# **Armstrong-McCall Is Cisco** CofC Business Of The Week

The Cisco Chamber of Commercer business of the week is Armstrong-McCall Beauty Supply owned by Lonnie and Joyce Peacock. It is located in the Eastwood Village Shopping Center, 204 East 8th.

The business started out as an independent beauty supply and in April of last year they purchased a franchise with Armstrong-McCall. Lonnie said they now have a greater variety of products and an exclusive line of four major products including Matrix, Lamaur, Lacoupe and KMS.

The public is welcome to stop by and purchase the products they carry, but Lonnie said they cannot sell certain brands to the p as required by contract. They also cannot sell professional chemical products. They are open to local hairdressers and to the public, he

Lonnie and Joyce sell to local hairdressers in this area and they also travel about 100 square miles in their selling territory. They sell all manicure, hair care and skin care products. Joyce said that they have all the total beauty products. And they would like to invite everyone to stop by their store when they need hair

care or skin care products. They just returned from a 3-day show in Austin and bought some new spring items. They are continuously updating their product line. They go to hair fashion and beauty shows at least once a month or every other month. Joyce is the daughter of B.D. and Alma Green of

FIRST NEW MEMBER of the Cisco Chamber of Commerce Membership Drive is Henson's Restaurant located on I-20 West. Don Shepard, chamber manager reported that the board members of the Chamber of Commerce will be stopping by Cisco businesses that are not presently members, during the next few days to encourage them to join the Chamber. Don Shepard and Wiley Cox are shown holding some of the hand butterfly shrimp that the restaurant offers on their menu. voting.

David Copperfield, the world famous magician stopped at the White Elephant in Cisco to eat last Thursday on his way to Dallas. He gave them a picture that will go with their collection.

Are you ready to start driving 65 miles per hour? I really hate to see the speed limit go up again. Can you remember when there were over 1,000 people killed on the highways over a holiday period when the speed limit was up to 70 miles per hour? It's bad enough now that there are usually about 350 people who loose their lives now, but it will be even worse when the total climbs back up again.

There are no feature stories on the Teachers of the Week in this issue of The Press. The schools were closed for Spring Break. A lot of students stayed in Cisco and just relaxed and enjoyed the time spent here. A lot of others went skiing or had vacations with their families. And I heard that there were seven Claco High

and stayed one night at the Kiva Inn. I heard they had a pretty good time:

I went to Henson's Restaurant last Thursday to take a picture for the Press and while we were waiting for some more of the Cisco Chamber of Commerce Redcoats to arrive, Ellen Henson asked us if we would like to try some of their butterfly shrimp that they serve. She went back to the kitchen and then returned and asked us if we wanted a glass of tea or anything else to drink. She made us feel as though we were visiting in her home and that we were her guests.

I had only eaten about half of my shrimp and I was holding it in a napkin (and they are giant size) and Ellen looked down and saw it and I explained that I was saving it for my co-worker at the Press. I said that if Joann knew that I had eaten shrimp and had not brought her any she would kill me (not really kill me, but close to it). And Ellen said that she rould fix another piece of hrimp for me to take back nn. Wasn't that sweet.

DANNY SCHAEFER

By Lela Latch Lloyd Danny R. Schaefer, life long resident of Eastland County, is a candidate for Place 5 on the Cisco Independent School Board with excellence as his platform. Election slated April 4.

"I think our schools are good. I have no axe to grind. No special group backs me for the promotion of any vested interest or the ouster of any one individual. I am running because I have three sons who will keep my wife and me closely associated. and me closely associated with the Cisco schools for the next 15 years. I want to help

in providing those children of ours and those of all othe parents with the b physical plants in whi study, and a core of u to divest those ucive to that they will be the high moral atssible. I dream time when each student in every classroom will be challenged to EXCEL. Along with the classroom excellence. I want us to be TOP NOTCH in all extra curricula activities: STARS in the band: in all University Intersholastic League; in literary and sports contests; and outstanding in the Lobo realm of football, basketball,

Schaefer does not endorse the "No Pass No Play edict. "That is not new," he said. "That rule has been in effect for years, except the student was penalized for one week of participation and ineligible until he made up his work. I believe that penalizing a student for 6 weeks is too harsh for the student and the team. A sixweek period of inactivity virtually removes him from every extra-curricula event

rarely catch up if he loses that much training in the athletic world, and that much practice in band rehearsal or any other event. I hope that Governor Clements sees fit to relax that rule.

