### Mr. Muleshoe .

By J. M. Forbes

Seen & Heard:

Nick Toews: When I was a lad up in North Dakota, 11 miles from Canada, we thought nothing of 50 to 60 degree below zero weather. We did what was necessary to take care of livestock, but when the mercury got up to 30 and 40 clow we worked outside, taking our grain 11 miles to town for instance. Because of heavy snow, that was by bob sled. Nowadays the roads have been elevated for the cold, wear fleece lined coveralls which cover the body except for a slit for the eyes.

R. E. Luttrell: I remember a cold day back about 15 years ago. I was working for W. O. Lawrence, who operated the Janes ranch, and I rode a horse all day and it never ld get warmer than 4 below zero. The snow was deep and it was a day to be remembered.

Manana Item: A business associate phones Monday to say he will fly here Wednesday, in his new Ercoupe. Wednesday he phones to say it is too cool. Five years ago he said: I will be over one day this week to see you and one day this week to see you and the city of Muleshoe. The threat or promise has been repeated semionthly regularly ever since. One immer he come dern nigh succeeding—he waved at me as he went through to California or some place. Now the promise is that he will be in Muleshoe Friday, to-morrow, manana. Will it materialize? Will he make it? Have contacted local odds makers and the latest is that 1 will get you 10 that he won't But of course it IS quite a little hop from Plainview to

But let's forget about personal atters and remind ourselves that O. Henry's story of Austin street car service reminds us of a certain brand of service some claim we get here in Muleshoe. O. Henry said a little Austin girl four years old was very ill of a cold and that the mother sent the father to town after some medicine. A lapse of time occurs indicated by some \* \*\* \* \* and the little girl has grown up, married, and has a little girl four years old, who is very of a cold. The door opens and in comes grandpa with the bottle of cold medicine. He had been waiting for an Austin street car.

#### FROM LEVELLAND

Miss Shannon Rutherford of her mother Mrs. Sophia Snow, Blair Levelland visited with friends in Oklahoma. and her two sons at Muleshoe over the weekend.

Muleshoe Journal DEDICATED TO THE PI GRESS AND DEVELOPMENT OF BAILEY COUNTY AND THE GREAT MULESHOE COUNTRY

Volume 28, Number 2

MULESHOE - County Seat of Bailey County - TEXAS

Thursday, January 5, 1950

# **Cotton Farmers**

While some Bailey County cotton farmers make plans to hold a meeting in Muleshoe and join farmers of the Plains in a protest on county individual acreage allotments for 1950, a bill was being prepared for introduction in Congress that is designed to settle the allotment question.

Congressman Poage, of Waco, was reported to have introduced a bill Tuesday to help iron out the cotton allotment situation in

Poage told reporters that Texas allocations "benefit 25 or 30 of our counties, while 150 others are being hurt, many of them ser- County, Texas. In doing so, I am iously."
E. W. Black and others of the

Circle Back community last week the shoulders of any persa to asked The Journal to announce a whom this honor is given. cotton allotment meeting to discuss the Bailey County situation be my solemn obligation and duty would be held in the office of Karl Lovelady, Muleshoe attorney, on Saturday January 14. The meeting was announced for 10 o'clock in the morning.

#### OKLAHOMA VISITORS

Visiting with relatives during the Christmas holidays in Oklahome were Mrs. Carrie Wilhite and two sons, Mr. and Mrs. J. E. Wilhite and son, Mr. and Mrs. Lon-

nie Wilhite and son.
Mrs. Carrie Wilhite visited with her mother Mrs. Sophia Snow, Blair Mangrum Okla.

### **Boone Enters** Sheriff, Tax **Collector Race**

Daniel B. Boone this uthorized The Journal to nnounce his candidacy for office of Sheriff, Tax Assessor llector of Bailey County. His Candidacy is subject to action of the Democratic Party primaries his summer. Mr. Boone made the folowing statement in connection with his announcement:

To The Citizens Of Bailey Coun I herewith offer myself is a candidate for the office of Steriff, Tax Assessor & Collector of Failey not unmindful of the many uties and responsibilities resting upon

When I am your Sheriff, t office belongs to the peops and that I will be working for you and that all of those who work inder me will necessarily have courteous at all times. I shall conduct this office in a way thit you and your friends will never have cause to regret that you void for

I hope that I shall have portunity of seeing each before the primary, but if I sould fail to see you, this is my er-sonal solicitation of your vote nd influence.

