### WEATHER

WEST TEXAS—Partly cloudy to clear and Friday; somewhat unsteady and warm; warmer extreme portion tonight.

## Rebellion in Spain Approaching Climax

### FEAR IS FELT FOR SAFETY OF AMERICANS

The Spanish rebellion now approaching a state of national chaos seemed near its climax today. A rebel army marched southward and a government army marched northward for what was expected to be the decisive battle. Americans and other foreigners were feared in great danger in some coastal ports. The United States battleship Oklahoma was ready to leave Cherbourg, France, for the western coast to assist refugees, if necessary. The American Export Lines Steamer, Exeter, went to the rescue of Americans at Barcelona. In the far north battles raged at San Sebastian, at Irun to the east, and at Pasajes a fishing port. Dense columns of smoke led to the belief that the big Pasajes oil depot might have been hit. Refugees from Barcelona arriving at French frontier cities reported wild disorder. Some of them estimated the dead as high as 8,000. Appointment by the government of an emergency committee to rule the seven eastern provinces with a capital at Valencia indicated preparations to turn all power over to the committee in case the government at Madrid was overpowered.

### American Women and Children Recalled

WASHINGTON, D. C., July 23. (U.P.)—An urgent appeal that American women and children in the port of Bilbao be evacuated immediately was cabled to the state department today by the U. S. consul.

### BOMB BY MAIL KILLS FARMER, INJURES WIFE

CAPE CHARLES, Va., July 23. (U.P.)—A bomb sent through the mail which killed a wealthy farmer near here and left his bride of a month sightless and seriously injured, brought a state-wide investigation today. Curry Thomas, 47, was blown through the top of his automobile when he opened a parcel post package mailed in Richmond. Hospital attendants said Mrs. Thomas' condition is serious.

### Friona Bank Robber Gets Life Sentence

FARWELL, July 23. (U.P.)—Herbert Stanley, charged with the robbery of the Friona State bank of July 29, was under a life sentence in the Texas penitentiary today, a jury out for little more than an hour last night, fixed that penalty. J. C. Britton was held in the Farmer county jail for participation in the same crime. His trial is to follow that of Stanley.

### TORONTO MARRIAGES GAIN

TORONTO, Ont., (U.P.)—Cupid was slightly busier here during "the month of brides" this year than he was in 1935, statistics issued by the city clerk revealed. During June, 826 marriages were performed, compared with 787 in June 1935.

### MERCHANTS GO WITH LOBO BAND ON GOOD WILL TRIP TO ROMNEY

The merchants and Lobo band good-will trip to Romney tonight is being organized as to details by the Junior Chamber of Commerce, which is sponsoring the motorcycle and it is thought that a large number of the merchants will take their families out to this community tonight and renew friendships that have existed between Cisco people and the Romney citizens through the years. Romney is one of the very old communities of this county and her people are hard working

### Struggle Lost, Farmer Sees Possessions Go

Grim tragedy is pictured here, a lifetime of toil gone for naught for this farmer, with his wife and child. Beaten in their struggle against drought and heat, they see the last of their household possessions and implements go to a saleroom to be sold by auction. Migrants without property, they stand forlorn in a Nebraska town, government relief their only hope against starvation. The picture was taken by a Resettlement Administration photographer.

### FARMER SHORT COURSE GIVES THREE PRIZES

COLLEGE STATION, July 23. (U.P.)—First prize in the Centennial farm and home demonstration contest, which had as its objective the beautification of rural homes in Texas, was awarded to Mr. and Mrs. Joe P. Sibley, Clarksville, at a special ceremony at the Centennial Year Farmers Short Course at A & M College Thursday. The prize was a cash award of \$250. Presentation of this and the awards to fifty-three winners in the contest was made by Charles B. Dealey, Dallas, on behalf of the sponsors of the contest.

Total prize awards to the fifty-four winners, nine being state and forty-five district winners, amounted to \$2,500. Two thousand farm and ranch families living in 167 different counties of the state participated in the contest which was sponsored by the publishing corporations of which Mr. Dealey is president, and a number of other business concerns located in Dallas, Fort Worth, Sherman, Lufkin, Waco, Houston, Diboll, Tyler and Austin. The contest was conducted and the winners selected by the Texas Extension Service. Extension Director H. H. Williamson presided at the award ceremony and in presenting Mr. Dealey expressed appreciation of the Service for the aid and interest of the contest.

Second and third state prizes of \$175 and \$125 were awarded, respectively, to Mr. and Mrs. P. W. Alexander, Albany, and Mr. and Mrs. Carl Johnson, Devers, Liberty county.

### School Districts Receive Payments

AUSTIN, July 23. (U.P.)—The state department of education today mailed to school districts \$1.50 for each person of school age living in the district. The payment totaled \$2,337,711.

The payment today completes delivery of \$17.50 per capita to schools. This was the apportionment first set. On May 16 it was advanced to \$18.50. The additional dollar will be paid when the money accumulates.

### HICKOK WELL DRILLING IN BLACK LIME

The Hickok No. 2, just north of Cisco is drilling today at above 3,680 in the black lime with expected increase in gas pressure. No further showing of oil is expected today, it was announced. This well was shot at below 3,440 and made a showing of about 1,000,000 cubic feet of gas and about ten barrels of oil. Not satisfied drilling was resumed at about 3,480 to go on to the Marble Falls lime or to the Ranger sand to be picked up at slightly above 4,000 feet. The well was bailing this morning after drilling that was watched with interest.

### WHISKERS SAVE \$800

HUME, Mo., (U.P.)—Dr. W. D. Vint, veteran physician, estimated that he had saved \$800 in the 52 years he went without shaving. While a young physician in Chicago Dr. Vint had a shave in 1884. He didn't get another until he celebrated his 82nd birthday here.

### POLITICIANS MAKE EXTRA HARD EFFORT

Political candidates hoarse from weeks of shouting went into the text-to-last-day of oratory Thursday, hoping to get as many backers as possible in the democratic primary Saturday. Most of the candidates had major rallies in large cities for the last two days of the campaign. Tom Hunter of Wichita Falls, who got into the runoff two years ago and has expressed confidence, he will do the same again, had only one address scheduled Thursday. It was a night meeting at Ferris Park in Dallas. State Senator Roy Sanderford spoke Thursday afternoon in Hempstead. His speech was filled with sarcastic remarks about Allred's administration. "Little Jimmy with the governor's office is much the same as a six year old child with a complicated toy designed for a twelve year old." Sanderford is scheduled to speak tonight in Houston. Allred also started his day's schedule with a speech in Hempstead, then talked in Navasota, Bryan and Corsicana before going to Waco for a night of rest. F. Fischer of Tyler had scheduled only a radio address in Waco tonight. Pierce Brooks of Dallas appeared at morning and afternoon rallies in Denton, Gainesville, Denison and McKinney. He then went to Dallas to prepare for the grand finale of his campaign—an address in Dallas Friday night. John W. Hawkins, seeking election as State Land Commissioner after thirty years as a clerk in the Land Office, spoke Thursday afternoon in Breckenridge. He reviewed his knowledge of the Commissioner's work and expressed appreciation for the support given him by educators and labor leaders. Victory by a majority of 150,000 in Saturday's primary, was claimed by William H. McDonald of Eastland the opposing candidate, on the basis of reports he said he received in Dallas, where he is recovering from injuries suffered in a recent automobile accident. Congressman Sam Raburn of Bonham addressed a rally at Greenville Wednesday night asking that he be returned to the congressional post in which he has served for many years. He has two opponents.

### DISEASE THINS JAPAN'S ARMY RECRUIT QUOTA

TOKYO, July 23. (U.P.)—The national health of Japan, particularly in connection with the young men of military age, is causing concern among government and civic leaders. Minister of War Hiseichi Terauchi presented the problem to the Cabinet and suggestions have been made for establishment of a new government department to deal with public health problems. "The results of physical examinations of young men for military service in the last few years have shown an alarming increase in the number of those physically ineligible for service," Terauchi told his colleagues. "A great number are afflicted with eye diseases and tuberculosis, in comparison with statistics from other countries."

### Full Survey Urged

"We must trace the root of the physical decline. What we do not understand is the fact that many young men of the farms are even more frail than the sons of urbanites, although the farmers' sons look robust and healthy." The newspaper Yomiuri, discussing the question, said: "The deplorable tendency of the general decline in the health of conscripts has called urgently for a solution and the present cabinet is going to study the question."

### Modern Methods Demanded

Kokumin Shimbun, also commenting editorially urged a progressive attitude, declaring that the present method of dealing with health problems had been "blindly followed from the early days of Meiji without regard for changing conditions." The newspapers Asahi called for urgent action against tuberculosis and eye diseases. "No less deplorable," it continued, "is the status of the young men who are getting their energy squeezed out by hard labor conditions."

### TOWN RUSHES WATER SYSTEM

PILOT GROVE, Mo., (U.P.)—Pilot Grove, an interior Missouri town, believes it has established a record of some sort in building and starting in operation a modern waterworks within a year. The town depended on cisterns and wells previously.

### Sheep Saved From Drought

Thirsty, emaciated from the long drive to the railroad over western rangelands long since burned black, these sheep, photographed at the Belle Fourche, S. D. stockyards, symbolized the utter tragedy of the great drought. Near starvation, they were being rushed to Nebraska where pastures still had escaped the blight.

### SCHEDULE FOR COMMODITIES DISTRIBUTION

All clients of the Eastland County Welfare association must meet the truck at their various stations at the hours appointed if they are to receive commodities, said Miss Elsie Glenn, case worker for Cisco. The August date for Cisco is August 5, 9 to 2 p. m. Other dates in this district are: Eastland, August 4, 9 to 2 p. m.; Carbon, August 6, 9 to 11 a. m.; Ranger, August 11, 9 to 11 a. m.; Rising Star, August 12, 9:30 to 11:30 a. m.; Cross Plains, August 12, 1 to 2:30 p. m.; Breckenridge, August 13, 9:30 to 2:30 p. m.; and again at Eastland for emergency only, August 17, 9 to 2 p. m. The above is the schedule as announced by R. E. Richardson, commodity supervisor, said Miss Glenn.

