searching for a place in Cisco that is a tragic part of Hanley's past. (Staff photo, courtesy of Cotton's Studios)

Hanley Rexroad Returns To Cisco To Find Location Of Accident

Hanley Rexroad of Ireland, West Virginia, will never forget the day of October 14, 1939. Mr. Rexroad tried to hop a train just west of Cisco. He didn't catch onto the train just right, and he was thrown from it. The train cut off his right arm just below the elbow in the accident.

After 48½ years, Rexroad came back to Cisco last week to try to find the location where the accident happened. He said he remembers there was a gas pump and a railroad crossing, and the people who picked him up were on their way to chop cotton. He said he was in so much pain after the accident, that's all he remembers.

Rexroad said he was only 23-years old when the accident happened. He was living in West Virginia and had rode the trains to California to pick fruit and was on his way back home when the accident occurred.

The people who were waiting for the train to cross saw the accident and took Rexroad to Graham Hospital in Cisco. He said Dr. E. L. Graham and Dr. Clark, Cisco physicians, had to work hard to save his life. Several people didn't think he would live. He stayed in the hospital for three weeks.

Rexroad came back to Cisco to find the place and maybe some of the people who helped him so much. The man who took Rex-

road to the hospital was Joe Sublett. After contacting some of Mr. Sublett's relatives who still live in Cisco, Rexroad discovered Sublett moved to Buena Vista, California. Rexroad called him from Cisco and they talked for quite awhile. He said Mr. Sublett still remembers everything about that day.

While Rexroad, his two brothers and nephew were eating lunch at Tradition's Restaurant, they met Major and Dorothy Farnsworth. Major is a long time

employee of the railroad. He was able to get someone to help Mr. Rexroad find the scene of the accident, the railroad crossing located at Dothan.

Mr. Rexroad said he felt better after revisiting the scene. He said, "You just don't know how much this meant to me."

Traveling with Hanley were his brothers, Milton Rexroad of Athol, Massachusetts and Lacy Rexroad of Fairfield, California. His nephew, Lacy Rexroad, II, of Irving, Texas, was also with them.

Spring Band Concert Held Monday

The Cisco Band Boosters presented the Band Spring Concert, held Monday evening in the High School auditorium. Wayne White, band director, led the sixth grade, junior high and high school bands in several songs before a large audience.

To show how much the sixth grade band students have learned this year White randomly picked three of the band students and asked them what key the song was in before they played. White said they are an outstanding band, and he is looking forward to working with them again next year.

The junior high band played several songs in the concert. White said Mary Garza, flute player, has been named 8th grade band student of the year.

The Cisco High school band played several songs. Mr. White said this is the first year the Cisco Band did not win Sweepstakes. But he said the judging must have been harder than ever before. There was not a 2-A school that qualified for Sweepstakes, and that is very unusual.

Four Cisco High School band students will travel to Austin in two weeks for the state ensemble and solo band competition, accom-

panying to White. They are, Wendy Wester, who will play a Class I Solo on the piano, and twirlers, Gina Kinser, Lauri Justice and Stacy Saunders who qualified for Class I ensemble.

Each one of the twirlers also qualified for Class I solo twirler, and will be competing in Austin for the state title. Krista Shepard was named band student of the year, by Mr. White. She has been the band major for the past three years. Her name will be inscribed on the Alton Roan award kept in the trophy case at the high school.

Mr. White recognized the

senior band students who will be graduating this year. He said they have proven that students can combine the advanced program with band and athletics. The students are Leigh Callarman, Amy Cross, Debbie Endsley, Michelle Fletcher, Jarrod Jeffcoat, Keith Johnson, Gina Kinser, William Pevey, Karen Cozart Preston, Michelle Prickett and Krista Shepard.

The high school band and some 8th grade trombone players finished the program with Star & Stripes Forever.

DO VETERANS RECEIVE SPECIAL BENEFITS AT TIME OF DEATH?
Yes, there are certain death benefits for which veterans may be eligible. These benefits are less substantial than they used to be, but they are still worth investigating as to the amount of eligibility. The regulations may change from time-to-time on Veteran and Social Security benefits so you may wish to check these out with these government AGENCIES OR WITH US. After October 1, 1981, Veteran death allowances are as follows:
1. A payment of \$300 for funeral and burial expenses only for those receiving V.A. compensation or pensions.
2. A \$150 plot allowance for eligible veterans not being buried in a national cemetery.
3. A burial allowance of up to \$1100 when a veteran dies of a service connected disability.
4. A grave marker allowance, currently at \$50. Payment for these benefits is not forwarded automatically. Forms must be filled out and application made for them.
We can process these claims for you or will help you contact the V.A. directly.

