SCHOOL ART DISPLAY ON MAIN STREET IS INTERESTING

The plastic art display of the Adult School of Cisco placed in the south window of the Cisco Transfer building near the Texas Theatre attracted much attention Saturday and the explanations of Miss Gladys Tomlinson added greater interest as she explained that the level floor lamp was made of parts of a steering wheel, gasoline pipe and a very cheap shade, all decorated with plastic clay; the little table lamps made from pickle jars the coal oil lamp from jar with fruit jar top, and many paintings of scenes, map of Texas with blue-bonnet scenes, first work of pupils who have found a new outlook on life in learning to put their thoughts and latent talents to work to express their souls in a way new to them.

Back-to-School, is Now the Cry!

Back-to-School is the cry now and the same call will be ringing over the state and nation during the next few days. Mothers will be busy planning clothes for the children, some of them will be outfitted in splendor with every modern equipment to make their school life easy, others barely clothed and with the minimum of accessories with which to work.

INVENTORS LIST 20 OF WORLD'S BIGGEST NEEDS

By RICHARD EVERETT
United Press Staff Correspondent
DES MOINES, Ia., August 26 (UP)—What this world needs — among other things — is a skid-proof bathtub, a sure-fire dandelion exterminator, and an automatic window closer for the benefit of the sleeping public.

These and many other long-sought inventions will be available within the next 12 months if predictions advanced by George Burns, president of the International Inventors Congress, Inc., come true.

Burns, who will direct the annual congress of inventors here Sept. 14-17, listed 20 of the world's most needed inventions, and pointed out that some may be on display here.

Cold Light Bulb Needed

The bathtub, dandelion exterminator and window-closer headed his list. Others sadly needed include:

1. Cold light, 482 per cent of the energy produced by an electric light bulb is heat, and only 8 per cent is light.
2. A device or substance to prevent rust.
3. An electric cable that will not fuse.
4. Gasoline that will not carbonize in a motor.
5. A portable dictating machine.
6. A process for taking colored X-ray pictures.
7. Tarnishless silverware.
8. A noiseless airplane motor (Many governments have been working for years to produce such a motor for use in warfare).
9. A furnace that will conserve 90 per cent of its heat, instead of the average 30 per cent now retained.
10. A method of producing rain in a given locality at any time, and a method to stop the rainfall.
11. A process for recording speech directly on paper without use of a stenographer (Burns reports that such a process is nearly perfected).
12. A machine for making the application of wallpaper simple for amateurs.
13. A method of preventing electrolysis or leakage of electric current.
14. An electro-magnetic gun to fire noiselessly small projectiles at high speeds.
15. A machine to weigh automatically and stamp postage.
16. A ray to paralyze the magnets and high voltage coils of gasoline and electric motors.
17. Burglar alarm included.
17. T. burglar alarm so sensitive it can be tripped by the heat emanating from a human body.

Burns came to the d-fense of inventors as a group. A recent proposal by Dr. William F. Ogburn of the University of Chicago to curtail inventions he deemed as "ridiculous."

"One of the latest important patents granted," he declared "was to H. B. Stratton of Warrensburg, Mo., who has perfected a method of extracting sulphur and phosphorus from old rubber, reducing the product again to crude rubber than can be re-worked."

"That one invention is very likely to create a whole new industry employing thousands of persons."

"Encourage and help the inventor to discover new industries," he declared, "and we will never again have an unemployment problem."

Builds Shrine to Will Rogers

Preparing for the dedication of the 100-foot Will Rogers Memorial tower, atop Cheyenne Mountain, near Colorado Springs, is Spencer Penrose, above, wealthy Colorado pioneer and close friend of the late cowboy-humorist. Penrose has erected the shrine, built of native granite, as a lasting memorial to his friend.

67 per cent more aggravated assaults, 44 per cent more burglaries and 47 per cent more thefts.

"While it is doubtless true that much improvement in combating crime may be expected from the increased number of law enforcement training school programs it is indicated that it is also necessary in some jurisdictions to give consideration to the question of the adequacy in point of number of employees of the local police organizations," Hoover said.

Crime reports from 67 cities revealed that the number of murders and non-negligent manslaughter cases increased 46 during the first six months of 1937, compared to a total of 568 reported for the same period last year. Manlaughter by negligence increased from 352 in 1936 to 485 in 1937.

Robberies during the six-month period totaled 6,388 during 1937 and 5,524 for 1936, but these figures compared favorably with a total of 10,282 reported during the first six months of 1931.

Burglary Remains Constant

The number of burglary cases has remained fairly constant during the seven-year study period. In 1931, there were 34,029 cases, compared to 28,971 in 1936 and 32,108 this year.

Larceny thefts reached a high mark for the seven-year period during the first six months of this year with a total of 64,201, compared to 72,244 in 1935 and 75,083 in 1931.

Hoover said that part of the increase in reported larcenies during 1937 probably was the result of more complete reporting of minor thefts by local enforcement agencies.

Survey Will Be Made of Wyoming

CHEYENNE, Wyo. (UP)— Plans for a survey of southwestern Wyoming's extensive phosphate reserves and their possible development will be started this fall by representatives of four governmental agencies.

Geologists of Idaho, Utah, Nevada and Wyoming and technical representatives of the Department of Agriculture, the Department of Interior, the geological survey and the TVA will cooperate in making the study.

RAG DOG FOOLS POLICE

NEWBURGH, N. Y. (UP)— Police called the city dog catcher to remove a dog apparently struck by an automobile. While waiting arrival of the pound keeper, a bystander examined the mangled form lying in the street and discovered it was only a rag doll "dog."

Tribe Corners Liberian Iron Money Exchange Value Raised by 100 Pct.

MCNROVIA, Liberia, August 27 (UP)—In the interior of Liberia where pieces of iron about 14 inches long still are used as official coinage, the Mandingo natives, who are the dominant traders of the country, have succeeded in cornering the money market.

For years the standard rate of exchange has been 80 iron tokens for one shilling sterling of British money, or 24 cents, Liberian money. The Mandingo natives got nearly all the iron money in their hands, at the same time obtained control of the sources of the iron and they have now raised the value of the money so that the rate of exchange has gone down to 40 iron pieces for a British shilling piece.

In less than a year, by this shrewd control, the Mandingos have doubled their investment and are now releasing the iron money into circulation again at the new rate of exchange, making a profit of 100 per cent.

Many people who have studied the native tribes of Liberia believe that the Mandingos are destined to become the dominant commercial group of the republic. Tall handsome and dressed in long white Mohammedan gowns, these tribesmen circulate their wares throughout the interior.