### J. B. Cate Instructs New Rotary Members

A talk on Rotary instructions to new members by J. B. Cate, program leader, and several piano selections by Mrs. Lloyd Hughes, completed the program today at the weekly Rotary luncheon. Mr. Dan R. Jumell, Abilene, guest of O. J. Russell was a visitor for the luncheon. Mr. Jumell is a member of the Abilene Rotary club.

### Father Coughlin To Print Apology

DETROIT, Mich., July 3. (U.P.)—An open letter of apology by Father Coughlin for his recent statement that President Roosevelt was a "double crosser and a liar," will be published tomorrow in the Priest Paper "Social Justice."

### CISCO DAILY NEWS WILL HOLD ELECTION PARTY SATURDAY EVE

In accordance with its custom through the years, the Cisco Daily News will receive and announce the election returns from the Texas Election Bureau and will broadcast these bulletins as fast as they are received to all those who may care to attend the Daily News election party Saturday night. Returns should begin coming in by 8 o'clock and before midnight many of the elections will have been determined. Robert Maddox and his Lobo band will give a musical concert at the Mobley park in front of the News office, beginning at 8:15 and continuing an hour or so. Between musical numbers state and county returns will be announced. W. Frank Walker and R. E. Grantham will assist in the tabulation and announcing of bulletins on the election which will be continued until midnight. All citizens of Cisco and surrounding territory are invited to attend the Cisco Daily News election party and get all election news received here.

### FAVORS CIVIL SERVICE FOR POSTMASTERS

TOPEKA, Kan., July 23. (U.P.)—Gov. Alf M. Landon, who in a few hours will accept the republican nomination for President of the United States, today endorsed President Roosevelt's order placing all postmasters under a modified merit system and expressed the opinion that the new deal had been driven to that action by his own civil service stand. "The governor parried all questions, including this one. 'Governor, will you appoint any democrats to your cabinet?' 'See my acceptance speech', Landon replied. 'You will find a pretty good idea there.'"

Upwards of 100,000 persons are expected for the notification. Toward evening they will gather on the capitol grounds. Landon will begin speaking about 8:30 p. m. Central Standard Time. Friends of the governor have revealed that his speech will deal in generalities with half a dozen major problems. It is designed to be the text for campaign speeches to come.

There is no quibbling in the Landon camp over the democrats' superior speaking technique, but they do not recognize that as a handicap. Rather a circumstance which may be turned to the advantage of their own candidate, described around Topeka as "just a high class, average man."

One Landon view is that payment of federal cash bounties to soil conserving farmers should have an important place in the farm program. Landon also believes that his existing authority would not permit states to protect working women and children. He wants a constitutional amendment to give them that right. The governor proposed that practically the entire Federal service and the post office department be placed under a non-political merit system.

### District Court to Decide Case Today

ANGLETON, July 23. (U.P.)—A district court today was to take the murder case of Luke Trammell and Forest Gibson, convicts charged with murdering Felix Smith, Retrieve prison farm guard.

### Too Clever is Undesirable!

Cleverness can be admirable. It can also be otherwise. A young fellow who had been reared in a circle of admiring relatives, got his first job with an acquaintance of his father's.

In one corner of the office stood a large safe, the combination of which was known only to the proprietor. The boy was much interested in that safe. He thought if he could figure out that combination all by himself, it would be a bright, red feather in his cap, revealing a high degree of intelligence.

One day while his employer was away and there was little to do, the boy sat down in front of the safe and began to work on the combination. He would turn the dial with his ear to the door and listen to the tumblers as they dropped and make notations. The process was long and tedious; but he was spurred on by the thought of how brilliant he would be if he could do the trick. Eventually he succeeded and to his intense satisfaction was able to swing the massive door open.

When the proprietor returned, the boy told him with much elation of his accomplishment with the safe. To his astonishment he was roundly hawked out for butting in where he had no business to intrude, and was given his marching orders.

Once we had a clever cow. She had a sense of humor, too. She was fond of pushing the chicken coops all over the place; just to hear the old hens expostulate hysterically, and the chickens screech with fright.

A roll of wire fencing, so heavy that it took two men to unload it was deposited in the yard. The cow proceeded to push the bale over and to unroll about a hundred feet of it before she was discovered.

This bovine creature had a cute way of easing up behind you when you weren't noticing, and digging you rather gently—but not gently enough—in the calf of the leg with her little, shary, Jersey horns, just to see you jump.

A servant who lived in a little house in a corner of the place used to "cook" her clothes in a big, iron pot in the yard. One clothes-boiling day the cow meandered down that way, inserted a horn into the steaming pot raked out the batch of clothes and dropped them into the dirt; then she strolled over to the clothes line and chewed up the legs of two pairs of underwear; and the servant came out of the house just in time to see the end of a red bordered towel vanish down the cow's gullet.

The beast was fond of apples, as all cows are, but being hobbled she couldn't reach the fruit. However, she was clever, and learned to shake down the apples she wanted by vigorously bumping her shoulder against the trunks of the trees.

That cow was so clever, that we finally got rid of her, as did the man of his too clever office boy.

Cleverness not accompanied by discrimination may be quite undesirable.

### OUT OUR WAY

### Texas Topics

By RAYMOND BROOKS

AUSTIN, July 23. — Those expecting the 31 Texas senators and 150 house members to be called to Austin in September can visualize the first five items of Gov. Allred's proclamation convening the session:

1. Revenues to pay old-age pensions under the present assistance law.
2. Enabling act for federal benefits for dependent children.
3. Act for federal security benefits to the blind.
4. A bill to permit Texas to share in unemployment insurance.
5. Enabling statute for agricultural benefits.

The last clause will also list "and such other subjects of legislation as may be submitted to the legislature by message."

The first item on this bill unquestionably opens the entire field of taxation, whether all or any of the money is directed to pensions, because the subject of taxation cannot be half-opened and restricted.

It seems to be a close question whether, in providing for a change in the method of raising money, and in the amount of money available, whether the legislature will have opened the subject of changing terms of the act authorizing and regulating the payment of pensions. Members wanting to change the set-up—such as giving the maximum \$30 per month to every person over 65 years of age—probably will insist that the governor has opened the administrative act in submitting the amount to be paid under it.

If it is ruled that changing the machinery has not been submitted the legislative month of work will be greatly simplified, because at this stage there will be efforts to liberalize the act and there also will be efforts to restrict it still more.

Especially will there be a fight to turn over the relief program to local political units—county governments—and to abolish the state caseworkers, reviewers and direct administration of the pension act.

### LET'S KNOW TEXAS

WILL H. MAYES, AUSTIN, TEXAS

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquirers must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

### Q. What Texas town has the greatest elevation? W. W. Canton.

A. Fort Davis, with elevation of 5069 to 5300 feet above sea level.

### Q. What early Texas colleges were established at San Augustine? M. E. Hallsville.

A. San Augustine University was incorporated June 6, 1837, the day after the first incorporation of the town. On January 10, 1844, Wesleyan College was chartered and bitter rivalry arose between the two schools. Following the assassination of President James Russell of San Augustine University, attributed to the college feud, efforts were made to consolidate the schools, in 1847, into the University of Eastern Texas, but with different success. Masonic Institute was organized in 1840 and was conducted until 1861.

### Q. Was John Wesley Hardin a native Texan? How did he die? N. A. Ada, Okla.

A. He was born in Fannin county, Texas, in 1853, son of a Methodist preacher. He early became a man killer and is said to have killed more than twenty men. He served a penitentiary term, but practiced law a while at Gonzales and then at El Paso. His friends said he made an honest effort to reform, but couldn't "make the grade." He was killed in an El Paso barroom in 1895 by Constable John Selman, whose son he had threatened to run out of town.

### Q. When was the anti-trust law first passed in Texas? S. S. Thrall

A. In 1895, Texas being the second State to pass such a law.

## Modern Gas Cookery

RETAINS HEALTHFUL VITAMINS AND MINERAL OILS

Vigorous boiling in lots of water destroys the valuable vitamin and mineral content of fresh vegetables. The thoughtful woman wants to retain these health-giving elements. The controlled boiling heat which the modern gas range provides does not rapidly evaporate water when boiling vegetables. Mothers can serve more healthful food by following this simple method of modern gas cookery.

1. Place vegetables in pan and cover with about one-half inch water.
2. Place vegetables in pan and cover with about one-half inch water.
3. After cooking is completed nearly as much liquid remains as was originally put into vessel, and there is no loss of valuable mineral oils or vitamins.

Modern gas cookery is clean and labor saving. It means better cooking and a cleaner kitchen for there's little spilling steam rising from a covered pot of gently boiling vegetables.

## SURPLUS RISES TO 21 MILLION FOR NEBRASKA

By ROBERT KELLY  
United Press Staff Correspondent  
LINCOLN, Neb., July 1. (U.P.)—Better Nebraska offers an example of thrift to the nation.

The state closed books at the end of the fiscal year with \$21,621,930 in cash and gilt-edged investments, an increase of \$899,373 over the previous year. The increase in the cash account was more than \$1,000,000.

Treasurer George Hall attributed this showing to better collections of taxes, particularly among farmers who have been benefitting from a rising market.

Facts already widely known about Nebraska's state government are: No bonded indebtedness or any other kind of indebtedness.

**5-Cent Gasoline Tax**  
No income tax and no general sales tax. There is a 5 cent gasoline tax.

The lowest tax levy for state purposes in America.

Lower general property taxes for all purposes, state, county, municipal and schools, than neighboring states that have many of the newer forms of taxes.

A new Capitol, built at a cost of \$10,000,000 and paid for when completed.

The fourth largest state university in point of enrollment.

Better tax collections, coupled with reduced appropriations by the last legislature, enabled Nebraska to increase its cash balance during the past year. Reason for the state's debtless status is its constitution which limits the amount of bonded indebtedness to \$100,000.

### Tax Increase Fought

Taxpayers' leagues, newspapers, farm organizations and other groups successfully have resisted attempts to introduce a general sales tax or an income tax. The result is that both major parties are committed to a policy of "no new taxes."

The only alternative is rigid economy. The appropriation for maintenance of Gov. R. L. Cochran's office is a little more than half of that set aside by the Kansas legislature for Gov. Alf M. Landon's staff.

Nebraska's state institutions are not supported as well as those of neighboring states. Certain it is that when the unicameral legislature, a Nebraska innovation in government, convenes in January, 1937, there will be movement to boost appropriations for the state university with an enrollment of more than 10,000.

