Formation Rural Telephone Co-op In Bailey County Is In Prospect

Special Election Set For Tuesday

Bailey County people have a special interest in the special election which will be held in all voting precincts as well as throughout Texas next Tuesday, November 8.

They will be helping to choose a representative for this, the 120th Legislative District, in the Lower House of the Texas Legislature. There are three names on the ballots: Joe W. Jennings, Harold M. LaFont, both of Hale County, and Tom W. Deen, Floyd County.

One of these will be elected Tuesday, because there will be no run-off election; the man who receives the largest number of votes will be declared elected. The election is to fill a vacancy created by the resignation of I. E. Holt, of Olton, who accepted the postmastership in his home town.

The proposed amendments to the constitution of the State of Texas also will vote on at this election. These proposed changes in the constitution are outlined elsewhere in this paper.

Also, the people of this county will vote on a representative for this section on the State Board of Education, a new body formed by the Gilmer-Aikin Law.

BABSON DISCUSSES Advantages Of Making A Will

BABSON PARK, Mass., Oct. 28.—Too many people die without leaving a will. The result: financial tangles, family squabbles, lawsuits, and the disposition of the property entirely contrary to the wishes of the deceased.

Why Make A Will?

Some day each of us will die. Making a will can neither hasten nor retard death, but a properly drawn will, executed by a competent lawyer, may save post-mortem disputes and prevent the distribution of an estate contrary to the wishes of the testator.

Roger W. Babson

For example, property belonging to an intestate estate usually cannot be sold without a license from the court. This costs money. A will saves this difficulty. The testator can direct exactly how his property is to be disposed. Everyone man or woman, who has real estate, bank accounts, securities, or a car should have a will and he should not wait until he is upon his death bed, either, to

frame this important document.

Property Distribution Without A Will

Every state has laws concerning the disposition of property for those who are too lazy to make a will. Let us suppose you are married, your wife is living, and you have children. You die, leaving a modest amount of property. You leave no will. In most states your wife is entitled to only one-third of your property; your children, whether you have one or a dozen, to the other two-thirds. Your wife must be appointed legal guardian which involves an appreciable expenditure from your children's share of the property. Your wife's share of the property may soon be exhausted trying to support the children. When your children come of age and receive their inheritance, they may not see fit to aid their mother. Thus your widow lives on "old age assistance" because you failed to spend \$10-\$25 and a half an hour with a lawyer.

We all know of situations where, without a will, property and especially real estate has passed along, by law, to children not on speaking terms with one another. One of the inheritors may wish to sell, rent, or otherwise dispose of the property. The consent of other brothers and sisters who have a similar interest in the property cannot be obtained. The family squabble continues and all parties lose money via lawsuits. Or, consider the case when a man dies and leaves no children but leaves other relatives. In Massachusetts, for example, if the estate is \$10,

000 or less, the wife gets all. If the estate totals more than \$10,000, the wife gets the first \$10,000 and only one-half the additional value of the estate. The long lost relatives get the rest! Wherever you live, the legal disposition of your estate may be quite contrary to your wishes.

Why Procrastinate?

Don't be foolish! I knew a thrifty Scot who said he would save ten dollars and a visit to his lawyer. He got a sample form of a will, copied it, but failed to have it witnessed by the proper number of witnesses required by his state to make this document legal. The probate court tossed it out and the old man's wishes went to the winds.

A friend of one of my business associates died the other day. She was a widow in her middle fifties. She had no children nor near kin. She left no will. She had talked to many about her estate and what she had her heart set on doing with it when the time came. Then she hastily added: "I have twenty-five more years to live and plenty of time to think about a will." She would shudder now, I am sure, could she see the property being divided up by law among all her first cousins.

It used to be the custom among English lawyers, at professional meetings, to offer the first toast to those who wrote their own wills. They know that carelessly written wills bring the lawyers lots of business.

Prospects Of Hurley Country, Printed In 1912, Recalls Early Days Of Country

Wail not for the precious opportunities passed away; Weep not for golden ages on the wain; Each night, turn the records of the day; For at sun rise each soul is born again.

The above versified advice begins a circular on the Hurley Country, printed in 1912, a copy of which ancient piece of publicity on this section has been brought to The Journal office by C. H. Long, old time citizen, now residing on Route 2, Muleshoe.

The prospectus says: The Best Irrigation Proposition in the South West. And this statement, as well as many others in the prospectus have been shown to be true.

There were two Hurleys in the early days of this immediate section. Old Hurley was at the Briscoe farm, on Friona highway north of Muleshoe a few miles; New Hurley was near the spot now occupied by Puckett's store, two miles out of Muleshoe on the Clovis Highway. Both towns gave way to Muleshoe after the railroad came through in 1913.

In the prospectus are letters from the late H. M. Baier, agricultural demonstrator for the Sante Fe; E. H. Burmann, irrigation farmer; W. W. Burns and J. H. Barger, irrigation farmers; D. E. Carles, irrigation farmer who had come here from Rocky Ford, the famous Colorado irrigation district; and Mc. D. Cantrell, irrigation farmer who had moved here three years before from Illinois.

"Remember", the prospectus tells prospective farm buyers, "this Hurley country will be on the MAIN LINE of the Sante Fe railroad, a very different thing from a little branch road. Here, you will have a direct route to the best markets of the world for all your products, you will have a shorter haul and less freight rates to the Gulf ports than Kansas City has, your products will be equal in quality and quantity to those of any country, you will have fruits, green vegetables and melons when those of

all other parts of Texas are brown and dead.

