Have you admired the bachelor buttons in the yard of the Mel Serratts' home at 1302 Leggett? Would you like seeds from these beautiful flowers? If you do, just drop by and the Serratts will be more than happy to share with you.

A brown envelope containing medical x-rays was found on Avenue A last week and has been turned into The Cisco Press. If you lost this you may claim it at the newspaper office.

There has been a family reunion on the installment plan at Lela Lloyd's home for the last 12 days.

Both her brothers and parts of their families plus her two sisters have been or will be in Cisco come Saturday, Oct. 12. First to arrive were Mr. and Mrs. Bill Latch of Durango, Colorado, and Lenora Preston of Anchorage, Alaska. They brought Annie Rendall and her daughter, Lenora, from Ranger as they drove west from a trip to visit Mrs. Bill Latch's family in Dallas. Together, that part of the family had lunch in Cisco at the Lloyd home.

That evening, "Rudy" Rendall, Midland, joined the clan as did Mr. and Mrs. Bobby Little and La Dawn as the Bill Latches were dinner hosts at K-Bob's. On Saturday, Mr. and Mrs. Paul Latch of New Braunfels, their daughter, Paula Williams of Austin, and grandson Richard Rocha of Brownfield joined Ann Rendall, Lenora Preston and Mary Jane Little of Ranger at lunch with Lela Lloyd.

On Sunday, Lenora's daughter and family, Mr. and Mrs. Dwight Maxwell and their son and daughter, Dee and Gayla Maxwell, all had another all day family session at the Bobby Little home at Lake Leon. Lenora's daughter and her sister, Judy Hall of Cleburne, took her to DFW for her flight back to Alaska.

This Saturday, Oct. 7, Mary Carey, Talkeetna, Alaska, will arrive via Delta at DFW. She will visit her Texas families with most of her time at her daughter's home in Houston and with her two sisters, Lela Lloyd and Ann Rendall. During her trip Mary, her daughter, and Lela will give some book reviews in Southeast Texas as a trio of family writers. Their first date is at Lake Jackson for Oct. 31.

We recently reported on donations made to the memorial fund of the Cisco Historical Society. The donation was made by Dr. and Mrs. Chief Brown in memory of Mrs. Vera Butler, not Era Butler as was reported in the story.

Don't forget the annual St. Jude Children's Research Hospital's "Wheels for Life" bike-a-thon at City Park Saturday morning. All proceeds will go to St. Jude's, the largest childhood cancer research treatment and education center in America.

Canterbury Villa Nursing Home wants to thank everyone so much for their response to the nursing home's need for magazines and books. They now have enough and some left over, according to Mel Serratt, administrator. If you know of a need for magazines or books, please let them know at Canterbury Villa.

That evening, "Rudy" Rendall, Midland, joined the clan as did Mr. and Mrs. Bobby Little and La Dawn as the Bill Latches were dinner hosts at K-Bob's. On Saturday, Mr. and Mrs. Paul Latch of New Braunfels, their daughter, Paula Williams of Austin, and grandson Richard Rocha of Brownfield joined Ann Rendall, Lenora Preston and Mary Jane Little of Ranger at lunch with Lela Lloyd.

1990 Lobo Yearbook To Go On Sale October 26-27

The 1990 Lobo Yearbook will go on sale Thursday and Friday, Oct. 26-27. The Lobo Staff will take orders for yearbooks at Cisco High School and Cisco Junior High on Oct. 26. On Oct. 27, the staff will be at Cisco Elementary School between 12:30 and 1:30 p.m. to take orders for the book.

The 1990 Yearbook will begin a new, exciting trend. Instead of publishing a yearbook that covers only six months of the school year as the yearbook has previously, the 1990 Yearbook will cover events and activities from the beginning of the school year through the Elementary and High School graduation exercises at the close of school. The book will actually be a true yearbook, not a partial yearbook as in the past. In past years, the cut-off deadline for copy and pictures in the Lobo Yearbook has been March 1st. Due to this procedure, such events as UIL, all banquets, honors, spring sports, and graduation have not been represented in the book. The deadline for copy on the 1990

book will be June 2, 1990.

The 1990 Yearbook will arrive for distribution shortly after the middle of July. The date of distribution will be scheduled and publicized. Those classes wishing to plan annual-signing parties will have the opportunity to do so.

The cost for the 208-page book will be \$24. If you wish to have your name printed on the book, the cost will be an extra \$2.

On Oct. 26 and 27 you may pay the total amount for your yearbook, or you may order a yearbook by making a downpayment of \$12. If you make a downpayment of \$12 on these dates, the balance owed will be payable on or before Feb. 28, 1990.

Don't miss purchasing your 1990 Lobo Yearbook. The book will definitely depict that the students of the Cisco Independent School District are "Loboes with Class."

DISASTER DRILL-- A disaster drill, a two car motor vehicle accident, was staged in Cisco Sept. 18. Cisco Emergency Service, Ranger EMS, and Cisco Volunteer Fire Department responded. All victims were triaged and transported to E.L. Graham Memorial Hospital for treatment within 36 minutes.

Mock Disaster Termed Success By Cisco Emergency Service

Every year, Texas emergency medical services respond to more than a million calls for assistance. Those calls range from multiple casualty incidents such as a bus wreck, or building collapse where victims have to be triaged, or selected, for treatment according to the severity of their injuries to the more common cardiac arrest, motor vehicle accident, near drowning, or fractured leg.

On September 18, at 6 p.m., Cisco EMS responded to a "mock disaster," a two car motor vehicle accident. First unit on the scene counted eight victims and called for more assistance. Within minutes, the fire department responded to help free trapped victims. Area ambulance services responded to also help care

for the large amount of injuries. E.L. Graham Memorial Hospital was notified of the incident and preparation for casualties was initiated.

This was considered a disaster. Large amount of patients not usually known at a two car accident. There was something very different this time. This was a drill!

Every year ambulances around the state practice caring for large amounts of patients during disaster drills. Thus giving area ambulance services the chance to work together and become familiar with each other's equipment and personnel. Each patient in the drill was cared for just as if it had been the real thing. All patients were triaged, treated, and transported within 36

SCRANTON MUSICAL
The regular Scranton Country and Western Musical will be held Saturday, Oct. 7, in the Scranton Community Center. The concession stand will open at 5:30 p.m., and the music will start at 6 p.m. Everyone, especially musicians, is invited to attend.

In Memorium
The Cisco Cemetery Association received the below listed contributions during the month of September, 1989:
In memory of Mrs. Benny A. Butler from Lucy M. Collier.
In memory of Benny A. Butler from Lucy M. Collier, Louise Cooper, Commercial Printing Company and Mr. and Mrs. Anton White.
In memory of James and Della Foster from Juanita Evans.
In memory of Virgil M. Murphy from J. Merle Murphy.
A donation was made to the Endowment Fund by F.N. and Muriel Taylor.
Gifts may be mailed to the Cisco Cemetery Association at P.O. Box 308, Cisco, Texas 76437.

Project Lobo Committee To Hold Meeting Wednesday

There will be an important meeting of the Project Lobo committee members on Wednesday, Oct. 11, at 5:30 p.m. at Cisco High School in the typing room (room 1), according to Gene Kinser, chairman.

All committee members are urged to attend this meeting as several important decisions will be made, Mr. Kinser said.

minutes. For those of you who may think disaster drills are a waste of time, practice makes perfect.

Cisco Emergency Medical Service would like to extend their appreciation to the following for their cooperation:

Doug Dietrich, Jeannie Roper, Ross Roper, Steveanna Nunley, Cindy Fox, David Jackson and Johnny Riggs, the victims; Lori Collins, Barbara Mowery and Jamie Hornbeck of Ranger EMS; Truitt Horton, C.W. Guthrie, Elmer Escobedo, David Eaton, Joe Jarvis, Pat Murphy, Dennis Stovall, Larry Weikel, Don Wiley, Ted Fields and David Gill, Cisco Volunteer Fire Department. We would especially like to thank Ted Fields for donating the two cars used in the drill.

Bike-A-Thon Set For Saturday At City Park

The annual St. Jude Children's Research Hospital "Wheels For Life" Bike-A-Thon will be held Saturday, Oct. 7, according to local coordinator Manning Davis. The event will be held at Cisco City Park from 9 a.m. until 12 noon.

Children will be calling on relatives and friends to take pledges, Mr. Davis said.

