sent in by Mrs. Marietta Fuller of Jeffersonville, Indiana THE GREATEST BATTLE

EVER FOUGHT! Our country has been involved in two world wars; all around us have been "wars and rumours of wars" (Matt. 24:6); and most of us have probably heard of the Battle of Armageddon in the closing age of judgement on lost sinners who have rejected Christ. ALL nations will come up against Israel with 200 million fighters and it will be the greatest blood bath ever, with blood coming up to the horse bridles (Rev. 14:20) for 200 miles covering the entire land of Israel. In Rev. 19:13-15, the Word of God (Jesus) riding on a white horse followed by armies from heaven will smite the nations with a sharp sword out of His mouth.

However, the greatest battle ever fought will not be against flesh but against 'spiritual wickedness in high places" (Eph. 6:12); and so we are commanded to put on the full Armour of God, and seven (God's number of completeness) weapons are listed in Eph. 6:10-18. The head is a vital organ; so our first weapon is that of the HELMET OF SALVATION. We are saved from destruction, death, and hell by believing in Jesus Christ. (Acts 16:32). The devil hates the blood, and we can effectively use it as we praise and thank the Lord for His blood shed on the cross which has redeemed us (for God inhabits the praises of His people-Ps. 22:3); also, we can oust the devil by praying in the Name of Jesus and through His blood. Knowing that faith comes from hearing or reading the words of the Bible (Rom. 10:7), the devil keeps people too busy, too tired and not interested in learning of spiritual things of the Bible or going to church. But when we receive our Saviour into our hearts (Jn. 1:12), we become a part of God's family and inherit everlasting

life. Nevertheless, salvation does not stop the devil, who is like a lion (I Ptr. 5:8) on the prowl to kill and steal God's blessings and an abun-

The following article was 5:16, 25), we can take the "Good News" about Jesus to others. The GIRDLE is a necessity for it is Jesus who holds all our weapons of warfare in place; so we must get rid of self will and learn His will; cast off pride and take on humility knowing that without Jesus we can do nothing (Jn. 15:5); realize that self-sufficiency limits our work for Him for "...our sufficiency is of God." (II Cor. 3:5).

Therefore, we must take on the full Armour of God and stand so that we might be able to say as Paul did, "I have fought a good fight, I have finished my course, I have kept the faith," (II Tim. 4:7). Christians, you might want to share this article with others by getting extra copies of the newspaper, or copying it, or reading it to them.

dant life on earth. (Jn. 10:10). By keeping believers in sin, the devil steals rewards so that many people will stand naked and ashamed at the Bema Judgement Seat of Christ for rewards. the However.

BREASTPLATE OF **RIGHTEOUSNESS**, another vital area, protects us as we ASK for the cleansing of our sins (1 Jn. 1:9-10) and for His indwelling Spirit (Eph. 5:18); because we are then in right standing with God, having put on the righteousness of Christ.

Jesus gave examples in Chapter 4 of Matthew on how to fight the devil with the Word; and so we add the SWORD to our weapons. As we resist the devil with the Word of God (a lamp unto our feet), he will flee (Jas. 4:7) just as a roach scurries back to his darkened crevice when the light is turned on. Now, if you are not well acquainted with the Bible, let me give you some fast tips. Read about the 7 sins God hates in Prov. 6:16-23, look each up in the concordance, read about them and thus be prepared, for the devil is sure to attack on these. Then "...try the spirits whether they are of God." (I. Jn. 4:1). Use the words of the Bible, "God is love," (I Jn. 4:8) or "God is peace." (I Cor. 14:33).

If your thoughts, the words of your mouth, or your deeds are not loving or peaceful, the devil is within. Get sin out and Christ in and keep Him greater within you (I Jn. 4:4). My final suggestion is to get daily manna from the Bible in any way you can--radio, T.V., cassettes, church, etc. and start reading the New Testament first, for it will give you greater and immediate spiritual bread.

