Eastland County Commissioners Discuss Hiring Attorney For Legal Business

The afternoon session of Commissioners Court on Monday was designated as a time to look at the budget. But after going over figures from some of the offices the discussion turned to other related topics.

that of last year. No tax rate has yet been set to raise the money to support it. The Commissioners discussed the reactivation of the County Court, and the added revenue this is bringing in. They looked at the need of a County Attorney to work with this Court and to take care of legal business for the

County. Judge Bailey stated that the office of County Attorney has been abolished, and that

it would take legislation (in Austin) to recreate the office. "Palo Pinto County is the

only one in this area with both a District and County Attorney," the Judge said. The discussion turned to

the J.P. and Constable offices. "We ought to take a good, hard look at abolishing some of those offices," one Commissioner said.

He said that Constables Bill Hunter of Eastland and Gene Hicks of Rising Star are the ones who "do a lot of work - anything I call on them for. They serve all processes issued."

County," he said. When told that they might not be able to abolish any J.P. or Constable offices until the current elected terms expired, several Commissioners stated that they "sure could cut some salaries back for those who didn't do anything."

The Fantasticks

The Cisco Junior College Drama Department is now preparing for its final production of the 1987 Summer season.

The cast will include Bill Austin, Jr. as El Gallo, the narrator; Mary McGrew as Luisa, the girl; and Joe Ochoa at Matt, the boy. Also appearing will be Fred Mullinax as Henry, the old actor; Dixon Seider as Mortimer, the actor who dies; Clint Cottom as Hucklebee, the boys father; and Kim Allison as the Mute. Glenda Young will add her talent as director of the summer's final production.

Sunday matinee at 2:30 on August 2 and Tuesday and Wednesday August 4 and 5 at 8 p.m. These tickets will be \$7.50.

The *Fantasticks*, a musical comedy is said to be one of Tom Jones and Harvey Schmidt's most popular and has pleased numerous crowds since 1960. The story is an age old tale about a boy, a girl, two fathers and a wall. The stage is a wooden platform, its scenery a tattered moon. Using these bare essentials, the actors bring to life a funny and quite touching story of innocence -- and of knowledge.

Dinner performances begin July 30, 31 and August 1, 6, 7 and 8 at 7 p.m.; the cost will be \$15. Dessert only performances will be the

Fishing Outdoors

By Terry Wilson

With recent boating accidents in our area, boat safety is on everyone's mind. But lets not slip back into a daze.

Wind and water just can not be under estimated folks. There is no way to out guess it. When enjoying that family boat ride and winds become strong, view the situation. If you feel your craft cannot handle the water, beach your craft. Most lakes are populated enough for you to walk to a phone and call for help. If civilization is not at hand, wait with your craft until safer conditions arise or help arrives.

Coast Guard approved floatation devices should be worn at all times by boaters. I know they're uncomfortable, but could save your life. As we all know accidents aren't planned, they just happen.

One item many people do not associate as a safety item is an anchor. A good anchor can be very valuable in case of engine problems. By using an anchor, one can help hold the nose of your craft into the wind. Even if your anchor cannot hold your boat in one place the weight will help hold your craft straight and not allow it to become crossed in the water allowing swamping.

Boat safety is simple common sense. "Don't chance it" if there is any doubt. Natural reproduction of striped bass has been documented at Lake Kemp near Vernon.

Texas Parks and Wildlife Department officials said Lake Kemp is only the third Texas reservoir that has had reproduction of the introduced fish. The others are Lake Whitney in central Texas and Texoma on the Texas-Oklahoma border.

Biologist Joe Kraai said two strippers recently collected in a routine gillnet sampling were found to be two years old. The most recent stocking of strippers in the 15,000-acre lake was in 1983, which indicates the fish

were produced by a natural spawn.

"We also have had reliable reports from fishermen who have caught several striped bass weighing under two pounds," Kraai said.

Striped bass normally require lengthy stretches of flowing river to spawn successfully. In their traditional range, mature strippers live in salt water, and swim up rivers to spawn during the spring.

Kraai said it is unknown what made the spawn possible, but the Wichita River which enters the lake has had higher than normal flow rates during the past several years.

Kraai said the smallest stripper taken in the net survey weighed 2.1 pounds, and the largest weighed over 17 pounds. He said the unofficial lake record stripper weighed over 20 pounds.

