There will be some new food items available at the Cisco Band Boosters concession stand during home football games. Bettye McGinness, president, said they will now have hot, delicious French fries to go with the hamburgers. They'll have chili dogs, popsicles and fruit slush, too. Also on the menu will be chopped barbecue buns, nachos, chili cheese nachos, pizza, soft drinks, hot chocolate and coffee. All proceeds made at the concession stand goes to the band programs. So at the next football game, why not visit the concession stand for the best food around.

We have several pictures here at The Press that have been used in the paper and need to be picked up by the owners. If you have let us use one of your pictures and you have not picked it up, please do. We have several wedding and anniversary pictures, baby pictures, and others that need to be returned.

Amy Hawkins won third place and Andy Escobedo won fourth place with paintings they entered in the Oil Painting, Landscape Division, at the West Texas Fair in Abilene. Amy is the daughter of Garland and Patsy Hawkins, and Andy is the son of Elmer and Rosa Escobedo. They are art students of Lynda Foster. Amy Whitley, daughter of Arlie and Deborah Whitley, placed first with a ceramic nativity set.

Visitors in Cisco last weekend were Mr. Michael Murphee and Mr. John McGreeve of Little Rock, Ark.; Mrs. Irene Basinger and Mrs. Janell Wenzel of Dallas. They were guests in the home of Mrs. Shirley "Gus" Smothers after visiting Mr. and Mrs. Ralph Glenn, former Cisco resident, in Colorado City.

The occasion for the visit was a reunion of friends who cruised the Caribbean in June on Royal Caribbean's "Sovereign of the Seas," the largest cruise ship in the world.

On Friday night, the group swam at the Smothers' home and enjoyed dinner by the pool. Saturday morning Mrs. Susan Hanlon and Mrs. Carolyn Page hosted a brunch at the Fee House. A progressive dinner was held Saturday night.

Included in the Cisco group were Mrs. Catherine Abbott, Mrs. Lucy Collier, Mrs. Helen Surlis, Mrs. Melba "Shorty" Wallace, Mrs. Hanlon, Mrs. Page and Mrs. Smothers. Unable to attend the weekend festivities were Miss Kelly Hawthorne of Moorehaven, Fla., Miss Shelly Smothers who is in Austin attending the University of Texas, and Mr. Sean McCormick of Chicago. He

will visit in Cisco later this month.

Canterbury Villa will have an ice cream social Tuesday, Sept. 19, at 6:30 p.m. All family members and volunteers are invited to come and bring their favorite ice cream.

Hubert Kennedy is passing around 1990 calendars. One says, "TV Works Better Than Sleeping Pills," compliments of Hubert, Snookie, Pinkie, Killer and Smokey Joe. And the large calendar says "We're Back By Popular Demand!" and is signed by Hubert and his friends. Thanks, Hubert.

We thank Roy and Ruth Cartee for the muffins and jelly brought in Thursday morning. Delicious! Thank you.

The rains the past few days reminded Miss Oda Hale of research she had done on the Indian Rain-dance. She wrote the following:

"I myself have noticed that the snakes, also the turtles, get nervous as long as two weeks before a rain. The Indians would capture the snakes with the bells on their tails. When the snakes first started moving the Indians would cage them in a confine where they could not get out. They would tame the snakes by gently stroking with long feathers.

"There would be a big pile of timber for a big fire the night of the rain dance. The dancers would put on their prettiest feathers and buffalo clothing.

"The rattlesnakes were prepared by dropping little prairie dogs and rats and baby rabbits in with the snakes with the bells on their tails to encourage them to bite the animals to empty the poison from the snakes. If the snakes were hungry and swallowed one of the animals it made the snake drowsy and easier to handle because they would become drowsy after eating.

"The fire would be lit and the rain dance would start. One Indian would put a big rattlesnake in his mouth and another Indian with long feathers would gently stroke the head of the snake. They would dance to the edge of the light from the fire, put the snake on the ground, and send it to the rain god with a message to send rain."

Miss Hale will be honored on her 77th birthday Sunday, Sept. 24, from 2:30 to 4 p.m. at Calvary Baptist Church Fellowship Hall. She will have Indian artifacts on display at the party.

Speaking of snakes, the firemen at Cisco Fire Station are having a "Name the Pet" contest. Fireman David Gill found a skin which had been shed by a snake in the fire station recently. As soon as the snake is found, they'll name it. But now the question is, "Where is the snake?"

Fall Enrollment At CJC Again Breaks A Record

The fall enrollment at Cisco Junior College once again breaks a record. Olin Odum, Dean of Admissions, reported to the Board of Regents that some 1,904 students are registered at all locations. "This is higher than last fall which was a record enrollment," added Odum.

Final plans were approved and authorization was given to architect James I. Wheeler of Abilene to seek bids on the fitness center for Cisco Junior College. Bid opening will be October 18 with final acceptance on the building to be October 23.

Plans for the fitness center are to include three racquetball courts and over 2,000 square feet of exercise area. Cisco Junior College president Roger C. Schustereit said, "We hope our new fitness center will be used by the citizens of Cisco as much

as we know it will be used by the CJC students."

The Board of Regents took action to continue attempts to lower default rates on Guaranteed Students loans.

In other business the Board of Regents finalized action on medical insurance, set foreign student tuition, adopted a deferred compensation plan, and handled routine personnel actions. The next scheduled meeting of the Board of Regents will be October 23.

CISD Board Approves Tax Increase

A 6 cents school tax increase was approved Monday night at the board meeting of Cisco Independent School District. This is to offset a decrease in state funding and declining property values, according to Superintendent Ray Saunders.

