## Cisco Civic League Sponsored Art Contest For Students

Cisco Civic League sponsored the annual Pioneer Themed Art Contest this year. The students at Cisco's Elementary School participated in the contest at all grade levels.

Mrs. Sheila Johnson, a third grade teacher at the school, organized the entries as to grade level and where the entries placed.

Each class at each grade level was allowed one first place winner, one second place winner and two honorable mentions. Although a few classes had ties at some levels, a total of

109 prizes was awarded to students in the 1st, 2nd, and honorable mention categories.

The First and Second Place poster winners received a ribbon plus tokens for use at the Folklife Festival. Ribbons were given to all honorable mention.

The winning posters will be displayed in the main office building at the Rockwell Lumber Yard during the Folklife Festival. That building will be easy to locate as it will also be bread making headquarters which will definitely give it the

wonderful aroma of homemade bread and cinnamon rolls.

Civic League extends congratulations to all winners of the poster contest and a big thank you to all of the children who entered the contest.

This reporter was delightfully surprised to discover the evidence of so many talented artists among our school children.

See you at Folklife!!!

### Wanda's Corner

by Wanda Hallmark

Yvonne McMillian was scheduled to be a guest on the Mid-Day With Laurie program on KRBC-TV, Wednesday at 12:15 p.m. She was going to talk about the Cisco Folklife Festival. The Festival will be held on Saturday and Sunday, May 2 and 3.

Each year the Festival gets better and it's a must to attend it this year.

The Cisco High School Band will be traveling to Corpus Christi this Friday for their band trip. They will be marching and playing in a parade that will be held there on Saturday.

The parade route will be a total length of six miles. I'm sure the weather will be nice and warm and they students will have to wear their band uniform. But it won't be anything for such students as the ones who won the Sweepstakes Trophy this year at contest.

Red Jacobs and Mildred Pharr said that they received about three inches of golf ball size hail on Monday, April 20 on their property located north of Cisco on Lake Bernie road.

Mr. Jacobs said that tree limbs were knocked down and a there was a lot of damage to his roof. Another lady who lives on Lake Bernie road also reported having golf ball size hail on her place.

So the reports that we had about large hail in this area

during the last few days were true.

Bill Austin of Austin's Furniture in Cisco and Glenda Young are the only two actors in the upcoming play "I Do, I Do" that will be presented during the last week in May and the first week in June. Then Glenda, who Bill says is an excellent actress, will be in the play "Foxfire" that will be directed by Cisco's own Mary McGrew. Glenda will be the director for Bill in "The Fantastics" a play that will be presented in July and August.

Bill said he has been in the play "I Do, I Do" before and he is looking forward to presenting this play again.

Banditos has moved from 909 Conrad Hilton to 808 East 8th Street. Laurie Arnold, manager at Banditos will be the assistant manager at Burger and Pizza Factory. They will be serving the same delicious mexican food dishes plus delicious pizza and burgers and several other meals.

Debbie Townsend will be the manager there. So be sure and stop by there when you're hungry.

Janelle Shrader enjoys "Circus Time" each morning. Looking out her patio doors she can see Jeremy Rhodes' dog, Freckles, jump up on a chain and then onto Jeremy's trampoline to play. Jeremy is the son of Ron and Nancy Rhodes.

## Cisco Elementary School Accepts Check

MRS. BERNICE CARTER of First Industrial Arts Club was presenting a \$50.00 check to Cisco Elementary School Principal Robert Lindsey when the above picture was made. The club annually makes a donation, which can be used as needed, to the school library. In accepting the donation, Mr. Lindsey expressed the school's ap-

preciation for the check, and said, "With a new library to furnish, we can certainly put the \$50.00 to good use." Shown in the picture are Olivia Zarate, school librarian, Mr. Lindsey, Mrs. Muri Guyger, Mrs. Sue Taylor, Mrs. Carter, and Mrs. Velma Williams. (Staff Photo)

## Lights From The Christian World

By Josephine Cleveland

Centuries ago Moses said, "Be sure your sin will find you out." He was speaking of a particular sin, the refusal to wholly follow the Lord. David Wilkerson wrote, "There are many sins that go unexposed here on earth. They will be revealed only at the Judgement." Paul said, "In that day when God shall judge the secrets of man by Jesus Christ according to my gospel..." (Romans 2:16).

A person may hide his sin until Judgement Day. A thief may cover up his crimes and not get caught in this life. Evil thoughts may remain unexposed before men. Hypocrisy may hide under the pretense of piety, but the sin of living this way will always find you out.

