### Mr. Muleshoe . . .

By J. M. Forbes

Comes to hand a copy of "Survival Under Atomic Attack," the official U. S. Government Booklet, which you may order from the Government Printing Office, Washington, D. C., at 10 cents a copy. Note this excerpt:

If a modern A-bomb exploded without warning in the air over your home, the calculated chances of living through the raid would be something like this. Anywhere within one-half mile of the center of the explosion, your chances are 1 out of 10. One-half to 1 mile away, 50-50; 1½ miles out, odds that you will be killed are only 15 in 100; 1½ to 2 miles away, death drops all the way down to 2 or 3 out of 100; beyond 2 miles the explosion will cause practically no deaths.

However, your chances of being injured are far greater than your chances of being killed, but chances for making a complete recovery are about the same as for everyday accidents.

If you are anticipating an atom bomb burst, better order this little booklet, for it's pretty interesting reading.

Seen & Heard

Mrs. Ray Griffiths, on returning from a fishing trip with Ray and others in Mexico: The thing which impressed me most in Mexico was warm friendliness of the people. It wasn't because they thought we had money to spend. It was spontaneous, 'way out in the places where there was nothing to sell, those people who couldn't speak those people who couldn't speak a word of English would make you teel welcome—they'd smile and feel welcome—they'd smile and greet you warmly. Perhaps we here in Muleshoe could take a cue from these people.

Yes, perhaps we could. We will speak to someone from Goodland, but if they were from as far away as Morton or Portales they'd be foreigners. Americans are too busy with their own affairs, too engrossed with other matters, but just a smile or a howdyado would sure make our visitors feel welcome. And a smile don't cost a fellow a copper cent, and makes the smiler feel better too.

Note to Gilly Wollard and other detractors, who refer to the great, Toews. great University of Texas as "a little junior college of some kind nation's so-called No. 1 team last week. But with fellows like Keeling, Lambert, St. Clair, and me boosting for Texas it notes to be solved by the solution of boosting for Texas it never was in doubt. After the game I gave my favorite yell:

Rattle de trat trat, Rattle trat, trat, trat Longhorn, Cactus Thorn, Texas, Texas, Texas, M-0-0-0-0 T E X A S !

Some of the young printers about the shop took to their heels, the older workers here sort of looked askance with pitying expressions. I was told later that the famous old yell went out of circulation on the campus so long ago they can't find even an old prof or caretaker who remembers it; still, it was fine in its day, I guess.

This king of the bootleggers would leave his city which was in dry territory, drive to the near-est wet town and bring back a load in his big, fast "Fierce Sparrow." The cops would chase him but even a souped up Ford could not overtake him. One night the king was coming along when he saw an old farmer stopped by the road, trying to get his old Model T started, so he stopped and offered to pull the car until it started. But just as he pulled the jalopy onto the highway here came the cops again. The cops stopped at the next town to inquire whether a big car had sped by in the

last few minutes. "Yes," replied a filling station attendant. "A big car just went by, making about 120. Funny thing, though, tthere was an old man in a Model-T right on his heels, honking his horn every second to get that big car over so he could go by."

And this, says a loquacious friend, actually happened.

It now appears that Muleshoe will be the only town in the Plains area to close anywhere near 100 per cent for Armistice Day Saturday. It's on a voluntary basis in many towns. Plainview, for instance, has selected Armistice Day as one of four holidays, but if a holiday falls on Saturday, all agreements and rules are off.

Meanwhile two merchants with whom I was talking have come up with what seems a good idea. They said that since Armistice Day originally commemorated the end-ing of World War I, it would be better to make Decoration Day, May 30, a holiday on which the soldiers of all wars would be remembered. They point out that at present all our holidays come in the latter part of the year, July Fourth, Armistice, Thanksgiving, and Christmas, the latter three invariably in the busiest time of the year.

