## LIQUOR DRINKS TO FACE HARD FIGHT

### Billions And Lives Lost In Shanghai Fight

#### CHILDREN DIE, TRADE HALTED, WORKERS IDLE

SHANGHAI, Oct. 15 (U.P.)—The battle of Shanghai which entered a temporary lull today after yesterday's furious Chinese offensive has caused damage estimated by foreign sources of approximately one billion dollars. This was approximately exactly double the damage of the 1932 siege and in addition, 80 per cent of all trade has been halted and 90 per cent of the city's industrial workers are idle. An additional horror was revealed today by municipal health authorities who announced that numerous Chinese children are dying weekly in refugee camps due to malnutrition resulting from shortage of milk. They reported four dead during the past week in one camp alone and while the total deaths were not revealed, it was noteworthy that there are 123 local refugee camps.

#### 'One-Eyed Cars' Enemy to Drivers

AUSTIN (U.P.)—'One-eyed' automobiles and those without working tail lights will be classed as public enemies in the state highway patrol's campaign for road safety. The campaign will be started as quickly as 125 fledgling patrolmen have finished their training and can augment the seasoned force. "All traffic law violations will receive equal attention," promised L. G. Phares, patrol chief, but from the standpoint of safety, improperly lighted vehicles are considered extra-important. "There will be no drives" but a steady campaign carried on consistently on the state's 22,000 miles of designated highways. The driver who consistently exceeds the speed limit, passes other vehicles on hills and curves, who straddles the middle line or weaves in and out, will find patrolmen determined on his trail. Phares said.

#### MAVERICK SAYS NEUTRAL STAND IS PROPER ONE

HOUSTON, Oct. 15 (U.P.)—Representative Maury Maverick said today the United States was too openly biased as a spectator of the Japanese war. Maverick, strong administration supporter, questioned the wisdom of the state department's sharply worded note condemning Japan as the aggressor against China. "I think we should be neutral, even in words. We should take the attitude that even if China and Japan are obliterated in this conflict, it will make little difference with America. "So far as I am concerned," he said, "I don't care if we never do sell another bale of cotton to the Orient if this means saving our men from being murdered at war."

#### Junior Choristers To Meet Saturday

The Cisco Junior Choristers will meet at the First Methodist church Saturday morning at 10:45 o'clock. Hjalmar Bergh announced this morning. All members of the club are urged to be present.

#### CANARY LIVES TO BE 27

ELGIN, Ill. (U.P.)—The ordinary span of life for a canary is 10 years, although occasionally one will live 15 years. But Bob, a yellow and black mountain roller canary owned by Mrs. Mary E. Simon, has passed his 27th birthday. And he still sings.

#### Hounds Are on His Flying Heels

Literally flying with all four feet off the ground as he races at full speed to escape the pack of hounds, this cub fox was "caught" by a photographer during an exciting hunt at Woodhill, Berkshire, England. Closely trailing were the dogs, just out of camera range.

#### LOBOES LEAVE FOR SAN ANGELO BUT BAND NOT TO ACCOMPANY

The football boys were sent off with rousing cheers from the members of CHS this morning at 8. The Loboes seemed confident they would go out and fight with their very best spirit and give the Bobcats a good trimming. Loboes making the trip are: Walter Preston, Ray Burnisides, Billy Latch, Troy Stewart, Rex Polard, Parks Bailey, Marcell Harrison, Odell Harrison, Curtis Yancy, L. M. Yarbrough, Vernon Steyer, Gordon Sherman, Raymond Reams, James McCrary, James Qualls, Rudolph Dolinger, Coy Warren, Roy Callerman, Leo Callerman, Robert Cone, Tom Jones, and L. P. Holder. Mr. Cluck, Mr. Stamey and Mr. Duff plan to be at the game and back the Loboes with all the pep and stamina they can get together along with the other Lobo fans. The Band Parents club met Thursday and decided it was too cold for the children to go to San Angelo. So the band is not going. Mr. Maddox plans to go and will attend a meeting of the committee that is to decide where the band clinic will be this year. Mangers Bill Donohoe and Tommy LaMore accompanied the team.

