

50 Miles New Roads In County Completed

Mr. Muleshoe

The reason old J. K. Adams, the county farm agent, is grinning like the well known Cheshire cat is that a Bailey County hog has been named Junior Grand Champion at the State Fair of Texas.

This accolade went to a fat barrow shown by Jack Heald. Of course Jack and all the rest of the Heald family are grinning, too.

It is a great honor to come to this county, and it certainly proves to all and sundry that the work of Adams and our vocational agriculture people, too, has been done along the right lines. We have fine animals in Bailey County, of this there is no longer any doubt. A lot of fine work has been done by the boys and their young leaders and instructors in the short time since the closing of hostilities permitted intensive work to be undertaken.

Jack not only had the junior grand champion at Dallas; he won first in one class for Poland China barrows and third in another, while he won second prize for his litter of six or more market hogs all from the same litter.

Another Muleshoe boy, David Stovall, placed second with his Poland China barrow.

Note to Messrs. Cox & Wagon:

On the same day that you claim to have fished in Elephant Butte Lake without getting a nibble, old Albert Perkins reports having obtained his bag limit of bass in the same vicinity! How come this, men, how come? Albert says he fished in Caballo River. Whereabouts did you all fish at?

Seen & Heard:

Lady Coffee Drinker: That Morris Douglass ought to dress like a woman all the time.

Unidentified Gentleman: That Rufus Gilbreath took off nearly everything.

Another Gentleman: I thought Spence Beavers and Coach Beam just too cute for words.

You understand, they were talking about the Parade of Fashions, which shows again tonight. Now, you wouldn't want to miss it, would you?

Tower Of Strength For Jackets

Bill Garrett, right guard of the Muleshoe Yellow Jackets is pictured here as he looks when charging that opposing line. Garrett is one of the best men on defense in the district, a sure tackler and a tower of strength to the Jackets. Watch him in the game with the Littlefield Friday night here.

This photo of Garrett was taken by Pierce's Studio and is sponsored in The Journal by Western Drug Co., of which N. H. Greer is proprietor. Watch for more of these action pictures of the Jackets in the next few weeks.

City Cleaners Sold To Alsop

Charles Alsop has bought the City Cleaners from Howard and Melzine Elliott, taking charge Monday of this week. Mr. Alsop has been employed in the plant since returning from service in the Army.

He announced he will strive to continue the good service and quality cleaning that the public has come to expect from the Elliotts during the seven years they have operated the plant.

The business is located in the Elliott building, across the street from the bank.

Mr. Alsop is practically a native of Muleshoe. He is a son of Mr. and Mrs. J. L. Alsop and the family has lived here many years.

Mr. Elliott said he will rest a week before assuming his new duties with the Blackwater Valley Soil Conservation District where he said he will have a temporary appointment for the next two months.

Mrs. Elliott is looking forward to the privilege of devoting more time to the home and with their two little daughters.

Analysis Of Bonded Indebtedness To Be Made For District

R. A. Underwood & Company, of Amarillo, were employed by the Muleshoe school board at a recent meeting to make an analysis of present outstanding bonds of indebtedness of the Muleshoe independent school district.

This firm will work out a schedule of payments on assumption of all outstanding bonds in the newly consolidated district, and make recommendations regarding an election to authorize bonds to finance the new high school building.

Lee R. Pool and Richard Moore of Pool Insurance Agency were in Ft. Sumner, N. M., Wednesday on business.

Ogden Cox of San Diego, Calif., came in Tuesday for a visit with Mr. and Mrs. Neil Rockey. He is a nephew of Mr. Rockey.

The Journal hopes that someone who was present for this great occasion will bring in a complete list of these good neighbors and what each did. Such a thing is more remarkable when one remembers that every farmer in this section is extremely busy with his own crops.

Muleshoe On Air With Hookup Of Station KVOW

A radio broadcast is originating from Muleshoe for the first time in history. Howard Cox this week began broadcasting at 3:30 p.m. through a hookup with KVOW, new Littlefield radio station.

Mr. Cox announced that the broadcast which is direct from the store of the Cox Radio & Electric, will be heard at 3:30 on Monday, Wednesday and Friday of each week.

He invites the public to visit in the studio during the broadcast.

The public is invited to send in their requests for their favorite musical selections.

School Buses Of County Inspected

School buses of Bailey County were inspected here Tuesday afternoon by state officials, under stringent new rules which have safety of school children as their prime purpose.

Supt. W. C. Cunningham said some of the Muleshoe buses passed the rigid inspection but that more of them failed to pass it. Muleshoe's buses will all be brought up to standard in the next few days, he said.

The regulations are believed by schoolmen to be in the interest of better safety conditions, he said, and are therefore supported by them.

