CHARLES MATTONSON BEATEN TO DEATH

About Our Friends

By STEPHEN A. LONG

The passing of Sidney Baird, of Carl Baird, takes another notch from this county to his eternal home. A reward for life that has been an example to his children, neighbors and their children. Mr. Baird has witnessed the development, passing through the various phases that have led to the present, from an Indian country, through the rough and ready days of conquering a country very much indeed. But Sidney Baird was a man who will be missed. His children are to take his place. His memory will remain as a blessing to his neighbors and to all of them many years hence. Sydney Baird will be replaced by a good man. He was a good man.

... of this one on Doc Cabaness as a bachelor while in the city. He decided that the front porch was no place for a young man who had ambition to some day return to his home and become famous in insurance business. So he went to his captain and told a story of how his wife had died for him, she being in the hospital and that he feared she was not allowed to go home. He might not live. But Captain Baird was used to such stories. Cabaness said that he was not telling the truth. In fact, he said, he had just written a letter from the wife saying she did not want Cabaness.

SIDNEY BAIRD FUNERAL HELD TODAY 3 P. M.

G. Baird, 69, died at the home of his son, Carl, Tuesday morning after a lingering illness of several weeks resulting from complications of paralysis.

The funeral will be held at the First Baptist church at 3 o'clock this morning, burial service at Oakwood cemetery. In charge of the Masons lodge, he was a member.

Baird was born in Kentucky, Oct. 1868 and had lived in this county about 40 years. He was a successful farmer of the Dan community and had a host of friends who join his family in mourning his death. After his illness was brought to the home of his son, Carl, where he has been cared for until death came to relieve his suffering.

Allred Indicates Oil As Good Tax Target

SAYS MILLIONS IN TAXES WILL BE NEEDED

AUSTIN, Jan. 13 (UP)—Governor James V. Allred today told the 49th Texas Legislature it should raise millions in revenue and point to oil and pipe lines as the best targets for additional taxes. The message was delivered at a joint session of the house and senate. Allred said that he made an error last summer in predicting no added taxes would be required. He estimated \$6,375,000 is necessary to prevent an increase in the state's general revenue fund deficit. Old age assistance, he said, will need \$1,300,000 for the remainder of the fiscal year ending August 31, and \$1,600,000 for each of the two succeeding years. "I think it will not be denied," Allred said, "that representatives of the natural resource industries were happy to get off with such a light increase before. Since the last called session, these industries have improved their condition, particularly the oil industry. For permanent tax relief, Allred recommended two constitutional amendments and pledged himself to campaign for them. They would give the State Tax Board authority to aid counties in equalizing values of oil, sulphur, utilities, insurance and other large business and permit it to appeal to courts for fair valuations. He recommended re-submission of an amendment to permit classification of property for taxation. Creation of a state utility commission was asked. "The time has come," he said, "when we must pass an effective regulatory law, one giving adequate power to a state commission."

Lions Entertained By Magician Today

Magician J. B. Moreno was on the Lions program today and gave some of his disappearing tricks to the great amusement of Lion members. Date for the Lions minstrel was set, a Lobo banquet in conjunction with the Rotary club was authorized and the "Friendless Boys" club organized by Lyons T. C. Williams. Rev. Joe Patterson, in conjunction with Rotarian M. H. Applegate, was endorsed. The date set for the Lions minstrel was Thursday night, January 21 at the high school building. Lion J. A. Bearman, S. H. Nance and W. H. LaRoque were appointed to confer with the Rotarians regarding a banquet for the Lobos at some immediate date. Patterson, committee on Boy's work, reported the organization of a "Friendless Boys" club at the East Side school building Tuesday night and the serving of a chili supper to 38 charter members. The club endorsed the work of the committee and commended their efforts. These Lions reported the assistance of Rev. M. H. Applegate in the capacity of a Rotarian, in the work of organization.

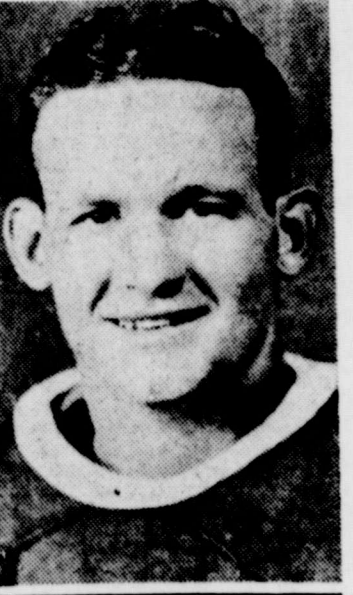

Edward McGrady Goes to White House to Explain Labor Crisis Developments

WASHINGTON, Jan. 13 (UP)—Assistant Secretary of Labor Edward McGrady was summoned to the White House today to explain to President Roosevelt developments in the nation's major labor crises. McGrady will discuss the Pacific coast maritime strike and the General Motors strike.

