Have you seen Santa's Left? It's missing. Apparently, the Santa's suit was loaned to someone last holiday season, and when the suit was returned to the Chamber of Commerce office, the belt was not included. So if you know the whereabouts of this important piece of Santa's costume, please return it to the Chamber office.

AARON WHITLEY

Letter To The Editor

Dear Editor:

HELLO!
REMEMBER ME?
Some people call me Old Glory, others call me The Star Spangled Banner, but whatever they call me, I am your flag, the flag of the United States of America...something has been bothering me, so I thought I might talk it over with you...because, you see, it is about you and me. I remember some time ago people lined up on both sides of the street to watch the parade and, naturally, I was leading every parade, proudly waving in the breeze. When your Daddy saw me coming, he immediately removed his hat and placed it against his left shoulder so that his hand was directly over his heart...remember?

And you, I remember you. Standing there straight as a soldier. You didn't have a

hat, but you were giving the right salute. Remember little sister? Not to be outdone, she was saluting the same as you with her right hand over her heart...remember?

What happened? I'm still the same old flag; oh, I have a few more stars since you were a boy. A lot more blood has been shed since those parades of long ago.

But now I don't feel as proud as I used to. When I come down your street and you just stand there with your hands in your pockets and I may get a small glance and then you look away. Then I see the children running around and shouting...they don't seem to know who I am. I saw one man take his hat off then look around. He didn't see anybody else with theirs off so he quickly put his back on.

Is it a sin to be patriotic? Have you forgotten what I

stand for and where I've been...Anzio, Guadalcanal, Korea and Vietnam. Take a look at the memorial honor rolls sometimes, of those who never came back to keep this Republic free...One Nation Under God...When you salute me, you are actually saluting them.

I may not be coming down your street for a long time. It seems that patriotic parades are a thing of the past. But when I do...won't you do me a favor? STAND UP STRAIGHT, PLACE YOUR RIGHT HAND OVER YOUR HEART...AND IF THEY PLAY THE STAR SPANGLED BANNER, SING OUT LOUD AND CLEAR...AND I'LL SALUTE YOU BY WAVING BACK...SHOW ME THAT YOU REMEMBER.

A Thought For The Day.....
Did you know the verb 'to explode' comes from a Latin word meaning to clap one's hands? In olden days people clapped their hands to show disapproval. If they did not like what they were seeing or hearing, they literally clapped and hooted the performer off the stage.
With the passage of time 'explode' came to mean anything that burst noisily or expanded suddenly with the release of pressure. Also, clapping of the hands has come to show approval not disapproval. Today we show our approval by clapping our hands.
We all like applause. We all like to be praised. From childhood on every human being likes to be praised for effort and accomplishment. We think well of us... to approve of our actions.....
But such desires can, unfortunately, spill over into compromise. The desire for applause is good only if such a desire comes out of a good spirit.....

Fishing Outdoors

by Terry L. Wilson

Rich Glenn Wins at Brady

Four dedicated members of the Eastland County Bass Club made the long drive this past weekend for the final tournament of 1989 at Brady Lake. An impoundment about the size of Leon when full, Brady offered these anglers some tough conditions. The lake level was down four feet and it is tough catching.

At the 4:00 p.m. weight-in the final results were: 1st - Rick Glenn, 3 fish, 8.51; 2nd - Bobby Maynard, 1 fish, 3.34; and 3rd - Terry Wilson, 1 fish, 1.11. Rick Glenn also won big bass honors with a

beautiful 3.94. Rick reported his fish came off jigs and Rat-2-Traps from a high rock bank on the lake.

With this final event the overall standings for the top six anglers in the ECBC for 1989 were: 1st - Terry Wilson, 61.42; 2nd - Rick Glenn, 61.26; 3rd - Tommy Maynard, 38.35; 4th - Butch Willingham, 37.11; 5th - Bobby Maynard, 31.87 and 6th - Chuck Burgess, 30.18. These gentlemen will be eligible to represent the ECBC in 1990 at the Honey Hole top six tournament to be held in October.

December 7, at 7:30 p.m. all area anglers are urged to attend the ECBC meeting at

the Eastland National Bank Bld. This meeting is of interest to anyone who is even considering joining this organization for 1990. So make plans to attend now.

Fishing prospects are excellent for three species of bass at Possum Kingdom Reservoir, according to the Texas Parks and Wildlife Department.

Biologists using electro-shocking gear to temporarily stun fish found significant increases in number and size of largemouth, smallmouth and spotted bass in a 1989

survey, compared to an identical survey conducted in 1987, according to biologist Bruce Hysmith of Denison.

The per-hour catch rate during surveys increased from 24 largemouths in 1987 to 126.5 in 1988; spotted bass from three per hour to 12.5, and smallmouths showed a gain from 0.5 per hour to six during the same period.

