FARM TO MARKET ROAD PROGRAM ADVANCES

Texas now has in all, 88,443 miles of passable roads of all types. Most rapid progress has been made in farm-to-market roads, 14,500 miles of which have been financed by the state highway department in conjunction with federal aid, since V-J Day.

"Getting Something For Nothing"

NEW YORK CITY, Sept. 23. Today Wall Street is the most conservative street in the United States. California is bursting with people; the Central West is bursting with huge crops; city people's pockets are bursting with high wages; but poor Wall Street is neglected.

Gambling On The Increase
Once when talking with President Roosevelt he said to me: "Roger, I will fix your Wall Street friends for encouraging people to expect to get something for nothing. It just can't be done and you know it." Consequently, he had the Securities and Exchange Commission formed so that a banker cannot "blow his nose" today without first getting permission from Washington.

It is true that this discouraged people from buying stocks; but the "SEC" did not stop the peoples' desire to get something for nothing. The business of the race tracks immediately boomed. Pinball and numbers games grew by leaps and bounds. People began to bet on football, baseball, and other sports which they never bet upon before. There is more gambling today than ever. Only a spiritual revival can stop the desire of people to get something for nothing.

Union Labor Getting Something For Nothing
But we do not need to come here to Wall Street, where I am today, or to go to the race tracks, to see people trying to get something for nothing. The most flagrant cases are where wageworkers are striking to get more pay for less work. It is okay to expect more pay for more work, but to expect even the same pay for less work is merely trying to get something for nothing.

On the train last week some shoe workers complained to me because they had not had a raise in pay this year. Yet, they admitted that they have two weeks vacation with pay, a week's sick leave with pay, a half hour of "rest periods," smoke and play cards each day with pay. All this and holidays with pay amounted to 26 days for which they were getting full pay for giving no work

Reasons For Unemployment

It is true that we now have unemployment and high prices; but this is largely due—not so much to high wages—as to the attempt of people to get pay for time when they do not work. Main Street today needs a Commission which will cut the fraud out of labor union practices, as Wall Street in 1929 needed a Commission to cut the fraud out of bankers' practices. Certainly, some labor leaders are trying to get their unions "something for nothing."

There, of course, are other reasons for unemployment and high prices. Among these I mention unnecessary government expenditures, huge business-killing taxes, the false attitude of Congress as to depreciation charges, the double taxation on dividends, and the handicap of the small business-man to get a start and compete with big business. Remember this: if there was a tax of 100% on what we save, we would save nothing. Conversely, the lower the taxes, the harder we work and the more we save to invest in new industries to make more jobs.

More Jobs Require More Capital
The discouragement of Wall Street is hurting employment. Babies are being born at the rate of about 7 per minute. Our population, after deducting all deaths, is increasing at 200,000 per month. To take care of these people, we must have more factories, more stores and more business. Today it requires an investment of \$6,000 in land, buildings, machinery and working capital to provide a job for one man. This means that the work of Wall Street should now be encouraged by the Truman Administration.

Every reader of this column should, at the right time, buy good stocks and help provide the money for more machinery and for more jobs. This could be done by Congress eliminating the present double taxation on dividends. It also would help to have any income you get from dividends under \$1,000 to be exempt from taxation. Those who love their work and save money usually become employers of others; but those who want short hours and "modern living" will always work for others and, at times, suffer from unemployment. Moral:—"Live over your store or business and keep it open from 7:00 A. M. until 9:00 P. M."

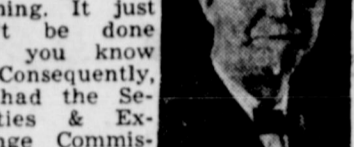

Electric Vacuum Cleaner Eases Summer Housework
Cleaning can be irksome in hot, sultry weather. But with careful planning, you can get the housework finished quickly each day and so still have time and energy for your shopping or gardening or a trip to the beach.

To keep your house spic and span the easy way, try once-a-week cleaning with the attachments of your vacuum cleaner. And if you have a number of rooms to keep clean, doing the weekly cleaning for all of them on one day. A little done each day will keep the dust and dirt, which come in open doors and windows in summer, from collecting without too much strain on you.

For example, the slender crevice tool will get into corners that no whisk-broom can reach and with less effort. Light, straight strokes with the vacuum cleaner fabric brush over the large surface of sofas and upholstered chairs will easily remove the week's dust and delay the need for shampooing.

The soft dusting brush in your cleaning tool kit will come in handy for a number of tasks. Try gently stroking down your window curtains with the soft dusting brush. It'll remove the dust from them and put off the day for laundering. Woodwork especially carved or uneven surface, also can be made soot free with this cleaning tool. Go over window sills and frames with it, too.

If your books seem to be gathering their road, construction and maintenance under the supervision of the county commissioners.

Roger W. Robinson

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of Bailey County—Greeting: YOU ARE HEREBY COMMANDED, That by making publication of this Citation in some newspaper published in the County of Bailey, once each week for four consecutive weeks, previous to the return day hereof, you summon C. E. Reecer whose residence is unknown, to be and appear before the County Court of Bailey County, State of Texas, to be held in and for the County of Bailey at the Courthouse thereof, in Muleshoe, at or before ten o'clock A. M., of the Monday next following the expiration of Forty-two days from the date of this citation, being Monday, at 10 o'clock A. M., on the 24th day of October, 1949; then and there to answer to the petition of Purdy A. Braker, d/b/a White Auto Store filed in said Court on the 1st day of August, A. D. 1949, against the said C. E. Reecer for suit, said suit being numbered 311 the nature of which demand is as follows, to-wit:

An action on open account for one (1) Motor Assembly for one 1930 Model 'A' Ford Coupe, which defendant purchased and refused to pay for after installing said motor and using same. HEREIN FAIL NOT. But have you then and there before said Court, this writ, with your return thereon showing how you have executed the same.