"I also think that the career ladder program should be modified to improve morale among our teachers. The ladder leads to animosity among teachers. I hardly think an evaluating team can correctly appraise teachers with only one or two listings. I think the administrators, especially, the principals who work with the teachers daily are, or should be the ones who decide whether a teacher is doing his job and the degree of ex-cellence in which he performs it. Give the administrators some power. Restore some authority to the classroom tacher. Use the money for the evaluation committees, the success ladder, and the Tecat tests for teachers who want to study beyond their first degree. When they attain a prescribed amount of additional training, award them monetarily. In so doing, the less ambitious ones will gradually weed themselves out. I think this type of winnowing will produce a stronger faculty and enable any ambitious teacher to higher standards. Danny graduated from Rising Star High School in

1967 and from Cisco Junior College in 1969. He paid his way in college by working as a disc jockey for radio station KSTB in Breckenridge.

After finishing CJC, Schaefer enlisted in the USAF in the summer of '69. Military testing showed his strongest aptitude in the field of electronics. Assigned to a special school in Mississippi for a year of intensive training, he earned his A.S. degree in elec-tronics. The B52's on which he served as an airborne radar specialist, were stationed in countries adjointing Viet Nam. He flew on combat missions and still maintains his private pilot's license for a single engine

### **Lions Club Sees** Film On Garza Strip At Meeting

A picture slide presentation on the Gaza strip country in Israel was presented by Fay Stephenson and Betty Haight as the program feature at the weekly luncheon of the Cisco Lions Club last Wednesday noon at Henson's Restaurant.

Mrs. Stephenson and Miss Haight, retired registered nurses, spent two months in Gaza last fall and winter doing vacation relief work in a school of nursing. This was their second tour of relief duty there and both served as faculty members at the

school. The slides showed scenes at the school and in the nearby city and countryside. Mrs. Stephenson and Miss Haight sppeared in native costumes and displayed a number of objects they obtained in the country. Lion Earl Ray arranged the program and introduced the two

# Rebekah Sunday School **Class Has Meeting**

The Rebekah Sunday School Class of East Cisco Baptist Church held their regular quarterly social and business meeting Monday, Feb. 16, 1967, at 7 p.m. in the Educational Building of the church. The event was a salad supper. Hostesses were Omalee Holdridge, Marie Brock and Billie Boothe.

Each lady brought a delicious salad and the hostesses brought desserts including banana pudding, cherry cheese pie and chocolate pie. They also served tea and coffee.

After the meal, a business meeting was held at which Leona Morton gave the report on finances and the report was approved as

Leona also gave a devotional on "Victory in Jesus," which uplifted all attending.

The new business discussed as a project for the class to work on was to make coverlets for the Child Care Center children. They agreed to have a "work night" Feb. 24 in the home of Omalee Holdridge.

In closing, they joined hands in a "circle of love" and Billie Boothe, class president, voiced the prayer.

Those attending besides the hostesses were Marie Ivie, teacher; Bonnie Ervin, vice president; Jean Posey, Leona Morton, Delores Sharp and Clara Hallmark.

This reporter was ill and unable to attend either the social or the work nights, but through the efforts Mrs. Clara Hallmark, her sister, she was able to write up this

On Feb. 24 and March 3, they held work nights at Mrs. Holdridge's home and got quite a bit of work done, cutting, sewing, etc. Also, according to both Clara Hallmark and Delores Sharpe, the group enjoyed the fellowship with each other very much.

# PEOPLE'S FORUM

Opinions expressed here do not neccessarily reflect the opinions of this newpepaper.

I've Been Wrong Before

By Gordon S. Clark We know so little of what there is to know that the more we learn the more certain we become that we know so much less. Also, we may seriously consider the future like contemplating a fast ride at an amusement park. Thrilling but chilling. Like it or not we are locked on and though some scream, "STOP" or "Let me off." the machine of times moves us forward in ever increasing speed. We may jump the track at the next sharp turn or the wild ride may end in millennial peace but dragging our feet simply has not altered the course not seems likely to.

