

Hail, Wind Brought Much Crop Damage

Mr. Muleshoe

He sounded like he had mush in his mouth and some couldn't distinguish the words, but what Herbert Marshall said, as the gull started to lead him to the gallows in "Duel in the Sun", was:

Oh threats of Hell and Hopes of Paradise,
One thing is certain — this life flies;
One thing is certain, and the rest is lies —
The flower that once has blown, forever dies.

He was quoting, not from Shakespeare, as some of my illiterate colleagues imagined, but from the Persian poet, Omar Khayyam. As if anybody were interested.

But while we are on the subject of movies, let me register the extreme disgust of this column with such animated cartoons as the little black duck — you remember, he sang the "Barber of Seville" in a most revolting way; and with the mulattos in those animated scarecrow deals. Mrs. Hertha Walker of the Valley management shares our animosity, but she says you would be surprised how many chuckles you hear from the audience when such is showing. The pig, the big bulldog, the stupid collie, the mouse and the cat and Oswald the Rabbit, yes; but those other monstrosities, NO, by golly NO!

This writer is so old he can remember those snappy reel comedies run off by Charlie Chase, and who wouldn't walk across town to see one of those? Or Leon Errol with his rubbery legs — give us more of such comedies, is the plea of this old timer to those who furnish the brains for the movie industry.

Hail slipped in unannounced and deprived some of our citizens of the reward of a year's work in a few minutes late Tuesday afternoon. To those who lost their wheat, it doesn't do any good to say only a small percentage of the total wheat acreage was affected — they couldn't have been worse off if it were all destroyed. Yet the community as a whole must rejoice that so small a scope of territory was hit.

Alfalfa Flowing To Local Mill

The alfalfa mill at Muleshoe is operating steadily at one half capacity, officers of the Muleshoe Alfalfa Dehydrating Company said. One unit was started Wednesday of last week and is still running. The other unit will be made ready this week when a representative of the factory arrives to give the mill the once over.

Equipment of the company is being used to go into the fields and mow, chop and load hay, and trucks bring the green hay to the dehydrator.

The alfalfa meal is sacked and made ready for shipment to big users, makers of mixed feeds and others.

TWENTY-FIFTH YEAR, NO. 23

MULESHOE — COUNTY SEAT OF BAILEY COUNTY, TEXAS

THURSDAY, JUNE 5, 1947

Ironing Made Simple

Ironing is made simple with the new Bendix Ironer as demonstrated above by Miss Elizabeth Bailey of the E. R. Hart Company, Muleshoe, which sells the new ironer.

A demonstration school for Bendix Ironers, Washers and Dryers recently was held in Amarillo at the Consolidated Appliances, Inc., store, attended by dealers of this territory.

From the local store Mrs. E. R. Hart, Mrs. C. M. McMath, and Miss Bailey attended.

City Commission Issues Orders For Paving Streets, Widening Highways

The final hurdles are being cleared so that the city paving project can begin, and predictions are being made that the contractors, the Panhandle Construction Company, will be enabled to begin work early in July.

Notice to owners of property abutting on streets and highways to be paved may be found in this issue of The Journal.

The city will assess the proportionate cost against said property. In this program the city pays a portion of cost of paving and curb and gutter and property owners pay the balance.

Both highways through the city of Muleshoe will be widened and curb and gutter will be laid.

In addition, some 22 blocks of city streets are scheduled to be improved in this program.

The street south of the courthouse, Edward Avenue, will be paved through town and loops will run from each end to the state highway on the north.

Main street will have an additional two blocks of paving, including the block in which the temporary postoffice is located. Similarly, the street on which the city hall is located will be paved to an intersection with the street running from the cannery factory to the Lubbock highway.

A hearing on the paving and all matters connected therewith will be held the last of this month. The notice to property owners runs in the paper to give due notice to all interested in the matter.

The city commission was in session last night to set date of hearing and to iron out details not previously settled.

Cecil Tate Is New Lions Boss

Cecil H. Tate was elected president of the Muleshoe Lions Club when members met Wednesday. He succeeds Pat R. Bobo as Lions Boss.

Other officers elected are: Glenn Rokey, first vice-president; Lee R. Pool, second vice-president; and Bill Moore, third vice-president; Randy Johnson, secretary-treasurer; tall twister, Jack Lenderson; Lion Tamer, Fred Johnson; Directors chosen were Morris Douglass and L. S. Barron.

The club voted to investigate the need for stadium bleacher seats at the football field, and a committee composed of Irvin St. Clair, Howard Elliott and Supt. Cunningham was named to get the facts as to needs, cost, etc. They will visit other stadiums in the territory, and make a report.

RECEIVE SUITS
Uniforms for the members of the American Legion's recently organized junior baseball club have arrived, it is reported, so the lads will be able to spruce up in all future games the participate in. Games are to be matched with other junior teams and a state championship contest will be arranged.

Please call in your news or send clippings along from to market roads.

Bond A Month Plan Endorsed

Banks throughout Texas have instituted the Bond-a-month Plan, which has been endorsed by the nation.

Jesse M. Osborn, Bailey County Chairman of the Savings Bonds Committee, urges full cooperation from all civic and business groups in the county in the Treasury's June July promotion.

"This is a community matter that affects each citizen of our country," he said. "Savings Bonds sales are an important part of our national economy. The way the debt is managed will affect our lives for years to come, for it will affect the money supply, the price level business conditions, employment and what a dollar will buy."

Texas invested a grand total of \$240,000,000 in U. S. Savings Bonds in 1946, with 2,450,000 Series E Bonds issued representing \$17,000,000.

Rainfall Now Totals 6.29 In.

Rainfall for the first five months of 1947 at Muleshoe totaled 6.29 in., R. J. Klump, weather recorder announced.

Most of it fell in May. Rainfall for the month just passed amounted to 4.32 inches and fell on days of the month as follows:

May 6, .46; 10th, 2.43; 12th, .16; 14th, .03; 17th, .18; 23rd, .97; 26th, .09.

Rainfall to date has been little more than half the total received last year, yet because of the way in which it fell and the fact that it came just before planting time, the crop situation is immeasurably better than it was last year.

Hereford Plants 1600 Acres Beets

College Station—Sugar beet acreage in Deaf Smith County will reach the 1,600 acre mark this year.

County Agricultural Agent Hugh L. Clearman reports that farmers in the county are in the process of planting about 1,600 acres to the crop and practically all of them have applied commercial fertilizer to sugar beet fields.

In many cases, says the county agent, barn yard fertilizer was applied to cropland during the winter, to put land in good shape for sugar beet production.

The application going on much of beet acreage is 100 pounds per acre of 16-20-0 commercial fertilizer.

BLACKWATER VALLEY SOIL CONSERVATION NEWS

Topographic surveys which are used in preparing improved methods of irrigation water application have been completed on farms owned by Rufus Gilbreath, D. B. Head, and Everett Smith.

E. P. Burlsmith received the assistance of Soil Conservation Service technicians in laying out lines for irrigation ditches.

Bailey County Farms Planted By Neighbors

Guess Neighbors Plant His Crop

Neighbors of E. T. Guess, of 7 miles south of Muleshoe, gathered at his place this week and planted his feed crop for him.

Mr. Guess has been ill in Amherst hospital.

The farm, consisting of one labor, was completely planted and the neighbors finished about 3 o'clock.

Sending tractors and equipment were Messrs. Merle Stevenson, Jack Obenhaus, W. A. Mathis, Russel Finley, Bill Kelton, J. D. Sullivan and Steve Sullivan.

This made the second time in a week that neighbors gathered to plant the crop for men who were ill. Neighbors of Arthur Askew brought tractors and planted the half section farm Monday.

Askew Neighbors Planted Crop

Farming was carried on in a big way Monday at the Arthur Askew farm in the Fairview community, about 11 miles southeast of Muleshoe. Mr. Askew is ill and his neighbors planted his farm of 330 acres in record breaking time.

Just as dawn was breaking tractors came from all directions. On one labor, eleven tractors finished by noon. The other labor was planted by six other tractors.

The good neighbors who participated in this neighborly action were:

Merle Stevenson's two tractors, driven by Dewey Dorsey and Robert Morgan; Ollie Damron's tractor, driven by Everett Reeder; E. T. Bates' tractor, driven by Bobby and Jack Schuster and a colored man, Jack Bates, driving his own tractor, C. S. Sullivan tractor, driven by Tommy Sullivan; J. D. Sullivan driving his own; John Davis, two tractors, driven by Harlan Davis and George Carter; Bobby Clary, driving his own; Russell Firley, driving his own; R. L. Fields, tractor driven by colored man; Bill Kelton, tractor driven by Merle Stevenson; Jack Obenhaus, tractor driven by Winifred Riddle.

Haskell Pierce, Ollie Damron, Merle Stevenson, Bill Kelton, Jack Obenhaus, H. E. Schuster, E. T. Bates, and R. L. Fields were kept busy keeping seed in the boxes and the tractors on the right rows.

