

Mr. Muleshoe . . .

By J. M. Forbes

Anyone who thinks strikes in big industry do not affect finally the least of us should consider the Chrysler strike. Old Herb Covin, who sells Chrysler and Buick and old Arnold Morris and Buford Butts, who sell Dodge and Plymouth, can enlighten you. While they are getting no new units from the big Chrysler corporation, they see dealers for other makes of automobiles getting sales they might cut in on. Not only that, but their service might be impaired by failure to get parts if the strike continues. And they say it's all about a small matter: Not whether Chrysler workers shall have a pension fund set up for them, but whether the administrator of these pensions, and while they debate that question, men are idle from the factory clear on down the line to and through our community, affecting the two dealerships named above, their employes and through them, me and you. For, if it were not for the strike, I feel we would be getting more advertising from them both, therefore the paper suffers, and Journal workers might not be able to buy quite as many groceries, quite as much clothing, you see?

Seen & Heard:

W. R. Carter: I am not Nick Carter, not the Carter with all the oats. I'm just W. R. Carter from down south of here in Bailey County and would like to renew my subscription to The Journal. Thanks, Mr. Carter, and every time you wish to do something like that you are as welcome in this office as you can be.

Bob Jones, speaking February 6: It will rain the 12th. Soon as it gets dry we can get into the fields and list. Then we will have a fine rain in May and will be off to another good crop.

I forgot to ask what month he figured it would rain on the 12th of.

A. W. Copley, ginner: Anyone who ever let the thought that Socialism is such a thing might get our free enterprise system ought to read the lead article in this month's issue of The Reader's Digest. It scares you to learn what they have done in England, what might happen to us unless we watch out.

I know it, Mr. Copley, and until I am proven wrong, I won't believe our people will let it happen here. There is no class of people in the U. S. who are not infinitely better off under our system than they would be under such isms. There is no ism worth working for except individual liberty of action. If one has to be tied to a job, fed with a spoon by Government, how can he have any ambition, any get-up about him? I quit before I run afoul of the label or sedition laws or something.

Seen & Heard:

Mayor Will Harper: In spite of what one reads in your paper, we are fixing up the paving on Main Street.

And they are. A crew of workmen have been busy all week to remedy a bad situation. You farmers come on in here to Muleshoe, you won't have no trouble with holy paving. You won't break no springs. You won't break a wheel or axle. And no more cracks about fox holes, swimming pool excavations, forget Vance Wagon's final "Atom Bomb Shelter excavations." The city dads are fixing up the deteriorating pavement.

W. E. Young, city street superintendent: Now you can tell your readers that the city dads have dug down to find that body you referred to. Inasmuch as they hewed out quite a hole, hunting for the body they just decided to fill in with concrete. You tell these jokers that.

Dudley Malone: Get on Julian Lenau about the bad streets. Me, I am the sewer and water commissioner. He's the street commissioner. I ain't got a thing to do with the streets.

But how come Mr. Harper said "in spite of." Somehow, I don't quite like the way that sounds. But maybe we have ridden a good horse to death. Let us elevate our minds to more intriguing considerations—and there are plenty of them.

For instance: Bailey County and its little problems, disagreements and dislikes are small potatoes when compared to the "Theory of the Expanding Universe." You remember that our solar system is a tiny thing in a big galaxy; there are billions, more than that, of such galaxies and even the nearest galaxies of stars next to our galaxy are too far away for direct trigonometric measurements of their parallaxes. One galaxy is observed to be approaching us at the unbelievable rate of 180 miles per second (quit dodging). The Bootes cluster of galaxies was observed to be receding from our huge galaxy at the neat rate of 24,400 miles per second—but wait a minute, there is a red flag down and a question on that last. Astronomers are not agreed on this point.

How insignificant, then, is man and all his perplexities and problems, compared to the immensity and complexities of this Universe which only God could create and keep operating. (This is a little too deep for me but I hope I copied it right out of the book).

Recipe for success: Be polite, prepare yourself for whatever you are asked to do, keep yourself tidy, be cheerful, don't be envious.

AREA FARMERS TO ATTEND SOIL, IRRIGATION SCHOOL HERE FRIDAY

Experiment Station Experts And Extension Workers To Lecture

Drive In Theatre Wants A Name

Howard Cox, who some time ago announced he planned to erect a drive-in theatre at Muleshoe, is now seeking a name for his new enterprise and is offering a prize for the one who submits the best name.

He will issue a lifetime pass to the person who submits the name judged most appropriate by a committee of local people.

Details of this offer are to be found in an advertisement on another page of this paper. A coupon is carried in the ad, which may be filled out and mailed to Cox Radio & Electric.

The above firm will have some of these forms printed and available for anyone who calls for them. The contest is open to "anyone, anywhere," Cox said.

Meantime, actual construction on the new drive-in theatre was begun last week as Blackman & Howell threw up parking embankments with their terracing equipment. Cox hopes to open the theatre in April.

League Baseball Meeting Is Called

A meeting of all persons who are interested in any way with the Muleshoe Capitol League Baseball Club, has been called for Wednesday night, February 15, at 8 o'clock in the Lambert Plumbing Shop in Muleshoe.

Several matters of great importance will be taken up at this meeting and all interested parties are urged to be present.

Hicks Tractor Co. Is New Dealer Here For Ford Tractor & Equipment

Purchase of the Rockey Tractor Company, which has been dealers here for the Ford tractor, by J. E. Hicks and George Hicks, both of Muleshoe was announced by both parties concerned this week. The Hicks

Social Security Rate Now Is 11-2

At midnight Saturday, Dec. 31, the social security tax on the paychecks of about 39 millions of workers jumped from 1 percent to 1 1/2 percent.

The rise, first in the 13 year history of federal old age and survivors' insurance, will bring a tax of \$45 a year on each worker who gets \$3,000 or more in annual pay.

Employers, an estimated 2,700,000 of them, will increase their contributions to match. The 50 percent rise will take about \$700 million more each year from the income of wage earners and management.

For the present, old age pensions won't be any bigger. They start at \$10 a month minimum. The average is \$26. The maximum now is \$45.20.

Pending in the Senate is a bill, already approved overwhelmingly by the House, to increase the pension and insurance benefits by an average of 70 percent.

If approved by the Senate—as most legislators say it will be—this measure will boost the minimum pension to \$25. The maximum benefit for an aged man and wife would jump from \$85 to \$128 a month.

About 11 million more workers would be covered if the Senate adopts the House formula. These would include domestic servants, the self-employed, employees of local governments and others not now protected. The tax would apply to the first \$3,000 of income instead of the present \$3,000.

W. T. S. C. 40-Piece Symphonic Band To Give Concert Here Feb. 28

The West Texas State College 40-piece symphonic band will play a concert in Muleshoe the evening of Tuesday, February 28, and it is hoped the auditorium of the new high school building will then be ready for use.

The well-known college musical organization is starting on a week's tour of Plains towns Monday, the day before they appear here. They will play at Littlefield Monday afternoon.

Appearance of the band is under auspices of the Muleshoe high school band, Bob L. Gray, director of the local group said. The Muleshoe organization is sponsoring this concert and possibly others to help raise money to pay for needed new instruments. Mr. Gray said a program will be available for publication later, but that it is known the band will play stirring marches, beautiful overtures, giving a well rounded program that will be enjoyed by all who have an ear for music.

New Instruments Bought

Mr. Gray said the Muleshoe band has just bought, "on credit," two fine instruments—bass Saxesaphones, that are first class in every class in every respect, which will fill a need for instrumentation in this direction. Many other new instruments and equipment are needed to give the local band a chance in contests staged from time to time, and to make their playing more tuneful and harmonious. They cost more than \$800, and are played by Jerry Julian and Jerry Parsley.

However, Gray said band parents in recent weeks have become instrument conscious. He told The Journal of several parents who have purchased fine instruments for their children who are in the band, one parent having paid more than \$600 for a new instrument, and several others having laid as much as \$300 on the line for the purpose.

Mr. Gray said he now has 92 pupils enrolled for band work, and he has divided the bands into senior and junior units. The junior band has learned several "easy" pieces and Monday night appeared as a unit for the first time at the monthly meeting of the P-TA.

When the new high school building is finished, the band will have a room of its own, a regular band shell, director's desks, plenty of good storage—and Mr. Gray predicts the youngsters will enter upon a period of rapid progress in every phase of band work and will become more and more an organization of which the whole district will be proud.

Judge Bills Will Address Lions Club

Judge E. A. Bills, of Littlefield, judge of the 64th Judicial District, has accepted an invitation to address the Lions Club at its meeting next Wednesday, February 15.

Judge Bills has been making a number of talks over the district at civic club meetings and other organization meetings. An opponent of Socialism, Communism, or any other ism except Americanism, Judge Bills is expected to discuss some phase of this subject.

Fog indicates approaching fair weather.

be honest with yourself so you will be honest with others, be helpful, interest yourself in your job, don't pity yourself, be quick to please, be loyal to your friends, avoid prejudices, be independent, interest yourself in politics, and read the newspapers.—Bernard Baruch.

Abraham Lincoln's funeral line of march extended 1700 miles from the nation's capital to Illinois. Millions watched the progress of the funeral train. Bells tolled solemn dirges. The common people, whom he loved, grieved and displayed their reverence along the route. Not until the death of President Franklin Delano Roosevelt, in 1945, was such a national outpouring of reverence and grief to be reenacted by the nation.

Harris Leads In Amarillo District Insurance Sales

Marion F. Harris, agent in Muleshoe for Southwestern Life led the sales force of the Amarillo territory in life insurance sales during January. The Amarillo territory consists of thirty-two Panhandle counties. This announcement was recently made by Joe Martin, Amarillo branch manager.

Mr. Harris led during a month when the production of the territory exceeded that of any previous January. Mr. Harris' achievement is particularly outstanding especially when this is considered that he led a force of agents most of whom reside in towns much larger than Muleshoe.

Southwestern Life has over one million of life insurance in force on the lives of Bailey County citizens.