"This Hurley Country, with her rich soil, the great abundance of pure water with a superb climate of mild winters and long delightful summers, with an altitude that is conducive to the maturity and health of both man and beast, is destined to be in the immediate future the most prosperous community in the Texas Panhandle."

Hurley had a school, a building to be used for the courthouse, stores, etc. The building now used mostly for Teen Town was moved from Hurley to Muleshoe, as was a hotel building that later was known as the Gupton Hotel.

Pictures in the prospectus includes shots of water flowing from an irrigation well, down irrigation ditches. Several persons, including two little boys wading in the water, are shown in these pictures but Mr. Long did not have their identification. The prospectus was put out by the Hurley Commercial Club and dated September 20, 1912. It is a smooth piece of advertising yet nowhere in it was there any exaggeration, loose statements, or extravagant claims. As said before, the prospectus told the truth about the Blackwater Valley.

CHRISTIAN SCIENCE SERVICES

"Adam and Fallen Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November.

The Golden Text is: "Awake thou that sleepest, and arise from the dead, and Christ shall give thee light" (Ephesians 5:14).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Whoso walketh uprightly shall be saved; but he that is perverse in his ways shall fall at once" (Proverbs 28:18).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spiritual man is the image or idea of God, an idea which cannot be lost nor separated from its divine Principle" (Page 303).

Mrs. Daniell Rites Held At Memphis Oct. 27

Funeral services were held Thursday, October 27, at the Fairview cemetery, Memphis, Texas, for Mrs. W. M. Daniell, 43, of Muleshoe, following her untimely death October 25.

Mrs. Daniell, former resident of Memphis, had lived in Muleshoe for about three months. She was born July 28, 1906, in Arkansas.

Funeral services were held in the Nazarene Church, Memphis, where she had been a member for 11 years. Minister Thurman White, of Tulsa, and Minister W. B. Taylor, of Lubbock, officiated at the services which were under the direction of Marcum Funeral Home.

Besides her husband, of Muleshoe, she is survived by two sons, T. A. Daniell, of Borger, and Curtis Daniell, of El Paso; two daughters, Mrs. Joe Vivian Armstrong of Memphis, and Joy Daniell, of Muleshoe; her mother, Mrs. A. D. Langley, of Willis Point; one brother, A. D. Langley, Jr., of Willis Point; and seven sisters, Mrs. W. W. Martin, Memphis, Mrs. Jimmie Williams, Grand Saline, Mrs. John A. Davidson, Denver, Colo., Mrs. Lee Starns, Willis Point, Mrs. John H. Burialbearers at the services were: J. W. Combs, T. A. Guthrie, Edw. Childress, J. E. Wooten, Earl Gibson, Harvey Wines, Roy Ayers, and E. G. Johnson.

Flower bearers were: Misses Norma Lou Thompson, Juanella Goffinet, Marie Barnes, Katherine Wright, Barbara Edmondson, Thelma Browning and Shirley McEe.

Ringold Lady Dora Is Champion Again

Raises Litter of 10 To 447 Pounds Weaned

Ninety-six pigs raised to weaning age is the remarkable new record of America's champion production sow. She is Ringold Lady Dora, a purebred Hampshire owned by Meadowlark Farms, Inc. of Sullivan, Indiana, and the only sow of any breed to qualify for an 8th star in production registry books.

The champion chalked up her new record this spring when she raised a litter of 10 pigs, nine of them eligible for registration, to weigh 447 pounds at weaning time, 56 days.

To qualify for production registry, conducted by the purebred associations, a sow must raise a litter of at least eight pigs to a minimum weight of 320 pounds within 56 days. They must be approved breed type, free from fault

Here is Ringold Lady Dora with her litter of 10 pigs which qualified her as an 8-star sow, the only sow having such designation in registry sows of any breed. This litter weighed 447 pounds at 56 days of age. Ringold Lady was fed a ration of corn, oats, pelleted milk products and alfalfa pasture prior to farrowing and during the suckling period.

or defect and at least half of them eligible for registry. The sow gains a star in the production registry books each time she repeats the performance.

The champion has repeated it eight times, raising a total of 81 pigs to weigh a total of 3,183 pounds at the weaning age. Besides her eight litters which qualified for production registry, this sow has raised another 15 pigs in two litters which failed to qualify, or a total of 96 pigs since her first litter was farrowed in September, 1944.

According to U. S. department of agriculture reports, the national average is less than 6.3 pigs per litter raised to weaning age. It would take more than average litters to equal in numbers of pigs raised to weaning age what Ringold Lady Dora raised in her eight qualifying litters.

Worth of her litters was proven recently when her sixth qualifying litter (farrowed February 13, 1948) consisting of seven boars and three gilts, was sold for a total of \$4,365.

Library News . . .

New books added to the Library recently include "An Old Fashioned Girl" by Louisa May Alcott. Louisa was all ways at her best as a writer when she was using something that had happened in her own life. Miss Alcott knew the meaning of struggle, but her hard work finally gave her literary success. The story is about Polly, the little country school teacher who has a hard time with a wealthy city family, but Polly shows her grit and ability in helping the rich family when they in turn are faced with bad luck. How she is amply repaid for her good deeds forms a thrilling climax to the novel.

