

Firemen's School To Begin Here Tonight

Mr. Muleshoe

Seen and Heard
Jack Obenhaus (back from a trip to Lawia): I saw many cotton plantations, one of 35,000 acres. Negro men were plowing in cotton as high as your shoulder with Georgia stocks, pulled by one mule plowing out one middle at a time. I talked with several of these plowmen when they got out to the end of the row. I asked an old man what he thought the cotton would make. He said: "Cap'n this cotton promises right now to make three bales to the acre. Boll weevils may cut it down to one bale to the acre." On those plantations everyone was hoping it wouldn't rain and when I got back to the Plains everyone was hoping it would rain.

Howard Carlyle: "Give me two Journals to take back to San Angelo with me. I want to show those Concho country people that article Johnny McMurry wrote about origin of the name of Muleshoe so I won't have to answer so many questions about it."

The Journal sold many extra copies because of the McMurry article. If we could get Johnny to write an article every week we'd soon run out of paper. I thought the article was excellent and I have re-read it several times.

J. E. Mills (new Bailey county farmer): I have raised cotton all my life but the crop I have growing now is about the finest I have ever had. It's heavily loaded and has lots of grown bolls.

Congratulations to: Southwestern Public Service Company, our supplier of electricity for lights and power, upon its 23rd birthday. This newspaper and this community are proud of Southwestern Public Service and we are proud of everyone who works for that great organization. If there ever was a public spirited utility corporation, this one is it. From the head man, whoever that is, down this organization, is streamlined for service to the communities, the people, that it serves in the Panhandle and New Mexico. We say happy birthday and many, many more of them.

Turn and read their advertisement in this issue of The Journal. Read where they say they are going to spend another 35 million dollars to give service to more people, and better service wherever they operate. Those are the kind of words we like to hear. It's possible for a big utilities firm to sit down and pay no heed to the needs, the ambitions, the desires of their people—we are glad to say our electric supplying organization never has been of that disposition. Muleshoe and territory are proud of you, Southwestern Public Service company, and of every man and woman connected with you.

This column calls attention to the controversial college building plan constitutional amendment, to be voted upon Saturday, August 23, and we urge all to go and express themselves at the polls.

We have received literature opposing the amendment from the Texas Tech College alumni association and from the state organization of Veterans of Foreign Wars. At the same time the news service of Texas Tech Cecil Horne, editor, sends us a release that says:

"The 30-year building program that will be made possible for Texas colleges if voters ratify the proposed constitutional amendment

A group of Muleshoe men will begin tonight, Thursday, a school of instruction on fundamentals of fire fighting, care and operation of fire-fighting equipment, to be taught by J. R. "Bob" Dobson, of the Texas A. and M. College Firemen Training Division.

While the course is for members, anyone may take it and fire department and city officials are hoping a large number of Muleshoe men will turn out and take this course which may be an asset to them as long as they live.

Fourteen members of the department met with Mr. Dobson Tuesday night to hear an outline of subjects to be taught, settle upon nights and arrange other details. The course will continue for about 30 hours, and those who successfully complete it will be given a certificate.

Mr. Dobson pointed out the value of a good fire department in a town, saying that in dollars and cents alone the town is well repaid for its money and efforts spent on the department. For instance, Muleshoe property owners in 1946 paid out fire premiums amounting to \$13,970 and in a five year period premiums at the key rate of 49c would amount to \$49,036. Right now the key rate is 52 cents and unless certain things are done this rate may be hiked, and it is within the power of the State Fire Insurance Division to set the rate at 98 cents if no department were maintained.

Muleshoe is penalized because of a variety of things, some of them unavoidable because of excessive cost to provide such as extra plumbing power in case electricity fails.

But there are other things which Muleshoe can do to prevent penalties from being applied. For one thing, the paving now being laid here will have a favorable bearing upon key rate consideration. Then equipment should be maintained in first class condition so that the firemen will not be hampered in their fire fighting efforts.

The school here is open not only to members but to any other person who will take the course and it is hoped that several others will volunteer to attend. The state vocational education board pays for the expense of the course and it is jointly sponsored by Texas A. and M. and the Texas State Fire Insurance Division.

Firemen announced plans to make additions to their club room. The Chamber of Commerce recently made an appropriation to help buy recreational facilities.

More young men of the town are needed for the fire department.

W. H. Awtrey, Jr., of Lubbock, was here last Tuesday and visited his son, Dickie, who has been with his grandparents, Mr. and Mrs. W. H. Awtrey, Sr. Dickie returned home with his father for a two days' visit. Dickie returned Monday to visit his grandparents, Mr. and Mrs. L. D. Winders of the Big Square community.

Mrs. W. T. Stewart of Santa Fe, N. M., visited with her brother, J. J. DeShazo, and family this week.

Aug. 23 will not only provide for critically needed buildings at Texas Tech, but will also result in most efficient use of funds since it will permit long range planning, college officials say.

And this from the College Building Amendment Committee, Dallas: "This amendment, designed to provide buildings so badly needed by our higher educational institutions, without the imposition of new taxes, is of the greatest importance to the educational system of this state."

We ought to do our best to form an opinion one way or the other by reading what is available on each side. We are afraid the average of us has failed to study the question properly and now will not have time to do so.

James A. Gowdy of Arch N. M., (you all know Hank) writes that he wants stationery printed and says to add his registered Aberdeen Angus Cattle lines saying "Hampshire hogs and Shetland ponies." Mr. Gowdy seems to be branching out in the registered stock business.

He also said: Include in your bill a subscription to The Journal. It is much better than the Olton Enterprise when you used to print it.

Jester's Vote Is For Amendment

Austin—Before leaving for Guatemala, Governor Beauford H. Jester cast an absentee ballot in the election on the College Building Plan constitutional amendment. The Governor voted "For" the amendment.

He said: "Adoption of this amendment will provide an orderly and proper way for meeting the pressing demands upon our higher educational institutions for increased facilities for veterans and other students. The plan has been carefully worked out, approved by all higher educational institutions, adopted by a two-thirds vote in both houses of the Texas Legislature, and is generally approved by all students of the problem. It can be carried out with no increase in taxes. In my opinion, every voter in Texas should favor the Amendment."

Sadler Tent Show Appears In City 3 Days Next Week

Vaudeville acts, string and orchestra music along with a generous helping of the Toby brand comedy such as only Harley Sadler can serve will be in Muleshoe beginning Thursday, Aug. 28 and lasting through Saturday night.

