decided at its noon meeting Mon-day in Gerald's Cafe.

Have been thinking all week that some of our citizens would write us, either cussing or favoring the bond issue that will be voted on the coming Tuesday in the City of Muleshoe.

Conrad Williams, farmer and airplane owner of Goodland community, promised to write some-'hing, urging his city cousins to ote favorably for the bonds, to e ed to buy, establish and im-ove the Muleshoe airport. He ver got around to it.

have heard some are against bond issue — not because it ot a worthwhile proposition, because it involves even this tiny outlay of money, and would vote against any bond issue regardless of what the money was to be used for.

Seems to us that eleven thousand dollars is little enough for us to vote to do what is intended. The city has chance to own about 340 acres of good land and to be-gin the improvement of its airport, and don't think improvement of the airport will not come. It will, whether we vote this little bond issue or not.

It's true we don't need many facilities' or much of an airport this very minute. But don't let's do like some Plains towns have done-neglect to get the right land and then hastily jump out and pay an exorbitant price for something less desirable. Every and pay an exorbitant price for something less desirable. Every one knows the land we are getting let I dist cheap; and 2 unequalis: 1, dirt cheap; and 2, unequal-ed as to location and accessibility. No one is trying to ram this down our throats, though. And,

no matter how we view it, whe-

ther agin' or fer it, let's take the

interest to go out and vote in the

election Tuesday. In four years, I have watched ment, read at the ar Muleshoe double in size. That we held here Sept. 10. would become a city of 4 or 5 thousand eventually was the estimate four years ago; there does not seem to be any immediate present and mailed dividend checks limit to the size Muleshoe may attain in ten to fifteen years. This ance. thought might bear on our attitude when thinking of private or director, and the board of directpublic expansion and improve- ors then met and reelected him

\$11,000 Sought For Improvements At Airport And Purchase Of The Site

Work Starts On New Warehouse

Work on the big warehouse for be used to purchase the about the Union Warehouse & Storage 340 acres of ground now used by Co. here began this week, John manager said. The Underwood, warehouse will be 160 feet wide by 200 feet long and will house about 5,000 bales of cotton.

The company has paved the road leading to the property, be-ginning at the railroad crossing near the Davis-Lenderson John Deere store, making about 700 feet of paving.

Then they have "hot topped an area 200x500 feet on a part of which the warehouse will be built. Forms for the foundation for the office were made this week and the office building, erected in Lubbock, will be moved here the latter part of this week, then the company will be ready to receive

Arch Underwood, of Lubbock, the well known cotton compress man, was here this week to inspect the work being done. The local manager is a relative.

The city has laid a 6-inch water main in a "loop" about the property and a line runs through the middle of the hot topped section, to give full fire protection. There is visiting her daughter, Mrs. Car- will be six fire plugs on the lines

to the polls the coming Tuesday to decide the question of whether the city should issue bonds in the sum of \$11,000 to match Federal funds for the pur-pose of establishing, construct-ing and equipping an airport

Part of the money, \$4,000, would the airport on a lease basis. Owner of the land is the Warren Estate, owners of the Muleshoe Ranch. The city has leased the ground the last five years for \$150 a year, actually has been nothing since the operator of the airport has leased it from the city. The five year lease term will be

up in December of this year. In the lease contract there is an option by which the city may purchase the ground for \$4,000. The land is worth much more, in fact would bring two or three hundred dollars an acre by conservative estimate, since it is located along a highway, lays well, and is good land for any purpose.

The government through the CAA has appropriated \$9,000 for the purpose of assisting in the purchase of the ground and the development of the airport at Muleshoe.

The bonds would bear 3 per cent interest and would be retired in 11 years. Sixteen thousand dollars would be available for the improvement of the airport. CAA engineers suggested erection of a small administration building, ould contain an office. waiting foom, rest rooms, etc., a small concrete apron for servicing planes; improvement of runways by resodding; fencing the airport and other permanent improvements.

The entire city will be considered one precinct and all voting will be at the city hall. Tom Zimmer will be presiding judge; Mrs. Henry Williamson, judge; Mrs. H. O. Barbour, clerk; and Mrs. E. R. Wright, clerk

Only qualified electors, who own taxable property for taxation are entitled to vote in a bond election.

Odd Fellows Will Stage Barbecue

Odd Fellows and Rebekah lodges of Muleshoe Friday night will celebrate their anniversaries with a big barbecue and feed, to which members from sixteen Plains lodges are invited.