They have the only horses in Liberia and have a monopoly of the country's few cattle. Their chief business is trading.

They are probably the most intelligent people in all West Africa. No other group of natives would have thought of such a money monopoly which the Mandingos have effected knowing nothing whatever of stock markets or money control methods of civilized lands.

Truckers Warned To Carry Signals

ALBUQUERQUE, N. M. (UP)— A close check on truckers is being made by the state police to see that they carry flares, flags and fuses for use when they stop beside highways. Several drivers have been arrested for not carrying warning signals.

CRIME FIGURES FROM 67 CITIES RISE SINCE 1936

By ALLEN DIBBLE
United Press Staff Correspondent
WASHINGTON, Aug. 28 (UP)— The Federal Bureau of Investigation has revealed a definite relation between the amount of crime and the number of police employees in cities of the United States.

The finding is particularly significant in view of the fact that increases in the number of criminal offenses were reported from 67 cities with an aggregate population of 19,003,302 during the first six months of 1937.

Director J. Edgar Hoover said an analysis, based on crime figures for 1936, showed that cities having an average of slightly more than two police per 1,000 population reported five murders for each 100,000 population, while cities having an average of approximately one officer for each 1,000 population reported slightly less than 10 murders for each 100,000 population.

The same relationship was shown in figures for robbery, aggravated assault, burglary and larceny, he said.

Increase is General

In addition to having approximately 90 per cent more murders than the cities with two police per 100,000, the second group reported

CONSTRUCTION OF REPLICA OF ALAMO RECOMMENDED BY STATE

AUSTIN, August 28 (AP)—Construction of a replica of the Alamo, historic shrine at both the New York World fair and the Golden Gate exposition in San Francisco in 1939, has been recommended by the Texas planning board to state legislators.

The board suggested also that there be displayed in air conditioned auditoriums at both places 6,000 feet of sound and color film showing industrial, agricultural and recreational scenes in Texas.

Estimated cost is \$225,000. The Alamo was the chapel of an early mission at San Antonio which was occupied by defending Texans as a fort in their battle for independence of Mexico. After holding off an attacking force of Mexican soldiers, under command of General Santa Anna, the Texans were overpowered by the overwhelming odds in numbers, all dying rather than surrender.

The plans submitted call for an exact replica at New York and a slightly smaller one at San Francisco. Each would be used as a meeting place for Texans attending the expositions. The auditorium planned for the New York fair will seat 500 and that for San Francisco, 350.

If the legislature approves, cameramen will take typical scenes in time before the displays open. The old type of fair and exposition exhibit was discarded by the planning board as too costly an undertaking to many of the people who attend fairs.

The state constitution does not permit an expenditure for such purposes. Instead, the legislators will be asked to authorize a commission to raise the money by private contribution. Texas display at Louisiana Purchase exposition was financed in that way.

Read it first in the Daily News.

Eden's Stamina Sorely Tested

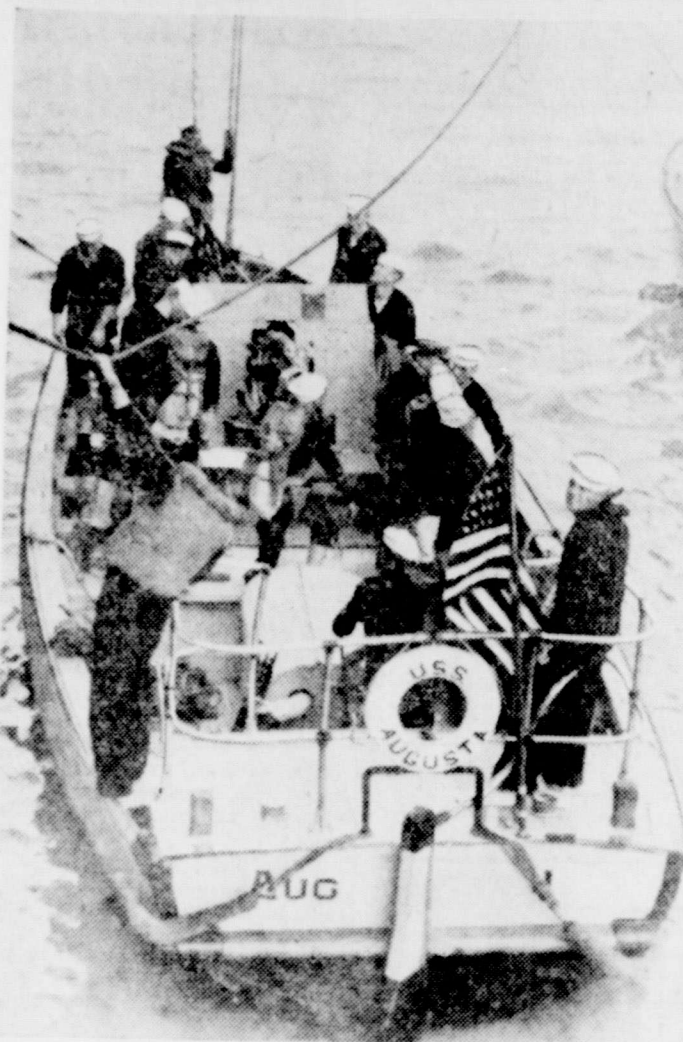

LONDON, August 28 (AP)—These are busy days for Foreign Secretary Anthony Eden and many of his senior staff officers. They start work before 9 o'clock to cope with the day's list of worries.

Probably there are some papers with that little red tag "Immediate," of which the foreign office uses large quantities these days waiting for his consideration. At least there is the large batch of the daily newspapers, with the aid of which Eden takes the pulse of the world each morning.

Then a telephone call probably will be put through to some departmental chief asking him to jump into a taxi and come round to No. 17 Lower Berkeley street for a breakfast table conference. Affairs of state are settled over toast and marmalade in these days of rush and bustle.

After this, if the day is sunny Eden takes a brisk walk to the office. But if events are moving too fast to allow time for this slight recreation, he rides to the foreign

Preparing for Trouble in China

Taking ashore a field piece by motor launch, sailors from the U. S. S. Augusta, flagship of the American Asiatic fleet, are shown above preparing for any emergency, while protecting American lives and property in Shanghai. Just a short while after this picture was taken, the Augusta was hit by a shell of undetermined origin, killing one sailor and injuring 18 others.

office and studies documents on the way.

Many Points of Worry
In his office a formidable pile of reports are waiting for him. The various departments into which the foreign office is geographically divided all have their quota of worries for their chief. Spain non-intervention, China, Japan Washington reaction to the Far East Germany, Italy and the "ghost problems" of Central Europe all contribute their quota.

