#### **Senior Citizens Nutrition Menu**

At each meeting of the nutrition program, emphasis is being given to the choir and those providing the dinner music. All of these people are volunteers and their services are more than appreciated.

Billie Woods, Vida Killion and A.E. McNeely provide this service for the participants many times and each time they are encouraged to continue to contribute their talents.

This past week an unusual program was given by a mother and son! Viola Payne, with her violin, and her son with his guitar, presented a program that was readily accepted by the senior citizens.

When special western music is desired, the program director, Annie Rendall gives Roland Smith and his gang a telephone call, and the foot stomping begins. The band, composed of Roland Smith with his guitar, Rosie Marshall with his guitar, Trudy Marshall as a vocalist, and Robyn Rhodes, Roland's granddaughter, as a vocalist presented a long

remembered program. The nutrition program for the western part of Eastland County is growing constantly and if you desire to be a member of this active group, make a reservation for the next luncheon by calling 442-1557 or 442-2263.

The menus for the week are:

Monday-Dinner steak, blackeyed peas, lettuce and tomato salad, corn bread, fruit cobbler, bread and drink.

Wednesday-Beef and rice casserole, glazed carrots, green beans, corn bread, fruited jello and drink.

Friday-Oven fried chicken, pinto beans, yellow squash, white

THE SINGING JUBILEES The Singing Jubilees To Be At Church of The Nazarene Sun.

An Odessa man charged with aggravated kidnapping of his neighbor one week ago was arrested Wednesday by law authorities in Santa Ana,

A warrant for Bailey's arrest was issued last week in connection with the abduction of Michael Todd Franks, 21, of Odessa. Franks reported the incident to the Ranger police station at 8:45 a.m. Aug. 8 after escaping from his abductor near the Eastland-Palo Pinto county

Franks told Eastland County Sheriff Johnnie Morren that a neighbor kidnapped him at gunpoint as he entered his mobile home of Aug. 7. Franks' wife - who was just outside the home when the abduction occurred - fled the scene, Morren said.

The man forced Franks into Franks' pickup and the pair began to journey east on Interstate 20, Morren said. Franks escaped on foot at a roadside park near the Eastland-Palo Pinto county line, where his abductor

# Letters to the Editor

EDITOR I just completed a visit to San Diego, Calif. where I visited to San diego, Calif. where I visited Mother and lots of other kin. Since her 80th birthday, she had eye surgery ond can see them al quite well. Including children and great-grandchildren she has just 52 of us to keep track

The trip was uneventful with gas a bit less in N.M. but highter in Ariz. and higher yet in Calif.

Milk was the only thing costing less in Calif. than here and admission prices to everything from Sea World to Disney Land were up. The museums in San Diego which were free years ago now charge admission and wher they did have a collection of Egyptian artifacts they now have a sex show. the City of San Diego may think that is updating Balboa Park but we just had more time to spend elsewhere.

We didn't even feel the quake that hit San Fancisco and the Degenerates must not have been shook up by it

The worst part of the trip was at Los Cruses on the way back when we spent a few hours at a Motel 6 where the floor hadn't been vacumed in a week, the bath tub had to be scrubbed before we used it, rent for a party of three got us two towels and wash cloths and those about as thick as medium quality ha. The chiefs, but at least

the bed linen looked and smelled clean. The reason we stayed such a short time was

that they tried too hard to help in Carters energy conservation because the air conditioning didn't work and it was cooler outside. Our best accomodations had been at a small and more reasonably priced motel in Wilcox, Ariz. . Where they even still had free instant coffee in the room and free ice.

Wish we could have brought back some of the rain we hit in the desert areas just so my cows wouldn't forget what rain looked like

The stack of mail have been plowing through since I got back has sifted down to a few bits of reading i don't want to chuck, a letter from a prisoner in LA. state pen at Angola and a letter from a Republican congressional candidate in Ft. Worth area who thinks there should be an eight year limit on all public offices after which the individual could run for higher office. He didn't mention trying for lower office but I don't see why in many cases that wouldn't be better Anyhow, Jim Ryan would be happy to come and talk about that bill even outside his district as he hopes it will become part of next years national platform.