In ancient times a scientist was viewed by the general public with great distrust. If his primitive lab blew up and especially when the smell of burned sulfur lingered the people whispered that his for him with fire and brimstone. Parentheticaly, I once met a "fire and brimstone" preacher who had visited the Dead Sea where the Biblical cities of Sodom and Gomorrah are said to have been located. He remarked about the odor of sulfur being always there but was surprised when told that brimstone was another name for sulfur. For better or worse the supersitious fear of scientists gradually subsided and a few years ago the schools were turning out such a number of scientists that it was said that the number of living scientists exceeded the total of all such who had lived in human history. They are now just ordinary people. The hazard inherant in "Familiarity breeds contempt" troubles

infinitly few. Even the half truth that "with the atom bomb man has achieved the ability to destroy himself" died out. Fact is that science had produced enough poison gas in several countries to wipe out all people but they were not used. Now we learn that the "Humane" USA actually loaded and shipped anthrax bombs to be dropped on Ger-many during WW II. Fortunatley not just for Ger-many but for the world that plague of germ warfare with bred up germs more deadly and resistant than anything in history was never released. Whoever ordered it stopped should be enshrined. Yet we may rejoice too soon as there is an island off the coast of Scotland where anthrax was tested and which is devoid of life to this day. Absolutely nobody is permitted to go there. Will some foolish, adventuresome person go there some day and when the paint on the warning signs grow dim release upon an unsupsecting public that deadly genie? I believe the Arabic word for those supernatural creatures is Jinn. I mention the fact because one might encounter the word in some translations of "Tales From the Arabian Nights." Those tales also given as "A Thound and One Nights" or "Tales of Sheherizad". Will a bird visit that for-

den island? Maybe some

rogue scientist will set up his own lab untrammeled by government restraint. Maybe as it certainly has happened some government agency like the CIA will try a

"dirty trick". Then we have foreign elements. Long before his death some enemies of Mao Tse Dung said he was "a crazy little man with worms in his head who wanted to blow the World up." Who knows?

But relax. Scripture assures us that there will be survivors.

Still, as I read of "after The Battle" for years there will be travelers who find a bone of a dead enemy will mark it for disposal. Why then worry? Why not just kick it aside or the traveler bury it himself? Well, it might be radioactive or contaminated with a deadly infection?

Genetic engineering certainly has the potential for improving peoples lives

Oh, forget it. You and I can't do a thing to alter things anyhow.

#### Letter To The Editor

Dear Editor: Providence Cemetery. which lies just a few yards from the banks of the Leon River, possesses tombstones dating back to the mid 1800's. The cemetery is being allowed to fall victim of not only the natural destructive forces but the abuse through the negligence of man. Upon approaching the site recently our party was appalled when we observed several head of livestock grazing within the bounds of this sanctum domain. The dilapidated fences surrounding this site serve only to distract from the beauty of the location but do nothing to protect the area from the necessary damage caused by livestock. Several of the tombstones have been knocked over and broken. Access to the cemetery, at the present, is only by boat because locked gates prevent interested groups from reaching the site by any other means.

It is uncomprehensible that so much effort would be made in writing the history of our heritage and so little effort made in preserving the artifacts that prove that has not been declared an official state landmark every effort should be made to have this established.

Respectfully submitted, Name Withheld

### Although much of the morning session March 9, at the

Commissioners Court involved an accout from Attorney Pro Tem Bill Hart, (reported in another story) there were also other items on the agenda. Laddie Pierce came

before the Commissioners to speak on behalf of the **Eastland County Automobile** Dealders in regard to procurement policies. He said that dealers in the county were having trouble with specifications when the County advertised for bids on vehicles; this advertising

the bid was apparently never considered. Richard Robinson, Commissioner of Pct. 1, informed him that the bid had never reached the Court. It was suggested by Judge Bailey that anyone submit-

was "not specific enough."

Another dealer, James

Fullen, said from the cour-

troom that he had mailed a

bid on a certain vehicle and

ting bids on County purchases either send their letters certified mail or, better still, bring them to the Court in person by the specified deadline.

The Commissioners and

Pierce agreed to "help put a specification list together" so there would be more communication of what type of vehicles the county needs to lease or purchase.

Full Agenda At Commissioners Court

In other business, the Commissioners approved the County Depository contract and pledge agreement. They also approved a request for permission to advertise for bids for a dump truck for Pct. 1.

They opened bids for material for road work. There were two bids submitted, one from Finley Construction Co. and the other

from BC Construction Co. missioner of Pct. 2, requested that a 99-E Motor Both bids were accepted, Grader be advertised for and the companies will be used according to location of

sale. This was approved.

