SHOWERS FALL OVER MOST OF TEXAS

PLANTERS OF COTTON, CORN BENEFITTED

Thunder showers soaked pastures and farm lands over most of Texas Thursday. The moisture was particularly welcome to cotton and corn planters of south Texas where plowing already has begun for spring seeding. Preceding the rain a dust cloud driven by a 25 mile north wind, swirled over the Panhandle Wednesday night. Visibility was reduced to three blocks in Amarillo. The atmosphere was clearing there however, and cloudiness gave the prospect of rain. Showers brought 22 of an inch or rain at Lubbock, 84 at Wichita Falls; 52 at Dallas; 18 at Palestine; 112 at Austin; 93 at San Antonio; 91 at Corpus Christi, and 22 at Fort Arthur. Light showers were reported at El Paso, Del Rio, Galveston and Houston. Fort Worth had received an inch of rain by midmorning and intermittent heavy showers continued.

Dissension in Union Ranks Grows Wider

LEWIS' C. I. O. IS DEFIANT OF GREEN ORDER

The split between the militant Committee for Industrial Organization and the more conservative American Federation of Labor became wider today while the CIO began unionization drives on new fronts. President William Green of the A. F. of L. demanded that all state federations and city labor councils operating under the A. F. of L. withhold support of affiliates of the CIO under leadership of John L. Lewis. The A. F. of L. has suspended the ten unions. High officials of the CIO declared that Green's actions "mean a final breaking off of all ties." The CIO, having won a contract in behalf of its members employed by the U. S. Steel Corporation, was more concerned with its own plans for extending its victories. An organization drive in the southern textile industry organization in the ship and oil industries, and a contract with the General Electric company were among its objectives. The CIO drive and its dispute with the A. F. of L. overshadowed other labor developments. A sit-down strike by the night shift in the Briggs Manufacturing company, makers of bodies for Ford cars was ended when the company agreed to confer with the union. This strike was no sooner settled than production was stopped by sit-downs in four Detroit plants of the Bohn Aluminum company. In Rhode Island Governor Robert Quinn served notice that he would elevate no further violence in a statewide strike of truckmen. Accusations against the Electric Boat company of Groton, Conn., were filed by the CIO which has called a strike in that submarine building plant.

Skiles Awarded Court Judgment

Verdict of \$1,298.57 from J. M. Skiles was ordered Wednesday by district court in favor of Asa Skiles. The judgment for Skiles allows to include interest and costs. Skiles says it with sugar. Skiles, a local chef, has just introduced a note into the island custom of serving American visitors with sweets. Despite the wealth of local sweets, he makes his of sugar.

Judge in U. S. Power Hearing

To one of the youngest on the federal bench, 43-year-old Judge Lyles Glenn, above, a Democrat of Chester, S. C., has fallen the lot of deciding on two important New Deal issues involving federal financing of power centers which, it is alleged, would compete with private companies. The cases are based on the \$400,000 Buzzards Roost and Santee-Cooper projects in South Carolina. The Buzzards Roost case, once before the supreme court, was remanded because of improper procedure in lower courts.

BEARDED MAN CHARGED IN MURDER CASE

LUBBOCK, March 4 (U.P.)—A bearded man who gave his age as 32, was held here today awaiting the arrival of officers to return him to Lee county, Virginia, where Sheriff Tom Abel of Lubbock said the aged man was charged with the murder of a deputy sheriff and policeman in 1935. Sheriff Abel said the man had been identified as Green Allen Brooks, although he denied knowledge of the Virginia slaying.

Magic Program to Mystify Audience

King Felton is to drive down Main street blindfolded this afternoon, at 4:30, in a Studebaker furnished by Edward Lee, advertising the band parents club entertainment at the high school auditorium Friday night at 7:30, which is being staged for the purpose of providing funds with which to buy instruments. The program is to consist of 30 numbers, according to Mrs. Robt. Maddox. Entertainment will consist of songs, dances, and magic. The program of magic will consist of such numbers as changing confetti to pigeons, produce ducks from bows, a cage of birds made to vanish, bringing a dead mummy to life, lighted candles to disappear on the stage and reappear lighted in the audience and spirit bells to ring. Admission is 10 cents and 25 cents. Those desiring special orders of cakes or pies for the bake sale at the Cisco Gas Corporation Saturday should call Mr. D. Ball, it is announced.

Officials extended an invitation to the public to attend. DINNER BIG EVENT EAST HARWICH, Mass. (U.P.)—When Selectman Charles D. Homes' family comes to dinner, he must extend the dining table considerably. At a recent gathering there were his own 13 children and 29 other descendants.

SENATE GETS RACE REPEAL BILL TODAY

AUSTIN, March 4 (U.P.)—The Senate voted 20 to 8 this afternoon to repeal the present racing act. The same vote was cast on a motion to suspend the rules and pass the bill finally. Twenty-one votes were needed to do so. After final passage by the senate, the bill will have to go back to house for conference in amendments. As the House previously has voted for a similar bill there is no doubt of the outcome. Governor Allred is an outspoken opponent of race betting and undoubtedly will sign any bill passing both houses.

COMMITTEE TO INSIST VOTERS BE PROTECTED

WASHINGTON, March 4 (U.P.)—The senate's campaign expenditures committee recommended today that congress enact legislation protecting voters from "fear, intimidation and coercion." A grand total of \$23,973,330 was spent in the 1936 national election, the committee reported. It estimated that the republican expenditures for presidential votes cast averaged 85 cents compared with the democratic cost per vote of 33 cents. The socialist vote cost 20 cents and the communist \$3.37.

School Children Enumeration Begun

Enumeration of school children in Eastland has begun by H. A. Collins, employed for the annual task by the school board. It has been pointed out enrollment of children who will be six and under 18, inclusive, September 1, 1937, means \$19 to the schools next year.

Claims Opponents Paying for Protest

WASHINGTON, March 4 (U.P.)—Senator M. M. Logan, of Kentucky presented to the senate today a charge that opponent of President Roosevelt judiciary were offering to pay for telegrams of protests to congress against the plans.

MOTHER OF 16, BRIDE AT 13, DEFENDS MARRIAGE FOR GIRLS IN EARLY TEENS

SANTA CLARA, Cal., March 4 (U.P.)—Recent marriages of very young brides have caused Mrs. Joseph Rabello of this city to speak out. Mrs. Rabello, married at the age of 13, and the mother of 21 children 16 of whom are living, and the most of whom married early, favored early marriages. Mrs. Rabello's marriage has lasted 36 years and she says she has nothing to regret about it. Her children range from 35 to 11 and most of the surviving ones have followed in her footsteps as to early marriage. One of her daughters married at 13 and has two children now. Another married when 14 and has children, as have others who married when 15 and 16. "Of course, I don't approve of anything like the 9-year-old Tennessee girl getting married. I don't think that should be allowed. But a girl of 13 or 14—that's different. If she wants to get married and she and the boy are healthy, why let them go ahead. I was married young and never regretted it. "I was the mother of seven children, including one set of twins, before I was 20," Mrs. Rabello declared proudly. As to the economic aspect of the problem, Mrs. Rabello said it was not so difficult as economic experts argued. Rabello is a prune-picking contractor and trimmer and, while even California prunes do not grow the whole year around, he makes ends meet. "In winter sometimes, things are difficult," she admitted, "but we always manage somehow." Of the 16 surviving children, six are boys and 10 are girls. The oldest is Mrs. Teresa Napolitano, aged 35, and the youngest is Aloysius, 11. All were born in Santa Clara. One of her daughters, Mrs. Viola Costa, married at 14, now has two children, 2 and 1 year old. The daughter who married at 13, and is 17 now, has two children. Mrs. Marie Rose, another daughter, married when 15. She has two children. Her oldest daughter, Mrs. Napolitano, was a 16-year-old bride. The boys in her family married young too, most of them in their teens. "The main thing in a successful marriage," Mrs. Rabello declared, "is for both man and wife to be healthy. Then they can take care of anything that happens and their children will be healthy. I think when young people in their teens fall in love and want to get married, they should be allowed to do so and that no one should interfere."

PRESIDENT'S SPEECH TO BE HEARD AT 9:30

WASHINGTON, March 4 (U.P.)—President Roosevelt will address hundreds of democratic dinners and indirectly the nation tonight. He is expected to disclose the administration's first move in the campaign to enlarge the supreme court. His address was not expected to deal directly with the court's issue, however. Leaders on both sides admitted that the dispute was virtually at a stalemate at present. The president will dine with high chiefs of the democratic party at a \$100-a-plate victory banquet. He will broadcast tonight over nationwide hookup, at 9:30 until 10.

TWO CASES DISMISSED

Case of Odell Bailey against Jefferson Standard Life Insurance Co., was dismissed Wednesday by 88th district court at the cost of the plaintiff. Another dismissal the same day was the suit of Cisco Mortgage Loan company against Burton Hartley. Costs in that case also were against the plaintiff.

STEPHENVILLE, March 4 (U.P.)—Members of a John Tarleton agricultural college group were recovering today from injuries suffered yesterday when their automobile overturned near Cisco. The group was enroute to Cisco to present a musical program. A service station attendant drove them to Cisco where they gave their performance. Most seriously injured was Miss Elizabeth Herridon, publicity director, who suffered a broken rib.

