City Motor Is Robbed By Two Hatless Gunmen

robbed the City Motor Company in Muleshoe last night, local officers were told. It is the first such crime to be reported in this county at least in modern times.

Ed Myers, who was on duty at the time, was forced to open the cash register, then go to the rear of the service station and lie on the floor while the two men, one described as tall and the other as short, proceeded to scoop up about

Nothing but cash was taken and Mr. Myers was not himself robbed. Mr. Myers told the Journal that the robbery occurred at 11:20 p. m He said the two men hesitated for a moment on the sidewalk, then entered and walked directly toward him, the tall man in the lead. The tall man pointed a pistol at him and gave his orders. The

short man was also armed, Mr. Myers said. When the two men left, Mr. Myers telephoned Jim Burkhead, one of the owners, and a colored man, employed at Arnold Morris Auto Co., happening along ran for the two officers on night duty Buck Williams and Garland Free

Mr. Myers said the tall man was fair complexioned with light hair. The short man was pretty short, with dark complexion and with dark, curly hair, appearing to be perhaps a foreigner. Both were

man. Both were there in a minute

A waitress at the West Post Office Cafe told the Journal the two men came into the restaurant around 11 o'clock for coffee.

Rev. Edwards To **Plainview Church**

Rev. L. B. Edwards has resigned as pastor of the First Baptist Church of Lazbuddie, effective November 28, and has accepted the pastorate of the Seth Ward Baptist Church, Plainview.

A pulpit committee, composed of all the deacons with W. S. Menefee as chairman, is considering a call for a new pastor.

Rev. Edwards has been pastor at Lazbuddie for 3 years and 5 Littlefield. Levelland has anohe months. He told The Journal that district game to play-with Slaton his Lazbuddy work has been "the most fruitful work he has ever had as a pastor." He ascribed the advancement of the church during his pastorate to the friendly helpfulness and cooperation of the people of the community and

During his pastorate the church uilt a two-story educational building, had 169 additions, 94 by baptism, and the Sunday School attendance virually doubled. Rev. Edwards said he is sincerely sorry to be leaving because of the co operation and friendliness of the people and he expressed

Grand Jury Finds 14 True Bills

The Grand Jury of the 64th District Court returned 14 indictments Monday for the fall term

Indictments returned were the State of Texas vs.: Pete Wright, charged with cattle

J. C. Broyles, charged with cattle

Harold D. Thurman, charged with cattle theft.

Paul Stoce, charged with de frauding by worthless check. G. A. Benton, charged with bur-

glary, theft, and concealing. Joseph Jack Love, Jr., charged Weldon E. Walker, charged with

receiving and concealing stolen property.
Percy Lee Jackson, charged with

passing forged instruments on two Sanford Marlott, charged on two counts of forgery

F. A. Moose, charged with forg-Two more indictments were is

sued but names are being withheld pending arrest of suspects. Three of the defendants waived trial by jury and pleaded guilty before the court, with Judge E. A. Bills of Littlefield presiding.

Joseph Jack Love, Jr., waived trial by jury, pleaded guilty of the charge of theft of an automobile from M. E. Finley on or about April 9, 1950, and was placed on probation for a period of three

Percy Lee Jackson received each on two counts of forgery. He was charged with passing two checks, each for \$49.50, one to Bob Harvey at Piggly Wiggly Grocery and Market, and the other to Mrs. Rosie McKillip, employee of Cobb's department store.

Sanford Malott was sentenced to serve penitentary sentences of three years each on two charges of forgery, the same being those as passed by Jackson. Both Jackson and Marlott are negroes.

VISIT STOTTS FAMILY

Two sons of Mrs. Emma Stotts Carl Stotts, Fred Stotts and son Everet, of Hennessey and Seiling Okla., have been visiting here with Mrs. Stotts and sisters and brothers, Miss Lula Stotts, Mr. and Mrs. George Stotts, and Mrs. Mable Hunke,

Muleshoe Loses To Sudan In Last Game Of Season

In the bitterest cold weather anybody ever heard of for a football game, Muleshoe's Mules lost their final 1950 tussle to their old foes, the Hornets at Sudan last in their lives will be on hand. Thursday night, 13 to 0. Four fans They'll see Dancer and Prancer, sat in the east stand, 3½ in the Donder and Blitzen-in person, very west stand, according to some hardy soul who stood outside his car long enough to count them. Only a handful of people saw the game and those who did remained nside their autos with the motors unning and heaters at full blast. The Mules thus wound up their defeats, winning their first three ames handily then going down ike bowling pins in the next ontests. Two of their victories lowever were against conference competition, so they finished a-head of Morton in the district

tandings. It was a bitter night not only rom the standpoint of the weather, for three Muleshoe touchdowns plays were called back for some infraction of the rules. It was out in the decorations, pretty bad to brave the cold Santa To Sport N weather then see the Mules lose n such a way; but that's the way was. Sudan's band capered, or shivered during the half; Mule-

Several Sudan boys had been in an auto mishap, so the game was called off; then at midday it was 'on again" as the Sudan authorities called to request that the game be played, to which Muleshoe readily agreed. Levelland's Lobos surprised lots

shoe's band didn't go down.

of fans by downing the high riding Wildcats of Littlefield 26 to 14 since Post tied 26 to 26 with Siaton, the conference champion ship now is between Levelland and his Friday

According to statisticians, it was Sudan's 11th consecutive win over Muleshoe. Arlie Hogue, one of the boys in the auto accident, scamp ered 60 yards on a punt return in the first quarter to start the Hornets in their victory march . Pob Crouch rammed over from the three yard line for Sudan's second tally early in the second period, limaxing a 70-yard sustained Hornet drive.

