

Mr. Muleshoe . . .

By J. M. Forbes

The club speaker said: St. Peter told the new arrival, member of a service club that it was OK for him to enter heaven. St. Peter said "I understand you club members always call each other by their first names. But the first time I hear you call me 'Pete' you may not be as welcome as you are right now."

Mayor Whiteside said: The first thing the colored men did to the balky mule was to hit him over the head with a scantling, knocking the animal down. "When you tell a mule to go, you have to first get his attention," the colored man said. Mr. Whiteside said that when we are faced with the complete exhaustion of our water it will be an attention getter.

A. J. Gardner: When we moved into our new postoffice building, we received only one bouquet of flowers to mark the occasion. We were feeling badly until Rev. A. W. Blaine came in with a beautiful bouquet of sweet peas he had grown himself. But, postmaster, did ye say Rev. Blaine or Mrs. Blaine did the work incident to growing the flowers?

The Pioneer Roundup speaker said: You young folks, don't feel sorry for these old timers and sympathize with the way they had to live, without many of the conveniences you take for granted today. They had almost none of these, but their neighborliness, fellowship, helpfulness to each other made up for many of these lacks. Do not be so sure that your happiness depends entirely upon all these conveniences and comforts.

When C. C. Mardis was a boy in Kentucky one could put a gallon jar on a tree stump with a half dollar under the jar. In the morning the jar would be full of whiskey. And Hugh Freeman says he's proud them conditions don't prevail any more as long as he is sheriff. Well, times change.

Mr. Mardis' folks moved to Kansas City and the young boy saw one of the first permanent buildings of that big city erected. He turned 90 not long ago, having been born April 8, 1860. Mr. Mardis has about quit work here of late, although he still owns a wood-working shop in the yard of his home. He has been here 40 years.

32 Seniors Graduated By Springlake School

Thirty-two seniors received their graduating diplomas at Springlake high school Wednesday night, May 17.

Dr. J. W. Marshall, president of Wayland College, Plainview, delivered the commencement address. Patsy Miller gave the valedictory address, and the salutatory address was by Betty McClannahan.

Mrs. Betty Parish played the processional and recessional. A sextet composed of graduates sang a number and Betty Joy Haberer presented a piano solo.

Supt. J. B. Riddle handed out the diplomas.

Earl Miller and Floyd Crawford gave the invocation and benediction.

The outstanding award was received by Tressiatene Harris.

The senior class left the next day for a trip via chartered bus to a dude ranch at Gunnison, Colo.

Lazbuddie School Graduates Nine—Commencement Exercises Held Fri.

Commencement exercises were held at Lazbuddie school Friday when nine students received their diplomas. Betty Engelking was valedictorian and Billie Coffman was salutatorian of this year's class.

Theme of the commencement program was "Better Citizens Through Education and was outlined as follows:

Processional, "Military March," Schubert.

Muleshoe Nine Beats Big Square

The Muleshoe baseball club defeated Big Square Sunday afternoon on their home field with a 32-0 score at the end of the nine inning tilt. Sunday they will play Lazbuddie II here. The game is scheduled to start about 2:30 p. m. Below is the way Muleshoe performed in last Sunday's game:

Player	F	R
Tibbetts	2	3
Clements	ss	3
Howell	1b	3
Wallace	3b	5
Howard	cf	3
Grey	lf	2
Gross	c	4
Rundell	p	0
White	p	0
Williams	1b	0
Wright	p	0

Total 21 32

White pitched a no-hitter until the sixth inning when he was relieved by Wright. Wright was relieved in the ninth inning by Howard. Big Square got three hits, all in the last three overtriples for Wallace. No homers were hit during the game.

Funeral For Former Muleshoe Man Sunday

Funeral services for Cleo Johnson, 43, of Dallas, and recently of Muleshoe, were held Sunday, May 21, at the Methodist Church in Den, Texas.

Mr. Johnson died Saturday. He was hunting near Decatur, Texas, and suffered a severe attack. He was rushed to a hospital there but died about 20 minutes after arriving.

He was born at Teague, Texas, January 18, 1907 and was reared in Freestone County. He moved to the Plains (Lynn County) in 1940 and moved to Muleshoe in 1945, and lived on Joe Bovell's farm north of Muleshoe. He later bought a farm near Progress and lived there until March of this year when he moved to Dallas.

Survivors are the wife; his father, T. A. Johnson; five sons, Dean Eugene, Henry, Cleo, Jr., and Freddie Johnson, all of Dallas; one daughter, Mrs. J. R. Wolfe of Haskell; one sister, Mrs. J. C. Devall of Wichita Falls; and one brother, Cecil Johnson of Dallas.

Commencement Exercises Climax This Year's School Activities

Post Office Cafe To Be Open Soon

West's Post Office Cafe will be open for business in the next few days. Workmen today were rapidly preparing the old post office room for occupancy of Muleshoe's newest eating place.

Mrs. Letha West, proprietor, said that opening day is still in doubt, but that it will be one day next week.

She is still operating the small restaurant she has owned the last year or so, just back of Western Drug. She said the new cafe will have a horseshoe counter with 16 stools; 2 corner booths each seating about eight; two 4-passenger booths; and two tables in the main dining room.

In addition she is fitting out a banquet room that will seat about 40 persons for private parties, luncheons, etc.

It will be a new cafe out and out, with new furniture and new equipment throughout.

Young Folks Plan Weekend Revival

The young people of the Church of the Nazarene, located at the corner of 9th and Avenue C, are sponsoring a week end revival beginning the evening of May 24 and continuing through Sunday, May 28.

The speaker will be Bill Burch, youthful evangelist of Muleshoe, N. M. The public is cordially invited to attend these services.

Bean Acreage Is Less This Year

The bean crop around Muleshoe likely will scale down to about 200 acres this year, James Case of the Muleshoe Canning Co. estimated this week. Some of the beans are still others are being planted.

Last year the Muleshoe country grew some 400 acres of beans but the canning company reduced their contracted acreage this year.

Case said many are now planting tomatoes, some using seed, others young plants. The Case family has about fifty acres of young tomato plants out and doing well so far. They estimate the tomato acreage here will likely run to 500 acres.

Three Injured In Head-On Collision West Of Sudan

Three people were injured in a head-on collision involving a 1950 Ford and a 1939 pick-up truck west of Sudan about 7:30 Monday morning.

Jack and Joe Lane, who were riding in the car were treated in the Amherst hospital for minor injuries. Joe Lane remained in the hospital for treatment of a broken nose.

Claude Gage, 70, driver of the truck, was taken to the Payne-Showwell Foundation for treatment of his injuries.

Both cars were nearly demolished in the collision.

BILL THOMSON FOLLOWS IN MOTHER'S FOOTSTEPS IN SPEECH

A quarter century after his mother's death, Bill Thomson followed in her footsteps in a speech contest at the state Interscholastic League Meet in Austin, Bill Thomson journeyed to Austin to represent his school and district in the speech contest at the state meet.

This coincidence was revealed when an item in "Memories," a turning back of 25 years in the Memphis Democrat, printed May 4 1950, told of Misses Jimmie Cooper and Ada Alexander, girl debaters, going to Austin for the state contests. Ada Alexander is Mrs. J. W. Thomson, Bill's mother.

The clipping told of the Memphis girls winning the bi-district championship over a Wichita Falls high school team. The story of the girls' debate team appeared in The Democrat May 7, 1925.

VISITS STOTTS

Fred Stotts and daughter, Nina, of Selling, Okla., and Carl Stotts, of Henessey, Okla., visited Monday to Wednesday here with their mother, Mrs. Emma Stotts, sister, Miss Lula Stotts, and brother, George Stotts.

IN AMARILLO

Ray Keeling, Muleshoe Buick dealer, made a business trip to Amarillo Wednesday.

Funeral Services For J. A. Pollard

Funeral services were held Sunday afternoon, May 14, at the First Baptist Church in Sudan for Andrew Jackson Pollard, 72, who died Saturday at 9 p. m. in the Amherst Hospital after an illness of three and one-half years.

Rev. Wayne Perry, pastor of the Baptist Church conducted the services with Rev. U. S. Sherrill, pastor of the Methodist Church assisting. Burial services were held at the Sudan cemetery.

Mr. Pollard was born August 6, 1877 in Guin, Alabama and moved to Sudan from Antlers, Oklahoma in the fall of 1924. He had been a member of the Baptist Church for 33 years. He married Sara Ellen Hogland in 1901. Mrs. Pollard passed away on March 29, 1943.

Mr. Pollard is survived by 4 sons, and 4 daughters: Artie Pollard, Rosenberg, Oregon; Odie Pollard, Snyder, Texas; Owen Pollard, Rosenberg, Oregon; Lester Pollard, Snyder, Texas; Mrs. W. N. Peacock, Sudan; Mrs. Ernest Smith, Amherst; Mrs. Bob Smith, Muleshoe; Miss Lorene Pollard, Abilene. Other survivors include 31 grandchildren, 12 great grandchildren and one brother, W. O. Pollard, Pittsburg, Texas and three sisters: Mrs. R. G. Wright, Guin, Alabama; Mrs. J. T. Meador, San Antonio, Texas; and Mrs. Grace Dunn, Walger, Ark.

Property Appraisal Survey Begun By City And School

Postal Patrons Improve Boxes

Splendid cooperation on the part of patrons of the two rural routes out of Muleshoe is noted by A. J. Gardner, postmaster, who last week completed his annual inspection of the condition of these two routes.

Mr. Gardner said many have purchased new boxes, some have replaced old ones on new poles, and many other improvements have been noted. The improvements, he said, not only help to make the farmsteads more attractive but make these routes better, too. Seventy-five per cent of the improvements suggested by the inspection have since been remedied already, Mr. Gardner said.

On the two rural routes out of Muleshoe there are now 546 boxes, and the two routes are serving 644 families.

Farwell To Have New Grid Coach

Two faculty members were added to the Farwell school corps at a recent meeting of the official school board. Supt. Jack Williams said today, with the positions of high school coach, and English instructor being filled.

Tommy Hestand, who hails from Dennison, Texas, has been elected as coach at the school, succeeding Louis Purvis, recently resigned. Hestand played high school football at Dennison under Pat Patterson, and holds his degree from Austin College at Sherman, where he was a member of the gridiron squad coached by Ray Morrison.

During the past year he has served as assistant coach in his home town of Dennison, the superintendent added, and is well qualified to the position he has accepted in Farwell.

Succeeding Mrs. Earl Booth as head of the high school English department will be Miss Jett Byerley, of Levelland, Texas, who is just concluding her work toward a degree from West Texas State College in Canyon, where she majored in English, speech and dramatics.

One resignation has been announced by the board, that of Mrs. Cordelia Williamson, who came to the school after the first of the year to take over the fifth grade. No successor to Mrs. Williamson has been elected as yet.

—State Line Tribune

Definite Address Of Fires Needed

In turning in a fire alarm by telephone, it is necessary that the person who notifies the fire department give the correct location of the fire. If possible the street and number of the house should be told, W. E. Young, fire marshal said.

Monday of this week the department spent quite a while searching for a fire.

Farwell To Have New Grid Coach

Two faculty members were added to the Farwell school corps at a recent meeting of the official school board. Supt. Jack Williams said today, with the positions of high school coach, and English instructor being filled.

Tommy Hestand, who hails from Dennison, Texas, has been elected as coach at the school, succeeding Louis Purvis, recently resigned. Hestand played high school football at Dennison under Pat Patterson, and holds his degree from Austin College at Sherman, where he was a member of the gridiron squad coached by Ray Morrison.

Johnson & Nix Have New Type Bale Loader

Johnson and Nix, International Harvester dealers of Muleshoe, are this week displaying what they think is one of the most revolutionary bale loaders ever manufactured.

This loader was demonstrated to a Journal representative Tuesday morning. It fits alongside the truck, trailer or wagon that is hauling the bales. The loader will pick them up and transfer them by means of an endless belt to the top of the carrier.

This loader will pick up bales in any position, cross ways, standing on end, on their sides, or laying straight. It will pick them up and straighten them in the conveyor. Johnson & Nix invite you to come out and see this loader in operation.

FROM LUBBOCK

Mrs. Dora McCarty of Lubbock was in Muleshoe on business the first of the week.

Certified Seed Said Need for Good Crops

Only by purchasing certified seed can a farmer make certain he is getting the best product available, says Dr. R. P. Moore, director in charge of the North Carolina crop improvement association.

Dr. Moore says seed are unique in that their breeding cannot be determined from appearance alone. To determine in advance the type of crop which a particular lot of seed can produce, it is necessary to know the history of the seed.

In the production of hybrid corn, the plant breeder probably will know much about the performance of the proposed hybrid before it is actually produced. After it is produced, it is put through a series of tests.