It was a sight to see, and as one said, "Speaking of Good Neighbors, these West Texas people rank TOPS!"

Rev. Cole To Oklahoma Lane

Rev. J. P. Cole, for several years pastor of the Methodist church at Y. L., was transferred to Oklahoma Lane as pastor in appointments read Sunday afternoon by Bishop Charles C. Seelman at the conclusion of the annual conference of the Northwest Texas Methodist district, held in Amarillo's Polk Street Church.

Rev. T. G. Craft, pastor of the Muleshoe Methodist church attended.

Other changes in this territory included: Rev. U. S. Sherrill of Dimmitt, goes to Sudan; Rev. M. A. Walker of Sudan is transferred to Seagraves and Rev. Horace Brooks, Petersburg to Dimmitt.

Rev. O. B. Herring, of Snyder, goes to the Hereford church.

In April of next year Methodists throughout the world will hold the annual conference in Boston. Four delegates from this conference were named, as follows: Rev. E. D. Landreth, Amarillo district superintendent, Rev. J. O. Haynes, Lubbock superintendent, Rev. O. W. Carter, Abilene district superintendent and Rev. Harold Cook, president of McMurry.

Laymen also will be represented by four delegates.

Anton Will Play Muleshoe Sunday

Muleshoe and Anton clubs of the Capitol Baseball League will meet in Muleshoe the coming Sunday afternoon, in the first game between these two lines.

Muleshoe lost to Sudan last Sunday afternoon. Dick Blackhear, pitcher for the home team, got a nasty cut in his leg from a spike, requiring several stitches to close. He was winning his game until the accident occurred.

Gene Autry Coming To Lubbock

Birmingham, Alabama, where his show was held over several days to accommodate the huge throngs who wished to see him perform. This will be his only personal appearance with rodeo in the area this year.

Gene Autrey, cowboy singing show was held over several days to accommodate the huge throngs who wished to see him perform. This will be his only personal appearance with rodeo in the area this year.

Hospital News

Mrs. S. V. Willis has been a medical patient for several days. She will soon be discharged.

Dovie Sears of Clovis, N. M., has been a medical patient. She has gone home.

Mr. M. M. Morris of Earth was a surgical patient. He has been discharged.

Mrs. A. E. Johnson is a medical patient. She is doing fine.

Mrs. A. C. Palmer is a medical patient. She is resting well.

Ruby "Chubby" Seales, daughter of Mr. and Mrs. Bert Seales of the Longview community was a surgical patient. She is doing fine.

Martina Wilson, daughter of Mr. and Mrs. J. M. Wilson is a medical patient. She will be discharged soon.

Johnnie Love, small son of Mr. and Mrs. Pat Love, underwent a tonsillectomy today.

Congratulations
To Mr. and Mrs. B. J. Stevens on the birth of a daughter, Beverly Arleen, May 31; weight 7 pounds, ten ounces.

We are very glad to have Mrs. Evelyn Wills of Albuquerque on our nursing staff.

OUR HONOR ROLL

BACK IN USE

College Station—Abandoned fields are being brought back into use this year by Fisher County farmers, who are seeding the depleted soils to pasture grasses and clover.

Fisher County Agricultural Agent L. E. Turbeville reports that he has been called on repeatedly for help in putting the old fields back in production.

J. C. Simpson, Fisher County farmer, has made five acres of abandoned land pay him dividends again by clearing off mesquite growth and seeding with weeping love grass and blue panic grasses. Another Fisher County farmer, revived nine and one-half acres with buffalo, blue grama and blue panic grasses. Mrs. Faye Young, Morton, ranch owner, brought six acres back to life with the weeping love and blue panic grasses.

County Agent Turbeville says that there is a drive underway in the county to put all land to some good use. Most of the new acreage that has been planted to the grasses and clovers will be harvested for seed, so that more extensive pasture seeding can be done next year.

Please call in your news or send it in. Phone 54—The Journal.

'Wish You Wouldn't's' Apply to Parents, Too

SINCE turn about is fair play, any list of "Wish you Wouldn't's" for teen agers should be accompanied by a few "Don'ts" for parents, too. Holly Miller points out in nationally-circulated *Copper's Farmer*.

Discussing the teen agers' viewpoint, she writes: "Seems as if 'I wish you wouldn't' is the preface to a good many statements by the older generation. 'The way you dress, eat, walk, talk—gadooks—nothing seems to please them."

"But before you get too huffy and cast their admonitions to the breeze, go into a huddle with yourself. Down deep you may find the grace to admit that a lot of so-called characteristic adolescent behaviorisms are not calculated to make the populace love you. And that just because simply everybody acts a certain way is not sufficient reason for anybody as special as you to follow suit."

Among the "Don'ts" which Miss Miller says teen-agers might suggest to parents are:

"Don't laugh at us. We're self-conscious enough. The our plans may seem a little fantastic and some of our actions silly, it's probably part of being young. Don't you remember?"

"Don't treat us like kids. You can help us grow up by treating us like grown-ups. Trust us a little more."

"Never, never say, 'I told you so.' It's too curdling. And we have to learn the hard way to make it stick."

Mealtime Magic

TAMALE PIE

Though of Mexican derivation, tamale dishes have long been a favorite in the United States. For a main dish which will make you think of life below the border, try

- 2 cups cornmeal
- 1 cup cold water
- 2 teaspoons salt
- 3 pints boiling water
- 1 onion, thinly sliced
- 3 tablespoons fortified margarine
- 1 lb. hamburger
- 2 cups fresh or canned tomatoes
- 2 green peppers
- 1 teaspoon salt
- 1 tablespoon chili powder, grated cheese

Stir cold water into the cornmeal slowly to make a smooth paste. Add salt and boiling water. Cook over low heat in a very heavy pot, stirring constantly until quite thick. Then place over hot water and heat very low. Cover and continue to cook about 45 minutes until cooked through. Brown onion lightly in melted margarine. Add hamburger; stir until browned. Add tomatoes and chili powder. Cover; simmer 25 minutes. Cut peppers into long thin slices. Add to sauce. Pour sauce into deep baking dish. Pour in the hot cornmeal mixture. Cover with remaining half of sauce. Top with a thin layer of grated cheese. Bake in hot oven (350° F.) about 20 minutes. Serve piping hot. *Recipe by Holly Miller.*

For other taste-tempting recipes, write today for your free copy of the new two-color, 32-page recipe booklet, "Mealtime Magic," to National Cotton Council, Box 18, Memphis 1, Tenn.

MRS. EASON VISITS OLD FRIENDS HERE

Mrs. T. L. Eason, a former resident of Muleshoe, now of Los Angeles, California, is here visiting old friends. While here, she plans to attend the installation of officers of O. E. S., having been a member of the Muleshoe Chapter.

After a visit here, she plans to visit a daughter in Maryland before returning to Los Angeles.

Mr. and Mrs. Bill Collins returned home last week after visiting relatives in California. They reopened their restaurant, the Muleshoe Cafe Saturday morning.

From where I sit ... by Joe Marsh

How to Go to Sleep

We were sitting around Bill Webster's parlor Friday evening and the talk turned to the best way of overcoming sleeplessness... like breathing real slow and deep, imagining that you weigh a ton, or simply throwing away the pillow.

The consensus favored counting sheep. But right away was the question: what kind of sheep? There were some votes for counting Merinos, Shropshires, Oxfords and Dorsets. Ed Mapes said he had best luck counting crossbreeds.

Finally, Bert Childers spoke up

with his formula: A light snack and a mellow glass of beer at bedtime. Sort of puts you in the mood for quiet thoughts and peace of mind. Lets you relax... and "ho hum" off to pleasant dreams!

From where I sit, there's nothing like a temperate glass of beer to smooth away the creases of the day, relax a body, and pave the way for a good night's sleep. Try it, and see if I'm not right.

Shirts, ties suspenders, pajamas, sweaters, handkerchiefs, socks make wonderful Father's Day gifts.

COBB'S

Mrs. Storm Whaley, sister of Mrs. Charles Lenau and Mrs. Buddie handler of Sloom Springs Ark., returned to their home Monday, after spending several days here with Mr. and Mrs. Lenau.

Mr. and Mrs. Julian Lenau, Mrs. C. Smith and daughter, Kayla, and Mrs. Charles Lenau were in jobcock Monday.

Mr. and Mrs. Bob Jackson of Sloom Springs, Ark., were guests Sunday in the home of Mr. and Mrs. Charles Lenau.

Sam Damron came in Wednesday from Austin for a visit with his parents, Mr. and Mrs. Joe Damron and had as his guest, Miss Elaine Jordan of Mason, Texas. She is also a student at the University.