The voice of history speaks today and gives us the account of Israel and two-and-a-half tribes of Israel who choose to live on middle ground. The Lord commanded Israel, "For ye shall pass over Jordan to go in to possess the land which the Lord your God giveth you..." (Deut. 11:31). He promised them, "And if ye shall hearken diligently unto my commandments which I command you this day, to love the Lord your God and to serve Him with all your heart and soul...then I will give you the rain of your land in due season..." (Deut. 11:13-14).

Two crossings were necessary to get to the promise land. The crossing of the Red Sea was a type of leaving Egypt and its idols behind—a conversion experience, and the second crossing was the Jordan River which represents dying out to self.

Between the crossings was the territory of Gilead and Jazer which bordered Jordan and Caanan. It was a place of half-surrender and was totally indefensible. It was a dangerous place to live and was surrounded by enemies. It was not the place where God told His people to live.

Two-and-a-half tribes felt most comfortable with this middle ground. It were as if they said, "This is as far as

we want to go! This suits our lifestyle. Let the rest go on—we are going to settle here."

Although this account is about the struggles of Israel, these lessons, Paul said, "Were examples to the intent that we should not just after evil things, as they lusted..." (I Cor. 10:6).

Parical obedience to Christ Jesus ends tragically. Scriptures show us vividly how their sin of settling on middle ground found them out. These two-and-a-half tribes were overcome by the enemy and they ended up more wicked than when in Egypt.

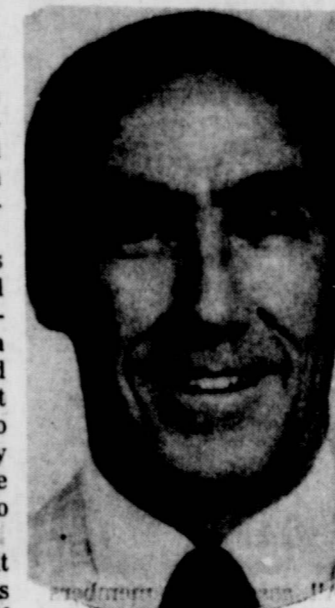

"Take heed to yourselves, that your heart be not deceived, and ye turn aside." (Deut. 11:16).

## High School Students

### May Enroll In Acting

Due to a new rule passed by the University Interscholastic League (UIL), high school drama students are eligible to enroll in college acting courses. They are also eligible to receive drama scholarships without forfeiting their UIL eligibility. This means that any high school student wishing to take part in Cisco Junior College's Summer Dinner Theatre program may enroll in summer theatre classes and still take part in high school competition next year.

Carol Brown, drama instructor at Cisco Junior College, urges students to take advantage of this unique opportunity - of working with professionals in the produc-

tion of "I Do, I Do" and "The Fantasticks" (two musicals by Tom Jones and Harvey Schmidt) and "Foxfire" by Hume Cronyn.

The classes being offered include: Acting I and II (acting for the beginning student), Introduction of Technical Theatre (the technical aspects of producing a play), and Rehearsal and Performance (two hours of college credit for working with the summer productions).

Inquiries should be made by May 15 by writing Carol Brown at the Cisco Junior College Drama Department, Cisco, Texas 76437, or by calling (817) 442-2567 during business hours or 442-2589 after 4 p.m.

### Many Have Given Their Time

## Thanks Is Given To All Weekend Volunteers

The committee of the weekend volunteers of the Hilton Community Center wishes to express its appreciation to the many people who have given of their time to keep the Hilton Community Center open on the weekends.

Since this volunteer program was started in October 1986, the building has been opened every weekend except one, which was due to bad weather. The records show that over 1,000 guests have been hosted through

the building since its dedication.

Special thanks go to the following organizations for keeping the Hilton open on the weekends:

AARP, First Methodist Church, Redeemer Lutheran Church, First Presbyterian Church, Church of Christ, First Industrial Arts Club, First Baptist Church, Holy Rosary Catholic Church, Delta Kappa Gamma, East Cisco Baptist Church, Twentieth Century Club, Mitchell Baptist Church, Corinth Baptist Church, The Writers Club, Calvary Baptist Church, Cisco Service Club, First Christian Church, National Honor Society, Eastern Star, Cisco High School Student Council.

## Letter To A Best Friend

TO SUGAR:

To my pal and woman's best friend!

You were always there for me—no matter what—never begging or fussy—just loving me for what I was—not expecting any more than just me!

Remember our good times of going to Dairy Queen and

getting ice cream together? You rode on the front seat of the car and held your head up looking at everything and everyone. You were a big girl! Felt like you owned the world!

I had to get out of the house today so I went to wash and I talked to this lady about you and how special you were! As we continued to talk, we decided humans should become like you.

Only the Lord knows a person's heart and why they do certain things, so like you, Sugar, we should accept people as they are. We shouldn't judge another person, for we don't know what's really in their heart or why they do certain things. Only God knows!