Lake Kemp is located in Baylor County, southwest of Wichita Falls.

Area Lake Reports as of 7-8-87 are:

Leon: Fishing slow due to high winds few anglers. Black bass fair to 3 pounds on topwater early and late. Crappie fair in numbers but most small, catfish good to 3 pounds on trotlines.

The financial problems of Ranger General Hospital are better, but support is still needed, says Mrs. Florine King, interim administrator. "The problem is not with the hospital's operation as much as the fact that, as a result of the DRG payment system, Medicare payments have been reduced as much as 60 percent. The hospital is re-

quired to write off a large portion of most Medicare accounts," Mrs. King added. In RGH 15 percent of the patients pay the total cost of their care, 46 percent rely on Medicare or Insurance to pay, and 38 percent can not or will not pay for their care.

Lisa Casey Taylor, singer, won First Place in the KEAN Country Showdown on July 5 in Abilene. She will return for the finals on Sunday, July 26, and will be live on KEAN that night. EASTLAND
Steve Burgher, a medical student at the University at Houston, is spending a month in Eastland in a pre-clinic preceptorship in Family Practice. His instructor is Dr. Robert Matthews of the B&W Clinic, and he goes along with the doctor on his daily rounds. "Seeing this rural family practice first-hand is a great learning experience," Steve Burgher says. "Dr. Matthews work impresses me a lot - and the hospital here is good too."

One of the main differences between practicing medicine in a small town and the practice in a city is that the small town has a more personal type of practice, Burgher observes.

warning system was last used to alert Eastland residents of a tornado two years ago. The fire department now uses the paging system.

Eastland County Commissioners had enough items to keep them busy until well into the afternoon Monday. A number of discussions were

held, including a budget session in the afternoon. The Commissioners deferred a decision on bids for jail lighting until a called meeting next Monday, July 20 at 9 a.m. They will consult with James Wheeler, Abilene architect, on the type of lighting which the Texas Jail Standards Commission will approve.

"YES, THERE IS LIFE AFTER BREAST CANCER. AND THAT'S THE WHOLE POINT."
—Ann Jillian

A lot of women are so afraid of breast cancer they don't want to hear about it. And that's what frightens me. Because those women won't practice breast self-examination regularly. Those women, particularly those over 35, won't ask their doctor about a mammogram. Yet that's what's required for breast cancer to be detected early. When the cure rate is 90%. And when there's a good chance it won't involve the loss of a breast. But no matter what it involves, take it from someone who's been through it all. Life is just too wonderful to give up on. And, as I found out, you don't have to give up on any of it. Not work, not play, not even romance. Oh, there is one thing though. You do have to give up being afraid to take care of yourself.

County Commissioners Have Full Day

The Eastland County Commissioners had a lot of business to consider at their regular session Monday, July 13. It took morning and afternoon meetings to cover all topics.

All four Commissioners were present with County Judge Scott Bailey presiding. County Clerk JoAnn Johnson recorded minutes. Special Prosecutor Bill Hart attended an Executive Session during the morning. He reportedly in-

formed the Judge and Commissioners of the status of the Ainsworth vs Eastland County lawsuit.

Early in the open meetings Judge Bailey brought the Commissioners a letter from Mrs. Virgil T. Seaberry of the Child Welfare Board. She stated that Robby Robinson of Eastland has consented to serve as a member of the board, filling the position

held by the late Dr. Bruce Goleman of Banner. The commissioners approved the motion that Robinson be accepted.

Robby Robinson is an instructor at the Science Department at Cisco Junior College.

Next on the agenda was the opening of bids for installation of jail lighting, which is being changed to

meet specifications of the Texas Jail Standards Commission. Four Abilene firms and one from Cisco bid on this work.

Judge Bailey reported that Bob Viterno, executive director of the Texas Jail Standards Commission, had told James Wheeler, Abilene architect, to "go ahead with the project" at the jail. Wheeler has been hired by

the Commissioners to bring the jail up to approved standards.

Judge Bailey also said that the next meeting of the Texas Jail Standards Commission was July 29, 9 a.m. in Austin. The sheriff, judge and members of the commissioners court are expected to report progress on the jail at this meeting.

The commissioners decid-

ed to delay acceptance of bids on the fixtures until they could be checked out by James Wheeler. They approved a motion to reconvene next Monday, July 20 at 9 a.m. to consider these bids.