#### Dexter Shelley Wins Over Houston Team

Dexter Shelley, former Cisco coach, but now training the Orange Tigers, is the subject of a glowing tribute in a newspaper article covering the victory of his team over that of a Houston team by a score of 12 to 2.

#### OIL INSTITUTE RE-ELECTS OLD OFFICIAL STAFF

HOUSTON, Oct. 15 (U.P.)—Charles F. Roeser, of Fort Worth, today began his third term as president of the Independent Petroleum Association of America in the midst of a convention disturbed over taxation and other governmental control. Roeser and other association officers were re-elected last night as the convention moved to end its session today one day in advance of schedule.

#### Librarians Are Chosen for Band

The band elected four librarians at the meeting Thursday night. They are: Joyce Rainbolt, Glenn Boyd, Charles Yates and Paul Davis. They are to have charge of the music and supervise its distribution.

#### PRESIDENT ON 24-HOUR DUTY AT HYDE PARK

HYDE PARK, N. Y., Oct. 15 (U.P.)—President Roosevelt divided his attention today between the international situation and plans for the special session of congress to convene Nov. 15. Mr. Roosevelt's planned-for six days of relaxation at his country estate were ended by foreign and domestic problems that kept him on what aides described as a 24-hour a day basis of duty. The president was in day and night communication with the Department of State over current events in Europe and the Far East. He was particularly concerned over the wounding of six American navy men and marines in Shanghai.

#### WOMEN TRAFFIC IS UNCHECKED SAYS OFFICERS

EL PASO, Oct. 15 (U.P.)—Regular traffic in "night life" women between Oklahoma, El Paso and California is operating almost unchecked because of the unwritten "code" of the women involved, the Federal Bureau of Investigation has revealed. An FBI official said officers seldom can persuade a "lady of the evening" to swear to any definite information that might implicate the panders, because she is ostracized by her kind if she does. As a result, prosecution of such cases is almost impossible if the women involved will not assist by swearing to the complaints. El Paso maintains one of the few remaining supervised "red light" districts in the United States. Time after time, police and federal agents have had a case almost completed when the woman involved would change her original story. Agents would need her testimony that the man accused transported her across a state line for immoral purposes. Night Police Chief Leonard Butchofsky recalled a recent case of a night life woman being beaten so frequently by a man that police entered the investigation. When first arrested, the woman admitted that the man had forced her to lead an immoral life in several states. FBI agents were called into the case. Then the woman changed her story and denied that the man had transported her across a state line. Butchofsky said many of the women in El Paso's supervised district had men "managers" that most of the women have entered such a life of their own volition and have become attached to them who force them to continue, through intimidation.

#### Bonds Issued in Texas in 5 Years

AUSTIN, Oct. 15 (U.P.)—Texas cities, counties and other political subdivisions have issued \$306,109,580 in bonds in the past 5 and a half years. State Comptroller George Sheppard announced today. Of that, \$167,910,275 was for improvement programs. The balance of the bonds were for funding or refunding purposes.

#### Dr. E. L. Graham Leaves for Vacatoin

Dr. E. L. Graham plans to leave early next week for a trip of several weeks, perhaps a month, combining a vacation with keeping up with what is new in his line and rubbing shoulders with the world's greatest physicians and surgeons whom he will meet at the various gatherings he will attend while away. Dr. Graham will first attend the International Post Graduate Assembly at St. Louis, later attending the American College of Surgeons at Chicago. He will probably visit Orrie's Clinic at Cleveland, O., he stated.

#### Operators Await Sentence at Court

SAN ANTONIO, Oct. 15 (U.P.)—Charles M. Hair and Floyd M. Jones, operators of the Southern Brokerage Company of San Antonio, awaited sentence in federal court today for violation of the Federal Securities Act and use of the mails to defraud.

Four days after her neck was broken in an auto mishap, Mrs. Myrtle Carrington, left, 39 of Alexandria, Va., bore her 19th child, a healthy 9-pound girl, shown below with a nurse. Mrs. Carrington's head was strapped to the bed in a brace while the child was being born.