Besides Hogue' Hornet players hurt in the car accident Thursday norning included Benny Robinson. Atkinson, Gleason Akin Billy Chester, Don Whitmire, and Bobby Lynch, but a fan couldn't ell they were hurt by the way hey played. The coach changed nis mind about playing after members of the squad, headed by Cocaptain Ackinson had asked him

of the Bailey County court. Ray Griffiths was foreman of the Grand Jury.

of Commerce discussed plans for a negro minstrel at their regular meeting at the Cross Roads Cafe Monday night.

Anyone interested in taking part n this minstrel or any other type program is requested to meet t the Cross Roads at 7:30 p. m. Friday night.

Date for the attendance contest close has been set for Monday light, Dec. 4. At present the side aptained by Tootie Middlebrook 50 points ahead of the side led Travis Barnett.

Travis Barnett was in charge of he program for the night and brought the group a short talk on the possibilities of human cold storage plants for the future

357 Votes Cast In **General Election**

total of 357 votes in the general election last Tuesday. Box No. 1 located in Muleshoe accounted for 187 votes.

Votes cast in other boxes in the County were: Box No. 2, West penitentary sentence of three years Camp, 37; Box No. 3, Mays, 4; Box No. 4, Bula, 34; Box No. 5, Baileyboro, 13; Box No. 6, Three Way, 67; and Box no. 7, Circle Back, 15. This was a very light vote to be cast in a General Election as compared to years past.

Sleigh bells will tinkle, reindeer with big antlers will prance and pant, their ankles popping in rhy-

thm with the bells, when Santa Claus comes to town November 12 for the big parade sponsored by the local service clubs. Many who never saw a reindeer much alive, that is. And fresh from the Frozen Arctic Circle, brought straight to Texas for the benefit of both children and grown-ups Grady Carothers, Goldthwaite anchman, is inside

Circle rounding up Santa's sleigh team. When they come to Mule 950 campaign with 3 victories to shoe for the parade it will be quite show and all free. The four reindeer wearing red leather harness with bright trimmings, and the children can tell which is Dancer, which is Blitzen, which Prancer, for each

vill have his name spelled out on is bright harness. Santa's sleigh will be a colorful rehicle, too. It will be bright red and silver with green trim with the words "Merry Christmas" spelled

Santa To Sport New Suit The white-whiskered friend of all children will have a new suit made by expert tailors. No imported or second-hand clothes for the ruddy happy gentleman. This suit set him ack a lot of money, but he strives to look his best when he comes to our city.

No expense has been spared by Santa's helpers to make this visit the most enjoyable occasion of this r any other year. Take those four reindeer.

They've been whisked thousands of miles from the far north in Alaska. Grady Carothers has made three trips to Alaska in as many years to help Santa Claus,

PREVUE OF LOCAL SANTA CLAUSE PARADE—Santa will come riding in a bright-colored sleigh drawn by four big-antlered reindeer in our town on December 12 at 4:30 p. m. Here he waves to children thronging the street in another parade like the one you'll see. Those sleigh animals are Donder and Blitzon, Prancer and Dancer, and they're coming straight from the Arctic Circle near Kotzebue, Alaska, to Texas to gladden the hearts of all child-

but it took him two years of trying before he could arrange to bring out reindeer, in the first

He had to travel by bus, boat, he lassoed the reindeer. All around huge antlers—and promptly grows rail, airplane and dogsled to reach them were howling wolves, trying a new set. They grow at the rate this big show.

the cold Arctic coast area where to slip up and kill the tethered the reindeer herds feed on rein-deer. This year's trip alone redeer moss in the snow. Carothers had to sleep out on the snow after

quired seven weeks.

Claus parade.

days a reindeer will have grown himself a brand-new set of horns. Up in the Arctic the reindeer use those antlers for snow plows, to push drifts out of their way.

It's natural, Carothers says, for a reindeer to breathe with his mouth open and tongue lolled out, like a dog, when he's pulling a sleigh. The antiered natives of the Far North have been equipped by nature for life in the Arctic. Hair protects the ends of their noses, between their hooves and all parts of their bodies.

Uncle Sam is mighty particular bout reindeer, and that's why it ook Carothers two years to arange to bring the first ones out. The Eskimos are particular, too, out they know Carothers and Santa vill take good care of the reindeer while they're in Texas.

Their native feed is a lichen alled reindeer moss, but down here they fare just fine on breakfast food. Rolled oats, that is, with a little mixed grain and a little eanut hay.

Children Especially Invited

Eskimos help Carothers round up and train the wild reindeer to work in harness hitched to a sled. Sometimes they're teamed with sled dogs at first, until they get used to harness. Then they're allowed to pull a sled by themselves, and finally they learn to draw Santa's bright sleigh.

Then they're ready for the big Santa Claus parade.

The business men of Muleshoe nvite all children of this area to come downtown for the Santa

Carothers will help Santa Claus and will return to Texas from the Arctic Circle to be on hand for

Muleshoe FFA Boys Adopt Hybrid Used Furniture Hogs, Keeping Abreast Of Times

have heard about hybrid corn and hybrid chickens but the Future Farmers have hybrid hogs. Yes they are produced the same hybrid hogs. they are produced the same way that hybrid corn is, by inbreeding the three different breeds or three different breeds or crossing them. The inbred hogs just like inbred corn are not of much value but when crossed the hybrid vigor makes fine hogs.

The U.S. Experiment Station at Beltsville, Md., began the experiment a few years ago and more recently the University of Minnesota, the University of Montana. and Oklahoma A&M College have been cooperating. The University of Minnesota has produced a new breed of hogs much more closely inbred than most other breeds which they call the Minnesota No. 2. Montana has also produced a new breed in the same way which they call Montana No. 1. They each have their own breed association and register hogs the same as other breeds. Oklahoma A&M Col-

They are registered the same as any other Durocs. Farmers in the Corn Belt are aking up the inbred hogs rapidly. They make three claims for such oks. 1. They have larger litters; They produce a much bette reass (more lean meat); and 3. They make more pounds of pork on less feed in a shorter time. The experiment stations say the first two have been proved but there is still some doubt about the third.