RAIN FALLS IN CISCO COUNTRY AIDS PLANTING

Rains which appears to have been general over West Texas and which had been drenching other parts of North and East Texas during the earlier part of the week, fell in Cisco last night accompanied by heavy thunder rumbles that shook windows and disturbed light sleepers during the early morning hours. The city hall gauge showed 1.1 inches this morning. J. W. Copps, manager of the West Texas Produce company, said the rain would be worth several thousands of dollars to them from the standpoint of plants and seed that would have been a complete loss had the rain not fallen, at this time. Planters were not buying and merchants would not buy because planting conditions were not right on account of the drought. About Our Friends

By STEPHEN A. LONG
Nature has a sense of humor. Nature does funny things. At nature's humor is rather perhaps ironical. Nature seems to have a liking for things possibly after all we say that nature is more mischievous than humorous. More of a prankish school boy than a

fact, nature often behaves like a practical joker. She produces and then a four-legged chicken and a two-headed calf to make one oh and ah. She gives couples twins so much alike that their own mother cannot tell them apart except when she puts her finger into Mike's mouth and tastes her finger she knows then Daniel and not Mike at all. He never behaves that way. He serves the funny looking legs faces nature has put on some of her creatures. Some of nature's creations—out-cartoon the cartoonist. The monkey, the elephant, the duck, the opossum, the crab is a litmus test, so is the catfish. Fishes are comical, and ducks are so if you observe them closely.

Nature shot a bolt of lightning at a man named Henderson who was in Kentucky. He was wearing a pair of his shoes and burned the seat of his pants without knowing it. Henderson in the least thought a Kansas farmer and his wife were awakened by rain beating their faces. They got up to discover that one of nature's torments had nearly whisked their heads from over their heads and deposited it in a neighboring corn field. Nature will catch an unsuspecting boatman and blow his boat out to sea. And after she scared him almost to death with the wind and let him row back.

Confesses to Killing High School Girl

CHARMOND, Va., March 4 (U.P.)—G. Miller, married middle-aged dentist, confessed to Sheriff today that he killed Cleo, high school honor student, placed her body in the historic quarry at the University of Virginia, Charlottesville. Dr. Miller said that the girl died from an overdose of chloroform during an operation. The dentist, said, denied that he was responsible for her condition but to perform the operation as Miller admitted, Smith said, the operation was attempted on a road near Charlottesville in a automobile which he had borrowed. Smith said Dr. Miller waited after dark, and then brought the girl's body back to the city and buried it near the cemetery. Miller who had been the family dentist, for more than 20 years, told the sheriff of the killing while enroute here by automobile.

What's News Today

Good old spring rain that really wets. Soaking the farms and gardens of Cisco county and other parts of the state. West Texas blooms like the rose when plenty of moisture abounds. Grain will flourish and planting will begin where it has not already started. It will soon be corn planting time and it is already time for potatoes and most garden plants. Yes, spring will be ready for Easter and trees will soon be swelling their buds.

And Mr. Lewis and his laborites are rejoicing over victories won and see visions of more on ahead. The dinner pail can fill up a little more as wages increase. Immense gains are claimed by union labor and the sit-down strike and stand-up strikers are encouraged to make further demands. The danger is always when the successful man or organization, flushed with victories, loses his balance and begins to make unreasonable demands, and thus loses the sympathy of his supporters. Let's hope this extreme wont occur.

The president is supposed to deliver a telling blow to enemies of supreme court reorganization tonight when he speaks at a Victory dinner.

Meanwhile, Roosevelt holds a conference with Garner, Bankhead, Robinson and Rayburn. These men are good advisors and the president has used good judgment all along in seeking the best advice obtainable in all matters where he has taken unusual drastic steps into the unknown.

Dam work on the Colorado and Brazos rivers go forward. Six utilities have enjoined continuation of work looking to the sale of power by the government saying that it would destroy their business but the court order has been changed to allow for work to continue in Palo Pinto county and other structures that are direct in flood control in the upper reaches of these rivers.

Pittman's neutrality bill sweeps through the United States senate and continues the power of the president to prevent men and goods to be carried to belligerent nations and to outlaw goods so carried under certain conditions.

Senator Lee of Oklahoma, a World War veteran stirs the senate with his plea to remember those who cannot speak today and not to weigh gold against blood.

The six who voted against the measure were old men; those for it were mostly young men.

BEGIN HERE TODAY

DAPHNE BRETT, good-looking, successful young New York advertising executive, rents the Connecticut estate her father left her when he died. LARRY SMITH, attractive architect, and promptly becomes interested in her when she breaks the challenge to get a bit more from life than a career.

But Daphne is under the impression that Larry Smith is married. Returning to her apartment one night Jennifer breaks the news that Mr. Smith had called, visited, and had invited her to meet him at the club. Jennifer can't do that since Larry is married, whereupon Jennifer reveals that he is not married.

NOW GO ON WITH THE STORY

CHAPTER VII

LARRY SMITH wasn't married! He lived at Brett Hall with his mother and his aunt.

Daphne said, "Let's have frog's legs for dinner and something gala for a sweet."

"Not for me. My figure means too much," Jennifer answered promptly and stretched her lithe form full-length on the lounge.

"Why the sudden celebration?" Daphne couldn't tell her that she was suddenly light and gay inside her—lighter and gayer than she had been these last two months. She couldn't say that it made her happy to know that Larry Smith wasn't married. She took her happiness into the kitchen and rattled her pans and plates noisily.

Not that she was in love with Larry Smith—

She dismissed the thought instantly as being ridiculous. And admitted that she was the first man in her life that she had wanted to know, wanted to make her friend. The first man to whom she had been instantly attracted. The first man she had ever known so briefly and never been able to forget. Even Anne had sensed that.

"How was the job today?" she said to Jennifer when they were seated at the candle-lit table. Usually she avoided the subject since Jennifer could be so explosively unhappy about it. Tonight her sense of well-being spread to tolerance even of that unpleasantness.

"Lovely," Jennifer said coacely

"Darling, why don't you attack it from a different point of view? You wanted to work in Wall Street and you're working there. There must be something good about it. I know that you're not used to being cooped up but that's what goes with a job like that. When you get to like it, it doesn't seem confining. What, exactly, is the trouble?"

"Men," Jennifer said. "The wrong ones. There are some awfully attractive boys in the outfit but I never even get a chance to meet them. Then old Harrison asks me to lunch and today he wanted to know if he could have a date with me on Friday night. You can imagine what I said!"

"I can," replied Daphne. "Of course, Harrison is 35, and that isn't the doddering age. And he does have social position. You might as well learn now as later, Jennifer, that the attractive boys you meet this way have girls in their own set."

"I'd like to know if you mean that I'm not good enough for them? The Bretts aren't exactly poor white trash."

"I know," Daphne went on patiently, "but we can't go around with a marked page 'B' of the social register pinned on our frocks. And we can't talk about it. New York is a hard town, Jennifer. The working girl here the same as anywhere else even if she does appear to have more chances. She has to work for them. You can't use a job as a social wedge. Not your kind of a job?"

"Why not?" Jennifer disagreed. "If I get a chance to meet the kind of men I want to meet, why can't I take advantage of the opportunity? If a chorus girl—"

"You're not a chorus girl, Jennifer."

"Not yet," Jennifer said, and seeing the shadow darken her sister's face, she got up, came around the table and kissed Daphne on the top of her head.

"You're like a naughty child," Daphne said, "and you'll have to be punished for frightening me. You can wash the dishes and I'll wipe them."

Jennifer splashed water merrily on her smart frock. "Don't bother about it, I can send it to the cleaners."

Daphne wanted to protest that every dollar—

"Why didn't you tell me how attractive the Brett tenant is?" Jennifer demanded and Daphne had no answer. She didn't—

"The trouble with you, Daph, is that you don't know how to make the best of your opportunities."

Daphne raised a quizzical eyebrow. Jennifer went on:

"I do! The one time you saw him, indeed! I saw him once and made up my mind I was going to see him again."

"There's a 9 o'clock train. You might run out and ask him if the water pipes are working," Daphne said dryly.

"No need for that. I'm subtle. I'll do it my way—the subtle way."

"It's a great help to be subtle," Daphne agreed pleasantly.

"It's three, Daph. Aren't you going to get dressed?"

Jennifer looked at the little wrist watch under her tweed sleeve.

"What are you going to do?" Daphne asked lazily.

"Tuck is coming around in his roadster. We thought we'd drive in the country."

The country, Daphne knew, meant Brett Hall.

"That must be Tuck now," she said when an imperious rap sounded at the door.

It was Tuck.

"Hello, kids. What's this? The demon worker Daphne in pajamas at this time of day?"

Daphne managed a look of appealing sweetness.

"Don't scold, Tuck. I'm feeling lazy and fuzzy and dreading going to a smoky party with a lot of old fogies."

Jennifer gave her a sharp glance.

"Then why go?" Tuck said at once as Daphne had intended he should. "Get into your clothes and come with us."

"Where are you going?" she asked innocently.

"Thought you knew. No place special. Jen wanted to drive up to Brett Hall to see the foliage."

"Well," Daphne answered over her shoulder as she disappeared into her bedroom, "since you're going no place special, I'd like to see the foliage myself. I'll be ready in a jiff."

Jennifer's angry eyes missed hers.