#### DAHL ESCAPES FIRING SQUAD; WELL ACQUAINTED WITH JAILS

The old trail blazers of Eastland county are enjoying a barbecue and meeting of the old timers at Philpeco today. About 100 invitations were mailed to outside communities early in the week. Secretary E. R. Patterson stated, A Strackbein, top hand at barbecuing beef is in charge of this part of the feature. J. E. Spencer is on the program which begins at 10 a. m. and continues in the afternoon. The editor of the Daily News acknowledges an invitation which duties prevented him from accepting.

#### JONES FAVORS BOUNTIES FOR FARM PRODUCE

AUSTIN, Oct. 15 (U.P.)—Congressman Marvin Jones of Amarillo told legislators today that he hoped the coming special session of congress would give restitution to the farmers for the many qualities of protective tariff. Jones, Chairman of the House Agriculture Committee, said bounties for farm products were the only solution. "If there had been no tariff, no trust, no monopoly," he said, "there would have been no farm problems. The farmer could have worked out his own salvation."

#### Cripples Cooperate To Cut Down H.C.L.

HIBBING, Minn. (U.P.)—James H. Emith and Matt Keltz have tried the adage that two can live as cheaply as one. Both men are approximately the same size and build and each has suffered the loss of one leg. Smith the left and Keltz the right. When Mark Erspermer, social worker, called on the men they asked for one pair of shoes, saying, "one pair will be enough for both of us."

#### HOLBROOK MAY NOT SUPPORT BILL HE SAYS

AUSTIN, Oct. 15 (U.P.)—Liquor by the drink will face another stubborn fight in the Texas senate next week, a partial poll indicated today. Senator T. J. Holbrook of Galveston, opponent of more taxes, made the surprising announcement that he had not decided if he will support the liquor bill. "They, the liquor-by-drink supporters, put us in a hole when they traded with the taxation crowd," Holbrook said. "We don't owe them anything."

#### JOSHUA WOMAN DIES WHILE IN HUSBAND'S CAR

FORT WORTH, Oct. 15 (U.P.)—Mrs. H. C. Gilliland of Joshua died last night of a heart attack while riding in an automobile on the old Cleburne road between Culbertson and Crowley. Her husband, driver of the car, noticed her slump down in the seat and rushed her back to Burleson, but she was dead when he arrived. He said she had complained of a touch of indigestion earlier in the night. Mrs. Gilliland was 33. She lived in Johnson county all her life.

#### Extension Teacher Course Organized

AUSTIN, Oct. 15 (U.P.)—Congressman J. T. Fielder, teacher in Howard Payne college, organized an extension course class for Cisco teachers last night at the Grammar school. This course will be taught in sociology and will be taught in two sessions. The first will be for teachers who wish to finish degree work in Howard Payne. Some teachers from this college will teach the group beginning at 6 o'clock each Monday evening. It was announced. A group was taught last year and some took their degrees from Cisco following courses of this nature during past years.

#### CURFEW LAWS CLIMAX LONG FIGHTING TIME

JERUSALEM, Oct. 15 (U.P.)—Twenty-four hours of bloodshed, the outgrowth of Great Britain's Palestine proposal, were climaxed today with the enforcement of drastic curfew regulations. The streets of Jerusalem will be cleared of all persons between the hours of six p. m. and five a. m. The Jewish Colony of Rostina in Northern Palestine, was subjected to heavy gunfire. A railroad train was derailed by a land mine near the Arab village of Kalkilia and fired upon and a Jewish bus en route to Jerusalem from Tel Aviv was bombed yesterday.

#### HAROLD ICKES BOOSTS PARKS FOR COUNTRY

HOUSTON, Oct. 15 (U.P.)—Secretary of Interior Harold Ickes, arriving in Texas to make two speeches, said today he hoped the State of Texas and private interests soon would purchase lands for a national park in the Big Bend country of the Rio Grande. "The government would immediately approve it, build roads, hotels and camps," he said. "I think Texans do not realize the great revenue that the park would bring. We can hardly take care of the tourists in many of our parks." V. E. Andrews and Chapman Williamson went to Moran today to referee the football game.

#### WEATHER

EAST TEXAS—Partly cloudy slightly warmer Saturday in north portion and on upper coast tonight. WEST TEXAS—Cloudy; probably rain in Panhandle tonight and Saturday; warmer in north portion tonight and southeast portion Saturday.