Seems to us they "have some thing" there but it will take a lot of doing to make people of the U. S. see it that way. It's hard to eliminate an old tradition, but this does seem reasonable to us. Kindly give this idea some thought if you ain't too

In an appropriate ceremony stag-ed before the Levelland-Muleshoe before the Levelland - Muleshoe football game Friday night, the Muleshoe football stadium was named Benny Douglass Field, and dedicated to the memory of the young Muleshoe high school athlete who lost his life in an automobile accident. The boy was the son of Mr. and Mrs. Morris Doug-

Superintendent of schools C. W. Grandy made the speech of dedication, in which he reminded that naming of the field came about as a voluntary action of the student body. Mr. Grandy said:

"This game which is to be play ed between the Muleshoe Mules and the Levelland Loboes is being played in memory of a thoroughly American boy who served his high school well in football, in basketball, in track, and in his studies. He took part in all that he could—and gave his best. He was quiet, reserved, and beloved by all who knew him. We, the students and faculty of Muleshoe high school mourn the passing of Benny Ray Douglass.

"As a further recognition of th esteem in which he was held by his fellow students, the student body of the Muleshoe high school has voluntarily voted by an overwhelming majority to name this stadium in his honor.

" Consequently, I proclaim that in the future the Muleshoe high school football stadium shall be known as the Benny Douglass Stadium. We are sure that the caliber of future athletic events which will be held here will honor his memory,"

# 14 Indictments

Fourteen true bills were returned by the grand jury in Bailey County district court, which concluded its work and adjourned at 11 p. m. Monday. The jury had begun its investigations at 10 o'clock that morning when the body was impaneled by Judge E. A. Bills. District Attorney Joe Sharp assisted with the investigations.

Ray Griffiths was foreman of the grand jury and the other eleven members were: Roy Jordan, A. J. Lenderson, V. E. Garner, V. C. Weaver, T. W. Watson, D. O. Burle-smith, W. T. Millen, W. H. Eubanks, Glen Williams, Neal Warren and

nty Electric Cooperative and an outline of its growth was related by W. H. Thompson, manager, at the luncheon Tuesday of the Retailed Club of Muleshoe.

The act creating the Rural Elec-trification Administration was sign-ed by President Roosevelt in 1935 and some few cooperatives over the country had lines energized as early as 1936, Mr. Thompson said. The local cooperative was formed in 1937 and its first lines were energized in 1939.

He said that the Muleshoe Chamber of Commerce took an active lead in the preliminary work that was necessary. This body, furnished money for incidental expenses and helped in other ways, while individual farmers over the territory interviewed their neighbors and secured signatures to applications for service.

Bailey County Electric Cooperative now serves 2,680 customers in five counties-Bailey, Lamb, Cochran, Parmer, and Castro.

The local cooperative has borrowed \$1,947,000 from the REA. D has 1305 miles of service lines, or 2.2 customer per line mile. In addition to the regular customers for lights and power the Cooperative has 160 irrigation wells to which it furnishes power. The Cooperative buys power from the South-western Public Service Company.

The Cooperative employs 22 persons and pays out Muleshoe and Bailey County's biggest payroll. Mr. Thompson pointed out that most of these employees support families, which live in the local community and spend their money in the community with the local merchants. As much as possible of the large

amount of supplies needed are bought in the community. Expenses of the Cooperative run from \$8,000 to \$12,000 per month. The Cooperative, Mr. Thompson explained, to governed by a board of directors, with the several districts of the area served being represented on the board. The board is responsible for the loans owed to REA and for their repayment at specified times. The board meets once month to transact business that properly comes before it. The Cooperative is having the formal opening of their new headquarters building in Muleshoe on November

Guests for the luncheon included Judge E. A. Bills and Jim Norman, court reporter.

