

## Gardner Urges Early Mailing

Announcement that the Muleshoe postoffice will be open each Saturday afternoon until Christmas was made today by A. J. Gardner, postmaster. The office has been closing at noon each Saturday, but to facilitate Christmas mailing the force will be on the job Saturday afternoons Dec. 16 and 23. The office will be open until 5 p. m. Mr. Gardner said rural customers can receive their mail on these afternoons provided their carrier is in the office when they call.

Mr. Gardner urged that everyone mail their Christmas cards and packages at once to help the postal department and to insure delivery on time.

The postmaster said it will be appreciated if those who have a number of cards to mail will group them by states or towns, for this helps the handling of the mail.

When one is not certain of an address, he should put a three cent stamp on the envelope so that it can be forwarded. Two cent stamps will carry a Christmas card if the envelope is unsealed.

## Dairy Cattle Awards Listed

FORT WORTH, Dec. 14—Dairy cattle will have their inning at the 1951 Southwestern Exposition and Fat Stock Show. Premiums in this division amount to \$4,493, including the prizes in the boys' dairy calf show.

In the open show for Jerseys, awards total \$2,279 and for the Guernseys, \$1,679. In each breed, junior champion bull, senior champion bull and grand champion bull will be chosen; also junior champion female, senior champion and grand champion female; likewise junior get of sire, senior get of sire and produce of dam.

Get of sire entries will consist of four animals (not more than two bulls) and they need not be owned by the exhibitor. Produce of dams will consist of one cow, one bull and one calf, all of one cow, and the exhibitor need not own them.

In the Jerseys, there also will be county herd competition. A herd will consist of eight animals (two bulls, two cows and four heifers) and become new members of the Muleshoe city council, which is now composed of the mayor and five aldermen.

The three were elected Saturday to fill the three vacancies created when the people voted to change from the commission to the aldermanic form of city government.

Hart Received 77 votes; Bovell 76; and Greer 75 in the election in which 78 votes were cast. Written votes included one each for Pat Bobo, Morris Douglass, and Tom Zimmer.

Old members of the council were H. D. King, mayor, Jim Cox and Loyd Roberts, commissioners.

**3,600 Bales Ginned To December 1**

Only 3,600 bales of cotton had been ginned in Bailey County to December 1, 1950, a report made public by Marion F. Harris, special representative of the Bureau of the Census shows. This compares with 35,858 bales ginned in the county to the same date last year.

It is believed here that the county's ginnings will total little more than 5,000 bales. Last year the county produced 69,642 bales.

## Irrigation Firm In New Building

Martin Oliver this week announced ready to do business in Muleshoe under the name Irrigation Supply Co. The firm is established in a building just completed for them in the "Y", near the junction of the Plainview and Friona highways in the north edge of town.

Mr. Oliver has been engaged in this business since leaving the service at the end of World War II. He will repair irrigation pumps and will figure turn key jobs on complete irrigation plant installation. The firm will sell Layne & Bowler irrigation pumps.

**12 Inducted In Armed Forces**

Twelve men of the three counties of Bailey, Lamb, and Cochran were inducted into the Armed Forces of the United States December 6, according to announcement of the draft board, located here. They are:

Fred L. Bass, Whiteface, Orvel Edward Summers, Morton, Charles Billy Payne, Morton, Robert Taylor, Goodland, Leroy Wallace, Spade, Theron L. Hill, Sudan, Ralph Edward May, Sudan, James O. Barnett, Morton, Weldon Keith Corder, Bula, Ernest Carl Swanson, Littlefield, Roy Lee Robbins, Muleshoe.

The board has a call for 60 men to take their physicals in December and sent that number to Amarillo Monday. Five men will be inducted here and on Jan. 8th 37 more will report for physicals.

**LEAVES THIS MORNING**

Mrs. Babe Barbour left this morning for Oceanside, Calif., to join her husband who is serving in the Marine Corps. She was tendered a farewell dinner Tuesday evening in the private dining room of the Cross Roads Cafe by a group of friends.

**Local Markets**

## Several Thousand Visited Muleshoe Tuesday And Met Santa Claus Here

The biggest crowd ever to visit Muleshoe turned out Tuesday to meet Santa Claus, who came in with his sleigh and reindeer at 4:30 o'clock and paraded through the business district. Santa Claus interviewed hundreds of children about what they wanted for Christmas.

Santa Claus came to Muleshoe under auspices of the Lions, Jay-Cees, and Rotary Clubs, who shared the expense of his visit here and bought fruit to give each child.

Around 1,500 apples were distributed to the children and the supply ran out before all received one, but the party was about over so nothing could be done about it.

People were here from all over the county, and many came in from Farmer and Lamb Counties to greet Santa Claus and visit with their friends in Muleshoe.

Business men interviewed expressed the opinion it was a good stunt for the merchants to sponsor this event and were pleased with the result.

They felt that Santa's visit helped to initiate the Christmas spirit in the city and to set the people to work on their Christmas gift buying. For Christmas, be it remembered, is just around the corner.

## New Council Men Qualify

N. H. Greer, W. T. Bovell and Houston Hart qualified this morning and became new members of the Muleshoe city council, which is now composed of the mayor and five aldermen.

The three were elected Saturday to fill the three vacancies created when the people voted to change from the commission to the aldermanic form of city government.

Hart Received 77 votes; Bovell 76; and Greer 75 in the election in which 78 votes were cast. Written votes included one each for Pat Bobo, Morris Douglass, and Tom Zimmer.

## 3,600 Bales Ginned To December 1

Only 3,600 bales of cotton had been ginned in Bailey County to December 1, 1950, a report made public by Marion F. Harris, special representative of the Bureau of the Census shows. This compares with 35,858 bales ginned in the county to the same date last year.

It is believed here that the county's ginnings will total little more than 5,000 bales. Last year the county produced 69,642 bales.

## Irrigation Firm In New Building

Martin Oliver this week announced ready to do business in Muleshoe under the name Irrigation Supply Co. The firm is established in a building just completed for them in the "Y", near the junction of the Plainview and Friona highways in the north edge of town.

## Bee Keeper Lectures Lions

B. T. Rucker of Lubbock, professional surveyor who has bees as a profitable hobby, was guest speaker at the Muleshoe Lions Club luncheon at Gerald's Cafe Wednesday noon.

Mr. Rucker outlined the different classes of bees and the purpose of each kind of bee in the colony. He said the two most popular kinds of bees in the U. S. today were the Italian and Caucasian. He demonstrated the various equipment that each bee keeper uses for protection against stings and also displayed a small colony of bees encased in glass.

The first class of bees is the workers. He enumerated the different kinds of worker bees and outlined their job. The nurse bee, taking care of the young; carpenter bees, building combs and cells; blower bees, keeping the hive at the proper temperature; guard, to protect entrance to the hive; scout, to find new homes for the swarm and locate pollen and nectar; queen attendant, to care for queen bee; water carriers pollen carriers; and nectar carriers. He stated that approximately 16,000 trips to the fields were required for a bee to produce one pound of honey. Because a worker bee works so hard, his average life span is from three to six weeks.

The second class of bee is the drone, whose purpose it is to mate the queen. After the drone has chosen her mate, the drones are killed in the winter so the other bees won't have to feed them. The drones do not work.

The third class is the queen bee. Her job is to lay the eggs to populate the colony. She will lay between 200 and 2,000 eggs per day. The queen bee comes from the worker class but when she is less than three days old she is fed royal jelly which develops her into a queen bee by the end of sixteen days.

Mr. Rucker cited the usefulness of bees and gave some technical information about them, saying "bees will make you a 'sweet' hobby and you will have a 'swell' time."

## Santa To Be At Sudan Tuesday

Santa Claus made a return engagement for Sudan for next Tuesday, December 19, at 3 p. m. This was necessary because of a mix-up in the dates put Santa at so many places he couldn't make it.

Sudan people turned out en masse Tuesday morning but instead Santa and his reindeer went to Levelland. He was to be in Muleshoe at 4:30, so some rearranging had to be done. Sudan is inviting all the kids to meet Santa there next Tuesday.

## THREE WAY HELD BIG AUCTION SALE DECEMBER 12

H. H. Homsley, superintendent of Three Way school reports that the Auction Sale held at the school Tuesday night, Dec 12 was a big success. The gross receipts from the event were \$500.

Mr. Homsley expressed the appreciation of the school for the fine support given for this occasion.

## LETTERS TO THE EDITOR

Dear Editor:

The Year 1951 will soon be here, so will subscribe for another year for your paper. Enclosed you will find \$2.50 for same.

We had a very dry season. Yet crops were good considering, better than most people expected. As you know we raise small grain, corn and soybeans, and hay. A good many wells and streams gave out, and most pastures were short.

Have around 5 inches of snow now. Drifted in places. Coldest zero so far.

We always look for The Journal and enjoy it very much.

We wish you and yours a Merry Christmas and a Happy New Year.

Mr. and Mrs. Levi Jensen.

**PRESIDENT'S ASSISTANT**—The Rev. C. G. Sewell of Tullia, shown above, is the newly elected assistant to the president at Wayland College, J. W. Marshall, shown with him. He was elected at a recent meeting of the Wayland board of trustees, and is to concentrate on a building fund for the college.

## The Journal To Publish Babson's Business Outlook For 1951 On 28th

The Muleshoe Journal will publish the BABSON BUSINESS AND FINANCIAL OUTLOOK FOR 1951 on Dec. 28.