The Commissioners voiced strong opposition to the Health Department District change from Abilene to Lab hauling. The County Jail was reported to be in compliance to the State Jail Standards bock. This was passed as a Commission as of March 9. It Resolution. It was stated will be inspected on Thursthat the Department could not serve this area nearly so well from Lubbock. day, March 12 by personnel from the Commission, and a report will be forthcoming. Judge Bailey, the Commis-sioners and Sheriff Don Underwood will meet with

# 4-H Petting Zoo To Be Held March 19

Don't forget to bring the kids out to the 4-H Petting Zoo on Thursday, March 19 at the Eastland County Livestock Show. Baby farm animals will be on display for children to see and

The petting zoo is being sponsored by the 4-H Junior Leader's Association. 4-Hers will conduct tours through the zoo between 9 a.m. and 6

p.m. on Thursday, March

If you are interested in bringing a group of children to the zoo, contact Mrs. Janet Thomas, County Extension Agent - Home Economics, at 629-2222. We will be happy to set up a tour time.

The Petting Zoo being sponsored by the 4-Hers is free for everyone's enjoy-

Ted Kirby, roadway maintenance supervisor in Eastland County, Department of Highways and Public Transportation, shows new sloped end attachment that will be used in the future on private access driveways.

# **State Offers Culvert End Treatment**

A new culvert end treatment that will provide greater safety for Texas motorists will be required in the future on all access driveway entrances to state maintained highways.

Consisting of a length of pipe cut diagonally on a 6-1 slope, this safety end treat-ment has proved effective in reducing the likelihood of injury or damage in case of an accident. An out-of-control vehicle will run right over the new slope culvert end, rather than come to a jolting

stop on impact. According to Roadway Maintenance Supervisor Ted Kirby of the Eastland office of the Department of Highways and Public Transportation, the innovative safety end treatments will be required on all access driveway entrances constructed after March 20, 1987.

In the past, the depart-

ment has installed access driveways for landowners provided they furnish the materials. That policy will be continued in District 23 with the added requirement that the owner provides the safety end treatment.

Kirby encourages landowners with existing driveways to install the safety end treatment. Since a permit is required for either new entrances or modifying an existing entrance, Kirby says that his office will process the permits in the order they are requested and install the safety end treatments as the work load

Anyone wishing to have the new safety end treatments installed or needing an access driveway may call Kirby at the Maintenance Section of the Eastland Highway Department office.

# PROPERTY TAX RENDITIONS

# PROTECT YOUR RIGHTS AS A TAXPAYER

A rendition is a report to the appraisal district that lists all the taxable property you own or control on January 1, 1987. You may also give your opinion of the property's value, if you wish.

You must file a rendition if you own tangible personal property used to produce income-such as the machinery and equipment used by a business.

The appraisal district may require any taxpayer to file a rendition by sending the taxpayer a written notice and a rendition form.

You may want to file a

rendition, even if you aren't required to file, to preserve some of your rights as a taxpayer: You put your correct mailing address on record so your tax bills will go to the right address. If your bill is mailed to the wrong address, the law still holds you responsible for paying your taxes on time or paying extra charges

for late payments. You can put your own opinion of your property's value on

EASTLAND COUNTY APPRAISAL DISTRICT 2nd Flow Eastland County Courthouse P.O. Box 914 Eastland, Texas 76448 629-8597

record. If the appraisal district then places a higher value on your property, it must notify you in writing of the higher value and explain how you can protest that value to the appraisal review board.

 By filing a special type of rendition called a report of decreased value, you can notify the appraisal district of significant damage to your property that occurred in 1986, The district will send someone to verify the damage and take it into account when assigning a 1987 value to your property.

File renditions with your local appraisal district at the address shown below. Forms are available there.

The deadline for 1967 renditions is March 31. You can get an extra 30 days if you ask for it in writing before the March 31 deadline.

TECHSONIC ANNOUNCES HUMMINBIRD SPORTS TEAM

marked for coastal law en-

forcement.

Leesburg-Fl.-Techsonic Industries, Inc., maker of the number one Humminbird Depth Sounder, today announced the creation of the Humminbird Sports Team and named two of America's top professional anglers an a PGA Tour golfer as the charter members. Jimmy Houston, Hank Parker and Bobby Wadkins were named to kick off the Humminbird Sports Team at a press reception here in conjunction with the **BASSMASTERS Megabucks** II tournament

Jimmy and Hank will receive their own luxury custom Humminbird vans and custom-made trailers to haul a specially-designed Ranger boat from tourna-ment to tournament. Bobby will receive his own Ran boat for his pleasure fishing when he is not competing on the golf course.

A complete line of Humminbird Sports Team clothing has been designed for Jimmy and Hank to wear Humminbird trousers, hirts, jackets and even ra-ngear. Bobby will sport his hirts to complement inbird golf bag.

