## SENATE APPROVES LOWER COURT BILL

### BILL PASSED WITHOUT EVEN VOICE VOTE

WASHINGTON, August 7. (U.P.)—The senate today approved a bill for reorganization of lower court procedure as a substitute for President Roosevelt's original supreme court enlargement program.

The shell of what had been the most controversial measure of the entire Roosevelt administration was whipped through the senate without a roll call.

After brief arguments and minor amendments, Vice President Garner suddenly banged his gavel and declared the question was on passage of the bill. When there were no objections he declared the measure passed without even a voice vote.

The measure offered as an amendment to a house bill goes back to that body for concurrence. Senate foes of the president's original court program, having forced abandonment of the proposal for additional justices on the supreme court, too cautious against a possible house move to revive the administration measure.

Approval of today's bill concluded six months of bitter controversy that split the democratic party and gave the administration its most serious reverse.

The senate already has approved a resolution authorizing a committee to study the need of further legislation, particularly in regard to retirement of justices, and to report next January.

## Report China Is Enlisting Foreign Service

### 60 FOREIGN PILOTS ARE ENLISTED

WASHINGTON, August 7. (U.P.)—Chairman Key Pittman of Nevada of the Foreign Relations Committee, told the senate today that a "desperate situation" exists in regard to American nationals caught in the China war zone.

NANKING, China, August 7. (U.P.)—The foreign office announced Saturday night that the Chinese-Japanese dispute "still is subject to settlement by negotiation" if Japan is so disposed.

The statement coincided with the arrival of Japanese Ambassador Kawagoe in Shanghai from north China and followed a Japanese naval demonstration in Hankow to show the central China government the helplessness of the strategic Yangtze river valley and the national capital.

In Shanghai, Kawagoe received the Chinese overture coldly. He said the situation was extremely grave and "fraught with dangerous possibilities."

"It is rapidly nearing a catastrophe," he added that he would continue diplomatic efforts, however.

Reports reached Tientsin that Generalissimo Chiang Kai-Shek Chinese commander, had formed an air fleet and had enlisted the services of 60 foreign pilots.

It was believed that if the reports proved true the foreign legion would include a number of Americans.

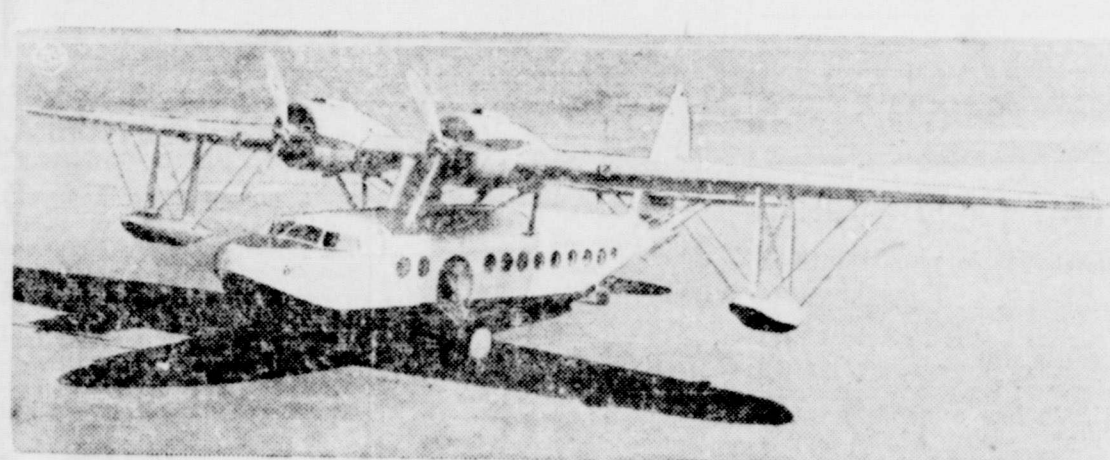

Reports persisted, despite angry Japanese denials, that a mysterious Chinese warplane had been scouted.

### Pan American-Grace Air Liner Crashes at Sea Near Cristobal With 14 Aboard

Wreckage of the Pan American-Grace Airways air liner, carrying 11 passengers and three members of the crew, was found by searching U. S. navy planes 20 miles west of Cristobal, C. Z., indicated by the X on the above map. The plane, en route from Santiago, Chile, along the course shown by the heavy line, was forced down at sea by bad weather encountered as it neared the Cristobal airport.

Eleven passengers and the crew of three aboard the Pan American-Grace Airways liner were believed to have been killed after the wreckage of the amphibian, the Sikorsky S-43 type, shown in top photo, was found submerged a short distance west of Cristobal, C. Z.

Army and navy planes joined ships, including the destroyer Taylor, lower right, in the search for the missing plane. It was forced down at sea on its regular flight from Santiago, Chile, soon after Pilot Stephen S. Dunn had radioed he was approaching the air base at Cristobal. Among the passengers was Rex Martin, lower left, aeronautical adviser for Latin America of the U. S. Department of Commerce.

### OLD NEWS WASHES ON SHORES TODAY

WORTH, August 7. (U.P.)—An infantile paralysis to port the gay vacation of 9-day McReynolds of Correll.

Time to Fort Worth 10 days sit an aunt, Mrs. G. F. The girl's parents are Mr. W. I. McReynolds of Correll.

### EMPLOYERS REQUESTED TO MAKE RETURNS TO INTERNAL REVENUE

AUSTIN, August 7. —Tax returns and remittances filed under provisions of the Social Security Act should be sent to the Collector of Internal Revenue and NOT to field offices of the Social Security board it was announced today by M. D. Dewberry, manager of the Austin office of the board.

"Although we have announced at every opportunity that the board has nothing to do with collection of taxes by the act, many employers continue to send us completed SS-1 forms, accompanied by checks, money orders or cash.

"Employers will be doing themselves as well as the Social Security Board a favor by sending their returns and remittances to the Collector of Internal Revenue for the district in which the employers' prin-

Brittle, cold-eyed Ray G. Ward alias Frank Fisher, told police at the Los Angeles jail, where he is pictured, above, that he was "with" the gang that killed Jake Lingle, Chicago newspaperman, in June, 1930. Fisher was arrested with four others, a short time after the crime, then released, police said.

### MRS. MAYHEW BREAKS LIMB IN FALL FRI.

Mrs. Aaron Mayhew was treated in the Graham hospital Friday evening for broken bones sustained by a fall in a pile of bricks in her back yard about five o'clock.

Both bones in the lower limb were broken in the fall. She was rushed to the hospital where X-ray pictures were made and the bones set.

At her request, she was returned home at 8.30 p. m.

In a telephone conversation with Bill Mayhew Saturday morning, he reported Mrs. Mayhew did not rest well Friday night.

Mrs. Mayhew is 67 years of age and has had the ankle bone of the same leg broken several years ago. She has not been able to walk well since that time which accounts for her loss of balance and fall Friday.

Home Doyle is spending the week-end in Dallas visiting the Pan American Exposition.