We bring this article to your attention because we know that our readers who have followed these Outlooks in the past, and those who have not had this enriching experience, will be vitally interested in Mr. Babson's views on 1951. Also, we feel that Mr. Babson's uncanny accuracy in predicting future Business Trends makes his Outlook for 1951 worthy of presentation to our reading public.

Mr. Babson's 1951 Outlook will contain 50 Forecasts covering such important topics as:

- General Business
- Commodity Prices
- Taxes
- Retail and Foreign Trade
- Labor
- Deficit Financing
- Farm Outlook
- Stock Market
- Real Estate
- Politics

## John Wicker Is Compress Manager

John Wicker has been appointed manager of the Union Compress & Warehouse Co. plant in Muleshoe and at the same time will act as manager of the company's Sudan plant. He will continue to reside at Sudan for the present.

John Underwood, who managed the local plant last season, has been transferred to Littlefield as assistant to the manager.

Mr. Wicker said Tuesday the Muleshoe yard has something like 10,000 bales of cotton now on storage.

## JayCees To Have Ladies Night

The Muleshoe Junior Chamber of Commerce will have their ladies night dinner Monday night at the American Legion Home at which time the winning members of an attendance contest and their wives and the wives of the losing side will be guests of the losers. The program is scheduled to start at 7:30 p. m.

This will be the last meeting of the JayCees until Monday night, January 8th.

## GLENDA STEVENS WILL BE HOME FOR CHRISTMAS

Glenda Stevens, daughter of Mr. and Mrs. Elmo Stevens of Muleshoe, is counting the days and the hours before she is scheduled to arrive Dec. 21 to spend Christmas with the family.

Glenda, who graduated from the Muleshoe high school last spring, has been in Long Beach, Calif., since shortly after school was out, residing with her grandmother, Mrs. Ann Farley, who will come here with Glenda for Christmas. Glenda is office manager for Walker's Collection Service in Long Beach.

Since being in Long Beach, Glenda has taken a very active interest in the YWCA, of which she is now a member of the young adult council for the area.

## 8 SHOPPING DAYS till Christmas

The United States Civil Service Commission announces examination for the position of Storekeeper, salary beginning at \$2450 per annum. Employment will be at Reese Air Force Base, Lubbock, Texas. Detailed information and the necessary forms may be obtained from the Post Office, The Director, 14th U. S. Civil Service Region, 210 South Harwood Street, Dallas 1, Texas; or, the Executive Secretary, Board of U. S. Civil Service Examiners, Reese Air Force Base, Lubbock, Texas.

## Blackburn Buys Downtown Corner For Future Home Of Food Store

Purchase of a 50 by 140 ft. tract of ground from Bailey County at the corner of Avenue D and Main streets was announced by Horace Blackburn this week. The tract contains the old red brick former bank building, which will be torn down.

Mr. Blackburn said he will build on the corner and establish a modern food store on the site. Plans for the building have not yet been drawn.

The building to be wrecked is probably the oldest brick building in the town or county. In recent years it had been occupied by the FFA county organization and by the Farmers Home Administration local office.

Blackburn's Food Market is now located in the Bulloch building on Avenue B.

## Two Hour Song Program To Stem From Palo Duro

CANYON, Dec. 13—Two hours of outstanding Christmas songs and music will be broadcast by tape recording from the perfect voice box of Palo Duro Canyon December 15th to 31st. The recorded music fills the Canyon and gains mellowness and volume as the sound ascends the Canyon walls.

Malcolm Clark of the Clark Radio Service after numerous experiments used some 3,000 feet of wiring to establish loud speakers near the entrance of Christmas Tree Canyon, and some 1100 feet drop down. The music echoes through several narrow canyons, and seems to gain in volume as it climbs Mesa Mecca.

This music is a part of the Christmas lighting and observance program at Palo Duro Canyon each evening during the Christmas season. The Amarillo Bel Canto Chorus, the Pioneer Chorus of Wayland Baptist College, the Amarillo Barbershoppers Chorus, the West Texas Acapella Choir, the Blackburn-Shaw quartet, organ and chimes by Don Kennedy and Jay Thomas, and perhaps two other school groups will make up the two hour program, which will be broadcast twice each evening.

Visitors may hear the music from their cars, from El Coronado Lodge, and about log fires at the lodge and at Number One Crossing. Cowboy coffee will be served from a big campfire pot at Number One Crossing.

## Taylor Service Station Opens

Howard Taylor announced this week that he has taken over the operation of the Conoco service station, located one block north of the postoffice, on Sudan highway at East 1st street.

Taylor has been employed at the Ray Service station for several years.

The station, which is owned by Will Harper, will be known as the Taylor Service Station. They will handle Conoco gas and oils, and all major company oils, fan belts, and frams, etc.

## Band Members To Take Part In Lubbock Clinic

High school band students from all the high plains and as far south as San Angelo will converge on Lubbock and Texas Tech Friday and Saturday for the annual Texas Tech Band Clinic. Five bands numbering 110 players will rehearse simultaneously in different rehearsal rooms in Lubbock during the mornings of both days. Afternoon sessions will be devoted to the Tech Band playing the Contest music for the band contests next spring.

Muleshoe High School is fortunate to have band students who are accomplished enough to gain admittance to one of the clinic bands. The class A band, made up of students from schools of our approximate size will include the following students from Muleshoe:

Jackie Bovell, Holly Ann Cox, Marilyn Gupton, Janell Green, Darrell Myers, Mona Smith, Helen Stovall and Levalle Bellar.

Additional band members from Muleshoe will attend the two day clinic as observers. These students include: Logan Cummings, Phil Provence, Johnny Williams, Beverly Heathington, Claude Locke, Van McCormick, Arch Scarbrough, David Sanders, Doris Copley, Maxine Black and Roger Gorrell.

## LOCAL MINISTERS HELP IN IOWA CHURCH CAMPAIGN

Two local Methodist ministers, Rev. Thomas Bandy and Rev. Carroll Jones, took part in the statewide evangelistic campaign just staged in Iowa. Rev. Bandy was in a revival at Brooks, Rev. Jones at Carbon. They were guest pastors in the Methodist "Advance for Christ" which covered the state.

They said some 10,000 persons made commitments during the drive. The two reports having worked in 13 below zero weather which struck the hog and corn country during the drive.

## STOREKEEPER EXAMS

The United States Civil Service Commission announces examination for the position of Storekeeper, salary beginning at \$2450 per annum. Employment will be at Reese Air Force Base, Lubbock, Texas. Detailed information and the necessary forms may be obtained from the Post Office, The Director, 14th U. S. Civil Service Region, 210 South Harwood Street, Dallas 1, Texas; or, the Executive Secretary, Board of U. S. Civil Service Examiners, Reese Air Force Base, Lubbock, Texas.

## FFA Active In Varied Fields

Editor's Note: A question and answer series prepared for The Journal by G. S. Dowell, Voc. Ag. instructor, reveals the wide variety of activities participated in by the Muleshoe FFA. These questions and answers tell the story:

Who were the carpenters who remodeled the old barns? The Future Farmers.

Who were the plumbers who piped water into the vocational agriculture barns and to the F.F.A. Hog farm? The Future Farmers.

Who were the welders who made those feeding and watering devices out of metal barrels and hot water heaters? The Future Farmers.

Who tests seed for germination for the farmers of the Community? The Future Farmers.

Who takes soil samples and has them tested for the Muleshoe Area? The Future Farmers.

Who entered 25 hogs in the Texas State Fair and placed 23 of them in the money premiums? The Future Farmers.

Who held the first banquet of the school year? The Future Farmers.

Who had the first hybrid hogs in Texas? The Future Farmers.

Who broadcast the first high school program of the year? The Future Farmers.

Who wins more premium and contests than any other organization? The Future Farmers.

Who operates their own thrift bank and loans money to its members? The Future Farmers.

Who earns money from their school work while learning to farm? The Future Farmers.

Who has the only project in school that makes money without donations? The Future Farmers.

Who conducts their meetings in accordance with strict parliamentary procedure? The Future Farmers.

Who has their own leadership training? The Future Farmers.

Who has more money invested in productive enterprises than any other group of students? The Future Farmers.

What organization can borrow money at commercial banks without security? The Future Farmers.

Who's building hog houses, sheep feeders, poultry equipment? The Future Farmers.

Who has part of their classes in the fields, in the cow lots, the hog pens, by the side of an irrigation well? The Future Farmers.

Who grades and staples their own cotton? The Future Farmers.

Who visits the biggest livestock feeding projects in the County such as the Arthur Shafer Sheep Feedings Pens and Barile Company Booky Williams Cattle Company feed lot? The Future Farmers.

Who has the leading farmers of the County conduct part of their classes? The Future Farmers.

Who visits commercial businesses such as Farm Machinery Agencies where the manager explains the business and the use of the latest machinery to the class? The Future Farmers.

Who has their own moving picture projector and microphone? The Future Farmers.

Who furnishes the most good breeding stock for the County? The Future Farmers.

Who knows the most scientific and practical information about their own business. The Future Farmers.

Who has the prettiest and cutest sweetheart in West Texas? The Future Farmers.

What organization has the most members in the Muleshoe High School? The Future Farmers.

What is the biggest high school organization in the world? The Future Farmers of America.

