where funeral services were held Monday afternoon at 5 o'clock at the Episcopal church. Survivors are the husband, Hayne Waring of Dallas, Mrs. Tom F. Reece of Dallas, J. D. Waring Jr. of Comanche and Miss Laura Lu Waring of Cisco, private secretary of Judge F. D. Wright.

Several Ciscoans who attended the funeral services were: Mr. and Arlington McGinnis, Mrs. Homer McDonald, Miss Ester Hale, Mr. and Mrs. F. D. Wright, Mr. and Mrs. R. N. Clark, Mrs. Arthur Cunningham, Miss Catherine Cunningham, Mrs. W. E. Spencer, Mrs. Dan Smith, Misses Ida Mae Collins and Lucine Lewis.

### ESTIMATED 7,000 VOTES IN COUNTY

With Eastland, Ranger and Cisco having votes estimated at 4,539 and other towns and communities with poll strengths believed highest in several years, indications Tuesday pointed to a record vote in the county-wide election Saturday to ban or legalize 14 per cent malt and vinous beverages. It is estimated there are 7,000 votes in the county.

Eastland county allowed sale of 3.2 beer previous to the Jan. 3 election in which it was banned by a vote of 1,235 to 1,038. Beer proponents took the controversy to court unsuccessfully.

The January 3 election was called after the Supreme Court held a wet precinct could not legally exist in a county dry prior to prohibition.

The Saturday election was called by commissioners' court after it had been petitioned by a sufficient number of citizens.

Eastland, it is estimated, has 1,705 votes, including 105 exemptions. Cisco is conceded having 1,632 votes of which 75 are exemptions. Ranger is believed to have 1,202 votes, 52 of which are exemptions. The tax assessor-collector office has not completed tabulation of poll tax payments.

Drys have reorganized and it is understood proponents for the legalization of the 14 per cent beverages have done likewise.

Election judges appointed by Commissioners' Court Feb. 11 to preside this year are as follows: (First named is presiding judge and the others associate judges.)

*Is any oil any different?*

**Change to the different oil... alloyed**  
and be kind to your wallet

We'd rather see you change to any fresh oil, before we'd have you risk watery Winter dregs in your crank case any longer. Any fresh oil is better for you than the old.

But when you change to Germ Processed, don't think it just to change your brand of oil; do it to change your whole brand of lubrication!

That's how different this alloyed oil is. And here's why: the patented Germ Process of alloying oil gives it an "affinity" for metals... not only for steels and iron, but for every type of bearing metal now in use no matter how carefully it must be lubricated.

With alloyed oil actually merging into every inch of engine surface, and with the high-durability Germ Processed oil-film also in between the moving parts, your engine is doubly summer-safe. You can stretch along on days that shimmy with heat. But your oil indicator needn't jump, and your oil level needn't slump. Not with this different, alloyed oil... High time for you to say "Drain," but be selfish—say "Germ Processed." Continental Oil Company.

## RANDY PLANS HOME COMING FOR SATURDAY

Randolph home coming, Saturday, April 18, for this year will differ materially in some respects, said E. B. Isaacks, from that of former years.

There will be no barbecue as has been the custom, but baskets will be brought by friends, students and faculty for the noon hour, following athletic events during the morning.

Lennie Shockley, president of the ex-students organization, said a meeting of this body would be held at the college auditorium at about 7 p. m. At this gathering there is to be no set program, but volunteer talks by ex-students who may be in attendance.

## Lions Entertained By Music and Talk

Miss Martha Joe Pass was the entertaining artist at Wednesday's luncheon program, brought by Lion Jack Anderson. Reports by committee members on activities of the club were made and Rotarian P. W. Campbell, the guest of R. C. Giles, talked on public service clubs.

Horace Condie made a report on the Weatherford Lions entertainment last Friday evening attended by a number of Lions and their wives, at which the German band of Cisco won second in the program contest.

Charles Sandler, whose committee made the Lions Easter egg hunt such a success, reported on that activity. More children were handled this year than last and the event was reported well worth the money expended.

P. W. Campbell, former Rotarian of Cisco but now of Abilene, made a short talk and said among other things that in his experience, service clubs talked too much about what they had done and did too little.

He was especially interested in safety in automobile driving, he said, because the death rate was alarming.

IN LOVING MEMORY OF WILLIAM JOSEPH HUSSEY, JR.