G. S. Dowell, Muleshoe Voc. Ag. eacher, says it is one of the newest things in animal breeding so ne thought Muleshoe Future Farners should have some of them. accordingly he and Travis Clemrought back some weanling pigs, F. F. A. Has Good ive gilts and a boar. In a truck or trailer? Ah, no, such pigs must ride in style so they came back in Mr. Dowell's Hudson car. Carroll Pool furnished a tarp which was put in the bottom of the trunk, some straw was placed on it and the pigs enjoyed the trip home. Travis says the tea-bone steaks were good and that Mr. Dowell's

Queen Ice Cream Stand without

Sig Kimbrough and Travis Clements will use the pigs as their F.F. A. projects and will soon have elenty of hybrid hogs for the community. Mr. Dowell explained that they were not bought for show but for strictly commercial production. You can't beat the F.F.A. boys keeping up-to date. Dr. Whatled of the Animal Husbandry Department of Oklahoma A&M says he believed them to be the only inbred hogs in Texas and MOOSE FREED ON sold them to the boys at the ordinary price they have to pay for good pigs in the local community. He

Several cases on the civil docket were heard in 64th District Court last week by Judge E. A. Bills. Several more are scheduled to be

tried this week. The case of H. D. Crawford vs. Billy Joe Foster, suit on note and mechanics lien, was set for Monday, Nov. 13. The case of N. M. Barree vs. new merchandise.

Alamo Casualty Co., suit for insurance loss, was postponed by agreement of both parties. In a special issues case, Clyde

L Bray, Sr., vs. W. C. Carver, a question on commission in sale of land, the verdict was returned in favor of the plaintiff.

The case of G. H. Cleere vs. Tex Employers Insurance Association was postponed pending settlement lege inbred three different strains on suit for compensation insurance of Durocs and then crossed them. for personal injuries.

The case of Violet (Cleere) Cox s. Texas Employment Insurance Association was also postponed ending settlement of suit. Judge Bills disqualified himself on the case of W. T. and C. C.

Cunningham vs. C. L. Yeager, et al, on tresspass to try title.

The case of Mrs. A. Schroeder collect note is still pending.

The case of Katherine B. Landon vs. D. P. Brown in suit for claim for inheritance was postponed at equest of all parties. The case of A. L. Davis vs. Art The case of A. L. Davis vs. Art er and gave the group the purposes of the course. At present, this pending Monday morning

Hogs For Sale

The Future Farmers have five good registered gilts ready to breed that they will sell for little more than market price. They are in a pen near the school house and car just won't hardly pass a Dairy the middle of next week. There are can be seen there any time before two Poland China gilts of the best Oklahoma breeding, two Spotted Poland China gilts out of Great Clory a famous Nebraska Boar and Dr. Cline of Amarillo champion of

the Texas State Fair in 1948, and Berkshire gilt of the Wenzel Big State Shows reeding at Brownfield. The boys have raised more than they can use but they are good individuals of the finest breeding anywhere and should be kept in the com-

FORGERY CHARGE

Carving Turkey Is Easy If You **Follow The Rules**

COLLEGE STATION, Nov. 14-Carving turkey at Thanksgiving or Christmas is really quite easy when in Woodman's Circle activities in a few simple rules are followed, says F. Z. Beanblossom, poultry marketing specialist for the Texas A&M College Extension Service. He has several suggestions for making the job easy.

First, Beanblossom advises using a sharp knife. Nothing is more discouraging than to saw away at a roasted turkey with a dull carving

Place the turkey on its back with the legs facing the carver. Pieces of apple or bread cut in wedge shapes and placed along the back of the turkey will form a cradle and hold the bird in

position. Hold the end of the drumstick with the left hand and cut down between the body and thigh. A little pressure applied with the left hand on the drumstick away from the body will help locate the of the leg easier.

To carve the drumstick and thigh first separate them at the joint. husband, R. L. Drake, of the home Next lay them flat on the platter a daughter-in-law, Mrs. Rosa and place the fork astride the Drake of Lubbock; Two sisters, bone and cut parallel to the bone. Mrs. Della Drake and Mrs. R. O.

After the necessary amount of dark meat has been carved, return to the bird and place the fork Shamrock; and three brothers, L. to the bird and place the fork astride the breastbone and cut into the wing joint. Press down to dis-

Next, start cutting the breast meat with a downward sawing motion. Thickness of slices may vary according to the carver and the needs of the occasion. When one side of the turkey is finished, reverse the turkey and repeat the

Beanblossom states that it is entirely proper for the person doing the carving to stand. It is also helpful if the guests will engage themselves in ordinary conversation and occasionally com-ment on how well the carver is doing the job. This helps to relieve the tension of those inexperienced in the art of carving turkey.

Mrs. Drake Rites Roadside Park **Held At Earth**

Funeral services were conduct-ed in the Methodist Church in Earth Sunday afternoon for Mrs. Vera N. Drake, for years a leader this area.

Mrs. Drake died at her home Saturday in Springlake following a long illness. She had returned home after having been hospitalized nearly a month in a Littlefield hospital.

The Rev. L. L. Hill of the Wellington Methodist Church officiated at the services, assisted by the Rev. McMaster of the Earth Methodist Church, where Mrs. Drake had her membership; the Rev. Bruce Giles of the Earth Baptist Church and the Rev. C. T. Jordan of the Springlake Baptist Church Burial was in the Earth ceme-

ery under the direction of the clean. Hammons Funeral Home of Little-Flower girls at the ceremony

were from the Springiake Wood-man's Circle, which Mrs. Drake organized. She had long been active in Circle work and in the hip joint and make the removal Eastern Star and church activi-

Mrs. Drake is survived by her E. Nelson, Guthrie, Okla.; J. D. Nelson, Mangum, Okla,; and William Nelson, San Gabriel, Calif.
Active pallbearers were Cecil

Parish, G. W. Simmons, Leroy Tarpley, Lee Bolinger, John Welch and Teal Loftis. Woodmen Circle rites were conducted at the graveside.