Bronc Champion to Defend His Title

FORT WORTH, March 4 — Pete Knight of Denver has returned to Fort Worth to defend his title as champion bronc rider of the world in the World Championship Rodeo which will be held at the Southwestern Exposition and Pat Stock Show, March 12 to 21. He won the crown here a year ago and has since won first at a number of other rodeos.

Verne Goodrick of Hollywood, Cal., who has never competed here but whose trick roping has been a sensation recently at other rodeos will enter the trick roping event in an attempt to take the title from Chester Byers of Fort Worth.

Homer Holcomb of Blackfoot, Idaho who will crown the rodeo, also has arrived in Fort Worth. He bought his educated mule, "Mac West."

United States Marshal J. R. Wright chairman of the downtown parade when will be held Friday afternoon, March 12, has invited cities to send bands to the annual event. Already eight bands have been placed on the list. Cities planning to send bands for the parade should notify the show at once.

There will be several sections in the parade including one in which all rodeo contestants and officials will take part. Another will be devoted to old time buggies, carriages, chuck wagons and stage coaches. Girls from the show's night and supper club, Rainbeau Garden, will ride in open auto.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquirers must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. Where is the West Texas State Teachers' College located; is it co-educational, and who is its president?

A. It is a co-educational school at Canyon, Texas; Dr. Joseph A. Hill, president.

Q. To how many counties in Texas State taxes are remitted?

A. State taxes are at present remitted to 41 Texas counties for various conservation purposes. This does not mean that taxpayers do not pay the regular State tax, but that all state ad valorem taxes collected in those counties are remitted to the counties to be used for specific projects within the counties. A bill is before the present legislature to remit state ad valorem taxes to all counties, to be used for any purpose not unconstitutional.

Q. An unsophisticated reader would like to know just what is meant by the "third house."

A. It is the lobby of special interests that attends all legislative sessions to use its influence in bringing about legislation favorable to its clients or in defeating legislation that may be unfavorable. The Texas "third house" is large in numbers, experienced in legislation, and influential and convincing in its methods. It is the first to greet legislators when they reach Austin, and last to say "good bye."

Q. Did the convention that assembled at Washington-on-the-Brazos March 3, 1836, have a flag?

A. One historian, John Henry Brown, says: Over the cabin in which the convention met, floated a flag with the design of a sinewy arm grasping a red sword, and by the side of this was a lone star flag.

What Texas town is nearer to six state capitals than to the capital of Texas?

Wife Dynamite Killer's Victim

Downcast eyes betrayed the emotions of Walter L. (Dusty) Rhodes, above, Iowa City, Ia., roadhouse operator, after he allegedly confessed killing his wife by having her fire a shotgun loaded with dynamite. Officials said Rhodes wanted to be free to wed a woman to whom he was financially indebted, and to collect insurance he had taken out on his wife.

HECKLES and His FRIENDS — By Blosser

MYRA NORTH, Special Nurse—By Thompson and Coll

About Our Friends—

CONTINUED FROM PAGE ONE
to set them down without injury... nature has been known to blow a prairie fire down to a settlement, then suddenly reverse the breeze and hold back the flames...
Nature had considerable fun once with Wallace, Idaho... A forest fire swept down on the town and when the people had given up all hope, the fire jumped completely over the town which lies in a deep hollow, and roared on without igniting a single building... perhaps nature likes to see human beings scurry about like a colony of ants disturbed... But probably one of the most delicate bits of humor that nature ever evinced occurred in the late twenties when in Tennessee... the state that has outlived evolution... a baby girl was born with a seven-inch tail...
And here is a novel use for honey... one of nature's chemical compounds that for centuries was the only source of sweetness... It has been suggested by the department of agriculture that honey makes an excellent anti-freeze mixture for automobile radiators... The idea has been tested and is said to work excellently... the stuff is mixed with water like alcohol, glycerine or other anti-freeze materials... a half-and-half mixture of honey and water is guaranteed to stand zero weather... a smaller proportion of honey will do for milder freezing temperatures...
And nature showed the bee how to manufacture this chemical from materials abounding in quantity close at hand, long before man thought of making sugar from the juices of cane or beet... Yes, nature is grand and wonderful and nature is just the hand of God working in immutable laws that are perfect and never failing... The science of chemistry and physics are only some of these never-failing laws that man has been allowed to discover... Electricity, one of the hidden secrets that is being revealed as man is able to comprehend its use and meaning... Radio... and no telling how many more powers more wonderful and valuable to man... perhaps we have just begun to learn.

Ohio Swamp Yields Molars of Monster

URBANA O. (U.P.)—Two molars of an Onchitic, prehistoric animal of the elephant family, have been found in a swamp near here.
Dr. Margaret B. Church, Urbana Junior College zoology instructor, who identified the fossilized teeth said the animal stood about 10 feet high at the shoulders and was about 20 feet long.
The teeth, 6 inches long and 3 inches in diameter probably will be sold at a museum. Efforts are being made to find other parts of the skeleton.

4-H Farm Accounting Prizes Total \$8,500
Cash prizes of \$5 to \$25 will be awarded 800 boys and girls making the best records in the 1937 National 4-H Farm Accounting Contest, announced the National committee on Boys and Girls Club work.
Five other contestants, whose record books score highest will receive merchandise prizes valued at \$100 to \$500.
Winners of the 805 prizes, which total \$8,500.00 will be selected by state and federal extension specialists. All private information in the records will be held confidential and the records returned to owners after judging.
Parents are urged to aid contestants whose work in the past three contests has shown how to cut costs and increase profits. Blank record books and rules and prize list can be obtained through local leaders or County Agent.

More Men by 2 to 1 in Texas Town
ALICE, Tex. (U.P.)—Alice, "The Sweetheart of the Southwest," is a man's town and no mistake.
Whether it is the propinquity of large oil fields, the climate or the presence of other industry that appeals to the sterner sex, men dominate the population of this small town.
C. H. Jackson, who has compiled city directories for many years, related that he has often found a town where the male population has outnumbered the female, but he has never found a community where the surplus of men has so completely overshadowed the women. Two to one is the ratio.
Jackson also found that the 2,191 families in the town average 3.6 persons each.

All of Neighbor Nations Coming To Fair in Texas

DALLAS, March 4. — Central American republics, closest neighbors to Texas, already have accepted almost unanimously invitations to take part in the Greater Texas and Pan-American Exposition opening at Dallas June 12.
Director General Frank L. McNeny received reports at the exposition offices in Dallas this week from two living emissaries as they completed their swing through Mexico and the six Central American republics, without a refusal at any point.
Mexico's formal acceptance is expected momentarily from President Cardenas, who was out of the capital at time of the visit of Dr. Roscoe R. Hill of Washington and Charles H. Abbott of the exposition staff. His cabinet members already have signified.

the fair will center in a huge theater casino, where a program that is designed to make all America talk will feature the stage, screen and opera performers of all communities, from Hudson Bay to the Pampas.

JOHNSON ASKED TO MEET CHAMP HOUSTON TIFF

By TOMMY LA MOR E
Waymon Johnson, bantamweight of Cisco, who won in the Brownwood finals during the recent golden gloves elimination matches to decide the state champion, received a letter today asking if he would participate in boxing matches between Brownwood and Houston winners.
Bruce Francis, sports editor of the Brownwood Bulletin, is sponsoring the movement in behalf of the paper he represents and stated in the letter the boys would be in Houston three days with all expenses paid.
During Johnson's recent boxing career he was engaged in eight amateur fights, winning six by knockouts and the remaining two by decisions. No opponent of the boxer has been able to stay the three scheduled rounds without being knocked to the floor at least twice. Due to a head cold Waymon was not able to represent the Brownwood district in Fort Worth, where he was supposed to make a strong threat in his class.

Ex-Grid Star Is Quins' Guardian

Affairs of the five most important babies in the world, the Dionne quins, hereafter will be under the supervision of Ontario's official guardian, Percy D. Wilson, above, former Canadian football star, who has just been appointed special guardian for the quintuplets. Wilson succeeds the Hon. David Croll, who said the quins' business dealings had become too heavy for him to handle with his duties as a cabinet minister. Wilson will serve with Judge J. A. Vallin, Oliva Dionne, the quins' father, and Dr. Allan H. Dafoe, who comprise the guardianship board.

THIS CURIOUS WORLD By William Ferguson

MAN HAS LEARNED MORE ABOUT THE EARTH ON WHICH HE LIVES BY STUDYING THE STARS THAN BY STUDYING THE EARTH ITSELF.

ESKIMOS DO NOT SWIM, ALTHOUGH THEY SPEND MOST OF THEIR LIVES NEAR WATER.

IT IS THE ADULT FEMALE "JIGGER" THAT PESTERS HUMAN BEINGS! THE YOUNG ARE NOT PARASITIC.

MAN knew little about his earth until he began to understand the stars and planets. Through his study of the heavenly bodies he became to know what part the earth plays in the universe. And from his study of the earth, he came to know more about the stars.

Trading Post Manager Abdicates

MOOSE, Wyo. (U.P.)—"Yankee Jack" Woodman, manager of the Flying V Trading Post here decided to "abdicate" and injected a new angle in the business of going out in an advertisement in a local newspaper, he explained that his customers "never have paid yet."
He posted a list of back accounts and offered them for sale at one cent on the dollar. In addition he offered for sale "a complete postoffice, except government equipment, with a fresh stock of stamps at New York prices."
"Yankee Jack" rounded out his announcement in conclusive style by adding: "To be purchaser of the post-office and these deadbeat accounts, we will donate one mayor's chair and one justice of peace gavel. We are abdicating."