Understanding Your State Government/The Sunset Process

Texas has a law which forces State government to systematically evaluate its activities and provides a means by which inefficient and ineffective State agencies may be abolished, unless re-created by the Texas Legislature. This program was established by the Texas Sunset Act, which went into effect in August, 1977. Since the inception of this Act, the Texas Legislature has continued 104 agencies, abolished 20 agencies, abolished an additional 5 agencies and transferred their functions, combined 6 agencies, and separated 2 agencies.

One provision of this legislation was the formation of the Sunset Advisory Commission, consisting of 10 members: 4 Senators and 1 public member appointed by the Lt. Governor and 4 Representatives and 1 public member appointed by the Speaker of the House. The Commission members serve four year terms.

It is the responsibility of the Sunset Advisory Commission to review State agencies, including evaluations of all agency programs, and present a final report of its findings and recommendations to the Texas Legislature for its consideration and action.

In 1985, the Legislature established an additional process to review proposed regulatory agencies and advisory committees. This is known as Sunrise. This program requires the Commission to review legislation proposing a new State agency and commission and to send a written response to the author of a bill and the

chairman of the committee hearing the bill during the legislative process. During the most recent Legislative Session in 1987, the Sunset Commission reviewed ten bills that were introduced proposing new regulatory agencies or advisory committees. Only one of the ten bills was passed by the Legislature, and it was vetoed by the Governor.

Of the 20 agencies considered under Sunset in 1987, two agencies were not re-created. Projected net revenue gain due to changes made through Sunset legislation in 1987 is \$62.4 million over the next five years.

The most recent Commission meeting was held on March 24th. Staff reports and public testimony were given on five agencies; alternatives were suggested regarding allocation of research funds directly to the universities as part of the appropriations process; and a 9 member ad-hoc committee was named to study the Medicaid lien provision, which was a part of the sunset review bill in 1987 for the Department of Human Services. This ad-hoc committee held a public hearing on April 28th. (I am one of the Texas Senators who endorses legislation being introduced in the next Legislative Session to repeal this provision, which would allow liens to be placed on homesteads of deceased nursing home residents who received Medicaid.)

There are 30 agencies under review for the next session of the Texas Legislature, which will convene in January, 1989. Among those being studied are the Texas Department of

Agriculture, the Texas Education Agency, the State Board of Education, the State Property Tax Board and the Texas Guaranteed Student Loan Corporation.

The next meeting of the Commission has been set for May 12, 1988, beginning at 10 a.m. in the Senate Chamber of the State Capitol. Future proposed hearing dates are June 30 and July 1, 1988. Should you wish to contact the Sunset Advisory Commission, the number is 512/463-1300, and their address is P.O. Box 13066, Capitol Station, Austin, TX 78711.

USDA Issues Peanut Poundage Interim Rule On Quotas For 1988-89

WASHINGTON--The U.S. Department of Agriculture today requested public comment on an interim rule on poundage quotas for the 1988 to 1990 crops of peanuts.

The following are the most significant changes made by the interim rule:
-In a state where large quantities of quota pounds are in reserve, the State

Agricultural Stabilization and Conservation Committee may allocate excess reserve quantities to quota farms after obtaining approval from the ASCS deputy administrator for state and county operations.

-A peanut farmer who failed to plant the farm's full quota because notice of the final quota was not received by the end of the planting

season, may make a fall quota transfer to another farm if ASCS determine that the farmer made a good faith effort to plant the full quota.

-Fall quota transfer rules have been relaxed for determining the number of pounds a farmer may receive under a fall transfer. The maximum number of pounds eligible to be received

will equal the differences between the sum of the farm's ungraded and unmarketed pounds of peanuts of all segregation plus the pounds of unmarketed but segregation one peanuts, and the quota pounds remaining on the farmer's marketing card.

Directors of foundation seed organizations will be permitted to certify that breeder and foundation seeds have been grown for experimental purposes and will not be used for domestic edible use.

The interim rule appears

in today's Federal Register. Written comments may be submitted to the Director, Tobacco and Peanuts Division, USDA-ASCS, P.O. Box 2415, Washington, D.C. 20013. The comments will be available for public inspection during business hours in Room 5750-S of USDA's South Building.

"Associational Emphasis Week" May 16-22

The Cisco Baptist Association is participating in "Associational Emphasis Week" starting May 16-22, 1988. Each church is observing this each in their own way. Most people may not understand what an association is, so we thought we would let the association explain it:

I am the association in Southern Baptist life. Many of you may know my name but not really know me. In fact, it's my name that sometimes causes people to misunderstand me. Many people, when they think of me, think in terms of an organizational chart or a committee meeting or would you believe it—even an office building! That's so cold! I'm really much more warm and human than that! Let's see, I guess the way I like to describe myself best of all is "family of churches."

As a family of churches, I have a personality, just like each family has a personality. Now, I haven't taken any of those personality profile tests that are so popular. I would probably be off the page! But, I have a personality just the same.