### M. G. Bass Is L. T. McKillip In Race For For Reelection **County Clerk**

M. G. Bass has authorized The Journal to announce that he is a candidate for re-election to the of fice of County and District Clerk, subject to the action of the Democratic Party primaries. He issued the following statement to the

voters: To The Voters of Bailey County: SO SOON AGAIN, the beginning of another Election Year has arrived, and I take this method of asking you for the office of County and District Clerk again.

I appreciate the slendid sup-port and vote you have given me in the past, and sincerely solicit your continued support and vote that I may have the pleasure and privilege of continuing to serve you again in this capacity.

It has been my effort and desire to serve you willingly, cheerfully and courteously in the past and I trust that my service has pleased you. Of how well I have succeeded, you are the judge. I do so much appreciate the

courtesy and kindness shown me when you come to the office, showing you feel entirely welcome This makes it a pleasure to serve

With the desire to serve you a gain, and assuring you that I will continue to strive to please you, and give you the service you have a right to expect with the many a right to expect with the many continued to strive to please you.

The Covin Motor Company is showing one of the 1950 model a right to expect with the many continued to the following items:

1. Reports of officers, directors, and committees, 2. The election of seven directors of the Cooperative:

On the basis of his record in

### Freeman Is In Sheriff, Tax **As Commissioner Collector Race**

Hugh Freeman, Sheriff, Tax Asnouncement in The Journal that he sessor and Collector of Bailey is a candidate for reelection as County, this week authorized The Bailey County Commissioner for Journal to announce that he is a candidate for reelection, subject Mr. McKillip said that if he is to the action of the Democratic

In a short statement to the votinterests of his precinct and coun-ty and to continue to fulfill the "I still believee in law enforceduties of his office to the best of ment; and I still believe in fairness to all-partiallity to none." Mr. Freeman said he is offering

office he asks the support of the post a second time on the people of the precinct.

### Kirk Announces For Office Of District Judge

of Littlefield, has authorized The Journal to announce that he is a candidate for Judge of the 64th Judicial District, subject to action of the Democratic primaries next summer. Mr. Kirk made the following statement to the people:

TO THE VOTERS OF THE 64h JUDICIAL DSTRICT: I wish to announce to you my candidacy for the office of District Judge of the 64th Judicial District, composed of Bailey, Cas-tro, Hale, Lamb, Parmer and Swisher Counties.

No one has solicited me to run for Judge, nor have I asked per-mission of anyone to get into this race. As a free born American, and as a native son of Texas, being under no obligation to anyone, except my God, my country, my family and my conscience, being tied by no corporate strings, and with no axe to grind I preand with no axe to grind, I pre-sent myself as a candidate for the office of your District Judge.

I am 34 years old, married, and have one daughter.

I received my legal training in the law school of Baylor University, from which I graduated in June, 1938. Following this I praclaw in Waco for a few months, and then in the Spring of 1939 I moved to Lamb County, and

### **Texas Production Credit Grou** Clear Their Debt To Governm

ROY PRESCOTT, of Houston, is Association secretary-treasurer of the Texas Association

of people voluntarily return mon-to the United States Treasury, to purch particularly in these days when there is such widespread depen-dence on the Federal Government for financial support. Nevertheless, this is what the 36 production by mer credit associations in Texas have ing an been doing since 1944. Starting stock, a with approximately \$8,000,000 of about \$5 government-owned capital stock in earnings 1934, the associations completed Many of the job of paying off the last dol-lar at the end of 1949.

A remarkable feature of this per mance is the fact that the govnment had not set a definite tion is a s poration open as to be returned to the Treausy. Also, in paying off the govment capital the associations holders. Two ame subject to Federal income

a other taxes. In returning the last of the Government stock, the production rancher needs credit associations in Texas are his farm or ran well in the lead of the rest of the country. Of the 467 associations atside of Texas, around 75 have paid off in full and about two-thirds of the total original capital stock investment by the government has been returned to the

During the sixteen years since the associations were organized it has been necessary for Texas farm ers and ranchers not only to raise about \$8,000,000 to replace the about \$8,000,000 to replace the government's investment but also another \$7,000,000 to get the capital and surplus needed to support the volume of loans they are now handling. Of this \$15,000,000 of capital and surplus now in the Texas associations, only about-