To my Sugar, miniature border collier, 12 years of love and devotion, from your friend.

# Fishing Outdoors

Terry L. Wilson

## "Mepps Fishing Guide"

The "Operation Share a Lone Star Lunger" program paid its first dividends Thursday when a 13-pound largemouth bass laid about 10,000 eggs.

The fish is one of seven 13-pound-plus bass being held in tanks at the Texas Parks and Wildlife Department's Tyler Fish Hatchery. All seven were donated by anglers who will receive fiberglass replicas of the big fish. Corporate sponsors Cajun Boats, Lone Star Brewery and Jungle Labs will pay for the replicas.

Hatchery Superintendent David Campbell said the spawning female was caught from Lake Fairfield by Darrell Gadberry of Ennis during January. The fish was paired a week ago with a Florida-strain male bass weighing about two and a half pounds. The eggs are expected to hatch in five to seven days, and shortly afterward the fry will be stocked in a rearing pond.

"We will raise part of the offspring for our brood stock program and some of them probably will be stocked at Lake Fairfield," Campbell said.

Bill Rutledge, chief of the department's hatchery system said the big fish's spawning was encouraging for two reasons. "First, it may tell us of the offspring of an extremely large bass will have the genetic tendency for growth. Also, it proves that 13-pound-plus bass indeed can and do spawn, something no one knew for sure before," said Rutledge. "This underscores the importance of catch-and-release, since releasing a big fish not only gives someone else the opportunity to catch it; it also puts a quality brood fish back into the population."

Anglers have until May 1 to participate in the lunger program. Anyone catching 13-pound-plus bass and keeping it alive and in good condition should call the Tyler Hatchery at (214) 592-7570, or the Austin toll-free number, 1-800-792-1112 during office hours, or (512) 389-4848 after hours or on weekends.

Mepps, a leader in fishing tackle for years has put together some old friends and a few new ones in their 1986 Mepps Fishing Guide. Such as Kathy Magers, 1983 Women's Classic Champion of the Texas Bass Assoc. And constantly in the top finishers of the Bass N'Gals national circuit. Kathy speaks in depth on bass fishing in this guide and gives some fishing tips on boat house excelling.

You say fishing your game, read Ray Hansen's interview. Ray has written a helpful booklet called "Favorite Panfish Secrets."

And of course the Smallmouth Tactics by Mepps on Shep (T. Layton Sheppard) is a must when you pick up your 1986 Mepps fishing guide.

But that's just the beginning. This booklet also includes a full line of those Mepps spinners, the ones we all grew up on and some new exciting introductions. So order your 1986 Mepps fishing guide now. By writing Mepp's Sheldon's Inc. Antio, Wisc. 54409-2496.

music of laughter, the warmth of friendship and the spirit of caring love.

The twenty-six guests honoring Sharon all agree that Sharon Davis is the "Light of Life" and a "Window to the Public".

The park is in need of benches, tables and chairs, and the Industrial Arts Dept. at the school will build them if the Chamber will furnish the materials. ## Annual Breckenridge Air Show To Be May 24

The 10th Annual Breckenridge Air Show is about ready to take off. This annual Memorial Day Weekend event which features upwards of 140 vintage Warbird Aircraft has truly become a nationwide recognized tradition.

The skies near Breckenridge will be filled with the sights, sounds and all of the excitement of aerial demonstrations and aviation history when the air show takes to the air on Sunday, May 24. The show will be held at the Stephens County Airport which is approximately two miles south of Breckenridge on U. S. Highway 183.

Planners of the 1987 show are expecting approximately 150 World War II, Korea and Vietnam era Warbird Aircraft. There will also be hundreds of other regular, and possibly some experimental, aircraft.

The airport will open Saturday, May 23, for static displays and tours of the Breckenridge Aviation Museum. Saturday admission is \$3.00 per person for everyone five years of age or older.

The airport will open at 9 a.m. Sunday, May 24, and admission will be \$5.00 for adults, \$3.00 for children under 12 with those under 5

admitted free. Show officials are encouraging spectators to come as early as possible in order to avoid long lines in getting into the parking area. Although the Air Show itself does not start until 1 p.m. with the fly-overs of current military aircraft and the main show will not begin until 2 p.m., it sometimes takes a while to get through the gates and into the parking areas.

The main event of the 10th Annual Air Show will feature a reenactment of the air battle depicted in the movie "Tora, Tora, Tora."

Ed Sealy, General Chairman of the Breckenridge Chamber of Commerce 1987 Air Show Committee, stated recently, "The Breckenridge Air Show will be a great adventure and tremendously exciting event for young and old alike as they experience all of the thrills of the aerobatics and reenactments of air battles by one of the largest gatherings of Warbirds since the end of World War II."