In memory of our dear William who passed away three years ago today. Three years ago dear William we last saw your loving face. In this world there is no other. That can ever fill your place. The happy hours we once enjoyed. How sweet the memory still. But death has left a vacant place. No one can ever fill. God called him home it was his will. Peace be thy rest, Dear William. It's so sweet to breathe thy name. In life we loved you dearly. In death we do the same. On a lovely silent grave. Beneath is one we loved so dearly. Yet his life could not be stayed. for Digestion's sake... smoke Camels BARONIAL DINING at the Winter Place Tavern in Boston. Theodore Roosevelt, Enrico Caruso, Henry Cabot Lodge praised its famous fare. Here Camels reign supreme. Nick Stuhl (left), maitre d'hotel, says: "Camels have the gift of making great dishes more enjoyable. Camels are the most popular cigarette at the Winter Place Tavern." MEASURING THE EFFECT on digestion of smoking Camels (above). Delicate machines measure the flow of digestive secretions. The evidence shows that smoking a Camel increases the secretion of digestive fluids. The importance of this extra secretion in facilitating digestion is a matter of common knowledge. So smoke Camels... for digestion's sake...and for their costlier tobaccos. Camels set you right! Smoking Camels Promotes Enjoyment of Good Food and Stimulates Digestion Our nervous modern life often affects digestion. Mental effort—physical rush—slow down the flow of the digestive fluids. Smoking Camels restores and increases this necessary flow. Scientific research definitely confirms the fact that Camels encourage digestion in this pleasant way. Enjoy Camels as much as you like. They never frazzle your nerves. WORKING AGAINST TIME. Bob Duffey, steam-shovel operator, says: "Work comes first—eating, second. You grab a bite when you can. But trust Camels to make even a quick meal taste good and feel good." PARACHUTE JUMPER. Miss Uva Kimmey says: "My life depends on making no mistakes. I smoke Camels for digestion's sake. They encourage digestion in a pleasant way. Camels set me right!" Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

The appalling floods that swept over eastern states during the middle of March caused the American Red Cross to take under its care more than 100,000 families in thirteen States. Pennsylvania was hardest hit, and in the cities of Pittsburgh and Johnstown the Red Cross either fed, sheltered or clothed 117,000 persons. The suffering was intense, because added to deluges of flood water, came rain, snow and intense cold.

Within a few days the Red Cross had more than 200 relief workers and 200 Red Cross nurses in all of the communities in the thirteen States which had suffered from flood waters. Admiral Cary T. Grayson, Chairman, notified President Roosevelt, who is President of the Red Cross, that a relief fund of at least \$3,000,000 would be needed. ### WOOD COUNTY Fruit Crop Considered Lost

QUITMAN, Tex., April 11—(UP)—A checkup of the damage caused by frost and other crops by the freeze and frost was estimated at \$50,000, as the entire fruit crop in every section of Wood county was considered as lost.

H. V. Puckett of the Puckett Fruit Farm at Hainesville states that their 3,000 trees of fair bearing peaches were loaded with young fruit and the entire crop will be a loss.

The early Irish potato crop, estimated to be around 900 acres, received a serious setback as the tops were bitten off at the ground level and the vines were injured and the yards of the country present a pitiful sight.

The East Texas dogwood trees, which have been in full blossom for the past several days, are now in mourning, as the frost did not slight them.

The freeze and frost was followed by a severe dust storm which has been raging throughout the county.

Little George Kent, age about 10 son of Mr. and Mrs. Marvin Kent of 709 West Eighth street was bitten Friday afternoon by a dog belonging to J. J. Beck of 711 West Eighth street, necessitating the taking of six stitches in the boy's upper lip.

The dog a St. Bernard, recently acquired by Mr. Beck, was tied at the back of the store where Mr. and Mrs. Beck were working in the garden. Being new here, the dog had shown signs of temper when approached by children and they had been warned to keep their distance. Little George, being a lover of dogs, did not fear, and approached too closely and was seized by the dog.

Police sent the head of the dog to the Pasteur institute at Austin for signs of rabies. George is up and playing about. It was reported Saturday afternoon.

### Daisies Deal Death To Billions of Insects

Strange as it may seem, a beautiful red daisy closely related to our common field daisy with its orange disc center and white petals (she loves me—she loves me not) is the deadliest enemy of house flies, mosquitoes, moths and other perennial pests. Contact with this colorful field flower instantly gives the insects a nervous breakdown (no fooling!) and within a few seconds, unable to forage for food or water, they starve to death.