ARE BONES FOUND IN THE ALAMO THOSE OF SLAIN TEXAS HEROES

AUSTIN, March 4.—"It is not only possible but very probable that the human bones found in the chancel of San Fernando cathedral in San Antonio last July were in part those of Colonel William Barrett Travis, Colonel David Crockett and Colonel James Bowie, while the remains found the past year on the site of the new federal building opposite the Alamo, are those of the 170 Texas heroes who died in defense of that historic shrine," declares S. Deane Wasson, historian and writer, in a statement given in response to a request by Senator T. J. Holbrook of Galveston, who has a bill before the Texas Legislature seeking a \$30,000 mausoleum to tomb the skeleton portions uncovered in the church.
"Mr. Wasson in his statement has thrown light upon the subject from a new angle," Senator Holbrook commented. "Up to now there seems to have developed a controversy as to whether the state of Texas should recognize those remains found in the cathedral or those found on the federal building site as those of the Alamo heroes. And now we have a very logical conclusion that both sides can be right. Therefore, why not build this mausoleum on Alamo Plaza, or in the courtyard of the mission, and place all of these bones and ashes in it as a final resting place for the mortal remains of those who so valiantly sacrificed their all that we might enjoy liberty?"
The controversial arguments hinge on whether a letter written by Colonel Juan N. Seguin from Laredo, Tamaulipas, March 28, 1836 to Hon. Hamilton P. Bee, San Antonio, or a newspaper article in the Columbia Telegraph of March 28, 1837, dated 52 years apart to the day, gives the most accurate description of the disposal of the "ashes and remains" of the victims of the Alamo.
The Seguin letter, written in response to a request for this information, declares:
"The remains of those who died at the Alamo were ordered burned by Gen. Santa Anna, and the few fractions I ordered deposited in an urn. I ordered a sepulchre opened in the cathedral of San Antonio immediately at the Presbytery; that is, in front of the railing, but very near the steps."
"This is all I can tell you concerning this matter."
According to a memorandum attached to the Spanish version of the letter, this act took place in 1836, or eight months before the newspaper account was published. Seguin was one of the group defending the Alamo, and escaped the massacre because he sent a messenger to seek reinforcements and provisions.
Archbishop Arthur J. Denehy of San Fernando cathedral, writing before the senate finance committee regarding the Seguin letter, declared:
"Very few historical facts are more clearly ascertained than the account of our military commander. He describes exactly that the bones were found last summer. In reply to the question became of the 'urn' mentioned in the letter, the churchman pointed out that the Spanish word did not necessarily mean a vessel, but interpreted in its meaning it would be a box, cup or container as English. Several spikes that have been a part of such vessels were found with the bones. The dead Mexicans of Anna were taken to the grave body of Col. Travis on a vessel. I ordered some to be thrown into the river, which was the same day."
"There were approximately 100 Mexican soldiers buried."
"But the key to the case that the bones found at the Alamo, starts with another letter which reads as follows:
"He (Santa Anna) directed to call on some of the negroes come with carts to carry the (can) dead to the cemetery, company him, as he was to have Col. Travis, Bowie, Crockett shown to him."
"On the north battery of the fortress convent, lay the body of Col. Travis on the ground, shot only through the head. Towards the west, and a small fort opposite the city found the body of Col. Crockett. Col. (James) Bowie found dead in his bed in the rooms on the south side

Carole Lombard says: "Advised by my singing coach, I changed to Luckies"

"In my new picture 'Swing High, Swing Low' I sing a song for the first time since I have been on the screen. To do this, I spent months taking singing lessons. And with this additional strain, my throat was not in good shape. My singing coach suggested that when choosing cigarettes, I select a light smoke. And so I changed to Luckies. Since then I've found that a light smoke and my throat along together just fine."

Carole Lombard
CURRENTLY STARRING IN PARAMOUNT PICTURES' "SWING HIGH, SWING LOW"

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.
Miss Lombard verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

ALL PRINCIPALS RE-ELECTED TO CISCO SCHOOLS

All principals of Cisco's schools were re-elected at a meeting of the school board Monday night...

O. L. Stamey was re-elected to the high school principalship after a service of one year coming from the Grammar principalship...

C. C. Duff again heads the Grammar school, while A. C. Bradley and T. C. Williams were re-elected to head the West Ward and East Ward schools, respectively.

All these men have been in the Cisco school system a number of years and their re-election is evidence of a recognition of their ability and service by superintendent and board...

Abigail Love, colored teacher, resigned on account of ill health, from a weak heart, and Lawrence L. Grimes, who has been connected with the Dallas colored schools, was employed in her stead...

Chevrolet Dealers Hold Conference

Chevrolet dealers and salesmen of Cisco, Breckenridge, Ranger and Eastland met with General Motors and GMAC officials from Dallas at the Laguna hotel in Cisco Tuesday evening in a conference and study of the 1937 Chevrolet car and its improved features.

Those present in the conference were: A. D. Anderson, Jack Anderson, Howard Robinson, J. A. Smith, Carlton Holder, C. O. Pass and John Holder, Cisco; D. N. Waggoner, J. A. Johnson and T. J. Anderson, Ranger; C. E. Harvey, O. H. Doss, C. Maynard, Eastland; R. G. Camp, M. A. Kalsh, and N. S. York, Breckenridge; R. C. Burges and J. M. Stowe, Abilene, GMAC; Thos. E. Brents, wholesaling manager, Dallas.

Mr. Boyd went with the orchestra to play for the convention of American Association of Junior Colleges which was held in Dallas last Friday night. All three of the boys will accompany the band on their trip to San Antonio on April 20 for the Battle of Flowers, and to Brownwood in May for the spring meeting of the West Texas Chamber of Commerce.

Cisco Band Members At John Tarleton

STEPHENVILLE, March 3.—Dorwood Boyd, son of Mr. and Mrs. Walker Boyd of Cisco, is a member of both the Tarleton Little Symphony orchestra and the Tarleton band; and Harlan Dunn, son of Mr. and Mrs. C. V. Dunn, and Jere Boren Loftin, son of Mr. J. D. Loftin are members of the Tarleton band.

Mr. Boyd went with the orchestra to play for the convention of American Association of Junior Colleges which was held in Dallas last Friday night. All three of the boys will accompany the band on their trip to San Antonio on April 20 for the Battle of Flowers, and to Brownwood in May for the spring meeting of the West Texas Chamber of Commerce.

Mr. Boyd is a junior in the department of business administration. Mr. Dunn is a senior in the department of engineering and Mr. Loftin, a junior in the department of chemical engineering.

March Term Grand Jury in Session

The grand jury for the March term of 88th district court, organized Monday, continued its investigations of reported lawlessness Tuesday.

Members are Frank Lightower of Eastland, Vernon DeFebach of Ranger, J. E. Matthews of Ranger, M. W. Hogue of Eastland, Henry Stroebel of Cisco, W. A. Tate of Carbon, Frank Morrow of Gorman, J. D. Lauderdale of Cisco, J. R. Gilbreath of Eastland, and Donald of Cisco. Floyd B. Joyce of Rising Star and R. W. Mandell of Cisco.

Although no bill had been returned at noon Tuesday, 17 witnesses had been examined by the jurors since their organization.

Baptists Will Form Boy Scout Troop

John Smith is to be scoutmaster for the new Boy Scout troop to be organized for the First Baptist church Friday night when Scout Executive G. N. Quinn of Brownwood will be present to assist in the organization.

The executive committee to pass on members and other duties, is composed of E. L. Smith, C. C. Duff, Davis Fields and Dr. E. S. James.

Huey and Suries Head Boys Group

At a recent meeting of the "Friendly Boys" organization two groups were organized to continue their work under the sponsorship of Elders Huey and Donald Suries. Huey heads the "Vigilantes" and Suries leads the "Eagles."

These groups will continue their meetings and will hike, play games and take part in various activities dear to the hearts of boys of this age. Huey and Suries will guide the boys and direct their energies along paths of mental, moral and physical growth. They are to have a program Friday afternoon and evening.

T. C. Williams and Rev. Joe Patterson are to sponsor the boys in their activity.

Band Parents Club Sponsors Activities

The band parents club will hold its next bake sale at the Cisco Gas Corporation Saturday afternoon. Orders for special baking should be left with Mrs. D. Bail, president of the organization.

At 4:30 Thursday afternoon they announce the feature attraction as a preliminary for the program of magic, music and entertainment, scheduled for Friday night, will be a blindfolded drive by King Felton down Main street beginning at the bank where he will be blindfolded by any one who desires to do so.

At Friday evenings' entertainment, the prices will be 10c and 25c for tickets and they promise an evening of fun and mystery. Proceeds from these sales and entertaining features will go toward the purchase of new band equipment to enable them to compete successfully in tournaments scheduled for the spring and summer months.

Program for the Friday night's program is to be announced Thursday.

ELIMINATION OF EASTLAND DISTRICT COURT TO BE OPPOSED AT HEARINGS

Members of the Eastland County Bar Association Tuesday morning voted to send two representatives next week to Austin to attend committee hearings on bills which would eliminate both 91st and 88th district courts at Eastland.

Earl Conner, Sr., Eastland, bar president who presided, said a house bill proposes the abolition of both courts and said one in the senate proposes the elimination to the 88th court.

