

Mr. Muleshoe . . .

By J. M. Forbes

Seen & Heard: F. H. "Shorty" Davis: How my partner, Jack Lenderson, and his family got back to Muleshoe after running plumb out of money on their jaunt to the northwest, is beyond me. We know he ran out of money because from Horse Haven, Wash., or some other far away place he mailed a card to Jack Holland, the Magnolia man, and the latter had to mail back 2 cents to get the card sent on in to him. If a fellow can't buy a 2 cent stamp, how could he get back home from away off up there? He's back all right, and I note a pile of cash he had accumulated in his absence (a small pile, I should say) is no longer with us, so I figure everything is back on an even keel at the Lenderson homestead.

Pat Bulloch: Thursday night I usually sit up 'til way past 10 reading The Journal. I read every word in it, every last word, because I want to see what other folks are doing.

Well, Pat, we had more complaints on last week's paper than we have had on a paper in quite a while. Many people took the trouble to tell us they thought we were doing a good job and you know that makes a fellow want to work still harder.

Friend: I went to church Sunday, found more money was needed to help finish the church edifice. I gave \$100, although I felt that was going a little strong for a small fellow. I had just eaten my dinner when a fellow called me up and paid me \$105 that he had owed quite a while.

Well, my friend, you ought to be seen in church more often in the future after that experience. The Lord will provide. He has just provided us with a fine rain, just when some of us were on the verge of despairing, and likely He has sent it in ample time.

Away back yonder in May, old Will Harper said it would rain on July 1. It rained where I was on July 1, but not here until July 3, but that's calling your shots pretty good, Will.

I have heard many people in the last few days express the opinion that automobiles ought to be made slower, or that a governor should be placed on the car at the factory. It occurred to people especially as they heard of the lengthening death toll over this long Fourth of July weekend. Latest information is that at least 793 persons died violently in the U. S. And of these, no less than 491 were due to traffic mishaps. It's not all due to speed, but we have long thought that if you are driving 50 to 60 miles per hour you have less chance to avoid a situation that suddenly develops than you would if you were going 50 to 60 miles per hour. We have thought for a long time that one at least partial remedy would be to build four lane highways at spots where traffic is heavy, but we have seen no statistics on this.

But that the slaughter must be curbed in some way, all will agree, even if we cannot agree on the method. Public Opinion one of these days will force drastic measures why it hasn't already done so is beyond understanding.

How wonderful it is to be back on the job after a full day's enforced idleness brought about by the sudden advent of the Fourth of July. Am sure that is the sentiment of not a few readers of the Journal. For most of us are working folks, and to sit about for a full day, with nothing that has to be done, nothing crying for attention is just a lull in the course those who hied away to the cool mountains or spent the day in efforts to lure the finny denizens of the cool stream were fully occupied. Me, I found a good reason not to do the painting that needs to be done. I visited the neighbors. I talked and talked, but accomplished nothing. But ain't it a grand glorious feeling to be back in the harness, with the sweat pouring down inside the collar and the thought that we are of some use in the world, after all.

We had lots of complimentary things said about last week's paper, but I'm wondering what the paid up subscribers will think of this week's effort. A holiday just ruins a weekly paper. I just upsets all plans. Next week, we will be back to normal, with all hands on deck and the situation cleared for action. Do not, I plead, cancel your subscription on the basis of this one issue. We'll do better, we'll do a lot better in the weeks to come.

Teen Town News

Tuesday night, June 27, Teen Town met and elected officers for the next year. They were: Earl Jennings, Mayor; Marilyn Gupton, Secretary; Sandra Wagner, Treasurer; Bruce Simmacher, judge; Freddie Harvey, chief-of-police.

Tomorrow night (Friday) July 7, Teen Town is going to have a skating party. The group is to meet at the Teen Town building at 7:30 to leave for the party. If for some reason the party is called off, there will be a notice posted on the door of Teen Town all day Friday. Would everyone who plans to go please bring a car if it is at all possible.

TO AMARILLO

Miss Elizabeth Harden spent the week end in Amarillo visiting.

Texas Asked To Cooperate In Traffic Safety

In a united effort to halt a rapidly rising increase in fatal automobile accidents, Texas has been asked to join the 47 other states in a nation-wide crackdown on speeding and drinking motor vehicle operators. A letter has been sent to Governor Allan Shivers by J. Dewey Dorsett, general manager of the Association of Casualty and Surety Companies in New York, officially transmitting a strongly worded resolution which was adopted by the executive committee of that organization, appealing to all of the states, municipalities and counties in the country to enforce laws governing motor vehicle speeds and driving while under the influence of liquor. Declaring that speeding and the use of alcoholic beverages are the primary causes of highway accidents, the resolution cites the National Safety Council as authority for the statement that deaths due to motor vehicle accidents rose 11 percent during the first four months of this year over the corresponding period in 1949. It further pointed out that two-thirds of all such fatalities occurred on rural highways, where excessive speeds are far easier than in crowded urban streets. A copy of the resolution has been sent to the governors of all the states and the mayors of all cities above 10,000 population. Copies also will be sent to the governing bodies of all counties in the country. The gravity of the situation is indicated by the fact that this is the first time the Association of Casualty and Surety Companies, which speaks for 81 insurance companies representing millions of policyholders, has ever taken official action on such a public issue. The Association maintains one of the nation's outstanding safety organizations.

VISIT WITTE FAMILY

Mrs. Pete Jenkins and little son, of Big Spring, spent a few days lately in Muleshoe with her parents, Mr. and Mrs. Walter Witte.

FROM PORTALES

Mr. and Mrs. Marty Ezell and children visited in the home of Mr. and Mrs. Buford Butts and family Tuesday.

OREGON VISITORS

Mr. and Mrs. E. Douglas and daughter and Mr. and Mrs. Dudley Malone and family left last week on an extended visit to Eugene, Oregon.

LEWIS VISITORS

Visiting in the home of Dr. and Mrs. A. E. Lewis and son Saturday were Mr. and Mrs. Dan Shelton of Northheim, Texas. They also accompanied the Lewises and Howard Tate to Cowles, N. M. for a visit of several days.

FFA Boys Go Far Afield To Get Fine Blooded Swine For Projects

Some of the Muleshoe Future Farmers are securing new and different breeds of hogs. They have placed orders with Oklahoma A & M College for breeding stock of their inbred lines which have been attracting nation wide attention.

They hope to secure one Minnesota No. 2 boar and three or four Inbred Duroc gilts about weaning size or some single cross gilts already bred to a Third-line boar. Mr. Dowell said that it has not been determined which boys will get the inbred hogs or how they will be handled and it may depend on how many will be available. Inbred hogs are quite scarce and usually have to be secured from an experiment station. Oklahoma has agreed to place some of their stock with the Muleshoe Chapter.

There have not been any Spotted Poland China or Berkshire hogs shown in the local shows recently but a few of the F. F. A. boys have started these breeds as projects. Keith Bray bought a gilt out of a Slinkler sow and a China boar. Her grandam was a Grand Champion Sow at the State Fair in 1948. He also has three Spotted Poland China Barrows, five duroc barrows and one Poland China barrow.

Denton Hughes has bought a Spotted Poland China Boar and a gilt from Allen Dickinson near Amarillo. They are out of a sow that cost \$350.00 as a bred gilt and a Boar that cost \$200.00 at weaning age. He also has two Spotted Poland China Barrows, three Berkshire Barrows, and three Oklahoma Bred Poland China Barrows. The boys remember the Fat Stock Show at Amarillo last March when some Oklahoma boys walked away with most of the premiums on the Poland hogs. Denton got three small gilts of the Oklahoma stock and hopes to sell them to other boys of the chapter since he chooses to stay with the Spots.

Donald Harrison bought a Berkshire gilt from the famous Wenzel herd, Brownfield, and he and his brother, Ted, both have Oklahoma gilts bred to local Poland boars.

Billy Wayne Wagon bought two Berkshire gilts from an F. F. A. boy who had secured his stock

RETURN FROM FISHING

Just returned from a fishing trip to Arkansas are Tye Young, B. F. Lowery, and C. L. Lowery of Wellington and H. L. Lowery of Lutie, Texas.

TO RUIDOSA

Mrs. Thurman White and children, Jeri Nell and Clifford joined a group of relatives for an outing at Ruidosa the Fourth.

FROM SUDAN

Mr. and Mrs. Olin Roark and family of Sudan visited in the Tye Young home Tuesday.

AT FAMILY REUNION

Mr. and Mrs. J. M. Forbes attended a family reunion held at Silver Falls and Roaring Springs Sunday.

AT FIRST BAPTIST

Rev. George Dale, of Lubbock will preach at the First Baptist church here Sunday at both morning and evening services, in the absence of the pastor, Rev. A. W. Blaine.

SPEND SUNDAY HERE

Mr. and Mrs. J. E. McKillip, of Farwell, and Mrs. Leona Mason spent Sunday here with their sister and niece, Mr. and Mrs. Lon J. Cochran.

EPHILON CHI SORORITY TO HAVE BAKE SALE

Saturday, July 8, Epsilon Chi Sorority will have a bake sale at Piggly Wiggly Store from 10 a. m. to 3 p. m.

Rains Soak Muleshoe Vicinity

The biggest news story possible in West Texas broke this week when a glorious rain fell in nearly every part of the Plains, bringing planting moisture to many sections where a plow had never been placed in the field this season. Farmers on over-irrigated places in the south part of the county made a run on Muleshoe seed dealers Tuesday in preparation for quick planting.

In Muleshoe until this morning 2.92 inches of rain had fallen and

old timers here said they had never seen rain fall so well. It rained slowly and soaked into the ground in an unprecedented way for this time of year.

The Muleshoe precipitation total came in three showers. Amount received Monday night was .95 of an inch; for Tuesday night, .67 inch; and Wednesday night the amount here was 1.29. It continued to rain gently until well past 3 o'clock this morning and remained cloudy, giving promise of more moisture to come. More rain had fallen in three days than had been recorded previously in 6 months. Total for the year had been 1.86 until Monday.

It was believed that rain fell in varying amounts all over this country. However, until Wednesday night there was not enough moisture to plant in some parts of the southwest portion of the county. Jesse Osborn, local banker, said he made a trip through by Baileyboro into Stegall and Goodland communities Tuesday. Some planting was going on there, however, he said.