RETURN TO MULESHOE

Muleshoe Is Told How To Get Water From The Proposed Canadian Lake

The proposed Canadian river dam got a thorough airing when Mayor Clarence Whiteside, of Lubbock, one of the leaders in the movement, addressed a gathering of Muleshoe business and professional men at the Rotary club luncheon Friday. Mayor Whiteside spoke for a solid hour and held the attention of his listeners throughout.

In brief, he said Muleshoe could get water from the Canadian by extending the conduit from Littlefield to this city by getting in on the ground floor and by agreeing to use a certain amount of water from the dam at a stipulated price.

"A gallon of water from the Canadian is a gallon saved for irrigation," is the slogan being used by those who have fought for the dam project the last two years, and is the epitome of the entire thinking behind this proposal. A bill to authorize the Reclamation Bureau to build the dam has passed the House and now is in the Senate.

For instance, Mayor Whiteside produced figures to show that the city of Lubbock, with the wells now being drilled, will have 38 water wells to supply the city's needs. Since Lubbock was organized, he estimates, the plentiful water supply has been exhausted under 16 sections of land; and eventually, he believes, the city will exhaust its principal water resources under 50 to 75 more sections as the city extends its system while extending its city limits.

He called attention to the fact that many farm families could make a living on these sections by using irrigation water which, however, the city is using up.

The future of the Plains, he said is tied up with water. We have, he believes, a community interest, for people around Muleshoe are using water out of the same reservoir as are those at Tulia or Plainview or Lubbock. He estimated 15,000 wells are in use for irrigation in this area and he said that it is pretty generally accepted that the water level generally is declining. But where there is concentrated withdrawal, as in Lubbock's municipal system, the water actually is exhausted.

"We are not crying, 'Wolf! Wolf!'" the mayor said, but he said that if water is available from the Canadian, it seems only good business to go after it and get it for the cities of the Plains, and thus save water for irrigation on the Plains.

An \$81 Million Project
 Mr. Whiteside said the dam is expected to cost about \$27 million. It is proposed to erect it at a point in Moore County, not so far from Borger, and the place is known as the Sanford Reservoir Site. Amarillo and Lubbock are "prime movers" in the project, he said, although Plainview and other cities will participate.

Besides the cost of the dam, the pumping stations and conduits will cost about \$54 million. The reservoir is believed capable of supplying perhaps not all the cities' needs but a big portion of them for the next fifty years, with normal growth figured in.

Cities will contract for the use of a certain number of "acre feet" per year and pay their proportionate cost.

It is proposed to borrow the funds for the system from the Federal government, and repay 95 per cent of this loan, with interest. Mr. Whiteside emphasized that the Panhandle folks are seeking a gift—they will be benefited and are

willing to pay for their benefits. The Government would figure the public's interest in preventing future floods, providing recreation, etc., would justify their assuming 5 per cent of the cost.

He suggested that Muleshoe, Sudan, possibly Dimmitt or other towns might well join together to bring water to their people. He expressed a doubt that it would be feasible. He also said that if Muleshoe wants in on the system application should be made before the project is closed because it would take a vote of all participating communities to bring another town into it.

A closed conduit, 84 inches in diameter at the reservoir, gradually getting smaller toward the end, would bring water south to Amarillo, Canyon, Tulia, Plainview, Lubbock, Slaton, Tahoka, O'Donnell and Lamesa, with a branch line running from Plainview to Littlefield as now planned.

It is not contemplated that a lot of the water will be used for irrigation, but this will depend upon the supply, Mr. Whiteside said. If water can be spared to farms here and there, he saw no

reason not to do it, in fact thought it would add to the system's revenue.

Mr. Whiteside was introduced by Chief Jones, a member of the Rotary club and an old friend of the mayor. Each Rotarian brought a guest, and the private dining room at Gerald's was filled for the occasion. At the conclusion of his conversational talk, Mr. Whiteside was bombarded with numerous questions from his interested audience.

Sec. Brannan Calls U. S. Savings Bonds Good Farm Reserve

Washington, D. C.—Charles F. Brannan, Secretary of Agriculture, today urged America's farmers to buy bonds during the Independence Drive in order to build a financial reserve and assure future financial independence. He said:

"Farm people were the pioneers who settled the frontiers of America. As pioneers, farmers came to know the meaning and to appreciate independence through hard experience. They have never lost that appreciation. That's why 'Save for Your Independence' appeals strongly to farm people.

"In pioneer days independence usually was measured by the food, feed and fuel stored in reserve on the farm. A full storehouse spelled independence against 'rain days' and other emergencies which faced farmers then as today.

"A good measuring rod of independence for farmers and other Americans today is the number of United States Savings Bonds they have stored in reserve. I urge farmers to take the opportunity of the Independence Savings Bonds Drive to keep building their reserve in Savings Bonds and thereby maintain their independence."

Hospital News

Virgil Teague was in for medical care. He has gone home.

Mrs. A. P. Lambert was in several days for medical care. She has been dismissed.

Churchill Hightown an accident patient has gone home.

Joe Veazey a medical patient is doing much better.

Mrs. F. F. Bruns is in for medical care, she will soon go home.

Know More About Traffic Signals

STANDARD TRAFFIC SIGNALS

STANDARD VERTICAL ARRANGEMENT OF SIGNAL LENSES SKETCH E

What do you know about highway signals? If your knowledge is limited to the fact that you go when the signal shows green and stop when it shows red, you can make the problem of traffic control an easier one for your public officials by knowing more about traffic signals.

You can help bring about uniformity of traffic signals by learning to identify the standard traffic signal and then encourage your officials to use only standard types when they install new signal or replace existing non-standard signals. Wouldn't it be much easier for you to understand the indications given by the traffic signals if they were all of the same design in every town and state? In fact, standardization of traffic control signals is considered so desirable and important that the Fifteenth Legislature specified that all highway traffic signals installed in Texas after 1947 shall conform to National standards.

The sketch will help you identify the most common type of a standard fixed-time (stop and go) signal for suspension over the center of the highway. To be standard each face must have at least three lenses, with red at the top, yellow below the red, and green below the yellow. Additional lenses, showing arrows and walk-wait may be added at complicated intersections to provide for special movements of traffic. The standard position of the lenses is not only helpful to every motorist, but it is especially helpful to the color blind who can tell whether to go or to stop by the difference in brightness of the lenses when they cannot distinguish colors.

Muleshoe Cafe
Bill and Margaret Collins

time they are changing colors, which is not only confusing but also hazardous.

You can also help with the problem of traffic control by understanding the functions of traffic signals and their limitations.

A well designed and operated traffic signal installed on the basis of factual studies of the number of vehicles and pedestrians, accidents, speeds, delays, and physical conditions of the location can render invaluable service in the smooth and safe flow of traffic. On the other hand, an unjustified, ill designed, ineffectively placed, improperly operated, poorly maintained signal is not only a waste of public funds, but it causes unnecessary delays to traffic, disobedience of signal indications use of alternate routes, and often an increase in accidents.

After years of study and experience, National authorities have set out conditions that will justify the installation of a traffic signal. Unfortunately, too many traffic signals have been installed on the basis of opinion rather than facts, and upon the mistaken idea that they are a cure-all for all traffic problems. The result has been a hindrance to traffic rather than a help. How many times have you, as a law abiding citizen, been forced to stop at some insignificant cross street and wait for a signal to change to green when there was not a car or pedestrian in sight? Did this unnecessary delay improve your disposition and your respect for traffic signals? Another common fallacy is that a single stop and go signal can control speed, and this belief has resulted in a number of unjustified signals. The signal may slow down the speed demon or even stop him while the signal is red, but while the signal is showing green, it only offers a challenge for this speed demon to go faster to get by it before it does turn red. Traffic signals cannot write tickets for traffic violations, you still need traffic officers to enforce traffic rules and regulations.

Remember these things about traffic signals and do your part in the problem of traffic control by insisting that your local officers install only standard signals in the future and that they be installed only after a factual study has been made by a competent engineer to determine whether or not they will be a help or a hindrance to traffic.

Your Child
 A WEEKLY COLUMN

conducted by Claud C. Ruch
 Educational Director, Childcraft
 Advisory Service in Chicago

Indoor weather can be a problem for you mothers of active girls and boys, who are not prepared with suggestions for quiet play. The young school-age child particularly, when left to his own devices, can turn the house into a shambles in no time at all, by moving about furniture, rolling up rugs, and unintentionally turning over and breaking things.

By dinner-time, the living-room floor is marred, the sun parlor windows smudged with dirty finger prints, and the curtains are awry. And you are unnerfed from the noises made by bottled-up children who have been playing "Run, Sheep, Run," "Hide and Seek," or "Tug of War," in every room of the house.

Most of this confusion can be avoided by guiding the child into constructive channels of indoor play. In preparation for such times as these, he should be encouraged to have a special drawer, or shelf, or corner of the room in which he can keep games and toys for quiet hours. In Childcraft books, Ruby Bradford Murphy suggests "a Rainy-Day Box or a Mystery Bag, that can be filled up by the child and put away for just such an occasion." The box or bag should be big enough to hold an assortment of blocks, small bottles, buttons, beads, toy planes, marbles, a mouth organ, anagrams, dominoes, a game of authors, toy animals, and a favorite doll.

Building with wooden blocks and working jigsaw puzzles will keep children amused for hours when they have to stay indoors. Alphabet and word games and picture writing also offer many interesting possibilities. And, of course, there are always clay modeling, crayon drawing and coloring, and cutting out pictures from old magazines.

W. S. C. S. Of Y. L. Met May 18

The Y. L. W. S. C. S. met at the church May 18, at 2:30 with 12 members present.

The meeting opened by singing the song "We're Marching To Zion." Prayer was given by Mrs. Primer. Roll call and minutes were read and approved. We had a discussion on buying books for the church library.

Discussion on sending a colored girl to training school at Amarillo the first of June.

Meetings will be in the homes until the church is finished. Voted to raise our pledge 15 per cent. Also voted to send \$5.00 to nurses home in Alaska. The program committee met to make plans for the next meeting. Business finished the meeting was turned over to Mrs. Jones for installation of the new officers for 1950 and 1951. Begun by singing "Advance, O Church of God", prayer by Dottie Witterding. Then discussed the duties of the officers to be installed. Bro. Jones had charge of the installing. He led in prayer then the officers took their pledges. It was an impressive ceremony.

We are hoping to advance more in the future than in the past. We wish to invite everyone to join our studies each Thursday after the 1 and 3 Sundays of the month.

The next meeting will be June 8 at the home of Mrs. Joe Pinner's 1/2 mile east and 1 north of Y. L. church.

The group was dismissed with a prayer by Bro. Jones.

Mrs. H. Haberer Hosts PV Club

The Pleasant Valley Club met in regular session Wednesday, May 17 in the home of Mrs. Herman Haberer. Mrs. Harold Allison gave a delightful review of her hobby. In the absence of other officers, Mrs. Haberer presided over the business meeting. It was decided that the club would send a shower of home made candy to their "adopted" boy, Glendon Hill, at Boys Ranch Farm, and also to give cup towels to the Farm.

Refreshments of fruit jello, cake and punch were served to Mesdames, O. K. Angley, Harold Allison, Reeder, Oscar Allison, Seaborn Moore, E. K. Angeley, Raymond Roubinet, F. Andreas, and a guest, Mrs. A. L. Haberer of Rails.

MOTHER IN HOSPITAL
Mrs. J. E. Perkins, mother of Mrs. T. W. Berry was carried to the South Plains Co-operative hospital in Amarist Tuesday morning for treatment.

Attend Appreciation Day

Silk Shantung for Spring

Notched revers, drop shoulders, and a new Oriental cuffed sleeve effect are fashion highlights of this pure silk shantung suit dress. It has a straight, slit skirt, moonstone buttons and a Margie of A. Goodman label. The colors are shrimp, fawn, navy or black. Cosmopolitan magazine editors chose it for spring wardrobes. The price—about \$40.

KITCHEN MEMO BY JEAN CLARKE

The label of "boardinghouse dish" has been tagged to Trifle too long. When correctly made, it's a fit dessert for the most epicurean company into a shallow serving dish pour 1/2 cup sherry. Then put into dish 1 single layer sponge cake (two or three days old) cut into fairly thin slices, spread with currant jelly, raspberry or strawberry jam. While cake soaks up the wine make a boiled custard: Scald 3 cups milk in top of double boiler. Beat 3 eggs with 1/4 cup sugar and 1/2 tsp. salt. Pour the hot milk over this stirring constantly. Put back into top of double boiler, cook over medium flame. Stir continuously until just barely thick. Remove and stir in 1/4 tsp. vanilla. Let cool with cover on, then pour over cake in wine. Chill well. Decorate with dots of jelly or jam and whipped cream if you wish. 4 generous servings.

Several families in multiple buildings can share an average size gas incinerator because it burns up three bushels of garbage per hour. Operating cost is low.

