Now wouldn't you know that a Junior high school boy would re-fer to our pavement holes, which are in need of repair, as "fox

Chief Jones I am relieved to find that the city dads have found a place for the swimming pool, authorized recently by the voters. Editor: Where is this site you describe, my fine feathered

Chief: I note that excavations have been started on North Main

Undoubtedly, the Big Indian re-ferred to the holes in the pavement prevalent at the north end of Main Street.

We understand that a body was discovered in one of these holes on North Main street. Experts decided maybe the body had been there 6 months. I viewed the body, and, personally do not believe it had been there for more than 3 months.

Lady: Have been reading your little references about the possibility of building a hotel in Muleshoe. Do you have someone in mind who will build a hotel, do mind who will build a hotel, do in the county undoubtedly will you know who would be willing go beyond \$2,800. The county quoto operate same, etc.

Editor: All in the world we wanted to do was to call atten- \$2,000. tion to the need. We just wanted to needle someone who has money, property, etc.

Lady: It may not be just a pipe dream. It might eventuate.

Well, how do you like that?

How do you like THAT?

Am informed there will be an oil boom at Littlefield. What do you know about this. Why is there any reason to think we don't have one here. Doggone, I believe Muleshoe, from meager beginnings, will someday be one of the leading cities of this area. Certainly no Lubbock, certainly no Amarillo, but don't sell Muleshoe short.

Doggone, when I think that old Bill Hill might leave The Mule-shoe Journal, I shudder to think. Old Bill has been a fixture around here for quite a while and I hate the local chairmen: Vance Waghere for quite a while and I hate to think about his leaving. A tragedy in the family is the only reason that old Bill would leave The and Stegall; Mrs. Lonnie Arnold, Needmore; Mrs. E. N. McCall, Needmore; Mrs. E. N. McCall, Journal. Bill is a chip off the old block, a steady workman, a concientious workman; nephew of

Dr. J. A. Hill, for many years president of West Texas State, Canyon; and son of the dean of Plains newspaper editors, E. I. Hill, of Ta-hoka. Bill was brought up in a newspaper office, knows all angles of the publishing and printing business, and we hate to lose him, But, the best of luck, Bill Hill, at Tahoka, as you and your brother

# March Of Dimes Drive For Funds Is Big Success In Bailey County

A thumping success for the 1949 March of Dimes drive in Bailey County is reported today Blondie Ray, of Muleshoe, the county chairman, and by other individuals who participatin the financial compaign.

Mr. Ray said total contributions ta was set by the National Foundation for Infantile Paralysis at

Late Wednesday, Mr. Ray had accounted for \$2,779, and most of the barrels placed at stores and public places yet had to be picked up and their contents counted. Added to the above figure is a report of Mrs. Bob Herrington, president of the Muleshoe P. T. A., hat her group had voted \$25 to

the polio fund drive at a special meeting held Tuesday. Mr. Ray asked The Journal to express the thanks of the chapter officers for the splendid re-sponse made by the people of Bailey County to this campaign, in a year which sees National headquarters and local chapters begin operations with empty treasuries due to last year's heavelening. epidemic.

He praised Pat R. Bobo, the county drive chairman; and all Enochs: Mrs. John Petree, Maple; R. P. Sanders, Three Way; Warner, Progress; and Mrs. Aus-

tin Jones, West Camp. He also had warm words for Mrs. Hertha Walker and the enire staff of the Palace and Valley heatres collected more than \$350 from their patrons. And he praised Gus Priboth, proprietor of the Priooth Roller Rink, who held a March of Dimes dance of his own and turned in more than seventy

dollars for the cause. Many made door to door canfor funds and reported ful response. Meetings were held in the various communities and the regular dance

Clubs and organizations contri-buted to the fund, as organizations and as individuals. The entire people cooperated wonderfully H. H. Covert, member of the the officials said. It was the larg-high school faculty and self-styled est amount ever to be raised in March of Dimes drives in the county. Bailey County last year had three cases of Polio, and the local chapter had to call on the National Foundation for a loan of several hundred dollars to prohospitalization and other

#### SHIVERS SAYS \$25 MILLION NEEDED FOR HOSPITALS

(Note: This is the second of three articles prepared by Governor Shivers for Texas weeklies. discussing factually the conditions in our state hospitals and the financial problems faced by the Legislature, now in special

By ALLAN SHIVERS Governor of Texas

In the first article of this series on Texas' eleemosynary and financial problems I touched upon some of the conditions in state hospitals and mentioned the sum of "at least \$25,000,000" as being needed immediately. This money must be supplied (1 to feed, clothe and provide medical care and medical attention for the more than 23,000 people now in these mental, epileptic and other hospitals, for the fiscal year starting next Sept. 1, and (2 to make a modest start on an ururgently needed building pro-gram. The Board for State Hosand Special Schools estimates that it will eventually take \$40,000,000 to bring these physical plants up to acceptable modern standards.

For this fiscal year, however, the Board is asking only about \$5,000,000 for buildings. At the same time, the importance of a long range program is stress-ed. Merely to start and then quit will not get the job done.

The Special session was neces sary because the Legislature will not meet again in regular session until 1951. The hospitals will run out of funds Aug. 31, 1950.

Newspaper stories and radio broadcasts have emphasized the financial problem before this Special Session. While the Gen-eral Fund now contains around eral Fund now contains around January 1949 enjoyed several \$50,000,000, all that is committed stimulants which cannot indefinto other expenditures by laws already in effect. In fact, the comptroller estimates that by the end of the biennium there will be a \$26,000,000 deficit in that fund. Thus, despite the fact that we have around \$120,000,000 more in special funds, the State's "house-keeping budget" is in a shaky

It would be fair to ask: What went with the money? Wasn't there talk of a \$100,000,000 sur-

plus a year ago? There was. However, the \$100,-000,000 never fully materialized; actually the surplus proved to be nearer \$85 million. That was a "loss' of \$15 million, one might say—although we never actually had the money. Most of this talk of "surpluses" and "deficits" is based on estimates. For example, since January, 1950 we have "lost" \$48 million in oil tax revenue that didn't materialize. Had the original official estimate presented to the Legislature last January held our General Revenue Fund would be in fairly good shape

It is interesting to know where the State's money goes. Most people are surprised to learn that we spend approximately 90 cents of every State dollar on just three items: education, roads, public

welfare. If a Texas citizen paid \$100, directly and indirectly in State taxes for this year, his donation would be spent approximately as follows:

For expenses and pay of the Legislature, six cents.
For courts and judicial expens-

#### BABSON DISCUSSES Business For 1951 and 1952

stated that 1950 will be almost as into the balloon each year, the good as 1949. This means that most industries and most locali-ler. Hence, 1950 may be our best ties will average nearly as well year for some time. os for 1949. It is very possiblehowever-that 1950 may be the best year for some years to come. this 1950 vs. 1949

It should be remembered that tely continue.

For instance, '49 benefited from a marked increase in military pre-paredness. Also, paredness. Also, in 1949, the first of installment Marshall Plan Aid —amounting to \$5,000,000,000 -was sent a-

broad, much of which helped U. industries.