### Special Ball Game Sunday Afternoon

A special hard ball game will be played at the softball park at 16th and Ave. A Sunday afternoon at four o'clock.

Maytown will come to Cisco to take home the laurels and the Cisco players will need not only the support of each other, but that as soon as he feels able to travel, will come to Cisco for a vacation and rest.

Charles, brilliant young bacteriology instructor, stated he "came to himself" wandering around in New Orleans Thursday and does not remember how he got there. Members of his family were greatly relieved after two days and nights of anxiety. They were not informed of his disappearance Monday until Wednesday noon.

It is believed by his family that Charles suffered a temporary attack of amnesia brought on by overwork and extreme heat.

Charles had complained of headache to a friend instructor about noon on the day of his disappearance.

Friends stated that his work, in addition to studies in preparing his daily lectures, had demanded so much of his time, that he had been forced to arise at four or five o'clock in the morning and wrot his family that he had been getting very little sleep of late.

Charles had drawn some money out of the bank early Monday, and it was feared he had met with foul play.

Radios broadcast descriptions of the youth, and Austin newspaper, and the police were searching for him, as well as University officials.

DOG SERVES ONE MASTER SPRINGFIELD, Mo. (U.P.)—A dog, no more than a man, can serve two masters. Justice of the Peace James B. Benson held in deciding a suit here.

### LANKFORD TO COME TO CISCO FOR VACATION

Mrs. Eugene Lankford talked with her son, Charles, of Austin, Saturday and the apprehensive feeling of worry and suspense was allayed as she listened to his voice over the telephone. Judge Lankford, father of the youth, said the conversation was necessarily short because Charles stated he was badly in need of sleep and rest, but that as soon as he feels able to travel, will come to Cisco for a vacation and rest.

Charles, brilliant young bacteriology instructor, stated he "came to himself" wandering around in New Orleans Thursday and does not remember how he got there. Members of his family were greatly relieved after two days and nights of anxiety. They were not informed of his disappearance Monday until Wednesday noon.

It is believed by his family that Charles suffered a temporary attack of amnesia brought on by overwork and extreme heat.

Charles had complained of headache to a friend instructor about noon on the day of his disappearance.

Friends stated that his work, in addition to studies in preparing his daily lectures, had demanded so much of his time, that he had been forced to arise at four or five o'clock in the morning and wrot his family that he had been getting very little sleep of late.

DOG SERVES ONE MASTER SPRINGFIELD, Mo. (U.P.)—A dog, no more than a man, can serve two masters. Justice of the Peace James B. Benson held in deciding a suit here.

### Community Tennis Court Near Finish

F. B. Altman, who is heading the work on the tennis court that is being built by the Young People of the First Methodist church, says that the concreting of the court is doing nicely. Mr. Altman also said that the court will be finished sometime during the first of the week at a cost of near \$200.

The tennis court will be open to all the community as soon as it is completed. It is being built on the corner of the church's property at 8th street and Avenue G.

The City of Cisco has been a great aid in helping with the work on the court. The Young Peoples department also wishes to thank the boys who have worked putting on the gravel and clearing the space for the court.

The department is also grateful to its members who have done such an excellent job of raising the money so the court could be built.

### 'DEATH BABY' SAVED FROM DEATH AGAIN

PHILADELPHIA, August 7. (U.P.)—Unlabeled "death baby" taken alive from the dead body of her mother, stopped breathing for a few seconds while being fed today, but was saved again from death.

Mucus which collected in Fanny Boccawinski's throat as the 4-pound infant was being fed breast milk from an eye-dropper, cut off the air from the lungs.

Dr. John Corbett drew the mucus from her throat and she again began breathing, but the doctor ordered oxygen turned on in the incubator where she lay.

### WEATHER EAST AND WEST TEXAS—Fair Sunday.

### BANDMASTERS ARE MEETING HERE TODAY

The bandmasters of this section of the state will meet here at the High School this afternoon at 2 o'clock. Some twenty-five bandmasters are expected to be present.

This is one of their regular meetings at which music and band leading are discussed. The bandmasters will be present from the territory within Sweetwater, Brownwood, Graham and Ranger.

The meetings are to be held on the first Sunday of each month but because of the first Sunday of August coming on the first day of the meeting was placed on the second Sunday of the month. Other meetings have been held at Coleman and Brownwood. The meeting here today will be a strictly business meeting.

### SPANISH WAR TAKES GRAVER TURN AFTER ATTACK SATURDAY

The Spanish situation took a graver international turn Saturday after aerial attacks on a British ship, two French ships and an Italian ship in the Mediterranean.

British ships have been fired or before, and Britain had accepted the situation. In this instance however, the ship apparently was on the high seas. Three planes dropped about forty bombs and then turned machine gun fire on the ship. There were no direct hits.

Action in Spain centered on eastern Spain and in the north around Santander. Madrid itself was subjected to terrific bombardment.

VALENCIA, Spain, August 7. (U.P.)—The cabinet authorized today the distribution of licenses to approximately 14,000 Catholic priests and

### State Secretaries Of IOOF Meet Mon.

State Secretaries Association of the I. O. O. F. Lodge will meet in Ranger for a one-day business session Monday, August 9.

Monday night, the Grand Master will be guest of honor at Cisco of all lodges in this district which is composed of units from all over Eastland county. Many lodges outside of the county are expected to attend. They will meet in the lodge hall at 8 o'clock. J. A. Jensen announced this morning.

A luncheon at Ranger Monday noon at the Gholson Hotel and a varied and interesting program throughout the day are present arrangements.

TOWN IRKED BY TRANSIENTS SAN JOSE, Calif. (U.P.)—To discourage transients without means of support the county supervisors have asked permission of the state highway authorities to post signs on all roads in San Mateo county announcing that no free food will be passed out.

### Appplewhite Back From Vacation Trip

Rev. M. H. Appplewhite and family have returned from an extended vacation in San Antonio and Kerrville, and report a delightful time.

After spending a week at Kerrville, Rev. Appplewhite and his father left San Antonio and went over into Old Mexico where they enjoyed the customs and scenery of that romantic land.

Rev. Appplewhite will fill his pulpit at both services today.

Douglas Jones of Big Spring is a visitor in Cisco today.

### CISCO WOMAN GETS WORD OF NIECE'S DEATH

TERRELL, August 7. (U.P.)—A 14-year-old girl and a 7-month-old baby were dead today and ten other persons were recovering from injuries after a two-car collision late Friday near Terrell.

The dead were Lillie Mize of Breckenridge, and her baby sister, Juanita, daughters of Mrs. Nollie Mize.

Mrs. Mize herself seriously injured at noon Saturday had not been told of the death of her children. The accident occurred when Mrs. Mize's automobile and one driven by W. S. Cook of Mabank crashed head-on.

In a Terrell hospital were Mrs. Mize's three other children, Catherine, 9; Helen, 8; and Geneva, 3. They were reported out of danger. Bobby Dorman, 10, a cousin, suffered slight injuries.

Jack Marvin, 57, of Canton, an occupant of Cook's automobile, was in a serious condition from a skull fracture.

