

Muleshoe Locker Is Making Additions

Mr. Muleshoe

Seven months have now elapsed since the gas explosion destroyed the Muleshoe postoffice. During that seven months the people of this city and surrounding country have patiently awaited the resumption of adequate mail service and the provision by whoever is in authority of satisfactory mail facilities.

It now seems plain that unless something drastic occurs the "temporary" situation is to become a permanent thing.

Temporary quarters were set up in a building that was never erected for the purpose—it is inadequate.

But that is only a part of the story. The equipment was virtually ruined by the explosion, but a large amount of repair work has been done and the equipment—the boxes at least, are partly usable. Not all will respond when the combinations are worked. The force is using tables, desks, storage bins, etc. that have been borrowed from people of Muleshoe.

The worst feature of the whole thing is that there are only certain times when one can get to his box to get his mail. On Sundays and holidays, the postoffice building is open for only about three hours, because it is not possible to fence off the lobby from the employees' side of the office. The office closes early on weekdays, also and one must get his mail before 6 p. m. or wait until the following day.

There are too many people in and around Muleshoe, this is too good a town, too busy a town, to suffer such inconvenience. It is a poor arrangement for the postoffice force, and it is a poor arrangement for the public. In addition it is not up to the standard the public has set for its mail department, an important part of the Government.

We believe that someone, has the authority to change this situation, and we hereby respectfully suggest that we would appreciate it if he would do so.

This paper suggests that it would let the authorities know just how bad the situation is and how much we want it improved if each citizen would just sit down and write to the Fourth Assistant Postmaster General, Washington, D. C., who has charge of such things as building lease and equipment for the postoffice department. And send a copy of your letter to George Mahon, House Office Building, Washington, D. C.

Mr. Mahon and the Fourth Assistant have answered letters written them about the local situation by the local postmaster. Mr. Mahon is working on it, and it will strengthen his hand if he has some letters from the folks here.

Mr. Farmer, if you are bothered with bind-weed, and many of you are, why not try chemicals. An application or two of 2-4-D, a way discovery, will eliminate bind-weed, or so it is claimed. Hale County commissioners court has started a county wide fight on this pest by buying a large quantity of the chemical for use along roads, and farmers, it is hoped will join in the fight on their individual places. Let's find out about this right away. And I have an offer to transmit from one who represents a big company; he says that his company will furnish the chemical for a spraying demonstration on a farm in this territory, to prove to the people here that 2-4-D will do the work.

Additions now being made to the Muleshoe Locker Company plant will make this locker one of the largest in this territory, Vance Wagon, manager, told The Journal this week. Only Lubbock and Amarillo will have plants larger than the Muleshoe plant when it is completed.

Mr. Wagon said there will now be 850 storage lockers for public use. A block of 250 lockers is being announced for completion at an early date, and families who wish to have one of them should make application now. The lockers will be ready for use in the near future. There has not been a vacancy at the locker plant for several years.

The company began operations seven years ago with 40 cold storage lockers for rent to the people. The plant has grown steadily to supply service to an ever increasing number of families.

They butcher animals and cure or freeze the meat, storing it for future needs of the family. One of the new additions will house a new meat smoke room.

Mr. Wagon said that with the increase in the size of the locker will come a gain in quality of service. "We plan, he said, "to equal or better the service obtainable for this type of business anywhere."

The company is now equipped to take care of beef, pork and other meats better than ever before. They do custom butchering, dress poultry, grind sausage, hickory cure meats, and render lard; in fact, they operate a very complete service for the people of this territory.

Green T. Hatley Died Saturday

Green T. Hatley, 81, died of a heart attack last Saturday morning at the home of his son, J. W. Hatley, 1 mile north of Muleshoe. Mr. Hatley had been visiting here with his son the last two months.

He was born January 23, 1866. Kinney Funeral Home of Stamford had charge of arrangements. The body was taken to Aspermont, Texas, for burial.

RITES FOR VERN ROCKEY HELD IN SCIPIO, OKLAHOMA

Vern Rockey, 58, died at his home in Sciapo, Okla., July 4, and interment was at Lawton, Okla. He is survived by his wife and ten children.

Mr. Rockey was a brother of Neil Rockey. The family was unable to contact the local man, as he and Mrs. Rockey were enroute to Alaska. Glenn Rockey and Mrs. Howard Elliott were present for the funeral.

OFFICERS INSTALLATION

Muleshoe Rebekah Lodge, No. 114, will install officers Tuesday night, July 15. All members are urged to be there.

Somebody come forward and volunteer and let's find out the facts about this.

All that I talk to seem to agree that military preparedness is a necessity in this present day world. Not all agree that universal military training for our young men is the answer, the cure-all. But, neither does the President's Advisory Commission on Universal Training, which, in its report recommends the following ingredients for a national security program:

1. A strong, united, healthy and informed nation;
2. A coordinated intelligence service;
3. Scientific research and development;
4. Industrial mobilization;
5. A striking air force;
6. Other elements of the Regular Army, Navy, Air Forces, Marine Corps and Merchant Marine;
7. Unification of the Armed Forces;
8. Universal training.

The following notice was inserted in the columns of a country weekly:

"Anyone found near my chicken house at night will be found there in the morning."

Maybe it's the name, maybe it's the good people who live here and tell about their town. I don't know but this Muleshoe gets the publicity far and wide. Latest blow up about our town comes from a mimeographed sheet published in far away Muskegon, Michigan by one S. A. Sander, and called by him Newz Boltz. Evelyn Wills, an employe of Green Hospital & Clinic is a reader of his little paper, having apparently known him for quite awhile, and she furnishes us a copy of the paper with this editorial about Muleshoe:

MULESHOE, TEXAS
Newz Boltz has a reader in Muleshoe, Texas. She is Evelyn Wills.

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

TWENTY-FIFTH YEAR, NO. 28

MULESHOE — COUNTY SEAT OF BAILEY COUNTY, TEXAS

THURSDAY, JULY 10, 1947

Progress Voters Say No To Second Consolidation Proposal, 65 To 64

Parhandle Contracting Co. recently awarded the contract for 22 blocks of city paving with curb and gutter, and a contract for widening highways through the city. Tuesday began their big job by starting to place curbs and gutters on West Edwards street, near E. Roy Jordan, Bob King and Blundy Ray homes.

This entire street will be paved, winding up at the city park in the east part of town.

The citizens are looking forward to the completion of the city paving program with the expectation that it will help to alleviate the dust situation.

James Moore With Soil Conservation District Office

James Moore, recently of Crosbyton, has assumed his duties here as work unit conservator with the Blackwater Valley Soil Conservation District, succeeding N. S. Abbott in that position. Mr. Moore and wife are at home in the Wimberly apartments.

Another new member of the district staff is Bill Ramage, who is engineering aide. Mr. and Mrs. Ramage and infant son have moved into the Douglass apartments, having come here from Dalhart, where he has been associated with the soil erosion control project.

Mr. Moore is a graduate of Texas A & M and is an ex-service man. Others on the conservation staff here are: Miss Barbara Morris, clerk; B. W. Parsons, engineer; Henry Williamson, ranch planner; and Jesse Thompson, soil scientist.

Littlefield Rodeo Begins July 25

Littlefield—One of the most colorful rodeos to be staged in West Texas this summer will be the annual big-time Littlefield Jaycee western show, set for July 25-26-27.

The four-show rodeo will be directed by the veteran Howard Brown of Dublin, for five years superintendent of the Gene Autry World's Championship Rodeo Association. The stock will be furnished by the famous Autry & Colbert ranch at Dublin.

Added attractions of the big western show this year will be mammoth street parade on the opening day of the rodeo, street races each night and the cowgirl sponsor contest.

Some of the specialty acts will feature Don and Virginia Wilcox of Tulsa, Oklahoma, performing trick and fancy roping; Gene McLaughlin of Fort Worth, a veteran trick roping who has appeared at such shows

Voters of Progress school district again defeated a proposal to consolidate with Muleshoe district, and again by the slimmest of margins. The vote in the district Wednesday was 65 against and 64 for the proposal. County Judge and Superintendent Cecil H. Tate reported. Eleven voted in Muleshoe district, all favoring a merger.

It was the second time the two districts had voted on consolidation. A few weeks ago Muleshoe voters favored the move while Progress citizens turned it down, 63 to 61.

Several other districts have voted for consolidation in recent months, however. Baileyboro, Liberty, and Fairview are now a part of this district. West Camp voted no on the proposal to consolidate that district.

The new, enlarged district is going ahead with plans to make their school an outstanding one in West Texas, members of the board and Supt. W. C. Cunningham said. Plans are being made for a new high school building. The site is already selected and a stadium nearby is being built to be in readiness for play this fall.

Supt. Cunningham has taken the leading part in the consolidation movement in this part of the county, for he believes that only by consolidating small districts provide a first class school. In the south part of the county, Stegall recently has consolidated with Three Way, strengthening that district which was formed from three smaller ones. Bula is another strong school district in the southeast part of the county.

150 Quarter Horses To Be Sold Here

An auction sale of quarter horses will be conducted at the new sales barn here Tuesday, July 22, according to an announcement of Col. W. D. Wanzor.

The horses are the property of Clayton Graef, who lives northeast of Muleshoe. He will sell 150 head of saddle horses at auction. They are from 2 to 5 years old and there are reds, sorrels, blacks, bays and greys.

Mr. Wanzor will resume his cattle sales on August 6 and they will continue on each Wednesday thereafter.

as Madison Square Garden, the Boston Garden and others; Ruth Miriam, one of the leading trick riders of the country; Roy Seward, who will stage his famous Calgary rope act and Alec Alexander, clever and resourceful colored bull fighter and clown.

The Littlefield Jaycee Rodeo, approved by the Rodeo Cowboys Association of America, is posting prize money totaling \$2,000.

HEREFORD BRINGS WORLD'S HIGHEST PRICE

Grand Champion "Rollo" brings world's highest price paid by G. R. Rew, Manufacturer of Goss Dandy Electric Churns (upper right) at Birmingham Annual Fat Stock Show. The steer was donated to the Connor Drive by Rev. Pictured above center is 4-H Club member J. Lee Alley, who auctioned the steer, receiving a kiss from his mother, as Gene Autry, who auctioned the steer, looks on.

Grand Champion of the Birmingham, Alabama Annual Fat Stock Show set a world record price for polled Hereford steers, according to announcement made by H. I. Herbert, editor and publisher of International Polled Hereford Magazine.

Grand Champion "Rollo" brought \$5.00 on the auction block. Previous world record was more than \$4.00. The world's highest price was paid by G. R. Rew, President,

Alabama Manufacturing Company, manufacturers of Goss Dandy Electric Butter Churns for farm use. The steer was donated to the Connor Drive by Rew, who is known as the "Churn King."