My personality is based upon the personalities of my

family members, where we live and the kinds of activities we do together.

One thing to keep in mind is that no two families are alike. When two people get married, their new family is not a clone of the families in which they grew up. In the same way, I may not be just like the family of churches you were a part of in the past. But, that's o.k. I am an individual. All I ask is that you try to work with me and understand me for who I am.

Now, let me tell you a little more about my family. In our family, each member is important and each member is unique—an individual. And, believe me, there is diversity in our family! It sure does make life interesting! These individual differences in our family are celebrated—that's right, celebrated. In many ways, our family's diversity is its strength.

But our family is much more than a group of diverse individuals. Our family is a partnership—a partnership committed to each other and to certain goals outside of ourselves. There is a unity in our family. We've learned we can do a lot more together than we can do separately.

Come to think of it, that's one of the reasons I was born way back in 1707. The churches in the New World at that time were young, small, struggling. It was all we could do to stay alive ourselves—much less think beyond ourselves! But when we joined together, there was no holding us back.

I remember those days well. Things weren't always easy, but we kept the faith.

Oh, I'm sorry, I'm rambling. Where were we? Oh yes, our family is committed to each other and committed to certain goals outside of ourselves. That's the reason I even exist. My purpose in life is to enable my member churches to be in fellowship with each other and to be on mission, both individually and together. It's a big job and I work real hard to make sure that everything I do relates to that purpose.

So, what are some things that I do on a day-to-day basis?

For one thing, I try to keep harmony within my family. As I mentioned earlier, there's a lot of diversity in my family. I try to make sure that this diversity is disciplined and that there is

harmony in faith and practice among the churches.

Growing out of this, I try to build up the spirit of support and care among family members. This is vital to our life together.

Also, I am a challenger. I challenge the member churches to not just talk about missions or give to missions but really get involved and do missions. After all, that's what our faith is all about, isn't it?

I work to determine what kinds of resources or services the churches need and then make those available. One thing I've discovered is that sometimes this requires the churches to share. That's a brilliant idea, isn't it?

I also train and encourage leaders in the association. I'm working extra hard to make sure that we have the best leaders possible.

Let's see, what else do I do? Oh yes, I make opportunities for churches to work together, to be on mission together, to grow together. Cooperation—that's the word.

I also move outside of the church doors and build good relationships with the community and the denomination. I guess this is a little selfish on my part, but I want the whole community to know who Baptists are. At the same time, I want to get the best that the denomination has to offer and bring it home to our family. After all, we deserve it! Don't you want the best for your family?

Finally, I spend a lot of time doing "business." This includes governing, planning, evaluating. I'm just thankful that God has gifted some of my family members in these important administrative tasks.

Whew, I guess that about covers it! As you can tell, I'm pretty busy; but I guess everybody is busy these days. And, as I always say, I'd rather have too much to do than not enough!

That gets me to thinking. There is so much that I do and so much more I could be doing if only—if only—I had the leaders to help me. Excuse me if I get personal just a moment. I know you're committed to God and to missions. As you're being faithful to God's call—why don't you think about me? Wherever you live, I'm going to be there. Whatever your gift, I could sure use some help.

What do you get in return?

New test for drug use measures the residue in human hair, said to show not only what drug was taken, but when.

Orthopedic surgeons at the University of Pennsylvania in Philadelphia succeeded in transplanting a human knee. The implant is held in place by a metal rod into the femur and a metal plate screwed through the tibia. Marrow was removed to avoid rejection.

Area News Briefs

EASTLAND
C.W. "Dub" Hoffmann elected Mayor of Eastland by the Eastland City Commission after the recent city election. Former Mayor Grover Hallmark was elected Mayor Pro Tem. Dale Squires was re-elected treasurer and Don Griffin assistant treasurer of the Commission. Hoffmann's father was Mayor of Eastland in the 30's and 40's. Other business at the City Commissioner's meeting included a discussion of an odor problem at the city sewer plant. City manager Paul Catoe, who has been trying to find a solution to the problem, said that improper drainage from the drying beds may be the cause.

The Eastland Volunteer Fire Department has sent out letters informing rural property owners of rural fire protection needs that are not currently being met in the area. The main reason for this is a lack of funds to support the operation of equipment. The current rural fire protection is provided by one rural fire truck that carries 1,100 gallons of water. This covers an area of approx. 100 square miles of range, pasture, farm land, homes and barns. Money to buy, build and maintain this equipment is provided by the city of Eastland. The County of Eastland provides a subsidy to each city in the county of \$200 per month. This amount continues to be less and less adequate. At the present time there is no taxation at a county level that supports rural fire protection. Donations can be made to the Eastland Volunteer Fire Department, 414 S. Seaman St., Eastland, 76448.