Next there are ambassadors to receive six are considered just an ordinary day. Whether their talk be of vital international affairs or a simple diplomatic move, after each Eden visit must immediately dictate a memorandum giving full details of the discussion for dispatch to the British ambassador in the country which Eden's visit represented.

If there is a cabinet meeting that day, Eden must have a report ready for his colleagues on the latest development in international affairs. He must keep Prime Minister Neville Chamberlain constantly acquainted of all developments.

Next item of the day in the foreign secretary's program is probably an official luncheon, or if he is lucky, he may be able to take a quieter luncheon discussing important problems with one of his advisers.

Most Appear in Commons
But by 2.45 p. m. Eden must be in his place in the House of Commons ready to answer the ever growing list of questions about foreign affairs, particularly those critical questions from the other side of the House.

By the time he has finished his job in the House, the King may wish to see Eden to hear about some point of foreign affairs policy.

Then back to the foreign office to clear up more reports which have come to hand during the day. There is no "clocking off" time for a foreign secretary, though, if

he has an official banquet or other he must leave the office in time to prepare for that. Otherwise he may be able to work on until the desk is cleared for the day and then go to bed.

Adult School—

(CONTINUED FROM PAGE ONE)

community and social center. The faculty consists of Field Supervisor Randolph Lee Clark and five teachers as follows:

Miss Gladys Tomlinson, general education; Mrs. Mattie Loftin, typing, at high school; Mrs. Muriel Shock, clothing, at high school; Lee Humphries, bookkeeping at Mancill building; Venie Harris, literacy.

Sessions are held at the North side school five days each week from 2 to 5 p. m. Spelling, English, homemaking and plastic art are taught by Miss Tomlinson as general education. Of course, she explains, women discuss and learn about mattresses, home decorating and a hundred things that give them new interest in their homes and lives. Articles made in the plastic art department use cheap materials such as old bottles or jars, pieces of apple boxes, scraps of beaver board and pieces of junk that cost them nothing. Each pupil pays a small price for the things they make and take to their homes this amount being placed in the treasury so that money is available to buy paints and materials which must be bought. Some of the articles are of course crude in workmanship being first efforts, but many show artistic talent and skill.

We shall not mention the articles of display in detail but it is worth while to visit the display over the week end and see for yourself.

Truly it is a great work and should be encouraged. The attendance which averages about 19 or 12 pupils, should increase to overflowing. A wonderful opportunity for those for whom it was intended

SPEED FLIGHTS FOR KING'S CUP START SEPT. 10

By DAN ROGERS

United Press Staff Correspondent LONDON, Aug. 28 (AP)—New speed records are expected to be made in Britain's annual aerial derby, the King's Cup race, on Sept. 10-11. Three years ago the winner averaged 200 miles an hour. Rapid advance in aircraft power promises averages in the neighborhood of 300 miles an hour this year.

Thirty-one competitors are entered, including several famous racing pilots. Ernstnat, pilots, machines and engines competing for the King's Cup must be British. Speeds attained are second to Schneider cup races, for military aircraft.

The two-day race will begin and end at Hatfield airbase. The first to cross the finish line will receive the cup presented by His Majesty, King George VI and a cash prize of \$5,000, the latter presented by Lord Wakefield. Second prize of \$1,750, third prize of \$750 and prizes of \$1,000 to the competitor in each class making the fastest time in the first-day elimination contest, also will be awarded by Lord Wakefield.

Two Types Eligible

Planes are divided into two classes—machines not exceeding 150 horsepower, and machines exceeding 150 horsepower. Handicaps estimated in advance are given each plane and they are started at handicap time intervals, hence the first home regardless of class, is winner of the cup.

The course on Sept. 10 will be from Hatfield to Dublin, a distance of 782 miles, by way of Cambridge, Skegness, York, Scarborough, Whitby, Newcastle, Stape of 30 minutes each will be made at the control and refueling points.

of Newcastle, Aberdeen, Glasgow and Newtonards. The night will be spent at Dublin.

The slowest one-third of the entrants, as determined on the first day, will be eliminated.

The course on Sept. 11, back to Hatfield, will be 653 miles, by way of Newtonards, Port Patrick, Carlisle, St. Bees, Head Blackpool, Stoke-on-Trent, Leicester and Cardiff. Thirty-minute stops must be made at Newtonards and Blackpool and one of 45 minutes at Cardiff.

Race Starts at 9 a. m.

The start from Hatfield will be at brief intervals beginning at 9 a. m. from Dublin at 11.30 a. m. Competitors will include Capt. E. W. Percival, famous designer and pilot, who will fly Viscount Wakefield's Percival M-w Gull; R. J. Wainwright in Viscount Wakefield's T. K. 4; Flight-Lieut. Tommy Rose in a Miles Hawk Speed VI entered by Henry Horns; Giles Guthrie, who as co-pilot with C. W. A. Scott won the Portsmouth-Johannesburg race last September in Sir C. Guthrie's Percival Vega

Gull, and Charles Gull, former winner of the race in his own Percival M-w Gull. One woman pilot, Miss L. Dillon, who, with a stack as co-pilot, will fly Gull. An enthusiastic Brig.-Gen. A. C. Lewis brought his Whitley from Kenya for the race.

THE HIGHWAYS OF BUYING

"Follow the highway markings and you can't go wrong."
... That's the advice the Automobile Club gives you before starting on a motor trip. You follow the well-known, well-marked roads. And you reach your destination the safest, most comfortable way.

Why not follow the same rule in your shopping? Why not stick to the "highways of buying?" They have been just as carefully plotted, and are just as carefully marked as the great motor roads you've come to depend upon. Marked by the trade-names of reliable, advertised products.

The next time you go shopping follow these "highways." Before you start, look through the advertisements in these columns. Pick out the products you want. Notice the trade-names that identify them. And then ask for them, by name.

THE ADVERTISEMENTS ARE SIGN-POSTS TO
GUIDE YOU TO THE BEST AND MOST
RELIABLE MERCHANDISE.

Modern Freedom FOR MODERN WOMEN

HERE is sanitary protection that does away with napkins and belts... that is completely invisible, and so comfortable that there is no consciousness of wearing sanitary protection at all. Bettes are approved by physicians... acclaimed by women everywhere as the most comfortable, most convenient method ever devised.