1950 will - however - benefit from the large amount of insurance money to be rebated to G. I. men. There will also be some to spend in 1950. All told, general business for 1950 need not be much below 1949. We surely live in a great country. Normal Conditions

sults.

Vs. Stimulants Readers should, however, realize the great need of increasing stimulants in order to hold business up to "normal" and prevent declines. Those who have administered to the chronic sick, know that in order for the patient to avoid more pain the dose of bromide must be increased. Those who depend upon liquor for a "lift" know that the amount used must be increased from year to year, in order to get the same re-

The above illustrations apply to U. S. business. It is not enough for the government to expand "as much" in 1950 as in 1949 in order to hold up her business. The government or private enterprise must expend more in 1950 in order to prevent a decline. The Republicans are wise in complaining about ever increasing expendi-tures and deficits; but in order to keep the national income up to the 1949 figures, it is not enough for Uncle Sam to contribute as much as in 1950 to the general welfare. He must contribute more than in 1949 unless the Republican businessmen have more faith in the country, and they themselves finance more new industries

Bursting The Balloon Of course there is a limit to all things. The present policy of going into debt to keep up the national income cannot continue forever. If oxygen is continually pumped into the business balloon, it will

istrative departments, 95 cents. For protection of persons and property, \$1.17. For regulation of business and

For state executive and admin-

industry, 81 cents.
For conservation of health sanitation, \$1.35.

For development and conserva tion of natural resources, 92 cents. For eleemosynary and correctional institutions, \$3.96. For state parks and ments, 10 cents.

For payment of public debts, For common school education.

\$34.48. For higher education, \$5.54. For eleemosynary 16 cents

(Total for education, \$40.18.) For public welfare, pensions, benefits and retirements, \$23.94. For highway construction and maintenance and payment of the road debt, \$25.83.

For other miscellaneous serv For other miscellaneous purposes, three cents. From this breakdown of the State's spending, it is easy to

reach two conclusions:

1. The eleemosynary institutions, getting less than 4 percent of the total are probably not receiving their share of the money and

2. In order to make any really large reductions in state expenditures, it would be necessary to cut the State's contribution to the schools, roads and public welfare-items in which the public has consistently demanded in-

BABSON PARK, Fla., Jan. 27.— finally burst from over-pressure. In my recent forecast for 1950, I If only the present amount is put

This is why I am advising readers to get out of debt during 1950. Neither jobs nor money will be as plentiful in 1951 or 1952. Now is the time to save your umbrellas for the inevitable "rainy days". Pay cash for what you buy during 1950. Give your employer the best you can during 1950. Many careless workers will be laid off in 1951; you don't want to be one 1951; you don't want to be one of these. Increase your savings during 1950 as you may need to draw upon them in years which follow. Explain business cycles to your wife and children. Get them to co-operate with you. Beware Of Politicians

Don't let the politicians fool you. Most of them are not inter-ested in your real welfare. They are interested only in getting reelected. Moreover, the increase in salary which they voted them-selves will make many of them in 1950 even more dangerous leaders than before. During these coming months too many of them will tell you anything to get re-elected. They will be giving you only temporary "pain killers". Don't be fooled by their harmful patent medicines.

Your hope and mine depends upon us doing more work spending our money more wisely. There is no short cut to prosperity. Sooner or later we will learn that these politicians have been giving us only dope instead of an honest spring tonic. We need medicine which will make us produce more, so that prices can be reduced and false "prosperity" can be avoided. There is too much thought about getting free aid and too little about creating more goods. For prosperity to continue after 1950 we must have more religion and fewer handouts.

# **Ground Water Is** Local Problem, **Expert Declares**

LUBBOCK, Jan. 31.—Ground water depletion in the United States has not reached an alarming rate, a ground water geologist has declared at Texas Tech.

R. M. Leggette, New York consulting hydrologist, told a cam-pus audience that certain areas in America are in danger because of over-pumping. He said the situation was a local one and not a threat to the entire nation.

He also pointed out the misconceptions some people have about ground water Ancient ideas that ground water was furnished by distant mountain sources or even ocean water are utterly untrue, he said. Ground water is the pro duct of local precipitation and nothing more, he said.

Leggette said research has shown that the movement of ground water through porous spaces tends to purify the water rapidly. In some cases, harmful bacteria have been removed in communities that lacked adequate sewage facilities, merely through ground water percolation.

Leggette's lecture was sponsored by the American Association of Petroleum Geologists.

TO TAKE DEMOLAY DEGREE

Earl Ladd, Jr., will be initiated into the order of DeMolay Saturday at NMMI, Roswell, where he is a student. His parents, Mr. and Mrs. Earl Ladd, will go to Roswell Saturday, so that Mr. Ladd can be present for the ceremony. Possibly other Masons will attend, also.

Advisory Service in Chicago

In grandmother's day, painting a child's fingertips with a solution of bitter aloes was believed to be a cure for nail biting. Today child psychologists realize that the causes of this habit lie deeply within the personality of the child. They must be found and routed-out before a cure can be affected. According to the Childcraft Advisory Service, "nail biting . . . is almost always a sign that a child is disturbed."

This feeling may be caused by anxiety, fears, uneasiness, or lack of assurance. Generally, it is a sign of nervousness that is sometimes brought on by excitement or strain, such as seeing a "scary" movie or having to play in a piano recital. The youngest child in a family or group may start biting his nails under the tension of having to compete with and defend himself against older and bigger children. It is so important for a-child to know that he is loved and wanted by his family and friends, that anything which disturbs the feel-

ing of security this knowledge gives him, may make him a nail biter.

All of you mothers at some time probably have known a child obviously in poor health who chronically bites his nails. The child whose tal ents and abilities are stretched be-yond his years and means, fre-quently reflects the strain he is under by starting to bite his nails.

The wise mother today can successfully substitute love and care and tender understanding for the bitter aloes solution of grandmoth-er's era to cure the habit of nail biting in children.

HERE FOR WEEKEND

Miss Nell DeShazo, teacher in the Carlsbad, N. M., schools spent the weekend here with her par-ents, Mr. and Mrs. J. J. DeShazo.

# **New Chemical Controls Lice**

The following release by A. & M. College is recommended reading on the part of poultry raisers by J. K. Adams, Bailey County farm agent:

Poultrymen can now use ben-zene hexachloride to protect their chickens from lice and according to James A. Deer, assistant extension entromologist of Texas A. & M. College, they will find the chemical easy to use and highly effective.

He says the Bureau of Animal Industry of the USDA has conducted tests that show complete control. Heavily infested chickens were freed from all trouble with lice by the simple, easy and in-expensive painting of their roosts with a suspension containing 1

The immediate effect was as a fumigant . . . and not a live louse the lice for several months, due could be found after a period of to the fact, Deer says, that all 48 hours. Deer points out that the lice are killed and none are left chickens must roost on the paint- to re-infest the birds.