Sheriff Underwood reported to the Commissioners that the jail was "full in population" now, with as many as 30 at one time recently, counting five in the "holding tank" for intoxicated persons. Those in the "holding tank" are not officially counted as inmates until they have been there 24 hours.

"It doesn't seem that crime is going down," the Sheriff said.

Another topic on the agenda was presented by Roy Cartee of Cisco. Cartee is the Eastland County Red Cross Chairman, an Associate State Co-Ordinator for Health Advocacy, and a State Ombudsman for Long-Term Care in Nursing Homes.

He addressed the court concerning the distribution of food commodities in the County, saying that during the past several months things have happened which indicate poor management.

He cited poor use of the media to inform people, failure to order sufficient food from the supplier, and failure to maintain the full hours of distribution.

He stated that the purpose of his appearance was to make the Commissioners aware of the problem.

"I think we ought to do all we can to see that we have enough food," Commissioner Billy Bacon said.

Commissioner Richard Robinson spoke of some of the difficulties experienced by the program, which is locally managed and supervised by Central Texas Opportunities of Brownwood. He said the County had no good place to store any leftover food in the summer.

Mr. Cartee said that the program director had cards listing all who had qualified from each town, and should be able to judge the number.

At last reports there were more than 1800 persons being served by the program in the county.

Also listed on the agenda was Jim Davidson of Eastland, who appeared on behalf of the Eastland Coun-

ty Soccer Association. Around 400 kids from every town in the county are involved in this program, Davidson said. The soccer season will last six weeks in the fall and six weeks in the spring.

The association now has the use of ten acres of land near the Eastland airport, he reported. Since this association is county-wide, he was asking help from the county in obtaining three gallons of Roundup to kill Johnson grass on the property, and help in mowing the grounds during the playing season.

Members of the court said they looked favorably on the soccer program. They discussed several ways to help, then decided it would be illegal for the county to make direct contributions to the program.

Commissioner Richard Robinson suggested, however, that ways will be explored in which some type of assistance can be legally given.

In other matters, Frankie Jarrett brought a request that the County relinquish any rights to an old abandoned roadway on the A.M. Knox Estate off highway 6 near Carbon. The Commissioners approved this request.

A petition that the road be rerouted on property off Highway 206 in Pct. 3 was discussed. No action was taken on the request, however, since Commissioner I.T. Owen had not looked over the road in question.

When the bills were brought in for approval, Emma Morris, county auditor, questioned a situation regarding two bills for roof work at the jail.

She indicated she was in a "no win" situation on them, with a possible lawsuit if they were paid. The work totaled over \$6,000, from two different firms.

She stated that in her opinion the State requires by law that any work over \$5,000 be properly advertised.

The Commissioners approved the bills, with some of them saying they didn't see how such a law could apply here.

"We'll get a lawsuit if they are not paid," remarked Commissioner Norman Christian.

Lights From The Christian World

By Josephine Cleveland

"WHY DOES A GOOD MAN SUFFER?"

Have you ever asked the question, "Why do good men suffer?" The book of Job gives the Biblical account of Job who lived far back in the age before even the law of God was given. The book of Job may be the first known scripture written. Job could not go to the Scripture and read it. In his age every man was a priest in his own family. Job was a good man who believed in God and taught his family God's way. God said of Job that He was a righteous man. Then why did Job have to suffer not only illness but encounter one disaster after another?

In spite of his integrity Job had faults that needed to be corrected. The more Job was afflicted, the more self-righteous he became. He complained that God was unjust. It was as if he thought that God had made him sick. He failed to realize that God gives only good and perfect gifts, and that His thoughts are higher than our thoughts and His ways are higher than our ways. He is a sovereign God.

In Job's case sickness was not sent to punish him, but to bring him discipline. Sickness showed Job his true nature. The only way he knew that complaining and self-righteousness was in his heart was when sickness brought it out.

Job murmured against God. The more afflicted he became, the more self-righteous he became. The redeeming factor was that Job kept his integrity and faith in God. He declared, "Though he slay me yet will

I trust Him" (Job 2:9). In spite of his troubles, in spite of the counsel of his wife who told him to curse God and die, in spite of his friends advise, he continued to trust God. Job declared in Job 23:10 "When He has tried me, I will come forth as pure gold."