## VISITORS FROM STINNETT

Mr. and Mrs. J. B. Williams, has as visitors over the week end, Mrs. Edna Williams and Mrs. William of Stinnett.

#### BABSON

### Individual Initiative

BABSON PARK, Mass., Dec. 8—Three stories from different sources and from different parts of the world suggest what happens to initiative in the "Welfare State".

#### Fair Deal Initiative

A friend of one of my associates was travelling in Europe recently. He found himself in a railroad station in the Russian Zone of Austria with his wife critically ill. He immediately requested the station master to summon a doctor. The station master did so but in a few minutes returned to say excitedly, "The doctor says he won't come unless he's paid."

Roger W. Babson

The doctor upon arrival pointed out that they had a system of medi-

cine, that he had already seen more than his quota of patients for the day, and that more calls meant no more for him than additional marks in the book. He, therefore, would make no more calls unless he was paid in advance! Here is regimentation in medicine. Even the professional man, long an example of initiative and resourcefulness, is deprived of his heritage.

#### Two More Examples

We don't have to go to Russian satellites or to Britain to find examples of loss of initiative. Recently, the director of personnel of one of the largest automobile manufacturing concerns visited Babson Institute. We were discussing pros and cons of labor unions. This particular individual was an enlightened person and pointed to one of the good things that the labor unions have done for both worker and the automotive industry. But on one point he really exploded. Said he, "I can never forgive any union for killing

the initiative of the man who wants to do eight hours' work in six or to do it better than another worker."

This past summer, a neighboring school teacher had an unfortunate experience. He was mowing his lawn, and his little girl of nine was helping him rake the grass. Other children in the neighborhood came along and asked the little girl, "How much are you getting?" When she replied that she was raking the grass because she liked to help her daddy and that she wasn't getting anything but a lot of fun, her playmates chastised her with a sharp, "Sucker! What a dope you are!" The sequel to the story is that the father was so perturbed about the general attitude of the parents and children in that particular neighborhood that he moved away.

#### The Great Issue Of Our Times

What has happened to those home-spun qualities of character, initiative, drive, and resourcefulness that made this country so great? The childish notion that someone will take care of us without our making any effort ourselves is fantastic economics. Individual initiative is the foundation stone of security, health and prosperity. The present attitude to do and give as little as possible will ultimately bring on depression and unemployment.

The greatest issue before the American people today is to find public officers who will give us the social climate necessary for the development of individual initiative, self-reliance, self-betterment, and self-achievement. Felix Morley, recently writing in NATION'S BUSINESS, stated our problem in plain words when he said: "The theory that men owe it to themselves to win their way has been forgotten. Instead of believing that all men are worthy of respect... by virtue of their individual efforts... we tend to say that all men are worthy of support by virtue of political action."

#### CHRISTIAN SCIENCE SERVICES

"God the Preserver of Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 10.

The Golden Text is: "The Lord is my rock, and my fortress, and my deliverer; the God of my rock; in him will I trust; he is my shield, and the horn of my salvation, my high tower, and my refuge, my saviour." (II Samuel 22:2,3).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "He that is our God is the God of salvation he issues from death" (Psalms 68:20).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The central fact of the Bible is the superiority of spiritual over physical power" (page 131).

#### HERE FROM CALIFORNIA

Pat Sanders, a former resident of this county, now of Visalia, Calif., has been visiting here with his brothers, Guy Sanders of Enochs, and Claude Sanders of Muleshoe, and with his mother, Mrs. Anna Sanders of Muleshoe. He was accompanied here by a brother-in-law, E. Reece, also of Visalia.

#### OKLAHOMANS HERE

Winston Smith and Charles Vanderpool, of Madill, Okla., were here on business last week. The two visited with Horace Blackburn, an old friend.

Read The Journal Want Ads Every Week.

### Reflexes May Reveal Illness

Along with parlor tricks during the holiday season, the testing of reflexes frequently adds hilarity to gatherings. It is always amazing to find out that parts of your anatomy do things you're unaware of, when you think you have yourself quite under command.

Reflexes are those actions of muscles that respond to a stimulus without sending the message to the brain. While the testing of those reflexes at a party seems to add to the enjoyment, the testing in the doctor's office is sometimes a vital part of your physical examination.

Blinking the eyes when a piece of cotton is stuck in your eye, gagging when something touches the back of the mouth, and bending the big toe down when a finger or stick is stroked across the sole of the foot all come under the heading of superficial reflexes, reactions of the skin and mucous membranes.

Arm, leg and foot reflexes are tested not only for enough reaction but for exaggerated reaction, too, which may be significant of nerve path disorder. The foot jumps out when you tap the knee just below the kneecap, the foot jerks down when you tap the back of the ankle, the forearm and hand jerk up when you hit the biceps muscle on top of the upper arm, and the forearm and hand pull down when the triceps muscle on the bottom of the arm is tapped. Those muscles all have to be nicely relaxed to give any medical information as to reflex.

A Favorite Trick  
One of the favorite "tricks" in sociable testing of reactions is standing with the arm and shoulder against the wall for a period and then stepping back from the wall and watching the arm float up.

The sense of pain, touch, and temperature are part of the skin sensations which may be tested if conditions suggest it advisable. The degree of pain may be important whether it is lacking entirely or unduly exaggerated. Numb parts of the skin where nothing is felt are always important, though they may be numb only to touch

of normal objects and still react to pain and heat or cold.

Buttressing or unbuttoning your coat with your eyes closed may be a part of the deep sensation examination; it's really not as easy as it sounds. If you dress in the mornings before you get your eyes open real good, though, you have lots of practice for that.

Standing with the feet and ankles close together is another of the deep sensation tests. Easy? You're supposed to close your eyes while you do it. Not so easy, huh?

These deep sensation tests are all done with the eyes closed. Stretch your arms as far apart as you can and bring the forefingers together in a quick sweep or bring the forefinger in to your nose in a quick, eye-closed motion. With your eyes still closed, no peeping, put the heel of one foot on the opposite kneecap and run it down the front of the leg.

Since relaxation is an important part of reflex and sensation testing in the physician examination, you aren't likely to be able to tell much about your own testing during the merrier and exhilaration of a party. In your doctor's hands, this testing may result in definite information as to whether the nerve path and mechanism is in proper order.

#### GUY NICKELS HAS DIGIT TROUBLE, ALSO A FIRE

Guy Nickels, owner of the Lariat Gin, lost the end of the only middle finger he has in an accident at his gin week before last. Mr. Nickels lost a hand in a gin accident several years ago. He says he realizes there is a limit to the number of fingers a man has, also that a finger once cut off seldom grows back.

On the day following the accident a blaze broke out at the gin and seven bales of cotton and three trailers were destroyed before the fire was controlled.

## TODAY'S meditation

The Upper Room  
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

#### SOME BIBLE THOUGHTS

"Be still, and know that I am God: . . ." (Psalm 46:10.) Read Isaiah 30:15-21.

The feverish restlessness of life today—social, domestic, economic, and political—manifests a spirit of tension and a desire for change. Such a state of life makes difficult the realization of the psalmist's admonition, "Be still, and know that I am God." Yet the psalmist's injunction is timely and strikes at the root of danger. To forget God is fatal. The will to rest, the voluntary relaxing of nerve tension, must take possession of one before the peace of God can make itself felt.

In our day this relaxation of body, mind, and soul is in itself an accomplishment. Although not easy

to achieve, it is worth all the effort it demands. Only when the soul is stilled before God does the human spirit come to know something of its relationship to God. The psalmist knew this priceless secret: "Be still—and know!" We should, then, shut out the voices and noises around us and experience God's presence.

#### PRAYER

Father, quiet my restless spirit that I may draw near to Thee. In Thy presence grant me Thy peace for which I long. In quietness and in confidence may I sense Thy presence and discover Thy strength. In Jesus' name. Amen.

#### THOUGHT FOR THE DAY

"Take time to be holy."  
—Maude M. Cunningham (Tenn.)

From where I sit... by Joe Marsh

### Here's An "Expert" Example!

When our Main Street parking problem cropped up again, we announced a strict one-hour parking policy, and swore in extra deputies to enforce it.

We also sent over to the State Capitol for a traffic expert, to give us pointers. He turned out to be real helpful—spent a whole afternoon with us talking about zoning and such. And when he left the building he found a ticket on his car for overtime parking!

Could have gotten sore, I guess—or asked us to "fix" the ticket. But instead, he insisted on going

over to the Sheriff's Office and paying his fine.

From where I sit, it's good to know people, like that young fellow, who refuse to be treated any different than anyone else. City people and farmers—those of us who prefer cooler and those who'd rather have a cool glass of temperate beer—we're all entitled to the same privileges. That is, so long as what we do doesn't conflict with the law of the land.

Joe Marsh

## THE MULESHOE JOURNAL Safflower Plantings

### The "Out Acres" This Year

Published on December 14, 1950  
 Entered under the name of the Muleshoe Journal  
 IN IMMEDIATE OBTAINING  
 J. M. F. Panhandle and from the  
 Mrs. J. B. Bantams to parts of Kan-  
 Mrs. J. H. Harrington building hopes  
 with semi-arid southwestern  
 W. want to try it.