Another new book is "The House That Jacob Built" by John Gould.

HOBBS VISITORS

Mrs. Noel Woodley and daughter Ann visited with her parents, Rev. and Mrs. Jamieson in Hobbs, N. M. over the weekend.

Versatile Tool

This "adjusto-blade" tool is a time, space and money saver for the farmer and gardener and can be used at any season of the year. A product of the Cofing hoist company, the tool does the work of a hoe, an angle hoe, an axe, edger, trencher, sickle in summer and a scraper in winter.

The secret of its versatility lies in the adjustable blade which can be fastened securely in a number of positions. The head of the company which makes it, Fred W. Cofing, is the inventor.

The tool is sturdily made throughout, with blade made of heat-treated tool steel to insure extra toughness.

Grain Sorghum Grazing Cuts Farm Feeding Cost

The widespread use of grain sorghum for fall grazing has proved this crop to be one of the best grown for livestock, according to J. T. Graves, Clemson extension livestock specialist.

The grain sorghum gives grazing at a time of year that most other types of grazing are unavailable. It fits in very well between summer pastures and green winter grazing crops.

Hunter Licenses Laws, Other Laws Outlined As Open Season Nears

Open season for hunting ducks and geese will begin Friday, November 4, to continue through November 21; and will start December 21 and run through January 7.

The daily bag limit on ducks is 4 and possession limit is 8. The daily bag limit on geese is 5, with not more than 2 Canada geese or its subspecies, or not more than 2 white-fronted geese, or not more than 1 of each of these species. Possession limit is the same.

Ducks and geese may be taken from one-half hour before sunrise to one hour before sunset, except that the hour for the commencement of hunting of waterfowl on the first day of the season, including each first day of the split seasons, shall be 12 o'clock noon. Decoys or bait, use of livestock in taking waterfowl, taking any

migratory game bird with rifled firearms, shotgun larger than 10 gauge, or automatic-loading or hand operated repeating shotgun of more than three shell capacity are forbidden. Similarly use of automobile or aircraft, or motorboat are prohibited.

License Required
A copy of the hunting laws digest prepared by the Game, Fish and Oyster Commission, Austin, has the following information on licenses required:
No person may hunt migratory waterfowl without a Federal stamp, procurable at Post Offices.
A big game license is required of those who hunt turkey or deer. A resident license is required of every Texas citizen 17 or more who hunts anything other than deer or turkey out of the county of his residence and who does not

hold a big game license. "Citizen" includes any person who has been for more than six months immediately preceding application for license a bona fide resident of Texas. A non-resident license costs \$25.00 and is required of every person who is not a citizen of this State or who is an alien.

It Is Unlawful To:
Hunt out of county of your residence without a license.
Hunt under license of another.
Allow another person to hunt under your license.

It Is Unlawful To:
Kill a brown pelican.
Kill or molest a carrier pigeon.
Take game birds by net or trap.
Destroy the nests or eggs of any birds protected by the laws of this State.

It Is Unlawful To:
Hunt or fish on enclosed lands of another without the owner's consent.

Shoot any gun or firearm in, on, along or across any public road in this State.

Refuse to permit a game and fish warden to search your game bag or automobile or either receptacle.

Hunt for hire or hire anyone to hunt.
Hunt from an automobile, motor boat, sail boat, boat under tow, or airplane.

There is no limit to the game birds or game animals may be kept in storage. Under Federal law, migratory birds and waterfowl may be possessed for only 90 days after close of the season. Any person convicted of violating any game law automatically forfeits his hunting license and all hunting rights for one year from date of conviction.

The trespass law is pretty drastic. One may be fined upon conviction \$200 and automatically forfeits his hunting license and all hunting rights for a period of one year, regardless of whether he was convicted for hunting with firearms, or for fishing, or for otherwise deprecating on another's land without permission.

Homemakers Class In Session Tuesday

Homemakers class of the First Baptist church met in the home of Mrs. Birdie Paul Tuesday afternoon.

Opening prayer was led by Mrs. Dora Riddle. Mrs. Burrow brought the devotional.
Mrs. Lovie Benson read the report for Group Captain No. 1.
Mrs. Beulah Motheral read the report for Group Captain No. 2.
Mrs. Grace Winn was appointed vice-president.
Our hostesses were decided on for the coming year.

Christmas plans were discussed. The Homemakers Class is to give the devotional at church next Sunday. Eleven members and two honorary members were present.
The meeting was dismissed by Claudia Hinkle.

"Mighty big tip you handed that cloakroom attendant", commented Patsy.
"It seemed only fair look at the beautiful new coat she gave me," answered Jerry.

"Mother Hubbard" Medicine Cabinet Ill-Prepared for Everyday Emergencies

Wise mothers are never caught with empty medicine chests, because emergencies don't wait for a trip to the corner druggist.

Keeping the family medicine cabinet in order and well-stocked is a wise precaution. Recent surveys show that only about one out of three American homes is prepared to handle the emergencies that commonly arise in families.

If your cabinet lacks these essentials, you, too, are unprepared for home accidents.

For cuts and bruises: an antiseptic, sterile cotton balls for applying it; individually-wrapped sterile adhesive bandages.