There will be barbecued chicken barbecued beef, and all the accompaniments. Six hundred persons are expected to attend, local members said. The affair will be held at the I.O.O.F lodge hall on

WHAT IS THE PURPOSE OF THE CHURCH?

By Rev. T. G. Craft Do you know the purpose of the Church? Does the Church hold any appeal to you? Do you know why so many Church people give so little attention to the Church? Do you understand why so many millions here in America have nothing to do with the Church? What is your answer to the question, "What is the purpose of the

Church? Many have been taught that the Church is God's Divine Institution, and that all people should join the Church and support it with their time, talent, and money. If this be true, it does not carry a conviction that enlists people to the loyalty of the Church.

It is obvious that the Church is a divine institution, but its mission must be translated into terms and meanings that all men can see and understand. We cannot

a three-fold creature. First, he is an instinctive being. The lower nature of man is animal, and his instincts are no different from those of the lower animals. Man as an animal is satisfied to eat, to sleep, to work some, to mate, to propagate the race, to be at ease, to enjoy comfort, to fight if provoked, to pursue, to hoard, and to rule over any kingdom he can create. The animal man has many fierce instincts, as hate, anger, malice, jealousy, envy, coveteousness, greed, and scorn. These innate powers he may use for his own selfish ends to the hurt of his fellow men.

Second, man also has an intel-lectual endowment which is a mere capacity for learning and acquiring of knowledge. This ca-pacity of the brain man has to employ and apply with dilligence to attain knowledge. The intellect may be developed by use only.
But knowledge alone does not make a complete man. It certainly has great values, and no one land discount these values wrought through knowledge.

| Such a program might temporately will destroy civilization. We believe England is trying to work out such a compromise,—a safe bridge between America and Russia. It is worth billions of dollars to the but Jesus is always the "norm"

Church is to help man discover was a member of the Jewish fault. Church discovered God to the highest degree of all men known to mankind. He found God and is in the hearts of true believers. The able to show all men the way that leads to God. The Church places Jesus as the corner stone in this spiritual building which every man should build for himself. Jesus had a great capacity for God; so does every man in some degree. Jesus used his capacity and Church also keeps Christ at the brought God completely and perfectly into his life.

Now the heart of the Church is fully understand the purpose of the Church until we first under-stand the nature of man. Man is

Babson Discusses England

ties for good. Surely it is a one-way street and cannot do any

Third, man has a capacity for of religious experience. Jesus God and for spiritual things. This stands as the One Great Personis the capacity that modern man ality of History who found God as peal to President Truman. may neglect to the hurt of his own a Personality and a Father of best life. The purpose of the mankind. After all the smoke of Church schisms have cleared away, his moral and spiritual capacity, there remains Jesus Christ against and to discover God. Jesus who whom his enemies could find no

> Church preserves the faith once delivered to the apostles and phophets. Faith in God is a personal trust in God through which we commit ourselves to Him. The Faith consists of tenets and beliefs of the Christian religion. The center of our faith, and makes him the "norm" of religious experience. This norm of religious experience is hard for us to attain now, but sometime, some-where, He will be the One great Personality whose life will be our It could be far more true now than most of us experience. Then, too, the Holy Spirit is to be our present source of divine power. He is not only to be with us, but He is to be in us. The quality of life mediated through Jesus Christ and the Holy Spirit is better described by the beatitudes in the fifth chapter of St. Matthew's gospel. The ethics of the Christian faith is love, mercy, compassion, forgiveness, goodness, meekness, kindness, gentleness, and joy in the Holy Spirit. The Church relives in every generation

Man is never complete until he develops all of his capacities. The man who neglects to use his spiritual capacities for God and divine things is cheating himself, and not God. God knows that all mer the greatest spiritual truths therefore, He gave to us the Church, the one universal institution through which all men may have the true light, rights, and benefits of the heavenly powers made incarnate in earthly men The purpose of the Church is to experience God, and reveal Him to others.

There are those who are no interested in the Church and never attend its services, but they are those who are cheating themselves of powers which they need in or der to have a complete and we! Church that cannot show God to others may need to find God for itself. Many of us can find many criticisms of the Church as it is oday, but you and I are the Church visible on earth, God is the Church invisible and spiritual. It is God that we need to experi-

man to God; it witnesses to the forgiveness of sins; it can take tensions and frustrations out of life; it provides a cure for wor-ries and fears; it offers a new life in Christ Jesus; it brings healing to the mind and soul; it crowns life with a great peace, and provides a fellowship founded in brotherly love. No other institution is designed to do so much for

United States to help us do this."