The rate was raised to 99.76 cents per \$100 valuation.

A decrease of 28 students in enrollment from last year means the school will receive about \$80,000 less in state funding, Mr. Saunders said.

Another expense for the district will be the state required teachers' salary raises that total more than \$100,000.

"The state in mandating more local expenditures but is not fully funding them, leaving the local districts to

make up the difference," he said.

The new tax rate is estimated to raise \$802,000 for maintenance and operation costs and about \$55,000 for bond indebtedness on the high school, Saunders said.

The new elementary and junior high school buildings have been fully paid, but the debt on the high school won't be paid until 1997, Mr.

Saunders said. The high school was built in the early 1960s.

The superintendent said that because property values have declined, the new tax rate will bring in less money than last year's rate of 94 cents.

He added that the property owner may indeed be paying less taxes at the higher rate than last year.

J.V. To Play Coleman Thursday Here Junior Varsity Defeats Buckaroos 22-to-12

Cisco Lobo junior varsity football team continued its winning season with a 22-to-12 victory over Breckenridge JV Thursday in Buckaroo Stadium.

Cisco had a good ground game with 368 yards rushing. Jay Nixon ran for 176 yards, and Cullen Rabel had 102 yards. Coach Charles Parnell said it is not often that two backs from the same backfield have over 100 yards rushing in a game.

Breckenridge took the opening kickoff and scored first, making the score 6-to-0 as the point after failed.

With 3:35 left in the second quarter, Lobo Jay Nixon scored from the four yard line. The conversion failed, and the score was tied 6-to-6 at the half.

Nixon scored again from

13 yards out with 6:14 left in the third quarter. Cullen Rabel ran in for the two point conversion, and Cisco led 14-to-6.

Breckenridge broke an 80-yard run with 6:32 left in the game and the score was 14-to-12. The Buckaroos tried a two point conversion to tie the game but the Lobos were able to stop the run.

With less than a minute left in the game, Nixon scored from the five yard line, and Rabel ran for the two point conversion, making the final score 22-to-12.

Outstanding offensive linemen were Brad Fleming, Joel Prickett and Eddie Garza, Coach Parnell said.

Outstanding on defense were Johnny Morrison and Garza. The JV plays Coleman here next Thursday night, Sept. 21, following the junior high games.

The Twentieth Century Club convened for their September meeting at 2:30 p.m. at the Cisco Public Library Thursday, the eighth with President Vera London presiding.

Mrs. Louise Allison gave a brief history of the founding of the general federation of Women's Club, one hundred years in 1889. It was organized in New York City with a membership of 61 clubs. It was granted its charter by the U.S. Government in 1901.

Since that time it has become the largest women's organization in the world. Although its primary purpose was the establishment of free public libraries in the United States its many departments deal with the timely and important issues such as child abuse, environment, education, drug education, etc. Mrs. Allison's speech was well received by the members present.

Letters To The Editor:

Dear Editor:

U.S. War on Drugs Solution to All U.S. Crime
The way in which the USA has set out to kill the drug business will never succeed. U.S. officials and the courts are too soft to deal with this crisis. We have to get tough to handle it. To put an end to crime we must put an end to all criminals: (1) those who sell drugs and (2) those who use drugs.

Solution
Execute (by public hanging) every drug dealer and pusher within one week from the time arrested. Allow no second or third court trials (appeals). To do so is wasting the time and resources of all decent Americans (jurymen and taxpayers). For those users who are arrested for the first time, sentence them to 30 days in a work gang at one dollar per day working on the city streets. See that they wear signs naming their crimes. The second time they are caught, sentence them to 90 days repairing the city streets. If caught a third time, execute them by public hanging.

Our prison system is a national shame. If the present system is continued, eventually our prisons will contain 50 percent of the American population, while the remaining 50 percent (decent Americans) will be obligated to house and support the prison population. Every time a criminal is sentenced to life imprisonment, a decent, working, "free" American is sentenced

to a life of hard labor to pay for keeping this one life in prison. This is unfair and burdensome to each and every taxpayer. Every rapist, child molester, and murderer should be executed by public hanging within one week from the time of arrest. Every armed robber, whether he killed or not, should also be executed, because of the potential to have killed someone at the time of the robbery. All lesser criminals should be placed in public work gangs until all monies are repaid (1) to the party who suffered direct loss, and (2) to tax payers for court costs, police work, etc.

The Present Prison Crisis
To relieve the present prison crisis, set up a screening board to review all prisoners in the nation. Executive by public hanging all rapists and murderers. All lesser criminals should be in chain gangs to do public works until all monies are repaid (1) to those who suffered direct loss, and (2) to the taxpayers who have been abused by having to feed, house, clothe, and provide medical care (even face-lifts) for these crooks. Allow no second trials (appeals). This is unfair to the taxpayers who foot the bill.

Most lawyers will oppose most if not all these measures, because they treasure the lives of criminals. The reason? So they can run them through the courts over and over and over; again, and again and again, (at the taxpayer's expense) thus filling their pockets with cash. Therefore, in the war on

drugs and other crimes, the greatest battle Americans face is opposition from the lawyers.

Voy Wilks
Cisco, Texas
P.S. Prison allowance for one criminal is \$28,000.00 to \$38,000.00 per year. The IRS allowance for one dependent of a working American is approximately \$1,800.00 per year (only 1/16 as much as for the criminal). A bit unfair, don't you think?