For advance ticket purchases make checks payable to Breckenridge Air Show and mail to PO Box 1466, Breckenridge, Tx. 76024, or tickets may be picked up at the Breckenridge Chamber of Commerce, 112 West Walker Street.

## Election Of Member To District 5 Will Be May 5

The regular election of a member to the Texas State Soil and Water Conservation Board to represent State District Five is scheduled for May 5, in the Stephenville High School Auditorium, Stephenville, Texas. The election will begin at 6:00 p.m.

The Texas State Soil and Water Conservation Board, an agency of government, was created in 1939. Unlike many state agencies and commissions whose policy making bodies are gubernatorial appointees, the State Board consists of five elected members.

State Board members are elected in a convention type election by delegates from soil and water conservation districts within the state district the member is to represent. Qualified delegates voting in the election must be an eligible voter of the conservation district and actively engaged in farming or ranching. Each soil and water conservation district in State District Five selects one delegate to attend the election.

State Board members serve two year terms and represent one of five State Districts. Each member must own agricultural land and be actively engaged in

farming or ranching. Hermon L. Petty of Mineral Wells currently represents State District Five on the Texas State Soil and Water Conservation Board.

State District Five which consists of 51 counties in the central to north central region of the state has 38 soil and water conservation districts within its boundary. Collectively, Texas has 206 SWCDs within its statutory five state districts.

The Texas State Soil and Water Conservation Board's chief responsibility is to coordinate the programs of Texas' soil and water conservation districts and to render whatever assistance is necessary to help districts develop and carry out their conservation programs.

## Rural Residents Can Get Guaranteed Business Loans

Authority is available to guarantee loans for Texas rural residents for use in creating new business or expanding existing enterprises. J. Lynn Futch, FmHA State Director, said today.

"Although the Farmers Home Administration guarantees a loan made by a commercial lender, we are interested in the economic health of our rural communities and welcome inquiries about this program," Futch said. "Our business and industry program was created primarily to provide jobs in rural communities and towns up to 50,000 in population."

"There may be many peo-

ple in rural areas of Texas who are not familiar with the opportunities available under the B&I program, especially the fact that we can guarantee loans for a variety of sizes of businesses, including family-sized enterprises," he added.

"We are especially interested in anything we can do to help improve job opportunities for farmers who are trying to find new occupations."

Mr. Futch said information about the program can be obtained from the FmHA office located at 1309 East Main, Eastland, telephone 817-629-8508.

COW CHIP THROWING contest winners at the CJC Ranch Day were Tia Rosser and Dondi Harris.

## Reader Writes About Purple Martins

I read in *Gnus You Can Use* article recently in the *Coleman Democrat* about a bird decline which I found very interesting. My question is, "Where are all the purple martins?" We have had a house up for years, and a few martins occupy it.

This year we put up another nice martin house. Both houses are up now in a spacious area away from trees or wires.

We waited until March 20th to raise the house and finally a couple of martins occupied it. I'd like to know when they are supposed to arrive in my area? Has something happened to martin populations? Are too many people trying to attract them?

*Felicia Colman, Coleman, Tx.*  
I checked with an expert on martins, my 77-year-old grandmother who has been successfully attracting martins for almost 20 years in Rusk, Tx. She and I agree that you were a little late in getting your box up this year to get martins.

"The box should be up by mid-February so the early scouts can check it out," said Mae Anderson. "They'll look it over for three or four days without ever landing on the house or going inside."

The scouts will disappear for a

week or so, and return with the rest of the group.

Martins will co-exist in a large apartment house with a few English sparrows and starlings, but not too many. Ideally, you should take your martin house down each year to keep sparrows and starlings from taking over.

Every two years, Mrs. Anderson takes her box down for a thorough 'house-cleaning.' Sparrows can be sloppy housekeepers if they've occupied the box.

While martins do not like their houses around trees, they enjoy being around wires and power lines, said Ray Sutton, wildlife manager of the International Wildlife Park in Grand Prairie. "It's a place for them to gather socially to get out of the house," he quipped.

Martins rarely take advantage of bird seed offerings because they thrive on mosquitoes. However, they enjoy bird baths, and will splash and drink sometimes with other birds.

"I have to clean my bird bath daily," said Mrs. Anderson, "but it's worth it. They are such a joy!"

If you have a question about wildlife you would like to see answered in this space, write to GNUS YOU CAN USE, c/o Wilette Parkway, Grand Prairie, Tx. 75052.

## Life On The Quiet Side

By SANDRA PRICKETT

I'm lazy. Everyone knows this to be so. I spend a lot of time in the swing in my front yard. As I swing to and fro lazily I plan my front yard vegetable garden or try to figure out why my tomatoes aren't doing so good.