FISHER, CHEVROLET PLANTS STRIKE

ST. LOUIS, Jan. 13 (AP)—A strike was called today by Automobile Workers of America in both the local Fisher body plants and the Chevrolet assembly plant of the General Motors Corporation. Four thousand men are employed.

New Coach

CAPT. WALTER ROACH T.C.U. HORNED FROGS—1936

'SLINGIN' SAM' OF T. C. U. WILL VISIT IN CISCO

Captain Walter Roach who will be the principal speaker at the Midget banquet Thursday night, has notified C. C. Duff, principal of the Grammar school, that he is bringing "Slingin' Sam" Baugh with him. This will insure a full house at the Methodist church where the affair is to be held. Principal Duff announced today that those who want to attend must hurry as the room at the banquet hall is limited and the maximum is about reached. Music and other entertaining numbers have been arranged. O. L. Stamey, toastmaster, has other surprises up his sleeve, it is understood. The price is 50 cents.

BOGGS NO. 3 IS ONLY SHOWING GAS PRESSURE

The Boggs No. 3 Lone Star, drilled by Gallagher & Lawson which picked up a strong gas pressure at slightly below 3400 feet was drilled to the pay today about noon when a showing of oil was at 3400 feet. The gas increased to 1,500,000 feet pressure and was drilling continuing hoping to discover more oil sand. At 2 p. m. the drill penetrated 15 feet further without more oil showing.

Beeville Boasts of Only Club of Kind

BEEVILLE (UP)—Beeville boasts an organization believed to be the only one of its kind in the United States—the Gold Key Club. The club is composed exclusively of members of the Beeville Future Farmers of America chapter, who hold the degree of State Farmer. Besides the State Farmer degrees held by each of the 16 members of the club, two of the group, William Cude and Gus Dunn, have received their American Farmer degrees, the highest obtainable in FFA work. The first annual banquet of the club was held during the Christmas holidays.

FROM BLOOD SIEGE TO PEACEFUL TERMS

DETROIT, Jan. 13 (UP)—General Motors strike turned today from bloodshed toward peaceful negotiations after Governor Frank Murphy invited union leaders and corporation executives to meet tomorrow to seek a basis for settlement. National guardsmen were in Flint in case disorder should occur. Flint is not under martial law and there was no indication violence would recur. The troops had order not to take sides in the controversy involving strikers, city police and General Motors officials.

MARTIN JOHNSON, EXPLORER, IS AIR CRASH VICTIM; WIFE HURT; ONE KILLED AND THREE INJURED

LOS ANGELES, Jan. 13 (UP)—Martin Johnson, famous African explorer, died today, the second fatality in the crash of a Western Air Express transport that plowed into a mountain ridge with 13 persons aboard in a storm yesterday.

Martin, his face torn and suffering from other injuries, died in a hospital here, where his wife is in a semi-conscious condition. She is expected to live. Because of her condition, however, news of her husband's death was withheld from Mrs. Johnson. The famous explorer was en route here to lecture when the airliner crashed, killing one passenger instantly and injuring all the others. James Braden of Cleveland, Ohio, was the other victim. His neck was broken.

Judkins Funeral Held on Tuesday

Funeral for Frank Judkins, 59, Eastland attorney who died Monday morning at a Fort Worth hospital, was conducted Tuesday afternoon from the First Methodist church, with Rev. P. W. Walker, pastor, officiating. Burial was in Eastland cemetery. A heart attack was held responsible for death. It was believed automobile injuries suffered recently while on a visit with a brother at Odessa was contributory. His trip made last week to the hospital was in connection with his auto injury. Judkins had in his 29 years residence at Eastland been identified as an attorney with many sensational criminal and scores of civil cases. At Angleton in recent years he was defense attorney for Clyde Thompson, accused of a prison murder. The case was widely publicized because of the judge's effort to ban printing of testimony by newspapermen. While never asking office, Judkins was active in county and district politics. For many years he was associated as a partner with O. F. Chastain, who has since moved to Kilgore. Several terms Judkins was Essex county attorney. Later he moved to El Paso and subsequently to Eastland. Survivors are two daughters, Miss Mary Pearl Judkins of Ysleta, near El Paso.

