CHRYSLER UNION REPORT PROGRESS

Reform Foes Plan Nation-Wide Campaign

WILL ANSWER PRESIDENT IN RADIO TALKS

WASHINGTON, March 6 (UP)—Foes of President Roosevelt's supreme court reorganization program united today for an immediate nation-wide campaign. Accepting the challenge to carry the controversy to the country, they organized an intensive drive. It was planned at a series of conferences under the leadership of Senator Burton Wheeler, democrat from Montana. First attack on the reorganization under the new strategy was to come from Senator Edward Burke, democrat from Nebraska, in a radio address Saturday night. He revised his speech to reply to the president's Thursday night speech. Administration supporters renewed their campaign to rally public and congressional support. Both factions of organized labor, it was learned, were preparing to join the administration campaign. On Monday, labor non-partisan leaders will hold a conference here to spur its nation-wide campaign to enlist wage earners in support of the court program. On Tuesday, the president will make the second of a series of radio addresses on the judiciary issue.

Liquor Crusader Is Near Death

Dr. Clarence True Wilson, above, Methodist temperance leader and one of the men largely responsible for the prohibition amendment, was reported to be near death in his Portland, Ore., home from cerebral hemorrhage. Secretary of the Methodist Prohibition Board, Dr. Wilson toured the country repeatedly, speaking in the dry cause.

M'KEE THINKS RACE BETTING BE REPEALED

AUSTIN, March 6 (UP)—While Texas lawmakers gazed at Buchanan dam on the Colorado River this week-end, one house member had good reason for remaining behind. Representative Harry McKee of Port Arthur was busy writing a point of order that the race repeal amendment tacked by the senate onto his bill regulating track employees is not germane. Speaker R. W. Colbert probably will rule on the point Thursday morning. No repealist himself, McKee admits the legislature will pass track betting repeal one way or the other. Other maneuvers first will claim legislative interest next week. Old age pension inflationists, beaten when Governor Allred broke their showdown strike, felt better when they mustered 73 votes on their old age assistance bill this week. Senate action echoing house sentiment on racing repeal, has encouraged advocates of a six cent tax on oil. Plans of Representatives Coke Stevenson of Junction to set up a State Land Board to give holders the excess land they occupy has been attacked by Land Commissioner William McDonald.

Girl Strikers Satirize 5-and-10 Heiress

Between counters loaded with 10-cent merchandise, girl employees of the main Woolworth 5-and-10 store in Detroit romped and sang songs which gaily satirized Countess von Haugwitz Eventlow, the former Barbara Hutton, Woolworth heiress and formerly "the richest girl in the world." Five of the strikers are pictured here. Meantime, the strike leaders threatened to extend the "sit-down" through out the entire Woolworth system, demanded more pay, shorter hours. The 150 girls in this Detroit store, and a dozen in another, at at the store's fountains, slept on mattresses dragged into the aisles.

'FIVE-AND-TEN' GIRLS WIN WAGE INCREASE

Settlement of the strike at the Timken-Detroit Axle company was announced Saturday by United Automobile Workers Union. Sit-down strikers evacuated the plant in a "victory parade" and operations will be resumed Monday. Meantime, Representatives of the Corporation and Auto Union were reported "closer together" on the question of collective bargaining for the company's 67,000 employees. Yellow Cab Company officials at Chicago accused striking cabmen of using gas pipe "persuader" to force drivers to join a city-wide taxicab strike. Union officials estimated that 98 per cent of the city's 3,600 cabs were out of service. Officials of the Yellow and Checker Cab Companies admitted that at least 2,500 cabs still were idle. Special police squads made 21 arrests, including Oscar Kofkin, president of the Yellow Cab Union. One hundred fifty girls went back to work in two F. W. Woolworth stores in Detroit after a week-long sit-down strike which brought higher wages and a shorter work week to 1,200 employees in 40 stores in the Detroit area. The Committee for Industrial Organization will meet in Washington Tuesday to start a campaign which John L. Lewis, its chief, hopes will unionize several million unorganized workers.

Funeral Held for J. C. Hagar's Son

Funeral services for J. C. Hagar, Jr., little son of Mr. and Mrs. J. C. Hagar, was held at the Nazarene church Saturday afternoon at 5 o'clock. Rev. Luther Pryor officiating. Burial followed at Oakwood cemetery. Neil Lane's funeral home had charge of the body. Mrs. Hagar and her two sons were visiting in Fort Worth when both children were taken ill with pneumonia, one of which passed away Friday night, according to information received here early Saturday morning. Mr. Hagar is a pumper at the disposal plant.