It will fill the gap in the local  
 rotation system in the same  
 way as any other full-season  
 crop. It will give farmers  
 another substitute for  
 winter-killed wheat or wheat that  
 failed to germinate because of  
 insufficient moisture. It will with-  
 stand May drought and hail better  
 than wheat. And from a cash  
 standpoint, safflower will bring per  
 acre returns equal to wheat,  
 whether on dry-land, summer-fal-  
 low or under irrigation.

"Just what," you ask, "is safflower?"

#### Used In Ancient Times For Dye

It's an oil seed crop used in ancient times as a source of red and yellow dyes. Through chem- istry, modern science has found it even more useful. Safflower seed produces a clear, non-yellowing oil valuable for paints, varnishes and linoleum. It nearly equals linseed oil in those qualities and promises to offer it stiff competition. Safflower is more easily produced than flax, the source of linseed oil, and produces more oil per acre. As a livestock concentrate, its feeding values equal cottonseed cake when fed on equal protein basis.

A member of the thistle family, safflower has been grown in the United States since 1925, but has remained virtually unknown until 1942 when the University of Nebraska's Chemurgy project started development of high oil-production varieties, which made it economical for farmer production. Some 75,000 acres were planted in north-eastern Colorado and western Nebraska in 1950, more than 50 per cent over the acreage in 1948. Next year's acreage is estimated to be more than 100,000 acres throughout eastern Colorado, Nebraska, Montana, Wyoming, Texas, Oklahoma and Kansas.

But will the crop grow in the Texas Panhandle? We aren't sure. It will take some study and trial plantings by farmers to find out. Think of what Dr. Leo Christensen, agronomy research specialist at the University of Nebraska has to say: "Safflower will grow where there is plenty of sunshine, a long growing season (at least 120 frost-free days), dry atmospheric conditions, not more than 18 inches of rainfall each year, and a minimum elevation of 3,000 feet. It will grow well

on any soil, from a sandy loam to a clay. All those conditions are prevalent in the Texas and Oklahoma Panhandles and in south-western Kansas—virgin territory for a new industry as well.

Trial plantings of the crop were made in Ochiltree and Lamb coun-ties, Texas, during the 1950 grow-ing season. A planting by Virgil Devers in Ochiltree County pro-duced 800 pounds of seed from a one and one-half acre plot in 1950. Other plantings in the county by Harold Kershaw and Bill Lance were drowned during the record July rainfall of 40 inches. All the plantings were made in June.

In Lamb County, Harold and Gerald Allison, also saw their two plots drowned in July after 25 inches of rain. They credited their losses to late plantings, which also were in June, and to the abnormal moisture. "We don't know what the crop will do. But someone has to find out." They plan small plantings again in 1951.

Dr. Christensen, who also is vice-president of Western Solvents, Inc., Longmont, Colo., the world's only safflower processing plant, painted a colorful picture of safflower's place in Plains agriculture during a November meeting at Perryton. Approximately 750 farmers from Texas, Oklahoma, and Kansas heard him rightfully praise the crop. This is the picture he painted:

Under summer-fallow conditions, safflower will yield from 750 to 1,700 pounds of seed per acre, with an average of 1,000 pounds. At \$4 per 100 pounds, the price Colorado farmers received this year, the in-come would equal 20 bushels of wheat. Under irrigation, yields average about 2,250 pounds per acre, while continual cropping will average less than 400 pounds of seed per acre.

Production costs of the ancient crop are no more than those of wheat. Seeding is done with the same grain drill. Harvests are handled with the same combine, although cylinder speeds are slowed to 500 to 750 RPM to reduce shattering possibilities. Special sieves and attachments are not necessary, but it helps to attach a canvas in the reel in order to catch any plants that snap off as the reel strikes them.

Spring planting, safflower may be drilled solid at rates of 20 to 40 pounds per acre or in 20 to 42 inch rows at rates of 8 to 15 pounds per acre for crops following summer-fallow. Under irrigation solid planting rates are at 40 to 60 pounds per acre, and 15 to 40 pounds per acre if planted in 20 to 40 inch rows. With a planting date between April 1 and May 1 in most areas, safflower will do best in light deep soils, preferably clay loam or sandy loam. Lime and humus are beneficial. If there is good moisture at the time of germination and until the flower-ing stage, safflower will not need much water until maturity. The plant will drop a lengthy tap root, sometimes as much as six feet or more, in its search for moisture.

**Doesn't Compete With Wheat**  
 Safflower does not compete with wheat for markets. It does not

## Farm Film Is Shown To Club

A humorous yet instructive film, entitled "Farm Inconveniences", was shown at the Tuesday luncheon of the Rotary Club of Muleshoe by Chief Jones, assisted by Kenneth Grissom.

Members of the club got a kick out of some of the inconveniences shown, including torn down gates, baling wire in unheard of places, barn doors that wouldn't stay open, plows covered in dirt and debris, etc.

The film has been shown at the local veterans agriculture school. Ray Keeling, president, announced that the club will stand the expense of the meal next Tuesday, which will be the club's Christmas meeting, and he urged all members to be on hand.

Ray Griffiths led in club singing and invocation was said by Hoyt Morgan.

Two members of the Sudan Rotary Club, Preston Hawks, editor of the Sudan Beacon, and John Wicker, manager of the Union Compress and Warehouse Co. here were guests.

#### ANNUAL CHRISTMAS PAPER TO BE PUBLISHED DEC. 21

The Journal will issue its annual Christmas number next Thursday, December 21. The issue will contain principally stories about Christmas, feature articles accumulated especially for the purpose, and information about Christmas in many lands.

Mostly, the merchants will use Christmas greeting advertisements and The Journal hopes every business firm in our territory will be represented. The issue usually runs about 24 pages.

The Journal will be moving to their new location on the west side of the courthouse in the days immediately following Christmas.

#### VISITORS FROM ASPAN

Mr. and Mrs. J. O. Allison of Aspan, spent the week end here with their son Mr. and Mrs. Alvin Allison and family.

lodge, shatters little, and suffers little bird damage. Harvest of the seed may be postponed until after the wheat and grain sorghum harvest without damage to yields. It fights weed better than flax, but not as good as wheat or barley. It is susceptible to leaf rust, leaf spot and root rot and should not be planted on the same ground in successive crop years in order to reduce diseases. It will not tolerate 2, 4-D. Grasshoppers and leafhoppers may cause considerable damage.

Prices farmers receive for safflower seed necessarily will depend upon prices received by the processing industry for the oils and for the oil content of the seed. However, agricultural economists predict that the crop may become a valuable source of edible and cooking oils, and a doubly-important source of oils for the protective-coating industry. Over one-half of the country's linseed oil is imported from South America. Cooking oil and related markets are expanding rapidly.

## Shrubs Should Be Ordered Now

COLLEGE STATION, Dec. 12 -- Now is the time of year to order the shrubs needed to complete the landscape plans for your home. There are many things to remember when choosing shrubs, and Sadie Hatfield, specialist in homestead improvement with the A. & M. College Extension Service, suggests a few.

For instance a shrub should be hardy enough to withstand the cold and drought and it should remain attractive the year round. The rate of growth should be considered -- whether it is fast growing or so slow that a long period of time has to elapse before it is large enough to add to the landscape. The type of soil, too, has to be considered because on alkaline soils some shrubs never grow well and some turn up with yellow leaves.

Now, in placing the shrubs, at least five feet from the walk or doorstep and five feet from the house should be allowed. Sometimes when shrubs are placed too near the house or doorway they have to be cut back so severely that they are no longer attractive. Miss Hatfield suggests the lodense privet for entrances because it is hardy, an ever-green, low growing, and it is easy to prune. In South Texas the manzanita or dwarf crepe myrtle makes a good accent plant.

In choosing a corner planting, the specialist says that it should be taller than the doorstep planting. Wax ligustrum can be used as a corner planting. In Central and Southwest Texas the Burford holly is an excellent corner planting. In Central and East Texas Miss Hatfield suggests the yaupon. Arborvitae is a good screen planting.

When placing plants beneath windows, Miss Hatfield reminds that the shrubs should be low growing--unless a shade is needed in the summer months to shut out the sun. In this case, she suggests planting red-bud or vitex -- a shrub which sheds its leaves in the winter months, but has a thick growth of leaves in the hot season.

An for the depth of planting, the specialist says shrubs should be planted the same depth as they grew originally. The hole should be large enough for the roots to spread out and it should be filled with moderately rich topsoil. The plant should be watered immediately after planting. Small shrubs should not be planted closer than three feet to the house, the specialist emphasizes. Large shrubs such as ligustrums should be four, five, six -- sometime ten feet from the house, she adds.

## Orphanage Day To Be Sunday

Our choir, under the leadership of Mrs. Grandy, will render a special musical program next Sunday morning at the eleven o'clock hour, Dec. 17. Today is also our Orphanage day. Please bring or

send your offering for the Orphanage on that day. If for any reason you cannot get it in now please bring it at the earliest possible date.

H. W. Hanks, Pastor.  
 Some great men are self made, while others are the revised work of a wife and several children.

**HERE FROM COLORADO**  
 Mr. and Mrs. W. H. Awtrey, Jr., of Pueblo, Colo., spent the week end visiting in the home of his parents, also in the home of a brother, Deon Awtrey and family. He works for the Santa Fe extension service, so is being moved to Clovis where he will be on a job that will take several months to complete.