As Job bemoaned his condition and questioned God, he became more self-righteous and proud. Finally, God answered him, "Shall he that contendeth

with the almighty instruct him? He that reproveth God, let him answer" (Job 40:2) God told him, "Gird up your loins now like a man: I will demand of you, and declare you unto me. Will you disdain my judgement? Will you condemn me, that you may be righteous? Have you an arm like mine? Or can you cause thunder with your voice?" (paraphrased Job 40:7-9). God continued to ask Job, "Can you lift up your voice to the clouds, that abundance of waters may cover you? Can you send lightning that they may flash? Who can number the clouds in wisdom? Or who can stay the bottles of heaven when the dust hardens the earth and the clouds will not break up?"

Job realized that his nature was self-righteous and proud. He told God, "I know that you can do

everything, and that no thought can be withheld from you. Who is he that hideth counsel without knowledge? I have uttered that which I understood not. Things too wonderful for which I knew not. I have heard of you by the hearing of my ear. Now my eye sees you: so I adore myself, and repent in dust and ashes" (paraphrased Job 42:2-6).

When Job realized that he was spiritually proud, God healed him and restored all that he had lost.

CJC Registration

Is Underway

Registration is under way and will continue through July 16 at the Cisco campus and all off-campus centers. Though there will be no problem in registering as late as July 16, all students are urged to register now in order to begin attending classes. Classes begin July 14, and a minimum of missed time is beneficial to the student.

Students may register at the main campus in Cisco, at the Clyde Educational Center, or at the Abilene Center in Office Park West, Building B at anytime during regular office hours, 8 a.m. to 4 p.m., Monday through Thursday.

THE CLASSIFIEDS

The Next Best Thing -

.....to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field, values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then becomes the most important item to be considered when purchase of real property is contemplated. So be careful to buy good title based on an abstract of title or a policy of title insurance.

I've Been Wrong Before

By Gordon S. Clark

I received a nasty letter about one of my columns. It was intended to be nasty and irritating but its contents weren't what was nasty at all. The nasty writer signed another person's name and address. I wrote a reply to the address given but had friends also check as the letter was too far out to ring true.

Sure enough the name was a forgery.

Years ago I got a suspicious letter and put out a bit of bait but no further contact resulted. Also there was once a phone call which I played along with but the music in the background made that one suspicious. Maybe it was the same sick mind. Let us hope there are not too many needing psychiatric help out there.

My grandson asked me about it if it were authentic and I explained the court case long ago in which a newspaper entertainment critic got disgusted with the same old nice things being written even when the act bored one to tears. So he penned a sister act rather harshly. They sued. The judge rendered a landmark decision in which he ruled, in effect, that people who put themselves up for public approval must be ready to accept either cheers or jeers if that is the way any receive it. Thus it holds that entertainers, politicians, and I would suppose amateur columnists like myself must accept any reaction the public is inclined to express.

Naturally slander and deliberate character assassination are against the law. But short of that it can get rough. Only a coward would use another's name though. So, how do you regard a yellow belly?

Thus it is with freedom of speech. Still, there are some who emphatically claim to believe in the Constitution but try some very underhanded methods to silence any who do not believe in what they think should be articles of faith. Ex-congressman Paul Findley reveals some of their methods in his book **THEY DARE TO SPEAK OUT**.

I have read letters to the editor of *Union Reporter-News* castigating him for printing letters by certain people, myself included, in which they do not offer facts now opinions on any subject except to say he should refuse to print our opinions. So it was when the editors were Wishkamper and Tarpley, with the present editor the message, threat or whatever seems to have registered for on one subject the letters seem far more often that not rejected.

I recently talked to a highly qualified teacher in the Dallas area who was denied a position in an institution of higher learning because they feared he was "prejudiced". They only evidence to support the charge was the he was of Arab extraction. And they presume to call someone "prejudiced"?

Indeed, when anyone is so fearful of the public being exposed to divergent views, when they believe their cause is so sacred that unbelievers should be punished, or when they absolutely refuse any public

debate and hide behind "judicial notice" to present anything as fact needing no proof then I submit that they have something very serious to hide.

The subversion of anyone's right of expression undermines the very foundations of the Constitution and with such people claiming to defend it that Constitution can be done to death.