GARLAND NANCE FUNERAL HELD HERE TODAY

Garland Nance, Jr., age 6, who had been fighting bravely for life for more than a week against heart weakening iron pneumonia, gave up the struggle Friday night about 10 o'clock and passed from this earth to the unknown amid sorrowing parents and loving friends at his bedside, after all had been done that could be by tender care and medical science. Funeral services will be held at the First Methodist church today at 2:30 in charge of the pastor, Rev. J. I. Patterson, assisted by Rev. J. B. Curry, presiding elder of the Cisco district, and Rev. J. W. Sharbut, pastor of the Winters Methodist church. Little Garland, born April 27, 1930, was the son of Mr. and Mrs. Garland Nance. Mr. Nance is vice president of the Nance Motor company, local Ford dealer. About one week ago his condition grew worse and he seemed to rally for a time. Thursday night an operation to drain the pleural cavity was made which relieved the intense pain and high fever condition for a time, but was only temporary. Two nurses were in constant attendance and near relatives, including his grandparents, Mr. and Mrs. S. H. Nance, were at his bedside at all times during the past days and nights of the critical week. Garland is survived by a little sister, Patsy Ruth, four and one-half years of age; parents, Mr. and Mrs. Garland Nance; grandparents, Mr. and Mrs. S. H. Nance; maternal grandparents, Mr. and Mrs. R. I. Collingsworth of Winters. Other near relatives are Mrs. Ford Taylor, Ballinger; Mrs. John Spier, Bastrop, La.; Mrs. Hartman McCall, Houston; G. W. Collingsworth, Rottan; C. H. Collingsworth, Merkel; Mrs. V. E. Coleman, Winters; Miss Luna Collingsworth, Winters; Mr. Ramphay Collingsworth, A. & M. College. Funeral arrangements are in charge of Green's Funeral Home. Pallbearers are: W. B. Statham, J. O. Barnhill, C. E. Yates, James Huddleston, B. H. Stephens and Roy Huffmeyer. Ushers will be chosen from the Goodfellow class.

PERFECT RAINS MAKE FARMERS SING FOR JOY

A slow drizzle has given Cisco and vicinity 1.6 inches of rain during the past few days and it is the wettest rain for that amount, men agree, that has ever fallen in the same length of time. The ground fairly oozes with moisture since it has all soaked in as it fell. Grain and tree buds are fairly shouting to burst forth at the first peep of the sun. Pastures will turn green while the fields and timber will be budding now. Corn and gardens will be hastened into the ground as soon as it dries sufficiently to work the fields. The farmer will be up with the lark, singing his song of industry, and all nature will be clothed for Easter, unless, perchance some erratic cold blast finds its way down from the Rockies or Canada's chilling heights. A new steel rig, purchased for the special project of drilling the Bearman No. 1 test in south Cisco, is being erected at the location. Timbers to be used in the building are also on the ground. Rain halted the erection of the later part of the week but with the advent of sunshine work will progress rapidly this week. Slush pit will be built west of the rig and the boiler placed southeast of the location. Drilling will start at the earliest possible moment. This test will be watched eagerly by Ciscoans and others over the country who have been expecting this townsite testing for the past few years—in fact since the completion of the Lase well which has proven such a consistent producer during the 14 years of its life. Those who claim to be able to judge by formations say there is no doubt but what the Bearman will be a producer and few doubt that other tests will follow immediately after the completion of this well should it be favorable to further drilling. Much valuable acreage is still intact in this contour and much wildcatting is expected to follow this test. Leasing may start before the completion.

U. S. CONFERS WITH FOREIGN NATIONS TODAY

WASHINGTON, March 6 (UP)—Secretary of State Cordell Hull conferred today with President Roosevelt immediately after discussing a pending French loan and operations of a monetary agreement with Representatives of the British government. Morgenthau refused to reveal what transpired at the meetings. PARIS reports said that under the agreement banks would not be permitted directly to take up the loan, but they could advise clients to do so. Paris reports said that under the agreement banks would not be permitted directly to take up the loan, but they could advise clients to do so.

ETHIOPIANS ENTER UNITED STATES REFUGE

WASHINGTON, March 6 (UP)—Secretary of State Cordell Hull revealed today that Ethiopia's natives invaded the compound of the American legation at Addis Ababa during the excitement which followed the bombing of Marshall Graziani. Hull said that the natives entered the legation compound during the excitement which spread over the Ethiopian capital after an attempt on the Italian marshal's life three weeks ago. He said no violence occurred at the legation. Reports from London had stated that many Ethiopians were slain after seeking refuge in the American legation. Hull asserted that the American decision announced Friday to discontinue its legation at Addis Ababa had no connection with the incident.