Reproduction and survival of young largemouth bass apparently was excellent during the past two years, because 50 percent of our catch were less than eight inches long and 22 percent were between eight and 12 inches long. Hysmith noted, "Also, the percentage of largemouths 15 inches and larger more than doubled, and a five-pound, 21-inch largemouth collected in 1989 was around two pounds heavier and three inches longer than the largest collected in 1987."

Hysmith theorized that three factors have contributed to Possum Kingdoms fishery improvements. "One factor is the 1.6 million Florida-strain largemouths the department has stocked between 1973 and 1978," Hysmith said, adding that samples during 1987 indicated that 70 percent of the largemouths in the lake were either Florida bass or offspring of the fast-growing Florida strain.

Another possible factor is the 14-inch minimum length limit and five per day bag limit established for bass

September 1986, which afforded extra protection for the larger bass.

A third possible reason for the resurgence may surprise some fishermen. Hysmith said, "Lowering off the water level in 1987 for dam repairs may have made more prey fishes available to predator fish such as bass, allowing faster growth rates. Then the lake came back up in the spring of 1989 and forage fish such as threadfin shad and bluegills had a bumper spawning season."

Hysmith said Possum Kingdom has entered the trophy bass derby, with two largemouths over 13 pounds caught in 1986 and a 16-pounder taken on October 13, 1989.

Last time I told you I would be introducing you to some great stocking stuffer gifts for your favorite angler. Well as usual I'm running a little behind, so lets put it off till next time out.

UIL Hearing Is December 13

The UIL in Austin will review their information and statements on Wednesday, December 13, in their investigation of why Cisco coaches and school officials didn't come forward earlier with information that Eastland had an ineligible player due to his having taken a General Equivalency Diploma test. Cisco Head Coach Buddy Sharp has not been required to be at Austin for this meeting.

After learning that a substi-

tute player was ineligible, the undefeated Eastland football team was forced to forfeit three district games, knocking them out of the State playoffs.

It is against UIL rules to play an ineligible player, or to withhold information about such a player.

Cisco officials did not come forward with information about the ineligible Eastland player until after the football game between the two schools.

Don Dobyns To Speak At Mountain Top Church

DON DOBYNS

Don Dobyns, Outreach Representative of the Spirit of Freedom Ministries in New Orleans, Louisiana, will present a special program on family alcoholism and drugs at the Mountain Top Church 600 E. 8th St. Cisco

Dobyns states that of the two-thirds of Americans that drink, one in ten becomes an

alcoholic, and that 40 percent of all teenagers are heavy drinkers. The "Spirit of Freedom" will be introducing a new approach to family alcoholism and drugs. The tape, "Raised From The Ruins" on alcoholism, along with other materials, will be made available during the meeting. Dobyns will also be giving true accounts of men and women who have been delivered from alcoholism and drugs.

This special program should be of great interest to those who would like to help anyone with alcohol or drug problems. The program is Wednesday night, December 6, 1989 at the Mountain Top Church of Cisco. The church is located at 600 East 8th Street and the time will be 7:30.

The public is invited and there is no obligation or admission charge.

Rescue Line For Women

Q. How can I overcome grief and start the helping process?

A. (The answer continues from last time.) Triumphant survivors think and behave in ways that lead to recovery. So can you.

--You can work on getting a good mental picture of your loss or crisis event. Gradually you can form a clear sense of the emotional issues and make concrete plans for your future based on your changed circumstance and the 'new person' you have become.

--You can plan ahead.

--You can solve problems one at a time and treat well those who help you.

--You can decide that you want to learn and grow.

--You can look for inspirational role models.

--You can associate with and learn from people who have the ability to laugh, enjoy, and see humor.

--You can become anchored in your religious faith, love of family, friends, or nation, your beliefs and values beyond the material realm.

--You can make a firm decision that you want things to work out well, want to recover, want to build a new life for yourself.

--You can take advantage of the available opportunities.

--You can become willing to expand yourself, willing to think and behave in new ways.

--You can consciously decide to be in the company of life-saving, positive-thinking, hopeful, nurturant, kind, and understanding people.

--You can vividly examine the future and plan how to realize your yearnings for a good life, remaining realistic yet daring to dream.

--You can decide that meaninglessness is intolerable and set out to make sense of things and construct a meaning for your life.

--You can strive toward independence and self-sufficiency at the same time that you learn how and when to rely on others.

The weather man just keeps on giving us nice weather. We could sure use a good soaking rain, in fact the cover crops will not do very good without a rain soon. We are way above average with our rain fall this year. I have recorded 34.40 inches of rain so far this year.