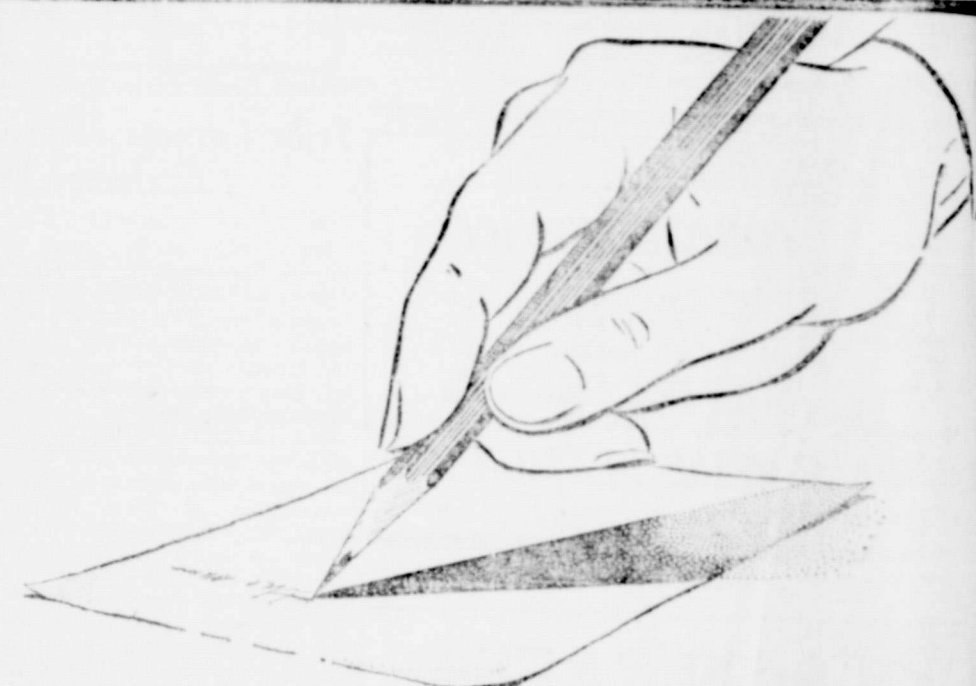

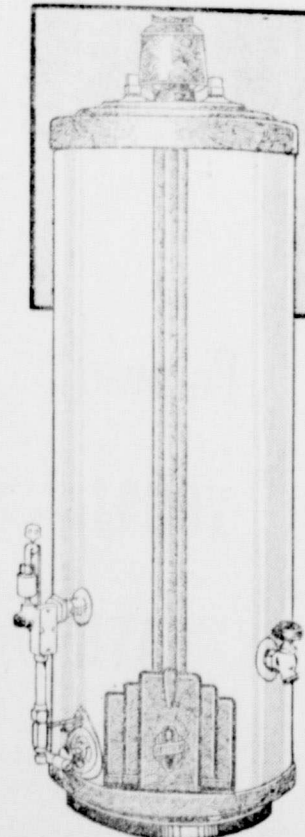

FIGURE it out!

... then say, "I can't afford the advantages of gas automatic hot water system"

THE rock-bottom down payment, the liberal trade-in allowance, the small monthly payments available now on newest-type automatic gas water heaters are only the beginning of the many continuing advantages of gas water heating equipment.

Gas brings you economy that mounts up year after year. Economy in upkeep of equipment—for there's virtually nothing about these sturdy heaters to wear out or develop "expensive service trouble." That means an important saving every year over any other equipment. On top of that your low-cost natural gas service makes gas water heating much cheaper than any other method.

So figure it out for yourself! Get all the facts about the improved efficiency of these modern heaters. Then you'll see that the cost of automatic hot water service provided by these newest heaters is less than obsolete or inefficient methods.

Pioneer Couple is Honored at Caddo

Mr and Mrs W T Gracey, pioneer residents of Stephens county who celebrated their Golden Wedding anniversary several years ago were honored by their relatives and friends at their home August 22nd. This couple is known to many people here and was a brother to Robert Gracey, a former resident of Cisco.

Current news relates that a large number of persons gathered in Caddo Sunday at the home of Mr and Mrs W T Gracey for a Gracey-Goodnight reunion. The reunion has been an annual affair since Mr and Mrs Gracey celebrated their golden wedding anniversary several years ago.

Those attending Sunday were: Mrs J D Sandefer Sr, Mrs Blackburn, Truett Comper, Bibb Cuthbert of Abilene, Mr and Mrs Claude Hightower, Mrs D A Yankley, Mineral Wells; Mr and Mrs Lemo Johnson and daughter, Lucia F H Goodnight, Mrs Bird Sayle and daughter, Doris, Jeff D Wright, Miss Mary Johnson, Lee Gracey, Mrs W C Jones and daughter, L. Ruby of Dallas; Mr and Mrs H H Gracey and son, Harvey Jr, Miss Ruby Goodnight, Mr and Mrs Val Peacock and son, Val Jr, Mrs Aubrey Faye, Mr and Mrs James Farr and daughters, Jennie Ruth and Mary June, and son, Charles, Mr and Mrs Rayford Farr, Van Webster, Mrs L R Gracey of Fort Worth.

A S Gracey, R E Gracey and daughters, Jane and Eld, Mr and Mrs D D Potter, Mr and Mrs Walter Ray Potter, Joe Potter, Roscoe; Mrs Roy Martin, C L Goodnight, Amarillo; Mr and Mrs C D Couch, Mr and Mrs Philip Leck and sons, Zephyn; Floy Farr of Post.

Mrs H M Bates, Mr and Mrs W J Rickard, Mrs R R Gracey, Mr and Mrs J O Tate and son, Jimmy, Mrs T O Gracey and son Jack, and daughter Doris, Mrs F L Russell, Mrs Ula Blackburn, Miss Marylin Sandefer, Walter Parks, Ben J Dean, Mr and Mrs R N Cowart and children, Jerry Keith and Carmen of Breckenridge.

Mr and Mrs W T Gracey, Jr and sons, Donald and Hugh of Midland; Mr and Mrs J H Cook, Mr and Mrs Chas. Watson and son, Billy Dan, Mrs Lola McClelland, Iraan; Mrs A J Williams, Cedessa; Uncle Matt Richardson, Mr and Mrs M C Anderson, Mr and Mrs M Goodnight, and son Clyde; Bill Adkins, Tip Adkins, Mrs Jennie Nash, Mr and Mrs J H Lee, Mr and Mrs J L Cowart and son, Lewis; Rev E L McCord, Mr and Mrs Z W

Everything But Monotonous

Sutphen and Tom Lay, Mr and Mrs W T Gracey, Sr, all of Caddo. Those calling in the evening were Rev W H Vanderpool of Ereckridge, Mr and Mrs H C Thompson, Mr and Mrs E B Hudspeth and daughters, Kate and Betty, Mr and Mrs George Jenkins and son, Merie and daughter, Loris Jane, Mrs R E Ground, and Mrs E T Buchanan and Mrs R C Kelly of Caddo.