Homemaking Classes Work is Commended

Suplt. R. N. Cluck has just received the report of Miss Nell E. Dearmont, home economics supervisor of the state department of education, who made an inspection of the homemaking department work of Miss Martha Graves and Miss Esther Bradshaw, which says the standard of work in this school is good and the homemaking department is putting on a real program in Cisco this year. Miss Dearmont's report is the same as that made personally when she was in Cisco, February 9. At that time she complimented the work of the school and the homemaking department very highly. She suggests two full time teachers for this department next year.

County 'Old Aged' Pass Resolutions

At a gathering of between 300 and 400 old people at Ranger Wednesday afternoon Resolutions were drafted to Senator Wilburn Collier after discussions of the old age pension question and its clauses, which have caused much dissatisfaction to pensioners over the county and state. W. W. Kelly and Mrs. Lula Riddle, of the investigation department of old age assistance in Eastland county, were present and explained parts of the law in question. A number of speakers appeared on the program which was of some three hours duration. Pie was served at the close of the meeting. A resolutions committee was appointed and the following resolutions were adopted.

LOYALISTS TO COLLECT ANTI-GAS EQUIPMENT

MADRID, March 6 (UP)—The loyalist high command ordered the immediate collection today of all available anti-gas equipment for distribution to troops defending the capital. The order followed a rebel air bombardment of Jarama near the capital, leading to the supposition that some of the bombs were filled with gas. The Madrid defense committee ordered troops on the central front to be on the alert in the belief that a general rebel offensive was imminent. Loyalist artillery was active during the day. Rebel reinforcements were understood to total more than 25,000 men. Many insurgents besieged in the hospital in University City were buried under tons of stone and brick today, when a large portion of the building collapsed. The six-story building, weakened under persistent cannonading and recent heavy rains, was destroyed.

New Steel Rig Being Erected for Bearman

A new steel rig, purchased for the special project of drilling the Bearman No. 1 test in south Cisco, is being erected at the location. Timbers to be used in the building are also on the ground. Rain halted the erection of the later part of the week but with the advent of sunshine work will progress rapidly this week. Slush pit will be built west of the rig and the boiler placed southeast of the location. Drilling will start at the earliest possible moment. This test will be watched eagerly by Ciscoans and others over the country who have been expecting this townsite testing for the past few years—in fact since the completion of the Lase well which has proven such a consistent producer during the 14 years of its life. Those who claim to be able to judge by formations say there is no doubt but what the Bearman will be a producer and few doubt that other tests will follow immediately after the completion of this well should it be favorable to further drilling. Much valuable acreage is still intact in this contour and much wildcatting is expected to follow this test. Leasing may start before the completion.

Choral Club Girls Sing at Methodist

The high school choral club, consisting of 40 girls will sing at the First Methodist church at the evening services today. Two special numbers will be rendered: "Have Thine Own Way Lord" and "Softly and Tenderly". The girls are trained by Miss Ella Andres teacher in the high school. The evening sermon subject will be "For a Woman's Sake." The morning subject is "The Christian's Hope."

'Friendly Boys' Enjoy Meetings

The two divisions, Vigilantes and Eagles, of the Friendly Boys clubs met with their captains and advisers, Friday afternoon at the East Ward school building and enjoyed games and a lunch of hot dogs and apples. The Vigilantes won the pie contest by having the larger group present. Another meeting will be held Tuesday. Rev. Joe I. Patterson, Rev. M. H. Applewhite and T. C. Williams, advisers for the boys and Euders Huey and Donald Surles, leaders of the groups are sponsored by Lions and Rotarian clubs of the city, who are financing the lunches. A membership drive is being continued and boys work so far as proper ideals are concerned are to be constantly emphasized. The leadership of young Huey and Surles is very commendable and is appreciated by all Ciscoans interested in development of boys who are to be the men of the future. The meeting was scheduled for out of doors but was rained out.

TO BE AIR-CONDITIONED PANHANDLE IS RELIEVED AND SOUTH SOAKED

LONDON (UP)—As soon as the results of experiments in air-conditioning now being carried out on a secret underground railway below the busy streets of London are known, the air-conditioning of the whole of London's "tube" system will be undertaken it has been revealed.

Parents Club Takes \$25.20 Net

Parents club sale at Gas Corporation for the club is very successful and expresses its sincere appreciation, netted \$17.00 while the amount at the high school sale amounted at \$22.45, half of which went to the King Felton endowment. After paying \$5.00 for the building, the balance received for its part of the receipts, after Robert L. Maddox said.

Smash Window, Take \$2,100 From Grocer

Houston, March 6 (UP)—Two gunmen smashed a window from an auto, took \$2,100 in cash from M. C. Balshaw, owner of a chain grocery and escaped here today.

Duke to See Mrs. Simpson in Movies

CANNES, France, March 6 (UP)—Mrs. Wallis Simpson and the Duke of Windsor, separated for three months, have devised a plan by which they see each other in the movies, it was learned today. Each takes a small movie film today showing parts of the day's activities and these are exchanged by mail.