Dear Editor:
If you are one who has not visited Canterbury Villa Nursing Home in Cisco recently, you have a pleasant experience awaiting you. I take this means of paying tribute to the present administrator, Mr. Mel Serratt, under whose capable management many innovative improvements have been accomplished which elevate the home to one of the very best in the area.

In my opinion the Cisco nursing home under its various managements has always been a cut above average even under its weakest administration. Through school and church volunteer groups, I have maintained close contact with the home through many years. Moreover, my husband's parents, an uncle, and a cousin have received good care there in former years. Since last April his oldest sister and her husband have resided there since his health had deteriorated to the point that he required 24-hour nursing care. Both of them have nothing but praise for the care they receive, and each

has improved healthwise.

In this period of virulent and very vocal opposition to every worthy civic-minded individual and institution who supports the effort to keep area hospitals operative and acquire a prison for Eastland County, I suppose it was to be expected that Canterbury Villa, through a petty complaint to the state health agency, would receive its share of criticism. Anyone who has cared for elderly, ill or senile relatives in their home is fully aware that keeping them clean, properly medicated, and in a cooperative state of mind is a challenge that even the most devoted and diligent caregiver can not always overcome. The patient is at times stubbornly resistant to the very things which make life tenable for him. I know from experience that any deficiency or dissatisfaction with nursing home care, when properly called to the attention of the administrator or any staff member at Canterbury Villa is promptly, effectively, and graciously corrected.

My husband and I are among the many who are keenly aware of the tremendous effort Mr. Serratt is exerting to make Canterbury Villa the best it can be. He is a very able, conscientious, and knowledgeable executive and is quite innovative in making the home as efficient in its operation, as thorough in its care of the residents, and as attractive and inviting as possible. One has only to visit the home, share the good meals and the numerous activities and programs provided, and view the spotlessly clean surround-

ing to see the results of his leadership. Along with upgrading the staff to professional status in all areas, he has done considerable landscaping, redecorated the dining and lounge areas, enhanced the activity programs, and above all has won the respect and gratitude of the residents. How very fortunate Cisco and area people are to have Canterbury Villa and Mr. and Mrs. Serratt in the town!

How sad it is that among us are a few vocal individuals who so vehemently malign the very institutions, businesses, professional people and civic leaders who provide them the countless benefits, services, and safeguards which secure their daily lives and the life of every person living in or near Cisco. Surely when we accept so much, should we not be willing to return a little?????

Let us hear praise and appreciation for the individuals and institutions in Cisco which serve such a vital need of the residents of this area.

Most sincerely,
Evelyn Bailey

Editor,
Over a number of years the city of Eastland, and Eastland County, has had several opportunities to acquire new businesses and manufacturers that would have helped this area to grow and prosper. Each time we have lost out on the opportunity to other areas, who do not have any more to offer, but have people who are willing to make the effort and pay the price of growth. Many of us would prefer to have something other than a prison in our area - in fact we

would love it if there were no need for prisons at all - but we know that is not the case. The bottom line is we have to have them somewhere and we, the taxpayer, are going to pay for them whether they are in Eastland County or not. And if there are none built we will pay an even higher price by leaving the criminal element on our streets.

Many of the objection being cited for not wanting the prison are problems that MUST be solved before we can ever acquire new businesses and growth. The time to solve them is NOW!

However, I have noticed that one objection some of the leaders of the opposition have has not been made public so far, and I feel it deserves the public's attention. The prison WILL raise the pay scale in this area - and that will have a direct adverse affect on some of the leaders pocket books.

Think about it!!
Clara White

stantly, it seemed, being surrounded, assisted, and reassured by ambulance attendants, nursing staff, X-ray technicians, and B.B. Alexander, M.D.

And I am one of those who never thought I'd need the hospital and its staff. Since I had to be involved in an automobile accident, I am most fortunate that it occurred before September 16 because the hospital and its dedicated staff were there to help me. Had the accident occurred after a negative vote on September 16 and after Eastland Memorial Hospital had closed, instead of being treated immediately I would have had to decide... and my injuries left me in no position to decide... which person to call to drive me... bleeding all over their car's upholstery... to a hospital in another city. At the hospital in another city I would probably have had to wait for the attention I received so quickly and efficiently at Eastland Memorial Hospital due to that other hospital's being overcrowded with emergencies like me from distant cities which had lost their local hospitals.

Eastland Memorial Hospital has always been here for us. It has been a necessary in our lives which like other necessities has often been taken for granted. With this accident happening at a time when we are facing the loss of this necessity, I realize that the hospital is a luxury because we have been blessed with that local hospital far longer than many cities are able to have a local hospital.

If you are unfortunate enough to be injured in an automobile accident as you drive to the polls Saturday, you can be confident that Eastland Memorial Hospital will be open, ready to help you... but what if you or a family member has that acci-

dent weeks or months after you vote?
Susan A. Johnston

Life Is Not Easy
No one said that the Christian life was ever easy. As a matter of fact, it is not easy for a purpose. Christian character is built when we are tried of fire. It is when we are placed in the fire that we are purified like gold.

Lets not pray for an easy life; lets pray that we may become stronger men and women for the Lord. Instead of asking God for a job ask Him for the power to do a great job. Then pray and do the job as if people are really seeing God in you. We must be strong in the Lord and do a job to please Him.

Physical strength is what we can carry. Spiritual strength is what we can bear. Sit back and look at your life and think about how God has made you strong, and how many prayer's He has answered.

In Jesus Christ
Rev. Rick Mota

Dear Sir,
I would like to address this letter to the "A Concerned Citizen" that also wrote to your paper and it was published in the Sept. 3 Cisco Press newspaper.