CCC Camp Members Make Cisco Visit

Two young lads from a Brownwood CCC camp decided to come to Cisco Tuesday. They borrowed the official truck seemingly without the proper authority and were the subjects of a bulletin to the Cisco police to arrest them. Officer P. D. Pierce located the truck and brought the young men and truck to the city hall. Result: An officer came for the truck and the sheriff's department took charge of the boys. The young men gave their names as Grady Barker and Richard Henshaw.

8 KILLED ON SECTION CAR NEAR NEVADA

LOS ANGELES, Jan. 13 (UP)—Eight workmen were killed when a locomotive ran down their section car on the Union Pacific main line near the Nevada border today. Only one man was identified immediately. A backing freight locomotive struck the section car in the early morning darkness, as the men were starting out to shovel snow from the tracks.

ONION FARMERS MEET JAN. 18

GARLAND (UP)—J. A. Alexander of Garland, president of the North Texas Onion Growers and Shippers Association, has announced that P. Henry of the marketing division of the Department of Agriculture will hold a meeting in Garland on Jan. 18 to determine if onion farmers want to organize an onion marketing association.

REV. MOAD IMPROVED

Rev. C. S. Moad, who has been suffering from blood poison the past week, is reported greatly improved, although confined to his bed.

Orphans Held in Father's Slaying

Already motherless, these three young brothers of Mumfreville, Ky., faced new tragedy when Orin, 15, holding the baby, above, was charged with fatally shooting his father, Owen Warren, 38, after being threatened with a beating for selling a chicken. The baby, Ora, 14-months old, in his father's arms at the time, suffered a leg wound, indicated by the bandage. Orin, 13, shown at left, was accused as an accessory. The father previously had been cited for cruelty to his children.

NEW PROGRAM ATTACKED BY JOHN McCARL

WASHINGTON, Jan. 13 (UP)—Former Comptroller General John McCarl charged today that the President's re-organization program insofar as it concerned the accounting system was a "smoke screen" to deprive congress of means to "discharge its constitutional responsibilities to the government." The attack of McCarl, veteran of fifteen years as the "watchdog of the treasury" was coincident with a prediction by Speaker William Bankhead that congress would delay the President's plan to consider all its features.

Directors Named For New CC Board

The city commission re-elected five retiring directors of the chamber of commerce and named three new ones for the board at their meeting last night. Those re-elected were B. A. Butler, J. D. Lauderdale, S. H. Nance, E. J. Poe and R. L. Ponsler; the three new members named were W. J. Leach, J. H. Reynolds, and E. L. Smith. Board members holding over for another year are Dr. F. E. Clark, C. P. Cole, J. J. Collins, Charles J. Kline, Dr. Charles Hale, Ed Huestis and S. R. Wood.

Family Week For Methodist Church

Rev. Joe I. Patterson is making preparations for a series of sermons during the first week of February aimed to interest the young people of the Methodist church and leaving the foundation of the subject matter to be used by staging an essay contest among the students of the high school and Randolph College on the kind of a man or woman they expect to marry and why.

Youth of France Pedal to Romance On Modern Bicycle Built for Two

PARIS, Jan. 13 (UP)—Despite the development of modern means of locomotion the world over, the often ridiculed bicycle is more than holding its own in France. That is shown by statistics which reveal that 380,468 bicycle licenses were issued in Paris in 1935 compared to 372,752 in 1934 and 369,652 in 1933. For the whole of France, an increase of 95,125 licenses was recorded in 1935 over 1934. One of the reasons for this development is that bicycles are being used more than ever for commercial purposes, especially for deliveries. Virtually all minor deliveries in Paris and other French cities are made by bicycle. While in America almost all butchers, bakers and grocers generally use carts for their deliveries, in France they resort to "tricycleurs." Bicycles are used to a great extent as well by the working class who use them to get from their homes to their work and especially so in provincial regions. In certain large factories there is even a garage for the workers' bicycles. Furthermore bicycle riding comes as a second nature to French children who learn to ride bicycles almost as soon as they learn how to walk. Later on, most of them would not think of going to school any other way except by bicycle. Besides, it is the great ambition of many French children to become bicycle racers, for this sport is to the French what baseball is to the Americans. The "Tour de France" yearly bicycle race around France is one of the greatest sporting events of the year. Finally, many people have come back to bicycle riding as a pastime. Even tandems have in the last few years become the fashion. While young people in America take automobiles to go off on week-end camping parties, in France, owing to the great expense of running a car, the young people resort to bicycles. A bicycle license costs 18 francs a year. This represents the entire cost of running except, of course, for eventual repairs. Those same 18 francs would just about cover the expense of enough gasoline to go 35 miles in an average car.