My tricky letter writer charged (whether seriously or not) that I make convincing arguments for any cause the benefits me whether right or wrong. I only wish those "benefits" showed in my bank statement. In fact, I turned down an offer of cash for writing and talking for the Arab cause. Not that I disagreed in the slightest but because I would have been required to register as an agent of a foreign power and include a statement with each letter to an editor that it was written as paid propaganda for a foreign power. Incidentally, I believe that the opposition regularly violates that law with impunity but they would use it against me if they had the slightest excuse.

Years ago a Brownwood man wanted me to crusade for legalization of marijuana but I lacked enthusiasm for that. Maybe he should have shown me those phantom "benefits".

In the "Age of Chivalry" a knight not pledged to any king or baron was called a "free lance". Thus a writer not on pay roll for any editor, publisher or syndicate is called a "free lance writer". By the cries of pain from some one would think my lance was sharp indeed, still, I am not swamped with offers from folks wanting to enlist me in their wars. I guess they just don't trust anyone who files a red,

black, green and white banner. My favorite is red, white and blue but most of our senators seem to have been hired by just plain white and blue. I'll bet most people thought they belonged under the stars and stripes because they never know where the greater part of campaign money comes from.

The Continental Singers and Orchestra, an internationally recognized Christian musical group, will present a dynamic new program Monday, July 19, 7:30 p.m., at the First Christian Church of Eastland.

Emphasizing the theme of "Let There Be Praise!" their program celebrates the 20th anniversary of the group. It will also include a portion of "ELIJAH"—a powerful new musical that explores the life of one of the Old Testament's most well-known prophets.

Ken Waggoner, Executive Vice President of Continental Ministries, explains that both parts of the program reflect "our need to praise God as we see him make the impossible possible in our lives." He reflects that the existence of the Continental Singers "is testimony to God's power. It's literally a miracle that a ministry like ours has lasted for 20 years. In Gospel music, some groups barely make it 20 months, let alone 20 years."

The Continental Singers program features 25 vocalists and a 10-piece orchestra. According to Waggoner, it "combines the best of our past with the promises of our future. It's a musical celebration that highlights two decades of praise and joy from our most popular musicals, hymn medleys, and a few contemporary classics." Well-known for utilizing a variety of musical styles in their program, the Continental Singers will include songs and arrangements by some of today's top contemporary Christian artists.

In 1987, Continental Ministries will send out 18 tour groups to perform in all 50 states and approximately 32 countries throughout the world while overseeing 5 international ministries in Singapore, Hungary, England, Europe, and Latin America.

CAPITOL UPDATE

by Jim Parker

Likely you are tired of hearing what is happening in Austin but I do think you need to pay attention to at least one issue that is currently ricocheting around the Capitol walls. That issue is a sales tax on insurance premiums.

As you well know, and have probably heard until you are sick, the state is in a serious financial bind primarily brought about by a decline in world oil and gas prices and the resulting sluggish economy the State has experienced over at least the last 18 months. As your state representative I have been faced with the unpleasant alternatives of 1) drastically cutting state services and expenses, or 2) raising tax revenues to replace those revenues no longer coming into state coffers.

I, personally, have chosen a combination of alternatives, that being reduce expenses where possible and increase revenue as necessary. In doing this I have tried, at all times, to be reasonably assured that the difference would not simply be made up by increased local taxes.

As examples of my long term fear, if the Governor's "no new taxes" plan were adopted, Blanket ISD would require a 183% local property tax increase; Gustine ISD would require a 140% local tax increase; Coleman ISD would require a 77% local tax increase; Cisco ISD

would require a 53% local tax increase; Ballinger would require a 79% local tax increase, and Brady would require a 55% local tax increase.

The problem is as complex as any I have tackled in my 42 years of experience. A lot of you are going to be dissatisfied whatever the outcome.

Speaking of outcome, while no definite conclusion is yet in sight, I think I do need to tell you what we have done to this point.

Since January 13th of this year the budget has been cut, cut and cut again. Most recently, in the last week of June and the first week of July, in 3 marathon days of debate, we cut an additional \$19.5M out of \$38.4B budget. A mere drop in the bucket. I think no more can be cut, reasonably, and we must now decide how to fund the drastically reduced budget that we developed over these many, many months. (Let me point out to you we have been almost continuously in session since January 13th at a cost of over \$60,000 per day for a total of somewhere in the neighborhood of \$10M.)