That finish is baked on to last

The frame is extra rugged with 5 husky cross members

Yes, "Test Drive" the '51 Ford. See for yourself why this is the greatest car Ford has ever built. Thrill to its "jet-away" performance. Feel how cooperatively it handles. Know the feeling of safety that comes from sure Centramatic Steering and

Double-Seal King-Size Brakes. Learn how the Automatic Mileage Maker matches timing to fuel charges so that every drop of gasoline is used—none wasted. And remember, you can have your choice of Ford's famous 100-h.p. V-8 engine, or its companion in quality, the great 95-h.p. Six. What's more, Ford offers three advanced transmissions... the Conventional Drive—the Over-drive\*—or Fordomatic Drive,\* the newest and most flexible automatic transmission of all.

\*Optional of extra cost

It's built for the years ahead

Ford's new Automatic Ride Control makes rough roads easy on us, and easy on the car

## NEW AUTOMATIC RIDE CONTROL

You'll feel a brand-new kind of riding comfort with this unique three-way "partnership" of Advanced "Hydra-Coll" Front Springs—new Variable-Rate Rear Spring Suspension and new "Viscous Control" Shock Absorbers. This superior new Ford springing system adjusts to any road condition automatically—keeps the going easy and level always—with no pitch, no jounce, no roll!

Why not stop in and see us today? Check the 43 new "Look Ahead" features which the '51 Ford gives you. Compare Ford's finish and coachwork with any car on the market today. We think you'll agree that you can pay more but you can't buy better!

## Miss Billie Margaret Collins And Mr. Bill Earl Jeter Wed Sunday

Miss Billie Margaret Collins, daughter of Mr. and Mrs. Bill Collins, and Mr. Bill Earl Jeter, son of Mr. and Mrs. Earl Jeter, were married Sunday December 3, at 3 o'clock in a ceremony performed in the Muleshoe Church of Christ.

The double ring ceremony was read by Minister R. S. Ribble before an altar of greenery on which an open Bible was laid. Tall candelabras and fern trees were placed on each side.

Wiley Baker sang "Because" and a quartet sang the traditional wedding march as the bride entered on the arm of her father.

The bride wore an aqua blue tulle tulle dress with brown accessories. Her shoulder length veil of illusion was aqua blue. She carried a white Bible topped with yellow sweetheart roses tied with yellow streamers.

Miss Joy Snyder, her only attendant wore an orchid ballerina length gown with black accessories. Her shoulder corsage was of white carnations.

Best man was Roy Howard, brother-in-law of the groom. Ushers were Richard Barnett and Jerry Parsley.

Immediately following the ceremony a reception was given at the home of the bride's parents.

Mary Beth Jeter registered the guests. After the bride and groom cut the cake, Bobbie Collins served the punch and Mrs. Roy Howard served the cake.

The table was covered with a lace tablecloth and was centered with the two-tiered white cake, decorated with three yellow rose clusters, and topped by a miniature bride and groom, and the cake was encircled with yellow net, flanked by aqua blue candles.

The couple left immediately after the reception for a honeymoon trip to Oklahoma. For her going away costume the bride wore an aqua blue tailored wool dress with brown accessories, and a shoulder corsage of yellow sweetheart roses.

Mrs. Jeter finished Muleshoe high school in 1950 and is employed as cashier by the Bailey County Electric Cooperative. She is a past worthy advisor of the Muleshoe Rainbow Assembly for Girls. Mr. Jeter graduated from Muleshoe high school in 1949. The couple will be at home on the J. T. Maltby farm.

### HAVE NEW DAUGHTER

Mr. and Mrs. Walter Sain are parents of a girl, born Tuesday, December 12, in Amherst hospital. She has been named Deborah Gay.

## Society News

THE MULESHOE JOURNAL, Thursday, December 14, 1950

### Double Party Honors Lee And Wayne Raney

Lee and Wayne Raney were honored with a double birthday party Sunday evening, December 10, at 3 p. m., given by their mother, Mrs. Vernon Raney. Wayne was seven years old Dec. 9 and Lee will be nine years old Dec. 21.

Various games were enjoyed by the children while the ladies enjoyed visiting. Pictures of the group were taken.

After the many gifts were opened by Lee and Wayne, their mother and grandmother, Mrs. L. R. Thurman, served fruit punch and two birthday cakes. Each departed wishing Lee and Wayne many more happy birthdays. Everyone had a good time.

Those present were Audrey and Verna Ray Hudson, Peggy Jo Griffin, Dorothy Jean McMahan, Dana Parks, Wayne and Shirley Holland, Janie Gully, Mizi Leonard, Jerry Allen Judkins and Gienna Raney.

Mesdames Jim Bellar, Carl Kindred, Howard Griffin, L. R. Thurman, Miss Lucille McMahan, Miss Lillie Ruth Lee, and the hostess and honorees.

### Bride Elect Is Shower Honoree

Miss Billie Margaret Collins bride elect of Bill Earl Jeter was honored with a miscellaneous shower Friday, December 8 at 3 o'clock in the Fellowship Hall.

Betty Collins presided over the bride's book. The serving table was covered with a lace table cloth. The centerpiece was yellow carnations flanked by aqua candles, the bride elect's colors.

Mrs. Joe Mack Wagon presided at the tea service. Mrs. Bill Collins, mother of the bride was presented with a lovely corsage and Mrs. Earl Jeter mother of the groom to be was presented with a corsage.

Gifts were open and on display. Approximately sixty guests called. Hostesses were Mrs. M. H. Orwell, Mrs. J. Clyde Taylor, Mrs. Jack Lenderson, Mrs. Earl Ladd, Mrs. Joe Mack Wagon, Mrs. W. B. Wagon, Mrs. Ernest Holland, Mrs. Morris Childers, Mrs. C. L. Baker, and Mrs. Frank Snyder.

### Progress WSCS To View Film

December 11 the Progress WSCS met at the Methodist Church. There were 16 members, 7 visitors and 5 children present. The visitors were Mesdames E. W. Locker, Peugh, Redwine, Walker, Gouge, Grover Gray, and Bessie Davis. We were very happy to have these visitors.

Mrs. Garrett read the scripture and Mrs. McDorman led in prayer. A song "Blest Be The Tie That Binds" was sung by the group.

Mrs. Garrett told of a plan for showing of a picture on the subject of our next study "Near East Panorama." This will be early in January.

The worship program for the World Federation of Methodist Women. The leader, Mrs. Garrett, pointed out that the symbol of the Federation is the "Tree Of Life." That this "Tree Of Life" bore 12 manners of fruit and yielded her fruit every month and the leaves of the tree were for the healing of the Nation. To carry out the symbolism a twelve point program has been adopted as a goal. Each national tree "planted in its own soil, is seeking to bear fruits to His Glory."

Twelve ladies, each symbolizing a different fruit such as evangelism, Medical Work, Education, Literature, Children, Youth, Home and Family Life, Rural Projects, Economic Justice, International Friendships, Temperance and Peace lit a light on the tree to show how the message of Christ is being carried on in our own land and many other lands.

The program was very "impressive and should make us more consecrated in carrying out our mission work."

Small gifts were exchanged among those present at the close of the program.

We were dismissed by singing the song "God Be With You 'Till We Meet Again."

AT GRAND LODGE  
Mr. and Mrs. Herb Potter and little son, Barry, visited down state last week. Mr. Potter attended the annual Masonic Grand Lodge at Waco while Mrs. Potter and baby visited with Mr. Potter's sister in Weatherford. Returning the family visited his old stomping ground, the Swenson Ranch around Anson.

## Barbara Barnett And Mr. Puckett Vows Exchanged

Miss Barbara Barnett daughter of Mr. and Mrs. C. A. Barnett became the bride of Richard Puckett, son of Mr. and Mrs. Ray Puckett Sunday afternoon at the home of her parents.

The double ring ceremony was read by Rev. Thomas Bandy before an altar of greenery entwined with white bells flanked by lighted white tapers.

The bride wore a street length dress. Atop her white Bible were red roses. For something old she wore a watch of her aunt's.

Mrs. E. H. Kennedy pianist, played O' Promise Me and Forever and Ever.

Donald and Richard Barnett brothers of the bride lighted the candles.

Attendants were Arlene Richardson and Rex Brisco.

A reception was held immediately after the ceremony. Mrs. Ray Griffiths and Mrs. Donald Barnett presided at the punch service. Miss Diana Barnett sister of the bride registered the guests. About forty guests registered including Miss Mary Barnett of Vernon, aunt of the bride, who was here for the occasion.

### Mrs. Lee Nichols Shower Honoree

Mrs. Lee Nichols, the former Melva Lee Haun, was honored with a bridal shower November 28 in the home of Mrs. Kenneth Briscoe. Mrs. Fred Bruns was co-hostess.

Mrs. Nichols attended the Muleshoe schools and has lived in the old Midway community all of her life. Mr. Nichols is manager of the Sunshine Valley Boys of station KICA in Clovis.

Cake and punch were served to about 25 guests attending. Many sent gifts who were unable to attend.

### Sullivans Fete Their Anniversary

Mr. and Mrs. J. D. Sullivan celebrated their second anniversary with a banquet at Gerald's Cafe Thursday night, Dec. 17.

The table lighted by white and red candles in candle holders. Refreshments and dinner were served to the following couples:

Messrs. and Mesdames Leslie Testerman, L. E. Testerman, Jack Hacker, Jay Burge, Frank Kemp, and the host and hostess, Mr. and Mrs. J. D. Sullivan.