An awards ceremony will

take place on May 24 in the Eastland High School Auditorium honoring students who have shown academic excellence in a particular class throughout the school years, and students who have a perfect attendance record. A letter will be sent to parents of the students being honored to invite them to the ceremony. The purpose of the event is to honor students who may not have been recognized by participating in traditional school activities or sports. "Good, hardworking students will be recognized," says Principal Upchurch.

Honor graduates at Eastland High School are James Ritter, Valedictorian, Melissa Williams, Salutatorian, Ronnie Allman, Angela Dennis, Lori Lasater, Joel Bulla, Melissa Morris, Katrina Saylor, Greg Stevens, Daryl Stuard, and Karen Sue Walton. The graduates received this honor by having an overall average of 90 or above during their four years of high school. All of the twelve honor graduates will go on to college, with two of the group planning to enroll in Cisco Junior College.

BAIRD
Baird has a new Mayor - Steve Bowen. He was sworn into office on May 9 by retiring Mayor Frank Payne. New council members Maurice Newton and Vickey Burnes also took their oath of office, joining members Tom Windham, A.M. Morris, Leon Chelf and Charles Brandon. The business at hand consisted of paying for new wiring in the old fire station, discussion of speed limit signs in the city, and the cost of a concrete boat ramp at the city lake. The Council voted to pay for the

cost of Fireman Phillip Rodriguez' training on arson detection.

The Baird Dairy Queen will be participating in the Benefit for CMN (Children's Miracle Network). All funds collected locally will be donated to the nearest children's hospital. On May 29 the Dairy Queen will have a garage sale, bake sale, car wash and dance, all on the DQ parking lot. The dance will be from 3-6 p.m., with a cost of \$2 per person or \$3 per couple. All area people are invited to stop at the Dairy Queen off I-20 at the Baird overpass and enjoy these activities.

RANGER
Mark Nowlin resigned his position Assistant Vice President of First State Bank of Ranger, effective last Friday, May 13. Nowlin is taking the position of Vice President of First State Bank in De Leon. He and his wife, Lisa, will be moving to De Leon, where he will continue farming and ranching part-time on the family ranch. Nowlin has been Assistant Vice President in Ranger since 1984, and states that he has enjoyed working here.

Ranger General Hospital will sponsor their Second Annual Benefit Show on Saturday, June 4 at Memorial Park World War II. The entertainment will begin at 10:00 a.m. All area entertainers are cordially invited to participate in the "Talent Show." The deadline to enter is set for Monday, May 30. For more information contact Pat Collins at Ranger General Hospital, 647-1156.

The Strawn Musical, which is usually held the Third Saturday of each month, will be changed to

the Third Friday for the months of May, June and July. The regular date will resume in August. The musical is held at the American Legion Hall, Highway 16, beginning at 7 p.m. Admission is free and musicians are encouraged to participate.

A new Restaurant, Big County Burgers and More,

has opened in Ranger. The owner is Billy Lindley of Gorman, with his brothers Chuck and David as managers and Clifford as assistant manager. All four brothers have been in the restaurant or food business for a number of years. They grew up in Eastland and left in the '60's - but are now back. Big Country Burgers and More offers good food

and entertainment with a miniature golf course.

CISCO
Cisco will have a Fourth of July fireworks display again this year, according to Don Shephard, Chamber of Commerce manager. Contributions to help pay for the insurance required for fireworks can be made to the Chamber office. "Last year the Fourth of July activities were even better than before," Shephard said. "We are anticipating that this year's program will be still better." He encourages everyone to make plans now to attend the celebration at City Park. "This will be a fun-filled day for everyone," he says.

Cisco Elementary and Junior and Senior High Schools will offer summer school courses for students who did not make a passing grade during the regular school year. The summer school will be offered to all students in Eastland County, Superintendent Ray

Saunders says. He says the Junior and Senior High Summer School will help the student who could be a drop-out.

Charles Parnell was hired as teacher and basketball coach for Cisco High School at the regular meeting of the Board of Trustees last Monday. Parnell has 13 years experience in teaching and coaching.

The Cisco City Council passed the first reading of an ordinance requesting the closing of Oakwood Cemetery during nighttime hours. The request was made because of recent vandalism at the cemetery. If the ordinance is passed, the cemetery will be closed from 9 p.m. until 6 a.m. This will make it unlawful for any person to use, stay in or otherwise occupy the area within the fence of the cemetery. Violation of this provision will be a misdemeanor, and any person found in the cemetery during the nighttime hours will be convicted and fined.