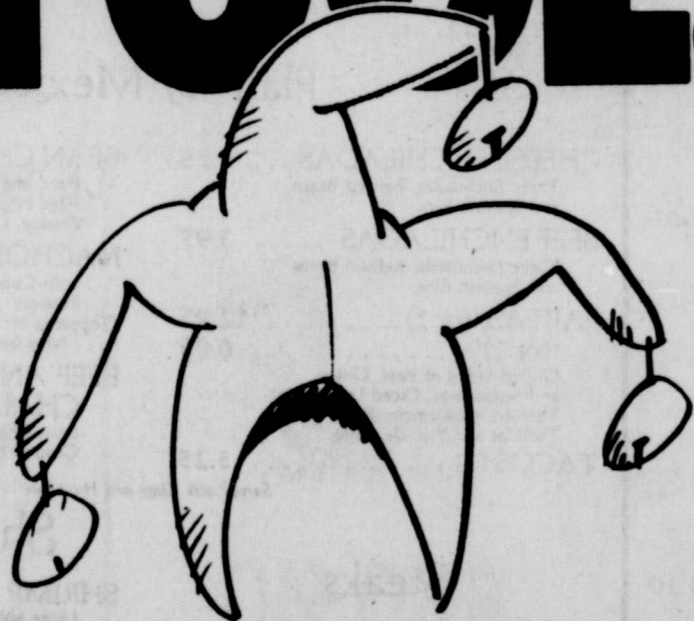

And I have a swing in my back yard I spend a lot of time in too. I sometimes swing quite high with one of my grandchildren, and other times gently as I tell them a yarn or two. Sometimes I swing slowly sideways as I watch the squirrels and birds play.

And I even have a swing on my boat dock. I like to watch the personalities of the lake swimming, fishing, boating, and doing their things, as I gently rock a young child to and fro against a gentle breeze. I swing and sing and get excited when my husband catches a fish, and watch with equal excitement as my daughters-in-law, Karen and Diann, so young, lively, and energetic pull perch from the lake off our trot line.

Yes, I'm Lazy. Ask anybody. They'll tell you it's so. I like to be lazy. I like to swing and think and dream and plan.

And as the weather cools I retire inside to one of my many rocking chairs and spend many peaceful moments, planning, thinking before I begin a new activity, here on the quiet side in the slow lane of Lake Brownwood.

doesn't take a college education to get smart about staying away from drugs. So wise up and put your foot down. Drugs are bad news, and anyone with a head on their shoulders can figure it out. Don't let drugs play you for a fool.

### OUR COUNTRY CHURCH

On a bright, clear Sunday morning

We see the sun shining through the pines

On a church that well hidden

From a world of sin and crime.

As we walk down that dusty road

We hear their voices ringing so clear

Singing praises to our Lord and Savior

For His presence seems so near

Oh! Lets join the congregation

Please don't pass by the door

You may miss many a blessing

If we keep going down the road

As the sunlight filter through

The color panes we hear everyone say,

It is good to be in the House of the Lord

And to praise his Holy name.

## "YES, THERE IS LIFE AFTER BREAST CANCER."

A lot of women are so afraid of breast cancer they won't practice breast self-examination or ask their doctor about a mammogram. And that's what frightens me.

Take it from someone who's been through it all: Life is just too wonderful to give up on.

But to enjoy it, you do have to give up being afraid to take care of yourself.

Get a checkup. Life is worth it.

## I've Been Wrong Before

By Gordon S. Clark  
I don't believe in kicking anyone when they are down but from certain past actions involving public money we should learn when and where to kick.

Not long ago hospitals were growing like mushrooms popping up overnight. People were being told of the almost desperate need as funds were solicited and bonds were voted. Now we hear of a vast number of empty beds. WHY??

I simply can not be convinced that we are all suddenly that much healthier. Therefore, one should consider several factors. Either there was overselling verging on dishonesty, health costs rose so high that people are not getting near the care they should, or an alternative I didn't hear of was found. I certainly doubt people suddenly became that much healthier. Population shifts do take place but we hear that idle hospitals are just about every where. It just seems to boil down to bad business judgement.

If that AIDS pandemic gets as bad as earlier predictions said it would they should need a lot more rooms. However, the terminally ill don't need much specialized care. They are only waiting to die. We all

are in a way but don't rush me. I have too many things I promised my wife I would get around to.