Mrs. Drake organized the Sunshine Grove Lodge No. 2275 at Earth two years ago as part of her work as district manager for the organization.

Before becoming district manager three years ago she had been president of the Littlefield Loyaly Grove Lodge for three years. -Lamb Co. Leader

One of the best face saving ideas is to keep the bottom half of it shut.

Being Improved Considerable improvements being made at Roadside Park in said to be improved. the west part of Muleshoe, Henry Clements, district highway over-

seer announced this week. Added equipment includes two new tables, 4 new burners, 4 garbage pits. The driveway into the park will be paved, and sidewalks will be laid.

The park now has plenty of water from the windmill. The well recently was deepened to furnish a constant supply of water, Mr. Clements said he is trying to get a pressure water system installed

"We are spending about \$1,500 in improving the park and making it more convenient", Mr. Clements "We want the people to use the park, and we ask only that they help us to maintain it in good condition, and to help keep it

MUSSON MILO MADE 6,100 POUNDS TO THE ACRE

A Stomach Can **Be Confusing**

takes in regards to anatomy is placing the stomach in that big general region from the waistline located mostly above the waistline, over on the left side extending towards the right under the ribs.

That region that you may call the diaphragm, that big muscle under the ribs, to those bones at gans and their coverings, muscles, and blood vessels twisting around

It may be divided into three general regions. The top part is known as the epigastric region and above that big bone that forms extends from about the fifth rib to the floor of the body, contains the the waistline. In here is located from right to left, touching the bottom of the diaphragm, the liver, the stomach and the spleen. The liver and stomach overlap like the portion of the large intestine a pair of shoes placed heel-to-toe where it empties into the rectum. and where they meet at the bottom In examining all these organs

Nat'l Farm Loan Office Bldg.

Phone 163-J

13

called the duodenum, and tucked into the C, like the hole in a donut is the pancreas.

The diaphragm forms a roof for these organs and a portion of the large intestine forms a floor, along the waistline. This may be considered the beginning of the second region of the abdomen, called the to the pelvis. The stomach is really umbilical region, easily identified by the navel or belly button, sometimes referred to as the spot where the Yankees shot you.

Reading from right to left under the stomach, your doctor refers to this portion of the abdomen, you as the abdomen, extending from find the part of the large intestine that operates against gravity going up the right hide of the abdo the hipline. It is a very crowded that part of the small intestine area with all sorts of essential or- called the jejunum at the front, the kidneys at the back, and over on the far left the descending colon, that part of the large intestine that carries food down.

The hypogastric region, place where the small intestine empties into the large intestine the appendix, the small intestine portion known as the ileum, and

is where the gallbladder is tucked in. The stomach turns into the small intestine in a C-shaped tube ance of your abdomen first, to a so if there are hules where there see if there are bulges where there shouldn't be, caved in spots where it's supposed to bulge, lines where circles are supposed to be, and discolorations. He knows what your stomach should look like for your age, build and occupation; when he runs into something that varies from that look, he starts a closer

The routine check of the stomach also includes a certain amount of punching around on those organs a new record, said Powell. Hometo see if they can be moved as coming's climax will be the foot-much as they are supposed to be or ball game between the ACC Wildcan be moved more than they are cats and Howard Payne College supposed to be. Each organ is at Abeline's Fair Park stadium supposed to fit within certain size Thursday afternoon at 20'clock. supposed to fit within certain size limitations, too, and as he feels your abdomen, he is checking the outline of those organs to ascertain Payne will be the last of 10 opponoutline of those organs to ascertain the size. Some organs are hard and ents. some are soft, so he has to punch a bit to find out what the organ feels like, making sure that the hard ones haven't softened up and the soft ones haven't become hard.

There are all kinds of swellings hat might appear in the abdomi nal cavity where they aren't supposed to be. Some tumor might esemble a hernia until your doctor pushes that swelling. If he finds a nole and the swelling gurgles when he pushes it back in the hole, then he knows it's a reducible hernia.

E. H. Kopplin, of Litchfield, Minn. who has been here the past week he knows it's a reducible hernia. rgan which break out of the wall hat forms a cover and protrude nto another space.

Each of these organs has a specific job to do, of course, and when one of them starts changing character, your doctor must trace all the way through the circuit to see if the change originates in the organ or is the result of some change elsewhere in the body.

When you go to the doctor with ome specific pain and can point out where it is, he can start from there and deduce where the trouble may originate. But the purpose of the routine physical examination is to foresee where difficulty may enter the picture of health, and the abdomen may present clues long before the symptoms become evident. Hidden as they are, these organs sometimes manage to keep heir secrets, but there are many tell-tale signs which your doctor can pick up and make good usage of for your welfare.

International Show Opens November 25 **Cattle Class Prizes**

Largest Ever Offered The 51st International Live Stock Exposition will be held this year in the International Amphitheatre at the Chicago stock yards from November 25 through December 2.

Increased prize money for the show should help to encourage the exhibition of top livestock from both the United States and Canada, exposition officials reported.

Prizes for all cattle classes will be \$61,370, the largest total ever

An international grand champion steer is shown above with owners, Cleo Yoder of Iowa, Henry W. Marshall, exposition chairman, and Dr. A. D. Weber who is slated to judge steers again this year.

offered. Many prize increases made in other breeds to mark the occasion of the golden jubilee show of 1949 are retained this year.

Dr. A. D. Weber, of Kansas State college, will judge the steers again this year. He is the only American to judge these classes since the exposition departed from the custom of having foreign judges two years

Other features in connection with the international that have been familiar in the years since 1900 include the grain and hay show, recognized as the world's largest competitive showing of farm crops.