G-MEN SEARCH FOR INMATE OF INSTITUTION

TACOMA, Wash., Jan. 13 (UP)—Ten-year-old Charles Mattson was stabbed in the back and then beaten to death by a degenerate, the United Press learned today. This development gave point to the secret search of G-men and the search of approximately 1,000 individuals for the kidnap-slayer of the boy stolen from his parents home December 27. The G-men were seeking a former inmate of the Washington Insane Asylum, who has a known mania for kidnaping.

The manner of the child's death was revealed by a secret autopsy. It was established that Charles did not die from the stabbing, but that the slayer completed his job by battering in almost the entire rear portion of the boy's head. The killer was a sexual pervert, the United Press also learned.

CLEBURNE MAN HELD FOR QUESTIONING

CLEBURNE, Jan. 13 (UP)—Police today held a middle-aged man here seeking knowledge he might have of the kidnaped slaying of Charles Mattson at Tacoma, Wash. Officers were not inclined to believe that the suspect had any direct connection with the Mattson case, although they believed he might be wanted by police. Fingerprints of the man were forwarded to Washington today for identification.

RESOLUTION ADOPTED BY HOUSE

AUSTIN, Jan. 13 (UP)—The House today adopted a resolution of sympathy for the family of Dr. William Mattson on the death of his son, Charles, describing the death as a "dastardly crime."

Preston Suspicious Of Two Large Bills

L. J. Preston at Burton-Lingo Lumber company refused a \$20 and a \$10 bill Tuesday when they were offered to him in separate payments for a tube of paint and a pair of strap hinges. The money did not look just right to Preston who told them to just take the items on ration bills were in payment. It is an old form of graft but many people fall for it over and over. The bills are usually counterfeit, and the articles of merchandise together with the change given are total losses.

SOUTH, EAST TEXAS LINES RESTORED

By United Press Communications lines were partially restored Wednesday to cities in south and east Texas which have been isolated several days as a result of last week's blizzard. Warm rain, fog and mist helped wash away the last remnant of ice and snow that caused several million dollars in damage in north and east Texas. Tyler, Mexia and other cities were still limited to restricted telegraph and telephone service.

WEATHER

EAST TEXAS—Cloudy; probably local rain in east and south portions tonight and Thursday; somewhat warmer tonight and in north-east and southwest portions Thursday. WEST TEXAS—Partly cloudy; warmer in southeast portion tonight; Thursday partly cloudy; somewhat colder in Panhandle.

Electricity the New Farm Hand

Things have changed down on the farm since the REA has carried the blessing of electricity into so many rural sections. Not only is it possible to have imaginable household convenience in those electrified homes, but on one farm described by a farm magazine, there are even more astonishing aids for the farmer himself in his work. We quote:

"The entire barn is adequately lighted and milking is done with an electric milking machine. Corn shelling, feed grinding, and feed mixing is done with a portable electric motor. Ventilating fans provide fresh air for the cows and individual watering devices are attached to each stallion. Electric clippers keep the cows sanitary and prevent shedding of old hair.

The milk house has electrically charged screens which not only keep flies and insects out but electrocute them in the bargain. The charge of electricity on these screens is so small that it does not hurt a human being but every fly that hits the screen dies instantly! An electric milk cooler has been installed which reduces milk to ice box temperature. The silo is filled by a silage operator by a portable motor. Hay is hauled into the barn by this same motor.

The poultry house is well lighted and special ultraviolet ray lamps have been installed to provide artificial sunlight in the brooder house. Fresh water is before the chickens and chicks at all times in electrically heated pans. The brooder is electrically heated and chicks are hatched in an electric incubator.

"In the garden is found an electrically heated hotbed, making it possible to start vegetables early in the season without fear of frost. An electric irrigation system also keeps the vegetables growing without fear of drought.