"Rollo" was exhibited by 4-H Club members J. Lee and Lawrence Alley of Midway, Bullock County, Ala. The total price, \$5,375.00, will be used by the boys for a college education.

Community Grass Setting Scheduled Here Next Wednesday

Next Wednesday evening, at 7 o'clock, is the time for every good man, woman and child to come to the aid of their community and school.

The place is the new high school football field, now leveled off, soon to be irrigated and ready for sodding. The purpose is to set the grass on the playing field, and Supt. W. C. Cunningham believes that the people lend a hand the work can be done before dark.

Many hands will be needed to set grass on this plot 100 yards long by 50 feet wide. Mr. Cunningham believes that the people will enjoy helping with this work for an hour or so, and that they ever after can take pride in the fact that they helped provide a fine playing field for the Yellow Jackets of next year and succeeding years.

Everyone is invited to take part—men, women and children. Bring the whole family, and let's make it a community affair. It is the word being passed along. Everyone should bring a bucket to carry grass and a shovel would be handy. And anyone who desires may bring some bermuda grass, but this will be supplied from the old field.

Put this date in your notebook, and come out and take part in this community event.

Wheat Harvest Nearing An End

H. O. Barbour, Santa Fe agent here, reports that Wednesday noon 226 cars of wheat of the 1947 crop had been shipped from this point.

He reported the box car situation as still very tight. A few cars were received Tuesday afternoon and a few more Wednesday morning. When received, the cars are apportioned to the four Muleshoe elevators.

Nearly all the wheat in this area has been cut, probably 95 per cent of it. Much of the wheat has gone into farm storage or on the ground, because the elevators have been full since the early days of the harvest.

As more cars are received the elevators are able to accept grain for a short time. Trucks are still lining up around Muleshoe elevators.

Many fine yields have been reported. It is by far the greatest harvest in the history of this territory.

Hospital News

Mr. O. C. Jones spent a few days under medical care. He has been discharged.

Butch Wanzor, son of W. D. Wanzor, was in for medical care.

Frank Meier spent a few days in, under medical care.

Mrs. Allen McGee spent a few days in the hospital. She has been discharged.

To Mr. and Mrs. Robert Townsend on the birth of a daughter, Caroline Ann, born July 2.

Tonsillitomy: Patsy Sue Buchanan, Everett McAdams.

Too late for last week: Mrs. George Speer is in the hospital for medical care.

W. J. Ferguson spent a few days in the hospital last week. He has been discharged.

Frank Meier of Baileyboro, is in for medical care.

Bill Gable, son of H. M. Gable, is in the hospital for medical care.

Mrs. Douglas Horsley is in the hospital for medical care.

Mrs. Deon Autry is in for medical care.

Mr. J. D. Klepper is in for medical care.

Mr. Gordon Duncan is in for medical care.

Congratulations To Mr. and Mrs. James Warren on the birth of a daughter on July 9, weight, six pounds, 10 ounces.

To Mr. and Mrs. Johnnie Layton on the birth of twin boys on July 8, weight, six pounds, three ounces and five pounds, nine ounces. Dr. McKay of Morton brought Mrs. Layton to Green Hospital & Clinic and delivered her here.

Mrs. Jim Clements and Mrs. Gredy Hill were in Levelland Saturday night attending the rodeo.

Fight On Insects And Weeds Is Underway

A determined fight upon Mr. House Fly and many other pestiferous insects and indirectly upon the spread of disease has been started in Muleshoe.

Using a spraying machine just purchased by Muleshoe Ice and Produce Company, the city commission has ordered all alleys sprayed with DDT to kill flies, mosquitoes, etc. and is urging the citizenship to cooperate by having their houses and premises, as well as business places sprayed.

It was pointed out that unless all cooperate the money expended by the city will not produce the results hoped for.

Steed Puts New Ambulance Into Service Here

Steed Funeral Home, Muleshoe and Clovis, this week announced they are placing a Packard ambulance in Muleshoe permanently to service more adequately this big territory which they have served for more than 20 years.

L. W. Sparks, manager and co-owner, told The Journal that Howard Cox, proprietor of a radio and electric shop here, will be the official driver for the ambulance. In case of emergency a call should be made to his number, 67-W or to the Steed Funeral Home, Muleshoe office, phone 47.

The ambulance will be ready for instant use, and in case Mr. Cox is absent, a competent driver will be left in charge. Mr. Sparks said placing this equipment in Muleshoe is another step on the part of the company to provide Muleshoe and this territory with adequate service.

Their funeral home will be enlarged in the near future. Mr. Sparks said, and added that improvements planned will give this city one of the best funeral homes in the section.

Several times in recent months disastrous accidents have occurred when an ambulance was badly needed. The new equipment will fill that need.

Baileuboro Club

"Finish the seams in your garment according to the kind of material you use," Mrs. Williamson, the county agent told, the Baileuboro HD club. Different kinds of finishes were discussed.

She also showed us the new way to put a zipper in a dress and how to sew snaps on; "Sew them on as you would work a button hole, you will find they stay closed better as there is no knot or thread to be pushing them apart."

Everyone is invited to the chicken fry at the Baileuboro gin Thursday night, July 24, 7:30 p. m. Bring a drink of any kind, chicken, cake or cookies, and a salad. This is sponsored by the H. D. club and is an annual affair, so come and enjoy an evening with your neighbors and eat.

The hostess gift brought 60 cents. Margie Garth drew the lucky number.

The next meeting will be with Minnie Underdown, July 22. Those present were: Mesdames Underdown, Myers, Moraw, Williamson, our hostess, Helen Schmidt, and one visitor, Margie Garth.

J. K. Milam visited in the home of his parents over the weekend. Mr. Milam is an employe at the Huford Postoffice.

Someone saw James Warren buying a new washing machine and baby crib. Sounds like James is really proud of his baby daughter.

Jackie Lawler has accepted a position in the First National Bank of Hereford.

Mrs. E. H. Kennedy was in Lubbock Tuesday to attend the celebration of the birthdays of two nephews. Joe Craig Wofford was 17 and his brother, Mike, was 10 on July 8.

Woodrow Gaede and family, of Memphis, Tenn., have been visiting here with relatives and former friends. He is a son of Mr. and Mrs. A. C. Gaede of Y. L. community.

Flies are suspected as carriers of infantile paralysis germs, and the city dads felt that if they could help to control the disease, prevent one child from contacting it, their efforts and money would have been spent for a worthy cause.

It now seems possible to control man's old time nuisance and enemy, the fly. When a fly lights upon a wall sprayed with DDT, the fly dies, not at once, but within a few minutes. On outside objects the spray must be applied after a rain but by the time two generations of flies have been killed the breeding cycle has been broken and the fly crop dwindles. It is possible, then, for Muleshoe to become a city without flies and mosquitoes.

J. Clyde Taylor, proprietor of the produce firm, said the machine is available for spraying on a custom basis. A nominal fee will be charged the public for work while the city job is being done. A five per cent solution of DDT is used, and is very effective in controlling the insects, he said.

The spray will control flies, mosquitos, spiders, roaches, parasites of all kinds. Cows sprayed with this solution are not bothered by the insects and so produce more milk. Egg production has been stepped up by its use it was said. Using this power sprayer, weeds can be killed around the home or in crops, with a solution developed during the war called 2-4-D.

The spray, mounted on two rubber tired wheels is pulled behind a truck or tractor. A small gasoline motor develops 400 pounds of pressure, and sprays 4 gallons of solution per minute. It was made for the Ralston Purina Company, whose products Mr. Taylor handles. The machine is for sale only to Purina dealers. There are three in operation daily at Tulsa, according to C. V. Hatch, district Purina manager, who was here to help get the spray to operating.

Jack Lenderson Heads Muleshoe Masonic Lodge

Jack Lenderson was installed as W. M. of Muleshoe Lodge No. 1237 in ceremonies held at the lodge hall Tuesday night. Lenderson advanced from the chair of junior warden, and succeeds Earl Ladd as master.

Other officers installed are: Ross Goodwin, senior warden; Morris Douglas, junior warden; Ray Griffiths, treasurer; R. J. Klump, secretary; Noel Woodley, senior deacon; R. B. McHorse, junior deacon; R. M. Wilson, senior steward; W. B. Winn, junior steward; Earl Ladd, tiler.

Installing officer was C.D. Gupston and installing marshal was Cecil Tate.

Fourth of July weekend visitors in the home of Mr. and Mrs. Ross Goodwin and family were Mr. and Mrs. C. T. Parr of Sentinel, Oklahoma, parents of Mrs. Goodwin; Mrs. Henry Tucker of Washington, D. C., and Tenys Parr of Lindsey, Oklahoma, sister and nephew of Mrs. Goodwin.

Word was received here last week that Mr. and Mrs. Henry Clements are having a grand time at Red River fishing. They plan to be gone two weeks.

Mrs. Tye Young and Miss Elizabeth Harden were shopping in Clovis, Wednesday of this week.

Mrs. R. R. Shuck and daughter, Bobbie Rae of Atkins, Ark., arrived Tuesday to visit in the home of her daughter, Mrs. Vance Wagon and family.

Mrs. W. L. Brooks of Dallas, came in Friday to visit with her mother, Mrs. J. E. Hawkins and with Mr. E. R. Hart.

FUEL OF THE FUTURE
PITTSBURGH, PA.—Workings of the revolutionary process for making gasoline from coal and gas are revealed above. Originated in Germany, this fuel source of the future is being perfected by American engineering science. The diagram, as explained by Gulf research laboratories which are aiding in the development, shows the following steps:

(1) Coal—or natural gas—is mixed with air and water and converted by combustion and chemical action into synthesis gas. (2) The gas is passed through a catalyst (material causing a basic chemical reaction), which transforms it into vaporized petroleum-like materials and alcohols. (3) The alcohols are separated in a scrubber. (4) City gas is drawn off, and the petroleum materials converted into gasoline, lubricating oils, diesel fuel and wax.

MULESHOE PRIMITIVE BAPTIST CHURCH
Elder L. M. Handley, Preacher

Services every second and fourth Sunday at the school house.
Song service 10:30
Preaching 11:00

BAYLOR'S DEAN IS TO HEAD CANYON COLLEGE
Dr. James P. Cornette, dean of Baylor University at Waco, has been selected by the Board of Regents to succeed Dr. J. A. Hill as president of West Texas State College at Canyon in 1948.

Dr. Hill will retire in August of next year after nearly half a century of teaching and college administration. He has been president of West Texas State College since 1918.

Dr. Cornette will arrive at Canyon in January of next year to assume duties as Executive Vice President of the college, a newly-created position, and on August 31, 1948, he will officially take over the administration of the school from the retiring president.