Jack Obenhaus, living about 8 miles south on Morton highway, said he believed more rain fell at his place Wednesday night than at Muleshoe. Accurate reports from the section are hard to obtain because there is no telephone communication with Muleshoe.

It's too late to plant cotton on dry farms which now have planting moisture, but it is considered that feed planted now will have time to mature. Many farmers are planting 60-day sorghums, which likely will mature in less than 90 days.

Much of the Plains has been covered now by the beneficial rains of the last two weeks. All of the country east of Plainview was drenched by rain Saturday night. The rains of this week were very general in scope in this part of the plains.

First Christian Buys Church Home

The First Christian Church has purchased the building which until recently was used as a place of worship by the Muleshoe Primitive Baptist Church. The purchase did not include the lots on which the building is situated as the congregation plans to obtain a building site of sufficient dimensions to provide for future expansion as the need may arise.

The building will be moved to the new location to serve as a temporary place of worship until more adequate facilities can be constructed.

The building was used by the Christian Church for the first time on Sunday, July 2nd, at which time Prof. Paul Elliot delivered the message on the subject of "Faith". Prof. Elliot, an ordained minister of the Christian Church, is an Atomic Scientist and at the present time is serving as Professor of Physics at Texas Tech.

JayCees To Meet Monday Night

Regular meeting of the Muleshoe Junior Chamber of Commerce will be Monday night at the Cross Roads Cafe. This month the meeting was changed from the first and third Monday nights to the second and fourth Mondays.

All members are urged to be present for this meeting and anyone interested in becoming a member of the organization is invited to attend.

Ramsey In Race Lt. Governor

Ben Ramsey, candidate for lieutenant governor and former Secretary of State last week completed another chapter in his person-to-person handshaking tour of the state.

Ramsey found considerable interest in his program for economy in government, blackout roads to every farm home, soil and water conservation and rural telephones at reasonable rates.

Ramsey, a 46-year-old country lawyer from San Augustine in East Texas, has been conducting soil and water conservation experiments on his own farm near San Augustine. Several classes of students studying conservation have visited the farm to observe the results of the experiments.

Washing and lubrication racks are nearing completion and will be ready for use the latter part of this week. One feature of the station is a free vacuum job with each wash and lubrication job.

Employed at the station are Don Fudge, T. J. Bailey and Bobby Goss.

EPHILON CHI SORORITY TO HAVE BAKE SALE

Saturday, July 8, Epsilon Chi Sorority will have a bake sale at Piggly Wiggly Store from 10 a. m. to 3 p. m.

Local Markets

Postal Receipts Here Continue To Reflect Sound Business Conditions

Receipts at the Muleshoe post-office continue to reflect the sound business position of the town and territory.

Recapitulation at the end of the fiscal year, June 30, Postmaster A. J. Gardner found that the just ended fiscal year bested the previous fiscal year in receipts by some \$3,617.95.

Every quarter showed an increase over the corresponding quarter of the previous year.

In the quarter ended Sept. 30, 1949 the office had a total business of \$5,224.17, against \$4,384.07; the quarter ended Dec. 31, 1949, had a business of \$7,580.25, against \$6,331.17; the March 31, 1950, quarter business was \$6,066.69 against \$5,730.68, and, surprisingly, the quarter just ended, June 30, had a total business of \$6,229.01, compared to \$4,986.25 for the same quarter in 1949.

The latter figures were surprising in that last year there was a fine wheat crop, whereas this year very little was grown, hence little cash was released through the wheat harvest.

County Audit Report Issued

G. A. Sahli, auditor, recently completed an audit of offices handling county funds and found officers in charge had "properly accounted for all moneys coming into their care." The Journal publishes below his letter to the Commissioners' Court concerning the audit: Amarillo, Texas, July 5, 1950.

The Honorable Commissioners Court, Bailey County, Muleshoe, Texas, Gentlemen:

I have completed my audit of the books and records of the County Treasurer and the County Tax Collector and Assessor for the year 1949.

I certify that the County Treasurer and the County Tax Collector and Assessor have properly accounted for all moneys coming into their care as such officials.

This report is made preliminary to the submission of detailed and complete Audit Report which will follow as soon as this can be typed.

Respectfully submitted, G. A. Sahli, Certified Public Accountant

Hicks Tractor Adds Vaughan As Salesman

Hicks Tractor Co., is this week announcing that Troy Vaughan, formerly of Floydada, has been employed as a salesman for the firm. He assumed his new duties the first part of the week.

Mr. Vaughan was manager of the Ford Tractor and Mercury Agency in Floydada. He is familiar with all phases of the tractor business, having attended special schools of the Ford Tractor Co., and has been working with them for several months. He knows the farmers needs and problems for this area.

He served as a flight engineer in the Air Force for three and one-half years with service in the U. S. and over-seas. He is a graduate of Roaring Springs High School and has attended Modesta Junior College at Modesta, California.

His family includes Mrs. Vaughan and two daughters, Sharon, three years, and Karen, 2 years. They moved to Muleshoe Tuesday. Mr. Vaughan is a member of the Lions Club, JayCees and the American Legion.

George E. and J. E. Hicks, managers of the firm, invite everyone to stop by and get acquainted with Mr. Vaughan, and also say they are glad to help anyone with any of their farming problems or needs.

Schools To Offer Summer Band

An intensive band program for beginners, junior high students, and high school students will start Monday July 17 and operate 5 days a week through August 18. Director Gray hopes to be able to play a series of lawn concerts during the 5 week school vacation.

All classes will meet in the band room in the new High School. Schedule is as follows: 9:00-10:00—Beginners Band Class 10:00-11:00—Junior High Band 1:00-4:00—Special work on solos and Ensembles for students who want to play in small groups. 4:00-5:30—Senior High Band and Marching Drill.

Students will not have to be in school except for their band Class. We are trying to secure the services of several guest conductors to work with the different bands periodically during the summer.

Tuition for the 5 weeks school is \$10.00 for the whole term. Gray is particularly interested in having a large group of eighth and ninth graders start taking band this summer in order to have a nice size football band ready when school starts.

Goss Conoco Opens Saturday

Muleshoe's newest service station, Goss Conoco Service, opened Saturday. The new ultra-modern station reported a good opening day and Carroll Goss, manager, wishes to express his thanks to all who have visited him and invite them back.

The station was built by R. R. (Bud) Holton, Conoco distributor for the Muleshoe area.

Washing and lubrication racks are nearing completion and will be ready for use the latter part of this week. One feature of the station is a free vacuum job with each wash and lubrication job.

Employed at the station are Don Fudge, T. J. Bailey and Bobby Goss.

HERE FROM AMARILLO

Mr. and Mrs. Talmage McKillip, of Amarillo, spent Sunday here with relatives and friends.

TODAY'S meditation

The Upper Room
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

"Her Sins, which are many, are forgiven; . . ." (Luke 7:47.) Read 7:36-50.

An old Confederate veteran, who was also a local preacher, once said to a college lad on his way to the ministry, "Son, if you have only ten minutes to preach, preach five minutes on the cure."

In our cultured and congested day we have come near to losing the sense of sin. We have softened it, ignored its facts in spite of its horror and in spite of its subtle, satanic power. Its curse has been spread. Is cure has been

too often ignored. A pathetic woman came to Jesus to wash his feet with the tears of her penitence and to dry them with her hair. She gave evidence of the curse of sin in her own life and sought the cure in the words of Jesus. Her reward, "Thy faith hath saved thee; go in peace," was abundant and abiding. What He did for the sinful in the yesterdays, He still does today.

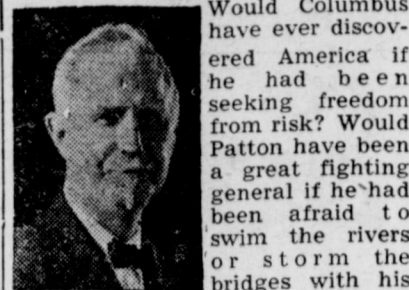

PRAYER
In the light of the cross, our Father, Thou didst forgive sin. In that same radiance, in tender mercy, forgive our sins, however small or great they may be. In that forgiveness is our peace, our only hope. We reverently plead Thy mercy, through Jesus Christ our Lord. Amen.

Thought for the Day
Jesus would have gone to the

Noted In Tax: Security

BABSON PARK, Mass., June 30—Webster's Dictionary definition of "Security" includes freedom from fear, freedom from risk, danger, harm or the like.

IS SECURITY DESIRABLE?
I have sometimes heard men say that it was too bad peace didn't seem to provide quite the stimulus for greatness and distinction that war does. War often calls forth not only a man's ability but his capacity. Dwight Eisenhower has often stated that we human beings could not keep on living if there were no struggle and we were kept in "perfect security".

Would Columbus have ever discovered America if he had been seeking freedom from risk? Would Patton have been a great fighting general if he had been afraid to swim the rivers or storm the bridges with his men? Would Gandhi have been the beloved leader he was to his people if he had sought first of all to protect his own physical health and life? —Edward J. Rees (Tennessee)

Ralph Waldo Emerson once said, "Nothing can bring you peace but the triumph of principles." Do we admire or gather inspiration from any of our heroes, poets, or philosophers because they were first seeking security for themselves? James Byrnes in a speech at the last Conference of Southern Governors is reported to have said, in effect, that the people who settled this country did not come here to establish a government. They came to escape the tyrannies of government. They were not seeking security, but an opportunity to enjoy freedom—the freedom of self-development and accomplishment. Today the spirit of self-reliance is unfortunately departing; too many want to lean upon the government; too many are thinking of security instead of opportunity.

TOO MANY "DEPENDANTS"
Who or what has encouraged this leaning, this moral weakness in the United States? Our government itself is encouraging it in every new proclamation. It urges more aid to farmers, more loans to small business, more health insurance and employment security. Each and every suggestion amounts to a promise to spend more as a charity to support this group or that—out of the peoples own hard-earned tax money. More-over, may I ask if the politicians are doing this for the good of the nation, or to get the votes?