HERMAN OBELWEISS

An actual Will filed for Probate n Anderson County, Texas. I am writing of my will minecolleges and separate congrega-tions for white and Negro citizens in Texas and fourteen other Southselluf that dam lawyer want he should have too much money, he asked to many answers about family. first thing i want i dont want my brother oscar have a dam ting what i got, he done me out of forty dollars fourteen years

I want it that hilda my sister she gets the north sixtie akers of at where i am homing it now. i bet she dont get that loafer husband of hers to broke twenty akers next plowing time. she cant have it if she lets oscar live on it i want it i should have it back it

Tell mamma that six hundred dollars she been looking for for wenty years is berried from the backhouse behind about ten feet down, she better let little frederick do the digging and count it

when he comes up.
Pastor lucknitz can have three
hundred dollars if he kiss the book sion to the University of Texas Law School, alleging the lack of an equal law school for Negroes. he wont preach no more dumhead polotiks. he should have a roof put on the meeting house with (it) and the elders should the bills ook at.

lature established in Austin a se-parate Law School for Negroes, Momma the rest should get using the identical instructors, i want it that adolph shud tell her what not she do so no more books and courses as those used at the University of Texas. slick irishers sell he vokum clean-Upon the Texas court's finding ers dy noise like hell and a broom that the separate school furnishdont cost so much.

I want it that mine brother ed Sweatt equal opportunities in every respect, the Houston Negro made his plea to the Supreme

made his plea to the Supreme adolph should be my execter and i want it that mine brother adolph should be my execter and i want it that the jedje make adolph plenty bond put up and schools unconstitutional even if Adolph is a good business man but only a dumkoph would trust

The case, set for argument in the high court January 30, has become recognized as a direct test of the constitutionality of the "separate but equal" doctrine practiced in fifteen States with prior expressed by several Supreme prove to jedje oscar dont get nothing, that dam sure fix oscar. (signed) Herman Obelweiss prior approval by several Supreme Court decisions. It will be argued for Texas by Daniel and First As-

### WHAT THIS

COUNTRY NEEDS

What this country needs is not new birth of freedom, but the oldfashioned \$2 lower berth. What this country needs isn't more liberty, but just people who take liberty with our liberty.

What this country needs is not a job for every man, but a real man for every job.

What this country needs isn't to get more taxes from the

to get more taxes from the people, but for the people to get more from taxes.

What this country needs is more tractors and less detractors.
What this country needs ish't

## The Editor ...

Hope you had a big Christmas. Best regards to everyone.

Fort Wayne, Ind. Dec. 27, 1949 The Muleshoe Journal,

Muleshoe, Texas Dear Sirs: Find enclosed check for two dol-lars and a half for renewal for The Muleshoe Journal. Best wishes for the New Year. Resp. yours, Eugene Smith.

workers. A man builds a house out of his savings or sets up a business or an industry out of his savings. It is these savings that are taxed to pay for all utopian schemes. If the worker who puts his life savings into a home does his life savings into a home doesn't pay his taxes to support the schemes of those who desire to live off the government, his home A re is taken away from him and he is set out on the street. No matter in what glowing colors the picture is painted by starry—eyed dreamers, tax money pays the bill and tax money comes from the worker who practices thrift, and self—denial and industry, and good judgement, and sobriety.

## FERGUSON WI FUEL ECONOMY CONTEST!

Further proof of the unusual power efficiency of the Ferguson Tractor is now available in the officially tabulated results of the Milo, Iowa, Fuel Economy Contest. Sponsored by Warren County 4-H Clubs with farmer-owned, farmer-operated equipment, the contest was conducted with the assistance of Extension Engineers from Iowa State College.

Official results established by the Ferguson Tractor show:

• 22 Per cent less fuel consumed than the average amount consumed by 10 competing tractors.

 27 Per cent more land plowed than the average acreage plowed by 10 competing tractors using the same

These results, too, continue to pile up factual, authentic proof of the Fuel-saving, money-saving ability of the Ferguson Tractor!

Come in—see the Official Chart. Ask for a demonstration on your own farm

### Hadacol Helps Textile Worker Stay On Job

The great textile mills of the Carolinas are booming again with shifts working day and night to turn out the nation's finest materials, and HADACOL is doing its part to keep folks on the job. Many textile workers have re-

ported the wonderful relief which HADACOL with its five B vitamins and four important minerals This worker, a young father employed by the great Cannon Milis at Kannapolis, N. C.

Jay W. Barnhardt, Route 3, Pox 343, Kan-napolis, N. C., is 30 years old and the proud father of two His children. work in Cannon Mills calls for a great deal of standing up.