BABY SHETLAND ARRIVES
A filly colt was born last week to a Shetland mare belonging to Col. W. D. Wanzor. The mother lacked more than a month being two years old. The new arrival is about the size of a puppy (a large-sized puppy) and is about

the cutest trick to be found in these parts. Col. Wanzor will be happy to have the kids come and look at it, down at its home in the sales pens.

TOO FAT? Get SLIMMER this vitamin candy way

Have a more slender, graceful figure. No exercising. No laxatives. No drugs. With the simple AYDS Vitamin Candy Reducing Plan you don't cut out any meals, starches, potatoes, meats or butter, you simply cut them down. It's easier when you enjoy delicious (vitamin fortified) AYDS candy before meals. Absolutely harmless.

In clinical tests conducted by medical doctors, more than 100 persons lost 15 to 18 lbs. average in a few weeks with AYDS Vitamin Candy Reducing Plan.

Regular size \$2.75. Triple size \$5.50. You get results on very first box or money back. Call or phone

THE FAIRVIEW

Functional and modern in design, traditional in the authentic charm of its exterior, The Fairview is a brilliant, new, four and a half room home. Crisp, neat lines, brisk in their simplicity, enclose more well arranged usable space than is usually found in small houses.

The exterior captures unusual charm through the use of clapboards of two different widths, narrow boards up to the eaves, wide ones above, accented by corner "quoins" (technical architectural term for which there is unfortunately no common word), and by a fan window in the table. Trellises invite roses or wisteria to screen the porch.

The Fairview lacks nothing in the way of comfort or convenience. Through a roomy vestibule one enters a living room twenty feet long space, that may be closed off by a folding partition, makes an even larger, up-to-the-minute "L" shaped living room except for the hour or two a day when meals are being served.

The living room boasts a fine wood burning fireplace and a beautiful picture window that overlooks and opens out onto a flagstone terrace, protected by the house on two sides. The dining space, glazed on the terrace side, is convenient for the service of outdoor meals in pleasant weather.

The kitchen is a cheerful room— Try A Journal Want Ad

and an efficient work shop arranged in the popular "U" type so favored by kitchen planners. Two full sized bedrooms, with bath between, and each with abundant closet space, complete this livable house.

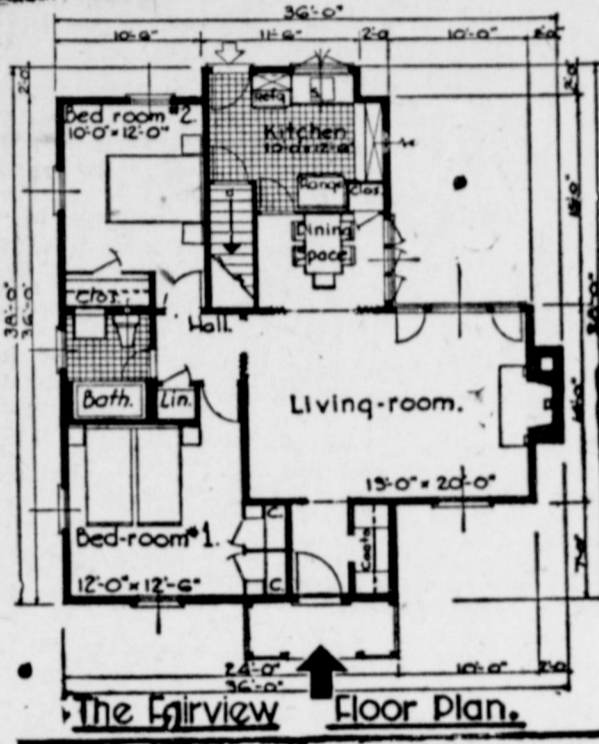

The architect's working drawings for The Fairview, drawn to the exacting requirements of Housing Plan Service, were also designed to conform to the standards and property requirements of the Federal Housing Administration. The electrical wiring plan was checked by engineers of the National Adequate Wiring Bureau to insure sufficient circuits for modern lighting and convenience outlets for the electrical appliances that are part of present day living. Blueprints and specifications in full 1-4 in. scale may be secured for \$7.50 per set by writing Housing Plan Service, 140 Nassau Street, New York 7, N. Y.

COTTON ACREAGE HERE ESTIMATED AT 80,000 ACRES

Acres planted to cotton in this county this spring is around 90,000. The last year when a sizeable acreage was planted was 1944, when farmers planted an estimated 75,000 acres. The gins of the county turned out 26,418 bales that year, biggest crop of cotton in the history of the county. 1945 and 1946 were years when virtually the only cotton grown was on irrigated land.

ASSEMBLY OF GOD REVIVAL IS ANNOUNCED

Muleshoe Assembly of God will begin a revival meeting July 13, to run two weeks or longer. Evangelist and Mrs. Charles Axford will conduct the meeting. Everyone is welcome to attend the services, which will begin at 8:30 each evening.

T. G. Dulin returned home Tuesday after spending two weeks visiting with his daughter, Miss Johnie Tadlock of Houston, and his son, George Dulin and family of Corpus Christi.

J. E. Dulin of northeast of Muleshoe, who has been harvesting wheat in Deaf Smith county, left Wednesday to take part in the wheat harvest in Kansas which has just started. Mr. Dulin operates two four row combines.

Your Home
By Frances Ainsworth

One afternoon last week I dropped in to see one of my friends, Mary Cillway, and discovered her right in the midst of fixing a picnic lunch for her young daughter. Well, she handed me an apron and I helped her make sandwiches, devil eggs and fix lemonade... and pack the picnic basket. We'd almost finished when Mary started rummaging through the cupboards, mumbling "where is that old salt cellar?" Then she said that she never liked to take salt on a picnic anyway—it spilled all over the foods—or else was too damp to use.

Well, I chuckled, picked up the roll of waxed paper we had been using to wrap the picnic sandwiches... and showed Mary how to make a fool-proof container for salt. I simply cut two square pieces of waxed paper and sealed three of the edges together with a hot iron. Then I filled the container with salt — and sealed the fourth side. Into the picnic basket went salt, moisture-proof and spill-proof until lunch time!

You know it's surprising how many unusual uses we housewives find for waxed paper, isn't it? For instance: I always wrap candies and leather goods in waxed paper before storing them for the summer. This protects the candies from sticking together... and keeps leather goods free from moisture, prevents harmful mildew.

You probably know a dozen or more such time and money-saving uses for waxed paper — but if you haven't tried any of these, do — you'll be pleased with the results!

SERVICES DAILY—10 A. M.—8:30 P. M.

OPEN AIR EVENING SERVICES

CHURCH OF CHRIST

MULESHOE, TEXAS

YOU ARE CORDIALLY INVITED TO ATTEND

Greetings:

To the People of Muleshoe Territory

We have purchased the Beavers Motor Supply in Muleshoe and wish to announce that we will continue to operate the business along the same lines—we may not get in as many "carlodes" as Mr. Beavers did, but we are going to try to keep the goods here for you when you need them.

We cordially invite your patronage and it is our aim to provide a supply service that will merit your good will.

We are doing our best to get acquainted with the people here and will appreciate a visit from each of you at any time.

ATTENTION PICNICERS

Vacuum bottles and jugs are nice things for travelers and picnickers to have these days, but they need special care if they render the best service. Mrs. Daurette A. Williamson, county home demonstration agent of Bailey County points out. Ordinary dish-washing will not do for these containers because if they are put in water, the outside insulation may be injured. It is a better idea to fill the container with warm soapy water and soak for an hour or so. A soft bottle brush may be used. Finally, rinse with clear, lukewarm water and then with water containing a small

amount of chlorine. Turn upside down to drain, dry and air. Scrub corks and screw tops with soapy water, then rinse and dry. Here's a warning from Mrs. Williamson: Sudden changes of temperature may crack the glass in glass-lined bottles. Before filling a bottle with hot liquid, warm it gradually by rinsing first in lukewarm water and then in warmer water. Chill gradually before filling the vacuum with cold liquid. Pasteurized and very cold milk may be kept in vacuum containers, if the bottle is well chilled. Mrs. Williamson says that cocoa or soup should be brought to a boil and

FOR DANCING DAYS

Long, strapless and full-skirted—Helene Barbieri designed this young summer dancing dress for juniors in Hope Skillman's finely striped cotton madras. The panier hips and graceful skirt below a tightly fitted basque are reminiscent of colonial America.

poured into the container while still very hot. The bottle should be heated in advance. Foods of this type should not be kept in a vacuum bottle for more than an hour or two before using.

BUY CATTLE FOR GRAZING IN FALL IS RECOMMENDED

Late fall or early winter is the best time to buy cattle to be placed on irrigated grass-legume pastures in the spring and summer, according to W. L. Stangel, Texas Technological College dean of Agriculture.

These animals may be wintered on small grain pastures and in dry lot on sorghum fodder or silage. When irrigated pastures are ready for grazing, cattle are available which, because of inexpensive grains during the winter, will cost less per hundredweight than if bought at the beginning of spring grazing, he said.

Citing as an example results of an experiment conducted with 12 stocker steer calves at Tech from November 27, 1946, until last April 30, Dean Stangel said the calves averaged daily gains of 1.3 pounds per head at a feed cost of only seven cents per pound of gain. With this economy of gain, the steers went on irrigated grass-legume pastures May 1 at a cost of only \$13.45 per hundredweight, instead of the nineteen or twenty dollars per hundredweight which stocker steers of equal weight and quality would have cost had purchase been delayed until the last week in April.

Calves grazed wheat pasture 67 of the 155 days, barley pasture 11 days, and were in dry lot 77 days. While on wheat and barley pas-

tures, they received no supplemental bundle feed, but had mineral mixtures of salt, limestone and one meal free choice. In dry lot they were fed light-grained hegar bundles daily according to appetite and had access to the mineral mixtures at all times. Average weight increased over the period from 432.7 pounds to 634.4.

LOCKER PLANTS INCREASING

Texans are now using the facilities of almost 500 frozen food locker plants in the state.

As of November, 1946, there were 403 locker plants in the state, according to a survey made by Roy W. Snyder, meat specialist. More recent figures show over 500 plants operating, says Snyder, although a few of that number are meat-curing concerns that cannot be classed as actual food locker plants.

"We have had an enormous increase of locker plants here in Texas," Snyder says. One or more plants is in operation in 210 of the state's 254 counties. The only sections of the state in which the plants have not spread rapidly are in extreme West Texas—the Big Bend country—and East Texas. The answer to the West Texas condition says the meat specialist, is large ranches and scattered population. He believes that East Texas counties are just "a bit slow in starting," but that the plants will spread over that portion of the state in time.

Mrs. Kemp's Mother Dies At Age Of 79

Mrs. H. T. Bramlett, mother of Mrs. J. I. Kemp of Muleshoe, died in the home of a daughter at Bronte, Texas, last Friday night July 4.

Mrs. Bramlett, who was 79, had been in failing health since last October when she suffered a stroke of paralysis.