The bar members also voted to prepare a resolution opposing the proposals and present similar papers to chamber of commerce of the county for adoption.

A view that members of the court committee bills are conservative in their views and will see the services of the courts was expressed in talks at the meeting.

It was pointed out that the judges of the Eastland county courts, B. W. Patterson and Geo. L. Davenport, preside in other courts of the state when their dockets do not necessitate their presence at Eastland.

Conner said hearing on the house bill is set March 8, and the hearing on the senate bill March 11.

FUNERAL HELD FOR PIONEER CISCO RESIDENT

Funeral services were held for George Milton Reynolds, Eastland county pioneer since 1867, Wednesday at 3 o'clock at the church of God, Rev. C. S. Moat officiating. George M. Reynolds was born in Hickman county, Tennessee, on May 28, 1846. Departed this life March 2, 1937. Age 90 years, 9 months and 2 days. He was married to Miss Janie Guest September 28, 1869. Came to Eastland county in 1876. He has lived in this county since that time.

Of the marriage to Miss Guest there were born eight children. Three boys and five girls, five of whom are living. Mrs. Abbie White of Cisco; Mrs. Alice Mason of Paris, Ark.; Mrs. Bettie Corbit of Sebastopol, Calif.; Mr. A. M. Reynolds of Burk Burnett, and G. F. Reynolds of Big Spring. He has 24 grandchildren and 15 great grandchildren. Mr. Reynolds has been very feeble for the last several years, having spent the last four years with his daughter, Mrs. White, and granddaughter, Mrs. J. M. Daniels of near Cisco. He suffered a heart attack two weeks ago from which he did not recover.

Mr. Reynolds enlisted in the Union army at the age of 18, and served about one year in the Civil War. He was converted to a young man, and united with the Methodist church, living in that faith until the end. He entered the ministry at about the age of 24 and was active in the ministry for many years as a circuit rider. Many times he walked to his appointments and sometimes walked as far as 20 miles. He was faithful to his calling and to his Heavenly Father.

Among his last words were the words of Jesus where he said, "I have yet many things to say unto you, but ye cannot bear them now." (John 16:12) and he added, "that's the way it is with me now." He also said, "the time can't be long, and it may be near, but I am not alone." He evidently remembered the words of David, "Though I walk through the valley of the shadow of death, I will fear no evil, for thou art with me, they rod and thy staff, they comfort me, I will never leave thee nor forsake thee."

Merit Certificate Won by FFA Boys

SCRANTON, March 3.—Scranton FFA chapter has been awarded by the state department of the Future Farmers of America eight certificates of merit showing the heights the boys have reached during their club work.

The merits were awarded for a one act play which was presented to the other chapters of the district at Breckenridge on February 16. Scranton boys won the contest at Breckenridge and will go to Stephenville on May 7, to compete with other teams of the state.

The boys who made up this team were of the first year vocational agriculture class. The boy's names are as follows: Clayton Evans, Raymond Sprawls, Lee Starr, Warren Hall, John N. Bolander, Elynn Stewart, R. T. Ezzell, Nennine Baird, each received a certificate of merit. W. J. Bush, the vocational agriculture teacher of Scranton high school, is the advisor of this chapter.—RUSSELL A. OWENS, Reporter.

Texas Exes Meet Next With Ranger

About 70 ex-students of the University of Texas attended the banquet at the Laguna Tuesday evening when Texas Independence was celebrated and Dr. Eutlinger, of Austin, talked of the future of the University and reviewed past accomplishments. An interesting program with numbers furnished by other Oil Belt towns were added features.

At the business session, Ranger was selected as the site for the next meeting with Superintendent W. T. Walton of Ranger elected president, and Dr. E. L. Graham, Cisco; Jack Frost, Eastland; Judge Robert Bowyer, Breckenridge; and Graham T. Webb, Albany, as vice presidents.

Miss Laura Lu Waring and Miss Ida Mae Collins were named as reporters to the "Alcalde," ex-student magazine.

Soil Waste Vital Problem—Walton

COLLEGE STATION, March 1.—President T. O. Walton of Texas A. and M. College, back from recent conferences in Washington at which representatives of the U. S. Department of Agriculture outlined pollution conservation program, said the federal department's spokesman indicated they would cooperate in any sound soil conservation legislation, in harmony with the national act, the various states might enact. The department's representatives further indicated, he said, they did not seek arbitrarily to influence soil conservation legislation in the various states.

In view of pending legislative action in Texas on this matter, President Walton, speaking as the head of an institution which through its Agricultural Experiment Station and Agricultural Extension Service, has for years carried on an active soil and water conservation program, said: "In establishing soil conservation policies by legislation, it is recommended to the farmers primarily and others interested that careful consideration be given to maximum use of the present national, state and county agencies and local governmental units rather than to the creation of new governmental units or agencies. And whatever program is adopted should be one so shaped as to apply to the farm land and to farm accomplishments the very largest percentage possible of funds and local sources. This means, in other words, that the program should be one of minimum administrative cost so that the actual benefit to the land will be the maximum possible from funds made available. These ends can be best accomplished if a maximum of state and local control is maintained.

"A soil wastage prevention program is after all a program that by its very nature and cost will require an extended period of time to be done in a day. Its ultimate success will depend in large part upon the attitude of the farmer himself and the cooperation he receives from agencies to which he may most naturally look for help. The problem thus involves not only an educational feature but a close contact with familiar and sympathetic cooperating agencies. State and local agencies with which the farmer has already worked and in cooperation with which he has already made progress are naturally in a more favored position to carry on the work than would be a new and, at least for the time being, an unfamiliar set-up."

Texas A. & M. Sollege, President Walton went on to say, is not primarily interested in any specific legislation in this field except where it may affect a sound state soil conservation program. In amplification, he added, the college is interested in soil conservation on every farm for the sake of improved agriculture and its benefits to the individual farmer. He also pointed out that when soil erosion is prevented a major contribution is made to the solution of the flood control problem.

Park Doe Pays a Formal Call

This hungry doe strolls upon the front porch and pays a midwinter call on a ranger in Yellowstone Park, but it's probably the odor of food from the kitchen of the ranger's wife in which the deer is interested. Heavy snow makes foraging difficult, and herds of deer gravitate toward park headquarters, where they are always sure of a "handout."

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER
NEA Service Staff Correspondent
WASHINGTON—The bitterness of older men against the impetuousness of a younger man, is a real factor in the supreme court struggle.

There are young men on both sides and old men on both sides, but the fight is one between old men and young men. If you average separately the ages of the outstanding protagonists and antagonists, you will find the disparity as great as that between the 75-year average age of the six justices over 70, and the age of Roosevelt, who is only 55.

Everyone who is here on the ground realizes that when Roosevelt—with a grin—asserted that judges over 70 often served beyond mental and physical capacity while unable to perceive their infirmities, he embittered many of the old-timers. They otherwise might have been able to take his proposal more calmly.

The age line of demarcation in this fight seems to be about 60 years. Men over that age have been advised, in effect, by the president at a press conference, that he would appoint no sexagenarians to federal judgeships.

That doesn't set well with some who had hoped to end their careers on the bench, or felt they might depend on a judgeship in case constituents voted them out of office. Also the supreme court retirement would permit justices to retire with full pay at 70, only if they had served 10 years.

Aside from the five conservative justices over 70, whom Roosevelt wants off the bench, most conspicuous figures in the opposition battalions include Senators William E. Borah, 71; Hiram Johnson, 70; Carter Glass, 79; George W.

Norris, 75; Frederick Van Nuys of Indiana, 62; Alva Adams of Colorado, 61; Ellison D. Smith of South Carolina, 72; William H. King of Utah, 72; Walter F. George of Georgia, 59, and Josiah Bailey of North Carolina, 63.

Outside the Senate one observes such opponents as Hutton Summers, 61, chairman of the house judiciary committee, who might easily have expected to wangle a judicial appointment. He has been distinctly lukewarm to the Roosevelt program. The Morgan lawyer, John W. Davis, also had reasons to hope he would wind up as supreme court justice, or perhaps even chief justice, under any conservative administration. He is now 64.

Now as to the men who have thrown themselves conspicuously into this fight for Roosevelt. A reasonably complete list in the Senate would include Senators Bob La Follette of Wisconsin, 42; Hugo Black of Alabama, 50; Lew Schwelbenbach of Washington, 42; Ed Johnson of Colorado, 53; Sherman Minton of Indiana, 46; Jimmy Byrnes of South Carolina, 57; and Bob Wagner of New York, 59.

The outstanding protagonist in the house is Congressman Maury Maverick of Texas, 41. And a list of those who helped Roosevelt work out the plan, or are now plugging for it, probably would include Assistant Attorney General Robert Jackson, 45; Solicitor General Stanley F. Reed, 52; Charles West, White House liaison man with Capitol Hill, 42; Jimmy Roosevelt, 29; Donald Richberg, 55; Ben Cohen, 39, and Thomas G. Corcoran, 37. These ages stand out in marked contrast against those of the six oldest justices.

VIENNA SCHOOLS SLUMP
VIENNA (AP) — Characteristic of Vienna's rapidly sinking birthrate is the fact that, according to official statistics just published, the number of pupils in municipal primary schools decreased by 8,331 in 1937 compared to 1936. It is now 123,964. Private schools also showed a similar reduction by 400 to 10,313.

