per cent reduction on her fire rate which added to the 10 per cent received in 1936, gives a reduction of 15 per cent all told

A few years ago Cisco was penalized 15 per cent on account of her numerous fires, many of which it was thought might have been prevented. Fire Marshall Gustafson, says 85 per cent of our fires are the result of carelessness hence by cooperation on the part of the citizenship, this rate may be still further reduced to the maximum credit of 25 per cent, and Cisco property owners may save many dollars or their fire insurance premiums.

#### 'Safe Driving' Say Cisco Boy Scouts

By TOMMY LA MORE Large signs with Slow School, and Thank You, on their sides have been made and given to the Boy Scouts who are patrolling Eighth street in the mornings, at noon and afternoons helping the school students to and from school crossing this busy street.

These signs are furnished by the officials of the city of Cisco, who are aiding the scouts in making traffic safe here. The flags first used by the scouts in patrolling the streets were not sufficent in letting the motorist know what they meant. so the new sighs will be put in to use. nO Saturdays the scouts will asthe local officers in handling the heavy Saturday traffic and scout court will be held in the city hall with A. G. Bardwell as judge, Many people have commented on the good that this service is doing in helping to make driving safer.

#### Scouters Will Hold Court of Honor Here

Eugene Langford is president of Comanche Trail, which covers eight year-old industry of acid treating counties, will be able to attend this occasion.

Merit applications will be received by the court to be approved or re-jected. Classification badges will also be given to scouts who are entitled to them and some will rekind and will receive the Acorn

Pie will be served to scouts and these present by mothers of the scouters. A good program is assured all those who attend.

# Health Officer

forth by the United States Public Health service and the State Department of Health, to arrest as far as possible the alarming condition of Venereal diseases, as city health officer, I will take and have examined blood from all those who are wholly unable to pay for same. This does not include treatment as the department of health does not furnish free medicine for treatment of the disease.

W P. LEE, City Health Officer.

## THIS CURIOUS WORLD By William Ferguson OPOSSUMS, THE MOTHER CARRIES THE YOUNG ON HER BACK, WITH THEIR TAILS CURLED AROUND HERS, FOR SUPPORT. THERIDIUM SPIDER.

SPIDERS of the tropics fashion many ingenious webs for protection against marauding ants. The tiny cocoon of the theridium spider hangs between two forest leaves, with plenty of room to allow for swaying in the wind. Inside the cocoon, the spider raises its young.

# U.S. Senator Gerald P. Nye says "I enjoy the comfort a light smoke gives my throat

"I have smoked Luckies off and on ever since my first term in the Senate 11 years ago, and I have always enjoyed their taste and the feeling of comfort and safety a light smoke gives my throat. I have done a great deal of public speaking, on the floor of the Senate, over the radio and at conferences. Necessarily this results in a strain on the voice. So naturally, in smoking, I have to think of my throat-and I have found that a light smoke is suitable to my throat."

U. S. SENATOR FROM NORTH DAKOTA

In a recent independent survey, an overwhelming majority of lawyers, doctors, lecturers, scientists, etc., who said they smoked cigarettes, expressed their personal preference for a light smoke.

Senator Nye's statement verifies the wisdom of this preference and so do leading artists of radio, stage, screen and opera, whose voices are their fortunes, and who choose Luckies, a light smoke. You, too, can have the throat protection of Luckies-a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on your throat.

DEATH, in the guise of heavily loaded motor trucks, rides the highways of Texas every day and every night. The toll of human death and injury of those vehicles is appalling

In the five-year period, 1932 to 1935, inclusive, trucks in Texas have participated in 8,416 highway accidents in which 2,195 persons were killed and 11,962 injured. In 1936 alone, their record stood 2,208 accidents with 3,323 persons injured and 576 killed. These actual records of people killed, as shown by Texas newspapers, compared with the number of deaths resulting from all motor vehicle accidents, as given by the Bureau of Vital Statistics in Austin, show that the average Texas truck participates in twice as many fatal accidents as the average passenger car.

Likewise, as might be reasonably expected from their greater weight and size, and as shown by the records of the Texas Railroad Commission, the Carrier-for-Hire truck accidents, during 1936, have resulted, vehicle for vehicle, in three times the number of fatalities as for the average passenger car.

Increased liability to highway accident forms an inseparable result of BIG truck operation. But even now, the threat of greater highway hazards hangs over the people of Texas. Newspapers report that operators of BIG trucks have organized for the purpose of securing an increase in weight and speed limits, already too large. These are the elements, weight and speed, which, in highway accidents, spell "D-E-A-T-H."