Simple cheese sauce. Heat 1 cup evaporated milk over hot water, pour into 1/4 lb. grated Cheddar cheese. Stir gently until smooth.

Mushrooms shrivel up and toughen unless they are cooked quickly over a low flame.

A once-a-year check by an expert service man will keep the fuses of your gas space heater clean and unblocked.

Baked stuffed peppers, tomatoes, apples or onions keep their shape better if put into a muffin pan.

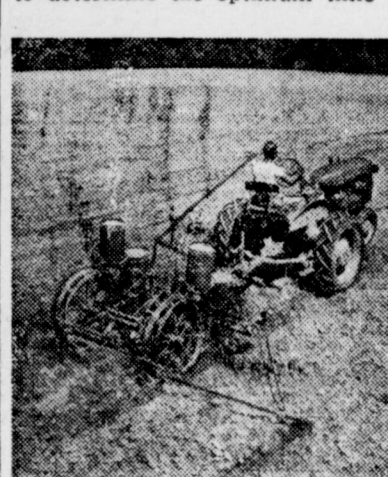

Farm Topics

Time of Planting Loss Curb Factor Earworm, Other Damage To Crops Avoidable

Earworm damage to field and sweet corn and to other vegetation can be reduced by the time of planting. Early tomatoes and string beans and alfalfa foliage, particularly in the late summer, are also damaged by earworms.

In this research it was soon observed that damage to early plantings by the earworm was related to the time of planting. This led to a series of studies on different varieties of field and sweet corn to determine the optimum time of

Here a farmer sets up work planting at the proper time—a practice that can curb earworm damage to field and sweet corn and other vegetables.

planting for least injury by the insect.

Recent observations have shown that the critical stage of injury is the silking date. It was learned that three-fourths of the earworm eggs laid on corn silks were deposited on fresh silks before the silks started to wilt.

Dates of planting field corn in the midwest that are recommended as a result of this research are May 1 for field corn; May 1 for sweet corn varieties requiring long growing seasons; May 15-18 for varieties of sweet corn needing medium growing seasons.

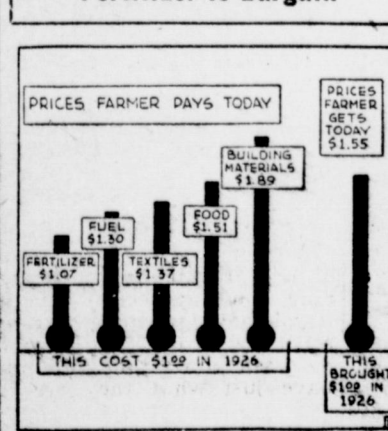

IPC, New Weed Killer, Showing High Promise

The new alphabetical weed killer, IPC, that was humorously hailed as the eventual successor to the lawnmower in press releases because of its grass growth control possibilities, is in reality showing a tremendous promise as a selective grass killer in a variety of crops.

Virgil Freed, associate agronomist for the Oregon state college agricultural experiment station, reports this to be the case after experiments with the weed killer.

Conceding that work with IPC as a lawn grass growth regulator is still in its earliest experimental stages, Freed points out that IPC's uses as a weedy grass killer in legumes, seed crops, vegetable crops, strawberries, orchards and perennial grasses are advanced enough to tab the chemical nearly as valuable as 2,4-D.

Fertilizer Is Bargain

How much you get for a dollar you spend today as compared with what you could have got back in 1926, depends on what you buy with that dollar.

U.S. bureau of labor statistics show that building materials that could have been bought for \$1 back in 1926, cost \$1.89 today. Food that would have cost \$1 back in those days, now costs you \$1.51. A dollar's worth of textiles at 1926 price levels, today costs \$1.37. Fuel and lighting materials cost \$1.30.

Remote-Control Switch Convenient for Farmers

Farmers now can turn their farm yard light off and on from a half-dozen places with a new, remote-control multiple switch.

A farm electrification specialist explains that the heart of this new control is a magnetic relay which will turn the light on or off from as many points as desired by means of simple push-button switches. It is said the unit is very economical to operate and easy to install.

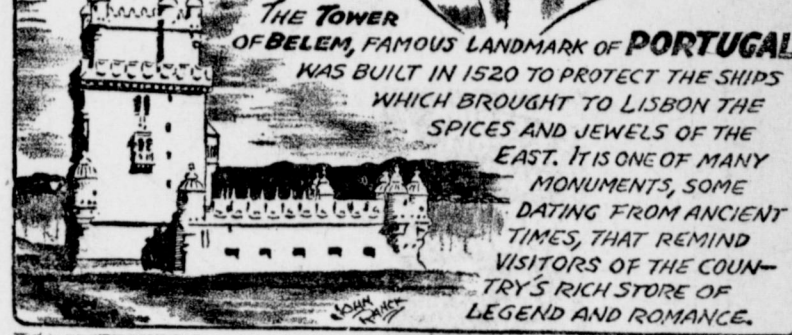

THE MULESHOE JOURNAL, Thursday, May 25, 1950

Pic-Tours of Europe

DENMARK HAS MADE THE HOME OF HANS CHRISTIAN ANDERSEN IN ODENSE INTO A MUSEUM WHICH EVERY YEAR ATTRACTS THOUSANDS OF TOURISTS WHO FONDLY REMEMBER HIS "ONCE UPON A TIME" FAIRY TALES.

ANDERSEN, WHO WAS BORN IN 1805, WANTED TO GO ON THE STAGE. HE FAILED AT THAT, BUT WON WORLD-WIDE FAME WITH HIS WRITING.

THE TOWER OF BELEM, FAMOUS LANDMARK OF PORTUGAL WAS BUILT IN 1520 TO PROTECT THE SHIPS WHICH BROUGHT TO LISBON THE SPICES AND JEWELS OF THE EAST. IT IS ONE OF MANY MONUMENTS, SOME DATING FROM ANCIENT TIMES, THAT REMIND VISITORS OF THE COUNTRY'S RICH STORE OF LEGEND AND ROMANCE.

Light Bulb System Hastens Vegetables Speed Up Development In Backyard Hotbeds

Burn 25-watt light bulbs in a backyard hotbed and you'll eat your own early June peas next May.

That advice for home gardeners comes from Robert L. Zahour, Westinghouse lamp engineer. Such miniature "greenhouses" warmed by low-power bulbs hurry vegetables to the table 10 days ahead of regular seed plantings outdoors. Flower seeds started in hotbeds are brought to bloom one month earlier, he added.

The 25-watt bulb is best for hotbeds because higher wattage bulbs are more apt to create hot spots in

Seedlings coddled in electric hotbeds like these hurry vegetables to the table 10 days earlier and bring flowers to bloom a month earlier.

the soil, stunting seed growth or scorching the tender young plants. The cost of a bulb-heated hotbed averages only three-tenths of a cent per plant for electricity during the entire six-weeks season in northern United States, the engineer calculated. This is 30 per cent less than the cost of soil heated by electric cable and only half the cost of manure. Manure, which requires soil preparation such as digging into frozen ground, depends upon fermentation for its heating effect in a hotbed.

Screen-Up Tips

"Screen-up" time has come again and here are some tips on screen care from Chicopee, makers of Lumite screening:

First, repair or replace worn screening. Second, give screens good cleaning with stiff brush. Third, tighten all loose joints. Fourth, wash or paint window frames.

Eye Brightener

Tired and smarting eyes respond to a refreshing eye bath. Wring out two sterile gauze pads in witch hazel. Place the pads over the closed eyelids for five minutes. These few minutes bring soothing results. Where eyes are concerned, it's important to avoid rubbing and it's smart to use only sterile pads.

Entertained With Dinner

Tuesday night, May 23, Mr. and Mrs. Clyde Holt, retiring Worthy Patron and Matron of the Muleshoe Chapter Order of the Eastern Star, entertained their officers and past Matrons and Patrons with a dinner at El Monterey in Clovis.

Those attending were Mesdames Mary DeShazo, Bettie Burkhead, Margaret Collins, Jo Wood, Mary Hart, Helen Gardner, Ruby Cox, Elizabeth Gardner, Virginia Wyer, Anna Lucy McAdams, Viola Layne, Lela Barron, Mildred Lambert, Beulah Carles, Jackie Tate, Melzine Elliott, Nona Blake Douglass, Thelma Griffiths, Beth White, Miss Elizabeth Harden and the host and hostess.

Pink And Blue Shower Honors Mrs. Joe Ferris

Mrs. Joe Ferris was honored with a pink and blue shower in the home of Mrs. Carl Barnert with Mrs. Dewitt Precure as co-hostess.

Those attending were Mesdames Chet Horsley, Martin Alliver, Herbert Nash, George Johnson, Ben Porter, C. D. Rogers, C. E. Hoover, C. W. Weeks, Ardell Robertson, J. W. Owens of Portales, Rebecca Owens of Portales, the honoree mother Mrs. Douglas Owen of Portales and the honoree.

Many sent gifts who were unable to attend.

SPRING PLAID
Bright new fashions are blossoming with the arrival of spring. One of the outstanding new cottons this season is a barlequin plaid sundress in green and blue gingham by Galey and Lord. The National Cotton Council reports that colorful plaid cottons will be among the most popular fashion fabrics this spring and summer.

Society News

THE MULESHOE JOURNAL, Thursday, May 25, 1950

Rainbow Girls Hold Installation

Public Installation for the Assembly of the Rainbow for Girls was held in the banquet room of the Masonic Hall, Sunday, May 21 at 3:00 o'clock, with Miss Peggy Jo Robinson installed as Worthy Advisor.

The Hall was beautifully decorated with climbing red roses on trellises at each window and at the stations of Worthy Advisor, Worthy Associate Advisor, Hope and Charity. A bowl of red roses was on each color station.

Miss Kay Malone, Grand Representative from Texas to New Mexico was introduced and seated in the East.

OES Officers will Be Installed May 31, 8 p. m.

In a private Installation service the officers for Muleshoe Chapter No. 792 Order of the Eastern Star for the year 1950-51 will be installed in the Masonic hall, Wednesday night, May 31, at 8:00 p. m.

Installing officers will be: Mrs. Mary DeShazo, Installing Officer; Clyde Holt, Installing Patron; Mrs. Gladys Laing, Installing Marshal; Mrs. Elizabeth Gardner, Installing Organist; Miss Elizabeth Harden, Installing Chaplain; Mrs. Beulah Carles, Installing Secretary.

Officers to be installed are: Mrs. Margaret Collins, Worthy Matron; R. J. Klump, Worthy Patron; Mrs. Bettie Burkhead, Associate Matron; J. E. Mills, Associate Patron; Mrs. Lou Green, Secretary; Mrs. Dorothy Barron, Treasurer; Mrs. Viola Layne, Conductress; Mrs. Ruby Cox, Associate Conductress; Mrs. Lucy McAdams, Chaplain; Mrs. Lela Barron, Marshal; Mrs. Helen Gardner, Organist; Mrs. Jo Woods, Adah; Mrs. Beth White, Ruth; Mrs. Grace Lane, Esther; Mrs. Nona Blake Douglass, Martha; Mrs. Lola Bray, Electa; Mrs. Hattie Ray Jones, Warder; Mrs. Bertha Johnson, Sentinel.

The Worthy Advisor introduced her father and mother, Mr. and Mrs. S. L. Robinson and presented them with a rose corsage. All past Mother Advisors and Worthy Advisors and the Advisory Board were introduced. Miss Robinson was privileged to have her grandparents at her installation and they were introduced behind the "bow".

A short program was rendered. Mrs. Loyd Roberts sang "Our Yesterdays" accompanied by Mrs. Ruth McCarty. Miss Joyce Blackburn gave the reading "The Wild White Rose". Miss Dixie Jennings sang "Ave Marie" accompanied by Mrs. C. W. Grandy.

Gifts were presented to Miss Sondra Wagon retiring Worthy Advisor and Mrs. Janet Wagon retiring Mother Adviser by Miss Robinson in behalf of the Assembly in appreciation for the many services they had rendered the Assembly.

Miss Robinson presented each of her Installing Officers with a gift, also Miss Elizabeth Harden for the work she had done on the year-books.

Installation was closed with the benediction by Eddie Lane. Refreshments of cake and punch were served from a beautifully decorated table laid with a lace cloth with a bouquet of white iris as the center piece. Miss Wagon presided at the punch bowl.

Rainbow Girls Initiate Three OES Officers

Last Thursday night Muleshoe Assembly of Rainbow for Girls initiated Misses Barbara Hinkson, Janice Twiliger, and Bettie Collins into the Order.

Tuesday morning, May 23, 20 Rainbow girls left on their trip, going to Ruidosa. The group plans to return Friday. Sponsors taking the girls were Mesdames Roy Jordan, Clifford Green, Jewel Mills, and Naomi St. Clair.