Appearing under auspices of the fire department, Harley Sadler's company features among others, Ray Kemo and his Ranch Boys of Nashville, Tenn., of Barn Dance fame.

Direct From Hollywood

Dianne Forester, actress, singer and dancer, came direct from Hollywood to join Sadler's show. Red Cogburn and his orchestra with Red featured as pianist contributes a share of the almost three hours entertainment under the big Sadler tent.

Five vaudeville acts alternate with the stage plays. June and Munde, jugglers, veterans with Harley Sadler, who has been touring West Texas with his own company for a quarter of a century; Roland and Russell, a brother and sister vaudeville act; Mack Johnston, talented dancer, and Bush and Maskiew, vaudeville team, perform against backgrounds of special scenery and lighting effects.

POSTOFFICE JOKE NOT A JOKE TO SOME

R. L. Brown last week said in his ad that the postoffice would be moved across the tracks in Muleshoe. Of course it was meant as a joke but some didn't take it that way. The Journal hastens to assure its readers that when any official announcement concerning the postoffice is made it will be made through the news columns of the paper by someone in authority to make such announcement. We know Mr. Brown would be surprised and regretful if anyone construed his statement as anything except what he intended it to be—a joke.

Mrs. O. D. Troutman's mother, of Phoenix, Ariz., is here visiting Mrs. Troutman and family.

Mr. and Mrs. J. A. Gardner and children of Riverside, Calif., visited over the weekend in the home of O. D. Troutman. Mrs. Gardner is a niece of Mr. Troutman.

J. L. Kuykendall Died Here Aug. 10

J. L. Kuykendall, father of Orvell Kuykendall, Baileyboro, died Sunday night, August 10, in the Green Hospital & Clinic. Mr. Kuykendall, who was 73, had suffered a heart attack the Wednesday before and these attacks kept recurring. He reached Albuquerque on a trip to California, then turned back here to be with his son when he began to feel worse.

He is survived by six sons and three daughters. Mr. Kuykendall was in business in Flomot. Funeral services were held there last Thursday, August 14, and interment was in Lorraine cemetery.

Lazbuddy Church Plans Meeting

A ten-day meeting at the Lazbuddy Independent Baptist church will feature the preaching of Rev. Lawrence Dumont and the singing of Mrs. Dumont and their children. Rev. E. L. Merritt, pastor, announced today.

The unusual program will begin Friday, August 22, and continue through Sunday, August 31, he said. There will be services each night during the week at 8 o'clock and in addition Sunday morning services will begin at 11 a.m.

Revival At West Camp Begins Sunday

A revival meeting will be held at West Camp Baptist church beginning Sunday, August 24 and continuing through August 31. Rev. C. T. Jordan, pastor of the Baptist church at Earth, will bring the messages, and Jack Setser, of Levelland, will direct the music. Everyone is urged to attend.

Bula School Opening Is Set Next Monday, Aug. 25—Faculty Complete

Bula school will open the coming Monday, August 25, according to announcement of W. D. Kay, superintendent, who said the early date will allow school to be dismissed for a time later this fall when harvest is underway.

The Bula faculty has been employed. There are five women teachers and four men teachers and E. R. Engram, formerly of Logan, N. M., is the new high school principal.

"We are anticipating a very successful school year," Mr. Kay said. During the summer all desks have been refinished and repairs wherever needed were made. A rest room project will be completed as necessary materials arrive, Mr. Kay said.

The lunch room will open Tuesday, August 26. Within a short time the new lunch room, now under construction, will be completed, probably by November 1.

Lunch Room Will Open September 5

Mrs. C. D. Julian, who will be in charge of the Muleshoe school lunch room, is making extensive changes not only in the interior of the lunchroom but in the method of serving as well. Supt. W. C. Cunningham said improvements are being made that will make the surroundings more pleasant.

Mrs. Julian announced that her assistants will be: Mrs. Effie Davis, Mrs. H. L. McDaniels, Mrs. W. C. Whalin, Mrs. J. C. Terrell, Mrs. W. D. Winstead.

The lunchroom will offer five meals for \$1 and one meal for 25 cents. It will open Friday, Sept. 5. School begins Wednesday, Sept. 3, and classes will begin meeting Friday.

Bailey Electric Co-op Plans New Extensions

Complete Water Survey Planned

Lubbock—The U. S. Geological Survey soon will make the most complete survey ever made of underground water resources of the High Plains, Lubbock city officials have announced.

The survey will cover the area above the Caprock between the Pecos river on the west and south and the Canadian river north of Amarillo.

The geological survey will establish headquarters in Lubbock or Plainview, officials said, depending on availability of office space and living quarters.

A sum of \$40,000 has been provided jointly by the city, the state and the survey to finance the initial phases of the work. Lubbock has provided \$5,000 and the state \$15,000 to be matched by the survey.

Ford Tractors Received Here

Rockey Tractor Company yesterday placed on display two of the new Ford tractors recently announced to the nation. Also, they are showing a large list of tools and equipment that go with the new tractor.

The new Ford is a thing of beauty, and some might not want to plow with such a pretty machine, but it is a powerful machine that is meant for hard work in the fields. The new tractor has four forward speeds among twenty-two new advantages listed by the company.

Neil Rockey said the company has promised several of the new tractors this season, and he says he had calls for many more than apparently will be supplied. In a statement to the paper Mr. Rockey invited all interested to come in and view all interested in improved farm implements to come in to see the display.

TO AWARD CONTRACT

Three Way school board and superintendent H. H. Homsley are to meet Saturday, Sept. 6, in the office of the architect, N. C. Butler, in Lubbock, for the purpose of awarding a contract on the new auditorium and gymnasium, recently announced.

J. U. Dawson and family, residing 17 miles south of Muleshoe, is having the pleasure of a visit from his sister, Mrs. R. J. Tucker, of Cleburne, Texas. She is returning from a trip through the Pacific states on her way home.

College Building Constitutional Amendment to Be Voted on Saturday

More opposition has developed on the proposed state constitutional amendment, the college building plan amendment, to be voted on Saturday, August 23, than any amendment in recent years.

Ex-students of state colleges, including the teacher colleges and Texas Tech, are united in opposition to the amendment, which they claim will work to the advantage of Texas University and Texas A. & M. and will not be to the advantage of the smaller institutions.