Mrs. Corrington Resigns As Agent

Mr. and Mrs. A. Corrington moved Saturday to their new home at Branson, Mo., in the Ozarks. They have a place on the shores of a large lake, have fishing cabins, etc. Mrs. Corrington has been Bailey County home demonstration agent the last year. She is leaving the extension work.

The county commissioners are to announce a successor to Mrs. Corrington soon, it was said.

Muleshoe Girls Down Threeway 41-40 To Stay In Race; Meet Bula Friday Night

Sharp-shooting Kay Malone's 26-points led her teammates to victory here Wednesday night over the Threeway girls in an important conference battle to keep the local girls in the race for the County Championship.

The Muleshoe girls played one of their best games of the season in downing the Threeway Eaglets by a one-point margin 41 to 40.

This is the first time this season that the local girls have been able to defeat the Threeway sextet, having met them three times previously, but only one of the games was a conference game.

Play At Bula Friday Night

Friday night, February 10, the Yellowjackets will go to Bula and tangle with the Bula team. This is also an important game to the local girls as they have to win this game to stay in the race. If they come through with a victory over Bula, they then have to play the Threeway girls again, but this time on a neutral court for the County Championship. Should Bula win that would automatically give Threeway the County title.

Boys Swamp Threeway Wednesday Night 74 To 47

In the boys game Wednesday night the Muleshoe boys came out victorious over their Threeway opponents by a lop-sided score of 74 to 47.

Ed Nickels and Lee Kimbrough led their teammates to victory hitting for a total of 24-points each while John Whipple hit for 13-points.

Finis led Threeway's scoring by swishing the net for a total of 20-points and Beck was second with a total of 12-points.

The Muleshoe boys were in top form for this game, playing their best game of the season. In fact they had been playing this type of ball from the beginning they would no doubt be the leading team in district 4-AN.

Threeway led at the end of the first quarter 17-14, but Muleshoe went out in front in the second quarter and at halftime led 36-26.

At the end of the third period Muleshoe led 53-35 and at the end of the fourth period, 74-47.

Founders Day Is Observed

The Muleshoe P-TA met Monday night, February 6, for the Founders Day program and to honor the past presidents.

The invocation was given by Rev. A. R. Metcalf, Director of the band. Bob Gray, was introduced by Mrs. Ed White, program chairman. The Junior Band, 48 strong, rendered four numbers, "God the Almighty God," "Half and Quarter March," "Some Old Familiar Songs," "Rejoice Oh My Soul." The music was enjoyed by all present.

Past presidents, Mesdames J. L. Taylor, Morris Childers, J. Clyde Taylor, J. J. DeShazo, Ray Griffiths, J. W. Haney, Henry Schuster, Cecil Tate, Eddie Lane, Jack Lendercon, were introduced and presented corsages by Mrs. Marion Harris.

Mrs. W. D. deGrassi, Amarillo, first past president of 14th District, State Chairman of Endowment Fund, Founders Day and Texas Congress Birthday, was the speaker of the evening. She gave as main topics: 1. The child starting to school, how to do, how to build, and how to live; 2. Parents and teachers meeting together, in contributing themselves in tolerance and understanding; 3. The entire program of P-TA parent education or parent quest in the citizen child, his welfare and education. Mrs. deGrassi was very gracious in her delivery.

The business session was presided over by the president, Mrs. R. F. Herrington.

Mr. Herbert Covert's 6th grade room won the \$5.00 award for having the most parents present for the meeting, 90 percent of the parents of his pupils were present.

Refreshments of Founders Day cake and speed tea were served by the hospitality committee, Mesdames Henry Williamson, Julian Lenau, Howard Elliott, and E. N. Darsey.

A. T. White Is Candidate For Commissioner

A. T. (Tracy) White this week authorized The Journal to make the announcement that he is a candidate for the office of Commissioner for Precinct 2, Bailey County. His candidacy is subject to action of the Democratic primary in July.

Mr. White has been farming in the Longview Community, south and west of Muleshoe the last 6 years. The family moved to this county from Springlake community.

Mr. White said that he feels he is capable of performing the duties of the office of commissioner. He said that if elected he will attempt at all times to carry on in a creditable manner the various responsibilities of the office, and to do what in his judgment will benefit the people of his precinct and county as a whole.

He would, if elected expect to cooperate with other members of the Bailey County commissioners court in transacting business of the county for the good of all concerned.

City Repairing Street Paving

A crew of workmen began the task of repairing holes in Muleshoe city paving Monday. Several holes have developed in places, due to bad weather, heavy traffic, etc., and the city commission felt they should be repaired before further damage resulted.

It wasn't as easy a task as it appeared. The city maintainer and hand workers dug down to the base of the pavement and came up from there with concrete. Several men had to work several days to repair the damaged places, and too, a good deal of expense was incurred.

It is said that some repair work needs to be done on county and state paved roads in Bailey County and it was rumored that the state plans at least some work of this nature soon.

Lions See Film Of Eljer Factory

A motion picture depicting the factory process of the Eljer Manufacturing Co., well known makers of plumbing fixtures, was the principal entertainment on the program of the Lions Club at their luncheon Wednesday.

The film was brought here by Lion H. S. Sanders, Jr., of Wilson-Sanders Lumber. Ed White of the high school operated the projector. Othel Olson, of Brown Pipe & Supply Co., Artesia, N. M., was in charge of the film showing.

Carroll Goss reported invitations to participate in the annual Lions Club boxing tournament have been mailed to boys of many surrounding schools. The tourney will be held March 2, 3, and 4.

Sudan Cemetery Appeals For Funds

Members of the Sudan cemetery association are appealing for funds with which to improve and to maintain the cemetery, they told The Journal this week. On an article page of the paper will be found an advertisement in which they tell the pressing need for funds.

Many subscribers of The Journal live on routes out of Sudan, toward and in Bailey County, therefore this paper was asked to carry the appeal to all who use the cemetery or who would use it in the future.

An adequate water system and other improvements are needed, it was said. Mrs. W. L. Shafer, of Needmore, visited The Journal office to insert the appeal for funds in this paper.

Tomorrow, Friday, February 10, farmers of this territory will go back to school—this time to learn more about irrigation methods and means of building up the soil they are using. It will be the annual Irrigation and Soil Building school, to start at 9:45 a. m. and end at 5 p. m., with experts in the various lines here from Texas A. & M., the Extension Service, and Experiment Station workers.

The program at Muleshoe will include lectures and demonstrations by John Box, farm manager, Lubbock Experiment Station; Ed Bush, Extension Service irrigation specialist; M. K. Thornton, Extension Service agricultural chemist; Guy Carpenter, Extension Service entomologist; and local Extension workers.

County Agent J. K. Adams of Bailey County has outlined the program to be carried out as follows:

9:45—Irrigation of row crops on the Lubbock Experiment Station Farm—John Box, Farm Manager Experiment Station.

11:30—Successful Experiments in Irrigation and soil building. Extension Demonstrators and County Agent.

12:00 to 1:00—Noon hour.

1:00—Right and wrong irrigation systems on the Plains (on the screen). Ed Bush, Extension Service Irrigation Specialist.

2:00—More net profit from Soil Building and Irrigation—M. K. Thornton—Agricultural Chemist for Extension Service.

3:30—1950 Controls on Cotton and Vegetable Insects. Guy Carpenter, Entomologist Extension Service.

4:30-4:45—Questions and answer period.

A special effort is being made to encourage as many women to attend as possible. This is not a club affair; any man or woman that might derive a benefit from a meeting of this kind is urged to attend.

GOVERNOR SEES ACTION FORTHCOMING IN THE SPECIAL SESSION

(NOTE: This is the last of three
articles by the Governor of Texas,
outlining the eleemosynary needs
and the financial problems of the
State.)

By Allan Shivers
Governor of Texas

The Texas Legislature, now in
special session at the Governor's
call is showing a laudable inclina-
tion to pitch in and solve the
state hospital problem.

Legislators differ, of course, as
to the best way to do it. That
is natural, and a desirable fea-
ture of our democratic system.
The important thing is to ar-

rive at a solution so the state
hospitals and other institutions
for sick and handicapped Tex-
ans will not suffer from lack of
funds.

As explained in two earlier ar-
ticles, the Legislature must (1)
appropriate operating funds for
the fiscal year starting Septem-
ber 1, 1950, (2) make some start
on a badly needed building pro-
gram at these institutions and
(3) find the money with which to
do these necessary things. The
cost is estimated at \$26,000,000.

I have explained that an an-
ticipated \$26,000,000 deficit in the
General Funds makes it impos-
sible to appropriate from that
fund at this time. It also casts
great doubt upon the possibility
that the Legislature can cut enough
out of current expenditures to
make up the deficit and free any
money for hospitals. And under
the Constitution, the deficit would
have to be covered before any
money from General Revenue could
be spent on the hospital program.

As explained in the second ar-
ticle, we now spend 90 cents of
each state dollar on three things:
schools, roads, public welfare. It
would be impossible to cut back
present spending to the required
point without dipping heavily in-
to some or all of those three ap-
propriations. The question then is,
do the people of Texas want the
school, rural road and old age
assistance programs curtailed?

Assuming that they do not, the
Legislature would have to supply
additional revenue to foot the hos-
pital bills.

The only other possibility would
be to vote, by four-fifths majority
in each House, to let another
\$26,000,000 be added to the deficit
we are expected to face next
year. The Legislature has indicated
no definite desire to do that.

My own views on the emergency
and the most practical solution
were given to the Legislature in
part as follows:

"Having called this emergency
session, I think I ought to have
the courage to share with you the

Letters To The Editor . . .

Dear Editor:

Enclosed find \$2.50 for a years
subscription to the Journal. I miss
all the people down there very
much but get lots of comfort
reading the paper. Sure don't
want to miss a copy.

As ever, a true friend,
Mrs. L. E. Ware
Littlefield, Texas.

responsibility for resolving the
emergency.

