

# Mr. Muleshoe ...

By Forbes

A. J. Gardner, upon close cross examination by ye editor, deposes and says: It won't be long until a move will be underway for free delivery service in the city of Muleshoe. Principal things required are sidewalks and adequate streets for night special delivery.

The town is large enough, has enough population, but when the inspectors go to make their survey these are two things they will check on. Sidewalks don't have to be concrete, but they have to be designated and accessible for the postman.

Dad gum, we have had more comment on our dissertation on the new road, than on anything we have written in many, many, many months. Jeff Peeler, the light company man, said he wouldn't let nothing interfere with his driving over this new road. I hear Mr. A. P. Stone, one of our first citizens said: "The fellow is sure right. It is a fine drive, has plenty of beautiful scenery." Course, he wouldn't brag on me, not to my face, for no amount of money. We have had many, many other comments.

Well, it IS pretty around that drive and doggone, I have some good news to tell you about the possible development of a Bailey County lake for fishing and picnics, and resorts and so forth. But it ain't for publication, not yet. Wait yet a few months and we will know for sure.

Back to the subject: I mean it when I say there is an awakening as to the scenic possibilities of Old Bailey County. Any number of persons have talked to this writer about it. Let's begin to think that perhaps we can here develop areas that are suitable for tourist attraction. Let's think about it, just for a minute.

Clyde Holt: Some of our fine natural lakes have so much alkali in them that no fish would enjoy living in them.

All right, killjoy.

Note to the members of the Jay-Cees, Muleshoe, Texas:

Nothing, no not even anything, has so much impressed the citizens of Muleshoe as your successful completion of the street renumbering and renumbering job you have just finished. The people are overjoyed.

Note to members of the Legion Auxiliary and the American Legion of Muleshoe:

Nothing has so impressed the citizens of the surrounding territory as your formal opening of the new Legion home in Muleshoe Sunday. It is the best finished building in Muleshoe, bar none. And it will serve many community purposes. I hear one or two organizations already have rented it for occasional sessions; they couldn't possibly find a better place for their functions. I predict there will be less and less trips to nearby towns for a suitable meeting place.

The traveling man said: I stay in Texas a year or so at the time then go to national headquarters. There is a room where about twenty young lady stenographers work and when they see me they push back their papers, relax and get ready to hear more about Texas. I took my mechanical pencil, put the end at Texarkana on the map and the point exactly touched El Paso; the girls' eyes popped wide open when I put the end of the pencil on New York and the point touched Grand, Newfoundland; a town in Michigan and a town in Florida. I don't have to tell them that Texas is big any more.

## J. L. Alsup Of Muleshoe Wins \$1,000 In Kaiser-Frazier Contest

J. L. Alsup of Muleshoe won the contest sponsored by the Kaiser-Frazier Corporation, for writing the best statement of 25 words on "The Kaiser is the Lower Priced Car of the Medium Field ... Because"

Mr. Alsup is the proud owner of a new Kaiser De Luxe Executive green sedan, which he purchased from the Batson Motor company, Littlefield Kaiser-Frazier dealers, on April last, when he entered the contest.

There are 145 Districts in the State of Texas, and only one entrant out of each District is eligible to receive \$1000 prize. Mr. Alsup was the winner in this District.

Entries were judged on the basis of originality, interest and aptness of thought.

In the above picture, T. I. Batson, owner and operator of Batson Motor Company, is shown handing the \$1000 check to Mr. Alsup ... his prize in the contest.

Some of the statements made in prize winning letters included: "The Kaiser is the lower priced car of the medium price field ... Because—The Kaiser gives you more miles per gallon, more performance per mile. Because—The Kaiser gives you the most efficient transportation, with unparalleled comfort. Because—All of the features that make the Kaiser a lower priced car have been proved by billion miles of owner driving. Here is the new car which gives you the assurance you can get only through proven features which have demonstrated their value. Because—With every Kaiser or Frazier you buy, you get the service afforded by more than 4,600 dealers in the United States. Wherever you go and whenever you go, Kaiser-Frazier service is there for you. This means, again, lower cost of upkeep and better conditioning of your automobile. Because—When you buy a Kaiser, you are buying the automobile—not an imposing and lengthy list of unwanted accessories. You are not forced to accept many dollars worth of extra equipment. Because—You will get a good price for your old car. Your Kaiser-Frazier dealer knows that his future is assured only when you have had full opportunity to prove Kaiser-Frazier superiority to yourself. He wants you to be driving a Kaiser or a Frazier. Mr. Batson has been in the motor business for 15 years, and at present time, besides the local automobile establishment, he operates the Batson Motor Company at Littlefield.

