Glamour Girls Losing Appeal to Venus Type

BUFFALO, N. Y. (UP)—The "glamour" girls who typify the present era of lipstick, rouge and eye-mascara are being replaced by the "Venus type" with strength and beauty enough to sway the affairs of a nation, according to Russell Mancuso, beauty instructor.

Mancuso, who is pioneering a WFA adult education course in feminine beauty, predicted that women of the future will be altogether different and superior to men in strength.

"In fact, as a general rule, they are stronger now than men. Women nowadays, have more time than men to seek the open air, the golf course, the swimming pool and tennis court," he pointed out.

The fundamentals of beauty, according to Mancuso, are character, personality and health.

"These days all women try to be beautiful," he said. "They've learned most of what there is to know about how to enhance appearance with colors. The next step in competition between women will be along health lines."

Time is almost gone but we have not yet had yours, betake it now. Many farm vacation trips while they neighbors to take care of the left at home, but many never take the time. They are doing something.

Time is here, and American wheels. It is estimated that about one-fourth of all the people in the United States are on vacation. It is a wonder there are more vacationers, when behind the plow, the hand the counter, and the desk can read such descriptions of the open air from a farm magazine. An incredibly beautiful country, many and varied are the attractions. The majestic rugged mountains and cool sleepy villages which re-veal moving tempo so rest-angled nerves; secluded re-cesses of the heart of the woods, where boats ply noiselessly along haunts, historic shrines, the vistas for the more enterprising places, conservative and for those whose lives demand diversion a wealth of gaiety in our times.

So we strongly recommend you family throw aside the red work and take refuge for a few days in a new environ-

ment. I was a rock, settin' on a hill do a thing at all, but at night, right still, I can't sleep, I wouldn't eat, I can't even wash—

Get still a thousand years rest myself, by gosh!

 bers of the Scranton team who were able to hit safely off the offerings of Bevin's Huestis pitcher.
 For Smitty's Sinclairs, Bennie was the big shot, getting a homer and a triple out of four times up. Barnhill got a single and a double. Bevin's got a single, and Sublett a single. The rest of the Sinclairs went hitless for the night.
 The Sinclairs made five errors and Scranton two.
 Bailey pitching for Scranton got three strike-outs and Bevin's got two.
 The game was one of the best played all season and fans missing the game really missed a ball game.
 A D Starling called the strikes and balls. O. L. Stamey called the bases and Hal Dyer announced the game.
 This upset for Huestis last night allows Red Front a lead of one game when these two teams enter the last regular scheduled game early next week. In this game the best Huestis can do is tie the Red Front for the last half series, if they defeat Red Front. If Red Front wins, they become champions for the last half and will probably play another game with Huestis, who was winner of the first series, for the summer championship.

ing at the home of Mrs. W. H.
Whitworth. Instead of the usual
games and contests, an hour and
a half was spent in a very interest-
ing and profitable study of the min-
utes of the Missionary Conference
which was held at Temple in April.
One of the questions was in regard
to the boundaries of the conference
and the president, Mrs. Charles Lee,
had a map which she had drawn,
showing the most northern place in
the conference to be Olney, the
most eastern points, Fort Worth
and Arlington, the most southern
and southwestern being Temple and
Georgetown and the most western
being Coleman. During a short busi-
ness session a letter was read from
Mrs. Edwin Snear of Dublin who
is district secretary who wrote to

Key back to our town.

baby have become such a part of
our town that they will be greatly
missed. However, their many friends
are congratulating Bailey on his
promotion in his work as a phar-
macist.

daughters, Rubalee and Dorothy

ber of her old friends here who

Chinese Man-of-War Aids Land Force in Battle at Tientsin

That the action has shifted from Tientsin to Shanghai, this is the sort of thing going on in today. The warship above directs a broadside against Tientsin in the recent battle that routed the defenders and brought about capture of the city. A fleet of Nipponese men-of-war has met sterner resistance in their efforts to wrest control of Shanghai from defenders.

THE HIGHWAYS OF BUYING

"Follow the highway markings and you can't go wrong."
... That's the advice the Automobile Club gives you
before starting on a motor trip. You follow the well-
known, well-marked roads. And you reach your des-
tination the safest, most comfortable way.

Why not follow the same rule in your shopping?
Why not stick to the "highways of buying?" They have
been just as carefully plotted, and are just as carefully
marked as the great motor roads you've come to depend
upon. Marked by the trade-names of reliable, adver-
tised products.

The next time you go shopping follow these "high-
ways." Before you start, look through the advertise-
ments in these columns. Pick out the products you want.
Notice the trade-names that identify them. And then
ask for them, by name.

THE ADVERTISEMENTS ARE SIGN-POSTS TO
GUIDE YOU TO THE BEST AND MOST
RELIABLE MERCHANDISE.

COSTLY SLIDE

Cameraman was right on top of the job when Jimmy Collins cracked the outside bone of his right ankle in attempting to score in a game with Pittsburgh. The mishap will keep Collins out of the Chicago Cubs' lineup for a month. Seeing that he was out, the Ripper first tried to halt a sliding effort and then decided to go through with it. The first baseman's foot turned under him, as indicated by the arrows, as he bounded clumsily along the ground. Umpire Ziggy Sears gives a rough imitation of the Statue of Liberty in waving him out, as Catcher Al Todd bends over the stricken player.

STAY AWAY FROM CALIF, POLICE SAY

DALLAS August 26 (UP)—"Stay away from the Pacific coast," migrating Texas and Oklahoma farm families have been warned by the resettlement administration.

"We have been informed by the California offices of the resettlement administration that distorted reports are being circulated picturing California as a paradise for the dispossessed of other areas," said C. M. Evans, assistant regional director. "When migrating families without adequate means of living arrive on the coast, they will find no support."

California is swarming with workmen of all kinds, with 87,362 out of state residents crossing its borders last year.

Oklahoma sent the largest number of home seekers, 13,984 crossing the California boundary in automobiles alone. Arizona was second with 7,671 and Texas sent 6,685.

The resettlement administration the past year has tightened up, refusing to continue to aid farm families not showing the proper spirit in becoming self supporting. Shiftless families have again been put on their own, and are tramping about the country, looking for a paradise in which to start anew.

Many capable farmers, looking for a richer field in which to apply their skill, have also been enticed by stories of great profits from California resources. Unless farm families have the means to establish themselves, and live for a period of time, they should not attempt to find occasional work in the overcrowded field, Mr. Evans said.

Premiums offered by large tractor farmers for land has made it difficult for small farmers to find farms fertile enough to make a crop in Texas, it has been reported. Tractor farmers in many instances pay \$1 an acre more than the usual half or three-fourths of the crop for rent.

It has been estimated that 7,000 Texas farmers this year were unable to secure farms.

The resettlement administration according to Evans, has built camps in California where 500 migratory farm can be accommodated. These camps will take care of only about one out of every 100 migratory laborers now drifting about California highways, Evans said.

Kern county, California's leading cotton county, has served notice that it will no longer accept responsibility for transients from other states. Evans was informed by the California resettlement director.

Only 10 per cent of the 50,000 farmers from hard hit farm areas who have already this year crossed the California border looking for homes have obtained good land according to the resettlement administration survey.
