## STRIKERS ABANDON CHRYSLER PLANTS

### SHOPS CLOSED WHILE TERMS DISCUSSED

DETROIT, March 25 (AP)—Six thousand sitdown strikers began to march out of Chrysler Corporation's plant in Detroit today to clear a path for strike settlement negotiations between John L. Lewis and Walter P. Chrysler at Lansing, the state capital.

The nine plants represented \$50,000,000 worth of Chrysler property which had been occupied sixteen days in a strike affecting 60,000 employees.

A truce agreement between Chrysler and the United Automobile Workers of America, required abandonment of the plants, reached in Governor Frank Murphy's office at Lansing last night. Its terms were ratified by the sitdowners in a vote this morning.

In return for ending their sitdown seige, the strikers obtained an agreement from Chrysler that it would not resume plant operations during negotiations, nor transfer machinery. The negotiations would proceed on the union's demand that it be sole collective bargaining agency for Chrysler employees.

With the ratification vote Hamer Martin, President of the United Automobile Workers, raced to a telephone to notify Lewis at Lansing. Governor Murphy announced that settlement would be resumed "early this afternoon."

## Britain Opposes Blockade Plan of France

### THINKS PLAN MIGHT CAUSE GENERAL WAR

LONDON, March 25 (AP)—France proposed a naval blockade of the Spanish coast today. British authorities indicated their unwillingness to accept it.

The French suggestion was to transform the present naval observation patrol into a real blockade, under which the warships of Britain, France, Italy and Germany would search and turn back any vessel suspected of carrying men and munitions to Spain.

British sources made it clear that England does not wish to risk war with Germany and Italy to make non-intervention effective.

### Cisco Gas Corp. To Make Public Heating Safe

The Cisco Gas Corporation announces today that it will use a chemical through its pipes known as "Calodrant" to make known to users if there should be leaks in any of their pipes.

This chemical is harmless but very pungent to the sense of smell. If there should be leaks anywhere in the pipes this unpleasant odor would be immediately detected and the company should be notified.

Meanwhile, they announce that all school buildings have been thoroughly checked for leaks and were found in perfect condition.

### Let Easter Come, the Quins are Ready! Just Look at Their Finery

Easter sunshine—or cloudy skies? Yvonne is ready to greet, either, with a smile or a frown, thinking of the effect on her new Easter finery.

Cecile, even though almost entirely hidden by her Easter millinery she is trying on, is intent that her hair be properly done, and gives it a few last deft touches with the brush in preparation for the festivities of the Easter season.

Marie, who has pushed back her broad-brimmed Easter hat to comb her luxuriant dark hair, is also intent on getting in those last touches that will make the spring fashion parade as successful in Cullander as in Paris.

### Dust and Cold Bring Unpleasant Weather

DALLAS, March 25 (AP)—Thick dust, borne by a strong north wind, sifted southward across Texas today, reaching Austin and Palestine as skies cleared in the Panhandle.

The norther brought freezing weather for the Panhandle and sharply lower temperatures southward to central Texas.

Shippers were warned to guard against a minimum temperature of 22 to 29 degrees tonight, within a 200 mile radius, portland from Dallas, freezing weather for the same distance eastward and westward and probably southward, nearby to Houston tonight.

### Fire Training For Cisco and Neighbors

Four Cisco firemen attended the fire instruction drill at Eastland last night when Frank Williams, state fire fighting instructor, connected with the A & M training school for firemen, spoke and conducted a drill.

Fire chief J. J. Collins announces a meeting for Cisco Friday night to which surrounding towns in the Oil Belt have been invited, at which time Mr. Williams will conduct further training and will lecture on latest methods and devices for fire fighting.

Those attending the meeting at Eastland were: Chief Collins, Clarence Tunn, Buster Cleary and L. E. Robinson.

### TOTAL OF BUS FIRE VICTIMS HITS 20 MARK

SALEM, Ill., March 25 (AP)—Fatalities in the overturning and burning of a bus near Salem reached 20 today with the death of Mrs. Emily Thomas, 19, wife of Richard Thomas, driver of the ill-fated machine.

Preliminary investigations showed that a front tire blew out as the bus roared along the highway at 40 miles an hour. The machine nosed into a roadside ditch, careened into a concrete abutment, turned over and burst into flames.

### Pagan Land Provides Easter Lily; Quest for Ideal Flower Continues

CINCINNATI, Ohio, March 25 (AP)—Easter, it seems, has no lily to call its own. Botanists explain that a number of varieties have been honored in the past as "Easter Lilies," and the most popular today originated in the Himalayas—where Christianity is one of the least accepted religions.

Florists recall that the first lily generally accepted for Easter use was the Madonna, which also was called the Lent and Annunciation lily. That, however, gave way to species more easily grown in hothouses.

After the Madonna came the Lillium Hanissii, imported from Bermuda, which reigned for years, only to be replaced by the L. Longiflorum which was exported by Japan in its use of flowers and bulbs as an important portion of its program of industrial expansion.

Before today's favorite, Lillium Giganteum, was imported from Asia, and other Asiatic varieties have held Christendom's fancy for brief periods. They included Multiflorum, Formosum, from Formosa Island; Erabu and Vaughanii.

Florists believe it will not be long, in this country, at least, before the swing is to another variety of the bloom for Easter. Lillium Giganteum does not do well in most sections, although in England it often reaches the height of 10 feet.

### OFFICERS FROM FOUR COUNTIES QUESTION TRIO

WAXAHACHIE, March 25 (AP)—Officers from four North Texas counties came here today to interview three men held for questioning regarding a series of automobile thefts and wholesale robberies at Farmersville and Rockwall.

The trio escaped Wednesday morning from the jail at Venus, Johnson County, where they had been detained. Dallas detectives identified one youth as an ex-convict, wanted in Dallas for automobile theft. Johnson County officers prepared to charge the three with automobile thefts.

### Country Club to Elect New Staff

There will be a meeting of the stockholders of the country club tonight at the chamber of commerce at 7:30.

The purpose of the meeting is to elect new directors for the coming year. All stockholders are urged to be present.

### Gas Leak Blamed For Explosion

SWEETWATER, March 25 (AP)—Leaking gas was blamed today for an explosion which practically demolished the home of Clint Gardner, injuring Gardner's two children and his mother-in-law.

The small bungalow was shifted from its foundation by the explosion. Its windows were blown out and the roof collapsed.

### SCHOOL BOARD WAITS REPORT FROM ABILENE

Further hearing has been held by WPA offices at Abilene today, when those officials say they expect to begin at once, D. J. Russell at noon today.

The project has already been approved by all parties including the government, and the minor changes submitted by the school board are to be acted upon by the staff at Abilene, it is announced.

It is expected that word of approval of the minor changes would be received today. Work is to start immediately school officials are in order to finish the work in the 90 day limit for all projects.