"There fore, I earnestly recom-
mend to you the following pro-
gram:

"1. That you give immediate
and sympathetic consideration to
and requests for funds to oper-
ate our state hospitals, special
schools and correctional institu-
tions and to start the building
program, making adequate ap-
propriations for these purposes; and
that you finance these appropri-
ations by levying a special addi-
tional tax upon the broad base
that now provides revenues for
the so-called omnibus tax fund.
The tax to raise the operating
funds should be a temporary tax
expiring with the emergency. This
would mean an additional levy
upon such items as oil and gas,
sulphur and whiskey, beer and
wine, cosmetics and playing cards,
automobiles and cigarettes, car-
bon black, radios and cement, in-
surance companies, telephone com-
panies and utilities.

"2. That you give the same ur-
gent consideration to the Board's
recommendation for a long-range
building program.

"3. That the income from these
special levies be placed in a
special fund or funds, to be used
for the sole and exclusive purpose
of financing these necessary pro-
grams.

"The tax proposed is a broad-
based tax which spreads as widely
and as fairly as possible the com-
mon burden of our common prob-
lem and common duty. Obviously
I think it is the most practical and
desirable plan under the circum-
stances or I would not recommend
it to you. Frankly, I can think of
no other cause or purpose for
which I would suggest the levying
of additional taxes at this time.

"I have given you my idea. I
welcome yours. Let's work to-
gether with wholehearted applica-
tion to the problem.

"Quick action on this emergency
matter will have another desir-
able effect—it will leave us time,
perhaps, to re-examine our finan-
cial commitments and effort to
economize that the Legislature, in
its wisdom, might deem possible.
Our first duty is to those who
are under our care and on our
conscience. When that duty has
been discharged, we can and
should consider every other cir-
cumstance and endeavor to keep
the possibility of achieving econ-
omy. I want to stress again that
such savings will decrease the Gen-
eral Fund deficit but, because of that
deficit, can hardly be expected to
benefit the hospital program.

"Time is precious. This is a 30-
day session, and the people of
Texas will rightfully expect us
to take appropriate final action
within that period."

Of one thing, I am very sure—
the people of Texas want their
friends and neighbors cared for
properly and cured if possible
when they are so unfortunate as
to have to be placed in a mental
or other state institution.

Corbin Favors Tax For Hospitals

AUSTIN—Senator Kilmer Corbin
said here this week he will sup-
port a tax plan which would
spread the common financial bur-
den as widely and as fairly as
possible, and endeavor to keep
the burden off the consuming pub-
lic, for the operation and improve-
ment of the state's hospitals
which are classed "the worst in
the nation".

The West Texas senator made
his statement following Governor
Allen Shivers' address to the legis-
lature which has been called into
special session for the specific pur-
pose of financing the state's hos-
pital program.

"In view of the emergency that
exists, with no money to pay for
food, clothing and care for the
unfortunate people in our state
institutions during the coming
year, we must pass a tax bill,"
Corbin pointed out.

"I for one," he said, will vote
for a tax on natural gas, particu-
larly that going outside the state,
oil and sulphur, in order to pro-
vide for the state's mentally ill."

Corbin stated that he is bitterly
opposed to a state sales or in-
come tax, or any program which
falls on the people. He also said
he is a strong advocate for econ-
omy in state government, but does
not favor cutting existing ap-
propriations for our educational sys-
tem, aid to the needy, and rural
road and highway program. He
added that eighty-nine cents out
of every dollar collected by the
state in taxes is spent on these
three items.

GETS B. S. DEGREE

BABSON DISCUSSES Insurance Stocks

BABSON PARK, Fla., Feb. 3.—

Many letters have come to me
asking that I suggest an invest-
ment which combines: (1) proper
diversification; (2) an inflation
hedge based upon low cost com-
pared with liquidating value; (3)
a fair interest yield, and (4) free-
dom of labor troubles. This last
is very important. After consid-
erable thought, I recommend stocks
of good long established fire in-
surance companies, and herewith
are my reasons. Any of these
stocks can be purchased through
your local bank.

Diversification And Inflation Hedges

1. Insurance companies are ac-
tually well diversified and bal-
anced "investment trusts" with se-
cond source of earnings from
the insurance business. This se-
cond source will often produce as
much income as the stocks and
bonds which the company owns.

Furthermore, the purchasers of this
form of invest-
ment trust should receive more
income—and certainly more se-
curity—than by the direct pur-
chase of most securities. For in-
stance, the Home Insurance Com-
pany, the stock of which sells at
\$35 a share, has invested assets
of \$60 a share.

2. Fire insurance stocks are sell-
ing at a low ratio to liquidating
value. To take the case of the
Home Insurance Company again
as an example, it is selling at
about 85 percent of its current
liquidating value. Since 1935 the
average annual range for all fire
insurance companies has been
less than the liquidating value.

As most fire insurance companies
have a portfolio of good common
stocks, they should be a fair in-
flation hedge.

Dividend Outlook And Cycles

3. Generally dividends on fire
insurance stocks gradually in-
crease. The ratio of dividends paid
to investment income received is
below the normal average for
other classes of stocks. This shows
conservative management. The
leveling off of premiums will stop
the drain on surplus and permit

greater dividends. Increasing divi-
dends should cause increasing
market prices.

4. There are cycles in the in-
surance business. The cycle now is
that of a period of good earnings,
which give a yield between 4 per-
cent and 5 percent although a
large part of the assets are in
Government Bonds. Perhaps never
before in history has property
been so nearly insured to full
value. The rates are not ordinarily
reduced until five-year-average re-
sults demonstrate them to be too
high. When rates again begin to
fall in most industries, this gives a
great advantage to fire insurance
companies.

Small Labor Expense

5. A period of labor troubles—
such as we are witnessing today
—should direct attention to the
advantages of insurance company
stocks. The cost of labor for the
insurance industry is around 10
percent of the volume of business.
This compares with a labor cost
of from 40 percent to 50 percent
in most industries. This gives a
great advantage to fire insurance
companies.

Any increased labor costs go
into the expenses and are taken
into consideration in the fixing of
rates as well as in the payment
of taxes. If drastic labor trouble
should occur, this type of com-
pany, having a small investment
in plant, can be moved to a new
locality. But the percentage of la-
bor cost is so small, this is sel-
dom necessary.

Selecting A Stock To Buy

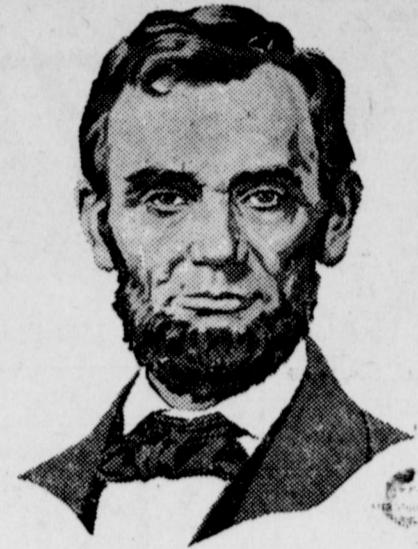

I use the Home as an illustra-
tion because it is the largest in
the United States in total admit-
ted assets and in premiums writ-
ten, although only the fourth in
policyholders surplus. I happen to
be a director and have great con-
fidence in its President, Harold V.
Smith. Also, there are other good
companies such as Great Ameri-
can, American of Newark, Fire-
men's of Newark, Aetna, National
Fire, Continental, Fidelity-Phenix,
Insurance Company of North
America, Springfield Fire & Ma-
rine.

If you are ultra-conservative,
buy some stock in all ten com-
panies. Then you should have the
best possible combination of safe-
ty and income. Another suggestion
is that you look at your insurance

policies. If you find one of the
above ten, then buy some stock
in that company. If it is good
enough for you to insure in, it
should be good enough for you
to invest in. The business of an
insurance company is probably
the most Christian of all busi-
nesses. It is based 100 percent upon
the principle that those who es-

cape fire, accident and other
troubles, all unite to help the one
who has an unfortunate loss.

EXPRESSION RECITAL
Mrs. Mable Bristow will present
her expression pupils in recital to-
morrow, Friday, evening at 8 o'-
clock in Fellowship Hall. The pub-
lic is invited.

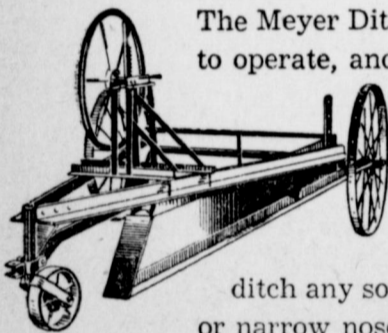

In Honor Of The Memory Of A Great American—

THIS BANK WILL BE CLOSED
Monday, February 13
ABRAHAM LINCOLN'S BIRTHDAY

Meyer Ditcher

The Meyer Ditcher is low in price, easy
to operate, and built for strength from
all-steel construction. It makes or cleans any
size ditch up to five
and one-half feet from
bank to bank. Will
ditch any soil without plowing. Wide
or narrow nose.

Meyer Ditch Filler

The Meyer Ditch Filler
will fill your ditches
so there is no slowing
up when crossing
them and does not
waste any crop. Ad-
justable for different
size ditches. Can be
used very successfully
for making borders.

WHAT'S NEW IN THIS PICTURE?

Well, just look how the SPECIAL shines now! Brightwork on the fenders
and around all windows. A name plate—and inside, door armrests, a robe
rail, an extra ash tray. See the SPECIAL in its lux finish at your dealer's.

Tune In HENRY J. TAYLOR,
ABC Network, every Monday evening.

Here's where Thrift and Glamor meet

Recognize this sprightly traveler?

Yes, it's the Buick SPECIAL 6-pas-
senger Sedanet that has caught the
public fancy not only on its sleek
lines, but on its easily-reachable
price.

But notice anything new on it?

That's right — gleaming trim and
the name plate "SPECIAL" bright-

ening up the fenders. Brightwork
around the windshield and win-
dows, too. And when you swing
the door open you'll see still other
touches of added luxury—side arm-
rests, front and rear, a robe rail,
an extra ash tray.

It's all still mighty thrifty, because
this strapping straight-eight sells
for less than many sixes.