What happens when a man knows he's going to be supported whether he does a good job or a poor one? He loses all incentive to excel. The public must realize by now that too many of their government's employees feel "secure" in their jobs. Yet, they don't have to produce anything which must stand factory or retailer's or consumer's inspection. Even more discouraging is the attitude of some of our youth in the schools. A friend of mine, who is a teacher, says that healthy young men, in their early twenties, claim to be interested only in jobs which will offer them old age pensions and other benefits. As Americans, they should be ashamed of themselves. They should be looking toward jobs where there's a chance to work up, to earn advancement in an incentive system, not in a "sure thing" system. Pension systems should boom Florida and California real estate; pensions may help level retail sales over a period of years; but most pension systems will never increase the total national income.

DECAY OR GROWTH?
Bernard M. Baruch, adviser to Presidents, said in a recent speech that we are swapping our independence for a "false gospel of security", that the greatest threat to our freedom is "too much government". Do the American people want to be treated like babies, to be cared for by the government from the cradle to the grave? What happens to children who are given everything—except responsibility? They become greedy. They come to expect more and more. They become dependent and parasitical. A strong moral fibered character is never developed at all. There can be no personal or national development without risk, challenge and struggle.

TEXAS NEW SCHOOL LAWS GIVE BETTER EDUCATION

AUSTIN, Texas, July 3—Texas' new school laws, in force one year, have had the desired effect of providing better education and of bringing more children into the classroom.

Average enrollment skyrocketed more than 100,000. L. P. Sturgeon, state associate commissioner of education, said here today.

"A renewed interest among educators in getting children into the schools, plus more attractive programs offered the pupils have had the desired effect," Sturgeon said. "The spotlight of publicity thrown upon the schools while new education laws were being studied by the public and enacted by the last legislature has caused Texans to take more interest in their schools than ever before."

"An illustration of this is the fact that in some districts members of civic clubs have designated themselves as attendance officers. They have been extremely helpful to the school administrators in urging attendance so that Texas children can have a better education."

Every district in the state has waged intensive campaigns to get children in school and keep them there, Sturgeon said.

Schools have expanded or instituted classes in shop work to interest older children.

Classes for handicapped children have increased 50 per cent. They, like many other special school services, were made possible by allocation of state funds under Gilmer-Aikin school laws.

Visual aid facilities have been augmented, Sturgeon said, increasing the interest of children in school work.

School terms of six weeks to two months during the summer are

state, according to Sturgeon. These make it possible for students to complete their annual scholastic work and yet allow schools to be dismissed during cotton picking time.

Sturgeon also reported that inroads are being made on the problem of regular attendance of Latin-American and Negro pupils. Itinerant workers are prone to leave their children in school only two or three months of the year, at most, Sturgeon pointed out.

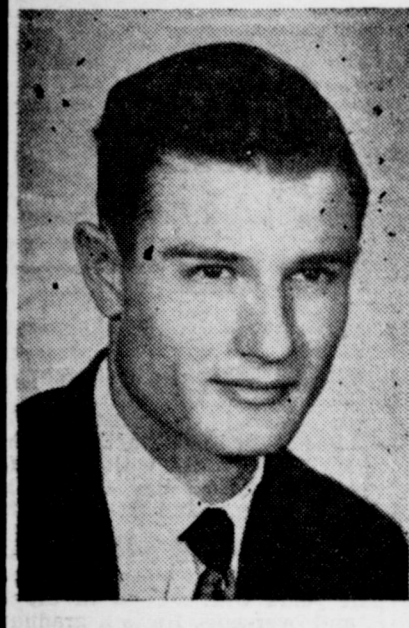

Some districts which have heavy Latin-American and Negro populations reported gains in attendance of 15 per cent and more during the last school year as compared with less than 5 per cent state-wide gain.

But even with the increase in attendance, there are still approximately 150,000 children of school age in Texas who are not enrolled, Sturgeon said. These are children whose parents are starting them in school a year late or older children who do not enter high school.

One of the most serious problems confronting school districts is lack of classroom facilities, according to Charles H. Tennyson, executive secretary of the Texas State Teachers Association.

Surveys by that organization and state school officials show that 50 percent of the school districts this year increased their classroom facilities. Many others will add classrooms during 1950 and '51, Tennyson said.

"These necessary additional facilities will be made available due to increased revenue obtained by the schools through the new and equitable laws which produce more funds, from both state and local taxes," Tennyson said.

On Clovis Highway Muleshoe, Texas

The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.

There is the all-important point about what a car does to you—and that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand—when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-

eight power plant—when you feel the smooth surge of its Dynaflo-cushioned take-off—

Man, then you know you've got a real automobile!

And don't overlook this:

That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.

Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.

There are a lot of good, solid,

dollars-and-cents reasons for making ROADMASTER your choice over any other car:

Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine, Dynaflo Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

FOUR-WAY FOREFRONT
This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Cox Says Food Borne Diseases Easily Stopped

AUSTIN, July 3—Food poisoning and the spread of food-borne diseases can be "things of the past," State Health Officer Geo. W. Cox asserted here today.

"People need only remember three things to bring about the end of the food poisoning disease classification," Dr. Cox declared. "Buy food from safe sources, prepare it in a sanitary fashion, and serve and store it correctly."

He said state laws covered the sale of contaminated food to the housewife, but "only the housewife can see that food is properly stored and cleanly prepared for serving to the family."

There is a difference between food infection and food intoxication, he pointed out.

TO CANADA

Homer Sanders, Jr., left Sunday for Vancouver, Canada, to meet his wife and son, Michael, there and they will accompany him back to Muleshoe. She has been visiting her parents in Calgary, Canada for the past few weeks. They will be expected back in Muleshoe in about three weeks.

Food infection comes from eating or drinking a product contaminated by a germ. Dysentery, typhoid fever, para-typhoid fever and tuberculosis are examples. Animal parasites can also gain entry to the body in this way. That, the doctor said, is how people get trichinosis and tapeworm.

The growth and multiplication of certain toxin forming bacteria in unrefrigerated foods bring on food intoxication, according to the explanation. That is the source of staphylococcus infection and the deadly botulism. Some kinds of mushrooms and certain shellfish are also poisonous.

Some poisonous substances may be accidentally introduced into food, Dr. Cox said. "For instance, rodent and insect poisons, spray residues on fruit and vegetables, and poisons from metal containers."

To point up the deadliness of some food poisons, he related the story of the housewife who suspected some home-canned green beans she had just opened were tainted.

"She barely tasted one of them, but it killed her in a matter of hours. Such instances are rare but do occur."

Brooks Opposes Any New Taxes

PIERCE BROOKS

Pierce Brooks, Dallas business man, has opened his campaign for Lieutenant Governor with a declaration that he is opposed to any new taxes until the State's financial affairs are put on a sound and sensible business basis and waste and extravagance are eliminated from the operations of the State government.

Brooks declared in his opening campaign address that the State is facing the worst financial crisis in its history. "It is over-spending its prospective income at the rate of \$6,000,000 per month," he said, "and reports from Austin say that in addition to the \$500,000,000 the State is spending this year an additional \$150,000,000 in new tax money will be needed next year."

The Dallas business man candidate pointed out that the cost of the State government has increased more than 500 per cent since 1935, while the cost of the Federal government, aside from the cost of World War II, did not increase that much.

THE RECREATION PROGRAM

By EARL JENNINGS
The Cardinals maintained their lead in the Softball League last week but the Yankees cut their lead to one full game. The Cubs are still last but they also closed the gap some. The Yankees still lead most of the hitting depart-

Charming Doris Day, Warner Bros. star, looks as sweet as she sings. She is fresh as a daisy in her navy chambray with gorges of white eyelet inserted to make a circular skirt. The bolero is matching white eyelet, and she sets off her costume with snowy white cotton string gloves.

Purebred Hogs To Be Featured At State Fair

Purebred hogs, exemplifying the progress made in the Texas swine industry during the past 50 years, will be a big feature of the 1950 State Fair at Texas Mid-Century Exposition, Oct. 7-22, Ray W. Wilson, manager of the Fair's livestock department, has announced.

Breeders will compete for \$8636 in premiums in the show scheduled for Oct. 7-15.

The judging program includes: Poland China, Spotted Poland China, Berkshire and Yorkshire, Monday, Oct. 9; Hampshire, Duroc, OIC and Chester White, Tuesday, Oct. 10; and Fat Barrows (all breeds), Wednesday, Oct. 11.

This will be the first time in the 65-year history of the State Fair that the Yorkshire breed has been exhibited.

The State Fair gives swine breeders the opportunity of showing to the largest audience in the world. More than 2,000,000 persons are expected to attend the great 1950 exposition, Wilson pointed out.

Included in this vast audience will be more than 100,000 4-H Club boys and girls, Future Farmers and Future Homemakers who will be guests of the Fair on opening day, he explained.

Swine barns have been completely repainted and redecorated. A well balanced program of wider appeal has been arranged. Hogs will be presented in an effective streamlined show.

With a total of \$72,659 in premiums, the greatest livestock show in the Fair's history are assured, Wilson added. The program will include beef cattle (Aberdeen-Angus, Brahman, Hereford, Polled Hereford, Shorthorn), dairy cattle (Jersey, Guernsey, Holstein-Friesian, Milking Shorthorn), horses (Quarter, Palomino, American Saddle), Sheep and Angora Goats and the Junior Livestock show.

State Accepts 3 4-H Programs Of Interest To Girls

Three national 4-H awards programs of special interest to rural girls have been accepted for the current year by the Texas State Club office, it is announced by the National 4-H Committee. They are Girls' Record, Canning and Dress Revue.

County winners in each will receive honor medals, and State champions will get educational trips to the National 4-H Club Congress in Chicago next November.

National awards are \$300 college scholarships in Girls' Record and Canning, and leather-cased scissors in Dress Revue. Donors of awards in the respective programs are Montgomery Ward, Kerr Glass and Simplicity Pattern company. The programs are conducted under the direction of the Cooperative Extension Service.