The accident occurred on the Plainview highway 6 miles east of Muleshoe. The Haynes car was attempting to pass a pick-up and the car got out of control, turning over three times. Mr. Haynes was a vegetable buyer, and had been buying vegetables around Muleshoe.

The couple, married only eight months, had been provided a room in the home of Mr. and Mrs. Ray Griffiths.

The body was taken overland in a Steed Funeral car for burial at Athens, Texas. Funeral services were conducted there at 2 p.m. Wednesday.

"More laughter was heard in the high school auditorium last night than was ever heard there before." This was the comment of one who attended the first night of the Lions Club's Parade of Fashions, scheduled to be presented again tonight.

There was just about a full house for the first performance and the show will be a financial success. Bill Moore, who announced, said there will be an "added attraction" tonight, so those who went the first night will surely miss something if they fail to go tonight. Mrs. Dorris Landers Hess, director, was out today getting up these added attractions.

Marty Ezell carried off top honors, winning first prize for his costume by applause of the audience. The three judges voted for three performers, Ezell, Morris Douglass, and Judge Cecil Tate. The audience decided in favor of Ezell. The high school band furnished entertainment. Mrs. Hess introduced the ladies.

Performers and their costumes are listed below:

- Jack Beddingfield, tailored grey polka dot dress and black hat.
- Morris Douglass, swing back coat.
- Charles Lenau, street dress.

- L. S. Barron, print dress.
- H. A. Owens, hula costume.
- Hoyt Morgan, bride's dress.
- Fred Johnson, sport costume.
- Homer Sanders, Jr., chartreuse green dress.

A big parade that included a large part of the school pupils and led by the Muleshoe high school band, was held at 3:30 Wednesday and Thursday.

Director of the band H. A. Owens was attired as a hula girl and gave a fine demonstration. He was accompanied by Tye Young, dressed as a lady.

Children followed the band on foot and in the Muleshoe school buses. A large crowd was attracted by the parade each day.

A Report From Greece

By GEORGE MAHON

This is about Greece, written from London while I am awaiting a ship for New York. Our Committee on Foreign Aid has recently returned from a week in Greece.

Before going there, I had rather expected to see people dying in the streets from starvation and want. I believe Greece is in worse shape than any nation in Europe, but the aid program of the U. S. and the efforts of the people are preventing the complete collapse of the country. The Greeks made a heroic effort during the war to hold the enemy and give aid to the Allies and since VE Day vast sums of money of many nations have been spent there to arrest the ravages

of disease and starvation. At present our nation is in the midst of the 300 million dollar aid program to Greece which is being administered by former Governor Griswold of Nebraska. The object of the program is to help stabilize the country and prevent the further extension of the Russian Iron Curtain.

It is no secret that the principal object of American foreign policy in Europe is to assist democratic peoples and prevent the extension of Communist terrorization and domination to the Atlantic Ocean, enveloping all Europe. If the Iron Curtain of Russian Communism comes to the Atlantic, billions of additional American dollars will have

to be spent on our national defense program and American security will be in jeopardy. For right or wrong that is the prevailing viewpoint of our Government. No one knows for certain just what may develop; history will record whether our policy is right or wrong. We are taking a chance and if we lose, our efforts and our money may go for naught. Greece has about the same population as Texas, but it is only one-fifth the size of our state. And what is more important, most of the country consists of a series of rugged mountain ranges and the land available for agriculture is very limited. Moreover the people depend principally on agriculture for a living as there is practically no industry. The annual rainfall is about the same as in West Texas.

We first went to Athens and then to Macedonia in northern Greece where much of the guerrilla warfare is being carried on. In company with Greek soldiers and officials, we went as far north as the Bulgarian and Yugoslav borders. In this part of Greece I saw scores of farms which would normally be planted to wheat lying idle because the people had fled from their farms and villages as a result of the terrorization program of the so-called bandits and guerrillas. It is estimated that 250,000 have fled from their homes because of the guerrilla menace, and they are living in the cities under unspeakable conditions. There are about 16,000 of these bandits in widely separated areas who hide out in the mountains and conduct sporadic raids on the villages.

Some of the bandits are accepting the offer of the Greek Government to surrender on a promise of no punishment. I talked to a number of these surrendered bandits in different localities. Most of them are quite young. Their stories and everything I heard in Greece confirmed the charge that the bandits are being inspired and supported by the Communists across the Greek borders to the north.

The primary need in Greece is employment and freedom from the reign of terror of the bandits. Governor Griswold and his staff are actively pressing for action in the American aid program but their job is difficult and success is not assured. The Greek Government has been reorganized under Prime Minister Sophoulis, age 86, but the Government is still weak and the Greek army at present is doing a poor

job of suppressing the bandits and restoring order. I found no one who thought American troops should take over this task. Such a policy in my opinion is not only unnecessary but would be a tragic mistake otherwise.