Imagine our language without the term "entrenched bureaucrats"

Some might say the eight amendment realistic but many said that about proposition 13 in Calif. and I didn't observe any of the catastrophic conseuences they predicted. This fellow Ryan seems to

think a lot more people in America have the ability to work in self government than are fiven a chance under the present scheme of things. Maybe he is right.

Bridesmaids were Miss Kay Blanton of Beeville; Miss Patty Smith of Austin; Mrs. Ami Hensley of Bryan; and Miss Lynelle Booth of Temple and Mrs. Suzanne Copeland of Tyler, the bridegroom's sisters.

Perry Sims of Belton was best man. Groomsmen were Rick Turner of Brownwood, Kent Barnes of Gainesville, Jay Copeland of Tyler, Marc Vita of Philadelphia, Pa., Gayland Gowdy of Seminole and David Cole, the bride's brother.

Seating guests were Tin Law of Brownwood, Les Cole of Wolfe City and Fred Hoff-

UNITED FIRST ASSEMBLY OF GOD

CHURCH Rev. O.T. Killion has announced that his Sunday morning sermon topic will be, "Are You a Member of God's Family?" based on Isaiah 33:16. The evening sermon topic will be, "Is It Nothing To You?" based on Lamentations 1:12.

man of Temple.

A reception followed in the church fellowship hall. After a wedding trip to Houston, the couple will live in Brownwood.

The bride is a student at Howard Payne University in Brownwood where she is majoring in elementary education. The bridegroom has a bachelor of science in secondary education from Howard Payne University. He works at Texas Furniture Co., in Brownwood.

The bridegroom's parents were hosts for the rehearsal dinner at the Thunderbird Restaurant.

Jina Spurlock and Kumberley Yates of Bedford spent a few days with Jina's grandmother, Mrs. C.C. Bullard.

Mr. and Mrs. Charley Hagemann spent a few days at Red Wood Lodge at Lake Whitney. All their children and most of the grandchildren were present. The daughters are Mrs. George Fletcher and family of Crowley; Mrs. G.E. Gore and family of Plano, Mrs. Charlie D. Harber and family of Copperas Cove and Mrs. Curtis Cowen and children of Costa Mesa, California

Mrs. Johnnie Gunn will be honored with a "Pink and Blue" shower at the American Legion Hall, on Saturday, August 25, from 3 to 5 p.m. The public is in-

CITY COUNCIL MEETING James Garrett gave the invocation for the City Council meeting.

It was announced that a new water line was being laid north of the Baptist Church, to ensure the people on the street a better water supply and to try to eliminate some water leaks.

The secretary will attend a tax assessment school in Abilene on August 16.

The city had used 1,579,000 gallons of water or 4.84 acre feet. 186 meters were reported.

The City Council made a ruling that each house, mobile home, trailer house, etc., will have to pay a minimum water bill and the remainder over 3,000 gallons to be divided equally.

Notification has been received from the Lone Star Gas Co., that the company is seeking a rate increase in price of the gas from the Railroad Commission.

The Water Rights Papers were signed and will be mailed to the Texas Department of Water Resources.

A THOUGHT FOR THE WEEK

By Armo Chambers

We can not vouch for the authenticity of this story. We heard it and since there is a lesson to be learned from it, we

think it is worth passing along to you. A carpenter had built many fine houses for a contractor. His workmanship was superb in every one of them. And through the years the contractor prospered. The carpenter became disgruntled. He decided his efforts were unappreciated so he decided to cut corners on the next house and he deliberately did inferior work - but in a manner not seen or noticed. Even the contractor did not notice the difference.

After the house was completed, the carpenter was greatly surprised when told by the contractor, "For your many years of loyal work and fine building, I want you to have this house for yourself. Here are the keys. The house is yours to enjoy.