IN PLAINVIEW Mr. R. E. Herrington was in Plainview on business Monday.

Bailey County exceeded its quota by 132 per cent in the Opportunity Drive for the sale of Series E Savings Bonds.

Total sales were \$48,750.00, as compared to the county quota of \$21,000, according to E. R. Hart and Jesse Osborne, county Savings Bonds co-chairmen. They received the final report of the drive today in a letter from Nathan Adams of Dallas, chairman of the Treasury Department's advisory committee for Texas. Only 10 counties exceeded their quota in larger per cent than Bailey.

Harry Owens of Dallas, state director of the Savings Bonds Division of the Treasury Department, said that the Opportunity Drive was an outstanding success throughout the state also. Sales for Texas were \$46,835,896.75, or 125 per cent of the state quota of \$36,950,000. The drive was held throughout the nation from May 16 through June 30, with bond purchases through July 18 being counted in the final totals.

Mr. Owens said that Texas sales during the drive were \$3,293,930.59 more than Series E sales during the similar period of 1948.

Mr. Adams described the Opportunity Drive as "the most successful Savings Bonds campaign since the war" and praised the county chairmen, his committee and other local volunteers "for the fine success you have achieved in your county".

He said that results of the drive indicated a sharp increase in the number of employees buying through the Payroll Savings Plan where they work and in the number of persons participating in the automatic Bond-A-Month Plan at their banks.

"This drive has been proof that increasing thousands of our citizens are recognizing thrift as the surest means to economic security," he said. "At the same time, our business and civic leaders are daily becoming more aware that the Savings Bonds program, instead of being merely a wartime exploit, is a powerful and continuing force for stabilizing the business and economic structures of the state and nation."

"Consequently, throughout the state the finest kind of cooperation for the drive came from county Savings Bonds committees, business management, banks and other financial institutions, newspapers, radio stations, organizations and clubs, and just plain, every-day citizens.

"I think the people of Texas can be proud of their accomplishment in this drive, not only in the large sales total but especially in the increased financial security that their investments in Savings Bonds give to them."

The most modern kitchen equipment was used; there is a central heating and air conditioning system, and special donations of several members enabled the Auxiliary to have venetian blinds in place on all windows when open house was held Sunday.

Already several organizations have signified their intention of renting the building for their occasions, and it is believed that the home will be of great value to the community. People of the whole section have cooperated with the ex-service men and their ladies in making this fine addition to Muleshoe possible, and its completion has brought a full realization for the dreams held by the men of both wars.

Funeral services will be held Friday at 2:30 o'clock at the First Baptist Church here. Muleshoe Funeral Home has charge of arrangements and interment will be in Muleshoe cemetery.

Rev. Ernest Houlette of Friona will officiate.

**Wheat Mills Are Offering Premiums To Growers Of Best Milling Grain**

Flour mills desiring to pay the wheat grower for his greater percentages of strong gluten wheat and to stimulate continued improvement are announcing a schedule of premiums for wheat of the best milling and baking varieties. Each mill will make its own schedule public, but there is sufficient similarity to make possible a general announcement of the premiums according to K. E. Soder, Director of the Texas-Oklahoma Wheat Improvement Program.

Central Oklahoma mills are taking the lead on this premium basis and include the Okeene Milling Company at Okeene, The Canadian Mill & Elevator Company at El Reno, and the Acme Flour Mill at Oklahoma City. Other mills are considering this basis and will possibly make an announcement later. The wheat will be bought on the basis of samples submitted in advance which will be analyzed by a disinterested variety expert and must be 95 per cent or better true to variety. The only varieties covered in this schedule include Comanche, Westar, Tennard, and Turken because they are the strongest gluten of the recommended varieties. The samples must test 12 per cent protein or better and delivery must be on a specified date so that the premium wheat may be kept separate from the other wheat in the mill. The premium will be 5 cents per bushel to start with and will be paid from August 1, 1949, to April 30, 1950. These same mills advise that they will not knowingly accept wheat containing over 10 per cent Red Chief or Chiefkan.

In Texas the only premiums currently being offered are being paid by the Morrison Milling Company at Denton, Texas. These Morrison premiums are 1 cent per bushel from 80 to 89 per cent good varieties, and 3 cents for 100 per cent pure wheat of the recommended varieties. There are no qualifications on the protein or time of delivery at Denton. The Universal Flour Mills at Fort Worth and the Arrow Mills at Houston have advised Mr. Soder that they are not accepting any wheat containing over 10 per cent undesirable varieties. It is understood that the Arrow Mills at Houston have advised Mr. Soder that they are not accepting any wheat containing over 10 per cent undesirable varieties. It is understood that the various units of the Tex-O-Kan Flour Mills and the Burrus Elevators are operating on the same basis. The management of the Harvest Queen Mill at Plainview, Texas, have advised that during harvest, 1950, they

will not accept Red Chief or Chiefkan wheat at any price.