I also am for the Cisco Hospital since our family has always used Cisco doctors and the Graham Memorial Hospital and have pledged our contributions every month.

But you made a mistake when you wrote about Moran, stating no stores, no doctors, no school, now are wrong. We have a school, a great school, a great bank, stores all kinds, U.S. Post Office, Service Station, West Texas Utilities Co., City Hall, collectable shops, printing t-shirt shop, funeral home, grocery store and we are a great town.

So find out about a town before you make your statement.

A New Elevator, Other Items On Commissioners Agenda

Eastland County Commissioners spent a full hour Monday discussing the opposition to a State Prison being built in Eastland County.

Carol Bullock, Jimmie Hughes and others voiced concerns about what this facility would do to the resources and environment of the area. They brought a petition signed by 450 people opposing the prison.

But there were also a number of other important issues on the day-long agenda. On one of the first items, the Commissioners decided to accept the bid of Escobedo Elevator Co. of Grand Prairie, Texas to replace the existing elevator in the Courthouse - contingent on an engineering report that the building was structurally sound enough to support this type of elevator.

All the Commissioners voted "yes" on this proposal, with Judge Bailey voting "No." The vote carried 4-1. Cost of the new elevator will be \$54,039, not including the cost of excavating a shaft.

On other business, the commissioners signed a Cooperative Agreement between the City of Eastland and Eastland County for Community Development Block Grant Funds. The Grant is expected to be \$400,000, and if secured will be used to raise the dam and upgrade the

spillway at Eastland Lake.

Nancy Trout, Eastland County Tax Collector, requested that the Commissioners approve a contract with Pritchard and Abbott on tax collection. The Commissioners voted to accept the contract, with the stipulation that notices of delinquent taxes will appear on current tax statements. The cost of this will be \$22,900 for the year.

Representatives of Commercial Janitorial Supply Co. of Brownwood requested that the company be allowed to demonstrate some floor-care products on the Courthouse floors. Two different types of products would be used in the lobby area, at no cost to the

county. The Commissioners agreed to the test, and indicated they would be interested in seeing how well the products worked. During the afternoon meeting the Commissioners approved a Software Maintenance and Development agreement with Harley Gwynn and Associates. Mr. Gwynn has been working with Courthouse computers for several years. His projects for next year include programming Uniform rime Information in the Sheriff's office. This will tie in with requirements of new state laws.

The Commissioners discussed the Sheriff's and chips, sandwiches, tomatoes, cookies, Seven Up and Coke. The table had a lace table cloth with silver and crystal appointments.

Members present were Norma Jean Webb, Anna Laura Clearman, Noama Morrow, Ava Rodgers, Nancy Hendricks, Johnny B. Griffith, Bernice Rodgers, Mary Frances Bishop and guest County Extension Agent Janet Thomas.

The next meeting will be in the home of Bernice Rodgers Oct. 9.

The club plans to have Miss Kokomo Tonya Caraway and Little Miss Kokomo Kristal Brown in the Gorman Peanut Festival Parade.

The club cookbooks are being presented. Kokomo Club will keep with the Eastland County health Fair at Cisco Senior Citizens Sept. 28 and will work at the Senior Citizens Bazaar on Oct. 6th 2:00 to 5:00 p.m.

Mrs. Rodgers had delicious refreshments of pickles, salad,

Constables fees, and set them for the year. They voted to add \$5 to all fees not set by law, with the exception of what is already \$50 or more.

On other law enforcement matters, Comm. Billy Bacon reported that 14 prisoners were currently in the jail, with 2 of them slated for TDC and 1 for Fort Worth. He said that "The Jail is clean, as always."

One agenda item concerned the cost of county burials. Terry Edwards of Edwards Funeral Home in Eastland and Brad Kimbrough of Kimbrough Funeral Home in Cisco brought this matter to the Commissioners. Edwards and Kimbrough, representing the Funeral Directors of Eastland County, said that the cost of burials has risen sharply in the past few years. The County allowance of \$250 for each indigent burial will not begin to cover the cost, they said.

They asked that the County raise the payment to \$750. This, as in the past, will provide for a cloth-covered wood casket and a graveside service with a tent set-up.

The Commissioners approved this raise, saying that the County burial rate of \$250 was set 10-15 years ago.

Homemaking Hints Gordon Spot

From Janet Thomas, County Agent

Job burnout is a condition that occurs when aggressive motivated and successful people work too hard too long at their jobs.

When stress levels stay high over a period of time, an employee will burn out. They tend to have mental and physical health problems or begin to be accident-prone.

Employees suffering burnout often exhibit one or more symptoms. High resistance to going to work and a negative attitude are two of the first symptoms. Other symptoms are seeming angry all the time, blaming others for their problems, frequent clock watching, and little care or concern for their job.

Additional symptoms include withdrawing from co-workers, postponing client contacts, inability to concentrate, feeling helpless or immobilized, higher absenteeism, resisting any kind of change and having more health problems.

Coping with job burnout is a challenge. Before any changes can take place, the burned out employee must be willing to change and be willing to work diligently at turning his or her life around. When burnout occurs, mar-

tial and family conflict are natural consequences.

There are eight recommended practices for keeping mentally and physically fit to prevent burnout:

- * Get enough sleep every night;
- * Keep physically fit, eat right and exercise regularly;
- * Take regular vacations;
- * Deal with stress realistically;
- * Organize your life;
- * Allow yourself a ten-minute "down-time" each hour you work;
- * Talk about your problems.