WITNESS: M. G. Bass, Clerk of the County Court of Bailey County, Texas.
Given under my hand and the seal of said Court, at office in the

Teaches Square

Herb Greggerson, nationally known square dance instructor and caller who has taught square dancing in thirty states during the past 16 years, will be in Clovis to stage a mammoth Square Dance Round-Up during the Southwestern Cattle Festival Oct. 3 and 4. Greggerson, the leading Texas

GREGGERSON

authority on Western Ranch Dancing, both round and square, will give instructions on both dancing and calling during the morning and afternoons of October 3 and 4 at the Clovis National Guard Armory, and each evening will preside over the big square dances to be held in the same building. This season Herb will hold square dance institutes at Texas University, SMU, Brigham Young U., of Utah, State College of Washington, will spend two weeks in Canada teaching, and will hold many other institutes throughout the U. S. Square dancing is gaining in leaps and bounds and there is a great demand for good instructors and callers. Many teen age callers are earning their way in college by calling for square dances, and many of the leading churches of the nation are throwing open their halls for teen age square dance groups.

COMMITTEE TO MEET

The executive committee of the Muleshoe PTA will meet tonight in the home of the president, Mrs. R. E. Herrington for a business session. The meeting will begin at 7:30 o'clock.

KENNETH CAMPBELL BRINGS BALE TO MULESHOE

Kenneth Campbell, residing in Baileyboro community, brought a bale of 1949 cotton to Muleshoe Tuesday. The bale, weighing 450 pounds, was ginned at the Muleshoe Gin and was the second bale of the season for this city. Copley Gin turned out a bale Monday for a grower residing north of Earth.

Next Time Try A Journal Want Ad

So, Junior's under foot these summer days. He's running in and out the house, raving cake plates; raiding cookie jars; changing fishing rod for baseball bat then leaving both on the living room sofa, meanwhile getting unbelievable mounds of clothes muddy. And you, the cherub's mommie, ask, "Who says summer days are care free, golden days?? It's work, work! And I'm counting the days until school opens."

Ole Sol is a merry old soul, but he sure plays rough. If the children aren't sick with too much ice cream and cold drinks, they're sunburned and blistered. As for their clothes... oh what misery. Not only do your darlings get grubby as they play, but the sun fades their pretty cottons and makes it fade unevenly - striking shoulders hard and leaving other parts untouched. As if this were not enough, frequent washings and a slightly colorless dress and socks become dull and sorry looking.

What to do? Well, one smart homemaker told me how she coped with her twins' faded clothes. The wispy-wahey blues, insipid yellows and sickly greens were getting her down. So, with vim and vigor and with washing machine and dye, she set out to fix things up. Collecting Pam's blue dresses and Peter's blue shirts and knee-pants plus several pairs of socks, she re-dyed them right in the washing machine. This is how she did it. Using an all-purpose dye - make sure it's all-purpose so that it will dye any wool that may be in the socks as well as rayon and cotton in the dresses - she dissolved the entire contents of the box in a little hot water. Strained it into the washer and ran the machine a minute to mix the dye thoroughly. Then she put in the dresses, shirts, and socks continuing as in any wash... and that was it. She had what she wanted... the faded blues took on a new light; the clothes were rejuvenated. It worked on all the sickly colors, and it will work for you, too.

Defoliation Of Cotton Is Especially Important Where Season Is Short

COLLEGE STATION, September 28 —The use of the power-driven cotton harvester stripper-type as an efficient method for harvesting cotton on the Texas High Plains has been increasing, but to insure best harvest results, and a consistently good grade, growers must either use a chemical defoliation to drop the leaves from the cotton plant or wait for "mother nature" to take them off with frost, says D. L. Jones, superintendent, Lubbock Experiment Station.

Jones and E. L. Thaxton, Jr., junior agronomist at the Lubbock Station, report that normally, the more mature a plant is the easier it is to defoliate if it is still active. The Texas High Plains has an extremely short growing season, consequently plant maturity at the time of defoliation is one of the limiting factors.

They have found that plant activity is of equal importance. They say the plants, by fall, in a sub-tropical area, often have used up

available soil moisture and are under great stress. This affects the time required for complete leaf drop. In the more humid area, 6 to 10 days is usually required, while on the High Plains 2 to 3 weeks should be allowed. This inactivity on the part of the plant makes defoliation difficult.

The tough, leathery leaf developed by the cotton plants on the High Plains is another factor to be considered. This type of leaf develops as a result of the late summer droughts and hot, dry winds.

Low humidity and dewless nights are often encountered at the time cotton plants should be defoliated and since moisture is required to activate many of the dyes used, satisfactory results are not obtained.

In 1948 the best defoliation was obtained from the use of monosodium cyanamid. It was used as a spray at the rate of 20 pounds per acre in 125 gallons of water. This type of defoliation was not entirely satisfactory because the leaves became dry and brittle before dropping, and a large percentage of the growing plant tips were damaged by the caustic solution. Jones and Thaxton say the most encouraging test was with the use of wetting agents in the spray solution. On one-acre test blocks, monosodium cyanamid, sprayed at 15 pounds per acre with 1 percent Vatsol, gave almost as good defoliation as the same material sprayed at the rate of 20 pounds per acre with no wetting agent. The defoliation was 70 and 80 percent respectively.

Results from the 1948 tests in-

dicates that in drouthy years when no dew is present good defoliation requires the use of a spray material. The experimental mono-sodium cyanamid compound gave the best results.

The use of a wetting agent in the spray material to improve coverage and penetration showed good results in 1948.

Previous work done at Lubbock Station has shown that excellent defoliation is possible with the use of aero cyanamid dust, special grade, when applied at the rate of 30-35 pounds per acre when persistent dew occurs and the cotton plant is still active.

The defoliation materials used in the 1948 tests were applied to the cotton on September 18, October 1 and October 27.

CHRISTIAN SCIENCE SERVICES

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 2.

The Golden Text is: "The Thoughts of the righteous are right; but the counsels of the wicked are deceit" (Proverbs 12:5)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon" (Isaiah 55:7).

The Lesson-Sermon also includes the following passage from the Christian Science Text book, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If God, or good, is real, then evil, the unlikensness of God, is unreal. And evil can only seem to be real by giving reality to the unreal" (page 470).

EAGER BEAVER!

Eyes bright with excitement, this winsome pupil has to wait for teacher and the ten o'clock scholars to arrive. She wanted to be on time for her first roll call in the first grade. For the momentous occasion, she wears a crisp little cotton frock designed by Johnson of Dallas.

DODGE AND PLYMOUTH OWNERS...
NEW! MOPAR ACCESSORIES
Designed to Make Driving Safer... Easier for You!