The acreage of undesirable varieties in Oklahoma and Texas has now decreased to a point where Mr. Soder is advising the flour mills that they can buy plenty of wheat for milling purposes without taking into their plant a single grain of these undesirable varieties. The government loan and government purchases for overseas shipment have disrupted the wheat marketing picture to the point where the true value of the varieties is not reflected in the local market prices. This announcement of premiums for suitable farm stored wheat is expected to repay farmers for their added efforts and to encourage further improvement. Farmers desiring to collect these premiums should submit samples through their local elevators or mills to determine the exact premiums they can secure, concludes Mr. Soder.

## Teen Town Talks:

Friday night, July 22, Teen Town gathered up their records and record player, filled a car full of good things to eat and took off for the sandhills for a hayride and wienier roast. Mr. and Mrs. Clyde Holt and Mr. and Mrs. Bob Herrington went along as our special guests.

Everyone liked the hayride so well that we are planning a swimming party in the near future to add a little variety to the program.

Tuesday night, July 26, we had six more new members to join. This makes us a grand total of 95 members. We had approximately fifty of these members present for the meeting Tuesday night.

We are going to try building booths along the side of one wall of Teen Town and see how it turns out. Tuesday night a booth-building committee was appointed to

study conditions and draw up plans for the booths. It is composed of John Dee Whipple, Howard Tate, Gene Harvey, Kenneth Lovelady, and Charles Taylor.

We have found us a market for scrap paper and we are going

**WANTED**  
All your old magazines and newspaper.

Teen Town is starting a scrap paper drive to raise money. Every Saturday afternoon someone will go around and pick up all your old magazines and newspapers if you will have them tied in a bundle lying out on a curb. We will collect it all over town every Saturday so be sure and save your scrap paper. If you live out of town bring it to town with you and deposit it on the curb. Teen Town will appreciate it very much!

To start collecting it Saturday afternoon. If you will put all your

old magazines and newspapers out on the curb in a bundle we will come by and pick them up. If you live out in the country you might bring your scrap paper to town with you Saturday afternoon and drop it out on a curb somewhere where we can get it.

I'm sorry we don't have the financial report to give to you. But we will publish it as soon as we get it, so you'll know how we stand financially.

That's about it for this week. Don't forget the scrap paper drive and I hope I'll be seeing you at Teen Town soon.

Teen Town Clerk,  
Mary Jo White

## FURNITURE FASHIONS

by Francis Ainsworth

GRAND RAPIDS, MICHIGAN — French Provincial furniture styles are rapidly gaining in popularity with American home-makers. Such pieces as the library table, illustrated, are especially popular, for they may be adapted in many ways to suit the individual needs of the home-maker. Table may be used as a convenient desk, a decorative bedside table, a table for the dining room. The graceful cabriole legs, the delicate carvings, and rich tone of the mellow woods make this table especially appropriate for the beginning home-maker, for it will provide decorative beauty and usefulness for many, many years to come.

### TO LITTLEFIELD

Mr. and Mrs. Alton Cherry and son, Wayne, visited last week in the home of Mr. and Mrs. Arthur Martin and children, in Littlefield.

## Sheriff's Report ...

Hello Everyone:

Here we come again after missing one issue. So we will go back to Thursday, July 14th.

Thursday, July 14th we had a call from Olton that a bootlegger was headed our way with a load. So Buck and myself makes a run to intercept him, but after a two hour wait we decided to come on back to town. Later on that night we went to the dance at Priboths, while we were there this man came to us and said he thought there was some one out there selling liquor, and he would help us catch him, but he was the man we had under suspicion, so when he left so did we. Sure enough when we got him stopped he was the very one that had been selling the stuff at the dance.

He was brought before the Judge Friday morning and pleaded guilty. His fine was \$150.00 for the

## THE MULESHOE JOURNAL, Thursday, July 28, 1949

ness only knows ever peace officer needs all the advantages he can get now. For there is a standing increase in crime, and it looks like it will continue to climb as times get tighter.

Also we are under manned in this county as well as some of the larger places. It is a good thing we have nice people in the south part of the county. There hasn't as yet been any disturbance in Bula that I know of, maybe I just haven't been there enough, but I haven't had any report of any disorder of any kind. When time permits I am going down to Bula for a visit and try to see how they do it.