H.M. Cade, Dec'd To The Public C/C
Most assuredly, I (Jesus) say to you, h

Most assuredly, I (Jesus) say to you, he who hears My Word and believes in Him who sent Me has everlasting life, and shall not come into judgment, but has passed from death into life. And this is the testimony: that God has given us eternal life, and this life is in His Son! For the wages of sin is death, but the gift of God is eternal life in Christ Jesus our Lord.

Since Christ was raised from the dead. He dies no more. Death no longer has dominion over Him. For the law of the Spirit of life in Christ Jesus has made us free from the law of sin and death. Now to be carnally minded is death, but to be spiritually minded is life and peace. So when this corruptible body has put on incorruption, and this mortal body has put on immortality, then shall be brought to pass the saying that is written: "Death is swallowed up in victory!" "O death, where is your sting? O hell, where is your victory?"

CofC officials report that visitors at the Hilton Community Center were more numerous than usual during the past week. A good many out-of-state visitors toured the restored Mobley Hotel.

MRS. ALLEN (Betty) McGinness of our town had a busy week. She took their son Mark and three of his buddies - Jason Phillips, Teddy Patton and Kevin Kirk - in the family station wagon to Ruidoso, New Mexico, for a snow skiing vaca-

On Thursday, Mrs. McGin-ness drove to El Paso and boarded an airliner to Houston to attend a meeting as president of the Ladies Auxiliary of the Texas Dental Association. After the noon meeting, she went to the Houston airport and flew back to El Paso, climbed into the station wagon and was in Ruidoso in time for supper with the boys.

Daughter Amanda McGinness went snow skiing with a group of First United Methodist Church young people. And Dr. McGinness stayed home to stoke the home fires. Mrs. McG and the boys got home Friday

VISITING IN Cisco from Fort Worth several days this past week were the Novell Barnhills and the Carroll Barnhills. They took their mother, Mrs. Mary Barnhill, who lives in the nursing home here, out for a birthday lunch on Thursday. Mary Barnhill was 96 years old and it was a nice gathering of relatives and friends.

Novell Barnhill is a retired Dynamics General employee and has lived in Fort Worth 45 years, having moved there from Cisco. After school, he spent several years as a professional baseball player. Carroll, of course, is a retired Navy veteran of WWII who spent several days teaching in the Fort Worth schools. The Carroll Barnhills are frequent visitors in Cisco. He told us that he was seeing about the May reunion of his CHS class of 1940. The Class of 1937 and some other classes are also planning reunions in May - during the annual Folklife Festival.

Mrs. Idella Taylor is the daughter and sister of the Barnhills mentioned above.

THE CITY of Cisco is close to finalizing a contract with Mr. Curt Covert to take over

operations of the municipal airport, reports City Manager Mike Moore. They've been working on details of a contract for the

past month or so.
Mr. Covert operates a business in Dallas and commutes to his office and back almost daily in his private plane. They live on their ranch north of town.

DR. DUANE Hale of Norman, Okla., spent several days this past week visiting his mother, Mrs. Oleta Hale, and friends and relatives here. He is with the government's Bureau of Indian Affairs and concerns himself with work in preserving the traditions and history of the various Indian tribes over the country.

In his work, Dr. Hale travels quite a lot, flying here and there to conduct seminars and meet with Indian tribes. He is the author of a couple of books about the Indians of North America. He is a former CHS and Abilene Christian University football star.

While here, Dr. Hale and his old CHS quarterback, Mr. Delburt Schaefer, were taken to a place north of town by Mr. Eddie McMillan to see a large stone with the date 1744 chiseled in it. They inspected the area for artifacts, made pictures and enjoyed themselves.

During his stay here, Dr. Hale visited Abilene on business and had business with a publisher in Fort

BACK HOME AFTER a delightful vacation out west are the Sterling Drumwrights. They drove out to California, going the southern route to San Diego. In the mountains before arriving in San Diego, the Drumwrights ran into a snowstorm that was like in the olden days.

Their son Chip and two sons John and Chris joined the Drumwrights in San Diego and they enjoyed vacationing on the beaches. And they drove south into Lower California and spent several days seeing the sights and more beaches.

when they home, the Drumwrights drove north in California to Monterrey and then through the desert where they encountered something unusual - a lot of rain. It was a delightful and interesting vacation, they report.

Extension Agent Crystal Wilbanks reminds all 4-H Junior Leaders that the petting zoo will be set up Sunday afternoon at 3:00 p.m. Other 4-H members who are interested in helping are also encouraged to be present Sunday afternoon. Help is desperately needed to set the zoo up and clean the county show grounds according to Wilbanks.