Time is running out if you have not done your shopping. It seems as we get older time runs faster. When we were children it seemed it was forever from one Christmas to the next and now by the time we turn around its Christmas again. I repeat please be careful with your shopping, we want everyone around next year.

Some men of the Baptist Church served as the "moving committee" Saturday, Dec. 2. They gathered and helped move our new pastor, Bro. George Weeks and his wife Margie, to their new place of residence. Lets all welcome them to our community and our church.

Our church Christmas program will be Sunday night Dec. 17 at 7:00 p.m.

Its nice to be called to be a substitute teacher, that way you get to go into different classes and have the opportunity to learn a lot, and believe me there is a lot to learn.

Jr. High basketball teams will travel to Lingleville to play in the Cross Plains tournament Dec. 7, 8 and 9. Tuesday, Dec. 12, they will travel to Brookesmith for a 6:30 p.m. game. Six Flags Holiday On Ice

New shows and public ice skating are being added to the entertainment lineup for Six Flags Over Texas' Holiday In The Park celebration.

The fifth anniversary edition of the Christmas season event begins the day after Thanksgiving and runs through New Year's Eve.

Holiday In The Park, which is noted for its lavish decorations and holiday shows, attracted more than 165,000 visitors to the Arlington theme park last year.

The event's ice revue, Christmas Fantasy On Ice, is being expanded for the 1989 run. Fourteen skaters will appear in the show which will include, for the first time, magic illusions performed on ice.

Two new street shows will be presented. The first, designed for children, will feature Mrs. Santa Claus reading stories from Santa's favorite Christmas book. The whimsical book stands seven feet tall.

The other new show is a comedy centered on a young couple and a stage crammed with gifts given during "The

Crazy Horse" and the Looney Tunes theater, where Bugs Bunny is the star. The Warner cartoon characters are also seen in a nightly parade. Throughout each evening strolling carolers and musicians fill the park with holiday music.

Foods of the season are served in Six Flags' restaurants, and shops offer gift ideas.

Most of Six Flags' rides are silent during Holiday In The Park. Exceptions are the antique Silver Star Carousel, Avalanche Bobsled, Six Flags Railroad, Glacier Wonderland cave ride, a real snow hill for sledding and the children's activities and rides in Looney Tunes Land.

On opening night only, a special fireworks show will be presented at 9:30 p.m. The aerial display will feature the holiday colors red, green and gold, with accents of white to simulate snowflakes.

The pyrotechnic spectacular will be choreographed to holiday music broadcast over Dallas radio sta-

Twelve Days of Christmas." Two new rinks for public ice skating will be located in Good Time Square. One is reserved for small children, and the other for older skaters. Rental skates will be available.

Live musical revues with holiday themes will be presented in the Southern Palace Music Hall, the town KVIL. The music will be piped through the park's public address system. Those watching the display

from outside the park can pick up the stereo music by tuning their radios to 103.7 FM.

All tickets for Holiday In The Park are \$7.95, plus tax. Children age two and under are admitted free.

Hours are 5 p.m. until 11 p.m. each operating day. The event will be staged only on Friday, Saturday and Sunday nights through December 10. Nightly operation begins December 15. The park is closed Christmas Eve and Christmas Day.

Texas Leads All States In Number Of Worker Deaths

According to officials at the Texas Department of Health (TDH), more than 700 job-related deaths occur yearly in Texas, more employee deaths than are reported in any other state. These fatalities and the thousands of injuries suffered by Texas' workforce have created a crisis, affecting the state's health care, insurance, and regulatory systems. In response, the state's lawmakers are proposing reforms throughout the Texas workers' compensation system.

However, Dr. Robert Bernstein, Commissioner of Health, has said, "In the search for a better workers' compensation system, thus far the greatest emphasis has been placed on containing costs. There needs to be more attention given to increasing worker safety and on preventing injuries." A recently completed TDH study is perhaps the most accurate measure to date of the number of the state's occupational deaths. The federally funded study compared fatality information from four government sources to reach its conclusions.

In addition to its own collected data, the department's Occupational Safety and Health Division used records from the Texas Industrial Accident Board, the U.S. Occupational Safety and Health Administration (OSHA), and the U.S. Bureau of Labor Statistics to create a single list for the 1986 calendar year.

After eliminating duplicated cases, victims of heart attacks, and other illnesses not directly related to workplace incidents, the study confirmed that 715 people died in 1986 because of traumatic events traced to

their work.

The study's results were consistent with the National Institute for Occupational Safety and Health's finding that Texas sustained more job-related deaths than any other state, with an average of 725 such fatalities each year between 1980 and 1985. Jerry Lauderdale, Occupational Safety and Health Division director, said, "These numbers are alarming. But the most disturbing fact is that many of these deaths and countless other occupational injuries and illnesses could be prevented by relatively inexpensive safety measures."