### Giant Smokestack Dynamited Sunday

RANGER, March 25 (AP)—Arrangement was made here today by the Thurber Salvage Company that the 160-foot brick smokestack at Thurber would be dynamited Sunday afternoon, March 28, at 1:30 o'clock.

The stack is 14 feet square at the base, is 160 feet high with about 500,000 brick going into its construction. It was built in 1897 and for 39 years carried seven brick kilns.

Dynamiting of the huge stack, which is one of the largest in Texas, will be done by Charlie Hamilton on Easter Sunday.

Safety zones are to be established in order that all who would like to see the huge stack thrown down by a dynamic charge can do so and the public has been cordially invited to be present when the charge of explosives is set off and the stack topples to the ground.

### Schools Take Time Out For Easter

School children are taking a rest from duties today and teachers are wondering what they are to do with their time as the city schools take time out for Easter and a little break from the long session since Christmas.

### Senator Denounces Sit-Down Strikes

WASHINGTON, March 25 (AP)—Senator Rush D. Holt, democrat of West Virginia, charged today that sit-down strikes are "more dangerous than a foreign invasion."

While congressional leaders considered possible mediation legislation to deal with the strike wave, the youthful West Virginian criticized "a few unscrupulous labor leaders" who, he said, have employed "un-American processes" to reverse a "very strong trend toward improvement in the lot of workers."

### Shallow Well Work Started Near Cisco

Work was scheduled to start Wednesday on the S. R. Boggs No. 2, Frank Penn, section 11, B. B. B. & C. Ry. company survey, block 3, three miles west of Cisco.

The well is planned as a 250-foot operation. It is 350 feet north-east of No. 1 Penn, which was dry at 237 feet after a showing of oil from 230 to 235 feet.

No. 2 Penn is 450 feet west of the east line.

### April 4 to 11 Fire Prevention Week

Fire Marshall O. Gustafson announces cooperation of the city forces and civic clubs of the city with his department in emphasizing Fire Prevention Week, April 4 to 11. Mayor J. E. Berry is to issue a proclamation for the participation of the entire city in an effort to prevent fires in Cisco to the end that property may be saved and the low insurance rate now in force be retained.

Incidentally, Mr. Gustafson expresses his sincere appreciation of the cooperation he has received from the public during the past year.

### Sermon Subject is 'Judas Betrayal'

"Judas Betrays Jesus" was the sermon subject last evening when Rev. Joe I. Patterson preached one of a series of pre-Easter sermons.

Rev. Patterson told the congregation of the betrayal of Judas and pointed out the contrast of the act with that of the pure and unselfish love of Jesus.

While Judas turned traitor to his Lord and Master, there were eleven others who were loyal and true, all with the exception of one who died in an effort to be with the others in their faithfulness.

Even today men have the opportunity to go against their own faith and beliefs, and at this time the pastor cited examples of famous men, who have not failed in their efforts of doing right.

The subject for tonight is "The Last Supper." Services will be at 7:45 o'clock.

### Edward Lee Shows Studebaker Lines

Cisco people were startled last night as they looked out from their doors and windows to see a fiery skeleton of a car gliding along the roadway. The first thought that it was on fire was dispelled as they looked further. A fiery outline, as if the bones or framework were coated with phosphorus and was gleaming in the night.

But it was only Mr. and Mrs. Edward Lee, accompanied by L. H. Johnson of Dallas with one of the new Studebaker with lines emphasized by neon streamers. Edward is distributor for Studebaker in Cisco and his company with Dallas headquarters had brought out this new innovation to accentuate the beautiful lines of the 1937 car.

### LIONS WILL ENTERTAIN WITH ANNIVERSARY RADIO PROGRAM

Lions club members and their ladies will be entertained with a radio program next Wednesday noon as part of the entertainment plan for the club's fifteenth anniversary program, according to W. H. LaRoque, program chairman, who is working out plans for the celebration in cooperation with E. L. Smith, annual program chairman and past president of the Lion club.

Mr. LaRoque has made arrangements to bring to Cisco the cast of six who regularly put on a weekly radio program over station WFAA, Dallas, for the Lions club meeting. Headed by Albertine Berry, home economics director for the Lone Star Gas system, the cast is composed of Hal Thompson, staff announcer for WFAA, Craig Barton, staff pianist for WFAA, Jack Prigmore and Sue Curd, singing harmony team, and Margaret Marable, script writer for the program, of the company's advertising department.

Arrangements have also been made with R. N. Cluck, superintendent of schools, C. C. Duff, principal of grammar schools and O. L. Stamey, principal of the high school, to present the program at 11:15 Wednesday morning in the high school auditorium before both grammar school and high school students. Miss Martha Graves will have charge of the program.

Included in the program will be a short skit burlesquing a popular novel, two songs by the harmony team, a special piano number and a brief dialogue between Miss Berry and Miss Marable.

One of the features of the program will be presented at the school will be a brief talk by Hal Thompson, widely known as a sports announcer.

### College Confidante Not Faculty Member

GRANVILLE, O. (AP)—Mabel Simms Stewart probably knows more about the personal affairs of Denison University students than does the dean. She's manager of the telegraph office.

Last year on St. Valentine's Day her office sold more messages in proportion to the size of the town than any other office in the Middle West.

When a student comes in to wire home for money, she says, she always marks the telegram "collect"—and she's usually right.

### Flock of Geese Used As Still 'Watchdogs'

NORFOLK, Mass. (AP)—A flock of geese was used as "watchdogs" to protect a 3,000-gallon still owned by 24 men who were charged with illicit liquor manufacture. It was revealed at their trial.

The flock was kept in a pen leading into a barn. Honks of the geese at the appearance of strangers could be heard at the still. Hans Frederickson, a defendant was said to be the owner.

### MILITARY COURT MAKES THREE RECOMMENDATIONS FOR SAFETY

AUSTIN, March 25 (AP)—Recommendations to prevent a recurrence of the New London school disaster in which 428 children and teachers were killed, were submitted today to Governor James V. Alford by Dr. E. P. Schoch, University of Texas chemistry and explosives authority.

Dr. Schoch was present at New London during the military court of inquiry into the probable cause and rendered a factual opinion at the close of the testimony.

His recommendations proposed: 1. Effective basement ventilation with windows or wall-spaces yielding easily to pressure. 2. Gas radiator vents adequate to remove unburned gas supplies out of buildings. 3. Injections of a powerful malodorous into all public gas supplies.

"The New London disaster was primarily due to the accumulation of gas and the formation of an explosive air-gas mixture in the foundation space under the building," Dr. Schoch wrote.

### WEATHER

EAST TEXAS—Partly cloudy; unsettled in extreme south portion; colder; freezing in north portion, possibly frost in southwest portion if win subsides tonight.