HALF CENTURY MET WITH MRS. GILBREATH

The Half Century Club met in the home of Mrs. Gilbreath May 18, with three visitors and eight members present.

All enjoyed the afternoon with games and visiting. Delicious refreshments were served.

The club will meet with Mrs. Frank Snyder, June 1, in an all day meeting with covered dish luncheon at the noon hour.

VISIT IN LITTLEFIELD

Mr. and Mrs. M. F. Cooper visited Sunday in Littlefield with their daughter and her husband, Mr. and Mrs. Earl Dow.

Wesleyan Guild Elects Officers

In the home of Mrs. Fred Johnson, Monday night, May 22, the Wesleyan Service Guild met in regular session and for the purpose of electing officers.

Mrs. Jim Burkhead gave the devotional and Mrs. Harold Wyer brought the program, she spoke on the life of missionaries, their trials and joys.

Officers elected to take office in June were: Miss Elizabeth Harden, President; Mrs. A. S. Stovall, vice-president; Mrs. Harold Wyer, secretary; Mrs. Morris Childers, treasurer.

Three Way WMS Has Royal Service Program Monday

Three-way W. M. S. met in the home of Mrs. M. D. Gaddy Monday evening May 22 at 8 p. m. with Mrs. Andrew Wittner in charge of the Royal Service program. It was a very interesting and inspirational playlet about the radio; how it has and is being used for the advancement of Christianity, rendered by Mrs. Amos Sedgwick, Mrs. Adolph Wittner, Mrs. Edwin Neutzler, Mrs. D. P. Brinker, Mrs. Roland Shepard, Mrs. Pete Castle and Peggy Wittner.

Several songs were sung by Mrs. Brinker, Mrs. Gaddy, Mrs. S. D. Key. Prayer by Mrs. W. R. Byers, R. B. Wittner sang "Speak To My Heart" accompanied by Joyce Brinker.

A short business meeting was conducted by the president, Mrs. Gaddy. Dismissal with a prayer led by R. B.

Monument Lake W.S.C.S. Met Tues.

The Monument Lake W. S. C. S. met at the Church May 16 for a regular meeting. With Mrs. Pete Talton as hostess.

The Devotional Service was led by the pastor, W. H. Kirby. A very interesting talk was given by Mrs. Jno. Shackleford on "Federation of Methodist Women". A discussion on plans for Vacation Bible School followed.

There will be a called meeting May 23rd to continue the Study Course on Women of Scripture.

Delightful refreshments were served by the hostess to W. H. Kirby, Doris Kirby, Carrie Huff, Mrs. Pete Sanders, Mrs. Jno. Shackleford and Mrs. J. G. Ann.

James Jennings Receives Degree

ABILENE—Commencement exercises for McMurry College seniors were conducted in the gymnasium here Tuesday morning.

E. B. Anderson, chairman of the state board of education, was the principal speaker. President Harold G. Cooke conferred honorary doctorate degrees upon Anderson, the Rev. J. Edmund Kirby of Sweetwater and the Rev. A. C. Douglas of Las Cruces, N. M.

One hundred thirty-five McMurry seniors received diplomas or certificates.

McMurry seniors included: James Jennings of Muleshoe. The son of G. O. Jennings, James majored in history and minored in English.

retary; Mrs. N. H. Greer, Spiritual Life; Mrs. Ray Edwards, Missionary Education and Service; Mrs. Fred Johnson, Christian Social Relations.

Mrs. Curtis Spivey the outgoing president was presented a gift from her officers in honor of the work she has done so faithfully for the Guild this year.

Delicious refreshments were served by the hostess to Mesdames Wyer, Jim Cox, James Case, Gilbreath, Olin Jennings, Buford Butts, Burkhead, Spivey and Miss Elizabeth Harden.

The next meeting will be Monday night, June 12 at a place to be announced later.

Progress W. M. U. Meets Monday

The Progress W.M.U. met Monday at 2 p. m. in the Baptist Church.

The meeting was opened by Lillie Ruth Lee leading the group singing "Blessed Assurance." Mrs. H. C. Lee led prayer and Mrs. Henry read the minutes. Mrs. Roney gave a short devotional.

Because of the thunder showers last Monday afternoon the W.M.U. did not meet, so our royal service was held at this meeting. A dialogue was dramatized by Mrs. Henry, Mrs. Houston, Mrs. Roney and Mrs. Pugh the dialogue was about how radio programs help spread the word of Christ to South America and other foreign lands.

Each of us can help send the gospel to these spiritual hungry people by contributing to the radio stations or organizations that make such broadcastings possible.

It was surprising to learn that so many people will gather in a home just to hear one half hour of good preaching.

The meeting was closed with prayer led by Mrs. Bishop.

Those present were: Mesdames J. J. Redwine, C. A. Bishop, H. T. Pugh, E. H. Locker, H. C. Lee, Clyde Henry, Raymond Houston, and Vernon Roney. One visitor Miss Lillie Ruth Lee.

Eight Sunbeams: Wayne and Shirley Holland, Shirley Henry, Lee, Wayne and Glenna Roney, Marie and Eugene Houston.

The next meeting will be Monday May 29th at 2 p. m. at the Church house.

Longview WMS In Meeting

The W. M. S. of Longview Baptist Church met Tuesday at nine o'clock at the church house.

The program "Family Altar" was in charge of Mrs. I. L. Kitchens.

The song "What A Friend" was sung. Mrs. J. W. Dawson brought the devotional "Whom Shall Ye Serve". What is a Family Altar was discussed by Mrs. T. H. Clem. Mrs. A. E. Glenn gave a talk on Devotionals in the home. Mrs. Wesley Dement told the work of one of the Home Missionary and how she was helping the unfortunates in the homeland.

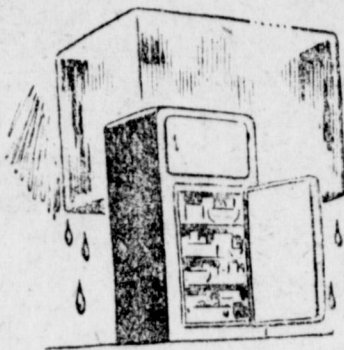

Air Ambassador was given by Mrs. Buford Hunt, Mrs. Wesley Dement dismissed by prayer.

Those present were: Mesdames Lee Sloyden, J. E. Moore, Melvin Ehrhridge, Carl Heard, Buford Hunt, Wesley Dement, T. H. Clem, J. U. Dawson, Orville Lackey, A. E. Glenn and I. L. Kitchens.

Circle one will meet next Tuesday at 2:30 in home of Mrs. Melvin Ehrhridge.

Cancer deaths numbered only 41,000 in 1900 but this year, the American Cancer Society points out 200,000 will die of cancer.

OFFERS TO PAY FRIENDS IF HADACOL DOESN'T HELP

HADACOL HELPS SUFFERERS OF VITAMIN B₁, B₂, NIACIN AND IRON DEFICIENCIES

Mrs. Wallace tells her granddaughter, Maynell Wallace, over the phone how HADACOL brought relief to her.

Mrs. Belle Wallace, 449 Formwalt St., S. W., Atlanta, Ga., is so grateful to HADACOL for the blessings it has brought her that she has recommended HADACOL to a number of her friends. She told them she would pay for their bottles of HADACOL if it didn't help them. She explains with a smile that she hasn't had to pay any of her friends, because HADACOL has helped them.

Mrs. Wallace, who is 74 years old, has five children, seven grandchildren and two great-grandchildren. She was suffering from a deficiency of Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains.

Mrs. Wallace said: "I couldn't sleep or eat until I started taking HADACOL. I'd lie awake and toss and turn until the small hours of the morning. I was highly nervous. I couldn't even thread a needle. But, since I've been taking HADACOL, my nerves are as steady as can be. I couldn't eat because when I did my stomach would puff and bloat and fill with gas. I am on the 7th bottle of HADACOL and my stomach is so much better.

Why Be Satisfied With Temporary Relief?

HADACOL also helps build up the hemoglobin content of your blood (where Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs—even to the eyes, hair and nails) to help repair the damage that such a deficiency may be causing there. Countless thousands are benefiting from HADACOL. Why don't you give it a chance to help you? Why continue to suffer? Remember, HADACOL doesn't give temporary relief. Instead, it treats the real cause of your illness when, as so often, it's due to such deficiencies. That's why it's so effective; that's why it is accomplishing such amazing results.

You'll Feel Great . . .

. . . with the first few bottles you take, or your money back. There is only one HADACOL and it is sold on a strict money-back guarantee. So give this remarkable HADACOL medicine a chance to help you. It's never too late to start taking HADACOL. Many who despair of improvement found that HADACOL was almost like a miracle for them. Remember that HADACOL is amazingly different and amazingly effective because it treats the real cause of deficiencies of Vitamins B₁, B₂, Niacin and Iron. Make up your mind to take HADACOL regularly. Refuse substitutes. Insist on the genuine. You can't lose a cent, because it's sold on a strict money-back guarantee. Only \$1.25 for Trial size, Large Family or Hospital size, \$3.50.

Appetite Good

"I have a good appetite and my stomach does not bloat or fill with gas. I sleep like a log. I have recommended HADACOL to a number of friends and have told them that if it didn't help them, too, I'd pay for it, but I didn't have to because HADACOL did help them. HADACOL has done me more good than anything I have ever taken."

© 1950, The LeBlanc Corporation

Coffee Honors Aurelia Sanders

Mrs. Homer Sanders Sr., honored her daughter Aurelia Sanders of China Lake, Calif., Tuesday morning with a coffee at the Cross Roads Cafe.

The center piece for the table was a bouquet of sweet peas, surrounded by pinks holding streamers from the sweet peas in various colors. Favorit were corsages of sweet peas.

Guests attending the coffee were: Mrs. Sam McLarty, Mrs. Elvin Crow, Sudan, Mrs. G. S. Dowell, Mrs. Buck Wood, Mrs. Dudley Malone, Mrs. Emmette Cross, Mrs. Howard Elliott, Mrs. Julian Lenau, Mrs. Jack Epps, Mrs. Neil Rocky, Miss Mildred Davis, Mrs. J. M. Forbes, Mrs. Harold Wyer, Mrs. Elvin Smith, Mrs. Henry Williams, Mrs. Homer Sanders Jr., Mrs. Homer Sanders Sr., and the honoree.

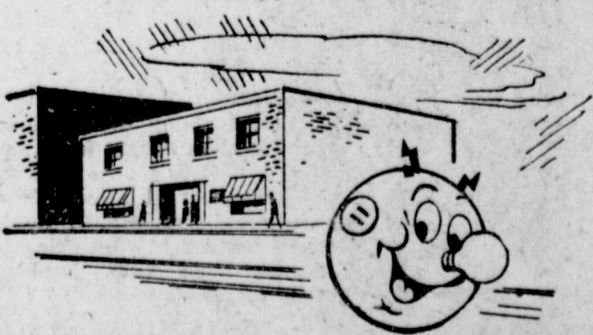

NEIGHBOR

YOUR SOUTHWESTERN PUBLIC SERVICE REPRESENTATIVE

One of the most important parts of Public Service is being a part of the community life in the cities and towns we serve. Wherever you find a Public Service representative, you'll find a "good neighbor." You know him . . . he might go to your church, perhaps his kids play ball with yours, or maybe you worked with him on last year's Red Cross Campaign.

But, whoever he is, you'll find him an active member of your community, truly dedicated to "Public Service" . . . making certain there is low-cost, dependable electricity to meet every community need . . . helping to make your community a better place to live.

SOUTHWESTERN PUBLIC SERVICE COMPANY
25 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Get Set For a "Best" Dressed Vacation

We "shoulder" your vacation cleaning chores . . . point the way to good grooming the Summer through!

No matter your vacation date—our rapid service assures your cleaning in ample time!

We point up the details with flawless pressing at waist and hips . . . sharp, immaculate trouser creases.

Send us your dresses, blouses, suits and coats too. We assure cleaning perfection!

You'll be more than pleased with the exacting results of any minor alterations your vacation wardrobe may require.

CITY CLEANERS and ELLIOTT MENS WEAR

Good Care Can Give Farm Tires More Wear Eight Ways Farmers Can Use to Keep Down Cost

Tire service experts say there are eight things the average farmer can do to get the best possible return on his \$200 or more investment in the tires on his vehicles. And coming just at the start of the planting season they serve as timely suggestions.

According to the B. F. Goodrich farm service department, farmers observing these tips will not only protect their tires and make them last longer, but will obtain maximum efficiency from their equipment:

1. Check air pressure twice a month, taking reading first thing in the morning when tires are cool. Never release air from tires

Regular examination of farm tires and prompt repairs to cuts, bruises or other damage may prevent most costly repairs. Gaywood Wagner, Freehold, N. J., is shown inspecting a sidewall cut in one of the multi-ring front tires on his tractor.

after running tractor for long periods in hot sun. This will result in under-inflation and possible tire damage when casing cools off.