"I had been Mr. Barnhardt years," said Mr. Barnhardt as he explained how close he came to having to give up his work. "I suffered with a weak stomach It became worse and worse with gastric disturbances. I just could not hold food and no food agreed with me. I could not sleep and finally I became so sick that my legs got weak as I worked in the mill each day."

Mr. Barnhardt, like so many sufferers, had tried many preparations without relief, when he heard about HADACOL.

"After the second bottle of HADACOL I began to feel better an dto regain the weight I had lost," said Mr. Barnhardt. "My digestion became normal again and today I am as well as ever. My legs no longer bother me. I eat and enjoy my food. I sleep well and have plenty of energy.'

Mr. Barnhardt has taken several bottles of HADACOL and now takes the famous vitamin and mineral preparation to help stay well. He has had his wife take it with wonderful results and has recommended it to his friends in the mill.

Mr. Barnhardt suffered from a lack of B vitamins and the min-erals which HADACOL contains. HADACOL comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away.

A lack of only a small amount of B vitamins and certain minerals will cause digestive disturb-ances . . . Your food will not agree with you . . . You will have an upset stomach . . . You will suffer from heartburn, gas pains suffer from heartburn, gas pains and your food will sour on your stomach and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the signs of lack of B vitamins and minerals which HADACOL contains. And if you suffer from such a definiency dissuffer from such a deficiency disorder, there is no known cure except the administration of the vitamins and mineral, which your system lacks.

It is easy to understand, there-fore, why countless thousands have been benefited by this amazing tonic, HADACOL

### Students Dig Into Bailey Co. History

Two Bailey County college boys are busily digging into the history government, school systems, social and commercial aspects of their home county and have used the holidays to further their research-

The two are Rudolph Harvey, of Muleshoe, son of Mr. and Mrs. H. G. Harvey; and Duane Setliff, of Bula, who with his mother makes his home with Duane's brother, Chester Setliff.

Both are senior students in the agriculture department at Texas Technological College, Lubbock, and are to receive their B. S. in Agriculture next June. Their historical researches are to be made into a thesis, required in their

sociology studies. The Journal editor will make an effort to get one or more of these theses to file for future reference or possibly to use as feature material in the paper.

#### HERE FROM CARLSBAD

Eldon C. Smith and family, of Carlsbad, N. M., who own property in the county, were here on business Saturday. They visited relatives at Amherst before returning

MR. and MRS. J. E. McWHORTER McWhorter Floral

# No wonder they're calling them 'TOP CHOICE FOR 'FIFTY'

They're greater in power-higher in compression-a standout in styling-dreams to drive-and now there's a Buick beauty for 1950 to fit practically any budget

No, we just couldn't hold back the whole big Buick line for 1950.

They're too good-looking-too much fun to drive-too jam-packed with stepped-up, higher-compression, ready-to-ramble power-to be kept under cover.

So maybe you've already seen some 1950 Buicks on the highway.

Maybe you've noticed the extra "git up and travel" they have-glimpsed the wide, curving windshields (one piece in most models) - noted, approvingly, that the typical Buick taper is now found in all Buick fenders.

Maybe you've even heard some things...

That there are more than a dozen-and-ahalf models to choose from. That there are three power plants in the Buick line -all of higher compression, all stepped up in power.

That all models are big and roomy inside -some rear seats are better than a foot wider than before! - yet in every instance, shorter over-all, so easier to handle, park and garage.

Above all, maybe you've heard of exciting news on price...

That Dynaflow Drive, for instancestandard on ROADMASTER models, optional on all others-now costs 20% less than on 1949 models. That in the full line-Special, Super and ROADMASTER series—there is a Buick to fit practically every budget above the very lowest!

Here's just one part of Buick's three-way power story for 1950 — the brand-new F-263 valve-in-head straight-eight. Pack-

ing a wallop that makes the SUPER a standout performer of the season, here is still

higher compression and still greater power

in no greater over-

all size. You'll get this new engine on

all SUPER models,

in 124 hp with Syn-

chro-Mesh transmission, 128 hp with

Dynaflow Drive.\*

Pictured above is the 1950 SUPER 4-door Sedan, one of the new Buick body types for 1950. At your Buick dealer's are more actual models, the whole story on others.

Hadn't you better see him-right now and see if you, too, don't find Buick " choice for 1950"?