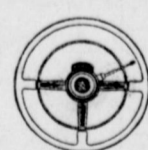

Frugal in other ways too — gas
mileage, for instance, is surpris-
ing so many people they are
writing us in delight about it.

But here we've added extra
glamor. Stepped up, at small
step-up in price, the luxury
look and surroundings of
cars that would normally be
much higher.

Why not drop in and see for your-
self, both how these added touches
dress up this SPECIAL and how
close it is in price to cars of much
less room, riding comfort, stand-
ing and performance.

Your dealer will be glad to see
you — glad to show you how this
traveler handles—glad to sign you
up for prompt delivery.

DYNAFLOW DRIVE? SURE, AT \$40 LESS THAN BEFORE!

Dynaflo Drive is available
as optional equipment on
all 1950 Buick SPECIALS.
The extra cost is now \$40
less than originally, putting
the silken luxury of this super-smooth trans-
mission within still easier reach.

Barron, Vaughn Exchange Vows Saturday, First Methodist Church

Miss Lela Mae Barron, daughter of Mrs. Lela Barron, became the bride of Mr. George R. Vaughn Jr., of Albuquerque, N. M., in a double ring ceremony, Saturday, February 4, in the First Methodist Church, Muleshoe.

Mr. Vaughn, the son of George R. Vaughn, Ft. Sumner, N. M., and Mrs. Oscar Love, Russellville, Ark., is employed by the Dennison Coffee Co., Albuquerque. For the past five years the bride has been with the Sandia Base at Albuquerque.

Rev. A. W. Blaine performed the ceremony before an altar banked with hemlock and flanked by bouquets of white stock and white tulips and tall white columns.

The bride entered on the arm of her brother, L. S. Barron, wearing an ice blue satin ballerina length two-piece dress, with matching shoulder length veil held by a bandeau of ice blue florets and with ice blue satin slippers. For something old, she carried a handkerchief belonging to her maternal grandmother, something borrowed being a necklace, and something new and blue, her ensemble. She carried a colonial bouquet of white roses and stephanotis with white nylon tulle tufts, surrounded by ivy stands, denoting long life.

Miss Freddie Berryhill, maid of honor, wore a rose pink crepe dress and carried a colonial nosegay of pink rosebuds with pink net tufts and pink laceon ruffle.

Frank Vaughn of Fort Sumner, N. M., was his brothers best man. Sam Damron acted as usher.

Pre-nuptial music was played by Mrs. Sam Damron, who also accompanied Mrs. Byron Griffiths who sang "Because".

Only relatives and a few close friends were present. Out of town guests were Mr. and Mrs. Frank Vaughn and Mr. and Mrs. Neal Vaughn of Ft. Sumner; Mr. and Mrs. Jim Coleman, Mr. and Mrs. K. E. Rush of Albuquerque. After the ceremony a wedding breakfast was served in the home of the brides mother. Bouquets of white flowers were used for decorations.

The couple left immediately for a trip to Russellville, Ark. After March 1, they will be at home in their new home in Albuquerque.

Memorial Program Presented By OES

Muleshoe chapter OES met in regular session Tuesday evening. Mrs. Mary Frances Holt, W. M., had charge of the business meeting.

Mrs. Ray Griffiths, chairman of the kitchen committee reported and the Chapter accepted the bid recommended by the committee. The bid was let to Sanders Lumber Co. to be completed at the earliest time.

A memorial program was given in honor of all Stars who have passed away during the past year. The Star points, conductress, associate conductress, chaplain, and Worthy Matron presented the pro-

gram. Several visitors from other chapters were present for the meeting.

Invitations were extended from Lubbock Chapter for a Friendship night in March, from Floydada Chapter for a Friendship night, Feb. 23, and from Bovina Chapter for a Friendship night March 2. Anyone interested in attending any of these meetings please contact the secretary, Mrs. Ruby Cox.

Refreshments were served by Mesdames Clifford Green, W. A. Mathis, George Johnson, Bert Mathis, H. E. Schuster, and J. J. DeShazo.

Homemaker Class Met In Morris Home

The Homemakers class of the First Baptist Church met in the home of Mrs. Scott Morris Tuesday afternoon for their business and social.

The opening prayer was by Bessie Harlan. Devotional was given by Nettie Bruton. The minutes were read and approved. The group captains gave their report.

The Homemakers class is buying the glasses for the Church kitchen. Each member brought a gift and surprised Mrs. Jeanette (Morris) Parson with a shower. Some sent gifts who were unable to attend.

There were 12 members and one visitor present, the visitor being Mrs. Parsons.

Meeting was dismissed by Ethel Burrow.

WSCS Met In Moore Home

Muleshoe WSCS met in the home of Mrs. W. D. Moore Tuesday afternoon, February 7, with eight members present.

Opening song was "How Firm A Foundation". Mrs. I. W. Haney gave the devotional on "Faith" which was taken from Paul's letter to the Corinthians, it was very interesting. Prayer was given by Mrs. Haney.

The lesson was given by Mrs. H. C. Holt, "Groups in Action and Working for a Christian Goal". February 24, is the day set for "World Day of Prayer", all churches are invited to participate in this meeting.

The next regular meeting will be with Mrs. Roy Bayless, February 14. Mrs. F. B. Pierson is to have charge of the study "The World Must Learn to Read". The meeting was dismissed by a prayer led by Mrs. Bayless. All ladies of the church are invited to these meetings.

TO SHRINE MEETING

Among those of this vicinity who attended a meeting for Shriners at Khiva Shrine Temple Wednesday night were Earl Ladd, Connie Gupton, Herb Covin, Bill Collins, Jesse Osborn, Jack Lenderson, Jack Holland, Johnny Johnson, and Jewell Mills. An oyster supper was one of the big attractions.

THE MULESHOE JOURNAL, Thursday, February 9, 1950

Married In Ceremony January 28

MRS. JOE THOMPSON

Mrs. Thompson, the former Maxine Phipps, was married to Mr. Joe Thompson January 28, in a ceremony performed at Clovis, N. M. She is the daughter of Mr. and Mrs. Jerry Phipps of Sudan and for several years was employed at the City Cleaners in Muleshoe. The couple will make their home in Amherst.

Bristow-King Host Fidelis Class

Mrs. Clinton Bristow and Mrs. C. M. King entertained members of the Fidelis Sunday School Class Thursday, February 2, in the Bristow home.

The meeting was called to order by Mrs. Clifford Green, class president, and roll call was answered with a verse of the scripture.

A devotional on Christian Love and Service was given by Mrs. Eddie Lane.

Following a short business meeting a social hour was enjoyed and sunshine gifts exchanged.

White heart-shaped cakes topped with strawberries and whipped cream centered the refreshment plates and favors were tiny

Valentine baskets of candy.

Members present were: Mesdames Eddie Lane, Pat Bulloch, L. T. Green, J. F. Peeler, Tye Young, F. H. Davis, Arthur Crow, C. E. Layne, Clifford Green, W. B. McAdams, E. M. Higgins, M. F. Green, Ray Griffiths, Arlie Thomas, A. E. Lewis, N. C. Moore, Cecil Tate, and one visitor, Mrs. C. E. King.

THE JOURNAL Wants your news. Write, come by, or phone 54.

Solicit Funds For Heart Association

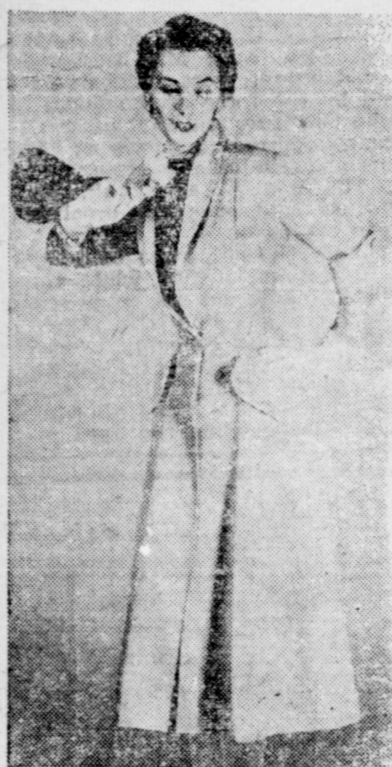

Volunteer members of the American Legion and Life Underwriters will continue their fight against heart diseases in Muleshoe as they gather funds for the American Heart Association during Heart Week, February 13-18.

The local goal is part of \$6,000,000 being sought throughout the nation during February in the campaign of the American Heart Association with which the local organization is affiliated. Marion F. Harris and Ray Keeling, Co-Chairman of the local drive announced that 55 percent of the funds raised in Muleshoe will be used in cities in this area.

EIGHTH GRADE CLASS PARTY

The eighth grade class is to have a party at the Legion Hall, February 24, sponsored by the room mothers of the three eighth grade rooms.

Economy Wardrobe

This chic-tailored redingote, of cotton and rayon, is only one-fifth of a \$45 spring wardrobe. The redingote alone, available in chartreuse, navy, gray or red, sells for about \$9. Completing the wardrobe, which is pictured in the January Good Housekeeping, are a polka-dot print dress, a frieze print, and a dress-and-jacket team, the dress of sheer rayon crepe and the jacket of cotton and rayon. All are Martha Manning fashions and carry the magazine's Guaranty Seal.

AMHERST VISITOR

Miss Mary Jo Holt visited recently with her cousin, Miss Carolyn Holt at Amherst.

MULESHOE VISITOR

Mrs. Clark of Lubbock is visiting her daughter and family, Mr. and Mrs. Marion Harris this week.

MULESHOE, TEXAS

Fatal Accident Not Due To Tank Explosion Or Fire

AUSTIN, Feb. 6.—Official investigation by the Gas Utilities Division of the Texas Railroad Com-

mission has revealed that no tank explosion or fire occurred in connection with the accident which claimed two lives and destroyed the Cripple Creek home near Medina of H. H. Null of Houston on January 27. S. C. McIntosh director of the Gas Utilities Division of the Commission, personally investigated the accident which killed Mrs. E. W. Minear of Orchard and Donnie Null, 6, son of the ranch owner.