BIRTHDAY PRESENT

An appropriate birthday present was that given by Mrs. Charlie Gustin to her friend, Mrs. J. B. Jennings, a year's subscription to The Journal. Both live near Muleshoe. And The Journal wishes you a happy birthday, too, Mrs. Jennings.

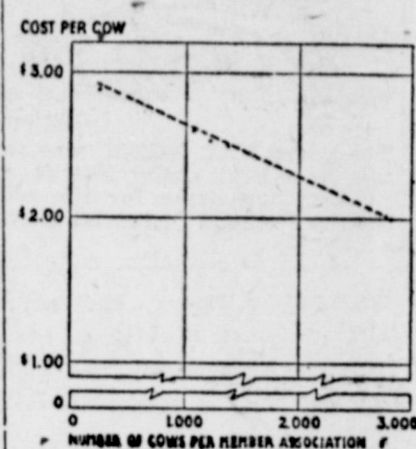

Please call in your news or send it in. Phone 54—The Journal.

Herd Improvement by Artificial Breeding

Co-Ops Can Lower Cost By Proper Management

By W. J. DRYDEN
An increasing number of farmers use artificial insemination in order to speed up dairy herd improvement and increase their income. In the urge to expand rapidly, many farmers sometimes have overlooked the importance of technical problems in dairy husbandry, genetics and veterinary medicine. By joining together within a certain zone, farmers may cooperate in forming an artificial breeding as-

sociation. This has decided advantages, chief among which is the financial one. To be successful the bulls purchased by the group must be outstanding—better than any one of the individual farmers could afford to maintain. To properly conduct the insemination, the group should have available a qualified veterinarian. He need not be on a full time basis, but should devote sufficient time to check on all breeders as well as perform the actual insemination. If the organization is sufficiently large he could be engaged on a full time basis, devoting part of his time to disease control and preventative work.

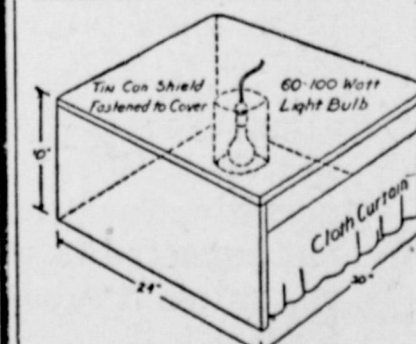

Anchored Soil Will Defeat Dust Storms

Farmers in the Great Plains states are heeding a warning that another cycle of dry years may bring back the disastrous dust storms of the early "thirties." Paul T. Scott, South Dakota State college, writes in Capper's Farmer. The farmers propose to beat nature to the draw by anchoring at least a portion of the susceptible acreage with hardy grasses. Most important discoveries made in the fight against erosion were the

adaptation of certain tame grasses and new methods of seed harvest for the Plains natives. Brome grass now has spread over the eastern portion of the Plains states and into the Corn Belt. Crested wheatgrass is proving a near-miracle as a land cover and pasture in the northern part. Mechanical processes have been developed for harvesting and seeding buffalo grass, the grammas and wheat grasses.

Backyard Brooder

Small Brooder For Backyard Poultrymen
This brooder, large enough for 25 to 50 chicks, is recommended by University of Maine. It can be made of wood or corrugated box the size indicated in the illustration, or slightly larger. Chicks can be brooded in the basement up to six or eight weeks.

Home, Farm Lead in National Accidents

With the accident rate skyrocketing and the home and farm leading over air, rail and highway as the scene of most accidents, it is time we settled down to some constructive thinking and acting along safety lines. Most of these accidents would not have happened if someone had been a little more careful, thoughtful or alert, or if the farmer would inspect his equipment before using it.

Dr. Cox Warns Concerning Polio

Austin—Dr. Geo. W. Cox, State Health Officer, has issued the following statements and suggestions concerning the control and prevention of poliomyelitis which is now occurring in certain section of the state.

At one time it was generally believed that this infection was transmitted primarily by discharges from the respiratory tract. It is now believed that poliomyelitis may be another of the several gastrointestinal infections. Therefore, control measures must include clean-up campaigns and improvements in sanitation.

Stringent efforts should be made to eliminate house-flies, mosquitos, and rodents, to destroy their breeding places. Every effort should be made to institute approved garbage collection systems, and secure safe water supplies. Where adequate municipal sewage disposal systems are not in operation, it is necessary to install and maintain sanitary septic tanks and outdoor privies.

All swimming pools should maintain those standards approved by the Texas State Department of Health. This includes maintenance of proper chlorine level. Where such standards are not maintained, those pools should be closed to the public.

All raw foods and vegetables should be washed thoroughly before use and protected from filth and insects. All food handling establishments should adhere strictly to the State law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation, should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitation standards.

Approved milk supplies, rodent control measures, high sanitation standards, and strict personal hygiene are all important. Polio cases should be quarantined for 14 days and excreta from cases and contacts should be handled and disinfected with the same scrupulous care as in typhoid or bacillary dysentery.

Over-exertion in children should be avoided. Children should not visit homes where there is illness. It is advisable to reduce to a minimum all human contacts, especially in children during an outbreak of this disease. It is not advocated that schools, churches and

theaters be closed. Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

Mr. and Mrs. Charlie Gustin attended the wedding of his nephew, Luther Prunty and Miss Dorothy Dodson in Fort Worth at the First Methodist Church, Sunday, June 1. The couple will make their home in Jacksboro where he is the county clerk.

Please call in your news or send it in. Phone 54—The Journal.

Grasshopper's Day

Believing that there is an important relationship between the intensity of sunlight, air temperature, the body temperature of the grasshopper, and where and when the pests do their eating, Professors Pepper and Hastings, Montana State college, have designed a special thermocouple with which to take the temperature of grasshoppers.

Good Wiring

MEANS

Convenience & SAFETY

Good wiring is essential to every house, be it new or old! With adequate wiring you have enough outlets to carry all your electrical equipment and you have protection from fire. Consult with us today on all your electrical problems.

In response to numerous requests, we have added electrical work and house wiring to our services.

We Announce the Association With Us of **Willie Green**

Who has had a wide and varied electrical experience and is at your service.

Grop Rotation Plan Should Be Balanced

Unless a farm has a well balanced rotation for its fields, the chances are that the farmer who works that land is depleting the soil and getting lower yields of the crops he grows.

Dr. R. L. Cook, soils specialist at Michigan State college, says that there are several ways in which crop rotation may result in soil improvement. If a cultivated crop is continuously produced on one field, the organic matter content of the field is decreased.

Mrs. Avis Coward of Silverton spent the day Tuesday with Mr. and Mrs. Homer Sanders, Sr., en route to Tucumcari, N. M. to visit her daughter.

Please call in your news or send it in. Phone 54—The Journal.

1/16" OF STOODITE HERE KEEPS PLOW-SHARES SHARP 25 TIMES LONGER!

STOODITE is so much harder—so much more wear resistant than ordinary plow steel—a thickness of 1/16" welded to the point and underside of a plow share extends plow share life five times and forms a sharp cutting edge that never gets dull.

The use of Stoodite is not limited to plow shares. It can be welded to all farm implements to keep them sharp, reduce wear, and greatly increase their life. A few of these implements include: roop bars, mill hammers, cultivator shovels, cylinder teeth, etc.

Stoodite is made in welding rod form and is applied by standard oxy-acetylene equipment in our shop. Bring in your plowshares for Stooditing and let us show how all your implements can be made to last from 2 to 10 times longer with Stoodite!

Plunkett Show Here Next Week

Three nights of vaudeville and variety entertainment are scheduled for Muleshoe, when the Plunkett's Tent Show appears here under the auspices of the Fire Department, starting Thursday, June 12.

The Plunkett's show, billed as the greatest family show on the earth, has a good road record of long standing in West Texas. There are ten brothers and sisters in the family, most of which will be on hand to entertain here. The company consists of 25 persons.

A good three-act comedy play and

10 acts of vaudeville will be presented with a complete change each night of the engagement here.

Miss Billie Plunkett, her Spanish wad and flying trapeze acts, beautiful wardrobe, under the Strobelle lighting effects, is a 1947 addition to the vaudeville bill along with Congo, the chimpanzee with the human mind.

Chimpanzees are very rare animals in this country as they are imported from central Africa and require special attention and at best do not live long. This is the youngest trained chimpanzee in stage show business.

The new flame-proof tent which will seat 1,000 people will be spread across the street from the City Hall. A copy of the ad in this

GRASS IS IMMORTAL

We never see the Plains verdant in the spring without recalling that classic utterance, "Grass Is Immortal", by Senator John J. Ingalls.

Following copious rainfall, the green Plains remind old settlers of the Plains when most of it was in grass. Come springtime the buffalo grass and its taller cousins covered the prairies, and in seasonable years the taller grasses in midsummer waved in wind, dotted with whiteface cattle in the era when the grasses were not overgrazed and before the plow turned the sod to produce cultivated crops.