2. Do not permit grease or oil to remain on tires. This shortens the life of rubber. Wash off chemicals which accumulate after spraying with tractor.

3. When using liquid weight in rear tractor tires, do not fill tire more than three-quarters full of liquid. Maintain correct air pressure, because a slight leak under this condition will cause a much greater decrease in pressure than if the tire were 100 per cent air-filled.

4. When tractor is not in use for long periods, jack it up and cover it. Inflate tires to recommended pressure before putting tractor back in service.

5. Always use valve caps to keep out dirt and moisture and to prevent possible trouble from leaky valves.

6. Examine tires regularly for signs of damage and remove stones and other foreign objects from treads. Have cuts, bruises or other tire damage repaired as soon as they are discovered.

7. Choose correct size when purchasing tires, keeping in mind the load they must carry and the particular job for which the tractor is used.

8. Drive carefully at all times—especially on the highway—to obtain longer life from tires and to extend your own.

Power Saw

A new lightweight portable power saw, weighing only 25 pounds complete with blade and chain, recently has been placed on the market. The unit is designed for cutting cordwood, snail clearing, felling, and bucking timber, making posts, and tree surgery.

Secretary Brannan Pays Tribute to Homemakers

Secretary of Agriculture Charles F. Brannan paid tribute to three million homemakers in home demonstration work in special messages during the annual Home Demonstration week.

He said: "Better informed, more prosperous, healthier and happier rural people are most important assets to our democracy. As you look around your homes you must be conscious of your efforts."

LEGAL FORMS, Notes, Bill of Sale, etc. at The Journal.

Registered Jersey For Muleshoe Farm

COLUMBUS, O.—Grady Robbins of Muleshoe, has purchased one registered Jersey, Double Standard Bell, from the herd owned by Harvey Coffman of Baileyboro.

Jerseys are registered at the national office of The American Cattle Club in Columbus, Ohio. The Club has kept complete records on all registered Jerseys in the United States since 1868.

Jerseys are especially noted for producing milk that averages more than five per cent butterfat. The breed also calves and begins producing milk from three to six months sooner than other dairy breeds. This means faster herd building and earlier milk checks.

Williamson Is Work Unit Leader

Henry Williamson has been named Work Unit Leader for the Blackwater Valley Soil Conservation District, to succeed James L. Moore, who was transferred to Matador.

Mr. Williamson has been with the local office for several years. He has assumed his duties in his new capacity.

More than \$13,000,000 has been spent on research by the American Cancer Society during the past five years.

and makes Jerseys increasingly popular with dairymen.

Local People At Soil Meeting

Several local men attended the big soil conservation meeting and banquet held in Tullia Friday night, at which time Governor Allan Shivers was the principal speaker.

In the group from Muleshoe were Karl Lovelady, J. K. Adams, Jesse Osborn, B. H. Black, H. E. Schuster, C. D. Black, Virgil Nowell, J. D. Henderson, Ray Carter, and Henry Williamson.

The meeting was held under auspices of State Soil Conservation District No. 1 composed of 52 Panhandle and Plains counties.

The American Cancer Society is financing 285 research grants to study the causes of cancer and find new cures.

Secretary of the Treasury John W. Snyder, right, looks very pleased as Sales Director Leon J. Markham of the United States Savings Division shows him the symbol for the Independence Drive.

Fifty-four fellowships to train research scientists have been awarded this year by the American Cancer Society.

PIANO RECITAL TO BE HELD AT FELLOWSHIP HALL

Mrs. C. S. Holland will present ten of her piano students in recital at Fellowship Hall, Monday evening, May 29, at 8:30.

Students playing on the program are: Jaqueta Nowell, Quineil Elliott Polly and Sandra Briscoe, Doris and Pat Childers, Beverly and Sherry Stine, Betty and Irene Shanks.

MULESHOE LIBRARY TO BE CLOSED

The Muleshoe Library, in the Courthouse, sponsored by Muleshoe Study Club will be closed from May 29 until June 12.

Mrs. E. R. Wright, librarian, will be on her vacation at that time.

VISIT SON'S FAMILY

Mrs. Mary Butts, of Shattuck, Okla., is here to visit her son, Buford Butts and family.

Mr. Cavalier Visits Muleshoe

Mr. Cavalier visited Muleshoe in person Monday afternoon. He arrived amid a caravan of trucks promoting the new Cavalier cigarettes being manufactured by the R. J. Reynolds Tobacco Company, makers of Camel cigarettes. He passed out sample packages of the new cigarette to almost everyone in town.

He was outfitted as many of us would suppose a cavalier of several centuries ago would dress. He was dressed in a red suit and boots flaring open at the top in buccianer style. He wore a wide-brimmed French hat and was sporting a Van Dyke beard and mustache. A rapier was hanging from a white belt at his left side.

Mr. I. C. Penry, Amarillo tobacco distributor, was in charge of the caravan which visited Muleshoe and other towns in this area.

If recent trends continue, the American Cancer Society warns, the annual death toll from cancer will double in the next 50 years.

RED CROSS HAS RECORD NUMBER SERVING U. S. MILITARY FORCES

With U. S. military forces at five times their prewar strength, a record number of American Red Cross workers are serving them throughout the world.

More than 2,000 Red Cross representatives today are stationed at 1,300 military installations and 123 hospitals here and overseas. About 1,400 staff workers are serving troops in this country. The others are working at occupation and defense posts abroad. Only during the peak years of World War II were a larger number on duty.

The duties of these Red Cross workers are as varied as the locale in which they work, involving a wide range of welfare services that contribute to military morale. They may include tiding over a soldier's wife with grocery and rent money until her family allowance check comes through, or getting a welfare report on an Eskimo serviceman's mother via weather bureau radio. Sometimes it means getting word of a family emergency to a sailor with the fleet in the Mediterranean.

Service of the Red Cross worker in a military hospital may be helping a man through the difficult hour when he learns that he will never be well again or removing the worry that often stands in the way of his recovery.

Under federal statute and regulations of the Army, the Navy, and the Air Force, the American Red Cross furnishes volunteer aid to the sick and wounded of the armed forces and acts in matters of voluntary relief and as a medium of communication between the people of the United States and their armed forces.

In the last year Red Cross staff members handled more than 102,000 welfare cases in military hospitals. More than 500 professional Red Cross workers are stationed at 40 army hospitals, 26 navy hospitals, and 14 air force hospitals.

For the able-bodied, too, whatever the problem or wherever the serviceman is stationed, the chances

The Red Cross man at Hickam Air Force base, Hawaii, lead a helping hand to a young marine, enroute from Kwajalein to his Maine home on emergency leave.

are that the Red Cross has a field worker on the spot or nearby who can help try to solve it.

In this country 361 field directors and their assistants cover 143 base stations, 31 substations, and 923 itinerant stations. During the last year field directors at camps handled more than 672,000 cases. Health and welfare reports requested by servicemen or their families were the most common type of help asked for. More than 179,000 such cases were recorded.

The next most frequent type of request was that involving leave or extension of leave. The Red Cross cannot grant leave, but military authorities depend upon the organization for reports of conditions underlying leave requests. These cases run into many thousands each year.

Abroad, Red Cross coverage is almost as complete as in this country. In Japan alone, 159 men and women are serving occupation troops at 31 military installations and 14 hospitals. Other parts of the Far East are equally well staffed.

In Europe, 248 Red Cross workers serve military personnel and their dependents at 51 military installations and 15 hospitals, most of them in occupied Germany. Coverage is also given in England and to miscellaneous units still in France.

Summer Eggs Must Always Be Kept Cool, Odor-Free

The poor quality of summer eggs is not the fault of the hen. "Hot-weather" eggs, with their thin whites and flat, weak yolks cause many people to stop buying them.

This waste could be prevented, top poultrymen say, if farmers would gather eggs at least three times a day in hot weather.

All handlers of eggs need to keep them cool at all times, and away from odors.

Alfalfa Moving In This Section

Alfalfa is moving rapidly in the Muleshoe territory these days. A trip through the country reveals many farmers busy with mowers and many fields have the bales lying about ready for the trucks to load up.

Some forty loads of new alfalfa were weighed at one elevator alone Tuesday.

Truckers from a distance are moving in to take the hay to distant markets. A trip through the surrounding country reveals, also, that there is a rather large acreage of alfalfa.

and you are sure to find interesting and unusual ways of preparing both sweet and Irish potatoes," the specialists point out. "Remember that milk and potato combinations are ideal for energy and body building and health protection, and include these dishes in your menus too. For example, try potato chowder, potato soup, scalloped potatoes, or potatoes and cabbage with cheese sauce. And don't forget the grated sweet potato pudding, potato pancakes, potato puff, or potato bread, rolls and doughnuts."

Poppy Day Sale Set Here Saturday

DISABLED VETERANS BENEFIT FROM POPPY SALE

Annual Poppy Day Sale will be held in Muleshoe the coming Saturday, under auspices of the American Legion Auxiliary and will be down town all day.

Contributions will be accepted in any amount and everyone is asked to wear a poppy in memory of our disabled veterans.

The auxiliary pays for the pop-

pies, keeps a part of the proceeds here for veterans aid, and sends one third of the receipts to the national headquarters of the auxiliary for veteran relief.

The disabled veterans make all the poppies, which are sold throughout the nation, and use their money for various needs, recreation etc.

VISITORS FROM MUNDAY

Mrs. W. C. Cox, of Munday, is visiting her brother and family, Mr. and Mrs. Curtis Spivey and family.

VISITS IN HORSLEY HOME

Miss Junitta Smiley, of Munday was visiting in the Horsley home a few days.

Twenty-five cents of every dollar given the American Cancer Society is spent on cancer research.

MULESHOE BREAKS INTO THE LIFE MAGAZINE

The name "Muleshoe, Texas" broke into print in the Life Magazine this month, maybe in a round-about way.

Dr. West Toothbrush had a page ad. (page 4, May 22 issue) telling how the Dr. West product was a favorite everywhere and said: "In Bowstring, Minn., in Muleshoe, Texas, in Watts Flat, N. Y., in Sugarloaf, Calif." etc. Many local people noticed the allusion to our home town in this widely circulated magazine.

No Smoking Ban At Wayland Receives Acclaim

PLAINVIEW, May 24—President J. W. Marshall of Wayland College said here today that he has received wide-spread support for the provision, recently approved by the trustees, that all teachers, staff members and students are to be those who do not dance, drink, gamble or smoke.

He characterized his program as "a positive one which includes high academic and moral standards and a world outreach."

One letter from a Baptist layman of West Texas strongly supported the stand and told of his recent decision which will mean \$100,000 for Wayland College.

Student Support
At a chapel meeting this week President Marshall asked for an expression from students and faculty about the program. An accurate count of those present was not made, but it was unofficially estimated that more than 90 per cent expressed approval of the new program.

Those asked to indicate their views included all teachers who are returning to Wayland and all students, whether or not they plan to return, whether or not they smoke.

"The purpose of this stand is the same one I have stood for during my three years here," Dr. Marshall stated, "and that is to have Wayland College train Christian leadership."

Please Pass The Potatoes

COLLEGE STATION — "Please pass the potatoes" is a phrase heard at many a dinner table every day. And there's a reason for it.

Penny for penny, potatoes have more energy giving value than any other vegetable. When eaten daily, potatoes supply as much as one-fourth of the vitamin C quota as well as starch and some of the important minerals. There are hundreds of ways to serve them for any meal.

"If you are watching calories and your waistline," say extension foods nutrition specialists of Texas A. & M. College System, "Don't avoid potatoes, but watch what you add to them. Use less butter, gravy or cream sauce. Potatoes are no more fattening than many other foods. For instance, there are just as many calories in an apple or banana as there is in one medium-sized potato—and a potato has only one-third as many calories as a piece of two-crust berry pie."

The specialists suggest that potatoes be cooked in their jackets, whether they are to be creamed, mashed or hash browned, in order to retain the vitamins and minerals. If peeled, peel very thinly and go easy on the water in the pot. The more water used, the more nutrients lost. And don't soak potatoes before cooking.

Two Governors To Attend Legion's District Meeting

Amarillo, May 22.—Three state American Legion commanders, the governor of Texas and a member of the Texas Railway Commission will be among those upon the program for annual Fifth Division convention of the American Legion to be held here Saturday and Sunday May 27 and 28.

JayCee Banquet Set For May 31

The Muleshoe Junior Chamber of Commerce has set Wednesday night, May 31, for their buffet dinner and installation of officers for 1950-51. Representatives from JayCee organizations of neighboring towns on the South Plains and Panhandle will be invited.

Dr. B. Z. Beaty, JayCee president, will be master of ceremonies for the program. The invocation will be given by Cecil Tate, followed by the dinner. Benny Howell will be featured on the organ during this time.