FRIDAY, NOVEMBER

# **Program Planned** For "Book Week"

Muleshoe Elementary and Junior High School faculties and children are preparing a day of special interest for parents and school pat rons Friday, November 17, in cele oration of National Book Week. Music and choral reading will Progress W. M. U. highlight the program being presented at 2 o'clock in the junior

high assembly under the direction Miss Mabel Davis. Hemphill-Wells department store in Lubbock is providing books for a book exhibit. These books will be for sale to parents interested in Christmas buying and will be great-

fully accepted if bought and pre sented to the individual room li-At 3 o'clock in Miss Stotts' room at the grade school building, Mrs Maxine Ragsdale will review Marguerite Henry's "King of the Wind" This outstanding book was awarded the Newberry prize for 1949 and i

becoming a classic in children's literature Tea will be served during .the afternoon with the teachers acting as hostesses. Room mothers, Mesdames L. S. Barron, A. J. Lenderson, Woodie Lambert, and Forrest

Jones are assisting. Parents are invited to visit in the different rooms of the school throughout the day.

# In Meeting

The Progress W. M. U. met Monday, November 6, at 2 p. m. in the Baptist Church with six members and two babies present.

The meeting was caued to order by Mrs. Locker, vice-president, she Mrs. J. L. Seaton, with a pink and also led the group singing of "More blue shower in the home of Mrs. About Jesus". Prayer was led by Mrs. Henry. The minutes of the last meeting were read by Mrs. Gouge and old and new business was discussed.

Mrs. Redwine conducted a very interesting bible quiz. The meeting was closed with prayer by Mrs. Gouge.

and two babies, Stanley Gouge and Glenna Raney. The next meeting will be November 13, at 2 p. m. in the Baptist

Church. All members are urged to be present as there is important siness to discuss.

# Elementary P-TA Monday, Nov. 13

Muleshoe Elementary Paren Teacher Association will hold its November meeting, November 13 at the Junior High School auditor-

um, at 4 p. m.
This will be the Thanksgiving program and Mrs. Curtis Spivey is to give the invocation and Mrs. Horace McAdams' Expression Class s to have charge of the program Mrs. Leon Smith, president, will have charge of the business meet

# Mrs. Bill Barbour Honored With **Bridal Shower**

Taylor, George Johnson, David Wyer, Finley Pierson and Slyvan Robison, entertained with a miscellaneous bridal shower Thursday, November 2, at Fellowship Hall. Yellow and white chrysanthenums and other autumn flower

decorated the hall. Miss Delores Locker presided at the silver service, with Miss Leatrice Martin assisting.

# LAND IS THE MOST VALUABLE THING IN AMERICA

LAND is the most valuable thing in America. Soil is the foundation of our wealth, today and tomorrow. The penalty of national soil neglect could not be offset by all the machines, laboratories and banks.

WHEN the soil is rightly used, agriculture flourishes, trade flows, great cities grow, civilizations rise. If the soil is wasted, agriculture and national prosperity decline. Every year erosion, largely preventable, claims three billion tons of soil. That's an average loss of 95 tons a second!

FARMERS and business men in this community know that heavy soil and fertility losses on our farms can eventually bankrupt them. Such losses from erosion and overcropping can be reduced, fertility can be increased, and farming can be made more profitable. The growing of more legumes, strip cropping, contour planting, terracing, pasture improvement and sound rotations all help to conserve and build soil.

**HOW'S YOUR PULSE?** 

# **Your Heart Can Beat Out Various** Melody Versions-Some Mean Trouble

random on your wrist and tried to the right side of the heart receives find that pulse your doctor frequently referred to? And failed? the blood that has been to all those organs and comes back im-Along with many others, it may pure. The blood goes into the top thing. They all call for a more help you to know that the pulse is frequently easier for the until the right ventricle. When the professional to find there along right ventricle gets enough blood to be full, it closes that valve from the right ventricle. wards the front.

You may even pick up a watch with a second hand and count the number of thumps you feel in that pulse in a minute. The average adult pulse rate is around 72 beats per minute but averages also run all the way from 50 to 90 beats depending upon the age, circumstances, exercise, digestion, emotional disturbances and even excitement such as taking your own

in the temple, in the wrists or any other vessel that lies close enough to the surface for you to feel. There's a lot more feeling the pulse than the mere count, however When your doctor feels your wrist he's also checking on the nature of the pulsation, the feel of the artery, the rhythm of the beat. Sometimes you might think you feel two beats when only one long drawn-out beat was really there.

