FDR Rebukes Industries For Longer Week

\$790,000,000 RELIEF FUNDS BEING SOUGHT

WASHINGTON, D. C., Jan. 11 (U.P.)—President Roosevelt today rebuked certain industrial employers for lengthening the work week and asked congress for \$790,000,000 to carry the relief burden during the remaining five months of this fiscal year. That will increase the twelve months' cost to \$2,215,000,000.

The president charged that a tendency toward a longer work week has had important effects on re-employment. He complained that some employers were "stepping up production without an equivalent stepping up of employment."

He added that most employers have not greatly increased maximum hours established under the NRA.

He reported that non-agricultural re-employment since March, 1933, was approximately 6,000,000 persons and that more than 1,000,000 of them found private jobs in 1936.

Simultaneously with his letter to Speaker William Bankhead asking the additional relief appropriation Mr. Roosevelt submitted a report on unemployment as of December 12. It said 3,151,000 jobs were on government payrolls on that date, the smallest number since November 30, 1935.

Eastland Attorney Dies at Fort Worth

FORT WORTH, Jan. 11 (U.P.)—Frank Judkins, 59, prominent Eastland lawyer and former Ector county attorney died in a hospital here today after a brief illness.

Judkins will be buried at Eastland. Relatives believed Judkins' death from a heart ailment was complicated by an auto accident at Odessa, two weeks ago. The attorney was injured by a hit and run driver there while visiting a brother.

Keeping Vigil for Kidnaped Boy

Although the fate of Charles Mattson, 10, kidnaped at Tacoma, Wash., remained a mystery, activities at his home indicated sustained hope for his safety. Photo at right shows a messenger delivering, through the Mattson's cautiously opened door, a special delivery letter for William, 16-year-old brother of Charles. Upper left is Harold Nathan, J. Edgar Hoover's chief assistant, who is working on the case. Paul H. Seva, left, Tacoma business man, has been mentioned as an intermediary.

CHRISTIANITY DECLINES FURTHER IN SOVIET AFTER SUPREME LAW GUARANTEES RELIGIOUS FREEDOM

By NORMAN B. DUELL, United Press Staff Correspondent MOSCOW, Jan. 11 (U.P.)—Although granted a charter of liberty in the new Soviet constitution which separated church and state and guaranteed the right to worship, Christianity is steadily declining in the Soviet Union, a survey shows.

The constitution like wise granted the right to conduct anti-religious propaganda and the weight of the press, Communist Party and youth organizations is cast strongly on the side of atheism.

Churches throughout the Soviet Union are steadily being abandoned through lack of sufficient congregations. Others have been destroyed or converted to other uses in rebuilding of cities. As available churches become fewer, crowds increase in those open during Easter, Russia's one big religious holiday.

The Greek Orthodox church continues to be suspect politically and is under close watch and supervision. A priest who exercises political influence or expresses anti-Soviet feelings often does not remain long in his position.

Few Catholic Churches

There are few churches of other faith than Greek Orthodox in the Soviet Union. Roman Catholic services are conducted in Moscow and Leningrad by foreign priests, one of whom, in Moscow, is an American, Father Braun.

German Lutheran churches conduct services in Moscow and Leningrad, but the Moscow church at present is without a pastor.

Twenty-eight Greek Orthodox churches were open in Moscow last Easter, compared with 454 which operated prior to the revolution. Eight had been closed in 1935 and several others have been closed or destroyed since.

Those that still exist are handicapped by a schism between the "new" and the "old" churches, and dwindling congregations must pay a tax to the local Soviets for use of state property.

SOUTH TEXAS IN ICY GRIP; NORTH THAWS

South Texas communities fought ice and sleet Monday as north Texas thawed from a blizzard which caused five deaths last week.

As freezing weather extended almost to the gulf, telephone and telegraph companies maintained lines between major Texas cities with difficulty. Many cities including Tyler, Bryan, Temple and LaGrange were without communications.

Damage to utility lines in Texas was estimated at several million dollars.

Citrus growers of the Lower Rio Grande Valley relaxed their vigil as the temperature dropped to 38.6 degrees above freezing, then began to rise.

Freezing weather continued in north Texas until noon Monday. The temperature reached a minimum of 29 at Dallas, 25 at Abilene and Fort Worth; 30 at Austin; 36 at El Paso, and 22 at Amarillo.

Bus and train schedules still were irregular. Telephone calls between Houston and Dallas Sunday night were routed by way of New Orleans, Atlanta New York and San Francisco, and then back to Texas.

As Woman Mayor Defied Ouster

Mrs. M. A. Taylor, Mayor of Brownwood, is shown in a photograph. She had been in power since her husband resigned. Gov. Dave Scholtz, upper left, whose term was to expire Jan. 5, fought to oust Mrs. Armstrong under special 1933 legislation. The lower photo shows three of the armed men guarding city hall under Mrs. Armstrong's orders.

Although armed guards remained on duty, threats of bloodshed and civil war appeared likely to give way to a court battle in the struggle for control of the Dayton Beach, Fla., city government. Mayor Irene Armstrong's upper right, remained entrenched in city hall, where

Funeral for Ben Welch, 55, pump-jack operator, was held Sunday afternoon at 1 o'clock in the Hamner Undertaking company chapel at Eastland, with Rev. Father Brane officiating. Burial followed in Eastland cemetery.