For burns: a burn remedy, sterile gauze pads for covering the burn, roll adhesive tape.

For general illness: a clinical thermometer, ampoules of aromatic spirits of ammonia, witch hazel, boric acid, bicarbonate of soda and rubbing alcohol.

Scissors, tweezers and an eye-cup are handy additions to the medicine chest. And you'll want to keep a hot-water bottle and ice pack nearby, too.

A compact first-aid booklet is an excellent guide to keep handy also.

After stocking your cabinet well, check up on your medicine chest manners. You rate an A if:

- Every box and bottle is well-labeled.
- Bottles are tightly corked.
- Poisons have been placed out of reach of children, with pins stuck in the corks or rubber bands wound round the bottles as a reminder of the bottles' contents.
- Old prescriptions are discarded promptly when they are no longer needed.

TARPS TO FARMERS' AID

The scarcity of permanent crop storage facilities is a headache for farmers again this year, but canvas tarpaulins will play a large part in alleviating the shortage, according to the National Cotton Council. Temporary corn cribs, covered with a tarpaulin as shown above, will be used in many sections. A recent survey among the nation's county agents reveals that there are literally a thousand and one practical uses for canvas covers on farms.

Careful, Regular Cleansing Keeps Refrigerator Efficient

An electric refrigerator is, in some respects, like an automobile. In the first place, because it represents an important investment of money, you want it to look well—be a credit to your kitchen and homemaking talents. In the second place, you want it to run efficiently at all times.

To make a refrigerator do, these things you must do for it what you do for your car—keep it clean. This is the routine—requiring only a few minutes' work recommended by the G-E Consumers Institute to attain that end.

Clean the exterior of the cabinet regularly with a mild soap and water solution, using a sponge or soft cloth, or use a liquid wax recommended by the manufacturer. This not only cleans the finish but also protects it and adds new luster to it. Don't use oily furniture polishes or abrasive scouring powders.

Clean the interior regularly with a solution of warm water and baking soda (about a teaspoon of soda to a quart of water), or a solution of mild soap and water, followed by a baking-soda solution. Then wipe the interior with a clean, dry cloth. Never use wax or other polishes, and never use harsh or gritty cleansers.

For cleaning the door gasket (the rubber sealing strip around the inside of the door), use a mild soap-and-water solution, and don't forget to clean it when you're doing the interior of the refrigerator. Merely use soap and water to wash the ice trays. Don't use metal sponges, steel wool, or coarse cleaning powders. And never use boiling water, for it will remove the surface wax film which

helps make it easy to remove the ice cubes. Glass accessories can be cleaned with soap and warm, not hot water.

If your refrigerator happens to have a handy butter conditioner, wash the glass butter side frequently with soap and warm water. And don't forget to wipe out the compartment itself with a cloth dampened in baking soda and water, whenever you are cleaning the interior of the refrigerator, or oftener if it needs it.

Remove the vegetable drawers, and wash them with soap and warm water as often as necessary.

If you have a refrigerator with a finned-tube type condenser, you should clean it once a year with a brush or vacuum cleaner attachment. To get at the condenser merely pull off the panel at the bottom of the refrigerator.

The mechanism in most refrigerators have been permanently lubricated at the factory, so you never have to oil it. But, if it should need service or adjustment, call your retailer and give him the model number of the refrigerator cabinet (which is usually on a label inside the refrigerator). This will enable him to bring right to you home the replacement parts he may need.

Independent thought is the only true preparation for the proper study of the thoughts of others. —Galderswood

If possible use a cooking utensil that evenly fits the heating unit of your electric range so that maximum economy can be achieved.

Just tell us a good reason why we should give you a new Shelvador® Refrigerator.

BIG DOUBLE-BARRELED CONTEST

Win a brand new 1950 custom model Shelvador Refrigerator!

A double chance to win. **FIRST**—our Local Contest, designed for you and your friends and neighbors—judged by local judges in your own community. All you do is write on the red Local Entry Blank in 50 words or less why we should give you a beautiful, new 9-cubic-foot Shelvador Refrigerator. The winner selected by our judges will get a new 1950 Shelvador Refrigerator to be awarded by us and delivered right to your home.

IT'S THE BIGGEST THING YET!

PLUS

\$27,500 in cash, 25 complete Crosley Electric Kitchens and 100 new 1950 Shelvador Refrigerators as national prizes.

SECOND—a National Contest, in addition to and separate from the over 6,500 local Crosley Dealer Contests, where the same words you write for the Local Contest (or different ones if you prefer) may be submitted on the green National Entry Blank and compete for the Grand Prizes of cash, kitchens, and refrigerators to be awarded by Crosley.

Here's what the Crosley Kitchens will include: New 1950 Shelvador Refrigerator Model CB-9—Crosley Electric Range Model DE-129—Crosley Kitchen Freezer Model HF-1346—40-gallon table-top Model CMT-40-DE Crosley Electric Water Heater—Crosley Kitchen Disposer Model CKD-25—Crosley Double Drain-Board Sink Model CST-4800—Crosley Steel Kitchen Wall and Base Cabinets, maximum retail value of \$350.00. Imagine all this in your home—plus \$300.00 in cash toward installation.