Bobby Smith of Cisco was hired as the business manager at Cisco Junior College during the Board of Regents meeting last Monday. Smith will be taking over the position of Ralph Glenn, who will retire at the end of December. Bobby Smith, a Cisco native, attended Cisco Junior College and received his BBA Degree in Accounting from North Texas State University in 1970. JULY 5TH, 1988 marks the 125th anniversary of the first wedding in Eastland County. On that date in 1863, Miss Sara Jane Blair became the bride of Berry Moore (Coon) Keith at Blair's Fort. It's documented, and will be detailed in the forthcoming Eastland County History Book by descendants of that union.

AND FURTHER, the Eastland County Historic Society is doing preliminary thinking about the possibility of a dramatic presentation and re-creation of that historic event, as a part of the continuing display of this county's exciting history. If developed, it would be similar in presentation to the 1986 recreation of the black bean event which told the story of Capt. Eastland, for whom the county and city are named.

It is initially seen as a major production, perhaps on the stage of the Majestic Theatre, utilizing local talent, in an exciting, entertaining and historically-accurate re-creation of that event. Details are being developed, and descendants of the family have already shown enthusiasm for the effort, and indicated that they would love to take part in such an undertaking. Naturally, it would call for the participation and cooperation of many to be able to stage such an event.

ORIGINAL CONCEPT is envisioned by History Book Laborer Roy Lee Smith, who was struck by the story as he and others worked on the material for the history book. He sees it as an excellent way to vividly display an important part of

the county's history, as well as bring publicity and attention to the county book, which is nearing the production stage.

ALREADY EDITED are some 2,100 family history stories and these will go to the printers (Nelson Publishers) soon for type-setting.

Next phase for the book will be the critical General History section which will tell the complete county history. Under terms of the contract with the publishers, the book will earn a page for general history for each page sold for memorial and/or business section, and the participation in this portion is vital. Firms and individuals are urged to commit for a memorial page to bring attention to a special person(s), or to tell the history of a particular business or organization. Costs for the memorial/business pages are \$250.00 for a full page; \$175.00 for a half page; and \$100.00 for a quarter page.

And with each of these pages sold, the book will earn a free page for general history; so actually it's a two-for-one proposition. Persons interested in securing a page right now, may do so by contacting either Smith, Book Chairman, Ron Bailey or any of the others who are helping put the book together. The typing and preparations for the book are taking untold hours of local preparation, and when finished, the Eastland County History Book is seen as the biggest and best ever turned out—and well it should be.

Gordon Spot

By DeMarquis Gordon, County Agent—

Fruit growers who were lucky enough to escape all frosts and freezes with no damage to the fruit, need to evaluate their crop at this time. Some trees do have an over abundance of fruit and they need to be thinned. Fruit such as peaches and plums should be evenly spaced on the tree with some 6 to 8 inches between fruit. Best results from thinning are obtained when fruit are thinned prior to pit hardening. Thinning after this point increases fruit size but the effect is not as dramatic. Prior to pit hardening, the fruit can easily be sliced into. Growers should check their crop and stage of fruit development and make thinning decisions accordingly. The earliest ripening varieties should be thinned first.

I know it is tough to take fruit off the trees when we have experienced freeze problems the past three years, but people still like large, pretty fruit and this can be accomplished by thinning the fruit.

Pecan casebearer spray time is fast approaching. Growers should start checking their trees for casebearer eggs on the tips

WE'VE ALWAYS thought that the general history could very well begin with Bailey's original research on the Robinson Colony from which this county was chopped, a healthy borrowing from the Cox and Langston histories of the county, with an updating past those key references (both of which are out of print and in rare numbers).

AND TOO, there is the basic fact that there's going to have to be a lot of books sold to make the effort fly. We all can help right now, by buying a book(s), and letting our kinfolks far and near know that they'll be available. JULY 4TH this year falls on a Monday. There will of course be other celebrations throughout the county over the weekend, but wouldn't it be nice on say Tuesday, the 5th, to see THE FIRST WEDDING IN EASTLAND COUNTY?

of small pecan nutlets. Cool nights the past few days have probably slowed up moth development, so emergence will probably be late. At this time, we can only predict the probable time to spray. The prediction is sometime between May 25 and June 1.

The Beef Promotion and Research Order Referendum was conducted in the County Extension office Tuesday, May 10. A total of 153 cattle producers voted. An additional 27 voted absentee.

The ballot box and voter registration list were delivered to the ASCS office on May 11. The votes will be counted on May 24, in all counties in the United States. Results will be announced shortly after that time.

Two relatively new diseases have been implicated in health problems in this area, haemophilus somnus, a bacteria, and BRSV, a virus. Somnus in particular has been identified by area veterinarians, in some cases in established herds without introduction of outside animals. Both of

these diseases can be involved in "shipping fever" or respiratory complex. Good vaccines are available for both organisms, either as separate protection or in various combinations. For instance, somnus can be obtained in a combination which also provides protection for IBR, BVD, P13, Vibrio, and five types of Lep-2. Other combinations are available. Producers should consult with local veterinarians for advice on specific immunizations needed for the area. We also have animal health guides for this county that recommends needed immunizations and parasite control.