Getting up to the past week end and up until now we have really been busy.

Friday night we had a cat, that New Mexico had a prison break, and that the escaped convicts might be coming this way. So just after the rodeo we went out on the Clovis highway and stopped everything going east. We didn't catch any of the jail breakers, but we really gathered up the beer and liquor.

In the nights work we got 502 12 oz. cans of beer. Several pints of liquor, a few quarts, all in all we put nine in jail. They were all tried Saturday. The fines and court cost totaled \$1,137.55 for Friday night alone.

I must say here none of this was connected with the rodeo.

Those boys out there really run a clean show, and one that is right up with the professional boys.

We greatly appreciated working with fellows like the ones connected with the Roping Club.

Another thing in a road block the good have to be stopped with the bad, but when they were stopped and identified we explained why we were there and they were permitted to go on without further delay. We hope none of these were offended.

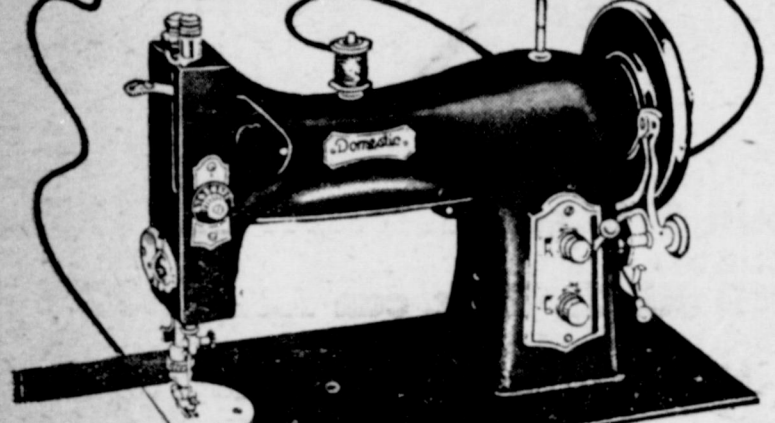

Monday we had a little disturbance in negro town. We got one for being drunk and one for chasing a negro woman with a gun they both paid fines and were released. Tuesday we got a white boy working with the tree expert crew for swiping a pair of shoes.

This was kindly funny. The victim was working on the sewer and had pulled off his shoes and put on rubber boots when he came out his shoes were gone. The tree crew was working near the sewer lift station so naturally they were under question. But they denied any knowledge of the act, but their story wasn't convincing so we went to the dump grounds with them. Sure enough the shoes were on the truck. This landed a young man in jail and a cost to him of \$22.85 high shoes and besides he didn't get to keep them.

Until next time I remain your Sheriff,

Hugh Freeman

COME IN AND SEE HOW MUCH YOU SAVE ON THE NEW SERVELS

Why is the Servel **GAS** Refrigerator the choice of people with experience?

Only Servel has no moving parts in its freezing system

Only Servel **STAYS SILENT LASTS LONGER**

Everywhere, families have discovered that there's one refrigerator different from all the rest... gives you more years of noise-free, worry-free service. It's the Servel Gas Refrigerator.

The secret? Servel has the simplest of all freezing systems. Not a single moving part. No machinery to wear. No motor to get noisy. A tiny gas flame does the work. So Servel stays silent, lasts longer. (In fact, thousands of America's almost 3,000,000 Servel owners report that their Servels are still on the job after 15, 18 and even 20 years.)

You'll be delighted with Servel's new features, too. Plenty of ice cubes, easy to get at. Lots of room for fresh and frozen foods. Come in today and see the beautiful models. Select your new Servel Gas Refrigerator—the choice of people who've had experience!

### SOIL RESTORATION

There is a growing consciousness among land owners and operators of the High Plains of the need of restoring crop-growing substances to our soil.

Generally nature has endowed us with a good soil in this area. It took her a long, long time to build this soil up. The soil has been adequately supplied with many of the substances required for vegetative growth.

Although our soils would produce, in limited quantity, the small grains and native grasses indefinitely under the annual rainfall, it is apparent that plant food in adequate quantities is not there

for the lush growth of all vegetation that follows artificial application of water. Irrigation is sapping the available plant food from our soils and it is doing it rapidly.

Our soils lack humus, a product of decomposing organic matter. From an agricultural viewpoint humus is one of the most important soil constituents. It modifies the properties of the soil by increasing its water-holding capacity and altering its colloidal nature. Soil will not bake or pack together tightly if there's ample humus.

The chemical composition of humus is very complex and has been much disputed, but the modification of the soil by its presence is well established.