About Our Friends—

CONTINUED FROM PAGE ONE
to set them down without injury... nature has been known to blow a prairie fire down to a settlement, then suddenly reverse the breeze and hold back the flames... Nature had considerable fun once with Wallace, Idaho... A forest fire swept down on the town and when the people had given up all hope, the fire jumped completely over the town which lies in a deep hollow, and roared on without igniting a single building... perhaps nature likes to see human beings scurry about like a colony of ants disturbed... But probably one of the most delicate bits of humor that nature ever evinced occurred in the late twenties when in Tennessee... the state that has outlived evolution... a baby girl was born with a seven-inch tail... And here is a novel use for honey... one of nature's chemical compounds that for centuries was the only source of sweetness... It has been suggested by the department of agriculture that honey makes an excellent anti-freeze mixture for automobile radiators... The idea has been tested and is said to work excellently... the stuff is mixed with water like alcohol, glycerine or other anti-freeze materials... a half-and-half mixture of honey and water is guaranteed to stand zero weather... a smaller proportion of honey will do for milder freezing temperatures... And nature showed the bee how to manufacture this chemical from materials abounding in quantity close at hand, long before man thought of making sugar from the juices of cane or beet... Yes, nature is grand and wonderful and nature is just the hand of God working in immutable laws that are perfect and never failing... The science of chemistry and physics are only some of these never-failing laws that man has been allowed to discover... Electricity, one of the hidden secrets that is being revealed as man is able to comprehend its use and meaning... Radio... and no telling how many more powers more wonderful and valuable to man... perhaps we have just begun to learn.

Ohio Swamp Yields Molars of Monster

URBANA, O. (AP) — Two molars of an Otioticus, prehistoric animal of the elephant family, have been found in a swamp near here.
Dr. Margaret B. Church, Urbana Junior College zoology instructor, who identified the fossilized teeth, said the animal stood about 10 feet high at the shoulders and was about 20 feet long.
The teeth, 6 inches long and 3 inches in diameter, probably will be sold at a museum. Efforts are being made to find other parts of the skeleton.

4-H Farm Accounting Prizes Total \$8,500

Cash prizes of \$5 to \$25 will be awarded 800 boys and girls making the best records in the 1937 National 4-H Farm Accounting Contest, announced by the National Committee on Boys and Girls club work.
Five other contestants whose record books score highest will receive merchandise prizes valued at \$100 to \$500.
Winners of the 805 prizes, which total \$8,500.00 will be selected by state and federal extension specialists. All private information in the records will be held confidential and the records returned to owners after judging.
Parents are urged to aid contestants whose work in the past three contests has shown how to cut costs and increase profits. Blank record books and rules and prize list can be obtained through local leaders or County Agent.

More Men by 2 to 1 in Texas Town

ALICE, Tex. (AP) — Alice, "The Sweetheart of the Southwest," is a man's town and no mistake.
Whether it is the propinquity of large oil fields, the climate, or the presence of other industry that appeals to the sterner sex, men dominate the population of this small town.
C. H. Jackson, who has compiled city directories for many years, related that he has often found a town where the male population has outnumbered the female, but he has never found a community where the surplus of men has so completely overshadowed the women. Two to one is the ratio.
Jackson also found that the 2,191 families in the town average 3.6 persons each.

All of Neighbor Nations Coming To Fair in Texas

DALLAS, March 4. — Central American republics, closest neighbors to Texas, already have accepted almost unanimously invitations to take part in the Greater Texas and Pan-American Exposition, opening at Dallas June 12.
Director General Frank L. McNery received reports at the exposition offices in Dallas this week from two flying emissaries as they completed their swing through Mexico and the six Central American republics, without a refusal at any point.
Mexico's formal acceptance is expected momentarily from President Cardenas, who was out of the capital at time of the visit of Dr. Roscoe R. Hill of Washington and Charles H. Abbott of the exposition staff. His cabinet members already have signified.
Guatemala and Nicaragua have accepted. Unofficially, participation in the exposition has been planned by Honduras and is anticipated, by El Salvador, Costa Rica and Panama. This makes the record perfect up to the envoys' entry into the South American continent with first calls at the capitals of Ecuador, then Peru and Chile. Crossing to the Atlantic seaboard, they will retouch through Argentina, Uruguay, Brazil, Venezuela and Colombia, then across to Cuba to complete their trip about mid-April.
The participation already gives strong Latin American flavor to America's only intercontinental fair of 1937, which will run a 20-weeks season through October.
The \$25,000,000 exposition park already is redesignated to conform to distinctive architecture of the American civilization that flourished before colonization from Europe.
Highlighting the entertainment that will make the exposition at Dallas America's fun center through the summer, George Marshall, internationally recognized sportsman, is arranging olympic games for competition of teams of the North and South American continents, with featured schedules for games in which the neighbor nations are outstanding. Jaijai, for example, the game of Spanish and the Latin American countries, will be staged on a court to be built especially for this fast and furious racquet contest that makes handball look as mild as piddledinks. An international polo tournament is expected to bring the high goal players of a score of countries.
The after-dark feature of Marshall's entertainment program for

the fair will center in a huge theater casino, where a program that is designed to make all America talk will feature the stage, screen and opera performers of all communities, from Hudson Bay to the Pampas.
BOSTONIANS ENJOY NEW FAD
BOSTON (AP) — Bostonians are "talking to themselves." At the Bowdoin Square office of the New England Telephone company one calls up oneself and talks into the phone. The caller's voice is recorded on tape. The tape is re-run and the caller can hear how his voice sounds.
TAXI LEASED FOR DOG
LOS GATOS, Cal. (AP) — Mrs. M. L. Friedlander is taking no chances with her prize Irish setter Murphy. She has a contract with a local taxi

driver that whenever he finds Murphy too far from home that he is to be driven back in the taxi cab. Once a month the cab driver presents his bill.

THIS CURIOUS WORLD By William Ferguson

MAN HAS LEARNED MORE ABOUT THE EARTH ON WHICH HE LIVES BY STUDYING THE STARS THAN BY STUDYING THE EARTH ITSELF.

ESKIMOS DO NOT SWIM, ALTHOUGH THEY SPEND MOST OF THEIR LIVES NEAR WATER.

IT IS THE ADULT FEMALE "JIGGER" THAT PESTERS HUMAN BEINGS! THE YOUNG ARE NOT PARASITIC.

MAN knew little about his earth until he began to understand the stars and planets. Through his study of the heavenly bodies he came to know what part the earth plays in the universe. And from his study of the earth, he came to know more about the stars.

Trading Post Manager Abdicates

MOOSE Wyo. (U.P.)—"Yankee Jack" Woodman, manager of the Flying V Trading Post here decided to "abdicate" and injected a new angle in the business of going out in an advertisement in a local newspaper, he explained that his customers "never have paid yet."

He posted a list of back accounts and offered them for sale at one cent on the dollar. In addition he offered for sale "a complete postoffice, except government equipment, with a fresh stock of stamps at New York prices."

"Yankee Jack" rounded out his announcement in conclusive style by adding, "To be purchaser of the postoffice and these deadbeat accounts, we will donate one mayor's chair and one justice of peace gavel. We are abdicating."

ARE BONES FOUND IN THE ALAMO THOSE OF SLAIN TEXAS HERO

AUSTIN, March 4.—"It is not only possible, but very probable that the human bones found in the cathedral of San Fernando cathedral in San Antonio last July were in part those of Colonel William Barrett Travis, Colonel David Crockett and Colonel James Bowie, while the remains found the past year on the site of the new federal building opposite the Alamo are those of the 179 Texas heroes who died in defense of that historic shrine," declares S. Deane Wasson, historian and writer, in a statement given in response to a request by Senator T. J. Holbrook of Galveston, who has a bill before the Texas Legislature seeking a \$30,000 mausoleum to tomb the skeleton portions uncovered in the church.

"Mr. Wasson in his statement has thrown light upon the subject from a new angle," Senator Holbrook commented. "Up to now there seems to have developed a controversy as to whether the state of Texas should recognize those remains found in the cathedral or those found on the federal building site as those of the Alamo heroes. And now we have a very logical conclusion that both sides can be right. Therefore, why not build this mausoleum on Alamo Plaza, or in the courtyard of the mission, and place all of these bones and ashes in it as a final resting place for the mortal remains of those who so valiantly sacrificed their all that we might enjoy liberty?"

The controversial arguments hinge on whether a letter written by Colonel Juan N. Seguin from Laredo, Tamaulipas, March 28, 1837 to Hon. Hamilton P. Bee, San Antonio, or a newspaper article in the Columbia Telegraph of March 28, 1837, (dated 52 years apart to the day), gives the most accurate description of the disposal of the "ashes and remaining parts of skeletons," of the victims of March 6th, 1836.

The Seguin letter, written in response to a request for this information, declares:

"The remains of those who died at the Alamo were ordered burned by Gen. Santa Anna, and the few fractions I ordered deposited in an urn. I ordered a sepulchre opened in the cathedral of San Antonio immediately at the Presbytery; that is, in front of the railing, but very near the steps.

"This is all I can tell you concerning this matter."

According to a memorandum attached to the Spanish version letter, this act took place 1836, or eight months before newspaper account was published.

Seguin was one of the group defending the Alamo, captured the massacre because sent as a messenger to seeking reinforcements and negotiations.