Lillie is a niece of Mrs. Laura Lamb of Cisco, who left Friday in reply to a message regarding the accident.

### HORSTS GET PERMISSION TO ADOPT BABY

CHICAGO, August 7. (U.P.)—Ottie and Martha Horst today obtained written permission to adopt the 21-month-old baby by they had kept in their home since birth.

John and Lydia Regan, natural parents of the child, known as Donald Horst, gave their consent in a conference between the two couples in the office of Assistant Attorney General John Johnson.

Mrs. Regan was weeping as she signed the consent papers.

"We think the Horsts will be able to give him a better home than we," she said.

Mrs. Horst was beaming. "I'm so appy I feel numb all over," she said.

Mrs. Ray Miller of Wink is spending the week with her parents, Mr. and Mrs. W. J. Armstrong.

## Long-Term Planning for Public Health

For a great many generations, people regarded their physical ailments as something set apart for medical men alone to cure. There was no general moral compulsion to take interest in disease beyond submitting it to a man who knew how to deal with it.

Fortunately, through the efforts of leaders in the medical profession itself, a new attitude has come into existence; an attitude based on the responsibility of the individual to know exactly what causes disease, what he can do to avoid getting it, or once having it, how best to co-operate with the doctor in getting rid of it.

The question of public health, therefore, is becoming as much a matter of public policy as wages, working hours, or living costs. But it is a mistake to think that adopting the attitude settles the matter and that we are thus automatically ushered into an era of freedom from bodily ills.

Just released, the report of the Hospital Survey for New York indicates another big step necessary to the final success of the new public health policy.

The public already has an immense investment in hospitals and allied institutions, the report points out. And while this investment has been made with the best of intentions, it has been made haphazardly. The result is that in many cases the benefits are not properly distributed, facilities of many hospitals are never fully used, and new and more efficient methods of fighting disease are not placed universally within reach of the people.

In the light of expanding knowledge in medical science the hospital is an indispensable public utility because of the wide variety of resources for diagnosis and treatment that it offers.

For that reason, the report emphasizes that the organized care of the sick a generation hence will best be provided for by the orderly growth and co-ordination of present facilities.

Now the great majority of institutions for the care of the sick are provided and maintained by taxes or voluntary contributions of the local population. This, then, places the duty of forwarding a great humanitarian work directly upon those individuals who make up each community.

Untold sums of money and the genius of qualified experts have been turned to the co-ordination of our endeavors in many fields, commercial, cultural, and philanthropic.

It seems that it would be good economy, as well as good sense, that the public health, through our facilities for guarding it, should have the same advantages.

## BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER  
NEA Service Staff Correspondent

WASHINGTON—This is the best guess available right now, and please remember it's only a guess:

Solicitor General Stanley F. Reed will be appointed to the Supreme Court to succeed Justice Van Devanter, retired.

Next best guess, perhaps, is Judge Sam G. Bratton of Albuquerque, N. M., sitting in the Tenth Circuit Court of Appeals, including parts of eight western states. At any rate, the White House is hearing plenty from Bratton's backers.

One of the worst crimes the New Deal ever committed against the country and itself was the thing it did to the solicitor-general's office after Felix Frankfurter had refused the post in 1933. But Reed took that office more than two years ago and has carried the brunt of defending New Deal laws before the Supreme Court, lately with conspicuous success. He argued the Wagner Act as well as the AAA case and many others.

Reed for several years was counsel for the old Hoover farm board and early in 1933 became general counsel for RFC under Hoover. He served Roosevelt ably as a legal expert in the banking emergency. He was slated for a federal judgeship in Kentucky when Roosevelt decided he should be solicitor-general. His arguments have indicated definite liberalism along with a desire to fit New Deal laws into reasonable constitutional limitations. He is 53 years old.

Bratton was a liberal Democratic senator from New Mexico until Roosevelt made him a federal judge. As an ex-senator, he could be sure of little opposition to his confirmation.

YOUR correspondent may have erred in asserting recently that Senator Sherman Minton of Indiana would be the assistant majority leader under Barkley. Minton wants his close friend, Senator Lew Schwelmbach of Washington, to take the job. It is probable that Senator Hugo Black of Alabama will be made another assistant leader and that Minton will become the party whip.

DON'T fall too hard for these nice, pretty stories about har-

mony restored in the Democratic party. Knives are being sharpened as never before. If Roosevelt and his friends have anything to do about it, 1938 will be known to history as "the great year of reprisals," meaning that Roosevelt will not forgive or forget the scuttling of the court bill and other items of his program.

Even while Vice President Jack Garner and his Democratic-Republican coalition seemed to rule the Capitol Hill roost after giving the court bill its coup de grace, Roosevelt showed that he was still trying to run the works by taking Senate Majority Leader Alben Barkley off for a yacht week-

end. Senator Ed Burke of Nebraska, opposition court plan leader, got to see Roosevelt through Garner's request, assured the President that the Senate judiciary committee would do its best to patch up a good bill and expressed the hope that there would be no hard feelings.

Roosevelt, according to an authoritative source, merely sat, listened, made no reply and puffed cigarette smoke up into the air until Secretary Marvin McIntyre came in to announce the next visitor.

## OUT OUR WAY

## Selection at Yale Honors Tex. Teacher

A Texas teacher has had the honor of being selected, from among forty-two candidates in the United States of the highest personal and academic qualifications, to receive a full tuition scholarship in tuberculosis executive secretarial work which has been established by the National Conference of Tuberculosis Secretaries at the Public Health Department School of Medicine at Yale University. The scholarship is for the academic year September 1937 to June 1938. It has been awarded to Miss Frances Sullivan of Corpus Christi.

Miss Sullivan received her B.A. and B.S. degrees from Texas Women's College, Denton, and her M.A. degree from the University of Texas. For the past 10 years she has taught biology in the Corpus Christi high school. Miss Sullivan became interested in

the tuberculosis movement when a program of tuberculin testing and X-raying was inaugurated for pupils and teachers in the Corpus Christi high school in 1933. She has co-operated actively since that time in the tuberculosis work in Corpus Christi Chapter of the American Association of University Women, of which she is a member.

A period of Miss Sullivan's scholarship course will consist of several periods of training in service with tuberculosis associations. She will have a three to four weeks period of such training on the staff of the New York State Committee on Tuberculosis and Public Health beginning September 1. Another period will be two weeks of service on the staff of the National Tuberculosis Association during the Christmas holidays. There will be a third period of field training during the spring vacation with a tuberculosis association yet to be selected.

Upon completion of her course in public health at Yale University it is expected that Miss Sullivan will go into full time tuberculosis work

## Trial Marriages in Solomon Islands

SYDNEY, N. S. W. (AP) — Trial marriages and semi-detached married couples are neither new nor exceptional in Malaita, one of the Solomon Islands. Dr. Ian Hogbin told members of the Anthropological Society here.

"If a girl does not like her mother-in-law, for example, during the trial," he said, "she makes a few attempts to run away. The family politely stops her the first two or three times, but if she persists they just let her go. And that ends the romance. When a man and a woman marry, they live in separate establishments, meeting formally at the evening meal."