The election will be held at all voting boxes in Bailey County. Judge Cecil H. Tate has furnished The Journal with the following list of judges and assistants in the eleven voting places:

- No. 1, Muleshoe, Henry Hanover, judge and H. A. Douglass, assistant.
- No. 2, Progress, F. B. Stovall, judge and V. B. Harlan, assistant.
- No. 3, West Camp, Dwayne Danielson, judge and M. Z. Snider, assistant.
- No. 4, Fairview, N. C. Moore, judge and Cecil Davis, assistant.
- No. 5, Circleback, Hugh Gore, judge and V. C. Garner, assistant.
- No. 6, Longview, Wilson Witherpoon, judge and W. R. Young, assistant.
- No. 7, Baileyboro, Grandy Newman, judge and Johnnie Myers, assistant.
- No. 8, Stegall, S. P. Phipps, judge and John Sowder, assistant.

Bailey County Rural Electric Cooperative, with headquarters in Muleshoe, has been allotted a loan of \$350,000 with which to expand and improve its facilities in Bailey, Farmer, Cochran, Lamb and Castro counties. This was announced from Washington yesterday by the office of George Mahon, congressman from this district and by the REA officials.

Marty Ezell, manager of the electric cooperative, said the money would be used to change some single phase lines to three phase for irrigation power in the shallow water districts of Bailey and Lamb counties, to extend service to many new families in the five counties named above and to improve the existing system.

Ezell said some 86 irrigation wells around Muleshoe and over in Lamb county will be served with the three phase lines.

He said some 100 new families not now receiving electrical service will be on the new single line extensions that already have been mapped. Application for the money has been in the mill several months, he said.

All Children Will Attend School Here

All school children of the big Muleshoe school district will attend school at Muleshoe excepting that at Progress a ward school will be maintained for pupils through the eighth grade. This announcement was made by Supt. W. C. Cunningham to get this information before the parents and pupils concerned.

Mr. Cunningham said the principal of Progress school will again be O. E. Lumsden. Districts that have consolidated with Muleshoe since the last school term include Baileyboro, Longview, Liberty and Progress.

Guests in the W. H. Awtrey home Sunday were Mr. and Mrs. E. T. Ward and son of Portales, N. M., and niece and nephew of Mrs. Awtrey's, Dewayne and Justin Bryant of Clovis, Mr. and Mrs. Deon Awtrey and little son Ronnie of Goodland and Mrs. Bryant, mother of Mrs. Awtrey.

Mr. and Mrs. J. L. Hayes and son, or Erick, Okla., spent the weekend in the home of Mr. and Mrs. O. D. Troutman. Mrs. Hayes is a sister of Mrs. Troutman.

YOUR STATE TAXES DOUBLED

The State Tax Rate This Year Is 72c On \$100 Valuation

Last Year the Rate Was 37c

Who Said, "No New Taxes"?

VOTE! VOTE! VOTE!

Saturday, August 23rd

AGAINST

An Additional 5c Tax

On Saturday, August 23, an amendment to the constitution of the State of Texas will be voted on to allocate 5c of the authorized 7c Confederate pension tax to finance a building program for State owned colleges other than the University of Texas and Texas A. & M.

An Additional Tax

"They" say this is not a new tax, but you have not been paying it for many years. It certainly will be an additional tax you have not been paying. If voted by the people of Texas on August 23, it will be added to your 72c State tax, making a total of 77c on the \$100 valuation.

Small Taxpayers Pay

The veteran, the farmer, the small home owner, the laborer, the small business man, everybody will have to pay this 5c tax in addition to the 72c State tax, if this amendment carries. This State tax is in addition to local taxes—County taxes—School taxes—City taxes—and perhaps others.

Will Not Provide Buildings

If passed, this 5c additional tax will not provide adequate and sufficient buildings at today's cost of construction. In the next 10 years West Texas State Teachers College at Canyon MIGHT get \$487,200. The College of Mines at El Paso MIGHT get \$423,000. Sul Ross at Alpine MIGHT get \$189,000. Texas Technological College at Lubbock MIGHT get \$1,500,000 in these 10 years.

An Unnecessary Tax

This is an unnecessary tax. By a division of the so-called Permanent University Fund more buildings can be built at all the State owned colleges than this tax will provide. They also can be built much sooner. And the State University and Texas A. & M. still can get more buildings than they can use.

42 Counties Exempt

42 of the State's richest counties pay no ad valorem taxes for State purposes. None of these counties are in West Texas.

W H P

Should you pay another unnecessary 5c tax? 42 of the State's 254 counties will not be paying to help our State colleges.

Help Colleges—Vote Against

You will actually be helping all 14 of our State colleges if you vote against this amendment. All these colleges can and will get more money by regular appropriations if this amendment is defeated than they could get by the passage of this 5c tax amendment. Your vote against the amendment will help instead of hurt these 14 State colleges.

DON'T BE LED ASTRAY

Do not be led astray by this proposed amendment which levies a 5c tax on your property for 30 years and saddles a \$45,000,000 debt on you and all other taxpayers. If passed, this amendment will open the flood gates of the State treasury to dozens of new colleges and you again will pay the bill.

Go Vote Saturday, August 23rd

"AGAINST" This 30 Year Constitutional 5c Tax Amendment

Split Season On Duck Hunting In Texas Announced

College Station—Open seasons for duck hunting in Texas this year will be from November 4 to November 17 and December 16 to December 29, according to the Texas Cooperative Wildlife Research Unit and the Texas A & M department of fish and game. Under new regulations of the Department of Interior, states west of a certain north-south line are allowed to choose either a season of 35 consecutive days or a split season of 14 days each, and Texas has chosen the latter.

limits have been reduced in order to stem the noticeable decrease in waterfowl which has occurred during the past three years, according to the Secretary of the Interior, who states: "If the sport of wildfowling is to continue, we must regulate the take to less than the season's increase."
Texas, in the Central Flyway, with birds coming from the Canadian and Alaskan breeding grounds, is better off than eastern states, the breeding grounds for which are in unfavorable condition.
Daily shooting hours for waterfowl have been reduced to the period from sunrise to one hour before sunset, with hunting not permitted before noon on the opening day of each split season. The duck

bag limit has been reduced to four a day, with eight in possession. The daily bag limit for geese or brant in Texas is also four, with only one Canadian or one white-fronted

goose. Post season period for possession of migratory game is still 90 days.
Regulations prohibit taking waterfowl by bait or with live decoys.