WHEN THE SLIP GET'S BY

The typographical error is a slippery thing and sly;
You can hunt 'til your dizzy,
but it somehow will get by.
'Til the forms are off the presses

its strange how still it keeps; It shrinks down into the corner and never stirs or peeps, That typographical error, too small for human eyes,

Til the ink is on the paper,

when it grows to mountain The editor he stares with horror, then grabs his hair and groans

The copy reader drops his head upon his hands and moans— The remainder of the issue may be as clean as clean can be, But that typographical error is the only thing you see.

ed roosts within 48 hours after the treatment is made if it is to be effective. The chemical does percent of the gamma isomer of not have a lasting effect but due to its killing power one application may be sufficient to control

### Lazbuddy News

By Mrs. William F. Steinbock
Mr. and Mrs. R. G. Treider entertained with a dinner Sunday
January 15. Those present were:
Mr. and Mrs. H. D. Huthison and
children Sharel Deng and Trends children Sheryl Dene and Twylah-Jean, Mr. and Mrs. Willie Stein-bock and Max, and Miss Carleta Neely of Corpus Christi.

Mr. and Mrs. W. J. Coffman were honored with a dinner Sunday, January 15, at the bride's parents home, Mr. and Mrs. Willie Waddell.

The center of attraction was the three tiered cake, topped with a miniature bride and groom. Lunch was served buffet style to the fol-lowing friends and relatives: Mrs. Arma Coffman, mother of the groom, a sister, Oneta Coffman, a brother, Clifton Coffman; Mr. and Mrs. Odey Hinds and children, Phillip and Wayland of Friona.

Mr. and Mrs. L. E. McKillip and children, Troy, Luceta, Ina Jean and Truman of Farwell; Mr. and Mrs. Woody Glasscock and children, Gary, Patty and Jeanne of Muleshoe; Two brothers of the bride, Doyce and Jimmy Waddell; Mrs. J. H. Garrett and children, Jeanne, Johnnie, and James of Muleshoe; Lawatha and Laquita Brannon, Friona; Lois Freeman and Paula Jean Daniels of Lazbuddy; Mr. and Mrs. Calvin Clark.

After lunch, music and singing
were enjoyed by all.

Miss Margaret Petcock who was a house guest of the R. G. Treiders Sunday and Monday, returned to her home in Corpus Christi.

Rinny Steinbock was in Farwell on business Monday. Mr. and Mrs. Willie Waddell and boys had as dinner guests Sunday, Mr. and Mrs. William Stein-bock, Mr. and Mrs. Elbert Nowell were visitors in the afternoon. Mr. and Mrs. "Chub" Emery are the new parents of a baby girl born Monday at Green Hospital.

#### ATTEND AUNT'S FUNERAL

# New Type Spreader Hitch Saves Muscles

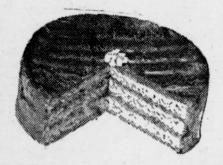

Grandma's old-fashioned hooks 'n' eyes down the side of her dress provided gentle pressure to keep hips and waist from spreading where they shouldn't-and generally, it was a "oneman" job. This same dependable method of hooking and unhooking also performs a time, work and muscle-saving service for the revolutionary new Ferguson Manure Spreader and Loader just announced by the local Ferguson Dealer. A similar hook 'n' eye device hitches and unhitches the Spreader hydraulically by means of the Finger Tip Control of the Ferguson Tractor. The same control also hydraulically operates the Loader. One man with one tractor can do the entire loading and spreading job without leaving the tractor seat.

# Over 200 Attend M-M Program

members of their families in this community attended a special program on Saturday, January 28, arranged for them by Fry & Cox Bros., local Minneapolis-Moline implement dealer.

The program, which was held in their store, included the showing of two feature films in color and in sound, "An American Journey" and "Weather Whys."

"An American Journey," a travel gue, included scenes taken in countries south and north of the border and scenes taken in various parts of this country. "Weather Whys" was a story of weather and how information concerning it is gathered and given out especially to farmers who depend so much upon it.

The program also included a drawing for door prizes. The firm served coffee and donuts.

THE MULESHOE JOURNAL, Thursday, February 2, 1950

# **Three Games On Tap Here Friday Night With Strong Sudan Hornets**

Friday night, February 3, the Muleshoe cagers will meet the strong Sudan Hornets on the local basketball court in a con-

In their first meeting the Sudan five outplayed and out-scored the Yellowjackets in a very close game which was held in the Sudan gym.

Tomorrow night's game should prove to be one of the best games

of the season in the local gym-

nasium and a record crowd of over-capacity proportions are ex-pected to be on hand to witness

the three teams battle to stay in

All three teams will play with

the B-teams taking the court in

the opening game. The second game will be between the two

girls teams and the final game of

the night will be the one that

Tuesday night the Yellowjackets

will travel down to Morton where

they will meet the Indians in con-

ference play on their home court.

the Yellowjackets will end their

regularly scheduled season when

they meet the Levelland Lobos

In a practice game last Wed-

nesday night the Yellowjackets rampaged over the Threeway five

51 to 24 with Lee Kimbrough lead-

ing for high point honors with 16-points. Bill Gaede ran a close se-

in the local high school gym.

ference game.

the conference race.

counts, the A-teams.
Play At Morton Tuesday

# **Wildcats Edge By Jackets Tuesday**

were tremendously handicapped in their playing and shooting ability when they met Little-field there Tuesday night, losing to the Wildcats in a low-scoring game 24 to 21.

The "barn" that Littlefield uses and calls a gymnasium had such a low roof that our boys just couldn't arch their shots low enough to keep from hitting the ceiling and the Littlefield cagers managed to eke out by a three point margin over the Jackets.

Ed Nickels was the only Jacket player that was able to hit the pasket consistently and racked up a total of 16-points, but it was not enough to beat the Wildcats. High point man for the Wildcats was Gaff with 16-points to his credit.

B-Team Wins The Yellowjackets B-team won the opening game of the night by downing the Wildcat five 25 to 18 and Clark Colson led in the scoring with 16-points for the Jackets.

Girls Win Game

In the second game of the night, the girls defeated the Kitties of Littlefield without too much trouble. However we failed to get the score in this game.

### **Jackets Swamp Sundown 54 - 12**

The Yellowjackets romped to a 54 to 12 win over the Sundown Roughnecks here last Friday night in conference play.

Bill Gaede led his teammates to

victory over the Sundowners, hit-ting for a total of 14-points. The Yellowjackets took an early lead and after the first few minutes of play had pulled way out in front and continued to stretch their lead until the final whistle to win by the lop-sided score of

Sundowner's were badly The out of form although the Muleshoe boys showed they had the superior team.
Win B-Game

The Muleshoe B-team came through to win the opening game of the night by defeating the Sundown B-team 20 to 14.

## **Jackettes Trim Sundown 36 - 21**

to victory here last Friday night over the Sundownettes, hitting for a total of 16-points that paved the way to Muleshoe's 36 to 21 win. Margaret Sanders hit for 9-points for the winners. The Muleshoe girls took an

early lead in the game and never relinquished it to their oppon-

> KARL L. LOVELADY ATTORNEY-AT-LAW

So. Side of Square Muleshoe - Texas Social Security Man Speaks Here

The fact that the social security tax advanced from 1 percent to 1½ percent each from the employer and the employee, effective January 1, 1950, has caused some employers to inquire if the law has been changed to tax more than the first \$3,000.00 in wages paid to an employee in a year, according to John G. Hutton, manager of the Lubbock office of the 11 a. m. Social Security Administration.