Let us figure your next job of Printing. Our job department is equipped to serve your needs. PHONE 80.

## G-MEN STALK TRIO IN SECOND DILLINGER GANG

By ALLEN DIBBLE  
United Staff Staff Correspondent  
WASHINGTON, August 7. (AP) — Depredations of a marauding three-man gang, which boasted that it would "put Dillinger in the shade," have sent a squad of federal agents into the Middle West to search gangland haunts which once harbored the Hoosier desperado.

Dillinger, the gang's chosen counterpart, fell before the guns of federal agents July 22, 1934, in an alley beside the Biograph theater in Chicago—the end of a long trail of criminal exploits in the Middle West. Federal agents do not seek the gangsters—Alfred Brady, 26, alleged leader of the "second Dillinger gang"; James Dalhove, 30; and Clarence Lee Shaffer, Jr., 20—for the three murders which police allege they committed to escape apprehension.

Cummings Offers Reward  
Instead, the fugitives race a federal charge of transporting the \$35,000 loot of a jewelry store robbery at Lima, O., March 19, 1936 into Indiana. Attorney General Homer S. Cummings has offered a \$500 reward for information leading to the apprehension of each of the men.

Likewise, Dillinger was not hunted by federal agents for any of the murders of which he was accused. G-men took of his trail only after he had stolen the automobile of Sheriff Lillian Holley in his escape from the Crown Point, Ind., jail March 3, 1934, and had driven it to Poetone, Ill.—a violation of the national vehicle theft act.

After a series of robberies in Indiana and Ohio in which police estimate the gang obtained approximately \$150,000 in loot, authorities said Brady and his men attempted to rob a grocery at Piqua, O., April 21, 1936. Edward Linsey, a clerk, resisted, and he was slain.

Police traced the gang to Indianapolis, Ind., where it was learned they had called upon a physician to treat one of their members who was wounded in a brush with Ohio police. In an attempt to trap the men, Sergt. Richard Rivers of the Indianapolis police was wounded fatally April 27, 1936.

Brady and Dalhove were apprehended within a short time at Chicago. Charged with the murder of Rivers in Marion county, they obtained a change of venue to adjoining Hancock county.

On Oct. 11, 1936, they slugged Sheriff Clarence Watson with an iron bar and the butt of a stolen revolver, fired three shots at Edgar D. Ridden, who came to the sheriff's rescue, and escaped.

Robbed Indiana Bank  
Members of the gang have been identified in periodic bank robberies and holdups in the state since and that time. Last May 25, three men held up the Goodland, Ind., state bank and escaped with \$2,500. Then the hunt for the Brady gang was renewed.

Paul V. Minneman, 33, Indiana state policeman, and Elmer Craig, 45, deputy sheriff of Monticello, Ind., were cruising within the blockade established after the robbery when they gave chase and were suddenly turned upon by the men.

Minneman was wounded mortally and Craig received critical wounds

## SAGA OF INDIAN TO DEFY TIME

PHILADELPHIA, August 7. (AP) — The literature, history and songs of the American Indian dying under the stress of fast modern life, are being preserved in wax by a group of anthropologists and psychologists interested in the philosophy of the first inhabitants of America.

Dr. Frank G. Speck, professor of Pennsylvania, an authority on Indian life, is helping to record for posterity the saga of the red races. Records are being made of primitive dances, hymns of praise and hate, the incantations of medicine men and all the rite of a war-powwow.

Modern mass production has taken Indian maids from the ancient trades of weaving and pottery-making and swing music and dancing have outmoded the age-old Sun Dance. That in the main has sounded the death knell of Indian art and life as a distinctive part of America, according to Dr. Speck.

Indian tribes, including the Iroquois, the Delawares and other groups, at first feared that the records would be a source of ridicule at the hands of white men, but they assented to Dr. Speck's request when he assured them that learned men wanted to study their customs by that unique method.

One Denkahoh of the Cayuga tribe became so interested in the work that he offered to conduct the recordings personally. This modern science, the chief reason for the decline of Indian civilization, according to many, is helping to memorialize its victim.

## Iowans Spend \$58 A Year for Liquor

DES MOINES, Ia. (AP) — The 148,000 Iowans holding liquor permits spent an average of \$58 for intoxicating beverages during the fiscal year ended June 30, the state commission has reported.

The state-owned stores did a business of \$8,864,000 during the year as compared with \$6,559,437 in the year ended June 30, 1936.

In 1936, 133,007 permit holders spent an average of only \$49.30. Liquor sales have increased considerably since the state stores were established in 1934. This year's sales were 63 per cent greater than during the 1934-1935 year, and 32 per cent greater than in 1935-1936.

## Low Excursion Rate In Force to Dallas

DALLAS August 7 —Lowest excursion rates in the history of Texas became effective Sunday, August 1, on four major railroad lines leading into Dallas for Greater Texas and Pan American Exposition visitors. The special rate is a round-trip ticket for only 75 per cent of the regular one-way coach fare and is effective each week end on all trains of the Rock Island, Fort Worth and Denver, Katy and Santa Fe lines that arrive in Dallas on Sunday.

Return must be made on trains of these lines that leave the Dallas Union Terminal prior to midnight Sundays.

Tickets at this special special excursion rate may be bought at any station on any of the four lines recognizing the rate, and can be purchased on date of departure.

"We expect these special Sunday excursions to bring a great number of Texas people into Dallas each week end for the Pan American Exposition," M. C. Alderson, assistant general passenger agent for the Katy, who announced the special rates, declared.

The special week end excursion rates will be effective until October 21, closing date of the Pan American Exposition.

## Huestis' Sinclairs Beat Nance Motor

Huestis beat Nance in a score of 26 to 8 Friday night at the game played on the softball field in East Cisco, proving, as Smitty says, that the Huestis Sinclairs can walk right up and snatch a championship.

The Nance team did some good playing and although they lost this game to Smitty, they have the satisfaction of being able to say, "Well,

maybe we did lose this one—but we beat 'em before."

Everybody loves nice clean fur and the ball games in Cisco have provided interesting recreation both for the players and for the fans.

Box scores of the game follow:

Player—Pos.	AB	R	H	E
Plumber, cf	4	1	1	0
Stamey, 2b	4	0	1	0
Bell, 3b	4	1	1	2
McCrary, rs	4	1	1	1
Elliott, lf	4	1	0	0
Shaw, ss	4	0	0	1
Preston, c	3	1	0	0
Nance, lb	3	0	0	0
Collinsworth, rf	3	1	2	0
Eddleman, p	2	1	2	0
Total	35	7	8	4

McCrary pitching for Eddleman last of 1st inning. Plumber pitching for McCrary last of 3rd inning. Stamey pitching for Plumber last of 5th inning.