As the devil tries to destroy our trust in God's Word, we can take the SHIELD OF FAITH and we can PRAY without ceasing (I Thess. 5:17) by talking to God all throughout the day and night. When our FEET ARE SHOD WITH THE PREPARATION OF THE **GOSPEL OF PEACE (Gal.**

tle signifying the start of a new season, let me give you my scouting report on the 1982 Cisco Fighting Loboes. First of all, don't pay any attention to Dave Campbell's prediction in Texas Football magazine of a fifth place finish in district by Cisco. Even Ken Gates, the Abilene news reporter, who worked out with the Loboes, was mystified by this team. Ken Gates evaded the issue and wrote instead about Coach Jim Puryear's weird costuming of news reporters in CJC Twirling Camp

I was mystified, too. Why? Because this year's Fighting Loboes offense wasn't the three yards and a cloud of dust type offense that ex-

emplifies most high schools. This was a new zoom, swish, zap, and score type offense. It's Coach Angle's, the new offensive coach's, way of taking advantage of the fact that Cisco has the defending district track champions on the football team. Now with such an ex-

plosive offense, a strong defense will be needed. Defensive coach, Clyde Evatt, is making sure that is exactly what the 1982 Fighting Loboes have. He Walton. wants every player in on every tackle. His favorite expression is, "like rats on

With such an explosive offense and stout defense, I look for Cisco to be in strong contention for a district championship. It is going to be exciting to watch. Bill Manire

Live Marijuana **Plants Found At Cisco Residence**

City and county authorities confiscated 18 marijuana plants growing in a garden back of a residence on Avenue A in Cisco at 12:30 a.m. Saturday, Aug. 28, according to a report by Police Chief Raymond Blevins.

The raiding party, armed with a search warrant, was headed by Chief Blevins, Sheriff Johnny Morren and District Attorney Emory

Mr. Blevins said the plants, which were near maturity, were stripped of leaves that weighed 17 pounds wet. When dry, the marijuana yield would amount to five to six pounds worth some \$3,000, the chief said.

The residence was vacant although it had been rented. Nobody was at home or in the area of the house, Mr. Blevins said. He added that suspects are known and arrests are expected to be made.

The marijuana was taken to the DPS Lab in Abilene for analysis and distruction.

Farmers are encouraged to purchase crop insurance

In the view of many lenders, there's something farmers today Eastland County should be doing with money between the time they borrow it and the time they spend it: they should insure it. According to Ardell M. Kalmbach, All-Risk Insurance Director for Eastland County, more and more lenders are urging farm borrowers to carry a crop insurance policy large enough to at least cover their short-term production debts. Kalmbach points out that even though All-Risk insurance for wheat is now available primarily through private insurance agents, the policies continue to be fully backed by the USDA's Federal Crop Insurance Corporation. The federal government also pays up to 30 percent of the cost for farmers who qualify for the insurance.

"The premium subsidy and tax deductions make All-Risk insurance an extremely affordable way to be certain of having enough income to repay crop production loans when they come due and thus avoid additional interest costs," according to Kalmbach.

Wheat growers who carry insurance on their 1983 crops are offered a selection of yield guarantees as well as a choice as to the amount they want to be paid for each bushel of loss. This flexibility makes is possible to adjust their insurance coverage to their need for protection.

The deadline to obtain insurance on wheat in Eastland County is Sept. 15, 1982. Farmers can obtain a list of local insurance agents from the ASCS office in Eastland.

Stenholm Funday will be Saturday, Sept. 11

Con. and Mrs. Charles Stenholm will return to Texas for the 4th annual Funday festivities, Saturday, Sept. 11, 1982, sponsored by the "Friends of Charlie" and the Stenholm reelection committee. The annual Texas-style barbeque and picnic will be held at the Ericksdahl picnic grounds near Stenholm's hometown of Stamford.

Despite a heavy schedule in Washington this summer, Stenholm traveled the 17th District and held 21 "Chat with Charlie" meetings in late June and early July throughout the 17th District.

"At Funday, I hope to bring folks up to date on the latest legislative matters we're dealing with in the congress and answer any questions that they may have since our town hall meetings this summer," Stenholm said.