As my father used to say "It's time to do something even if we do it wrong." In funding the budget we probably did do it wrong, but bear with me a moment.

Three proposals were made for funding the budget deficits over the next two years. They were as follows:

1. Increase the sales tax to 7 1/2%.
2. Expand the sales tax base to include services, or
3. Institute a 6% sales tax on insurance premiums.

Organ Concert Is Set Sunday, First Baptist

Monte Maxwell, distinguished young organist, will return to Eastland to present an organ recital at the First Baptist Church, Sunday, July 19, at 3:00 p.m.

Maxwell was quite well received when he presented a recital here in November, 1984. A native of San Angelo and a graduate of San

Angelo's Lake View High School, he attended Texas Christian University as a recipient of the prestigious Nordan Fine Arts Scholarship. After receiving his Bachelor of Music degree from TCU in the spring of 1986, he entered the Curtis Institute of Music, Philadelphia, on a full scholarship.

At Curtis he is a student of John Weaver, and he has also served this year as an Assistant to Dr. Keith Chapman at the Wanamaker Grand Court Organ, Wanamaker Department Store, also in Philadelphia. Maxwell says that he has the opportunity to meet famous people every time he plays that organ, because they come to the store to hear the organ.

The program Sunday will include some standard literature as well as some more contemporary French organ music. Maxwell likes the Schantz organ at First Baptist. He says that it's easy to play, and you can get a lot of what's there. Since the program is privately funded, the church is presenting it as a service to the community.

There is no admission charge, and it is open to anyone who wishes to attend.

Safe Bicycle Exercise

Before hoping on your bicycle to get some extra exercise, make sure you and the bike are fit for the road. "Cycling is a good way to improve cardiovascular fitness," says Dr. Mary Ann Heussner, a health education specialist with the Texas A&M University Agricultural Extension Service. "But it's also an easy way to get hurt if you aren't physically and mentally prepared."

"Remember, bicycling is like any other form of exercise," says Heussner. "You should stretch out before and after each ride to increase your flexibility and avoid muscle and tendon pulls. Relaxing your shoulders and keeping your elbows bent to help absorb shocks, and consistent pedaling to increase efficiency are also good techniques you can use to decrease the possibilities of injury."

"Helmets are an important part of bicycle safety," the specialist says. "They should pass safety requirements, fit snugly, and be worn at all times. Bikes that are working properly are more enjoyable

to ride, as well as safer," says Heussner. "The tires should be properly inflated and be the correct type for your bike. The gears should shift smoothly, and the brakes should stop evenly."

If you're buying a new bike, be sure to have a salesperson help you find one that is suitable for your height, weight and intended use, Heussner cautions.

Bicyclists have the most safety problems with traffic. They often forget that they must follow the same rules as moving vehicles, and they need to signal at every stop and turn.

"Bicyclists are also more difficult to see, especially at night, which often causes problems for unsuspecting motorists. Because of this, cyclists need to obey traffic laws, be aware of all motorists, and have their bikes equipped with proper reflectors and lights," Heussner maintains.

She adds, "Cycling can be an enjoyable way to get out and get some exercise, but make sure you and your bike are in good condition, and you follow the rules of the road."

BACK HOME AFTER an interesting vacation trip to Russia and points east are the Dan Montgomerys of our town. They learned two Russian words - thank you and please - in the course of their two week tour.

The Montgomerys flew to the east coast and then on the Helsinki in Finland and Stockholm in Sweden before going to Leningrad and Moscow and elsewhere in the Soviet Union. They found the country clean and neat, the food "pretty good," no ice for tea and good room service at the hotel where they stayed in Moscow, which overlooked Red Square.

A highlight was a tour of the Kremlin, chief offices of the Soviet government. They were surprised to see a lot of Indians who were holding some kind of meeting in Moscow. They found Lenin's tomb, burial place of the Soviet founder, who was entombed in 1924, an impressive place to see.

Dan, who is CJC's basketball coach, inquired and found that they do play basketball but he wasn't able to attend any games. The temperature was in the 70s in daytime and 60s at night.

Now what? The Montgomerys will go to Las Vegas this coming weekend to attend a coaches' convention.

COACH RICK Frazier and staff members Rick Hoffman, Chuck Lawrence and Tony Pherault and wives went over to Abilene last Saturday night to help David Johnson, another member of the CJC Wrangler staff, get married. David, the linebacker coach, and Miss Ann Burks of Burkett were united in marriage at the home of David's parents.