Obviously, the lesson here deals with the principle - "what is worth doing, is worth doing well." To do otherwise is deception. Deception is dishonesty. Sooner or later, deception and dishonesty are invariably discovered. High standards of honesty develop a conscience that always tells you what to do - with no exceptions ...

LIMITED WARRANTY
GUARANTEE OF MILEAGE-RADIAL TIRES

New First-Class Gulf or Cruisemaster steel belted radial tires are guaranteed for mileage

New First-Class Gulf or Cruisemaster steel belted radial tires are guaranteed for mileage as specified below.

GULF STEEL RADIAL—45.000 MILES

WHAT GULF WILL DO

If the guaranteed number of miles is not obtained when used on passenger cars because a tire

• wears down to the fread depth indicators (2.92" tread depth) before specified mileage is delivered.

• fails due to workmanship or materials, or

• fails due to road hazards up to 50% of the original tread life (no road hazard adjustments will be made after 50% of the tread life has been delivered).

Gulf will make an adjustment for unused service toward a new tire of the same type as follows:

If the owner presents this warranty at the time the tire is returned, Gulf will make an adjustment charge equal to the percent of guaranteed mileage delivered times the then current suggested retail price of the tire. If the owner does not present this warranty, the adjustment charge will equal the percent of original tire tread used times Gulf is then current suggested retail price.

If a tire fails due to materials or workmanship in the first 20% of guaranteed mileage, and this warranty is presented. Gulf will replace the tire without charge.

New Gulf-and Cruisemaster steel belted radial passenger tires branded or stamped "BLEMISH" or BLEM" are guaranteed on the same basis as new first-class Gulf and Cruisemaster steel belted radial passenger tires except for the appearance or other condition which required their classification as BLEMISH, and the use of Gulf s current "Suggested Retail Price" less current "BLEM" discount in computing the adjustment charge.

WHAT IS COVERED FOR COMMERCIAL AND SPECIAL APPLICATIONS

If the tire fails due to materials or workmanship when used in commercial applications or special applications is uch as on trucks, vans, pick-up trucks, and recreational vehicles) the adjustment charge will equal the percent of original tire tread used times Gulf is then current suggested retail price.

WHAT IS NOT COVERED

• tres branded or stamped SECO

repairable punctures
 premature or irregular wear due to improper inflation or mechanical conditions of the vehicle (e.g.

premature or irregular wear due to improper inflation or mechanical conditions of the vehicle (e.g. misalignment)
thres which have been run while flat
damage caused by malicious. willful or intentional conduct
WHAT THE CUSTOMER DOES

Present the tire and this warranty (if possible) to an authorized Gulf or Cruisemaster retailer in continental U.S.A., pay the adjusted price of the new tire, reasonable service charges (such as mounting and balancing) and all applicable taxes.

Hay must be entered by August 21st. Anyone in Eastland County may enter hay they produced or purchased. A protein analysis will be made on each bale. This is the reason the hay must be entered a month before the show.

An exhibitor may enter one bale in each of the following classes: Alfalfa and other legumes, coastal Bermudagrass, other Bermudagrasses, Sorghum-Sudan hybrids and forage Sorghums, other periennial grasses, Peanut, and legume mixtures

Hay entries may be left at any of the feed and fertilizer dealers in the County, implement dealers, Young Farmers members or the Eastland Vo. Ag. Dept. at Eastland High School. Members of the Young Farmers Chapter will pick up the hay from the various locations. Please tag the hay

grains. Research and demonstrations has shown that the rate, time and method of applying phosphorous and nitrogen affect both yield and profits from fertilization. The nitrogen and phosphorous need to be placed with the seed at planting. When the fertilizer is applied with the seed the plants produce more adventitous roots and

soil, forty pounds of phosphorous placed with the seed produced about twice as much fall growth as the same amount broadcast or banded between seed drills. Increases have been as much as eight more bushels of wheat per acre when phosphorous was placed in the drill with the seed at planting.

Nitrogen is important too. For top yields, plants should never be allowed to suffer for lack of nitrogen. Wheat and other small grains need nitrogen at planting or a short time afterward for early grazing, and for top grain production

gets started.