"Pyrethrum" scientists call the deadly daisy essence, which they now use as a powerful killing constituent in insect spray. And, today, when flies, roaches, moths or whatnots get on the harassed housewife's nerves she goes them one better. She hits for the spray gun and gives the flies a swift and deadly case of nervous prostration.

It was a Jugo-Slavish hausfrau who accidentally discovered the insect-killing power of the pyrethrum daisy when she picked a bouquet of the bright red flowers and put them on a table in the house. Later she noticed a great number of dead insects around the withered bouquet. Subsequently, small European manufacturers ground the flowers into a fine powder and distributed it about the continent as a dust to be blown at insects by means of small bellows. More recently, pyrethrum daisy growing has become an agricultural industry in various countries of the Gulf Oil corporation of Pennsylvania. Gulf Refining company imports vast quantities of the death-dealing yellow dust for use in its insect sprays.

According to Dr. William A. Sinnanton, entomologist at Gulf's Research Laboratories, the killing action of pyrethrum is very rapid, when mixed in proper quantities with an especially refined hydrocarbon carrier and sprayed as a fine mist into a room or cupboard. When the fine mist comes in contact with an insect, it penetrates into the insect's nervous system, destroying the nerve cells, causing paralysis. Within a few seconds death results from starvation. The organs and functions of insect bodies are decidedly different in many respects from those of the human body and those of animals and birds. Hence pyrethrum, so deadly to flies, mosquitoes, roaches, moths and other insects and their larvae, has no effect on human beings or their pets.

So if the dog or the cat or "the old man" gets on the housewife's nerves, the Gulspray gun won't do much good.

### Ranger Hotel Man Injured in Wreck

J. C. Shaw, manager of the Paramount Hotel of Ranger, was critically and possibly fatally injured in an automobile accident three miles southwest of Strawn early Monday morning. He was taken to the West Texas Clinic and Hospital in Ranger, where at mid-afternoon Monday it was reported that he had little chance for recovery.

According to friends of the accident victim, Shaw had been to Mineral Wells to visit friends and was returning to Ranger at the time of the accident. At the bus stop near Metcalf gap he encountered a woman who was having trouble in driving her car, so he offered to drive her on to Ranger.

Tom Hicks, who was at the bus station waiting for a bus, drove Shaw's car for him. When the car overturned about three miles from Strawn on the road toward Ranger, Hicks helped the passengers from the automobile, returned to Strawn in an ambulance and aided in getting the injured man back to Ranger.

At the West Texas Clinic and Hospital, where Shaw was taken, doctors said that the entire left side of his face had been torn away where he was struck by one of the railings as the car turned over. The woman and her two small nephews, who were in the car with Shaw, were uninjured. At Ranger she was placed in the city jail charged with being drunk and was released late Monday morning upon payment of a fine.

### Accused in McBee Case Under Bond

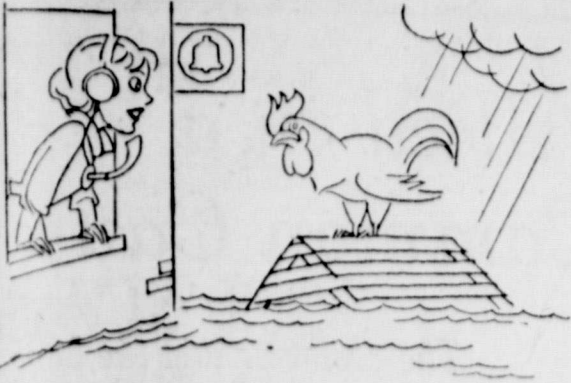

Lynn Smith, accused in an accomplice in the H. L. McBee death at Rising Star May 1, 1933, was at liberty Monday under \$1,000 bond. Frank Jenkins, appointed by 86th district court as Smith's attorney arranged bond.

Smith's bond figure was reduced from \$3,000 to \$1,000 March 30, after 86th district court dismissed a murder allegation in his indictment.

Lynn is the brother of Jack Smith, accused of murder in the McBee death, who was found in his jail cell recently with his throat slit.

Raymond Henry is under a 50-year sentence in the McBee death given upon his conviction by an 86th district court jury April 5.

Mrs. Henry, former wife of McBee, is scheduled to go on trial May 12 upon an indictment alleging murder of the highway worker.

## Chicken dinner to starboard!

"Here comes a rooster, floating by on a chicken coop! The repairman is rowin' out to catch him—we'll have chicken stew for supper!"