### ESA Honors Miss Jane Scott

The Epsilon Chi Chapter of Epsilon Sigma Alpha honored Miss Jane Scott with a handkerchief shower at the home of Mrs. Marjorie Precure last Wednesday night. Gwyneth Bigham and Mary Frye were co-hostesses.

Cards were drawn for partners for playing whist. The tables were decorated with Santa Claus dolls which were named St. Clair Dept. Store for shopping, street car for transportation to the Tearoom, which was the name of the third table.

Refreshments of sandwiches, cookies, olives, and spiced apple cider were served. Those attending were: Ruby Gregory, Betty Glaze, Ann Howell, Jerri Farrell, Ellen Gupston, Mary Anna Bryant, Marlene St. Clair, Jane Griffiths and the hostesses.

### Homemakers Class Met Tuesday

Homemakers class of the First Baptist church met in the home of Mrs. Bessie Harlan Tuesday afternoon with their business and Christmas social. Opening prayer was led by Mrs. Lois Shook. In the absence of our president, Bessie Harlan had charge.

Birdie Paul brought the devotional from Luke, Chap. 2, 4 to 10 verses. Group captains and the secretary's reports were read and approved. Old business was disposed of. We exchanged gifts.

Eight members were present and Andy Douglas was our little visitor. Birdie Paul dismissed by prayer.

### 25th Anniversary Is Celebrated

A surprise anniversary party for Mr. and Mrs. Mervin Wilterding was given at the home of Will Wilterding and Miss Dottie Wilterding by some forty relatives and friends.

The couple was celebrating their twenty fifth anniversary. Refreshments of fruit cake, whipped cream topped with cherries, nuts and coffee was served by the hostesses. Games of 42 were enjoyed by most of those present.

## Whooping Cough Serum Available

AUSTIN, Dec. 13.—"Your child can be protected from whooping cough by the use of anti-serum available for the immunization of youngsters," according to Dr. Geo. W. Cox, State Health Officer, as he advised parents not to take this communicable disease lightly.

"Since whooping cough is particularly dangerous for babies, the need for early protection against it is undisputed. Research shows that preventive treatment may safely and effectively be given at the age of two months or earlier. Older children who have been previously immunized should receive booster doses of the vaccine."

Pointing out that Texas has had more than 10,700 cases of whooping cough so far this year, Dr. Cox reminded parents that whooping cough is sometimes fatal to young children. It may also leave the lungs and other affected parts permanently damaged.

"In an effort to control whooping cough emphasis is placed on the great importance of calling the family physician at any time when the child is not in normal health. If the first signs of a cold do not disappear after a few days of good home care, including rest in bed and isolation from other children, the physician should be called as the cold in itself may be dangerous. The physician will prescribe proper treatment and report any cases of communicable disease to the public health officer."

Box 194, Muleshoe, Dec. 12

Dear Santa:  
I'm a little boy six years of age and have tried to be good this year. Will you please bring me a bicycle and a two gun scabbard. Don't forget my little brother Jimmie.

Santa don't forget the little boys and girls in Korea and also the Soldier boys. Thank you.

Love,  
Vic Spivey.

Dear Santa Claus:  
I want a filling station, and some cars and trucks and a tractor and a gun and holster. Please bring them to me.

Your friend,  
Lloyd Hendrix

### Texas Mounts A Huge Drive For March Of Dimes

AUSTIN, Dec. 11—The problem of facing a home front war centering around the scourge of polio was put squarely up to the people of Texas this week.

All of the state's vaunted resources were being mustered as a mighty "Governor's Fight Polio Committee," named by Governor Allan Shivers, began pushing the urgent drive. Action on the community level will be emphasized through the new 150-man committee which will supplement the local machinery already set up in most areas.

Primary objective of the movement is to overcome a \$300,000 deficit in treating the record number of polio cases which has been reported almost one tenth of all the new cases in the nation.

The actual drive for funds so far as the general public is concerned, will center around the 1951 March of Dimes, January 15-31. But emphasis also will be placed on large individual donations.

Members of the "Governor's Fight Polio Committee" attended meetings in Austin over the week end, carrying through a final pre-campaign state-wide meeting Monday. They took back home the message that polio cripples the economic structure of the community and state just as it cripples the persons who contract the disease.

Leading authorities pointed out that money is needed to care for patients and above all to carry out research into the cause of the disease.

In the words of Governor Shivers, "Texas must meet the challenge of this dreaded scourge until science can conquer it."

### Survey Reveals U. S. Food Supply Is Plentiful With Some Surpluses

Mrs. America, who likes to feed her family well, can be pleased with the general food picture.

Do we have enough food? The answer is yes. In fact we have surpluses in many of the basic foods. These surpluses can now be referred to as food in reserve.

Also this year's crops in general are good. Food production is well ahead of what it was at the start of World War II. Moreover production can be substantially increased both by the farmers and by the processors.

The world food situation is also much improved so that foreign nations are far less dependent upon us for supplies.

Prior to the Korean situation our problem was one of what to do with surplus foods, such as dried eggs butter, dried milk cheese, wheat, corn, etc. These surpluses still exist and the only difference is that now the government will probably convert them into stockpiles.

There are more than 3,000 items on grocery shelves with only a few of them in short supply in the stores at this time. We see no cause for alarm unless the American people become panicky and begin hoarding foods, which of course creates run away prices. They will have only themselves to blame if this happens. Staple foods are plentiful.

**GRAINS**  
With supplies on hand and good crops forecast it does not appear that there can be any shortage of bread, cereals, flour, or any grain product. Total supply of wheat for 1950-51 will be about 1,400 million bushels. Of this amount we will probably export around 250 million bushels—but even so, by next season can conquer it."

**POULTRY AND EGGS**  
There is a surplus of eggs. The government under its support program has in storage 107 million pounds of dried eggs. This is the equivalent of about 300 million dozen shell eggs. They have been accumulating at the rate of about fifteen million pounds a month—and the government is still buying at this rate.

**SUGAR**  
Last year in this country we used 7,500,000 tons of sugar. This year we have on hand an additional 950,000 tons which gives us a total of 8,450,000 tons available for this year.

Present indications are that record beet sugar and cane sugar crops will be harvested in this country this year.

**POULTRY AND EGGS**  
There is a surplus of eggs. The government under its support program has in storage 107 million pounds of dried eggs. This is the equivalent of about 300 million dozen shell eggs. They have been accumulating at the rate of about fifteen million pounds a month—and the government is still buying at this rate.

**SUGAR**  
Last year in this country we used 7,500,000 tons of sugar. This year we have on hand an additional 950,000 tons which gives us a total of 8,450,000 tons available for this year.

They have been accumulating at the rate of about fifteen million pounds a month—and the government is still buying at this rate.

**SUGAR**  
Last year in this country we used 7,500,000 tons of sugar. This year we have on hand an additional 950,000 tons which gives us a total of 8,450,000 tons available for this year.

Present indications are that record beet sugar and cane sugar crops will be harvested in this country this year.

July we will still have on hand between 400 and 450 million bushels.

Feed grains for cattle are ample too. New crops, plus large stocks on hand, will permit sizeable quantities to be exported and still leave substantial stocks for 1951.

**FATS AND OILS**  
Lard—on hand in factory and in warehouse stocks—189 million lbs. which is 15 million more pounds than at the same time last year.

Vegetable oils—around 1325 million pounds, about the same as last year.

Creamery butter production for last half of year, approximately 688 million pounds about the same as last year. Also USDA has on hand around 176 million pounds for use when needed.

Smaller quantities of fats and oils are being exported this year. So what we produce can be used at home here.

**FRUITS**  
Citrus fruits—for second half of year about the same as last year. Supplies of other fresh fruits such as pears, peaches, apples, etc., will be somewhat smaller than last year. But this is the sort of thing that happens from year to year, anyway. Some years are more abundant than others.

Our present supply of canned, frozen and dried fruits is smaller than usual. But to this will be added the new crop just now coming in. When that is canned and processed there will be enough to meet normal demands.

**VEGETABLES**  
Fresh vegetables for last half of the year—about the same as last year. Canned vegetables—about equal to last year.

**POULTRY AND EGGS**  
There is a surplus of eggs. The government under its support program has in storage 107 million pounds of dried eggs. This is the equivalent of about 300 million dozen shell eggs. They have been accumulating at the rate of about fifteen million pounds a month—and the government is still buying at this rate.

Now is the time for all good men to come to the aid of their pocketbooks

There's been a lot of talk in recent weeks about "the buying power of the dollar"—past, present and future.

We can't foretell the future—but we can tell you this right now:

You'll look a long way before you'll find a car that offers as much for the money as you can get in a 1950 Buick.

Close to half a million of these cars have been built and sold this year.

Close to half a million people have checked their features and prices against the field—and decided they'd better buy Buick.

As to prices—they start down below some sixes. And whether you price the SPECIAL, the SUPER or the ROADMASTER, you'll find, on a cents-per-

pound basis, that few other cars can touch them for value.

And this is for sure! When it comes to performance—ride—the way they handle and hold the road—and thrifty use of fuel and oil—Buicks have never been finer.

That's another way of saying that coil springs on all four wheels—Dynaflo\*—torque-tube drive—and Buick's high-compression, high-economy Fireball power produce an out-of-this-world combination.