The right to grant, condition or deny the use of the highways for profit, belongs to you, the people of Texas, notwithstanding the attempts of the operators of BIG trucks to take it away and give it to the federal government instead. Your present laws, limiting the size, weight and speed of trucks, were enacted by reason of your insistence, and by your intended they have remained on the statute books. Their amendment would serve the sole purpose of increasing the profits of operators of the BIG treeks, with a certain results of also increasing the mounting injuries, deaths and property losses now taking place on your highways.

Public welfare and public safety demand that existing highway regulations shall be retained and enforced.

Copyright 1937, LIGGETT & MYERS TORACCO CO.

ed, each, to represent the four foods classes and then a ballot was taken to select one from this number to represent the department as whole, Miss Tipton being the choice, as many expressed it, on ac-

count of her winning personality. Other qualifications in this fourfold life, observed and graded by students were, Sportmanship, Cheerfulness, Sense of Humor and

Good Citizenship
Miss Greves thinks that the
rounded life of her girls has been placed on a higher plane on account of this contest and the constant thought in mind of becoming the embodyment of the ideal person before her classmates, While Miss Tipton is voted the leadership, the other girls are no less honored and like the little boy, Ernest, in the story of the Great Stone Face, constant hivng an ideal makes one in-deed favor and become like that in the other three graces.

## R. D. GREEN OF ABILENE DIES **HEART ATTACK**

ABILENE, Feb. 16 .- R. D. Green. superintendent of Abilene schools, died unexpectedly last night. He succumbed to a heart attack two days after he had been reelected to serve another year in the position which he has held since

veteran school man died about 11:30 o'clock at his home. He had suffered two heart attacks in the past year, the first in Fort Worth while he was attending a convention of the Texas State Teachers association, of which he was a former president, and the second as he walked on Cypress street near the Wooten hotel a few months ago. He apparently had

recuperated completely. Mr. Green, with members of his family, had returned at 9 o'clock from a week-end visit in Austin with a son, W. M. Green. He went to bed. and at about 11

o'clock he rang for Mrs. Green, complaining of feeling ill. Death came a few minutes later. with Mrs. Green, her aunt, Miss Ida Bright, and Mrs. A. B. Ruff of Los Angeles, a daughter of the Greens, at the bedside. at the bedside.

"I'm gone. Goodby to all of you" he was able to say before dying.

A son, R. D., Jr., Dr. and Mrs. W. J. Mathews arrived home within a few minutes. Nu-merous friends, members of the Abilene school board, and teachers in the city schools, also were at the home after midnight to express condolences.

condolences.

Another son, Norval of Pickwick Dam, Tenn., another daughter, Miss Lottie Roe Green, a teacher in the Fort Worth schools, and three grandchildren, Nancy and Janice Green, and Billy Ruff, survive.

Mr. Green was 62 years old. Born at Elizabethtown, near Roanoke in Denton county, Nov. 21, 1874, he had spent all of his life since reaching maturity as an educator. He came to Abilene twenty years ago from Cisco, where he had been city school superintendent. Prior to that time he had been Midland county superintendent, and Callahan ccunty superintendent, and earlier had taught at several places. had taught at several places.

In 1927, he was president of the Texas State Teachers association, elected at the annual convention at El Paso, in November, 1926.

He was a member of the Mc-Murry college board of directors, and had received an honorary de-

gree from McMurry. He was a member of the Methodist

# THE 25 millionth has just been built

Henry Ford and Edsel Ford

IT HAS never occurred before in automobile history that 25 million cars of one make, bearing one name, have been manufactured under one management. The 25,000,000th Ford car rolled off the Ford Rouge Plant production line on January 18, 1937.

25 million cars since 1903 . . . more than one-third of all the cars ever built . . . enough cars to transport the entire population of the United States.

The figures represent a remarkable contribution to the social welfare, the industrial stability and the general progress of our country.

People respect Ford efficiency. They know Ford uses fine materials, the best workmanship at good wages, the most exact precision measurements. They know these things are passed along to purchasers in the form of extra value.

Naturally, they like to do business with such a company. That's why it has been required to produce 25 million cars.

Naturally, too, they expect more of a Ford car, more this year than last year-more each year than the year before. They have every right to.

The experience gained in building 25,000,000 cars enables Ford to produce really low price-with the beauty, comfort, safety and performance (Ford

The 1937 Ford V-8 combines advanced design, all-steel construction, extra body room, and brilliant brakes with a choice of two V-type 8-cylinder engines-the most modern type of power-plant.

The 85-horsepower engine provides top performance with unusually good economy for its high power.

The 60-horsepower engine gives good performance with the greatest gasoline mileage ever built into a Ford carat the lowest Ford prices in years.

People expect more of a Ford car ecause it's a Ford-and they get is undeniably THE QUALITY CAR