Founded by Danny Thomas in 1962, St. Jude Children's Research Hospital is the largest childhood cancer research, treatment and education center in America. St. Jude Hospital is non-sectarian, interracial and provides medical care for over 3,200

Street Dance To Follow Fiddlers In Eastland Saturday Night

Fiddlers from all over Texas and other states across the United States are expected to be in Eastland Saturday for the Old Fiddlers' Contest, one of the feature attractions of the Old Rip Fest.

And following the Old Fiddler's Contest and ending the day of fun and festivities will be a huge street dance. Both attractions will be held just south of the Courthouse Square.

Eighth Grade Loboes Tame Albany Lions 36-To-6 Thursday Night

The eighth grade Loboes played animal trainer and put the Albany Lions back in their cages by the score of 36-to-6 Thursday night at Chesley Field. The Loboes were never threatened as they moved to a first quarter lead of 14-to-0. Strong defensive play shut down the Lions until late in the game. Some of the leaders of the defensive charge were Tim Skiles, John Gaeta, Matt Schaefer, Mike Harrison, Heath Sylva, Dennis Hutt, Brody Honea, Jeff McCoy, Elias Sanchez and Doug Jones.

The offensive had little trouble moving the ball up and down the field due to the blocking of an outstanding offensive line. Coach Kent said that he thought the offensive line blocked better in this game than previous games. Opening the holes for the running backs were Linemen Andrew Moore, Jason Houghton, Ronnie Sims, B.J. Rains, Brent Lee, Dusty Ferguson and Mike Harrison.

The scoring for the Loboes was as follows: Elias Sanchez, three touchdowns; Brody Honea, two touchdowns. The try for extra points were scored by runs from John Gaeta and Shane Thompson. Mike Harrison also scored an extra point on a pass from Matt Schaefer who had a very successful night at quarterback. Albany did not field but one junior high team; therefore, our seventh grade team was forced to conduct a scrimmage before the regular contest began. Our next junior high action will be against the Ranger "Pups" next Thursday night at home. Come out and watch the Loboes worm the Dogs. Game time will be 5 p.m.

Cisco Elementary School Update

October 6 marks the end of the first six weeks. That means report cards will be issued on Wednesday, Oct. 11.

The PTO T-shirts and caps arrived and have been distributed to those who ordered them earlier in September. We have more on order that will be in around Oct. 20. We'll send a note home with each child when they arrive. The caps are \$7.50. The T-shirts are \$5.00. We will also have several XXL T-shirts at a price of \$6.50. The shirts and caps are very nice. Aki Kleiner drew the design for a Lobo yearbook a few years ago and she graciously let us use her design. You can call 442-3833 or 442-4616 to place an order. Thank you for your support.

Bo Starkey, PTO membership chairman, reports a successful membership drive this year. Thanks to all parents and businesses that support PTO. All the money we have goes directly to benefit our students.

The next executive board PTO meeting will be on Tuesday afternoon, Oct. 10, at 3:45 p.m. at the elementary school. President Dr. Judy Harris has asked that all officers and grade representatives be present.

The second graders had a fun Dinosaur Day. Several parents helped with the half-day activities, including dinosaur egg fossil hunt, dinosaur play dough, picture taking, dinosaur ring toss, and a tug of war between the "plant-eaters" and the "meat-eaters." Each child provided his own T-shirt and got to sponge print a dinosaur on it as a souvenir of the day. Cookies were donated for each child to nibble out the shape of a dinosaur. They ended their fun with a sing-song of dinosaur songs. The second grade teachers are Mrs. Johnson, Mrs. Odom, Mrs. Rains and Mrs. White.

The second graders just finished a chapter on community helpers and careers. They would like to thank the following people for coming to school and talking to the children: Mike Moore, city manager; Yolanda Anderson, school board member; Joe Jarvis, fire department; Matt Johnson, post office; Linda Beebe, librarian; Billy Rains, police department; Donna Gerhardt, owner of Traditions Restaurant; Gary Wilson, local manager of WTU; Herman Glueck, farmer and rancher; and Dr. Charles Barnes, veterinarian. Thanks again for taking the time to come share with the children.

Mrs. White's class is having a contest to see which child in her class can read the most books in October. She has a tree with no leaves on the wall. As each child finishes a book, she will write the name of the book and the child's name on a "leaf" and put it on the tree. At the end of October, she will count how many leaves each child has on the tree and he or she will get a prize. I'll keep you informed on this project.

There is a big mystery on the wall by Mrs. Rains' room. I noticed this big black half circle on the wall and asked what it was. She said she wouldn't tell - I'd just have to come back later and see. I'll have to find out later and so will you!

Mrs. Rains is also proud to have Kay Jones from Moran as a student teacher this semester. She is graduating from Howard Payne in Brownwood in December. She also knows Mrs. Rains' secret, but is not telling. I can hardly wait to find out what it is!!

Mrs. Zarate, librarian, has presented a new character, Media Mouse, to the library to give the library rules, book handling rules, and awards for the quietest class that visits the library. She has some cute posters with Media Mouse presenting the rules to the students. She also has certificates and awards for the classes. Starting soon, she will have a button saying "I Am a Bookworm" for students that have read 26 books.

Indian Day is next Thursday, Oct. 12, for the fifth graders. This is always fun. I'll tell you more next week.

COUNTY ON SHORT LIST FOR MAJOR T.D.C. UNIT

Officials and this newspaper were notified Thursday by Sen. Bob Glasgow and State Rep. Jim Parker that the Eastland County site is among the applicants on a short list for selection for a Texas Department of Corrections facility.

Originally 46 sites made applications for the six facilities which are to be built. According to word received here this week, 20 of those original applicants have been removed from consideration.

This leaves a total of 26 sites in the running so Eastland County's chances have increased from six of 46 to upwards of a 25 per cent chance in the final selection process.

An inspection team is expected in the county in the near future.

Unofficial word was that the Brownwood site was not among those making the short list, and in a mutual agreement, that officials there would join Eastland County in an effort to secure a facility here.

Sought is a 2,250-bed unit that would employ some 860 people with a monthly payroll of \$1.6 million.

Letter To The Editor

Dear Editor:
I am a lover of history and have a somewhat unusual hobby. I collect old tokens used by stores, barber shops, pool halls, bakeries, saloons, furts, and other businesses years ago. The tokens were "good for" 5 cents, 10 cents, 25 cents or such in trade or merchandise or "good for" a loaf of bread, one drink, one shave, one ride or whatever. They were usually made of metal, and while having the general appearance of a coin, they were made in all shapes and sizes.

I am hoping that if you have a "Letter to the Editor" section or such in your paper that you might mention my search. I know that this request is relatively unimportant, but as our children pass away and the younger members of the family inherit their possessions, tokens and other items are considered junk and thrown out. I do get a great deal of enjoyment from my hobby and I do believe that these concrete reminders of our great heritage are worth preserving.

I have reason to believe that some of these tokens were used in your area and I would be most interested in obtaining some of them for my collection.

Friends and Fellowship Ministry Holds Regular Meeting

The Friends and Fellowship Ministry of East Cisco Baptist Church met in their regular monthly meeting Thursday, Sept. 12, at 5:30 p.m. in the Educational Building of the church. A "potluck supper" is held every quarter and this was the night to absorb a lot of good food.

Marshall Ivie, president, opened the meeting and asked Paul Ivie to offer prayer.

After the delicious food was consumed, Marshall brought the meeting to order and asked Laverne Ivie to read minutes of the last meeting. They were approved as read. Next, in the absence of the treasurer who was ill, Paul Ivie gave the report which was also approved as read.

Marshall then complimented the committee on their good work. He

presented the slate of officers that the election committee had nominated for the coming year.

They were: Marshall Ivie, president; Thelma Bosworth, vice president; Laverne Ivie, secretary; Venita Mitchell, treasurer; Jewel Kinard, reporter; program committee, Lucy Hagen, chairperson, Bud and Faye Clack, assistants; activities committee, A.V. Payne, chairperson, Laverne Ivie, assistant; travel committee, Paul Ivie, chairman, Bro. Larry Linum and Ollie Hughes, assistants; hostess committee, Dorothy Bell Thomas, chairperson, Florene Hagen and Newt Hagen, assistants; telephone committee, Ollie Smith, chairperson, Leota Hughes, Eva Kinard, assistants; scrapbook, Bill Howell; yearbook committee, Earlene Gilmore, chairperson, and Thelma Bosworth, assistant. The slate of officers were accepted as read and voted in for another year.