Friday partly cloudy; slowly rising temperature in northwest and north central portions.

WEST TEXAS—Mostly cloudy; colder in southeast portions; warmer in extreme portion tonight. Friday mostly cloudy; probable showers in southwest portions; rising temperatures in north and central portions.

### 4-H Girl Club County News

Before a demonstration in 4-H Club work is complete, history and record must be kept and turned in to the home demonstration agent at the end of the club year. From the ones turned in at the end of the year, the twelve best ones were selected and mailed to the district agent. She selects the best twelve from the ones sent her from the 19 counties in her district. Four of those best twelve are histories and records belonging to Eastland County 4-H Club girls. Johnnie Foster, of the Carbon Hill 4-H Club was ranked third place in the district, Addie Sparten of the Oden Girls 4-H Club seventh place, Lorraine Byrd of the Flatwoods Girls 4-H Club eleventh place and Essie Lou

Marsh of the Romney Girls 4-H Club twelfth place. These girls are eligible to be Gold Star Girls—Cornelia Payne Stewart.

On the 10th day of February, I began my fourth year of club work, which has been one of the most enjoyable ones to me.

The garden was not such a problem because I had already helped mother plant all of our garden for the spring season. We planted a variety of vegetables, including English peas, lettuce, mustard, turnips, radishes, carrots, beets, green beans, crowder, black-eyed peas, cream peas, spinach, corn, onions, cucumbers, cabbages, butter beans, and potatoes.

After these vegetables were gathered, we had our garden plowed so that the winter grows and rains would give us a better season to kill the insects. We started our planting in February so we would

have an early garden. We had some trouble with the lice eating our cabbage. By pulling up all the heads that had lice, we were able to save the rest of them. The careless weeds tried to take the garden but we finally got them killed.

With the help of mother, we canned 200 quarts of beans, peas, spinach, corn and English peas.

Later in the summer, I went to visit my married brother in Louisiana. They had a fine garden but the vegetables were ruined due to my sister-in-law's illness. I immediately tried to save them. She had never canned in cans so I went to the home demonstration agent to borrow her sealer. With her help and equipment I was able to can 250 quarts of vegetables. While I was in Louisiana, I had the pleasure of helping several of my brother's neighbors can in tin cans. I showed them how to can with little work and the food had a better flavor.

With the help of my brother, we built a pantry on the screened-in porch. He lived in an old field so we used scrap lumber to build it and the cost amounted to 15 cents. I enjoyed selling someone what I had learned in my club work.

My clothes did not cost so much. From the clothing record I kept, my individual wardrobe cost \$34.92. I found that my shoes and hose were my greatest expense.

I took an old gray suit that my brother could not wear and made me a spring suit that cost 80 cents. I spent 53 cents in buying some navy material for a blouse. I also made a green silk dress. My three club garments cost \$1.19.

I improved my closet space by adding 4 coat hangers and making a shoerack and 2 hat racks. The total cost of improvement was 27 cents.

I have really enjoyed my club work and have tried to make a success of it. I have tried to take part in everything in order to be an all-round club girl—Johnnie Foster.

I joined the club in the early part of the year because I love the club work. I was wardrobe cooperator of the 4-H club girls at Olden. I wanted to rebuild our closet as it was too small and not well built. The first thing I did was to see what needed to be done. The front of the closet was made from cardboard. A curtain was used for the door. The inside was not painted and there was no shoerack.

### NRS Installed In New Offices

The National Re-Employment Service, a division of the United States Department of Labor and operated by the U. S. Employment Service, is now installed in its new quarters on the second floor of the Eastland National Bank building. The office was moved recently from the basement of the court house. The service is a federal full time unit that is operating for the benefit of Eastland county. On Wednesday of each week the service has a representative in Cisco and on Thursdays in Ranney at the chamber of commerce in order to serve those two towns.

All persons seeking work and all persons wishing to hire workers are invited to visit the office. Especially, are the business men and merchants invited to investigate and learn of the service, its details and the manner in which a service can be rendered. The service can not create jobs, but can act as an agency in bringing together jobs and qualified workers to fill them.

The primary function of the National Re-Employment Service is finding the jobless man for the manless job. The service can only render the greatest public benefit when the unemployed are registered and the employer needing workers understands what service can be rendered. The service can not create jobs, but can act as an agency in bringing together jobs and qualified workers to fill them.

The National Re-Employment Service is not an alphabetical agency created to meet any specific emergency. It is a part of the federal government built on a long time plan of a permanent public service. The NRS is not a relief agency, it gives no food, no clothing nor does it pay rent for any destitute persons.

The service has no jurisdiction over wages, no say over whom the employer hires, does not enter in labor disputes or strikes, and is not trying to replace any personnel department of any organization. The service registers applicants seeking work and classifies them according to qualifications. Orders for workers are filled by referring the best qualified applicants to the office may have. Acting for an exchange for employers by bringing together men and jobs, and rendering all concerned a service is the function of the National Re-Employment Service.

All merchants, companies and the general public of Eastland county are invited to avail themselves of this service. It minimizes labor turnover and avoids delay. It saves the worker and employer expense. The service is operated by the government, therefore, no cost to anybody. If workers cannot be had locally, they can be secured from one of the many offices located in Texas and the United States. The service has registered for employment for any worker from the highest skilled to common laborer and from file clerks to administrative help.

I tore down the pasteboard walls and put up new ones. I cut a beaver board door and slipped it into a frame which was made of three inch flooring. I made a shoerack and painted it and the inside of the closet. I also made five shelves, two for hats, two for coats and one for the children and a high one for the grown ups. The inside of the closet was papered. I also papered the room which the closet was in. This improved the looks of everything in the room.

All the supplies, including paper, paint, lumber, beaver board, hinges and latch only cost \$3.35. There seems to be twice as much storage space in the closet as well as looking twice as well. Everything in the closet is in its place.

I have made twelve pieces in this year's wardrobe demonstration. I won first place on my club dress and slip.

# Boake Carter speaking: "Luckies don't catch your throat—they're easy and smooth"

"The thing I prize most is my reputation for saying what I think. Here's what I sincerely think about smoking—it's one of the greatest pleasures in the world but it can be utterly spoiled by throat irritation. My job's tough on the throat and I have to be careful to keep my voice clear. Long ago I found that Luckies are easy and smooth and don't catch your throat. That means everything in a job like mine. Next time you hear the usual 'Cheerio' at the end of my broadcast, you can picture me reaching for a Lucky an instant later."