With that pulsation in your wrist, maybe your doctor at the same time listens to the sounds of your heart. He's expecting to get a lubb-dubb, lubb-dubb, lubbdubb, sort of thing, over and over in the same rhythm, the same tone, the same slightly louder lubb than the higher pitched

ing simultaneously. The left side

the auricle above so no more blood can come in. This is when you get

the lubb sound. The right ventricle empties the blood into the pulmonary artery. the blood vessel to the lung, and after the blood has left the ventricle it closes the bottom valve; this is when you get the dubb

The blood goes through the When the heart contracts, you there and picking up oxygen. Then it goes over to the top of the left side of the heart, the left auricle, and enters the left ventricle from lungs, leaving the carbon dioxide there. When the left ventricle is full of blood, it closes that valve from the left auricle, at the same time that the right ventricle is closing its valve. If those two valves don't close at the same time, makes the lowest point at which your doctor hears an extra sound in his stethoscope, a sound that can best be described as T-lubb-dubb.

From the left ventricle the blood that leads it to the circuit of the body and as the left ventricle is emptied, you feel the reaction in your pulse, that bottom valve goes own and you have the same dubb ound, simultaneous with the right ventricle dubb sound. If those vales don't close at the same time our doctor would hear something ce lubb-dubb-T.

Those valves are supposed t into the part of the heart they just left. Sometimes they don't do i and sometimes they don't open as

seeps back into the auricle or ventricle, it usually adds a "grrr" sound to the lubb-dubb in the stethoscope. A valve that doesn't open wide enough will end up as

"Ffff" or blowing sound. So you can see there are all kinds of different versions of melodies that your heart can beat out Some of the variations from the and some don't mean much of anyof the right side of the heart, called thorough check of the heart, of

One of the standard methods of the blood pressure. Your doctor from the stethoscope he's applied just below that cuff. Then he starts letting the air out. When the air goes out, the column of that mercury in the box by your arm starts going down. At the moment that the doctor hears a slight click in the stethoscope he notices what the reading is on that mercury column. That is, roughly speaking

Your doctor keeps listening until there is no more noise in the stethoscope and notices at what point the mercury column stands when the blood flows and usually stands around 80 after adolescence.

The high point, called systole pressure, will normally run 110 to goes down into the great artery 140, going up about 20 points higher in elderly people.

# Made Easier By **Good Equipment**

COLLEGE STATION, Nov. 7— Labor saving equipment, better planning and proper arrangement of working equipment have removed many of the disagreeable features that have made washing and ironing the most disliked household tasks. These jobs, says Gladys Darden, extension home management specialist of Texas A. & M. College, are being done more easily and efficiently because homemakers are effectively managing their time, energy and

Running water under pressure has made possible the use of water heaters to provide hot water for the laundry, automatic or non-automatic washing machines have replaced the wash board and tub, and laundry tubs with drains have eliminated the job of carrying water to fill the tubs and then carrying it out again when the washing job was completed. Equipment for transporting the clothes from the wash room to the line has removed another back breaking job from those that formerly had to be performed every wash

Detergents Improved

The development of effective hard water softeners and soaps and synthetic detergents have contributed also to making the wash day job easier, says Miss Darden. Automatic dryers are now being used to overcome the weather problems that make yard drying disagreeable.

Of no less importance in making the job easier, points out Miss Darden, are such features as pleasant surroundings in the laundry area and the arrangement of equipment and storage for supplies in the laundry center which provide for fewer lost motions and extra steps. Fast heating, light weight electric hand irons, sturdy, well-padded adjustable ironing boards and ironers have helped to simpliy the job of ironing.

To make the task still more efficient and easier, Miss Darden suggests the establishment of a routine method for doing the regular wash. This method would provide for doing the job in the short-est possible time and for turning out clothes that are clean. She says many families can do this by more conveniently arranging their equipment to save time and labor while other families will find that it is necessary to provide additional equipment for the laundry before they can entirely eliminate some of the present tasks that go with the washing and ironing jobs.