Just follow these simple rules

- In 50 words or less, write your reason or reasons why we should give you a new Shelvador refrigerator. Write your reasons in the space provided on the Entry Blank—the red Entry Blank for the Crosley Local Dealers' Contest, the green Entry Blank for the Crosley National Contest.
- Participants may enter both the Crosley Local Dealers' Contest and the Crosley National Contest. However, participants may submit only one entry in only one of the Crosley Local Dealers' Contests, and the participant may submit only one entry in the Crosley National Contest.
- Both of the Entry Blanks to be obtained at no cost from Crosley Appliance dealers. The green Entry Blank for the National Contest from any Crosley Dealer; the red Entry Blank from the local Crosley Dealer conducting a local contest.
- Any resident of the continental United States may compete except employees of the Crosley Division of the AVCO Manufacturing Corporation, retail dealers of Crosley appliances, wholesale distributors of Crosley appliances, their advertising agencies and their families. Contest subject to all federal, state, and local regulations.
- All entries on the red Entry Blank for the Crosley Local Dealers' Contest must be delivered before December 1, 1949, to the Crosley Dealer from whom the entry was obtained.
- All entries on either the red blank for the local contest or the green blank for the national contest that are mailed, must be postmarked before midnight, November 30, 1949.
- Mail or deliver in person your red Entry Blank for the Crosley Local Dealers' Contest to the Crosley Dealer from whom the entry Blank was obtained. Mail the green Entry Blank for the National Contest to Betty Olson, Director of Home Economics, Crosley Division, AVCO Manufacturing Corp., Box 1938, Cincinnati, Ohio.
- Entries will be judged and prizes will be awarded for originality, sincerity and aptness of thought. Judges' decision will be final. Duplicate prizes will be awarded in case of ties. No entries will be returned. Entries, contents and ideas therein become the property of the Crosley Division, AVCO Manufacturing Corporation.
- All winners will be notified by mail, phone, or telegram. A list of the winners of the Crosley National Contest will be available on request from Crosley Division, AVCO Manufacturing Corporation, 1329 Arlington St., Cincinnati 25, Ohio, approximately two months after the close of the contest.

If you buy a new 1950 Crosley Refrigerator during this contest and win one as a prize either in national or local contests... you may elect to take the retail price of your prize refrigerator in cash.

Bright Crop Cash Outlook For Sudan Growers Of The South Plains Area

South Plains farmers who diversified their crops and planted something else besides cotton alone are going to reap a profitable reward—that is if they planted Sudan grass.

With last week's government report showing a crop of 34,310,000 pounds, far below the ten-year average of between 50 and 60 million pounds, production of seed is going to fall short of demand by more than 20 per cent, A. V. Weaver, sr., pioneer Lubbock grain dealer and one of the foremost authorities of sudan, predicted today.

Weaver forecast a crop of 14-500,000 pounds for the South Plains and eastern New Mexico area, from an acreage of approximately 19,500. Yield, he said, is running from 400 to 800 pounds per acre and in some instances to 1,000 pound and better.

Bailey And Cochran Lead

Price for sweet sudan seed, on a reclaimed basis, is now running from \$5.50 to \$6 per hundred pounds and there is a possibility it will go higher.

In this area, southern Bailey county and northern Cochran county is leading in acreage with approximately 8,500 acres in that section. Northern Bailey county, which last year produced more sudan, only has about 1,500 acres this year. Other acreages in the area include: Castro county, 3,000 acres; Lamb county, 1,000 acres and the balance of the acreage scattered in Lea, Roosevelt and Curry counties in eastern New Mexico.

Lubbock county only has about 500 acres in commercial sudan grass seed, Weaver estimated.

Of the total production in this area, 11,000,000 pounds is expected in sweet sudan, 3,500,000 pounds in common sudan grass.

Hay Demands Increased

Weaver, who has been in the grain business in Lubbock 34 years attributed the heavy prospective demand for seed next year to proposed changes in the national farm program, deemphasizing cotton and other crops.

More emphasis will be placed on production of livestock and dairy products under the program and naturally there will be increased demand for pastures and hay production. Sudan grass is used strictly for these purposes.

Weaver is responsible for the introduction of sudan grass in Kansas, Nebraska and other Mid-west territory, having sold the grain in those areas after buying production of Lubbock county's first crop, back in 1914.

The late F. E. Wheelock and P. F. Brown, Lubbock pioneers, brought sudan to Lubbock county after organizing the Lubbock Sudan Grass Seed Growers association 35 years ago and importing the first seed from Africa. The seed brought \$1 per pound at that time.

Contracted To Sell Seed

The old warehouse of the association still stands on Broadway near the Santa Fe underpass.

Following production of the first crop, there was too much surplus seed for Lubbock and the South Plains area and Weaver contracted to dispose of the association's seed.

Oddly enough, it was his introduction to the grain business, a vocation he has been following ever since with his brother, Sam Weaver, in the firm of Weaver Bros.

Particularly every year since then, they have handled the bulk of sudan grass seed sales from this area.

Cool and collected, this fetching miss invites the sun to come on out, for she is dressed to greet shimmering summer weather in a cotton off-the-shoulder blouse. The foam white cotton blouse by Ship 'n Shore has a tiny gingham plaid trim that echoes the plaid of her cotton skirt, the National Cotton Council reports.

Famed 2d Armored Band To Plainview On Armistice Day

CAMP HOOD, Texas, Nov. 1.—Armistice Day the well-known 2d Armored Division Band will fly to Plainview, Texas, for an appearance, but not without a lot of arranging.