Texas state winners in the pro-

CARD OF THANKS

We wish to take this means of expressing our sincere thanks to the many fine people who assisted in any way during our stay in the hospital. Words are inadequate to express our deep appreciation and gratitude for the many beautiful flowers, get well cards, acts of kindness and words of sympathy. May God richly bless, each of you, and He will. Sincerely, Lee Kimbrough and family

FROM BALTIMORE

Major Andanee Gaston and family from Baltimore, Md. visited in the homes of his sisters and families, Mr. and Mrs. Duane Holley and Mr. and Mrs. Rip Taylor. He was being transferred to Fort Ord, Calif. The family enjoyed a series of moving pictures made while Major Gaston and family were stationed in Korea.

PHONE OFFICIALS WILL MEET WITH LOCAL CO-OP

A conference of telephone company officials and directors of the Five Area Telephone Cooperative, of Muleshoe, is scheduled for tomorrow night, Friday, in the offices of the Bailey County Electric Cooperative.

Ray F. Red, Dallas, general commercial superintendent of the Southwestern Associated Telephone Co., and possibly other company officials will be here.

Largest reptile in the U. S. is the alligator.

grams last year were: Laverne Goertz of Red Rock, in canning; Lucille Downey, of Kirkland, in dress revue; and Mary Keith, of Whiteface, in girls' record. County Extension agents will furnish full information on these programs.

HARLEY SADLER TO GIVE RE-ENACTMENT OF "TOBY"

Harley Sadler, probably the best known showman of the early days of West Texas, will re-create his "Toby" characterization at Palo Duro Canyon on Friday and Saturday evenings, July 7 and 8.

Sadler is appearing with the newly-organized Sundown Repertory players, a summer theatre group which will present nine weeks of old-fashioned melodrama on a newly-constructed theatre at El Coronado Lodge at Palo Duro Park. The characterization of Toby will be presented as "oleo," which is old-fashioned between-the-acts vaudeville.

Passing through the Panama Canal from the Atlantic to the Pacific, one travels from west to east.

FOR GOVERNOR

ALLAN SHIVERS

575,674 Texans voted for him for Lieutenant Governor in 1946 • 883,700 Texans voted to re-elect him in 1948 • They believed in him then • They believe in him now • That's why Texans will vote on July 22 to give ALLAN SHIVERS a term of his own as Governor of Texas.

ments but they are not getting their hits at the right time. Averages show that Donald Roddam of the Cardinals has driven in 31 runs with a .546 batting average while Jr. McKnight of the Yankees has driven in only 12 runs with a .646 average.

Leaders of the hitting departments show Roy "Steamboat" Harris leading in hitting with .745 and hits with 38. He is a Yankee along with Bob Daniels with .677 and Jr. McKnight with .646 who are second and third. Robert Richards of the Yankees regained his lead in homeruns from Dean Harrington by smashing two last week. He now has six. Bob King leads in runs with 26 and Roger Graves leads in triples with 5. Both are Cardinals. Graves hasn't hit a triple since the first week. Donald Roddam of the Cardinals has 31 runs batted in to lead that department and he is tied with Leon Harvey of the Cubs in doubles with 9 apiece.

A ping pong tournament is scheduled Thursday and Friday evenings from five until seven. Bob King and Leon Harvey are expected to carry off most of the honors in this.

Swimming is progressing nicely. Bob King is doing very well in Junior Life-saving along with Bud Lane and Travis Clements.

Shivers Favors
Lifting Ceiling
On Old Age Aid

Fortright answers to four questions put to him in a letter from a West Texan this week placed Gov. Allan Shivers clearly on record for a "fair and equitable" old-age assistance system in Texas.

Replying to a communication from Archie Yates, 1318 North 15th St., Abilene, Shivers set forth in one-two-three fashion his views on old-age assistance. He wrote Yates

as follows:

"Your first question is, 'Do you favor the removal of the ceiling on old-age pensions and payments to needy children and dependent blind?' My answer is yes.

"Your second question is, 'Will you or will you not do all you can to have a constitutional amendment submitted to the people to be voted on at the earliest possible time?' My answer is, I will.

"Your third question is, 'Will you or will you not, if ceiling is removed, support a law raising such payments?' My answer is, 'This is a matter entirely for the Legislature, but I will be happy to see the Legislature pass such laws as it feels fair and just in all the circumstances.'

NEW MEXICO VISITORS

Mr. and Mrs. Clyde Holt spent the holidays in Ruidosa, N. M.

"Your fourth question is, 'Do you or do you not favor the State taking a lien on whatever property the old folks may have?' My answer is, I do not."

In his letter to Yates, Gov. Shivers pointed out that, as a member of the State Senate in 1935, he wrote and sponsored the first old-age pension law which Texas had. Shivers also was a co-author of the 1941 tax bill which author of the 1941 provides revenue for this day assistance program.

"As a public official," he said, "I have always endeavored to work for a fair and equitable old-age assistance program in Texas."

OUT OF TOWN VISITORS

Out of town visitors in the J. H. Engram and G. O. Jennings homes over the week end of the Fourth were Mr. and Mrs. L. V. Gray and their two grandchildren, all of Pueblo, Colo.; Mr. and Mrs. Don Exline of Canyon, Texas; Mr. and Mrs. Jesse Lewis of Wichita, Kan.; Mr. and Mrs. Edward Engram of Texico, also Mrs. W. W. Engram of Texico.

TO LUBBOCK

Mr. and Mrs. Clyde Holt were called to Lubbock Tuesday. Her brother, R. E. Willis of Carlsbad, N. M. is seriously ill at West Texas Hospital.

Portugal is due east of New York City.

TO BENJAMIN

Miss Dorothy Giles has accepted a position with the AAA office in Benjamin, Texas. She was a member of the Muleshoe 1950 graduation class.

MULESHOE VISITORS

Mr. and Mrs. E. A. Bellar, Alvin Bellar, and Miss Wanda Mae Armstrong, all of Hawthorne, Calif. have been visiting in the R. E. Burhman home. Mrs. Burhman is a

TO CAMP DAVIS

Cancer Clinics Receive Aid

HOUSTON—Twenty cancer control projects in Texas—tumor clinics, information centers, and professional service groups—have just received appropriations totaling \$118,123.73, from funds raised in the Texas Cancer Crusade.

Budgets for the 20 projects have been approved by the Committee on Projects and Appropriations of Funds of the American Cancer Society, Texas Division, and recipients of the funds are being notified this week by state headquarters of the Society in Houston.

"The Society's biggest test has been to figure out how to make the \$390,000 raised so far in the 1950 Texas Cancer Crusade line up with budget needs amounting to \$500,000," Dr. William F. Mengert of Dallas, Committee Chairman said. "One-fourth of all Cancer Society funds goes into research and all possible cures of the

Inspiration for Beauty

A section of Bel Air, swank Los Angeles suburb, furnishes a rich background for its motorized namesake, the Chevrolet Styleline Bel Air. An addition to the automotive family in 1950, this smart six-passenger coupe has quickly become one of the most popular models ever introduced. Luxurious interior treatment, side windows that slide completely into the body and exceptional all-around visibility are Bel Air features.

Texas Health Council To Launch State Wide Medical Need Survey

DALLAS, TEXAS, July 3. — Acting at a time when the health of all Texans will be most important, in the face of possible impending

crisis, the Texas Health Council today announced that it is geared now to launch a statewide survey of medical needs and facilities.

This organization, the first to announce plans for such a survey, has as its purpose to coordinate already existing efforts, and assist in case of national emergency or any eventuality.

Mr. Jerome K. Crossman, Dallas businessman and president of the Council, today said that no time will be lost in conducting the statewide survey at local levels to accumulate pertinent statistics and information which may or may not be needed in the near future. Plans for this survey have already been under consideration for some time, Mr. Crossman pointed out.

Regardless of the world situation, the results of the survey will be most beneficial in carrying on the program of the Texas Health Council, which is an independent non-political, non-profit educational corporation made up of leaders

in industry and business, and including the professions such as legal, medical, dental, and medical service, united to improve and extend health facilities throughout the state. The survey will cover the following points:

1. What is needed to furnish proper medical care.
2. What facilities are now available.
3. What organizations are now providing any assistance.
4. What groups could be counted on for cooperation.
5. Whether individuals could be counted on for help.

Governor Allan Shivers has been invited to head the State Advisory Board of the Texas Health Council, as Honorary Chairman. This board will serve as specialists in drafting and directing policies and over-all program of the organization. Membership on the State Advisory Board of the Texas Health Council will include representatives from such groups as State Medical Association of Texas, the Texas State Dental Society, State Hospital Association, Texas Graduate Nurses Association, State Department of Public Health, Texas Education Agency, Texas Pharmaceutical Association, Medical Service Society of Texas, Health Association, Woman's Auxiliary to the Texas State Dental Society, Texas Hospital Auxiliaries, diabetes, heart, cancer, tuberculosis, and rheumatism societies, Texas Federation of Women's Clubs, Texas Congress of Parents and Teachers, Texas Press Association, and Women's Auxiliary of the State Medical Association of Texas.

disease. Money is constantly needed, too, for various services to cancer patients. Since early diagnosis is imperative for recovery from cancer, cancer education for the public and for doctors takes an increasing amount each year. All in all, our budget committees are hard pressed to make the neces-

Army Films For Public Use

AUSTIN, July 3.—Most civilians don't realize how easy it is to borrow motion pictures from the Army, Col. H. McE. Pendleton, Acting Chief of the Texas Military District, announced today.

"They take the roundabout way. Some first write to Washington. Others request the film from another Army headquarters," Colonel Pendleton said. Actually it is as simple as this:

All any church, school, or civic organization in the state of Texas excepting El Paso, need do is address a request for films to the Signal Officer, Fourth Army, Fort

sary cuts. "Members of this committee view it as a healthy sign of progress and future planning that requests outstrip available funds, but they're quick to admit that it's not easy to apply the pruning knife to so many projects vitally needed to effectively control cancer in our state," Dr. Mengert concluded.

Lunch On The Grounds Each Sunday

Mrs. O. W. Pair Is Hostess To West Camp Pollyanna Club On June 28

Wednesday, June 28, in the home of Mrs. O. W. Pair, with eleven members present.

The president called the meeting to order and read a poem as an opening exercise. Minutes of the last meeting were read and roll call was answered with "What I can do toward soil conservation."

Mrs. Seaborn Busbice was elected nominee as delegate to the State Meeting at Big Spring in August. Mrs. Elmer Hargrove was elected as alternate.