He added, "We think our study will be invaluable to lawmakers, as they meet again to try to solve the state's crisis over workers' compensation. One of the greatest stumbling blocks they have is a lack of reliable numbers. We think we have supplied some solid data, not only to underscore the urgency for greater safety for workers in Texas, but to show where the safeguards are needed."

The TDH study categorizes fatalities by type of accident or illness, county, industry, occupation, age group, gender, race, and either public or private sector.

Lauderdale said that TDH has been unable to conduct a similar study of on-the-job injuries since 1976, when the department's state funds for tracking occupational injuries were deleted.

"The only other state authority directly concerned with on-the-job injuries is the Industrial Accident Board, which oversees workers' compensation claims. Only about two-thirds of Texas' 300,000-plus employers participate in the workers' compensation program, and no

one really knows how many injuries go unreported."

According to Lauderdale, TDH has authority, when invited by the employer, to inspect worksites for hazards, and help employers eliminate those hazards. "We have no direct enforcement authority against violators of federal regulations. Even if we did, we have only 17 safety and health consultants on staff for the whole state. The U.S. Department of Labor has said that staff should number at least 100, just to make routine inspections."

Lauderdale said that the state allocates only about \$200,000 yearly for his program. That funding is supplemented by a 90 percent federal match. "Clearly more funding, people and authority are necessary if we are going to reduce the number of fatalities and injuries in this state's workplaces," Lauderdale said. He added that, "Not only are people being killed and injured at an alarming rate each year in Texas, but also the costs for their care have skyrocketed beyond amounts their employers and insurance companies are able to pay."

The State Board of Insurance confirms that although employers paid premiums in excess of \$2.96 billion last year, the insurance companies paid out some \$3.16 billion in worker's compensation claims. Some insurance companies now have ceased to offer workers' compensation plans, while others have asked for a dramatic increase in their rates.

The result is that an increasing number of injured employees and the survivors of those who are killed on the job are not being compensated. "Many of them have no recourse but to rely on public assistance to meet their expenses," Lauderdale said. "One solution to the problem of rising insurance rates is injury prevention. Where effective prevention programs are in place, deaths, injuries, and premium rates go down. The state of Oklahoma, for example, suggests that such programs can reduce claims by as much as 50 percent," he added.

Smoking directly affects cholesterol levels, says the American Health Foundation. Tests indicate that each cigarette per day raises total cholesterol by half a point; quitting brings it down again.

People who take aspirin and non-steroidal anti-inflammatory drugs in arthritis-fighting doses are more likely to be hospitalized for ulcers, the British Medical Journal reports. (The Food and Drug Administration now requires warning of this on labels.)

Instead of surgery to remove gallstones, doctors at Mayo Clinic have been injecting ether into the gallbladder to dissolve the stones.

Combination of medications seems to slow the progress of diabetic kidney failure and may even prevent it. Reported in the British Medical Journal, the treatment uses captopril, an antihypertension drug, and a thiazide diuretic. United States tests are starting.

Liquid dosages of acetaminophen should not be used interchangeably. Drops for babies have 500 mg. per teaspoon, children's elixir only 160 mg.

Delta Kappa Gamma Meets At Baird

The Beta Upsilon Chapter of Delta Kappa Gamma International was held Thursday, Nov. 30, at Baird High School at 7 p.m. Delta Kappa Gamma International is a society of women educators. The Beta Upsilon Chapter includes teachers from Eastland and Callahan Counties.

The meeting was called to order by President Billie Ruth Loving from Cross Plains. Christmas carols were led by Davene Jeffcoat and a program was presented by Linda Caton, home economist for West Texas Utilities. Festive gift ideas which included baked items were shown and described. Copies of the "Holiday Delights 1989 Cookbook" by WTU were distributed to members. Refreshments were made from the WTU cookbook by hostesses Johnnie Allen, Cleora Nichols, Loys Allmand, Patricia Tone, and

Sandy Sargent. The treats were as attractive as they were delicious.

Kathi Stapp introduced new transferring member Mrs. Elizabeth Abernathy, new superintendent of schools at Baird.

The meeting was adjourned by President Loving.

Members present were as follows: Davene Jeffcoat, Carolyn Page, Bernice Carter, Ruby Lee Pirtle, and Ruth Stewart of Cisco; Becky Siebert, Janis Keith, Beth Petty, Jill Page, Patricia Tone, Loys Allmand, Imogene Haun, Donna Bibb, Linda Boose, Jeanie Griffin and Patti Dolen of Eastland; Betty Johnson of Ranger; Kathi Stapp, Johnnie Allen, and Elizabeth Abernathy of Baird; Billie Ruth Loving, Juanita Shaw, and Marie Stambaugh of Cross Plains, Azalee Womack of Rising Star, and June Hicks of Abilene.

states, test supplies are restricted to livestock markets.