Questions Being Discussed

snosip Suraq are succession frew sed. Chief of these is the devaluation of the pound which would make it easier for the English to sell their goods without increasing So the purpose of the Church is the efficiency of their labor and to reveal God as a living reality machinery. This would be only postponing the final day or reckoning because England would not now need to debase her currency

nations, the powers of the World years of prosperity. Such a pro-Bank, President Truman's Point 4, gram must, however, get off "on Bank, President Truman's Point 4, our American Tariff, the so-called the right foot". Republicans must Block Balances, the continuation not cry "wolf, wolf" and scare of Lend-Lease, etc. All these, however, are mere temporary palliatives to relieve the patient (England) of pain. They are like giving aspirin and an electric pad to someone who needs surgical operation.

Goal To Seek

My prayer and hope is that the Conference will get down to fundamentals,-namely of getting the Democracies into an honest and workable economic union. We are already fast approaching a mutual defense union, and this is a step in the right direction. This, however, is much like repairing

and painting an old house which CONNIE DALE GUPTON TO really needs new timbers and a strong foundation. Let each na-

dollar and perhaps a single postage stamp for trading among themselves. In effect, this would mean extending England's present preferential trading system (which now applies only state of the system). now applies only to the members of the British Commonwealth) to other Democracies such as the U. S., France, Holland, Belgium, Ireland, Norway, Sweden, Denmark, and perhaps Greece and Turkey. 10 Or 20 More Years

but its ultimate results could mean a higher standard of living and better security for every reader of this column, the people of the United States as well as the people of foreign lands. The United States cannot long continue to "live the life of Riley" while the rest of the world is starving. The

sooner we realize this the better

for all concerned including our-

I am sure that President Truman is anxious to put over such a program. If the Republicans would if her production, management and labor would wake up and become efficient.

Among other things are: Fixing a new and guaranteed rate of money exchange for all Western stock market and another 5 or 10 years of prosperity. Such a present the stock market and another 5 or 10 years of prosperity. people into believing that it is a mistake to pray: "Thy Kingdom come on earth". This would not be a case of trying to "get some-thing for nothing" but rather of getting something for something

FIREBALL FUN-FOR-ALL every Thursday on Television

Guess who's losing sleep over this one?

FOR years, folks have talked about the "lowpriced three" in the car business.

For a generation these have been the same three cars, unchallenged for position simply because they were lowest priced.

But take a look at the beauty pictured here and ask yourself:

How would you like to sell against it, with its wealth of Buick features?

How would you like to compete with it when it wears a price tag any new-car buyer can reach, gives you straight-eight performance for less than many sixes?

Truth is, this one sets a lot of standards that are going to be hard to match.

This styling is certainly something to start other

TEN-STRIKE!

Only Buick SPECIAL has all these Features!

TRAFFIC-HANDY SIZE . MORE ROOM FOR THE MONEY . DYNAFLOW DRIVE optional at extra cost . JET-LINE STYLING . MON-LOCKING BUMPER-GUARD GRILLES . HIGH-PRESSURE FREBALL STRAIGHT-BIGHT ENGINE . COIL SPRINGING ALL AROUND . LOW-PRESSURE TIRES ON SAFETY-RIDE RIMS . GREATER VISIBILITY FORE AND AFT . SELF-LOCKING

LUGGAGE LIDS . STEADY-RIDING TORQUE-TUBE DRIVE . THREE SMART

designers tossing in their sleep.

This handy size—a dream in traffic, yet generous in interior room-is a "must" for cars yet

The lift of high-pressure Fireball power-the level-going comfort of the Buick ride-the luxury of Dynaflow Drive, here optional at modest extra cost-all these are wanted things others just can't overlook.

So why not do the obvious thing and go see the car that's causing sleepless nights in Detroit?

Study its smartness, test its room and comfort; try its handling, note the precise figures of its delivered prices.

You can do all that on a single trip to your Buick dealer's-and make your selection of a wide choice of equipment and colors at the same time.