THERE IS NO SUCH THING AS A FREE PRESS

ONCE UPON A TIME IN TEXAS, there lived a newspaper that reported all kinds of things, from weddings to recipes to obituaries to local needs and deeds, to club and church news, to water and power rates, to local elections. And while the town worked hard to solve unemployment, crime, bad streets and all the other aches of the day, the newspaper kept at it to try to bring the town a promise of the best to come -- and to believe in itself.

A FEW YEARS EARLIER, the newspaper didn't have as many readers. But its merchants advertised a lot, and there were more available dollars to hire writers and advertising sales people.

THE TOWN PROSPERED and its population grew to attract new, bigger businesses that came in to compete for customers from throughout the entire region. But some of those bigger businesses tried different ways of advertising, or reduced their own dollars for advertising when they took command of the market. Some small firms left.

TIMES GOT TOUGHER for the newspaper in spite of helping it's town grow. In just 18 months, the price of newsprint increased 30 percent, and it cost 20 percent more just to mail the same newspaper. The newspaper faced the same higher taxes, increased minimum wages and all of the other new challenges to business as did everyone else. Just the cost of keeping its doors open increased to \$526 per day for every 2,500 circulation.

The newspaper was forced to reduce its staff a bit, along with some of its local coverage because the dollars just don't have the same reach as prior years.

THE TOWN STARTED LOSING its close kinship and upbeat manner. And its citizens became less interested in ideas for the future of a town in which they were losing contact . . . and information.

BUT THE NEWSPAPER (every newspaper) kept plugging along, attending countless local meetings and events. And its staff worked long hours to find ways to produce a better newspaper for the town, and to provide businesses with a valuable means of selling their goods and services, and informing readers about everything from government to fashions and foods.

TEXAS NEWSPAPERS are always plugging, because they enjoy exercising "Freedom of the Press." But please understand, this freedom doesn't come cheaply. It costs lots of dollars to keep it going. So help to put a happy ending on this story for both your town and its newspaper . . . SUPPORT YOUR LOCAL NEWSPAPER, AND ITS ADVERTISERS, because they're truly helping your town!

The Next Best Thing -

.....to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field, values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then becomes the most important item to be considered when purchase of real property is contemplated. So be careful to buy good title based on an abstract of title or a policy of title insurance.

\$80,000.00 Bass Caught at Hubbard Creek

At the close of the 1988 KEAN Big Bass Classic I had realized two items. Number one, it pays big bucks to fish and win as Delton Wornack of Lubbock won \$80,000.00. And second that I could be wrong about my contention that this event is 99.9% luck. You may ask why I'm eating my words about the luck, well lets break it down. First Mr. Wornack is not a stranger to the classic having won a second and a third place in years past. This gentleman must have some honey hole on Hubbard and what about the other anglers who placed. Take Tommy Maynard from Eastland. Tommy has earned the reputation in area tournaments as being very consistent. Also prior to the classic Tommy and his partner Ron McCullough put in some hard work to locate the 4.40, 11th place fish Tommy weighed. Also Tommy weighed in 2 more fish in the 2 1/2 to 3 1/2 pound range. Luck? Perhaps not. And what about Jay Clark also of Eastland. Jay has posted some excellent weights on Hubbard Creek this year including his 4.11, 17th place fish at the classic. And of course last years winner Chuck Burgess returned to the pay window in 1988 with a

4.09 18th place finish. Last but not least Don Parson's of Snyder has placed in more KEAN Big Bass Classics than any competition, winning the first ever.

These are only a few of the people to me have shown that at least placing in this event isn't just luck, but a combination of hard work, knowledge and desire. Congratulations to all the winners and good luck next year to those of use who weren't in the winners circle. Also from Ranger placing well was Tony Wells finishing 41st with a 3.55.

Now what and where did these lunkers bite. The \$80,000.00, 5.94 lunker was taken on a Little N Crankbait on a main lake point near the dam. We were unable to gain any information concerning the other top ten fish. Tommy Maynard's 4.40 fish was caught in the Sandy Creek area on a black and blue Hales Craw Worm in 2 feet of water. Tommy was using 15 pound Trilene Big Game, and Tommy also wanted to express his thanks to the folks at Berkley for these fine products and support in his finish. Jay Clark said his 4.11 pound fish fell prey to a black and chartreuse worm in the Hubbard Creek area. So as you can see by these few stories the fish were scattered over many areas

of the lake.