Mrs. Johnson is a member of the faculty at Brownwood High School. They'll live in Cisco. When he's not busy coaching, Mr. Johnson is the CJC Gym supervisor. He earned All-American honors while playing football at CJC in 1980-81 and went on from here to TCU where he did a good job. He has been here three years.

COACH FRAZIER reports that they're getting play books ready and making preparations for 130 footballers to arrive at CJC on August 21st. Mr. Frazier and Mr. Lawrence will join Chief Tanner, husband of Chuck's identical twin sister, and Randy Hodges of Nueces Canyon to play as a four man team in a golf tournament at Mineral Wells this coming weekend. Local golfers have been enjoying the late Thursday afternoon scramble tournaments at the Cisco Country Club lately. They're weekly affairs.

SIX A.M. Sunday was the moving hour for the new John McGuire boat dock, a 22x22 welded steel dock that Terrell Jackson built in his yard up on 8th Street. Due to its size, hauling the dock to Lake Cisco wasn't the simplest task that John has encountered.

With the help of two CJC youths, John and Terrell loaded the new dock on a trailer and pulled it to the

lake. They saw only one car the whole trip out, so they don't think anybody was inconvenienced. At the lake, the new dock was backed in to the water at the south shore point Styrofoam barrels were placed under it as it left the trailer and it was floated across to the north shore with John's boat pulling.

The dock is now in place and John is adding decking and side boards and such other things that are needed to replace the dock that had been used there for a good many years.

DR. KENNETH E. Breeze, pastor of First Christian Church, became the master of the Cisco Masonic Lodge in ceremonies last Saturday night. And witnesses were the Breezes' son and wife, Mr. and Mrs. David Breeze, and their son of Canyon. Also in the audience were the Rev. and Mrs. Ken Diehm of First United Methodist Church. Rev. Breeze noted that he had attended a Masonic lodge in Oklahoma some 25 years ago with Rev. Diehm's father. They were fellow ministers in Oklahoma at the time.

VISITORS IN Cisco last weekend were Mr. and Mrs. F.W. Burkman of San Antonio. They were seeing relatives and friends here and planned to visit other relatives at Lueders and Stamford this week. Mr. Burkman, who is a member of the Texas Lefthanded Golf Association, and his missus were out Phoenix, Arizona, way last week. He played in a national lefthanded golf tournament and she enjoyed picture making and sketching for paintings. They expect to return to San Antonio this coming weekend.

OUR TOWN WILL lose some good citizens next month when Mr. and Mrs. Bill Roberts and family move their household to Maybank in East Texas where he will join the faculty of the high school to teach journalism and handle public relations.

For several months, Bill has been an advertising man for the Brownwood newspaper and continued to live here. In addition, he took courses at Howard Payne University and qualified as a high school English teacher. He was a member of the faculty at CJC for several years, teaching journalism.

Bill has been named a United States National Collegiate award winner in English by the US Achievement Academy, a considerable honor for which he was nominated by the Howard Payne faculty. He is a member of the City Council and has been active in community and church affairs here for a good many years.

VISITING IN the home of Mrs. Lela Lloyd recently were Winell Grigsby of Cleburne, retired Fort Worth art teacher, and Mary Lou Suddath of Fayetteville, N.C., physical education teacher. Miss Suddath is the daughter of a Texas

Methodist pastor and her brother John is editor of the Texas Forest Magazine at Texas A&M. Miss Lloyd, by the way, is just back from attending a workshop for authors and journalists at Simons Island, Ga. This island is about 10 miles off shore in the Gulf of Mexico and was formerly the home of such New York millionaires as the Astors and the Whitneys. Mrs. Lloyd said the week long workshop was devoted to studying writing and that she thoroughly enjoyed it all. Yes, she sold some of her books while there.

OUR RESIDNET horticulturist says the pretty red flowers you see around town are Crepe Myrtle - not Red Buds, as we wrote here. At least we got the color right. Folks at First Methodist Church were pleased Sunday to see Mrs. Ella White and Mrs. Bobay (Beverly) again in the audience. Mrs. White is recovering from a broken hip suffered a couple of months or so ago. She is a patient in the new intensive care area at Graham Memorial Hospital. And the church van made a special trip to transport her to church. Mrs. Smith has returned home after surgery in Big D's Parkland Hospital. And Mrs. Sophia Eudy, who had spent some time in a Fort Worth hospital, is back home. The ladies of the First Methodist Church are planning a bake sale at 9 a.m. Friday at First National Bank to raise funds for the new church air conditioning system.