Bird in hand that's a Beauty

Now it can be told. This clean-lined, smart-stepping 1950 version is the most popular Buick ever built.

Ever since early in the present year, a value-wise public has been taking them away from us as fast as-or faster than-the great Buick factories could roll them out. Within recent weeks, production and sales have set an all-time record.

Only Buick has Dynaflowand with it goes:

HIGHER-COMPRESSION Fireball valve-inhead power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN
STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" tail-lights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius
• EXTRA-WIDE SEATS cradled between the axles . SOFT BUICK RIDE, from all-coil springing, Safety-Ride rine lose essure tires, ride-steadying torque-tube . WILE ARRAY OF MODELS with Body by Fist

Count off the distinguished and time-tried features of this winner and you'll know why.

It has a Very Exclusive Motor-Buick's own high-compression Fireball-which gets its driving power from a combustion chamber found in no other car in the world.

It has the bump-smothering softness of coil springs on all four wheels and a torquetube drive-a comfort combination that no other car provides.

It has Dynaflow Drive\*-which ushered in a whole new concept of effortless travel.

It has a brilliant styling which sets it apart from every other car on the road.

And it has prices which say "buy me" to any motorist who's looking for maximum money's worth.

Isn't it sensible, while these great cars are still coming off the lines to check with your Buick dealer about getting one to call your own?

\*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

# **Hard-Fighting Mules Lose Last** Conference Game 32-0 To Levelland

Levelland Lobos to only six points in the first half of their last conference tilt here Friday night only to fall before an onslaught in the third quarter that gave Levelland an overwhelming victory of 32-0. Opens in Sudan Levelland scored only one touch-

down in the second quarter but came back after the half to tally 26 more points. This victory kept with Post in District 4-A. Post defeated Brownfield Friday night to keep them a contender for second place.

The attendance at the game was smaller than previous games played here because of the severe cold weather. A larger group of Levelland fans followed their team

In the opening quarter of the game, the Mules took the kickoff and fought their way to the Lobos 18 yard line before they lost possession of the ball.

Early in the second quarter the play the Bula girls team Tuesday night, Nov. 14. The first home basalty placing them on the 39 yard Washington. He further says a stripe. Dean Waltrip travelled all great injustice was done to the the way to pay dirt on the next maize country in reducing the 1950 play with a beautiful 61 yard diseffective interference.

The Mules received the kick at the half and ran into trouble when they had to punt from their 11 yard line. Perry Heard returned the ball 36 yards to be stopped on the Mules 2 yard stripe and Zack Reid plunged over for the six points.

oe Hays kicked the extra point. Joe Hays intercepted a Mule pass after kicking off to the Mules and set up the play for the next touchdown. They carried to the Mules yard stripe and Reid carried over again. Heard added the extra point.

Following the kickoff, a muffed fourth down punt gave the Lobos the ball on the Muleshoe 18. Charley Evans ran the ball over for a touchdown on the first play from scrimmage. The try for extra point

The last Lobo touchdown was set up when Joe Hays again intercepted a Mule pass and Levelland took over on the Mules 24 yard line. A pass from Don Wise to Jim Kennedy was good for the touchdown. The extra point failed.

The Mules held the Levelland Nickels unerring aim to John Whipple was good for 10 yards and seconds later another aerial to Pat Vincint racked up 18 yards. Nickels also recovered a Lobo fumble on the 13 that put them in scoring position, but they failed to carry over for the touchdown. Roald

completed a pass to Whipple for nine yards and after a loss with 25 yards for a first down, Nickels and Spivey carried to inches of a first down in two trys.

In the third quarter the Mules made several good runbacks after kickoffs, but the ball was lost on downs to a hard-hitting Lobo line. again when Robert Waggoner re-covered a fumble deep in their end of the field. Nickels passed to Gerald Byrd for 25 yards, and then picked up seven in an end sweep and hit Byrd with another pass for 12 more yards before losing the ball on downs to Levelland on the

In the fourth quarter Johnny Ladd returned a kickoff from the 18 to the 30 and a pass from Nickels to Williams was good to the 42. Another pass from Nickels to Whipple landed on the 15 yard line in Lobo territory, and the Lobos gained possession of the ball but were unable to score again.