## SURGERY AIDED BY FIRST HAND ART SKETCHES

By WALTER LOGAN  
United Press Staff Correspondent  
MEMPHIS, Tenn., July 22 (U.P.)—A young woman, clad in stiff white apron and mask, stands unobtrusively in a corner of an operating room in a hospital here as a patient is brought in.

The anesthetist adjusts the cap over the patient's face and the operation follows. But as the surgeon starts to work, the young woman moves closer. She holds pencil and paper and makes sketches and notes as the delicate work in a difficult or unusual operation proceeds.

The young medical artist is Dorothy Sturm. In a few minutes she rushes to her basement studio in the Medical and Dental Building and begins a drawing that looks like a steel engraving. She brings out details of organs a photograph would not show.

If there is a gangrene or other infection that changes the color, she tints the drawing in natural colors. Miss Sturm is a medical illustrator, doing free-lance work. Her drawings are used in medical journals and with articles written by physicians. Some of her work illustrates textbooks, and others are made into lantern slides and are used for lectures and teaching purposes.

Doctors who have rare or unusual cases call on Miss Sturm. In addition to watching operations, she works from specimens. Sometimes her tiny studio will be stocked with bottles containing unusual organisms which she draws.

Miss Sturm occasionally uses a microscope in her drawings.

Praised as Illustrator  
Memphis doctors, who say Miss Sturm is one of the best illustrators in the business, first suggested medical illustration to her when she was graduated from St. Mary's College here and attended James Lee Memorial Art Academy.

But it was not until she attended Columbia University that she began doing scientific drawing. She became assistant medical illustrator at Columbia and studied at the Art Students League in New York.

Miss Sturm, attractive with black curly hair and blue eyes, had to study anatomy as well as art for her profession. Although sometimes a bit gruesome, her drawings have a certain beauty.

For her hobby she does book illustrations. She uses an individual type of halftone drawing she perfected herself.

## S. R. WOOD WINS FREE VACATION TRIP TO NORTH

S. R. Wood, enterprising Maytag dealer for this territory, has just won a free vacation trip to Wisconsin where he will be the guest of F. L. Maytag, founder of the Maytag organization, at his beautiful summer home on Lake Geneva.

This home, said Mr. Wood, who had met Mr. Maytag on a former occasion and had talked with him, was an ancient home of royalty in New Zealand, and was transported to Chicago for the World's Fair in 1893, after which it was purchased and taken to Wisconsin to become the summer home of Mr. Maytag overlooking this beautiful lake.

Another feature of this building, said Mr. Wood, is that it is built without the use of nails and the stairs shows no trace of feet even though it has been trodden by thousands through the many years of its existence.

Mr. Wood will leave about August 1, and will return by way of Newton, Iowa, home of the factory.

Art shows being sponsored by the University of Texas Centennial Exposition now in progress in Austin are featuring Texas art and Texas artists only. Artists from all parts of the state are exhibiting in the shows.

The Centennial half dollars, depicting the history of the State itself, are much sought after for souvenirs from the Texas Centennial Exposition by out-of-state visitors and Texans.

### Marriage to-be is Announced at Party

OUT OF LUCK

Speeds have more than doubled in the past ten years. No wonder thousands are killed or injured every year in blow-out accidents, because when you are driving along at 40, 50, 60 miles an hour, the heat inside your tires is terrific—as hot as boiling water. This heat causes rubber and fabric to separate. A tiny blister forms—grows bigger and BIGGER—until sooner or later, without warning, BANG! It's a blow-out!

Why take this dreadful risk that you may regret the rest of your life when it is so easy to play safe! An amazing new invention, the Life-Saver Golden Ply resists heat so that rubber and fabric do not separate—thus these blow-out blisters are checked before they even get started.

Can you afford to be without this blow-out protection when Goodrich Silvertowns, the only tires in the world with the remarkable Golden Ply, cost not one penny more? Don't trust to luck. Come in and see us today about a set of Silvertowns.

**TEXAS, HONEY CHAMPION OF UNITED STATES**

DALLAS, July 23. (UP)— Texas will dethrone California this year as the champion honey producing state in the union, T. W. Burleson of Waxahachie, president of the American Honey Producers League, forecast today.

Mr. Burleson, director of the Texas Beekeepers Association education exhibit of bee and bee products at the Hall of Agriculture of the Texas Centennial Exposition, claimed an all-time high record crop in South Texas, the big honey producing section of the state that built the \$25,000,000 World's Fair at Dallas to celebrate 100 years of achievement since gaining independence from Mexico.

The huajillo and catsclaw bushes of South Texas produced an abundance of nectar carrying blooms in March, April and May and are responsible for Texas raising the laurels she lost to California three years ago. Prior to that time Texas held the annual record for producing honey, according to Mr. Burleson.

Mr. and Mrs. Irvin McGee and children visited Mr. and Mrs. Elmer Key of Coleman Sunday.

Mr. and Mrs. Hugo Franke of Brownwood spent Saturday night with her cousin, Mrs. Everett Harris and attended the homecoming.

Mr. and Mrs. John Smith of Cisco attended the homecoming Saturday and Sunday.

Mr. and Mrs. Herbert Roach and Mr. and Mrs. R. T. Roach were here for the homecoming.

**CISCO SCOUTS MAKE REPORT BIG VACATION**

Boy Scouts from Camp Billie Gibson returned Wednesday afternoon full of stories of the good times they had on their week's vacation camping and of the valuable training received in the inspection tests that won them third place in the Honor Campers award, with Brownwood troops taking first and second places.

Troop 43 of Brownwood took first and troop 16 of the same town made second with Cisco troop No. 4 trailing closely. The awards were made from the various inspections, said Robert Grantham, who is very enthusiastic about the training that a scout gets in a camp of this kind, and who can entertain you with a recount of the romantic scenery, towering walls, Indian writing on rocks that won't erase, lovely springs and caverns, Indian burial grounds and the many things that not only intrigue the young but entertains the old.

Wednesday ended the first series and began the second series of camp schedules.

**FAMILY FINGERPRINTED**  
BERKELEY, Cal. — (UP)— Four generations of a local family were fingerprinted simultaneously in the city's drive for voluntary universal fingerprinting. They were W. S. C. ### Absentee Voters Increase

County clerk's list of absentees showed 145 names Friday who received ballots since report were: W. I. Allison, Mr. W. I. Allison, Eastland, Shackleford, Cisco; Mrs. Martin, Gorman; Mrs. M. Gorman, M. A. Rose, Gorman; Gilbert, Eastland; James R. Johnson, director of the Texas Relief Commission, has announced.

Upon the request of Works Progress Administration officials, the Texas Relief Commission has agreed to undertake the task of determining the need of persons who apply for WPA employment, Johnson said. Expense of this service will be paid from federal funds.

In addition to performing this service for WPA, the Texas Relief Commission will continue to sponsor surplus commodity distribution contingent upon the continued operation of counties in employing approved case workers. It was explained. Applications for WPA employment or for surplus commodities will be filed and cleared through the same office.

Eligibility for WPA employment or for receipt of surplus commodities is determined upon a basis of need, Johnson explained. Although it is no longer required that a job applicant be a former relief client, present need must be definitely established.

Responsibility and authority of the Texas Relief Commission extends only to the acceptance of clients' applications, and does not encompass assignment of individuals to jobs. Texas Relief Commission employees examine eligibility status of applicants and refer those persons found eligible to WPA.

Johnson pointed out that certification to WPA does not necessarily mean a job is awaiting the person certified as the quota assigned to Texas will permit the absorption of only a portion of those referred to

## TEX. RELIEF COMMISSION OFFICES TO OPEN FOR WPA JOBS, AUG. 1st.

AUSTIN, July 18.—Texas Relief Commission offices will be open in the various counties by August 1 to receive applications of persons desiring to be considered for Works Progress Administration jobs, Adam R. Johnson, director of the Texas Relief Commission, has announced.

Upon the request of Works Progress Administration officials, the Texas Relief Commission has agreed to undertake the task of determining the need of persons who apply for WPA employment, Johnson said. Expense of this service will be paid from federal funds.

## CARRIER BOYS HOLD OUTING HERE SUNDAY

Ocie Leveridge and his carrier boys were hosts to about 275 carrier boys together with the agents of the circulation department of the Star-Telegram for 23 towns Sunday at Lake Cisco when 300 pounds of beef were barbecued by M. H. French, Cisco, specially for the event.

Arrangements had been made with the Lake Cisco Amusement company for swims for the boys and this together with games of soft ball formed the amusement features before and after the noonday meal which was topped with soda water and ice cream for the youngsters.

The picnic was sponsored by E. L. Cogdell, Abilene; T. B. Hart, Fort Worth; and Noble Glenn, Mineral Wells, with the co-operation of about 16 district managers.

Special guests included Mr. and Mrs. James Grace, Fort Worth; Mr. and Mrs. John Craft, Stamford; and Mr. and Mrs. John Aaron of Stamford.

District managers present to assist in the picnic included the following: Gorman Jones, Weatherford; Jim Corbett, Graham; Alvin Young, Stephenville; U. A. Webb, Dublin; M. B. Carter, Comanche; Lon L. Smith, Brownwood; O. S. Driskell, Coleman; J. R. Bagwell, Haskell; Davis S. Bennett, Stamford; Earl Cogdell, Abilene; E. J. McClung, Anson; P. H. Sparks, Hamlin; Charles Surbrook, Ranger; George Ute, Eastland; Ocie Leveridge, Cisco; Luke Crawford, Brownwood; C. B. Flowers, Olney; W. M. Moseley, Breckenridge; Willie Vaughan, Graham.

Carriers and district managers agreed it was the most successful picnic held in years and all were loud in their praises of Cisco as a place for an outing of this nature.

## Wild Duck Relief Is Being Demanded

NEW YORK, July 20.—Drought relief for wild ducks, in the form of a year's reprieve from hunting, was demanded here today by the National Association of Audubon Societies, with a warning that unless there is a cessation in killing the water fowl may go the way of western cattle herds, but with no similar hope of replacement.

"The vigorous drought-relief measures being undertaken by the Administration on behalf of man and domestic stock will undoubtedly relieve their distresses," the statement said, "but what of the wild life of the area—a natural resource worth many millions of dollars? The worst drought conditions have blanketed the very prairie states in which the United States raises most of its wild ducks, and the suffering among them has been extreme.