Cattle that have negative results on the card test are allowed to be sold and moved without restrictions. However, if confirmation tests detect infection, TAHC officials trace the animal to its new site for additional tests or condemnation. Producers whose cattle react positively to the card test may choose either to have the animals slaughtered, or keep them on their ranch until laboratory test results are provided.

Because there is no cure for brucellosis, infected cattle are slaughtered (the meat is safe to eat), and exposed herds are tested and quarantined by the TAHC.

"In October, 675 herds were quarantined because of brucellosis—a record low. Testing is the key to finding and eradicating the disease and it's routinely done at the livestock markets," said Holcombe. "For private sales, testing also is required but often is avoided. Producers who buy directly should protect their interests by insisting that animals are tested."

"Ranchers are shocked when they learn that a new or 'purchased addition' cow has spread infection in their herd," he said. "It's a high price to pay for neglecting to test an animal, because movement and sale of animals from a quarantined herd is severely restricted for six months to a year, or longer."

Texas' 12th Graders Smoke Less Than Nat'l Average

Daily smoking rates for Texas 12th graders are eight percent lower than those for 12th graders nationwide, according to the Texas Department of Health (TDH).

Dr. Robert Bernstein, Commissioner of Health, said that more than 4,200 students in grades seven, eight, 10 and 12 were surveyed last spring by the University of Texas Health Science Center in Houston. Funds for the survey were provided by the TDH Office of Smoking and Health and the Texas Cancer Council. Fifteen Texas school districts participated.

The researchers found that daily smoking rates for the state's seniors were 4.5 percent lower for males and 8.4 percent lower for females than those reported at the national level.

Dr. Bernstein added that, compared with the national levels, a similar proportion of Texas students in the seventh, eighth and 10th grades said they had experimented with smoking 30 days before the survey.

Of those surveyed in all grades, 23 percent of the males and 21 percent of the females reported having smoked at some time during the past year. Fifteen per-

cent of seventh graders, 24 percent of eighth graders, 25 percent of 10th graders and 29 percent of 12th graders reported having at least puffed on a cigarette at some time during the past year.

Smokeless tobacco use remains high in Texas, according to the survey, with 13.6 percent of the male students in grades seven, eight, 10 and 12 reporting some use in the past 30 days. Use of chewing tobacco among males increased by student age, from 7.9 percent among seventh grade students to 19.3 percent among 12th graders.

"Preventing tobacco use by young people is particularly important because those who begin using tobacco early are less likely to quit and are more likely to die from tobacco related diseases such as cancer and heart disease," Dr. Bernstein said.

"It is encouraging to see lower daily smoking rates among Texas 12th graders, and we certainly hope this trend continues. However, we cannot become complacent with our efforts to reduce tobacco use. Children are surrounded by cigarette advertising on billboards, in magazines, newspapers and at sporting events that depict smoking as a safe, if not healthful activity. It is unfortunate that we, as a society, allow the most common preventable cause of death to be one of the most heavily advertised consumer products," Dr. Bernstein said.

He said smoking still is estimated to cause nearly 17,000 deaths in Texas each year, or 14 percent of the total deaths in the state. In addition, smoking costs Texas \$3.3 billion annually in direct medical costs and indirect mortality and morbidity costs.

Safe Driving Tips from Rhonda

Driving can be impaired depending on certain medications. Over-the-counter medications as well as prescription medications can have serious side effects when the user mixes them with driving. Many medications cause drowsiness. Always read the labels before taking medication and then driving. Pharmacists are usually alert as to whether or not a particular medication will impair driving abilities or machinery operation. Always read and obey the warning labels on all drugs.

POEM

AFTERTHOUGHT
A silent rear just crossed my face and slowly fell to find its place within my gathered sorrow now so true. Your honesty as sweet as rain helped ease the sorrow and the pain, but still I dread the fact that I've lost you. What have I done? What did I say to turn your feelings such a way? I am confused but never could I hate. The Lord has placed His perfect love on both of us from up above. So now it is on Him that I will wait.
Christine Deadman

I Searched for You
by Bob Harbin
As I closed my eyes in sweet slumber
I dreamed of my heavenly home
The streets of gold and joy untold
As we cast our crown before the throne

Then I walked the streets of Heaven
Calling out your name
Have you seen my loved one I asked
But my search was all in vain
As grief spread over me
My eyes were filled with tears
I remember all we'd been through
And wish that you were here

As I woke from my slumber
and breathed the early morning air
I thank the Lord for another day
To know that you are near

How Many Lives Must Be Lost Before You Realize The Danger From Chimney Fires?