She had spent five months with Mrs. Kemp recently, having left for her home on June 28, less than

one week before death came.

Funeral services were held at 11 o'clock Sunday at the Baptist Church in Ft. Chadbourne, Texas, with Rev. Watson officiating. Burial was at Ft. Chadbourne where she had made her home for the past 35 years.

Mrs. Bramlett was born in Mississippi in 1867. Mr. Bramlett preceded her in death in 1906.

She is survived by five children, L. A. Bramlett, Bronte; J. H. Bramlett, Abernathy, Texas; Mrs. J. I. Kemp, Muleshoe; Mrs. J. L. Williams, Sweetwater, Texas; Mrs. N. J. Taylor, Bronte; twenty-three grandchildren, four brothers and two sisters. One brother, Jyde Whitlow of Altus, Okla., and one sister, Mrs. R. C. Young of Clyde, Texas, were present for final rites.

Mrs. Bramlett had been a member of the Baptist Church for 63 years.

She was the grandmother of Frank Kemp, James Kemp, Jack Kemp, Mrs. Claude Faubus, Mrs. J. T. Shofner and Mrs. June Guinn, all of Muleshoe.

ARMY RECRUITER TO BE IN MULESHOE

T-Sgt. Leon A. Reynolds, from the Clovis, N. M., U. S. Army Recruiting office will be in Muleshoe on Wednesday, July 16. He will be located at the post office and will interview all interested.

Industrial Fats Still Scarce Experts Report

The supply of industrial fats and oils in the United States is expected to continue to be less than the demand, according to the United States Department of Agriculture. An Agriculture spokesman says:

"While there are prospects for improvement in the food fats situation, the supply of industrial fats is expected to remain short of demand during the rest of 1947.

"Whether or not export and import controls are continued beyond June 30 will have an important effect on the situation.

"In view of the known facts, it seems necessary to ask housewives to continue their efforts to save used fats during the months ahead."

So continue to save and turn in every drop of used kitchen fat. You will not only be helping American industry increase production of many badly needed articles, but you will be helping yourself by reducing meat bills as your meat dealer now pays substantially more for every pound of salvaged fat returned.

We help make plans COME TRUE!

MANY PEOPLE have plans for building a new home. Right now we're doing our level best to help those plans come true. This same spirit prevails in the logging camps and lumber mills.

It is important to you that your home be built of wood.

Most fine architectural styles—homes of warmth and beauty—use wood as the basic building material. Wood offers many economies, both immediate and future. We invite you to let us explain the advantages of wood construction in your home. Visit us soon, as the first step in seeing your plans come true.

RICH-AIRE CONDITIONER Outstanding Performance - Exclusive Features

The Rich-Aire method of air conditioning effectively purifies the air!

Virtually silent, voluminous air movement is created in the Rich-Aire conditioner by centrifugal blowers. (The same type used in all large commercial air conditioning installations).

Hot air is drawn through a heavy mist of water—here the air begins its transformation. As the air moves through this mist it is simultaneously washed and cooled; and then it is drawn through a 2 inch thick fiber glass filter which removes excessive moisture and minute particles of dust, pollen insects, and other objectionable particles from the air. (Dust, which is a common carrier of bacteria and respiratory disease germs, is extremely irritating to the sensitive membranes of the nose, throat, lungs and eyes.)

This feature alone promises the comfort of clean, filtered air—relief to sufferers of hay fever, sinus infections, and allergy.

Model Locomotive Tours U. S.

Guaranteed to attract the eyes of model train builders the world over, is this \$85,000, quarter-size model of a modern type 4-8-4 Union Pacific Bearing equipped steam locomotive.

The locomotive model was built, not as a toy, but rather as a graphic representation of the rapid strides made in the railway applications of roller bearings.

Shown examining the model and the regular bearings used in full-sized locomotives, pictured along the sides of the exhibit, are Walter C. Sanders, U.S. General Manager, Railway Division, of the Timken Roller Bearing Company, and Lawford S. Fox, Director of the Steam Locomotive Research Institute.

Noble S. Abbott To Teach At Spade

Noble S. Abbott, who has been with the Blackwater Valley Soil Conservation District here, has taken up his new work at Spade school this week after more than 12 years with this district in charge of the work until here. Mr. Abbott will teach vocational agriculture there.

He and his family have moved to Spade. A man has been transferred from Oklahoma to take Abbott's place as district conservation worker. Before coming here, Abbott was in the same work at Lubbock.

He has seen the district develop rapidly in his tenure of office. Only one farm had been put out for soil conservation measures when he came and now the district has a large number of cooperators. The personnel of the local office has largely increased.

Mr. Abbott was instrumental in securing a new building for office

and storage space, quarters being located on the west side of the square.

During his time here he has constantly stressed the advisability of using hairy vetch as a soil builder and several in this territory are using this legume. Abbott was director of the choir of the First Baptist church here and took an active interest in Sunday School and church activities.

MRS. COX SENDS COPY MISSOURI FLOOD EXTRA

During the recent floods along the Mississippi and tributaries, The Daily Standard of excesses Springs, Mo., got out daily extras telling the people about the flood situation.

Mrs. Laura B. S. Cox, of that city, who comes here each summer to see about her land in the county, sent The Journal two copies of such extras.

Floods are bad business. We have sandstorms here, but usually they are not so destructive as a flood. The Standard had to print its regular editions at the adjoining town of Richmond. The extras told of evacuations in certain areas and of the restrictions placed upon the use of water. Gas and water service and in fact, practically all public services were suspended at times.

Mr. and Mrs. L. L. St. Clair visited in Junction the first part of the week.

Fidelis Luncheon Held In Green Home

The Fidelis Class of the Muleshoe Baptist church combined their monthly business meeting with a lovely luncheon given by Mrs. M. F. Green and Mrs. L. T. Green, jr., in their home.

The luncheon was held at one o'clock Thursday, July 3. The class gave Mrs. Ray Griffith, teacher, a birthday handkerchief shower.

The class voted to place Bibles in all the hospital rooms as soon as the new wing is opened. A collection was made for this purpose. New officers were elected for the following year which begins in October.

Sunshine friend names were drawn and gifts exchanged. After a very delightful luncheon and an afternoon of social activities, the meeting adjourned. The next meeting will be in the home of Mrs. Tye Young.

Those attending the luncheon were: Mesdames Faye Brown, E. R. Hart, Tye Young, R. B. McHorse, C. A. Barnett, George Hicks, R. L. Matthesen, Robert Precure, Cecil Tate, J. J. DeShazo, Ray Griffith, Joe Damon, F. A. Davis, H. A. Schuster, Chet Layne, A. W. Crow, Eddie Lane, J. C. Cummins, Cecil Osborne, Earl Burrow, Lois Robinson, Bertha Pool, Mae Busbice, Florence Holmes, E. H. Kennedy, Irvin St. Clair, A. E. Lewis, Erma Ray, one visitor, Mrs. C. E. Minor of Houston, and the hostesses, Geraldine and Dorothy Green.

Mrs. Frank J. Lyman

Lela Mae Barron And Frank Lyman Vows Read Sunday At 5 O'Clock

In a double ring wedding ceremony read Sunday afternoon at 5:00 o'clock at the First Baptist Church, Muleshoe, Texas, Miss Lela Mae Barron, daughter of Mrs. L. S. Barron, Sr., became the bride of Frank J. Lyman, son of F. J. Lyman of Washington, D. C.

Rev. Lee Hemphill, pastor of the First Baptist Church of Littlefield, Texas, performed the service.

An altar containing baskets of white gladioli were arranged against a background of palms and ferns.

As Byron Griffiths and John Smith lighted candles, Miss Ida Lou Glaze of Fort Worth, Texas, pianist, played traditional wedding music. Mrs. Byron Griffiths sang "Because" and "At Dawning." The pianist played "Clair de Lune" during the ceremony.

The bride, given in marriage by her brother, L. S. Barron, wore a slipper satin gown fashioned with marquisette yoke appliqued with satin flowers and seed pearls, long fitted sleeves, extending into points over the hands, fitted bodice and a full gathered skirt and long train.

Her finger tip veil of bridal illusion fell from an imported halo of leaves and orange blossoms. The bride's bouquet was an illusion puff centered with a single white orchid with illusion streamers.

For something old the bride wore her grandmother's wedding band, and for something borrowed she wore her mother's wrist watch, which was a gift from her father, the late L. S. Barron, Sr. For something blue she had planned to her bouquet a "blue bird of happiness" attached to a small blue ribbon, given by a friend.

Mrs. Barron wore for her daughter's wedding a black crepe dinner dress, trimmed with black satin, with pink accessories, and a corsage of gardenias.

Mrs. Dorothy Barron, sister-in-law of the bride, was matron of honor, and wore a gold taffeta dress, fashioned with a fitted bodice and full skirt. Her bouquet was of blue delphinium. The bride's matrons, Mrs. Evans Holland of Happy, Texas, and Mrs. Forrest Jones of Muleshoe, bridesmaids Jo Berryhill and Freddy Berry hill of Albuquerque, New Mexico, all wore identical dresses fashioned of ice blue marquisette trimmed with matching folds of taffeta. They wore bridesmaid hats, and carried bouquets of yellow gladioli.

Evans Holland of Happy, Texas, was best man, and Messrs. Byron Griffiths, John Smith and Claude Riley were ushers.

Master Michael Barron, nephew of the bride, carried the satin pillow upon which rested the wedding rings.

Following the ceremony a reception was held in the home of the bride's mother. Assisting with hospitalities were Mrs. Ray Griffiths, Mrs. Ray Speer, Mrs. Eddie Lane, Mrs. H. L. Ivy, and Miss Elizabeth Bailey. The bride's table was laid with a linen lace table cloth, centered with a three-tiered wedding cake decorated with white roses, and topped with a miniature bride and bridegroom.

Out of town guests who attended were Mr. and Mrs. J. G. Ponder, of Happy, Texas; Rev. and Mrs. Lee Hemphill, of Littlefield, Texas; Mr. and Mrs. John Bragham, of Pampa, Texas; Miss Ruth Pitman, of Fort Worth, Texas; Miss Gladys Day, of Fort Worth; Miss Ida Lou Glaze, of Fort Worth; Mrs. John F. Easter, of Dimmitt, Texas; Mr. and Mrs. J. R. Gollehon, of Dimmitt, and Mr. and Mrs. Ray D. Speer, of Happy, Texas.

After the reception the couple left on a short wedding trip to points west. Upon their return they will be at home at Albuquerque, New Mexico, for the present. For going away, the bride chose a suit of Charmain gabardine in champagne, with dark brown accessories, and a white orchid as a corsage.

BIRTHDAY PARTY

Mrs. J. W. Harper entertained at her home Wednesday with a birthday party for her grandson, Joe Bill Crowley, of Amarillo, who was here visiting with his grandparents, Mr. and Mrs. Joe Harper.