"The law that only the first 8:30 p. m. (\$3,000.00 in wages paid by an employer to each employee is still in effect," Hutton said, "and only an Act of Congress will change the law pertaining to the maximum wages to be taxed".

Hutton pointed out that all in quiries regarding social security tax matters should be referred to the Collector of Internal Revenue and that all questions about oldage and survivors insurance bene-fits should be directed to the social security office located at 1311 Texas Avenue, Lubbock.

# 10 a. m. Letters To The Editor ...

Tucson, Arizona January 26, 1950

Dear Editor: We haven't been here at Tucson very long, but we certainly have enjoyed the city and climate. The coldest temperature is eighteen. The hottest tempera-

ture is eighty-three or higher.
Mr. Blair is in the Vets hospital. He is doing fine. Y. L. - PROGRESS METHODIST CHURCH

THE MULESHOE JOURNAL, Thursday, February 2, 1950

CARD OF THANKS

We wish to thank the people of Muleshoe for their help and kindness in the death of A. A. Turner. Mr. and Mrs. Ira Robinson, The A. A. Turner family.

#### TO OPTOMETRY MEETING

The South Plains Optometric Society, of which Dr. B. R. Putman of Muleshoe is a member, will hold a meeting Tuesday evening February 7, in the Rocket Room in

Hitler's car was on display Wednesday. It weighs ten tons, takes one and one-half gallons of gas to start it and goes three miles on one gallon. The left-back window looks as if it had been shot out with a gun.

Nearly everyone comes here to Tucson for their health.

Sincerely yours, Lula Belle Blair.

Lubbock, Texas January 26, 1950 Dear Mr. Forbes:

Enclosed you will find a check for the Muleshoe Journal. We do miss our many friends at Muleshoe and wish them all a happy New Year. But think we can't do without the Muleshoe Journal. W. E. "Razz" Renfrow

> > If Eve Could See It Now

The apple has come a long way since the day it caused such havoc

Eden. It is more tempting than ever, for it is much more versatile countless ways to serve this delectable fruit have been dreamed up

other foods, too, combine with apples to make mouth-watering desserts such as the three given here. One combines tapioca with apples in a new version of an old dessert favorite; another uses crisp cereal flakes to complement the flavor of the fruit and to provide a crunchy topping. In the third recipe, shredded coconut is folded into orange-flavored whipped cream and served with baked apples to make a glamourous looking dessert with a deliciously subtle flavor. Yes, the apple has come a long way!

Add water and lemon juice to apples in greased baking dish. Bake, covered, in moderate oven (375° F.) 15 minutes, or until apples are partially cooked. Add remaining ingredients, mixing thoroughly. Continue baking 30 minutes. Stir well after 5 minutes, then stir every 10 minutes, and again when removing from oven. Serve warm or cold with Butterscotch Hard Sauce. Makes 6 servings.

Butterscotch Hard Sauce: Cream ½ cup butter or margarine thoroughly. Add ½ cup light brown sugar (firmly packed) gradually and cream together until light and fluffy. Add 1 tablespoon cream and ½ teaspoon vanilla and beat well. Makes 1 cup sauce.

Apple Crisp

cups thinly sliced apples
to 4 tablespoons sugar or honey
t tablespoon melted butter or margarine
teaspoon salt
teaspoon cinnamon
tablespoons butter

1 tablespoons butter
1/2 cup sugar
1 tablespoon flour
1/2 cups raisin bran, 40% bran flakes,
wheat flakes, or 1 cup corn flakes,
crushed

Mix together apples, sugar, melted butter, salt, and cinnamon.

Turn into deep 8-inch baking dish.

Cream butter; add sugar and flour and mix well. Add cereal

and crumble together. Spread over apples. Cover and bake in moderate oven (350° F) 30 min-

utes. Remove cover and continue

baking 15 minutes longer, or until

Jeanings, Harri

are tender. Serve warm

3 4 servings.

Deep-Dish Apple Tapioca

apple has come a long way!

Streamlined Baler

This new, streamlined baler is typical of the engineering advances featured on 1950 farm machinery. It is an automatic twine-tie pick-up baler marking the 10th anniversary of oneman bailing on American farms.

### **Quonset-Type Huts Meet Storage Needs**

#### 'Little Business' Answers Challenge in Grain Belt

Called upon by the department of griculture to perform a modern niracle. "little business" in 10

Indee, 64th Judicial District:

ROBERT (Bob) KIRK

Of Lamb County agriculture to perform a modern miracle, "little business" in 10 midwestern states is tackling one of the biggest jobs of its kind ever undertaken anywhere in peacetime. Its Herculean assignment is the

site preparation and erection of 2,-300 steel buildings-each 32x96 feet or larger-at 670 widely separated locations.

The task arose with the grain belt's acute need for space in which to store the record-breaking carryover of 1948's corn crop. In line with

Grain being loaded into Quonset huts for CCC storage near Paulding, Ohio.

he trend toward economical "horizontal" grain storage, the department ordered Quonset buildings for large part of the necessary new facilities. These archroofed steel units now are mushrooming up beside highways and railroads near farm centers through the efforts of local businesses and labor, rather than the work of transient crews employed by a few big and distant contracting firms.

Within two weeks time more than ,100 concrete foundations had been laid, and erection of steel was under way on them in every state. The concrete work alone was roughly equivalent to laying 25 miles of highway in a time that an average road-making crew would require to put down one.

#### Sweat Down Costs

Sweat down your production costs if you want to maintain profits in these days of declining farm prices. One way to sweat down those costs is to increase your crop yields per acre. More bushels of corn and grain per acre, more pounds of meat, milk, dairy products and poultry mean lower production costs per unit. On such a basis you can make a profit even if prices slacken further.

You can get those higher yields and lower costs with good soil management. Good soil management means giving your soil a fair deal. It means supplying the soil a wellbalanced ration of plant foods, so crops will be well nourished. It means building up instead of breaking down soil structure and tilth. It means "recharging" the land with soil-enriching crops at regular intervals, instead of growing soil-draining row crops year after year on the same land.

#### Dangers of Butchering At Home are Outlined

Home butchering is profitable on the farm and many rural families are replenishing their lockers, jars and pantries.

But, unless undue caution is used, home butchering can be dengerous.
Equipment, too, should be used with care. All knives should be kept-in a suitable place when not in use. Hoisting equipment should be checked. A tamper should be used to force meat into the

Attention to Details Pays Off for Hog Farms Attention to details is the biggest reason why some hog farms earned

\$2,000 more than some others during the past year.

F. J. Reiss, farm management specialist in the Illinois college of agriculture, said that 128 high-income hog farms averaged \$10,200 earnings from swine last year. while 161 less-efficient farms took in only \$8,000. Extra care at farrowing, control of parasites, helped.

Appreciation Day Is Saturday Parsonage.

JOHN KILLION

conducted by Claud C. Ruch Educational Director, Childcraft Advisory Service in Chicago A child wants to eat when he is hungry, or when the food offered especially appeals to him. He doesn't want to eat as "a special favor" to mama, or nurse, or big sister.