Miss Eoff Honored With Lovely Shower

Mrs D L Byers and Mrs Hilmer Swenson complimented Miss Drucilla Eoff with a miscellaneous shower Friday night at the home of Mr and Mrs Hilmer Swenson. Miss Eoff was met at the door with two going-away bags and was told her luggage was ready, and was then escorted to the living room where all was dark. When the lights were turned on it was discovered that many guests were seated in the room. The bags were then opened and the beautiful and useful gifts were displayed by the honoree to the guests assembled.

Miss Eoff is leaving soon for her new home at Flora, Illinois. Mrs Swenson, assisted by Miss Daniel, served refreshments of punch and angel food cake.

The guest list included: Mesdames D D Lewis, W R James, C B Shaw, J T Waddell, Jeff Coats, Willie Lee, Waters Lloyd LaRoque, Greg Simpson, Guy Ward, L Linder, M E Goldberg, H Winston, D Bishop, M E Steinberg, C I McCauley, T A Jones, G Foidard, H M Bassett of Abilene, A T Wheeler of Fort Worth, Misses Peggy Van Lamon, Nadine Mayhew, Mabel Burke, Mary Lee Daniel Grace Polard and the hostesses.

The Birthday Club Had Luncheon Fri.

The Birthday Club enjoyed a luncheon at one o'clock Friday at the home of Mrs W W Wallace in Humbletown honoring the birthday of the hostess.

The table was covered with a lace cloth over pink, which was centered with zinnias.

Covers were laid for Mrs. Elizabeth Morrow, mother of Mrs. Wallace, Mmes. F. J. Borman, J. E. Moriarty and daughter Mrs. J. B. Henderson of Wichita Falls, S. E. Hittson, Homer Slicker, P. R. Warwick, Homer McDonald, E. P. Crawford, Horace Condeley, W. J. Armstrong, Miss Virginia Carter and the hostess.

Mrs. Wallace was presented with a Samson card table a gift from the club.

Picnic Enjoyed at Stephenson Ranch

Complimenting their guests, Rev and Mrs. MacArthur of Mountain Air, New Mexico, Dr. and Mrs. G. M. Stephenson entertained with a picnic supper at the Stephenson ranch Friday evening.

After the party had partaken of the picnic supper, they enjoyed the diversion of "84" as the game of the evening.

Attending were: Rev. and Mrs. MacArthur of Mountain Air, N. M. Mr. and Mrs. St. Perkins, Mr. and Mrs. Wallace Kelly and daughter Carolyn of Eastland, Miss Louise Stephenson and the hosts, Dr. and Mrs. G. M. Stephenson.

Powells Entertain With Lawn Party

Members of the Christian Endeavor Society of the First Christian Church were entertained Friday evening at the home of Mr. and Mrs. Troy Powell, 806 West 12th st. with a lawn party.

Outdoor games were the evening diversion and a contest game was won by Cran Clark.

The hostess, assisted by Miss Ethel Mae Wilson, and Mrs. John Jensen served delicious refreshments to the guests.

Present were: Ada Roan Mobley, Jane Moore, Nadine Huestis, Marie Litchfield, Mary Olive Garrett, Betty Lou Powell, Forrest Mcbley, Cran Clark, Darcy Bruce, Claude Hannan Isaacks, Finley Winston, Miss Ethel Mae Wilson, Mrs. Jensen, Mrs. Ben Krauskopf and the hostess.

Drives 150 Yds.; New Hampshire to Maine

ROCHESTER, N. H. (AP)—Willis Hayes says he is the first person to hit a golf ball from New Hampshire to Maine.

He drove the ball from East Rochester across the Salmon Falls River into Maine—a distance of 150 yards.

PERSONALS

Bill Doty arrived from Wellington Kansas, Friday where he had been at work during the summer months.

Mr and Mrs. Shooberry of Amarillo, who were business visitors in Cisco this week, left today for their home at Amarillo.

Miss Margaret Hagaman went to Fort Worth Friday where she will enter the Brantley-Draughton's Business College. She was accompanied to Fort Worth by Mrs. Lane Gilmore and Miss Jeanne Hagaman.

Mrs. E. J. Williams returned to her home at Hamilton Friday, after spending the week with her sister Mrs. F. E. Shockley.

Rev. and Mrs. W. O. Todd and daughter, Ruth, are spending the week end with Mrs. Todd's sister Mrs. C. J. Tillinghast and Mr. Tillinghast. They also visited Mr. and Mrs. Jack Leech.

Mrs. Pete Cooles is visiting her daughter, Mrs. Jack Seligson and Mr. Seligson in Oklahoma City.

F. E. Shockley and son, Lonnie, have returned from New Orleans where they attended the National Convention of the Figgly-Wiggly Stores.

Miss Byrd Bacon, who has been attending Earl Ross College at Alpine, has returned to Cisco.

Mr and Mrs. Clyde Dewberry of Fort Worth are spending the week end with Mrs. Dewberry's father, Mr. J. B. F. Wright and family.

Mr J. E. Doty who has been working at Hobbs, N. M., came to Cisco Friday to move his family to Lubbock where the boys, Bill and Bertie will enter Texas Tech, and the girls, Betty and Mavis will attend the public schools of Lubbock.

Mr and Mrs. Eugene Shockley of Dallas arrived in Cisco this morning and will spend their vacation with Mr. Shockley's parents, Mr. and Mrs. F. E. Shockley.

Messrs. Nick Miller, Truett LaRoque, Edward Lee and Marvin Elliott attended the boxing matches at Abilene Friday night. Among the amateur pugilists was Chas. Fowler of Cisco.

John D. Ward returned Saturday from Conroe and Houston, where he transacted business.

Mrs. J. S. Bates and daughter, Miss Nancy Lee Bates of Marshall visited her sister, Mrs. G. B. Langston and Mr. Langston Friday and Saturday.

Mr. and Mrs. Paul Vogt left Sat. for their home in Alpine after a pleasant visit with Mrs. Vogt's parents, Mr. and Mrs. J. T. Anderson.

Miss Mary Frances Stansbury returned Saturday from an extended visit with relatives in Austin.

Mr. and Mrs. E. P. Crawford returned this week from a two weeks' visit in Kentucky.

Breck Artists Visit In Cisco Friday

Misses Frances Bankley and La Verne Lenders of Breckenridge were visitors in Cisco Friday, advertising the Artist Series sponsored by the Junior Twentieth Century Study Club of Breckenridge according to Mr. A. J. Olson.