The event of the year is happening for area 4-H members next week! You

guessed it, the annual Eastland County Livestock Show is starting next Tuesday. Approximately 450 head of animals will be shown by Eastland county youth. A lot of time, effort, money and dedication has gone into preparing these animals for show. The stock show will culminate lots of hard work put forth by students having an animal project. Everyone is invited to attend and support the Eastland county youth during the Eastland County Stock Show. The schedule of events is as follows:

OLD DESDEMONA-Thelma, Minnie Bell, and Mitch Bailey on their old home place near Desdemona in 1904.

BY MAX BAILEY

4405 89th St. Lubbock, Texas 79424 In 1876, James Henry

Woodard, a veteran of the civil war, and his young wife, Elizabeth Catherine Culp Woodard, with their three young sons, Bill, John and Bob, searching for a life better than they had in Clark County, Arkansas, came to Texas and settled on a small farm about three miles north of the village of Desdemona in Eastland County. They later became my grandparents.

that area at that time. In 1880 Desdemona had twentythree families.

A few years later they moved and in 1886 bought from J.S. Dickey 160 acres about 1/2 mile east of Desdemona on the Stephenville road. This was to become the old home place.

Besides the three boys who, were born in Arkansas, nine more children, seven boys and two girls, were born to this couple, two of whom died as infants.

Among these children was my mother, Minnie Bell, who was born in 1882, and like all of her brothers and sister

grew up on the old home place. In 1901 she married my father, Mitch Bailey. who had come to Texas with his widowed mother, four

brothers and one sister from Georgia in 1885 and had settled just across the county line in Erath County near the village of Armstrong.

My father was a small time rancher and cattle trader, around Eastland and Erath Counties and especially around Desdemona, all of

During the Oil Boom in Desdemona, in 1919 and the early twenties, the old home place was in the area of production and at one time there were thirteen producing wells. It still, at this time, almost seventy years later, still produces oil from several wells. It would be interesting to know how much oil has been produced from this 160 acre lease. I know the Woodard No. 1 came in at 1500 barrels a day.

During the boom my mother ran a rooming and boarding house built on the southwest corner of the old home place. It was named the Twin Oaks Hotel because there were two large oak trees in the middle of the road in front of the house.

The house was a two story, box type, shotgun building with rooms upstairs and living quarters, lobby, kitchen and dining room downstairs. Most of the roomers were drilling contractors, drillers and tool dressers from the rigs. One roomer I have heard my mother speak of often and he stayed there for quite some time, was a man named Myron Kinley. At that time Mr. Kinley was experimenting and perfecting a method of extinguishing oil well fires of which there were many in those days. That method that he perfected is still in use today and one of Mr. Kinley's proteges who still uses it is the famous oil well fighter, Red Adair. This house was my birthplace on January 9,

In my family there were two girls, Thelma, who was born in 1902, Lucille, who was born in 1907 and died in 1923, and two boys, Rex who was born in 1912 and died in 1973 and myself, Max, born

Spring auditions for the Wrangler Belles at Cisco Junior College have been set

in 1924. All of us were born, grew up and went to school in Desdemona. I graduated from Desdemona High School in 1941 and left shortv after that. All of the Woodard children left the area over the years.

My father died in 1959 and my mother in 1962. My brother Rex wound up owning all of the old home place by buying out all of the heirs over a long period of time. He lived there until he sold it in 1964 and moved to Brownwood.

This ended an era that lasted almost a century. Today none of the Woodards or Baileys live near Desdemona, having scattered all over the country, as have so many of the other families whose roots are deep in Eastland County.

I still go back several times a year because I still have many old and dear friends there Desdemona is still my home

### Scott Fund Established In Cisco

A fund has been started at First National Bank in Cisco for Dorothy Scott, long time Cisco resident, who recently spent five weeks in the hospital due to heart failure and lung disease.

She is home now but medical and other bills are still mounting, and Mrs. Scott would appreciate any help given her. Due to a dependence on oxygen, she is unable to work. She would also like to thank everyone for prayers and help that have already been given.

In today's article, I will preparing to become pregnant. Obviously, the decision to become pregnant is one of the most important one will ever make. It will have a definite and enduring impact on one's life, Just ask any mother! Because of this pregnancy should be plann ahead for a vacation, for buying a house or for marriage. It will be a physical, emotional, and financial strain on any couple. Complications are greater for age of thirty-live and for those who have already had several children. Children seem to fare best when they are born into a family with both a mother and father and resources. A number of pressure, epilepsy and heart disease. These illnesses

A woman should be immune to the German Measles prior to conception. as this infection in early pregnancy can cause birth defects. If uncertain, ask your physician to check your immunity by a simple blood test and take the vaccine if not immune. The vaccine is a live virus and cannot be taken during pregnancy.