Helpful bacteria and earth worms are more likely to be present when the soil has ample humus and retains a more constant amount of moisture. The value of these is greatly underestimated.

In greatly increasing quantities commercial fertilizers are being applied to our soils to increase yields and maintain soil fertility.

These practices are new to many of the residents of the Plains, although the use of green manure, the rotation of crops and the use of applied barnyard manure and its use through pasturing livestock have been amply demonstrated through the years.

There's a homely illustration of the value of livestock in maintaining soil fertility and in the general farm economy. It is that the cow, the sheep and the hog have a "combine-harvester on the front end and a manure-spreader on the rear end."

In the irrigation area near El Paso owners of land seek livestock to pasture on their land in season. The greatest value placed on the pasturing is the benefit to the land, although it is a source of cash income, too.

## FATHERS SHOULD TURN BUSINESSES OVER TO SONS . . .

# Babson Discusses Young Businessmen . . .

BABSON PARK, Mass., July 22.—During the past month I have talked with a number of graduates from my three colleges.—Babson Institute for Men in Massachusetts, Webber College for Women in Florida, and Utopia College in the center of the United States at Eureka, Kansas. I find all of these graduates optimistic and "crazy to go." They do not complain of the New Deal because they never knew anything about the Old Deal! They assume that a Democratic Administration at Washington is a normal condition and that the Republican Party has passed into history! Many of these men have seen war service in Europe, Asia and Africa and are thoroughly sold on the resources, advantages and opportunities of the United States.

### Sons Versus Fathers

The young businessmen of today are in a very much different mood from their fathers who were brought up in a truly free-enterprise system but who now are discontented with government regulations, high taxation and labor domination. When I talk with the fathers of these young men, I return home discouraged and pessimistic.

Of course, neither fathers nor sons can eliminate the business cycle. Someday we shall have another business depression with

much lower prices and considerable unemployment. On the other hand, I feel that if more fathers would turn their business over to their sons, the present prosperity would last longer and the next depression would not be so severe.

### Forecasting The Future

A prominent investment banker recently asked me what I thought would happen to the railroads, telephone companies and other public utilities during the next thirty years? Knowing that he has three children who have recently graduated from college, I replied: "Don't ask me. I am over seventy years old. Get together your children and ask them what is to happen. They are the ones who will decide whether the government will take over the railroads and utilities. In case you think your children would merely reflect your own opinions, have them consult acquaintances whose families hold no investments today. I am sure that the opinion of an honest cross section of young people would be far more valuable than the opinion of mature bankers, engineers or even political leaders."

When discussing with students the business outlook, they insist that conditions are very different today than in 1929. They show how in 1929 interest rates were very high and money was scarce; while today interest rates are abnormally low and bank loans may

easily be secured. They explain how the farmers in 1929 were burdened with debt and today are almost free from debt and that, in a general way, this applies also to other industries. They claim that everyone was speculating in 1929 on very thin margins; while today there is only a little speculation with margins averaging over 70%.

### Babson Institute Roundtables

These students are proud of the fact that the government has become such a large purchaser of certain goods, crops and building materials and hence can largely stabilize these industries. They recognize that unemployment will increase, but that unemployment insurance, pensions, etc., should give these unemployed people money with which to pay their rent and buy their food. They claim will make retail trade less dependent on fluctuations in industrial production.

These students show that not only is the farmer now largely out of debt, but that he can indefinitely depend upon a fair system of price supports, the same as the manufacturer depends upon a reasonable tariff and the same as the wageworker depends upon reasonable immigration restrictions. They point to the fact that there was no bank deposit insurance in 1929; while today every bank account up to \$5000 is in-

sured and this means insurance protection for 95% of all individual depositors. Finally, they believe that the unsatisfied demand for homes and consumer durable goods can—if necessary—be paid

for by the large savings deposits which people can draw upon for such useful products. Yes, I have great faith in the young businessmen of character—who will work hard and keep out of debt.

per cent in the Texas blacklands. Anhydrous ammonia is injected under pressure into the soil from tanks. It is applied through an applicator like a small plowshare. The gas liquefies after it goes into the ground.

There will be many and diverse reports of great benefits from this novel thing and that novel thing. There are time-tested and field-proven methods, which any county agent and many agricultural workers can outline. Few there are which will excel humus-building practices, linked with animal husbandry. That is a natural in this area. It is slow, but sure and inexpensive.

**New Pamphlet Now Available To Men Contemplating Going Into Business**

Persons about to go into business for the first time should have reliable information on the different types of capital that are needed, how much of each type are required for various kinds of business, and where they may be able to obtain such capital, the U. S. Department of Commerce, said Saturday.