## Seeing Our Jobs as Part of the Whole

The business world wants the small liberal arts college to supply it with "men who are citizens first and business men second."

Dr. Luther A. Harr, Pennsylvania, state secretary of banking, made this remark before some 600 educators who had gathered at Muhlenberg College the other day for an academic symposium. He went on to expand his statement by saying that the business world needs men with these qualifications:

"Men with an awareness of the pressing problems of our distressed world; men with the desire to grapple with the most dangerous and difficult issues; men with enough historical background not to be deluded by the sirens of Fascism or the vigorous claims of Communism; men who realize that business is not the be-all and end-all of life, but a part of a larger whole."

All of which shapes up to quite a set of specifications. It is much like telling the college: "We need a smarter and more altruistic set of human beings—won't you please start grinding them out?" It is a good trick if the college can do it.

And yet something along the line of what Mr. Harr is asking for is very greatly needed—not only in the world of business, but in all other walks of life as well. For we are under the necessity nowadays, more than ever before, to realize that all of us as Americans are in the same boat together, that we can't drift our way out of our troubles, and that we need something more than a mere application of the problems of our own bread and butter.

Life has grown almost unimaginably complex in this modern world. The national we-are depends on the mutual adjustment of an infinite number of individual selfish desires—which boil down, in the end, to the varying ways in which he can possibly lay his hands on.

Our success, or lack of it, in that age-old human quest depends largely on the sort of country we have—its degree of prosperity, its ability to evolve policies that will keep the economic machine working, its readiness to remove disabilities from the shoulders of the unfortunate. And yet these things, in their turn, grow out of the way in which we as individuals go about the business of earning a living.

We are all links in a chain which describes an endless circle. No trades, business or profession can settle its problems without reference to the larger whole. It is hardly going too far to say that our national future depends on our ability to see our personal concerns in their relation to the national picture. If the college can help us to do this, then more power to them.

## OUT OUR WAY

## UNDER THE DOME AT AUSTIN

By GORDON K. SHEARER  
United Press Staff Correspondent  
AUSTIN, Oct. 15 (UP)—Economy minded senators have run into difficulty in their plan to abolish state departments, bureaus and jobs. They find economy is not so simple as it sounds. Many activities that senators would abolish as being unnecessary, extravagant or duplicating were found to be firmly entrenched in statutes outside the appropriation bills.

Abolition of the latter would require repeal of certain laws. By failing to provide revenue for operation, such departments would have to stop their work but the confusion might be endless. Some groups already have had their wings clipped. The state planning board got only a trifling appropriation. The axe seems most likely now to fall on the authority given departments to spend the special regulation taxes they collected.

Almost every department has such authority, on the plea that the expenditures come out of money earned by the departments. The more they earn, the more they can spend. Some legislators fear that if the right to spend the money is cut off, the departments will become lazy about collecting it. Expense accounts and the need for all the state travel that takes place also are due for close scrutiny.

room. True, there might be a murderer hiding in there, under the bed, or in the clothes closet at the side. But Cilly did not think so now. Fearlessly she peered through the window only to get a glimpse of the room's layout. Then she took the dressmaker's tool out of her pocket.

Very carefully she cut a semicircle in the pane of glass directly above the window's catch—just enough so that she could slip her fingers through and unlatch the window. Some day, she thought with a smile, she would confess to Mr. Johnson and offer to pay for the broken window pane.

The small semicircle of glass fell to the floor within the room and splintered with a resounding crash. But it could not have been heard anywhere except in the apartment below, and that was her own. Cilly unlocked the window and raised it slowly. An instant later, she slid over the sill, careful not to tread on the broken glass at her feet.

She wished she had brought a flashlight, but she did not own one. She looked carefully at the window shade. Good! It was as she had hoped. The windows were equipped with two sets of shades, light and dark, for this apartment faced the south and the sun shone in brightly all day. She pulled down both sets of shades; now she could turn on the light with little fear of being seen from the outside.

In the full glare of the overhead fixture, the room looked bare and cold. It lacked the cozy homeliness one usually associates with old ladies' rooms. There were no magazines on the end table, no intimate snapshots of nieces or nephews or grandchildren, no snugly cushions.