So if you want your dollars to do extra duty—the time to act is now.

Look at the price tags—look at the features—sample the power and thrill that you get for your money—and you'll know what we mean.

\*Dynaflo Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

**ONLY BUICK HAS Dynaflo—AND WITH IT GOES:**

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

**Better Buy Buick-Now!**

WHATEVER YOUR PRICE RANGE

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

**WHY USE TWO...**

**WHEN ONE WILL DO?**

One "light as a feather" electric blanket will keep you warm on the coldest nights—why suffocate under an overload of ordinary quilts and blankets—with your winter overcoat thrown in for good measure when the mercury really drops. Electric blankets come with single and dual controls—you set the temperature you want and it stays at your setting all night long. Don't smother—Sleep Safely—Sleep Soundly—under one electric blanket.

Visit your local electric appliance store your Christmas shopping headquarters. You'll find a wide selection of gifts—in all price ranges—from small appliances to ranges, refrigerators and automatic washers. Give the gift that will be remembered because it will always be used—an electrical gift.

## Texas Mounts A Huge Drive For March Of Dimes

AUSTIN, Dec. 11—The problem of facing a home front war center as the scourge of the automobile was put squarely up to the people of Texas this week.

All of the state's vaunted sources were being mustered mightily "Governor's Fight, models Committee," named by symbols of Allan Shivers, began pushing a community level will be effective, best through the new 150-hp have ever tee which will suppress acceptance of local machinery already every ex-

Primary objective is to overcome the deficit in treatment models, Pontiac offer of polo romers an extremely come so large, Chieftain and Stream-reported are available in either the new, or deluxe treatment, with TR or eight cylinder engines and with Hydra-matic or synchromesh transmission.

**Appearance**

From bumper to massive bumper the 1951 Pontiacs sparkle with well-conceived, tasteful styling advances which enhance the motor-car's individuality. It still remains the nation's best recognized car. Bold brilliance marks the Silver Anniversary models with new, striking grille conception, and the famed Silver Streak appearing in an artistic treatment involving new spacing of the bright chrome bars and new contours. The Indian head hood ornament is presented in a newly stylized study.

Profile-wise, the 1951 Pontiac conveys the impression of forward surge even at curb-side. Body belt moldings and new rub moldings have gleaming prominence, fashionable and utilitarian. Completely new styling note is the addition of an Indian head medallion on the trailing edge of the rear fender panels. Wheel covers and rear fender gravel guards are freshly restyled in polished stainless steel.

Going away, the 1951 Pontiac reveals tail lights of increased diameter to further the Bold Look. Rear license lamps now are concealed in the bumper apron. The Silver Streak on the deck door matches that on the hood. A longer deck door handle emphasizes width of the graceful rear pattern.

**Mechanical**

Horsepower rating of the 1951 Pontiac eight cylinder engine is 116 and of the six cylinder engine 96 horsepower. Compression ratios are 6.5:1 for both engines to allow completely efficient and economical operation with regular gasoline and resultant saving in operation.

Other mechanical improvements include new timing chain bumper on the six cylinder engine; a revised water outlet thermostat facilitating engine warm-up; improved rear bearing oil seals; improved distributor; insulation improvement on the starter motor; a new carburetor for the six cylinder engine; increased capacity generator and regulator.

**Improved Ride**

Because longer springs mean smoother riding qualities on broken surface roads, the 1951 Pontiac has 58 inch rear springs, six inches longer than in the 1950 model. Thickness of the spring leaves also has been increased for better cushioning and accelerating power and braking force.

Cooling system pressure has been increased on both six and eight, raising the normal boiling temperature of the coolant approximately 20 degrees. There is an improved accessory fuse block and cover; improved body wiring harness; improved fuel tank gauge, and an improved convertible top-raising assembly.

**Hydra-Matic**

The famed, time-tested Hydra-Matic transmission continues as optional equipment and has still greater efficiency and operating simplicity. A quick reverse response is permitted, allowing the car to be rocked in snow, mud or sand. A reverse inhibitor prevents reverse shifts at speeds above 10 miles per hour.

## Now On Display At Davis-Lenderson Silver Anniversary Pontiacs Make Bow

Pontiac's 1951 Silver Anniversary models bring twenty-eight fresh styling innovations and seventeen mechanical improvements to the line. The new Pontiacs, now on display, again are available with six or eight cylinder engines. All models offer a choice of Hydra-Matic or synchromesh transmission. The popular Chieftain four-door sedan pictured exemplifies the advanced styling of the Pontiac Line.

Good taste, comfort, convenience and modernity are well-blended in deluxe and standard interiors of the 1951 Pontiac. Focal point is the instrument panel finished in Steel Gray upper and Dover Gray lower. Radio grille is a target of triple concentric chrome rings centered by the newly designed electric clock. Radio controls and selector buttons are of sparkling chrome. The instrument cluster has chromed rim and oblong gauge windows. Light switch, ignition switch, cigar lighter and heater panel are chromed, as are starter button and emergency brake handle. Total effect is of rich dignity, viewed perfectly through the new, three spoke deluxe steering wheel.

**Interiors**

Interior motif is gray, highlighted by intelligent use of chrome. Doors are trimmed in two tones of fabric modernistically applied. Rear compartment floors of deluxe models have dark gray pile carpeting.

**Models**

Models available for 1951 in the Chieftain line are the four door sedan, two door sedan, sedan

coupe, business coupe, Catalina (deluxe and super deluxe) and deluxe convertible coupe. The ever-popular Streamliner series sedan-coupe is again available, either standard or deluxe. Standard or deluxe station wagons may be obtained in two-tone paint or with simulated wood paneling. A sedan-delivery vehicle is included in the line.

**SISTER VISITS**

Mr. and Mrs. John Friesen and son Johnny of Santa Cruz, California visited here several days with her sisters Mrs. G. S. Provence, C. F. Jones and her parents Mr. and Mrs. J. H. Sain and a brother Walter Sain. They were enroute to Custer City, Okla., to visit other relatives.

**NOTICE TO CREDITORS**

Notice is hereby given that there will be a meeting of all the creditors of the COX DRIVE IN THEATRE, in the 64th. District Court of Bailey County on December 19th., 1950.

All persons, firms or corporations

who have an account against the said COX DRIVE IN THEATRE are asked to attend.

If you have not filed your account with the District Clerk of Bailey County, Texas, do so as early as possible. If you have not

a statement with me but have not filed with the District Clerk, please file with him as no account will be considered unless same has been filed with the Clerk.

Karl L. Lovelady, Receiver—Cox Drive in Theatre.

We are proud of our record of safety and profit for our investors. Look into it!

## Mince Meat Pies Play An Important Part In The Menu At Christmas Time

A wealth of tradition is covered by the crust of the Yuletide mince-meat pie.

Although few people today know it, the pie represents the cradle of the Christ Child surrounded by the gifts of the Magi. It was made originally in oval form, to symbolize the cradle, and the varied ingredients were the gifts.

At one time mince-meat pie was banned, and at still another time in its history, it was the cause of Christmas itself being abolished for a brief period.

For many years in England during the time of Oliver Cromwell, the custom of feasting and drinking at Christmas was regarded as worldly and sensual, and the more strict Puritans refused to eat mince-meat pie during the holiday season. This prejudice was finally overcome after the Restoration.

In the New World, during the first half century after the Pilgrims' arrival at Plymouth, similar troubles caused the banning of mince-meat pies and Christmas. In 1659, and for several years thereafter, there was no Christmas in New England as a result of an argument over the shape and meaning of mince-meat pies. Eventually the indignation spent itself, and the ban was lifted.

A pie which no other can approach in the intricacies of its creation, mince-meat pies originally were made almost entirely of meat seasoned with spices. Fruit, chiefly currants, was added, and probably because the dish was regarded as a sweet, the fruit content was gradually increased until mince-meat became a mixture of fruit and spices, with or without the addition of meat.

The whole world has a part in

the making of a mince-meat pie, according to the American Bakers Association. There are lemons, citrons, and oranges from Florida and California; apples from a half dozen states; currants from Greece; raisins from the Pacific Coast; sugar and syrup from Louisiana and Cuba; suet from the Middle West; spices from far-away Ceylon; and other ingredients from far and near.

By and large, mince-meat pies have not changed noticeably since those early days when New England cooks began preparations for making the mince-meat weeks in advance of the actual pie baking.

The greatest difference occurs not in the ingredients, but in the preparation. The American housewife now depends on the baker to perform all the labor of preparation. The American Bakers Association says that American bakers use tons of the same high quality ingredients as are used in the home in taking care of the demand for this traditional part of the Christmas dinner.

History, tradition, and its own merits have made mince-meat pie one of the most interesting of all food products—rightfully occupying its place of honor at the Yuletide feast.

As Samuel Papsy stated in his famous diary about his 1662 Christmas dinner:

"We had, besides a good chine of beef and other good cheer, eighteen mince-meat pies."