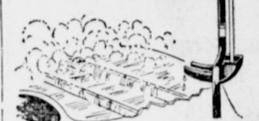

ing doves will be allowed from 4 p.m. until sunset on September 12, 14, and 16; then from October 20 to November 30, from one-half hour before sunrise to sunset. These regulations apply to Cameron, Hidalgo, Starr, Zapata, Webb, Maverick, Dimmit, LaSalle, Jim Hogg, Brooks, and Willacy counties. For the remainder of the state, the season will be from October 20 to December 3.

women for the nursing profession to help relieve the present critical shortage of graduate nurses, the five Baptist hospitals in Texas are this month launching an intensive student nurse recruitment program preliminary to the opening of new freshmen classes in their schools of nursing in September.
Personal appeals will be issued to young women aged 17 to 35 through Baptist churches and Sunday schools over the state, to interest them in preparing for the nursing profession. Speakers will

outline to the girls the advantages nursing offers of a well-paid livelihood, position of community prestige and an opportunity to aid suffering humanity, officials said.

Your Home

By Frances Ainsworth

A recent news story credited Dr. Austin T. Smith of Jefferson Hospital, Philadelphia, with saying that nose irritations and many other ailments similar to sinus infections are caused by heating units which absorb too much moisture from the atmosphere. In other words, humidity should be added to make up for the moisture that heated air absorbs.
Air's capacity for holding moisture depends upon its temperature. When air is heated, the capacity increases tremendously, being over twenty times greater at seventy degrees than at zero. Thus warm air is exceedingly thirsty, and in satisfying that thirst it has to have moisture added or the air you breathe becomes parched and makes you uncomfortable.
There should be some method of evaporating enough water to obtain adequate relative humidity. The best method is to introduce vapor into the heated air by means of flash evaporation. One furnace company does this in an exclusive way by having the water from your circulating system drop upon a built-in series of cascaded pans. Any surplus water that collects in the top pan drips over into the second, and so on down the line, thereby instantly turning it into vapor. Being a part of the furnace, the pans are heated, which accounts for the rapid evaporation and insures the automatic continuous feeding of the air with the gallons of water it needs during cold weather.
If your present heating plant is robbing you of healthful humidified air, it might indeed pay you to look into the humidifying method that is trademarked as the Holland Cascade Vaporaire by its manufacturer.

DOVE SEASON ANNOUNCED

Open season on mourning doves in certain parts of Texas will begin September 1 and continue to October 15, according to the Texas Cooperative Wildlife Research Unit and the Texas A & M department of fish and game. These dates apply to these counties: Val Verde, Kinney, Uvalde, Medina, Kendall, Camal, Hays, Travis, Williamson, Milam, Robertson, Leon, Houston, Cherokee, Nacogoches, Shelby and all counties north and west of these. In another group of twelve counties, shooting of mourn-

BUILD YOUR HOME OF WOOD

WOOD is a basic building material. For generations America has used wood for home building. Thousands of skilled craftsmen can apply time-tested building principles to transform your building dreams into a home that you will be proud to own.
Wood construction best expresses most of America's architectural styles. Only in wood can you achieve the warmth and individuality that you want in your home.
Wood is practical. Rooms can be added, or remodeled with ease and economy. You can change the color scheme to suit your taste.
Wood is economical. The lumber for a modern six-room all-wood home usually represents less than 20% of the total cost. Well designed homes of wood are always popular.
See us soon—we will help you with your building plans.

Better Business Through Soil Conservation

The typical Texas or other American community, except for certain industrial, mining, and other similar centers, depends on the farms and ranches around it for its business prosperity. Those farms and ranches, for their part, rely on the productivity of their soil for the rewarding yields of crops and livestock they must go on producing year after year if their owners and operators and the business and professional people in town are to stay in business. Obviously, then, the first and most important consideration is to treat and use our remaining good land in such a way as to insure its permanent productivity.

Such "insurance" is now available in the form of thoroughly planned and applied scientific soil conservation farming. It cannot be guaranteed in any other way. Hundreds of thousands of farmers and hundreds of communities throughout Texas and the rest of the country have demonstrated beyond question that thoroughgoing soil conservation means security for the land, the farm family, and the community.—Dr. Hugh H. Bennett, Chief, Soil Conservation Service.

Mrs. Pinson and Mr. Fernald Wed

The marriage of Mrs. Mary L. Pinson former teacher in Muleshoe schools to Mr. Walt Fernald, of Iraan, Texas, took place last Saturday evening, August 16, in the Methodist church of Alpine. Vows were pledged in a candlelight ceremony.

Mr. Fernald is owner of the Fernald Electric Company in Iraan where the couple will make their home.

Mrs. Fernald was director of music in the schools here before going to Dora, N. M., where she taught last year.

Family Reunion Honors Mrs. Devall

Mrs. G. M. Devall was honored with a family reunion and basket picnic at Clovis Park in Clovis, N. M., Sunday with 24 members of her family present, including children, grandchildren and great grandchildren.

Children present were: Mrs. Effie Davis, Almaogordo, N. M.; John Devall and family, Clovis; George Devall and family, San Saba; Mr. and Mrs. Ernest Holland, Muleshoe; one daughter, Mrs. R. B. Coffield, Sr., of Quannah was unable to be here.

Mrs. Devall had the pleasure of hearing the grandson, George Stanley Devall, preach at the Church of Christ in Lariat Sunday.

T. L. Slape and family who formerly farmed in the south part of the county, have moved to Dumas, where Mr. Slape has bought a wheat farm and has a small business.

RAISE FINE PLUMS

Mrs. O. D. Troutman brings some fine plums to The Journal office, plums that were grown right here in Muleshoe. They were so good looking that someone ate them up before we could get round to writing up a description. Yes, fruit will grow in the Muleshoe country.

RAINBOW TO MEET

Muleshoe Assembly of Rainbow will meet tonight, Thursday, for initiation of one candidate and election of officers for the next four months.

Boyd Neal and B. H. Lowry, of Wellington, have been guests in the home of Mr. and Mrs. T. C. Young.

DEAR FOR DANCING

Charming Janis Paige of Warner Brothers models a strapless number made of chambray with a bare-shoulder bodice of silvery, changeable maroon, and a full, floor-length skirt that's a dear for dancing.

Rebekahs Plan Melon Festival

Muleshoe Rebekah Lodge met Tuesday night in regular meeting and we were very glad to welcome two visitors, Bro. and Sister Morris of Missouri, who are visiting in the Frank Snyder home.

All Rebekahs are urged to be present next Tuesday night, August 26, as this is initiation date. All team members who have robes, please bring them.

All Rebekahs and Odd Fellows and their families are invited to a watermelon festival at the hall Friday night, August 29. All neighboring and visiting Odd Fellows and Rebekahs are also invited.