New Glass Backboard For College Play

Notre Dame cagers as well as college teams throughout the nation are entering their first season of play with the newly required transparent backboards. Pittsburgh Plate's RK backboard is being tested by Notre Dame floormen, (l. to r.) John Foley, Bob Wray, Tom Johnson, Leroy Leslie and captain Kevin O'Shea. Made of half-inch Herculite impact-resisting glass, the RK backboards give spectators a full view of the basket from any angle.

McIntosh's investigation revealed that the blade of a bulldozer, which was being used in grading, caught and broke a water line. The water pipe and the gas line from the storage tank to the ranch house were in the same trench. Mr. Null, who was supervising the grading work, told McIntosh there was no break apparent in the gas line but that the water line was broken. Both lines were disconnected, the pipe removed from the yard section of the trench and the grading work completed. The lines were then reconnected. Mr. McIntosh was told. The section of the gas line lying under the house was not taken up. Fire tests were put on the connections of the replaced section of the gas line, but no tests were made between the tank, which stood a considerable distance from the house, and the house line. No gas pressure test was made to reveal whether there was a loss of gas between the tank and the appliances within the house.

About 45 minutes after completing the repair work Mr. Null entered the bathroom of his home, struck a match to light a heater and the explosion occurred. Mrs. Minear and the Null child were killed. Mrs. Null, Mr. Null and their daughter were seriously injured by the force of the blast. The only fire, and that of small extent, occurred in debris of the home and was quickly extinguished. The gas storage tank, Mr. McIntosh said, was not involved in the explosion.

Primary theory of the cause of the explosion is that while the bulldozer blade did not catch and rupture the gas line, the weight of the machine probably caused a sagging or pulling of the line, breaking or pulling loose a connection under the house allowing gas to escape when the yard re-

pair had been made and service restored. Another is that in disconnecting the trench sections of the gas pipe the twisting may have loosened a joint connection under the house allowing the escape of gas.

The work of disconnecting and reassembling the gas line was not done by a licensed liquefied petroleum gas operator, Mr. McIntosh said.

Mid-Century To Be Featured At Dallas Fair

The 1950 State Fair of Texas will be a gigantic Mid-Century Exposition, a hats-off salute to the first half century and an eye-popping preview of the second. State Fair President R. L. Thornton has announced. Dates of the 1950 fair will be Oct. 7-22.

"Since the 1950 fair takes place at very nearly the end of the first half century, this will be a good time to pause and take a refreshing look at what has been accomplished and appraise the challenge of what lies ahead," Thornton said.

"We have arrived at a fascinating moment in history, and the 1950 fair will provide an unsurpassed view of the achievements of the Twentieth Century, as much of it as we can see at this time." To support the mid-century theme, the grounds will be given an extensive job of face-lifting, plans reveal. The front entrance will be rebuilt as a "pylon of time" and a "court of the decades" with an outdoor "lobby" extending into the Esplanade. Decorations on the Esplanade

will include dramatic theme stanchions suggested by various types of time instruments used down the centuries.

Already announced for the 1950 fair are South Pacific as the Auditorium attraction, and the All-American Jersey Show, America's largest cattle show.

Museums of the civic center will have special displays. One museum already has its mid-century show in advanced stages of preparation.

"Every facility on the grounds is being pressed into service for the 1950 fair, which is destined to be the largest, most mass-appealing ever produced in Texas," the fair official said. "All special events, including a music festival, pageants and daily parades, will be keyed to the mid-century idea. "It will be a great spectacle, the likes of which have never been seen before and perhaps will not be seen again for another fifty years."

Littlefield In Farming Business

The City of Littlefield is just about set to go into the farming business, with planting, cultivation and production of crops the goal for 1950.

The city plans to enter the agriculture field on two fronts—at the airport (Duggan Field) and at the city disposal plant, about a mile east of Littlefield.

Farm on Two Fronts
The commission at a meeting Friday night accepted the proposition tendered by Lamb county to share on an equal basis the operation and maintenance of the airport. A few years ago the city gave a deed to the county for op-

eration of the airport. The county commissioners court later decided to ask the city to share in the operation and upkeep of the airport, so the invitation to join forces was extended only recent ly.

The Commission Friday night instructed City Engineer Ralph Douglas to put all land at the airport not in use into some kind of crop. About 190 acres comprise the airport property. It is estimated that approximately 90 acres of this could be farmed.

To Plant Cotton
The commission also instructed Douglas to put all the surplus land at the disposal plant into cotton, at least as much for which a 1950 allotment could be obtained.

The city owns 21 and one-fourth acres at the disposal plant site and has under a 99-year lease 20 acres more. It depends upon what agreement can be reached by the principals on how many acres will be farmed by the city.

Regardless of the extent of the city's agricultural project at the site, there will be plenty of irrigation water available from the disposal plant.

It was pointed out that other cities in this immediate area are farming acreage near their disposal plants on a very profitable basis, taking advantage of free and abundant water to produce bountiful crops. Levelland for example, produced a bumper cotton crop this year on its disposal site.

Littlefield's City Dads feel that the same thing can be accomplished here. — County Wide News, Littlefield.

SNYDER VISITORS

Mrs. Chet Horsley and Mrs. J. F. Prather spent the weekend in Snyder visiting.

F.H.A. Chapter Girl Of The Month

Betty Chisholm was elected as the Chapter Girl of the month of January for the F. H. A.

We are also proud that Betty got it because she has been so regular in our F. H. A. since she has been in it.

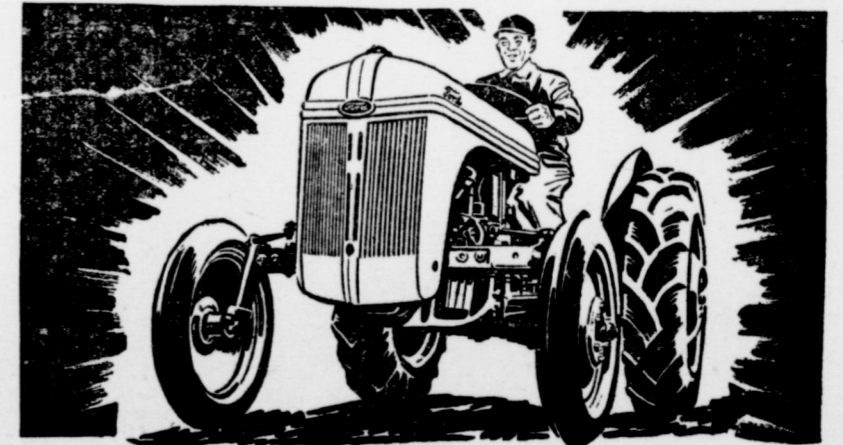

She has taken part on every committee that she has been put on and has done her part on every thing else that she has done.

She was initiated into the F. H. A. when she was a freshman and has done her part well ever since. We are very proud that she was elected.

"You remind me of the ocean," she said. "You mean I'm wild, romantic, restless?" he asked. "Naw, you make me sick."

By Mrs. Wm. F. Steinbock
Mrs. Ralph Broyles Honored At Pink And Blue Shower
 Thursday, January 26, from 2 to 6 p. m., Mrs. Ed Steinbock's home was the scene for a pink and blue shower honoring Mrs. Ralph Broyles. Co-hostess were Mesdames Ben Foster, Demp Foster, Judd Clark and Rex Steinbock.
 The dining table was covered with a lace tablecloth, upon which lay a silk baby quilt and an antique life size doll dressed in real baby clothes.
 After the many beautiful gifts

were viewed by those present a delicious plate was served consisting of chicken sandwiches, potato chips, devils food, silver, white, nut, carmel and gold cake, coffee and cocoa, mints and nuts in miniature flannel booties.

Those present for the occasion were Mesdames Ernestine, Theadora, Alma, Ruby, Irene and Myrtle Steinbock; Viva Mayfield, Frank Hinkson, Virgil Teague, Anita and "Bider" Foster, Fern and Josie Clark, Laura Treider, Floy Hansen, Artis and Grace Ivy, Lillian Smith, Barbara Ann and C. C. Matthews, Edith Graef, Minnie Parham, Raymond and Kenneth Precure, L. B. Edwards, "Tink" Seaton, Wynonah, Ruby and Grandma Gosner.

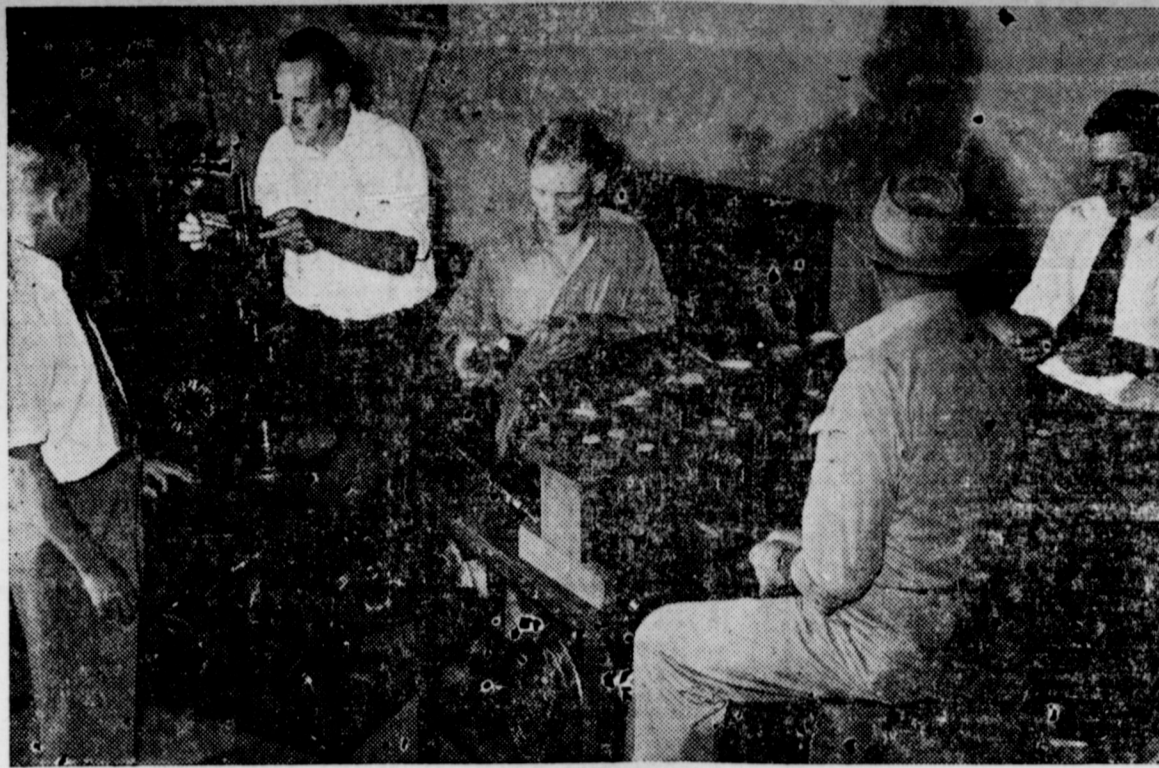

Miss Charlotte Seaton, Fern and Neely Mace Steinbock, Gary Matthews, Sharon and Terry Parham, Sherry Edwards, "Butch" and Jenny Linn Steinbock, Sandra and Junior Mayfield, Micheal Hinkson, and Timmy Foster.