Maybe Herald readers will enjoy, as we always do, reading Senator Ingalls' famous utterance on grass: "Lying in the sunshine among the buttercups and dandelions of May, scarcely higher in intelligence than the minute tenants of that mimic wilderness, our earliest recollections are of grass, and when the fitful fever is ended, and the foolish wrangle of the market and forum is closed, grass heals over the scar which our descent into the bosom of the earth has made, and the carpet of the infant becomes the blanket of the dead."

"Grass is the forgiveness of nature—her constant benediction. Fields trampled with battle, saturated with blood, worn with the ruts of cannon, grow green again with grass, and carnage is forgotten. Streets abandoned by traffic become grass grown like rural lanes and are obliterated. For rests decay harvests perish flowers vanish, but grass is immortal."

"Beleaguered by the sullen hosts of winter, it withdraws into the impregnable fortress of its subterranean vitality, and emerges upon the first solicitation of spring. Sown by the winds, by wandering birds, propagated by the subtle horticulture of the elements, which are its ministers and servants, it softens the rude outline of the world. Its tenacious fibres hold the earth in its place, and prevent its soluble components from washing into the wasting sea. It invades the solitude of deserts, climbs the inaccessible slopes and forbidding pinnacles of mountains, modifies climates, and determines the history, character, and destiny of nations."

"Unobtrusive and patient it has immortal vigor and aggression. Banish from the thoroughfares and the field, it abides its time to return, and when vigilance is relaxed, of the dynasty has perished, is silently resumes the throne from which it has been expelled, but which it never abdicates. It bears no blazonry of bloom to charm the senses with fragrance or splendor, but its homely hue is more enchanting than the lily or the rose. It yields no fruit in earth or air, and yet should its harvest fail for a single year, famine would depopulate the earth."

issue will admit one lady free with a paid adult ticket to the opening performance only.

The Plunketts furnished most of the vaudeville bill on the Harley Sadler Show in 1942.

WAR NURSE

She was born in War's grim garden,
A rose of the battlefield,
Baptized under hell and fire
While the world around her reeled.

She stayed at the front against orders
And when CI gripes began
One Joe cried "If she can take it,
I am sure we soldiers can!"

Mercy's angel in a helmet,
She knew many a prison hell;
She lived and died like a soldier...
To the wounded she was "Swell!"

With the war she's been forgotten
Like the strains of "Over There,"
But each soldier boy remembers
Some brave War Nurse in his prayer.

HARVEST TIME ON THE FARM

—AND—

You'll Find That We Are Ready to Handle Your Needs

STORAGE FOR YOUR WHEAT

WHEAT HARVEST is only 2 weeks away! Yes in about 2 weeks combines will be going in some parts of this territory, and King Bros. Grain & Seed Company are doing everything possible to have at least a part of their new all steel elevator and storage plant ready to help handle the expected great flow of the golden grain.

We believe that growers may well contemplate problems which might arise when the wheat starts rolling.

We are told that the box car situation, while perhaps not as tight as last year, will still cause a shortage of transportation facilities. Price problems are not expected to give any especial worry, unless it goes below the support level.

If for any reason, however, you wish to store your grain—King Bros. new elevator will be ready to store at

least part of the big crop. Part of our new facilities will be complete—enough to store at least 120,000 bushels. We want to buy your wheat and hope to offer a steady market for it—but if you want it stored we are in position to offer you storage here; and not have you go to distant cities for that service.

We are going to operate a **FEDERALLY BONDED, FIREPROOF ELEVATOR AND STORAGE PLANT** for your convenience and protection. We will be able to give you Federal Warehouse Receipts—and you will have your wheat at HOME where you can more readily dispose of it when you desire.

If our new elevator is not ready when you start cutting your wheat, we have the facilities to take care of it in our old elevator and will appreciate the opportunity to serve you.

JUNE 11, 12, 13, 14

R O D E O

SENATE JOINT RESOLUTION NO. 4

proposing an amendment to Article VII of the Constitution of the State of Texas by the addition of two new sections to be known as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of payment for the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Sections 17 and 18 which shall read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven (7c) Cents on the One Hundred (\$100.00) Dollars valuation heretofore permitted to be levied by Section 51 of Article 3, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two

(2c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy, frontier organizations, and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate hereinabove levied.

"Also, there is hereby levied, in addition to all other taxes permitted by the constitution of Texas, a state ad valorem tax on property of Five (5c) on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings, or other permanent improvements at higher learning; and the governing board of each of such institutions of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed three (3%) per cent per annum and shall mature serially or otherwise not to exceed ten (10) years from the first (1st) day of January of each year in which such funds are allocated or re-allocated to said respective institutions; provided, the power to issue bonds or notes hereunder is expressly limited to a period of thirty (30) years from the date of the adoption of this amendment; and provided further, that the Five (5c) Cent tax hereby levied shall expire finally upon payment of all bonds hereby authorized; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools shall never exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts

of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"Funds raised from said Five (5c) Cents tax levy for the ten (10) year period beginning January 1, 1948, are hereby allocated to the following institutions of higher learning, and in the following proportions, to wit:

Institution	Per Cent of Total
John Tarleton Agricultural College North Texas	5.72107
Agricultural College Texas State College for Women	6.17028
Texas College of Arts and Industries College of Mines and Metallurgy	11.52992
Texas Technological College East Texas State Teachers College	4.75551
North Texas State Teachers College Sam Houston State Teachers College Southwest State Teachers College	4.71936
Stephen F. Austin State Teachers College Sul Ross State Teachers College West Texas State Teachers College	16.54877
Prairie View Agricultural and Mechanical College of Texas	8.10657
	12.64522
	5.55068
	6.78474
	4.55414
	2.15315
	5.41643
	5.34411

"Not later than June 1st of the beginning year of each succeeding ten (10) year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student enrollment for the preceding five (5) year period of time, shall re-allocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five (5) Cent ad valorem tax for said ten (10) year period; and all such designated institutions of higher learning which participate in the allocation or re-allocation of such funds shall not thereafter receive any other state funds for the acquiring or constructing of buildings or other permanent improvements for which said Five (5c) Cents ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the loss so incurred may be made by the Legislature out of other state funds. This amendment shall be self-enacting. The State Comptroller of Public Accounts

shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this amendment; and the State Treasurer shall play warrants so issued out of the special fund hereby created for said purpose."

"Section 18. For the purpose of constructing, equipping or acquiring buildings or other permanent improvements, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Five Million (\$5,000,000.00) Dollars and the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Ten Million (\$10,000,000.00) Dollars. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than twenty (20) years from their respective dates, and in no event later than twenty-five (25) years after the date of the adoption of this amendment. This amendment shall be self-enacting.

"Said Boards are severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and of The University of Texas in the income from the Permanent University Fund, as such interests are now optioned by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at a special election to be held throughout the state on the fourth Saturday in August A. D. 1947 at which election all ballots shall have printed thereon:

"For the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the

financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning, in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (100.00) Dollars valuation; providing a method of payments for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

"Against the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings; and other permanent improvements at state institutions of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five (5c) Cent reduction of the maxi-

num allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

Section 3. The governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this state.

Section 4. The sum of Ten Thousand (\$10,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of the state not otherwise appropriated, to pay the expenses of such publication and election.

WINTROATH VERTICAL TURBINE PUMPS

Why the difference? Fred and Howard started out with the same number of acres and the same amount of money.

Fred often admires Howard's prosperous farm, but seems to have forgotten that he "waited another year" even though Howard bought his Wintroath pump right off. He hasn't forgotten how much money he lost, though, as a result of that bad first year with the long dry spell. Every year he fell farther behind.

Don't take a chance like Fred did and "wait another year!" Be sure of enough water THIS YEAR! Check into the many

economical features of Wintroath pumps! Now on display.

Women's News . Club Events Social Activities

O. E. S. Officers Installed June 2

Public installation of new officers for the Muleshoe chapter of the Order of the Eastern Star were held Monday, June 2, at the Masonic Hall.

Outgoing W. M., Naomi St. Clair was retired by the Rainbow Girls. Incoming W. M., Ruth McCarty was escorted to the east by her two sons, Fuston and Weldon.

Installing officers were: W. M. Elizabeth Harden; Marshall, Grace Lane; Chaplain, Viola Lane; Pianist, Mrs. Howard Cox.

On the stage was a large star in the colors of the Eastern Star. On each side of the stage were terraces with roses and greenery on them. This was repeated at the Worthy Metron's station. At other stations were displays of cut flowers.

Miss Athalee Evans and Mr. Dale Miller of Farwell were united in marriage in a double ring ceremony performed Wednesday, May 21 at the Texaco Farwell Baptist Church with Rev. Hunton officiating.

Miller-Evans Rites Read At Farwell

Mrs. Miller, daughter of Mr. and Mrs. Carl Evans of Shawwater is a graduate of Farwell high school with the class of '47.