MOPAR BACK-UP LIGHT
Now you can see behind your car when you're backing up at night. New MOPAR Back-up Light throws a wide, brilliant beam on obstructions. It lights up automatically when you shift into reverse when your car's ignition is on. Helps make driving safer, easier for you.

MOPAR DIRECTIONAL SIGNALS
Flashers, in both taillights and front parking lights, enable you to indicate a right or left turn. Finger-tip control, located on steering column. Small flashing light on speedometer face tells you when signal is operating. All flashers automatically shut off when turn is completed.

MOPAR HAND BRAKE SIGNAL
Here's a reminder that tells you when the hand brake is on the moment you turn on the ignition switch. It's a flashing red light, mounted on your dash. Saves you time, trouble and money. It also warns you to turn off ignition once you set the hand brake.

MOPAR GLOVE COMPARTMENT LIGHT
Automatic! It lights up whenever you open the glove compartment. It turns off when you close it. Makes it easier to find items in the compartment. Inexpensive. Easily installed.

MULESHOE - SUDAN TILT IN DIST. 4-A-N SPOTLIGHT

Over Capacity Crowd Predicted As Other District Teams Are Idle Friday

With every team in district 4-A-N idle except Morton, an over-capacity crowd is expected to be on hand here Friday night when the Muleshoe Yellow Jackets play host to the Sudan Hornets.

This is the first conference game for the two teams and it is a very crucial game. The winner of this game will become one of the top contenders for the district crown. However, the team that loses will not necessarily be out of the running for the district honors.

If necessary, both teams will throw everything they have at each other trying to win this important game.

Sudan has not yet won a ball game this season having been defeated by Dimmitt, Lockney and Hereford.

Muleshoe has won two out of three games played, defeating Springlake and Slaton and losing to Portales.

Both teams will weigh approximately the same, averaging near 167 pounds.

The game is a toss-up so far as the dope bucket is concerned with either team likely to win by a narrow margin. The only game that can possibly be used to compare the two teams is a round-about affair. Muleshoe defeated Springlake 26-0. The same night Dimmitt defeated Sudan 13-6. Dimmitt then defeated Springlake 22-6 last weekend.

This would tend to give the local team a little edge, but four weeks have gone under the dam since Dimmitt defeated Sudan and Sudan outplayed, but was narrowly defeated by the strong Hereford team last weekend.

Most all area 4-A-N football fans, scouts, coaches and their teams will be on hand to watch these two teams perform. A pre-game estimate of the crowd has been set at 3,000 people or more.

Starting for Muleshoe will be: ends, Bill Gaede and Benny Douglass; tackles, Bill Collins and Taylor; guards, Thomson and Martin; center, Phil Garrett. In the backfield will be Nickels, Goss, Lawler, and Spivey.

This lineup is subject to last minute changes according to the coaches.

It was not learned whether or not Ray Kersey, left halfback, will be back in uniform for this game or not. Ray was injured in practice just before the Slaton game and was not suited out for that game. His injury was not serious, but it may be bad enough that it will keep him out of the lineup this weekend.

The lineup for the Sudan team had not arrived when The Journal went to press. However it is thought that the Sudan team will be slightly lighter than the Yellow Jackets, but the slight weight advantage we hold, if any, will not be enough to make any difference.

Game time is set at 8:15 at the local high school football stadium Friday night, September 30.

Neither team boasts a "Santone" Townsend, or anything like him, but both teams do have a well-balanced backfield with the Sudan crew featuring a better passing attack than the local team has ever been able to unleash, as well

THE MULESHOE JOURNAL, Thursday, September 29, 1949

Yellow Jackets Staged Second Half Rally To Defeat Slaton Tigers 26-0

Slants From The Sidelines . . .

By W. E. Hill

The Yellow Jackets looked like a different ball team last Friday night in their game against the Slaton Tigers.

Our ends showed more strength and the blocking, especially down field blocking, showed a big improvement over the previous week.

Tackling even looked better than it ever has before. The team showed an all-over improvement, and we have come to the conclusion that the 20-0 drubbing our boys took from Portales was worth it in every respect. . . . We learned plenty in that game.

However, the Yellow Jackets this Friday night face their toughest foe so far this season when they meet the Sudan Hornets in their first conference clash of the season and our boys will have to play even better and harder than they have before to win this one.

About the only thing that was wrong with the Yellow Jackets last Friday night was that they did not show as much spirit as they have heretofore. Their spirit was lower than we have seen this year, but we think that Friday night the boys will have plenty of spirit and if their blocking, tackling, pass defense and end defense has improved as much this past four or five days as much as it did between the Portales-Slaton game, we have an even chance of winning over Sudan.

Last Friday night everybody except Ray Kersey, who was injured Thursday, got into the game against Slaton and they all looked good. Backs Seid, Heathington, Lovelady, Green, Bryant, Roark, Spivey, Goss, King Lawler, Shafer, Goss, and Nickels, all looked good.

Back Bobby Seid made a good showing, nearly breaking loose on one occasion. TD. Nickels has improved 100% at the quarterback slot, handling the ball and in passing, Lawler looked good back in uniform, and will probably improve as he gets used to playing again after being out for about four or five weeks.

Benny Douglass looked like a different end in the Slaton game, but he still has a little room for improvement. Gaede also looked good, but he can improve too. Phil Garrett, center played a good game as well as Roald Johnson, who played for the first time this season.

Other linemen that made good showings were Collins, Waggoner, Bray, Whipple, Jim Gaede, Thomson, Martin, Tate, Hornbrook as well as possibly a few others.

There is one man that we have missed ever since the Springlake game and that is Joe Cummings.

We catch ourselves looking for him every now and then. We will probably get to see him Friday night sitting on the sidelines with the other boys. However he will not be in uniform, but he will be there playing every minute of the game.

Say! Did any of you go out and see the six man game last Thursday night between Three Way and Lazbuddy. There was a fairly good size crowd out for the game and it was a thriller from start to finish even though the Lazbuddy team was slightly out-classed.

Tonight Lazbuddy who is playing football for their first season, will meet Bula on the local gridiron.

If you haven't seen a six man game, you have missed something.