Marriage Of Miss Lambert Announced

Mr. and Mrs. W. T. Lambert announce the marriage of their daughter, Connie, to Mr. Val Davis, son of Mr. and Mrs. Henry Davis, Twin Falls, Idaho.

They were married Thursday, August 7, in Portales, N. M. They will make their home in Muleshoe.

Demonstration On Preparation Food For Freezing 27th

A county-wide demonstration on preparing foods for freezing will be held here Wednesday, August 27, by Mrs. Laurette Williamson, county home demonstration agent. She will be assisted by Mrs. Dave Aylesworth, a member of the Muleshoe club.

Time of the demonstration is set at 3:30 in the afternoon and the place is the home-making department of Muleshoe high school. Everyone who is interested is invited to attend.

Peggy and Lynda McCormick left Tuesday morning for Abilene to visit in the home of Mr. and Mrs. LeRoy Nelson and family and from there they will visit in Eden, Texas, with their grandparents, Mr. and Mrs. W. F. Mullins.

Mr. and Mrs. W. B. McAdams were guests over the weekend in the home of Mr. and Mrs. W. C. Cox of Munday. They also went to Fort Worth, where Mrs. McAdams had a check up at the Methodist hospital.

Recent guests in the home of Mrs. A. W. Copley were her aunt, Mrs. Goldie St. Farrar of Roosevelt, Okla., and her cousins, Mrs. George Graham of Elk City, Okla., and Miss Mary Frances Farrar of Roosevelt.

Freeze Fruits to Get Summer Treats All Year

Frozen berry purees over ice cream make tasty sundaes in winter or summer.

BERRIES make mighty tempting summer desserts—and just as tempting winter ones. For by freezing the finely flavored berries you can have summer treats the year around, writes Donald K. Tressler in Capper's Farmer, a leading farm magazine.

"To preserve the good taste that fresh berries have," he points out, "one should allow them to fully ripen on the bush, and handle them gently in preparing them for the freezer. Avoid extra handling in washing by placing them in a colander or basket with small openings and swish it through water containing ice until berries are clean. The ice water keeps the berries firm and shapely, prevents bleeding and

waterlogging of the fruit.

"When several pounds of berries are washed, stemmed or capped, you are ready to mix them with sugar or cover them with sirup—depending on your preference and whether or not you want to use the frozen berries for dessert sauces.

"In filling containers for the freezer, allow 3/4 inch space at the top of each one for expansion during freezing. Follow the manufacturer's instructions for closing or sealing various types of containers.

"Berries or any fruit covered with sirup tend to rise to the top. To keep them in the sirup, crush a piece of wax paper and place it between the fruit and the lid of the freezing container."

News Briefs

George Devall and family, of San Saba, spent the weekend here in the home of Mrs. Ernest Holland and family, and his mother, Mrs. G. M. Devall.

Mr. and Mrs. Charles Wilson and daughter, Jean, of Ellensburg, Wash., accompanied by a sister of Mr. Wilson who lives in Kansas, stopped by to see Mr. and Mrs. Arthur Ryan, their old friends, last Thursday and Friday on their way back home, after visiting in Kansas.

Mr. and Mrs. Buck Wood returned home Friday after vacationing in Red River, Colorado, and Salt Lake, Utah.

L. C. Browder and family of Lubbock, are making preparations to move to Muleshoe. Mr. Browder will teach math in Muleshoe high school the coming term.

Mr. and Mrs. Ross Goodwin and children returned last week end from a two weeks' sight seeing tour of Salt Lake City, Utah, Yellowstone National Park and points in Colorado.

Fun Night Held By H. D. Club

The Muleshoe home demonstration club fun night and picnic was held at the W. H. Awtrey home last Thursday night. Thirty seven were present. There was lots of good food and ice cream, served on the lawn, for the club women and their husbands and children.

Mrs. A. W. Copley was leader in the children's games. The older folks just did a lot of talking and visiting. Everyone reported a nice time and left wishing these fun nights would happen more often.

Mrs. Veda DeBurlle and her sister-in-law, Mrs. Alfred Runge, will return to their home in San Francisco, California, Wednesday, after a ten-day visit here with Mr. and Mrs. H. C. Lee of the Progress community and Mr. and Mrs. Dolly Howell of Muleshoe.

'Green Manure' Crops

"Green manure" is vital to soil rebuilding and higher crop yields that come from a crop of legumes, as shown by accompanying chart. To compare the organic matter and nitrogen various legumes produce through their tops and roots, tests were made at Joliet soil experiment field. Plots of white blossom sweet clover, alfalfa and red clover were seeded in oats May 1. Samples of tops and roots were collected November 1. Results showed that white blossom sweet clover produced considerably more organic matter and nitrogen in the fall of the first year than the other legumes. Sweet clover is a superior

Limed Litter Helps Improve Hens' Health

Built-Up System Also Benefits Baby Chicks
By W. J. DRYDEN
Not only as a means of saving on the cost of litter material as well as on labor, but also as a coccidiosis control measure, authorities now recommend that litter be left in the brooder and laying house for a year or more. When the litter is treated with hydrated lime little danger from disease will result. By using the built-up litter method, the poultry house receives additional insulation, resulting in drier litter and more uniform temperature. Extensive tests at Ohio and Washington State colleges have proven the value of

green manure crop because of its growth in the fall and its high percentage of nitrogen in the spring of the second year. This greater fall growth the first year is due to the fact that sweet clover does not bloom, but continues growth until freezing weather. Alfalfa and red clover frequently will bloom in the fall of the first year. Vegetative growth stops with the blooming.

NOTICE

To creditors of Liberty, Baileyboro, Longview and Progress school districts: If you have a bill against either of these districts turn them in to this office at once. They must be in our hands before August 30.

Magazine Article Causes Rush For Liability Policies

"Did you read 'When Will You Be Sued?'"

This is the question Elizabeth Woodley, representing Eagle Indemnity Company is asking her friends and policy holders. She explains that since publication of this article in the April 5 issue of the Saturday Evening Post there has been a rush to buy comprehensive personal liability policies.

Mrs. Woodley explains, for the benefit of those who did not read this article, that nearly everyone needs this policy. "Most people buy automobile liability and property damage insurance," she said, "but forget that their ball playing boy might poke a base hit through a store window—that their dog might take a nip at some teasing kid or the friend coming into or leaving the home might be thrown for a loss by the garden hose left across the sidewalk. All these things and many more make a person carry a lot of liability around with him all the time."

