Can't Hear --- But Can They?

A little boy whose trousers have been thoroughly dusted by his father is wondering how it is that a deaf person who cannot hear anything one minute can hear everything the

He was teasing his grandmother for a nickel to buy an ice cream cone but she couldn't understand him. Over and over he shouted his request and over and over she pleaded inability to hear; then the little boy in thoroughly exasperation said in a very, very soft low tone "You durned old fool you!" Whereupon his grandmother snapped "What's that you said, you bad, bad boy? I'm gonna have your paw whup you!" And she did.

There are folks who are decidedly deaf but who can hear surprisingly well when on a train or street car, particularly if the sound comes from in front of them. A young fellow had a desperate case on a girl whose mother did not approve of him a little bit. One day as the mother and the girl boarded a street car the young man got on too. The sweeties took a seat together and the mother took

a seat behind them. The young couple mapped out a plan of elopment for that night. He would go down town and get a license; she would go home and pack up; he would come for her in his a light extension ladder which he would put up to her win- like Texas, there is far more interflivver about one o'clock in the morning; and bring along dow; she would climb down; and they would whisk them- est in the May state convention of success of the national ticket. selves away to a justice of the peace, rout him out of bed, get married, and let the rest of the world go hang.

Just as they had completed these details the mother poked her face in between their faces and said coldly, "I wouldn't do all that if I were you.

A group of us sat down to dinner one day at a table presided over by two old maid sisters, both of whom were quite deaf and who sat at opposite ends of the board. We bowed our heads for the grace; then we heard a strange bable of tongues-each of the old maids was asking a different blessing at the same time.

In the days when the milkman ladled out milk and water from a big can and when folks who were hard of hearing carried ear trumpets, a deaf old man stepped up to a milk wagon, put his trumpet to his ear and asked "What time is it, please?" FUNDS TO CASH BONDS OF VETS

to cash the bonds that will be issued to veterans of the World War were made available to the Treasury by the signing of the Independent Oftices Appropriation Bill by President Receivelt. The bill carried \$1,730,000,000 with which to eash the 25 years of age, 66 to 74 inches in Adjusted Service Bonds. This amount, along with other moneys ficient to pay every bend that is isrow on hand, is expected to be sufsued should each veteran demand cash at once. It is not thought that such an eventuality will occur. Mcre than 2.000,000 applications

have been received by the Veterans' Administration for adjusted service bends and additional applications are being received at the rate of approximately 100.000 per week. The lead of new applications is steadily Kokomo 4-H Boys declining. The War Department reperts, however, an increase since passage of the full payment act in new applications for certificates available, are tumbling over themselves to make application.

PLANS HER KITCHEN

HER FIRST STEP IS TO REPLACE HER OLD RANGE WITH A MODERN GAS RANGE

"MY Old-Fashioned Range made my kitchen so draband unattractive I was ashamed to have my friends see it. Worst of all, it was so unhandy and inefficient it kept me tied down so close cooking. I had little time for anything

"Then I read about Magic Chef and its many advanced features. I went down to see it and fell in love with it. It was just what I needed to start making my kitchen modern and attractive. I realized, too, how it would simplify the task of preparing meals and leave me more time for home-making, selfimprovement and recreation.

"I bought it and now every day I find new delight in my Magic hef gas range. It cooks and bakes like magic with a speed, convenience and certainty that make me wonder how I ever got along with fit your own requirements permy old range.

"My Magic Chef does almost all the work itself. It lights itself-just v turning on the gas. The Red Wheel Lorain oven regulator holds the exact oven temperature I want and cooks a whole meal unattended while I am away shopping or visiting. Now I have more leisure, and the family says my meals are better cooked and more delicious. My kitchen is cooler and cleaner, and I'm saving money on gas bills and food."

Mrs. Modern has mentioned only a few of the many modern advantages of Magic Chef-no other range of any type will give you more. Test this claim. Come to our store today and let

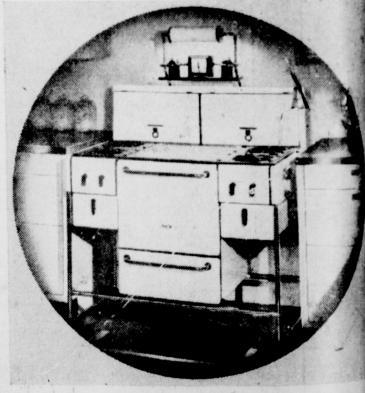

us show you the many time and labor saving features of the modern Magic Chef, the most famous and largest selling gas range in America. There are many models from which to choose. You will find a style, size and price that will