All north half district 4-A 11's are idle this weekend except Muleshoe, Sudan and Morton. That means that if you want to get a seat in this stadium Friday night you had better be there early or have a reserve seat ticket. We predict that the stands will be overflowing and the fans will be standing up from one end of the field to the other end on both sides. This is one of the most important games in this section of the country and no doubt every football team except Morton will be on hand to see the game as well as football fans from most all of the area.

This game is not only an important clash between Sudan and Muleshoe, but it is an important game to every school in the district.

as a powerful running attack from both the T-formation and modifications of the "T" and the single wing. So far Muleshoe has run from only the "T" and a modified "T" and it is doubtful that any other backfield formation will be used. However anything can happen and is likely to tomorrow night.

Last Friday night the Yellow Jackets, showing considerable improvement, came through with a 26 to 0 win over the Slaton Tigers on the local field in a non-conference tussle.

Every man on the squad saw some service during the game with the exception of Ray Kersey, halfback, who was out of uniform due to an injury received in practice.

Ted Lawler, back, who has been out since before the season opened made his first appearance for this season starting the game in Kersey's position.

Early in the game the Jackets put the Tigers in a hole by recovering a Tiger fumble, however they failed to capitalize on the break and did not score, losing the ball on downs. Muleshoe held the Tigers on downs and took the Tiger fourth down kick on the 41 yard line on their own end of the field. A pass from Nickels to Gaede which carried to the Tigers 27 and a drive on to the 15 yard stripe set up Muleshoe's first TD. Ted Lawler found a gapping hole in the middle of the Tiger line and raced the remaining 15 yards for Muleshoe's first score. Goss's kick was good for the extra point.

Slaton's only serious threat of the game came in the second period after driving 60 yards on passes and line plunges to the Jackets 10 yard line. The Jackets held and threw the Tiger for two or three losses in the next four plays. The Jackets took over on their own 30 yard line, but failed to get their offense to clicking and never made a serious threat to score in the second period.

Late in the third period the Yellow Jackets finally got their offense to clicking. Nickels pass to Gaede netted the Jackets 20 yards to the Tigers 30. The quarter ended with the ball resting on the Tiger 20, first and 10 to go for the Jackets. Line plunges put the ball on the 1-foot line, where Goss plunged over for Muleshoe's second TD. Goss also converted the extra point to put Muleshoe out in front 14 to 0.

The Jackets kicked off to the Tigers, held them on downs and took the Tiger kick on the Tigers 39 yard line. Bobby Seid swept left end for 9 yards to the Tigers 30. Bobby Goss carried to the 20 and another plunge carried to the 15. Goss went over tackle, plunging the remaining 15 yards for Muleshoe's third TD. Try for extra point failed, Muleshoe led 20 to 0.

Again Muleshoe kicked off to the Tigers who went to the air and after completing two passes which netted them several yards, Ted Lawler raced across the field at full speed and intercepted the Tiger's third pass attempt on the Tiger 45 and raced on down to the 30 before being smothered under. Four more plays carried to the Tiger 8 yard line where Goss plunged through a hole in the Tiger line for the final TD. Try for extra point failed and the Yellow Jackets led 26 to 0 with only minutes left before the final whistle.

Muleshoe led in first downs 12 to 7. Muleshoe was penalized six

Bula-Lazbuddy Six Man Teams To Play Here Tonight

The Lazbuddy six-man team meets the Bula aggregation here tonight on the local gridiron according to a release from Lazbuddy school officials.

Game time has been set for 8:00 p. m. and the admission will be 10 cents, 25 cents and 50 cents.

Bula has lost a game to Pettit, Lazbuddy has been defeated by Three Way.

A good crowd of local people joined fans of the two schools in watching the game here last Thursday night when Three Way downed Lazbuddy.

Three Way Drubs Lazbuddy 36 To 7

The Three Way Eagles came from behind to down the Lazbuddy team on the local field here last Thursday night 36 to 7.

The green Lazbuddy crew started like a house afire, scoring in the early minutes of the ball game but were never able to get another drive started against the stubborn Eagle aggregation.

At the same time the Eagles began moving down the field in long drives which carried them to a 36 to 7 victory.

Why are more and more families choosing the Servel GAS Refrigerator?

IT'S GUARANTEED FOR TEN YEARS!

ONLY SERVEL STAYS SILENT, LASTS LONGER

Talk to folks who've had experience. They'll tell you, "The Gas Refrigerator is your big refrigerator value! It guarantees silent, dependable performance for ten full years!"

How is this possible? Because Servel has no motor, no machinery. There's not a single moving part in its freezing system to cause noise or wear. A tiny gas flame does the work. So, Servel stays silent, lasts longer.

See the new Gas Refrigerator. You'll find every new convenience. Big frozen food compartment. Plenty of ice cubes. Flexible interior. And remember—you're sure of long-lasting noise-free, trouble-free performance with Servel!

STAYS SILENT . . . LASTS LONGER

Spanish Club Met Last Tuesday Night

The Spanish Club met Tuesday night in the home of Mrs. Blackburn with nine old members present.

After much discussion to the fact of whether there should be a business meeting or just a plain get-together, we had a little business and then a big time just talking and playing records.

The idea of letting the kids that took Spanish I last year and aren't taking it this year be in our club was vetoed. Also we changed our meeting date and will let the Spanish I members in on that later. We made several little plans about initiation and hope to carry them out 100 per cent.

Refreshments of apples, cokes (the football boys drank water), candy and peanuts were served. We had a wonderful time and are really looking forward to our next meeting.

Judge to Joshua (who had been picked up on suspicion): Are you the Joshua who made the sun stand still?

Joshua: No sah, yer honah, ah is the Joshua who made the moon shine still.

An electric pump is the heart of the farm water system. It must work for your family under all conditions, so select it to fit the special needs of your farm and home.

Southern Chicken Bread

Southern Chicken Bread is the intriguing name for delicious little corn meal biscuits traditionally served in the southland with fried chicken. The unusual aspect of Southern Chicken Bread is that the biscuits are fried in the drippings after frying chicken. The biscuits rise and bake just as they would in the oven. The wonderful flavor of the drippings permeates the biscuits with a rich chicken goodness.

You'll want to adopt this southern custom of Chicken Bread as a specialty of your house. Southern Chicken Bread with a platter of fried chicken is good food at its best.