Boake Carter

THE FINEST TOBACCO—THE CREAM OF THE CROP

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke. Mr. Carter verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

## A Light Smoke "It's Toasted"—Your Throat Protection AGAINST IRRITATION—AGAINST COUGH

I decided that improving my closet helped so much I would rearrange our cellar. The first thing I did was to remove all canned food from the shelves. I then washed the shelves. While they were drying, I whitewashed the ceiling and walls. This made the cellar very light and airy. I painted the shelves white, giving them two coats. I built another group of shelves so we would have plenty of storage space. They were made of scrap lumber.

Before putting the jars on the shelves, I washed them. After the shelves were dry, I placed the canned food on the shelves according to the following classification: Leafy vegetables, starchy vegetables, other vegetables, fruit and fruit juices, protein rich food, pickles and relishes, preserves and jellies and miscellaneous.

The cost of the cellar improvement was \$1.75.

My sister and I had an acre berry patch that had paid for our fall and winter clothes for several years. Last fall the patch was pruned.

were in bud, many were galled by a tree. We knew then that the crop could not be over half. Of course we were disappointed but we were more disappointed when we found it was going to be less than fourth. The patch produced 28 gallons of berries. Of these, 41 gallons were sold at 25 cents a gallon, amounting to \$10.25. Nine and a half gallons were canned, 23 gallons were given to the pickers and the remaining 5 gallons were eaten at home.

I am proud of my club work this year but hope to make next year my best club year. My club work has meant a lot to me and my state cannot be estimated. I feel that money could not buy what I have learned—Addie Sparten.

ADMIRATION - TRIPLE SEALED IN "CELLOPHANE"

WE PASS OUR Savings ON TO YOU

Admiration Coffee costs less to package in Cellophane bags than in other containers. The coffee you buy in bags is the same over-fresh, fragrant Admiration to be found in other package forms; only the package is different. We pass on to you the advantage gained this way in the form of a price of about 4c less per pound. Admiration's bag is triple-sealed against moisture. Its roaster-fresh goodness is sealed in at the plant, its fragrance is kept intact. Fast trucks - the fastest exclusive coffee delivery service in America - transport it from the Duncan plant to your grocer, so that Admiration Coffee is never stale, no matter what the form of its package. Try a pound today - you'll find the Cellophane bag an economy with no loss of Admiration quality.

DESDEMONA

By MRS. W. C. BEDFORD The attractive home of Mrs. G. S. Bruce was decorated with blooming pot plants, Easter lilies, and other spring flowers, when the Methodist Missionary Society met there for the monthly social meeting. Mrs. Bruce was assisted in entertaining by Mrs. W. H. Whitworth. The devotion was led by the president, Mrs. Charles Lee of the 3rd chapter of "Out of Africa." Those taking part in the discussions, and outside assignments were Miss Mollie O'Rear, Mrs. S. E. Snodgrass, Mrs. G. S. Bruce, Mrs. Whitworth, Mrs. Lee. The subject of the chapter was "Africa and World Peace" and the discussions of the part of Africa played in the World War brought out many interesting facts as to the material wealth of the continent and how it has been made a grab-bag by European nations. Mrs. Lee's paper on the life of Henry M. Stanley was well prepared and quite interesting. The members were glad to have as a guest, Mrs. A. E. Malone of Weston, W. Va., sister of Mrs. Lee. The hostesses served refreshments of home-made ice cream, coconut cake and chocolate cake with very attractive plate favors of candy Easter eggs. W. B. May and Brown Chism were transacting business in Stephenville Monday.

Jack Powers spent the week-end in Stephenville. Mr. and Mrs. W. H. Davis spent the week-end in Fort Worth and New London. Mrs. H. Morrison visited relatives in Luster Sunday. A. J. Mr. and Mrs. W. A. McMillan went to Eastland Sunday to attend the funeral of a friend who was one of the victims of the New London blast. Bob Ellison, of Van Horn, was here Tuesday of last week visiting his relatives, John Warren and family and his many old friends. Mr. and Mrs. Cliff McCoy and littson son, Dale, spent a few days the past week with her parents, Mr. and Mrs. Ed Hanson. They were on their way to Kermit after having been living at Houston for a few weeks. R. A. Brown and family spent Wednesday at Fort Worth at the Fat Stock Show. Mrs. Henry Yardley of Gaines county, has been visiting her brother-in-law, Sol Yardley and family the past week. In Saturday's Star-Telegram there was a picture of Jack Walker who carried several registered Jerseys to the Fort Worth Fat Stock Show and won third place on three and seventh place on one. Jack is the son of Mr. and Mrs. P. E. Walker, formerly of Desdemona, but now of the Cheaney community, and is the grandson of Mrs. J. R. Buchan. As one of the 4-H Club boys, Jack began raising registered Jerseys about a year and a half ago and has been wonderfully successful. Laura Grace Munn visited her cousins, Jacqueline and Dorothy Evelyn Munn at their home between

here and Cheaney on Friday afternoon. Mrs. Earl Stewart and baby, of Penwell, came Sunday for a few days visit with her parents, Mr. and Mrs. Maborn Wilcoxson. She was sorry to find her mother suffering from the flu. Mr. and Mrs. J. E. Heeter have returned from Abilene where he was working for a short time on an oil well. Members of the Desdemona Eastern Star Chapter were guests of De Leon Chapter on Friday night. These chapters exchange visits once or twice a year and the gatherings are always very enjoyable. Those who went to De Leon were: Mr. and Mrs. R. J. Kraft, Mrs. C. W. Maltby, Mrs. Clarence Ragland, Mrs. Roy Ashburn, Mrs. J. H. Jackson, Mrs. I. N. Williams and Miss Edith Creighton, Mrs. Ella Jones and Mrs. T. L. Acree. Weldon Rushing, of Bellville, near Houston came in Thursday night and visited with his mother, Mrs. J. H. Rushing, Sr., until noon Saturday. His many friends here were delighted to learn that he was recently promoted to the place of clerk in the office of the chief engineer. C. O. Bragg drove over to San Angelo Saturday and visited relatives and returned Sunday bringing Mrs. Bragg and little son, Charles, back with him after their visit of ten days with her sister. Mrs. A. E. Malone and daughter, Miss Clara Louise Malone, of Weston, West Virginia, returned Sunday for another visit with her sister, Mrs. Charles Lee. They had at Shreveport and at Cisco. J. H. Rushing Jr. drove over to

Gorman on business Monday. He brought back the news that Donna David of the Gorman Bank had just been operated on for appendicitis. His many friends hope he may soon recover. Rev. O. D. McDonald, pastor of the Methodist church, is conducting a pre-Easter revival at the old Masonic Hall where services are held each night. Work on the new church building is progressing nicely. The contractors were working on the roof Monday. Styie McEntire returned Friday from Comanche where he had been visiting his parents while recovering from his recent illness.

**OVER** a field of yellow daffodils, linen as white as snow, baby lambs gambol with succulent grace. For your Easter dinner there's nothing more delicate. Not just spring lamb, remember, but BABY spring lamb.