Levelland had 15 first downs against 10 for the Mules and 356 against 10 for the Mules and 350 yards gained rushing against 79.
The Mules racked up 139 yards in the air while the Lobos only made "cheap politicians."

A new grain firm is opening in Sudan this week. Geo. Reinhardt, Jr., who has been associated with Levelland in a tie for second place his father, has leased the Cockerham Elevator and will engage in shipping and buying all kinds of grain and seeds, as well as place ing grain in storage under Federal loans. His firm name is West Lamb Grain Company.

Mr. Reinhardt said that most all of the sorghum grains are now selling at prices that will net the farmers as much as the loan value, and in some instances, more. He says the loan value on maize was reduced by more than 20 cents per hundred under the 1949 rate and believes this was due largely to a lack of interest shown by the farmers, who failed to make vig-Lobos gained the 34 yard marker orous demands through their Congressional representatives in play of broken-field running and grains at the 1949 basis, and even increasing the loan value on one or two grains, thus a costly discrimination against the growers of maize. And Lamb County is in the heart of the greatest maize country in the world, Mr. Reinhardt concluded.

# **Marine Reserve Enlistments Open**

Edward L. Bale, Jr. Officer in Charge of the Dallas Marine Recruiting Office, announced today that his office has received instructions which permit the reenlistment in the U.S. Marine Corps Reserve, in grades up to and in cluding the rank of Sergeant for assignment to immediate active duty, in the cases of ex-marines

"A man who served in the U. S. Marine Corps and was discharged as a Sergeant, may now apply to any Marine Corps Recruiting Of-fice for reenlistment in the U. S. solid in the first half. Ed Marine Corps Reserve, and reappointment to the rank of Sergeant, for assignment to immediate active duty," the Major explained, "Men accepted for enlistment under the on, California for duty, except in over for the touchdown. Roald Johnson racked up 12 yards on one run carrying the mail around right the cases of men with job specialties in Marine aviation, who will be guests of the W. S. C. S. at a book review, supplementary of the cases of men with job specialties in Marine Corps C. S. at a book review, supplementary of the cases of the Marine Corps C. S. at a book review, supplementary of the cases of the First Christian Church will be guests of the W. S.

In the second quarter the Mules duty. Men reentering the Marine took to the air again and Nickels Corps to take advantage of this opportunity will be required to re-enlist for an "Indefinite Period". personnel, Major Bale added. Contact your local Marine Recruiter at room 200 Post Office Bldg., Lubbock, Texas.

FIRE DEPARTMENT WARNS OF The Mules got into scoring position | HIGH WIND AND TRASH FIRES The Muleshoe Fire Departme

has been called out twice the past week to extinguish trash fires. Last Thursday night they were called to a fire behind Gerald's Cafe and yesterday morning they were summoned to the Gerald Allison home for a grass fire on the back yard.

Fire hazards are greater in the fall than at any other time of the year, spokesmen for the Department pointed out, because of high winds and dried grass. People should be especially careful in burning trash and grass around their premises for fire coul easily get out of control and inflict severe property damage.

# Muleshoe WSCS To Have Book Review

the Methodist Church at 2:30 p. m. Wednesday for their regular meeting. The meeting was opened with a devotional, which was a beautiful version of the 23 Psalm, given by Mrs. Roy Bayless.

Those present closed the devotional with sentence prayers, followed by the group singing "Father, Like A Savior Lead Us."

Mrs. Ruby Jennoings directed the study of the last chapter of the book. "Toward A Christian Community." She was assisted by Mrs. Haney, who told of John Oberlin and his life's work. Mrs. Beulah Carles gave, "A House of God And Its Influence On The Children's City at Mooseheart, Ill." Mrs. I Willman told of Mark Dawber and his work in the Christian community.