Marshall Ivie asked Paul Ivie for a travel report. Since Paul did not get enough suggestions from the last meeting, he had to call each and ask their preference. The vote added up this way: Lake Proctor 19; Abilene Mall 11; Botanical Gardens, Fort Worth 4; Possum Kingdom 3; Granbury 1; Baird 1; and Cisco Dinner Theatre 1. Since Lake Proctor had the majority of the votes, the group decided to take pack lunches there and have a picnic and games on Oct. 12. Everyone is expected to be at the church at 8:30 a.m. Oct. 12 ready to leave in the vans.

Dorothy Thomas raised the question about students leaving BSU before being courteous enough to hear the devotional each first Monday. She had complaints from church members. She needed to know how to respond. After discussion it was decided that Marshall would discuss the problem with the BSU director.

This was the month to elect another quarterly sweetheart. Florene Hagen was elected. Venita Mitchell, reigning queen, crowned and pinned Florene. Happy reigning, lady!

Newt Hagen brought the devotional based on the 23rd Psalm and John 10:11-14. He reminded them that the Psalm says "The Lord is MY Shepherd" and as Christians know the Shepherd and realize what He does for a Christian, as is in John 10:11-14.

The group was reminded about the pending acquisition of the property joining the church grounds and were asked to consider what each could do to help.

Also they were reminded by the president to be at the church at 7:15 a.m. Oct. 3, ready to leave for Big Country Baptist Assembly at Lueders for "Senior Adult day" there.

It was also agreed by the group that the F&FV van could be used to bring to the Sunday night services anyone who so requests.

The food served included chicken casserole, rice casserole, spaghetti casserole, baked beans, blackeyed peas, mashed potatoes, green beans and potatoes, chicken and dumplings, lettuce and tomato salad, corn salad, deviled eggs, macaroni and cheese, scalloped potatoes, corn bread, cookies, angel food cake, peach cobbler, pineapple chess, tea and coke.

Those present were Newt and Florene Hagen, Lucy Hagen, Ollie and Leota Hughes, Venita Mitchell, Marshall and Laverne Ivie, A.V. Payne, Thelma Bosworth, Ollie Smith, Sheila and Amanda Diggs, Dorothy Thomas, Paul Ivie and Jewel Kinard.

Ladies Luncheon Is Reset For October 18

The Cisco Country Club ladies luncheon had been scheduled for the first Wednesday in October, on Oct. 4, has been postponed until the third Wednesday, Oct. 18. This schedule change is for October only and beginning in November, the luncheon will be held the first Wednesday of each month.

Ed Shaughnessy To Be Honorary Judge At Band Contest Saturday

To add to the activities of the "Old Rip" festival this Saturday, the Eastland High School Band and its booster club are sponsoring the third annual "Old Rip" Marching Band Contest at Maverick Stadium. The marching festival is scheduled to begin at 1:30 with Rosco High School Band under the direction of band director Jim Cole to take the field in Class A competition.

Class AA will begin at 1:45 with Ranger High School Band under director Bill Swinney.

2:00 - Anson - Tim Nix
2:15 - Cisco - Wayne White
2:30 - Bangs - Don Baldwin
2:45 - Coleman - Mike Brady
3:00 - Eastland - Phil Hewett

Class AAA will begin at 3:15 with Glen Rose High School under directors Kent Holder and Mike McSwain.

At 3:30 p.m. Ed Shaughnessy will be in concert at the stadium with the Eastland, Ranger, and Cisco combined bands. They will be playing one selection "CUTE", a special arrangement.

At 3:45 the awards will be given. Judges for the contest this year will be Bill Woods from Abilene, James Mallow of Brady, Lonnie Dooley of Graham and as an Honorary Judge, "Ed Shaughnessy",

courtesy of Ludwig Drum Company.

The Eastland Band Boosters will have their booth open with everything from hamburgers and cotton candy to ice tea and as a special addition they will also have festival shirts for \$5.00 and \$7.00 each.

Bands always make a parade special and five of the above plan just that. Eastland, Anson, Ranger, Cisco, and Bangs will bring a joyful sound to the air as they march down Main Street on Saturday morning.

And last but not least, the Eastland Jazz and booster club, the Fine Arts Association, and Ludwig Drum Company welcome Ed Shaughnessy on stage Saturday evening at 8:00 p.m. at the Majestic Theater. He will be accompanied by Mav Jazz and friends. Tickets are \$3.00 for students and \$6.00 for adults in advance. All tickets at the door are \$8.00. You may call 629-2276 for reservations. Both contest and concert will be great, so come out & enjoy the fun, watch some bands, and experience the Shaughnessy Force.

Tickets may be picked up at Eastland Drug and Coats Furniture by 4:00 p.m., Saturday.

Can So Few Pay For So Much

By Carol Bullock

It has been implied that those who are opposed to a prison being located in Eastland County are backward thinking and downright un-American. The taxpayers have heard this before and their taxes reflect a lack of interest and involvement. Many people in Eastland County feel this is the time to become involved; so they are demanding a vote on this issue. That is all they have wanted all along.

It has been stated in this newspaper that we will have to make the improvements to the water and sewage treatment facilities at some time in the future anyway. This is not true. The 1.8 million dollar cost for the water line is the cost to run a water line to the prison site only - it has absolutely nothing to do with the cost of improving the water distribution system in Eastland that is already planned. It has also been stated in this newspaper that the cost for this service to the prison site will be paid for by issuing revenue bonds which will be paid for the prison

system through a contract for purchase of the water over a 25 year period. This is false. The Texas Department of Corrections has not agreed to sign a contract to purchase any amount of water for any period of time. There is NO guarantee they will need this facility at it's full capacity for 25 years. It is also unreasonable to assume the TDC would be willing to bear the cost of this installation. If anything, they will expect the Eastland County Water Supply District to sell them water at a competitive rate. In fact, the City Commissioners of Eastland and Ranger have advised the Eastland County Water District that this cost could not be passed on to the prison, therefore it will have to be divided up among all rate payers in the cities of Eastland and Ranger. The result - SIGNIFICANT RATE INCREASES in water rates for all residents of Eastland and Ranger. If any one wishes to confirm this they should call a member of the water board. The cost to pay this debt over a 25 year

period at 8% interest at \$180,000 per year will in fact be 4.5 million dollars.

The 2.7 million dollar cost for sewage treatment is not a necessary expenditure unless we build a prison in Eastland County. Again it has been stated in this newspaper that the sewage treatment system will be handled in the same manner as the water. It will indeed be handled in the same way as the water with one exception; the residents of Eastland alone, not Ranger, Cisco or any other town, will have to bear this burden. The cost to pay this debt over a 25 year period at 8% interest at \$270,000 per year will be 6.75 million dollars.

Our County Commissioners have stated point blank - we will have to add at least 24 beds to our existing County Jail at a cost of \$750,000 plus or minus 9%. (Commissioners Court meeting September 24, 1989.) Commissioner Billy Bacon stated that he had checked this out and knew with out a doubt that we would have to do this. Doesn't it also stand to reason we would

have to have more law enforcement officers if we have to have a larger jail? More tax dollars. This also means we can expect an increase in crime.

If county taxes are used to purchase the land for the prison the bill will start coming due about the time we pay off the new jail we built 9 years ago. It is said we won't have to have an increase in taxes because of this. There are those who would say financial responsibility dictates that you don't replace a necessary debt with one that is not necessary. But, since we will also have to make the above mentioned addition to the County Jail we will actually be doubling the unnecessary debt won't we?

If a prison is built in Eastland County the true prisoners very well may be the taxpayers of Eastland County. More food for thought, if a prison is built in Eastland County, would we not have to root for the criminal element to assure a stable economy? An editorial in this paper stated that because of the possibility of escapes that the citizens of Eastland County might be well advised to leave the keys in their cars. Is this to suggest that an escapee would just take the car and not commit any other

crime before he left the county?

An editorial dated October 1, 1989 stated "There are some who held that earlier concessions to locating or relocating industries here were too high". That editorial must have been talking about someone other than EBAA Iron, Fuque Homes, Morgan Buildings, or Eastlander Designs. These companies paid their own way. Monies were not given nor concessions made to any of these that involved the taxpayer. As a matter of fact all of these were and are taxpaying companies.

A prison would contribute to the local economy, particularly during the construction stage, but at what price?

It has been suggested that Eastland County explore the possibility of buying an industry and moving it to Eastland. Breckenridge did. Perhaps locals could buy stock to fund this endeavor. Another possibility has been suggested before; build a peanut butter factory in Eastland County. Someone should look into House Bill 131, passed during the special session of the legislature and see what possibilities it holds for the future of counties such as ours. It is the enabling act for an amend-

ment passed by the voters in 1987. This amendment allows the acquisition of land and facilities by a county for lease to public entities for public purposes or to private entities for manufacturing or commercial purposes through the issuance of bonds.