Stenholm will be honoring the county coordinators leaving the 17th District due to redistricting in Baylor, Dawson, Floyd, Kent and Knox Counties.

Tickets to the Funday festivities are \$10.00 per person. We will serve fried chicken and barbequed beef and all the trimmings, and for dessert DeLeon iced watermelons. Funday begins at 5:00 and usually ends with night fall. For tickets or information, call or write: The Stenholm Reelection Committee, P.O. Box 1032, Stamford, Texas 79553 or phone (915) 773-5521.

Jim Choate, Cisco, an Lloyd Coan, Eastland, hav been appointed Eastland county chairmen for Cat tleman's Round-Up for Cripled Children, according Jim Alexander, genera Round-Up chairman. The Cattleman's Round-Up for Crippled Children benefits the West Texas Rehabilitation Center with campuses in Abilene, San Angelo, and Snyder, stated Shelley V Smith, WTRC's Executive Director. "Livestock donated by ranchmen are collected at a designated point in each community and transported free to the auction site,' Alexander explained. "The county chairman's role is to make a personal pledge, then ask friends and neighbors to join them in the annual CRCC drive." Sales of livestock are con verted to dollars and the amount provides care for about 10,000 handicapped persons throughout the Southwest at Rehab campuses. Scheduled sales include Abilene Auction, September 27; Abilene horse sale, October 2; Junction sheep and goal sale, October 4; Coleman sale, October 6, and Brownwood sale, Novembe Jim Franklin of Sar Angelo is CRCC co-chairman in the Southwest region. Statistics Prove Where You Live Does Make A Difference

Where you live does make a difference! Inflation/depression can have its affect on people, and here are fresh statistics to prove that it's Better To Be in the U.S.A.

Comparative Standard of Living: Approximate worktimes required for average manufacturing employee to buy selected commodities in retail stores in an American city (Washington, D.C., which is probably high for this country), London, Paris and Munich and at state-fixed prices in Moscow during March, 1982.

Worktime is based on average take-home pay of male and female manufacturing workers. Income, state and church taxes (not applicable in France), Social Security taxes and health insurance premiums (not applicable in U.S.S.R.), and unemployment insurance (not applicable in U.S. and U.S.S.R.) have been deducted from wages. Family Allowances (not applicable in U.S.) have been added for a family of four. In dollars, hourly take-home pay in December 1981 was \$5.69 for American workers, \$1.35 for Russian workers, \$4.13 for British workers, \$4.66 for French workers and \$5.00 for West German workers.

OIL COMPANIES

About ten years back, the big major oil companies had a big meeting in New York City and one of the things that came out of the meeting was a declaration "let the so and so's freeze to death in the dark"

This is just what they thought of us, their customers, who used up their products and brought them to where they are today.

This meeting was the beginning of the tremendous price increases for oil related products.

Most people are of the opinion that we have been ripped off by major oil companies. There car be no reason or any excuse either for oil going up from about three to more than thirty dollars per barrel. The oil companies were doing pretty good at three dollars per barrel.

Since the big raises in prices, profits have soared to a point that is unbelievable.

Gas has also gone up beyond reason and our gas reserves are the largest in history, there is no shortage and more wells being brought in daily.

There was a time you could pass along the road and see a gasoline plant, most of which belonged to an independent oil operator. All of these small companies have long since been put out of business.

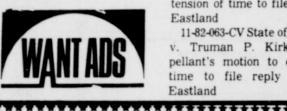

They control the price of the crude oil, refinery prices, wholesale, retail and pump prices. This is certainly a monopoly in the true sense of the word.

The major companies should be broken down to (1) exploration and d. illing (2) production (3)refining and (4) sales.

Competition among these smaller companies would become tremendous and the oil business would go back to work again.

Major oil companies just have too much power tied up with their billions of dollars.