Huestis	AB	R	H	E
Foe, lb	4	3	4	0
Steyer, c	5	3	2	1
Howsley, cf	4	3	3	0
Bennie, lf	5	4	3	0
Shoefley, 3b	5	2	3	2
Barnhill, 2b	5	3	3	1
Abbott, ss	5	3	3	1
Filcher, rf	4	0	1	0
Robinson, rs	5	1	1	0
Eetins, p	5	2	3	1
Huestis for Filcher 6th.	1	0	0	0
Total	48	24	26	6

McCrary pitching for Eddleman last of 1st inning. Plumber pitching for McCrary last of 3rd inning. Stamey pitching for Plumber last of 5th inning.

**WOMAN, 100, LEADS THIEVES**  
KREMS, Austria (U.P.)—A 100-year-old Gypsy woman has been revealed as the brains of a gang of thieves. She succeeded in entering homes by the excuse of resting for a short time. Once inside, she drew plans of the house and turned them over to aid members of the gang in committing burglaries.

**Tiny Train Took 3 Years to Build**  
R. L. Hughes, owner, builder and operator of the miniature train at Lake Cisco, spent three years building and perfecting the model now on exhibition.

The train was built in Fort Worth

## 30-Day Duck Hunting Season is Allowed

A 30-day duck hunting season this year with changes in dates and zones was announced today by the U. S. Department of Agriculture. The previous two seasons also were limited to 30 days in order to cut down the annual kill and speed up the Department's waterfowl restoration program.

In the northern zone the season on ducks, geese, Wilson's snipe (jack-snipe), and coot opens October 9 and closes November 7. In the intermediate zone the season is November 1 to 30, and in the northern zone, November 27 to December 26. Dates are inclusive.

States in the northern zone include Colorado, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Montana, New Hampshire, New York (except Long Island), North Dakota, Ohio, Oklahoma, South Dakota, Vermont, Wisconsin, and Wyoming.

In the intermediate zone are Connecticut, Delaware, Idaho, Illinois, Indiana, Kentucky, Missouri, Nevada, New Jersey, New Mexico, Long Island of New York, Oregon, Pennsylvania, Rhode Island, Utah, Washington and West Virginia.

The southern zone includes Alabama, Arizona, Arkansas, California, Florida, Georgia, Louisiana, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, Texas and Virginia.

## Tiny Train Took 3 Years to Build

R. L. Hughes, owner, builder and operator of the miniature train at Lake Cisco, spent three years building and perfecting the model now on exhibition.

The train was built in Fort Worth

and was constructed from an old boiler and driver of a discarded miniature train. It first operated in Fort Worth in 1923 and continued until 1927. In 1930, Mr. Hughes took his train to the Dallas fair and exhibited it on Zang's Boulevard where a total of \$887.30 worth of tickets were sold on Children's Day.

The tiny engine weighs 940 pounds and carries approximately twelve times its own weight or five tons with 3 coaches or a seating capacity of 60 children.

Mr. Hughes announces that he expects to remain at Lake Cisco until Labor Day, then will leave for a short period to attend various fairs in the State. He will return in the Fall and operate every trip Sunday throughout the winter months, giving the little tots the thrill of their lifetime.

## Mattress Factory Entirely Replaced

The Cisco Independent Mattress Factory, of which J. H. Cameron is owner and operator, is back again on a normal keel after having suffered heavy losses from fire about a year ago.

Although business has been crippled since the fire, Mr. Cameron reports that he has gradually replaced equipment destroyed and is now able to run full capacity. In fact, Mr. Cameron says, he is equipped to complete between 60 and 75 mattresses per day. At this time, however, with no employees, but working alone, Mr. Cameron renovates and repairs 6 to 8 mattresses daily, and takes care of new business as well. He also makes inner coil spring mattresses.

Our job department is complete—let us figure on your next job. We can save you money.

## FORD V-8 CAR WINS RACE IN HAVANA, CUBA

An automobile race with reverse English, but not in reverse gear, recently amused crowds that attended a municipal festival at Havana, Cuba. The winning car, a Ford V-8, took almost an hour to cover approximately a third of a mile.

The object in this competition was to see how slowly the cars could cover the specified course without stalling engines, for which the penalty was disqualification.

The performance—quite the opposite of familiar speed racing in which Ford cars have established such an enviable reputation—was a holiday crowd, but a gruelling test of the flexibility and smoothness of the competing cars, when operated at a snail's pace.

The official program issued by the Havana department of culture

which sponsored the competition formally described the event as a minimum speed race. Nevertheless two Ford V-8s with 60-horsepower engines, settled down to deliberate work and proved themselves to be the best "snails" in a place where it paid to be snail-like.

The Fords took first and second prizes, using 57 minutes and 17 seconds and 65 minutes and 17 seconds, respectively, to travel over the 547-yard course, which was a straight, asphalt highway.

Only three other cars, two of which were Ford V-8s finished the race. The starting field included 22 cars, but 17 were disqualified by stalled engines or were withdrawn by their drivers, who saw they had no chance to win.

Early in the race, when the V-8s were only 55 yards from the starting line, several of the other cars had gone more than 100 yards. Superiority of the Fords was emphasized by the fact that two full minutes separated the Ford taking first prize and the competing car that finished third.

Gold and silver medals were awarded to the drivers of the V-8s by the Havana department of culture.

## Its Silent Freezing brings you Savings YEAR AFTER YEAR!

**SERVEL ELECTROLUX HAS NO MOVING PARTS**  
...which assures you of:  
• LONGER, MORE SATISFACTORY SERVICE  
• NO MOVING PARTS TO WEAR  
• COMFORT OF PERMANENT SILENCE  
• CONSTANT, PERFECT FOOD PROTECTION  
• SAVINGS THAT PAY FOR IT

IT'S EASY to appreciate what the noiseless operation of Servel Electrolux means in terms of comfort! But there's an even bigger reason for prizing this permanent silence. Actually, it means continued savings for you—for its cause is a basically different operating method which has no moving, wearing parts! A tiny gas flame does all the work in this thirteenth of all refrigerators. Owners find it actually pays for itself with its economies on running cost, upkeep and food bills. Come in today and get the whole story!

Ask About Our Easy Purchase Plan  
"There is No Substitute For Personal Service"  
**Cisco Gas Corporation**  
"HOME OF HI-HEAT GAS"

## STAY IN THE LOW-PRICE FIELD BUT STEP UP TO THE V-8 CLASS

WHEN you are asked to pay "Just a Few Dollars More" than Ford prices, go slow. Be sure you're actually getting more car and bigger value—and not just a bigger bill. It may be easy to spend more money, but it's not easy to get more car at anywhere near the same prices.

When you pay more, you should get performance at least as flashing as Ford performance. You should get at least an 8-cylinder engine. You should get positive brakes that will stop the car at least as quickly and smoothly as Ford brakes do. Will you get all these?

Will you get at least as much room? Most cars that boast a little longer wheelbase, waste space under the hood with a much longer engine. The Ford V-8 gives you room in the body where you can use it.

Check claims. Get facts. Make sure that any extra amount you plan to pay brings you corresponding extra value above the price of the Ford.

Finally, remember that the real reason why more than a million 1937 Ford V-8s have already been built is that America recognizes it as an outstanding car and the outstanding value for 1937.