For the ceremony, the bride wore a gray suit with white accessories.

Young People Met Here Sunday

Young people from all over the plains met at Main Street Baptist Church Saturday evening and Sunday for their quarterly meeting. Some sixty visitors were present.

A splendid program was given on Saturday night on "Crowns". The devotional was by Levelland and the program followed:

The South-winner's crown by Hopewell Church, Olton.

The pastor's crown by Bethel Church, Amarillo.

The crown of Righteousness by Morton.

The crown of Life by Muleshoe.

The program on Sunday was on "Christian Possessions". After the devotional by Lamesa, the program followed:

Justification by Calvary, Amarillo.

Peace by Paducah.

Grace by Calvary, O'Donnell.

Patience by Levelland.

Hope by Central Baptist, Lubbock.

Love by New Lynn.

A business session followed in which the officers for the ensuing year were elected.

Mrs. Sims Is Shower Honoree

A bridal shower was given in the home of Mrs. O. D. Troutman honoring Mrs. Charlie Sims, the former Miss Mary Ruth Toten Thursday evening, May 29.

Games were played. The last game led to a bed beautifully decorated with gifts. After they were opened, delicious refreshments were served.

Those attending and sending gifts were Mesdames Lee Dudley, Ernest Holland, W. E. Young, Mary Thomas, Mattie Hammors, J. J. DeSna-

there will not be free dinner. Be on hand early and meet at the Rocky station at the cross roads. We will leave by 9:30 a. m. The next meeting will be with Mrs. Kistler June 12.

Shower Honors Mrs. Minckler

The Ladies' Bible Class of the Church of Christ, sponsored a Blue and Pink Shower in honor of Mrs. Frances Jean Minckler in the afternoon of May 28th in the home of Mrs. Ernest Holland. The hostesses were Mrs. Ernest Holland, Mrs. Clyde Taylor, Mrs. Happy Wagon and Mrs. S. E. Caldwell.

The home was decorated with beautiful snapdragons and other garden flowers. Delicious angel food cake was served with ice cream to thirty-five guests. Miss Frances Williams presided at the register. Mrs. Minckler received many lovely gifts, and all enjoyed the happy occasion.

Basket Dinner Honors Mr. and Mrs. Clark

A basket dinner under the big trees at Roy Carney's home was given Sunday noon in honor of the visiting parents of Mrs. Martha Carney, Mr. and Mrs. H. L. Clark, now of Ralls, but formerly of this section. Mrs. Carney's sister and husband, Jake Gray of Farwell were also in attendance. The family attended church and then gathered with a group of other church folks for the refreshments. Good old chicken pie, rabbit fry, beef and all sorts of other good fixin' was on the yard tables. After the lunch a number of cars drove to Bovina to the singing at 3 o'clock. A very enjoyable day was spent by all.

Progress Club

The Progress Home Demonstration Club met in the home of Mrs. E. J. Guley on June 3.

The club elected Miss Elzada McMahan as a delegate for the state meeting.

HALF CENTURY CLUB

The Half Century Club met with Mrs. Harper as hostess and Mrs. Duke as co-hostess, and with 21 members present. Visitors were Stella Eason of California and Mrs. Sweetie Johnson. The evening was spent playing 42.

The house was called to order by the vice-president and the summer trip was discussed, and finally it was decided to go to Clovis for the Pioneer Day on the 6th of June. Everyone come and bring a dish, as

The program consisted of two talks: "Planned Course of Reading," by Mrs. John Thomson and "Reading Center for the Family," by Mrs. Fern Davis. Both of these talks were very interesting and brought out some excellent points on reading.

Mrs. Ada Murrach resigned her position as club reporter and Mrs. Frances Guley was elected.

The club has found a new way of making money. Since Mrs. Lella Mardis' birthday was the day of our meeting, we guessed at her age. By paying the difference between the guess and her correct age, we brought in the sum of \$1.26. Of course, some wanted to make her feel good and guessed her age to be 21.

The hostess gift was received by Mrs. G. T. Maltby. It brought 66 cents.

Everyone had a very enjoyable afternoon and are looking forward to the next meeting, which will be June 17 at the Progress schoolhouse with Mrs. Bertie Garrett as hostess.

We were very happy to have our two guests, Maureen Maltby and Rose Ann Lydon.

Mr. and Mrs. R. J. Craft and daughter of Brownfield were visiting friends and relatives of the Needmore Community. Mr. and Mrs. Craft are teachers in the Brownfield school.

Mr. Jim Clements was taken to the Amherst Hospital early Monday morning. Mr. Clements underwent surgery. He is improving nicely.

Miss Helen Holt, daughter of Mr. and Mrs. H. C. Holt, is home for the summer months. She has been attending college at McMurry at Abilene.

Howard Carlyle of San Angelo has been here visiting this week in the home of Mr. and Mrs. R. J. Klump and other friends.

Please call in your news or send it in. Phone 54-The Journal.

Bill Pierson, who has been attending college at McMurry is home for the summer months visiting his parents, Mr. and Mrs. F. B. Pierson.

Miss Myra Bigony of Abilene was visiting over the weekend in the home of Mr. and Mrs. F. B. Pierson. Miss Bigony is a graduate of the past term of McMurry.

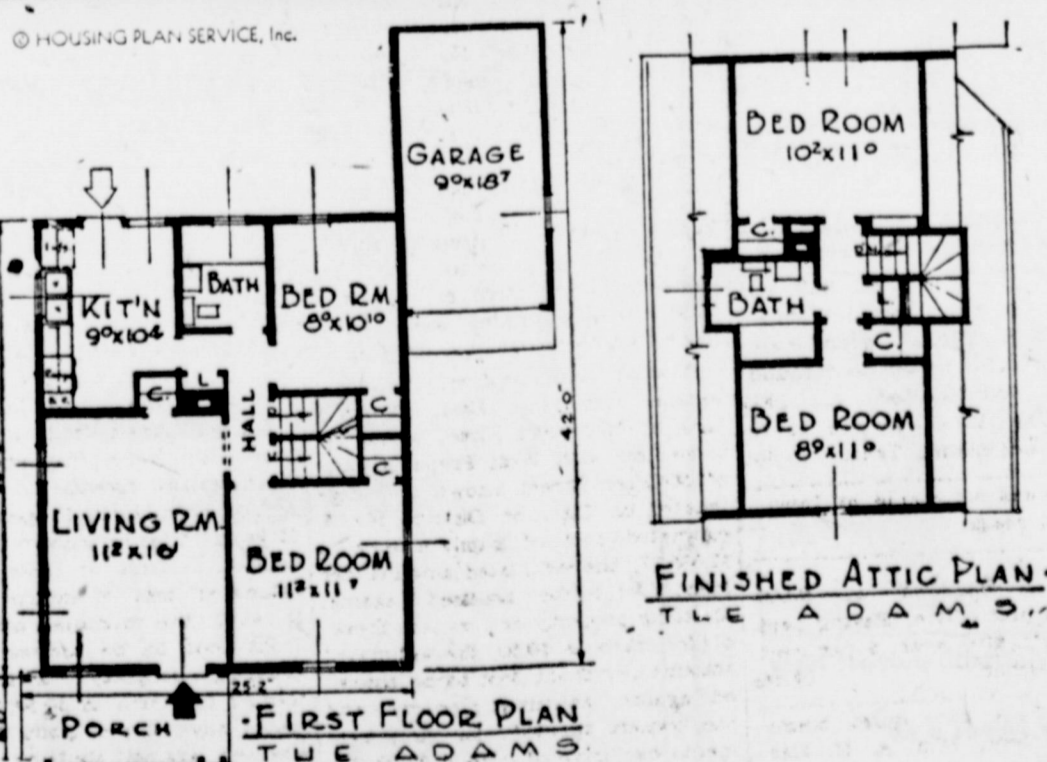

"Dressing Down" For Summer Comfort

Store away winter home furnishings with the family's coats and rubbers. It's almost summer!

Let the living room do some molting, suggests one nationally known decorator. Give the draperies a rest and show ice-blue venetian blinds at the windows. Close the slats from noon-day sun to insulate against fading glare and heat.

Try ice-blue as a cooler for the entire room, advises Alfred Loder, of W. & J. Sloan. Roll away carpets, wax the floors to an icy sheen, and use washable blue cotton rugs. Slipcover upholstered pieces in splashy-patterned chintz with ice-blue background; use crystal glassware and live flowers, and relax into the coolness of a room dressed for the season.

THE ADAMS

The Adams is derived from a proven plan used by many professional builders who are always on the alert for plans that permit low cost construction. There is no waste space. Kitchen and bath are back-to-back, holding the cost of plumbing down. The house will fit on a 50 foot lot. Excluding the garage, it is only 25' x 30', with 755 square feet on the first floor, 340 square feet of room area upstairs. It contains 19,000 cubic feet. Of course it is designed to meet FHA standards. Its electrical layout is approved by National Adequate Wiring Bureau. Complete working drawings and specifications are available to readers of this newspaper for \$7.50 per set from Housing Plan Service, 140 Nassau Street, New York 7, New York. Use the coupon.