Season tickets are being sold for four performances to be given at Breckenridge High School auditorium.

Farita & Co. will be presented in Spanish and Latin-American dances, in the third week of October.

Richard Halliburton, author, lecturer and journalist, will review the fifth of his great sagas "Seven League Boots" in January or February.

Dorothy Fuldheim, who travels every year in Europe and on the American continent gathering new material for her lectures, will speak on "The European Merry-Go-Round" in February.

Vandy Cape, soprano and satirist, the famous star of Metropolitan Opera House Concerts, and "Show Boat," will appear in April with Eugene Kane, winner of the National Federation of Music Clubs 1933 Contest, who has since become one of our best known and most admired tenors.

Radio Broadcasting Taught in School

FORT WORTH, August 28 (AP)—Alice E. Carson public school, which covers the primary grades, is pioneering in the teaching of radio broadcasting to its pupils—many of them six and seven years old.

The result has been that the radio holds no terrors for the youngsters, despite a familiar "mike fright" that overcomes many adult newcomers to the radio. Dozens of radio students in the school have taken part on local community broadcasts, and the results have been pleasing both to teachers and to the radio stations.

Miss Jessica Lloyd, principal, was active in getting radio equipment for the Alice E. Carson school two years ago. Regular programs, musical numbers and short skits performed by the students, first were broadcast to other stations to present their work.

"The system is not a toy to

Club Compliments Mrs. Harold Reese

amuse the children," declared Mrs. Lloyd. "Acquainting pupils with the mechanics of radio is a primary purpose, but we also have been able to supplement regular classroom work by re-broadcasting educational programs furnished us by the networks."

Mrs. Lloyd has a microphone installed in her office that allows her to speak by remote control to any class in the building, or to listen to the proceedings in the classroom.

Orchestral programs, vocal concerts, club and dramatic programs have dominated the school's network.

"Many children's voices register well on the microphones," said the principal. "They almost unlearned in their lack of nervousness."

Club Compliments Mrs. Harold Reese

Estuady morning a handkerchief shower was tendered by the Wednesday Sewing Club at the hospitable home of Mr. and Mrs. Davis Fields to Mrs. Harold Reese, who leaves soon for her home at Wink.

Refreshments of ice cream and cake were served to the guests by the hostess. Those attending were: Mesdames Carroll Allison, Amalie Richardson and Misses Lucile Flaherty, Frances Caldwell, Pauline Flaherty and the honoree, Mrs. Harold Reese and the hostess, Mrs. Davis Fields.

TUCSON, Ariz. (AP)—Construction of a \$100,000 racing car factory and research plant is under way on an 80-acre tract of land north of here, Arthur Sparks, racing builder, announced.

Infantry Turns Light Field Piece on Tientsin Defenders

So casually do Japanese troops take the battle at Tientsin that the scene looks more like peaceful maneuvers than grim battle. Nevertheless, the light field cannon hurled its deadly charge at short range against the sorely harassed Chinese defenders, who quickly withdrew and left the city to the invaders. Every sort of armament was used by the Japanese to insure capture of the city.

BIGGER PLANES DESIGNED WITH NEW LUXURIES

SAN FRANCISCO, Aug. 28 (AP)—Major airplane factories on the Pacific coast are competing with those in the East in construction of the airplane of the immediate future.

The one common feature of the new models, both in the West and the East, is an increase in passenger capacity from the more or less standard 14 passengers to from 32 to 74.

As to luxury, one of the planes being built will have its own private dancing floor.

Among the more conspicuous models is the DC-4 of the Douglas Aircraft Company at Santa Monica, Cal. It is being built as the result of joint specifications furnished by engineers of the United Air Lines, Inc., American Airlines and Pan-Pacific Airways.

The plane will reflect the experience which all of these companies have had in flying for years.

General Tests Arranged

When completed the DC-4 will be tried out on each of the airlines concerned and orders will be taken only after operation has proved satisfactory or perfected to the point where it is acceptable by all.

Essentially the DC-4 will be the big sister to the Douglas DC-2 and DC-3 models which are employed by some of the principal air lines throughout the world.

The new ship will be equipped with a tricycle landing gear, similar in principle to that installed on the new Stearman-Hammond safety plane. Power will be supplied by four Wright Cyclones, with a total of 5,000 horsepower, with a gross weight of 60,000 pounds. It will have a passenger carrying capacity of 40 persons for distances of 700 miles and berths for 30 passengers.

At the Boeing factory at Seattle, where many of the army's greatest planes and flying fortresses are manufactured, the Army's YB-17 type is being adapted for civilian use. The latter will be known as the Boeing model 307 transport type, and eight are under construction.

Can Rise 30,000 Feet

The distinguishing feature of this new plane will be provisions for reaching an altitude of 30,000 feet. Accommodations are being provided for 30 passengers in each. The Big ship will have a wing-span of 167 feet, a cruising speed of 200 miles an hour, at sea level and 250 to 260 miles an hour at altitudes from 20,000 to 30,000 feet.

They will be equipped with four G-100 Wright motors that are expected to develop 4,400 horsepower. Among the super luxuries which these planes will offer will be provisions for super charging the cabins with oxygen at higher altitudes.

Otherwise, in minor details they will be bigger sisters to the Model 247 already in common use on American Airlines.

However, they will be constructed with four engines, high wings and stabilizing fins incorporated into the hull. They are to carry 72 passengers each, have a top speed of 200 miles an hour, a range of 5,000 miles, a wing span of 152 feet and will weigh 82,000 pounds.

The latest Martin creation under construction is a modification of the Clipper-type ships now in operation on the Pacific lines. It has a wing spread of 157 feet; a gross weight of 62,000 pounds and a cruising speed of 156 miles an hour.

Luxury Sikorsky Liner

Sikorsky, whose clipper planes are seasoned in trans-oceanic service, is turning its attention a little toward luxury. Its newest model is a 100,000-pound luxury flying boat which will carry 40 passengers, and provide dancing facilities and everything in the way of modern transoceanic luxuries. It is being built to accommodate 40 passengers and will have a flying range of 4,500 miles.

In the meantime, the Douglas Aircraft factory is building a new type seaplane in which major attention is being centered on safety. The ship will be twin-motored with floats which retract into the wings. It will carry 36 passengers but it not intended for voyages of more than 3,000 miles. The gross weight will be 28,000 pounds, with a wing spread of 95 feet.

Great is the improvements are in these new craft now being constructed by leading American factories, no secret is made of the fact that they are being hard pushed by European companies.