Coolidge Collides With Tanker Craft

SAN FRANCISCO, Calif., March 6 (UP)—The Dollar Line's President, Coolidge outboard for the Orient, collided today with a tanker in the Golden Gate channel. The tanker was reported sinking. Coast guard cutters and other craft sped to the scene. Globe wireless reported the crash occurred in a dense fog. An unconfirmed report said the tanker was the Texas company's "New Zealand" also outward bound.

Championship Will Be Decided Tonight

AUSTIN, March 6 (UP)—Carey and Guber were to play the final game to decide the Texas high school basketball championship at 8:30 p. m. here tonight. This morning Guber defeated Livingston, 33 to 26 in a hard fought battle. Carey outclassed Fort Worth Polytechnic 27 to 10 in the first game.

WEATHER

EAST TEXAS—Cloudy; probably rain Sunday. WEST TEXAS—Sunday generally fair.

About Our Friends

By STEPHEN A. LONG
The Garland Nance has paid debt that all mortals owe. He passed the portals of death and taken his journey into the beyond while we like to think that spirit hovers ever near. We do not understand the wisdom of the Creator who takes some the sweetness and purity of life and leaves others of us to endure suffering, sorrow, troubles. Perhaps there is work for us to do, or it may be God wants us to live until our evil spirits have been refined purified by sorrow and suffering that will fit us to join loved ones in the eternity beyond. The Word tells us in no unambiguous words that we are refined our souls made more perfect sufferings such as comes to mortal men in his sojourn on this hilly sphere. Perhaps the little gentle life that has dwelt for a while, and then taken its wings for flight to join the angels of heaven has left his impression upon lives of his parents, his grandparents, loved ones, and friends that make their lives more beautiful to they carry on, and give them added incentive to sometime join in the glories of eternal joy. Our hearts go out to those who left behind and hope that our efforts to express our sympathy be some crumb of comfort to them in their bereavement.

A. White assessing taxes for city and state... Dr. E. S. James... W. Frank Walker both getting spring bonnets... Easter must come... and those getting suits would be too innumerable to mention... A few of the ladies have escorts on that dress up men will get out our old last son's hat and get the tailor to make a few carefully laid creases the last year's suit and we will be ready... Perhaps a new tie to go with the grey suit add dash to ensemble.

WINTER RANCH IS IN LITIGATION BETWEEN HEIRS

WINTER, March 6 (UP)—Federal Judge M. Kennerly today gave until March 20 to file claims on the King Ranch receiver's report at the conclusion of arguments.

Fisher, Chicago attorney, on behalf of Edwin and Wood of Chicago, grandsons of the late south Texas Captain Richard King 1,400,000 acres properties, placed in receivership. Woods also seek a \$40,000 settlement of the affairs of the ranch under the will of Henrietta King, widow of...

What's News Today

Split in the ranks of unions represented by leaders John L. Lewis and William Green delays plans for conferences regarding measures to be taken regarding compromises or strike settlements. Perhaps steel will get a respite from actual strike while these foes are busy with their own plans for elections and reorganization.

The judicial reform fight continues or rather begins, the intense struggle between friends and foes of the president's plans. It is to be a fight to the bitter end but even the most optimistic of foemen admit the probabilities are that he will win when he goes on the air in his fireside talks. The president is admitted to be one of the world's most convincing speakers, making his logic follow in consequence that leaves nothing left to say that might further clear his subject. Mr. Roosevelt's manner is calm, convincing and none seriously doubt his honesty of convictions and propose.

The great German actress, Marlene Dietrich, whom Hitler is said to have offered riches, honor and the leadership of the German movie in his empire is she would return to Germany and take charge, has renounced forever her German birth and pledged to support the Constitution of the United States by making application for citizenship papers. Two years later she will return for final decree, and if successful, will become an American citizen. She draws \$6,000 per week, it is said.

Paris releases her clutch on her gold store and announces a program to lure to her aid, hidden money now in the hands of her citizens at home or abroad. The policy may help the United States by retarding the flow of foreign investments to our shores. More nations are in for financial troubles as it becomes harder and harder to find the money to continue war equipment budgets.

Germany and Russia are certain to fight, youth of Germany are told in a talk by a famous World-War commander. The fighting spirit of German youth is kept at the highest pitch by talks like this all over the nation. More soldiers must be raised from the ranks of youth and more funds must be found to pay the vast expense. Militarism is rising in Europe and must be kept burning brighter for the struggle which seems inevitable.

Meanwhile, our own youth are thinking about making homes, establishing business and careers, declaring that their aims are for peace. It is well, however, if danger should threaten us or ours, the commercial veneer would peel off and we would fly back to primitive passions which lust to

Children's Author

Crossword puzzle grid with clues and a small illustration of a woman's face.