Farm Expenses Increased Five Fold in Past Decade

most five-fold over the past decade and not many farmers would care to return to the "good old days" of low expenses-if they had to accept the level of income that accom-

This increase in cost of farm operation has been accompanied by some phenomenal changes in the composition of expenses. Machinery expense made up only 14 per cent of the total in 1935-39 while in 1947-49 it accounted for 21 per cent. Also, farmers are spending proportionately more for seed, fertilizer and crop expense than they spent 15 years ago.

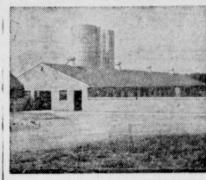

These changes have been accompanied by a substantial increase in man labor efficiency on farms.

Low Cost Essential For Farm Building Concrete Blocks Filling Farm Construction Needs

Concrete blocks are being used more and more in the construction of farm buildings, according to American Builder magazine.

They have been found very serviceable for dairy barn construction, low in first cost and in upkeep. Attributes that contribute to concrete's value as a building material on the farm are its durability, cleanliness, and weather and insect

Dairy barn of concrete blocks and with a roof of fire-resistant asphalt shingles provides an efficient structure low in cost and

resistant qualities. Concrete founda tions, masonry unit walls, concrete floors, and precast floor joists can be utilized to construct enduring farm structures and to repair old

If a dairy barn is well-constructed and insulated, body heat of the cowswould keep interior temperatures at 45 to 50 degrees in almost any kind of weather.

Lightweight aggregates in mono lithic concrete or in masonry units, vermiculite floors and underlayers, hollow core walls, and masonry units with granular loose-filled cores all have qualities that can contribute to the efficiency of rural buildings.

Less Than Half of U.S. Farm Homes Have Baths Less than one-half of the nation's

more than 4,000,000 farm homes have baths and only half of the rooms are heated, a study of rural housing accomodations revealed. Excessive standardization to re lieve early postwar housing short ages resulted in the building of mediocre farm homes of rectangu-Farm expenses have increased al- /lar, box-like design with too small ooms, too little privacy and ab-

sence of adequate plumbing and

heating facilities. However, under impetus of a U.S department of agriculture program, farm house plans have recently been developed that are expected to fulfill the fundamental requirements. The new plans call for space, equipment and storage facilities in proportion to the number of persons in the family.

Coupled with the benefits of a 10 year electrification program that has brought electricity to 75 per cent of the farm homes, this new home designing will open an untapped market for manufacturers of automatic equipment and home appliances.

Iowa Farm Earns \$4.50 Per Acre Each Month

The average Iowa acre is earning between \$4.50 and \$5.00 a month, cash, the Iowa development commission reports. Which means that the average 160-acre farm, under good management, is bringing in \$700, gross per month. Last year Iowa farmers made

\$59.40 for each of the 341/2 million acres in farms in the Hawkeye state. That figures out \$4.95 per month, per acre, or \$495 per month for each 100 acres of Iowa land being farmed. In the first six months of 1950the leaner half of the farmer's year -Iowa farm income came to \$27 per acre, or \$4.50 per month, per acre. That still is \$450 a month for

every 100 acres of farm land. The commission hastened to repeat that the figure is gross income. Out of it the farmer must pay for power and machinery, labor, feed, feeder stock and breeding stock before he arrives at his own salary.

STOCKS

In view of a report in The Commercial and Financial Chronicle,

merica's leading business weekly, that I have recently been putting lunch counters, this long opening my hard-earned pennies in a certain drug stock, many inquiries have come to me asking the reasons. Hence, this week let me give ten reasons therefor. (1) Drug stocks fare well

in times of peace and war. In these when our country "betwixt and etween", the wise investor will ot gamble on to sick-room needs. From electric either peace or heating pads and gadgets for war. He will in- warming baby's milk, modern drug vest his savings an industry Roger W. Babson which will be

safe in either case. (2) Some great new discoveries which may protect our families against polio, arthritis, and perhaps cancer are "on the way". As these come along drug stocks should boom as television and electronic stocks boomed last year. (3) The chemists and pharmacists of drug companies are given especial consideration in connection with labor laws and perhaps the draft itself. They are recog-

Phone 342-J

now temporarily depressed due to the industry's overexpansion dur ing the past five years and the nized as important workers and enneed of new capital to pay there-for. This fact should now make titled to such exemptions from rules and regulations as are possuch stocks more attractive to the wise investor than other stocks which are, at the moment, ver (9) Drug companies, like other

aw to be open any number of

days. As the modern stores have

period is a public convenience as

(5) Drug stores usually have the

choicest locations in a city, at

corners, or adjoining bus stations or

at otherwise frequented localities.

Instead of owning the property

they rent so as to be able to mov

as the trading areas of the city

(6) Drug companies are constant-

ly increasing their lines of mer-

chandise which is no longer limited

stores now carry most all home

electric appliances and-in addi-

tion—an unlimited variety of

(7) The public likes to buy at

drug stores whatever these stores

carry both on account of the

higher quality of the merchandise

and the intelligence of the sales

clerks. For several reasons the

drug industry insists upon higher

standards for their employees than

any other group.
(8) Earnings of drug stocks are

household supplies.

well as necessity.

change

good merchandising corporations are especially good hedges against inflation. The capital of such companies is almost wholly invested in commodities which rise in price as the purchasing power of the dollar

(10) There is also another personal reason for my investing in drug stocks. I have been most successful when investing in stocks of companies which are saving life or property and thus performing a national service. Certainly, the drug industry is both saving lives and improving the health and happiness of every community.

I even look forward to the time when humanely-minded persons who now seek positions in social service, or in educational fields, or even in church work will see the great opportunity for helping others by serving in a high grade drug laboratory or store. When this time comes it should give the industry a very high standing which should result in a much greater volume of sales at a larger margin of profit.