All of you mothers probably know families who try "to sell' their children on eating

dren on eating

the meals regu-larly placed before them, by coaxing: "Now eat your cereal for Grandma!", or: "If you don't eat your spinach, roll.
mama is going Ne
to cry!" Imagine your reaction as an

were coaxed to eat, in order to make someone else happy, instead of because you were hungry or enjoyed the food set before you! Then, decide you're not going to allow a complex to develop (in your own mind) about your child's eating habits.

In Childcraft books, Mary M.
A frich and the late Dr. C. Anderson
Addrich, co-authors of "Babies Are
Human Beings", declare that "eating is one of life's unique pleasures.
The reducing salons," they point
out, "are crowded because grownups
like the table too much. Expect the
child to follow this normal human

like the table too much. Expect the child to follow this normal human pattern, and he will live up to expectations. It is not necessary to coax a child to eat."

Like adults, children are not hungry at every meal and may have times when they do not feel like en and one of the like en and one of th placed before him. A stuffy room, an uncomfortable chair, or a monot-onous diet of badly-cooked food, may also cause a child to eat poorly

### Mrs. Holland Host **Muleshoe HD Club**

Muleshoe H. D. Club met Jan. 26 in home of Mrs. E. E. Holland Club hostesses for coming year were filled out in our club book. Mrs. Caldwell gave council re-port. Mrs. Copley was elected T. H. D. A. chairman.

Mrs. Copley gave a report on a T. H. D. A. district meeting, held at Lubbock Jan 23, at which thirteen counties were represented. Mrs. Copley asked that more women read and give book reviews.

We sent \$5.00 to the March of Dimes drive.

Refreshments were served to nine club members Mrs. John Mack's name was added to the

Next meeting will be in the home of Mrs. Dave Aylesworth

## W. M. S. Meeting Held At Annex

The W. M. S. met Monday afternoon 3:00 p. m. Jan. 27 at the annex of the first Baptist church. A brief business session was held by the president Mrs. H. E. Wimberley. Songs were sung and a chapter from Ephesians was read by Mrs. Byron Griffiths.

Mrs. Motherall brought a beau-tiful devotional, "Our Christian Stewardship." After this a sur-prise handkerchief shower was given Mrs. A. W. Blaine honoring her birthday. She received many lovely handkerchiefs and other

gifts. Refreshments of cake and pop was served to 15 members, several members of the "Sunbeams" and two guests, Mrs. J. E. Burris and Rev. A. W. Blaine. We urge all women of the church to make an effort to attend W. M. S. each Monday at 3:00 o'clock and bring someone with you.

# Three-Way W. M. S. H. Wyers Honored On 25 Anniversary

Surprising the Harold Wyers on their 25th wedding anniversary last Saturday night with an anniversary cake and all the "fixings"

were a group of friends.

The group arrived in a body at the Wyer home. Those attending the Wyer home. Those attending were Mrs. F. B. Pierson, Mrs. David Anderson, Mrs. I. W. Haney, Mr. and Mrs. Tye Young, Mr. and Mrs. Rufus Gilbreath, Rev. and Mrs. T. G. Craft and Truitt, Mr. and Mrs. Harold King, Mr. and Mrs. W. B. LeVeque, Mr. and Mrs. W. B. LeVeque, Mr. and Mrs. A short business meeting was called by the president.

Motions made and carried; send the gifts we have on hand for the scholarship girl and send \$2.50 in cash to each of our girls. Change the meeting time from 2:30 to 3:00.

Mrs. W. B. LeVeque, Mr. and Mrs. A. J. Lenderson and Kay, Mr. and Mrs. Cecil Tate, Mr. and Mrs. Roy Jordan, Mr. and Mrs. J. Wyer, Mr. and Mrs. H. S. Sanders Sr., Mr. and Mrs. H. S. Sanders Jr. and Mike, Mr. and Mrs. H. O. Barbour, Miss Elizabeth Harden, Mr. and Mrs.

Mesdames Douglas, Tate, Childers, J. Wyer, Sanders Sr., Lenderson, and Leveque.

Easy on the Eyes

PITTSBURGH - No eye strain here, no matter how you look at it! This pretty lass is holding Teleglas, the newest thing in television picture face glass. Providing a picture equal to good black and white photographs, the actual contrast range of this new tube face is as good in a well lighted room as a convena well lighted room as a conven-tional tube face is in total darkness. The main threat of constant television viewing to the eyes comes from concentrating on an over-bright image in a darkened room. Since the pictures, as seen on Pitts-burgh Plate Teleglas, may be viewed equally well in daylight or artificially rooms, and are free from foggy greys that produce staggering images and hazy out-lines, it is expected that television eye strain will be reduced to a minimum in the near future

# Dorsch-Awtrey Vows Are Said In La Junta, Colo.

Miss Gladys Katheryn Dorsch of La Junta, Colo., became the bride of W. H. Awtrey Jr. of Muleshoe, in a mid-afternoon ceremony, Sunday, January 15, at the home of the brides parents, Mr. and Mrs. George Dorsch east of La Junta. The Rev. William Bodamer of Rocky Ford officiated at the double-ring ceremony.

Attendants to the couple were Mr. and Mrs. Harold Swan of Denver, sister and brother-in-law

The bride wore a pink after-noon dress with hat to match and something new and her hat some-thing old, the blue a garter and she had the traditional penny in her shoe.
Mrs. Swan wore a palomino sa

tin afternoon dress and her corsage was of yellow carnations. After the ceremony, the brides parents entertained about fifty close friends and relatives at din-

The couple took a wedding trip to Pueblo, Denver, New Mexico and Texas. On their return they make their home in Denver. Mrs. Awtrey is a graduate of La Junta High School and she has been employed at a Safe-Way store for six and one-half years. Mr. Awtrey is a graduate of Muleshoe High School and had two and one-half years at Texas Tech. He also served in the 87th Airborne in France and German. He is now employed by the Santa Fe Railway.

# **Rainbow Girls Honored Sunday**

Honoring Miss Kay Malone, Grand Representative to N. M. and Miss Bobbie Jane Sisk, Grand Religion, the Hereford Assembly Rainbow for Girls entertained Sunday afternoon in the home of

Mrs. Belle Hromas.
Attending from Muleshoe were Misses Kay Malone, Sondra Wag-non, Jo Addine Wagnon, Jeri Nell White and Billie M. Collins, also Mrs. Vance Wagnon and Mrs.

Dudley Malone.

The Muleshoe Assembly Rainbow for Girls will meet tonight (Thursday) in regular meeting.

This will be the first meeting for the property of the first meeting. for the new corp of officers who were installed Sunday January 22. All Rainbows, Stars and Masons are urged to be present.

# Mrs. Stinnett To Be P-TA Speaker

Muleshoe P-TA will meet next Monday night February 6 at 8 p. m. The program "The Founders Day" is in honor of the past presidents of the organization.

Mrs. H. G. Stinnett Jr., Plainview, State vice-president is to be the speaker of the evening. Invocation is to be given by Rev. A. R. Metcalf.

The executive committee in a meeting Tuesday afternoon voted to donate \$25. to the March of Dimes drive.

After the program there is to be a social hour with refreshments served by the committee.

Jack DeShazo has forsaken the cloistered halls of learning for the more prosaic pursuit of printing. Yes, Jack is back on the job with The Journal. During his years in high school Jack was a part time and summer time worker at The Journal and is pretty well along with the trade. He thinks maybe he will return to school later, though.