OUT OUR WAY

NICE GUY

kill, almost over night. The American youth, boys and girls, will not be found lacking if the need arrives.

The boys will make the finest soldiers ever placed on any battlefield, and the girls the most efficient nurses to render mercy at any front. And why? Because they are intelligent, educated beings directed by reason rather than brute passions of ignorance.

Enemies of the big fleet idea were routed in the first skirmish and now we are on the way to arm for whatever may threaten. But to be armed is a good road to peace. The nation that is prepared is not likely to be too quickly attacked, and we are in no danger of aggression against any country. With our spirit of attending to our own business we are not in any danger of using our war tools illegally.

Meanwhile oil development for the immediate vicinity of Cisco seems more eminent now than at any time in years. The new steel rig being placed at the Bearman No. 1 test in south Cisco bids fair to attract much development if oil is found. And is almost sure to be found in more or less abundance. Bearman, Hickok, Kleiner, Reynolds and other lesser capitalists are betting \$25,000 on the fact.

There Is No Substitute for PAID Circulation

BEGIN HERE TODAY DAPHNE BRETT, charming young New York advised executive, rents her deceased father's Connecticut estate to LARRY SMITH, attractive bachelor architect, and immediately finds herself liking him tremendously. Daphne has one sister, JENNIFER, six years younger and just out of college. Jennifer is a vivacious, somewhat selfish sister who resents Daphne's guidance and her first night in New York she dates TUCKER AINSLEY, Daphne's old beau. Then Daphne sees in Jennifer a challenge to get a bit more from her own life than a career. Daphne believes Larry is married until Jennifer announces one night that Larry had called and is NOT married. She says she's going to set her cap for him. The next Sunday Tuck and Jennifer and Daphne visit Brett Hall and Larry. Larry asks if he may see Daphne again. Back in New York Jennifer tells her sister she's not so fond of Larry. Daphne denies this but a silent struggle between the girls for the same man becomes fact.

CHILDREN'S AUTHOR

ANNE COCKERELL shook herself and bent her head forward. Water ran in rivulets down the brim of her hat and fell on the carpet as she bent to remove her overshoes.

"Get your lazy bones out of that chair, Jennifer Brett, and give me a hand with these packages," she said.

"Sorry, darling, I didn't know you needed help," Jennifer took Anne's umbrella and coat. "Come over by the fire. I'll bring you some dry slippers. How about a cup of hot tea?"

Anne sighed and then smiled. "Jennifer, when I get ready to scold you, you go and get sweet on me."

"So that's why you came early? Can't you wait until Daph gets here and you can both give me a good combined lecture?" Jennifer tweaked a curl at the back of Anne's head.

"No, that isn't why I came early. I wanted to see Daphne and we had planned to have dinner together tonight but I've got to work so I dropped by on my way home. And I'm a girl who believes in seizing opportunities. Like this one. I just thought maybe we could have a good old-fashioned talk."

"About what, Anne, men or money?" Jennifer was pleasantly impudent.

"Money." Anne was curiously embarrassed. "I mean about Daphne's money. I know you aren't going to like this, honey, but I think you ought to know about it. Daphne's sending you to a secretarial school means that..."

East Ward School News for the Week

First Grade Roger McNeill has moved and is transferring to West Ward Monday. The rainy weather has cut our attendance thirty per cent. Our room mother, Mrs. Tom Smith visited us Monday. Mrs. Aubra Wooten visited our room Thursday afternoon. Betty Lou McAllister is our prize reader for the week. Ruth Inez Cook is prize speller for the six weeks. She has not misspelled a word this semester. Joe Perez will report the first grade news the next six weeks. Billy Albert Barron, Reporter.

Second Grade News Lillian McGriff, who has moved to 206 West Eighteenth street, has been transferred to West Ward. We are sorry to lose her. Mary Lou Fleming's sister, Mrs. Dell Price of Baird is visiting relatives here. Jeanie Leopold has been absent this week because of illness. LaVerne Stoffey has been selected as news reporter for the next six weeks. Billy Glenn Campbell, Reporter.

Third Grade News Louise McNeill has been transferred to West Ward and will continue her school work there. Howard Bailey and Carroll Jean McCrary visited relatives in Ranger last week-end. Fay Crowder, Reporter.

Fourth Grade News Daniel McGriff and Eugene McNeill have withdrawn to go to West Ward. Wanza Jean Slatton has withdrawn because she has moved to Seranton. Gilman Kinard has been absent due to illness. Lillian Wileay has returned after a few days of absence with the influenza. Norma Lois McAllister, Reporter.