The installation address will be given by W. G. (Bill) McDaniel, state JayCee president. Installation of officers will be made by Dr. Gale Zeigler of Olton, Texas. Paul Gardner will introduce guests. Following the dinner and installation will be a dance with music furnished by Benny Howell and his trio.

ATTEND TECH COMMENCEMENT

R. J. Klump accompanied by Mr. and Mrs. W. J. Matthews of Texico attended the Commencement exercises at Technological College in Lubbock, Tuesday night at which their nephew, Warren G. Harding of Westcamp received his Master of Arts degree.

MOVES TO CLOVIS

Mr. and Mrs. James L. Moore have purchased a laundry at Clovis and are moving there to live. Mr. Moore, who had been local manager of the office of the Blackwater Valley Soil Conservation District, had been appointed to a similar place at Matador, but resigned to enter private business. They owned until recently the Bendix Laundry here.

New Use for Washer

Doing the family wash for you isn't the only labor-saving service your automatic washing machine can perform. It now develops that the same washer can do your home-dyeing, too. It's especially good for tinting bulky articles like curtains, bed linens, bedspreads, table cloths, drapes and slip covers. The dyeing procedure is the same as for laundering, except that the dye solution is made separately in a quart of hot water and then poured into the machine while it is filling with water, according to a bulletin of instructions issued by the Tintex Home Economics Bureau of New York City.

The amount of dye required depends upon the dye-color and the article's weight and fabric, the bureau points out. Three dime boxes of all-fabric dye in light colors are sufficient for 12 ounces or less of cotton, linen, silk and viscose rayon fabrics. Twice this amount is recommended for nylon and acetate rayon and for dark shades of any fabric. After dyeing, the washer can be cleaned easily by filling it with clean water and operating it on the last rinse.

Now It Can Be Told

County Attorney Pat R. Bobo, shown above, recently won first place in a golf tournament at Clovis, N. M. This was not a local tournament, but had entries from the state of New Mexico and Texas. Other local golfers will tell you that the competition was plenty keen.

Mr. Bobo used two strokes on the last hole in getting on the green. He was still 26 feet from the cup and was told that he would have to make it or he would be tied for first. He did make it in one stroke despite the large number of spectators and photographers in the background. The above is an actual picture of the 26 foot putt that he made to win the tournament.

Sportsmen and newspaper men have been trying to get a statement from Mr. Bobo as to what his future plans are. He will not comment, other than to say that he will definitely not be a candidate for reelection to his county attorney office which he has held for a number of years.

This could mean he would turn pro, but knowing Mr. Bobo as we do, our guess is that he will continue to play for fun only and will remain an amateur in order that he may continue playing with his friends.

He has entered another tournament to be held in June but it is another amateur. Here's hoping you good luck on this one, Mr. Bobo.

Bailey Co. HD Clubs Will Entertain Commissioners

On Friday night, May 26, the Home Demonstration Clubs of Bailey county will entertain the members of the Commissioners Court with a buffet supper and tacky party at the Fellowship Hall.

Everyone attending is asked to dress "tacky" and there will be prizes for the tackiest man and woman, the ugliest man and woman, and the best looking man and woman. There will be a fine of 10c imposed on those who do not come dressed "tacky".

Each Club is asked to bring two members for the program, which will follow the grand march. Everyone who has leather work, aluminum trays, satin comforts, or corsets are asked to bring them to exhibit.

VISIT IN LAMESA

Mr. and Mrs. F. H. Davis visited their daughter and family, Mr. and Mrs. Foy Futrell and boys in Lamesa Sunday. The younger grandson, less than two weeks old, is reported to be just fine.

TO LITTLEFIELD

Mr. and Mrs. C. D. Troover and daughter visited in Littlefield Monday afternoon.

FROM FORT WORTH

Mrs. A. B. Robertson of Fort Worth is in Muleshoe visiting in the home of her daughter Mrs. C. W. Goss and Mr. Goss and son also in the home of her son Frank Matthews and Mrs. Matthews.

VISIT RELATIVES

Mr. and Mrs. D. D. Tracy of Oakland, Calif. have been visiting in the home of her parents Mr. and Mrs. C. W. Goss.

FROM LUBBOCK

Mr. and Mrs. Gayle Hoover and Mr. and Mrs. Red Donald and daughter of Lubbock spent the week end in the C. D. Hoover home.

Dallam, Lamb, And Hockley Counties Move To Form Underground Water Ass'n.

Water users in three counties on the High Plains are moving to form underground water conservation districts under provisions of House Bill 167 passed by the Texas Legislature in the spring of 1949.

Initial steps towards forming districts have been taken by irrigation farmers and other water users in Dallam, Lamb and Hockley counties.

Tentatively set for the early part of June in Texline, Dallam County, is the hearing at which the State Board of Water Engineers will define the boundaries of an underground water reservoir or sub-division in that area for the purpose of creating a district according to a report by Frank Tatum, Dalhart attorney.

The Board of Water Engineers recently announced that it had completed its field work in connection with designating the reservoir. Boundaries of the district will be determined with those of the reservoir.

Tatum said the Dallam County group would proceed with the plans for an election creating a district, following the Board's hearing.

In Hockley and Lamb counties, petitions are being circulated seeking definition by the Board of Water Engineers of an underground water reservoir or sub-division thereof.

The Hockley County petition, which calls upon the Board to recognize that county as a district is being circulated under leadership of the Hockley County Farm Bureau.

Neighboring Lamb County has held two "water law forums" under sponsorship of the Lamb County Meeting this week (May 15 - 16) in Springlake and Amherst drew nearly 400 persons, with 156 signing petitions asking for designation of a reservoir or sub-division thereof, according to Gus Parish of Springlake, president.

Petitions from Hockley and Lamb counties have not yet been submitted to the Board of Water Engineers. Hockley County report-

edly is aiming for 1,000 signatures. Lamb County, with more than 1200 irrigation wells hopes to get about 50 percent of the water users for an election at property-owning tax-paying voters may decide on creation of a district. If the Board of Water Engineers has designated a district within a single county then the County Commissioners Court calls the election. If the district reaches into more than one county, the Board of Water Engineers must be petitioned to call the election.

Districts, administered locally by elected boards of five directors each, have authority under the law to protect, preserve, conserve and re-charge the underground water supply in reservoirs over which they have jurisdiction.

Progress HD Club Met Murrah Home

The Progress HD Club met Wednesday May 17 in the home of Mrs. Gordon Murrah. Meeting was called to order by the president who then read the creed. The secretary read two letters, one from Miss Hill about the scholarship for some 4-H girl in this district, the other was from Cal Farley concerning Boys Ranch. The club voted to send a donation to Boys Ranch.

A discussion was held on having a political rally in the community sometime in the near future. Watch for place and date.

An interesting discussion on sewing aids was the program. Many useful suggestions were given.

A game was played and three ladies received Pollyanna gifts.

Refreshments were served to Mesdames Albert Davis, Troy McCain, Gosdin, Marie Maltby, J. J. Gross, John Thomson, Bennie Gulley, Lela Gulley, Doris Gulley, Ann Little, Nettie Bratcher, Joe Simmacher, T. Haley, one visitor Margaret Montgomery who is visiting her sister Mrs. Bratcher, the hostess and several children.

The next meeting will be Monday, June 5 at the home of Mrs. Albert Davis. The program will be on using the Master Mix. Roll call will be "Cooking Timesavers I Use".

22 Million Will Die

Cancer will account for 22 million deaths among Americans now living if the present rate continues, the American Cancer Society points out. A gift to the 1950 Cancer Crusade can help cut this appalling figure.

REAL ESTATE TRANSFERS

WANTAD GETS RESULTS

When Homer Millsap inserted an ad in last week's paper offering a house for rent, he little thought that he would be a busy man the rest of the week. He said he had 15 applications from people needing housing. It has been said there are quite a few vacant houses in Muleshoe but this doesn't look like it.

TO DALLAS MARKETS

Lowell Irvin St. Clair and Ray Morrison of St. Clair variety and department stores are in Dallas this week attending market.

D. E. Cox to Martha F. Althouse, Lot No. 5 in Block No. 1, Cox addition to City of Muleshoe, \$1,000.

SCIENCE DEPARTMENT AWARDS ARE LISTED

The science department listed six students, four girls and two boys, in its annual award of honors, O. E. Bowman, instructor said. The list was read at the high school commencement exercises held Friday night.

For the Chemistry awards, Bowman announced the following pupils with their average grades: Laverne Lewallen, 90.4; Arlyn Krieger, 89.4. Biology awards were: Emil Jarnigan, 90.1; Ernest Ware, 89.4; J. Ann Wyer, 88.9; and Jackie Bovell, 88.5.

Governor Allan Shivers will report to the people of Texas on the work of the State Youth Development Council Monday, May 22, at 7:15 p. m. and may be heard over many radio stations, including WRR, Dallas, KFJZ, Fort Worth.

Your gasoline man in Muleshoe for more than 15 years—

From where I sit ... by Joe Marsh

Why "Moose" Changed His Mind

Last week, parents were calling Moose Jackson on the phone—and kids were hooting at him in the streets. All because Moose fenced in his field near the depot, where the kids like to play ball.

Moose got sore the way folks acted—refused to budge. Then Doc Sherman, who likes to play center-field himself sometimes, decided to "use a little psychology."

Over a friendly glass of beer at Andy's Garden Tavern, Doc says, "Sorry this came up, Moose. We were thinking of asking you to umpire—what with your professional experience and all." (Moose used to play a little semi-pro ball.)

That did it! Next day Moose put up a stile over his fence. In return, the kids promised not to cause any damage. From where I sit, when you try to understand the other fellow's point of view—like his personal preference for beer or coffee—and then take into consideration the will of the majority, why, things seem to go better all around.

Santa Fe

expresses its thanks

A note of appreciation to employees, patrons and friends who stood fast during the firemen's strike

During this grave emergency we are proud that Santa Fe kept operating—not completely, but nevertheless still operating. Not a wheel was derailed; there was not a single personal injury. This was made possible only because of the response of loyal employees—many responding beyond their normal call of duty.

Our passengers and shippers showed both patience and understanding, and Santa Fe was heartened by their appreciation of our unwavering purpose.

Your understanding, help, and loyal cooperation are deeply appreciated.

INSURANCE

is a lifetime affair...

Life Insurance is important business, both for you and for your Southwestern Life agent—who is building his reputation and career on the kind of job he does for you.

It is essential in proper financial planning to re-examine your life insurance needs from time to time. Your Southwestern Life representative serves you well when he adjusts your insurance program as required to meet changing life circumstances. This is an important aspect of the work of a career life underwriter.

The carefully selected and thoroughly trained Southwestern Life agent represents a Texas company, now in its 48th year of service to Texans.

Choice Of Interior Colors Affects Lighting Needs In Your Home

COLLEGE STATION, May 22.—The color schemes chosen for the various rooms in the home can very materially affect the amount of artificial light needed to give comfortable and economical lighting. For thrift with light, either daylight or electric, there is an advantage in light-colored walls, woodwork and furnishings, says Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. College.

She points out that in many cases homemakers in redecorating the home are using deep shades now in vogue for wall paper, interior paint, curtains and other furnishings. This shift in colors may require more lamps or the use of higher-wattage bulbs for adequate illumination, especially for the rooms where the more tedious home tasks are performed.

To be adequate, she says good lighting must satisfy four major requirements. There must be plenty of light for adequate seeing and this will vary with the task. Good lighting is free from glare. The proper placing of lamps and fixtures will give the proper distribution of light and in turn will mean an absence of shadows on the visual tasks.

She says that shade linings for lamps should be white or ivory. The light colors reflect light and the darker colors as in the case of the interior finishes absorb light. Since light falls off rapidly with distance, she says all portable lamps should be placed close to whatever is to be seen—preferably within 24 to 30 inches. The lamp should be placed to one side or to the rear of the seeing task. This will help prevent glare and shadows on the task.

She recommends the use of lamps with a diffusing bowl within the shade. They improve the quality of lighting for the more tedious eye tasks, break up harsh light, soften shadows and reduce reflection from shiny surfaces.

She says your local county home demonstration agent will be glad to furnish additional information for your use when you begin mak-

ing plans for re-doing the interior of the home. Lighting is mighty important and the plans you have may require changes in the present lighting system for the home. Early planning may help you do a better and more economical job.

Qualifications For Navy Lifted

Chief Walter I. Liechty of the Clovis Navy recruiting Station announced that certain visual and dental qualifications have been modified for enlisting in the Navy. Applicants previously rejected for these reasons are invited to apply at the nearest Navy recruiting station to be re-examined.

The present quota for Navy enlistments is unlimited. The address of your local Navy recruiting station is Post Office Building, Clovis, New Mexico.