A short business session followed the study, with Mrs. Finley Pierson provisions of these instructions presiding. Several committees were from the Lubbock area, will be as- appointed. The Society also voted signed to Camp Joseph H. Pendle- to put linoleum in two bedrooms

# The Choice of ChampionsThe TITIE Job-Rated TRIPLE

49 out of 86 champion truck drivers choose Dodge!

Champion drivers know champion trucks!

The nation's state champions . . . with proved reputations for safety records and driving skill . . . competed recently in New York at the National Truck Roadeo. Given the privilege of driving any make truck, these champions selected Dodge for national competition by more than 2 to 1 over all other makes combined!

In the events in which Dodge trucks participated, 6 out of 9 national winners drove Dodge "Job-Rated" trucks.

The champions selected Dodge for these tough tests because of "its extra visibility, its great maneuverability, good braking, and ease of handling." So, take a tip from the men who know: drive a Dodge "Job-Rated" Truck!

FIRST TROPHY in the Straight Truck Class was won by Richard Wold, Glendenning Motorways, Inc., St. Paul. Wold, Minnesota State Champion, drove a Dodge GA-152 1½-ton "Job-Rated" Truck.

FIRST TROPHY in the Tractor, Tandem-Axle Semi-Trailer Class was won by O. E. Chapman, Pacific Intermountain Express, Oakland, Calif. Chapman, Colorado State Champion, drove a Dodge YA-142 4-ton "Job-Rated" Truck.

SECOND TROPHY in the Tractor, Tandem-Axle Semi-Trailer Class was won by Robert Rudesill, Glendenning Motorways, Inc., St. Paul. Rudesill, Minnesota State Champion, drove a Dodge YA-142 4-ton "Job-Rated" Truck.

THIRD TROPHY in the Tractor, Tandem-Axle Semi-Trailer Class was won by Harry W. Pollock, Johnson Motor Lines, Inc., Baltimore. Pollock, the Maryland State Champion, drove a Dodge YA-142 4-ton "Job-Rated" Truck.

THIRD TROPHY in the Straight Truck Class was won by R. D. Wallace, Johnson Motor Lines, Inc., Charlotte. Wallace, who is North Carolina State Champion, drove a Dodge GA-152 1½-ton

THIRD TROPHY in the Tractor, Single-Axle Semi-Trailer Class was won by Frank Kirkpatrick, Columbia River Truck Co., Portland. Kirkpatrick, the Oregon State Champion, drove a Dodge JA-128 2½-ton "Job-Rated" Truck.

Our first impulse on Armistice Day is, quite properly to bow our heads in sorrow for the loss of those valiant men who made the supreme sacrifices during two world wars. We remember Chateau Thierry, and the Marne. We recall Guadalcanal, Anzio and Normandy. We sigh and recall that victory was achieved in both wars and yet there is no true victory with peace. Let us resolve anew to oppose intolerance and demagoguery, with everyone of the cherished democratic instruments at our command.

# **Mother Shipton's Prophecy**

Mrs. R. L. "Grandma" Faulkner long time citizen of Muleshoe, has supplied the Journal with a copy of "Mother Shipton's Prophecy" supposed to be 500 years old.

This prophecy periodically come the prevention of colds should not out of hiding in periods of great confidence in these drugs as a crisis and distress such as that treatment for colds, "Dr. Geo. W. caused by the current Korean Cox, State Health Officer warns trouble. People read into the prothe citizens of Texas. "Those who decide to take any of the anti-histimine pills should realize it is what you make of the following highly important for them to fol-

### verses: A WOMAN'S PROPHECY

500 YEARS OLD A carriage without horses shall go Disaster fill the world with woe; In London Primrose Hill shall be, Its center hold a Bishop's See, Around the world men's thoughts shall fly,

Quick as the twinkling of an eye And waters shall great wonders do How strange, and yet it shall England and France shall be a drinking of large amounts of fruit come true, Then upside down the world shall

And gold found at the root of tree; Thro' towering hills proud men shall ride, Nor hoss nor ass move by his side.