"For years conservationists have been concerned over the diminution of our water fowl. Grazing, drainage, overshooting, and recent dry years have reduced their numbers until some species are in grave danger of extermination. The losses occasioned by this new catastrophe can not be repaired until better breeding seasons combined with requisite limitations of kill have made it possible for the birds to increase their numbers.

"We can't replace the ducks that are gone," the statement concluded. "Only ducks can do this. We can, however, reduce the depletion—by closing the shooting season for a year, thus relieving an enormous drain on our water fowl resources."

## SOFT BALL TO BE ORGANIZED BY FIREMEN

It appears that the fire department is going to take over the softball field out on the Eastland highway and provide entertainment for the local merchants and their friends these evenings by forming and matching teams formed by business concerns.

The thing that ruins softball is professionalism, thinks J. J. Collins, local fire chief. People enjoy seeing the players miss the ball now and then, and they want a fellow to make some runs. If the man falls a few times it is all the funnier, he thinks.

So if the fire department takes over the operating of the softball field they will probably get someone to superintend the matching and playing of games with each other with a minimum charge sufficient only to operate the field. And players' not to goad, will be encouraged, it is said.

## GARRETT WILL SWING THRU COUNTY FRIDAY

On the last day of this campaign Judge Clyde L. Garrett, candidate for congress from the 17th district will swing through his home county to get the final contact with the voters who have so faithfully supported him in the past. Judge Garrett is closing his campaign that day and will be in eleven points in the county that day. His closing speech will be made in a mammoth county wide rally at Eastland that night.

Plans are being made for the largest crowd ever to assemble in the county to hear his final speech of the current campaign. Judge Garrett has met with almost universal acclaim over the district and he wants the home folks to be with him in this last hour of his campaign. Large crowds have greeted him in all his speaking dates and the response to his appeal over the district has been a rousing one.

A complete program for all the candidates will precede the speech by Judge Garrett.

In his swing through the county Judge Garrett will make many short talks and greet his old friends. Eastland county folks believe in Clyde Garrett and they are going to give him the largest vote ever given a congressional candidate in this county from all indications.

His schedule for the day follows: Desdemona—9 a. m. Gorman—9:45 a. m. Carbon—10:20 a. m. Okra—11 a. m. Pioneer—11:20 a. m. Scranton—12:30 p. m. DeSpain—2:15 p. m. Cisco—3 p. m. Ranger—4:15 p. m. Olden—5 p. m. Eastland at night.

## SALT SUPPLY INEXHAUSTIBLE

SALT LAKE CITY.—(U.P.)—Scientists estimate there are 400,000,000 tons of salt enough to supply the world demand indefinitely. The Great Salt Lake Salt crystals are more than two feet thick over the bottom of the lake.

## INDIANS FIGHT SALES TAX

CALGARY, Alta.—(U.P.)—Indians in Alberta have filed a protest against paying the new provincial 2 per cent sales tax. They asked for a ruling from Ottawa. Age-old treaties exempt Canadian Indians from any form of taxation.

## VAST COAL DEPOSITS CITED

PRICE, Utah.—(U.P.)—Enough coal to supply the needs of the population of the United States for 200 years lies under the cliffs of Carbon county, the center of Utah's richest coal fields, mining experts believe.

## Former Ciscoans Injured in Wreck

In a car wreck at Santa Fe, N. M., Mrs. V. L. Thompson was slightly injured and Mr. Thompson had four ribs broken. They formerly lived in Cisco. Mrs. Thompson being the daughter of Mrs. Etta Hart.

## HOSPITAL KEEPS NO. 13

MEMPHIS, Tenn.—(U.P.)—Hospital attendants here are uncertain why but only one hospital has a room number ending in 13. Methodist hospital has room 413 for patients who believe 13 is lucky.

## VETERANS PAYS RELIEF DEBT

OROVILLE, Cal.—(U.P.)—When Mrs. Esty received his bonus his first act was to go to the county auditor and repay five \$2 grocery orders received in 1934 when things weren't going so well.

TEN REASONS WHY Cecil A. Lotief Should be Re-elected as REPRESENTATIVE 107th DISTRICT

1. He has fulfilled all promises that he has made to the people as a representative.
2. He stood for economy, honesty, integrity and decency in government.
3. He worked for public schools, and his vote made it possible for boys and girls who reside in the county to receive the same schooling as in cities and obtain \$19.00 per capita and teachers got their pay promptly without an additional tax on farmers or home owners.
4. He fought the battle for Old Age Pensions. He is not satisfied with the law as it is and so stated when he voted for it. (See page 291—House Journal called session.) He will if re-elected work and vote for a better Old Age Pension Law as he has repeatedly promised in his speeches.
5. He has offered many amendments to cut out the cost of State Government and kill unnecessary expenditures thereby saving many thousands of dollars.
6. He has tried and proved to be honest, capable, faithful and able to do the job, then, why take a risk on wild promises when he already proved to be alright in every respect.
7. He has conducted a clean campaign, did not abuse or conduct any whispering campaign, but he fought a good fight and kept the faith.
8. He is not connected with any special interest or groups and did not accept any campaign fund from any corporation, lawyers or lobbyist.
9. His record never has been challenged by anyone—a record to be proud of.
10. His life, public or private is clean, and he never betrayed your confidence, so for these reasons he solicits your vote and support July 25th.

Today's Ford V-8 introduces a new scale of motoring luxury to the low-price field. Recent refinements on ALL FORD cars . . . with and without de luxe equipment . . . give new evidence of quality that has always existed beneath the surface.

The new interiors recall the richness and beauty you have often seen and envied in cars of higher price.

On de luxe models, instrument panel and window moldings are finished in a satiny new walnut grain . . . upholstery treatment is smarter, more luxurious . . . steering wheel is of a new type . . . wheel bands are chromium-plated . . . tandem windshield wipers give better visibility in bad weather . . . and the rear-view mirror includes a dependable clock.

Cars without de luxe equipment now have new floor carpeting, new ash tray, new chrome-finish fittings, new mahogany-grain instrument panel and window moldings, and your choice of Bedford Cord or mohair upholstery.

And with this new luxury comes NEW ECONOMY. A new-type carburetor steps up gasoline mileage to a new all-time V-8 record.

See these smart new Fords at your dealer's. You'll find them easy on the eyes . . . and on the pocketbook too!

### MEXICAN ROAD FOUND LACKING TOUR COMFORT

By WILLIAM H. LANDER  
United Press Staff Correspondent  
MEXICO CITY, July 18. (UP)—  
Motorists in the United States or  
Canada today can start for Mexico  
City, and get there in due time.

Many people are doing it every  
day. Some start in Laredo, Tex.,  
and cover the 763 miles to Mexico  
City in one long stretch of 20 to 24  
hours driving. Others do it in  
two days and one night and some  
come at an even slower pace.

Before making the trip myself  
I'd heard scores of different ver-  
sions about the road. Some who  
drove down were scared to drive  
back, others said it was just as  
easy as driving from New York. At  
Miami I started out from Laredo  
the day the highway was inaugu-  
rated—and I found that the Mexi-  
can government had been true to  
its word in every respect.

Mexican officials had said that  
they would refuse officially to open  
the road until it could be traveled  
without difficulty. That is exactly  
what has happened. For months  
they were besieged with sugges-  
tions that they go ahead and open  
it—but they waited the smooth-  
ing out of the last difficult curve,  
the termination of the last bridge,  
and then inaugurated it on July 1.

Scene Undergoes Changes  
The thousands who traversed it  
before July 1 today will find that  
their description of the road may  
be as honest as can be, but is just  
out of date.

I came over the road in a small  
car, and it climbed from sea-level  
to above 8,000 feet in high gear.  
On some stretches a speed of 80  
miles an hour was attained. How-  
ever, the speed limit is 39 kilo-  
meters (24 miles).

Despite the wonderful road,  
Mexico is not yet shouting "Motor  
down to Mexico." On the other  
hand, it does not say "Don't  
come."

Most Mexican officials have ex-  
plained their position like this:  
"We opened the road, because it  
was completed. We know that

there are not adequate lodging  
facilities en route for big caravans  
to find room for everybody. But we  
do expect that the construction of  
hotels, tourist-courts and camps  
will be hastened when people in  
that line of business see how many  
motorists are driving down. We're  
going to do our best to make every-  
one comfortable."

Formerly the question of the  
condition of the road was para-  
mount in planning an auto tour to  
Mexico City. That no longer is a  
problem. Today a motorist does,  
however, still have to think about  
lodging, food, the climate and the  
altitude.

Chance Plays Part  
As far the trip from Laredo to  
Mexico City, the element of chance  
plays a big part.

A motorist might encounter un-  
usually hot weather in the low  
stretches, find all the lodging  
places full run into rain or fog in  
the mountain section and not see  
the views, and have a miserable  
time generally.

On the other hand, a person  
might run into good weather, clear  
terraces, enjoy the food, and have  
a trip such as would be hard to  
find anywhere in America.

I found the stretch from Laredo  
to Monterrey (145 miles) hot and  
monotonous. There's one stretch  
of 47 miles that's a straight line.  
The road is perfect. The city of  
Monterrey is a gem. It is beautiful,  
cleanest city in Mexico. It has  
much better hotel accommodations  
than Mexico City.

Between Monterrey and Mexico

City there is not a city. The rail-  
road between these two points  
passes through Saltillo, San Luis  
Potosi, and Queretaro—but the  
highway was built through virgin  
country. In some villages near the  
road the Indians are beginning to  
learn to speak Spanish.

Many Lodging Places  
There are many little places  
where lodging may be obtained. At  
Valles there are some big tourist  
courts under construction. Villa  
Juarez is a big boom town. There  
is a hotel with 40 rooms and 40  
showers—baths and other small ones.  
This town grew due to the building  
of a big sugar mill and the com-  
pletion of an irrigation project.

When I made the trip, I found  
comfortable beds and good food,  
but slept little because of the heat.

After leaving Tamabunchale,  
however, the heat no longer is a  
problem. The ascent is fast al-  
though the grades are so well com-  
pensated that a car can do it all in  
high-gear.

Probably no road in the world of  
this length has so few crossroads,  
so few grade crossings. Half of it  
is in low, hot country; half in beau-  
tiful mountains, some above 3,000 feet.