Joe Bill was six years old. Games were enjoyed by the children and balloons were given as favors. Ice cream and cake was served to the following guests: Kay Lenderson, Vickie Spivey, Donna Guinn, Mary Edna Pierce, Judy Kay Lambert, Dolores Wagon, "Frosty" Jones, Derrell Oliver, Doris Ann Gilbreath, and the honoree. Joe bill will go home with his grandmother, Mrs. R. R. Schuck of Atkins, Ark., this week.

Miss Ballard And Mr. Maner Wed

Miss Annie Ballard, daughter of Mr. and Mrs. L. L. Ballard, Chula Vista, Calif., and Jefferson G. Maner, U. S. Navy, son of Mr. and Mrs. J. A. Maner of Goodlett, Texas, were married in a ceremony at the First Methodist church in National City, Calif.

The bride, given in marriage by her uncle, Jess Jennings, wore white satin and carried white carnations centered by a purple orchid. Miss June Helef Ballard, the bride's sister, served as maid of honor. She wore a gown of pink net over taffeta, and carried a bouquet of white carnations.

J. M. Milleron, shipmate of the groom, was best man. After a reception the couple left for a honeymoon at Santa Catalina Island and the mountains. Mr. and Mrs. Maner will reside temporarily at Chula Vista.

Out of town guests were Everett R. Maner, Goodlett; Mr. and Mrs. Jim Milleron, National City; H. Q. Swans, San Diego; J. E. Delorey, Los Angeles; C. B. Cousins, Jr., Rosmead, Calif., and CWT H. James Nicol, Quonset, R. I.

Helen Walker And Burriel Redwine Wed

Nuptial vows were exchanged by Miss Helen Walker, daughter of Mr. and Mrs. L. N. Walker, and Mr. Burriel Redwine, son of Mrs. J. J. Redwine, all of Muleshoe Saturday evening, June 14, with Rev. A. W. Blaine, pastor of the First Baptist church, officiating.

Miss Mary Roxie Ward and Grady Walker were attendants and other guests were Miss Wynell Redwine, sister of the groom, and Mrs. Clovis DeBord, of Lubbock, sister of the bride.

Mr. and Mrs. Redwine plan to make their home west of Muleshoe where he will continue farming.

SUNSHINE CLUB

The Sunshine Club met in the home of Mrs. L. D. Tipton July 3. Most all members were present and three visitors were there.

After a short business session was held, during which it was decided that the club would exhibit a few articles of needle work, also vegetables and a few jars of canned fruit or vegetables, a quilt was finished and will be sold at auction.

Each member that came brought a quilt block for a friendship quilt and each hostess will eventually receive blocks for a quilt.

Refreshments of cake and punch were served by Mesdames Chambers, Ladd, Stinson, Coulter, Barnhouse, Johnson, Small, Ware, Odum, Dawkins, Tipton, Miss Dorothy Dawkins and the visitors.

The next meeting will be with Mrs. Foy Dawkins July 17.

GIVE PARTIE ON FOURTH

Mr. and Mrs. Bill Kelton gave a Fourth of July celebration Friday at their home. Fifty-three guests were present. After several games were played, the group set off some fireworks. Ice cream was served to the group and all reported an enjoyable time.

For Summer Comfort

No matter what section of the country you live in, there are bound to be plenty of cool nights, even in the middle of summer. Of course, winter blankets have to be changed for summer weights. But the smart-homemaker must plan for blankets of all kinds to meet every whim of the weatherman. There is certainly nothing worse than waking up in the middle of the night with chattering teeth. That's why every bed should be equipped with the best type of lightweight blanket.

Here's a word of caution from the makers of St. Marys blankets. Lightweight blankets, like your winter ones, should be 100% virgin wool to be properly warm. St. Marys Whisper blankets, light as a soft summer breeze, come in many beautiful colors to add a real decorative note to the home. They complement any color scheme and give a cool, refreshing charm to a room.

Mr. and Mrs. Vernon Jernigan

Holland-Jernigan Vows Read July 2

In a double ring wedding ceremony read Wednesday afternoon, July 2, at 2 o'clock in the Holland home, Miss Gwendolyn Ruth Holland, daughter of Mr. and Mrs. R. B. Holland, became the bride of Vernon Jernigan, son of Mr. and Mrs. P. E. Jernigan, Lyle Bonner, Minister of the Church of Christ, Canyon, Texas, performed the service before an improvised altar of gladioli and palms.

The bride, given in marriage by her father, Mr. R. B. Holland, wore a powder blue crepe ensemble. She carried orchid gladioli showered with stephanotis, on a white Bible. Her accessories were white. The bride carried out the traditional "Something old, Something new, Something borrowed, Something blue."

Miss Irene Jones, of Hereford, Texas, was maid of honor, and Mrs. J. R. King of Muleshoe, Texas, was bridesmaid. They wore identical carnation corsages.

Mr. J. R. King served as the bridegroom's best man. The mothers of the young couple wore corsages of white gladioli.

At a reception which followed in the Holland home, the bride's table was laid with a lace cloth centered with a reflector holding a wedding cake topped with the traditional bride and groom. Lighted candles and the crystal punch service completed the table appointments.

For a wedding trip to points in New Mexico, the bride wore a black gabardine suit with white accessories. The couple will be at home in the Ray apartment.

Mr. and Mrs. Jernigan are 1947 graduates of Muleshoe High School. Mr. Jernigan served overseas with the U. S. Navy for two years, and

is now associated with his father in farming interests.

Out of town guests were from Abernathy, Hereford and Canyon, Texas.

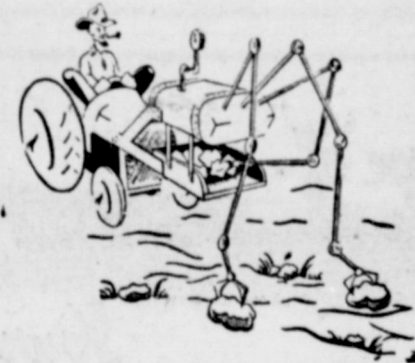

CHICKEN FRY

A chicken fry was enjoyed at the roadside park July 4th. Those attending were Ernest Gatlin and family, Mr. and Mrs. George Chambers and daughter, Mr. and Mrs. Barnhouse, Mr. and Mrs. Tipton, Mr. and Mrs. Charles Gatlin and family, Miss Joyce Bain from Ed-

Harvest Connecticut's Big Annual Rock Crop

A machine that will harvest the Connecticut farmer's biggest and most productive crop recently was demonstrated under supervision of University of Connecticut.

The crop—stones—will be picked up by the new tractor driven stone

It is not recommended that farmers try to build a stonepicker according to the artist's idea.

picking machine. Equipped with a hydraulic lift, this machine will gather stones of any size.

The machine will be a revelation to gardeners and farmers with aching backs. It is also possible that the artist's drawing will be a revelation to the manufacturer of the stone picker.

Mr. and Mrs. D. V. Johnson of Turkey visited over the weekend in the home of Mr. and Mrs. M. E. Finley. Mrs. Johnson is the former Sammie Russell, niece of Mrs. Finley.

Merle Kistler, of Pomona, Calif., is visiting this week with his parents, Mr. and Mrs. Bill Kistler and other relatives and friends. He will leave Saturday for his home. Also visiting here over the weekend were Gene Kistler and two sons, Billy and Johnny, of Lovington, N. M., and Mrs. J. D. Thomas and son, Warlick, of Farwell.

mondson, Texas. Mrs. Hazel Jones and son and Linda Chambless of Amarillo.

Tops For Teens

Whether you vacation at the beach or in the backyard, a smart slacks costume rates tops for teenage vacation wardrobes. Sleek fit and tailored distinction are an easy matter for even a beginner seamstress to master by attending special vacation sessions in a teen-age sewing class at a Singer Sewing Center. And you'll find that for fun in the sun there are a variety of fabrics again available at your favorite piece goods counter that enable you to beat the clothes budget problem and still have your own beloved styles.

For instance, with some brightly colored light weight jersey you'll be able to turn out a short-sleeved blouse with high neck-line. Give it a gay touch for sport wear with a tricky looking scarf and turn it into a double duty wardrobe piece by teaming it with a skirt, when school opens in the fall. A dark contrasting fabric is an ideal selection for tailored slacks that go equally well to beach parties, picnics, or bicycle rides in the country.

Crop Rotation Plan Should Be Balanced

Unless a farm has a well balanced rotation for its fields, the chances are that the farmer who works that land is depleting the soil and getting lower yields of the crops he grows.

KNOW YOUR BREED Morocco Spotted Horse
By W. J. DRYDEN

The Morocco horse originated in the crossbreeding of the Morocco Barb and the English Hackney and the French coach horse.

The conformation of the Morocco Barb is somewhat similar to the Arabian horse.

In size the Morocco varies from 1,050 to 1,400 pounds. It is a general purpose horse, bred for work as

Ideal type of Morocco spotted horse.

well as pleasure. The working team is fast and steady, and has considerable stamina. They have the power to reproduce themselves true to type and color even when used with other colors and breeds.

To be registered they must stand 14:2 hands high. Type must be clean and neat with ample legs to be suitable for either saddle or harness.

Mr. and Mrs. A. H. Owen have had as guests the past few days their granddaughter, Donna Gene

Spraying Cattle for Flies Improves Herd

For spraying cattle, Purdue entomologists recommend the use of 50 per cent DDT wettable powder mixed with water at the rate of two pounds in five gallons. It is applied at the rate of one quart per animal, and three or four applications each season at about three week intervals or as needed are recommended. A three gallon compressed air sprayer or larger equipment is suggested for the job.

Disposal Incinerator

An incinerator for disposal of dead birds, poultry, turkeys and animals or birds that might be carriers of disease may be constructed from an old metal barrel. Iron rods are run through the barrel six or eight inches above, and parallel to the bottom to serve as a grill. Holes are cut below the grill for draft. This incinerator is considered a must by Clemson Agriculture college.

E. E. Dyer and Roy Dyer were in Amarillo, Monday, attending the Philco dealers meeting being held there.

It Isn't Your Town — It's YOU

If you want to live in the kind of a town Like the kind of a town you like, You shouldn't slip your clothes in a grip And start on a long, long hike. You'll only find what you left behind For there's nothing that's really new. It's a knock at your self when you knock your town. It isn't your town—it's YOU.

Real towns are not made by men afraid Lest somebody else gets ahead. When everyone works and nobody shirks, You can raise a town from the dead; And if while you make your personal stake Your neighbor can make one too, Your town will be what you want to see, It isn't your town—it's YOU.