Eastland County Resource Assoc. To Meet Tuesday

The Eastland County Resources Association will meet Tuesday, Oct. 10 at 12:00 noon at Eastland Centennial Memorial Library. Corrie Cowley, President, will be in charge of the meeting.

This all-county group invites anyone interested in helping with critical needs in Eastland County to attend the meeting. If your church or organization has assistance available to the public, please bring this information.

At Tuesday's meeting there will be reports, discussions and plans, including that of up-dating the County Directory. Bring a sack lunch if you wish.

Mildred Jackson Is Selected As Artist Of Month At CJC

Mildred Foster Jackson is the artist of the month at Cisco Junior College. Her paintings have been previously exhibited at CJC and will again be on display at the Maner Memorial Library through the month of October.

Mildred and her husband Newman Jackson have resided in and near Austin since 1949. She is the daughter of the late Emory and Julia Foster of the Atwell community. She married Newman Jackson of Cisco in 1936 and has numerous relatives and friends in Cisco including a brother Buster Foster and a sister Christine Nance, and a sister in Atwell, Elsie Hutchins.

Mildred began her art career as a student, and soon as an instructor of china painting. Later she studied oil paintings under artists Edna Collins, Waldene Rust and Bell Thompson. She has also participated in

numerous artists workshops under special instructors. As an artist realist, landscapes, seascapes, birds and other wildlife, wildflowers and florals are the principal subjects of most of her paintings.

During her 25 year career with the Texas Employment Commission, Mildred painted intermittently. Since retiring from TEC in 1978, she has devoted more time to the artistic world. Thanks to the interest shown by tourists, paintings signed "Mildred Jackson" now decorate the walls of numerous homes in the United States, and some in Canada and England.

Currently Mildred personally shows her work each November at Austin's "Artists Harvest" an annual juried show endorsed by the eight Rotary Clubs of Austin. Her work is also exhibited at the Bastrop Main Street Gallery, Bastrop, Texas.

Vargas Sentenced To 99 Years For Aggravated Sexual Assault

Antonio Vargas of Dublin was sentenced to 99 years in prison Wednesday for sexually assaulting an Eastland woman. The sentence also carries a \$10,000 fine. The jury deliberated 1 hour and 45 minutes before setting punishment for Vargas.

The trial on aggravated sexual assault began in the 91st District Court Monday morning, with Judge Jim Wright presiding. Gary Lewellen of Stephenville was Special Prosecutor in the case, and Ken Tarlton of Mineral Wells was the Court-Appointed Attorney for Vargas.

Charges stemmed from a crime spree by the 19 year old man in the south part of Eastland in the early morn-

ing of July 18. Vargas was arrested near I-20 several hours later, and charged with robbery as well as aggravated sexual assault.

Jury selection began Monday, October 2 and was completed that day. After testimony on Tuesday the 10-woman, 2-man jury took 20 minutes to find Vargas guilty of the aggravated sexual assault charges.

During part of the trial Lewellen read a portion of a statement Vargas gave of officers after his arrest on July 18. He used foul language and stated that he raped the woman several times.

Several charges of robbery are still pending against Vargas, and trials on these are expected to be scheduled.

STOP! THINK FIRST!

A PETITION SIGNATURE AT THIS TIME -- COULD SPELL ECONOMIC DOOM FOR EASTLAND COUNTY!!!!!!

Certainly, the right to petition is an American right and no one objects to an election, but the timing could be critical. The election may not be held until after the Texas Department of Corrections makes its final selections on Nov. 13th, and Eastland County could be rejected simply because of its lack of positive action.

Eastland County can expect significant economic advantages if it is chosen as the site for a 2,250 bed maximum security prison. But 800 new permanent jobs with a \$19 million payroll would be just the beginning.

Tax revenue from two new homes in the Carbon district would more than offset that lost by the prison acreage.

800 permanent jobs and a \$19 million annual payroll are two reasons Texas communities are vying to be selected as a site for a new state prison. But those significant economic benefits are just the beginning.

The McGraw-Hill Dictionary of Modern Economics explains the economic concept called the "multiplier." Money spent sets off a chain reaction, or the multiplier concept.

According to the McGraw-Hill book, the multiplier's final effect can be calculated by dividing the numeral 1 by the percentage of new income saved.

The cost of water and sewerage facilities to the prison would be self-liquidating because of the revenue received from the prison.

"People who work at a prison are consumers and taxpayers," says Dr. Charles M. Barnes, who headed the preparation of Eastland County's proposal for a prison. "They buy from local businesses and contribute ad valorem and sales tax revenues to local taxing districts."

Critics of the effort to locate a prison in Eastland County have noted that the land to be donated to the State would go off the local tax rolls. Current taxes on the land to be donated include \$1051 to the Carbon Independent School District and \$332 to Eastland County.

The primary reason so many Texas communities are trying to secure a prison is pure and simple . . . economic. Gone are the days when Texas communities can rely solely on our state's abundant natural resources for survival.

Texas communities need an economic boost. Many have seen the economic advantages offered by a state prison.

Most of the cost of the water and sewer additions have been planned whether the prison locates here or not.

The income of workers increases the income of the merchants with whom the workers trade, the incomes of the merchants' suppliers, and so on.

Applying the multiplier formula in the McGraw-Hill book to the \$19 million dollar annual payroll a prison would bring to Eastland County would yield the following results: If people on the average save 20% of their income, a \$19 million increase in income will raise total income by \$95 million ($1/0.20=5$; $5 \times \$19 \text{ million} = \95 million). In other words, money multiplies and means more money for Eastland County and its businesses and residents. The impact of locating a prison in the county would be major.

The addition of a stable, "recession proof" employer like a state prison would be helpful as school districts, hospital districts, and city and county governments forecast revenue for their budgets.

School enrollment gains, however, would more than make up for any lost tax revenue. Ray Saunders, Superintendent of Cisco ISD, notes, "The State of Texas provides approximately \$2,000 for each child enrolled in the public schools."

Today, Texas communities are looking at alternative ways to help assure their continued economic viability. A state prison has become an attractive alternative.

If Eastland County is successful in securing a maximum security, 2,250 bed correctional facility, some 800 new permanent jobs with an annual payroll of \$19 million would be added to the county's economy. But the impact of those jobs and that payroll would be much more far-reaching.

Of course, the dollars do not multiply indefinitely because people ordinarily do not spend all their income. They spend some and save some.

A state prison in Eastland County would create some 800 new permanent jobs with an annual payroll of \$19 million. And that's just the beginning of the economic impact.

In other prison counties, the prison employees are a valuable and public-spirited group of people.

A prison in Eastland County would have significant economic impact. It would offer long-term, stable employment that would make Eastland County less susceptible to economic slumps.

Letters To The Editor

Editor,
I am appalled at the suggestion that those of us who would be unfortunate enough to have a prison stuck in our midst, need only leave our keys in our vehicles to aid in a prison escape! Do you leave the keys in your car? I think not. Will you leave the keys in your car if we get this so-called fabulous industry? Of course not! Why should you? There are too many of us between the proposed location and your home for you to have to worry. Why should we have to worry?
They say there is an average of one escape per year. If there is a break-out and just one person in harm-ed, taken hostage, or worse yet, loses his life, isn't that one too many? It may not happen for 5 years. It may not happen for 20 years. I think living with that possibility is more than any clear thinking person would want. We are not crazy. We are not against progress. We are genuinely concerned about the safety of our families and friends, should a facility of this kind be built.
The only reason anyone would want something like this in our community is out of greed. Someone might make a few bucks. The almighty dollar. Who can put a price on the safety of your children? If you can, your priorities are screwed up. We chose to live in the county because we enjoy what you call our quaint way of life.

You speak of Local Loyalty. The merchants in Eastland and elsewhere are not being loyal to us as customers. How could they continue to support this prison proposal when they should know by now how desperately a lot of people are opposed to it? Why can't they see through this charade and realize that this can only be devastating to our community?
Remember, we may not amount to many, but we are a sure thing. This prison is not. I am disgusted that a few fortune hunters have been allowed to disrupt our community. Whether we get this prison, or not, Eastland County will never be the same.

If you like big city life, the higher crime rate that goes with it, and if you think it would be great to live by a prison, pack up your things and move to Huntsville!
We are the ones who are thinking forward. Some of you are having a hard time getting past your pocket book.