Cilly started on the chest of drawers. One after another she opened each drawer, and her eyes widened in amazement. There was not even newspaper covering on the bottom. Had Mrs. Elliott moved out completely, bag and baggage, as had Mrs. Wheeler?

Next she looked into the clothes closet. Would this too be empty? But no, there were clothes here. Typical old ladies' clothes. A black silk dress, of no particular style. A plain cloth coat, of a slightly rusty black. A muslin slip, hung on a wall bracket. Black oxfords, very large black oxfords, looking not unlike a pair of man's dress shoes, lay on the floor.

Cilly looked again. Surely there must be something else... this

Europe on a leave of absence, without either state pay or expense account.

A House member facetiously suggested that the trip was to learn how the French curl hair.

Gov. James V. Allred's recent trip to Mexico City brought criticism. It was not at state expense, but he was chided for riding in the private car of a railway official.

Chamber of Commerce officials got little sympathy in their demands recently for the House revenue and taxation committee to reduce taxes rather than increase them.

"We've got to pay the fiddler," Rep. Herman Jones of Decatur who headed the sub-committee that wrote the omnibus bill under consideration.

"The people ordered us to allow old age pensions, aid for the blind and needy children. They knew it would cost money."

John Vance of the Refugio Chamber of Commerce and Henry B. Baldwin of the Corpus Christi chamber drew the most pointed questions from the committee. "I don't know" or "I didn't vote for it" followed most of the queries like these:

"Didn't your organization want us to appropriate \$3,000,000 last year for the Texas Centennial?"

"Didn't you gentlemen want old age assistance, money for teachers' retirement, for the blind, and for needy children?"

"Didn't your chambers of commerce want certain tax remissions in their districts?"

Baldwin who reportedly urged South Texas business men to "march" on the capitol and protest new taxes, was put in an embarrassing spot by several questions. The principal one had to do with the Corpus Christi storm protection project.

Since 1921 and to 1946, all state taxes from seven counties that would have gone into state general revenue have been remitted to help build the defense. Last year the general fund lost \$112,658 because of the remission.

Baldwin told the committee that tax remission could not be repealed now because the money is spent and the bonds are outstanding.

"I will say," he commented, "that I now believe Elmer Pope (the Corpus Christi representative) talked you boys out of a little more than we were entitled to."

Next day Rep. Byron England of McKinney introduced a bill to repeal the remission.

Tom H. Nees, a Beaumont banker for 40 years, believed that business principles should be applied to government. A private business operated like the state, he said, always spending more than it makes, would be bankrupt in five years.

The elderly banker looked at the committeemen, many of them in their twenties, and remarked: "You've grown up in a world that thinks it can spend its way to prosperity."

Other witnesses told the committee that the state had no right to look into administrative expenses because the "Federal government is paying for it."

A survey of how much of the state's money went for trips to Washington might throw light on the growing cost of state government.

All trips by state officials are not at state expense. Two who are in Europe now are bringing no cost to the state. Adjutant General Carl Nesbitt was an American Legion delegate in the party that went to France to dedicate a war memorial. A member of the State Board of Cosmetology (beauty board) is in

tain loom above them on one side of their home and they can hear the murmuring of the waves of the Pacific ocean on the other. Pine trees grow back of their home and giant oleanders, beautifully pink grow beside the upstairs window where Mrs. Fielder sits as she writes.

Oleanders grow as high as the houses in that country... make trees.

Japan is one of the most beautiful countries in the world they have often remarked... they stop there each time they return from China to take their vacation, which is one year in seven... They have now spent 25 years in the Orient, and had thought that they might never return to America after the visit just ended... The warm Pacific current and ocean winds sweep this country and give it a delightful climate and its soil is unusually fertile.

Mr. and Mrs. Fielder do not know a word of Japanese language, which is entirely different from Chinese, but just now the English language is being studied by all Japanese school children and there is a shortage of English teachers in Japan... But unless the Chinese war lasts too long they will probably go back to China as soon as it is possible to do so.

The Fielders have two children, a son and a daughter, in Baylor university... Another son is finishing high school in San Angelo, where he lives with an uncle while doing so... He will also go to Baylor when ready for college... Their two younger children are with them in Japan.