OTS OF LUGGAGE SPACE, plus a high-fashion rear-end treatment, graces the Buick tourback Sedan models for 1950. This is the ROADMASTER, and

Two Of A Kind

S. Karpen & Bros. Photo

Your friends won't be seeing double when you duplicate this arrangement in the living room. There's two of everything, placed to insure double comfort and beauty. Let this grouping make your couch the major focal point. However, its success depends on your choice of accessories—lamps, tables, and framed pictures. Ask yourself, "Are they in keeping with the size of your other furnishings?" The answer should be very

Identical modern coffee tables, twin table lamps, and a large disen make a dual-purpose unit. It is conducive to easy conversation and

and double as a setting for informal dining.

Framed pictures give the empty wall area above the couch personality plus. They add a wealth of color, design, and variety. Your picture arrangement should follow the over-all decorating scheme, too. And here a pair of huge Chinese prints in light wood frames complete this setting of two of a kind.

### Rebekahs Install **New Officers**

Muleshoe Rebekah Lodge met in regular session Tuesday night, January 3, with Noble Grand, Ruby Green, in the chair.

After the business session concluded, the Noble Grand declared a short recess to prepare for installation of officers. The installing officers were in-

troduced as follows: Deputy President, Allie Snyder; Deputy Warden, Ruby Shelley; Deputy Secretary, Mae Province; Deputy Treasurer, Velma Howell; Deputy Marshal, Vernice Garth; Chaplain, Clytie Deal; Inside guar-dian, Faye Lambert; Outside guardian, Frank Snyder.

son; Vice Grand, Hazel Whalin; Lola Goodnough; Conducter, Dal-lie Snyder; Chaplain, Sylvia Wile-mon; Right Supporter to Noble Grand, Barbara Burton; Left Sup-Wash.,; Mr. and Mrs. Cecil Robi-son and Lilla, and Mrs. Damon Crouch and Linvill all of Spokane, Wash.,; Mr. and Mrs. B. W. Yeary porter to Vice Grand, Grace Kemp; Inside guardian, Loma Guston; ding all of Muleshoe.
Outside guardian, Velma Howell;

and Faye Lambert as alternate. Degree Captain Clytie Deal asked everyone to be making plans Carolina. Manuel was pilot for the to start practicing on the degree group which returned to Muleshoe work for Association.

### JONES DID SEE ROSE BOWL GAME AT LOS ANGELES

F. W. "Chief" Jones believes that fate had a hand in his success in getting in to see the Rose Bowl game in Pasadena, Calif., Monday between Ohio and California. He and Mrs. Jones had gone to Los Angeles to visit with the family of a brother, who, it was believed could wangle them entrance to the Bowl, though all of the tickets have been sold long

The brother, although he is telemorning, went down and rented a chair along the route of march of the parade, sat there until 9 to witness this famous spectacle. He got into conversation with a group seated just behind him, who miraculously had an extra ticket to the game and old Chief almost broke an arm reaching for it so hurriedly. He also got on a television program supervised by his brother. The couple returned to Muleshoe Wednesday.

#### HERE FROM PLAINVIEW

#### **Putting Feed Research To Work**

 About two thirds of the birth weight of the calf is actually made during the last 60 days of pregnancy. This is the usual dry period, and during this time liberal feed is needed for the calf growth or else the nutrients must be taken from the cow's own body re-

2. During the dry period the cow should rebuild her reserves of calcium, phosphorus and protein, which in high-producing cows have been drawn on during the past lactation in amounts beyound the

3. The ease of parturiton and the health of the newborn for months following birth (in all species) are adversely affected by inadequate diets during the last few weeks of pregnancy. Supplementation of what are often considered "normal diets" has been found to result in improved health of both mother and offspring.

4. Experiments with cattle show that the gain or loss in body weight by a cow during the last 60 days of pregnancy affects the qualtity of milk produced in the next lactation. In general it was found in one series of studies that for each pound of gain in body condition on the cow during her dry period (60 days) there was an increase during the next lactation of 25 lb. milk for Holsteins, 20 lb. milk for Guernseys and 15 lb. milk A. McKillip.

and dependable. We keep staples for Bostitch and several other Thus a gain of 50 lb. in condition may mean from 750 to 1,250 lb. more milk for the next lactawhich in itself is ample SIMPLE RECORD SYSTEMS for justification for attention to the dry cow feeding.