Melody Norris

Editor,
I would like to know why other industries were not promoted like this prison. A prison is not an industry. It is an atrocity. You people have been pushing this on everyone for the sake of making money. If we opt this prison you better hope that you opt more business because I, for one, will not shop here. I don't think I will be the only one choosing to shop elsewhere.

I think this whole thing was approached in a very sneaky manner. I've also noticed on occasion the people that support Hoos-Gow have spoken for people that they had no right to speak for. They really put their foot in it.

Should we that live close to this site have to live in fear so that you can make this so called fortune? Because fear is what we will feel.

The trash that will follow to be close to their family members in the prison will live amidst all of us. We don't need these people. I don't think we need a higher crime rate, do you? How can any amount of money be worth it? A lot of supporters say they wouldn't be afraid to live by the prison. As far as I'm concerned they can live in it.

I don't want my children to pay for this in the years to come. I know they will look forward to growing up and working in the prison. What a future! They might even want to make a career of it.

Sure!
Please sign the petition against the issuance of Certificates of Obligation. This will call for an election to let the people decide. In this election please vote no for the proposed prison land purchase.

Dian Tucker

Editor,
The State of Texas is facing a crisis. Our State prisons and many of our county jails are overcrowded. The drug plague and the public's rightful demand that criminals do time instead of going back on the street means that we must build several new prisons now.

All law-abiding Texans must band together to solve this most serious problem. We must meet the problem head on and take a positive, forceful step forward.

For the past 16 years, Texas has wrestled with the issue of overcrowded prisons. During that time the situation has gotten worse, not better. Despite new procedures for early release, overcrowding has continued

to be a driving issue in our penal system.

To comply with Federal Judge William Wayne Justice's orders, the Texas prison system released 3,680 inmates in September, 1987, and released another 1,552 inmates this September.

Yet, the number of prisoners increases weekly and because the state prisons are full, these new inmates are being housed in county jails. The number of sentenced prisoners in county jails increased 107 percent from November, 1987, to November, 1988. As of January 2, 1989, 28.7 percent of the total jail population in Texas was composed of convicted felons. That puts an intolerable financial strain on local communities.

The Texas Board of Criminal Justice, Governor Clements, and the Texas Legislature have done their part by authorizing the construction of three new maximum-security prisons and three new minimum prisons. Texas desperately needs the additional 9,750 beds these new facilities would provide.

Now it's time for local communities to do their part. Forty-six cities, including my own, have submitted bids for one of these new penal institutions. We recognize what a prison can mean to our local economy. I hope Childress will qualify for a new prison.

But as a citizen of this State, I'm more interested in the success of Proposition 8, which would raise the funds to finance the new prisons. It's time to put community interests and the friendly competition aside for the greater goods of our State.

It really doesn't matter if the new prisons get built in Childress or Hondo or Beeville. What is important is that they are built. And that won't happen unless interested citizens go to the polls November 7 and vote. Everyone in Texas must embrace the concept of new prisons.

The Criminal Justice Task Force, formed in 1987, recognized that the State must build more prisons to house criminals convicted of serious crimes and sentenced by our judges and juries. That task force, made up of citizens and government officials from across that State, came up with the recommendations to take care of the problem.

Now it is up to us, the citizens who demanded action, to follow through. The Department of Criminal Justice, under the direction of Chairman Charles Terrell and Executive Director James Lynaugh, has done an excellent job of dealing with the overcrowding problem.

We all have a stake in the outcome of the prison bond issue. Let's once again show that true "Texas Spirit", pull together for the common

good, and work to support Proposition 8. We can make our streets and neighborhoods safe again.

Dear Editor:

In a republic, the rights of the individual is paramount. In a democracy, the greatest good for the greatest number is paramount. When we, as individual citizens, pledge our allegiance to "the flag and to the republic" and then the government of that republic turns around and runs it as a democracy by subjugating the individual for the greater good of the mass; then don't expect all of us to jump on the band wagon. Why should those concerned citizens in Carbon give up their opposition to a prison site if it means harm to them in any way. Maybe not physical harm for sure, but lost tax base, increased demands on services, greater traffic congestion, etc., and etc.... My understanding is that the prison site is close to Carbon, how close I don't know. I also understand that whatever community gets a prison has to provide the land and the utilities to the land. Then, where is the water and sewage treatment going to come from? Eastland is the closest city with any size that could begin to add on to their system. But look how far one would have to pump the water and sewage. Why run a water line that far? And do you expect us to think for one minute that you will pump the sewage to Eastland for treatment? Carbon certainly can not handle the expense of building facilities to handle it. So I'm guessing that at least a new sewage treatment plant will have to be built; and just who does anyone plan on paying for that? The city of Carbon, the city of Eastland, the county of Eastland or is every taxing entity in the county going to raise taxes and chip in so we can get this business here? That's just the sewage treatment plant, we haven't even started to figure the water or land cost and who "they" are going to hit up to pay for them.

Jobs? There is not a guarantee one that anyone in Eastland county has the qualifications to be hired. Certainly, the odds say that many do have. But there will be applications coming from everywhere. I would have the same chance of getting hired if the prison was built in Coleman as I would if it were built here. Simply because the same people are going to apply, no matter where in the region it is built. Do we really think that people from Coleman or Brownwood will not apply because it wasn't built in their towns? And construction jobs, if a really big company like Brown and Root gets the job, well they hire laborers, not sub contractors. They don't need to, they already know how to build

things bigger than prisons. The big economic impact is going to be for the business men; increased business for the stores. That does not translate into increased wages for their employees. That does not translate into more money for the majority of the citizens. I'm a small business man; sure I would like for a lot of people to come in here and build new homes, fix up older homes and such. Be great for me and the others like me. But what about the majority of citizens who work for wages. Most won't be hired by the prison. They will remain at their same jobs at the same pay. We may have an influx of new people who will work at the prison and who will probably buy homes in the cities around. Property values will again start to go up. This is great for all the different taxing entities as they will get more money without having to raise the tax rates. Doesn't help the people who are still making the same wages too, does it? You just revalue their homes and they pay more.

I think that something on both sides of the story should be told. I think we should be told exactly what it is going to take to get the site ready to give to the state for FREE, what the cost of all of it will be to give to the state for FREE, and who is going to be handed the bill for what so we can give it to the state for FREE. I think we should be told where the water is coming from to handle the prison facilities. What site of land is going to be utilized for sewage treatment. How and where is the garbage from the prison going to be taken care of. What is the cost of all this and who is going to pay for it?
Last. Sure a lot of towns are trying to get a prison. But in each and every town it is the same two groups trying to get it. They are the ones who will benefit the most, the Chamber of Commerce which really means the business men, and the city and county governments which really means the taxing people. Now I am most definitely not anti-business. I believe in free enterprise wholeheartedly. But I also believe in telling the whole truth to those it affects. I do not believe that this prison means the great economic up-lift for the majority of citizens like we are being told. I believe it will mostly help two sectors of the community while not doing a thing for the majority. There will not be enough people from the county hired on to make an impact. There will not be enough people move into any one area that would justify any new business opening. Those that do move in will go where everyone else goes already. And the money they spend there, will it stay here in Eastland county? No, most of their money taken in at businesses goes out of town to the people that supply the inventories to the businesses. There is not that much spent on wages,

and those wages are spent on inventories again in another business.
If you want the prison in Eastland, that is fine and you should get out and work for it. Get out with the facts and show people I am wrong, just as wrong as the guy who wrote in about the "Franklin Mint." But do not ever ask me to join with you just because we need to be "united." No, the "loyal opposition" will always be heard as long as we, the individuals, live in this republic; at least until the time when the great unknown mass of a democracy can smother us out.

Editor,

I'm very much interested in this project.

I feel every one should be interested for the good of our county. I have read each piece that has been in our paper, watched the T.V. and I know and appreciate you for all the hard work the entire council. I'm mailing 2 letters this morning to Sen. Glasgow and Rep. Parker.

I'm in favor of what ever the "E.C.E.D.C." does!

I'm a 78 year old widow. I do not want any publicity. I just want to help and will in a small way.

Do you care really care about your community and your county?

If you do, please just give some thought to those people who are working against every thing that our people who have given of their time and energy for all these many months - trying so hard to do something that will bring our county out of this financial slump, furnish and job for these many people, bring our whole country into a better relationship with each other, people working together for a common cause - or are you one who is trying hard to "tear down" all the ways that's been done. Maybe you are doing

well financially and want to say, "What do we care about those others?" (Us four and no more).

These men that have worked so hard Mr. Barnes and our board and the newspaper editors it's like a slap in the face: to tear down their efforts!