To provide a better source of information for the several hundreds of thousands of small business men who undertake new enterprises each year, the Department has just issued a pamphlet entitled "Financial Considerations in the establishment of a New Small Business." Copies may be obtained from the Dallas office, 1114 Commerce Street at 15 cents a copy.

This booklet discusses the importance of having the proper amount of equity or risk capital in the business to assure stability and to provide a basis for borrowing from one or more of the sources of loan capital.

It also emphasizes the importance of managing the capital accounts in order to maintain a good balance between fixed and working capital. Several of the sources of capital most frequently available to small business are also discussed.

In addition to its usefulness to individuals planning new small businesses, the booklet will be of use to individuals who have recently undertaken new businesses, and to professional counselors. With two other publications of the Department—"The Small Businessman and His Financial Statements," at 15 cents a copy and "The Small Businessman and His Bank" at 10 cents a copy, the new booklet rounds out a valuable series of the more important principles of financial management, Miller said.

## Jno. S. McMurtry Host At Annual Family Reunion And Ranch Barbecue

It was a happy day for Jno. S. McMurtry, Muleshoe rancher, and for his brothers and sisters and members of their families in reunion, as well as for a number of local people, when the cattle man gave a barbecue dinner at his ranch, five miles east of Muleshoe Saturday, July 23. It was a renewal of an annual affair at the ranch, known to early day settlers of this section as the Janes Ranch.

The guests helped themselves to barbecued beef, son-of-a-gun, ranch style beans, onions, etc. from a long table spread in the shade of huge trees on the front lawn of the ranch house that have been gathering strength and growth since 1913. There was ice cream and home made cakes for dessert.

The barbecue was tender, the son-of-a-gun was flavored just right for the rather large crowd and many went back for "seconds". George Turner and Mr. McMurtry supervised the preparation of the barbecue and son-of-a-gun.

Mr. McMurtry, who hails from a family of ranchers, has operated his present spread 9 years; he has been around Muleshoe in the cattle business for 32 years. "Johnny" is unmarried.

No register of those in attendance was kept but Mr. McMurtry

has furnished The Journal with the following list of those present, written down afterward from his memory:

Relatives: Joe Williams, an uncle, Amarillo; Mr. and Mrs. C. T. McMurtry, Pat Slavin, Mr. and Mrs. J. L. McMurtry, Mr. and Mrs. Alfred McMurtry and daughters, Connie and Marcia, Clarendon; Mr. and Mrs. J. W. Collins, Amarillo; Mr. and Mrs. E. D. McMurtry and son, Myrl, Vigo Park; Mr. and Mrs. R. L. McMurtry, and daughters, Carole and Rosemary, Amarillo; Mrs. Theron Crass, Silverton; Lee H. McMurtry and son, Boyd, Dalhart; Mr. and Mrs. Larry McMurtry and son, Larry III, Pampa; Mr. and Mrs. A. L. McMurtry and son, Wayne, Mr. and Mrs. L. D. Griffin, Mr. and Mrs. Carl D. Bomar, all of Silverton; Mrs. C. M. Carpenter, McLean; Dr. and Mrs. Charles Finley and daughters, Kay and Sue, Littlefield; Jno. S. McMurtry, Muleshoe; Mr. and Mrs. Jo H. McMurtry, Littlefield; Mrs. R. E. Hillburn, Wichita Falls; Mr. and Mrs. W. J. McMurtry and son, Larry and daughters, Sue and Judy, Archer City; Mrs. Glenn White, Shamrock; Mr. and Mrs. Robert Hillburn, Fort Worth.

Guests included the following: Mrs. T. C. Wafford, Tulla; Mr. and Mrs. Flip Flippen, Amarillo; Mr. and Mrs. D. T. Northcutt, and son, Pat, Silverton; Miss Mary Keith,

Forbes, Mr. and Mrs. H. S. Sanders, Sr., Mr. and Mrs. Ray Griffiths, Mrs. B. W. Carles and granddaughters, "Kingfish" Beavers, all of Muleshoe.

After lunch the guests remained on the premises for quite a while, visiting, and most of them took a tour through the 36 year old ranch home, still an imposing structure and, when erected in 1913, a show place of the countryside.

The late John Janes built this fine ranch home, consisting of a full basement and two stories, about the time the Santa Fe reached Muleshoe, in fact, it was built before there was a Muleshoe, for the railroad ran a spur out from the main roadbed to unload materials for the house. The rails were being laid from the direction of Lubbock. One can see the ranch house, surrounded by great trees, from the Sudan highway, but only the trees are visible from the Plainview highway. The ranch consists of about 5,600 acres; Mr. McMurtry owns several thousand acres in the neighborhood, leases about 10,000 acres all told.