The road is as safe as any. Care-  
less drivers here, as anywhere else,  
may run into trouble. The road is  
wide enough to keep to the right at  
all times, and not run the risk of  
lumping into somebody coming the  
other way on the curves.

Contrary to what has been pub-  
lished, there are no detours, no  
rivers to be ferried, no sections  
blocked by landslides.

### Business Conditions as of July 1st.

This map represents business conditions in every state of the Union as shown in August, 1916, issue of "Nation's Business" official publication of the United States Chamber of Commerce.

June saw an upsurge in trade and industry as a whole, but widespread drought retarded most crops. Losses in the northwest spring wheat crop were reported following a long spell of dry weather. Pastures suffered widely. Preparations were reported to ship cattle out of affected areas. Cotton suffered in the southeast. These happenings plus the poor fruit crop reports of May cloud the agricultural outlook as a whole.

Electric power output made new all-time records in June. Steel production, aided by active buying of automobiles, machine tools and railroad locomotives, cars and rails,

showed a contra-seasonal increase and almost doubled the output of 1935. Carloadings for June were the heaviest of the year to date. Orders for aircraft were heavy.

Commodity prices, led by grains, rose following the May decline. Chain and mail order sales increased. Cotton consumption and exports surpassed 1935. Railroad fares were reduced. Cigarette and electric refrigerator production broke all records.

Stock market prices advanced for the thirteenth month out of four. Dividend resumptions and new dividend announcements were numerous. Bank debts for the half-

year were a sixth larger than year ago. Failure are well below equal to 1935 but far below 1936 years.

#### THE MAP

The striking change in the map is the darkening in wheat areas because of prospect of yield from 1935 drought damage.

#### THE BAROMETER

The Business Activity Barometer for June rose for the third year, thereby tying that of November, 1935, and almost equaled that of November, 1936.

**PORT ARTHUR'S  
 12-GRADE TEAM  
 IS RULED O.K.E.H.**

PORT ARTHUR, July 20 (U.P.)—  
 Port Arthur's 12-grade school sys-  
 tem does not give its football teams  
 undue advantage over other schools  
 in the state, according to findings  
 of a special committee of the  
 Texas Interscholastic League which  
 was appointed to study the situa-  
 tion following a motion by Beau-  
 mont High school for a referen-  
 dum against 12th grade football  
 players.

The report, mailed to local school  
 authorities by Dean T. H. Shelby,  
 Chairman of the Interscholastic  
 League, has been accepted by the  
 League Executive Committee as its  
 final action, Shelby stated.

The committee, which made a  
 two-month study of the situation,  
 reported that "from all the data,  
 the committee finds that Port Ar-  
 thur has about a one-year advan-  
 tage in age over Beaumont when all  
 boys enrolled in the upper six years  
 of high school are considered, but  
 that Port Arthur has an advan-  
 tage of about one-half year only  
 when football players are concerned.

The committee finds that many  
 eleven year schools in the state  
 have football squads which equal  
 or surpass the Port Arthur eleven  
 in average age. It, therefore, seems  
 evident that other factors than the  
 12-year system have an important  
 bearing on the ages of football  
 players. It is the opinion of the com-  
 mittee that any attempt to devise  
 a local rule for the purpose of re-  
 moving the small differences in age  
 now existing between Port Arthur  
 and Beaumont would have little  
 chance for success in really solv-  
 ing the problem and would require  
 action more drastic than the situa-  
 tion seems to warrant."

were Thomas B. Portwood of San  
 Antonio, E. Price of Nacogoches,  
 L. W. Hartsfield of Hillsboro, C. E.  
 Wade of Kingsville and H. W. Still-  
 well of Texarkana.

Schools with which Port Arthur  
 was compared and average ages  
 of players in 1935 were as follows:  
 Amarillo, 17.2; Dallas Tech, 17;  
 Corpus Christi, 16.92; Greenville,  
 16.5; San Angelo, 16.38; Mexia, 16.17;

 was 16.41.

**TIME TO CHANGE TO Cool Cookery**

• The thousands of women who have bought Hotpoint Electric Ranges have embarked on a new experience of happy, clean, carefree housework.

Overheated summer kitchens are a thing of the past with "Miracle Cookery." Thick insulation keeps heat in the oven, where it belongs. And, in surface cookery, Hotpoint Calrod coils concentrate all heat on the utensil and do not diffuse it into the air of the kitchen. And, of course, with electricity as the fuel, immaculate cleanliness is possible. Even the bottoms of pans do not become blackened.

Imagine spending all day away from home—then arriving just before dinner time to find the entire meal perfectly cooked, waiting in the oven, ready for serving. You see, in the morning you can make the food ready for cooking, then put it in the oven, set the temperature control, set the "Chef's Brain" (automatic timer) for the time it is to begin cooking and the time it should be finished—and then forget it until dinner is to be served.

Come in and see the beautiful new Hotpoint Electric Ranges. Discover how you can join the parade of modern women and save money at the same time.

**HOTPOINT CALROD**  
 What Mazda means to light, Calrod means to cookery. Calrod is the name given to Hotpoint's hi-speed sealed-in metal cooking coil which has revolutionized electric cookery. It brings new speed, new cleanliness and new economy to the kitchen.

**THRIFT COOKER**  
 Economical. Uses only about as much current as the kitchen light. Cooks an entire meal of meat, vegetable, dessert—or bakes small quantities, like a few potatoes, without need for heating up the oven.

# C. A. SHOCKEY GETS 8-POUND BASS AT LAKE

A large bass, 26 inches long, weighing eight pounds was "captured" at Lake Cisco near Slaffers Draw at 9:45 a. m. Friday, Mr. C. A. Shockey was the captor.

Friday Mr. Shockey went fishing out at Lake Cisco in his motor boat. Something jerked on his line, and in trying to pull it in to see just what sort of a fish it was, the fish swam under the boat, getting the line tangled up with the propeller of the motor. Mr. Shockey hung on to the boat by one hand, and with great difficulty, braving the danger of a "spill" into the waters of the Lake by overbalancing his boat, he finally untangled the line, and pulled the fish up in the boat. Just as he landed him, the fish jerked loose from the hook, and then, according to Mr. Shockey, the tussle really began. It was "nippy-tuck" between Shockey and the fish, but finally Shockey won by using what fighters and wrestlers term as "dirty tactics." He knocked the fish in the head, thereby winning in the second round.

This is the largest bass that was ever caught in the Lake according to reports from an authoritative source. It took Mr. Shockey more than thirty minutes to land him, and as all good fishermen know a bass of this size is quite difficult to handle.

On May 1st four men from Breckenridge won a prize for catching the largest bass up to that time, it weighed 6 pounds. The honor goes to a Cisco man, this time, however, and he brought the large head, with mouth wide open and starting eyes into the Daily News office this morning as evidence of his catch. Mr. Shockey will have the head mounted as a constant reminder of his efforts.

# EASTLAND GETS BUILDING LIKE CISCO OFFICE

EASTLAND, July 21. —Mr. Cannon of the Templeton-Cannon Construction company of San Antonio was in Eastland the past week-end getting everything ready to start work immediately on the new federal post office building at Eastland.

Mr. Cannon states that the new building will be built on the former plan for better buildings instead of the recent economy buildings of which a few were built. Instead of stucco finish it will be of solid brick walls on the order of the Cisco post office. The total cost of the building exclusive of fixtures will be \$60,000.

Mr. Cannon states that 210 working days are in the contract with the government for completion of the building from the time the bids were awarded. Eastland is among the three new post offices that the Templeton-Cannon Construction company are building.

75 cents per hour, with a maximum of 71 hours. These rates will apply also to Eastland, Stephens and Nolan counties. The following rates will prevail in Callahan, Coke, Jones, Kent, Fisher, Scurry, Mitchell and Shackelford counties: Unskilled labor, 22½ cents per hour, with a maximum of 94 hours; intermediate, 35 cents per hour, with a maximum of 94 hours; skilled labor, 65 cents per hour, with a maximum of 60 hours; professional and technical workers, 65 cents, with a maximum of 65 hours.

Reduced hours of the new schedule will result in the consolidation of many projects in order to properly maintain remaining ones. In most instances, it is planned to work two shifts in order to carry work and supervision uniformly.

It is planned to carry on prevailing projects insofar as possible, as a majority of these are road and paving projects formulated in units, which will eventually lead to completed road and street paving systems in the various towns and communities. It is not anticipated that a general call will be made for new projects, except in localities where the unemployed load demands or completing projects makes labor available.

A recent check of unemployed in District No. 13 gives a total of 6,629 registrants. District No. 13 is now operating under an assigned quota of 3,800 workers as set by the Works Progress Administration on May 30. In some instances, other districts have had severe reductions in quota since that date; reductions have been ordered for District No. 13 however.

With prospects for a bumper crops a heavy seasonal decline in workers is anticipated, which may cause shut-downs as cotton picking nears.

Under a recent ruling, relief owned and operated trucks will receive as much per hour for truck as is paid non-relief trucks and drivers.

# Callahan County to Get Road Surfacing

AUSTIN, July 21. (U.P.) — Bids were called today for July 30 to August 1 by the state highway department on 554 miles of road surfacing projects estimated to cost \$1,000,000.

Included were: 18 miles of asphalt coat on Highway 1 from Eastland county to Baird and 47 miles on Highway 1 from Allamore to Van Horn and from 13 miles east of Van Horn, to the Jeff Davis county line.

# RATTLE SLEEPS ON CACTUS

TOLEDO — (U.P.) — Leo Higgins, curator of reptiles at the Toledo Zoo, was skeptical of a paper-back novel's tale of an an who "protected himself" from rattlesnakes by surrounding himself with cactus. Higgins' skepticism was justified when he found his biggest Texas Diamondback curled up asleep on the top of a prickly barrel cactus.

# "TAPS" FOR VACATION SHIP

TOLEDO — (U.P.) — The steel hull of the old Steamer Greyhound, which carried vacationers and pleasure passengers out of Toledo for years soon may become an oil barge. The vessel is being dismantled.

# HUNTER BAGS 117 COUGARS

LEWISTON, Ida. — (U.P.) — George Lowe, Idaho's veteran predatory animal hunter, is credited with bagging 117 cougars during 11 years on the trail in this state's wild timberlands. He still is hunting.