The top men in the agriculture program of the American Mission in Greece are E. N. Holmgren and B. F. Vance, both of whom were former administrators in the AAA program in Texas. Perhaps they were selected because Greek agriculture is similar in some respects to our own. I visited many dry-land farms and many farms where underground water is pumped for irrigation. The average farm is 7 acres in size. The irrigation program seems to offer the quickest way to increase production.

The Greek cotton crop will not be adequate to meet the needs of the country. Greece normally raises about 60,000 bales of cotton. There is a surplus of olive oil and tobacco for export but the Greek currency is on such a weak footing that the export program is far from satisfactory. There is little confidence in the value of the currency.

The war devastation in Greece was

terrible and many of the highways and railroads are impassable, and the great ports for Athens and Salonika are not yet in operation. It takes time to repair the ravages of war.

Of one thing I am sure, the rank and file of the people in Greece do not want Communism and they will not willingly accept it. They are close into the Communist states of Bulgaria, Yugoslavia and Russia and the rank and file want no part of it. But Communism operates through terrorist methods and when a police state is established freedom is lost. That is the principal reason why Communism is such a threat throughout the world.

I have been forcefully struck during our study in Europe with this fact. You do not learn too much about a country at the Embassy or at the seat of the Government. You learn more by visiting the people in the streets and in the workshops—by visiting them in their homes, on their farms and in their villages.

If you start a conversation in a village the whole neighborhood gathers about you. The people seem anxious to express their opinions and I found the people in Greece

were well informed and greatly interested in current problems. They are well aware of American aid and they are grateful for it. That is not true throughout Europe.

One who has not been in Greece cannot realize the abject poverty of the Greek people. The most they could hope for is a chance to earn a meager existence and live in peace.

Our nation is seeking to follow a policy of enlightened self interest in Greece. It is a gamble of our powerful country in the interest of world stability and peace. In six months we should know whether the chances of success are good.

In addition to conferences with members of the American Mission in Greece, we met at length with Prime Minister Sophoulis and various other Greek officials. We made no promises in behalf of Congress or the American people. We sought to get facts which would be of assistance to Congress when further action is taken in Washington.

District Judge C. D. Russell, District Attorney H. M. LaFont, and Court Reporter Jim Norman, all of Plainview were in Muleshoe on business for a brief time Monday. They had been in district court for Parmer County at Farwell.

A wife owes her husband the responsibility of maintaining a home, even when she is taken out of life's picture.

First Lady

YES, SIR, in Mother's language she's the "first lady." And Mother had her in mind, as well as Dad, that day she took out a Southwestern Life Insurance policy on her own life. Mother calls it "Wife Insurance;" it's her plan to make sure that Dad won't be head-over-heels in debt, if she should be taken away.

You see, she knows about wives who suffered lingering illnesses, and incurred big medical, and hospital, and other bills, and then were taken away. She knows what a struggle the husbands had trying to hold the family together and carry on, because they had no ready cash to pay those bills. She knows about them having to go in debt, and how many, many months it took some of them to get "back on their feet" financially. And since Mother wants Dad to be able to carry on, and to give her little "first lady" all the things they've planned together to give her, Mother has a Southwestern Life Insurance policy on her own life that will give Dad the cash he'd need in such an emergency.

How about your wife? Would you have the ready cash to pay the doctor, the hospital, the druggist—to settle all the bills you'd have to settle, if she were called away? Or would you have to "go in debt?" With Southwestern "Wife Insurance," you can avoid the long, tedious, financial set-back that such misfortune brings. You can have the ready cash when you'll need it most. Now, while she is in good health, is the time to put your wife's plan in effect. Let's talk it over.

Davis-Tabor Vows Spoken At Midland

Mrs. James Tabor was the former Eileen Davis, daughter of Mr. and Mrs. J. H. Davis of Enochs, before her marriage to James Tabor, son of Mr. and Mrs. T. T. Tabor of Midland, October 2, in the Calvary Baptist Church with her brother, J. V. Davis, minister of the South Side Church of Christ performing the double ring, candlelight ceremony.

Rites were solemnized before an altar decorated with gladiolus arrangements. The bride wore a street length white crepe dress, fashioned with long, tight sleeves and a fingertip veil. She carried a bridal bouquet of red roses, centered with a red rosebud corsage.

The bride was attended by Betty Howard of Texon, Texas, who

wore a gray street length dress with an orchid corsage.

Kenneth Davis, brother of the bride, was best man. Candles were lighted by Lillian Davis, daughter of the officiating minister.

Pre-nuptial music was presented by Elaine Isabel of Texon. Immediately following the ceremony, a reception was held in the home of the bridegroom's sister, Mrs. Roy Hall, 507 North Main St. A two tiered wedding cake and punch were served by the bridal party to more than 150 guests.