It all began when the Honorable George H. Mahon, of Colorado City, representative in Congress from the 19th district, asked the Fourth Army to send an Army Band to the Plainview celebration. Meanwhile Harry McCain, of Plainview, chairman of the arrangements committee asked Maj. Gen. A. C. Smith, Commanding General of the 2d Armored Division and Camp Hood, if it would be possible to have the 2d Armored Division Band.

It developed that due to previous commitments including a radio program on Thursday night, and football games over the week end following Armistice Day it was found that one day was all that could be spared.

Fourth Army was advised of the situation whereupon it in turn called on the Air Force. "Would it be possible," asked the Army, "to lend us a couple of planes for one day?"

When the Air Force said yes, another problem came up. Two C-47s would take the bandmen, but how would those bulky instruments get from Camp Hood to Plainview, a little over 300 miles

Co-op Program To Salute Bailey County On Nov. 4

AMARILLO, Nov. 2.—Farmers in Bailey County will be saluted on the Co-op Round-Up radio program over KFDD, Amarillo, the Panhandle's most popular radio station, on Saturday, November 5th, at which time special tribute will be paid to the activities and work of the Consumers Fuel & Supply Company, a farm cooperative, in Muleshoe.

The Co-op Round-Up, which is a special feature of KFDD each Saturday, is sponsored by 21 farm cooperatives operating in the Panhandle-Plains area.

The Consumers Fuel & Supply Company of Muleshoe was organized by 25 Bailey County farmers by air, and back in one day? A driver and guard could be detailed to take the instruments on ahead by truck.

But that brought up another question which had Chief Warrant Officer Daniel Miller, leader of the band, scratching his head. How would the band play for the radio broadcast without instruments? However, after a close check last night it was found that enough personal instruments were owned or could be borrowed to play with one set at Camp Hood on Thursday night, and another in Plainview on Friday, so it all worked out after all.

Plainview Host To Aviation Ass'n.

PLAINVIEW, Nov. 1.—Gill Robb Wilson of the New York Herald Tribune, one of the nation's leading aviation authorities, writer of the syndicated column "The Air World" for over five years, will be the principal speaker during the 1949 convention of the Texas State Aviation Association to be held in Plainview, November 4-5.

GILL ROBB WILSON
Aviation columnist for the New York Herald Tribune, Mr. Wilson will be the principal speaker at the just announced convention of the Texas State Aviation Association to be held in Plainview, Texas, November 4-5.

W. H. Bahnman of Commerce, president of TSAA, in announcing confirmation of Wilson's coming to Texas for the meeting, said the former internationally known foreign correspondent during World War II will fly to Plainview by army aircraft, arriving the morning of November 5.

Bahnman expects 200 fliers from throughout Texas to begin registration at Hilton Hotel at 10 o'clock the morning of November 4. Local arrangements are under direction of Dan Castles, chairman and other members of the Plainview Chamber of Commerce aviation committee.

Parmer Cow Is 3rd In National

Gypsy Mae, two year old Milking Shorthorn female owned by John S. and Maxine Thompson, living south of Friona, placed 3rd in the International Dairy Exposition at Indianapolis, Ind., Mr. Thompson reported on his return home from the Exposition early last week.

In addition to placing third among all cows shown at the exposition, Gypsy Mae placed eighth in the best uddered cow class. She was the highest ranking cow in the herd from Texas, the next individual from the state placing fifth, this animal belonging to Deere Farms, Roscoe, Texas.

Actually, the Parmer County entry showed under a handicap, being listed in the three year old class when she is only two years old. All other entries in her division were with their second calf while the Thompson cow had calved only one time.

FURNITURE FASHIONS by Frances Ainsworth

GRAND RAPIDS, MICHIGAN—Illustrated, is one of six rooms designed by R. W. Irvin of Cleveland and furnished by the Brower Furniture Company of Grand Rapids in the new Stauffer Restaurant on Washington Boulevard in Detroit, which opened just a few weeks ago. Color plan for the room was taken from the unusual new mural in the center of the room... carried out in the medallion wallpaper and flowered carpet. The furniture was designed especially for The Stauffer restaurant to blend with the room decor. Table tops are light rift oak... chairs are maple finished to match table tops and upholstered in a red plastic covering. This room is one of six furnished by the Brower Company for the new restaurant, one of 19 Stauffer restaurants across America from New York to Chicago.

YOUNG APLOMB!

This glamor gal (junior size) shows what the well-dressed young miss is wearing this fall. She wears a colorful cotton frock with as much aplomb as a grown-up pin-up girl. Her vivid cotton plaid dress in gay red and blue shades is designed by Johnston of Dallas.

At the International show seven breeds were exhibited from all over the nation. Breeds represented were: Jersey, Guernsey, Holstein, Milking Shorthorn, Brown Swiss, Red Poll, and Anshier.

Making the trip to Indianapolis with Thompson were Marion Bruce, Shorthorn breeder of Amarillo, and Jim Crockett, animal husbandry student at West Texas State College, Canyon.—State Line Tribune, Farwell.

VISITED IN ARTESIA

Mr. and Mrs. C. M. McMath and B. F. Parker were visitors over the week end in Artesia, N. M., with her brother and family.