The latter already have craft under construction which if they prove successful may outdo the

Dublin Scene of Irishmen Olympics

DUBLIN (AP)—The first all-Irish "Olympic Games" will be held in Dublin Aug. 28.

The Irish Amateur Athletics Union will stage its first championship track meet at the Lansdowne road ground. All the championships will be open to Irishmen, sons of Irish parents, or athletes who have resided in Ireland for six months previous to the meeting.

Competitors must be members of clubs affiliated to the Irish Amateur Athletic Union or the Northern Ireland Amateur Athletic Association.

Irishmen residing in Great Britain will be entitled to compete—despite President Eamon de Valera's recent near-Republican legislation, but they must be members of clubs affiliated with the Amateur Athletic Association or the Scottish Amateur Athletic Association.

Stripped Victims Used by Holdup Man

MERCED, Cal. (AP)—Somebody a thief is starting a clothing store, officers conjectured here. The bandit stripped Cleo M. Gosh of Madera of a new suit of clothes, shoes and \$50 in cash and left the victim wandering about downtown streets in his underclothing.

After officers outfitted Gosh, Joe Dias of Alwaster reported he had been robbed of trousers, shoes and wallet, and was outfitted in turn.

The latest and highest conceptions of American constructors.

THIS CURIOUS WORLD

A BIRD THAT TURNS WHITE BLENDS SO PERFECTLY WITH THAT ITS SHADOW IS VISIBLE A GREATER DISTANCE THAN THE BIRD ITSELF!

SINCE the orbit of the earth is not a circle, the same distance from us, but this has no effect as can be seen from the fact that the northern hemisphere is in winter when it is having its winter. The distance about 91.5 million miles in January to 94.5 million

New Acts Featured at Pan American Exposition Casino

The Pan American Casino at the Greater Texas and Pan American Exposition in Dallas has this week brought in several new top-notch acts from Broadway. These include: (1) The Diamond Brothers with a slap-dash comic aerobatic act; (2) Sibyl Rowan, mimic and impersonator of nationally known characters; (3) Florence and Alvarez, internationally known dance team. Gil Lamb and Tommie Sanford also come to the Casino with their dancing and harmonica art. Art Jarett and the Singing Gauchoes and the spectacular precision line of girls remain. Phil Harris and his orchestra provide music for dancers.

Science Predicts a New Race of Sun Worshippers

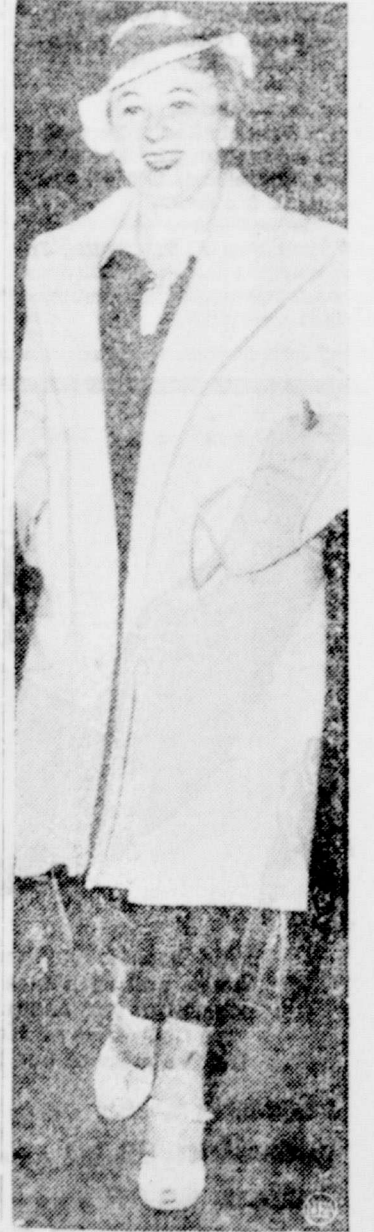

Terraced parked streets with the streets heated and cooled by the control of man-made solar radiations, and buildings of glass, shaped to admit a maximum of sunlight, form the basis for this city of 2000 A.D. The lower view shows a sports terrace high up on a building where radiant heat, or the man-made solar radiations, are broadcast and received like radio waves, to provide year-round sports outdoors. Drawn by Max Feldman and Olinde Grossi, architects, the designs for the city were shown in New York City recently at the opening of the combined showrooms of 14 building industry companies of American Radiator and Standard Sanitary Corporation.

COMPLETELY discarding former concepts of the city of the future in which taller and taller buildings predominated, a new city has just been projected in which size and intricate mechanics are supplanted by a scientific application of natural and artificial sunlight to broaden the living scope. Shown in New York City recently by the Sixth Avenue Association, at the opening of the world's largest building industry showroom by 14 companies of the American Radiator and Standard Sanitary Corporation, the designs for the city speculate on the application by the year 2000 of scientific facts recently discovered.

Artificial sunlight is utilized by broadcasting and receiving from plates along the street radiant heat or the heat ray, which is similar to heat given off by the sun, to warm and cool people without warming or cooling the air. Already applied in a modified form for the more advanced types of air conditioning, these rays can be transmitted through the ether as is a radio wave, and on special terraces in the residential section, they are used to provide both winter and summer sports throughout

the year, with skating shown in the designs on an upper level, and tennis, swimming, basketball, and other sports below. Open air theatres are heated and cooled with the rays, and on the parked terraces just above the street they are transmitted from special broadcasters and receivers to provide outdoor dining cafes in both winter and summer. Drawn by two architects, Max Feldman and Olinde Grossi, winner of the Prix de Rome in 1923, the only point in the center of buildings where sunlight does not reach is utilized for a parking area connected to arterial underground highways, and equipped with compressed-air conditioning. Cross streets are at a lower level than avenues with underpasses of glass to eliminate intersections.

Smiles at Charge in Poison Death

Whatever concern she felt over murder charges filed against her was smilingly concealed by Mrs. Anna Hahn, 31, shown as she walked into Cincinnati court for a hearing. Charged with murdering George Gasellman, 67, one of five of her elderly male friends whose deaths are being investigated, Mrs. Hahn confidently summed her view of the situation with, "This is one case I'm going to win, I'll tell you!"

Ford Dealers now offering a wide selection of makes and models - at attractive prices

FORD DEALERS' ANNUAL NATION-WIDE USED CAR CLEARANCE SALE

MOST POPULAR USED CAR BUY - A USED FORD! BEST TIME TO BUY - NOW!

By selling more than a million new 1937 Ford V-8s, America's Ford Dealers have the widest selection of used cars in history.