# LEARN ABOUT DYNAMITE

SALT LAKE CITY — (U.P.) — Some 13-year-old boys found a case of dynamite in the Jordan River. Police looked at it said it was harmless and tossed it back in. Then they were told water doesn't affect dynamite, and had to go "fishing" for it.

# END FORESEEN FOR BIG SCALE FARMS IN U. S.

KANSAS CITY, Mo., July 20. (U.P.) — Walter B. Pitkin, educator, author and farm manager, sees irrigation, financed with money saved from flood damage, as the "cure" for the dust bowl.

Pitkin toured the drought-stricken Northwest, and formed the theory that irrigation throughout the Missouri Valley and a chain of a thousand lakes along the river to trap flood waters is the solution.

"In a large part of the Northwest, and parts of western Kansas, Oklahoma and Texas there are but two outs for the farmer if he does not want to stay on his acreage and starve," the author of "Life Begins at 40" said.

"He must either move to other sections or the government will have to pay him money to enable him to exist."

Advice to West

"We are in a state of reorganization in this country. The West must go in for irrigation, and put back the buffalo grass which was plowed under for big scale farming. We have come to the end of big scale farming. The farm section of the West should be located within a radius of four miles on each side of the rivers for easy irrigation."

"Take Kansas City, Mo., as an example. From damage caused by floods by the Missouri and Kaw rivers enough would be saved for a vast irrigation system in the river valley north of Kansas City."

Calls 20 Acres Ideal

"We as a nation must go in for farming on a smaller scale. In the irrigation country 20 acres is a large farm."

Pitkin declares that he would tell audiences in his lectures that there is now a chance to be agricultural pioneers, that vast regions of farm land can be substituted for the drought area.

There are the rich irrigated regions of the Columbia and Coulee rivers in the Northwest," he said.

"There are fine, irrigated sections in Colorado and northern California, where they never have to worry about rain."

Praises Boulder Dam

"Then millions of people could live on farms around Corpus Christi, Tex. I think the Boulder Dam a great project. There are vast acreages in the Gulf Coast country that can be drained, improved, and changed into rich farm country that will support a vast farm population."

"Year after year we go on having floods that kill and damage, while if we took the same money spent on relief and used it to irrigate, we could end floods and grow fine crops."

"It is so simple I can't for the life of me see why we haven't done it years ago."

The author in recent years has had experience in farm management, and now operates 6,200 acres in New Jersey, Delaware and Maryland.

# WPA DISTRICT RECEIVES NEW PAY SCHEDULE

ABILENE, July 20. —With the adjustments brought by the close of the fiscal year ending June 30 completed, Works Progress Administration projects in District No. 13 are operating under slightly altered regulations for the new year. The change has been accomplished without complete shut-down of projects, and with comparatively small loss of time.

Under the new wage scale, which was originated in the State Works Progress office, San Antonio, and based on prevailing wage rates in the various communities, workers will work fewer hours but will receive the same monthly wage as formerly paid them. The state has been divided into 24 groups as to wage scale, with the wage ranging from 20 cents to 35 cents per hour for unskilled labor, with skilled labor carrying a rate of from 65 cents to one dollar per hour, and intermediate labor class from 35 cents to 55 cents per hour.

District No. 13, which comprises 12 counties with Abilene as headquarters, falls in groups 11 and 24, with a range of from 22½ cents to 30 cents per hour for unskilled labor. In Taylor county, 30 cents per hour will be paid for unskilled labor, with a maximum of 80 hours per month. Forty-five cents will be paid for intermediate, with the same maximum of hours prevailing. Skilled labor will be paid 75 cents per hour, with a maximum of 64 hours per month. Professional and technical workers will receive

# BLANTON GIVES ACCOUNTING OF STEWARDSHIP

Congressman Thomas L. Blanton spoke to several hundred people on the city hall lawn Monday night after a dinner at the Laguna hotel with some of his strong supporters, prefacing his talk with thanking the people of Cisco for the warm support given him in former campaigns for re-election to this office. The audience was unusually attentive and responded freely, with hand clappings voicing their approval of many statements of his stewardship of the trust imposed in him to transact the people's business as he put it.

Mr. Blanton emphasized the importance of keeping him in harness since he had through years of service obtained a seniority which would make him increasingly useful in congress during the next years to come.

He spoke of the efforts of enemies to defeat him and said that he had heard that a great sum of money was threatened to be sent to Texas to defeat him — he added that he did not know whether any was being used against him or not, however.

Congressman Blanton asked the

people to weigh carefully his efforts in their behalf and if he had not been true to their trust to "kick him out", but if he had worked for them diligently, then they should return him as manager of their business in Washington. "You would not fire a faithful manager of your business to pick up an untried, unskilled man, unacquainted with the administration of your affairs in your then do not do so in this greatness of running the government."

Congressman Blanton was induced by A. D. Starling, president of the Junior Chamber of Commerce and member of the Home Protection company.

## To the Voters of Commissioner's Precinct, No. 4:

Since you are vitally interested in the welfare and progress of our county and the handling of the business and building of roads in our precinct, you would want to elect a man to the important office of commissioner Precinct No. 4, who is also interested in the affairs of our Cisco community and that is qualified from the standpoint of experience and judgment.

We, as neighbors and friends, are glad to recommend Mr. ROBERT TUCKER to you and as the type of man every citizen can place faith and confidence in and feel that the interest of all alike will be handled in an efficient and economical way.

In our community (Pleasant Hill) he is considered one of the most valuable citizens, his judgment is often sought and never questioned. He is always ready to work when there is a movement of progress and improvement in his community.

His long experience has taught him many things about building and maintaining roads and the cost of same. He is honest in his thinking and we feel that we can with all fairness to ourselves recommend him to you as a candidate for commissioner and assure you that if elected he will render you efficient service.

## Rebellion in Spain Approaching Climax

### FEAR IS FELT FOR SAFETY OF AMERICANS

The Spanish rebellion now approaching a state of national chaos seemed near its climax today. A rebel army marched southward and a government army marched northward for what was expected to be the decisive battle. Americans and other foreigners were feared in great danger in some coastal ports. The United States battleship Oklahoma was ready to leave Cherbourg, France, for the western coast to assist refugees, if necessary. The American Export Lines steamer Exeter went to the rescue of Americans at Barcelona. In the far north battles raged at San Sebastian, at Irun to the east, and at Pasajes a fishing port. Dense columns of smoke led to the belief that the big Pasajes oil depot might have been hit. Refugees from Barcelona arriving at French frontier cities reported wild disorder. Some of them estimated the dead as high as 6,000. Appointment by the government of an emergency committee to rule the seven eastern provinces with a capital at Valencia indicated preparations to turn all power over to the committee in case the government at Madrid was overpowered.

### American Women and Children Recalled

WASHINGTON, D. C., July 23. (AP)—An urgent appeal that American women and children in the part of Spain controlled by the rebel forces be recalled immediately was made today by the U. S. consul.

### BOMB BY MAIL KILLS FARMER, INJURES WIFE

CAPE CHARLES, Va., July 23. (AP)—A bomb sent through the mail which killed a wealthy farmer near here and left his bride of a month sightless and seriously injured, brought a state-wide investigation today. Curry Thomas 47, was blown through the top of his automobile when he opened a parcel post package mailed in Richmond. Hospital attendants said Mrs. Thomas' condition is serious.

### Friana Bank Robber Gets Life Sentence

FARWELL, July 23. (AP)—Herbert Stanley, charged with the robbery of the Friana State bank of June 29, was under a life sentence in the Texas penitentiary today, a jury out for little more than an hour last night, fixed that penalty. J. C. Britton was held in the Friana county jail for participation in the same crime. His trial is to follow that of Stanley.

### TORONTO MARRIAGES GAIN

TORONTO, Ont., (AP)—Cupid was slightly busier here during "the month of brides" this year than he was in 1935, statistics issued by the city clerk reveal. During June, 826 marriages were performed, compared with 787 in June 1935.

### POLITICIANS MAKE EXTRA HARD EFFORT

Political candidates hoarse from weeks of shouting went into the next-to-last-day of oratory Thursday, hoping to get as many backers as possible in the democratic primary Saturday. Most of the candidates had major rallies in large cities for the last two days of the campaign. Tom Hunter of Wichita Falls, who got into the runoff two years ago, and has expressed confidence, he will do the same again, had only one address scheduled Thursday. It was a night meeting at Ferris Park in Dallas. State Senator Roy Sanderford spoke Thursday afternoon in Hempstead. His speech was filled with sarcastic remarks about Allied administration. "Little Jimmy with the governor's office is much the same as a six year old child with a complicated toy designed for a twelve year old," Sanderford is scheduled to speak tonight in Houston. Alred also started his day's schedule with a speech in Hempstead, then talked in Navasota, Eryan and Corsicana before going to Waco for a night of rest. F. Fischer of Tyler had scheduled only a radio address in Waco tonight.

### DISEASE THINS JAPAN'S ARMY RECRUIT QUOTA

TOKYO, July 23. (AP)—The national health of Japan, particularly in connection with the young men of military age, is causing concern among government and civic leaders. Minister of War Hisaichi Terauchi presented the problem to the Cabinet and suggestions have been made for establishment of a new government department to deal with public health problems. The results of physical examinations of young men for military service in the last few years have shown an alarming increase in the number of those physically ineligible for service. "A great number are afflicted with eye diseases and tuberculosis, in comparison with statistics from other countries." Full Survey Urged

### MUST NOT SELL BEER OR WINE ELECTION DAY

No beer or wine can be sold Saturday since it is election day. The laws relating to this says that wine and beer license must close from 7 a. m. to 8 p. m. on election days and no wines of over 4 per cent may be sold after 8 p. m. The above relates to retail sales, according to Leith Morris, member of Liquor Control Board. As to wholesaling beer or wines, no sale or delivery is to be made between the hours of 7 a. m. and 8 p. m., said Mr. Morris.

### Still Raid Results In Two Arrests

Two men were turned over to the federal men by the sheriff's department Wednesday after a still was seized south of Nimrod. The federal agents accompanied the county officers. The men, seen at the location of an operating 65-barrel still, were to be taken to Abilene, where charges were to be filed before a United States commissioner. Four barrels of mash were also confiscated by Sheriff Foster and Deputies Claude Mammert and Ray Hardwick.

