## bout Our Way Cleared For Wally's Divorce MILITARY BOARD TO MAKE INQUIRY AS TO CAUSE OF **NEW LONDON SCHOOL BLAST**

NEW LONDON, March 19. (UP)-A Military Board of Inquiry was established today to determine the cause of, an explosion that wrecked the world's largest rural school, and killed approximately 411 school children, and 14 of their teachers, a total of 425.

The board said it would inquire into reports that the explosion was caused by a deliberately set dynamite charge, and not accidental explosion of accumulated natural gas, the generally accepted theory. Approximately 1,000 workers of the surrounding East

Texas oil field neared the bottom of the ruins at midmorning, and it became apparent that tew more if any bodies, would be found. Only five bodies had been found since dawn, and all so

badly mangled that they could not be identified. It was believed that the final toll would not vary greatly from 425. The toll of injured stood at 125, of which 8 were ser-

iously hurt. Little hope was held for them. Colonel Clarence E. Parker, absolute ruler of the disaster scene, under the authority of Governor James V. Allred's proclamation of martial law, ordered a Military Board of Inquiry to meet at noon.

It was generally agreed by all authorities including C. E. Shaw, superintendent of the school whose own 17-year-old son was one of the victims, and national guard officers, that an accumulation of natural gas in the building's subbasement caused the explosion.

At the same time that the Military Board meets, members of the New London school board, officials of the oil companies operating in the East Texas field, and military authorities will inspect the ruins.

#### DYNAMITE FOUND IN SCHOOL BUILDING

Reports that there had been a dynamite explosion arose from the finding of 15 sticks of unexploded dynamite in a school building not touched by the blast. BEGIN HERE TODAY DAPHNE BRETT loved LARRY SMITH, architect. Larry had re-peatedly asked her to marry him. But Daphne had always refused, not telling Larry, however, that she first wanted to lay aside suf-ficient money to launch JENNI-FER, her young sister, on a career.

by MARIE BLIZARD

FER, her young sister, on a career,
Jennifer had proved the selfish sister from the start, defying Daphne at every turn. Finally Jennifer meets GORDON HERZ-BERG, theater producer, and apparently finds her work.
Then Daphne is sent on a two-months' sales tour across the continent. Before she leaves, Larry again asks her to marry him, and again she refuses. So Larry says goodby, assuming that Daphne cares more for her career than she does for his love. And then to make matters worse, Daphne finds on her return that Larry is dating Jennifer! Huet, angry, terribly unhappy, Daphne reaches the crisis of her love. What is she to do! Suddenly she decides to contact Herzherg.

THE Cellophane THAT MAKES The Difference She had been avoiding coffee put up in paper bags. But a friend was so enthusiastic about Admiration-"In the 'CELLOPHANE' bags, you know" - that she tried it. She found it just as fresh and good as the coffee in glass jars and vacuum-packed cans . . . . AND about 4c per pound less in price! Admiration's triple-sealed bags - inner wax lining, tough bond wrapper and moisture-proof outer jacket of Cellophane - plus fast truck delivery from roasting plant to your grocer, make Admiration in bags the ideal way to buy coffee. The thrifty housewife who demands full value for her money will appreciate the savings afforded by buying Admiration packed this way. Admiration Coffee in bags comes in two grinds - Dripku! and Steel Cut - just as it does in vacuum-packed jars and slip-covered Duncan's DMIRATION