Middle age is the period when both men and women experience the most depression and job burnout. Middle age is also life's most successful period of life.

Government-sponsored study in England suggests that Alzheimer's disease is more prevalent in those areas where the public tap water is high in aluminum. More tests expected.

Some women miscarry because their bodies reject the fetal cells. In a new procedure, white blood cells from the husband are injected to stimulate production of protective proteins. University of Southern Maine and other sources report a success rate of 80 to 90 percent.

At a clinic at the University of Minnesota, doctors are utilizing growth factors to help wounds heal. Preliminary experiments have good results. Now researchers at Rockefeller University are doing similar work with animal platelets.

Iodine seems to be effective against fibrocystic breast disease, and a new study at Queens University in Ontario and the Medical College of Pennsylvania utilized diatomic iodine. Researchers report lumps and pain gone after a year's treatment.

Was that a million dollar rain last week? If there ever was one that was it. The Eastland County peanut crop that looked so good in early August was beginning to deteriorate rapidly under the intense heat and lack of soil moisture. Even the irrigated peanuts were stressed. However, the good rain last week came in the nick of time. Perhaps a little late for the early planted peanuts, but most of our crop was planted late this year.

What we will need now is a good fall growing season with no frost or freeze until late November or early December. If that happens, we may have the best peanut crop in many years. A good peanut crop along with the excellent cattle market we have experienced this year will mean a big boost to the Eastland County economy and especially to the farmers and ranchers who have had a tough time for several years.

The week of September 17-23 has been proclaimed as National Farm Safety Week and Texas Farm and Ranch Safety Week. This year's theme for the week is "SAFEing The Farm and Ranch". It stresses the hazards involved with Agricultural production and the effort into preventing injury and illness on the farm, especially during times of economic stress.

About 100 Texas rural families suffer farm and ranch related accidents and an estimated 10,000 disabling injuries and 100,000 injuries requiring medical attention occur annually.

A further look at farm accident figures compiled by the Texas Agricultural Extension Service show that most fatalities are caused by (in descending order) tractors/machinery, firearms, fires, other farm vehicles, falls, animal drowning, struck by object, electric current, lightning, exposure and insect bites.

Over the past ten years, rural fatalities have been reduced by 50% due to increased awareness and improved safety design.

The Extension Service suggests taking the following steps to make your farm or ranch safer and more productive:

- * Be sure workers and family members are trained for the jobs they do.
- * Inspect all equipment and facilities periodically, making needed repairs and correcting hazards without delay.
- * Read and follow directions and recommendations in operator's manuals and on product labels.
- * Focus on each task at hand.
- * Keep machinery shielding in place.
- * Be prepared for emergencies.

Most agricultural accidents

and work illnesses can be prevented at little or no expense. These precautions and the use of safe work procedures can reduce the needless suffering of rural accident victims and prevent the financial burden of agricultural accidents on productivity and family income.

Moist conditions and cooler weather are contributing to increased cricket populations in Eastland County. As they reach the flying stage of development, they are attracted to outdoor lighting.

While crickets basically live in fields and lawns, they may invade homes and businesses.

Crickets feed mostly on organic matter, but will eat young seedlings such as clovers and winter pastures. They usually cause little damage, but can be a nuisance when they get into dwellings and commercial buildings.

In the immature stage, crickets don't have wings. In late summer and fall they develop wings, become able to fly and are highly attracted to lights. They often congregate at lighted businesses, street lights and exterior home lighting.

Sevin is the safest and most effective insecticide to use on crickets if they become a nuisance. Periodic applications of the insecticide may be needed. Dead crickets should be removed, since they could cause an odor.

Safe Driving Tips from Rhonda

What do you suppose is the no. 1 killer of children these days? Automobile collisions! Although the seat belt law has been enacted for several years now, people continue to drive around with children climbing, hanging out windows, and standing in the front seat. Children can't be held accountable for not wearing seat belts, so their parents should be responsible enough to take the time and initiative to see that their children are safe in a vehicle.

Fishing Outdoors

by Terry L. Wilson

"West Texas Lakes Producing Big Bass" A few years ago, a fisherman almost had to be within sight of a pine tree to catch a trophy-sized largemouth bass. Big East Texas lakes were the center of lunger bass action during the 1960s and 1970s. Now there is mounting evidence that the chances of catching a 10-pound plus bass may be just as good on several of West Texas' resurgent reservoirs. Texas Parks and Wildlife Department fishery biologist

Billy Follis of San Angelo said local fisherman Sam Keel set a record for Lake O.C. Fisher, located on the northwest outskirts of San Angelo, with a 12.3-pounder caught on July 4. The fish, caught on a jig and crawworm, bettered the old lake record 11-pounder caught in January 1984. Another bass weighing 10.9 pounds was caught during a recent bass tournament. Big fish also are appearing with regularity at nearby Twin Buttes Lake just southwest of San Angelo. Follis said that

during a recent tournament, bass weighing 10.2 and 9.6 pounds and several in the seven-pound range were brought in. The lake produced a nine-pounder during another bass tournament. Follis said a combination of factors have contributed to the trophy bass production and improved overall bass fishing success on the two lakes. Florida-strain largemouths have been stocked by the department starting in 1974. "The big bass caught recently probably were some of the original stockers, or their early offsprings," said Follis, adding that Florida bass have a proven track record of being able to grow larger sizes than native bass.