Energy savings that stem from laundry-room tactics can be dramatic, but laundry mistakes can become a pocketbook tragedy Know your laundry's performance capabilities and

limits before trying to save energy - at your own expense. Energy conservation in the laundry room starts with lower water temperatures

for the washer, but don't cooler switch to temperatures until you know how to use them. In water below 60 degrees F., detergents become ineffective. Also, lower water temperatures affect a granular detergent's ability

to dissolve. The colder the water, the slower a powder will dissolve. So use a liquid laundry detergent - or predissolve a granular one - if you want to lower water use temperatures.

You can't always use cool temperatures for the best effect, either. For removing certain soils, such as oily or greasy stains, hot water at about 140 degrees F. is a must Otherwise, heavily soiled

laundry may become gray and dingy if you wash it in cool or cold water several times. Cool-wash cycles definite-

ly have their place in today's complex world of taxtiles and advancements in treatments for them. Many washes require warm, cool or cold water because of color, fiber content or finish of fabrics.

tion tactic sometimes focuses on cramming washers and dryers too full of laundry items.

"standing room only" - they need "elbow room" so enough wash water and dry air can reach them. If you crowd them, clothes won't wash clean, and some may not dry enough.

Also, excessive abrasion of

washer is overloaded or when too-little water is used, and this can cause "pilling" or balling up of man-made

fibers on clothes. Bleach is another possible disaster in the laundry room as consumers use more of it to help overcome the 'dingies'' that result from using too-little detergent or too-cool water.

Some polyester/cotton blends and 100 percent cottons have chemical finishes that actually "grab and hold" chlorine bleach. These fabrics should warn you of this.

Read labels and follow instructions so you don't ruin them by trying to use bleach. For most all other fabrics, overuse or misuse of bleach will result in damage such as rips and tears. Again, read labels - especially the one on bleach containers. Always silute bleach

before it comes into contact with clothes.

When using a bleach dispenser, add bleach before loading the water with clothes to avoid accidentally spilling bleach on dry clothes.

Finally, make learning the ropes about laundry - and energy savings - a family affair. With more women

know about laundry "do's" and "don'ts." **RECIPE FOR THE WEEK:**

Watering is one of the most basic practices in the maintenance of a home lawn. During our dry summers it may become absolutely necessary to water a lawn in order to assure its survival. With the increasing cost of water, and in some areas the reduced availability of water, it becomes even more important to water the lawn correctly and when establishing a new lawn give consideration to those tur-

The first requires the most and the last requires the least amount of water: Tall Fescua, St. Augustine, "Tif" Bermuda, Zoysia, Common Bermuda, Buffalograss. There are a number of factors that should be considered when developing a watering program for lawn. Newly seeded or sprigged

> The faster the lawn grows, the more water it requires. The new slow release fertilizers that contain materials like sulfur-coated urea or ureaformaldehyde as nitrogen sources do not tend to produe high growth rates. Heavy applications of fertilizers high in soluble nitrogen should be avoided. The use an an aerifier or coring device will aid in increasing movement of water into the soil. A surfactant or wetting agent may also aid the movement of water into high clay soils.

Ideally a lawn should be watered just as it begins to wilt. Most grasses take on a dull, dark appearance and the leaf blades begin to fold or roll. Grass under stress also shows evidence of tracks after someone walks across the lawn. A common bermudagrass lawn should be able to go at least 5 days between waterings. Early morning is con-

sidered the best time to water. The wind is usually calm and the temperature is

evaporation. The worst time to water is late evening because the lawn tends to stay wet all night making the lawn more susceptible to disease.

When a lawn needs water, enough should be applied so that the soil is wetted to a depth of 4-6 inches. One to 1-1/2 inches of water should wet the soil to a depth of 4-6 inches. If the water applications are too light and too frequent, the turf tends to

> become weak and shallow rooted which makes it more susceptible to heat and drought stress.

new football season. And three Cisco teams will see action. The CHS junior varsity goes to DeLeon Thursday night, the Loboes open at home with DeLeon on Friday night, and CJC entertains McMurry College's JV here Saturday night.