Just a word regarding merchandise stocks in general. I believe that most "store stocks" are pre-ferable to "manufacturing stocks". I hope to see the Dow-Jones Industrial Averages divided between these two groups. Investors will be greatly surprised when this is done. Finally-for several reasons-I prefer the "Chains" to the large Department stores; -whether they are drug chains or variety chains or chains. Moreover, chains which sell to women have better records than chains which sell only

VISIT IN FLOYDADA Mr. and Mrs. Pervis Miller visited relatives in Lubbock and Floydada

Dr. Putman Attends **Optometric Meet**

South Plains Optometric ociety, of which Dr. B. R. Putman f Muleshoe is a member, held a meeting Thursday evening, Nov-embre 9, at the Hilton Hotel in Lubbock. Dr. Louis R. Hill of Califhours per day and seven days a week including Sundays and holiornia, associate director of Ethics and economics of the Optometric Extension Program was guest speaker of the evening.

According to Dr. Hill, the careful study of growing children has re-vealed that much can be done to prevent visual handicaps in later The schools are having trouble teaching children to read, stated Dr. Hill, because of the visual handicaps that the children develop, such as astigmatism supressions, amblyopias and the like The great authority on school environment, Dr. Darell Boyd Harmon, has shown that school rooms, old fashioned seating, blackboards and misplaced light has actually created these visual defects in children, and the Optometrist is rapidly becoming the co-ordinator and consultant of the illuminating engineers, architects and others having to do with school construction and equipment, for Optometry is more and more concerned with the prevention of visual difficulties at an early age rather than having to overcome these difficulties adults. Mothers are cautioned to watch their children carefully at around three years of age, to deect any signs of crossed eyes, and at seven years of age to watch and note if the child is holding reading natter very close to its face-an almost sure sign of developing

CHRISTIAN SCIENCE SERVICES

"Soul and Body" is the subject

of the Lesson-Sermon which will be read in all Churches of Christ Scientist, on Sunday, November 19. The Golden Text is "The Lord God is a sun and shield: the Lord will give grace and glory: no good thing will he withhold from them that walk uprightly' (Psalms 84:11).

Among the citations which comprises the Lesson-Sermon is the following from the Bible: we know that if our earthly house of this tabernacle were dissolved we have a building of God, an house not made with hands, eternal in the heavens" (II Corinthians 5:11).

The Lesson - Sermon also includes the following passage from Science and Health with the Key to the Scriptures" by Mary Baker Eddy: "All creations of Spirit are eternal: but creations of matter must return to dust. Error supposes man to be both mental and material. Divine Science contradicts this postulate and maintains man's spiritual identity"

From where I sit ... by Joe Marsh

We Ask That "Fares" Play Fair

Judge Cunningham was telling about a taxi ride he took over to the County Seat last week. The cab was all littered with cigarette butts, plus candy and gum wrappers. This annoyed the Judge and he spoke to the driver about it.

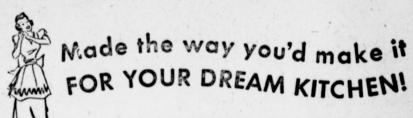

To his surprise the cabman answered right back. "Don't blame me," he said "Fast as I clear this taxi out, the fares just mess it up again. I like a clean cab as well as anybody, but a man has to have what have you). some co-operation!"

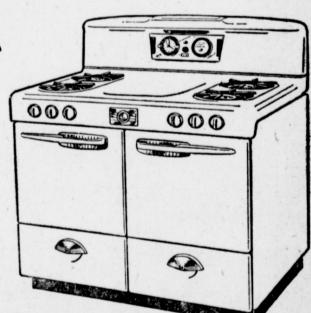

Judge figures the fellow was in the right, and maybe we ought to

do a little campaigning with the public. I agree with him-that's why I'm writing this article.

From where I sit, it's important for us to remember the fellow who's going to get in the cab after we leave it. Because he pays the same as we do, he's got the same right to a clean, comfortable ridejust as he has the same right to enjoy the beverage of his choice (be it coffee, beer, lemonade, or

Ask Your Gas Station Man!

OLDSMOBILE'S "ROCKET" ENGINE RUNS WITH SMOOTHNESS, POWER AND ECONOMY ON GASOLINE AVAILABLE EVERYWHERE TODAY!

Here's a question we'd like you to ask, next time you drive in for gas: "What do you think of Oldsmobile's 'Rocket' Engine?" Chances are, the attendant will tell you that the "Rocket" tops its field in smoothness, quietness, and quick-acting power. He'll probably explain that the "Rocket's" high-compression design gives it that thrilling response. We're sure he'll tell you that the "Rocket" uses gasoline available everywhere today-and makes every gallon go a long way! Your gas station man knows his engines, and he knows motor car values, too. That's why we think he'll tell you: "Yes, sir, mister-Oldsmobile's a smart deal!"

situation of the National Polio Foundation at the present time, they are asking that we conduct during the months of November and December, using the person to person method." This is an exby Mrs. Vernice Ford, of Lubbock, district campaign advisor.

A. S. Stovall, county chairman, said that he probably will call a meeting of directors to work out ways to carry forward this work and to aid Mr. Keeling in the drive

suggested. Mr. Stovall pointed out that to date Bailey County has had 4 polio cases this year, with one death from the dread disease occurring this week. Therefore he felt that this year the drive ought to be aimed at the goal of accumulating Mrs. E. R. Wright, librarian at more funds than ever before for the national program.

Much of the money paid in by the people in the annual March of Dimes campaign is used for never possible cure of polio.

CARD OF THANKS

We wish to thank the good people of Muleshoe for their many kindnesses during the illness and at the death of our beloved baby. Rickie Barbour Is

Rickie Barbour, 3 year old son of Mr. and Mrs. Wilborn "Pinkie" Barbour, is undergoing treatment in the West Texas Polio Center at Plainview. The child was taken to an Advance Special Gift Campaign the center Sunday night after local physicians had diagnosed his illness as polio.

Members of the family report cerpt from a letter written to Ray that he is doing as well as can be Keeling, chairman of the March of Dimes for Bailey County this year, was affected.