Uncle Sam Says

What would \$1,000 to \$2,000 have meant to you at age 18 when you came face to face with the problem of fitting yourself for a business, profession or trade? Many youngsters, whose parents 10 years ago began to put aside a little each week for the purchase of U. S. Savings Bonds, have the advantage of such a nestegg this summer. You can start today to put your children in the class of "bonded graduates" of 1957—the boys and girls who will have the extra power in the race for success.

and when we grow up I'll buy you lots and lots of GIFTS from

Farm Topics

Milk Products Fill Many Poultry Needs

Health and Production Improved by Their Use

Dried milk products—dried skim milk, dried buttermilk and dried cheese whey—are important ingredients in practically all commercially mixed poultry mash, and are important to farmers seeking added quality in their poultry rations. Many supplements included in poultry feeds are added to provide one specific nutrient. But milk products provide many nutrients and perform several important jobs in a poultry mash. All three popular milk product supplements long have been recognized as rich natural sources of riboflavin. This vitamin has been

Value of farmers' grain will be increased by mixing into the mash one of the dried milk products.

found necessary to health and growth in chicks and is helpful in maintaining high egg production and increased hatchability.

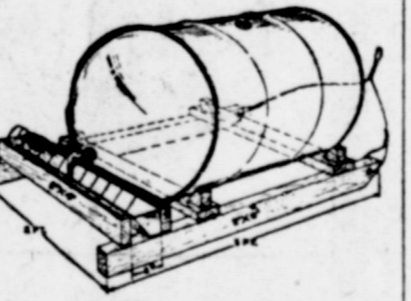

These milk products also are high in lactose or milk sugar. This is important in poultry feeds because milk sugar favors development of a "friendly bacteria" in the intestines and this helps provide good intestinal health.

Proteins found in milk products have a high biological or growth promoting value. They provide balance to the proteins in cereal feeds. The combination of lactose and high quality protein in these products helps assure more complete assimilation and utilization of other nutrients in mixed feeds.

And of course dried skim milk, dried buttermilk or dried cheese whey contain sizable quantities of calcium and phosphorus and the other minerals of milk.

Herds and Flocks For Greater Profit

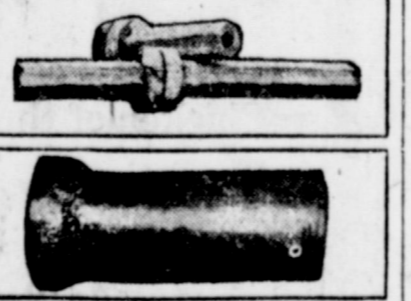

Biggest single labor saver for poultrymen is water piped to all buildings and to the range. Use automatic floats at drinking fountains to control water flow. Sketch shows an automatic waterer made of an oil drum mounted on skids, suitable for use on range.

Livestock sanitary commission design.

Pigs can be castrated any time after they are a week old. They do not suffer as much of a setback when young as they do at 50 pounds or heavier.

Clay Pipes Change

Upper photo shows some of the first machine-made clay pipes, almost a century old. Lower photo shows the present start clay pipe, which is doing an excellent drainage job for the farmers of America.

Newcastle Disease of Poultry Is Spreading

The fight against Newcastle disease of poultry has been carried into 40 states. Producers of broilers have been hard hit. Large-scale vaccination trials are in progress but results will not be determined for some time. Until preventive methods can be determined, sanitation and daily killing and disposal of all sick birds offer the best and perhaps only solution to the problem at present.

I like the Quality IN THIS OIL!

THAT'S WHAT FARMERS AND HEAVY MACHINERY OPERATORS WHO KNOW QUALITY LUBRICATION ARE SAYING. CHAMPLIN HI-V-I (High Viscosity Index) AVIATION OIL is QUALITY PLUS. HI-V-I is built to withstand Pressures and Friction . . . to resist heat . . . to lubricate and protect metal surfaces of the motor in your Tractor, Truck, or Car. There's no time to experiment with lubrication problems during the hot summer months when your tractors and trucks are on the go from dawn till dark. Play safe . . . insist on real quality lubrication with CHAMPLIN HI-V-I the Twin-Action oil that flows freely at zero and below . . . Stands up and thoroughly lubricates at Boiling temperatures and above. There is a friendly Champlin Dealer in your community . . . he will gladly help you with your Lubrication Problems.

BLACKWATER VALLEY SOIL CONSERVATION DISTRICT NEWS

Applications for Soil Conservation assistance were received last week on 80 acres of land owned by C. C. West of Lubbock, and on 708 acres owned by Dr. T. A. King of Vernon, Texas.

Technical assistance was given by Soil Conservation Service technicians last week for laying out improved methods of irrigation water application. T. C. Young, Byron Gwyn, J. E. Mills, W. C. Langham, Tom House, E. V. Williams, and Wylie Baker were assisted.

Kemp Family Held Reunion Sunday

A family reunion was enjoyed by many on Sunday, July 6, in the home of Mr. and Mrs. Walter Kemp. A picnic lunch was served in the yard at noon. Music, singing and resting were enjoyed in the afternoon.

Those present were three sisters of Mr. Kemp: Mr. and Mrs. C. C. Brannon and family, Colorado City, Texas; Mrs. H. Roper, Snyder, Texas; Mr. and Mrs. Walter Davidson and family, of Odessa.

Also, twelve daughters and two sons: Mrs. James McDorman, Progress; Mrs. Joe Robertson, Belen, N. M.; Mrs. Leon Morris, Albuquerque, N. M.; Mrs. Joe Bishop, Modesto, Calif.; Mrs. Bill Miller, Y. L. Mrs. C. C. Tipton, Albuquerque; Mrs. Joe Parker, Y. L.; Mr. and Mrs. Ben Kemp, Muleshoe; Donald, Florence, Cora, Carroll, Dorris and Jerre.

Alan and Dave Mathis of San Antonio, are here visiting in the home of their grandmother, Mrs. W. A. Mathis and other friends.

A FIT IN A JIFFY

Look For The EASY-ALTER OUTLET.

It's a brand new patented feature found only in pants bearing the Dickie Label. You'll agree that the "Easy Alter Outlet" is the greatest improvement in work pants where a smooth fit and tailored appearance are important. No more alteration charges, for with a single clip you can alter the waist and seat of Dickie pants. Just look for the "Easy Alter Outlet" and you can be sure of a fit for both waist and hips.

The Scout Corner

A short talk on Scouting and Scouters by Glen Berry concluded the program.

A swimming meet is to be held in Littlefield on July 15 for the Scouts of this area. At the present the local troop has six entries. They are Carter Taylor, Doyle Evans, Marvin and Marion Waggoner, Jimmy Dale Beller, and Pete Davis.

Griffin Family Reunion Is Held

A family reunion was held last week in the home of Mrs. Mattie Griffin in Progress community. Six children, six grandchildren, and four guests were present. It was the first such gathering in twelve years.

Attending were: C. T. M. and Mrs. Louis P. Griffin and son, and Mrs. Florence Burke of San Diego, Calif.; Mr. and Mrs. Judson C.

A program was given for the Lions Club by the Scouts of Troop on July 2. This program was given in the regular meeting of the Lions Club. It was told what Cubbing and Scouting consist of and of their ideals.

John Charles Gilbreath gave the Scout Oath and Promise. Kenneth Welch gave an explanation of the Cubbing and Allen Berry gave a short talk on what Cubbing is.

The Scout Oath and Law were presented by Roy Harris. Claudy Welch gave a short talk on safety and Marion Waggoner and Jimmy Dale Beller demonstrated the use of first aid and bandages. Then

CORRECT ATTEST:
E. R. Hart, Mary E. Hart, Jesse M. Osborn, Directors.
State of Texas, County of Bailey, ss:
Sworn to and subscribed before me this 2nd day of July, 1947.
(SEAL) **MILDRED DAVIS,**
Notary Public.

Griffin and two children of Kansas, N. C.; R. P. Griffin, Littlefield; Mr. and Mrs. Other Richards and two sons, Mr. and Mrs. Howard Griffin and daughter, Johnnie Westbrook, Horton Griffin, and Mattie Griffin, all of Progress.

Mesdames C. E. Roark, W. W. Couch, Dulton, Huckabay, Guy Austin, W. W. Williams, Sam McLarty, J. C. Cummins, Nathe Harding and hostess, Partin Austin.

Next meeting will be July 9 in the home of Mrs. Johnny Williams. Every lady in our community is invited.

West Camp
West Camp Club met June 25 in the home of Mrs. Partin Austin. For opening exercise Marilyn Austin gave a very cute reading "When Ma Had the Ladies Aid."
"Reading Centers for the Family" was a talk assigned to Mrs. Snider. Due to her being absent, it was discussed in round table fashion. Many ideas of better reading were brought out.
Council report was given by Mrs. Cummins.
Everyone seemed interested in ordering the sheeting in pool orders. Ice box cookies and cold pops were served to the following members:

ANOTHER BIN OF KING ELEVATOR NEARLY READY
Another bin of King Bros. elevator is rapidly nearing completion, and should be ready in about a week. It will hold about 40,000 bushels. Stored in the partially completed elevator now is a total of about 100,000 bushels. Workmen are busy night and day rushing the elevator to completion.

Wilson Walker and family, of Lubbock, visited here over the weekend with his parents, Mr. and Mrs. L. N. Walker and other relatives. Miss Doris Walker returned with them for a visit in Lubbock.

Mr. and Mrs. A. H. Owen have had as guests the past few days their granddaughter, Donna Gene

Carter, Amarillo; their daughter, Mrs. Pearl Clark, of Overton; and a daughter-in-law, Mrs. Earl Owen and children of Perryton.

small son of Hobbs, New Mexico, Mr. and Mrs. E. W. Simpson and spent the weekend in the home of Mrs. Simpson's parents, Mr. and Mrs. C. M. Brown.

So this is HOUSEKEEPING
BY EMILY STUART

You could have bowled me over with an orange blossom; I was that surprised! Here I had always thought that down through the years, good old dependable bread, the staff of life, was still almost the same as it was when Noah was stocking the Ark.

But take it from the scientists, that just isn't true. On the contrary, it seems that today's bread is as tailor-made for the 20th century as television.

It all started when I noticed the words "enriched flour" on the wrapper of a fresh-smelling loaf of bread and stamped on a bag of my favorite flour. What really aroused my curiosity was that the enriched flour was said to contain a parade of technical terms: "thiamine, riboflavin, niacin and iron." All this may be well and good, I thought, but if my brand new husband is going to chew those things, I'm going to know what they are!

The next time I saw our family doctor I tried out my new vocabulary. He started at the beginning and explained that in these days of strain, nervous tension, and the fast pace of modern living, we needed a diet full of the B complex "nerve" vitamins to help keep us in-step. At the same time, he pointed out that in the process of milling flour, the diet stable, to make it white and fine as most Americans prefer, certain vitamins present in the whole cereal were lost. For that reason enriched flour was developed. Enriched flour simply restores lost material and supplies added amounts of the B complex vitamins—thiamine, riboflavin and niacin plus iron. Those, explained our doctor, are the ingredients necessary for good digestion, strong nerves, healthy skin and just plain pep!