### Housewife' Contest Closes August 14

ABELLE, August 7 — Today's  
public prefers old wines to new  
wines, old habits to new habits and  
old lace to new lace but also old  
words to new words, according to  
Dr. Charles Earle Funk, New York  
dictionary-writer and author.  
In a letter to Gene Eio, advertis-  
ing manager of the West Texas  
Utilities Company and contest edi-  
tor of that company's "name-a-  
housewife" contest, Dr. Funk who  
is to be the final judge, declared  
"I do not anticipate receiving any  
new term that will receive general  
adoption. Such has been our ex-  
perience. There may be the most  
logical reason in the world for  
dropping a term that no longer  
meets current conditions, and the  
replacement term may meet every  
requirement, but the public, usually  
will cling to the old. If it is catch-  
y, that elusive quality—it may  
appeal to the popular fancy."  
The service company began the  
campaign for a substitute name for  
housewife early in July. The  
contest closes August 14. It was  
claimed that "women are no longer  
skives to kitchen drudgery" and  
should have a name which de-  
notes "companionship in the home  
and democracy in human relations."  
Entries thus far, Eio said, "have  
been far from original." Most of  
them, he added are based on  
"home manager," "queen of the  
home," "home hostess" and simi-  
lar titles. One entry was "Joy Girl."  
Eio admitted that "the average  
person is a poor hand at inventing  
new words," an opinion shared by  
Dr. Funk who said:  
"Although I shall endeavor to  
ease my selection upon relative  
merits, considered by utility, struc-  
ture, applicability (or popular ap-  
peal) I am not anticipating that I

shall be able actually to indors  
any term that may be submitted  
In fact, there is every possibility  
that none of the terms submitted  
may be worth a tinker's dam."  
Despite Dr. Funk's pessimism, Eio  
said "probably a dozen entries so  
far have merit and they are im-  
proving as contestants obtain a  
better knowledge of the goal in the  
contest."

### Druggists to Meet In Lubbock Aug. 17

Everything from the Fair Trade  
Acts to merchandising methods will  
be discussed by prominent speakers  
inside and outside the trade at the  
West Texas Pharmaceutical Associa-  
tion convention here August 17-  
19, Mark Halsey, Lubbock druggist  
and chairman of the program com-  
mittee, has announced.  
Fully five hundred druggists, drug  
travelers, jobbers, manufacturers and  
others of the trade are expected  
here for one of the most outstand-  
ing convention programs in the history  
of the association.  
Joe Bowen, president of the associa-  
tion, will preside and direct the  
annual convention program, and at  
this meeting new officers and direc-  
tors are to be elected, as well as the  
transaction of all annual business of  
the association.

The convention activities begin  
with registration at 2 p. m. Tues-  
day, August 17, at the Hilton hotel,  
headquarters for the convention,  
and the afternoon will be mainly  
devoted to a West Texas Druggists  
Golf Tournament at the Lubbock  
country club under the direction  
of Birt Pinson.  
Business sessions will be devoted  
mainly to the most vexing problems  
confronting retail druggists and in-  
cluding the Fair Trade Acts, Social  
Security Acts, merchandising  
vitamin products, surgical dressings.

### 10 Lives Saved by Voluntary Sentry

AKRON, O. (UP)— In two years  
as a gasoline station attendant,  
Walter Thompson has dissuaded 10  
persons from suicide.

Thompson's station is at the end  
of a bridge chosen often by per-  
sons as a place to end their lives.  
When he sees someone ready to  
jump, he rushes out and persuades  
him there is something to live for.  
"There's something in the way  
dependent people look," Thomp-  
son said. "You see it in their walk,  
too. They look 'washed up' with  
living."  
"Why do I follow them? I guess  
because it gives me a sick feeling to  
see them standing up there on the  
bridge ready to jump."

### PRAYERS FOR BATHERS

ROME (UP)— "During the bath-  
ing season five 'Our Fathers,' 'Hail  
Marys' and 'Glorias' must be recited  
daily during mass as an act of repara-  
tion for the evils committed by  
swimmers." Those instructions have  
been issued by Cardinal Granito di  
Belmonte, dean of Ostia, to the par-  
ish priests of Ostia, which is a fa-  
vorite seaside resort near Rome.

Let us figure your next job  
equipped to serve your needs.

### MYRA NORTH, Special Nurse—By Thompson and Coll

### Henry Ford, 74 Wields Shovel

On the eve of his 74th birth-  
day anniversary, Henry Ford,  
born July 30, 1863, still was ac-  
tive enough to wield a spade  
with vigor, as he broke ground,  
above, for a new 350-bed veter-  
ans' hospital near Dearborn,  
Mich. Assisting the automobile  
magnate is Donald Addy, son of  
a prominent Detroit World War  
veteran. The hospital site was  
Ford's gift.

### GREATER AREA IN GRASS LAND URGED FOR U. S.

By FRED O. BAILEY  
United Press Staff Correspondent  
WASHINGTON, August 7 (UP)—  
The Department of Agriculture is  
laying the groundwork for return  
of millions of acres of farm lands  
to grasses through study of this  
neglected plant at home and abroad.  
Agronomists have been sent to all  
parts of the world to study grasses  
in their native land. Seeds and  
plants of hundreds of different va-  
rieties have been brought back and  
are being tested in experimental  
farms.  
"The importance of grass to the  
agriculture of the United States is  
appreciated more now than at any  
time in the history of the coun-  
try," P. V. Cardon, pasture spe-  
cialist of the department, told the  
Fourth International Grassland con-  
gress at Aberystwyth, Wales, in  
July.

Broader Program Followed  
Although the interest in pasture  
plants is in breeding new varieties,  
there is no lessening of interest in  
the problems of management and  
soil fertility, Cardon said. Rather,  
said, scientists are engaged in per-  
fecting a grass breeding technique  
that will integrate and clarify broad  
objectives in all interdependent  
fields of activity.

As guide-posts in the breeding  
program, Cardon listed eight spe-  
cific objectives: More dependable  
supplies of viable seed, production  
of grasses which will help to ex-  
tend the summer grazing period,  
grasses resistant to disease, deter-  
mination of competitive values of  
important species, study of quick re-  
covery values, tolerance to extreme  
soil conditions, palatability, and nu-  
tritive values.

Grass breeding also is expected  
to fill another gap—the summer  
period when most common grasses  
stop growing. Agronomists hope to  
find or develop pasture plants which  
because they mature later, or be-

cause of some other quality, are  
to thrive when other grasses are  
dormant.  
Solution Not Definite  
"Varying soil and climatic con-  
ditions preclude any single solu-  
tion to pasture problems in the  
United States," Cardon said. "Pre-  
liminary studies show that grass  
growing well in two or more re-  
gions may be both palatable and  
nutritive in one but in another may  
be lacking in both."  
"We are laboring under no illu-  
sions as to the magnitude of the  
task and the difficulties that it in-  
volves. We know that grass breed-  
ing must be fortified with other  
organized efforts. In the United  
States this means that agricultural  
extension agents, crop improvement  
associations, seed certification offi-  
cials, growers co-operatives and the  
seed trade generally must work with  
the grass breeder just as he worked  
with the cereal breeder."  
"As improved strains become  
available they will pass through well  
defined and carefully protected  
channels into utilization over as  
wide an area as possible. Only by  
such co-ordination of effort can ade-  
quate supplies of good seed be  
maintained," Cardon said.