Farm Notes

DDT-SULPHUR FOR APPHIDS

College Station—DDT and sulphur mixture can mean dollars saved to West Texas alfalfa growers this year, judging from the experience of Hale County farmers.

Hale County Agricultural Agent M. W. Ayers reports that the DDT and sulphur mixture now has the nod of approval from several far-

mers who had a severe infestation of pea aphids on alfalfa recently. Before the aphid poisoning could get underway, however, the insects had slowed down alfalfa growth to the extent that some farmers lost their entire first planting.

A local insecticide dealer cooperated with the county agent and a few farmers in running some field trials in an effort to find the best poison to use against the aphids on alfalfa. Their best results were obtained with ten percent DDT and sulphur, applied at the rate of 20 to 30 pounds per acre. Most of the poison trials were done by airplane.

The farmers who have used the treatment are well satisfied that it will pay dividends, says County Agent Ayers.

Cpl. and Mrs. James Maroney and son, Jimmy of Shreveport, Louisiana are here visiting with her parents, Mr. and Mrs. C. E. Covington. Cpl. Maroney has returned to camp at Camp Barksdale, Shreveport, Louisiana.

Baby Chick Need of Riboflavin Is Great

Curled Toe Paralysis Cause of Deficiency

Riboflavin, a crystalline yellow vitamin containing nitrogen and ribose, has proven necessary for growth of poultry. It is also important in connection with the formation of an enzyme responsible for

Chick at left is afflicted with curled toe paralysis due to riboflavin lack. Right, same chick a week later after being furnished this vitamin.—Photo, University of Missouri.

utilization of feed within the cells of the body.

Riboflavin is widely distributed in feeding materials. It is present in greatest amounts in milk products, yeast, live meal, alfalfa, cereal grasses and byproducts of the fermenting and distilling industry. Only a few grams are required per ton of mixed feeds.

Many poultry authorities have stated there is an advantage in using natural riboflavin concentrates in preference to synthetic riboflavin. The natural concentrate generally supplies other important nutrients aside from riboflavin.

When chicks are fed a ration low in riboflavin, they start squatting and develop a condition known as curled toe paralysis.

In the past the lack of riboflavin in feed ingredients has caused considerable economic loss. Baby chicks require greater quantities than older birds. Deficiency in laying flocks lowers egg production and results in inferior eggs or poor hatchability.

BURNING RUINS SOIL

When you burn straw, cornstalks and other crop residues on the field you lose valuable nitrogen and destroy organic matter vital to soil rebuilding and crop production. If the stalks of a 100-bushel corn crop go up in smoke 6,500 pounds of organic matter and 55 pounds of nitrogen

are lost. When you light a match to a mature sweet clover crop, you lose about 150 pounds of nitrogen and three to four tons of organic matter. It takes more effort to plow these materials under than it does to burn them, but an extra 10 to 20 bushels of corn per acre and a more fertile soil should be worth the extra trouble.

New Disease of Sweet Potatoes in the South

A new and distinctive disease of sweet potatoes known as "internal cork" has been the subject of intensive studies by Dr. C. J. Nuebaum, South Carolina experiment station. Sweet potatoes affected with the disease are characterized by the occurrence of dark brown, corky spots of irregular shape and size. There are indications that it may be possible to develop resistant strains. The disease is caused by a virus but little else is known about it.

Farmers' Money Not All Increased Earnings

"What farmers do now with their liquid assets and credit will determine their financial position for the next two decades. It is imperative for farmers to recognize that much of their present money in fact is not increased profits. It represents the soil fertility sold off the farm, depreciation of buildings, fences and equipment. The money farmers now have, in large part, belongs back on their land—to restore soil—to modernize—" The Land.

Trapping Is Good Way To Control Moles

In the spring the activities of the common mole appear to be more noticeable. Unlike rodents, such as rats and mice, moles live chiefly on earthworms and insects. The mole is unpopular with farmers because his tell tale ridges and mounds disfigure the fields, ruin new seedbeds and damage gardens and lawns. Trapping appears to be the most satisfactory way yet found to control the mole.

Merely Using Your Head Will Save Your Heels

Is there an easier, better way to do that job? Purdue university answers with: "Yes, there probably is. There is an easy and a hard way, a labor-saving and a labor-wasting way to do any job. Few of us are doing our farm job the easiest way. If we use our heads we can save our heels—as well as time, energy and expense. But we rarely take time to save time. We don't figure out the easiest, most effective way—we just get the job done."

HOPING SOME DAY to ride a real horse is 5-year-old Jeanie Monteith of Nugent, Texas, a patient at the Scottish Rite Hospital for Crippled Children, Dallas. Giving Jeanie a ride on a new hobby horse is Dr. Marshall T. Steel, pastor of the Highland Park Methodist Church, Dallas, who will deliver the principal address at the 10th annual memorial service on the hospital grounds June 15. Services are held each year to honor men and women of Texas who have died and left bequests in their last wills and testaments to carry on the work of the hospital. Dr. Steel's address will be broadcast over the Texas State Network at 3 p.m.

Mr. and Mrs. Arthur Crow had as guests Sunday, her uncle and aunt, Mr. and Mrs. Byron Thomas of Electra.

Mr. and Mrs. S. V. Taylor and daughters, of Plains visited Sunday in the home of Mr. and Mrs. "Buck" Taylor.

Wheat is ripening fast in the Goodland neighborhood said Baker Johnson, who was in the county seat Monday on business.

Mr. and Mrs. S. E. Goucher left Tuesday for Sulphur Springs, Tex. to visit in the home of her sister, Mrs. Clint May and from there, they will go to Frederick, Oklahoma for several days.

Jesse M. Osborn of the Muleshoe State Bank attended the annual Panhandle Bankers' Association convention held in Amarillo Tuesday. The Muleshoe Bank was closed in observance of Jefferson Davis' birthday.

LEGION POST TO MEET
A regular meeting of the Richardson Post, American Legion of Muleshoe will be held at the Legion Hall tonight at 8:00 according to announcement of Clyde Bray, adjutant.

PLUS A LIBERAL TRADE-IN ALLOWANCE FOR YOUR OLD TIRE

B. F. Goodrich announces a big reduction in the price of the famous Silvertown tire! Yes, you can now buy all popular sizes of the tire that outwears prewar tires at actually less than prewar prices! And despite higher manufacturing costs too, One of the things that makes possible this huge price reduction is the tremendous demand

for the new Silvertown—greater than for any tire B. F. Goodrich ever produced. In fact, more miles have been driven on this new tire than any other tire introduced since the war. For safe, trouble-free driving this summer—week-ends, holidays, and vacation—equip your car now with B. F. Goodrich Silvertowns at these new reduced prices.

**ARMY RECRUITER
TO BE IN MULESHOE**

T-Sgt Leon A. Reynolds, U. S. recruiting representative from Clovis, N. M. will be in Muleshoe from 9:00 a. m. to 4:30 p. m. on Wednesday, June 11. He will be located in the post office and will interview anyone interested in seeking information pertaining to the Regular Army. Special notice is extended to all seniors of the opportunities available through an enlistment in

the Army. This recruiting district are requesting the following to be enlisted for work with the Recruiting Service in West Texas and New Mexico: one automotive mechanic, one automotive serviceman, one tank mechanic. For further information about the above see us immediately.

Mrs. Homer Sanders, Jr. left Sunday to visit in the home of her parents, Mr. and Mrs. Flwchuck of Calgary, Alberta, Canada.

**Sidelights From
Washington**

By GEORGE MAHON

Previously I reported that the Republican majority in the House of Representatives would seek to reduce sharply the requests of the President for agriculture. Last week the Agricultural Appropriation Bill passed the House in a form that was very unsatisfactory to many members from farm areas. I voted against reporting the bill out of the Appropriations Committee and spoke and voted for many amendments offered to the bill.

Briefly, here is what the bill does:
1. Cuts AAA soil conservation payments from \$300,000,000 to \$164,000,000. Farmers will have every reason to feel that this is a breach of faith by the government as Congress and the President had in effect months ago promised to provide the full amount of \$300,000,000 for the 1947 crop year.

2. The bill provides that the Farmers Home Administration, successor to the FSA, must discontinue the farm ownership program known as the Farm Tenant Purchase program. FHA loan funds for crop production are cut by one-third.

3. REA funds for administration of the program were cut by \$1,600,000 and loan authorizations for REA coops were reduced by \$25,000,000.

4. Funds for the Soil Conservation Service to be used in connection with the conservation districts, and otherwise, were cut by 10 per cent.