"The Comprehensive Personal Liability policy takes this load off a person's shoulder. This policy covers all liability up to \$10,000 from his residence and from his personal acts as well as those of his family for everything except driving an automobile or an airplane. It covers his legal liability for property damage as well as for personal injury. Most people know that children can get into all kinds of trouble and still be mighty nice kids."

A special feature of this policy—it's called the Medical Payment Coverage—provides the servants, guests, friends, anyone outside the insured's family, if injured or hurt on the insured's premises, or hurt anywhere by the insured or his family, will have his or her medi-

cal expenses paid, up to \$250 for one person.

This is 'gentlemen's insurance,' stated Mrs. Woodley. "Lawyers have a lot of definitions about what the legal liability is and if the per-

HOLLYWOOD FAVORITE

Two-piece cottons are favorites for many of Hollywood's younger set, and Vennessa Brown of 20th Century-Fox demonstrates the fetching reason why in a brown-and-white corded cotton suit. The brief jacket is fastened down the front with metallic buttons, and the neat look is emphasized further by a white pique turn-over collar. Push-up sleeves and circular skirt add piquant charm.

son has the legal liability, it is covered by the policy but this medical payment coverage is for 'moral obligations'."

Mrs. Woodley stated that higher limits of insurance were obtainable at very little increase over the \$10-00 per year premium for this policy. The medical payments coverage coverage also can be increased, she said.

BLACKWATER VALLEY SOIL CONSERVATION DISTRICT NEWS

Last week, Soil Conservation Service technicians checked the terraces on ten labores near Needmore for vertical interval, height and width. Lines for the terraces on this land, which is owned by Dickey and Robb of Electra, were run by employees of the old CCC camp which was located at Littlefield. The tenants on this land are planning to build up the terraces this fall so that they will meet SCS and AAA specifications, thereby more effectively controlling water erosion.

Alton Loe, tenant on the C. M. Baker farm, J. J. Williams, E. V. Williams, T. L. Holman, tenant on Mrs. Ethel Darnell's farm, J. M. Nelson tenant on the C. C. West farm and George Hicks were assisted last week in laying out irrigation ditches. E. V. Williams and W. L. Holman were assisted in staking out borders to be used for irrigation.

Surveys were made for determining the topography of 80 acres of land owned by C. C. West of Lubbock and of 30 acres owned by George Hicks of Muleshoe. The topographic surveys are very useful to soil conservation service technicians in planning improved methods of irrigation water application.

A well was located last week for J. M. Nelson. Conservation surveys have been completed on 1,440 acres of land owned by O. M. Self, M. A. Jarvis, and Fred Koplin, cooperators with the district.

Tests were made recently to determine the amount of ditch losses on the F. Heathington farm. Complete plans of conservation

operations have been worked out with Soil Conservation Service assistance on farms owned by Everett Smith of Roswell, New Mexico; Byron Gwyn, of Muleshoe, John Beran of Lubbock, and Rufus Gilbreath, Muleshoe.

Applications for Soil Conservation assistance have been made by Grady Adcock, 320 acres; T. C. Moseley, 80 acres; C. M. Baker, 154 acres; A. R. Ramm 320 acres; B. J. Leedy, 160 acres; and A. E. Gallaway 160 acres.

HOW WIDE ARE STREETS OF SALT LAKE CITY?

Mr. and Mrs. Buck Wood were at Salt Lake City a good part of the

time on their recent vacation trip and returned with a glowing account of that beautiful city, whose inhabitants seemed strangely unhurried, calm and friendly.

Buck says legend has it that Brigham Young, the founder of the Mormon religion and of this great city, walked along with his wives all in a row and his faithful followers made the streets wide enough to accommodate this line. He doesn't

know how many wives Brigham had, but in cold statistics, and for the information of the curious, the streets are 130 feet wide.

Supt. H. H. Homsley of Three Rivers school has been in Austin this week on business.

Edward Byerley of Levelland visited last week here with his grandmother, Mrs. Maude Jones.

Farm Notes

3 BALES TO THE ACRE

College Station—Cotton yields of two to three bales per acre were obtained at the Weslaco and Ysleta substations of the Texas Agricultural Experiment station during 1946, according to a report by D. T. Killough, agronomist and cotton breeding expert in the department of agronomy, Texas A. and M. College. Extremely favorable conditions resulted in high yields from some of the better varieties as produced under irrigation at those substations.

At both Weslaco and Ysleta the yield of lint per acre was more than 1,000 pounds for almost all varieties tested.

Among the higher yielding varieties at a number of points in the state for the last several years are Deltaplane 14, Stoneville 2B, Empire, certain types of Acala, better strains of Rowden and Coker, including Rowden 41B, Coker 100 and 200, Coker 4 in 1; Lankart 57, Northern Star; Floyd, Watson and Bryant strains of Mebane; Lockett 140-46 and Western Prolific.

FARM HOME MODERNIZED

The home on the farm of Mrs. John Barnett, 2 miles south and a half mile west of Stegall has been modernized under direction of her brother, Fred Kopplin. A bathroom was added, the whole building stuccoed and paint applied inside and out. Mr. Kopplin, as well as the W. R. Byers family who occupy it, are very proud of the result. Mrs. Barnett, who lives in Zumbrota, Minn., was here this summer with her husband for a visit.

Mrs. Mable Ryan, of Mountain Park, Okla., returned to her home Sunday after visiting here with her father, J. W. Ellis and transacting business in the county.

A two-day stay at Ruidoso was enjoyed last week by Mrs. I. W. Harden, Miss Elizabeth Harden, of Muleshoe, and Mr. and Mrs. W. T. Bethany, of Amarillo.

GI Training Official Was Here Last Week

The Texas State Approval Agency, located in the General Land Office, Austin, is now official approving agency for GI on job training. A representative of the office, Arlon G. Simmons, inspector, was in Muleshoe last week to interview local proprietors who had requested approval.

In the future inquiries relating to requests for approval of a firm for approval should go direct to the agency at Austin and not to the Veterans Administration at Lubbock. The agency, created by the

TRUCK LOAD OF PUMPS BROUGHT TO MULESHOE

Irrigation Supply Company last week brought in a truck load of Western Land Roller Co. pumps from the factory at Hastings, Neb.

H. D. Crawford of the company went for the pumps with Red Johnson furnishing and driving the truck. Most of the pumps were already promised to local farmers, Crawford said.

legislation providing for on the job training, took over the approval duties June 16 this year, Mr. Simmons said.

Mr. and Mrs. Tom W. Drinkard and children of Levelland moved here Friday from Levelland to live on the Leland Mounts farm which recently sold.