### Child Bride Can Love Only Her Doll

POPLAR BLUFF Mo., Aug. 7 —  
Mary Frances Grimes, 11, sobbed  
to authorities today she was "sorry"  
she married 67-year-old William H.  
Grimes, because she "didn't love  
anyone but her doll."

Grimes, held in Butler county jail  
on charges of perjury in falsifying  
the girl's age and of contributing to  
the delinquency of a minor, told  
Sheriff Edgar Hammons:

"If they'll just leave me alone,  
I'll give the girl a good home and  
make her a good husband."

Mary Frances was married to  
Grimes, a cotton picker, last week.  
Grimes told the sheriff he had  
been living the past two weeks at  
the home of the girl's parents. Her  
father, J. J. Alexander, consented to  
the marriage, he said.  
The sheriff said Grimes gave  
Mary Frances' age as 18 when he  
obtained the marriage license.

### Firehouse Brings \$12.81 1-2 at Auction

ESPERANCE, N. Y. (UP)— A bid  
of \$12.81 1-2 was made by John W.  
Frisbee to acquire ownership of  
an abandoned firehouse here dur-  
ing an auction. Bids started at

MAINE FISH GROW TAME BIDDEFORD, Me. (U.P.)—It's a fish story: Hornpout are so tame at Fortunes Rock that they eat from human hands. Mr. and Mrs. Chester A. Feteau and Mr. and Mrs. Chester H. Drown vouch for the authenticity of the story.

'Scrippy' Has Party On 4th Birthday

Little Mona Lee Cluck, better known as "Scrippy", celebrated her fourth birthday with a party for her friends at the Cluck home, 1112 West 7th, Friday afternoon at 5 o'clock.

Cut-door games in which all took part, were much enjoyed by the children, causing laughter and merriment everywhere.

The guests were invited into the dining room where a pretty white birthday cake graced the center of the table with four pink candles aglow. Tall pink candles in white candlesticks were also placed at each end of the table. Ice cream and cake was served to the guests and favors of horns given to each one attending.

The invited guests were: Annetta and Micky Don Parish Paul Harlan Woods, Rose Ann Woods, Carlton and Frank McAfee Jackie and Carolyn Hapeman of Dallas, Katie Lou Atkins, Bettie and Jo Ann Bearman, Betty Elmore, Carolyn Ehasz, Joe Stamey Julia Ann Sanford, Zeldia Lynn Sandier, Patsy and Bernice Ann McCrea, Robert Lee Maddox, Elaine Condey, Richard Moore, Dana Thornton, Gloria and Bobby Parriner, Vivian Gene Grantham, Carolyn and George Fowell, Laila Henderson, Allen Wood, Kippy Kemp Patsy Ruth Nance, Cathleen and Edward Keough, and the honoree Mona Lee Cluck.

Look for Lamb in Fashion's Fold

The short skirt marks the new fur coat as fashion's newest. The trim lines of the natural gray Persian lamb model will appeal to the slim waisted. It is tightly belted, with neat tailored collar, broad shoulders and full skirt, a creation for the youthful figure.

Backyard Flier Scouts Danger

CLEVELAND, August 7. (U.P.)—Unemployed Nick Cheput, 19-year-old "back-yard Lindbergh," flies his homemade airplane without ever having had formal flying instruction. Cheput built the plane, which looks like a winged bathtub, from 65-cent plans. He used a four-cylinder motorcycle engine, sheet aluminum, steel tubing, fabric from a plane that had crashed—and the result produced was the stubby plane "Sir Nick."

Cheput built "Sir Nick" in three months for a cost of about \$100. It is easy to fly and tail spin-proof, he said. "You really don't have to know how to fly this plane," Cheput said. "Its construction makes it impossible to go into a tail spin. 'I know, because I tried to get it into a spin the first time I had it up,' he added. His first flight, made on Easter morning, was abruptly terminated, he admitted, when he brought the plane down "a little too fast."

"It nosed over, but just broke the propeller," he said. Despite his lack of flying instruction, Nick said he had made several "long distance flights" in his homemade plane, and was planning a trip to Florida.

"I'm getting tired of staying on the ground," he said. Nick quit school in the tenth grade. When he isn't nursing the "winged bathtub's" small motor or touching up other parts on the odd-looking plane, Nick helps his father with a trucking business.

Nick grins at the thought of wearing a parachute on any of his flights. "They're too expensive," said he.

MOTHER AT ALTAR SURPRISES VALLEJO, Calif. (U.P.)—Mrs. Clara Peterman surprised her daughter, Catherine Peterman, on the occasion of the latter's marriage. Just as the daughter and her fiance advanced to the altar, Mrs. Peterman announced she had a fiance and marriage license of her own and the two couples were married at the same time.

**CROMWELLS BUILD MANSION**  
**NONOLULU** — Doris Duke Cromwell, wealthy tobacco heiress, has taken out the permit for the construction of her \$300,000 home here. The shoreline property of which it will be erected cost her \$100,000 more. The Cromwells expect to spend six months of each year here.

### OIL ACTIVITY IN EASTLAND COUNTY AREA

In what is practically "virgin" territory the Phillips Petroleum company will drill a 4,000 foot test in or near Scranton, Eastland county.

The firm has announced it is accepting bids of drilling contractors. Having secured several thousand acres, the firm is understood under its plan to drill to 4,000 feet to test the Ranger sand, Caddo lime, Lake sand and the Marble Falls lime. Shallow wells have been drilled previously northwest of Scranton. Phillips is the first major company to enter Eastland county in months.

C. D. Chastain of Ranger announced location for No. 1 Mrs. Beatrice Weddington 330 feet from the north and west lines of section 436, S. P. R. R. company survey, five miles north and west of Cisco. The test, now having its cellar dug and for which the rig will be up next week, will seek oil production from either the 3,300 foot Lake sand or at 3,900 feet.

Chastain who has 1,900 acres leased stated that a well drilled by the Lone Star Gas Company No. 7 Groves from which the test is 1-2 mile north, was one of the area's biggest gas producers, making from 65 to 68,000,000 feet of gas. A well 1-2 mile northeast producing at approximately 3,900 feet which the Phillips Groves is the owner and which Lone Star drilled made small oil production. Frac company in 1918 made 300 barrels of oil in a location 1-2 mile east of the test. The new well is 1-4 mile north of Lake Cisco.

Beard and Taylor of Eastland filed application in the local Railroad Commission office to drill No. 1 Carolei Fox, lot 28, league 2, McLennan County School land survey 10 miles east of Eastland. It is 150 feet from the west line and 450 feet from the north line in the 40-acre Fox farm. Depth proposed is 1,250 feet.