Mrs. Barbour and the baby had been to Snyder for a visit with her parents and she had taken him to a physician there during the visit. Dr. L. T. Green, Jr., of Green Hospital & Clinic in Muleshoe recommended that Rickie be taken to the Plainview treatment center. Bailey County thus counts its fourth polio case this year, all oc-

curing in recent months. FIFTH GRADE PUPILS IN

the Muleshoe Public Library, reports enjoying a visit of Mrs. L Thompson and her fifth grade pupils. She said that she would like to have more of the teachers ceasing research into the cause and vsiit the library and let the children look at the books. Mrs. Buck Ragsdale, library director, is especially interested in ordering books for the children to read.

A new book has just been placed on the shelves of the library, "The Disenchanted", by Budd Schulberg. It is the story of a gifted novelist whose talent was outrun by time. He also is the author of "What Makes Sammy Run?"

THE MULESHOE JOURNAL, Thursday, November 16, 1950

Farm fire losses amounted to \$95 million in 1949. Farm fires are often total losses. About a fifth of the property value of the farms is destroyed, as an average, each time a farm fire gets out of hand, according to insurance experience In some areas the average loss is much higher, and in big fires there is added loss of life and suffering rom major burns.

You can increase your chance tractor in the barn.

CARELESSNESS IS RESPONSIBLE of not losing YOUR property by giving attention to a few of the main hazards:

Don't smoke in the barn, in bed, or near inflamable liquids. Don't refuil tractor while engine s running or hot.

Don't use gasoline or kerosene to hasten fires Don't fail to inspect your butane or propane gas connections often. Don't fail to inspect your elect-

rical wiring often. Don't operate or store your

Epsilon Sigma Alpha Initiates Pledges Wednesday, Nov. 7, In Griffiths Home

Pledges were initiated at the regular meeting of the Epsilon Chi chapter of the Epsilon Sigma Alpha Wednesday night, November 8, in the home of Jane Griffiths. The meeting was called to order by the meets Nov. 7 president, Gwyneth Bigham.

The ceremony was quite effecvisited with his mother, Mrs. Joe tive and decorations were in the Jones. A brother of Chief and his family, Mr. and Mrs. Joe Jones and After the pledges had taken oaths. ive and decorations were in the lean Lovelady presented each with a pledge pin.

Those receiving pins were Mari-anna Bryant, Katy Lou Wells, Mitzi Barnett, Norma Osborn, Mary Fry and Marlene St. Clair. One pledge, Mary Chapman, was unable to atend. One new member, Jane Griffiths, was welcomed.

The club's project was discussed n the business session and reports vere given from various committees. Plans were also made for a Thanksgiving dinner.

Jerry Farrell was elected cor-responding secretary to fill the vacancy created by Bill Ed Jones when she moved. Beauties were ominated to compete for the Jonquil" Cover Girl. Members reeiving nominations were Jane cott, Jane Griffiths, Gwyneth igham, Marianna Bryant, Katy ou Wells and Marlene St. Clair After pictures have been made of the contestants, one will be chosen and sent to the "Jonquil" to com-pete with the girls from other

A Gift Mother Or The program was presented by Mrs. Elizabeth Woodley. Her sub-ect was "The Art of Conversation." After the program, the club was dismissed and refreshments were served by the hostesses, Jerri Farrel and Jane Griffiths. Those attending were Gwyneth Bigham, Jerri Farrell, Mary Forbes, Betty Glaze, Ellen Gupton, Ann Howell, Jean Lovelady, Marjorie Precure, Lois Witherspoon, Dorothy Beddingfield, Jane Griffiths, Jane Scott Marianna Bryant, Kathy Lou Wells, Mitzi Barnett, Marlene St. Clair, Norma Osborn, and Mary Fry.

Club Supper At Thanksgiving Is Set For Nov. 24

The Muleshoe H. D. club met Nov. 9 at the home of Mrs. J. A. Bryant with twelve members and three visitors present. A bake show was held with Mrs. D. M. Costlow giving constructive criticism and pointers on good baking.

It was voted to have Thanksgiving supper on Friday, Nov. 24 at the home of Mrs. John Mock. The club will furnish baked ham and the members are asked to bring other foods, silverware, etc. to complete the meal. The birthdays of Mrs. A. W. Copley, Mrs. C. H. Gillis, and Mrs. J. T. Shofner will be honored at this time.

The hostess served delicious refreshments of angel food cake, strawberries, mints, chocolate, and coffee to the following:

Mesdames E. H. Baugh, Jack Stallings, Mack Hale, N. W. Lee, C. H. Gillis, S. C. Caldwell, O. L. Dutton, Gene Williams, D. M. Costlow, C. M. Sims, C. E. Priscoe, Dave Aylesworth, C. E. Holland and A. W. Copley.

tep up cotton yields from 25 to 00 per cent. Increased per acre ields can meet national cotton needs without expanding plant-ing to unsafe land, Mr. Merrill oints out.

3. Keep cotton off land where cotton root rot is common.

4. Think it over before plowing up good stands of grass. Farmers or grazing and seed harvesting.

In most areas, information on and suited to cotton is available, Merrill said. Landowners can nake use of the help that soil conervation districts can give them in eciding what land can produce cotton profitably and without damage. In the Plains areas of Texas and Oklahoma, nearly 5,-000,000 acres offering almost no resistance to the forces of erosion. Legumes and other winter cover that have been planted can be worked into the soil next spring. These crops improve the soil, proect it against erosion during a danger period and offer winter grazing in addition to increasing he yields of the cotton crop that follows, Mr. Merrill said.