In the flood-swept little river town, only the telephone operators remained, keeping the lines open for levee workers fighting the angry torrent. And at sundown, by long distance, the marooned office reported all well—and a chicken dinner in sight!

Good times and bad, it takes people to give you telephone service—men and women with the ability to do a good job in fair weather, and the courage to stay at their posts when emergencies threaten.

The entire specialized organization of the telephone system—this company, the expert staff of American Telephone and Telegraph Company, Bell Laboratories, Western Electric—exists for one purpose only:

To help the men who patrol the lines, and the women who work at the switchboard, do a better job of giving you good, economical telephone service.

### PRACTICAL COOKERY

Department of Home Economics, Texas State College for Women (CIA).

**DENTON, April 14**—Salads should always be fresh and crisp. At this time of the year a greater number of the vegetables seem more suitable for use in raw salads than at any other time, so let's use them in abundance.

**BREAKFAST:** Fresh strawberries, cream, scrambled eggs, hot biscuits, milk, coffee.

**LUNCHEON:** Cold sliced ham potato cakes, fresh spinach salad rolls, apple sauce.

**DINNER:** Calf's heart with vegetables, steamed rice, cauliflower salad rolls, apricot tart, coffee.

**BREAKFAST:** Steamed rhubarb crisp bacon, toast, milk, coffee.

**LUNCHEON:** Cream of spinach soup, crackers, steak sandwich, cucumber salad, tea or milk.

**DINNER:** Beef a la Shopleigh stuffed baked potatoes, fried parsnips, leaf lettuce with sour cream dressing, rolls, lemon sherbet, coffee.

**RECIPES**  
**SPINACH SALAD:** Select tender center leaves of spinach. Wash carefully and shred. Marinate 30 minutes in French dressing to which has been added finely chopped onion.

**CAULIFLOWER SALAD:** Slice firm raw cauliflower in thin slices. Combine with finely chopped celery green pepper, and carrots. Top with French dressing and a sprig of parsley.

**CUCUMBERS IN OIL DRESSING:** Peel and slice cucumbers in

paper-thin slices. Soak several hours in cold salt water. Make a dressing of 1-2 tsp. salt, 1 tsp. sugar, 1-4 cup vinegar, 1-2 cup salad oil and 1 small onion chopped fine. Drain cucumbers and cover with dressing. Let stand two hours or more before serving.

**SCOUR CREAM DRESSING:** Mix 1 cup sour cream with 1 T. vinegar and salt and pepper to taste. Dip leaf lettuce or other salad green in salad oil. Remove and dress with the sour cream mixture.

**CALF'S HEART WITH VEGETABLES:** 2 calves hearts, 2 cups stewed tomatoes, 1 cup boiling water, 2 cups sliced carrots, 1 cup peas, 1-2 tsp. salt. Wash hearts thoroughly to remove all the blood, and cut out any arteries. Sprinkle with salt pepper, and flour and brown in a small amount of fat. Add tomatoes and boiling water. Bring to the boiling point. Cover, set aside and simmer until almost tender—about 1 1/2 hours. Add sliced carrots, peas and salt and cook 30 minutes longer. Thicken the stock with a little flour mixed to a smooth paste with cold water. Season more if necessary.

**BEEF A LA SHOPLEIGH:** Slice leftover roast beef and arrange on service platter. Cover with a combination of sliced celery hearts, diced carrots, chopped sweet pickles, and olives.

### HEAD SHOWS NO RABIES SIGNS SAYS REPORT

A telegram stating that the head of the Beck dog sent to the Pasteur institute at Austin showed no signs of rabies, was received by Cisco police Sunday morning, and thus set at rest fears of Mr. and Mrs. M. L. Kent, parents of little George who was bitten by the dog Friday.

Neither Mr. Beck nor the police thought seriously that he dog was mad but every precaution was taken lest there might be danger of rabies.

George Kent, aged about 10, and a neighbor of the Beck's being a lover of dogs, approached the St. Bernard dog, tied at the rear of the store on account of being just newly acquired, and was seized and badly lacerated about the mouth before Mr. Beck could beat the dog off.

Six stitches were taken in the child's lip but he was reported playing about the house Saturday.

"Of course I regretted very much to have the dog killed," said Mr. Beck, "but I wanted to do every thing possible to prevent serious results." "I know how parents would feel about a thing like that, and I like to do unto others as I would want them to do to me," he continued.