Seven brothers of Mr. McMurtry and three sisters were present, some with their families, for their family reunion. All are engaged in cattle ranching excepting the younger sister, Mr. McMurtry said.

Mr. and Mrs. Andy Hicks, Mr. and Mrs. Jack Hicks, Alfred Hicks, Hubert Gammons, Mr. and Mrs. Jim Ellis, all of Muleshoe Ranch, Muleshoe; Mrs. Medford Scifres, Muleshoe; Miss Ethel Hicks, San Antonio; J. T. Sutton, Triangle Ranch, (McMurtry); Mr. and Mrs. Leon Walker and son, Tommie, George Turner, Mrs. Pearl Underwood, Janes Ranch; Miss Kay Walker, Mrs. Leon Smith and daughter, Mona, Mrs. Finley Pennington, David Anderson, son and daughter, all of Muleshoe;

Visited Jennings families: Rev. and Mrs. E. M. Jennings of Springfield, Mo. spent last week visiting with his brothers, O. M., Finis and Ophel N. Jennings and their families of the Muleshoe and Lazbuddy communities.

## H. H. Carlyle, Jr. Miss Towery Wed

Attending the wedding of Miss Billie Jean Towery of San Angelo and Mr. H. H. Carlyle of Muleshoe at San Angelo, July 22 at the First Baptist Church were: Mrs. R. J. Klump of Muleshoe; Mr. and Mrs. B. ## Sunshine Club Met With Mrs. Stinson

The Sunshine club met in the Ike Stinson home with Mrs. John Ladd as hostess Thursday, July 21, with twelve members and four visitors present.

Mrs. Ike Stinson called the club to order, each one answering roll call by reading a verse from Matthew, chapter 9, verses 16 to 29. We also had a grab box which netted \$2.00.

Club members spent the evening just visiting. Mrs. J. C. Hart, Mrs. Dave Coulter and Mrs. L. E. Ware read poems.

Mrs. Herbert Nash made up the words for our Sunshine Club song. We also showered Mrs. Dave Coulter with birthday gifts. She received many lovely and useful gifts. The club members will shower Mrs. Gube Crawford with a birthday gift August 4.

Delicious refreshments of ice cream, cake and punch were served to Mesdames L. D. Tipton, W. M. Stass, Herbert Nash, T. V. Kolar, N. W. Lee, J. C. Hart, R. C. Harvey, Dave Coulter, Geo. Chambliss, L. E. Ware, the hostess John Ladd and co-hostess, Ike Stinson.

Also present were Mesdames Gena Lee Stinson, Pearlene, Charlene and Janey Coulter, Maxine Ware, Mrs. Tom Payne, Mrs. J. V. Allen, Verda Hester and Bruno Jemelka, and several children.

The next meeting will be held with Mrs. Lois Lewis, August 4.

**Farmers Fighting Nature's Whims  
By Seeding Wheat "Below The Dust"**

Thousands of dry land wheat farmers this season will plant their seed "below the dust" by using deep seeder boxes and attachments on chisel plows. Testing this method (above) Dannie D. Birt, whose Guymon, Okla., plant produces such specialty farm equipment, recently tested here. Reports from areas which had only normal moisture the past year show deep-seeding outproducing disc-seeding by sizable amounts.

**CHICAGO**—The winning combination of deep seeding and of furrow plowing has passed the experimental stage and will be extensively practiced this season by progressive farmers throughout the dry-land wheat belts.

Chisel-type plows, which leave a deeply-furrowed surface that retains moisture and resists blowing, are in wide use. Deep seeding, which plants the seed 5 to 8 inches deep below the dust where there is usually sufficient moisture for germination, was a natural next step in the farmer's constant fight to master wind and drought. Widespread use has waited only upon development of the right equipment.

Such equipment, in varying forms of a seeder box attachment with flexible seed distributor tubes, has now been field-tested for two planting seasons and will be used this season throughout the wheat country, according to survey information just revealed here.

Production may be the bottleneck this planting season, the survey shows. Only two or three specialty manufacturers are in the field, although reports are that a major manufacturer is tooling up for production.

One of the specialty manufacturers who has pioneered in developing the attachment, reported, "greater interest than has been shown in any postwar farm tool." This firm, Danco Manufacturing Company of Guymon, Okla., said that its research personnel has just concluded 22,000 miles of travel throughout the wheat coun-

**TURNIP AND MUSTARD GREENS BECOME AN IMPORTANT CASH CROP**

**NEW YORK, (SpI)**—Two old-time Southern menu favorites—turnip and mustard greens—are winning popularity as a year-round table delicacy and are becoming an increasingly important crop for growers and packers of greens.