MISS AKI Kleiner, daughter of the Carl Kleiners, has written Cisco High School friends that she's having a nice vacation in Japan where she and her mother went recently. She has been attending a special school for girls with a Japanese pen pal with whom she has been corresponding. Jason Proctor, Little League all-star third baseman and pitcher, was hit in the eye by a ball in practice the other late afternoon. And he had a very black eye when we saw him Sunday.

police blotter..

Eleven persons were arrested, including two on charges of delivery of a controlled substance during the past weekend, according to a report Tuesday by Police Chief Billy Rains.

Paul Edward Santos, 25, Cisco, and Jackie Dave Bridges, 20, Cisco, were arrested here Saturday by Officer Larry Weikel and Donald Wiley on the charge of delivering a controlled substance. Chief Rains said they have been indicted by an Eastland County grand jury and were taken to the county jail.

On Friday, Socorro B. Alvarado, 32, of Cisco, was arrested on warrants from Midland charging him with driving without insurance and with speeding. He was released after paying fines, the chief said.

Also on Friday, a 20 year old Cisco man was arrested on charges of disorderly conduct issued by the City Corporation Court. He was released after a trial date was set.

A Cisco woman was arrested on Saturday on

charges of theft by check issued in Taylor County. She was to the county jail. A Cisco man also was arrested Saturday on charges of speeding and not having insurance papers issued in Taylor County.

Last Friday, Edwin L. Holdridge, 47, Fort Worth, was arrested at the Town and County Parking Lot on charges of public intoxication and for three DPS traffic violation warrants. He was taken to the county jail.

Keith Allen Phillips, 18, was picked up Monday at 3:15 a.m. and charged with driving while under the influence of intoxicants. A 36 year old man was arrested and taken to the county jail on a bad check warrant issued in Taylor County, and a local man was picked up Monday on charges of delinquent traffic violation warrants.

CISCO LITTLE LEAGUE ALL STARS

All Stars To Play Thursday In Second Tournament Game

The Cisco Little League All-Stars lost the opening game of the area tournament to Albany by a score of 7-to-0 at Albany Monday night and they are scheduled to return there Thursday, July 16, to meet the winner of the Albany-Breckenridge

game. Monday night's opening game of the double elimination tournament was Albany's from the early innings as they jumped out to a two-run lead in the first, added a run in the third and tacked on four runs in the 4th frame.

Pitcher Mike Lenamon of Albany kept the Cisco team well in check, limiting the local nine to three hits and striking out 11 batters. He walked three men in the third but was able to prevent a run. Jay Dixon started on the mound for Cisco and was relieved in the fourth by Dustin Ferguson. Hoot Beckett was behind the plate for Cisco.

Cisco players seeing action included Tim Skiles at first base, Mark Callarman and Jim Bob Maples at second base, Jason Hoffman at third base, Jeff McCow at shortstop, Bradley Rains in left field, Dustin Ferguson and Jay Nixon in center field and Reagan Pence and Jackie Thetford in right field. Simon Soto was used a

pinch hitter in the final inning.

Manager Benton Lacy and Coach David Callarman accompanied the team to Albany.

The Thursday night game will begin at 7 p.m. at Albany.

1962 Class To Hold 25th Reunion

Plans are being made for the Cisco High School Class of 1962 to hold its 25th anniversary reunion here Saturday, July 25, according to an announcement.

The event will be held at the Corral Room of the Laguna Hotel, beginning at 3 p.m. with a visiting hour. Supper will be served there by Oscar's Barbecue at 5:30 p.m. and a dance will be held after the meal with the L&L Lights of Dublin providing the music.

Information about the reunion may be obtained from Olin Odum and Jim Yowell of Cisco.

JAWS OF LIFE-- The Cisco Volunteer Fire Department responded to a car accident on July 1, south of Rising Star and had to use their Jaws Of Life. The above photo is of the car after the firemen freed the accident victims. One woman was killed in the accident.

The old Cisco Intermediate School is gone now and the new Cisco Elementary School is almost finished. A circular drive will be in the above location by September.