MISS CHARLETA NEELY WEDS RAYMOND TREIDER IN CLOVIS

Miss Charleta Jean Neely of Corpus Christi and Raymond Treider, Jr., were married Tuesday afternoon, January 24, by Claude Lotts in the parsonage of the Christian Church in Clovis. Mr. and Mrs. H. D. Hutchison were the couples attendants.

Mr. and Mrs. Willie Waddell, Mr. and Mrs. R. G. Treider, Mr. and Mrs. Wm. Steinbock, Doyce and Jimmy Waddell enjoyed wedding cake and coffee in the home of Mr and Mrs. H. D. Hutchison Wednesday night.

Mr. and Mrs. Clifford Pyritz are visiting Mr. and Mrs. Rudolph

Continental Oil Company scientists and technologists inspect automobile engines after a 50,000-mile test run along the sizzling Mexican border to prove the quality of new Conoco Super Motor Oil. Norman Penfold (left center), of the Southwest Research Institute, certified the test. Here he is shown making measurements on a crankshaft after the 50,000-mile run was made over a period of 70 days, with cars making an average of 60 miles per hour, 14 hours each day, 6 days a week in Mexican border heat that often reached 110 degrees in the shade. Measurements showed that engines of cars had no wear of any consequence; by actual measurement with sensitive instruments, wear was average of less than one one-thousandth of an inch on cylinders and crankshafts. Other men in picture, Oak Lloyd (left), general sales manager for Continental Oil Company and W. F. Ford, director of company's engine laboratory, helping Penfold measure motor parts; Frank Sues, director of sales engineering, and E. R. Baker, manager of Conoco's central research laboratories.

ANS Release

SULTRY—Denise Darcel, new darling of the American screen, proved her song versatility in both Paris and Wild West mediums. For the "We, the People" reunion Friday on NBC and NBC-TV the shapely imperator charmed with cowboy tunes in her native tongue and English.

Cash Income Is 12 Percent Up

AUSTIN, Feb. 13.—Texas farm cash income for the year 1949 totaled \$1,852,496,000, rising 12 per cent above the year 1948, with \$1,658,952,000, the University of Texas Bureau of Business Research reported.

Cotton was the greatest source of income throughout 1949, bringing Texas farmers \$798,309,000. Income from cattle totaled \$227,204,000; wheat \$190,843,000; milk products, \$119,547,000; and cottonseed, \$116,773,000.

In comparison with the 12-month period of 1948, farm cash income for 1949 showed increases in Southern High Plains, 41 per cent; Red Bed Plains, 36 per cent; Northern High Plains, 30 per cent; Lower Rio Grande Valley, 10 per cent; Southern Texas Prairies, 9

per cent; Coastal Prairies and Black and Grand Prairies, 5 per cent.

The following areas turned in total declines in 1949 as compared with 1948: South Texas Plains, 23 per cent; Edwards Plateau, 12 per cent; Western Cross Timbers, 14 per cent; Trans-Pecos area, 11 per cent; and East Texas Timbered Plains, 1 per cent.

Texas farm cash income for December 1949 totaled \$166,979,000, dropping 52 per cent below November, but rising 77 per cent above December 1948.

After adjustment for seasonal variation, the Bureau's index of farm cash income stood at 598

Mrs. Reinado Honored With Pink And Blue Shower

Mrs. M. J. Reinado was honored with a pink and blue shower Tuesday afternoon in the home of Mrs. Jess Hicks.

Games were played, gifts were opened by the honoree and delicious refreshments of pie and coffee were served.

Those attending were Mesdames Roy Sheriff, Saylor, Lloyd Stephens, Robert Byrd, Everett Roark, J. F. Akin, W. C. Latham, T. P. Kittrell, Earl Mitchell, Austin Jones, Bob Byrd, Flossie Stubbs. Congratulations to the Guy and Parten Austin families upon the building of new homes. Work was started on both homes this week.

Mr. and Mrs. Otto Lingnan's new home will soon be ready to move into. Mrs. Lingnan says she doubts if she will be able to use all the room, as they have been batching in the garage and wash house while the new house was under construction.

Mr. and Mrs. Elmer Hargrove, Dan Williams and Dwight Sheriff left Saturday for Santa Fe, N. M., to do some skiing, "if" they can find some snow.

Little Debra Hargrove spent the weekend with her grandparents, Mr. and Mrs. Willie Williams.

Louis Hicks whose home is near Woodward, Oklahoma, was discharged from the Army at Colorado Springs, Colo., recently and is visiting relatives and friends around Muleshoe and Clovis. He spent Thursday with Mr. and Mrs. Austin Jones. He is a nephew of Mrs. Jones.

Pyritz. Mrs. Carl Lane is here visiting her daughter, Mrs. Rex Steinbock, who has returned home from Green Hospital.

Neely Mace Steinbock entertained friends with a party Monday afternoon. It was Neely's eleventh birthday.

Get the Full Value from ALL YOUR FEED

Today's widely acclaimed Wetmore Knife-Type Hammer Mill is the result of 19 years of development aimed toward assisting the farmer to get full value from all his feed. Are you realizing the benefits that are provided by the many exclusive features of WETMORE KNIFE-TYPE HAMMER MILLS?

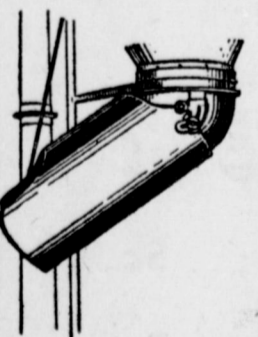

PATENTED SINGLE PLATE ROTOR

Knives, hammers and fan all are combined in one sturdy, streamlined unit. Only ONE moving part . . . simple, highly efficient.

PATENTED KNIFE-TYPE SCREENS

. . . provide positive control of roughage texture while permitting capacity output. There's no clogging . . . no interruption.

ADJUSTABLE SWIVEL SPOUT

Among the many valuable accessories available for Wetmore Mills is this new swivel spout. Saves time and labor in delivering grain, hay or roughage from mill to bin or wagon.

FREE DEMONSTRATION

See for yourself what a Wetmore Mill will do for you. We'll gladly arrange a demonstration . . . on your farm . . . without obligation.

Ford's won it again!
 The New York Fashion Academy Gold Medal Award for the Fashion Car of the Year

WHAT sterling is to silver, the Fashion Academy of New York is to the world of fashion—the last word! And again for 1950, as for 1949, it has selected the Ford Car to receive its distinguished gold medal award as "Fashion Car of the Year." There is, we believe, no greater proof of the beauty of the '50 Ford. And there's no greater proof of its fine performance than a 10-minute "test drive." Your Ford Dealer will be glad to arrange it.

The one fine car in the low-price field
 See it...Test Drive it...at your Ford Dealer's Now!

Hospital News

Mrs. Caba Barker was in for medical care. She has gone home. Mrs. Dora Carter is in for medical care. She is doing fair.

Mrs. George Templar is in for surgery. She is resting well.

CONGRATULATIONS TO:

Mr. and Mrs. Weldon McCarty, on the birth of a daughter, Marlon LaLauni, Feb. 5.

Mr. and Mrs. Richard Ellis on the birth of a daughter, Brenda Sue, Feb. 5.

Mr. and Mrs. Haskel Price on the birth of a daughter, Feb. 6.

Mr. and Mrs. R. P. Glenn, on the birth of a daughter, Linda Inez, Feb. 7.

REBEKAHS PRACTICE DEGREE WORK AT MEETING FEB. 7

Muleshoe Rebekahs met in regular session Tuesday, Feb. 7, with very good attendance.

We were happy to have Mr. and Mrs. Chester Anderson with us. Mrs. Anderson is Noble Grand of this Lodge and we appreciate her effort to be with us each week. The Andersons are now living in Lubbock.

Degree work was practiced.

Everyone be sure and be at Lodge next week to practice degree work as we will be initiating February 24.

PUBLIC PRIDE NO. 1... A SCOUT!

THIS IS NATIONAL BOY SCOUT WEEK

THE CREED
On my honor I will do my best...
To do my duty to God and my country,
And to obey the Scout Law;
To help other people at all times;
To keep myself physically strong,
Mentally awake and morally straight.

The Piggly Wiggly Creed

On our honor, we will do our best
To do our duty to you, our customers,
And to oblige with savings for all;
To help lower prices at all times;
To keep our service pleasantly swift,
Patterned for thrift, and courteous to all.

You Can Afford A DREAM KITCHEN NOW!

It's a glorious day when you get your beautiful new white-enameled steel Youngstown Kitchen!

Super storage space is yours. Room for everything—from dishes and dustpans to glassware and groceries. And see the generous work surfaces—to save steps and speed every chore.

Most important to your dream kitchen is a Kitchenaid cabinet sink.