Also presented for the first time to the retail automobile mar-

ket is the Bel Air, a luxurious, sixpassenger coupe possessing

swank of the convertible with the

practicality of the solid top. With the Bel Air as leader, the latest

series contains two individually-

styled two-door sedans and two four-door sedans, a sport coupe business coupe, convertible coupe and all-steel station wagon. As in

the 1949 models, when Chevrolet

most of the bodies are available in "special" and "de luxe" treat-

Improvements through the 1950

chassis and bodies are many. A

new "Power-Jet" carburetor eliminates the "lean" periods in gaso-line feed and affords quicker

warmup in cold weather. Larger

exhaust valve capacity helps pow-

er output. Each of the six-cylinder

passenger car engines follows the

raditional, economical valve-inhead design. In the new bodies, stylists have accomplished strik-

ing effects with smart, two-tone

upholstery and freshly-fashioned

The Powerglide automatic transmission makes use of hydraulic

torque conversion, a method of

smoothly transmitting power to wheels that received considerable

impetus during the war in the

search for more maneuverable ar-

Torque, or the force of rotation

generated at the engine crank-

shaft, is now transferred through rapidly whirling oil. The force is

increased in direct proportion to

throttle pressure, as with the con-

ventional clutch and gear trans-

mission. However, instead of the

steps" involved with mechanical

gear linkage to reduce engine speed as the car gathers momen-

tum, the flow of power to the rear

wheels in fluid and variable. Once

the car is moving with the lever in "Drive" position, no shifting

action is necessary regardless of the number of traffic stops-and-

To develop an automatic transmission, Chevrolet engineers had

two major problems even after the fundamental principles had been determined. The first was to design a unit that would meet

Chevrolet's high-volume, quality

standards. The second was to assure the economical operation for

### C & H To Show **'50 Chevrolet** Here Saturday

automatic transmission, hailed as the most revolutionary driving aid since the advent of the self-starter, makes its first appearance in the low-price automobile field, Saturday, January 7, with the introduction of 1950 Chevrolets. The new automobiles will be on view in the showrooms of the C. & H. Chevrolet Company,

in Muleshoe, local dealers. Chevrolet's application is an exclusive development known as Powerglide. A product of company research covering the entire postwar period, it is the chief element in an optional, extra-cost "power-team." included is a larger, more powerful engine and many refinements that extend throughout the line

### One of Two Sedans in 1950 Chevrolet Line

The Styleline, one of two individually designed sedans which have achieved immense popularity with Chevrolet Chevrolets also offer increased power and comfort with owners, will have new beauty in 1950. Improved grille the Powerglide automatic transmission as optional equipwork, sturdier bumper guards and more tasteful orna-

which the car has been famous. Solution to the first problem involved an entirely new manufacturing setup and the construction of huge batteries of special pur-pose machinery. The mechanism, especially in the vanes which multiply the power of the fluid, requires exacting workmanship. new plant was opened at Cleve land and manufacturing departments added at Flint, Mich. Starting slowly, the company forecasts a steady rise in production to a level never previously attained with precision parts of this de-

The so-called, "power-team" answered the second problem. Here engineers designed a chassis to take full advantage of the re-

scription.

maintain operating efficiency. More power was provided by a new engine. Increased cooling and greater intake and exhaust The manifold was re-positioned achieved with an automatic shift.

sponsiveness of an automatic trans and hydraulic valve lifters instalmission and yet at the same time led. The axle ratio was reduced from 4:11 to 3:55 to lower engine speeds. The result together with exclusive features of the Powerglide, the company claims, is "the valve capacities were introduced. most satisfactory performance ever

EPSILON SIGMA ALPHA SORORITY TO MEET

E. S. A. sorority will meet Wednesday January 11, in the home of Mrs. Clyde Holt at 8 p. m.

Driving with the Powerglide is simple. On the steering column is nounted a quadrant in miniture somewhat like power controls on ocean liners. The quadrant is marked from left to right with 'Park,' 'N,' 'D,' 'L,' and 'R,' A lever under the steering wheel positions a pointer at one of the sitions a pointer at one of the five stations. To start the engine, the pointer may be placed at 'N' (Neutral) or "Park." Otherwise the starter button on the dash remains ineffective. With the engine started, the lever is to place the pointer at 'D' (Drive). For ordinary travel forward movement thereafter is dependent on hrottle pressure alone.