Y.; Charlie Welch of Albany; one sister, Mrs. Mary O'Connor, Portville, N. Y., and four step-sons, W. C. McDaniel of Cisco, C. H. McDaniel of Kilgore; G. H. McDaniel of Tacoma, Wash., and M. S. DETROIT, Mich., Jan. 11 (U.P.)—Automobile strike leaders told General Motors today "it's your move."

The deadlock kept approximately 100,000 employees out of work.

FRANCE OFFERS PEACE PLAN IN PORT BLOCAD

PARIS, Jan. 11 (U.P.)—France has warned Germany that she will not tolerate German expansion in Morocco, it was disclosed today.

The warning was transmitted by the French ambassador to Berlin. There were no notes written.

It was understood the British similarly indicated they would not tolerate German fortification of Ceuta, Spanish Morocco.

A former French proposal for an international blockade of Spain to isolate the civil war while the new Moroccan crisis is solved, is expected within 48 hours. The French proposal is expected to be that French and British warships patrol the waters outside nationalist ports, while Italian and German ships patrol outside loyalist ports.

FULL QUORUM EXPECTED FOR LEGISLATURE

AUSTIN, Jan. 11 (U.P.)—Almost a full attendance in both house and senate is expected for the opening of the 45th Texas Legislature, Tuesday at noon, despite traffic interruptions.

More than a quorum of each house was in Austin today.

Robert Calvert, 32, of Hillsboro, seemed certain to be house speaker. Friends predicted his election on the first ballot. Representative Albert Walker of Vernon was his only opponent.

Senator Will Pace of Tyler was expected to be choice of a senate caucus tomorrow morning from president pro tem. That would make him presiding officer of the senate when Lieutenant Governor Walter Woodfill is absent.

Representative J. Lucas, of Athens who has been organizing a movement for again liberalizing old age assistance, arrived today. He predicted that some sort of liberalizing bill will pass the house but thought the governor would veto it.

The governor's message to the legislature will be delivered Wednesday or Thursday. The first message will deal largely with state finances.

Practical Christianity is a great source of joy when one begins to practice it. . . . Sometimes we become so selfish that in giving all our tithes to our local church where we can enjoy ourselves we lose sight of the great debt we owe for the blessings we have been receiving all our lives.

A little contemplation of the lot of some of these unfortunates who litter our highways because they are not willing to sit at home and starve, should serve to show us just how blessed we are.

It is Christ-like to share with the unfortunate. . . . Cosmopol Pravda, young communist organ, recently attacked religious activity in an article under the heading "The Black Army." Naying that the new constitution represented "a decisive turn in the policy of the party in respect to anti-religious work," the newspaper pointed out that "article 124 of the constitution secures for all citizens not only freedom of religion, but freedom of anti-religious propaganda." Representatives of the modern church, the paper charged, "apply new methods of propaganda, so as to delay the growth of atheism and maintain their reactionary influence on the backward elements of the population."

Similar anti-religious articles and attacks in the activity of priests occur frequently in all of the Soviet press in addition to those in the monthly magazine, "The Godless," devoted exclusively to anti-religious work.

Unemployment Compensation in Texas

Editor's Note—Following are questions and answers prepared by R. B. Anderson, chairman-director of the Texas Unemployment Compensation Commission, which is an interpretation in simplified terms of the various provisions of the recently-enacted Texas Unemployment Compensation Act.

Further questions and answers in this series will appear from time to time.

How to Become Eligible for Benefits
 Q. 8. "How do I establish my eligibility for benefits under the Unemployment Compensation Act?"

- A. You must comply with a number of rules:
1. You must register for work at a public employment office. Subsequently, we will discuss the establishment of these offices.
 2. You must make a claim for compensation or benefits according to the rules of the commission. The law requires every employer to post these rules and regulations at a conspicuous place where you can easily see and study them.
 3. You must be able to work; and you must be ready to take work.

In other words, you must be ready and willing—in case a call comes to you from the public employment office at which you have signed your job and the time you get your first benefit check, there must be a "waiting period" of two weeks. You will receive no pay during those two weeks, but the public employment office will make every effort to find a job for you.

However, it is not necessary that those two weeks of waiting be one right after the other. If you have been unemployed any two weeks out of the thirteen weeks before you make application for compensation, then you can draw your compensation right away.

A Special Case of Eligibility
 Q. 9. "After I had been working for a considerable time and had built up my compensation credits, I lost my job. Right away I started a small business going for a number of months, but finally I had to apply for unemployment compensation. But the law says that I must have been employed for at least 13 weeks during the last 52 before I become unemployed. My only job in the past 52 weeks has been in my own little business. Does this make me ineligible for benefits?"

A. No. In such cases as yours, you will be allowed to skip the time that you were working for yourself. You can start counting your 13 out of 52 weeks in the time before you started your own business. Let's see an example:

First, you worked for wages during 1937. Thus you built up 13 weeks of possible benefits.

Second, you lost your job on January 1, 1938, and started in a small business of your own which you kept going for a year.

Third, your own business goes on the rocks and you apply for benefits in January 1939. In your application you go back to the time when you were working for wages, or in other words, to your 1937 record of employment.

Q. 10. "What occupations are covered by the law?"

A. The easiest way to answer that question is to list the occupations that are not covered. The unemployment compensation act includes all workers for any one employer who employs as many as 8 persons, except in certain specified fields.

The act covers all occupations with those exceptions:

1. State, federal, county and city workers, and employees of all political subdivisions of any of the governing units named are exempt.
2. If congress has written a special unemployment insurance law covering industry, you are exempt