He added that nearly half the 48 States now have laws requiring that commercially-sold bread, flour, and rolls be enriched.

And a good thing, too, I say. All you have to do is to look for the label "enriched flour" and the vitamins will take care of themselves!

Bailey County Is Described In New Texas Almanac

Maybe the Texas Almanac just off the press, has something to say about Bailey County that you didn't know about. Here is quoted the section on this county:

Level prairie, dotted with small lakes, on South High Plains on New Mexico border. Created 1876, organized 1917. One of highest counties in the state. Altitude 3,700 to 4,100 ft. Annual rainfall 18.45 in. Mean annual temperature 59.5 degrees, growing season 177 days. Resources: Dark sandy loams, occasional strips lighter sandy. Abun-

dant supply underground water 20 to 40 feet for irrigation, producing as high as 1,500 gallons a minute.

Crops: 156,000 acres grain sorghums 1946, 3,395 bales cotton, corn, 70,161 bu.; wheat, alfalfa, 167 carlots Irish potatoes, other vegetables; about 36,000 acres irrigated, including some pastures, from 247 wells. One of best diversified counties in state, developed in recent years.

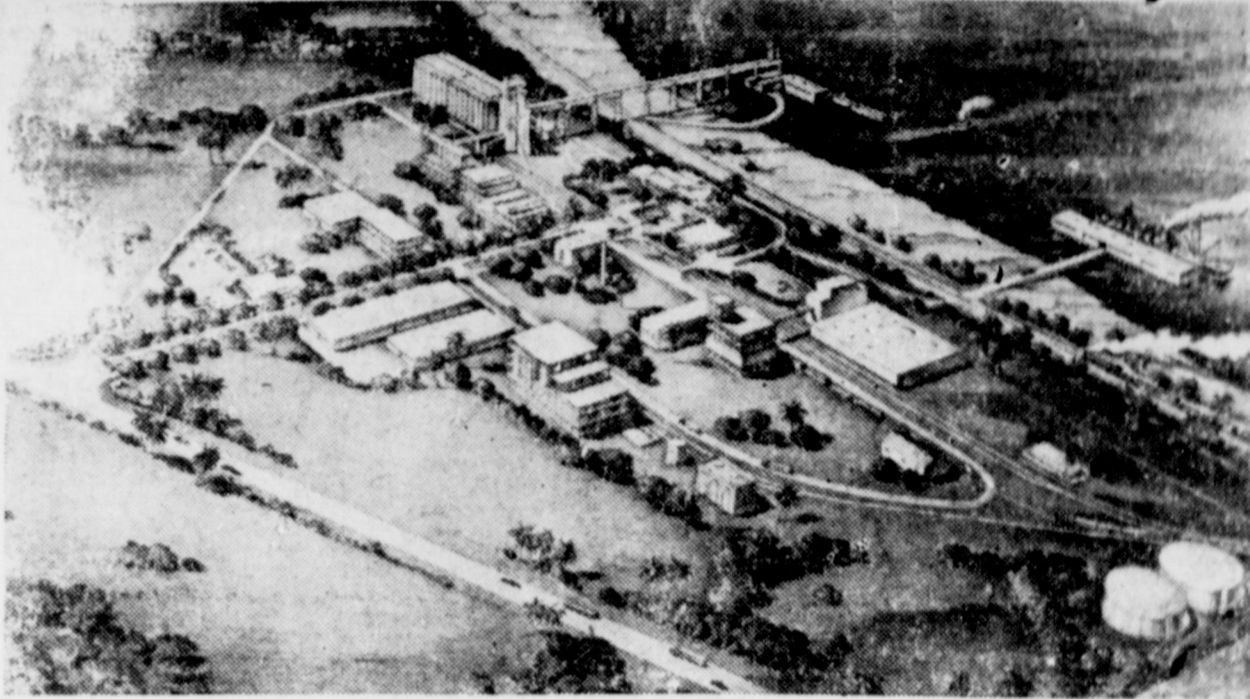

Livestock: Third of area devoted to beef cattle; 17,071 cattle and calves, 5,794 hogs and pigs. Dairying, poultry next in importance.

Migratory waterfowl refuge on lakes, open to tourists.

Area sq. miles, 832; population 7,300; cropland, 247,270 acres.

Muleshoe county seat, has cotton

Products Refining Company Builds in Southwest

In order to utilize the Southwest's large crops of milo maize—the recently developed dwarf-type grain sorghum valuable because of its resistance to drought and disease and because it can be harvested mechanically—the Corn Products Refining Company is building a new processing plant at Corpus Christi, Texas.

This architectural perspective shows the plant as it will appear from the air when completed.

The H. K. Ferguson Company, industrial engineers and builders of Cleveland, New York and Houston, is in charge of designing, building and equipping the project.

The new Corn Products Refining Company plant will produce dextrose, starches, and high protein livestock feeds. It will have a grind capacity of 20,000 bushels of milo maize per day and is expected to be completed in time to process the 1948 harvest.

gins, alfalfa dehydration plant, cannery, milk plant. Stock show in March, dairy show in October. Town named for early day ranch which had muleshoe for branding.

The Almanac contains a map of Bailey County showing locations of each town.

Mrs. S. H. Black has returned from Dallas where she spent the winter months. She is the mother of Mrs. B. Wallace.

LUBBOCK STUDENT NURSES RECEIVE MONTHLY PAY

The West Texas Hospital School of Nursing and the Lubbock Memorial Hospital School of Nursing in Lubbock, Texas, have recently decided to pay all student nurses a monthly stipend which will total \$735.00 for three years. This is equal to the sum paid over the three years period by the Cadet Corps.

A well prepared student body is an asset not only to the hospital, but to the community which it serves. Since costs of nursing education have risen along with the general cost of living it was felt that the student and her family should not be expected to bear the total expense.

These two hospitals will admit a class on September 1, 1947.

Progress Plans Amateur Night

Progress home demonstration club will sponsor an amateur program Friday night, July 18, at the Progress school auditorium. The club has bought three lots and the members are striving for a club house.

Proceeds from this program will go to this building fund. Anyone who has an act of any kind is invited to enter for the amateur night program. Further details of the event will be carried in next week's issue of The Journal.

Mrs. B. Wallace entered a Littlefield hospital Thursday to undergo surgery.

THE JEFFREY "SOIL CONTROL CULTIVATOR"

The Plow of the Past
REVOLUTIONIZED
for TODAY!

The chisel-type cultivation of the Jeffrey "Soil Control Cultivator" is not new! In fact, the first plows of this type were made over 3,000 years ago by the Egyptians for farming along the Nile River. They used a sharpened stick, while in the Jeffrey machine, silicamanganese steel is required to stand present-day speeds and uses. Down through the ages many plows have been used and discarded, but the chisel-type plow has proved to have less draft, control erosion, and conserve moisture more effectively than any other plow invented!

The chisel opens the way for moisture to go into the subsoil for storage.

Moisture penetrates further, does not run off. Stubble and trash are worked into soil for more effective refertilization of the land.

Disc-type cultivation leaves a smooth surface that quickly seals and causes water run-off.

- ★ Plows and cultivates the natural way. ★ Conserves the moisture. ★ Prevents blowing.
- ★ Stops erosion. ★ Cuts plowing cost in half.
- ★ Constructed to last a lifetime. ★ Pre-war prices. ★ Made in 4 sizes to fit your power: 7 ft. - 10 ft. - 13 ft. - 16 ft.

Vacation Thoughts

By The Journal Editor
Continuing from last week some observations of the editor on a recent trip to the West.

Los Angeles, now a world city, fourth largest in the U. S., has an underworld problem, and many other problems like most big cities, but beyond and above all problems is that of traffic. To drain off some of the traffic downtown, four lane speedways have been and are being built, but the big boulevards are full of automobiles. Seeing this tremendous traffic a few years ago, an old grizzled Plainsman

turned to our friend there who was showing him the town and said: "Where have they all been? There must have been a buyin' out this way somewhere." The next step to solve traffic problems may be the erection of elevated roads. It is a problem to all cities and one that must be dealt with from time to time.

Our friend told us of a mutual friend who migrated to L. A. in the twenties. He was a wealthy man. He foresaw what must happen when the parking areas were painted on downtown curbs. Therefore he went out on a boulevard many miles and bought lots that even then were very high priced. He bought considerable property out there - and he was as right as a fox. Where he bought those lots now stands the "Miracle Mile" so-called because of the rapidity with which it was built up by the great stores like May's, equalling or bettering their downtown units. The only trouble with our friend was

that he had equities only in those lots and when the depression came he had to sacrifice and even lose his investments. He couldn't weather the storm and it nearly got him, but had he been able to hold on a few years this real estate would have made him a pretty fortune.

If you could get all the Texas people in San Diego and Los Angeles to come back home, Texas would be the biggest state in population. California is made up of Texans and Oklahomans who delight in calling those who most recently migrated "Okies".

Another giant influence in the development of the Southwest has been the Santa Fe, one of our great railway systems. Pretty much development of the mountain states as well as California followed along the Santa Fe railroad - whole towns are composed nearly altogether of Santa Fe people and those who live by their patronage. While the life of the whole countryside is touched by this big transportation system.

DAIRYMEN ORGANIZE

LUBBOCK. Dairymen from Mexico, West Texas and Eastern New Mexico will reorganize the West Texas Branch, Texas Dairy Producers Association at a meeting here July 17. Specific plans for the meeting has not been designated, but it will probably be on the Texas Technological College campus, according to L. G. Harmon, professor

of dairy manufacturers. Plant operators from all branches of the dairy manufacturers industry including butter, cheese, milk and ice cream, are expected to attend. Meetings of the West Texas branch were discontinued when transportation grew critical during the war. Members are drawn from a wide area, including the Texas Panhandle, Big Spring, Vernon, El Paso and Eastern New Mexico.

FORMER PARMER COUNTY MEN HEAD LUBBOCK FAIR

Two former Parmer County men in the persons of L. E. McElroy, and Jason O. Corson, each of whom formerly served Parmer County as County Agent, are now acting as heads of the departments of the Thirtieth Annual Panhandle South Plains fair, to be held at Lubbock, September 29th, to October 4th.

of young men, Otto Leiner, the present County Agent of Parmer County, will be in charge of the dual purpose cattle division.

Mr. Gordon, now of Lubbock, will serve as general livestock superintendent and Mr. McElroy, now of Terry County, will be superintendent of the agricultural department.

In addition to the two above-named men, Mrs. Ben Oglesby, Jr. and little daughter, Margy, returned home Friday after several days stay in Lubbock, where the baby underwent treatment in a hospital.