At any rate, the hospital industry is a "sick" enterprise and the old saying about, Physician, heal thyself, comes to mind. Before we rush to indict the doctors and prejudge them it might be well to consider that while many hospitals are administered by doctors, nobody knows everything and if they know all they should about medicine then they may have had less than enough time for economic forecasting. Speaking of indictments, a few have been indicted in Calif. for having sent or kept patients in hospitals needlessly and taking a kickback for doing so. False and inflated medicare claims have also taken some shine off the halo many were prone to visualize the doctor wearing. The cold reality is that the D in MD has nothing to do with diety. Doctors are just people. A bit above the herd on the average but human none the less.

I never craved a job which would have been listening to aches from the time I was maybe wakened by a phone call in the morning until I was wakened as soon as I dozed off at night. That is not the course every day but one or two times would be too many for me.

I well remember a debate as part of a college English class in 1949 when the question was of government medicine vs private. One student felt raw about a knee left stiff by what he con-

sidered inept Army doctoring and he had all that AMA calamity howling propaganda against socialized medicine. They were pushing health insurance as "The American Way".

I took the opposite side contending that both government and private doctors made mistakes but for his game leg he would be compensated the rest of his life, the private victim not so. (That was long before the days of fantastic malpractice suits which benefit lawyers more often than victims.)

The class decision was slightly in favor of government control but the public got health insurance followed by doctors charging "insurance plus". Now we have Medicaid which is neither fish nor fowl wherein both doctors and patients want the best of best worlds and feeling we got the worst.

In a distant time and considering another question of freedom an orator asked, how long the people would hesitate between two persuasions. Today we have people who want government money but not government control (except for control of the other person that is) and they fail to accept the fact that with money comes control sooner or later. Was it not so in the schools?

The bumper sticker reading "Government money my eye. It is your tax money." is not exactly correct either. It is not even your money any more. It is your DEBT and your children and grandchildren will inherit it. It is not the result of honest socialism but of a hybrid and like that hybrid animal the mule it is steril.

## Senior Class Of '37 To Hold Reunion

The Cisco High School Senior Class of 1937 will celebrate their 50th Anniversary with a reunion in Cisco on May 1-2.

Several events are planned for the occasion, with the first meeting scheduled for Friday, May 1, at 7:30 p.m. at the Community Room of the First National Bank. Families and friends are invited to join with the classmates in welcoming all back to their home town.

The next morning, Saturday, May 2, the class of '37 and the CHS graduating class of 1940 will hold a joint breakfast at Henson's Restaurant. This Class of '40, who were freshmen while the '37 group were seniors, will also be having a reunion this weekend.

At noon Saturday there will be a special catered lunch for the Class of '37 at the Mobley-Hilton Hotel. This is by reservation only.

That afternoon, beginning at 3 p.m., there will be a class business meeting at the Community Room of the bank. The group will also see a video made especially for their reunion. This will conclude the programs.

In 1937 there were 75 members of the graduating class. Now there are 51 living members. Around 30 of these are planning to be in town for the reunion, and several of the class teachers are expected to be present, also. Those coming from out-of-town include members

from California, Connecticut, Florida, Chicago, Corpus Christi, Fort Worth, Iowa Park, Pottsboro, Monahans, Midland, Andrews, San Antonio, Tyler, Conroe, Austin and Luling.

Some of the Class of '37 have continued to live in Cisco or nearby. They are, from Eastland, Evelyn Colburn Daniel and Louise Lewis Stansell; from Gorman, Grace Pollard Townley; from Breckenridge, Jim Rominger and Mike Cameron. Classmates in Cisco are Dr. Charles Cleveland, Marshall Ivie, Margaret Hageman Jobe, Vera Elder London, Bonnie Donaway McCleskey, Idella Barnhill Taylor, Velsie Wood Rawson, Catherine Slatton McCreary, Laverne Lenz Slatton, and Rose Hart Clark.

The Class of '37 has had many experiences since that graduation day 50 years ago. Only a few years after that the young men and some of the young women enlisted in different branches of military service during World War II.

There have been some changes in Cisco, too, such as the school building where the 1937 graduation took place is no longer standing. But class members look forward to getting together again and recalling many happy times.

For more information about the reunion please call 442-1468.

# Eastland County Commissioners Approve Hiring Of Abilene Architect

Eastland County Commissioners, in their meeting Monday, approved the hiring of James Wheeler, Abilene architect, to draw up specifications and plans to bring the County jail up to state standards.

This work will be done before any possible enlargement of the present facility. The needs of the jail were ruled an "emergency".

The motion to hire Wheeler was made by Billy Bacon, Comm. of Pct. 4, seconded by L.T. Owen, Comm. of Pct. 3, and agreed to by Commissioners Norman Christian of Pct. 2 and Richard Robinson, Pct. 1. County Judge Scott Bailey presided.