It's pretty scarce because it's so popular, so be sure you can trust your butcher. Otherwise he may try to sell you spring lamb, good in its own way, but not the same as baby lamb. Be firm in the cause of astounding tenderness.

A whole baby lamb will not weigh more than 20 to 22 pounds, and one leg will weigh about four pounds. These are from lambs not more than 5 to 6 weeks old, and being scarce at Easter time, and also one of the most delectable of the spring's blessings, cost plenty. But remember, every mouthful will convince you that it is cheap at any price.

**A Eulogy of Lamb**

Odd as it may seem, a ruddy, stern looking restaurateur in New York is probably the all-American expert on baby lamb. Billy the Oyster Man speaks with emotion. "This dish outshines all others for Easter popularity. The shoulder of baby lamb is delicious, but because it has a great deal of bone, perhaps you'd better use the leg for your family. For a family of from 6 to 8," he says, "I'd advise a brace of baby lamb legs. That's not too much, because they are so shrinking in cooking."

His subject gentle, his manner brisk, he continues: "There is only one way to cook it and that is to roast it in the pan. Surround it with new potatoes (new ones from Cuba are in the market). I myself don't mind seeing

**Sunday's Menu**

**BREAKFAST** Grapefruit and orange in grapefruit shells, grilled bacon, popovers, jam, coffee, milk.

**DINNER** (for Easter)—Fish enchaup, clear green turtle soup, roast baby spring lamb, roasted new potatoes, gravy, fresh asparagus with Hollandaise sauce, new peas, dandelion salad, French dressing, strawberry short-cake, coffee, milk.

**SUPPER** Cream of asparagus in cups, molded cream cheese salad with tomatoes, hot biscuits, apple jelly, chocolate brownies, tea, milk.

a little pink in the meat to prove it is not too thoroughly cooked but some people object to this, so the state of "done-ness" will depend on the taste of your family.

**Roast Leg of Genuine Baby Lamb**  
(6 to 8 servings)

Two 4-pound legs of baby lamb, 1 carrot, 1 onion, salt, pepper. Season legs, which usually come with a wrapping of such around them, place in roasting pan with small quantity of water, carrot and onion, and of course the new potatoes. The carrot and onion take away the natural wild flavor and they add flavor to the gravy. If you prefer, they can be removed after the lamb is cooked. Place lamb in hot oven (375 to 400 degrees F.) and cook one hour, basting well and turning every 15 minutes. Remove lamb and potatoes, place roasting pan over flame, add 1 tablespoon flour and bring to boil. Strain gravy in separate hot bowl. From then on Happy Easter!

**Educator Sees Girls Looking Beyond Home**

**BOSTON (AP)**—The modern girl wouldn't be heartbroken if she never married, because she has enough resources within herself to make a success of well-rounded life, according to Dr. Jean Mendenhall.

At Boston University's Cargent College of Physical Education, Dr. Mendenhall conducts a course in "Home Relationship," believed the first of its kind in the country. "The older generation lived within the home and children," she says, "and forgot that children inevitably grow up and away from us."

**Cheaper Gasoline Goal of Research**

**STATECOLLEGE, Pa. (AP)**—The huge consumption of oil and gasoline in automobiles today doesn't mean a thing to research scientists at Penn State College, who reported they are directing a great deal of their efforts to producing more efficient gasoline and better oils at a lower cost.

They also declared they have much more to learn about the composition of crude petroleum, development of new products and by-products, and the improvement of the yield.

**MONEY DOUBLED ILLEGALLY**  
**SANTA ROSA, Cal. (AP)**—A man here is facing a counterfeiting charge here because of his method of "doubling his money." He split \$1 and \$10 bills and pasted a half of each together, passing the two of them as \$10 bills.

**SCRANTON**

By AURA LEE PITTMAN

Who Would Think He Were a King?

Boy, 11, Banker, Also Publisher

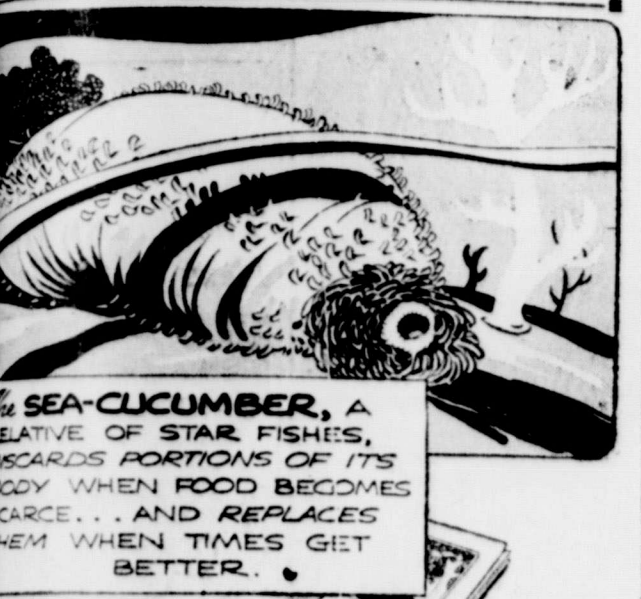

SALT LAKE CITY, March 24.—Truma O. Woodruff, 11, of Salt Lake City, lays claim to being the youngest successful capitalist in the world, with two flourishing enterprises—a bank with resources of \$196 and a newspaper with a circulation of 200—to back up his claims.

Out for a stroll along the snow-covered street at St. Moritz, Switzerland, there's nothing about this sportily attired young man to suggest that he is the titular ruler of a country, who has stopped for a winter sports holiday in the Alps enroute to England for King George's coronation.

SPRINGFIELD, O. (AP)—Should Webster R. Lyons, a barber here, ever need his fingerprints for identification purposes he probably would find them of no value.

THIS CURIOUS WORLD

PROFESSIONAL METEOROLOGISTS TAKE NO STOCK IN LONG-RANGE ALMANAC WEATHER PREDICTIONS.

EXPERTS AGREE THAT THE MAXIMUM POPULATION THE EARTH CAN SUPPORT IS 1,000,000,000 PERSONS.

ASSUMING that there are 15 billion acres of land on earth available for cultivation, and that one and a half acres are sufficient to support one person, the earth could support 10 billions. But scientific inventions will, no doubt, increase the maximum population to about 12 billions. The present population is about 2 billion.

Do you Hate to Meet People?

Some of us are so bashful that whenever a new face appears before us we mentally duck away! Maybe it isn't shyness so much as simply not realizing how very interesting new acquaintances can be.

Some people are shy about new foods too. On family we know has had pork and beans every Saturday night for ten years, and they see no reason for changing!

How much more interesting life---and dinners!---would be for that family with a new kind of meat, a vegetable prepared some other way, a new style in dessert. New foods --- new faces--brighten our days and help make living an exciting game.