Tender young leaves of the mustard and turnip plants, cooked in water with salt pork and pepper pods, have long been traditional Southern favorites but have not been widely known in other sections of the country.

However, crop and canning figures now show that these greens are becoming increasingly available in all seasons, and nutrition experts of American Can Company point out that the products offer an interesting taste variant and afford much the same healthful benefits as other leafy vegetables.

Can industry figures show that more than 1,500,000 cases of mustard, turnip and other greens were put up in 1948.

**For The Ladies:  
A Diet That Really Works**

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't

trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats—but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.

**Southwestern Life Reports Good Business**

Paid-for business amounting to \$55,614,604, a new record in the history of the Company, was written by agents of Southwestern Life Insurance Company during the first six months of 1949, it was reported by Marion F. Harris, local representative of the Company.

"The agency force set a new record for production during a six-month period, and exceeded by 14.8 per cent the \$48,442,735 of paid-for business written during the first six months of 1948," Mr. Harris said.

A second record was established as the Company's insurance in force advanced from \$697,208,140 to \$1,323,319,408 during the same time.

"This increase of \$35,111,268 also is the largest in the history of the Company for any six-month period," Mr. Harris reported.

Southwestern Life's Board of Directors meeting in Dallas Tuesday, July 12, elected W. K. Gordon, Jr., of Fort Worth to the Board to fill the vacancy caused by the death of his father W. K. Gordon, Sr., on March 13, 1949.

**How to keep cool — and carefree**

This time of year there's one place a lot cozier and cooler than your favorite spot around the house.

That's in your Buick—finding a breeze along dusk-cooled highways, or following those little roads that lead to inviting "loafing grounds."

Either way, whichever pleasure trail you follow, you'll find more fun on the way if your Buick is in top-flight shape to take the miles in its steady stride.

**How about letting us put it in that shape for you?**

Get one of our conscientious motor tune-ups, and one of our thorough-going Lubricare treatments. We'll put the bounce back in your motor—while we're taking the bounce out of your ride.

We do this well because we're Buick men. We know your Buick, we've studied correct factory methods for each operation, we know the factory specifications your car was built to. We use genuine Buick parts—even special Buick tools!

Yet you don't pay a penny more for all these extras. Stop in this week, won't you?

**HOW HIGH IS A TUNE-UP?**

Our Buick tune-ups go far beyond adjusting your spark and carburetor. We cover a long list of things—your valve tappets, voltage regulator, fuel pump filter, coil, hose connections, and so on.

We even tighten the cylinder head and clean off your battery terminals—and do all this at a low, low flat-rate price that will surprise you!

LEGAL NOTICE

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: Tom C. Miller Greeting: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this citation, the same being Monday the 22nd day of August, A. D. 1949, at or before 10 o'clock A.M., before the Honorable District Court of Bailey County, at the Court House in Muleshoe, Texas. Said Plaintiff's petition was filed on the 20th day of April, 1949. The file number of said suit being No. 1594 The names of the parties in said suit are: Texana Miller as Plaintiff, and Tom C. Miller as Defendant. The nature of said suit being substantially as follows, to-wit:

Plaintiff alleges that she was married to the defendant, on the 7th day of June 1947, and lived with him until the 16th day of September 1947, the date Defendant left her, at which time he went to Crane, Texas, to live. Plaintiff alleges, that the defendant, within two or three days after their marriage, began a course of unkind, harsh and tyrannical treatment toward her, which continued until the final separation. Plaintiff alleges, that Defendant told her, that he did not love her, but married her to get hold of Plaintiff's property. Plaintiff alleges that the Defendant abused her, and struck her in the face with his fists, and hit her with a large stick, all of which caused mental strain, physical pain and anguish. Plaintiff and alleges that there is no community property, either real or personal owned by Plaintiff and Defendant, and that there were no children born of said union, and that Plaintiff and Defendant, or either of them, have at any time adopted any children. Plaintiff prays judgement for a divorce, and that her former name of Texana Blankenship be restored to her, and for such other and further relief that she may be justly entitled to, etc.

Issued this the 7th day of July, 1949. Given under my hand and seal of said Court, at office in Muleshoe, Texas, this the 7th day of July A. D. 1949. M. G. Bass Clerk District Court, Bailey County, Texas by Lillian A. Sellers, Deputy. 29-4tc.