Food preparation and dishwashing are easier than ever before. With the Mullinader electric garbage disposer, garbage is ended forever.

Flanking your Kitchenaid are Youngstown base and wall cabinets, perfectly arranged to fit your floor plan, without costly remodeling. There's no need to delay because Youngstown, the Kitchen Leader, works magic with the price. Let us show you.

FARMS AND HOMES

We have lots of good farms for sale. Also good homes in town and some good choice lots.

We have some farms for cash rent.

When you are ready to buy or sell, see us before you trade.

HANOVER & DAY

Morton Highway, Just North Of Courthouse

Muleshoe, Texas

Killion's Bargains

—160 acres good tight land, fairly well improved, about half in cultivation, on REA, mail and school bus. On paved highway, 1 mile of good railroad town, half minerals. Good well, \$37.50 per acre. Possession immediately.

—480 acres, very heavy land, half in cultivation, balance in very fine mesquite and gramma grass. Five room modern house, large underground basement. Grade A dairy barn, REA, house and barn wired. Strong well. Mail and school bus. Half minerals. 38 mi. west of Littlefield, Texas. \$45 per acre, half cash.

—320 acres wheat and cotton farm. Very deep soil. 267 acres in cultivation, 5 room stucco house, strong well, outbuildings. REA, mail and school bus, half minerals, possession at once \$42.50 per acre. I think the best buy in this county. It made one bale of cotton per acre last year on 80 acres and the grain made 2300 lbs. of threshed grain per acre. Better see this at once.

I have other dry land and irrigation farms, any size, but very few that I can give possession of this year. So if you need possession see me at once. I have some cheap ranches.

I am located 10 miles west of Goodland, Texas, at Causey, N. M. To catch me get here by 9 or 10 o'clock.

CARD OF THANKS

We appreciate deeply the sympathetic words and deeds of our friends and neighbors, the beautiful flowers, and the food brought to our home at the time of our recent bereavement. May God bless each of you.
Mr. and Mrs. E. O. Baker

TO ROSWELL SATURDAY

Earl Ladd, Bill and Herb Covin were in Roswell, N. M., Saturday to see Earl Ladd, Jr., take the Order of DeMolay initiation. They took Donnie Precure, also a Muleshoe boy, and his roommate out for dinner that evening. The boys are students at NMML.

Seniors Choose Play Wednesday

The seniors had much business to discuss in class meeting Wednesday. First on the agenda was choosing the senior class play, to be given March 30. "Stranger in the Night" is the title of the play which has a cast of seven girls and five boys and is said to be a comedy mystery.

Senior Valentine's party was changed to Saturday, February 11, instead of the afore mentioned date of February 10.

Last, a committee was chosen to investigate the places for the senior trip. Billie Margaret Collins, Bill Green, Joe Cummings, Jeanette Kirk and Don Bearden are on the committee.

Colorado Springs, Red River, New Orleans, San Antonio, Galveston and Mexico were mentioned as prospective places for the trip.

Debate Teams Are Chosen

After all students in debate had been given their chance to debate either pro or con on the topic "Resolved that the President of the U. S. should be elected by the direct vote of the people," they settled down to choose a debate team. There are really some top debaters in our school which made competition pretty rough.

The girls' debate team consists of Frances Roy and Mary Jo White with Willa Akin as alternate. Jerry Julian and Howard Tate make up the boys' debate team with Bill Thomson as alternate.

These two debate teams along with some declaimers will go to Waco, Texas, February 16, 17, 18, and 19 to enter a tournament there.

Since they don't wish to let any grass grow under their feet, they are scheduled for a practice debate here with Clovis next Tuesday.

Swanners Host Farewell Party

Mr. and Mrs. L. B. Swanner entertained with a farewell party, Wednesday night, February 1, at their home south of Muleshoe in honor of Mr. Frances Edwards.

Good music, singing and games of 42 were enjoyed by the group. John Williams and Ray Hudspeth were the winners in the 42 games.

Mr. Edwards has been visiting his sister and family, Mr. and Mrs. J. W. Williams and a host of friends, his home is in Peoria, Arizona.

Those attending the party were: Mr. and Mrs. J. W. Williams and family, Mr. and Mrs. Ray Hudspeth, Mr. and Mrs. Byron Linville, Mr. and Mrs. Edd Parker and daughter, Mr. and Mrs. Charlie Simms and son.

Mr. and Mrs. C. H. Odom, Jack and Alford Miller, Miss Rosie Miller, Mrs. Ruth Miller, the honoree and the host and hostess and children.

Mrs. Joe Crowley and two sons of Amarillo, visited here Sunday in the home of her parents, Mr. and Mrs. Will Harper. The Harpers also had as guests for the day their daughter and husband, Mr. and Mrs. Cotton Harris, of Sudan.

The first dirigible trip around the world was made by the Graf Zeppelin in 1929.

NAVY INCREASES QUOTAS FOR ENLISTMENTS

Chief W. I. Lechty recruiter in charge of the Clovis Navy Recruiting Station announced that the Navy's quotas for enlistment have been greatly increased since the first of January. Openings are now available to many applicants who were unable to enlist earlier due to previous small quotas.

Persons interested should contact the Navy recruiting station at Post Office Building, Clovis, New Mexico.

Ex-servicemen who can qualify will be accepted.

SUNSHINE CLUB NEWS

The Sunshine Club bake sale was a big success, thanks to every one who had a part in it. The proceeds are to go into the treasury for a club house or community center.

The club members thank Mr. White and everyone at Cashway, also Howard Cox for their assistance.

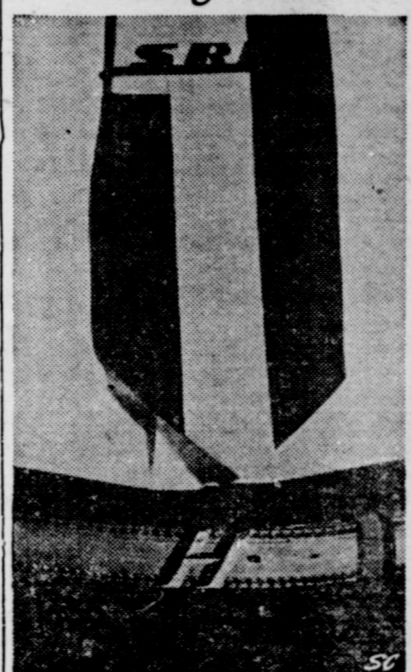

The next club meeting will be the third Thursday, as the club has a sale to feed the fourth Thursday.

—Reporter

MULESHOE VISITORS

Weekend visitors in the home of Mr. and Mrs. Arnold Morris were

"Floating" Buckle

Newest idea in men's fashions is the Profile Initial belt buckle that seems to float on the belt, and is described as "the greatest buckle idea in 40 years" by Ray Hickok, who introduced it. Men's initial jewelry, Hickok says, is high fashion today, including initial tie-bars, cuff links and even initialed ornaments on suspenders. The idea is based on American and democratic tradition, the urge of the individual to make a name for himself, according to Hickok.

CARD OF THANKS

We wish to express our appreciation for the many kind deeds and expressions of sympathy during the recent illness and death of our son, brother, and grandson, Alonzo Clary.

Mrs. Mary Clary and family
Mr. and Mrs. A. L. Davis

STOCK SHOW VISITORS

Powerful Sudan Trims Jackets 54-34 Friday Night

The Sudan Hornets defeated the Muleshoe Yellowjackets last Friday night in the local gym in a conference game by a score of 54 to 34.

Sudan proved that they have an exceptionally good basketball team in defeating the Jackets, but they had a battle on their hands from start to finish to defeat the Muleshoe cagers.

Sudan's Foster was high point man hitting for a total of 35 of their 54 points. Whipple was high point man for Muleshoe, hitting for a total of 13-points.

Girls Edge By Sudan By 2-Points

The Muleshoe girls came out the victors with a 41 to 39 triumph over the Sudan Hornets here last Friday night in one of the most thrilling basketball games of the season.

During the last three minutes of play there was not a single fan sitting, everyone was on their feet and yelling at the top of their voices. In fact the noise became so loud the officials had to call time in order to get the crowd to quiet down in order that the players could hear the officials whistles.

Kay Malone racked up 18-points to lead her teammates to victory and Wanda Kimbrough was right on her heels for second place high point honors with a total of 16 points to her credit.

Both teams played top-notch ball from start to finish but the Muleshoe girls gained the upper-hand in the final seconds of the game and came out victorious by a two-point margin.

Win Over Anton

Kay Malone hit for 24-points to lead her teammates to victory over Anton Saturday night in a non-conference game 48 to 42.

The game was a close one from start to finish, but the Jackettes came through to win by a six-point margin.

To Meet Threeway In Conference Game Wednesday

The Muleshoe Jackettes will meet the Threeway Eglettes in the local gymnasium Wednesday night in a very important conference game.

The Threeway girls have a fine smooth-operating team and will be playing at their very best to win this conference encounter. Of course the Muleshoe girls will be doing their best to win this important conference game. Therefore this game should prove to be a thrill-packed game, possibly the best of the season, so everyone should be sure to be on hand to witness this important battle.

and Norman Penfold is acknowledged as the outstanding independent authority on oil testing.

According to Mr. Holton, the new oil for local automobile and truck owners represents another long step forward in method pioneered and developed by Continental Oil Company for using additives in mineral oils to increase effectiveness against wear and assure longer life for motors.

Cottonseed Buying Program To End

Deadline for Cottonseed Purchase program will definitely end on February 15. The program scheduled to expire on December 31, was extended for 45 days, when it was shown that due to gin congestion in West Texas, considerable cotton already picked had not been ginned.

The Cottonseed purchase program, dealt with ginners buying cottonseed from farmers, and paying \$46.50 per ton for it, and then in turn transferring title and receiving like reimbursement from the PMA.

Evans Completes First Aid Course Given By Red Cross

ESSLINGEN, German (Sp.)—Pvt. Doyle T. Evans of Muleshoe, recently completed an intensive course in first aid and accident prevention given under the supervision of the American Red Cross overseas. It was announced recently by ARC Safety Service officials in Europe.