Fifth Grade Our news reporter, Alline Ely has been out with the flu. The twins Elvin and Alvin Brasher have been out because of flu. The East Ward school has several new bats and balls. The fourth and fifth grade are practicing the spelling list of the Leads Spelling contest. Miss LaUna Cook visited our room Wednesday. Essie Fay Hagen and Harmon Elder have been absent on account of the flu. Our teacher, Mr. T. C. Williams attended the banquet for the students of the Texas university March 2. Dorris Bell Perdue, Reporter.

Cisco Boy Writes of Sit-Down Strikers

Here is a letter right from the scene of the strike center in Santa Monica, Calif., where Robert E. Lee, son of Mr. and Mrs. R. I. Lee, of Cisco, is working for the largest aircraft plant in the world and which has been seriously handicapped by sit-down strikers.

"Dear Mother and Dad: Here is another beautiful day. There have been only a few cold days during all the winter and now spring is really in the air. I went back to work today, but boy, it takes a lot of grit to do it. The sit-downers were moved out of the plant but there is still a big picket line. Today there were about 500 men marching back and forth in front of the factory, and every one who went to work had to break through to get in. This strike business isn't so pleasant. Last night a delegation of strikers called on me, but I was asleep and my landlady wouldn't let them awaken me. I am going to keep on working if I can dodge the 'Black Jacks'. There were only 4 of them in my department who went to work today—that means the other 12 have joined the union and will try to get us four out, but I hope I can stick it out and keep working. I know for a fact that my work has been good and has given perfect satisfaction and I will get along alright if the union will let me alone. I will write if anything unusual happens. Lots of Love, 'BOB'."

CARD OF THANKS We wish to acknowledge with sincere thanks and appreciation the beautiful floral offerings and the kind expression of your sympathy at the time of the death of our beloved father, GEORGE M. REYNOLDS. A. M. REYNOLDS, G. F. REYNOLDS, MRS. ABBIE WHITE, MRS. J. M. CARU DANIELS.

CARD OF THANKS We wish to thank our friends for kind words and needs given during the recent illness and death of our mother and sister, Mrs. M. E. Holcomb and to extend our sincerest appreciation to all for floral offerings and other acts of sympathy. O. C. HOLCOMB, J. C. HOLCOMB, And Family, MRS. J. J. MULLOY, And Family, MRS. CALLIE MCAFEE, MRS. ADA HGGINBOTHAM.

CARD OF THANKS In the bereavement caused by the death of our beloved husband and father, L. E. Clark, we are grateful for the condolence and words of sympathy expressed by thoughtful loving friends. MRS. MAE CLARK, R. L. CLARK, GARVIN CLARK, MRS. ESTA LEE ROGERS.

Separation Advertised

A personal notice in New York newspapers that she had left his home and he would not be responsible for her debts was interpreted by acquaintances of Mr. and Mrs. Julian L. Reynolds as indicating they were at the parting of the ways. Helen Fortescue, leader of the younger social set, and the tobacco fortune heir were married last summer. They are pictured together at the inquiry into her truck "borrowing" prank that followed a merry party.

LOVING CUP IS AWARDED TO LOCAL GROUP

Leadership in 1936 in promoting company business and raising the standards of customers service was rewarded Friday night at a banquet in the Laguna Hotel when employees of the Cisco district of Community Natural Gas company received a bronze loving cup from the donor, M. L. Bird of Abilene, general superintendent of the Abilene division of Community Natural. The trophy is presented each year to the district in the Abilene division that produces the best record on a per meter basis in promoting business and raising service standards during the preceding year.

Complimenting H. L. Dyer, manager, and employees of the Cisco district on their outstanding record of 1936, speakers pointed to the program of gas service that is maintained by the entire employee personnel of Community Natural. Speakers were Mr. Bird, who presided as toastmaster; C. L. Trevitt, new business manager for Community Natural; Guy Cluster, sales supervisor for the Abilene division; E. H. Durning, sales representative of Detroit-Michigan Stove company, and Bruce Cunningham, editor of Blue Blaze News, company employe magazine, all of Dallas; W. H. LaRoque, managing editor of The Cisco Daily News; R. H. Gray, manager, and Joe Daniel, sales supervisor of the Abilene district of Community Natural; L. D. Black, manager of the Eastland district, and A. P. Rowland, manager, and Don Ferris, new business solicitor for the Brownwood district.

Chapman Williamson, manager of the Laguna Hotel, extended congratulations to Mr. Dyer and his employees. He extended appreciation as having Community Natural employes as guests of the hotel and invited them to choose Cisco as the site of the 1937 picnic for West Texas employes of the Lone Star Gas System to be held during the coming summer.