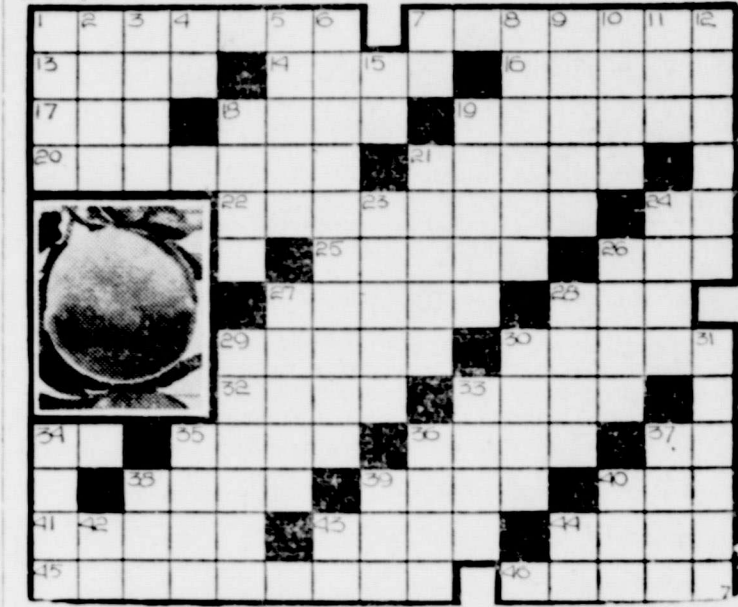

Gallagher & Lawson et al No. 1 Mrs. Bobbie I. Terry, one half mile south of Desdemona, was drilling at 4,050 feet still in the Ellenburger lime which it topped at 3404 feet.

Hickok Producing & Development Company No. 2 Grover S. Cleveland, section 477, S. P. R. R. company survey, eight miles northwest of Cisco resumed Saturday after moving the boiler back when wind

came high while drilling at 3,740 feet. The gas sand, showing it about 1,000,000 cubic feet was topped at 3,751 feet.

States Oil Corporation No. 3 J. W. Henderson seven miles north of Eastland, was reported drilling below 3,370 feet, approximately 300 feet from where pay is expected.

In the same area as the Desdemona test was the Hickey et al No. 1 W. M. Martin two miles southeast of that city but in Erath county drilling below 1,800 feet.

Dorothy Oil company No. 1 Taylor-Beard, seven miles east of Eastland and three miles west of Ranger. E. Finley survey, was drilling at 600 feet in search of production at 1,300 feet.

Hoffmann & Page No. 1 A. C. Justice section 28, H. & T. C. survey, block 2, four miles south of Eastland apparently was to be shut-down when it hit water. Latest depth was at 1,375 feet in shale.

**EASTLAND, August 7 (SPL) —** Applications to drill filed this week in the Railroad Commission office here included:

C. R. Cox trustee No. 1 Jane Lee section 11, B. B. R. R. survey southwest quarter of section 11 600 feet from the east line, 1,200 feet from the north line three miles east of Rising Star, Brown county To drill to 3,000 feet.

P. B. Snook of Gladewater No. 1 J. P. Morris, section 80, James Harris survey, 150 feet from the east line and 1,278 feet from the north line, Coleman county.

### FRECKLES and HIS FRIENDS—By Blosser

filed application to treat No. 1 W. J. Armstrong, W. J. Thomson survey, Eastland county. A total of 2,500 gallons will be used to treat formation from 2,495 to 2524 feet. Present production is six barrels of water to three barrels of oil. Producing string is set at 2,338 feet. Water comes in at bottom of pay.

### PEANUT PRICE IS STABILIZING AIM OF GROUP

Threatened by low prices caused by a heavy crop peanut growers of four counties Thursday in a meeting at Eastland decided upon the formation of a cooperative marketing association for protection.

Counties represented were Eastland, Callahan, Erath, Brown and Comanche. The meeting was the second of three scheduled in the state. First was at San Antonio and the third was to be held Friday at Fort Worth.

Growers named T. D. Robinett of Comanche county and W. B. Starr of Eastland county to attend a state session Wednesday at Brownwood in furthering the cooperation plan.

Speakers attending included A. M. Dickson marketing specialist of the agriculture adjustment administration of Washington, C. E. Bowles marketing specialist, and H. G. Lucas, president of the Texas Agricultural association.

Purpose of the cooperative is stabilization of the market. The cooperation would secure funds from the Reconstruction Finance Corporation to pay growers a predetermined minimum price at marketing time. In stead of placing all of the crop on the market to cause low prices during periods of surplus, a sufficient amount to maintain the minimum price would be diverted. Another step in the program would be to keep peanuts in hands of growers to eliminate sharp upturns in prices which comes after crushers buy supplies speakers said.

### FARM TO AID CHURCH

**EAST LONGMEADOW, Mass. (AP)—**The Congregational Church ladies' aid society has started a chicken farm as a means of raising money for the church. Mrs. Andrew Nelson has purchased 100 chicks and hopes to feed them by donations of grain.

**WORLD OFFERED LIGHTNING DATA**

LONDON, August 7. (AP)—Sixteen million thunderstorms sweep the earth every year.

Taking into account an average of 20 seconds between two lightning bolts, mankind must get used to the idea that 100 lightning flashes rip across the skies around this globe every second.

These figures have been gathered by Dr. Popowsky, the German meteorologist.

According to Dr. Popowsky, a thunderstorm is the result of a "thermic bubble" caused by sun-heated air quickly rising into the cooler heights of the heavens. Thunderstorms carry up to 300,000 tons of rain, sufficient to fill 6,000 big rail trucks.

Two German scientists, Renard and Hochschwender have constructed a "thunderstorm machine."

They have estimated from it that tension accumulated in a large thundercloud could be anything up to 5,000,000,000 volts.

This tension, together with electric power quantities from 20,000 amperes, which would suffice to supply a big country with electric power for a whole year if it could be collected and utilized.

Two other scientists of the Berlin Institute of Physics, Lange and Urban, have made efforts to collect huge energies contained in thunderclouds for industrial power purposes.

A huge wire netting was hung up between the slopes of a rocky valley in the north of Italy which is notorious for severe thunderstorms.

Electric energy accumulating in the air was conducted to two poles. A tension of 8,000,000 volts was gained which could be used to develop sparks 54 feet long.

# NOTICE!

It is currently rumored that the physicians in the city have stated that the swimming pool at Lake Cisco should not be patronized because of the danger of infantile paralysis.

We, the undersigned practicing physicians in the City of Cisco hereby certify that we have not attended a case of infantile paralysis in the immediate vicinity of Cisco nor within 10 miles of the City of Cisco. We have no reason to believe that any one of the victims of infantile paralysis in Eastland county ever entered the Cisco swimming pool and from the information that we have about the purity of the water, the frequency with which the water is changed and the cleanliness of the premises, we do not believe that there is any danger of infantile paralysis being contracted by patronizing the Lake Cisco swimming pool.