5. Funds for the school lunch program were reduced from \$75,000,000 to \$45,000,000.

6. In previous years 30 per cent of the tariff receipts have been available for supporting farm prices and disposing of agricultural surpluses. The bill reduces this program by two-thirds.

The votes in the House of Representatives on most of the above issues were very close. On a motion by the Democrats to restore the full \$300,000,000 for soil conservation payments and some of the other items, we lost by a count of 174 to 180.

What the Senate will now do with the bill remains to be seen. Undoubtedly some changes will be made by the Senate and House before the measure goes to the Pres-

**Watch Beauty Care
During Housecleaning**

DON'T forget beauty care during housecleaning, Jean Gray advises homemakers in an article in nationally-circulated Capper's Farmer.

"Too often good natures as well as rooms are upset by taking out rugs and moving furniture," she writes. "The family will be happier in the cleaning confusion if you remain unruffled and well groomed. And feeling neat will keep your spirits high as you attack the grime!"

"Even though it may be old, your cleaning dress can be clean, neat and mended. Wear an apron or smock that can be whisked off to reveal a clean dress.

"Protect your skin from dirt by applying a powder base before starting to work. After dusty duties, wash vigorously with a turkish washcloth or complexion brush—this in addition to usual morning and evening washing.

"Benefit from the exercise of cleaning. When dusting and making beds, stretch your middle, keep it tense. This keeps muscles firm. When sweeping or running the vacuum, keep shoulders back and don't bend in the middle. Carrying your body straight and tall is slenderizing since much waist thickness is slumped. If you get tired, lie down for 15 minutes with your feet on a couple of pillows."

Chick Simmons of Bula and Miss Jerry Beene of Morton spent the day in Muleshoe Tuesday.

ident for final approval late in June. The outcome of the controversy over this legislation is of vital importance to all farm areas.

**Soil May Build or
Weaken Our Bodies**

Value of Food Depends
On Mineral Fertility

"We are what we eat" and "what we eat depends on the soil that produces it," declares Dr. William A. Albrecht, University of Missouri.

"Human health troubles often come from poor nutrition which weakens the body. With its defenses down the body is less able to resist the attacks of bacteria and other forces."

"Foods from some soils provide only fuel for energy, other soils support crops that carry something 'extra'—body building materials. Where rainfall is high and where virgin forests once covered the land, plants are barely able to put together any more than fuel foods for themselves and animals. Properly managed with lime, fertilizers and legumes, these soils can be built to put into crops these body building values.

"On the more fertile soils of the hard wheat belt, the former buffalo

prairies, where the rainfall is less, plants are able to synthesize much more than just fuel. Because of the mineral fertility left in the soil foods grown here contain body building, bone making values.

"Neglecting to put fertility such as barnyard manure, green manures, lime, and other fertilizers back into soils to balance crop removal pushes crops on these soils toward 'fuel only' crops. These 'fuel only' crops mean poorer growth and lower health values. The declining fertility of our soils is a decline in the health of our soils, of our plants and of ourselves."

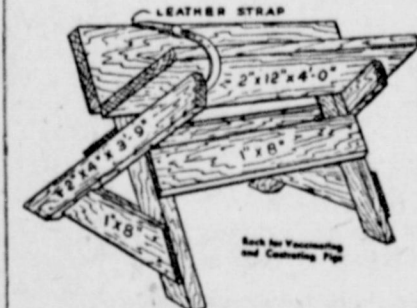

**Insoluble Grit Aids
Chicken's Digestion**

Some insoluble grit, usually granite or river gravel, will be eaten by hens if it is available. It assists the gizzard in grinding grains and coarse feeds that might cause impaction of the digestive tract. Fine ground feed can be digested satisfactorily without grit being available. Oyster shell and limestone rock particles sometimes are used as grit but the digestive juices break these down rapidly and thus make an excess of calcium available. Grit commonly is kept before hens at all times, although some producers prefer to feed it at intervals of 10 days to two weeks.

**Rid Worms in Sheep
With Phenothiazine**

To control stomach and other roundworms of sheep, treat each animal individually with phenothiazine just ahead of the pasture season and keep phenothiazine-salt mixture in a covered trough before sheep on pasture.

Put a fence of corrugated paper (about 12 inches high) around the

chick brooder to keep chicks from straying away and getting chilled. Move it back a little each day or so to give more room. Use it until chicks start jumping over.

To save time and hard work castrating and vaccinating pigs, make a rack like the one shown. Put the pig on its back in the V-shaped trough and, if you have no helper, use a strap to hold it.

Dipping sheep should wait until after shearing cuts have healed.

**Erosion Danger Present
In Nearly Every Month**

The erosion hazard not only is with us always, but also it comes at any season, almost every month of the year. It is so serious that soil losses of 10 tons or more to the acre in a single month are not at all uncommon. Highest soil loss experienced for a single month in Mississippi was 62,376 pounds per acre. The loss must be combatted by terracing, ground cover and conservation.

BAKE SALE SATURDAY

The Women's Society of Christian Service of Lazbuddy will sell home baked pies and cakes in front of the Muleshoe Food Market Saturday, June 7. Proceeds of the sale will greatly be appreciated by members of this society, since this is the first step taken by them to promote the work of the organization.

The President

TO OVERSEAS SERVICE

Pvt. Bobby G. Peace, son of Mrs. Grace Lee Peace, has completed his basic Army training and is being assigned to occupation troops overseas, according to word from the Replacement Training Center, Fort Lewis, Wash.

TRAINING PROGRAM HELD

Southwestern Public Service company conducted an employee's training program at LaVista in Clovis on Monday, Tuesday and Wednesday nights. Attending from the Muleshoe office were Roy Holland, Herbert Potter, Dick Blackshear, Miss Jimmie Mae Wollard and Mrs. Jean Jenkins.

Mrs. Lillian A. Sellars returned Sunday after a visit with her parents Mr. and Mrs. T. H. Adair at San Saba. Her son, Melton stayed for an extended visit with his grandparents.

Mr. and Mrs. Joe Damron, Jayne and Sam and their guest for the weekend Miss Elaine Jordan, spent the weekend in Ruidoso, N. M.

LETTERS TO THE EDITOR

Blair, Nebraska
May 26, 1947
Dear Mr. Forbes:
This is just a reminder that the Grandy family will arrive in Muleshoe, bag and baggage, about the fifth of June.
Here's hoping you can help us find temporary quarters to live in while we build.
Yours Sincerely,
Jewel Grandy.

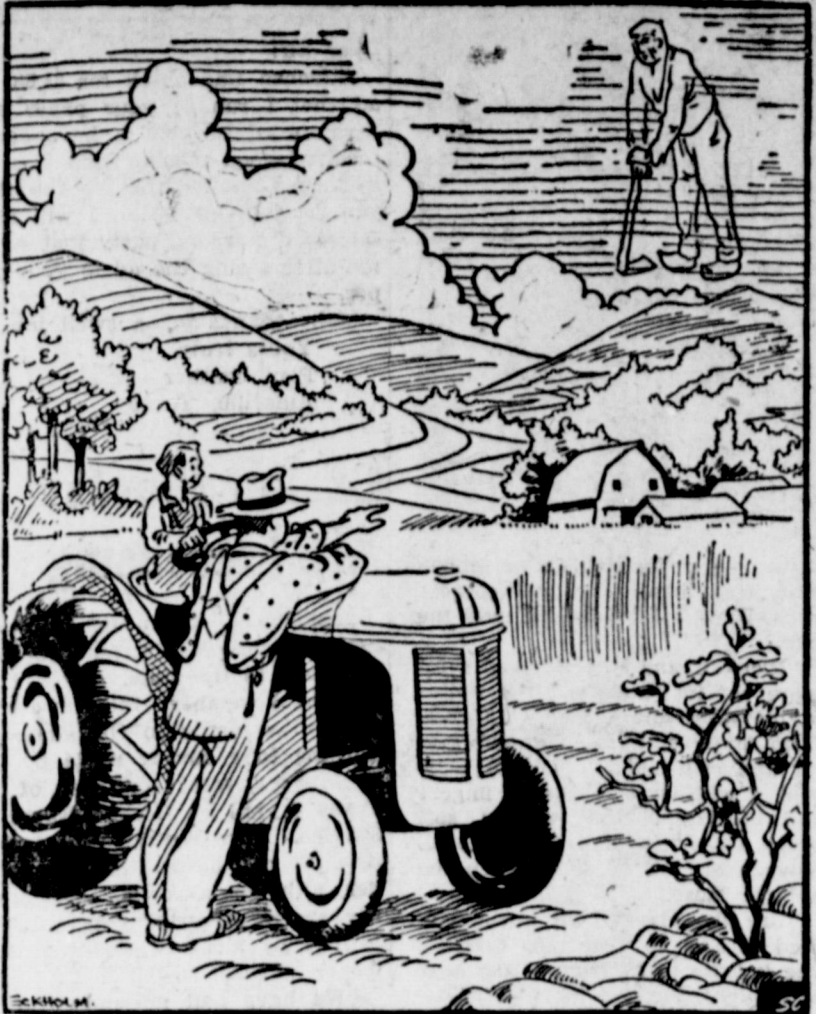

Mr. and Mrs. B. L. Pearson and daughter, Gloria, were in Lubbock Saturday on business.