Another factor is the growing awareness of catch and release bass fishing, including more catch and release tournaments. Both lakes have the standard bag limit of five bass per day and a 14-inch minimum length. Our West Texas lakes also are benefiting from higher water levels than in the past few years, increasing their fertility and potential for further production. Sunday, Sept. 24, 1989 the Runnels County Bass Club will be hosting its 2nd annual Open Tournament. This year anglers may fish either Ballinger Lake or the New Winters Lake. Headquarters and weigh-in will be at the new Ballinger lake. 1st place is guaranteed \$1,000.00. Second thru 25th will be based on 100 entries. Entry fee will be \$30.00 with a \$5.00

big bass pot optional. Which is a true bargain folks. The two Ballinger lakes are a flipper's dream with plenty of cover to shake a jig in. For more information you may call 915/365-2634 or myself at 629-3255. A quick note conformation has been received that Sherry Johnson will receive the \$1,000.00 bonus from Yamaha from her recent win at Lake Leon pending final paperwork. Congratulations Sherry and I guess it really pays to fish the annual E.C.B.C. event at Lake Leon. How about a loan? Till next time good fishing. Terry L. Wilson

County Health Fair September 28

Everyone is invited to come to the Eastland County Health Fair on Thursday, September 28th, at the Cisco Senior Citizens Center. Over twenty health care providers will be on hand to do health screenings, provide health education and information. All screenings are free except the cholesterol screening which costs \$5.00. The Health Fair is also for children. Screenings that will be of interest to children in particular are free hearing exams. Also, Central Texas MHMR Child Development Center from Brownwood will do developmental screenings of children from birth to 5 years of age. Pre-screening of children

who have school/behavior problems will be provided by Attention Deficit Evaluation Service of Abilene with Guy Ogan, M.A. doing the screenings. Dr. James T. Walker, M.D. and his staff from Walker Ophthalmology and Associates will be present at the Health Fair. Dr. Walker will provide eye consultations, vision checks and evaluation. Plus his staff will adjust and do minor repairs on glasses. Several groups will be present to discuss chemical dependency, mental stress, etc. which are common concerns of youth as well as adults. Having booths will be Woods Psychiatric Institute of Abilene, Hico Lodge Community Service Center

of Arlington, and Summer Sky of Stephenville. See you at the Health Fair!

The Next Best Thing -

...to a clear conscience and a good night's sleep is the feeling of security in owning your own home with a clear title. Peculiar to the real estate field, values are based on land and the improvements thereon, if any. But values on these are based on the title. The title then comes the most important item to be considered when purchase of real property is contemplated. So be careful to buy good title based on an abstract of title or a policy of title insurance.

Carbon News

By Dorothy Jackson

The week started off with the same song, verse 6 and 7 and by Saturday afternoon the thunder bumpers began to roam around, and what a difference a little shower makes. I receive half an inch, some received more and some less. The rain brought with it some cooler temperatures, which was very welcome.

When Does Medicare Pay Second?

People who are covered by both Medicare and private medical insurance should submit their bills to the private insurance carrier first under some circumstances, Glyn Hammons, Social Security manager in Abilene, said today.

The law specifies Medicare as the secondary payer for people who are covered by an employer health plan in addition to their Medicare. The bills should be sent first to the employer health plan, and then sent to Medicare if the employer plan does not pay in full.

Medicare also pays second if a person is injured in an automobile accident and the expenses are paid by personal automobile medical insurance, State no-fault auto-

mobile insurance, or liability insurance. In the case of liability insurance, the person may file a claim with Medicare first which will get its payment back when the liability insurance pays.

Questions about Medicare coverage or about submitting bills to Medicare should be directed to the Medicare carrier for this area, Hammons said. The telephone number for the Medicare carrier of the Big Country area is 1-800-442-2620 and is listed in the back of the **Medicare Handbook**.

To apply for Medicare, call Social Security. The Abilene Social Security office is located at 142 S. Pioneer. The telephone number is 698-1360 or 1-800-234-5772 for those living outside of Abilene.

On Eastland Memorial Hospital
If you have a question call Administrator Marcia Carr at 629-2601

Q: Why does the Board think a hospital district for taxing purposes will help the hospital when the other two county hospitals are in financial difficulties and one hospital closed even with tax support?
A: 1) The Board feels there will be changes in the Medicare program in the future to better equalize payments to rural hospitals. 2) The other districts in Eastland County have a tax rate set to too low cents per \$100 evaluation to bring in enough money to subsidize operating revenue. The Board has realistically projected an initial rate of 30¢ per \$100 evaluation which is expected to generate \$400,000 to \$450,000 based upon an 85% collection rate of taxes assessed within the district. 3) The average daily census of the others are low and cannot generate enough revenue to offset fixed expenses. 4) We believe the physicians and hospital staff have now had time to become familiar with the more drastic changes in the current Medicare program.

Comment: Our government must learn that too many hospitals are near the breaking point, many have already had to close. We at Eastland Memorial do not want to become one of those sad statistics. Our job at the hospital has never been more challenging, to deal creatively and realistically with all the changes, maintain access and availability of quality health care services for our community and try to operate this all with reimbursement which does not cover expenses. We are hard at work, so that we will be here, in the future, as we have in the past, when you need us.

However, we need you, the people to vote for the creation of a hospital district on September 16, 1989, to ensure we will have that ability to continue to provide services and be here if and when you need us.

Q: What is the proposed tax rate, and what is the maximum rate which could ever be imposed?
A: The proposed tax rate is 30¢ per \$100 property evaluation. The maximum tax rate allowed by the legislative bill creating Eastland Memorial Hospital District is 37.5¢ per \$100 property evaluation, though state law would have allowed a tax rate up to 75¢ per \$100 evaluation.