Look through the advertisements in this paper today for new ideas in foods. They're here, in abundance... recipes, tried and tested... favorite platters of favorite people... exotic dishes from exotic lands.

The advertisements bring you up-to-the-minute news of many things. Read them regularly. Form the habit of getting the most out of life---and the most for your money.

SECTOR COTTON CROPS RUNNELS HIGHEST IN

ABILENE, March 25 (AP)—Final tabulation of ginnings of the 1936 cotton crop, released Tuesday by the department of agriculture, showed Runnels led 20 counties in this section in the total number of bales for the year. The total for all 20 counties was 299,344 bales.

### Borger Man Wins \$31,021 on Ticket

BORGER, March 25, (UP)—Pete McCarty apparently was one Texan who hadn't decided what to do with the money he won on a \$2.50 Irish Sweepstakes ticket.

At any rate, when Pete was notified that he would receive \$31,021 for having the right ticket and the right horse, he announced nonchalantly that he didn't know what to do with the money.

"I'll see about that when I get the money," said McCarty, an oil driller.

Pete apparently was about the only person in Borger who didn't know how to spend the \$31,021. While bystanders buzzed in a Borger cafe after the news leaked out, Pete sipped a cup of coffee and said he had bought several sweepstakes tickets in the past and probably would buy some more.

A reporter, unable to get much satisfaction from the winner, asked McCarty's companions what they would do with the money. One would pay his debts, buy a house and wait for "hunches" on how to spend the remainder. Two others, also would buy houses, but they would use the excess to travel or enjoy personal luxuries.

But Pete McCarty, 52, who'd bought several tickets in the Irish hospital lottery, just sipped his coffee and figured how much Uncle Sam would take—A 19 per cent federal surtax, a 4 per cent federal income tax, and probably a slice for the state.

Congressman Garrett and the Park

Dr. Hubert Seale as chairman of the Jaycees committee on parks for Cisco, enclosed Tuesday a neat folder containing much information about Cisco, to Hon. Clyde Garrett, congressman from the 17th district, which includes Eastland county.

The Jaycees have much hopes of getting somewhere through the influence of Congressman Garrett, since he is known as a worker for constructive measures in his district.

And, Mr. Garrett is not without influence in Washington. On the contrary, he is one of the most important figures in congress, notwithstanding his short service. The man who could so outstandingly win the nomination in this district is a man to know, so feel the big boys in the House at Washington. And so, perhaps there is no man in either branch of congress that is pointed out more repeatedly than Clyde Garrett.

The record of Garrett in Eastland county is constructive. He is a hard worker and the junior chamber members feel that he will leave no stone unturned to aid their cause.

A CCC Camp and a park project for the canyon just north of Cisco is a laudable one. Nothing in the state is more worthy of improvement than is this wild, rugged piece of scenery that would lend itself so admirably to the playground already established at Lake Cisco. It would not be simply a Cisco, nor Eastland county project, but would be a playground for the whole of West Texas and the 17th congressional district. A piece of work of which our splendid congressman, Clyde Garrett, could well point to with commendable pride.

What's News Today!

Union president, Homer Martin tells his 100,000 men, gathered to know the outcome of the peace parley between Walter P. Chrysler and John L. Lewis, that Henry Ford had just as well get ready to do business with his workers. Meanwhile, Governor Murphy says he expects the sheriff to call troops to eject the strikers should the parley fail.

The stage is all set at Austin for the race betting repeal hearing Thursday night and the event is expected to draw a large crowd. The outcome is problematic, but both sides will have plenty of expert witnesses to testify as to the good and bad features of the present bill.

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON — President Roosevelt, Harry Hopkins and the Budget Bureau are about to grapple with the relief problem again, prior to recommending to Congress an appropriation of somewhere between one and two billion dollars for the next fiscal year.

There is no assurance yet that the president can work out a permanent program for unemployment relief. Nevertheless, as Roosevelt once laughingly said, in reply to the question when he would balance the budget: "Hope springs eternal."

Meanwhile, the most encouraging news concerning reduction of WPA rolls and the expense of maintaining them is that the number of persons on WPA or federal relief rolls has remained practically the same throughout January and February. In 1933, 1934 and 1935 the curve rose sharply during those two months. There were 2,162,000 on WPA lists in the latter part of February, as compared with 2,186,000 in December. In February, 1936, the number was 3,039,000.

THE present official plan is to cut the rolls down to 1,600,000 heads of families and single persons by the end of the fiscal year, June 30. That's what Congress provided for when it gave WPA a deficiency appropriation of \$650,000,000 for this year. State administrators have given their quotas for the months from now until July. The total scheduled cuts for the country call for a drop of 50,000 in March, 150,000 in

April, 200,000 in May and 200,000 more in June.

Yet, Hopkins insists no one in actual need be cut off WPA. The state administrators are receiving that order, too. There are to be no arbitrary cuts and quotas will be subject to review.

The curtailment program was predicated upon an absorption by private industry of roughly 300,000 WPA workers; on continued recovery; on a good agricultural year; upon contribution of more money to projects by localities affected; and on the possibility the rolls could be kept from expanding during January, February and March. Except in the last instance, it is still too early to tell how many of these possibilities will come true. In the meantime, there have been disastrous floods which may keep the WPA figures up. It is concededly impossible to cut WPA rolls at a time when local relief lists are growing.

A REPORT just in from an area of 12 southern states lists a March quota of 402,000 WPA workers, 405,000 actually on the rolls and 118,000 "certified cases awaiting assignment or reassignment." The last figure, representing unemployed employable persons eligible for WPA, probably is too high. But secret WPA estimates place the number of the country's employables trying to get on WPA rolls at between 300,000 and 500,000.

That is one reason why continued industrial improvement doesn't mean proportionate cuts in WPA rolls. When a man leaves the rolls to get a private job, there are nearly always others, certified as eligible, seeking to take his place.

SOUTH URGES BOWL GAMES BE ABOLISHED

WASHINGTON March 25 (UP)—The six-year puzzle of states is one piece closer to solution after more than 150 years of bickering over backyard boundaries.

Vermont and New Hampshire have patched up their old dispute, S. Supreme Court, but Virginia and the District of Columbia and Ohio and Michigan are still at odds on overlapping claims.

Just when a new dispute will pop up to plague the geological survey of the Interior Department or the courts, the map-making bureau doesn't know, but in the past such difficulties have made many new maps necessary.

Water Line as Boundary  
The New England dispute was settled with the approval of the Supreme Court by establishing the limit of New Hampshire's jurisdiction at the original low water line of the west bank of the Connecticut River, which separates the state from Vermont for 200 miles.

During the century and a half of dispute, both states had at times collected taxes from property owners. While the settlement will not change small-scale maps, it has

ended long-time disputes over the control of power plants and the maintenance of bridges.