"The Man With The Hoe" Is The Hope Of The World

"Son, these fields and forests my father gave me to care for and protect. Some day they will be yours. For those to come we must leave it all better than we found it."
This growing feeling of responsibility for the conservation of natural resources is being taught not only in schools and by the press, but by the churches as well. It is, for example, a springtime emphasis of the Year of Stewardship cultivation of the Methodist Crusade for Christ.

DAIRY CHECK-UP

College Station—Five check points that are important to Texas dairy farmers right now are listed by the Extension dairy husbandmen of Texas A. and M. College.

The dairy husbandmen believe a check-up on the following items will help boost production:

1. Water supply—cows need more water this time of year. They will drink more if the water is clean, cool and conveniently located.
2. Sour milk—always a problem in the late spring and summer months. Souring can be stopped by producing clean milk and cooling it to 55 degrees Fahrenheit within two hours after milking.
3. Horn flies—pests that occupy a cow's time when she should be producing milk. Horn flies can be controlled by spraying back, sides, legs and bellies with one pound of 50 per cent wettable DDT powder in 25 gallons of water.
4. Good, green grass—a cheap feed that always brings a rise in milk production and cuts out many health problems. Dairywomen can make green feed last longer by

mowing weeds and alternating grazing.

5. Kind treatment—a necessity in management of dairy cows, now and throughout the year. Rough treatment and high production seldom go together on a dairy farm.

Trouble, always trouble. Maybe next time you'll try Phillips 66 Motor Oil

PROVED BY 66 BILLION MILES OF SATISFACTORY SERVICE

E. W. Evans Oil Company
— JOBBER —

Polio Control Measures Listed By Health Officer

If you want to help prevent a tough situation that's going to come up in regard to the distribution of sugar in this country, use your No. 11 sugar stamp right away.

Mrs. Laurette A. Williamson, county home demonstration agent of Bailey County, says that USDA is urging all home-makers to buy

sugar now. The total available supply of sugar is no more than was expected—about 6,800,000 tons for the entire country—but the distribution problem is something else again. The large wheat crop that's coming up is expected to make a really tough transportation problem, and in another month or so, there won't be enough box cars to carry wheat and sugar both.

Due to this situation, your No. 12 sugar stamp is going to be made good in advance. You'll be able to buy sugar on Stamp 12 on June 1 rather than July 1 as originally

planned. Now both these stamps, 11 and 12 will be good until October 31 and if you plan doing any canning, save sugar from these stamps. No special canning/sugar stamps are going to be issued. The way it looks now, many home-makers are postponing the use of their stamps. This is likely to create an unhealthy situation, make a temporary surplus in the hands of distributors. With the big wheat crop ahead, and if we all wait until the last minute to cash our sugar stamps, we're likely to find local sugar shortages.

HI FOLKS

We have a few articles that we would like best in the world to get rid of, for instance we have some rebuilt motor block assemblies, one Mercury, new sleeves; standard pistons; two 1936 Chevrolets, one 1937-9 Chevrolet, All of these blocks carry a 90 day guarantee and worth the money. See us for an exchange trade. You should hear this big F.M. controlled Bendix Radio's beautiful tones, it has everything that can be put into a radio (I guess.) We have a few combine belts and we are trying to carry a complete line of Refrigerator belts as well as motor belts. We got a few things more but I can't think of them right now.

BEAVERS MOTOR SUPPLY

Good Laundering Keeps Bedding Fresh and Fragrant

NOTHING makes sleep more enjoyable than clean sheets and pillow cases, fluffy clean blankets and fragrant bed spreads. Georgia Lettingwell points out in nationally-circulated Capper's Farmer.

Listing home laundering methods that will insure fresh and fragrant bedding, she writes:

"Manufacturer's instructions give washing machine's capacity. Be sure there's plenty of suds when washing a quilt, blanket or spread. Four to six sheets are a normal load, but a mixture of sheets and pillow cases gives better circulation and cleaner bedding."

Sheets and pillow cases, she adds, should be washed in water about 130 degrees F., with a rich, two inch suds. Let wash from 5 to 15 minutes, depending on how soiled the bedding is. Then give them a clear rinse and follow with a cool rinse.

Flinging on the clothesline from the corners or edges is an invitation

to tearing, so fold sheets or pillow-cases from hem to hem with corners even. Hang a third to half over the line.

"Blankets and spreads need a bit more careful handling," she writes in the magazine read by 1,300,000 farm families. "Use lukewarm water and rich suds. Spots may be rubbed with two well-soaped fingers and blanket binding with a soft brush. Give them three rinses to remove every bit of soap. Keep the wringer loose.

"Dry the blankets or rayon colored spreads in the shade or on a line indoors away from direct heat or sunlight. Reverse them occasionally as they stop dripping to prevent sagging. Blot moisture with a towel as it collects. When dry, brush both sides of blanket with clean brush to bring up nap. Press the binding with warm iron."

Marshall Morris, son of Mr. and Mrs. Arnold Morris, returned home today from College Station, where he has been a student at A. and M.

"That boy has more sense than I thought! He's given her a RING from

STRETCHABLE COTTON

Snug-fitting cotton slipcover made of a new stretchable cotton fabric is examined by Tuley Wright of New York. The National Cotton Council reports that the fabric—made without use of rubber—can be stretched out of shape, but always snaps back into place when released. It's also being used for sportclothes and other garments.

Judge and Mrs. Cecil H. Tate and sons were in Clovis on business Wednesday.

Tye Young visited this week with his parents and other relatives at Arlington.

Mr. and Mrs. Neil Rockey left Tuesday to attend a Ford meeting at Dallas. They will be gone several days.

EASY HOURS

Many an easy hour will lovely Evelyn Ankers of Universal Pictures spend in her new fashion-right cotton sweater frock. The sweater, printed in navy and white stripes, has a full button front.

Letters To The Editor

Dear Sir:

Attached find check for \$1.68 for ad that I ran in your paper and wish to advise that I have really received good results from this ad. In fact, I assume that by the time you receive this letter, I will have sold to the second party that wrote me after seeing the ad in your paper.

Many thanks for a swell job.

Yours truly,
Paul Gaither
Amarillo, Texas

Locker Plants Are Increasing

Texans are now using the facilities of almost 500 frozen food locker plants in the state.

As of November, 1946, there were 403 locker plants in the state, according to a survey made by Roy W. Snyder, meat specialist of the Texas A. and M. College Extension Service. More recent figures show over 500 plants operating, says Snyder, although a few of that number are meat-curing concerns that cannot be classed as actual food locker plants.

"We have had an enormous increase of locker plants here in Texas," Snyder says. One or more plants in operation in 210 of the state's 254 counties. The only sections of the state in which the plants have not spread rapidly are in extreme West Texas—the Big Bend country—and East Texas. The answer to the West condition, says the meat specialist, is large ranches and scattered population. He believes that East Texas counties are just "a bit slow in starting," but that the plants will spread over that portion of the state in time.

Some families look upon a locker plant as a luxury rather than a good investment, says Snyder, but a fool ocker can be another contribution toward the family's balanced home food supply.

Clyde Bray and W. C. Cunningham were in Lamesa on business today.

Map Hunt for Oldest Chevrolet Truck

A search by the Chevrolet Motor Division and Chevrolet dealers to locate the oldest Chevrolet truck still in active service in the United States started May 10 and concludes June 15, with the owner of the oldest vehicle receiving a new truck from the Advance-Design line of trucks which Chevrolet will soon put on the market. Photo shows J. W. Burke (right), manager, commercial and truck department, and T. C. Mallon, assistant manager, examining posters used by Chevrolet dealers in the search. Trucks must be driven to Chevrolet dealerships for official registration.

CARD OF THANKS

I wish to express my appreciation and thanks to those furnishing tractors, and to the many taking time off from their own farms and work to plant my farm for me.

ORANGE HONEY MUFFINS
Upside-down orange muffins with a mixture much like marmalade on the down-side which is up.

2 c. sifted Gold Medal "Kitchen - tested" enriched Flour

1-4 c. sugar

4 tsp. double-action baking powder

2 eggs, well beaten

1 c. milk

Mix together well beaten eggs and milk.

Stir in dry ingredients. Add 1-4 c. shortening, melted.

Place in bottom of each well greased medium-sized muffin cup, 1 tsp. honey, then a thin slice of unpeeled orange cut in sections.

Spoon batter on top of orange slice filling each cup about 2-3 full. Bake 20 to 25 minutes in moderately hot oven (400 degrees). To save sugar use 1-4 cup corn syrup or honey.