Now they're getting together in a great nationwide sale to move those used cars quickly and make way for 1938.

That's a break for you! There never was such a wide selection of makes and models or so many remarkable values.

Trade in your old car this month. Get a better used

of the nation's output will be given. Texas alone has a 4,314,000-bale crop in prospect. From the Rio Grande to the Red River valleys thousands of bales have been ginned, bought and packed, ready for domestic use or shipment to Europe, Canada and the Orient.

But the government estimate is not taken too seriously. Growers know that August is the killing month—day after day of temperatures over 100, little rain, time when scorching winds from the north and west sweep over fields like blasts from a furnace to make premature bolls drop off and plants wither and die.

At the time the estimates were made they were probably correct. But extreme heat and moisture came in three weeks. Blooming was stopped in many sections and half-grown bolls are popping open which will cause reduced yields and shorter staple.

Many believe the crop eventually will not exceed 14,500,000 bales and that the Texas figure will be cut to 4,000,000.

And there are other troubles for the Southern aristocrat-grower these days. The bigger his crop, the smaller his price. Quotations now average around 9 1/2 cents a pound compared with 13 and 14 a month ago. This four-cent drop amounts to nearly \$300,000,000. That's why Southern congressmen pulled a sit-down strike on other legislation until President Roosevelt agreed to peg the price at 12 cents.

In addition, the Southern farmer has seen his market tumble from under him. He used to sell 7,500,000 bales abroad, but now ships only 5,000,000. It's true that domestic consumption now is well over 7,000,000 bales compared with only 5,500,000 a few years ago and that chemists are learning to make everything from smokeless gunpowder and non-inflammable film from cotton linters.

But the amount that leaves Galveston, New Orleans and Houston by boat for such markets as Japan, Germany, England and France determines what the Southern farmer, middleman and shipper will make. And those shipments are not what they used to be.

This is more disappointing because the world this year will consume 30,000,000 bales, highest in history. But when the South in 1933-34 plowed under its white gold to raise the price foreign produc-

ers stepped in and are apparently on the market to stay.

Argentina, Brazil, Russia, Egypt, China, Punjab, India and others are increasing production, have entered a field where they can't be pushed out—like the camel whose nose is in the tent.

Public Won't Buy Good U. S. Currency

FORT WORTH, August 28 (U.P.)—Harold Eppes, local theater manager, has discovered that strangers still won't buy good United States currency at cut rates although they will spend all their savings on submerged real estate and phoney gold mines.

Eppes got into an argument with a friend over the gullible American buying public. The friend agreed that 'The Man in the Street' would buy anything, however worthless, if the opportunity were just presented in the right circumstances.

—but I'll bet they won't buy a dollar bill for 75 cents, said Eppes. The two started out on a sales campaign, with a news reporter as witness.

The first man lengthened his face and ordered the money sellers to "be on your way." Two women were tried next, and Eppes used the "gangster approach."

"Say, sister," he spoke from the corner of his mouth, "I'll let you have this dollar bill for 75 cents."

"Lo we lock crazy?" one of the women replied as she walked away hastily.

Several prospects looked at the bill in the light, wet it and handed it back with the remark: "A phoney!"

Two hours later, the money-sellers quit work. They tried hard but still had two of 10 \$1 bills they started with. Eight of 100 persons they talked to knew a bargain when they saw it.

for 1,000,000 persons from relief rolls to permanent jobs by September, 1939.

PITTSBURGH, Aug. 28 (U.P.)—Pittsburgh paid final tribute today to the man who helped make it one of the leading industrial cities of the world—Andrew W. Mellon.

With flags at half staff on all buildings, a crowd of more than 4,000 persons attempted to crowd into the church for funeral services.

The mahogany casket in which he lay remained closed, however.

TOULOUSE, France, Aug. 28 (U.P.)—The loyalist "international brigade" hammered at weakening nationalist lines today while 5,000 Italian troops hurried across northern Spain to aid the defenders of Saragosa.

Loyalists directed three generals to command 200,000 troops and the largest amount of war materials ever amassed by the loyalists to meet General Franco's drive.

Charles Fowler Wins Abilene Bout

By TOMMY LA MORE

Charles Fowler, local amateur fighter, carried the colors of Cisco to victory last night by winning on a knockout from Howard Lee Abilene scrapper in the T. F. A. matches staged in Abilene.

Charles entered the ring the underdog, but emerged the victor after giving a fine demonstration of fighting that goes in making a winner.

Lee charged Fowler from his corner at the opening of the bout with swinging lefts and rights in fast succession, but Fowler cleverly blocked these punches with his arms and shoulders. Following this fast exchange, Fowler started throwing his own punches which found their mark with good accuracy. Near the middle of this round Charles put Lee into the ropes several times with sharp lefts followed by hard rights.

In the second round he cut things short by going out and battering Lee into submission and the referee awarded the fight to Charles on a knockout.

Following this good exhibition of fighting the Abilene match maker signed Charles up for a fight next Friday with one of the outstanding fighters in thebantam weight division from Merkel. A large body of Cisco light fans accompanied Charles to the fights and gave him their support and backing through the fighting.

estimated 700 Chinese, including many women and children. About 1,200 were wounded.

More than 350 Americans were under fire when Japanese war vessels circling around the U. S. refugee liner, President Lincoln, drew the fire of Chinese gunners off Wood-

The U. S. S. Augusta, flag ship of the Asiatic squadron, again was endangered when half a dozen Chinese shells fell near her.

Japanese warships blockading 800 miles of China's coast stopped the British liner Shenking as she was entering the river for Shanghai but allowed her to proceed when she established her identity.

The British ambassador, shot by Japanese airplane bullets Thursday was improving.

In the three principal sectors of the north China front the Japanese claimed victory.

Wm. Reagan and Texaco Products

Wm. Reagan has been the agent for Texaco products for many years in Cisco. His name and Texaco products have become synonymous terms in the minds of users of gasoline and oil.

Fire Chief gasoline and Havoline motor oil are choice products for any fine automobile and users say they are economy for any kind of car. Power, mileage and long wear in lubrication make these products the choice of millions over the United States, say those who know.

Let us figure your next job of printing. Our job department is equipped to serve your needs. — PHONE 80.

"TEXACO AHEAD"

The Sign of a Friendly Greeting Everywhere!

"Texaco Ahead"—All over the nation this sign and the big red star is a haven of security for the motorist. In any state, at any little out-of-the-way station, the motorist knows he is safe.

He can find dependable products that will be safe for his motor and give him power and mileage. Let Cisco's Texaco dealers make you safe by patronizing them and their services.