Southern Chicken Bread
1 1/2 cups sifted enriched flour
1/2 cup enriched corn meal
3 teaspoons baking powder
1 teaspoon salt
4 tablespoons shortening
3/4 to 1 cup milk

Sift together dry ingredients. Cut in shortening until mixture resembles coarse crumbs. Add milk, mixing lightly only until mixture is dampened. Turn out on lightly floured board and knead gently a few seconds. Roll out to 3/8-inch thickness; cut into diamond shapes, rounds or squares. Place frying pan in which chicken has been fried (leave only a small amount of fat in the frying pan). Cook over medium heat until delicately browned on under side. Turn and cook on other side. Cooking time about 8 minutes. Serve immediately with fried chicken. Makes 12 to 18 pieces.

Be Careful Of Food Poisoning

A cake box is not the place to keep any cake or pastry with a custard or cream filling. Though a cake or pie takes up considerable space in the refrigerator, that is the safest place for it if it must be kept more than four hours before serving.

The so-called "cream-filled" or custard filled pastries and such pork products as mild-cured ham have caused frequent cases of food poisoning. Soft protein foods, especially subject to fast and dangerous spoilage. The spoilage may cause illness even when the food shows no sign of spoiled odor, taste or appearance.

Dishes containing egg, milk, gelatin, poultry or fish all need cold keeping.

Have You Tried?

Cloudiness in the inside of your refrigerator water bottle can be cleared away by cutting a raw Irish potato into cubes, dropping them in to the bottle with a small amount of water, and shaking the bottle until clean and bright.

Add a little baking powder to the flour in which you roll your chicken or other meats before frying. You will have a crisp, delicious outer covering for your chicken.

A whisk broom trimmed into a sharp V-point is perfect for cleaning couch and floor corners. Peeled fresh fruit such as peaches, apples, bananas for salad or fruit cup may be prevented from turning brown by brushing or sprinkling with lemon or pineapple juice.

If you want to cut a ham in half and keep part of it for later use, pour melted paraffin over the cut end, covering every part and repeating the pouring to insure a good paraffin coating. The paraffin is easily peeled off and the cut end will be as fresh as if just cut.

Jokes about the left-handed monkey wrench may soon be a thing of the past if the trend started by the Westinghouse continues. That company has just announced that it is putting a left-handed electric iron on the market. The southpaw woman can now iron without getting her arm tangled up with the cord, the publicity says.

New Avocado

Did you know that a new avocado with yellow skin and flesh has been discovered in the Dominican Republic, and the discovery may mean that someday housewives can choose between yellow and the familiar green when they buy this popular fruit.

A farmer in the Republic's fertile Cibao Valley noticed that one of his avocado trees was bearing yellow fruit. He told a scientist of his government about it who in turn discussed it with two U. S. Department of Agriculture scientists. They advised further propagation of the new variety. As a result, a number of young trees of the green variety have been budded successfully with the new yellow type. If these continue to show promise, avocado growers in this country may be interested.

The new yellow avocado not only is attractive because of its unusual color, it is also excellent eating. The flesh has a buttery texture and decided nutty flavor when ripe. It is medium-size, pear-

Junior Class Orders Necklaces

In a class meeting held during the fifth period Tuesday, the Juniors selected their necklaces and a few of them ordered pens.

The necklaces are to be of rose gold trimmed in white. They will have an emblem with 19 on one

side and 51 on the other. They will receive them anytime after the first of November.

Also they managed to have a little bit of class meeting. The class colors are to be blue and white, the class flower is the white carnation and the motto is "Climb the steps to new horizons".

From where I sit... by Joe Marsh

A Big Boost For Smitty!

Stepped into "Smitty's" Department Store the other noon and saw the strangest thing. "Bis" Davis was coming up the stairs from the basement with a bundle of wash.

"Is Smitty taking in washing these days?" I asked. "Not quite," she says. "He's just put in a new automatic washing machine, so the girls who work here can get their laundry done while they're eating lunch. Means more time to relax at night and on weekends."

I thought what a swell boss Smitty must be. Human relations between the boss and employees have certainly taken a big step forward during my lifetime.

From where I sit, people seem to be doing a better job of seeing our neighbor's viewpoint these days. Though his ideas and tastes may not be ours, we can understand his preference for a certain breakfast cereal, a favorite movie star, or for a temperate glass of beer or ale. That's the way it should be in a free country.

Joe Marsh

Buddy Killed Sunday Hunting Accident

The youthful victim of a hunting accident, 16 year old Buddy Smith of Friona was pronounced dead on arrival when brought to the Friona Hospital at 4:30 o'clock

ROLAND BOYD of McKinney, a member of the Texas Democratic State Executive Committee, this week accepted the chairmanship of the recently organized Committee Against Legislative Pay Increases and Annual Sessions. A state-wide group, the Committee is opposing Constitutional Amendment 2 in the Nov. 8 election claiming its passage would result in a greatly increased tax burden without improving the efficiency of the Legislature. Amendment 2, by raising legislators' pay and providing for annual sessions, would increase state taxes more than \$2,500,000 biannually, the Committee says.

According to the incoherent stories told by the youth's hunting companions, Darrel Franklin and Jackie Looper, the trio were hunting on the M. A. Black farm six miles north of Friona when the unfortunate accident occurred. One of the boys started to hand Smith the pistol when it discharged its fatal bullet and it was presumed by doctors that the charge killed the boy instantly.

The boys, both in a state of shock from the accident, ran from the scene to the farm home of Johnny Lynn close by and it was he who helped them bring the victim to the Friona Hospital.