The final top eleven standings were:

1. 5.94 Delton Wornack - Saturday
2. 5.88 Ricky Elliot - Saturday
3. 5.72 Jay Hunt - Saturday
4. 5.10 Bill Golden - Saturday
5. 5.09 Michael Alcorn - Sunday
6. 4.82 David Copeland - Sunday
7. 4.75 Olin Williams - Sunday
8. 4.73 Jerry Taylor - Saturday
9. 4.69 Larry Fine - Sunday
10. 4.57 Allen Chesney - Sunday
11. 4.40 Tommy Maynard - Saturday

As you can see the old myth that the best fish are caught on Saturday was also laid to rest with 5 of the top ten fish being taken on Sunday.

And now the bad news. Cheating was also present at this event as was the KYKX Tournament earlier this

year. Don McDougal, of Sweetwater was disqualified by tournament officials after being unable to pass any of the questions asked on the polygraph test. After speaking with officials Sunday they stated that the fish had been staked out overnight at Hubbard Creek. Further test were scheduled for the fish to determine if the fish was imported from other waters. Events such as this have been frequent, but I believe with the stiffer penalties, we will see a decline in attempts to cheat. At least till someone figures out a way to beat the system again.

Don't forget the E.C.B.C. iner club tournament at Lake Leon Saturday, May 21st. The race for the 1988 T.A.B.C. Top six is still wide open, so lets all show up and load the boat with those Lake Leon Lunkers.

Eastland County Young Farmers And Ranchers Met

A meeting of Young Farmers and Ranchers of Eastland County was held at the Farm Bureau office on Monday, May 9 at 8 p.m.

Jamie Gipe, Co-ordinator of the Young Farmers and Ranchers Program for the Texas Farm Bureau at Waco, and Ned Meister, member of the Legislative Department, were guest speakers.

Two films were shown about how the Young Farmers and Ranchers program has worked in other

counties throughout the state, and the impact that the Young Farmers and Ranchers can and do make on Legislative matters.

Involvement was stressed, because agricultural leaders of tomorrow will come from County organization like this.

Jamie Gipe presented Young Farmer and Rancher caps to Truett Hart, Kris Brown, Randy Bledsoe, Philip Lewis, John Buckley, Steve Brown and Donnie Gray.

Others present were Joe Frank McCullough, President of the Eastland County Farm Bureau, Bill Walton and Leo Williams, Co-Chairman of the Young Farmers and Ranchers for Eastland County Farm Bureau, Jim Kennedy, Manager of Eastland County Farm Bureau office, Anita Walton and Eloise Williams.

You Can Depend on Love
"For God so loved—" is the greatest statement in the Bible (John 3:16). It reveals the character of God; it explains his laws on which every successful life in Christ is built.

You may gain the luxuries of life, the acclaim of men, and enjoy the pleasures of this life, but if we lose our soul, it profits us nothing. We might give our life in His service, but there is no profit in such a life unless that person manifests love (I Corinthians 3:1-3 Paraphrased).

Love is never focused on one's self, but rather upon the object of love. Its real meaning is not found in possessing, but in giving. "For God so loved the world that He GAVE..." (John 3:16).

True love is the surrendering of ourselves and that is something we don't do ourselves. It is only when one desires to serve rather than receive that one can find completeness.

Jesus told His followers, "He that is greatest among you shall be your servant." Serving others is contrary to the ways of the world, but it is the only way to find joy and fulfillment in a relationship. This required love for others and humbleness of heart and life. This giving of ourselves comes only in the redemptive Cross of Christ.

Father, in heaven, help us to humble ourselves and to be used of you as an instrument through which your unfailing love will flow through us to others.

Last week when my daughter Teresa, brought in a piece of paper and told me who had written it, I was on the phone and didn't really pay any attention to her. She left right after she told me while I was still on the phone.

Last Friday, I was typing my column and saw the paper again on my desk. It was in her handwriting and so I typed it up and put it in the paper and said she had written it.

Imagine my embarrassment when she told me on Monday, that Mr. Wayne White, band director at Cisco High School, wrote it. I apologized to him and he said not to put anything in the paper about the mistake, but I'm not going to pay attention to him. When have I ever done anything right. He said the writing looked kind of neat with Teresa's name on it.

Wendy Wester, sang, and her mother Susan Wester, played the piano at the First United Methodist of Breckenridge last Sunday. They are from Cisco. After church my husband Herrel and I were talking to Dan, Susan's husband and he asked if we thought Wendy did Cisco proud, and we both answered yes. She is one talented young lady.

Ella White called the Press Monday to brag about her neighbor's yard. She said Mr. and Mrs. Vernon Frazier, who live at 1105 West 7th, have a beautiful yard. She said the Frazier's yard is well kept and have beautiful flowers in the front, back, and side of the house.

Kimberly Clinton, sophomore at Cisco High School, was on the A-B Honor Roll, but her name was inadvertently left off in a story in the last issue of The Press. Sorry about that Kim. (She's my girl and she calls me mom.)