87,000 American residential fires related to chimneys were reported in 1987, and others went unreported. 110 people died, and \$188.9 million in property damage was paid by insurance companies as a result. 50 percent of chimney fires are caused by build up in inserts. Fireplaces should be relined using the correct sized flue. A million fireplaces do not meet fire safety standards. And dirty chimneys are never safe.

Please think before you use a fireplace without cleaning it or installing the correct sized flue. Your chimney and house may be a time bomb ready to explode, as a 1/16 inch coating of creosote is equal to 100 gal. of propane waiting to blow up your chimney.

I am not the only chimney sweep, but I am Eastland County's most experienced.

TROUT - HALLUM

Mangum Baptist Church was the setting for the western wedding uniting Kathy Jean Trout and Gregory Dan Hallum on Saturday, November 11, 1989 at 3:00 p.m. Dwayne Clower, pastor of Mangum Baptist church performed the ceremony. The pastor was dressed in blue jeans, red western shirt and wore a white carnation.

The bride was given in marriage by Rex Boggs, pastor of Gunsight Baptist Church and also uncle of the groom. He was also dressed in blue jeans, red western shirt and wore a white carnation.

Her bouquet was white and red carnations. The wedding dress was made for her as a wedding gift by Maxine McMains of Eastland, Texas.

Serving as maid of honor was Donna Lantrip of Abilene, Texas, sister of the bride. Bridesmaid was De-Shawn Hallum, of Carbon, Texas, daughter of the groom. They each wore blue jean

jumpers, red turtle necks, bandana necklaces and carried a long stem white carnation adorned with a bandana bow.

Rehearsal dinner was hosted by the grooms mother, Shirley Mantooth of Carbon, Texas.

The entire reception following the wedding was prepared by the bride's mother, Nancy Trout of Eastland, Texas. The wedding cake was a three tiered cake with a

fountain underneath which was flowing red water. Two cakes sat on each side adorned with fresh red carnations. The grooms cake was substituted for a straw basket full of chocolate chip cookies (his favorite). Many varieties of hoerdoerves were served and guests dined at tables adorned with bandana tableclothes and upon each table sat a full size

red ceramic cowboy boot which was made by the bride's aunt, Virginia Ogden of St Charles, Missouri.

Thirteen Year TDC Term On Robbery

A Midland man, James Edward Price, 39, entered a "No Contest" plea Wed., Nov. 29 91st District Court on Burglary of a Habitation. He was assessed a 13-yr. prison term in TDC. Eastland Attorney Bill Hart was the court-appointed Attorney for Price. District Attorney Emory Walton was prosecutor in the case.

According to evidence in the case, Price entered a Ranger residence on May 5, 1988. He was apparently surprised to find a 13-year-old boy in the house, and tied

him up with an extension cord. He took a stereo, overcoat, and frozen turkey.

A short time later Price, who appeared intoxicated, wrecked his car on the North Service Road of I-20. Richard Treece investigated the accident and jailed Price. He learned of the burglary and saw stolen items in the car. Everything was returned except the turkey.

Price, who is serving another sentence for an offense near Odessa, was returned to Eastland County on a bench warrant.

Twentieth Century Club Hears Program On Girl Scouting

The 20th Century Club held their regular monthly meeting on Friday, Nov. 10, at 2:30 p.m. at the Cisco Public Library. In the absence of both the president and vice-president, Mrs. Marshall Allison presided.

Mrs. William and John Hounshell, representing the Cisco Girl Scouts, presented the program. Introducing Brownie Troop No. 203, consisting of nine third grade girls, the girls gave the Girl Scout oath in a natural way, then in the sign language, which was taught by Mrs. Carol Brown, CJC drama instructor. Mrs. Sarah Hounshell proceeded to tell the club members the history of the Girl Scout movement in the United States. Started by Juliette Low in Savannah, Ga., in 1912, it consisted of two troops and 18 girls. It received its charter in 1913 and in 1916 it moved its headquarters in New York City. A Congressional charter was given in 1950 and its laws, by laws, etc. are structured similarly to that of the

United States Constitution.

Cisco is part of the "Heart of Texas" Council, consisting of 19 counties, 29 towns and 186 troops. It has 2381 registered Scouts and 898 leaders and volunteers. In Cisco, itself, there are 93 Girl Scouts with 14 leaders and 21 volunteers. The main camp is at Lake Brownwood, a completely modernized one. Boating, swimming, arts and crafts and nature study are only a part of the programs available at the camp which is staffed by fully qualified personnel.

Sarah Hounshell ended the program by reading a selection of poetry written by A.E. McNeely, who, incidentally, was one of the prime movers for obtaining the present Girl Scout Clubhouse. Chairperson Allison thanked Mrs. Hounshell for a very informative program. Refreshments were served by Mmes. Audy Wagley and Elizabeth Donica.