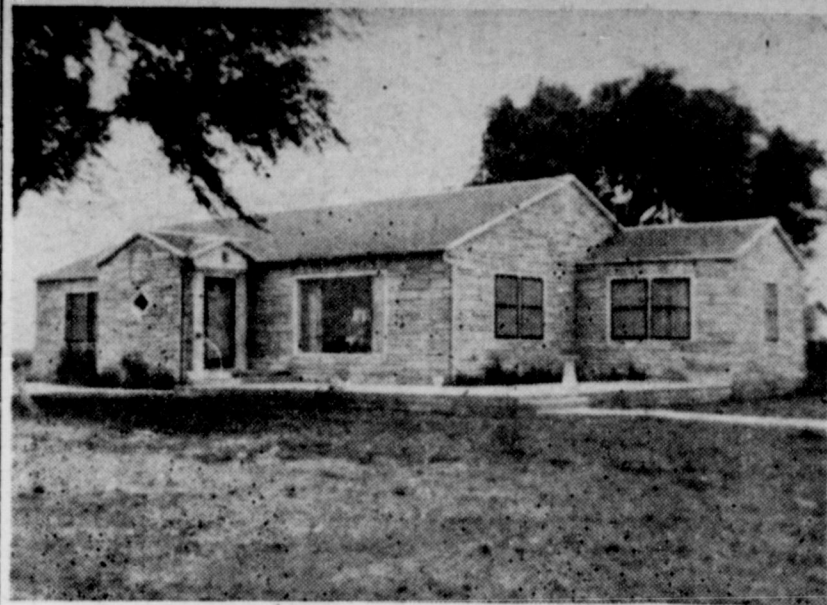

The boy was the son of Ray Smith of Friona and was employed on the J. T. Guinn farm at the time of his death. He is also survived by a sister, Mrs. Cherry Mings, and a brother, David, both of Friona, and a second brother, who is a student at Texas Tech, in Lubbock, John Smith.

Good Clean Pasture Helps Poultry Men

Home Grown Feeds Cut Operating Cost
Good clean pasture and plenty of home grown feeds for your pullet crop pays dividends in more eggs, lower production costs and bigger poultry profits. The use of range shelters, range feeders and barrel waterers makes such a program easily possible.

1935-39	1948
170 DOZ BUY'S 1 TON	90 DOZ BUY'S 1 TON

Missouri university tests show that pullets on well-fertilized alfalfa pasture consumed 17 per cent less feed than birds on bare range. The pasture-fed pullets needed less feed for each pound of gain. Birds on clean pasture were healthier and more energetic. Mortality rate was lower and there were fewer culls. Out of 100 pullets at four weeks of age, 94 of the alfalfa-ranged birds later went into the laying house, compared to 70 of those raised on bare ground. Purdue university tests showed that ladino clover with corn and small grains provided a complete ration for laying flocks.

Getting good pasture and a cheap and plentiful supply of grain is a matter of putting farm soil in shape to produce bigger yields per acre. For this you need a rotation in which deep-rooted legumes and grasses are keynotes. You need to build up the organic matter supply via plowed-under legumes, crop residues and manure. You need to feed the soil a good ration of plant nutrients, so it, in turn, can feed the crops. In such a program, fertilizer is an important member of the soil-building team.

At current prices, eggs will buy nearly twice as much fertilizer as 10 years ago. It takes only 90 dozen eggs to buy a ton of 3-12-12 fertilizer today, whereas it took 170 dozen back in 1939.

Check Work Stock

Owners of the 55,000 horses and mules on Maryland farms have been urged to "check intake valves, remove carbon from the cylinders, and adjust the carburetor."

Those terms aren't as mixed as one might think. Joseph M. Vial, extension animal husbandman, explained that a horse's mouth and teeth may be compared to intake valves on a tractor. The teeth need to be floated (just as the intake valve needs to be properly seated) if they are to meet evenly and let the horse chew his feed properly.

Just as tractors are troubled with carbon in the cylinders, horses may have trouble with internal parasites. These may be removed by any competent veterinarian and the horse will be a better worker during the coming summer.

The carburetor on the tractor adjusts fuel supply to the work load. For horses, this is accomplished by getting them in proper condition before the heavy work load comes. Vial recommends this be done by "feeding the horse a handful of oil meal with his grain at this time of year to keep him in good condition and by giving him as many jobs to do as possible; such as spreading manure or hauling logs."

Enter FORD'S \$100,000 Car-Safety Contest Today

SEE ANY FORD DEALER FOR A FREE SAFETY CHECK AND ENTRY BLANK

All Car Owners Are Eligible To Enter Ford's \$100,000 Safety Contest

Mr. Rocky, of the Muleshoe Motor Company, Ford dealer at Muleshoe, has entered his dealership in a \$100,000 car safety contest sponsored by the Ford Division, Ford Motor Company.

Mr. Rocky is one of 6,400 Ford dealers throughout the nation who has entered his dealership in the contest during September and October.

Seven hundred prizes totaling \$100,000 will be awarded winners of the safety contest. The prizes are 25 new Fords including five

Ford trucks; 25 \$1,000 U. S. Savings Bonds, 100 \$100 Bonds, 200 \$50 Bonds and 350 \$25 Bonds.

The contest has the support of The National Safety Council, the Inter-Industry Highway Safety Committee and other safety organizations.

Ned H. Dearborn, president of the National Safety Council, in a letter to L. D. Crusoe, vice-president and general manager of the Ford Division, said:

"Certainly every motorist should check and double check the mechanical condition of his car or truck, of any make, to the dealership for a safety check at absolutely no cost or obligation to the motorist.

"And I am sure that this free check-up and safety contest, with its attractive prizes, will make Americans more safety conscious—it will save lives."

In order to participate in the contest, Mr. Rocky pointed out, motorists must bring their car or truck, of any make, to the dealership for a safety check at absolutely no cost or obligation to the motorist.

Free checks will be made on the brakes, steering, headlights, rear and stop lights, tires, windshield wipers, muffler, glass, horn and rear view mirror.

The Muleshoe Motor will place an attractive safe driver reflector insignia on the car or truck inspected and the motorist will be given an entry blank to participate in the contest.

The motorist must then complete in no more than fifty additional words the following statement:

"All cars and trucks should be safety-checked periodically because

A jury of prominent persons in national safety circles will judge the winners. Only one entry per car or truck may be entered.

Other details of the contest are available at the Muleshoe Motor Company.

Wayland Choir Plans Long Tour

PLAINVIEW, Sept. 27.—The colorfully-dressed International Choir recently organized at Wayland College has received a number of bookings for an extended tour which will take it through two states this fall. Director Shelby Collier announced today.

During the first semester the choir is scheduled for a ten day tour of several New Mexico cities, including the Baptist General Convention in Santa Fe on October 26. They will also perform at the Baptist General Convention at El Paso on November 2, and the Texas Student Union convention in Dallas November 4. Other Texas cities are also on the schedule.