Elimination of the uncertainty over the Ohio-Michigan boundary at the west end of Lake Erie now rests with the Michigan legislature, where a resolution to clarify the difficulty is pending. An identical resolution has been adopted by the Ohio legislature.

States Lose and Gain  
One of the numerous disputes incited by the erratic Mississippi was between Arkansas and Tennessee when the former lost five square miles of land to the latter about 20 miles above Memphis. But the same switch in course put 25 square miles of Tennessee on the Arkansas side of the river.

While some of the changes have required new maps in school geography books, most of them have been so small as to be of concern only to road and bridge builders, and at the most to tax collectors and law-enforcement officers.

Texas has had a history of particularly vigorous defense of its boundaries, having engaged in litigation over its eastern boundary, its western boundary and its short stretch along the Rio Grande River separating it from New Mexico. When the lawyers went into court over the Red River-Oklahoma dispute, they carried a roll of maps a yard long and 10 inches thick.

New Jersey Affected  
The boundary between New Jersey and Delaware is the north bank of the Delaware River, by decision of the Supreme Court, despite New Jersey's claim that the center of the stream was the line. Now wharves built by residents of New Jersey are in Delaware.

Ownership of islands in streams

separating Georgia and South Carolina was decided in the courts. Arkansas won five square miles of land from Mississippi when river trouble made it necessary to re-survey the boundary.

Once Colorado and New Mexico quarreled over their boundaries, and the Supreme Court had to decide the dividing line between Michigan and Wisconsin in Rock Island Passage, Green Bay and Lake Michigan.

But the biggest quarrel was not interstate in character, nor was it caused by wandering rivers. Back in 1850 enthusiastic Americans were shouting "54-40 or fight!" in support of the United States' claim to a large strip of western land north of the present boundary at the 49th parallel. A compromise with Canada put an end to such trouble.

INDIA'S SNAKES TAKE TOLL  
NEW DELHI, India (UP)—There were 13,000 cases of snake bite in India during 1934, it is revealed in a report of the Public Health Commissioner which has just been published. Four million people died from snake bites, and at least 2,000,000 from tuberculosis.

TO BE TAUGHT OWN ART  
GRAND FORKS, N. D. (UP)—Margaret Cable, associate professor of ceramics at the University of North Dakota, has been given a six months' leave of absence to teach pottery making to Indian girls her work in South Dakota at adults and children. She will be the Pine Ridge agency.

STADIUM PLANS APPROVED FOR CISCO'S FIELD

Plans for the \$10,000 football stadium for Cisco were checked with WPA officials at Abilene Tuesday by O. J. Russell, president of the local school board, and Wesley Harrell, local engineer, in an effort to secure \$8,000 instead of the proposed \$6,000 from the federal government without the school being required to furnish more than the \$2,500 local fund asked. Tentative plans were approved but the cost is not definitely known as yet.

Plans call for frame of concrete and steel similar to those of the Breckenridge field, with 9 tiers of seats to be encompassed between the 25-yard lines, with a capacity of about 4,000. The end zones may be seated at a later time, should attendance demand.

Mr. Russell stated that the government was now anxious to begin the project as it had been approved in the main about a year ago, at which time projects for repairing the ward schools, high school, colored school building and football stadium and a gymnasium, had been proposed. The repair to the ward schools considered most urgent, was selected, and the other projects laid over. A death of worthy projects now appear, and WPA officials state they are ready to begin the football stadium at the earliest possible moment.

DEATH CHEATED BY BOY, THREE TIMES INJURED

WHITEHALL, Wis., March 25 (UP)—Three times Benedit Kamp, stout-hearted lad of 10, has cheated death.

Recently, Benedit has recovered from injuries received in an automobile accident. Four and a half inches of his skull bone had been torn away and physicians were doubtful if he could survive.

Four intricate operations were necessary before a silver plate could be inserted over the exposed area of the brain. While recovering, Benedit played his accordion and kept up his spirits.

Eight years ago the boy fell through a hay chute in a barn while tramping about in the loft. He landed upon a cow's back, and one of the animal's horns punctured his throat. Physicians again were

All the other "serious stuff" is out, if you take just one thing seriously about your engine oil... In selecting it—for a '37 model or anything else—be guided by things you really know for yourself.  
With this firmly fastened layer of lubricant always maintained on cylinders, bearings and other parts, it stands to reason that friction never finds them naked. They remain all covered constantly with slippery Oil-Plating, as though they were built with it on. It's on, every time you start the engine, because Oil-Plating can't run down "between times." And it's on throughout your hardest run, because Oil-Plating isn't liable to the usual "squeeze-out, scrape-off and burn-up." None of those worries any more, as you change to Conoco Germ Processed oil—and Oil-Plating economies. Continental Oil Co.

The program has been completed for the annual Baptist Convention of District 17, which is to be held with Pastor E. S. James and the First Baptist Church, Cisco, March 30-31. The convention will be opened Tuesday morning, March 30, at 9:30 o'clock with a song service led by J. Frank Walker. This will be followed by the welcome address by Pastor E. S. James and the response by Rev. J. Henry Littleton, pastor of the First Baptist Church, Hamilton. Beginning at 9:30 Dr. J. D. Sanderfer, president of Hardin-Simmons University, will deliver an address.

**Sunday School Conferences**  
Following the address of Dr. Sanderfer, Sunday School Conferences will be held as outlined in the program published below. Following this conference, Dr. R. C. Campbell, secretary of missions, will speak on "God's Plan." He will also speak at the night session.

**B. T. U. Conferences**  
B. T. U. conferences will be held during the Tuesday afternoon session.

Two addresses will follow these conferences, one by J. W. Lites and the other by District Missionary B. N. Shepherd.

**W. M. U. Brotherhood**  
At the evening hour the program will be featured by a Brotherhood banquet in charge of Judge L. H. Welch of Breckenridge, president of the district organization.

The other feature of the program is the W. M. U. program with District President Mrs. R. M. White in charge.

**Tuesday Morning Session**  
The Tuesday morning session will be the closing session of the convention. Rev. C. A. Powell, pastor of University Church, Abilene, will speak at the morning session. This will be followed by a Sunday School conference, district elimination contest, election of officers, B. T. U. conference and recognition of B. T. U. contest winners.

### West Ward School Prepares for Meet

Great interest is being shown by both pupils and teachers of West Ward in the coming Interscholastic League County Meet at Ranger, April 1, 2 and 3. Declaration try-outs were held Wednesday and Thursday afternoons.

Of the 44 pupils to enter Declaration, the following were successful in winning to go to the County Meet: Sub-juniors: girls—Alice Louise Farley, first, with Billie Jean Cleere as alternate; boys—Lloyd Harrison, first, and Darwin Kriese, alternate. Juniors: girls—Betty Slicker, first, Patty Jean Boyd, alternate; boys—Robert Barker, first, Bob Donohue, alternate.