Cisco Lions Club Hears Reports On AARP And On Child Pornography

By LARRY LINAM
Club Reporter

The Cisco Lions Club met November 22 for its regular weekly meeting. All enjoyed a good meal at the Traditions Restaurant. The club was brought to order by First Vice President, Lion J.V. Heyser. The entire club membership that was present sang songs and then Lion Heyser asked Lion Bob Conner to voice our prayer of Thanksgiving.

Our program for the meeting was introduced by Lion Walter Knowlden. The guest speaker was Roy Cartee of Cisco. Mr. and Mrs. Cartee have lived in Cisco since 1973 after retiring as an executive in industrial relations for a major aircraft company. Cartee has served in various positions of senior citizen groups, a state officer for AARP in 1982, and presently is Associate State Coordinator for AARP's health program in Texas. Also Cartee, in January, 1990, will become State Coordinator for the Medicare and Medicaid programs for Texas. The program sited several problems on a state level with the Medicare and Medicaid system and statements about the rural hospital health care situation and its serious problems. We appreciate good information like this and the people who are responsible for the work in a better tomorrow, which is what Lions Club is all about.

The Lions Club meets

every Wednesday at noon in the Traditions Restaurant. It is an organization that proudly promotes good fellowship among its membership, pledges allegiance to God and Country. It supports work within the community that we meet in, Cisco.

The Cisco Lions Club met in their regular time and place Thursday and had a great time. The club was called to order by presiding first vice president Lion J.V. Heyser and the standard order of business was carried out.

We were all happy to be able to induct our newest

member, Lion Millard "Lefty" Young. Lion Young was sponsored and inducted into the Cisco Lions Club by Lion Winston Heidenheimer.

Our program for the meeting was introduced by Olin Odin III. Mr. Bill Dodd, Assistant District Attorney in our county presented an address on Child Pornography: Images of Children. The subject matter is one that is having devastating effects on our society today. A lot of interest and information was exchanged and appreciation to Mr. Dodd for the address we heartily extend to him.

Hendrick Holiday Hotline Began Service On Nov. 24

The Hendrick Holiday Stressline, 670-HELP, began November 24 and will continue through January 4, 1990 to help people deal with the added stressors and heightened emotions that are produced by the holiday season.

"The added pressures of this season can be devastating to some individuals. For some people, this may be their first holiday following a divorce or the death of close family member. For others, they may feel overworked and underpaid and wonder

where they are going to get the money to buy gifts or the time to attend all of the extra activities. Our Stressline staff is ready to listen and all calls are confidential," said Molly Hall, program manager for the Stress Unit.

The line is manned by Stress Unit staff and is open 24 hours a day, even after the holiday season is over. "We maintain a crisis line every day of the year, so we are always available for people who need help. Stress and dealing with emotions never stop and neither do we," Hall said.

Christmas Gift Ideas!

Drawing A Blank For Gifts?

For busy, holiday shoppers this Christmas season, blank and prerecorded videocassettes offer a wide variety of choices and make popular and highly personalized gifts for the holiday season.

A hot new stocking stuffer idea this season is 3M's new Scotch brand All My Soaps™ blank videocassette, specifically designed to give soap opera fans a special blank tape to record their favorite programs.

Available only in supermarkets, the durable, new high grade blank videocassette is formulated to stand up to repeated recording for a minimum of six months. A unique anti-clog formulation helps protect VCR recording heads. A distinctive color combination and special labeling clearly identify the tape as a soap opera videocassette in the all-black world of blank videocassettes.

Other video gift ideas include hi-fi videocassettes for high quality music recording, camcorder videocassettes for home movie-making, and high-grade videocassettes which retain picture quality for years

for building a personal film library, according to Bob Burnett, one of the home video recording experts at 3M.

Don't overlook video accessories as gifts. Videocassette head cleaners (3M makes one that's safe for all VCRs), Scotch brand ReLabel Tape and Camcorder Care kits are great gifts for VCR and/or camcorder owners. (VCRs are now in over 71% of American households.)

Prerecorded videocassettes such as exercise tapes, cooking tapes or the latest Harrison Ford hit movie are extremely popular.

Whether you are shopping for a soap opera fan, a finicky "videophile" or a Madonna-mad teenager, blank and prerecorded videocassettes make inexpensive, highly personalized gifts.

Counseling Conference Focuses On Occult And Satanism At Hardin-Simmons

A counseling conference held Nov. 7 at Hardin-Simmons University focused on the occult and Satanism. The conference was sponsored by HSU's Department of Counseling and Human Development and the Office of Student Development Services.