Rev. and Mrs. David Moore, who are attending Texas Tech summer session, visited here with friends over the weekend.

Watch out for snakes on back-to-back roads.

From where I sit... by Joe Marsh

The Picnic Was a "Hug" Success!

Our local W.M.F. League went on a picnic Saturday, and I went along to cover it for the Clarion. Monday, folks kept stopping me, and saying, "Must have gotten out of hand, that picnic!"
"Nonsense," I says. "It was mighty pleasant and congenial. Just beer and hot dogs, cheese and cider." And then they show me the headline reading, "WILD WIFE PICNIC BIG SUCCESS."
Of course it was Elmer, my Spectator, who had made the misprints: "It is so fine red! It's only because folks are so temperate and well-behaved in our town, that they could afford to take the whole thing as a joke."
From where I sit, and a newspaper editor's entitled to a few mistakes. And since I reported that they served a moderate beverage like beer, I'm sure nobody thinks the picnic was the least bit wild, or anything but a huge success - and I mean huge!

THERE'S A Blue Ribbon ON THE OLD FAMILY TREE

Great-GREAT-GREAT Grandpaw (at least in spirit) was a "long-horn." The old pioneer was a forerunner to be proud of. But according to some history books, he was good for little more than "hides and tallow."

BUT today, the bull that roams the plains is a **BLUE RIBBON WINNER** all over the world.

We have so much confidence in the cattle industry - and all other industries we serve - that we are investing \$5 million dollars in a building program. This expansion program in the area we serve will bring more dependable electric service to industry, and better living - electrically - to everyone!

Mostly Static --

By Berry
Howdy Folks: The treasury department announces that the average dollar bill lasts only nine months. Not ours, brother.

Dollar bills go fast now days, but not very far.

The dollar sign is the "S" that's been double crossed.

The dollar used to do pretty well by itself but now it has to have a partner.

Famous men get their heads on coins, but most folks would rather get their hands on them.

Anyhow, a nickel is better than a dollar, in one respect. It goes to church oftener.

And in that connection, it is a good idea for any of us to follow the nickel to church more. Just as it's a good idea for you to try our Admiral Console Combination Radio & Automatic Record Player.

FOR A SAFER TEXAS—Effective Sept. 5, some 2 million drivers and almost 2 million vehicles will travel under the Uniform Traffic Code of 32 states. Sponsored by the Texas Safety Association and endorsed by Governor Jester, the measure is signed in presence of its authors: Sen. Fred Harris, left, and Rep. Joe Kilgore, right. Center is George Clark, Association director.

MR. MULESHOE—

Continued from Page 1

who took care of us for a long time. Evelyn is working at the Green Hospital & Clinic in Muleshoe.

Muleshoe, county seat of Bailey County, which runs along the New Mexico border, is located in the Texas Panhandle. The Panhandle is noted for its cattle and cowboys. We reckon it's the kind of country every city boy visits in his dreams.

Dr. L. T. Green, of the hospital, tells Evelyn that to advertise the town one just goes outdoors with a piece of flypaper and holds it up to the wind for about ten minutes, then rolls it up with all the sand, dust and bugs in it and sends it out.

Muleshoe has a population of 1327, according to the 1940 census. Also, we believe it is a comparatively young town; having been founded only 25 or 30 years ago. But it appears to have its roots deep in the Texas soil.

Whatever Muleshoe is, to us up here in Michigan it is the memory of what remains of the Old West, that every child, and many an adult, has hungered for at one time or another. We hope it remains that way.

It has always been our thought that we would enjoy living out our adult life in a town the size of Muleshoe—a town that was far removed from heavy industry and the speedy schedules of metropolitan living; a town in which we would have time to enjoy acquaintances with everyone; a place in which we could find room to respect and be respected by our fellowman, and where we could make a profession of trying to be "liked."

This is our tribute to "Little" Muleshoe, and to all "Muleshoes" wherever they may be.

And Mr. Muleshoe, it says on a card just received is a member in good standing of the West Texas Sidewalk Cattlemen's Association, Sweetwater, Texas, whose motto is "Cowboy Boots for Cattle Owners Only." Membership is subject to the following regulations, if you care to go any further into this:

Boot Wearing Regulations

1. Owner of at least two head of cattle—entitled to wear boots.
2. Owner of three head—can stuff right pants leg in.
3. Owner of four head—can stuff both pants legs in.
4. Owner of six head—can wear spurs. Yip-pee!

Penalties for Violations

1. Buy drinks for everybody in yelling distance, then take off boots.
2. Buy drinks for everybody in sight, remove stuffed-in pants leg.
3. Suspension from wearing boots two weeks, remove stuffed-in pants legs.
4. Suspension from wearing boots for three weeks, remove spurs.

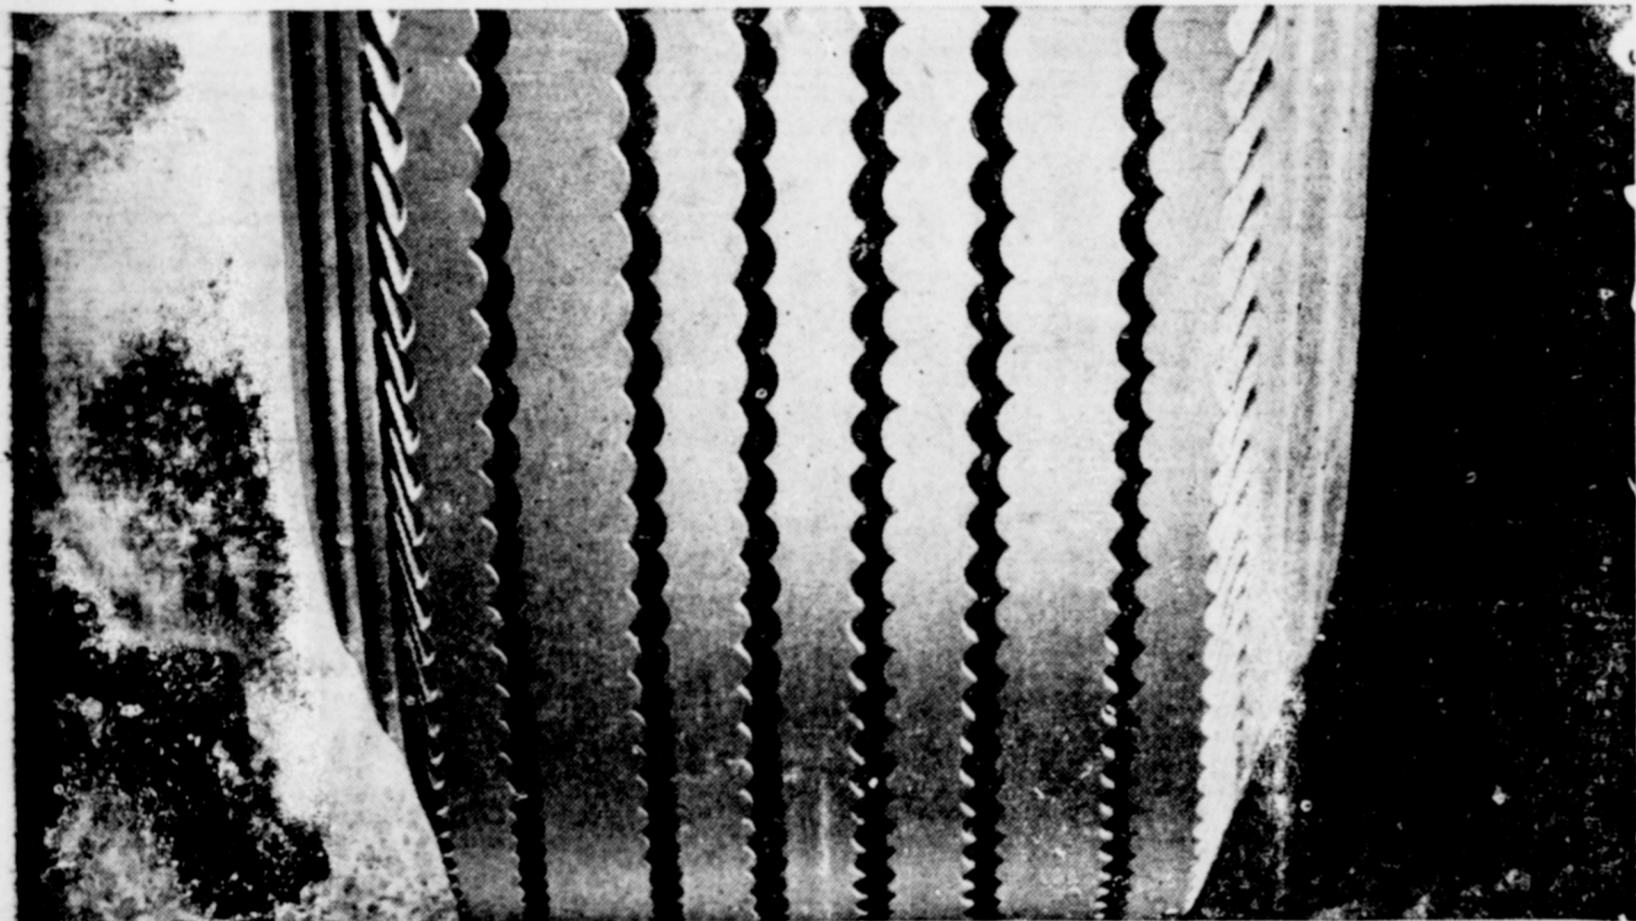

N. H. Greer, Jim Clements, Harold Clements and Travis Winters returned from Red River Monday morning where they had been fishing. All reported a grand trip.

Several farmers of the Neefmore community stopped by Lewis Shaffer's farm last week looking at that new kind of cotton he has planted in front of Mr. Gross' house.

Castrate Pigs Early For Market Results

The earlier pigs intended for market are castrated the better they will weigh in. When pigs are castrated at three to four weeks of age, they are easier to handle, the wounds heal more quickly and the pigs are usually under closer supervision so that the wounds can be watched closely. Incisions should be made low to permit good drainage and to give the finished barrow a neater appearance.

JOHNSON - POOL TIRE & APPLIANCE

TIRES THAT OUTWEAR PREWAR TIRES AT LESS THAN PREWAR PRICES

You get improved quality and reduced prices when you buy B.F. Goodrich Silvertowns—the tire that outwears prewar tires—for less than prewar prices.

Big price reductions have been announced. All popular sizes now cost less than before the war. Manufacturing costs are still up but so are the calls for Silvertowns. The tremendous demand for the new

Silvertown is greater than for any tire B.F. Goodrich ever produced. More miles have been driven on this new tire than any other tire introduced since the war.

If you need tires, equip your car now with B.F. Goodrich Silvertowns. Take advantage of our new reduced prices for safe, trouble-free driving this summer—weekends, holidays and vacations.