The club voted to attend the County wide picnic for the Home Demonstration Clubs of Bailey County.

Mrs. Austin Jones gave Council report.

July 11 and 12, Mrs. Roy Carney of Muleshoe will conduct two all day schools on leather work in the lunch room of the West Camp Baptist Church. Anyone interested in that kind of work is invited to attend. There will be no charge for the school other than buying the material each individual wishes to use. Bring a paper sack lunch for the noon hour. The meeting will probably get under way by 9:00 a. m.

A variety of summertime refreshments were served and recipes were made available by Mrs. Seaborn Busbice, Mrs. Woodrow Couch, Mrs. Austin Jones and the hostess to Mesdames Elmer Hargrove, Willie Williams, Pershing Busbice, Johnnie Williams, Bert Williams, Earl Mitchell and Ernest Brock.

Club Women Hear Governor

Mesdames G. T. Maltby, S. C. Caldwell, S. L. Jackson and A. W. Copley spent Friday in Lubbock. They attended the Texas Home Demonstration Association meeting of District 2 which was held in the Hilton Hotel. Mrs. G. T. Maltby, Dist. vice-president, presided at the meeting of which THDA chairmen from 16 counties were present. Mrs. A. W. Copley is Bailey County THDA chairman. Mrs. Caldwell is Bailey County Council chairman.

The main topic discussed at the meeting was plans for the State THDA meeting to be held at Big Spring, August 23, 24 and 25.

The club women and HD agents of District 2 were honored with an address by Gov. Allan Shivers in the afternoon session.

Miss Kate Adele Hill, Dist. Agent was also a speaker of the day.

They also conferred with Miss Hill on plans for the Dist. 2 4-H Camp to be held at Lubbock Fair Grounds, July 25-27. It is to be regretted that Bailey 4-H girls will not be able to attend since Bailey County has no HD agent to work with the girls.

Six army generals have become presidents of the U. S.

RANCH STYLE

This chic lass takes a cue from the cowboys and wears a Western style kerchief at her neckline. Her dress and matching kerchief are created from sheer swaggar gingham in neat checks by Gale and Lord. Gingham is more popular for cool summer frocks than ever before, according to National Cotton Council fashion experts.

THE MULESHOE JOURNAL, Thursday July 6, 1950

House Warming Given In Watson Community For Mr. and Mrs. Ed Hulse

Two well loved people were given a house warming by the Watson Church and friends of the community Friday night, June 30.

Mr. and Mrs. Ed Hulse moved to their farm in 1923. There were very few houses and farms here at that time. They lived in a half-dugout for three years and then moved into a 5 room house which only cost \$40. For the carpenters work in May 1950 they moved into their new modern 4 room house.

They attended Sunday School and Church at Baileyboro until a church was organized at Watson. Mrs. Hulse is the only charter member still at Watson.

Those attending to help give them the housewarming and to eat ice cream and cake were Mr. and Mrs. Ernest Boss and children, Mrs. Geo. Fine and Frankie Dee, Mr. and Mrs. A. O. Mitchell and children, Mrs. Naomi Henderson and daughter, Mr. and Mrs. Joe Smith and Children, Rev. and Mrs. A. S. Wilson, Mr. and Mrs. Roland Shepard, Mr. and Mrs. Marion Walker and children, Mr. and Mrs. Chester Petree and sons, Mr. and Mrs. K. K. Krebs and son and Mr. and Mrs. S. D. Key and son.

A pretty 7-way floor lamp was given by several and others brought other gifts. Several sent gifts who were unable to attend.

Watson And Three Way Happenings

Mr. and Mrs. A. O. Mitchell and Barbara spent a few days visiting friends and relatives around Greenville. They also attended a home coming at the Webb Hill Baptist Church recently.

Mr. and Mrs. Tom Southland and daughters of Elida, N. M. visited in the home of Mrs. Southland's parents, Mr. and Mrs. Ed Hulse.

Mrs. Day and children of Bentonville, Ark. formerly of here spent several days visiting friends recently.

Boy's Camp was well represented at Floydada this year. Boys from Watson were Frankie Dee, Edward and Leslie Fine, Lloyd and Virgil Vaughn, Dwaine Mitchell Arlin and Billy Simpson, and Wayne Saxton. Rev. O. S. Wilson Joe Smith, E. L. Vaughn, M. L. Fine and Charles Smith went as sponsors. Chester Petree's nephew, Earl of Morton and Rev. Whitfield and his son and nephew of Maple also went with the Watson group.

Those attending from Three Way were Curtis Smith, Eugene Wittner, Billy Knox, Donald Wayne Davis, A. J. Ellis, and Marvin Davis, A. J. Ellis, and Marvin Gaddy. Adolph Wittner and Ed Neutzier were the sponsors. Baker Johnson took Jim Henry Johnson David Branaman and his father J. A. Johnson. A good report of the camp was given.

Mr. and Mrs. Harold Carpenter Mr. and Mrs. G. W. Fine and Mrs. Naomi Henderson spent several days visiting in Ft. Worth recently.

Rev. and Mrs. O. S. Wilson are visiting two of their sons in Dallas this week. Mr. and Mrs. E. L. Vaughn accompanied them to visit friends.

Being without a pastor since in May, we are happy to welcome Rev. Ellis from Corpus Christi to the Three Way Baptist Church.

Mr. and Mrs. Homer Howard and children Freda, Butch and Larry of Littlefield and Mr. and Mrs. H. O. Howard and family of Lipan visited in the S. D. Keys home Sunday.

Mr. and Mrs. A. O. Mitchell and children and Rev. and Mrs. Wilson ate Sunday dinner with Mr. and Mrs. Ed Hulse.

Mr. and Mrs. Amos Sedgwick and children visited with Mr. and Mrs. Ed Neutzier Sunday.

What most of the farmers have been waiting for came Monday night, RAIN. It is good to see water in the lakes for a change.

Mr. and Mrs. Henry Higginbotham spent the 4th evening with their son Ben Higginbotham and family and daughter, Mrs. Truitt Smith and Mr. Smith.

Mrs. Naomi Henderson, James Fine and Mr. and Mrs. Harold Carpenter went fishing near Dora, N. M. the 4th and on to Portales to enjoy a picture show.

G. W. Fine will do the preaching at Watson Sunday, July 9, he surrendered to preach in a meeting earlier this year.

CHRISTIAN SCIENCE SERVICE

"Sacrament" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 9.

The Golden Text is: Search me, O God, and know my heart: try me, and know my thoughts: and see if there be any wicked way in me, and lead me in the everlasting" (Psalms 139: 23,24).

Among the citations which comprise the Lesson - Sermon is the following from the Bible: "He shall receive the blessings from the Lord, and righteousness from the God of his salvation" (Psalms 145:5).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "It is the living Christ, the practical Truth, which makes Jesus 'the resurrection and the life' to all who follow him in deed" (page 31).

Mrs. Ben Porter Honored With Stork Shower

Mrs. Buford Butts and Mrs. Delma McCarty entertained with a pink and blue shower in honor of Mrs. Ben Porter in the Butts home, Thursday afternoon, June 29.

The entertaining rooms were attractively arranged with summer cut flowers. Miniature storks made from safety pins tied with pink and blue ribbon were given as favors.

Delicious refreshments were served to Mesdames R. G. Jordan, B. Z. Beaty, W. M. Pool III, Jim Cox, Gil Wollard, Alton Turrentine, B. H. Porter, George Lively, Euel Johnson, Carl Bamert, Jeff Peeler, Carroll Howell, A. J. Gardner, Paul Gardner, Hopper Ivy, the honoree and Miss Elizabeth Harden.

Mrs. Marrow Is Muleshoe Garden Club Speaker

Mrs. Albert Marrow, of Morton, discussed the objective of a Gardening Club when the Muleshoe Garden Club met last Wednesday in the Legion Home. Mrs. Marrow is district councillor.

Sixteen members were present for the meeting. The club has for one objective the landscaping of the grounds of the Legion home.

Mrs. Morris Childers and Mrs. Murrell Brown were hostesses for the meeting. After a short business session the club adjourned to meet next on July 12 in the Legion home.

FROM LUBBOCK

Mr. and Mrs. Wm. J. Pierson of Lubbock were visitors in the home of his parents Mr. and Mrs. F. B. Pierson during the holidays.

TO LEAVE FOR VACATION

Mr. and Mrs. Horace Edwards and Gary will leave Saturday on their vacation. They plan to spend several days in Colorado Springs and Denver, Colo.

FROM OKLAHOMA

Mrs. E. W. Pruett of Wilson, Okla. has been visiting for the past two weeks in the home of Mr. and Mrs. I. W. Haney.

MULESHOE VISITOR

Mrs. Taylor White of Bogota, Texas has been visiting in the home of Mrs. Lela Barron the past two weeks. Wednesday night she left for a visit in Plainview with other old friends before returning to her home.

Mr. and Mrs. Calvin Calvert and children are visiting with Mrs. Calvert's sister at Gainesville.

Mrs. Roy Dyer Shower Honoree

A pink and blue shower honoring Mrs. Roy Dyer, was given, Thursday, June 29, in the home of Mrs. Finley Pierson. Thirty-nine guests, called between the hours of seven and nine p. m. Hostesses assisting Mrs. Pierson with hospitalities were Mesdames John Watson, Horace Edwards and David Anderson.

Pink gladioli and white daisies were arranged throughout the entertaining rooms. The lace covered table was centered with sweet peas, flanked by pink tapers. Crystal appointments were used, and a large stork stork watch over two miniature cradles.

Mrs. E. E. Dyer, mother-in-law of the honoree, presided at the punch bowl. Mrs. Howard Cox played appropriate selections on the piano throughout the evening. The honoree showed the gifts attractively displayed in the bedroom and registered the guests, also on display in the bedroom were pictures of Mr. and Mrs. Roy Dyer as babies.

Muleshoe WSCS In Church Meeting

Muleshoe WSCS met Wednesday afternoon in the Church with eight members and two visitors present.

Mrs. I. F. Willman promotional secretary, was in charge of the program on "Advance". The meeting was opened with the singing of "Onward Christian Soldiers". Mrs. H. C. Holt brought the devotional, urging each one to go forward with the things each can do. Mrs. Holt closed the devotional with a prayer.