Enthusiasm of each employe and his desire to give the best service possible to all customers, are the reasons for the success of the Community Natural organization," Mr. Bird said in his address. "These are the reasons why the Cisco district led the entire Abilene division in 1936 in promoting company business and raising the standards of service."

"H. L. Dyer, manager, and employees of the Cisco district are to be congratulated for winning this trophy. Success of any organization depends on the enthusiasm of its employes. Success is what it takes to do a good job. Our company is fortunate in having a group of enthusiastic employes and all employes are to be congratulated for 1936 efforts, even though their respective districts did not receive a trophy. "It is not the cup itself that is important, it's the spirit that is responsible for winning it—the desire to effect a perfect gas ser-

American Princess

This stunning brunette, Virginia Thomas, junior at North Texas State Teachers College at Denton, might be termed an "American Princess" since she was chosen to play that role in the next production of the College Players by that name. The play was written by Mrs. Olive M. Johnson, a member of the speech faculty of the College, and it will be presented March 11.

It's a great deal of pleasure to present this cup to Mr. Dyer and employes of his district. In accepting the trophy, Mr. Dyer paid tribute to the work of employees of the Cisco district.

"To my fellow workers," he said, "I wish to express my thanks for bringing this cup to Cisco district. With out their fine spirit of cooperation it would have been impossible to receive it."

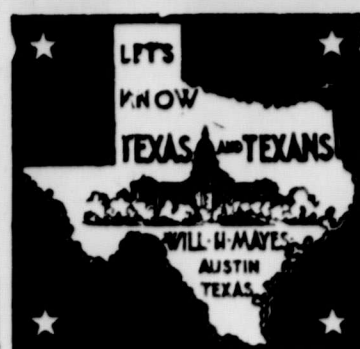

Other employees of Community at Cisco are J. D. Franklin, foreman, Uric L. Bennie, assistant foreman, and Miss Blanche Van Horn, cashier.

"Better merchandising makes it possible for consumers to have better gas service," Mr. Trevitt said in discussing the success of Community Natural in its last year's program of raising the standards of service. "You are working for the best interests of your customers when you bring to them the advantages of modern and up-to-date gas appliances."

"I add my congratulations to the Cisco district for the outstanding part played in our 1936 work of bringing better service to customers."

Guests at the banquet were Mr. Bird, Mr. Trevitt, Mr. Cluster, Mr. Durning, Mr. Gray, Mr. Daniel, J. L. Hughes and Dix Carmichael, new business solicitors for the Abilene district, Mr. Rowland, Mr. Ferris, Mr. and Mrs. Dyer, Mr. and Mrs. Franklin, Mr. Bennie, Miss Van Horn, Mr. Black, B. A. Butler, Mr. LaRoque and Miss Catherine Pettit of Cisco and Mr. Cunningham.

PATRONIZE OUR ADVERTISERS

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquirers must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. Why did the Fredonian rebellion so signally fail?

A. It was supported only by a few colonists with grievances and a small number of Indians; the Mexican government was aroused to strong opposition, believing it was inspired by the United States to get possession of Mexico; the other Texas colonists did not wish to encourage such a feeling and refused to aid Edwards and his rebellion was easily suppressed by stronger forces.

Q. What became of the first San Augustine Episcopal church and do you know the history of the bell?

A. The church was wrecked in a storm in 1859. The bell was cracked and sent to New Orleans to be used in making Confederate cannon. It was seized there by Gen. B. F. Butler as contraband of war and sent to Boston.

Q. What was the Fredonian flag?

A. Strips of white and red cloth signifying the alliance of white people and Indians. On the white (above) were the words "Independence, Freedom and Justice," and beneath these words the names of these Fredonians: Hayden Edwards, Harmon B. Mayo, John Dunn Hunter, Richard Fields, Martin Palmer, Benjamin W. Edwards, Joseph A. Huber, Burrill P. Thompson, John Sproy, W. B. Legon, Ne-Ko-Lake, Cuk-To-Keh, and John Bags (the last three Indians).

Q. What became of Jean LaFitte?

A. When he established himself on Galveston Island, he had orders not to interfere with American

cargoes, but his men and vessels grew so troublesome that a United States brig was sent, in 1821, to notify him to leave the island. When he found the order was imperative he paid off his men, and with 100 men sailed out of the harbor on his favorite ship, the Priede. He died at Silan, near Merida, Yucatan, in 1826.