Beneath the waters men shall walk; Shall ride, shall sleep, and even

And in the air men shall be seen In white, in black, as well as green. A great man then shall come and For prophecy declares it so.

In water iron then shall float As easy as a wooden boat. Gold shall be found in streams o

stone, In land that is as yet unknown,

And England shall admit a Jew. The Jew that once was held in

Shall of a Christian then be born, A house of glass shall come to

In England—but alas, alas; A war will follow with the work Where dwells the pagan and the Turk.

hair.

brow

cease

dogs

decrease

The States will lock in fierce strife And seek to take each other's life; When North shall thus divide the South

Then tax and blood and cruel war Shall come to every humble door. Three times shall sunny, lovely

The eagle builds in lion's mouth

France Be led to play a bloody dance; Before the people shall be free, Three tyrant rulers shall she see; Three rulers, in succession, be-Each sprung from a different

Then, when the fiercest fight is done.

The British olive next shall twine, In marriage with the German vine, Men walk beneath and over Fulfilled shall be our strangest

All England's sons shall plow the

Shall oft be seen with book in hand, The poor shall now most wisdom And water wind where corn did Great houses stand in farflung All covered o'er with snow and hail

And now a word in uncouth rhyme Of what shall be in future time; For, in those wondrous, far-off days

Water and fire shall wonders do, THE MULESHOE JOURNAL, Thursday, November 9, 1950

Build houses light of straw and The women shall adopt a craze sticks To dress like men and trousers For then shall mighty wars be wear

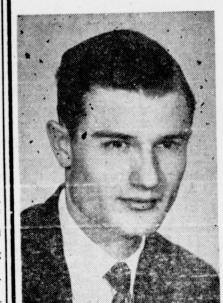

And cut off their lovely locks of planned And fire and sword shall sweep the They'll ride astride with brazen But those who live the century

through In fear of trembling this will do;

Flee to the mountains and the dens, To bog and forests and wild fens-For storms shall rage and oceans

When Gabriel stands on sea and And men live much the same as And as he blows his wondrous horn

Old worlds shall die and new be

As witches on a broomstick now

Then love shall die and marriage

And nations wane as babe

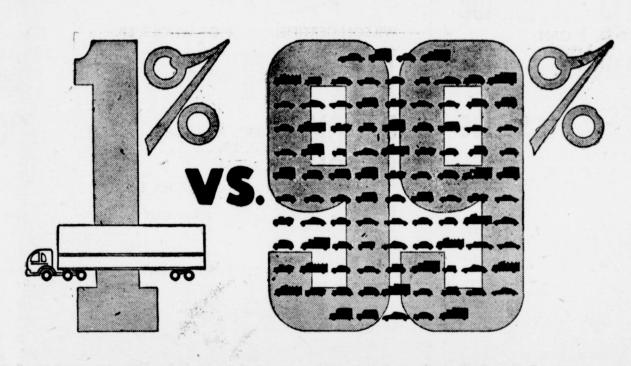

The wives shall fondle cats and

# Are Our Texas Highways Being Destroyed by 1% of Highway Users?

This question is presented squarely for the first time by the Texas Tax Journal in its booklet, "The Case of the One Per Centers."

Every Texan who wants good highways, adequate for 99 of every 100 users, should write for a free copy of this revealing booklet.

Approximately 99% of all Texas motor vehicles are registered for a gross weight of 20,000 pounds or less."\*

All Texas taxpayers, including your Texas Railroads, have reason to be concerned about the high cost of constructing and repairing our highways and the prospect of building more costly roads made necessary by the operation of highway "box cars."

No one has any desire to bar vehicles of reasonable size from our highways, so long as each pays its fair share of construction and repair costs.

Other Texas taxpayers should not be required to shoulder the burden of a roadway system for highway "box cars", representing only 1% of highway users.

Every Texan interested in good highways without increasing the growing tax burden should fill out the coupon below and get a copy of this valuable booklet.