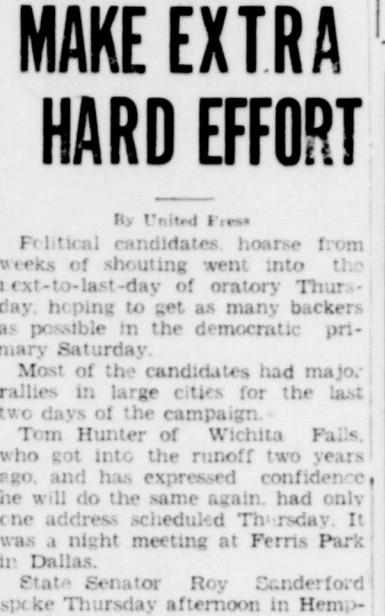

### Modern Methods Demanded

Kokumin Shimbun, also commenting editorially urged a progressive attitude, declaring that the present method of dealing with health problems had been "blindly followed from the early days of Meiji without regard for changing conditions." The newspapers Asahi called for urgent action against tuberculosis and eye diseases.

### FATHER COUGHLIN TO PRINT APOLOGY

DETROIT, Mich., July 23. (AP)—An open letter of apology by Father Coughlin for his recent statement that President Roosevelt was a "double crosser and a liar," will be published tomorrow in the Priest Paper "Social Justice."

### SHEEP SAVED FROM DROUGHT

### SCHEDULE FOR COMMODITIES DISTRIBUTION

All clients of the Eastland County Welfare association must meet the truck at their various stations at the hours appointed if they are to receive commodities, said Miss Elsie Glenn, case worker for Cisco. The August date for Cisco is August 5, 9 to 2 p. m. Other dates in this district are, Eastland, August 4, 9 to 2 p. m.; Carbon, August 6, 9 to 11 a. m.; Ranger, August 11, 9 to 11 a. m.; Rising Star, August 12, 9.30 to 11.30 a. m.; Cross Plains, August 12, 1 to 2.30 p. m.; Breckenridge, August 13, 9.30 to 2.30 p. m.; and again at Eastland for emergency only, August 17, 9 to 2 p. m. The above is the schedule as announced by R. E. Richardson, commodity supervisor, said Miss Glenn.

### J. B. Cate Instructs New Rotary Members

A talk on Rotary instructions to new members by J. B. Cate, program leader, and several piano selections by Mrs. Lloyd Hughes, completed the program today at the weekly Rotary luncheon. Mr. Dan R. Juppell, Abilene, guest of O. J. Russell, was a visitor for the luncheon. Mr. Juppell is a member of the Abilene Rotary club. The cool breeze made it easy for the audience to give an attentive ear to each speaker, and all were accorded the closest attention and given liberal applause. Judge W. P. Leslie presided and announced the speakers and the office for which they aspired. Janitor Robinson arranged comfortable seats and had sprinkled the lawn to allay and dust. The Colles' loud speaking service was used.

### BIG AUDIENCE AT SPEAKING ON CITY LAWN

The political rally on the lawn of the city hall last night drew an unusually large crowd to hear the county and district candidates announce for their various offices and tell reasons why they should be elected as the case might be. The cool breeze made it easy for the audience to give an attentive ear to each speaker, and all were accorded the closest attention and given liberal applause. Judge W. P. Leslie presided and announced the speakers and the office for which they aspired. Janitor Robinson arranged comfortable seats and had sprinkled the lawn to allay and dust. The Colles' loud speaking service was used.

### CISCO DAILY NEWS WILL HOLD ELECTION PARTY SATURDAY EVE

In accordance with its custom through the years, the Cisco Daily News will receive and announce the election returns from the Texas Election bureau and will broadcast these bulletins as fast as they are received to all those who may care to attend the Daily News election party Saturday night. Returns should begin coming in by 8 o'clock and before midnight most of the elections will have been determined. Robert Maddox and his Lobo band will give a musical concert at the Mobley park in front of the News office, beginning at 8:15 and continuing an hour or so. Between musical numbers state and county returns will be announced. W. Frank Walker and R. E. Grantham will assist in the tabulation and announcing of bulletins on the election which will be continued until midnight. All citizens of Cisco and surrounding territory are invited to attend the Cisco Daily News election party and get all election news received here.

### FAVORS CIVIL SERVICE FOR POSTMASTERS

TOPEKA, Kan., July 23. (AP)—Gov. Alf M. Landon, who, in a few hours will accept the republican nomination for President of the United States, today endorsed President Roosevelt's order placing all postmasters under a modified merit system and expressed the opinion that the new deal had been driven to that action by his own civil service stand. The governor parried all questions, including this one. "Governor will you appoint any democrats to your cabinet?" "See my acceptance speech," Landon replied. "You will find a pretty good idea there." Upwards of 100,000 persons are expected for the notification. Toward evening they will gather on the capitol grounds. Landon will begin speaking about 8.30 p. m., Central Standard Time. Friends of the governor have revealed that his speech will deal in generalities with half a dozen major problems. It is designed to be the text for campaign speeches to come. There is no quibbling in the Landon camp over the democrats' superior speaking technique, but they do not recognize that as a handicap. Rather a circumstance which may be turned to the advantage of their own candidate, described around Topeka as "just a high class, average man."

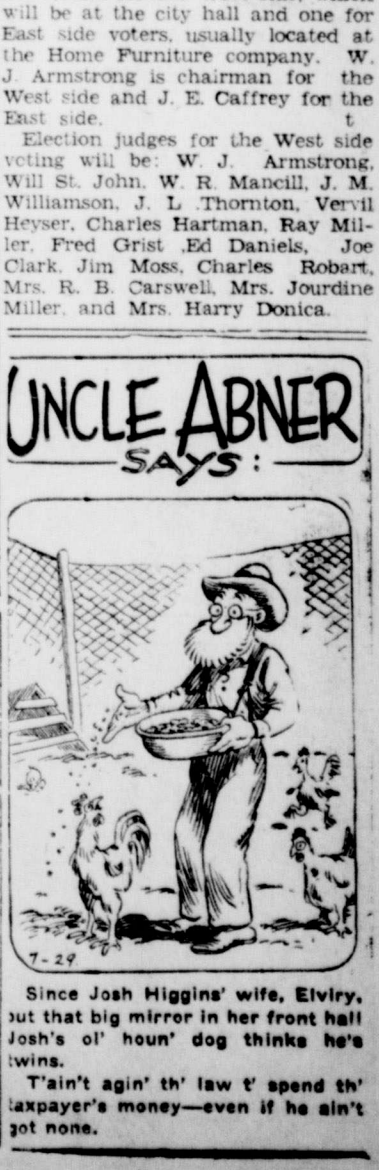

### DISTRICT COURT TO DECIDE CASE TODAY

ANGLETON, July 23. (AP)—A district court today was to take the murder case of Luke Trammell and Fred Gammitt, contacts charged with murdering Felix Smith. Retriever prison farm guard.

## Too Clever is Undesirable!

Cleverness can be admirable. It can also be otherwise.

A young fellow who had been reared in a circle of admiring relatives, got his first job with an acquaintance of his father's.

In one corner of the office stood a large safe, the combination of which was known only to the proprietor. The boy was much interested in that safe. He thought if he could figure out that combination all by himself, it would be a bright, red feather in his cap, revealing a high degree of intelligence.

One day while his employer was away and there was little to do, the boy sat down in front of the safe and began to work on the combination. He would turn the dial with his ear to the door and listen to the tumblers as they dropped and make notations. The process was long and tedious; but he was spurred on by the thought of how brilliant he would be if he could do the trick. Eventually he succeeded and to his intense satisfaction was able to swing the massive door open.

When the proprietor returned, the boy told him with much elation of his accomplishment with the safe. To his astonishment he was roundly bawled out for butting in where he had no business to intrude, and was given his marching orders.

Once we had a clever cow. She had a sense of humor, too. She was fond of pushing the chicken coops all over the place, just to hear the old hens expostulate hysterically, and the chickens screech with fright.

A roll of wire fencing, so heavy that it took two men to unload it was deposited in the yard. The cow proceeded to push the bale over and to unroll about a hundred feet of it before she was discovered.

This bovine creature had a cute way of easing up behind you when you weren't noticing, and digging you rather gently—but not gently enough—in the calf of the leg with her little, shary, Jersey horns, just to see you jump.

A servant who lived in a little house in a corner of the place used to "cook" her clothes in a big, iron pot in the yard. One clothes-boiling day the cow meandered down that way, inserted a horn into the steaming pot raked out the batch of clothes and dropped them into the dirt; then she strolled over to the clothes line and chewed up the legs of two pairs of underwear; and the servant came out of the house just in time to see the end of a red bordered towel vanish down the cow's gullet.

The beast was fond of apples, as all cows are, but being hobbled she couldn't reach the fruit. However, she was clever, and learned to shake down the apples she wanted by vigorously bumping her shoulder against the trunks of the trees.

That cow was so clever, that we finally got rid of her, as did the man of his too clever office boy.

Cleverness not accompanied by discrimination may be quite undesirable.

**Q. What early Texas colleges were established at San Augustine? M. B. Hallsville.**

A. San Augustine University was incorporated June 6, 1837, the day after the first incorporation of the town. On January 13, 1844, Wesleyan College was chartered and bitter rivalry arose between the two schools. Following the assassination of President James Russell of San Augustine University, attributed to the college feud, efforts were made to consolidate the schools, in 1847, into the University of Eastern Texas, but with different success. Masonic Institute was organized in 1840 and was conducted until 1861.

**Q. Was John Wesley Hardin a native Texan? How did he die? N. A. Ada, Okla.**

A. He was born in Fannin county, Texas, in 1853, son of a Methodist preacher. He early became a man killer and is said to have killed more than twenty men. After serving a penitentiary term he practiced law while at Gonzales and then at El Paso. His friends said he made an honest effort to reform, but couldn't "make the grade." He was killed in an El Paso barroom in 1895 by Constable John Selman, whose son he had threatened to run out of town.

**Q. When was the anti-trust law first passed in Texas? S. S. Thrall**

A. In 1883, Texas being the second State to pass such a law.

 STUTTGART, Ark. — (UP) — Jeanne McClusky disagrees with movies showing vases breaking over people's heads. She entered her home by herself one night, found a burglar, and "threw one of mother's prize vases at him," as she fled. Next morning her parents returned home, found the vase unbroken.