Mrs. W. D. Moore gave the first part of the program "Advance for Christ in the Church". Mrs. Rosetta Gorree told of the Mission Boverly in Chicago.

A short business session was held and Mrs. C. R. Farrell reported that \$99.39 was made on the banquet served recently.

The meeting closed with a prayer.

FROM WELLINGTON

Mr. and Mrs. C. L. Lowery of Wellington are visiting in the home of their daughter, Mrs. Tye Young, Mr. Young and Jack. Also visiting in the Young home is B. F. Lowery also of Wellington.

Announcing that

Mr. and Mrs. H. E. Schuster

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: T. V. HILL, EFFIE HILL, H. E. BARRON, the Unknown Heirs of T. V. Hill, deceased, The Unknown Heirs of EFFIE HILL, deceased and the Unknown Heirs of H. E. BARRON, deceased Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court 64th Judicial District of Bailey County at the Court House thereof, in Muleshoe, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 7th day of August A. D. 1950, then and there to answer Plaintiff's Petition filed in said Court on the 19th day of June A. D. 1950, in this cause, numbered 1653 of the Northwest Quarter of Section No. 90, Block "B", Melvin Blum and Blum Survey, Bailey County, Texas, forty acres, together with all minerals, oil and gas in and under same and suit in trespass to try title by W. T. CUNNINGHAM for all of the east one-half of the Northwest Quarter of Section No. 90, Block "B", Melvin Blum and Blum Survey, Bailey County, Texas, forty acres, together with all minerals, oil and gas in and under same, as is more fully shown in Plaintiff's Petition on file in this suit.

A brief statement of the nature of this suit is as follows, to wit: Suit in trespass to try title by C. C. CUNNINGHAM for all of the West one-half of the Northwest Quarter of Section No. 90, Block "B", Melvin Blum and Blum Survey, Bailey County, Texas, forty acres, together with all minerals, oil and gas in and under same and suit in trespass to try title by W. T. CUNNINGHAM for all of the east one-half of the Northwest Quarter of Section No. 90, Block "B", Melvin Blum and Blum Survey, Bailey County, Texas, forty acres, together with all minerals, oil and gas in and under same, as is more fully shown in Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and Seal of said Court, at office in Muleshoe, Texas this the 19th day of June A. D. 1950.

Attest:
M. G. Bass Clerk,
District Court, Bailey County,
Texas

Do You Want To Cut Your Federal Taxes?

Road To The Poorhouse

America's most popular toy this year is called the "crasher truck." It is a mechanical gadget which falls apart when it hits anything. Faced with expenses that may hit \$52 billion dollars during 1950, our government could fall apart like the crasher truck unless you, as a citizen, apply the brake.

Three years ago, Congress created a bi-partisan, twelve-man Commission to study the waste and duplication of effort in the agencies and bureaus in the Executive Branch of the Federal Government. This Commission, approved by President Truman and headed by former President Hoover, has turned in a report which would cut our tax bill three to four billion dollars annually—if the recommendations are enacted into law. This means that it would save you one dollar out of every ten you pay in taxes. Whether you realize it or not, every family in the United States pays yearly, on the average, in direct and hidden taxes, more than \$1,000.00 each to support the Federal Government alone.

Congress has already authorized \$15,000,000,000 for construction of major projects, and another \$30,000,000,000 authorization is planned.

The Commission has recommended, (1) Creation of an impartial Board of Analysis for engineering and architectural projects, (2) Long-range planning of projects to meet the ebb and flow of economic cycles, and (3) Coordination of all public works. Such prudence might well save the nation from collapse.

If you think this march down the road to the poorhouse should be halted, wire your Congressman. Write to the Citizens Committee for Reorganization of the Executive Branch of the Government, 1421 Chestnut Street, Philadelphia 2, Pennsylvania, for further information. Tell your friends and neighbors! You must act before it is too late!

Sale of Farm Churned Butter at New Low

The U. S. department of agriculture reports the dairy farmer and his wife who used to take pride in the fine quality of the butter they churned and retailed to a favored list of discriminating buyers in town—often at a good premium above the price of "store butter"—are vanishing.

In 1947, farm butter produced for sale had dropped below the 50 million pound mark, and for 1949 it had dropped still further to about 41 1/2 million pounds. This is less than one quarter of the 175 million pounds marketed in 1924.

In only eight states in 1949 was the total of farm butter marketed greater than 2 million pounds.

Wool Outlook Bright, Bureau Head Reports Material Remains Quality Fabric for Human Needs

For the sheep ranchers and the farmers who maintain small flocks, W. F. FitzGerald, president of the Wool bureau, had a good word when he predicted markets for wool are bound to increase.

Speaking before the National Association of Wool Manufacturers at their annual meeting in New York, he said:

"Barring a national catastrophe, markets for wool, and indeed for all textiles of established service values, is bound to increase. The reasons are fundamental and are to be found in even a casual study of our increasing population, our expanding birth rate, the total

number of people employed and the constantly increasing standards of living of large segments of our population."

FitzGerald went on to point out that an acceptable substitute for wool has not been developed. Wool is still the quality fiber which is best suited for a wide variety of human needs and we are convinced the public shares that opinion, he added.

The Wool bureau is a service organization established by wool-growers of Australia, New Zealand, South Africa and America.

Needs of Corn

Corn needs plenty to eat and drink to produce high protein yields.

You can get extra pounds of protein and more bushels per acre, too, with a well-rounded bill of fare based on good soil management. University of Illinois research men proved that in tests on a number of experiment fields.

H. J. Snider of the agronomy staff reports that good soil management increased the corn's protein content by nearly a pound per bushel. Corn grown on well treated land averaged 5.6 pounds of protein per bushel, or about 10 per cent of the total weight. Corn on untreated soil averaged only 4.8 pounds of protein per bushel, or about 8.5 per cent.

The well managed land had the benefit of liming and rotation built around well-fed deep-rooted legumes. The organic matter added by the legumes built good soil structure and tilth, improved the drainage and increased the soil's water holding capacity. That made it easier for corn roots to get at plant nutrients, oxygen and moisture.

The fertilizer treatment included phosphate and potash where needed. Oh soils requiring more nitrogen than the legume crops provided, nitrogen fertilizer helped increase the corn's protein content. Snider says good soil management not only improved the corn's feeding value, but improves yield.

12 1/2 Million Fewer Mules And Horses in 30 Years

Today there are 7 1/2 million head of horses and mules on farms in the United States, a decrease of 12 1/2 million in the last 30 years.

Experts estimate that it took about 24 million acres of crop land to feed these 12 1/2 million animals. That amount of land, released to yield food, would provide for 11 million people. The horse population of the United States is expected to drop further.

Vitamin D is the rarest among ordinary foodstuffs.

Pic-Tours of Europe

IN IRELAND THE DUBLIN HORSE SHOW, HELD THIS YEAR FROM AUG. 8 THROUGH AUG. 12 AND FEATURING GREAT INTERNATIONAL MILITARY AND CIVIL HORSE JUMPING CONTESTS, ATTRACTS BUYERS AND SPORTS FANS FROM ALL OVER THE WORLD.

A RECENT SURVEY OF AMERICAN TOURISTS SHOWS THAT THEY ENJOY VACATIONS IN EUROPE BECAUSE EUROPEANS ARE FRIENDLY AND EAGER TO HELP VISITORS TO SEE THE SIGHTS AND GET THE MOST FROM THEIR TRIPS.

IN FRANCE BASTILLE DAY CELEBRATED ON JULY 14 IN EVERY TOWN AND VILLAGE, IS A NATIONAL HOLIDAY OF INDEPENDENCE. PARADES, FIREWORKS AND OTHER FESTIVITIES PROVIDE GAIETY AND EXCITEMENT FOR TOURISTS AND FRENCH ALIKE.

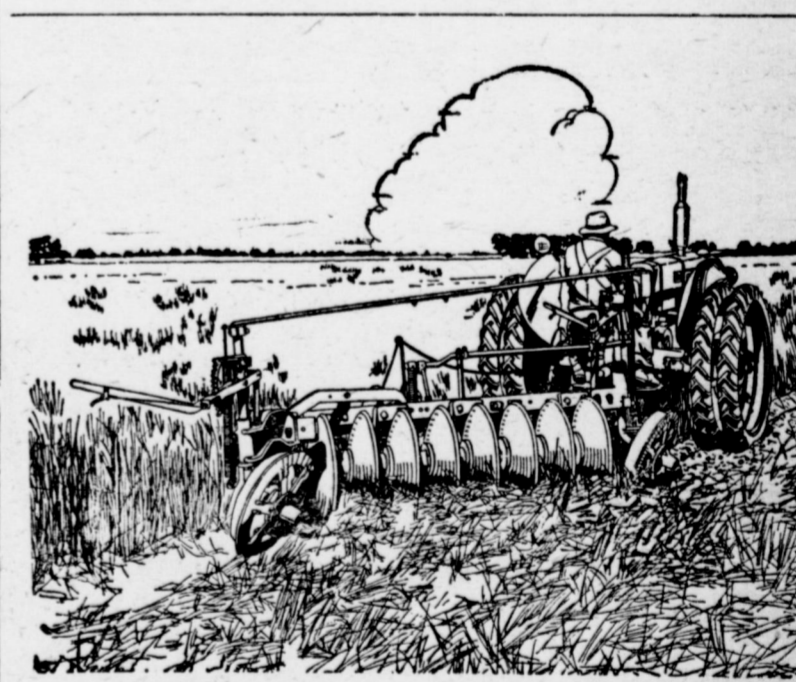

COLOR SYMPHONIES

Along with swim suits, picnic baskets, tennis rackets, awnings and other warm weather defenses, come the slipcovers. How would a harried homemaker ever cope with her slipcovers—those no-catch-dust, cool-appearing, easy-to-clean blessings to the American way of life. Junior's home from school all day; Father wants a continuous stream of cool, refreshing beverages—and Sister Sue can't be stirred out of the hammock. Seems as if summer brings more work around the house than any other time of the year. But certainly the greatly abused slipcover does its share to ease the burden. In return it receives little respect and even less attention. That's to be pitied, too, because slipcovers can be deary and forlorn or they can perk up your room to its greatest possibilities. One of the major factors to decide which role they'll play is color. Even expertly tailored slipcovers, if faded from sun or frequent washings, will be a liability.