It seems tragic to us here to think that it is improbable that the parents will see their children again for at least seven years... Perhaps never... and when they do, the children will perhaps have families of their own and will have become thoroughly Americanized, since they are enthusiastic for life here.

But missionaries must make great sacrifices to carry on in their chosen work abroad... It takes a different attitude of life from that of the ordinary person to live the life of a missionary to foreign lands.

**Four-Ton Beauty Soon to Come Here**

A proud beauty is Lotus, this four-ton hippopotamus, and one of the 800 furred and feathered creatures who will arrive in Cisco Monday, Oct. 18 for two performances, 2 and 8 p.m. with the Al G. Barnes and Sells Floto Combined Circus. Lotus, lets it be known, she's proud of her legs and also her hide, which, despite sun and water, is always a sand-paper rough, brown. Her legs, she claims, are the most shapely in the world, considering each of them hold up a ton.

and a loss to Baylor on successive Saturdays. The rejuvenated Steers and the determined Razorbacks will stage a battle royal in the opinion of leading sports writers.  
 The Humble broadcast of the Texas-Arkansas game will begin at 2:20 p. m. with Cy Leland handling the play-by-play description of the game and Bill Hightower the color. The broadcast will be carried by stations KNOW, Austin; KTSB, San Antonio; KTAT, Fort Worth; and KXYZ, Houston.  
 The Rice-Tulsa game at Houston climaxes the Oil World Exposition which has been running in the South Texas city all this week. Spectator and listener partisanship will be marked in this contest between eleven representing the plain football fan will not be left out of it; the game promises to be one of season's standouts in inter-sectional play in the Southwest. Rice surprised some quarters with its rapid improvement between its games with Oklahoma and Louisiana State, Tulsa, though defeated by 20-13 last Saturday, is admittedly one of the strong teams of the country.  
 The game will be broadcast at 2:20 p. m. by the Humble Company over Station KTRH Houston, with Gene Cagle on play-by-play and Tom Jacobs handling the color.  
 Another game packed with human interest is the contest between Southern Methodist and Vanderbilt

Universities, scheduled for the Cotton Bowl in Dallas. This game gives us father against son; teacher vs pupil; coach pitched against the school at which he gained fame. Ray Morrison, Vanderbilt mentor is the father of Jack Morrison, Mustang backfield ace. He was formerly head coach at S. M. U. and during that time, Matty Bell, present head wrangler of the Ponies, was his No. 1 assistant. To add piquancy, if spice be needed, Vanderbilt is Morrison's alma mater. Disregarding all this, the game is a good game of football in its own right. The Ponies began to show promise last Saturday with a win over Washington University of St. Louis, while Vanderbilt has, on successive Saturdays, turned in victories over Kentucky, Chicago and Southwestern of Memphis-Tenn.  
 The Humble Company's broadcast of the game will begin at 2:20 p. m. over station KRLD, Dallas. Hal Thompson, assisted by Jack Mitchell for color, will be at the microphone.  
**CUTLERY DEALERS BEWARE!**  
**SALINAS, Cal.** - It would never do for a cutlery dealer to get arrested in California. Louis Corpus, Filipino, 26, was arrested for carrying knives. Because he had two on him he was sentenced to 15 days in jail for each one.

**HUMBLE OIL TO BROADCAST ON TEXAS GAMES**

Two important intra-conference games headline the four football broadcasts to be put on the air by the Humble Oil & Refining Company next Saturday afternoon.  
 Of major significance is the game between Texas A. & M. and Texas Christian University to be played in Fort Worth. The dopesters have this one figured out as one of the games upon the outcome of which the conference championship may depend. T. C. U. has a loss to the powerful Ohio State team, a 13 with Arkansas, defending Southwest Conference champion, and a win over the strong Tulsa University eleven on its 1937 record book; the Aggie's have won two inter-sectional tilts, one against Manhattan in New York, the other against Mississippi State College at Tyler last week. Both teams are highly regarded as pretenders to the championship by football experts.  
 The Humble Company will broadcast the game at 2:50 p. m. over stations of the Texas Quality Network - WBAF-WFAA, Fort Worth; Dallas; WCAI, San Antonio; KPRC Houston; and over Stations KRIS Corpus Christi, KRGV, Weslaco, Kern, Tips, one of the nations outstanding football announcers will be at the microphone for the play-by-play description of the game ably assisted by Gene Wyatt on Color.  
 Of scarcely less importance in the championship race is the game to be played at Austin between the