"The International Choir was organized during the spring semester and will really begin work this semester," says Professor Collier. For their regular concerts they will give thirty-minute renditions of traditional a cappella music in full dress of tuxedos and evening dresses, followed by a program of foreign music—including Russian, Latvian, French, Spanish, and Italian—in their national costumes. Solos, duets, trios, and quartets will also be included in this group. Miss Eulalia Burke, piano teacher, is accompanist, and a number of foreign students are outstanding in the choir.

Wayland's regular a cappella choir will produce the modern opera, "Down in the Valley," in February. Forty voices were chosen for it and 32 for the new group through auditions.

RETURN FROM NORTHWEST

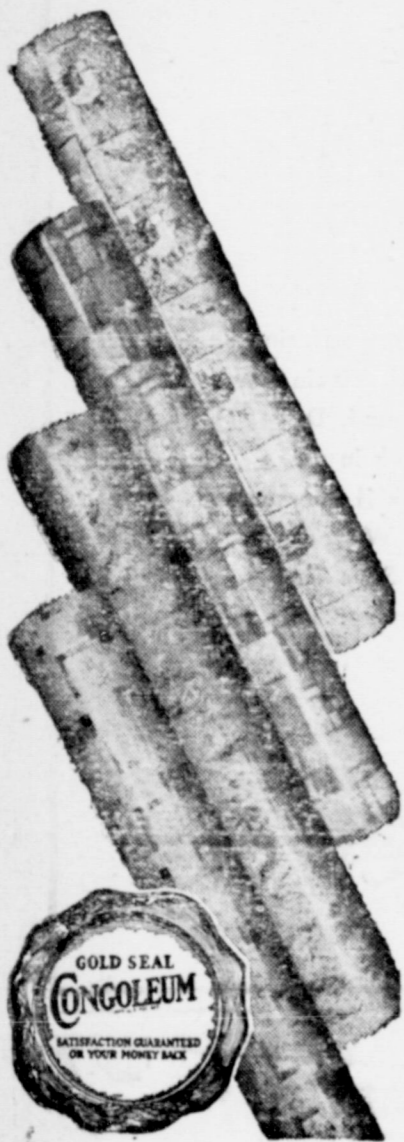

Mr. and Mrs. Robert Precure returned last Friday from an extended visit through the northwest section of the country. Some of the places visited were: Reno, Nevada; San Francisco, Calif., and many others.

FROM MASON

Mr. and Mrs. Elie E. Jordan, Mason arrived in Muleshoe Tuesday to be with their daughter, Mrs. Sam Dameron, who is ill.

Soil Conservation

What is the Soil Conservation Program and why should we as citizens be interested in it?

On July 18, Mr. Louis B. Dawkins, field representative for the State Soil Conservation Board, met with the Bailey County Home Demonstration Council to discuss how our soil conservation program was being carried out by the Soil Conservation Districts and pointed out several basic reasons why such a program was necessary.

Mr. Dawkins said "Soil Conservation is a basic agricultural science. It is the science of proper land use. Our land use program is being carried out in Bailey Co. by the Blackwater Soil Conservation District supervisors.

"In order to establish the 'why' of a soil conservation program, I point out that at present the two and one-fourth billion people of the world depend upon four billion acres for their food, fiber, and shelter — giving an average of only 1.75 acres of land per individual in the world. At the same time our expert nutritionists find that not less than two and one-half acres of land are necessary to sustain life per individual. But to the shortage of land and the overage of people on this planet, from 20 to 30 million are starving to death each year. These are the figures as compiled by the United Nations Relief Commission in 1947.

"The United States has an average of 3.3 acres of tillable land per individual. But the rate is increasing at the rate of nearly two million people per year while our land base is shrinking at the rate of nearly one-half million acres per year. It is therefore evident and perhaps possible, according to the United States Department of Agriculture, that at the present rate of soil depletion and population increase, that we as a nation may reach the point of being short on acres within the next 17 to 18 years. We as a nation must do something about this problem. The 500,000 acres lost to erosion per year is equivalent to five and one half of best sections of Plains land per day.

"One hundred years ago, Texas had over 800 acres per capita. Today it has slightly over twenty acres. Of that average amount per person, only four and one-half acres is in cultivation.

"Since 1928, the Government of the United States has made various attempts to aid the people to save their soil. It was found in the beginning that all attempts that were made, wherein the government assumed the leadership and then allowed the people to cooperate with the government, met with failure. It was through varying degrees of failure of this attempt that Soil Conservation Districts were conceived.

"Inasmuch as Soil Conservation Districts are operating civil subdivisions of the State Government, created and operated by the people of the District, they thus give the people the full leadership, and allow the Government to cooperate with the people. Such is the present status of our program and ten years experience proves its effectiveness.

"The Texas Soil Conservation Law, which was passed by the Texas Legislature in 1939, was written by and for Texas Farmers. The administration of this conservation law is in the hands of landowners from the State to the District level.

"The Blackwater Valley Soil Conservation District was created by Bailey County landowners in 1941. It is administered by five landowning supervisors who were elected to their offices by landowners. Each supervisor represents one of five supervisions of the District. Supervisors serve a term of five years, and one supervisor is elected annually on the first Tuesday in October. Supervisors from Subdivision No. 1 will be elected this year. This included all of the West Camp and most of the Progress communities."

"Mrs. Marie T. Corrington, County Demonstration Agent for Bailey County, states that the Bailey County Home Demonstration Council and the clubs that they repre-

sent are giving their full support to this soil conservation movement. They are making a special effort to get a representative group of landowners to attend and take part in the election convention in Subdivision No. 1. This election will be held at West Camp at 2:00 p. m. on October 4, 1949. The homemakers are also going to exercise their voting privilege in this election. The West Camp, and the Progress Home Demonstration clubs of this District Subdivision will take part in this year's supervisor election.

Hospital News...

Walter Sheelock was in due to an accident. He has been discharged.

Mr. John A. Ladd has been readmitted for medical care. He is resting much better.

Mrs. W. R. Young is in for surgery. She is doing fine.

Mrs. W. H. Eubanks is receiving medical care. She will soon be dismissed.

Congratulations To: Mr. and Mrs. Ansel Ashford on the birth of a daughter, Linda Carol, September 24.

Mr. and Mrs. Bob Hardy on the birth of a daughter, Linda Sue, September 27.

Four From Bailey Enroll At Wayland

Plainview, Sept. 26—Four Bailey County students are among the 480 enrolled at Wayland College, Dean Raymond E. Mendenhall announced here today.