Archbishop Arthur J. D. of San Fernando cathedral, dying before the senate final committee regarding the Seguin letter, declared:

"Very few historical facts more clearly ascertained, from the account of an eye witness military commander. The describes is exactly that which bones were found last summer in reply to the question became of the 'urn' mentioned in the letter, the churchman out that the Spanish word did not necessarily mean a vessel, but interpreted in its meaning it would be a box, cup or container as English. Several spikes have been a part of some were found with the bone casket could have decayed century."

"The dead Mexicans of Anna were taken to the grave but not having sufficient room, I ordered some to be into the river, which was the same day."

There were approximately 1000 Mexicans buried.

"But the key to the code that the bones found at the Alamo, starts with another this Burr report," said "which reads as follows: 'He (Santa Anna) directed to call on some of the neighbors with carts to carry the (can) dead to the cemetery, company him, as he was to have Col. Travis, Col. Crockett shown to him."

"On the north battery (fortress convent) by the body of Col. Travis on the range shot only through the head. Towards the west, an small fort opposite the of found the body of Col. Crockett. Col. (James) Bow found dead in his bed in the rooms on the south side

Ex-Grid Star Is Quins' Guardian

Affairs of the five most important babies in the world, the Dionne quins, hereafter will be under the supervision of Ontario's official guardian, Percy D. Wilson, above, former Canadian football star, who has just been appointed special guardian for the quintuplets. Wilson succeeds the Hon. David Croll, who said the quins' business dealings had become too heavy for him to handle with his duties as a cabinet minister. Wilson will serve with Judge J. A. Valin, Olivia Dionne, the quins' father, and Dr. Allan R. Dafoe, who comprise the guardianship board.

Carole Lombard says: "Advised by my singing coach, I changed to Luckies"

"In my new picture 'Swing High Swing Low' I sing a song for the first time since I have been on the screen. To do this, I spent months taking singing lessons. And with this advice, my throat was not in good shape. My singing coach suggested that when choosing cigarettes, I select a light smoke. And so I changed to Luckies. Since then I've found that a light smoke and my throat along together just fine."

Carole Lombard

CURRENTLY STARRING IN PARAMOUNT PICTURES' "SWING HIGH, SWING LOW"

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Lombard verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

FUNERAL HELD SATURDAY FOR MRS. HOLCOMB

Funeral services were conducted Saturday morning at 10 o'clock at the First Christian church for Mrs. M. E. Holcomb, who died at her home on West Ninth street Thursday night.

Rev. David F. Tyndall conducted services for the deceased, who is one of the oldest citizens of Cisco, who came here in 1890 from Erath county. She was Mary E. Whitesides before her marriage to Mr. Holcomb in 1875.

Mrs. Holcomb had been ill for the past several weeks but was taken seriously ill Monday of this week. She is the mother of one daughter, Mrs. J. J. Malloy of Stephenville; two sons, O. C. Holcomb Cisco and J. C. Holcomb of Stephenville; 11 grandchildren; two sisters, Mrs. Callie McAfee of Cisco and Mrs. Ada Higginbotham of Alvin.

Pallbearers were: E. P. Crawford, Howard D'Spain, Joe Wilson, H. H. Davis, C. R. West and Jim Flournoy.

Green's Funeral Home was in charge and interment was in Oakwood cemetery.

Lobo Band Activities For Instrument Funds

The Band-Parents Bazaar Saturday netted \$20.50 and Mr. and Mrs. Maddox expressed their thanks in behalf of the organization for the cooperation of those who are supporting their efforts to raise funds to buy more instruments for the band. This is the band's greatest need in its efforts to attain a high rating at tournaments scheduled for the spring months, said Mr. Maddox.

They expect to repeat the bazaar sales and meanwhile, ask that any who might want special orders of baking to get in touch with the Band-Parent organization, Mrs. D. B. Hall, pres. Mrs. George Christie, sec.

The band members enjoyed a band concert over the radio from Oklahoma City University Friday afternoon through the courtesy of Rudolph Schaefer, who equipped the band hall with a radio for the use of members for that occasion. The band played a Lobo band contest number to be used at Lubbock, Triumph of Alexander, and it was explained by the band director who is to be one of the judges in the Lubbock tournament, Mr. Maddox said.

Sen. Connally Urges Tenant Farm Action

WASHINGTON, March 1.—Senator Tom Connally urged the adoption of a farm tenant home purchase plan in a personal appearance before the House Committee on Agriculture last week, while hearings were being held on the farm tenant problem.

The necessity of a low interest rate, sufficient funds to give the farm purchase plan a real test, the requirement of soil rebuilding principles as set out by the State and Federal conservation program, and the need of a local committee in every county to pass upon the applicant's qualifications were the points stressed by Senator Connally before the House Committee.

The Senator said: "The interest rate to be charged on these farm purchases should be very small. I provide for an interest rate of two per cent in my bill. We subsidize now a great many projects and enterprises and I think the question of getting the man on the farm to own his own farm is of such high importance, not only for the economic aspect of the situation but from the government aspect of the matter, that it would be worth the investment of the government to see that the interest rate is at a minimum."

In commenting on the amount of money needed to carry into practice the farm tenant proposal, Senator Connally stated: "The people of the United States ought to know that we are setting our hands to this plan in a substantial way and are not merely scraping around like we are doing with the Resettlement Administration. That is just like the country that we are going into this program and that we are willing now if it is necessary to do so to spend a billion dollars to try to put the program into operation."

Senator Connally added that he thought there should be a local committee in every county to pass upon the applicants, composed of both farmers and business men. That the bill ought to provide that preference shall be given to men who are already farmers, men who are thrifty farmers, men who have shown some ability in making a living for themselves on the farm.

Senator Connally is the author of a farm tenant bill now pending in the Senate Agricultural Committee.

Aunt of Miss Erwin Buried in Amarillo

Miss Lorena Erwin has returned home from McClain and Amarillo, where she attended the funeral of a aunt, Mrs. W. A. Erwin of McClain, who died Monday and was buried Wednesday in Amarillo.

Mrs. Erwin, 70, was wife of Rev. W. A. Erwin, well known Presbyterian Evangelist minister who has established fame in parts all over Texas and Oklahoma. The deceased is the mother of the late, Bill Erwin of Dallas, who met death in 1928 when the plane in which he was flying in the Dole Flight from Dallas to Hawaii crashed in the Pacific.

Miss Erwin was accompanied by her father, J. S. Erwin and brother, Edwin of Sabanno.

Questions That Some Folks Ask About Cardui

BENEFIT FOR MAL-NUTRITION

Thousands of women testify Cardui has helped them to overcome Mal-nutrition and to ease many of the functional pains of menstruation.

"What is meant by 'helping to overcome mal-nutrition'?" Cardui contains extracts of two plants which are classed among the "bitters" in medicine because they are known to increase the flow of digestive juices—to improve digestion—so there is a craving for sufficient food for the body's needs, and by their action more energy (or strength) is obtained from the food eaten. The food, of course, brings the additional strength, but Cardui serves as the means to this end by its good influence on the digestive system.

What's News Today

Japan finds it hard to retain new armament building sentiment in her country and must continually use the scare of the United States threat to spur on the lagging propaganda. Japan has piled heavy tax burdens on her people until the reaction seems to have come. Now she tells her people that the United States is building more aircraft and ships and unless Japan keeps pace we may attack her at any time. Of course we know how ridiculous this statement is but the people of Japan do not and they have been trained to hate Americans ever since we refused them recognition as whites in California schools.

The country has gone a long way toward recovery since March 3, 1933. On this date four years ago, the bank holiday was declared and all banks in the United States were closed while experts appointed by the president, worked out our financial system to prevent the whole country from complete crash. Today our country is without bank failures and complete confidence has been established. Yes, we have gone a long way toward financial security.

Steel grants strikers rights of bargaining agent and great rejoicing is evident as thousands join in celebration of the victory for labor. This is a signal event in past 45 years of steel history in its dealings with labor. This will spur labor organizations on to renewed efforts. New strikes are expected to follow in other lines.

The senate committee considers but does not act on the proposed creation of utility board to regulate public utilities but which does not assume power over municipally owned and operated utilities. Utilities would be taxed to pay for the regulation board.

Counties are told that WPA projects are lost to them if they are without funds to help with their part of the expense for projects. Officials contend that if they were to pay all expenses of materials and labor that \$10,000,000 would be required each month.

It used to be "Here comes a collector; pull down the shades!" In this trailer era, it's "step on the gas!"

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER
SEA Service Staff Correspondent
WASHINGTON — In March, 1935, Assistant Attorney General Harold M. Stephens was arguing the constitutionality of the railroad retirement act, which provided pensions for railroad employees after age 65. "It is a commonplace," he said, "that physical ability, mental alertness and co-operativeness tend to fall after a man is 65." Not one of the more aged justices batted an eye. But Stephens lost the case. Later he himself, at the age of 50, was appointed a judge on the District of Columbia Court of Appeals.

ANYONE who knows Vice President John N. Garner knows that his aversion to cigarettes—he smokes cigars—is only exceeded by his contempt for officials who take what he calls "graft" in the form of payment for articles, endorsements or other uses of name and title for commercial purposes. But an advertising executive called on Garner the other day in complete ignorance of these sentiments.