In the Ready Writers (Essay) Contest, Patty Jean Boyd will represent West Ward. Two hundred and fourteen pupils entered the spelling and Plain writing contest, of which number Patty Jean Boyd, Wanda June Bond, Betty Slicker and Effie Hart are the winners from which to select the team of two.

The event drawing the largest number of pupils is Story Telling, 250 having taken part. From these the teams selected are: Primary Story Telling—Bobby Wilson, first

and Ray Nell Godfrey, alternate. Third Grade Story Telling—Martha Helen Brecheen, first, and Mayone Lomax, alternate. In Choral Singing, there is both a boys and a girls' chorus, numbering 75 in both choruses.

Twenty-four boys have entered Mr. Bini's fifth grade playground ball, and a crack team is expected to go to Ranger from this number. Mrs. Connally and Miss Mason have been coaching about 50 pupils for the girls playground ball team, and it looks like a winning team can be picked. Miss Attie Stevens has 41 members in her Rhythm Band, and the entire number will participate at the Meet.

Miss Swift is West Ward coach for Junior Declaration and is also County Director of Sub-Junior declaimers. Miss Bacon and Mrs. Grantham are the Story Telling coaches. Mrs. Williams sponsor for Spelling, with Mrs. Hallmark's assistance. Mrs. Yeager directs the Choral Singing and Miss Mason has charge of the Ready Writers (Essay) Contest.

### MICKEY STUART FOUND DEAD IN BED SATURDAY

James E. (Mickey) Stuart, 49, was found dead in his room at the old Hartman Hotel, Saturday morning about 9:30, fully clothed and on his bed. A heart attack, from acute indigestion was given as the probable cause of his death.

He had eaten hot tamales for supper Thursday afternoon and that he would not eat them again as he was deathly sick. He went to his room about 3 o'clock that afternoon to lie down and nothing more was seen of him until Saturday morning a roomer found him lying on his bed fully clothed and with shoes on, in a position indicating he had died in intense pain. It was said he had possibly been dead several hours it was announced.

Mr. Stuart had lived in Cisco many years, a member of the American Legion, member of the volunteer fire department and well-known. His father had recently

died in Wills Point and he had gone there for a while but returned to Cisco where he was employed in the marble yard of Ed Aycock.

Discharge papers show him to have enlisted in the American army of the world war, Sept. 23, 1917, and was a band corporal in headquarters company 345 Field Artillery, served in France and in the army of occupation in Germany. Was discharged June 23, 1919. He was 29 years of age when he enlisted which would make him 46 years old now.

His body is in charge of Green-funeral home where arrangements are awaiting the arrival of relatives. His mother and a sister live at Wills Point and another sister, Mrs. Doug Sader, at Big Spring.

**NEW GUIDES AT EXPOSITION**  
DALLAS, 4/5—A new guide-service will replace the cowboy guides at the Greater Texas and Pan American Exposition. Fifty Spanish speaking college youths will form the group. ### Heroine Medal And Dolls Vie

DETROIT (AP)—Michigan's outstanding civilian heroine likes to play with dolls and is proud of the medal awarded her by the Michigan chapter, Rainbow Division veterans.

She is 8-year-old June Pillsbury, daughter of a Detroit newspaper photographer, credited with saving her mother from drowning in a summer resort tragedy that took three lives.

June, serious and pensive despite her young years, spends summers with her parents near Lake Charlevoix, Mich.

Last summer June's two cousins, wandered across their death at the southern end of the lake. Their cries attracted Mrs. Pillsbury, June's mother, who

swam to their rescue. Aided for the shore with the help of her own mother, Mrs. Pillsbury, exhausted attempts to rescue the Little June ran to shore and guided it to a rowing boat and guided it to the weakening mother.

She then helped her the best, dragged her victims in also and Mrs. Pillsbury lived, shore. Resuscitation effort and her two daughters.

### JAYCEES PUSH PARK PROJECT FOR CISCO

The parks committee of the Junior Chamber of Commerce recently contacted Wendell Mayes of Brownwood, vice president of the state parks board, together with Wm. J. Lawson, executive secretary of the board, concerning Cisco's request for a CCC Camp and a state park for the canyon area just north of Cisco.

While there was no especial reply either encouraging or otherwise, the matter is being kept before the proper authorities, the Jaycees announce, and no stone will be left unturned to bring about the consummation of this project so dear to the hearts of all Cisco.

The committee has also prepared and forwarded a letter to Congressman Clyde Garrett to keep him in touch with the desires of Cisco in the matter.

The committee personnel is: Dr. Hubert Seale, chairman, H. L. Dyer, H. M. Condie, O. L. Stamey and T. G. Caudle.

The letter to Judge Garrett follows:

Cisco, Texas  
March 20, 1937  
Hon. Clyde L. Garrett, M. C.  
Washington, D. C.

Dear Judge Garrett: Since your visit with us at our banquet, we have believed there was little to do about our park development till recently. We interviewed Mrs. Wendell Mayes and Mr. Wm. J. Lawson of the State Parks Board before their visit to Washington and are in correspondence with them since their return.

We are now trying to get as definite an understanding with the State Parks Board and National Park Service as possible. When that is accomplished, we want to submit to you by correspondence or by personal representation, and get your help for early development by a CCC Camp.

As you are well acquainted with our project and advantages, we only mention that our natural and developed attraction, combined with accessibility to local and regional people and park property actually touching two national highways, make this a really outstanding recreational opportunity. The attached descriptions help to illustrate these

advantages. We believe the project merits development.  
Cordially yours,

## EVERY R & G USED CAR!

MONEY-BACK GUARANTEE

That's right! R & G means RENEWED AND GUARANTEED (in writing) by the Ford Dealer from whom you purchase one of these outstanding used car values.

A Ford Dealer cheerfully includes his reputation in an R & G used car transaction!

Of course, he has other used car bargains too—an assortment of makes and models, a range of prices which makes a good used car possible for any size of pocketbook.

Frankly, because of the enthusiastic acceptance of the 1937 Ford V-8, your Ford Dealer is well stocked with used cars. He doesn't intend to store them—it's expensive business. He means to sell them—immediately!

So your Ford Dealer has put his used cars in first-class condition, reduced prices to rock-bottom—

AND if you have the faintest idea of buying a used car—or—if you like to be thrifty and trade your present car for a better one—

NOW IS THE TIME FOR ALL USED CAR BUYERS TO "GET THE BARGAIN" THEY'VE BEEN LOOKING FOR!

See your nearest Ford Dealer at once—he has THE used car you want, and the easy payment plan is just as attractive as the values he offers.