A senior who is very much concerned about the future of our county.

(Name Withheld by Request)
Bellaire, Texas 77402

I just want to say thank you to the fine working folks and leaders in our county for pulling together in these hard economic times.

I'm proud to be a loud voice in support of a new T.D.C. unit in Eastland County. Let get 'em here!

Dear Editor,

I want to personally thank everyone that has played a roll, of any size, in trying to obtain the prison of Eastland County. Three pats on the back and WHOOP, WHOOP, HOORAY!!!

To those of you that oppose this opportunity I would like to ask, 'Do you really think the negative aspects (which I am still trying to think of one) outweigh the positive?' It seems to me that a minority are trying to undermine the efforts of the majority, who are trying to do something constructive for Eastland County.

Why shouldn't our young people look forward to finding employment in their own community? Young couples of today cannot survive on minimum wage even if both of them are fortunate enough to find a job.

A prison in Eastland County is a once in a lifetime opportunity to improve the economy and start to grow again.

As I see it the benefits are:
1) More residents to rent, or buy, all those homes and apartments that have been on the market for so long - and by doing so HELP PAY TAXES. 2) More businesses and retail stores to fill all the county's vacant buildings and PAY TAXES. 3) More students for all the county's schools, which will create more jobs and increase school funding, and bring in more parents to HELP PAY TAXES. 4) More people to use our doctors and hospitals and thereby LOWER TAXES. 5) With more retail stores and more people to spend money each town will have to realize an INCREASE IN SALES TAX. 6) With more people shopping locally, the local stores could afford to stock a bigger variety of goods and offer BETTER PRICES.

Sincerely,

Gene B. White

Editor,
Would like to put in a reference to the G.M. Saturn car plant that Eastland and all the jobs that was promised. In reference to the job supposed to come from the prison.

I have the "Progressive Farmer" which has an article about the GM plant which went to Spring Hill, and a quote from that magazine from the people of Spring Hill.

It says GM people are moving in nearly 1,071 employees by mid summer from GM active work force and from the rank of unemployed. Local people wonder where the jobs are.

So, that will be with the prison. Job supposed to be promised.

Sincerely,

Please Withhold My Name

Rep. Parker Is Honored For 71st Efforts

State Representative Jim Parker (D-Corpus Christi) was recently recognized by the Texas District and County Attorneys Association (TDCAA) for his outstanding service to the criminal justice community during the 71st Legislative Session.

Parker received the award during a ceremony held at the Association's Annual Conference in El Paso September 19. Over 600 Texas prosecutors and staff members attended the conference.

TDCAA legislative chairman Rusty Hardin, assistant district attorney from Houston, presented the award. Hardin noted that Parker was a leader in the Texas House during the 71st Session on many criminal justice issues supported by the Association, including a bill which resulted in a pay raise for state-paid prosecutors and, during the special session, a bill which greatly enhanced the state's ability to forfeit the property of criminals.

TDCAA is a nonprofit organization with a membership composed of elected and assistant prosecutors from every prosecutor office in the state, criminal investigators employed by prosecutors, and other personnel employed in prosecutor offices.

The Association, dedicated to supporting and improving prosecution throughout the state, maintains a headquarters in Austin and is governed by a board of directors elected by its members.

Following each legislative session the Association honors five legislators whose efforts during the session increased the ability of the state to prosecute criminals by improving the state's criminal justice system.

Book Review At Eastland Library

Thursday morning October 26 at 10:30, the Eastland Centennial Memorial Library will be the scene of a singular event: The review of a book written by a local couple. The public will be warmly welcomed.

"Painting for Freedom", the story of a Texas artist, by H.V. and Gaynell O'Brien, thoroughly researched and carefully illustrated was published earlier this year, and

has been reviewed out of town.

This library event will provide the opportunity for the home folks, friends and neighbors of the authors, to hear the book reviewed professionally. They may have read, or will want to read, "Painting For Freedom" in the library and may be purchased at the newspaper office.

Further details will appear in this space, as well as the revelation of who will present the review.

Look for it!

Nutrition Program

We had an excellent Eastland County Health Fair last week and many found problems which they will get corrected by going to their own physicians. Preventive health care is far better than spending huge funds for correction problems. Contact your doctors early so the detection may be made. A lot of our troubles hinge upon our diet. We encourage you to attend the Senior Center in your city and receive a nutritious meal three times a week. Call Cisco 442-1557 or Eastland 629-1382 and tell the registrar you will be at the next luncheon.

Eastland County Bazaar.

The menus for the coming week will be:

Monday-- Luncheon steak, salad, tomato, okra and pepper, corn, plum cobbler, bread, butter and milk.

Wednesday-- Baked chicken, Texas potatoes, beets, corn and green beans, lettuce and tomato salad, lemon pudding, refrigerator cookies, cornbread, butter and milk.

Friday-- Beef patty, pinto beans, relish, tomato and lettuce salad, apple, carrot and celery salad, cobbler, roll and milk.

Cross Plains 16th Annual Art Show To Be In November

The Paint and Palette Club of Cross Plains will hold its 16th annual art show Nov. 5-6. The artists' works will be on display for public viewing Saturday, Nov. 5, from 9 a.m. to 6 p.m., and Sunday, Nov. 6, from 1 to 3:30 p.m. in the Cross Plains Community Center on Beech Street. The cash awards ceremony and drawing for the door prizes will be at 3:30 p.m. Sunday.

Paintings will be accepted for registration at the Community Center on Beech Street directly north of the Multi-Purpose Center, Friday, Nov. 4, from 2 to 6 p.m. A \$2 registration fee for

adults will be required for each entry, with a limit of five entries. Each adult may enter the mini painting division, size 6x8 canvas or less, for a \$1 fee per entry.

A \$2 registration fee for children will be required for each entry, with a limit of four entries.

Artists must live within a 75 mile radius of Cross Plains. Canvas size of 24x36 will be accepted, and any painting previously shown at Cross Plains is ineligible. All paintings must be dry and framed. They must be equipped to hang by wire only; no saw-tooth hangers.

Check-out time will be between 4 and 5 p.m. Sunday, Nov. 6. Early check-outs will not be permitted.

Homemaking Hints

From Janet Thomas, County Agent

"Eat your vegetables" as sound today as ever. Your mother was right! Spinach, tomatoes, and cauliflower are good for you. In fact, eating those and other vegetables may help protect against the type of cancer that kills more Americans each year than any other—lung cancer. When scientists at the University of Hawaii's Cancer Research Center compared the eating habits of more than 300 lung cancer sufferers with the dietary practices of some 850 healthy individuals, they discovered that the more vegetables people ate, the less likely they were to fall victim to the disease.

A specific protective effect was found for beta-carotene—a substance present in many bright orange and yellow vegetables such as carrots, sweet potatoes, and acorn squash. But what brought about the greatest reduction in lung cancer risk was eating an abundance of all types of vegetables. In other words, the greater the "dose" of

produce, the greater the benefit, regardless of which vegetables were chosen. That's the reason researchers suspect several substances in vegetables work in tandem to help ward off the illness. Compounds in cabbage called indoles, for instance, are thought to have a preventive effect of their own.

It should be noted that smoking is by far the single greatest cause of lung cancer. Most of the cancer patients examined by the scientists, in fact, were smokers or ex-smokers. Thus, while it appears that eating vegetables provides some protection, following a produce-rich diet should not be thought of as compensation for a tobacco habit.

Still, taking in plenty of vegetables on a daily basis—and staying away from cigarettes—may give an extra edge in keeping lung cancer at bay.

RECIPE FOR THE WEEK:

Fresh Apple Cake
 1 1/2 cups Wesson Oil
 2 cups sugar
 2 well beaten eggs
 3 cups flour
 1 tsp. soda
 1 tsp. baking powder
 1 tsp. cinnamon
 1/2 tsp. salt
 1 cup broken nuts
 3 cups peeled and chopped apples
 1 tsp. vanilla
 Well greased and floured Bundt pan
 Mix oil, sugar and beaten eggs. Gradually add flour, soda, salt, cinnamon, and baking powder that have been sifted together. Add 3 cups of peeled and chopped apples. Stir in 1 cup of broken nuts. Add vanilla. Cook for 60 to 70 minutes in a 350 degree oven.

County 4-H Jr. Leaders Assoc. To Meet Oct. 15

The Eastland County 4-H Junior Leader's Association will meet on Sunday, October 15th, from 2:00 to 3:00 p.m. in the courthouse basement, Extension Office.

Natalie Stevens, Eastland 4-H'er, will be the program speaker. Highlights of her trip to the Leadership Conference in New Hampshire this past summer will be the program.