"First of all I don't think they had the remotest idea of what we're doing," said Stan Boose, managing attorney for the coproration. West Texas Legal Services Corp. is a federally fund agency with headquarters in Fort Worth. It opened an expansion office Aug. 1 and the Eastland County Bar Association passed a resolution opposing it.

The resolution stated that bar association members found "no need exists for a federally funded legal aid clinic in Eastland County." The legal services corporation offers free legal help to persons who meet federal poverty guidelines.

Boose said he sees the conflict with local attorneys as being one of philosophical difference. The local attorneys don't think a federally funded agancy is the answer to providing the poor with access to the legal system, Boose said. But Boose believes that after the corporation is in existence for a while the disagreement will subside.

"I expect some very redfaced people in about a year." Boose said of the

One criticism of the corporation from the bar association was that local attorneys encourage counseling in divorce cases and that the corporation lawyers might not do that. But Boose said that's not true. In fact, he said the corporation lawyers encourage and "almost coerce" people to

get counseling. Besides handling legal problems, the agency also will sponsor what Boose called impact projects. Those projects would attack problems facing the poor, he said. He gave us an example a project undertaken by the legal services corporation in Wichita Falls. Boose was with that agency before

moving to Eastland Boose said he would like to talk with school officials about possibly starting some programs in the schools.

Boose said the Eastland office will serve persons in Eastland, Young, Palo Pinto, Erath, Brown, Comanche, Stephens, Mills and Shackelford counties to begin with, and possibly more in the future.

In planning their income tax strategies for 1979, farmers and ranchers should

consider new tax provisions. Numerous changes due to the 1978 Revenue Act can affect income tax planning, points out Dr. Ashley Lovell, economist with the Texas Agricultural Extension Service, Texas A&M Extension Service, Texas A&M University System.

For example, owners of single-purpose livestock, poultry or horticultural sturctures are eligible for investment credit beginning with tax years ending after Aug. 15, 1971. This includes buildings used to breed chickens or hogs, produce milk from dairy cattle, and produce feeder cattle or pigs, broiler chickens and eggs. The investment credit rate is 10 percent on fully qualifying items, including up to \$100,000 of used property in any tax year.

According to Lovell, the law also allows a 10 percent investment credit for rehabilitation of existing buildings used in all types of businesses, except residential. Expenditures must have been made after Oct. 31, 1978 on buildings in use for at least 20 years. Of course, it's important to depreciate rehabilitation

As a result of the Revenue Act, cost-sharing payments after Sept. 30, 1979 from conservation programs may be excluded from gross income. These programs qualify: Emergency Conservation, Agricultural Conservation,

Farmers and ranchers should also take a look at the Energy Act of 1978 which provides for a refundable energy credit for business investment in solar and wind energy property acquried or constructed after Sept. 30, 1978. The credit equals 10 percent of the qualified investment in solar wind

allows for tax credit on energy-saving home improvements installed during 1979. A 15 percent credit (up to \$300) can be claimed for such items as insulation, exterior storm (or thermal) windows, caulking or weather stripping.

# Hints For The Aged & Handicapped By PATRICIA BY PATRICIA BY P.O. Box 368, Weatherford, Texas 76086

DEAR PAT -- After reading your column for many years and enjoying it very much, I would like to pass on a few good pointers to parents of handicapped

There is always a problem of fitting correct shoes for a specific handicap but for the child who cannot tie shoe laces: There are shoes on the market that use some other means of fastening than the standard shoe lace. Rather than force the child to struggle with laces, select a shoe with a Shu-lok fastener that flips up to open and snaps closed over the instep.

Some shoes styles have a strap with a snap lock that is easy to manage. Others have straps that fasten with

It is also possible to have your shoes repairman stitch

Carol Lewis of Eastland served as Maid of Honor. Ray Williams of Eastland, brother of the groom, served as Best Man.

Ushers for the wedding were Robert Montgomery and Mark Thompson, both of Eastland.

A reception was held in the ouple's home.