MOVING TO TULIA

CRISP LONSDALE PIQUE was Duchess Royal's selection for this wardrobe basic, shown on Glamour Magazine's May cover. The versatile coat, in bright colors, can be worn as a town coat, for evening, or beach wear. The sleeveless blouse has jaunty bow tie and clear clean lines. The skirt is slender with wide center kick-pleat and snappy cuffed pockets.

WATSON TWINS TAKE HOSPITAL JOBS

The Watson twins, Charlie Evalene and Billie Evalou have accepted jobs at the Amherst hospital for the summer. They will be back in Muleshoe for the opening of school in September.

Attend Appreciation Day

Allan Shivers will represent people of Texas on the State Youth Development Day, Monday, May 22, at 11 a. m. at the State Capitol, Austin, Texas. He may be heard over stations, including KTZ, Fort Worth.

Three New Grain Sorghums Have Been Developed By Texas Grain Breeders

COLLEGE STATION, May 22.—Three new grain sorghum varieties—each selected to meet a definite need—have been developed by plant breeders of the Texas Agricultural Experiment Station and released to certified seed breeders for increase, Director R. D. Lewis has announced.

The station will have additional seed at the end of this season for distribution through county agents for demonstration plantings in 1951.

The characteristics of the new varieties, as explained by R. E. Karper, agronomist in charge of grain sorghum investigations, and J. R. Quinby, superintendent of the Chillicothe station are: Combine Kafir-60 — Like Kafir, the stalks are juicy and stand up well in the field. The heavy head is borne on a long stem and stands well above the stalk. The variety is awnless and seed are white with black specks, testing 60 pounds to the bushel. The variety blooms in 60 days from June 1 planting at Lubbock or about a week earlier than Texas Blackhul Kafir or Plainsman. Combine Kafir-60 was developed by crossing a double dwarf Kafir selection with Texas Blackhul, followed by selection and backcrossing to the Kafir parent several times until a pure type of double dwarf adapted to combine harvesting was obtained.

Redbine-60 and Redbine-66 — These new red-seeded varieties are similar except in their maturity. Redbine-60 blooms in 60 days, a little earlier than Martin; Redbine-66 in 66 days, a few days earlier than Plainsman. Both have dry head-stems and ranchis, can be combined before frost if desired, and have a long stem so that there are fewer leaves and less stalk to load down the shaker when combining. Both varieties have a brighter reddish-yellow seed color than Martin and have a longer stem, are taller and have better threshability than Plainsman. Redbine-60 has awns, tests 57 pounds to the bushel and is a little surer of production because of its earliness. Redbine-66 is awnless, tests 60 pounds to the bushel and will yield higher under favorable conditions because of its longer growing season. These two varieties were chosen after several years of test from numerous selections from the progeny of a cross between Martin and a sib of Caprock.

Four ounces of each of the new varieties were distributed to 35 Texas certified seed growers. Some of the growers have pooled their seed and planted it in Hidalgo county. This crop will be harvested in early June and the seed shipped to the Lubbock area for planting there for fall harvest. One such pool of 70 ounces of each variety is expected to yield 20 bushels of certified seed from

Lazbuddie Beats Texico-Farwell

Lazbuddie emerged a 19 to 2 victor over Texico-Farwell Sunday in a game of baseball played in Lazbuddie.

The Lazbuddie boys broke loose on a hitting spree that could not be stopped. Lazbuddie was credited with three home runs and several doubles and triples. Chester Embry started the game for Lazbuddie on the mound, followed by Max Steinbock in the 7th inning, with Calvin Embry behind the bat, followed by Hilly Lucey in the 7th inning.

Lazbuddie visits Muleshoe Sunday at Muleshoe, starting at 2:30 p. m.

MORTON VISITORS
Mr. and Mrs. Ed White and family visited her parents Mr. and Mrs. W. A. Wood and family at Morton over the week end.

TO CANADA
Mrs. Homer Sanders, Jr. and son Mike left Wednesday for a visit with her parents in Calgary, Alberta, Canada.

TO CALIFORNIA
Visiting in Long Beach, Calif. are Mrs. Myrtle Priboth, Gerald Priboth, Mrs. Roland Matthieson and daughter Shirley.

VISIT DOWN STATE
Esther Schroeder and mother visited in Giddings and Smithville, Texas, the last two weeks, returning home last Sunday. They report having had a fine rain.

VISITS SISTER
Mrs. Henry Danee visited a sister, Mrs. O. T. Garth, in Copperas Cove, Texas, returning home last Sunday.

TO TEMPLE CLINIC
C. L. "Happy" Dyer accompanied his son-in-law, Jim Edwards, of Lamesa to Temple last week and Mr. Edwards went through the Scott & White Clinic, returning home much improved.

plants that are bagged to insure self pollination. This 20 bushels would seed 300 acres or more; if the crop averages only a little over 30 bushels an acre on the South Plains, the increase in one year would be a half million pounds, or enough to plant 100,000 acres in 1951. Other certified seed growers will further increase the foundation seed of the new varieties in plantings on their own farms this year.

Medicine King

SENATOR DUDLEY J. LeBLANC

HADACOL sales or shipments have reached the amazing total of 5,000,000 bottles since January 1, more of any one tonic than has ever been sold in so small an area in so short a time.

Senator Dudley J. LeBlanc, Founder and President of The LeBlanc Corporation, Lafayette, Louisiana, makers of HADACOL, said the sales and shipments would have been far greater if his company could have obtained enough material to meet the demands.

"We have been several hundred thousand bottles behind in shipments since January 1," said Senator LeBlanc. "It looks like we just cannot catch up because every time we increase production the demand increases."

Senator LeBlanc credited the South's heaviest newspaper schedule with much of the success of HADACOL.

HAS TERRITORY JOB
C. L. "Bud" Dyer has a territory job now with Higginbotham-Bartlett Co., traveling out of Lubbock. He formerly was employed in the Muleshoe store and yard for this company.

TO ATTEND ROTC CAMP
Dick Taylor, student in A & M College, will attend a ROTC camp in Petersburg, V., this summer. He will finish the term at A & M the first part of June, and his mother Mrs. J. Clyde Taylor and brother, David, will be on hand to bring him home for a few days before he has to leave for camp.

FROM LAMESA
Donald Ray Madison of Lamesa is visiting his grandparents Mr. and Mrs. J. L. Atchinson for about two weeks.

KEEP COOL

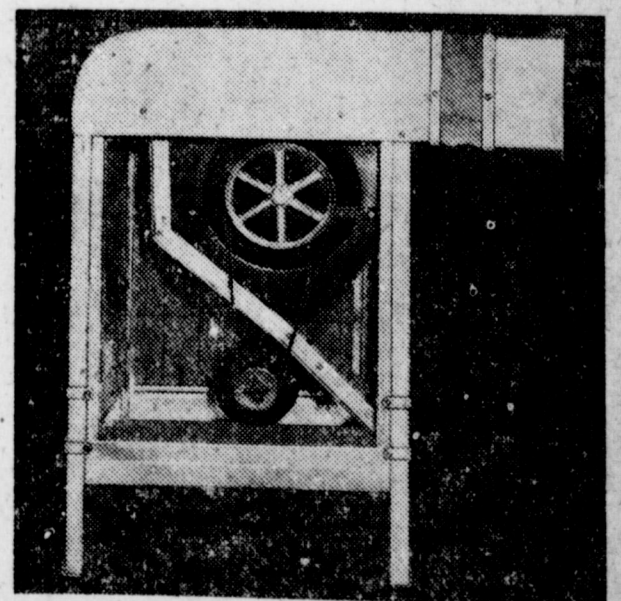

The new Clear-Vue is your answer to real comfort. It makes your home a delightful place to live on hot, stuffy days. There's an abundance of cool "filtered" fresh air directed in currents to suit all occupants. The Clear-Vue is equipped with a beautiful die-stamped one piece aluminum grill and easily adjustable louvers. Clear-Vue can be installed in any home . . . will not mar building interior or exterior.

Clear-Vue Is Guaranteed Against Defective Materials And Workmanship

OTHER EXTRAS

- * Handy motor control
- * Humidity control
- * Die-stamped one piece front
- * Removable non-sag water pads (constructed of white aspen wood)
- * Adjustable non-clog water troughs
- * Adjustable to any size window (no skilled labor or special tools necessary for installation)
- * Special sillcock furnished with each unit to facilitate and make water connections simple and easy

Hike Taxes Or Cut Costs Is Uncle Sam's Problem

To help American families
solve their money problems the
United States Government is currently
issuing at least one pamphlet
showing people how to keep
household spending within the
bounds of family income.

The Federal Government will
spend about \$5 1/2 billion more this
year than the 36 1/2 billion it will
collect in revenues. It is expected

to do substantially the same in
1951.

In only two years out of the last
20 (in 1947 and 1948) has the Federal
Government balanced its
budget by living within its in-
come. In that time the public debt
has risen from \$17 billion to \$258
billion.

To return to a balanced bud-
get, the Council finds the Federal
Government may do one of two
things; either increase taxes or
reduce spending.

But taxes of one kind or another
are already taking more than a
quarter of the peoples income.

And as to reducing Federal
spending, the question always
asked is, "Where?" Two senators
Harry F. Byrd of Virginia and Paul
Douglass of Illinois, have offered
some detailed answers to that
\$24 question with respect to the
1951 Federal spending budget.

Senator Byrd, among other
things, would eliminate 250,000
civilian jobs in non-military agen-
cies, lop off another 80,000 civilians
from Military Establishments pay-
rolls, reduce public works outlays
by \$1 billion, and withhold Con-
gressional approval from most of
the 34 new spending programs re-
commended by the President in his
1951 Budget.

Senator Douglas' long list of
budget-paring proposals include
one to reduce excessive vacation
privileges of Federal employees.
Both senators see large savings
opportunities in the adoption of
the Hoover Commission's recom-
mendations for consolidating and
streamlining Government agencies.

RABSON DISCUSSES

Labor's Strikes

WHAT DO WORKERS REALLY WANT?

New York City, May 19—There is
no easy way to settle strikes.
Strikes signify what workers want
and how they hope to get it.

I am reminded of the old story
about Samuel Gompers, one time
head of the A. F. of L. Once when
someone asked him what Labor
really wanted, he replied, "More".
The question is: More what? Many
labor economists, as well as news-
paper columnists and psychologists,
seem to think most strikes are for
only one reason: more pay for less
work. As a matter of fact, the
May 1948 issue of Monthly Review
reported that only 74% of all our
strikes involved the issue of higher
wages and shorter working hours.
It is a mistake to say that strikers
want only more money.

Strikes have cost not only the
employer but the employees huge
sums: it will take years for many
employees to make up the money
they lost through strikes. If money
were the sole underlying motive,
why, then, do \$10,000 per year
workers, such as script writers,
airplane pilots and locomotive
engineers, strike? In many instan-
ces workers get angry because
they are not receiving the "psy-
chic" satisfactions necessary to
wholesome manhood. They flare-
up, go on strike, then look around
for something to demand. More

wages and shorter working hours
fundamentally, inadequate "psy-
chic" compensation is the root of
most of our industrial conflict.

PSYCHIC COMPENSATION

Psychic compensation is the
inner satisfaction and feeling of
well-being derived from individual
recognition, praise for work well
done, fair treatment, and a steady
job. This soul-satisfying compensa-
tion does not, of course, supplant
an adequate wage, but it is very
important in keeping workers con-
tented.

Interestingly enough, the busi-
ness executive's inner wants
closely parallel those of the
worker. He wants power, indepen-
dence of action, a free hand to
carry out ideas, recognition by
associates and community. Psychol-
ogists, economists, and college
professors have all been wrong
with their notion that economic
factors are the sole motivators of
men. Except in economic depres-
sions, neither labor nor manage-
ment is motivated primarily by
dollars and cents. Both groups
want certain "psychic" satisfac-
tions of recognition, respect for
the individual, reasonable personal
power and prestige. It is the inade-
quate satisfaction of these wants
and needs that drives men into
conflict.

SATISFYING PSYCHIC NEEDS

We live in a highly competitive
society which stresses and rewards

A FLOWER FOR EACH GRAVE

The Civil War was over but the
news brought little joy to the quiet
town of Columbus, Miss. Of the
hundreds of men who had marched
away, only a few returned. But
this was a time of work, not tears.
Columbus had stood in the path of
bloody campaigns and the dead
must be given a last resting place.
Soon the cemetery held hundreds
of Confederate soldiers, and some
forty men who had worn the Blue.

One Spring day, in the late '60s,
three young women of Columbus,
their arms full of flowers, began to
tend the graves of husbands and
sweethearts. And one day, they in-
vited the widow of a Confederate
soldier to join them. As her
three companions knelt to place
bouquets, the young widow stood
erect, gazing over the other bare
and forlorn graves. What a pity
that these should be forgotten!