The farm shop is by no means the last important example of the usefulness of electricity on the farm. This shop is well lighted and electrically operated drill presses, soldering irons, hand saws, circular table saws, forges, and emery wheels are evidence of the fact that by using electric power almost any farm repair job can be handled quickly, cheaply, and efficiently right on the farm."

OUT OUR WAY

About Our Friends—

to come home... he got drunk and broke the furniture when he was home... she requested that Cabana remain in the army, the captain said... "May I speak to you as man to man?" Cabana asked the captain... "Certainly," said the captain with a broad grin... "Then I would like to say that you and I are two of the biggest liars in the whole army. I have no wife," said Doc... "I thought as much," the captain replied...

Principal T. C. Williams says teachers get some queer results when they ask for essays on various subjects... Here is one from a little girl on men... "Men are what women marry. They drink, smoke and swear but don't go to church. Perhaps if they were bunnets they would. They are more logical than

women also more logical. Both men and women spring from monkeys but women spring farther than the man."

Here is one on the editor... A prominent citizen was attacked by appendicitis. The local editor hearing of it just before press time inserted the following hurriedly written note: "Our esteemed fellow townsmen Blank Smith, will be operated on today by Dr. Blank for appendicitis. He will leave a wife and five children... No, of course it wasn't any of our doctors."

Little Jack Leath's mother had told him it seems that after the ladies of the Baptist Circle who were to meet with her Tuesday afternoon, had gone home she would take him to town... Jack was very busy helping serve after the lesson hour and in their custom, and then Mrs. Leath proved such a charming hostess that the ladies lingered...

Little Jack became restless... he went out of doors and looked the weather over... he came in and said it was getting pretty cold... finally announcing that he believed a big rain was going to come... and still the ladies stayed and chatted on... Becoming desperate about the matter, he finally blurted out: "You ladies go on home, we are going to town..."

'Bank Night' Ruling Effects Two Shows

CENTER, Jan. 11 (AP)—The Texas Supreme Court's ruling upon "bank night" in Texas theaters has affected at least two theaters at Center, will discontinue the practice, Manager George Smith has announced. "The Supreme Court, in effect, ruled it illegal and we do not want to do anything—that will later be held unlawful," Smith said.

Eight Fights To Be Staged Tonight

By TOMMY LA MORE With prospects of going to the district finals at Brownwood, Cisco amateurs are expected to stage eight of the fastest and most furious fights seen so far in the Golden Glove tournament. Winners tonight will be given an opportunity to enter the finals here, which will decide those to make the trip to Brownwood. Fights from the lightweight division to the heavyweight division will take place. Two basketball games between the Cisco Lobos and the Cross Plains Buffaloes will be staged. Admission for the program is 15 and 25 cents.

HIGH SCHOOL NEWS ITEMS

By TOMMY LA MORE At the regular chapel period this morning the student body enjoyed a magic program put on by Moreno the magician. Over a hundred tricks were performed by Moreno with the students finding much in the entertainment to hold their interest.

BASKETBALL SUITS New basketball suits have arrived for the basketball team and have been put in use for the games to date with Cross Plains. These suits were badly needed as the old suits were nearly worn out by several seasons of hard play.

Master Tom Pollard, Jr., of Tyler will be King of the Gavelston Mardi Gras celebration Feb. 5-9 by appointment of Gov. James C. Allred. Miss Adella Upchurch of Austin will be queen. Pollard is son of former State Senator Tom Pollard.

BEST MAN IS 92 ROCHESTER, N. Y. (AP)—No-body questioned Louis Friedman's right to serve as best man at the wedding of his granddaughter, Ruth Friedman, and Paul Baskin, Friedman is hale and hearty at 92. Mrs. Friedman 89, was matron of honor. The Friedmans were married 49 years ago in Russia.