Roy Rodriguez, Jr. and Ismael Sanchez were the speakers. "I believe it's important that we educate ourselves," said Rodriguez. "There are many types of occult practices."

"We are not here to create paranoia or a witch hunt. We're here to become more informed."

Rodriguez, a former narcotics agent for the Houston Police Department and the Federal Drug Enforcement Association, now owns a consulting firm. He also supervised civil, criminal and undercover narcotics operations in North and South American countries and Caribbean countries.

"The traditional form of Satanism is a very structured, secretive organization," said Rodriguez. "Part of their belief system is that everything you do is okay."

Rodriguez said the other forms of Satanism are the dabblers, the self-styled and the youth subculture.

"All of them will be involved in the drug scene, without exception," said Rodriguez.

The levels of involvement, according to Rodriguez, are fun and games, experimentation with a more serious interest, serious involvement and criminal involvement.

"In so many of the beliefs, criminal activity is a way of moving up in the group,"

said Rodriguez. "Law enforcement can get involved and investigate when criminal activity starts."

Santeria is the occult practice that has recently made America realize the danger of Satanic and occult activity. A form of Santeria called Brujeria practices human sacrifices, and made headlines with a case in New Mexico where many people were found murdered earlier this year.

Rodriguez mentioned several warning signs that may reflect an interest in the occult or Satanism: obsession with black clothing, self-mutilation or markings on the body, drawings that depict occult symbols or deface Christianity, a hostile attitude toward God and Christianity, secretive or violent behavior, possession of albums and T-shirts with Satanic symbols, possession of occult or Satanic books and fascination with blood, death or suicide.

"Young people are looking for direction, but unfortunately, in our society that direction from parents is dropping off," said Rodriguez. "If we don't provide direction, they'll find direction."

Rodriguez showed a video tape that emphasized the impact of music on young people and the importance of encouraging children to choose music with positive themes.

The video showed many bands, mostly heavy metal, whose albums and concert performances have an occult influence and depict graphic violence, sex, rape and drug abuse.

"Don't go home and burn all the rock'n roll albums

your kids have, but be aware of what they're listening to," said Rodriguez. "The medium of music is powerful. It can be positive or negative."

The video briefly mentioned some popular bands whose messages are positive. The conference displays also included a list of contemporary Christian bands, with styles ranging from pop to heavy metal, emphasizing the point that these bands are a positive alternative.

Sanchez spoke about specific rituals, symbols, experimentation and role-playing games. Sanchez, a former probation worker, is program coordinator in substance abuse education for the Scenic Mountain Medical Center in Big Spring, TX., and a criminal justice instructor at HSU.

"They infiltrate school systems and churches," said Sanchez. "They raise their own human sacrifices and abuse them in front of pictures of Jesus or a person dressed as a policeman or a priest. They also pick up hitchhikers."

Sanchez discussed some of the dates on the Satanic calendar, including days where animal or people were sacrificed. The rituals are practiced by groups called covens, that range from nine to 40 members, but ideally have 13 members.

"The body of the victim is usually eaten," said Sanchez. "The coven eats the insides then gives the meat to a dog, who is ritualized."

"They will dry out the bones and wear parts of them as necklaces."

Sanchez has found that people are unwilling to

believe the occult is a real problem, though he has encountered it almost every place he has been, and despite the fact that 172 occult movements are currently in practice.

"The fastest growing religion in Europe is witchcraft," said Sanchez. "The fastest growing religion in America is Satanism."

"Our military acknowledges Satanic holidays. We have found teachers in public schools who like to teach their students occult rituals."

Sanchez described many occult symbols: 666, FFF (F is the sixth letter of the alphabet), three interconnecting symbols, a circle with darkness and light interlocked, pentagrams, hexagrams, swastikas, crescent moons with a star, the Egyptian ankh (good luck sign), inverted crosses and peace signs.

"Peace signs are often used, but most people who wear them don't realize what they mean," said Sanchez. "The peace sign symbolizes the defeat of Christianity."

Sanchez warned that people are lured into the occult by the appeal of power and through role-playing games, magazines, channeling, astrology, music and movies. He urged parents to spend more time with their children.

"Identify the problem," said Sanchez. "See what they're into. Look into their rooms. Stop and take note."

The medical center where Sanchez works has a recovery program for people involved in the occult. The toll free, confidential number is 1-800-592-ROAD.

Shhh! The airplanes are coming. This fine family of airplanes are known as the world's quietest. At airports around the world, these British Aerospace commercial airliners are proving most likely to make the least noise. That may be one reason the company's aircraft are highly popular with American commuter airlines including American Eagle, United Express, U.S. Air Express, Eastern Metro Express and many more. With these environmentally sound—because they're so silent—planes those lines can continue to serve the public with quiet efficiency.