They are Sarah Mae Estelle Dawson, Leah Christine Moore, Wilma Sowers, and Eddie Raye Glenn, all from Muleshoe.

Miss Dawson is the daughter of Mr. and Mrs. J. U. Dawson. Miss Moore, daughter of Mr. and Mrs. J. E. Moore, is majoring in secretarial science. Miss Sowers, daughter of Mr. and Mrs. W. F. Sowers, is majoring in business.

Glenn, son of Mr. and Mrs. E. A. Glenn is majoring in education, and minoring in science.

Wayland's maximum enrollment set at 500 by the trustees, has almost been reached. Along with the new students, there are 13 faculty members new to the school. Improvements on the Wayland campus include a newly renovated basement in the administration building, which houses the journalism department and photography department, the Wayland World Press and a student recreation center.

A new dining hall will soon be built.

Lazbuddy News

Mrs. Elbert Nowell entertained in her beautiful new home Wednesday with a pink and blue shower, honoring Mrs. Willie Bainer. Games of scrambled letters,

name the stork, name the flower and blowing the balloon were enjoyed by the following: Mesdames Tink Seaton, Earnestine Steinbock, Bessie Clark, Artis Ivy, F. W. Greene, Perry Barnes, W. S. Meneff, Theodore Steinbock, Bill Snow, Fern Clark, Leslie Barnes, Anita Foster, Myrtle Steinbock.

A. M. Seaton, Truman Smith, N. J. Goodnough, Riley Goodnough, Edd Clark, and the hostesses, Mrs. Hazel Nowell and Irene Steinbock. Those sending gifts were: Mrs. Ruby Steinbock, T. D. Reed, and W. E. Payne. Refreshments of cake, cocoa and marshmallows, and stork favors made of orange candy and jelly beans were served.

Mr. and Mrs. Rex Steinbock entertained with a domino party Wednesday night. Those attending were: Mr. and Mrs. Ralph Broyles and son, Johnny, Mr. and Mrs. Marvin Mayfield and children, Sandra and Marvin, Jr., and Mr. and Mrs. Demp Foster and son, Timmy. Refreshments of ham and cheese sandwiches, canapes, pota-

Follow Me Clocks!

NEW YORK—Miss Joan Shaw, up and coming New York fashion designer says, "A girl who wears 'Follow Me' clocks in her seam-free hose always gets her man... no fooling about it!"

Miss Shaw recently introduced the stockings at a fashion show for the press. 'Follow Me' clocks can be worn with dance frocks as well as late afternoon dresses. The clocks are placed just below the curve of the leg, so that they are always straight... and always warrant a second look!

They can be obtained at better stores everywhere in leading quality brands.

to salad, fruit salad, and coconut cake, punch and coffee were served.

Boys Win Prizes

Jerry Gleason won third place on his Chester White hog at the Friona Livestock Show.

Jimmy Dwain Ivy won on his cotton stalk, and Lonnie Merriott won third place on his exhibit of maize heads. Some livestock was shown.

Jimmy Seaton and Riley Good-

nough took binders and cut the feed of J. P. Mayfield, who is slowly recovering from polio.

Mr. and Mrs. H. D. Hutchison are the parents of a new baby daughter, born September 24, at Friona community hospital, named Twyla Jean.

William Steinbock took two truck loads of steers and cows to Fort Worth this week. Trainers were Dan Winn, Jr., and Gordon Duncan. Alex Steinbock accompanied them. They returned Monday night.

To Establish Garage

Word has been received that Mr. and Mrs. R. G. Treider and son, Raymond, Jr., will move October 1, from Taft, Texas, where Mr. Treider and son have been employed as mechanics in the Cagle Implement Co., for the past year. The Treiders were former Lazbuddians, and their old friends are glad to know they are returning to establish a garage in Lazbuddy.

Mrs. Perry Barnes has moved to live in the house she purchased from the Don Cantrells.

Mrs. Pauline McDonald visited Mrs. H. D. Hutchison and baby daughter Saturday at Friona Hospital.

Handy Cart

Elgar Schroeder, Morrisonville, Wisconsin, believes a handy farm gadget can have an attractive appearance while saving work for its owner. His pull-push cart carries a good-size load of tools, supplies or produce easily. The cart was made from a child's discarded coaster wagon, using the box and wheels. The original wagon axle was kept, and the cart was built of 3/4 inch pipe. Time required to build the cart was two and one-half hours at a cost of \$1 for materials. Are welding played an important part in the cart's construction.

Any acid foods allowed to remain on porcelain surfaces of sink or gas range will stain them. Wipe up spills at once with a soft paper towel.

Your finest linens will have a smoother finished texture if they are damp-dried in the gas dryer instead of dried out completely. They'll be easier to iron too.

Diced bacon flavors hamburgers and helps to keep them moist. Use about 4 slices bacon to 1-lb hamburger.

Rat Riddance Time Is With Us Now

COLLEGE STATION, September—Most farms could use the services of the "Pied Piper" for a few minutes at least but since this is hardly possible, you had better make plans to collect a few scalps on your own. The best time to get rid of the rats is before the barns and bins are filled with this year's grain crops, says James E. Poore, mammal control supervisor of the U. S. Fish and Wildlife Service.

He says that clean-up work removes hiding places and tends to concentrate scattered rat populations so that they can be poisoned easier. Pile posts and lumber on supports at least two feet above ground. Scrap lumber not worth saving and other junk should be destroyed or removed from the premises. Stack bottoms, other feed waste and manure piles should be scattered in the field so they will not give rats a good hiding place. Tail weeds also make

fine rat hideouts if left standing, says Poore.

Clean up, poison and then rat-proof farm buildings is Poore's advice. Farm buildings in a good state of repairs aren't likely to be infested with rats. Check to see that walls are tight, and foundations and floors are in good shape.

A strip of galvanized metal, three feet high, placed around the building will keep the rats out, says Poore, provided they can't get in through the floor. If you are building a new granary, set it on piers at least two feet above the ground, and then construct it so rats can't get in. The greatest damage from rats is not the grain they eat but the amount they waste. Both losses can be prevented by getting rid of the rats and rat-proofing all farm buildings, says Poore.

Friend: I see your son is home from college. Pop: I thought someone had stolen the car.