When better automobiles are built BUICK will build them

Muleshoe Organizes Student Council, Ted Lawler Elected As President

(From The Stinger)

If you've heard someone say I've got to go to student council meet-ing, it's more than likely true. They've been meeting ever whip stitch. Or to be more specific last Thursday and Monday and Wed-nesday of this week. They've been studying parliamentary procedure and trying to decide on their con-

Also they've been having a rather lively discussion as to whether the school should go by the name, Mules or Yellowjackets. They definately favor Mules, so they are going to put it up to the student body by vote one of these days. Also it was decided that the Student Council shall meet every Monday after school. Below is the Constitution of the

Student organization. THE CONSITUTION OF THE STUDENT ASSOCIATION PREAMBLE

The Student Council is an elecive organization representing the entire student body of the high school which comprises the High School Student Association. The council heads all student activities. The Student Council affords a channel through which the principal and the faculty may work to bring about cooperative action or attitude on the part of the high school student body as a whole. It arouses a spirit of co-operation with authorities for a ommon good.

Name

Section A. The name of this organization will be The Student Association of Muleshoe High

Section B. The membership of this organization shall consist of all enrolled students of Muleshoe High School.

ARTICLE II. Governing Body

Section A. The governing body of this association shall consist of a student council of students with a faculty advisor appointed by the Section B. The name of the gov-

erning body shall be The Student Council of Muleshoe High School. ARTICLE III.

Qualifications Of Members Section A. The Student Council of Muleshoe High School shall be composed of the officers, of one representative selected from each senior high school home-room and one representative from each organization recognized by the student council; also, the president of each of the four classes and the chairman of each standing committee selected by the student council shall automatically be come a member of the council. Section B. Each member must

astic standing.

Section C. Each representative shall be elected during the three weeks of the first semester for a period of entire school term until removal or suspension and shall be entitled to one vote each; no one person may represent of each two organizations.

naintain a "C" average in scho

Section D. No post-graduate will be allowed to hold office or mem-

For Better Life in Texas

Highways and By-ways...

The first definite route of travel in Texas extended from near the present city of Eagle Pass through San Antonio to ogdoches and eastward. It was later known as El Camino Real, the King's

Famed for superb highways, Texas is also striding forward in the development of its by-ways-the farm-to-market road system which contributes so much to the comfort and convenience of all of its citizens.

By investing in Texas county and district road bonds during the past forty-six years, Southwestern Life Insurance Company, exclusively a Texas institution, has had a substantial part in aiding this State's road-building program. . DE SAME LEST

Such investments not only assure continuing security and protection to owners of Southwestern Life policies, but also work for all Texans as capital in the development of one of the State's highly essential resources—its highway network.

Your Child

conducted by Claud C. Ruch Childerati Adeliory Service

Most of you mothers of small babies worry needlessly when your little ones don't start to sit up or to walk or talk as early in life as the baby in the house next door or the apartment upstairs.

Before you begin to wonder

Before you begin to wonder whether or not there may be something wrong with little Mary or Bill, read what one of the country's leading authorities on "The Baby's First Year" has to say on this subject:
"As in all

other aspects Claud C. Ruch ment, babies vary a great deal with respect to the time when they begin to do certain things."

That is the expert opinion of Dr. Donovan J. McCune, Professor of Pediatrics at Columbia University and Childeraft writer.

An attending pediatrician at the Babies Hospital in New York City, he has the opportunity to observe hundreds of infants closely every

According to Dr. McCune, "babies seem to follow the same general pattern of development, des-pite differences in the time of beginning." Here is the outline he gives for their progress:

1. When lying on his abdomen, the newly born infant can usu-ally raise his head briefly, but cannot do so if he is lying on his back.

2. During the first four months, he can lift his head backward with greater and greater efficiency, but he usually cannot lift it forward until he is about four months of age.
3. A month or two later, at from

five to six months, he can sit upright with a little support. 4. By seven or eight months, a baby can maintain a sitting posture without aid for a short time and pull himself back in-

of the City of Muleshoe, Texas, convened in special session at the regular meeting place thereof in the City Hall, there being present and in attendance the following members, to-wit:

said bonds as they become due?"

II.

That said election shall be held at the City Hall in the City of Muleshoe, Texas, and the entire City shall constitute one election precinct.