Q: Will the tax rate always remain at the proposed 30¢ per \$100 property evaluation?
A: No, the tax rate can be lowered according to the needs of the hospital any given year. However, the tax rate can only be raised 3% per year without a public hearing, and any raise of 8% or more per year would entitle the taxpayers to call for a roll-back elections, but remember the maximum rate can never be more than 37.5¢ per \$100 property evaluation because of the caution written into the legislative Bill.

Q: How long will the district taxing power last?
A: There is provision built into the legislation creating the EMH District which will allow for dissolution of the district at any point in the future should the circumstances seem to dictate the need. It is also possible for the district directors to have the option of not assessing a tax in any given year if it is not required for operations of the hospital, much as the Water District Board did for many years when revenue from tax dollars was not needed for operations.

Warrant Confirmation Procedures Clarified

Differences involving the serving of warrants have been resolved between the office of Sheriff Dee Hogan, the Eastland County Dispatch and the Texas Crime Information Center in Austin.

The Sheriff announced that he will direct his employees to confirm all out-of-County warrants, on a 24-hr. basis. County Dispatch will confirm all in-county warrants.

This announcement was made at a meeting Thursday

by Cecil Funderburgh, Gorman Chief of Police and Law Enforcement Manager for the Eastland County Dispatch.

Thursday's meeting was actually an extension of a lengthy meeting Wednesday in which problems were aired. Two warrants had not been verified with the TCIC recently, and officials in Austin had allegedly warned that they would withdraw their Computer link with the dispatch if one more warrant was not

verified.

It was stated Wednesday at the meeting that Sheriff Hogan broke rules of the TCIC by confirming warrants only from 8 a.m. to 5 p.m. Hogan stated his concern about the Jailers being too busy at night to confirm warrants. He added that he didn't want to get into trouble with the Texas Jail Standards Commission.

"I have never refused to confirm a warrant I have jurisdiction over," the Sheriff

said later. He added that he didn't think he should be held responsible for confirming the warrants of other law enforcement agencies in the county.

Resolving of the warrant problem seemed to please Dispatch Board members Thursday. "It is worked out," Eastland Mayor C.W. Hoffmann said.

Funderburgh told the Board members that he had talked to a TCIC Supervisor. The official assured him that if warrants are not served again when called, the offending law enforcement agency will be pulled from the Computer - not the records from the entire county.

AARP News Health News And Issues

By Roy Cartee
QUESTION: Mr. Cartee, you stated that it appeared the catastrophic part of Medicare would be repealed. I read where Congress is not going to act upon the law. What do you think?

ANSWER: I think the entire situation is confusing! It depends upon which newspaper you read and the date the paper is printed. There is no doubt Congress is going to change the catastrophic law, and perhaps change it to the degree that it will hurt the older person. Let's wait for a few more days and perhaps I can define the action of Congress.

QUESTION: Mr. Cartee, why are we having so much trouble with the access to quality health care in the United States?

ANSWER: The St. Petersburg Times put the situation in proper perspective. "As the only western democracy that lacks some sort of all inclusive health care system, the U.S. wrongly tolerates a patchwork in which money speaks louder than medicine. The result is that the system skews its services along the lines of social class." When we allow quality health care become available on the basis of social economics troubles begin. Health care cannot be

given only to those who have the money to pay for the care. On the other hand, it is a national issue and must not be dependent upon the better off individual to furnish all of the funds for those who do not have the money. I know it is a weird situation, but I heard a speaker say the other day "if we can put a man on the moon, we can solve your health problem". We have worked around the problem so long that now we are spending 600 billion dollars a year for health care...and it is not of quality service. Surely our country can solve the problem so life will not be so miserable for such a large segment of people.

Mr. Cartee is a speaker throughout the state in regard to health issues. If you have a question send it to him: Roy V. Cartee, Associate State Health Coordinator, AARP, 900 Avenue H, Cisco, Texas 76437.

Peanut Field Day To Be Held Near Rising Star

Nematode control will be the topic of a peanut field day near Rising Star, Friday, September 22. County Extension Agent, DeMarquis Gordon, reports that peanut growers will see and hear about nematode control at a field demonstration in Daryl Medford's peanut field west of Rising Star beginning at 9:30 a.m.

Gordon says, growers will have an easy time finding the Medford Demonstration if they go about five blocks west of the traffic light in Rising Star on Highway 36. Then turn south on county road at the Burger-Pizza Factory - a vacant building. The demonstration is about 1/2 mile south on the road.

The field has a heavy nematode infestation. The demonstration plot contains eight treatments. The agent says, visitors will be able to see a distinct difference in the plants between treatments. Nematodes are a major pest of peanuts and cost Eastland County growers thousands of dollars every year, according to Gordon.

Dr. Chip Lee, Extension Plant Pathologist; and Dr. George Alston, Extension Agronomist, will be at the field day to visit with growers about peanut problems.

The field day and demonstration was planned by the crops committee and they encourage all peanut producers in the county to attend.

The sons and daughters-in-law of Russell E. Fink held a family reunion on May 28, 1988, in his honor. Mr. Fink died in Sept. 1988.

The Gary and Bobby Fink families decided to have a reunion in their father's memory this year (and possibly each following year).

Again this year the cousins, the Al Rogers, the Wallace Grierers, the Billy Knights, the Dale Burns, the Sy Tabors, also the uncle and aunts, the Bob Hallmarks, the Kinards and Mom Fink (or occupant) in each case, received a cleverly worded invitation to a "Reunion R Us" at the Gary Fink residence, 1501 Park Drive, from 9:30 a.m. till dark thir-

ty on September 2, 1989.