Wheeler, from the firm of Boone, Pope, Wheeler and Pullin, was present in the courtroom. He joined in a lengthy discussion of the needs of the jail. The firm he is associated with constructed the present building in 1980.

Judge Bailey reported on a letter he received Monday morning from the Texas Jail Standards Commission. This letter restated all the "deficiencies" an inspector reported he found during the March 16 inspection of the building.

One official expressed surprise that the Jail Commission had not been informed "by the Jail Administrator or someone else that we are working on the problems there, and have them all solved except the lighting and inter-com system."

Judge Bailey said he would personally write a letter to the Jail Commission to inform them that County officials has initiated compliance.

Wheeler said his office would send his plans to the Jail Standards people for approval before any new work was done. He explained how complicated it would be to install the new 20-candle lighting system in the cells arranged for a 12-candle lights. Holes would have to be cut in the 8 in. thick cellular ceilings, and headers built where ceiling joists were cut.

On the inter-com system, Wheeler said he thought a button in each cell to alert the main panel would meet specifications.

## Little League

### Schedule

The schedule for Little League action this week is as follows:

- MAJORS**  
 Friday, May 1-6 p.m.  
 Astros vs. Rangers; 8 p.m.  
 Giants vs. Braves.  
 Saturday, May 2-6 p.m.  
 Braves vs. Giants; 8 p.m.  
 Rangers vs. Astros.  
**MINORS**  
 Thursday, April 30-7 p.m.  
 Rangers vs. Braves.

In other business, Judge Bailey informed the Commissioners of plans for the County Court. The first Court session under the new jurisdiction will be Monday, at 9 a.m. May 4 and sessions each first and third Monday

thereafter. Some County Court business will also be taken care of during Commissioner's Court hours on the second and fourth Mondays. Proposed trial dates are the fifth Mondays of each quarter.

Also on the agenda was a discussion of insurance for the County. Ronnie Ledbetter of Ledbetter Ins. Co. of Cisco brought a proposal for auto coverage and Multipurpose Insurance for \$41,485 annually. This does not in-

clude liability for public officials. The Commissioners agreed to study the proposal.

In another matter, Billy Bacon said he had a request "that people from the towns quit hauling garbage to the country and dumping it on

county roads."

He reported that beer cans, dead dogs and cats and sacks of trash were left along roadways in Pct. 4. He said he was tracking down offenders.

On budget matters, the

Commissioners approved a request from Mary Jane Rowch Brown for line-item changes on her budget. They also approved a request from Norman Christian to advertise for a used tandem disk dump truck.

An auction on surplus county equipment was set for May 30 at the County Barn at Cisco. This sale will include some old light fixtures and other items from the Courthouse.