Like the genie in Aladdin's lamp, vibrant color can be your willing slave. Of course, to get the magic results, you have to "rub the lamp" and with slipcovers that means a little work. Sew them up to fit snugly, mend all rips and dye them if they're washed-out looking. You'll find that new color will give them new life. And don't be the least bit hesitant about dyeing. Bulky articles like slipcovers can easily be dyed right in the washing machine. Nothing could be simpler. All you do is dissolve the dye in a little hot water. Fill the washer with hot water and strain the dye solution into it. Then immerse the still-wet slipcover. Be sure to use an all-purpose dye in case your covers have any rayon or other synthetic fibers in them.

Even if your covers are figured, you can give them new life with dye, provided, of course, they're color fast. You're simply covering color with color. Suppose you have red and white striped slipcovers, the red a drab affair. You can put them in the washing machine with blue dye and they'll come out with a dark stripe against the blue background. The same thing can be done with floral prints.

So there's no excuse for not having pretty, color-bright rooms. Treat slipcovers as a background for living.

SOLVE YOUR PLOWING PROBLEMS WITH MM WHEATLAND DISC PLOWS

For plowing stubble or sod, MM Wheatland disc plows do a superior job and often cut plowing costs as much as 50%. They thoroughly mix trash with soil to increase moisture absorption and to prevent soil blowing. They do not leave air pockets. MM Wheatland disc plows have a wide range of adjustments of disc angles from 40 to 60 degrees. Adaptable to any size farm . . . offered in 4, 6, 8, and 10-foot sizes.

MM Wheatland disc plows can be set to plow at any depth from 3 to 9 inches, and one of their big advantages is that they hold to their work at the depth for which they are set. Electrically heat-treated discs are 26 inches in diameter. MM larger-diameter discs turn soil better. Disc bearings never require lubrication, and a special end-thrust bearing takes all end thrust of the entire gang assembly. See us for complete facts.

Swisher And Lubbock Counties To Petition For Water District

Swisher county farmers will petition the Board of Water Engineers to designate a reservoir underlying a proposed ground-water conservation district, the High Plains Water Conservation and Users Association reports.

Lubbock county farmers will meet this week to discuss a similar action; and Hale farmers may take the first step towards forming a district at a meeting July 10.

Action of the Swisher county group followed a meeting of about 200 farmers in the courthouse at Tulla June 29 under auspices of the Swisher County Water Conservation Association.

W. O. Fortenberry of Monroe, president of the High Plains Water Conservation and Users Association of which the Swisher, Hale and Lubbock county groups are associate members, addressed the Tulla meeting. He explained legislation

enabling formation of the proposed district.

Led by Nolan Williamson, agent for Lubbock county, 26 county agents attending an irrigation school at Texas Tech College, went to Tulla by bus to hear the discussion.

Lubbock County farmers are scheduled to meet at 8 p. m. Thursday, July 6, in the Lubbock courthouse. Two lawyers, L. A. Howard of Lubbock and Arthur P. Duggan Jr. of Littlefield, will be the main speakers.

The Hale county meeting is set for 8 p. m. Monday, July 10, in the courthouse at Plainview.

LUBBOCK, JULY 3-- Jimmie L. Green, senior agriculture student from Enochs, has been named to the spring semester honor roll at Texas Technological College. Students in the upper five per cent of the student body compose the honor roll. Green's average was 2.75 out of a possible 3.00.

TCA Will Kill Johnson Grass

COLLEGE STATION, July 1-- When trichloroacetate spray is used to eradicate Bermuda grass or Johnson grass, it should be mix-fourths of a pound per gallon of water, says M. K. Thornton, extension agricultural chemist of Texas A. & M. College.

About one gallon of the spray will be needed per 100 square feet of area, depending upon the size and density of the plants. If applied during the months of June and July, this amount of trichloroacetate will kill practically all of the Bermuda and Johnson grass on the land.

Thornton says that trichloroacetate, commonly called TCA, has been recommended for the control of Johnson grasses for some time but farmers are still unable to buy the compound locally. Many of the large chemical companies manufacture the product, but do not sell it to the public in small packages.

TCA is particularly useful for the eradication of Bermuda and Johnson grass from fence rows, roadways, small spots in fields, and areas that are inaccessible for machinery. However, the cost of the compound prevents it being used for eradicating grass from large areas.

Normally some drying of plants can be seen in about 24 hours after the spray is applied, says Thornton, and most of the plants that are going to die will be dead within a week after being sprayed.

Hot, dry conditions with a moderate amount of moisture in the ground are favorable for spray-

Interior Modes... by Reno

CHICAGO—Matching wallpaper and fabrics of identical pattern and color will give a "professionally decorated" appearance to the contemporary, traditional, or much-mixed period home. To interpret the new decorating trend for the budget-wise homemaker, the Warner Company here has brought out the Waterhouse Collection of historical wallpapers and matching vat dyed chintzes. Many imaginative and versatile ideas can be created for any room in the house with the more than 60 styles. Wall and window problems are easily solved with the colorful, made-to-match small designs. Fabric of the same color and pattern for slip covers, bedspreads, cushions and dressing table skirts add originality, warmth and charm to the room decor.

Kelvinator Home Freezers!!

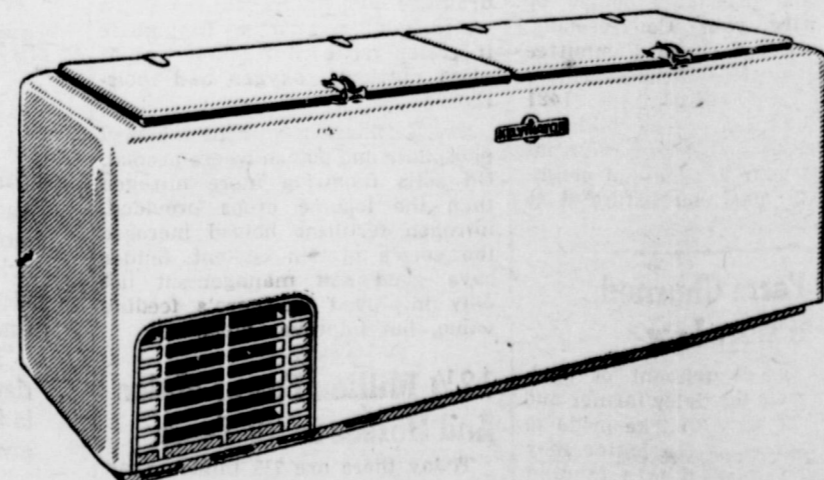

This is the time of the year to think about your food needs in months to come. Have garden-fresh fruits and vegetables on hand at out-of-season months. The freezer pictured at left is in two different sizes, 9- or 12-cu. ft. models. It will keep your foods safe for months to come. Removable baskets at the top gives added storage space and better accessibility.

9 ft. model \$339.95
12 ft. model \$389.95

This 20-cu. ft. Kelvinator home freezer gives plenty of storage space for a large family. All models come with convenient lock for added theft protection. Its easy-to-clean surface is durable against long and hard wear.

One of these modern freezers will save you hours of time in the busy canning season. Come today for further details.

Farm Topics

Good Pasture Increases Dairy Herd Production

With 2.5 million fewer cows on farms now than in 1945, possibilities for profit in dairying are greater if labor-saving, high value pasture is the center of the production program. Good pasture can increase milk output and cut production costs. That means a bigger profit margin. Getting bigger pasture yields is a matter of feeding the soil plant nutrients so it can feed legume grass mixtures.

and 100 per cent kill in 21 days, one half months, at a cost of 41 cents per 100 square feet.

COTTAGE PRAYER MEETINGS HELD BY HICKS CHAPEL

Members of the congregation of Hicks Chapel Baptist Church, located 3 miles south of Stegall, are opening their homes for weekly prayer meetings, held each Friday night. Rev. B. L. Carter is pastor. Rev. Carter said the prayer meeting for this Friday night, July 7, will be in the home of Mr. and Mrs. Fred O'Hair.

HERE FROM COLORADO

Mr. and Mrs. W. H. Awtrey, Jr., of Lamar, Colo., spent the week end in the home of his parents, also his brother's home, Deon Awtrey and family of Muleshoe.

LEGAL FORMS, Notes, Blk of Sale, etc. at The Journal.

Reservists From Muleshoe Train

Among 950 Naval Reserve Officers Training Corps midshipmen from 52 colleges and universities throughout the nation arriving July 8 at the Naval Amphibious Base, Little Creek, Va. to begin course is, J. P. Johnson of Muleshoe, Texas, a third year student at Chicago, Ill.

His training will consist of instructions ashore and afloat in amphibious operations. During the first week, devoted to shore training, he will learn through practical work, lectures and demonstration, the essentials of preparing a successful amphibious landing.

The following week he will receive instructions in the afloat part of his amphibious education routine aboard vessels of the Amphibious Force. He will witness fire demonstration attack on an "enemy" island and will participate in a rehearsal landing.

To climax his training he will take part in a full-dress assault landing employing sea-air support and Marine Corps Reserve troops.

Mid-week Prayer and Song Service 8:40 p. m.
Everyone invited to our services.

Control False Wireworm Told

COLLEGE STATION, July 3--- Lindane, one of the newer insecticides, has shown promise for false wireworm control in tests conducted at the Lubbock Substation of the Texas Agricultural Experiment Station. H. G. Johnston, head of the department of entomology, Texas A. & M. College, states that up to now there have been no practical insecticides for control of his insect.

False wireworm infestation is restricted to the Rolling Plains and South Plains areas of Northwest Texas. The insect is likely to attack any crops grown, but is major pest on small grains and sorghums. It works altogether underground, feeding on stems, roots and germinating seeds. Johnston says that estimating the damage caused yearly is difficult because the infestation is variable, occurring in spots throughout the area from year to year.

Best control results were obtained from the application of eight ounces of 25 percent wettable lindane dust per 100 pounds of seed. Higher applications of the insecticide injured the germinating seed and the small roots of the young seedlings.