INSIST ON MAXIMUM WIRING

IF

Building or Remodeling

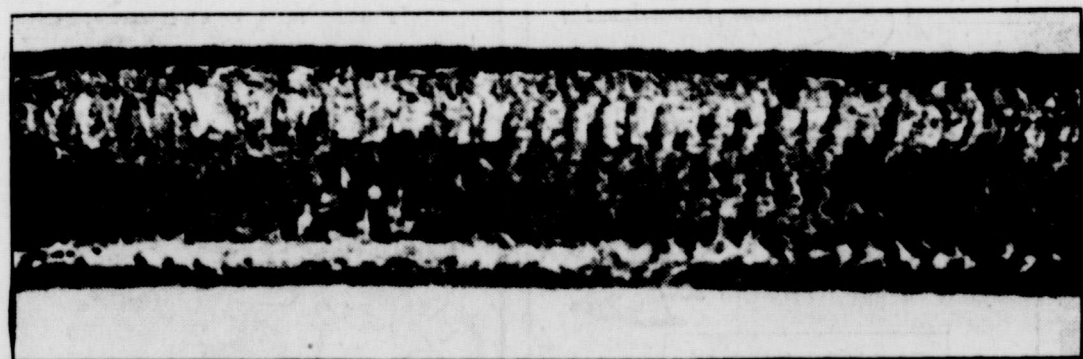

Here's what happens when wire is overloaded

Actual photographs of a wire taken from a West Texas bank when the building was rewired to meet the demands of additional lighting and appliances put in use since the structure was built.

ABOVE: Wire with insulation blistered. Such heating causes energy losses of as much as 25 per cent of light bulb or electric appliance efficiency.

BELOW: A new section of larger wire used. Both photographs are enlarged to several times actual size of wire.

Good wire may save you 25 per cent

DO YOUR LIGHTS DIM--OR FLICKER--When More Load Is Added to Circuit?

You throw away 10 CENTS out of each DOLLAR when, due to defective or insufficient wiring, the circuit in home, business or factory becomes overloaded. Twenty-five per cent of your efficiency may be lost, gone up in heat! If the wire is overloaded, it heats—wastes that much energy. For economy's sake, insist that your new building—either home or business—be equipped with wires large enough to accommodate the maximum load demand, or power required.

Time to Plant the Half-Acre Garden

COLLEGE STATION, March 6 — "One half acre of garden, properly cared for, will produce an average of \$100 worth of food for the family." This statement was made by J. F. Rosborough, Extension horticulturist, who pointed out that year in and year out, the garden should be the most profitable area on the average farm.

For each member of the family, 600 feet of row space should be allowed, Rosborough said. To supply a balanced vegetable diet, this 600 feet of space should be divided into 200 feet devoted to potatoes, 100 feet to tomatoes, and 200 feet to such miscellaneous vegetables as onions, leeks, and turnips.

Over a large portion of the state, the time is at hand to plant Irish potatoes, according to Rosborough, who recommends the Triumph and Irish Cobbler varieties. Cabbage and onion plants should be set out, and tomato plants started now. For deep South Texas, where most tomatoes have already been planted, Rosborough indicated that the Escimo Best tomato was a good all around variety, while for the rest of South Texas and East Texas, he preferred the Marglobe. He favored the Earliana, June Pink, or Magee for the blackland belt, and Earliana or June Pink for West Texas.

English peas should be planted in rows that have been laid off 12 inches apart with 34 to 39 inches between rows. By this method, the peas will tend to support each other in their upward growth, Rosborough pointed out.

Wheeler Serious About Marriage

Contracting himself with the warning that marriage, a "serious business," can not be mixed with his stage roles, Comedian Bert Wheeler climaxed his long courtship of Sally Haines by filing intention to wed the actress. Wheeler has been divorced twice. Miss Haines, shown with him at the Santa Anita, Calif., race track recently, was once widowed, once divorced.

WHY FORD USES ONLY

V-Type

8 CYLINDER ENGINE

FORD CARS have always been built around a basic idea. The Ford became famous because it filled a fundamental need—"Dependable, economical transportation."

As roads and cars improved, Ford kept ahead. In 1932, a new fundamental step was taken—the introduction of the V-type 8-cylinder engine in a low-price car.

The V-8 engine was not new. It had been used for years. But always in large, expensive cars. Ford found the way to produce this really superb power plant in a really low-price car.

Today, more than three million owners are enjoying brilliant Ford V-8 performance on the road. Their cars are set apart from other cars by a fundamental principle—the V-type 8-cylinder power

plant—not merely the temporary styles and fads of the day.

Eight cylinders give smoothness, performance and flexibility that a lesser number of cylinders, naturally, cannot give. And V-type is the most advanced power-plant construction—on land, water, or in the air.

Still pioneering, Ford provides for 1937 a choice of two V-type 8-cylinder engine sizes. 85 horsepower for top-notch performance. 60 horsepower for rock-bottom economy.

Each is built into the same big, roomy car, with the same modern features. Each will prove to you in its own way, how much the modern V-8 engine helps to make the Ford V-8 the

QUALITY CAR IN THE LOW-PRICE FIELD

Ford V8 for 1937