Ruth Pugliese Hart, County Treasurer, reported on a Treasurer's Seminar she at-

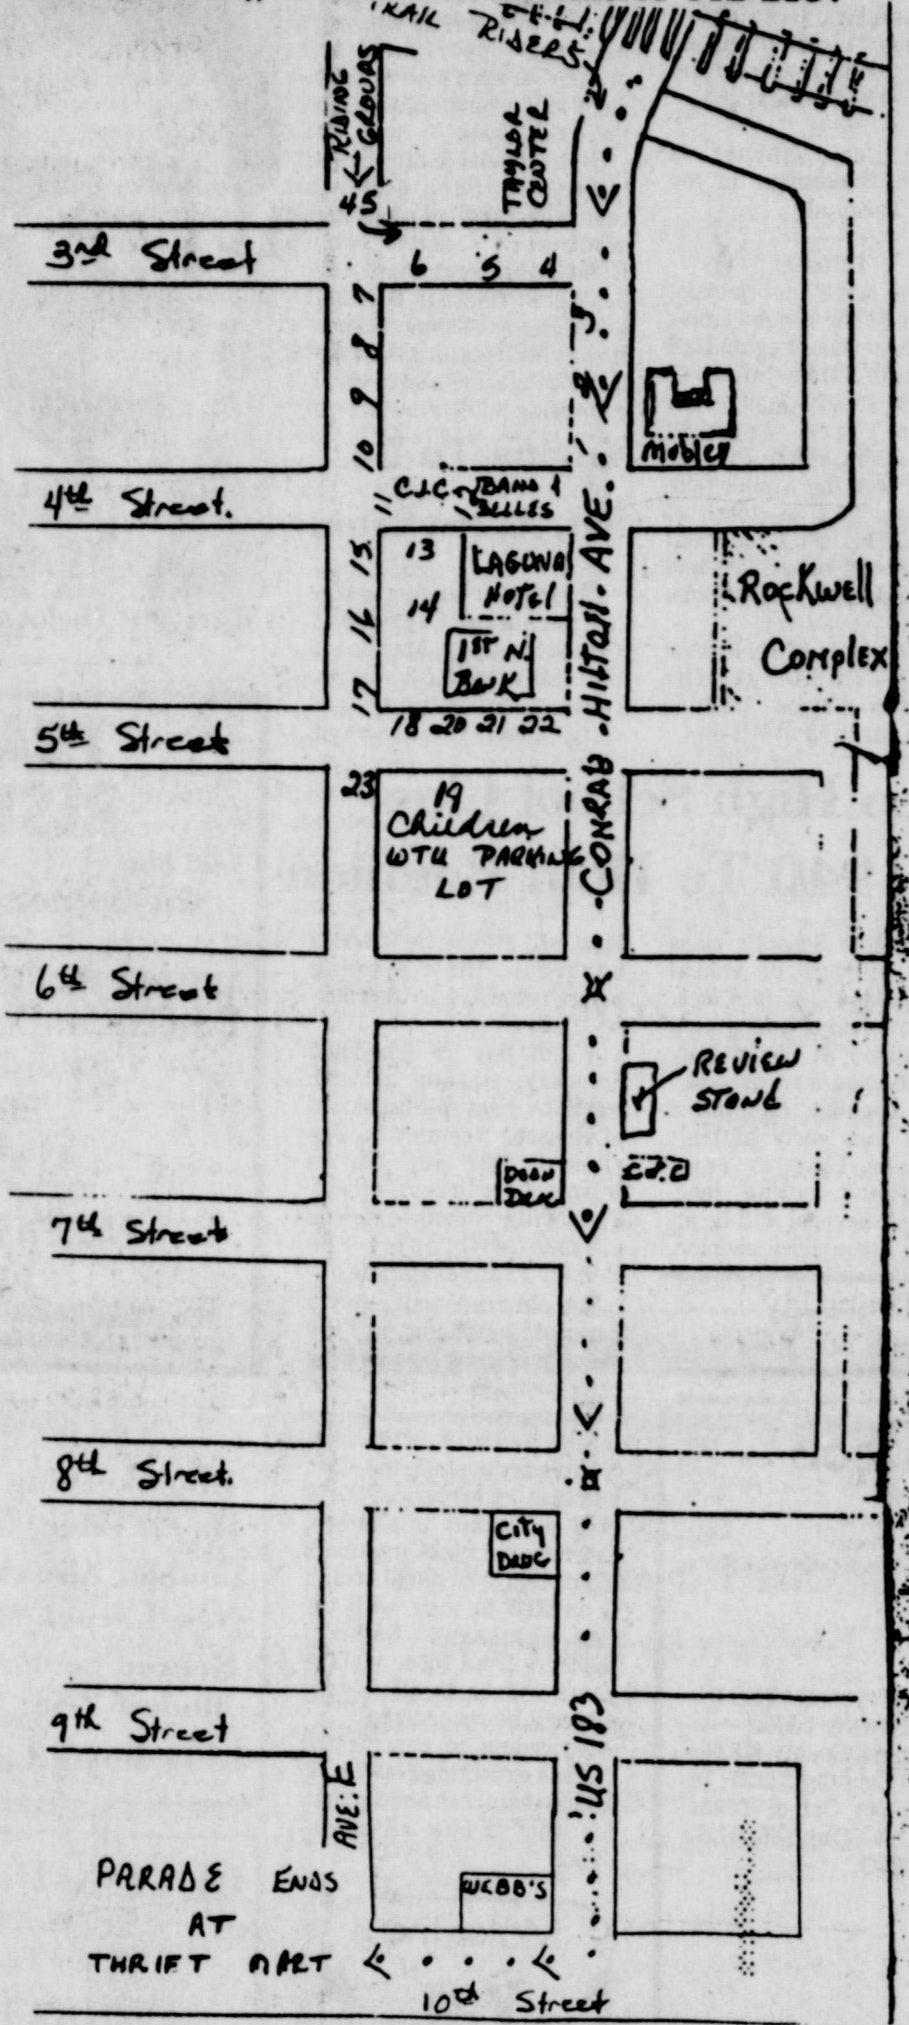

tended last week at Texas A&M University at Bryan. In visiting with officials of other counties she learned of their problems, she said, and came back grateful for the cooperation among officials here in Eastland County. She thanked the Commissioners for giving her the opportunity to attend this Seminar.

Attorney Saul Pullman stopped by the Court during the session, but apparently had nothing he wanted to speak about.

"You all paid me - I don't have anything to complain about," he remarked.

Everyone is encouraged to be sure and lock their doors whenever they leave their home. Be sure and inform the police when you are going on vacation so they can make patrols by your home. And check with the police department for other safety measures to help deter crime in Cisco.