Following a wedding trip to Big Spring and San Angelo, the couple will live in Midland.

Wesleyan Service Guild Met Monday

Wesleyan Service Guild met in the home of Mrs. Jim Burkhead,

with Mrs. Francis Gilbreath as co-hostess, Monday evening, October 13.

Mrs. Marty Ezell had charge of the study "The Christian Motive and Methods in Stewardship". Those not attending this study are certainly missing something worthwhile.

Mrs. G. O. Jennings, president, had charge of the business.

The next regular Guild meeting October 27, will be a joint program with WSCS. The Week of Prayer will be observed with an interesting and fitting program. Mesdames Buford Butts and David Anderson will meet with the program committee of the WSCS to make these plans.

Names for Guild sisters were drawn for October, November and December.

A nice selection of toys were displayed at the meeting. Each member brought a toy suitable to be used in

the childrens department.

There will be a district meeting in Amarillo Oct. 18 and 19 for the Wesleyan Service Guild. Several of the members are planning to go if it is possible.

Refreshments were served to one visitor, Mrs. Robert King and the following members: Mesdames Curtis Spivey, T. G. Craft, W.B. % INCREASES of Retail Prices over Base Period 1935-1939

Source: U.S. Bureau of Labor Statistics
 A Chart Survey Prepared by National Dairy Council, Chicago, October 1947

Figures released October 1 by the U. S. Bureau of Labor Statistics show graphically why it is increasingly difficult for the housewife to stretch her food dollars so she can give her family three meals a day that are nutritionally sound. The National Dairy Council points out that milk prices have been relatively steady over the nation, and have increased 37.0 per cent LESS than the average for all foods since 1939 and 23.2 per cent LESS than the average since the first of this year. Hence milk, in addition to being nature's most nearly perfect food, actually leads the food field as the housewife's most economical buy.

HERE IS A 4-UNIT DIESEL FREIGHT LOCOMOTIVE NOW OPERATED BY 2 MEN (1 ENGINEER AND 1 FIREMAN)

2 BRAKEMEN AND 1 CONDUCTOR COMPLETE THE CREW OF THIS TRAIN [One brakeman usually rides in the locomotive in freight service]

—BUT THE UNION LEADERS WANT 15 EXTRA "SITTERS" ON THIS TRAIN ... 3 ENGINEERS, 3 FIREMEN, 6 BRAKEMEN AND 3 CONDUCTORS ... TO GO ALONG FOR THE RIDE AT FULL PAY!

It's to your interest to know about this proposed feather-bedding!

For sheer feather-bedding, this mock work proposal takes the cake. But it is only one of 44 "rules" demands filed by the leaders of the operating unions. If all these demands were granted, they would cost the railroads an added BILLION DOLLARS A YEAR.

Increased Wages, Too

On top of these "rules" changes, the leaders of the operating unions have filed an additional demand for a wage increase of over 30 per cent. If granted, this would be an added cost to the railroads of \$400,000,000 a year.

\$468,000,000 To Non-Operating Employees

In addition to this, an Arbitration Board has just granted a wage increase of 15½ cents an hour to the million employees represented by the 17 non-operating unions. This will cost the railroads \$468,000,000 a year.

Where Will The Money Come From?

Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate

increase. No other course is open.

Railroads Do Not Run For Employees Alone

Railroads are operated for the benefit of not one, but several groups—shippers, passengers, employees, stockholders, and the general public. The interest of all must be served—and that cannot be done unless the railroads can operate efficiently and economically, and unless they are allowed to earn sufficient revenue to provide the kind of transportation service this country MUST HAVE.

Jackets Advance Standing By Win Over Springlake

Muleshoe's Yellow Jackets advanced in the conference standing with their win over Springlake's football team last Friday night, 19 to 6.

The teams were tied at the half, 6 and 6, but it was strictly a Muleshoe affair in the scoring in the second half. The Jackets came back in the second half with plenty of steam and ran over two touchdowns while holding their opponents scoreless.

Muleshoe started the scoring in the first period when Weldon McCarty scampereed from around the Springlake 40 to score. The try for extra point failed.

In the second quarter Springlake unleashed an aerial attack which paid off. A long pass, Sam Borden to Cletis Clayton, carried about 50 yards for the touchdown. The try for extra point was no good and the score was knotted.

Muleshoe added a touchdown in the third and one in the fourth period. A Springlake fumble gave the Jackets the ball on the Springlake 10 and on the fourth play McCarty lugged the ball over for the T. D. Don Barnett booted the extra point.

Billy Don Barbour passed from the 10 to Barnett over the goal for the Jackets' final marker. The kick for extra point failed.

Springlake has a very nice playing field, with heavy bermuda sod. The field is fenced on both sides. A large number of Muleshoe and Bailey county people watched the game.