To bring the car to a stop the throttle foot is moved to the brake as desired. Resumption of forward movement in traffic is obtained merely by depressing the

This will include a 48x90 building with two story educational annex 22x71, connected to auditorium, both to be tied into present acre is set at 450 pounds, exceed-building, which will be used for ed only once since 1929. Yield in additional educational space. To Cost \$50,000 To \$60,000

The plans call for a building of brick veneer of an estimated cost of between fifty and sixty thous-

Plans have been accepted for a new building, and a committee is The nation over, yield was expected to average 441 pounds, comstruction, which necessitates moving the parsonage to a lot east of the present location.

25 Members In Bldg. Commitee Twenty-five members of the congregation form the building committee, which is divided into sub-committees, including plans committee, construction, finance, and equipment committee. M. E. Kelley is general chairman

of the building committee.

HERE FROM TCH James Bowen, of Texas Tech has spent the holidays here with his parents, Mr. and Mrs. J. M. Bowen. James expects to receive his degree in Business Administration in

On the Staked Plains area of Texas and New Mexico, this year's production is estimated at 14,500,-000 pounds of sudan seed by A V. Weaver, Sr., pioneer Lubbock grain dealer. This is from an acreage placed at 19,500, and sets yields varying from 400 to 800 pounds, with an occasional yield of 1,000 pounds or more. Prices over the area were from \$5.75 to \$6.05 a hundred pounds. The dealer would not speculate on future prices, but said it is possible the short supply may bring firmer prices later in the season.

Sweet sudan is far in the lead in this area in production. Of the total 14,900,000 pounds expected, Mr. Weaver set sweet sudan production at 11,000,000 pounds, and the balance in common. 1500 Acres In Bailey

In the Texas portion of the Staked Plains production area, northern Cochran County leads in Mr. Weaver's acreage estimates, with 8,500 acres. Northern Bailey County, heavy producer last year, has an estimated 1,500 acres, and others include Castro with 3,000 acres and Lamb with 1,000. In New Mexico, most of the Staked Plains production is in Lea, Roosevelt, and Curry counties.

Since livestock production is expected to increase over the area next year as farmers divert acreage from cotton, and because sudan plays a big part in summer grazing, the demands for seed are expected to increase over recent

### State Honors to Texas 4-H'ers

IN recognition of their top ranking records in the 1949 National 4-H Dairy Foods Demonstrations and Leadership programs, five Texas club members received awards of gold watches. The state winners and brief outlines of their records follow:

the National 4-H Leadership program is indeed an honor for it signifies that the boy and girl have performed an outstanding service in club and community events. This distinction went to Harry Schneider, 18, of Sequin, and Betty Blackerby, 17, of Whitewright. Harry has served his club for four years as president and as junior leader of swine, beef, dairy and crop projects. Members exhibit at Houston and Dallas fairs and he helps younger members groom their animals. He also trains them in judging. He has given 99 talks on 4-H, 15 of them on the radio. In 1948 Harry was a national winner in the meat animal contest, being awarded a scholarship and trip to the Na-tional 4-H Club Congress. Betty as 1948 State canning champion, attended the National 4-H Club Congress, but she also won honors on her record books and has served her club as junior leader in clothing and food, and the county 4-11 comme

enced speake All of these a sion Service of the Gerolean Gisler and Grace Gisler

talks, five of them broadcast. She is active in community affairs, in high school athletics, and in craft work at 4-H camp. In recognition of these accomplishments, Edward Foss Wilson, president of Wilson and Co., presented Harry and Betty each with a handsome

17-jewel wrist watch.
Tops in the 1949 National 4-H Dairy Foods Demonstrations program were individual — Alice Davis, 15, of Leming; team — Grace Gisler, 15, and Gerolean Gisler, 17, both of Victoria. Alice's prize-winning demonstration was "Cheese for a Change", while the team demonstrated "Around the Clock with Milk." Chosen state winners, each was presented with a 17-jewel watch by the Carnation Company. In carrying out the objectives of the program, these teen-agers learned the fine points of public speaking and teamwork. They also developed poise and the ability to give a persuastve demonstration on uses of datry food products. After was selected to compete for National honors by her state 4-II Club

ander the direction of the Extenand USDA cooperating.

### Plenty To Eat In 1950 Is Prediction

A look at the possible food supplies for 1950 reveal that Amercans are in for a good year so far as eating is concerned, says Louise Mason, extension foods and nutrition specialist of Texas A. & M. College.

Total supplies of meat and fish in 1950 are expected to be larger than in 1949. There'll be more pork, more grain-fed beef, more fish but perhaps less lamb and mutton. Turkeys should be plentiful throughout the year.