"Why don't we break our bou-
quets, and place a flower on each
grave?" she suggested. The women
hesitated a moment—then quietly
untangled their bouquets, and
bestowed a blossom on each
man's grave.

Soon thereafter, Columbus saw
individual achievements, prestige
and power. Executives and workers
are all moulded from the same
clay. They have attended the same
schools. They have the same phys-
ical make up. There is no reason
to believe that the economic and
"psychic" motives of one group
differ markedly from those of
another group. It would be pretty
difficult for union leaders to de-
velop strike activities if the workers'
"psychic" wants, as well as eco-
nomic, were satisfied.

The trouble is, most executives
know so little about human rela-
tions that they don't know where
to begin. If the average execu-
tive would sit down and analyze
his own basic "psychic" job needs
and recognize that his workers crave
the same "psychic" satisfaction,
and develop ways to share these
satisfactions, I believe he would
be on the road to resolving his
leaders would fairly cooperate. We
must jettison the "psychic salaries"
of our workers.

What About Investors?
The Unfortunate Fact Is That
Innocent Investors Are The Real
Sufferers Because Of This Psychic
Conflict. I, Therefore, Am Coming
To The Conclusion That They--
From Their Independent Position
Must Soon Wake Up And Take
Active Hand In Settling This Prob-
lem.

CHRISTIAN SCIENCE SERVICES

"Ancient and Modern Necroman-
cy, Alias Mesmerism and Hypnot-
ism, Denounced" is the subject of
the Lesson-Sermon which will be
read in all Churches of Christ,
Scientist, on Sunday, May 28.

The Golden Text is: "If God be
for us, who can be against us?"
(Romans 8:31).

Among the citations which com-
prise the Lesson-Sermon is the
following from the Bible: "Then
saith Jesus unto him, Get thee
hence, Satan: for it is written, Thou
shalt worship the Lord thy God,
and him only shalt thou serve"
(Matthew 4:10).

The Lesson-Sermon also includes
the following passage from the
Christian Science textbook, "Sci-
ence and Health with Key to the
Scriptures" by Mary Baker Eddy:
"Sin and disease must be thought
before they can be manifested.
You must control evil thoughts in
the first instance, or they will
control you in the second" (page
234).

TO ABILENE

Mrs. Travis Barnett visited her
parents Mr. and Mrs. J. A. Musick
in Abilene during the weekend and
attended the Baccalaureate ser-
vices for Abilene High School. Her
brother James is a graduate this
year.

An unusual procession—a long line
of young women in white, and
matrons in mourning. Their arms
heaped with flowers, they journeyed
to their country's dead. And that
day, for the first time, every grave
received a floral tribute.

The ceremony became a yearly
custom, then spread to other towns
and cities. And thus was born one
of our great traditions—the solemn
ceremony of Memorial Day.

—Coronet Magazine

WAYLAND COLLEGE TIGHTENS ITS BAN ON SMOKING

PLAINVIEW, May 22—Stu-
dents who smoke will be asked
to enroll at Wayland College,
voted here this week by the
trustees.

This followed a recom-
mendation by President J. W. Bldg.
Trustees also backed a sign
which would bar the en-
rollment of any teacher who smokes,
dances, or gambles.

"We are not infringing
on the students' freedom or asking
them to stop smoking," Dr. Marsh
said. "We simply are saying
free to go to some
place if they want to smoke."

The trustees last
week voted to ban smoking on
campus. Today's
decision further by requiring
that teachers, or stu-
dents, who receive a bachelor of science
degree at Wayland College sm-
oke or place.

TO RECEIVE DEGREE

Huntsville, May 22—Am-
ong 399 who will receive their de-
grees from Sam Houston State Teach-
ers College Sunday, May 28, is Ray-
mond Lewis of Muleshoe, who will
receive a bachelor of science de-
gree.

ATTEND COMMENCEMENT EXERCISES IN ABILENE

Mr. and Mrs. G. O. Jennings were
in Abilene several days to attend
the Baccalaureate and commence-
ment exercises of McMurry College.
Their son James Jennings received
his degree at the exercises.

AMERICA'S

IT'S THE BIG ECONOMY PACKAGE!

LOWEST PRICED

Only low-priced car with a V-type engine!
Ford—only Ford—in the low-price field offers you the smooth, spirited performance of a V-8 engine. Yet a Ford V-8 is yours for hundreds of dollars less than any other "Eight." Yes, even hundreds less than most "Sixes."

EIGHT!

Only low-priced car with a "Lifeguard" Body!
Welded, all-steel body scientifically reinforced for strength—"sound-conditioned" for quiet. Quality coach work and baked-on enamel mean long life—high resale value.

Only low-priced car with King-Size Brakes!
Trips are treated with features like Ford's big 35% easier-acting brakes to take the work out of driving—and your non-sag foam rubber driver's seat to banish fatigue. Trips are treated, too, when you see how far you go on so little gas and oil.

Only low-priced car to receive "Fashion Award"!
Yes, Ford's the only car on the road to receive the New York Fashion Academy's coveted Fashion Car Medal two years in a row... the only low-priced car to receive it, ever!

White sidewall tires and wheel trim rings optional at extra cost.

YOUR MASSEY-HARRIS DEALER

HERE'S THE BUICK SPECIAL 4-door Sedan, de luxe finish. The same body type is available on SUPER Series.

"YOU HARDLY KNOW THE ROAD IS THERE!"

You won't be the first to say that—not by a long shot.

One of the first things you notice, when you step from another make of car into Buick, is the wonderful difference in the Buick ride.

There are good technical reasons, if they interest you...

Soft coil springs all around, the gentlest type of spring man knows how to make.

A stout torque-tube, acting like

the husky keel of a battleship to steady the whole carriage.

Low-pressure tires on wide, Safety-Ride rims, that stop heel-over and sway on curves.

Firm, sure, quick-acting shock absorbers, promptly snubbing the after-bounce of the bigger bumps.

The important thing is what these all add up to.

Freedom at last from jounce and jiggle. A level, floating, road-free passage over almost any kind of road, with even the

worst of them tamed and gentled as never before.

Add Fireball power to all this—the roominess of wide, deep seats—the lightness of Buick controls and the liquid silkiness of Dynaflo Drive—and you have a car just too good to miss.

Come try one, won't you? Your Buick dealer will be delighted to demonstrate without obligation—delighted to show you that if you can afford a new car, you probably can afford a Buick.

*Standard on ROADMASTER, optional at extra cost on SPECIAL and SUPER models.

ONLY BUICK HAS Dynaflo
AND WITH IT GOES: HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models) • NEW-PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • ROFT BUICK RIDE, from all-coil springing, Safety-Ride rim, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

Lamb County Petitions For Right To Organize Water Conservation Unit

Petitions to the State Board of Water Engineers, requesting designation of an underground water reservoir in determining the boundaries of a proposed underground water conservation district, are being circulated in Lamb County. Following meetings last week in Springlake and Amherst, the Lamb County Water Conservation Association reported that 156 water users had signed the petition.

About 80 irrigation farmers signed the petition May 18 following a spirited question-answer forum during which the merits of forming a district were debated. The forum led by Arthur P. Duggan, Jr., of Littlefield and Gus Parrish of Springlake, followed the showing of a film by County Agent David Eaton.

The petition seeks a definition of the boundaries of a proposed district. Under the law passed last spring by the Texas Legislature, these boundaries must coincide with an underground water reservoir. The district will include part of Lamb County and may extend into neighboring counties. The State Board of Water Engineers, after extensive investigation of the underground water reservoir, will call a hearing in this area before setting the boundaries of the district. Land owners who want to be included or excluded from the district may appear at the hearing. After boundaries have been settled on, an election can be held for creation of a district, if petitioned for.

Text of the petition is: "Whereas, it is estimated there

PETITIONING STARTS—James Anderson Boone (seated) of Springlake signs a petition asking the State Board of Water Engineers to define boundaries of an underground water reservoir for the purpose of creating an underground water conservation district. Boone, a pioneer Springlake farmer, was one of the first signers of the petition at a meeting May 15 in the Lamb County town. Circulation of the petition marks the first step in legal procedure for creating an underground water conservation district. Pictured with Boone, left to right standing, are I. B. (Doc) Holt of Olton, former representative from the 120th Congressional District, who introduced House Bill 162 providing for the creation of districts; Gus Parrish of Springlake, president of the Lamb County Water Conservation Association; Boone; and W. O. Fortenberry of Monroe, president of the High Plains Water Conservation and Users Association. Both Parrish and Fortenberry are also irrigation farmers.

are 12,000 irrigation wells in operation in the area of the South Plains of Texas and it is reported that many more irrigation wells are being drilled; and

"Whereas, the spacing of irrigation wells too close together results in excessive lowering of the water level; and

"Whereas, due to heavy usage of underground water it would be desirable to protect the supply by re-charging the underground water strata; and

"Whereas, the Fifty-First Legislature passed a law making it possible to conserve underground waters through creation of Underground Water Conservation Districts and providing that the State Board of Water Engineers should designate reservoirs or sub-divisions thereof for the purpose of creating a district;

"Now therefore we, the under-

signed, being property owners, residing in Lamb County, Texas, hereby petition the State Board of Water Engineers to call a hearing for the purpose of designating the underground water reservoir or sub-division thereof."

An estimated 200 persons attended the meeting May 15 at Springlake at which W. O. Fortenberry of Monroe, president of the High Plains Water Conservation and Users Association, was the speaker.

A motion picture, "Thirsty Acres," was shown at both meetings by Ed Bush, Extension Service district irrigation specialist, and County Agent David Eaton.

HE'S AT IT AGAIN—REPORTER TELLS HOW TO CURE NOCTURNAL ILLS

(Editor's note: After several hours of research, the Journal's sleepwalking and insomnia editor reveals the most common kinds of snoring and the best known methods of prevention.)

Sleepwalking and snoring is a common affliction to many persons in this area, as well as in the entire world. Persons who have contracted this affliction should not be scorned, but should be lent a sympathetic ear because it is beyond their power to prevent.

Perhaps the most effective cure for these nocturnal excursions is tying a rope around the ankle. When the victim is in a perambulatory mood he will walk to the end

of his leash and come crashing to the floor, usually waking the person. However, care should be exercised in the length of the chain, for persons have been known to fall out windows and find themselves dangling by only one foot and a fall headlong down the stairs can be equally catastrophic.

So much for the sleepwalkers and now we shall take up the various types of snorers and their cures.

Perhaps the most widely-known snorer is one which could be classified as "foghorn." He (or she) usually sounds like the distant bellows of a foghorn with frequent "snooooors" interrupted by deep breathing. Sometimes a quick kick or jab to the back will give momentary relief. If this has no effect, a sound rap by a bed-slipper behind the ear will usually have the desired effect.

Another type almost as common as the foghorn is the barnyard animator. This sounds like a coyote carrying on a long-range vocal battle with a mountain canary. When he expels his breath he issues forth a "heeee" and when he inhales, sounds something like "owee-owee." It has been found that crumming a sock or two down the vocalists gullet is a very effective way to stop it.

Another widely-known type sounds like another member of the animal world, the hog, and goes something like "oink-poo!" in a

rapid staccato which becomes very nerve-racking during the wee hours of the night. This is one of the hardest types to stop. The best method is to pipe the sound outside. This not only scares prowlers away, but gives anyone sleeping in the room with a piece of mind. Just take a funnel and attach a garden hose to the spout and put the end of the hose out the window and place the other

contraption over his face. If this doesn't work, it is only a simple matter to attach the hose to the exhaust of the car and start the engine.

One out of every five Americans will eventually develop cancer, if the present incidence continues, the American Cancer Society points out. Give to the 1950 Cancer Crusade.

NEW WAY TO RAKE HAY

faster... better!

SIX-BAR OFFSET REEL MAKES A BIG DIFFERENCE

The Ferguson Side-Delivery Rake is designed specifically for tractor operation. It greatly reduces leaf-shattering... safeguards the quality and value of your hay!

This rake is truly unique. New six-bar offset reel handles hay gently. No pitching, kicking and tossing even at high speeds. Instead, your hay is lifted gently, up and over into light fluffy windrows with the precious leaves turned inward.

True "sideward" raking action reduces the distance from swath to windrow by 50 per cent. There is far less rolling and churning... no sudden jarring.

Tractor-mounted... power take-off driven... Finger Tip Controlled. And it's surprisingly low in price.

YES SIR, a firm order now will insure quick delivery. Production on all models of the big, roomy, rugged 1950 Dodge is now at an all-time high. That's why, even with the flood of orders we've been taking, we can promise you the new Dodge you've always wanted. No need now to settle for less than a Dodge.

Come in and see the biggest value car of the year. Find out how much more Dodge gives for your money. Learn how easy the new 1950 Dodge is to own.