It is seldom wise to follow coton with another crop of cotton, Mr. Merrill pointed out. However, when it is done, a legume cover between crops of cotton will help to control erosion, increase productivity and reduce cotton root

Farmers have been getting more grass - conscious in recent years, the regional director said. More than 250,000 acres have been put in native grasses alone in Oklahoma and Texas during the las two years and still additional ad age in introduced nearly all of this land grass for livestock is the safest most profitable use, er up such plantings with the questionable prospect of a high cot ton yield would be poor business grasses fit in well with rotations that include cotton. Some of these grasses are blue panicum, weep ing and sand lovegrass, King Ranch bluestem and tall fescue. Muleshoe, Texas

Choose Cotton Land Wisely For Soil Conservation

Louis P. Merrill, regional head f the Soil Conservation Service, has some timely suggestions for farmers who are considering ex-pansion of their cotton acreage in 1951. Merrill fears that some farmers, with the lifting of government cotton restrictions, may undo much of the good conservation work they have accomplished unle's s ly and take steps to protect it.

Here are Mr. Merrill's recom-mendations for the farmer planning to increase his cotton acre-

useful in conservation farming. Planting cotton in alternate strips with tall-growing crops such as grain sorghums is essential in grain sorghums is essential in lamps nearer the outside edge of lamps nearer the outside edge of helping to control wind erosion. Stubble mulching, contour culti-vation and terracing help conserve moisture and prevent eros-

Soil conservation districts can nelp farmers needing assistance in making decisions on what land to plant cotton and on how to use these lands to the best advantage, Mr. Merrill said.

New Lincolns Now On Display

Smart new styling that further enchances their traditional luxury and dignity is the dominant feature of the 1951 Lincoln and Lincoln Cosmopolitan cars which will be placed on display in dealer showrooms tomorrow.

From the clean-cut lines of the new front grille to the smart new rear section, the 1951 Lincoln presents an appearance of smartness and quality that exceeds anything quiet elegance.

these cars to the public," Benson wear and cracking. Ford, vice-president of Ford Motor Company and general manager of the Lincoln-Mercury Division, said mopolitan, including numerous in announcing the new cars. "They two-tone combinations. The Linour previous models, and in additwill enable them to continue as

true leaders in their field." Most visible of the changes in the 1951 Lincoln are the radically new rear quarter panels and fenders, which have been redesigned to emphasize the long, low lines that distingushes the car. New rear bumpers sweep around the fenders in a graceful curve to give added protection against damage McFerrin Stowe and children. as well as increased beauty of appearance. zuu,uuu tresnmen can't be wrong!

We believe that something has happened in 1950 that you should take to

Ever since this year's Buicks were introduced, their big bulge in sales has come from people who traded other makes of cars for this bounteous beauty.

The total is more than 200,000.

That's 200,000 "freshmen" added to the roll call of Buick owners-200,000 people who must have sized up the current version of the cars they owned, and decided that Buick offered more thrill, more comfort, more satisfaction for the

Beyond that, of course, there were other hundreds of thousands who already owned a Buick and bought a new one

this year. But we're speaking here of new owners only.

We can name many reasons for this landslide - including Fireball power an incomparable ride - and Dynaflow Drive.*

We can remind you that the Buick SPECIAL, SUPER and ROADMASTER just about blanket the range of a car-owner's aspirations-matching prices with many sixes in the lower brackets-matching distinction with the finest in the fine-car field.

We might add that Buick prices are doubly attractive-since their list prices include many features customarily on the "extra" list.

But why try to spell out all the reasons

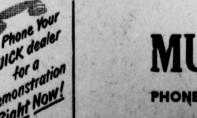

Buick wins in a showdown? The proof of the pudding is in this great car itself. Better come in-look it over-and find out what an unbeatable buy it is.

Calumet Farm Makes Profit Grazing Cattle

Famous Horse Farm Handles 200 Yearly

Proud-faced titans of the turf world and white-faced hereford steers share the lush Kentucky blue grass carpeting the 1,200 acres of pastures at Calumet farms, Lexington, Ky.

Calumet is grazing some 200 head of hereford steers shipped in last April from the panhandle of Texas. They are bought as long yearlings and grazed through No-

White-faced herefords shown above have become an important factor in pasture control at famed Calumet farm, Lexington, Ky., the home of Kentucky Derby winners.

vember. Their average gain ranges in the neighborhood of forty pounds

Since Calumet is not equipped to fatten cattle for the market, manager J. P. Erbnelhardt has keyed his cattle program to the eightmonth grazing period.

"We find," he says, "our net profit amounts to as much in this shorter period of time as if we had carried them on a feeding program for 12

Ebelhardt and his staff of helpers also prefer herefords "because they seem a quieter type of cattle and handle well in moving from pasture to pasture."

Farmers Use Larger Part Of Income for Fertilizer

Farmers spend a larger proportion of their income for fertilizer than they did before the war, a recent survey revealed. The average amount used, however, may still be no more than half the amount that could be used econo-

mically. A fairly general standard is that a farm should be using the equivalent of 100 to 200 pounds of single strength fertilizer per year for each tillable acre in the farm. A farm of 160 tillable acres using 150 pounds per tillable acre per year would require 12 tons of fertilizer

per year. For most economical operation it seems certain that crop expense is not an item to reduce but one that the average farmer needs to increase. For example, good seed is high priced, but generally the increase in yield offsets the added

Atomic Farmer

Aaron Ganz of Chicago, "atomic farmer" who has grown radioactive tobacco plants, received his doctor of philosophy degree in pharmacology at the University of Chicago.

Ganz, working at the university's "atomic farm", grew tobacco plants in air containing radioactive carbon dioxide. Minute doses of nicotine extracted from the radioactive plants was injected into rats and mice for the purposes of studying the behavior of nicotine in the human body. Ganz's tests showed that the body quickly gets rid of nicotine. The liver was shown to pick up more of the nicotine than any other organ, the brain the least.

Heifers Should be Bred By Weight — Not Age

Many dairymen have calving troubles in heifers even though they don't breed them until they are 15 to 16 months old, specialists report. These calving difficulties are usually due to small heifers that have not been grown out properly, the

specialists said. Feeding of proper growing ration will mature heifers quicker and start them on the road to produc-