4-H Foods Workshop To Be Oct. 14

The "launching" of the 4-H Foods Project will be this coming Saturday, October 14th, from 10:00 a.m. to 12:00 noon, announces Janet Thomas, County Extension Agent.

The 2 hour workshop will be in the Eastland High School home economics department. (Park at the rear of the school.)

4-H'ers enrolling in the 4-H Foods Projects are urged to attend!

Please call the Extension Service Office by Thursday, October 12th, if you plan to attend. Mrs. Thomas states, that a "head count" of attendance will be helpful. The Extension Office telephone number is 629-2222.

New gynecological guidelines say that woman can deliver a child naturally, barring specific medical reasons, even if she's had two cesarean sections before.

Researchers at the University of Louisville are fooling decay-causing bacteria with a substance that looks and acts like glucans, the part of plaque that attracts and holds sticky stuff. Germs bind to the fake plaque and can be flushed out of the mouth.

From Japan comes news of the use of CDP-choline a form of a B vitamin, for victims of moderate to severe stroke. Researchers believe the vitamin helps repair cell membranes and reduces fatalities, too.

Calcium intake may protect against colon cancer, say scientists at the University of Utah School of Medicine. Researchers suggest calcium works by binding with fat and bile acids that might cause tumors.

Possible substitute for fish oil: Department of Agriculture scientists say that the human body can convert soybean oil to the fatty acids we need.

Safe Driving Tips from Rhonda

What are the effects of alcohol on driving? It affects coordination. A person can't coordinate what his eyes see with what his hands should be doing. Alcohol affects judgement. It is difficult to choose the proper alternatives that are so often presented while driving. Alcohol affects perception. Alcohol makes it difficult to perceive exactly where the vehicles are on the road ahead. Alcohol affects the emotional state. You become moody and are more likely to overreact to situations. With all this information, why do people continue to drink then drive. The answer? Maybe they have already impaired their judgement with the first drink. Don't drink and drive.

American Education Funding Available

Every year tens of thousands of eligible Texas students miss out on their share of the \$26 billion dollars available from state, federal and private student aid programs. They don't know about them, don't apply, or don't complete the applications in a way that will assure the best chance of receiving an award.

More than \$135,000,000 in aid goes unclaimed each year, according to Kenneth A. Kohl, former U.S. Associate Commission of Education. Many students believe their grades must be higher or their parents' income very low in order to receive college money. This isn't true, students are eligible for private sector programs regardless of their test scores, grades or parents' income.

There are programs for athletes and non-athletes. Left-handed people. Students who work part time in grocery stores. You can even receive aid because of your name, like Ryan Gatling of Maryland, who received \$7,000 from North Carolina State. Students at Harvard named Penoyer, Downer or Ellis receive special assistance. And a university in California has almost \$400,000 waiting for a student aspiring to a career as an aeronautical engineer.

To assist families in determining exactly how much money they are eligible for in the form of state, federal, and private sector grants, loans, awards and special campus-based student aid programs, American Educational Funding is now offering a sophisticated computer service. They analyze a students' individual circumstances and prepare a special individual 40 page report. This report details the steps the student needs to take to be assured of obtaining their share of the billions of student aid available for the 1989-90 school year.

According to the company

director, Lee S. Stamford, to participate in this program, students complete a short background questionnaire that asks information about their intended field of study, choice of schools, financial circumstances, career goals, etc. When they return it, American Educational Funding enters this information into a computer that analyzes each student's unique circumstances.

"We have the largest database of its kind in America, more than 100,000 current aid programs are in our computers," Stamford states. "Most people aren't aware that as of April 1986, students are no longer automatically eligible for a Guaranteed Student Loan. We locate the money that will offset college costs. We guarantee they will get funding, or the processing fee will be promptly refunded — in full. What's more, our guarantee is guaranteed with a special six figure ac-

count at The United Jersey Bank. We have a 97 percent success record, many families are surprised to learn that almost every student is eligible for some type of financial aid, regardless of income, grades or test scores."

For students and parents who would like additional information, American Educational Funding provides a nation-wide toll free telephone number, 1-800-869-9966.

Letter to the Editor

Dear Fellow Citizens of Eastland County:

I would like to publicly thank each person who has given their time and support thus far to our county's efforts to successfully place Eastland County in contention to be one of the sites selected for a new state prison.

As a native Eastland Countian and as a person who has been fortunate enough to have been in business myself for the past fourteen years in Eastland County, never have I been witness to anything that I believe offers our county economically, the benefit that this type of facility can.

For the past six years I have also had the opportunity to serve as a board member on the Eastland Industrial Foundation. An organization whose efforts have helped our community here in Eastland fund and or promote economic growth in Eastland through its work directly and indirectly through the Eastland Chamber of Commerce.

Over the year through my involvement in business, the Eastland Chamber of Commerce and Industrial Foundation I have been witness to many potential opportunities that could and have benefited our county economically. From portable building manufacturer, oil companies as large as the Sun, iron foundries to textile clothing, oil service companies, all contributed to our economy.

I have also witnessed twenty times as many, who offered great far reaching potential for not only Eastland but for our county as a whole. Enrichment Center, Saturn plants, Fortune 500 companies to numerous prospects that were so secret that we never even knew who or what the company or product was that we were working on or

for. Also I would like to say how proud I am, and have been of those who have chosen Eastland County as their home or as a site to offer their services to, or from. Retailers to manufacturer, whether born or raised here to those who chose to move here I believe Eastland County is fortunate and I for one am grateful for the commitment that these people have made towards helping our economy.

Many, myself included, tend to reflect back from time to time to when the often referred to "oil play of the early 80's" is given as a time of economic prosperity for our county.

True, there were many many new and exciting things happening throughout our county. Construction, property valuations increased (as they did all over Texas), tax revenues swelled most coffers of local, county and state governments and new businesses sprang up on nearly every corner, it almost looked like things might last forever and many bet everything that it would.

I can even remember going to our local elementary school one evening several years ago to hear how one large oil company could possible propel Eastland County into such economic growth through a new technology in oil recovery that everything else might seem insignificant by comparison.

Now today as we approach the 90's I am forced to look at our counties economic fare and frankly I am not at all comfortable out our future.

I believe that we have all benefited in some way from the economic growth we experienced earlier but unfortunately it has not lasted. We must find something that can be lasting something we can all count on, something that offers our county stability for now and the future.

A prison? A prison? Yes, a prison for Eastland County. Somewhere in the state of

Texas six or seven prisons will be constructed. No they are not a super collider or a new facility to construct defense weapons, and no, thank goodness, it's not a new site to dispense of nuclear waste. It's a prison.

Now, I will be the first to admit that the initial sound of this type of institution conjures memories of my grandparents warning me that, if as a youth I didn't fly right that's where I would wind up and if I think or hear the city of Huntsville mentioned, prison is the first thing I think of.

During the past year and especially over the past few months I have tried to look open minded at the reality of possibly having a prison located in our county. I have heard from many whom have researched, for their own peace of mind the facts and fictions relating to a prison.

Some facts that I think are currently very very important that all Eastland Countians should consider and be aware of:

(1) As of Thursday, October 5, 1989 Eastland was included in the recent cut down to twenty six possible sites by the Texas Dept. of Corrections. This means that we now have about a one in four chance to be selected.

(2) Excluding the purchase of land, all services that would have to be provided to the actual prison (water, sewer, utilities etc.) would be paid for through revenues paid for by the state or prison itself to either city, or private public utilities for service rendered. Example: If the water dis-

trict consents or adds additional improvements to a community for the purpose of greater capacity for that communities needs which might include a prison then the bonds that are issues to enable the water district to build or construct these improvements would be paid for over a period of several years from the actual increased revenues from billing to that city and or prison. Yes a water rate increase might occur, but not just necessarily because of the prison, be a part of the overall improvements.

(3) As many are probably aware from reading the article there have been printed over the past few weeks, some debate has occurred over how the actual land cost should be handled.

It is a fact that the land must be given to the Texas Department of Corrections. We would not have been able to even submit a proposal if we as a citizen or not ready to donate the land.

I believe the most logical and effective manner to do this is through our county government via certificates of obligation.

In last weeks issue of the Eastland County Newspaper, Dr. Barnes head of the Eastland County Economic Development Council, clearly, outlined how and what impact these bonds would have on our county and more particularly on each of us as taxpayers.