#### ATTEND FUNERAL SERVICES

Tuesday night, as practice is to be started on degree work for Association.

Taft, an ex-president, swore Herbert Hoover into office as President.

### Poinsettia Coffee Cake

Surprise in holiday foods is this unusually shaped coffee cake with candied fruit filling. It's called poinsettia coffee cake.

Delectable coffee cakes such as Stollen are among the traditional specialties of the Yuletide season. Here's a new coffee cake to usher in a new year: poinsettia coffee cake, shaped from an easily handled sweet yeast dough.

Making this coffee cake is much like making those easy cinnamon rolls—in fact, exactly the same up to the point where you have spread cinnamon and sugar over the rolled-out dough. For the coffee cake, sprinkle also with a mixture of chopped candied cherries and chopped green and yellow candied pineapple. Roll up like a jelly roll and cut into six rolls. However, instead of cutting on a straight line as for cinnamon rolls, cut wide rolls, and cut them on a slant.

Arrange filled rolls on greased baking sheet into poinsettia shape as shown, and let rise until doubled before baking. If you like, give the coffee cake a snowy drift of confectioners leing when cool.

This palate-pleasing coffee cake pleases with its good nutrition, too, especially its generous quota of B-vitamins and iron from enriched flour. Making this coffee cake is much like making those easy cinnamon

POINSETTIA COFFEE CAKE

Soften yeast in lukewarm water. Scald milk. Add sugar, salt, and shortening. Cool to lukewarm. Add flour to make a thick batter. Mix well. Add softened yeast and eggs. Beat well. Add enough more flour to make a soft dough. Turn out on lightly floured board and knead until smooth and satiny. Place in greased bowl. Cover and let rise in warm place until doubled (about one and one-half hours). When light, punch down. Let rest 10 minutes. Pat or roll into rectangular sheet about one-half inch thick and eight inches wide. Brush with butter or mar-

toplasm before the spark of

of proteins, or animo acids had

powers of all creation.

not an anthropomorphic Being, He

the nature of the universe

and forth as energy.

By REV. T. G. CRAFT

We continue this week Rev. Craft's article, "Foundations for Our Faith." This week's installment is a continuation of Chapter I, "Faith In A Creative God." The Journal will print an in-stallment of this fine article in each succeeding issue.

FAITH IN A CREATIVE GOD St. Paul said, "In God we live, and move, and have our being" (Acts 17:28). If mankind lives in God; moves in God, and has his being in God; then it must be true that God is ever present in this world, and even in His universe. Dr. Edgar Brightman said that God is not immanent in the world but that the world is immanent in God. God was here be-fore the world was formed, and all things that he created are still in him. Life is in God and life is God, or at least a manifestation of His creative power. All nature is a miracle, and life even as we see it is the greatest of all miracles in our range of thinking. Wherever there is life, there is the touch of God and there is the presence of God. What is the nature of a God in whom His universe dwells? Jesus said that God is Spirit. Since God is Spirit, it loes not mean that He is not reality. It does mean that He is Ultimate Reality. Spirit then is reality and has substance. We cannot any more see God with our eyes of flesh than we can see the short and long waves recorded on the electro magnetic spectrum. God is the essence of energy which is invisible to our eyes. Scientists tell us that the sun ray is energy and has substance, the smallest unit of which is called a photon. A Japanese Scientist tells us that the atom has a neutron, and inside the neutron are electrons and protons, and that inside of these elements of energy is a still smaller unit called meson.
The meson is the smallest unit of energy and is the real substance of which matter is composed.

In the book, "The Bishop's Mantle," Mrs. Turnbull, the author has one of her characters to say to Hilary, the minister, whose brother had recently been killed in the North African campaign of World War II, these words of com-"It looks as though the physicists and psychologists have followed their quests a long con-verging lines; so that at their meeting point they find that MAT TER and SPIRIT are practically the same. EACH IN ITS ULTI-MATE FORM MAY BE EITHER. (page 280). God uses our physical bodies to grow a soul, and souls. Souls have substances which are energy. The substances of the soul is that refined energy which the body manufactures out of the raw elements of common matterfood, water, oxygen, etcetera. Tha refined energy composes the sub-stance of the soul and is a reality It is as such a spirit which is in the field of the invisible, and on the plain and level with God. Science has come in our day, and given us what seems to be a definite proof of the immortality of the soul. Since no energy can be destroyed—only changed in form— it is evident that the body grows the soul by and through the biochemical processes which change matter as we know it back to spirit. So we can well conclude that the soul is reality; it is substance and has mass, perhaps not weight. The creative processes continue with God in this world and with His people.

won't have much competition. perceive, it is obvious that all energy or all matter has always

giving power had to be screened matter.

made of the energy of God and what we believe God as the Eternal Spirit to be. The Universe is God's energy which has gone forth, and is changed from pure spirit to enother form of energy tains Himself with an eternal "In the beginning was the Christ (word), and the Christ (word) was with God, and the Christ (word) was God. The same All things were made by him; and this particular living organism. without Him was not anything made that was made. In Him was life and the life was the light of men." (St. John 1:1-4).

Try Journal Want Ads

Easterner: I came out here to make an honest living.
Westerner: Well, have at it, you

ture also had to be in a given amount. Then the gases had to be just in the right form to effect life giving power. The sunlight which has the many rays of life God has always been, and all things that are, come forth from Him. We can distinguish between by the atmosphere; so that the proper kind of life rays could be emitted to the earth and touch all matter ready to become living

The first life on this earth was found in tiny one-celled beings. These various one celled animals were not visible to the eyes of had there been any eyes with which to see. Today such forms of life cannot be seen with the natural eyes of man, but only with high powered microscopes. Yet there is a world of microscopic animals living and laughing in their unseen world. No one yet has solved the mystery of life, but we do know that life is a chemical process of living matter. The chemical elements in living mat-ter vary in the different froms of life. In man, there are forty-two different chemical elements assembled in varying amounts, but each is the essential amount for

There is a great chasm between non-living matter and living matter. But all living matter comes forth from non-living matter. Nature prepares non-living matter by changing it into potential living matter whereupon nature continues to work both through moisture, temperature, and gaseous elements, and by the life rays of the sun until a particular portion of matter is touched with life. Animal life is the latest form of life. The earliest forms of life were neither vegetable nor animal, or it might be either in an undeveloped form. But the vegetable kingdom did first develop, that God made man of the dust Animal life developed. simpliest form and continued to develop into more and more complex forms. The highest form of animal life is man. All other forms of life made the great experiment of living and adjusting themselves to her world and environment before, God made man. When man was created, the world was prepared to receive him. Nature was somewhat friendly to man, and became suitable for perpetuating this form of life.

# I-WAY STRETCH

Tune in HENRY J. TAYLOR, ABC Network, every Manday evening.

HERE'S THE NEW 1950 BUICK SUPER 126, companion body-type to the equally new ROADMASTER 130. Both are shorter than last year's 4-door Sedans - yet 4 inches longer in wheelbase. In both, the difference is used to give you real stretch-out room in the rear seat.

What the boys did here really calls for some medals.