### Sheriff's Wife Calm When Losing Finger

**ARCHER CITY (AP)—**Mrs. A. H. Gosler, wife of Sheriff Dutch Gosler of Archer County, amputated the first finger of her left hand when she closed a cell door on it after giving the prisoners their breakfast.  
 Mrs. Gosler calmly unlocked the door, retrieved her finger, unlocked and relocked two more doors before she called a physician to stop the flow of blood from the finger.  
 "I couldn't afford to get excited," Mrs. Gosler explained matter-of-factly. "Some of the prisoners might have tried to escape."

### Use of Fire Alarm Simple Says Chief

**FORT WORTH (AP)—**Despite the annoyance of Halloween pranksters, Fire Chief Ferguson declared as Fire Prevention Week opened that a review of fire hazards for the last year has revealed that many citizens do not know how to turn in a fire alarm.  
 "It's simple," the red-haired chief pointed out. "Just break the tiny square glass on the call box and pull down the key."

### BOARD PLANS A 'DID YOU KNOW' FOR RESEARCH

AUSTIN, Oct. 15 (AP)—The Texas Flaming Board has unearthed some queer facts in its research. These have been listed in the board's bulletin under a heading "Did You Know—"

That if all the goats and sheep in Texas were one big animal it would take a tin factory nine months to build a can big enough to put him in.

That Texas has three Bostons: New Boston, Boston, Old Boston—all within fifty miles of each other.

That the United States is well represented in Texas: Colorado, Nevada, Ohio, Washington, Illinois, Nevada, Missouri City, Tennessee, Kentucky and Texas City are towns in Texas.

That Pittsburg, Los Angeles, Buffalo, Detroit, Omaha, Moscow, Paris, Sweden, Turkey and Italy are in Texas.

That New York City is in Texas. Midway between Bellevue and Henrietta—a small store on the highway has this sign in front—"New York City."

That Dalhart, Texas, is nearer six state capitols than to the capitol of Texas.

That the famous Three-D brand of the Waggoner ranch was caused by a cowboy who bent the iron into three perfect "D's" but found that when put on a cow the letters were backwards.

That a train ran on hardwood rails from Rusk to Jacksonville in 1870. The larger city had a railroad and the citizens of Rusk built this one in order to hold the county seat.

That "XIT", meaning Texas in Texas, is the cattle brand of the Capitol Land Syndicate which owns 3,000,000 acres of land in 10 counties. That Magooch, last active chief of the Apaches in Texas, surrendered when he saw a Southern Pacific train in the Big Bend, with the exclamation that he could never beat iron horses.

Mrs. Mesdames Masterson of Houston and Sander of Meridian were in Cisco today en route for Sweetwater to visit relatives.

### Future Homemakers Club Learns Creed

The Future Homemakers club met Thursday morning during club hours and discussed plans for the year book. Every member hopes for Cisco chapter's year book to be the best in the State this year. The President appointed Gladys French as chairman of the program committee.

The creed for Future Homemakers of Texas, which was written by Grace Noel Crowell, Texas Poet Laureate, in September, 1936, was read by Sue Whitten, president of the club. Miss Graves, sponsor, gave many interesting facts about the creed, and told the club about the author. Every member was urged to memorize the creed, which is as follows:

**A Girl's Creed**  
I believe that the home is wo-

man's natural environment. I believe that there is as much art in making a barren house into a glistering comfortable home as there is in painting a picture or in writing a poem. I believe that there is dignity and beauty in service, as a career for women homemakers offers greater opportunity for future for growth of mind and spirit for exercise of the body than any other occupation. It is my desire to be one of the countless workers of the world to make life sweeter and better because I live and do my work well.—By Grace Noel Crowell, September 27, 1936.

James Shelton was in Abilene on route to his home in Abilene from Detroit, Michigan where he attended a Dealers' meeting. While in Cisco he visited his mother, Mrs. V. Shelton and sisters, Mesdames L. Graham and R. W. Manell.