Will Harper, Mayor; Dudley Malone, Commissioner; Julian E. Lenau, Commissioner; with the following absent: None, constitution ing a quorum; and, among other proceedings had, were the follow-

an order and moved its adoption. The motion was seconded by Com-

missioner Malone. The motion carrying with it the

adoption of the order, prevailed by the following vote: AYES: Commissioners Lenau and Malone, and Mayor Harper. NOES: None.

The Order Is As Follows: WHEREAS, it is considered by the Board of Commissioners to be to the best interest of the City that the Bonds of said City shall be issued for the purpose and in the amount hereinafter stated,

Be it ordered by the Board of Commissioners of the City of Muleshoe, Texas.

That an election be held on the 27th day of September, 1949, which date is not less than fif-(15) nor more than thirty (30) days from the date of the adoption of this order, at which election the following proposition shall be submitted to the qualified resident electors who own taxable property in said City and who have duly rendered the same

"SHALL the Board of Commissioners of the City of Muleshoe, Texas, be authorized to issue the bonds of said city in the total principal amount of Eleven Thousand Dollars (\$11,000), said bonds to mature serially over a period of years not to exceed eleven (11) establishing, constructing and e-puipping an airport in and for said City, including buildings and other facilities incidental to the operation thereof; and to provide for the payment of the principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a

> prior to the date for said electhe 31st day of August, 1949.

City of Muleshoe, Texas. (CITY SEAL) THIS NOTICE of election is issued and given by the undersigned, pursuant to authority confer-

red by virtue of the above and foregoing order of the Board of

III.
That the following named persons are hereby appointed officers of the election, to-wit:

oroceedings had, were the followng:

Commissioner Lenau introduced Mrs. E. R. Wright, Clerk;

Mrs. Henry Williamson, Judge;
Mrs. H. O. Barbour, Clerk; and
Mrs. E. R. Wright, Clerk.

That said election shall be held under the provisions of and in accordance with the laws governing the issuance of municipal bonds in cities, as provided in the General Laws of the State of Texas, and only qualified electors, who own taxable property in the City, and who have duly rendered the same for taxation, shall be qualified to vote.

IT IS FURTHER ORDERED that the ballots for said election shall be prepared in sufficient number and in conformity with House Bill Number 357, passed by the Fiftyfirst Legislature in 1949, and that printed on such ballots shall ap-

pear the following proposition: "For the issuance of bonds and the levying of the tax in payment thereof."
"Against the issuance of the

bonds and the levying of the tax in payment thereof."

AS TO the foregoing proposition, each voter shall mark out with black ink or black pencil one of

the above expressions, thus leav-ing the other as indicating his or her vote on the proposition. That a copy of this order, signed by the Mayor of the City and attested by the City Clerk, shall

serve as proper notice of said elec-That said notice of said election to bear interest at a rate of not to exceed three per centum (3%) per annum, payable annually or semi-annually, for the purpose of establishing, constructing and or said notice to be posted as the said notice. shall be given by posting and pub-

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

There is no Need for Strikes

With all of the available methods for the with all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by lew and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stranged rolling on the

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other subroads at any time. Recently the Wabash Railroad was forced to discontinue operation for several days under similar circumstances.

What are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

"... It is with a close some of regret that we are stilled to report the failure of our minima. It seems inconssivable to us that a country at the animal's major transpariation systems, with all of the lease and fartishes that result failure, is right of the fail the failure and complete remedy for the fair that the Kallwey Labor Act provides as orderly, efficient and complete remedy for the fair and just soldement of the matters in dispute. Grievaness of the character have under discussion are so numerous and primed frequent everyward or an american take that the general adoption of the policy passend by the organizations in this case well soon result is the complete multifection of the Rullway Labor Act. 1."

efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law which are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the mean-

ing of contracts: 1-Decision by National Railroad Adjustment Board.

2—Decision by System Adjustment
Board for the specific railroad.

8—Decision by arbitration.

4—Decision by neutral referee.

5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Acts: Regardless of this fact, the union leaders have shot down that railroad.

Innocent Bystanders Suffer Losses and Hardehipe

There are about 5,000 engineers, firement conductors and trainmen on the Missouri Pacific. They are known as "operating" employes, and are the most highly paid of all employes on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employes of the Missouri Pacific. In addition, they have imposed great inconvenience and have

Missouri Pacific. In addition, they have imposed great inconvenience and hard-ship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commune.

If these man will not comply with the previous of the law for the stittement of such disputes then all thinking Americans must fine the gain then. What is the next step?