We gave them the job of coming up with something that was bigger inside-for room and comfortlonger in wheelbase - always important to good riding qualitiesyet unbulky and easy-handling in over-all dimensions.

Just look how well this tidy num-ber meets these "impossible" specifications!

Item one-rear-seat cushions are a full foot wider than last year's SUPERS and ROADMASTERS.

Item two-in every dimensionleg-room, head-room, hip-room, shoulder-room-this rear-seat compartment is bigger than previous models-and nearly four inches longer, fore and aft, than other 1950 Buick interiors.

Item three - wheelbases are the longest of our 1950 line. On the SUPER, it is 1251/2" instead of 1211/2"-on'the ROADMASTER 1301/4" instead of 1261/4".

Yet - and here's where the magic comes in - the whole car is shorter over-all. Actually less from bumper to bumper than previous Buicks in these series.

That means easier parking, easier tucking away in family garages, easier maneuvering in crowded

I here are some other things too. An extra rear-quarter window not found in standard 4-door Sedans. A different upperstructure styling that makes this body-type stand out as something pretty special.

Even special names that let you say, "I drive a SUPER 126" or say, "I drive a SUPER 120 or "Mine's a ROADMASTER 130," just by way of being different.

Yes, we think we hit on a happy idea in the "Longfellows," as they're coming to be known. They are not longer, on the outside, but there's a two-way stretch-in width and length-in the rear compartment.

You're going to like that—as you'll see by calling on your own Buick

dealer. If he doesn't have one on hand, he can get it pretty promptly -and at a price and on a deal you'll have trouble matching, much less beating, anywhere else.

See him now, will you-about placing an order?

The Two Best of The 50th International Show

CHICAGO, ILLINOIS. "Judge Roy Bean" (right) a 1240 pound Hereford steer from Texas, and "Chino 8062" an 850 pound junior calf of the same breed from Maryland, were selected by Judge A. D. Weber of Kansas State College as Grand and Reserve Grand Champion fat steers, respectively, of the 50th Anniversary International Livestock Show held recently. It is unusual for a junior calf to win one of the top honors at as big a steer show as the International — more unusual for the two best to be of the same breed.

A new International Show record price of \$11.50 per pound was setch

A new International Show record price of \$11.50 per pound was established when the "Grand Champ" sold to the highest bidder. He returned to the Pecos County 4-H Club, the group by whom he was fed and shown, a total of \$15,155 including \$1355 in prizes awarded by the International Show and the American Hereford Association of Kansas City.

"Judge Roy Bean" is a grade Hereford from the 500 cow herd of a Fort Stockton rancher, Jack Allison, who has used top registered Hereford bulls for years. A specially built trailer house served as transportation, lodging and dining hall for both the steer and the seven club mem-

tion, lodging and dining hall for both the steer and the seven club members who made the trip from Fort Stockton to Chicago with their County Agent, W. T. Posey.

Reserve Champion "Chino 8062" sold for \$3.75 per pound. He was exhibited by the Chino Farms of Church Hill, Md., and was fed and shown by Arthur McArthur, who fitted the grand champion steers of both the 1936 and 1937 International Shows.

WASHINGTON, D. C. — Art authorities of the National Gallery stand before a priceless, 15th century painting and compare the original with the full-color proof before giving approval to the reproduction of this painting on the cover of The Upper Room, the world's most widely used devotional guide. The painting, "The Rest on the Flight to Egypt," by Gerard David, shows Mary and the infant, Jesus, resting on their flight into Egypt, while Joseph in the background knocks nuts from a tree for their food.

Col. H. A. McBride, left, administrator of the Gallery, holds the proof and discusses with Dr. Raymond H. Stites, educational director of the Gallery, and Dr. J. Manning Potts of Nashville; Tenessee, editor of the Upper Room, the problems involved in producing two million faithful copies of the full-color original for the cover of the 1950 January-February issue.

January-February issue.

COLLEGE STATION, Feb. 1

Results of tests conducted by the Texas Agricultural Experiment

Station and 4,226 4-H and adult

demonstrators show that corn

ler, extension agronomist of the Texas A. & M. College, says this

He says the 4,226 demonstrators showed an average increase

per acre of 7.5 bushels and most

of it was due to the use of corn

hybrids. Last year, according to the Office of Crop Estimates, of the USDA, 1,297,000 acres of hy-

brids were planted in Texas and this times the average increase

made by the demonstrators indi-

cates that an extra 9,727,500 bu-

shels of corn were produced in

Miller says the acreage planted to corn hybrids in Texas is

still too small. It amounts to

#### ATTEND DISTRICT MEETING

Attending the District Luzier's meeting, in Lubbock at the Lub-bock Hotel Monday were Mes-dames Bernice Splawn and E. E.

The meeting opened with a luncheon at noon, continuing with a study on "new Luziers basic color concepts" in the afternoon. Fifty-three were present for the

52 percent of the total corn acreage planted and he adds that farmers could profit from planting hybrids intead of the lower yielding open-pollinated

The newer hybrids, including Texas yellow hybrids 20, 24, 26, and 28 have demonstrated their ability to outyield the older hy-brids and should be substituted for them ,he says.

He says the demand for seed is especially heavy for the newer developed hybrids and suggests that planting seed be puchased at an early date. If seed of the newer varieties are not available he says, you can substitute some of the older hybrids such as Tex-as 8, 12 and 18 for them. These hybrids will do well and will outyield the open-pollinated varie-

New hybrid seed should be planted each year, he says, for after the first year hybrid seed "run out" and this results in lower yields. Planting good, adapted corn hybrids is one way Texas farmers can increase yields and profits, says Miller and right now that is an important consideration for most every farmer in the

# Graham-Hoeme

The Revolutionary Plow WE HAVE 'EM ON HAND!

Plowing the Correct Way
With the Graham-Hoeme two-inch chisel as shown in illustration prevents blowing, permits water to bypass top soil into the sub soil. Keeps the rubble on top, thus cutting down evaporation.

**PROVEN FACTS** 

Enough rain falls on your farm most every year to make fine crops. But after the first few minutes of rain a smooth surface seals itself so the rate of intake is greatly lessened. This causes run-off. It has been scientifically proven that the same field will not seal itself when plowed with the Graham-Hoeme Plow with a 2-inch chisel furrow every 12 inches to by-pass the rainfall through the top soil and keep a straw mulch on top. Experiments prove that upwards of three times the moisture enters the ground.

Suppose the next day turns off fair and hot. Bare soil would soon be steaming and losing its moisture rapidly. But not covered ground. It is shaded from the sun and protected from the wind. The moisture stays in the soil.

Under these conditions your soil stays moist so long that it bridges the gap between

These things are not just opinions-they are proven facts. The Nebraska Experiment Station has proven them in some of the worst years the Midwest has ever known. Now we know that a covered, corrugated field in a good, brisk summer rain will absorb 200 percent more moisture than a bare field and 64 percent more than a field with a lot of vegetable matter plowed into the surface.

### **Boy Scouts** —

(Continued From Page 1) proclaimed, "Liberty throughout all the land unto all the inhabitants thereof." Here the aims of the Crusade to "Strengthen the Arm of Liberty" will be restated. All taking part in the ceremony will rededicate themselves to the Crusade and to the principles of the Scout Oath and Law.