After a wedding trip to Red River, New Mexico, the couple is at home at 608 Halbryan.

The bride attended Springtown High School and Texas State Technical Institute in Waco. She is employed by Victor Cornelius as a typesetter.

The groom attended Eastland High School and Texas State Technical Institute in Amarillo. He is presently employed as Assistant Market Manager by

a Velcro strip to a buckle strap shoe.

Loafer styles have no fasteners but they do not always give the support needed. Some children have difficulty in keeping step-in styles on their feet.

If the child needs corrective shoes for additional support or to help improve posture and body balance, you may have to try to adapt the lacing method so your child can manage his shoes by himself. If this fails, try elastic shoe laces or substitute a zipper for laces. This alteration would have to be made by a shoe repairman. The opening should be extended in length to give

adequate room to get in and out of the shoe easily.

Shoe eyelets could be replaced by hooks-like those found on field boots or hightop workmen's shoes-by the shoe repairman.

For a child with paralyzed legs: Shoes styles that allow for some swelling of the feet such as the Blucher-style oxford or a low-cut vamp may be a good choice. Many teenage girls want pretty slipper shoes for special occasions but need straps to keep shoes on their feet. If you cannot find what you are looking for, perhaps a repairman can attach a small strap to a pair of slip-ons.

Children with flail or spastic feet may need shoes that lace down to the toe in order to get the foot into the shoes properly without pinching the toes.

Children who drag their feet or crawl around wear out the toes of shoes before the soles are worn out. There is no real remedy for this, but it may help to select shoes with scuff-proff tips which aid in keeping up appearance.

And most important: If there is any question about the style of shoe your child should wear, consult your

### SHORT CUTS TO SEWING FOR GIRLS

St. Augustine

The secret to sewing for children is to select simple styles with semi-fit. If you've never sewed for children, the Butterick pattern illustrated is a good beginning. You'll like the all-in-one collar and band and the slightly puffed sleeve cap. The wrap-around pleated skirt is just a rectangle of fabric with folds stitched to a waistband.

Let's take the blouse to illustrate shortcuts. Use soft or crisp woven fabric. Instead of cutting extended notches, take a quarter-inch snip into the seam allowance to indicate a construction symbol. Use one snip for one notch, two for two. Snips may also show

dots as at center sleeve cap.
You don't need to baste straight seams. Use pins. First, match notches and top and bottom seam lines. Put pins in horizontally with heads to the left. Take just a tiny nip across the seam line. Add pins at six inch

Use a special foot on the machine that will rock gently over pins as you sew. Or, remove pins in front of the needle. Avoid having too much pin in the path of the needle as the needle point can become blunted or burred.

Stitching a sleeve cap can be done with pins. Pin sleeve into the armhole at the underarm seam, at the two notches, between notches and at the shoulder seam dot. Draw up the gathering threads from each side to distribute the fullness evenly. Add a pin on each side of the underarm seam and each side of center top.

With the sleeve uppermost and against the presser foot of the machine and the cut edges of the seam allowances against the guide, stitch the seam in place. Start at the edge of the underarm seam allowance, continue around and overlap the seam allowances.

Don't hurry, just guide the cut edge of the seam allowance and follow the ease-stitching line.

A curved seam such as a round collar may be pinned and stitched without basting. Having placed interfacing against the wrong side of the facing fabric and pinned the three layers together with pin heads to the left of the cut edge, put the collar under the needle with the interfacing side up. Guide the outer edge against the seam guide with your right forefinger, while using the left hand to gently turn the collar as you stitch

Which have no guide, overseer, or ruler Provideth her meat in the summer, and gathereth her food in the harvest.

Proverbs 6: 6-8

There is no such word as "can't" in the ant world. If you have ever even casually watched a colony of these little insects you have observed both industriousness and enterprise.

Some people could take a lesson from the ant, as the above proverb suggests. Those of us who must have direction, who do less than our best when the "boss" is not watching, who waste time and talent simply because there is no incentive to get out and do something - we should look to the ant and become wise.