On arriving the snack table was loaded with dips, vegetables to dip and eat, two plates plain Rice Krispies candy and one of peanut butter, and one of butterscotch Krispies.

In addition to an open (and very much used) swimming pool, there was a "guided hunting trip", a fishing pond, a golfing trout, registering for free trip, and ending the day's entertainment a softball game between young adults and the little ones. The game ended in a tie.

Some food served for lunch included plain and barbecue brisket, corn, okra, potato salad, broccoli casserole, mashed potatoes, spinach and boiled eggs, Pinto beans.

Needs For Food & Clothing At Multipurpos Center

The Multipurpose Center is in need of fall and winter clothing, and the Food Pantry at the Center is low on supplies.

This information was given to an Eastland County Resource Association meeting in Eastland Centennial Memorial Library Tuesday. Peggy Roberts, Director of the Multipurpose Center, told of calls for school shoes and other seasonal clothing for all ages. Any donations would be appreciated, she said. Just

POEM

A CHILD

The sweetest voice that you may ever hear

Is the voice of a child kneeling in prayer

Seeking Jesus that seems so near

To protect mom and dad they love so dear.

If we had the faith of a child What mountains we could climb

Each day would be a new experience

That each could seek and find.

There is a special blessing That comes from heaven above

It's clothed in joy and happiness And completed with a mother's love.

Nutrition Program

Much is to be gained by being an active participant at the Senior Center in your town. Many things are available at the Center that will assist in answering your questions. For instance: Social Security representatives visit the Center twice a month; 55-Alive driving classes are held from time to time; Medicare and Medicaid benefits and claims are filed for you; during the proper season tax aide counselors assist you; you develop friends and have fellowship with your friends and neighbors; a nutritious meal is served three times each week; counseling services are provided senior adults. We have even more happenings at the Senior Center. Why not become active with the other hundreds of older adults.

The menus for the coming week will be:

Monday-- Barbecue chicken, red beans and rice, potatoes au gratin, carrot cabbage, peanut butter pudding, whipped topping, bread, butter and milk.

Wednesday-- Beef stew, tossed salad, chocolate chip cookie, fruit cocktail pudding, cornbread, butter and milk.

Friday-- Beef stroganoff with spaghetti, peas and carrots, tossed salad, peanut butter cutties, jello with topping, roll, butter and milk.

The program for the past week included: Cisco-- Bob Bever, Richard Parker, Lois Holder and the Senior Center Band and Choir presented the dinner music and pro-

grams for the members.

Eastland held the AARP regular meeting and covered dish supper for the month of September. The dinner music was provided by Ruth Kendrick and La Rue Broussard.

Lois Robinson, a member of the Food Pantry Board, said that food supplies are short right now. Staples and canned goods are needed, as well as surplus garden produce. Due to government regulations, home-canned foods can not be accepted.

The Pantry has a small freezer and refrigerator, so can keep a limited amount of frozen or perishable foods.

Cash donations are also welcome. Mrs. Robinson said. The money is used to buy food at the Food Bank in Abilene.

Donations may be brought to the Food Pantry at the Multipurpose Center. The Pantry is open Monday, Wednesday and Friday from 1-4 p.m. Contributions will

be gratefully received.

Mrs. Robinson told the Resource Association that the Food Pantry has 15 Board members, mostly volunteers. Two members are on call at all times for emergencies.

The Pantry distributed food to 27 families in July, and 40 families in August.

A Thought For The Day...

DeAlva Chambers

Today, more people than ever are planning ahead. In such matters as insurance, wills, property and investments, families know the importance of looking into the future today.

That is why many people are discussing funeral arrangements in advance. Planning ahead gives you the opportunity to make known your wishes while giving full consideration to the needs, desires and sensibilities of others at a sorrowful time. Pre-arrangement does away with any possible disagreement among the bereaved as to what to do and how much to spend. In effect, pre-arrangement eases the burden placed on the immediate family - in terms of both the proper course of action to follow and it also gives peace of mind in knowing that arrangements have been made in advance.

We at the Cisco Funeral Home are available to discuss pre-arrangements with you at any time. We offer complete information on pre-arrangements and will answer all questions honestly and truthfully. Feel free to contact us at your convenience. There is no obligation, of course...

CITY OF CISCO PUBLIC NOTICE
CHANGE IN SANITATION COLLECTION SCHEDULE

Notice is herewith provided to all residential sanitation/garbage customers of the City of Cisco that effective Monday, October 2, 1989, residential garbage will be picked up only one time per week. Customers that now have their garbage collected on Mondays and Thursdays will have their garbage picked up on Mondays only as of Monday, October 2nd. Tuesday and Friday customers will have their garbage collected on Tuesdays only. There will be no change in the commercial accounts at this time whose garbage is collected daily.

When a holiday falls on a normal collection day (Monday or Tuesday), that collection day will be moved to Wednesday. Notice of any and all anticipated deviations from normal sanitation collection, such as holidays, will be published in the Cisco Press.

This reduction in residential sanitation collection is necessary due to significant budget constraints resulting from a continual decline in revenues received by the City. The revision in our sanitation collection service allows for reduced operational costs and better utilization of existing employees. The reduction in the sanitation collection schedule is also made in preparation of substantial and extremely costly revision to solid waste disposal (landfill) requirements that have been proposed by the U.S. Environmental Protection Agency and the Texas Department of Health.

Questions regarding the new sanitation collection schedule should be directed to City Hall at 442-2111. (9-17, 9-24, 10-1)