And to recap what Dr. Barnes said: The result of these revenue bonds that would be paid for by the County over the next few years for a total of over

\$600,000.00 would actually have less impact on county finances as has the County Jail, which has and will have been paid for in much the same manner. This should result in no more impact that the construction of the county jail has had on the taxpayers of Eastland County.

(4) A payroll of over 1.5 million dollars per month will result from a prison located here. Creates over eight hundred new jobs for Eastland County.

(5) Another fact. Our timing currently is critical in being able to provide land that is free and clear to the TDC upon their decision on Eastland County which will occur about the middle of November.

Currently there is a petition being circulated encouraging everyone to sign to enable the citizens to decide whether or not to allow our county to issue these bonds.

Further, it is being offered not as a means of voting opposition to the prison, but rather as means to simply force the county allow all of our democratic right to vote on the issue.

However in fact, if this petition is successful, it could contribute to or eliminate us from contention for the prison.

I for one have complete confidence in the voters of Eastland County having the vision to see what this offers everyone, and that if a vote were taken today I believe that it would pass overwhelmingly.

But if this petition is successful, it will delay this vote until after the Texas Depart-

ment of Corrections makes their decision.

If you are in opposition to this prison for whatever reason, I certainly would not discourage anyone from signing this petition. But if you are in support of the prison as I am, I urge you not to sign this petition as it may serve to impact our ability to offer a viable part in which to have a chance of being selected as a site for one of these prisons.

I truly believe that many of the recent crisis that face Eastland County citizens such as hospitals, churches, schools and normal service that we all count on and expect to have provided to us, can be helped dramatically by the incredible economic impact that the prison will offer.

Please in the next few weeks if you are in favor of this prison I would like to urge you to become involved by writing letters to your newspaper, calling or writing your county commissioners and participating in any event held in the county over the next few weeks to show your support and to help keep Eastland County in consideration.

Eastland County Crimestoppers Kickoff Will Be October 7

The Eastland County Crimestoppers kickoff will be a part of the Old Rip Festivities this Saturday, October 7. Marshall Crimestopper is making a special trip to

Eastland and will be riding a horse in the parade on Saturday morning. At twelve o'clock high noon, just after the parade, local law enforcement people

and Crimestopper officers and guests will replace parade judges and special guests on the reviewing stand. As a part of the program, a plaque will be presented by a representa-

tive of Governor Clements. After the official ceremonies, there will be fun with a jail operated on the square by "fair and square" Judge Ma Buzzard, who will be appro-

priately dressed for the occasion. Under the "Jail a Friend" program, designed to raise funds for the Eastland County Crimestoppers, you may get a "Fun Warrant" issued for the arrest of any friends suspected of helping to stop crime, by making a \$5.00 donation. The "suspects" will face surprise arrests and be jailed, if they are willing to participate. Judge Ma Buzzard will set the bail for each "prisoner"; it may be as little as \$1.00 or as much as \$20.00. "Prisoner" will be allowed to call friends in an effort to raise the bail for their release. It should be fun, and donations are tax deductible.

Eastland County Extension Homemakers Clubs are busy preparing a cookbook which will go on sale this fall in the county. Committee members busy organizing recipes are (left to right): Hazel Barron, Alice Brooks, and Rena Kirk. Not pictured was Gerry Zummer who is also helping on this committee. The Cookbook committee reports that several hundred recipes will make this cookbook a cook's treasure!

'Kids Of America' Beauty And Talent Pageant To Be Oct. 28

"Kids of America" Beauty and Talent Pageant for children ages 4-18 will be held Saturday, Oct. 28, at the Cisco High School auditorium. This national youth development program will offer participation in talent for boys and girls; a beauty competition which will offer participation in group interview, casual wear, and party

dress. (Evening gown for 12-18.) Also there will be photogenic which is optional. Each beauty, talent and overall photogenic will receive a trophy, banner and their entry fee paid to participate in the glamorous Grand Finale 90. Age divisions are: 4-7 years; 8-11 years; 12-14 years; and 15-18 years. This event will also feature the

beautiful baby competition for infants 0-47 months. A chaperone will present each child on stage and judging will be based on personality, grooming and alertness. This competition is open for both boys and girls as well as a special photogenic portion where a winner is selected in each age category. Each beautiful

baby winner will receive a trophy, banner, and their entry fee paid to participate in Grand Finale '90. Winners of the grand finale will receive prizes in savings bonds, wardrobe, trip, and many more outstanding gifts. For more information contact Larinda Ray in Stephenville at (817) 968-5750, or Joetta Schuman in Eastland at (817) 629-3160.

Children's Play To Be Presented At Majestic Theatre Sunday

A special children's play "King Midas and the Golden Touch", will be at the Majestic Sunday, Oct. 8, 3:00 p.m. The box office will open

at 2:30 p.m. This hour-long stage musical will be performed by Penguin Productions, a touring theatre company.

This is the first in a series of three children's plays, with "The Night Before Christmas" to be presented December 3, and "Hansel and Gretel" March 4. Box office tickets for "King Midas and the Golden Touch" will be adults \$5.00 and child/student \$3.00. Drama series price for the three plays will be adult \$12 and child/student \$6.00. The enchanting story of King Midas is a Greek myth, but the story has been

adapted to make it suitable for today's children. The lavish costumes and special effects will be of interest to adults as well as the young folk. Everything the king touches actually seems to turn to gold. Actors chosen to tour with Penguin Productions are picked because of their genuine love of children and a desire to bring a great performance. That extra effort will be apparent during the "King Midas" play at the majestic.

Library Program Is Presented To Second Grade Students Here

"Discover Your Local Library" was the theme of the program presented by Mrs. Lynda Beebe, librarian of Cisco Public Library, to second grade students of Cisco Elementary School on Thursday, Sept. 28.

The program was held in the cafeteria with approximately 80 student in attendance from the classes of Mmes. Jeanne Rains, Betty Odom, Shelley White and Sheila Johnson.

Mrs. Beebe explained the routine of the Library's operation - how to sign up to borrow books; how to use the card catalog and how to recognize certain books tagged with colored circles; fines for overdue and lost books; how to return books; and similar information.

To illustrate the subjects of books available to young readers, Mrs. Beebe showed 24x22 inch posters of colored photographs and drawings of many species of the Animal

Kingdom - prehistoric and present day - wild and domestic; insects, moths and butterflies, frogs and toads; beautiful pictures of wild flowers and scenes to illustrate the "nature section;" books about Christmas, holidays, Bible stories; art, music, Indians, gardening and birds, rocks and ocean-life and many others. The posters were exceptional in choice and arrangement.

Following the program, the children showed their interest by asking questions - How many books can you check out? Where does the Library get its money? Do you like your job? Who is your boss?

Book markers were left for distribution to the children.

According to faculty members, this is the first of similar programs which they hope to conduct with participation from townspeople.

Just refurbished two bedroom dwelling, carport and good location, \$12,500.00.
Three bedroom, two bath frame dwelling, about 120 ft. frontage, priced to sell.
Five room bungalow, good state of repair and good location with paved street.
A very desirable two bedroom frame, corner lot, in good repair, paved street and the price is, well you will like the price.
A solid two bedroom frame, ready to move in, large utility room and three lots with a lot of pecan trees.
Two bedroom on paved street very well worth the money and one you can afford at \$8,500.00.
Three bedroom frame, one bedroom very large and on paved street, owner needs to sell, this is your chance.
We have a nearly new roomy three bedroom brick with plenty of yard room, on paving, if you would like a very nice place this is it.
We are loaded with commercial buildings, anything you might want or need, ask us.
We have land, several blocks, 88 acres and on up to 480 acres. Eight places in all. In fact the 480-ac's is only \$195.00 per a. You can't beat that.
Due to cost we do not carry a large ad but, we have the property, and we are selling it, just ask us. We can always use good salable property.

We are selling the property and can use some more listings.

A Thought For The Day...

DeAlva Chambers
It has been said that the mind is the greatest mechanism ever created. Yet some people will take better care of their car than their mind... Think about this. Would you put dirty oil in your car or dirt in your gas tank? Of course you wouldn't... In like manner, good clean thoughts will lubricate your system and keep the parts operating smoothly, your digestive system from clogging up and cool thoughts will regulate that temper.

A person cannot expect to be healthy and strong by always thinking and talking poor health. Couldn't it be said that if you believe you are miserable you will be so? There is no medicine that will relieve this condition. Your only cure is a change in your thoughts!

Yes, the influence of the mind upon the body is awesome. The body is not fed with material food alone. There are other elements which act upon it and give it strength and the grand source and means of receiving these lie partly in the mental and physical quietude of mind which acts only when it has full power to act...