Little Jimmy Minniek tugged at his mother's apron strings. "Ma, didn't I hear you tell Aunt Mary I have your eyes and daddy's nose?" "Yes, you did," said his mother. "Well, look at me now, Ma," said Jimmy "I've got Grandpa's teeth."

Prizes will include nearly \$2,000,000 worth of new 1950 Custom model Crosley Shelvador refrigerators to be given away by dealers, and 125 awards to grand prize winners nationally.

To enter, it will be necessary only to write, in a few words, Why I Should Be Given a New 1950 Shelvador Refrigerator. Entry blanks on which to write may be obtained without obligation at The Johnson Store.

The best local entry, as judged by a committee of prominent citizens of the community, will be awarded a new 1950 custom model Shelvador refrigerator, having a capacity of 9 cubic feet.

National entries will be forwarded to Crosley headquarters for the additional selection of national grand prize winners.

First national prize will be \$10,000 in cash and a complete Crosley kitchen, having a retail value of \$1,520; second prize, \$5,000 in cash plus a complete electric kitchen, the prize \$2,500 in cash and a complete electric kitchen; fourth prize, \$1,000 in cash plus the kitchen; next 20 prizes, complete electric kitchen; next 100 prizes, new 1950 custom model 9-cubic-foot Shelvador refrigerators.

Both national and local entry blanks will be available beginning October 15 and the final deadline will be November 30, Mr. Johnson said.

The complete kitchens include a 9-cubic-foot kitchen freezer, 40 gallon table top style electric water heater, 48-inch cabinet sink with electric waste food disposer, base and wall steel cabinets, and \$300 in cash toward installation of the kitchen in the winner's home.

The new refrigerators and all other products in the prize kitchens are from the company's new 1950 lines of refrigerators, steel kitchen sinks and base and wall cabinets, freezers and electric water heaters, which have just been introduced by Crosley. The company introduced its electric range line and full line of television and radio receivers last spring.

It's a \$2,064 pot, mister!

With new-car prices averaging about \$2,064, you're battling Old Man Wear for a rich pot in that new automobile of yours!

And wear is especially hard to beat in winter. To win back your stake, you'll need an unbeatable hand...

You'll need OIL-PLATING!

2. Magical Performance! Even when the fine lubricating oil itself isn't covering a part, OIL-PLATING is! It protects your engine from grinding "dry-friction" starts... from combustion acids... from sludge and carbon caused by wear.

1. Oil-Plating—a feature of patented Conoco No. 4 Motor Oil—performs a wear-preventing miracle by fastening a shield of special lubricant to working parts. OIL-PLATING can't all drain down—even overnight!

3. Winter's A Killer! These wear-makers, at their worst in winter, threaten your car now. New and older cars both urgently need Conoco No. 4. Don't wait... drive yours in today and armor it against winter with Conoco No. 4!

2,000,000 Pledge Cards for CROP

Rural families throughout the country are using cards like those shown above to pledge their contributions of bulk commodities to ease the suffering of the needy all over the world.

More than 2,000,000 of the pledge cards are being distributed to farm families in the Christian Rural Overseas program (CROP), the interchurch overseas relief project. The harvest season drive is concentrated in this and 32 other agricultural states. Small grains, meat, milk, cotton, and other farm commodities are needed. Sponsors of CROP are Catholic Rural Life, Church World Service (22 Protestant denominations) and Lutheran World Relief.

Marjorie Swift, of CROP's national office in Chicago, holds up the 2,000,000th pledge card in the Christian brotherhood program.

Baptists Consider Worldwide Causes

For the first time in its 101 years, the Baptist General Convention of Texas, meeting in El Paso November 1-3, will hear a recommendation that half of a five million dollar budget be designated for worldwide causes.

Denominational causes within the state which would receive the other two and one half million dollars have generally been allowed more than fifty per cent of the receipts. Besides the regular budget, the convention is expected to accept another five million dollar goal for individual gifts to Baptist institutions. This would be the second consecutive year for the ten million dollar project.

Annual pre-convention meetings of the Women's Missionary Union and the Men's Brotherhood are scheduled for Monday and Tuesday, October 31, and November 1, in El Paso. The general convention will begin Tuesday evening. Approximately 3,000 Baptists are expected for the general meeting.

Well-known denominational leaders from Texas, Tennessee, Oklahoma and Louisiana will speak during the three-day convention. Among these are Dr. Duke McCall, executive secretary of the Southern Baptist convention, Nashville, Tenn.; Dr. Forrest Feozor, pastor of the First Baptist church, Waco; Dr. J. Howard Williams, state executive secretary, Dallas; and Dr. W. A. Criswell, pastor, First Baptist church, Dallas.

President of the convention is Dr. Wallace Bassett, for thirty-one years pastor of the Cliff Temple Baptist church, Dallas. Dr. J. H. Landes, Wichita Falls, is to preach

NO JUST A NEW - Chambers RANGE COOKS WITH THE GAS TURNED OFF

The newest bride can bake pie "like Mother used to make," if she has a Chambers Range that takes the guesswork out of cooking. She can serve complete dinners so good that folks rave about them, yet spend practically no time in the kitchen. With a Chambers Range, only 20 minutes of gas starts a meal; then the gas can be turned OFF; cooking finishes automatically, on retained heat. Ask us for a demonstration.