And you can get season tickets at the downtown school office.

CAMERAMEN FOR both CHS and CJC games this year will be Lloyd McGrew and Al Anderson as they've been for a good many years. Lloyd has been on the job in the camera booth since 1960, and Al has been working there since 1963...A lot of years of volunteer labor.

John Clinton, local Evangelical Methodist pastor, will be back as the Lobo game announcer, and George Brazell is scheduled to announce Wrangler games. Kay Jackson and Danny Claborn will handle the game clock and scoreboard.

George Moore, Jackie Williams and Ralph Ramirez are due to handle the down box and yard markers for Lobo games.

HEA') SCOUT FOR Lobo games will be Ron Mouser, girls athletic coach. He will be in Haskell Friday night to see that team (Cisco's second opponent) play Jim Lobo coaches saw Ned Del.eon scrimmage last Friday night and were pretty impressed with Roman Saldivar, Del.'s top runner, who scored five times.

The Lobo and DeLeon bands will make their debut at half-time of the game . Michelle Dempsey is this year's CHS drun major . . Lobo cheer leaders are Tracey Couch, Kim Batteas, Dana Carlile, Lynn Pittman, Jeanine Reich and Margaret . Mascot for the Yeager . cheerleaders is Delia Ramirez.

Manager Gene Abbott found a \$210 check in his bank statement that he didn't know about. It was signed 'Gene Abbott'' and in the corner was the notation "for Investigation labor" showed the check was forged.

Police were called in and while they were studying the matter, a man appeared at the First National Bank Monday with a \$360 check with Gene Abbott's name signed to it. The teller told the man to wait a minute and police came and arrested him.

Last we heard, county authorities were filing forgery charges.

WHY IS ROY Dennis tearing down the old store building just east of his Quickway Grocery?

They need more parking space for customers, Owner Roy Dennis reports. Business is pretty good out at Quickway and it wouldn't be surprising if they added to their large store in the not too distant future.

Mr. Dennis owns a similar store in Rising Star and is a partner in a Quickway at Roby. He formerly was interested in a corporation that owned Quickways in Gorman, Eastland and Rising Star but he sold his stock in the firm a couple of years ago

Update On **Dove Hunting**

Kenneth Payne, Game Warden for Eastland County, says that the amount of mourning doves for the current season appears to be only "fair" at this time.

The season opened Sept. 1, and will be split into two parts. The fall season is from Sept. 1 to Oct. 30, and the winter season will be Jan. 1-10. Hours are 30 min. before sunrise to sunset. The daily bag limit is 12 birds per day and 24 in possession. No license is required for county residents to hunt in the coun-

ty 'We haven't had any cool fronts to move down the large, northern-raised doves," Payne says. "What we have are the younger, locally raised birds. If we could get some showers and a cool snap, things would improve.

'The doves seem to be scattered in small bands around the county. Right now the best hunting is probably around the tanks late in the afternoon, when the birds come in to drink. Sunflower fields are good, as well as wheat stubble. Maize bachelor of arts degree in fields also attract the birds.' 1967 and earned a degree Payne reports that occafrom The University of sionally a white-winged dove Texas School of Law in 1970. is seen in this area, but there Glasgow served as adis no season on them here. ministrative assistant to

Registration **Will Continue** Thru Sept. 9

Cisco Junior College's registrar, Olin O. Odom, III, reminds area residents that registration will continue Thursday, through September 9 at the Cisco campus and all off-campus centers. Though there will be no problem in registering as late as September 9. Mr. Odom urges those who wish to take college-credit courses to register now in order to begin attending classes. Classes are presently in session and a minimum amount of missed time is beneficial to the student.

Mr. Odom said, "Cisco Junior College offers a wide range of opportunities for expanding knowledge. We're anticipating a large enrollment this year, and we invite anyone, college-age or older. to enroll in one of the many programs we offer." Students may register at the main campus in Cisco, at the Clyde Educational Center, or at the Community College Center of Abilene at anytime during regular office hours, 8:00 a.m. to 5:00