Pvt. Evans who is serving with the Sv. Co. 350 Inf. Regt. APO 174 stationed at Camp McCauley, Austria, is on duty with U. S. occu-

patation forces in Europe. The safety course in which Pvt. Evans was enrolled is part of a Command-wide program of the American Red Cross designed to train servicemen overseas in accident prevention and first aid techniques.

The course, set up in the form of a rotational school, provided the students with 20 hours of practical and classroom work in first aid and accident prevention. As a part of the curriculum, Pvt. Evans and members of the class took part in a unique safety inspection of facilities on their military post. Pvt. Evans and his classmates toured the post and noted safety hazards which were brought to the attention of the commanding officer for correction.

The ARC safety course was given by GI instructors trained under the supervision of ARC Safety Service representatives working in cooperation with the Armed Forces in Germany and Austria.

There is so much good in the worst of us and so much bad in the best of us, that it's hard to tell which one of us ought to try to reform the rest of us.

FOUNDATIONS FOR OUR FAITH

By Rev. T. G. Craft

Life, therefore, is produced by certain chemical elements of proper and related particles of matter acted upon by a world of light waves, and the unseen waves of gamma rays, cosmic rays, x-rays, violet rays, and many unknown rays not yet named or even discovered. Besides these rays emanating from the sun, and other far off Stars, there are spiritual rays emanating from the great Spirit of the universe, which give to human life a vital force called intelligence and moral concepts. Life is more than a mere physical moving force with traits of irritability, locomotion, growth, and propagation. These may be the chief traits of all lower animal life, but in the case of man, there are other definite higher powers and capacities. Man has the power to will, to feel, to think, to imagine, to remember, to acquire knowledge, to catalogue knowledge, to form concepts, to grasp moral and spiritual values, and even to do abstract thinking.

In the field of the moral and spiritual, man develops a spiritual reality which separates him from the lower animals and gives him his immortality. What are the elements in man that make for his greatest happiness, and gives him his highest values? Would we not say that love, faith, goodness, mercy, sympathy, and a sense of the beautiful, crowning the greatest values. It is not true that such powers are at the heart of our motives for living and achievement. Things have value only as they can contribute to the higher values of the spirit and mind of man. Do we not build our homes on the foundation of spiritual values designed and desired to bring continued happiness and joy? What makes man endure sacrifices, suffering, and torture if not to bring values and joys that are worth such price of privation and suffering? Could it be that such values are mechanical sparks of a machine called the human body? Most of us feel that happiness, joy, and comfort are elements which motivate our lives toward a certain course of action.

If we can choose our actions and our course in life; then pure mechanical response would have no means of expression. A mechanical stimulus to provide a given response often waits in despair. How do men become lawyers, engineers, ministers or doctors? The road to attaining the knowledge of a given profession does not come by letting the machine of the body wait for a mechanical stimulus. It comes through work and toil by virtue of the choice of action. The mind functions independent of what may or may not happen in the field of mechanical stimuli and responses. Is marriage a result of mechanical stimuli and responses? Then why do men prefer one woman to another wo-

man? Choice is an action of the will which is not dependent upon any mechanical stimulus for a response.

Just as the body is a living organism with powers of locomotion, irritability, growth, and propagation; so the soul is a living spiritual organism with its particular living powers. The manifestations of the life of the soul consist of its powers to think, to feel, to will, to form concepts, to remember; to imagine, to form and to hold moral and spiritual concepts, to love, to sorrow, to rejoice, and to be conscious of one's self and his total environment. The mechanical idea of responses to stimuli of inorganic chemistry, and not to the field of living matter.

The mechanical idea of responses is based, therefore, upon the physics and chemistry of the seventeenth and eighteenth centuries which was built upon laws dealing only with non living matter. The psychologists of the nineteenth and twentieth centuries applied the laws of physics and chemistry to explain the responses of living matter. For a time their ideas and their laws were thought to be true in the field of living matter. Soon the scientists learned the inconsistency of such laws, and reversed their opinions.

The creative God made what we know as physical life, but this form of life could not be an end in itself. To stop with the creation of a mere physical being would leave man on the level with the lower animals. God uses the body to grow a soul. The soul must also have a creation as well as the body. Then God had a plan and a method by which he grew a soul. The potential soul is always inherent in the germ cell which is also the potential physical life and body.

What is the soul? It is spirit and mind. It is invisible, but it is reality. The soul is also composed of energy—a refined sort of energy. No one of us ever saw electricity or a magnetic field; yet we have the evidence that both are true because of their power and behaviour. We know that a soul must exist because of its powers and behaviour.

If the soul is energy where is it stored? In the human brain. All energy has reality; yet for weight—not weight on our scales. The meson which is the ultimate unit of energy is invisible; yet it is the real power of the atom. No one can see a meson. Through the body, in its bio-chemistry action, a certain portion of energy given the body through foods is stored in the brain. This particular form of energy—and there are many forms of energy—has been turned into spirit and mind, and is just as real as the meson in the atom. This mind energy has the power to think, feel, and will, etcetera just as the physical energy of the body can dig ditches, saw timbers, build houses and etcetera.

Through the years of a man's life, more and more energy is stored in the brain as a living soul force. The soul's growth is

always terminated when the body dies. Now since no energy can be destroyed, that which is stored in the soul as spiritual energy, cannot be destroyed either. Where does it go when the body dies? It is in a position for transition from a material world to the true world—the original world from whence all energy came—The Ultimate Reality of the Universe—God. We must keep in mind that all energy came from a first source—a creative source—God. But there are some who say that our energy came from our sun. We should add and other stars. But where did the sun and the stars get their energy, and substance? They too had a creation and source. All material forms of energy must go back to an ultimate source. The ultimate source of all causes is a power we call God. God is the creator of all things. Things do not just create themselves. For every effect there must be a cause. We believe that the Cause of all things is God. We cannot always look at effects without believing in a cause. This form of reasoning makes sense; any other form leads to chaos and confusion. Then may we add that we believe in the power of God to create spirits, and that these spirits have reality whose composition is a form of refined energy we can rightly call spirit. Death does not destroy soul energy, but releases it.

NOTICE TO BIDDERS

1. Sealed proposals addressed to THE CITY COMMISSION, CITY OF MULESHOE, TEXAS, for furnishing all materials, equipment, labor and supervision necessary for construction of a swimming pool, complete with equipment in accordance with plans, specifications and contract documents, will be received until 7:30 p. m., February 28, 1950. Bids will be publicly opened and read aloud at 7:30 p. m. on the 28th day of February, 1950, in the office of the City Secretary. Any bids received after the closing time will be returned unopened.

2. The contractor shall identify his bid on the outside of the envelope by writing the words "Construction of Swimming Pool Complete with Equipment for the City of Muleshoe."

3. Plans and specifications may be examined without charge in the City Hall and may be procured from the Paddock Engineering Company of Texas, 3727 Atwell St., Dallas, Texas, upon deposit of Twenty-five Dollars (\$25.00) as a guaranty of the safe return of the plans and specifications. The full amount of this deposit will be returned to each bidder immediately upon the return of the plans and specifications in good condition. No refund on contract documents and plans returned later than five (5) days after the bids are opened will be obligatory.

4. A cashier's check, payable to the order of the City Commission of the City of Muleshoe, Texas, or a Bidder's Bond executed by a surety corporation authorized to do business in the State in an amount not less than five percent (5%) of the total bid, must accompany each bid as a guarantee that, if awarded the contract, the bidder will promptly enter into a contract and execute a bond on the forms provided, as outlined in the specifications and contract documents.

5. In case of ambiguity or lack of clearness in stating prices in the proposal, the City Commission reserves the right to adopt the most advantageous construction thereof.

6. The City Commission of the City of Muleshoe, Texas, reserves the right to reject any or all bids and to waive any formalities.

VISITS DAUGHTER

Mrs. Ola McDonnell, of Lubbock, has been visiting here this week in the home of her daughter, Mrs. Bill Boothe and family.

ATTEND UNCLE'S FUNERAL

Rev. and Mrs. T. G. Craft came home Wednesday after attending funeral services for her uncle, R. C. McMahan, held at Spur Monday afternoon. Mr. McMahan, who was 63, was found dead in bed Sunday morning. He had been a resident of Dickens County for 25 years.

"B" Team Downs Morton, 34 to 14

The Yellowjacket B-team led by the sharpshooting of Jim Gaede swamped the Morton Indian B-team on their own court by a score of 34 to 14 Tuesday night. Gaede hit three field goals and four free gratts shots for a total of 10-points to lead his teammates to victory. Clark Colson and Herrington hit for 7-points each and Harlin racked up 8-points. Burns was high point man for the losers with a total of 5-points to his credit.

At halftime the Yellowjackets held a 17 to 6 lead over the Indians, 24 to 9 at the end of the third quarter and 34 to 14 at the end of the game.

Morton Edges Jackets, 40 to 39

In the conference game between the A-teams Morton came from behind with a last second shot by Hill to defeat the Muleshoe cagers in one of the hottest games of the season 40-39. Hill led his teammates to victory by hitting with shots from every angle, racking up a total of 20-points. Whipple led Muleshoe in high point honors with a total of 14-points and Nickels racked up 11-points.

The Morton lads were out for revenge and they got it by out-hustling the Yellowjacket five and came through in the last second of the ball game to defeat the Muleshoe cagers by a 1-point margin.

However the Muleshoe boys played a fine game, but the uncanny shooting by Morton's Hill was just a little too much for the local boys.

TO OPTOMETRY CONGRESS

Dr. B. R. Putman, Muleshoe optometrist, will participate in the tenth annual Southwestern Congress of Optometry in Ft. Worth Feb. 13-15, according to the Texas Optometric Association.

CROSS ROADS CAFE IS CLOSED FOR REMODELING

Cross Roads Cafe will open again as soon as remodeling and redecorating work now going on is completed, Mr. and Mrs. Turrentine, owners said. The cafe closed late Monday to allow workmen to get busy. The Turrentines said they hoped to be able to open again Friday or Saturday, Monday at the latest.