The HOLIDAY MYSTERY

By IDA R. GLEASON

CHAPTER XXV DAYLIGHT was just tingling the mesa when Coroner Snelling and Sheriff Buckley arrived at the hacienda. Immediately the household came under the jurisdiction of the law. Tangle Joseph's death was due to apoplexy, the coroner said, brought on by some unusual excitement—probably her nephew's death. The confessed murderer lay where he himself had fallen, a victim of the sword knife, and when they went to the Indian's room to accuse him of the crime, they found that he, too, was dead. Of a heart attack, the coroner decided again. Pearl John said that the reason for the murder of his elder brother had been robbery, and there had been witnesses present when Ramon had confessed that. After a great deal of interviewing of everyone in the house, and taking copious notes on the case, the officers departed, giving permission for all concerned to leave the mesa if they reported in Santa Fe for the inquest. "I thought Ramon loved her," she said simply as though that was explanation enough for anything. Betty ran to her and impulsively grasped her arm. "It came out all right, Angelique," she said. "I forgive you. I wasn't hurt." Angelique shook her head. "It can never be anything but wrong for me to have signed that way. I'll not know a moment's peace on this earth as long as I have seen a thing on my soul. I didn't hurt you, Betty, but I hoped you would die when I pushed you through that doorway. I was mad with jealousy and I would gladly have strangled you with my own hands if it would have made Ramon mine alone." "But there will be other men, Angelique," Bob began, then he paused and looked at Betty. He knew very well that there could be no one else for him. De Forest took Angelique's arm and gently led her away. Now that the mystery of the mesa had been explained, he was again the thoughtful, kindly boy he had been on Christmas Eve. How long ago that gay party seemed now, and what tremendous changes had taken place since that Christmas

West Texas Utilities Tell About Cooking

ABILENE, Jan. 13. — West Texas women will have an opportunity to tell the world about their cooking during a series of broadcasts over Abilene and San Angelo radio stations, sponsored by the West Texas Utilities company, beginning Thursday morning, January 14, it was announced today.

The series, titled "Your Electric Servant" program, will feature Ber-

to bake a cake that pleased your family most." Miss Hawkins said. "An attractive and valuable electric appliance will be awarded weekly thereafter," she announced.

nic Huddleston, Abilene soprano, and Eudora Hawkins, Home Economist, for the West Texas Utilities company. The program will go on the air at 9:15 a. m. over station KRBC, Abilene, and will be reproduced at 9:30 a. m. over station KGKL, San Angelo. Prizes will be given for the best recipe sent in by listeners. An electric clock will be awarded January 28 for the winning recipe on "How

BOY OVERTAKES PENDULUM
HERRINGTON, Kan. (UP) — Evincing curiosity as to the number of times the pendulum on a jewelry store clock had swung in the last 40 years, Charles Pearson, 10, was told that he would get a watch if he figured it out. The boy submitted the figure 1,262,394,499. He got the watch.

VOICE STANDARD LACKING
BERKELEY, Cal. (UP) — The United States is the only country in the world that hasn't a voice standard, according to Mrs. Guy S. Farrington, public speaking instructor of the University of California. There is no way, she declares, of telling a school graduate from a ditch digger by his voice.

Unemployment Compensation in Texas

Editor's Note—Following are questions and answers prepared by R. B. Anderson, chairman-director of the Texas Unemployment Compensation Commission, which is an interpretation in simplified terms of the various provisions of the recently-enacted Texas Unemployment Compensation Act. Further questions and answers in this series will appear from time to time.

How Do I Apply for Benefits

Q 14: "Just how will I go about filling my application for benefits?"
A. First your employer will post a notice of the commission which will tell you how to file your application. When you have filed your application or claim according to these instructions, it will be referred to an agent of the commission. He will examine your claim immediately and decide whether you are entitled to benefits. If he finds that you are entitled to benefits, then he will set the time for the benefits to begin and the amount you will receive. If you are not satisfied with his decision—then you may appeal either to an "appeal tribunal" which will be set up in your territory or to the commission. The appeal tribunal will be composed of three men—one a labor man, one representing the employer, and one an agent of the commission. The decisions of this tribunal may be reviewed by the commission, and the decision of the commission may be appealed to the courts. It is interesting to note that you may file your court appeal in the courts of your own county. Usually all suits against state agencies must be filed in Austin. Thus, you see, a man is given every chance to get a square deal. The commission agent who first examines and decides on your claim will be called a deputy. The agent who sits on the appeals tribunal will be called an examiner.

What is a Public Employment Agency?

Q 15: "In a previous article you said that I must sign up for work at an employment agency. Will any agency do?"
A. No. You must sign up at a public employment office named by the Un-employment Compensation Commission. Free employment offices and branches will be maintained for this purpose. While there will be no need for these offices under the Act until we start paying benefits in 1938, the Texas State Employment Service already established, will form the basis for the organization. This service, which has been operating for many months in several Texas cities, will be expended to the extent necessary. The commission also has the power to cooperate with county and city officials in maintaining any agencies it thinks necessary. In any event, an agency will be available for all workers, as we have already said, your employer will post in a conspicuous place the regulations and the procedure you must follow to apply for benefits.