## Texas Topics

By RAYMOND BROOKS

AUSTIN, July 23. — Those expecting the 31 Texas senators and 150 house members to be called to Austin in September can visualize the first five items of Gov. Allred's proclamation convening the session:

1. Revenues to pay old-age pensions under the present assistance law.
2. Enabling act for federal benefits for dependent children.
3. Act for federal security benefits to the blind.
4. A bill to permit Texas to share in unemployment insurance.
5. Enabling statute for agricultural benefits.

The last subject will also list "and such other subjects of legislation as may be submitted to the legislature by message."

The first item on this bill unquestionably opens the entire field of taxation, whether all or any of the money is directed to pensions, because the subject of taxation cannot be half-opened and restricted.

It seems to be a close question whether, in providing for a change in the method of raising money, and in the amount of money available, whether the legislature will have opened the subject of changing terms of the act authorizing and regulating the payment of pensions. Members wanting to change the set-up—such as giving the maximum \$30 per month to every person over 65 years of age—probably will insist that the governor has opened the administrative act in submitting the amount to be paid under it.

If it is ruled that changing the machinery has not been submitted the legislative month of work will be greatly simplified, because at this stage there will be efforts to liberalize the act; and there also will be efforts to restrict it still more.

Especially will there be a fight to turn over the relief program to local political units—county governments—and to abolish the state caseworkers, reviewers and direct administration of the pension act.

The new session will seat two incoming senators: E. Harold Beck of Texarkana and R. C. Weinert of Seguin, who were named in special elections to succeed Sen. Will Beck of the Texarkana and Sen. W. K. Hopkins of the Guadalupe district both resigned.

MYRA NORTH, Special Nurse — By Thompson and Coll

DEVOTED TO FORESTRY PANGUITCH, Utah. — UP — William Hurst, III, is the third generation of the same name to carry on a tradition of forest service. His father, William Hurst, II, has served 26 years as a forest ranger. His grandfather, William Hurst, I, served until his death in 1913 as supervisor of the Beaver and Filmore forests.

1777 SHILLING FOUND VAN WERT, O. — UP — Andrew Miller discovered in a safe a paper shilling, issued 1777 by the Commonwealth of Pennsylvania. The bill reveals that it was printed by John Dunlap, a Philadelphia printer, that penalty for counterfeiting was death, and that its face value was 24 cents.

WOMEN FELONS SET RECORD BOISE, Ida. — UP — Mrs. Edna L. Ekersley, former treasurer of Lewis county, made the tenth woman prisoner in the Idaho penitentiary, bringing its female inmates to the largest number since its founding 69 years ago.

"WHITE COLLAR" MINER CHIO, Cal. — UP — E. E. DeSnell, 78, claims to be the only "white collar" gold miner in the business. Aside from having lost an Alaska gold fortune that forced him to return to mining, DeSnell now refuses to divest himself of a white collar as he pans for gold in the Butte Creek canyon near here.

NOVICE SETS RIFLE RECORD CAMP PERRY, O. — UP — Mrs. James Hale of Akron, O., set a world's record in the annual Ohio Rifle and Pistol Association matches at Camp Perry, scoring 399 points out of a possible 400. Mrs. Hale had been shooting the rifle only 18 months.

TRUCK UPSET; MILK SAVED SCHENECTADY, N. Y. — UP — A huge milk truck operated by Geo. Massey went off the road here, rolled over and bounded back on its four wheels. The truck was damaged but the driver was unhurt. Only four quarts of the 15,000 quart load were spilled.

BABY "ONE IN THOUSAND" MIDDLETOWN, O. — UP — When Marcia Ann Bowling, the infant daughter of Mr. and Mrs. Clarence M. Bowling, was born she became "one baby in a thousand." Baby Marcia Ann was born with two lower teeth—an occurrence which doctors say happens once in a thousand births.

So Much for Love

BEGIN HERE TODAY HELENA DERRIK, youthful head of the women's sportswear department at Helvig's store, goes on a week-end party at Crest Mountain Lodge. There she meets handsome PETER HENDERSON. It is a case of love at first sight between them. Peter asks Helena to marry him and the ceremony takes place.

Later the crowd goes swimming. Peter makes a reckless dive and is seriously injured. Lingering between life and death, Peter asks Helena to summon his lawyer, JOHN COURTNEY. Courtney arrives and a short time later Peter dies.

Helena is informed she is sole heir to a large fortune, including the Henderson department store. She meets beautiful LEAH FRAZIER who had expected to marry Peter, and realizes Leah is an enemy. Peter's uncle ROGER BARNES, manager of the store, is also hostile.

NOW GO ON WITH THE STORY CHAPTER VII

IT was indeed a closely-knit town, neither large nor small, into which John Courtney brought Helena—and to her alarm she discovered that the Henderson Department Store was easily the most impressive structure there. She was to learn that it was impressive not simply in size. True, it was not as large as Helvig's, where Helena had worked, but it was easily the biggest organization of its kind in its half of the state.

"You can see from what I've said," Helena wrote her mother, "that I've had my hands full—and that I don't know yet just what to do. I'd thought of having you here with me, but the truth is I don't know whether I'll stay. Today John Courtney telephoned and said he was coming over. I have to meet Peter's uncle, and a man from the bank."

She had just sealed and stamped this letter when the bell of her apartment sounded. "It must be Courtney," Helena thought with a sigh. Aloud, she said, "Come in, please."

Turning from the little writing desk she confronted, not John Courtney, but Leah Frazier.

"Good morning, Miss Frazier," Helena faltered. "I'm awfully glad you called."

"This," answered Leah Frazier, "isn't precisely a call, Miss Derrick." She smiled coldly. "It is, Helena Derrick, isn't it? I mean,

CISCO SCOUTS MAKE REPORT BIG VACATION

Boy Scouts from Camp Billie Gibbons returned Wednesday afternoon full of stories of the good times they had on their week's vacation training and of the valuable training received in the inspection tests that won them third place in the Honor Campers award with Brownwood troops taking first and second places.

Troop 43 of Brownwood took first and troop 16 of the same town made second with Cisco troop No. 4 trailing closely. The awards were made from the various inspections, said Robert Grantham, who is very enthusiastic about the training that a scout gets in a camp of this kind, and who can entertain you with a recount of the romantic scenery, towering walls, Indian writing on rocks that won't erase, lovely springs and caverns, Indian burial grounds and the many things that not only intrigue the young but entertains the old.

Wednesday ended the first series and began the second series of camp schedules.

# TEXAS, HONEY CHAMPION OF UNITED STATES

DALLAS, July 23. (U.P.) — Texas will de-throne California this year as the champion honey producing state in the union. T. W. Burlison of Waxahachie, president of the American Honey Producers League, forecast today.

Mr. Burlison, director of the Texas Beekeepers Association education exhibit of bee and bee products at the Hall of Agriculture of the Texas Centennial Exposition, claimed an all-time high record crop in South Texas, the big honey producing section of the state that built the \$25,000,000 World's Fair at Dallas to celebrate 100 years of achievement since gaining independence from Mexico.

The huajillo and catslaw bushes of South Texas produced an abundance of nectar carrying blooms in March, April and May and are responsible for Texas regaining the laurels she lost to California three years ago. Prior to that time Texas held the annual record for producing honey, according to Mr. Burlison.

# Importance of Farmer of Southwest in Manufacture of the Ford V-8 Told by Lecturers and in Murals

## Industrialized Farm Exhibit at Ford Expo

In the Ford Exposition building, at the Texas Centennial in Dallas, Texas, murals as well as lecturers tell a complete story of how important the farmer of the Southwest is in the manufacture of the Ford V-8, the Lincoln-Zephyr and the Lincoln motor cars. The industrialized farm exhibit has proved of marked interest to the tens of thousands who throng into the Ford Exposition daily. The story of the soy bean is utilized in the Ford Exposition and in the story below.

A fascinating development by the Ford Motor Company, the industrialized farm exhibit in the Ford building at the Texas Centennial in Dallas reveals how the Ford company uses products of the farm in manufacturing cars. One example is the utilization of the soy beans, a crop of the southwest.

The extractor crushes the beans into flakes and a solvent washes out the oil. The oil is then separated from the solvent by distillation. The oil is used in paint, enamel and as a bond in moulding sand cores.

The soy bean will thrive most any kind of soil and prime builder of the soil. As age crop it has many other advantages. Mr. Ford foresees the time it will no longer be necessary to denude the forests and deplete mines for materials with which to build homes, offices, furniture, even automobile bodies. He believes that better materials can be obtained from the farm than those from forests and mines.

Murals on the wall of the exhibit building tell in figures that the Ford Motor Company is a very good customer of agriculture. Machines on the floor demonstrate how soy beans are used. Henry Ford is among the foremost experimenters in the use of the soy bean and is constantly seeking to enlarge the number of parts of the Ford car which are made from either the oil or the meal.

The soy bean is used extensively in plastics. The exhibit shows how soy bean plastics are used in the manufacture of 41 different parts for the Ford car.

Back of this is the Ford theory that the farm and city are natural allies and that any movement toward uniting progress they must be united connecting link is chemical search.

### FIVE BROTHERS SHIPMATES

SAN FRANCISCO — (U.P.) — When the flagship Pennsylvania with Admiral A. J. Heppburn on board steamed into the Golden Gate, it developed that the crew also contained five brothers. They are the Cowdrey brothers of Verdun, Ill. When the depression drove them off the farm, they all enlisted in the navy.

### SAFEST DRIVER HUNTED

NEW HAVEN, Conn. — (U.P.) — Three Connecticut auto clubs are conducting a hunt for the safest driver in the state. To qualify, entrants must have driven 50,000 miles in the last 10 years, must have had no traffic accidents whatsoever and must have had no convictions for any traffic violations.

### CAT WARNS OF CENTIPED

TULARE, Cal. — (U.P.) — Mrs. Thompson is not quite sure whether her pet Persian cat saved her when the cat saw a six-inch centipede creeping up on its mistress, then dived under the bed. Mrs. Thompson seized a broom and killed the centipede.

### TURTLE STABBER HUNTED

TOLEDO — Zoo officials offered \$500 reward for information as to the identity of the person who stabbed a Galapagos turtle in the back with a steel rod, severely wounding the turtle.