W. L. Owens, assistant in the

department of entomology, Texas A. & M. College, who conducted the tests, says the farmer should make sure that the wettable powder is thoroughly mixed with the seed. Wettable powders can be bought that contain from 25 to 75 percent lindane. The 25 percent dust can be dumped into the planter box and mixed with a minimum amount of stirring. The revolving plates mix the dust with the seed. If a higher concentration of powder is used, it should be thoroughly mixed with the seed before they are placed in the planter box. Pure lindane is not bulky enough to be used.

VALUABLE FACTS ABOUT MILK

May fish and milk be eaten safely at the same meal?
There is no reason why these 2 foods should not be eaten together. In fact, many common dishes are made of fish and milk—for example oyster stew, fish chowders and creamed fish dishes.

May milk and acid fruits be eaten together?
Yes. The objection often raised to taking milk and acid fruits at the same time is that the fruit causes the milk to curdle in the stomach. As a matter of fact, the first process of normal digestion is curdling, and the combination of acid fruits and milk is therefore favorable to good digestion.

How much milk should adults and children have daily?
Every child needs a quart or more of milk every day, and adults need at least a pint.

Can other foods take the place of milk?
No. Milk contains more of the food elements which the body needs daily than any other food. For example: calcium is the mineral necessary for strong bones and teeth. To obtain the amount of calcium which is present in one quart of milk a person would have to eat 39 eggs or 27 pounds of potatoes or 28 oranges or 7 1/2 pounds of carrots.

Is the need for milk ever outgrown?
No. Children need large quantities of milk because it is the best food for promoting health and growth. Adults need milk to maintain sound health—and to stay youthful.

Why is milk necessary for tooth and bone development?
Milk is the richest, most dependable source of calcium. Calcium and phosphorus, both found abundantly in milk, are responsible for the hardness of teeth and bone.

What is homogenized milk?
Homogenized milk is whole milk which has undergone a process which breaks up the globules of fat in the cream and distributes the butterfat evenly and uniformly throughout the milk. Nothing is added, and nothing is taken out. The result is smooth, rich-tasting milk. The butterfat cannot separate from the milk and rise to the top.

What is pasteurized milk?
Pasteurized milk is safe milk. It is milk which has been heated to destroy any harmful bacteria, if by chance they are present, then cooled and bottled in sterile containers. The temperature at which milk is pasteurized is far below the boiling point.

Does pasteurization affect the food value of milk?
Pasteurization has no significant effect on the food value of milk. Tests have shown that children grow just as well on pasteurized milk as on raw milk.

TALLEST BUILDING IN THE SOUTHWEST

One of the largest and finest office buildings ever erected in this country, shown above, will soon dominate the already impressive skyline of Dallas, the Southwest's great cosmopolitan city. The new Republic National Bank Building, announced recently by Fred F. Florence, President of the Republic National Bank, will embody the most modern and advanced architecture, including every convenience possible for both customers of the Bank and tenants of the building. The tallest building in the Southwest, it will soar 440 feet in height. It will be the largest and most modern structure erected in the United States to include a garage and motor banking, together with banking quarters and office building. The main shaft of the building will rise 36 stories above the ground with an additional four stories below the street level. Its tower, extending some 160 feet further into the sky, will give the structure an overall height of 600 feet.

CONGRATULATIONS TO:

Mr. and Mrs. Duane Holley, on the birth of a son, born June 27 at Memorial Hospital in Clovis.

CARD OF THANKS

We wish to thank the nice people for the kindness and sympathy shown at the passing of our father, and for the beautiful flowers and most especially do we thank those that brought so much good food in and worked so hard. May God's richest blessings be yours.
 T. P. Kittrell and Family,
 Mr. and Mrs. C. R. Hazel,
 Mrs. Jess Hair,
 Opal, Jack, and Bill Kittrell.

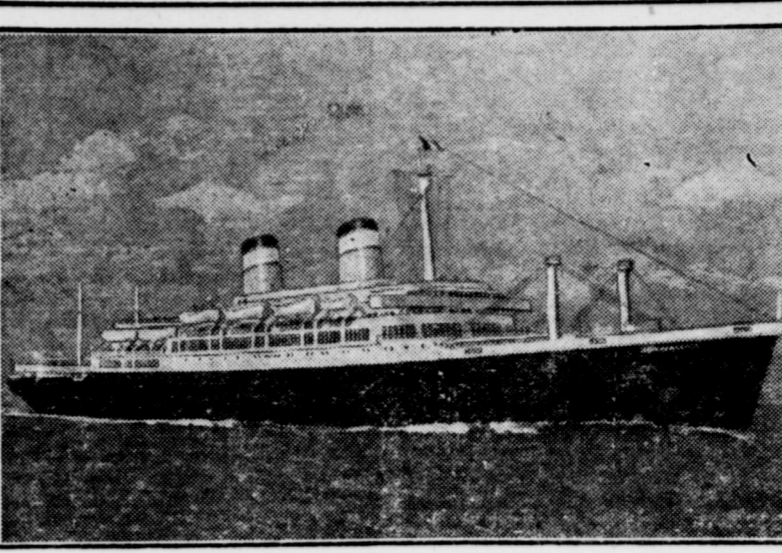

Pleasant Valley News

Mr. and Mrs. O. K. Angeley and daughters, Natalie, and Judy spent Sunday in Amarillo and Palo Duro Canyon.
 Mr. and Mrs. Jack West, of Hagerman, N. M. is spending two weeks in the Oscar Allison home.
 Mr. and Mrs. Oscar Allison are on a two weeks vacation in Mexico City.
 Mr. and Mrs. Short Bickel spent the week end in Amarillo. Mike Andreas was three years old Tuesday, June 30, and his mother entertained with a party in his honor. Games and motion pictures making provided entertainment. Ice cream and cake were served to Veta and Carolyn Allison, Larry Allison, Mac Allison, Georgia Mae Dilake, of Roswell, N. M., Larry and Sherry Lumpkin, and Pat Andreas.
 T. G. Dulin accompanied his daughter, Mrs. Dayton Short, to her home.
 Woodrow Dulin and wife, of Tahoka, spent Sunday in the Jimmie Dulin home.
 Mr. and Mrs. Billy Bickel, of Lubbock, spent the week end in the B. F. Bickel home.

HAVE A BETTER KITCHEN

How would you like to cut down your kitchen mileage? If yours is a kitchen in which storage space and work surface is scattered all over the room, you know that the amount of traveling you do each day adds up to a lot of distance—and tired feet and an aching back.
 The Youngstown Kitchen Planning Service contends that one can eliminate much walking just by an efficient arrangement of kitchen equipment. They suggest you start right at the kitchen sink.
 The sink, they say, is the most important piece of equipment in the kitchen. It is the source of water, the place where many foods are prepared and where the cleanup is done after cooking and after meals. In fact, research has shown that nearly two-thirds of the homemaker's kitchen work is concentrated in the sink area.
Sink In Center
 So, kitchen experts say that first you should have a cabinet sink that provides not only bowls, drainboards and water supply, but a great deal of convenient storage space in the cabinet beneath. Then, they place base cabinet units on either side of the sink and wall storage cabinets above the floor units. Tops of the floor cabinets give you the necessary work surface, and the storage space allows you to keep the often-used dishes, pots and pans, and food supplies within easy reach.
 Wherever it is practical, the kitchen designers would place the range and refrigerator on opposite sides of the sink area. With continuous counter surface between the units, work flows easily from unit to unit, eliminating much of the homemaker's kitchen mileage.

America's Most Modern Luxury Liner

AMERICA'S greatest bid in nearly a dozen years for supremacy of the Transatlantic travel trade is the \$25,000,000 25-knot, 1,000-passenger liner S.S. Independence, the nation's most modern luxury liner from stem to stern. This fabulous ship which goes into the New York-Mediterranean service for American Export Lines early in 1951 features a space saving design accommodating the 1,000 passengers, not in cramped little cabins, but in spacious, colorful rooms. Acres of weather-proof glass replace the old-fashioned portholes, and she'll have an artificial climate, air conditioned throughout. This ship, truly representative of the finest in American living, is also the world's safest liner.

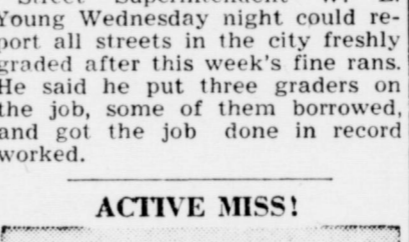

STREETS GRADED AFTER SHOWERS THIS WEEK

Street Superintendent W. E. Young Wednesday night could report all streets in the city freshly graded after this week's fine rains. He said he put three graders on the job, some of them borrowed, and got the job done in record worked.

VACATION FUN

The club voted to have a picnic supper at the hall July 4. Mrs. Dulin served refreshments of tuna in patti shells, tarts, and punch to: Mesdames Jack Epps, Herman Haberer, O. K. Angeley, Seaborn Moore, Floyd Andreas, Harold Allison, Bickel.
 The Fourth of July picnic supper was well attended.

ACTIVE MISS!

The newest note in playtoys this summer is a cotton boat shirt with a wide monk's cowl collar. The loose comfortable shirt is a favorite with the gals whose summers are filled with active sports. This cotton shirt was designed by White Stag, the National Cotton Council reports.

LABOR DAY IS THE ONLY NATIONAL HOLIDAY RECOGNIZED BY CONGRESSIONAL ACTION.

Thirty-three states had prohibition before the 18th Amendment was adopted.

Chester, common ending for English town names, comes from the Roman word caester meaning camp, since many were originally Roman camp sites.

Bees have four wings.

Shaddock is another name for grapefruit.

Lake Superior is the largest lake in North America.

Texas has more railroad mileage—over 16,000 miles—than any other state.

MULESHOE, TEXAS

Church of Christ

We take this means of inviting the people of this community to attend the series of meetings beginning this Friday evening, July 7, through July 16 at the Church of Christ located on Morton Highway in Muleshoe.

We accept the Bible as the inspired word of God, and the New Testament Scriptures as our sole rule of faith and practice. Come and let us study together.

Bro. O. H. Tabor, of Carlsbad, will do the preaching. Services daily—7 a. m. and 8:30 p. m.