Jessie Phippen, of Cisco, is in Hendrick Hospital in Abilene, but he is doing fine and expected to be dismissed soon, according to his wife.

The Thurber Historical Association Reunion will be held on June 11, 1988, in the Drygoods Building in Thurber. Registration will start at 9:00 a.m. on Saturday morning. On Saturday afternoon at 2:00, a Memorial Service will be held to honor departed members. People present will tell about exciting experiences while living in Thurber.

Annie Leedy Breden of Breckenridge wrote the following poem about the reunion. It said,

"Dear Thurber Friends,
Long ago, now, and always!

We won't care if it's raining.
We won't care if it snows.
You'll find us uncomplaining.

ing.
Though fortune come or goes!

We have no fear though clouds appear,
And stormy be the weather,
The sun must shine, the world is mine!

If we can be together."
For more information about the reunion, write Box 192, Gordon, Texas 76453.

Last week, my daughter's mother-in-law, Eleanor Moreno stopped by The Press with a surprise. She had my beautiful precious grandson, Johnny, with her. He is 10 months old now and he has my cheeks. I think the child is a genius.

But everyone feels that way about their grandchild. As someone told me, that's why their called "grand" kids.

Johnny helped me to type and clear out my files on the MDT, and he helped me to wait on customers.

My daughter Sherri, and her husband Mickey, live in Grand Prairie. Sherri graduated from Cisco High School in 1986.

Eleanor and her husband Mike are also from Grand Prairie. They were in Cisco visiting his mother and Sherri said they could bring Johnny down with them, if they just stayed one day.

The Spring Band Concert, held Monday evening, was enjoyed by all. The concert was held in the High School auditorium and the air conditioning had not been turned on early enough. It did get a little warm in there. Everyone was fanning themselves with their programs.

The sixth grade band party will be held next Tuesday at the City Park. They will have a cook-out and swimming party. Yvonne McFadin will contact you with specific details.

Officers for the band boosters passed out bumper stickers to band parents. The new 1988-89 Cisco Band Booster officers will be Ron Rhodes, president; Evelyn Valek, vice-president; Susan Crozier, secretary; Jay Maples, treasurer; and Sarah Hounshell, reporter.

Mrs. Edna Pence stopped by The Press Tuesday and renewed her daughter's and son's subscription. She said when she writes them, there are times when she forgets about certain things that are happening in Cisco. The paper is a good way to let them know what is going on in their hometown. Her children are Joy A. (Pence) Bell of Buchanan Dam, Texas and Billy C. Pence of Austin, Texas.

Mrs. Pence said they don't live in Cisco anymore, but they still like to hear about it.

Lubbock Man Wins KEAN Big Bass Classic Sunday

Delton Womack of Lubbock won \$80,000 for turning in the biggest bass at the 10th annual KEAN Big Bass Classic held at Hubbard Creek Lake, Breckenridge, last weekend. His bass weighed in at 5.94 pounds, at 9:45 a.m., Saturday.

Womack, a 38-year old Texas Tech employee, said he would use the money to put his daughter through college and to buy a new bass boat. Last weekend's two-day tournament was the ninth KEAN Classic Womack has fished in, according to the prize winning angler. He took second place in 1987 and third in the 1981 contest.

Womack was not put in first place until Sunday, though. Twenty minutes after the weigh-ins began Saturday morning the largest fish in the tournament's history, 7.04 pounds, was weighed in by a Sweetwater man.

But the man reportedly failed a polygraph test on Sunday, that fish was disqualified and tournament officials later said the man had allegedly bought the fish and staked it out (inside a cage) in the lake's waters prior to the tournament. Bobby Owen, KEAN program director, said the Sweetwater man "didn't just fail a few points on the polygraph, he failed a lot of them."

Questions asked during the polygraph, according to tournament officials, included ones concerning the possession of a valid Texas fishing license, altering the weight of a fish overnight in Hubbard Creek Lake.

"But since we didn't have any hard evidence against him," Owen explained, "he was not arrested. It will be up to the district attorney in Stephens County if any charges are filed against him later." Owen said the Sweetwater man was questioned at the tournament by game wardens from the Texas Parks and Wildlife Department.

Tournament officials said Saturday that a record number of contestants entered this year's event with over 4,200 signed up for one or both days of the tournament. The officials said they expected some additional entries on Sunday.

Besides paying \$200 for the biggest fish weighed in each hour, the KEAN tournament paid prize money—ranging from \$200 to \$80,000—for the top 50 fish of the two-day tournament. In this year's tournament, anglers had to have at least a 3.32-pound bass to place "in the money." Tournament officials cited the excellent weather and lake conditions for the record-setting tournament results.

Fifty bass fishermen were presented with prize

Press is a good idea for a graduation gift. Most people really like to hear from home, especially if it's the first time they have been away.