If you have any questions concern-

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled. Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

ONE OUT OF EVERY FOUR ADULTS HAS -

Only a Cold... but serious disease may follow!

Sinus Disease

According to leading doctors, "sinus trouble is one of the most prevalent and troublesome diseases of today. This dreaded and sometimes fatal disease is caused by and follows the COMMON COLD."

All kinds of serious complications besides sinus infection follow the common cold. America's Public Health Enemy Number One, THE COMMON COLD GERM, relentlessly wages its attack to pave the way for such serious illnesses as bronchitis, pneumonia, tuberculosis, and other serious health-wrecking diseases. Frequently cold infection extends into the ear or mastoid.

During the common cold months, or winter season, it is especially important to take every precaution to protect your health. Quick changes of temperature should be avoided. Sudden changes of temperature, such as occur when going from a warm room into a cold one, makes it easy for you to "catch cold." Don't give a common cold an even break. Prevention is the best remedy. However, if you should catch cold, consult your family doctor before it has an opportunity to undermine your health.

For your health's sake, and to obtain the greatest value from the fuel you use, heat your entire house and provide adequate ventilation during the short winter season.

... Community Natural Gas Co.

The common cold germ is responsible for more than two hundred million illnesses each year.

THE CAR THAT WILL BALANCE MANY A BUDGET IN 1937-

The New Thrifty '60' FORD V8

CLASSIFIED

HERE'S something new—a car that is built with today's most spacious, and stylish, and a WHOLE lot more!

The 46 h.p. V-8 engine has the same design, same quality of materials and precision manufacture which have made the 35 horsepower Ford V-8 engine famous the world around.

Furthermore, this "Thrifty '60" Ford V-8 has exactly the same sturdy body as the more expensive Ford, of the same "117" class.

And when you drive it—notice how smoothly and surely it accelerates! Not the usual of course, but a real performer!

And when it comes to delivering more miles per gallon of gas and quart of oil, this "Thrifty '60" stands alone in Ford history.

See this car today. It sets an entirely new standard of economy in modern motor car operation.

YOUR FORD DEALER

800 a month, after small down payment, down any model "60" or "60" Ford V-8 from any Ford Dealer. Ask your Ford Dealer about the new payment plan of the National Credit Company—the Authorized Ford Finance Plan.

WHO PAYS FOR TEXAS HIGHWAYS?

FOR TEXAS HIGHWAYS

Texas taxpayers, to date, have cost Texas taxpayers approximately seven hundred and fifty million dollars.

License fees from motor vehicles have contributed \$220,000,000.

Gasoline taxes have accounted for \$170,000,000.

Federal aid has donated \$91,000,000.

YOUR PROPERTY TAXES HAVE CONTRIBUTED \$220,000,000—MORE THAN ONE-THIRD OF THE TOTAL.

Large trucks—those weighing more than 8000 pounds loaded—have paid a total of \$27,000,000 in license fees and gasoline taxes, or 5 1/2 per cent of the total cost.

Let these trucks have been responsible for an additional cost of construction and maintenance amounting to approximately 51 per cent of the total—on account for an excess of their contribution. These extra trucks result in 25 per cent increase in pavement costs.

Their bigger loads have required thicker pavements, costing from 25 to 50 per cent more; their size has made viaducts and heavier bridges necessary; maintenance costs have increased through their use and abuse of the highways.

Such extra expenditures are almost solely for the benefit of the big trucks and are not necessary for the smaller trucks and passenger cars. YET THEIR COST IS BORNE BY THE OWNERS OF PASSENGER CARS AND SMALL TRUCKS AND BY THE GENERAL TAXPAYER, WHO MAY NOT EVEN OWN A CAR, WHILE THE BIG TRUCKS THEMSELVES HAVE PAID ONLY 5 1/2 PER CENT.

Any increase in present truck load size or speed limits will further increase the highway costs which all of us, the people of Texas, must pay.

Texas railroads provide and maintain their own rights-of-way, afford employment to 50,000 men and women who are also taxpayers; pay large taxes in support of city, county, state and federal governments; and, in addition, pay annually more than \$900,000 toward state highway costs. The interest of the railroads in highway reputation is precisely parallel to that of the public.