Similar Ceremonies Elsewhere

Similar ceremonies featuring a "Declaration of Purpose" will be held by Scouts at the state capitals, county court houses and city halls throughout the nation, emphasizing the Crusade's three objectives of more trained leader-ship, better unit programs and stronger membership. Ceremonies will also spotlight the National Scout Jamboree, the climax of the two-year Crusade.

The Jamboree will bring 40,000 Scouts and Leaders to Valley Forge, Pa., next June 30 to July 6 from all parts of the nation and from overseas. They will camp on ground made historic by George Washington and his Continental Army during their encampment there from Dec. 19, 1777 to June Letters To

During Boy Scout Week many of the nation's 541 Local Scout Council's, which administer the programs of Scouting in specific areas, will announce the names of the leaders of their Jamboree Troops and their plans for seeing historic spots while going to and returning from the Jamboree.

#### Mr. Muleshoe . . .

assume command of the newspaper there.

Seen & Heard H. S. Sanders, Lumberman: laugh smugly and in open derision when someone says he has to rush off and pay his poll tax. Why don't these fellows grow up. Doggone, I'm done 60, and I don't have to pay a poll tax, I don't have to work the road, don't have to sit on a jury, don't have to do nothing like that. Mr. Editor, how would you like to be 60 and get out of all that?

All I got to say is stick around Mr. Sanders, and I'll get with you. A man will get 60 if he just stays here long enough.

#### Technique Is Outlined For Reclaiming Leather

One way to bring mildewed leather back into service in short order, say home management specialists. to wipe it with a cloth wrung out in diluted alcohol.

Use one cup of denatured alcobol to one cup of water. Then, if necessary, wash with thick suds of mild, neutral soap, or saddle soap; wipe with a damp cloth, and dry an airy place. When dry polish with good wax dressing.

# Oscar H. Baker Rites Friday

Oscar H. Baker, 76, died at 6:30 p. m. Wednesday, February 1, at the home here of his son, E. O.

Mr. Baker, who was a native is survived by the followng children:

Mrs. W. A. Gray, San Antonio; Mrs. Frank Miller, Moore, Texas; One project is on FM690, from Jack Baker, Shreveport, La.; Mrs. Oklahoma Lane 10.278 miles east, Fred Ivy, Utopia, Texas; Mrs. W. intersecting the Friona-Muleshoe E. Stabaugh, Houston; Mrs. W. E. Carter, Dilley, Texas; Mrs. Clyde Tate, San Francisco; O. H. Baker, Jr., Balboa, Canal Zone; and E. D. Baker of Muleshoe.

Funeral services will be held Friday morning at 10 o'clock from the First Methodist church, Mule-shoe, with Rev. T. G. Craft officia-

Interment will be in Muleshoe cemetery under direction of the Muleshoe Funeral Home.

# The Editor ...

SON HAD POLIO

My son Wayne had polio, was in the hospital nine weeks, but now is almost completely recovered and is going to school now Wish you would run this in your paper next week, so our friends there will know how he is. Thanks. Plainview, Texas

The City dads are figuring on a city auditorium. Don't let it get bruited about. Don't let the populace get to wrangling over it. Don't let nothing happen to this project. You city dads go on and build it and send me my pro rata part of the costivities in the form of a tax statement.

I have not been wrong many times since I been here. But on the swimming pool I was definitey wrong. I didn't vote for it. I didn't make very many public speeches in favor of it. But now, believe it is the stuff. I believe he swimming pool will serve lots of people and will bring lots of people to Muleshoe. It will be an keep our kids from running off to some other town. Doggone, I believe it's going to be the thing. Now, if you, or you, have managerial ability, could run a swimming pool, keep everything under control, kindly turn in your application to the city commission. The about being wrong. I usually sam- tion Wednesday. They turned the ple out the public sentiment be- hands and other parts of the body failed to sample the vote on this went to bed and were awakened election correctly.

# Parmer Co. To Get 22 Miles Paving— Muleshoe To Friona Gap Included

W. H. Garrett, resident engineer, of Littlefield, released the information the first of the week in authorizing the publication of a notice calling for bids on paving two strips of farm-to-market roads.

intersecting the Friona-Muleshoe road; and the second concerns FM299, beginning at the present end of payement five miles north of Muleshoe and extending 11.78 miles north toward Friona, connecting with the pavement that now expires four miles south of Hub.

Part of the construction on the Friona-Muleshoe road, a half-mile, actually, lies within Bailey County, as the final tie-up is made on FM299 to provide a complete all-weather road from Friona to Muleshoe. In addition to being a boon to farmers, completion of this highway will make possible a serviceable cut-off from Highway 60, at Friona, to a number of other highways, either to the Dimmitt road out of Bovina, or to the Plainview, Lubbock and Morton highways out of Muleshoe. Currently, FM299 is paved 13 miles south out of Friona toward Tribune. Farwell.

Twenty-two additional miles of rural paving are in the immediate offing for Parmer County.

W. H. Garrett, resident engineer.

W. H. Garrett, resident engineer. one-half mile of the county line. Turning to the other strip of paving for which bids are being called, FM690 to Oklahoma Lane is at present topped from the cutoff on Highway 70 to the corner just south of the school, with a half-mile of the paving extending north to the school.

The new project would pick up at the corner south of the school and run toward Lazbuddy for a distance of 10.278 miles, intersecting the Friona-Muleshoe road and going on east for one-half mile, where it will connect with an old WPA caliche-surfaced highway in good condition.

All work called for, the engineer explained, is to be completed during 1950, and Garrett expressed belief that preliminary work to paving the two strips would begin around March 15th.

The advertisement for bids bears a deadline of February 15, Garrett pointed out. By 9 a. m. that day, all bids, to be considered, must have been received by the Highway Department at Austin, where they will be publicly open-ed and read. Plans and specifications are available at Garret's office, in Littlefield.

# Municipal Swimming Pool Located On School Campus; Plans Began

# **Body Found Here Quickly Identified**

Muleshoe's mystery of the "the body in the cotton burr burner", the story of which was flashed over the Plains country and beyond by press and radio, quickly was solved when officials at the Department of Public Safety labactivity on the home grounds to oratory in Austin identified the man's finger prints.

The body was that of Aaron A. "Pat" Turner, who occasionaly worked here in the past. Turner was about 57 years old.

line forms on the left. Oh, yes, for possible fingerprint identificafore getting out on a limb-like over to the laboratory at 8 a. m. Roper, Gallup, Crossley etal, I Thursday. The tired officers then a few hours later by laboratory nen who informed them of the identification.

An inquest was held Friday morning by R. J. Klump, justice of pease, who in his offical findings a city auditorium in the same said there "was no evidence of violence or foul play. That the victim died of suffocation and that the sign ago approved issuance of this finding be entered as of Iss. this finding be entered as of Jan-uary 27, A. D. 1950."

He had heard evidence of sherrif Freeman, Dr. L. T. Green, the county health officer, who performed the post-mortem; Anton Vrana, ginner, who discovered the Vrana, ginner, who discovered the body; and of A. W. Copley, gin 8TH ARMY IN JAPAN