Smoking is deleterious to a fetus. It causes babies to be smaller, increases the risk of miscarriage as well as other complications of pregnancy, especially bleeding and premature labor. Alcohol should also be discontinued. Any dental problems should be attended to, as they may progress more rapidly during pregnancy.

Once a couple has decided to get pregnant, the first step is obviously to discontinue birth control. If a woman is using oral contraceptives (pills), it is probably best to use another method, such as the diaphragm, foam and condoms or sponge, for a month or so, until another period occurs so that a due date can be accurately arrived at.

The woman should keep accurate records of her menstrual periods, as this allows the physician to determine the expected date of delivery. The physician will usually want to know what the first day of the last menstrual period was and if the periods have been regular. If you miss a period and experience some of the signs of early pregnancy, for example - nausea, breast enlargement tenderness, see your physi

### By DeMarquis Gordon, County Agent-

While meeting with the Eastland County Commissioners Court on February 23, I was asked by some members of the court to check on the facilities where the county officials' conferences are held at College Station. They were concerned that the hotel and meeting rooms were not accessible to handicapped persons. Several years ago some of the conference headquarters were not adequately equipped for the handicapped.

I contacted Mr. John Gilmartin, Extension Coordinator for the Institute of County Government to ask about the facilities. I was happy to learn that the facilities are most handicap accessible, unlike the facilities of several years

For the last two years the county judges and commissioners' conference and the clerk's and tax assessorcollectors' seminars have been held a the new College Station Hilton and Conference Center. The Hilton is also the conference headquarters for the county treasurers.

There are ramps at all entrances to the hotel. The hotel has 15 special handicap accessible rooms. Those are located on the ground and se-

cond floor of the hotel. In those rooms, the toilets are elevated. There are proper hand rails by the commode, in the bathtub/showers and by the beds. There has never been a shortage of these rooms since the hotel open-

There is a split-level from the lobby/restaurant areas to the meeting rooms. There is a ramp with railing by the gift shop which would require persons in wheel chairs to go a few feet away from the direct path of travel.

All parts of Eastland County received abundant rainfall during the fall and early. winter months. The excellent soil moisture in combination with a relatively mild winter could mean a heavy weed infestation on rangeland in 1987. Many weeds have germinated and are now present in the rosette stage. Landowners should check rangeland for weed infestation.

There are several herbicides on the market that do a good job controlling weeds. Some of these herbicides are 2.4-D: Weemaster, which is a 1:2 mixture of dicamba and 2,4-D; and Grazon P+D, which is a 1:4 mixture of

picloram and 2,4-D. Most ranchers recognize

that a dense infestation of weeds will significantly reduce production of grass on rangeland and delay improvement in grass cover. Generally, 8 or more weed plans per square yard can cause a reduction in grass production. Loss in production comes as a result of competition for soil moisture and shading effect of weeds

on grass plants.

To document benefits of weed control, recent efforts have been made to obtain or increased grass production resulting from weed control with herbicides. We had a demonstration here in Eastland County in 1986 on a Kleingrass field. Several plots were sprayed with various herbicides. Data obtained from each plot were averaged for all herbicide treatments because excellent control was provided by each herbicide. Small plots were clipped, grass and weeds separated and weighed. These weights were converted to acre yields. The treated plots averaged producing 6532 pounds of grass and 41 pounds of weeds per acre. The unsprayed plots averaged 3150 pounds of grass and 450 pounds of

This is an increase of 3382 pounds of grass per acre on treated plots. An increase in grass production of 750 pounds per acre per year will pay a herbicide treatment. In addition to increased grass production available during the year of treatment, improvement of

the grass cover will provide benefits for several years after treatment.

RISING STAR The annual Chamber of Commerce and Agriculture Awards Banquet will be Thursday, March 26, 7:30 p.m. at the Activity Center of First Baptist Church. Speaker for the event will be Jim Wright, Judge of the 91st District Court. Awards will be presented to Rising Star's outstanding farmer, business person, for community service and to a senior citizen. Outstanding students will be recognized, and Miss Rising Star will be crowned. The steak dinner will be catered by the Journalism Class, Annual Staff and RSTV Staff. Tickets are \$7 each, and all interested persons from this area are encouraged to attend.