Mr. and Mrs. Buck Ragsdale left Friday for a vacation trip to Yellowstone National Park and other scenic parts of the Northwest. They were to be gone about two weeks.

Mrs. R. M. Sigman and little son, Curtis Dean, of Canyon, have been visiting here with Mr. Sigman's mother, Mrs. Oma Sigman and family.

Mrs. Laura B. S. Cox and son, Jake Dennis Cox, and her granddaughter, Barbara Mae Crowe, have returned to their home in Eads, Mo., after a visit here. Mrs. Cox owns land in the county.

REVIVAL

First Methodist CHURCH

Muleshoe, Texas

Sept. 1 to Sept. 14

Evening Services at 8:00 p. m.
Morning Services at 10:00 a. m.

Rev. J. B. Baker

Pastor Amherst Methodist Church,
Visiting Preacher

Mrs. J. B. Baker, Young People's Worker
Rev. T. G. Craft, Pastor

We offer you good preaching and good singing.

"Christ, the Hope of the World and the Redeemer of Souls," will be the theme of these services.

You Are Extended A Cordial Invitation To Attend

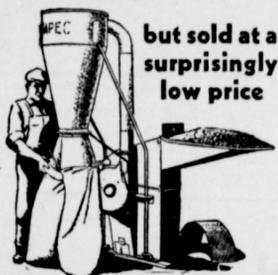

THE COAT, MEN!

This breezy beach coat of white cotton toweling is a priority item either for bathers or for court enthusiasts, and it's a nifty addition to any summer wardrobe. The wearer—as if you hadn't noticed!—is Faith Domergue, raven-haired screen beauty who is one of Howard Hughes' screen finds.

Guaranteed to outgrind any other hammer mill in the same power class

The Papec Model X Hammer Mill is today's biggest bargain in quality feed grinders! This surprisingly low priced Papec Hammer Mill will give you better feed and lower your feed cost for it is guaranteed to grind any dry feed—grain, ear corn or roughage—to any desired fineness. It is also guaranteed to grind more feed per hour than any other hammer mill in the same power class. Any farm tractor or auto engine will run it. No speed jack needed. Fine for use with electric power.

but sold at a surprisingly low price

A built-in tramp metal trap protects your stock from getting nails, bolts and wire in their feed. The hammers turn on quality ball and roller bearings in a safety steel housing. The 4-way reversible hammer tips are made of 3-ply steel exactly like the most expensive Papec custom mills. The Model X comes complete with blower, air separator, 2-way bagger and two screens. Come in and get full information on all 6 Papec Hammer Mill models.

COLOR SYMPHONIES

Are you outfitting your daughter's nursery, or are there baby presents to be purchased? Then consider making them for there is no gift that is more gratefully received than one you made yourself. Besides you'll enjoy stitching for the small ones.

Rugs are a useful item and the designs are countless. Since children form an early attachment for animals we picked a cat and hooked the pattern in bright yellow and white. And, incidentally, the material for this rug originated with a pale yellow summer dress which had become faded from a couple of seasons' wear. First, it was dyed with all-purpose dye because it was rayon and this dye does an all-over even job on any type of material whether its made of synthetic or natural fibers. Next, strips were cut and then all that was left was to stamp the design on burlap, stretch the burlap on a wooden frame and get busy with the hooking needle. Bibs are fun to do and also make

attractive gifts. A set of three it pastels can be easily made from unbleached muslin for a nominal sum. Dye one blue, one pink and one pale green. Applique or embroider animal and flower designs for a gay note. Or use rick-rack braid for color contrast.

Baby has to have towels, too, so have you thought of the breezy nursery rhymes you can embroider at the bottom to make them something special? For instance, "Mary had a little lamb," "Little Jack Horner," and "The cow jumped over the moon" will make interesting subjects.

While we're on baby talk, don't forget that when little white dresses become yellowed or stained, they can be tinted delicate pastels to make them fresh and pretty again. And, after all, why shouldn't a bit of color be added to the dress section of their wardrobe? Yellow on a vivacious brunette or pale green on a fragile blonde would bring on the compliments.

Bring Us Your Real Estate Listings

If you are tired of it, we'll sell it—

If it is so high you can't afford to keep it, we'll sell it.

Have out of town buyer for well improved 80 to 160 acres, under irrigation, and well improved. Need this listing quickly.

Bud Holdeman told The Journal he is planning to go to Mayo Clinic, Rochester, Minn., for examination.

Mrs. Williamson Gives A Flower Garden Check List

There's a late August and early September check list for your flower garden. It comes from Mrs. Laurette A. Williamson, county home demonstration agent of Bailey County.

1. Cut old blossoms and seed pods from crepe myrtle and other plants. It will keep them blooming longer.
2. Make out your list of bulbs to plant this fall. An early order gets the choice ones.
3. Order flower seeds to be planted this fall. Calendula, larkspur, snapdragon, phlox, petunia, dianthus, pansy, stock, hardy poppies, cornflowers, scabiosa and candytufts are recommended.
4. Chrysanthemums are heavy feeders; they need a monthly shot of commercial fertilizer and plenty of water. Stake plants. Pinch off some of the early buds.
5. If you have any thin spots in the lawn, mow the grass high, fertilize and water.
6. After perennial phlox and verbenas have passed their glory, cut the tops back pretty severely, fertilize and water for lots of late blooms.
7. Trim back limbs and twigs from shrubs and shade trees that are growing out of proportion for the rest of the plant.

Social Security Man Here August 28

Elliott W. Adams, Social Security Administration Representative, will be in Muleshoe at the U. S. Post Office at 9:00 a.m. on Thursday, August 28, for the purpose of answering any questions you may have on Social Security; discussing possible benefits and taking claims from persons who seem to be entitled to benefits, and taking applications for Social Security account number cards.

Your account card is the key to your entire social security wage record—and to benefit payments for you and your family. Take care of your card. If you must keep it with you, don't carry it loose in your pocket—keep it in a holder of some kind to protect it from wear, tear and loss. For information concerning account numbers or Old Age and Survivors Insurance payments, call or write the Lubbock office.

Mr. and Mrs. Tye Young will attend a family reunion to be held at Wellington this week end.

Attending a family reunion held at San Angelo Sunday were Mr. and Mrs. M. G. Bass and son, Raymond, and Judge and Mrs. Cecil Tate, all of Muleshoe.

READ THE WANT ADS

Did You Know . . .