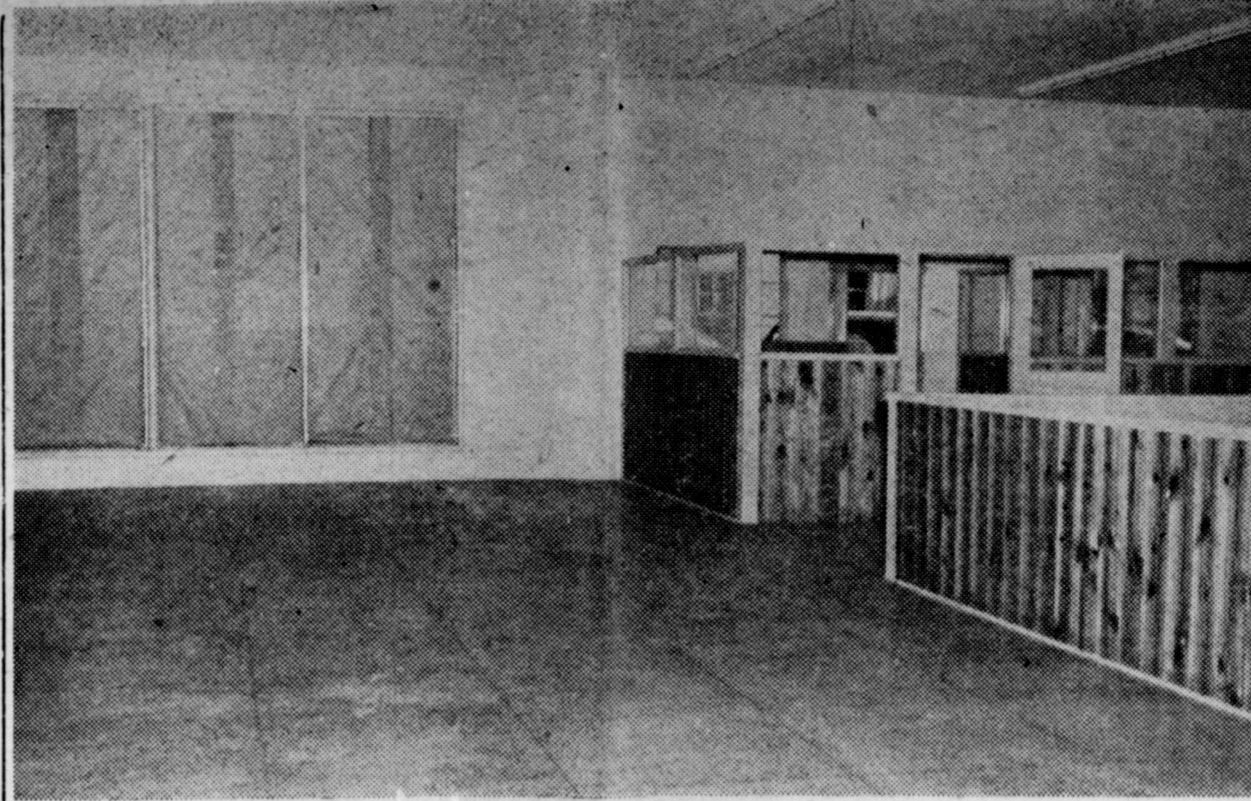

### HIGH SCHOOL P-TA TO MEET MONDAY NIGHT

Regular meeting of the high school Parent-Teacher Association will be held at the school coming Monday night.

George Gray and his high school band will present the program. A social hour will follow the program.

### VISIT IN AMARILLO

Mrs. Alton Cherry and Mrs. Therman White were visitors in Amarillo Monday.

**METROPOLITAN SHOW ROOM**—Here is the display room of the new C. & H. Chevrolet Company that any automobile dealer in the state would be pleased to have. It is approximately 55x40 feet. The walls are of buff plaster and the floors are of terrazo. The offices and parts department at the right are trimmed in burned wood.

## 2,000 Attend C. & H. Chevrolet Grand Opening

Approximately 2,000 persons attended the formal opening of the C. & H. Chevrolet Company's new building and saw the new 1951 Chevrolet for the first time Saturday.

An electric blanket was awarded as a door prize to Mrs. Frank Lee. Lee Nichols and his Sunshine Valley Boys furnished the music for the program and the C. & H. Chevrolet Company broadcast over the Clovis radio station for an hour. Approximately 70 businesses and individuals sent flowers for the opening.

McWhorter's Floral had a miniature display of the various businesses in town. They were made of a plastic material and contained floral arrangements in back of the structures draped over the roof.

Al Curry, Sales Promotion Manager out of the Oklahoma City office was also present for the opening. Two other Chevrolet dealers, E. E. Crow, and E. E. Crow, Jr. of Sudan visited during the day.

Arthur Crow, manager of C. & H. Chevrolet Company, expresses his thanks to the many people who attended the formal opening and to those who sent flowers. He invites them back to visit with us at any time.

### FATHER SUFFERS STROKE

Mr. and Mrs. Buek Creamer were called to Paducah Sunday to be at the bedside of her father, T. J. Davidson, who suffered a stroke. Mr. Davidson, who is 85, had not regained consciousness Tuesday.

Jones: How do you spend your income?

Smith: About 30% for shelter, 30% for clothing, 40 per cent for food, and 20 per cent for amusement.

Jones: But that adds up to 120. Smith: Brother, and don't I know it.

## Fertilizer On Cotton Pays Off

COLLEGE STATION, Dec. 12—When properly used, fertilizer under cotton doesn't cost; it pays. This fact is shown by the results of 1950 cotton fertilizer demonstrations.

To emphasize the point, M. K. Thornton, agricultural chemist for the Texas A. & M. College Extension Service, cites as an example demonstrations conducted last year in Guadalupe county under the supervision of county agent B. N. Rector. Rector reports that Munroe Schubert of Kingsbury made over one and one-half bales of cotton per acre on a plot of his fertilizer demonstration.

On a plot that was not fertilized, Schubert obtained a yield of 610 pounds of lint cotton per acre. He obtained a yield of 785 pounds from a plot which was fertilized with 200 pounds of 16-20-0 at planting time and side dressed with 100 pounds of the same fertilizer when the cotton was about knee high. Other plots in the demonstration which received different

amounts of fertilizer gave yields that ranged between the high above and the low received when no fertilizer was applied.

Figuring that 16-20-0 fertilizer costs not more than \$4 per hundred the cost of the three sacks of fertilizer applied was \$12. The increase of 175 pounds of lint obtained by fertilizing was worth about \$70, figuring the price of cotton at 40 cents a pound. Therefore, Schubert's increased income over the cost of fertilizer was about \$58.

The lowest increase obtained was 30 pounds of lint from applying 100 pounds of 5-10-5 at planting time. Thornton points out, however, that this gave a return of about \$21 on an investment of \$2.50 for fertilizer.

### VISITORS IN LUBBOCK

Mr. and Mrs. C. D. Hoover and daughters Juanita and Charlene were visitors in Lubbock Friday.

Location Friday, December 15. Rev. M. G. Ellis is pastor at Three Way. Lunch will be served at noon by the host church.  
Theme of the conference will be: "This is the day the Lord hath made, I will rejoice and be glad."—Psalm 118:24.

### Workers To Meet At Three Way

Three way Baptist Church will be host to the Workers Conference of the West Plains Baptist As-

### Earth Post In Home Campaign

Members of Boots Parrish Post, American Legion, of Earth, have begun a campaign to raise funds for an American Legion Home for their town. The Journal last week printed some of the things needed in their campaign.

Post representatives said they never have had a home and that the boys are going all out to remedy that situation, and they will have the support of the whole community in their project.  
Among other things planned, the Post will award a bale of cotton the afternoon of December 23 at Earth.

### BULA COUPLE HURT IN AUTO ACCIDENT

Mr. and Mrs. F. H. Cleavinger of Bula were admitted to the Payne-Shotwell Foundation Thursday evening suffering from injuries received in a car accident near Crosbyton.

Mr. Cleavinger sustained a broken right knee cap, and after having it put in a splint at the hospital, he was released.  
Mrs. Cleavinger sustained cuts and bruises and was still a patient in the hospital over the week end, but getting along nicely.

According to Mr. Cleavinger they were returning home from a business trip to Leuders, Texas, when near Crosbyton, his automobile and another car were in collision. He said an automobile coming behind him, and travelling in the same direction, hit his automobile from the rear, causing his car to turn over into the bar ditch.  
—Lamb County Leader

Patient (coming out of anesthesia): "Why are all the blinds down, Doctor?"  
Doctor: "Well, there's a fire across the alley and I don't want you to wake up and think the operation was a failure." —Future.

# IT'S BUILT FOR KEEPS!

In the difficult years ahead, that new truck of yours will have to put out *more*—and take it longer. So there are many reasons you'll be wise to choose a GMC!

You'll get the *constant dividend* of GMC's greater pulling power—*truck-built horsepower* with greater sustained torque than other engines.

And with that power goes the *greater stamina* of GMC's rugged truck-engineered frame. In practically all models, from 1/2 ton up, you get such *extra value features* (at no extra cost!) as Synchro-Mesh transmission, Tocco-hardened

crankshaft, airplane-type bearings, and Lifetime Weathersealed cabs. They all tell you that longer life and lower maintenance are standard equipment with a GMC.

As your GMC dealer we are *transportation engineers*, specializing in selecting the *exact combination of the right engine, axle, transmission and frame for your particular trucking job.*

That's why there's a special GMC truck waiting for you. Come in, let us show you why GMC is your best buy for the years ahead!

## Get a real truck!

LIGHT • MEDIUM • HEAVY MODELS • Made in the widest variety of engine-body-chassis combinations to fit every trucking need