Three Rising Star businesses were burglarized last Sunday night, adding to the total of recent thefts in the area. Gene Hicks, Constable of Pct. 3, suggested that Rising Star citizens form a Neighborhood Watch. He urged people to write down license plate numbers of vehicles that are considered suspicious. Pioneer and Cross Plains have also had recent burglaries, so the problem is widespread. A number of Rising Star citizens have also complained of prowlers at night during the past few months.

REFRIGERATOR: Buying a refrigerator is a major investment. It pays to shop around and compare the Energy Guide Labels that Federal Law requires to be placed on all new refrigerators,

refrigerator/freezers, and freezers. The labels provide specific information on yearly energy costs, as well as a comparison of that particular model with all similar models.

Side-by-side refrigerator/freezers typically use about 35 percent more energy than models with the freezer on top, which means new sideby-side models typically cost \$30 more to run each year. Manual defrost models typically use about half as much electricity as automatic defrost models. However, there are exceptions to these rules, so it pays to check Energy Guide Labels

If you are thinking of buying a second refrigerator, think again. It is generally much less expensive to buy and operate a big refrigerator then two smaller refrigerators. If the extra refrigerator is an old refrigerator, it is likely to be an energy guzzler. If you only need a second refrigerator a few days a year, it makes sense to turn it off when it's

average refrigerator/freezer built today uses 34 percent less energy than the average 1972 model. Still, in most size classes, the most inefficient refrigerator/freezer on the

market uses approximately 50 percent more energy than most efficient refrigerator/freezer on today's market. CHOOSING A FREEZER:

Most freezers need to be defrosted manually, although automatic defrost models are available. Automatic defrost models typically consume about 40 percent more electricity than equivalent size and style manual defrost models.

Chest freezers are typically 10 to 15 percent more efficient than upright freezers because they are better in-sulated and because old air doens't spill out when chest freezers are opened.

Again, the Energy Guide Labels will help you select an efficient model.

RECIPE FOR THE WEEK: On a busy morning, treat your family to these delicious refrigerator muffins which keep up to 5 weeks in the refrigerator. They're convenient and easy! SURPRISE

will be appreciated. The Cisco Senior Citizens

Band and Flo Clark and her Gospel Singers entertained us last week. They were terrific as usual.

We want to welcome a new resident this week, Molly Medford. She is a local lady and I'm sure she would enjoy her friends dropping by.

Family and friends would be welcome to enjoy a St. Patrick's Day lunch with their loved ones. Edie is fixing Irish Stew and cornbread with cookies made by some of our residents.

Remember, volunteers are always needed.

See you next week. **Marilyn Thomas Activity Director**  p.m. in the Eastland County Courthouse at the Extension Service Office, Basement.

Different types of collars will be shown with tips on patterns for making them economically. Collars are a beautiful way to accessorize your spring and summer wardrobe.

The collar program was presented on March 10 with over 90 women attending the noon and afternoon program presentations. This has been a very popular program states Mrs. Thomas. Clubs and organizations that would like to request this program in Eastland County are invited to contact Mrs. Thomas at 629-2222.

Women attending these programs will also be supplied information on Extension Homemaker Club purposes and programs. New Extension Homemaker Clubs will be organized if there is interest. Persons wishing to join a club are invited to contact Mrs. Thomas.

MRS. DANNY HARDIMAN

Mary Elaine Moore and Danny Franklin Hardiman were united in marriage on February 14, 1987, at 6 p.m., in the Tarrytown United Methodist Church in Austin, Texas. The Rev. Harold Sassman, minister of the Tarrytown United Methodist Church, performed the

ceremony. Serving as the bride's maids of honor were Suzanne Moore, sister of the bride from Austin and Sherry Stuart of Austin.

Serving bridesmaids were Lori Skinner of Austin, Vikki Young of Nacogdoches, Lisa Hardiman, sister of the groom of Lubbock, Laurie Robbins of Lubbock and Laurie Clendenin of Lubbock.

The groom's best man was Robert Hardiman, his father.

The groomsmen were David Hardiman, brother of the groom from Lubbock, Kevin Hardiman, brother of the groom from Dallas, Chuck Smart of Tyler, Scott Clouse of Lubbock, Jimmy Jinks of Tyler and Richard

Kratve of Tyler. The Ring Bearer was Christopher Harrison of Houston.

A reception was given for the couple by the bride's parents at The Austin Club following the ceremony.

The bride is the daughter of Mr. and Mrs. Richard Moore of Austin, former Cisco residents. She has attended L.C. Anderson High School in Austin and Texas Tech University in Lubbock. Her maternal grandmother is Mrs. Charlie Ben Cagle of Cisco. Her paternal grandmother is Mrs. James Moore of Abilene, formerly of