The Power that made Buick Famous

If you want to know what's "the newest thing" in automobile engines, look at the Buick engine pictured here, and you'll see the words "valve-in-head."

But it happens that this isn't new with Buick. As a matter of fact, the valve-in-head engine was invented back in 1902—U. S. Patent No. 771095—and immediately, Buick adopted the principle, which became the first in a long string of "Buick firsts."

Not everyone went for the idea—then. In spite of the fact that this engine "breathes" more freely—gets fuel in and exhaust gases out more easily—others hung onto their pet ideas.

Then came the airplane, with its

need for maximum power from every drop of fuel—and every maker of internal combustion airplane engines adopted the valve-in-head principle.

And more recently—with the hope that higher-octane fuels will become available—a lot of automotive engine designers are taking a new look at the valve-in-head idea.

But just for the record, we'd like to point out that Buick got there first.

And ever since, Buick has gone steadily ahead, building up a name as "valve-in-headquarters." Buick engineers reshaped pistons to put Fireball wallop in these engines. They stepped up compression

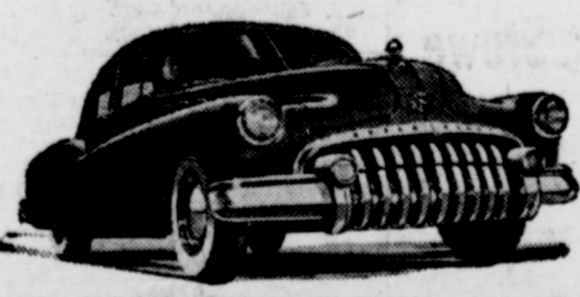

ratios as fast as better fuels came along.

So perhaps you'll want to remember, when you hear the term "valve-in-head," that this is the type of power that made Buick famous.

If others want to climb on the bandwagon, we say "more power to them"—and no pun is intended.

But Buick has been doing more with valve-in-head right from the start.

And—we might add—it stands to reason that Buick is not through making this type of engine better and better.

Guild And WSCS Hold Joint Week Of Prayer Program

Members of the Wesleyan Service Guild and the WSCS of the First Methodist Church of Muleshoe met on Tuesday afternoon at 2:30 at the Church for a joint meeting and presented a program climaxed the Week of Prayer and Self Denial, which is observed yearly by the members of these organizations.

The program was opened by singing "Dear Lord and Father of Mankind" after which Mrs. Roy Bayless led the group in an opening prayer. Mrs. James Case then presented a very beautifully prepared meditation, followed by Mrs. G. O. Jennings who spoke briefly of the work and its great need and introduced the speakers of the afternoon. Each person on the program is to be complimented on the excellent preparation of their various topics and each person present was made to feel how great the need for help at these various centers is, both in our local work and our foreign work.

The meeting was closed by a period of silent prayer and each member making an offering to carry on the work of which we had studied.

Those taking part on the program were Mrs. James Case, Mrs. Frances Gilbreath, and Mrs. H. S. Sanders, Jr., from the Guild and Mrs. Roy Bayless, Mrs. H. C. Holt, Mrs. Finley Pierson, Mrs. C. E. West, and Mrs. G. O. Jennings from the WSCS.

Mr. and Mrs. W. A. Mathis Celebrated Golden Wedding Anniversary Sunday

Mr. and Mrs. W. A. Mathis, residents of Bailey County since 1925, celebrated their golden wedding anniversary Sunday, October 30, with a reception held at the home of their daughter, Mrs. H. E. Schuster, with hosts for the occasion being the Schusters; Mr. and Mrs. H. B. Mathis, Alan and David; and Mr. and Mrs. Jack Schuster and Alex.

The couple was married December 6, 1898, with Mrs. Belle Locklar, mother of Mrs. Mathis and an aunt Mrs. Anna Waddell present. Both attended the anniversary reception, being the second time the two sisters Belle and Anna have been together in fifty years.

Two children were born to Mr. and Mrs. Mathis, a son Bert and a daughter, Mrs. Schuster, both are living here. They have five grandchildren and one great grandchild.

Mr. and Mrs. Mathis moved to the Plains in February 1925, and are now living at their original home seven miles south of Muleshoe. Both are members of the Baptist Church. Mrs. Mathis is a member of the Order of the Eastern Star.

Flower arrangements for the occasion were furnished by McWhorters Floral and Muleshoe Floral and Gift Shop.

Out of town guests who called during the reception hours were: Mr. and Mrs. J. Fred Higgins, Cuerva, New Mexico; Mrs. Carrie L. Bishop and James, Mr. and Mrs. Joe Cobb, Mr. and Mrs. Tom Cobb,

Mrs. O. C. Thomson Hosts Progress HD

The Progress H. D. club met in the home of Mrs. O. C. Thomson November 1.

Mrs. Mardis, the vice-president, presided over the business meeting.

The roll was answered by telling the things we were thankful for. Ordering more aluminum for trays was discussed. There is also a paint that can be baked on to decorate the trays.

It was also decided to select pattern alteration and sewing machine attachments for the county agent and her helpers to use for demonstrations. This suggestion is to be turned in to the Council for consideration.

All members are asked to prepare a discussion on "furniture arrangement in the home" for the next meeting. This will be a round table discussion.

Mrs. Davis gave a very interesting demonstration on household insects of the South Plains.

Delicious refreshments of cake and cokes were served to the seven members and the hostess that were present.