That the continued dry weather is cutting down materially on this year's production of sorghum grain? Dry land crops especially are feeling the pinch, and this condition points to less grain, consequently higher prices for sorghum grain until another crop time, in our opinion.

We want to remind you that we are in the market for your grain of all kinds and that we offer a Federally Bonded Fireproof Storage

Mr. Riley Goodnough has 300 bushels of sacked, re-cleaned, Tenmark wheat seed for sale. Grown from certified seed. See him at once if you want some good seed.

SERVE SUMMER SANDWICH TREATS

When summer weather reaches the well known "blistering" stage, quick refreshing meals are indicated. A cool-as-a-breeze sandwich platter which features a variety of satisfying meat toppings more than fills the bill. Served with crispy potato chips and colorful relishes, these appetite-pleasing sandwiches tempt Mother and the family alike.

Mrs. Ralph Paul of Lazbuddy recently underwent a major operation at Lubbock Memorial hospital. Her condition is reported as fair.

Mrs. L. B. Plummer and children, Leonard, Nina and Dorothy of El Paso, are visiting her parents, Mr. and Mrs. F. W. Greene. They are moving soon to Weatherford, where Mrs. Plummer's husband is dean of the college there.

Ray Buzard and family visited in Lubbock and Tahoka with relatives last week.

Paul Carmickle and family, former residents of the Goodland community, returned last week for a visit with old friends. They are now located on a farm they bought west of Tulla. It was dry there and Paul said he had been running his irrigation well for five consecutive weeks.

LONGVIEW BAPTISTS ARE CONDUCTING REVIVAL

A revival meeting is underway this week at the Longview Baptist Church, according to announcement of Rev. Gerald Moore pastor. Rev. W. C. Wright, pastor of the First Baptist Church of Morton is doing the preaching and Rev. Moore is directing the singing.

Mr. and Mrs. J. J. DeShazo and Nell attended a reunion held at McKenzie State Park in Lubbock Sunday, honoring Mrs. DeShazo's mother, Mrs. J. D. Isaacs, of Snyder, on her seventy-sixth birthday. There were thirty-five present.

MOORES TO CORPUS CHRISTI

Rev. and Mrs. Gerald Moore are leaving soon for Corpus Christi to make their home. Mrs. Moore, who formerly taught home economics in Muleshoe high school, will teach in the new senior Baptist college, the Arts and Technological College, established in the abandoned Naval training station. Rev. Moore will attend college a part of the time to get his degree. He is resigning as pastor of the Longview Baptist church, in Longview community south of Muleshoe, and will preach his last sermon for the congregation next Sunday night.

Mr. and Mrs. O. J. Floyd have bought a grocery store and filling station in Munday and will move there the coming week. They have sold their home here to Mr. and Mrs. R. W. Niehaus. Mr. Niehaus is connected with The Journal.

Richard Dennis, son of Mr. and Mrs. Bland Dennis, former Muleshoe residents, now living on a ranch near Lampasas, is here visiting old friends.

Mr. and Mrs. Walter Stratton of Oxford, Iowa, visited here last week in the home of his cousin, Judge R. J. Klump and Mrs. Klump. They were en route to San Angelo, where they may locate.

MULESHOE LANDMARK IS BEING TORN DOWN

A Muleshoe landmark is being torn down this week. The old Gup-ton house, located down town on the corner next to Rocky Tractor company's building, is coming down and Connie Gup-ton said he will use the lumber in a new residence he is to build next to his present home.

He set at rest rumors to the effect that he will build on the lots where the old house stood. He said he has no plans to build there in the near future.

The house is really two houses, moved in from a farm to Muleshoe and bought by the late C. D. Gup-ton, placed in their present location and added to in 1915 The Gup-ton family lived there many years ago.

AMHERST LADS DEFEAT MULESHOE BOYS 7 TO 5

Amherst Junior Legion baseball team defeated the Muleshoe Juniors in a game played there Sunday afternoon 7 to 5. Bobby Seid, who started on the mound for Muleshoe, allowed only one hit and made quite a showing for a 13-year-old.

Others in the starting line-up were: R. Barnett, c; Duncan, 1b; Tib-bets, 2b; D. Barnett, ss; Griffiths, 3b; Fudge, lf; W. McCarty, cf; Rags-dale, rf. This was the last game for the season, and Houston Hart, team manager, said the boys wound up with 7 losses, 4 wins for a fair season record.

FIRE ALARM SATURDAY

The fire department answered a call Saturday night to take care of a blazing automobile parked near Pop's Cafe. The blaze was extinguished before the boys got there with little damage.

Mrs. L. E. Bartlett and children are visiting in Lamesa with Mr. Bartlett's parents.

Carter Taylor relieved him and pitched one inning, then gave way to Clements who pitched 4 innings.

Mr. and Mrs. Ray Griffiths left Monday for points in New Mexico and Colorado.

JOHNSON - POOL

TIRE & APPLIANCE

Now everyone can afford the best!

GET MORE for your old tire
PAY LESS for your new tire
... get the tire that **OUTWEARS PREWAR TIRES**

Now Only \$12.95
6.00-16 PLUS TAX
WITH THE OLD TIRE OFF YOUR CAR

WHILE most everything else has gone up, one important product has stemmed the tide of rising prices. Tires. And B. F. Goodrich was the first tire maker to bring you these savings below prewar levels.

But price is only the first of many ways B. F. Goodrich tires cut your costs. You get more mileage than you've ever known before from the new, wider 'road level' tread that runs flush-to-the-road giving the tire more road contact, equalizing the strain, reducing wear.

You get more safety from costly accidents because greater road contact means more rubber to grip and stop. And the scalloped, tooth-edged ribs fight side-slip and skidding. Finer, sturdier cords and more of them add strength to the cord body to resist damage from pounding and danger of blowouts.

On top of this, you can get a big allowance for your present worn tires. For instance, your old tire and \$12.95 will buy you a new 6.00-16 Silvertown that out-wears prewar tires.

\$1.50 DOWN — \$1.25 A WEEK
PUTS A NEW 6.00-16 B. F. GOODRICH SILVERTOWN ON YOUR CAR

Every Price a **LOW PRICE** Every Day

Save money all along your food order—from start to finish—by doing all your food buying here where every price is a low price every day. No need to wait for weekends or "sales". No "hot shot leaders" to mislead you. Every item you select from our vast variety of top-quality, top-flavor foods is priced down-right low every day of every week. That's our system for helping you beat the high cost of living—and it works wonders for your budget—pays you well in the money you put back into your pocketbook.