He said he knew the vice president didn't smoke cigarettes himself, but if Mr. Garner wouldn't mind endorsing the fragrance of a particular brand, he would be glad to give him a check. "In the first place," snorted Garner as his face grew red, "I never have and never will use my position to endorse any product." "And furthermore," dammit," said the vice president as he scowled at his visitor's smoke, "I think cigarettes stink like hell."

WHEN Labor Leader John L. Lewis went to Michigan to supervise the General Motors strike and enter subsequent negotiations, he warned off newspaper correspondents by saying: "Let there be no moaning at the bar, when I put out to sea."

A couple of his subordinates who spotted the origin of the poet's parapraxis, observed lest some of their chief's enemies should pounce upon this and ridicule him. The line came from Tennyson's "Crossing the Bar," which has to do with death. At the time no one here was sure whether Lewis was setting off toward a tragic disaster in his career or to victory. That verse goes:

"Sunset and Evening Star
"And one clear call for me,
"And may there be no moaning
"ing at the bar,
"When I put out to sea."

SPEAKER WILLIAM B. BANKHEAD, who has served in Congress 20 years, was telling stories at a party he gave for his beautiful actress-daughter, Tallulah, here recently. He started to describe how the boys down home at Jasper, Ala., had fixed it up to give him a big welcome reception to celebrate his elevation to the speakership.

"You mean those hill-billies, Daddy?" piped Tallulah. "Sure," said the speaker, "I'm a hill-billy."
"Well, there were flags and bunting all over town. The bands were out and there was an old fellow down from the hills and he wanted to know what was going on. They told him: 'Billy Bankhead's coming back to town.'"
"Is that so?" he said, "Where's Billy been?"

\$2.07 Judgment is Awarded Mrs. Neill

Mrs. Eva Neill was awarded judgment of \$2.07 and court costs Saturday by 88th district court in a suit against Postal Telegraph Cable company.

Judge B. W. Patterson had the case under advisement since Feb. 8th.

Mrs. Neill, who was suing for approximately \$900 because of the alleged non-delivery of a telegram,

from California to Gorman when her father died, excepted through her attorney and gave notice of appeal to the Eleventh Court of Civil Appeals.

Texas Labor Union Dates From 1857

AUSTIN, March 4. (AP)—When Judge Joel Minor of Galveston went to New Orleans in 1857 to attend a union meeting, he definitely dated

the beginning of the labor movement in Texas.

The date is revealed in records of the oldest labor organization in Texas—the Galveston Typographical Union—which were salvaged from the Galveston flood of 1900 and recently were presented to the University of Texas library.

The nine volumes, containing many interesting references to early Galveston residents, include an account of the judge's attendance at the National Typographical Union in New Orleans in 1857 as a representative of the Galveston union.

Bar Injured by Self-Taught Legends

McCOOK, Neb. (AP)—Abraham Lincoln's career, based as it was on the principle of self-aid, has done more to injure the American bar than any other single factor. Edward F. Carter, Nebraska supreme court justice, told a district bar association meeting here. When ever high qualifications for legal practice are discussed among lawyers, Carter said, the point invariably is made that Lincoln was self-taught. "It is true that Lincoln could pass the bar examinations of today, although the qualifications are higher," he asserted. "Many attorneys who have been practicing for 25 or 30 years cannot do that." Carter pointed out that the self-taught "legend" was misleading to young men launching careers.

Will Improve Wheat and Barley Types

ST. PAUL (AP)—A plan to eliminate undesirable wheat and barley varieties and place Minnesota's bread wheat and malting barley in a leading position on the nation's grain market will be initiated this spring in eight Minnesota counties. In working for better grains, Ceres, a wheat that has become popular in recent years, and Thatcher, recently introduced rust resistant variety, will be used, according to W. W. Brooks, extension agronomist at University of Minnesota farm.

THUNDERBIRD EFFigy FOUND
MUNCY, Pa. (AP)—The WPA, in conjunction with archaeologists, has uncovered near Muncy an ancient effigy of a "thunderbird," Indian ritualistic symbol. The image had been charred by ceremonial fires.

Three years later the Galveston union was chartered as a unit of the National Typographical Union. Minutes of meetings immediately after the 1900 flood are poignant with the distress and suffering of flood victims. The records were given the university library as a gift of the Galveston Typographical Union.

PORT ARTHUR (AP)—Nature pulled a Luther Burbank stunt here recently. A camellia Japonica bush grew a red and a white blossom on the same stem.

Ballet Gets French State Invitation

PHILADELPHIA (AP)—Catherine Littlefield director of the Philadelphia Ballet Company, has been invited by the French government to present a series of ballets in Paris. The performances will be held under the auspices of the International Exposition on Art and Technique in Modern Life, which opens in May. The Philadelphia Ballet, composed of native-born Philadelphians with two exceptions, will open at the Theatre de Champs Elysees June 1. The company then will perform in Brussels, The Hague and London. Appearance of the company in Europe will mark the first time an American ballet has performed on the continent.

IT'S WINDY IN HAWAII
HONOLULU (AP)—Wind on the highway at the Nuunuu Pali, a high cliff on the road to the windward side Oahu Island, attained such force it upset an automobile driven by Mrs. U. Uramura.

U. S. Senator Reynolds says: "Luckies are considerate of my throat"

"Two Southern traditions are oratory — and good tobacco. Lucky Strike shows me how to indulge in both. For this light smoke not only pleases my taste but leaves my throat in condition. Last fall in North Carolina—when I made over 100 speeches—I visited the Lucky Strike factory. I believe I discovered, in the Lucky Strike 'Toasting' process, the secret of what makes this cigarette so considerate of my throat. I have been more than ever an advocate of a light smoke since seeing the extra care and expense devoted to making Luckies easy on the throat."

Robt. R. Reynolds
HON. ROBT. R. REYNOLDS
U. S. SENATOR FROM NORTH CAROLINA

THE FINEST TOBACCO—
"THE CREAM OF THE CROP"

In a recent independent survey, an overwhelming majority of lawyers, doctors, lecturers, scientists, etc., who said they smoked cigarettes, expressed their personal preference for a light smoke. Senator Reynolds' statement verifies the wisdom of this preference and so do leading artists of radio, stage, screen and opera, whose voices are their fortunes, and who choose Luckies, a light smoke. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on your throat.

EASTLANDITE TRAPPED IN TRUCK CAB; BURNED TO DEATH SATURDAY

EASTLAND Feb 27 —Trapped in the cab of his truck which collided with an automobile and a concrete bridge east of Sweetwater, Ed Hayslip, 43, Eastland truck contractor, and oil pipe dealer, burned to death early Saturday morning.
The party which had attempted to warn him of an accident involving two automobiles on the bridge stood by helpless to aid after an explosion of gasoline which immediately set the truck aflame. Loaded with over 2,000 feet of two inch tubing which as a result of the impact was forged toward the cab, the truck was telescoped.
Officers from Sweetwater who investigated the accident could not discern the truck license plate so badly was the destruction of the vehicle which was turned into a mass of metal by the flames. From the license plate on the trailer, it was probable for Sweetwater officials to contact Eastland officials and County Tax Collector-Assessor C. H. O'Brien, who checked the number with plates issued last year.
Hayslip left Eastland at 8:30 Friday night with a load which was to be taken to Royalty. He had been a resident of Eastland three and a half years. Formerly he resided at Westbrook where he was in the garage business 12 years.
Funeral arrangements for Hayslip, whose body was returned late Saturday to Eastland, were tentatively fixed from the First Methodist church at Eastland. Relatives said Rev. P. W. Walker, pastor of the church, will probably conduct services.
Survivors are: his wife; his mother, Mrs. Fannie Hayslip, who made her home with him; her daughter at Dallas, Mrs. W. L. Noah; three children, Marie, 16, Allen, 18, and Hollie, 13, Eastland, and a brother, Walter Hayslip, Idaville, Okla.

Mrs. Watkins Buried Saturday at Nimrod

Mrs. Allis Louelvin Watkins of 303 East Ninth street died Friday evening at 7:30 o'clock at the family residence.
She was buried Saturday at 3 o'clock at Nimrod, following funeral services at the home at 2 o'clock.
Mrs. Watkins was born October 12, 1880. She is survived by three brothers, Ed Callerman and Calrence Callerman of near Cisco; and one brother in Los Angeles, Calif., three sisters, names unknown.

Former Cisco Woman Dies in San Antonio

Word has been received here of the death of Mrs. Martin Matson of San Antonio, daughter of Mrs. M. A. Wright of Cisco, who died Saturday at her home, 2919 West Summit.
Mrs. Matson will be remembered in Cisco as Miss Dorothy Wright, who taught speech arts in the Cisco High School for two years. In 1928 she was married to Martin Matson, of this city.

Who Put Rockers on Rocking Chairs?

He Has Insufficient Electric Service

WHO Gave Birth To The World's Greatest Home Builder?

The Answer to Both Questions: **BEN FRANKLIN!**

She Has Electrical Comfort!

Despite all the modern inventions, this man mops his brow and wastes energy fanning himself in hot weather. Doubtless, he shivers when it's cold. Why, he hasn't even a rocking chair!

This dear old lady rocks in solid comfort as she reads. A better Light—Better Sight lamp helps her fading eyesight. Doubtless, she has an electric refrigerator, an electric range — and possibly a complete modern electric home. At least she has that happy expression on her face.

Yes, Sir! 'Twas Old Ben Franklin Who Harnessed Electricity And Put Rockers On Rocking Chairs