There should be plenty of orange juice for the breakfast tables of the nation, she says. Florida is expected to harvest a record and much of it may go into frozen concentrates. Lemons and grape-

fruit supplies are expected to be smaller because of the freeze damage last year in Texas, California and Arizona. Apples, pears, grapes and other fruits should be plentiful during the coming months. Milk production continues at a nigh rate and this means more dairy products.

Eggs will be more plentiful durng the first half of the new year

### BIGGEST BARGAIN!

No doubt about it ... this year, all year, your best buy will be low-cost electric service. While prices on most everyday items were on the upgrade all around you, your Public Service Company continued to bring you dependable electric service at the lowest cost possible.

Just think! All the services you use today for electrical living would have cost nearly twice as much only a few years ago. True, you are using more electricity today than you were then, but the good living and many comforts that are yours electrically in this year 1950 are still the most economical item in your budget. Low-cost . . . dependable . . . electric service makes it that way!

The associations obtain their loan funds by selling their notes to the Federal Intermediate Credit Bank of Houston, which in turn gets its funds by selling shortall parts of the country. The associations do not and never have

loaned government money. The production credit associations were provided for in the Farm Credit Act passed by Con-gress in the dark days of 1933, the idea of having special and permanent system of agricultural credit in this country had been developing since as far back as 1912, when the Congress sent a commission to Europe to study their farm credit systems. Out of this study grew the Federal land banks established in 1917 and the Federal Intermediate credit banks net up in 1923. The organization of production credit associations was only the next logical step in the process of building a complete credit system for American farmers and ranchers. They are merely the retailers of the wholesale credit banks. Provision was made for the farmers and ranchers them selves to acquire full ownership of the associations and along with it the responsibility for their success This plan was adopted on the ageold theory that people tend to take care of what belongs to them and the idea that only local farmers and ranchers have the intimate knowledge of the people and their operations that is necessary in making loans which are both safe to the lender and profitable to the

The Plainview Production Credit Association, with a member-owned Capital Structure of over \$400, 000, retired all the Government Capital on December 31, 1947 and was one of the first nine associations in Texas to pay back all the Government capital it had borrowed.

The Plainview association serves Hale, Bailey, Brisco, Castro, Floyd, Lamb, Parmer and Swisher counties. There are over 1100 member stockholders. The central office is located at 921 Broadway in Plainview and field offices are located pink. Sizes: 3 to 6. in Dimmitt, Floydada, Littlefield and Muleshoe.

Present directors, elected by the stockholders are D. T. Northcutt, Silverton; R. A. Axtell, Springlake; A. B. Brown, Rt. 1 Anton; Cecil A. Davis Muleshoe and W. A. Painter of Plainview.

Associate directors are Henry Hayes of Plainview and Otho Whitefield of Friona.

### **Winter Diseases Menace Children**

AUSTIN, Jan. 2.—Season health hazards for young children are to be guarded against in winter time just as carefully as they are in hree Methodist churches in the marillo district as follows:

Polk Street, Amarillo, January Officer.

"Every mother is familiar with First Church, Canyon, January so-called summer complaints that affect small children but certain winter diseases can be just as harmful and are just as likely to winter diseases can be make their appearance unless proper precautions are used," Dr. Cox said.

In the group of winter diseases Dr. Cox included influenza, tonsil-itis, pneumonia, bronchitis, asth-ma, and even diphtheria when a Wesleyan University.

He is at present the chairman child has not been immunized. Any such disease affecting a child. child has not been immunized. of the Japan Christian Peace As- respiratory system or breathing sociation. One of the objectives of system is apt to be very serious the association is the erection of and only too often fatal. Pneua Christian Peace Center in Hirmonia often develops from a neg-oshima - a Christian shrine dedi-lected cold or may follow a severe case of measles or whooping cough. Bronchitis condition may also prove to be an after effect of these diseases and these respiratory ailments are much more ficult to combat successfully than the digestive ailments which are prevalent in the suumer time and known as summer complaints.

"These winter diseases are especially dangerous to babies and young children," Dr. Cox stated. "Nearly all of them are spread from the secretions of the nose and mouth. Children not in vigorous health are naturally more susceptible to these complaints and the first line of defense against them is to strengthen the child's power of resistance against disease," Dr. Cox advised. "The second step is to keep them un-der medical supervision and the third is to make sure that they term bonds to private investors in avoid contact with those who have coughs, colds, or fevers."
