JAPANESE ARE EXPECTED TO DRIVE SOUTH

UNDER THE GOME AT JUSTIN

By WALTER CRONKITE
Staff Correspondent
AUSTIN, August 2 (UP)—It still is like reading the future in the tea leaves business of predicting what will happen when the Texas legislature meets in special session.

The occasional signs have popped up that indicate certain things. For instance, this last week became rather apparent that the revenue-raising session isn't going to have smooth sailing.

A bloc of administration-opponents are getting their heads together. It is rumored, to oppose a national tax levied against national resources.

Some of the members of the bi-partisan group that they believe the state is going to gas and oil industry is bearing the tax load it should be carried to.

There may be a more subtle reason, however. It may be that those 16 senators who are apparent anti-administration would like to block Gov. James V. Allred's attempt to increase the state's income while at the same time decrease the direct taxes on the "little man."

It is admirable, his allies say, to comment that it is the governor's true tax philosophy to place the burden on the home-owner and small business man and place the burden on the large concerns.

The opposition yells loudly that it is not a tax-philosophy but a political maneuver. It is an appeal to the "common people," from a majority of votes may come another gubernatorial or an inter-annual race.

It is true that successful attacks on a government's deficit without regard to the "little man" furnished ON PAGE TWO.

Rajah Grins and Bears It

Rogers Hornsby, ousted as manager of the St. Louis Browns, hardly looks like a distressed member of the unemployed as he reads the funny papers with his 12-year-old son, Billy, at his St. Louis home. Perhaps it was a relief being fired as manager of a seventh-place ball club. And then again the former great slugger was given between \$7,500 and \$10,000 for his contract which had two years to run.

It's Loser Who Cleans Up on Races in the Mud

It is Jockey Kurtzinger, at right, who has to clean up, however. He trailed all the way, was splashed with mud by the leaders.

You thought you had to pick a winner to clean up at the races, eh? Then study these two pictures. Maetall, with Jockey Longden up, is clean as a whistle after winning a stake race in the mud at Saratoga Springs, N. Y.

ESSO
GIVES
MAXIMUM PERFORMANCE

To get the last ounce of performance from your car—use Esso, the matchless motor fuel. It's absolutely knockless; engineers give Esso the highest anti-knock rating of any automotive motor fuel. With all this, you pay* less than a nickel a day for Esso's added value. See for yourself. Get that last ounce of performance from your car—try Esso today.

5¢ *When you buy gasoline, remember that you pay a State tax of 4c per gallon and a Federal tax of 1c per gallon; gasoline is cheap, only the tax is high. The tax on Esso, however, is no more than the tax on ordinary gasoline.
