

HALL OF REMARKS

BY HERREL HALLMARK

WE WERE saddened to hear of the death of Gene Abbott, local manager of the Cisco Chamber of Commerce. Mr. Abbott was a very active man and believed in the town of Cisco.

He was always first to say something good about our town and he seemed to be proud of the Chamber and its work for Cisco. He will be missed by his family, friends and all the merchants of Cisco.

CISCO'S FOOTBALL teams will be taking on the number 1 ranked varsity team in the state this Friday night as the Lobos travel to Eastland where they will face the Mavericks.

The Lobos need you to show your support for their team and they need you there to cheer them on as they try to upset the undefeated Mavericks.

Cisco has the good playing potential and can beat Eastland if they play well and do not make any mistakes.

The Lobos lost a game last week to Anson due to mistakes and bad breaks. The Lobos also seemed to be having to play against the referees who made several controversial calls which seemed to be needless.

At one point the referee had to use a piece of paper to check a first down measurement. He slipped a piece of paper between the end of the ball and the official first-down marker. Cisco did not receive the first down on that play, but they did on the next.

Let's hope different referees are at the game in Eastland Friday.

CISCO'S JUNIOR High and Junior Varsity teams will be playing Eastland in Cisco Thursday night. Be sure and show your support

CHS Student

Council Sponsors

Drug Education

On Monday, October 25, the Cisco High School student council will sponsor a drug education program for Cisco Junior-Senior High School. Johnnie Morren, Eastland County Sheriff, will speak at the two school assemblies, one for the Junior High beginning at 9:00 and the High School assembly beginning at 10:00.

Local school officials are encouraging all parents to attend these school assemblies.

Absentee Vote

For Election Ends

October 29

Absentee balloting for the Tuesday, Nov. 2 General Election ends at the County Clerk's Office Friday, Oct. 29, at 5 p.m. County Clerk Joann Johnson reports. Voting is from 8 a.m. to 5 p.m.

Voting began Oct. 13 and has been light so far, she said.

Old Fashion

Gospel Sing

Set At Church

Jack Roberson invites all singers from all the churches to join him in an old fashion gospel sing to be held Sunday, October 24, at 2:00 p.m. at the First Evangelical Methodist Church, located on Highway 80 east, across from the hospital. Rev. John Clinton is the pastor.

of these teams by attending the game.

Cisco's seventh grade team is 1-3 for the year while the eighth grade team is 3-1 for this season.

The Junior Varsity team is undefeated for the year.

A GOOD CROWD of shoppers were in Cisco Saturday to take advantage of the Golden Harvest Day Sale sponsored by Cisco's Chamber of Commerce. Various rummage sales were also being held in the downtown area and the sidewalks were crowded during the day with shoppers and bargain hunters.

GENE ZELLMAN is shown with the awards which he recently received for saving the life of an eight-year-old boy in July of 1981. Mr. Zellman used life-saving training he had received at the Gulf Oil plant in Eastland where he is employed, to save the young boy's life after he almost drowned. (Staff Photo)

Gene Zellman Receives Two Awards For His Actions

Gene Zellman of Cisco was recently honored with the awarding of the American Red Cross Certificate of Merit and an American Petroleum Institute Meritorious Safety Award for saving the life of 8-year old Brian Graham.

Mr. Zellman said he had taken two days of safety training at his job at the Gulf Oil plant in Eastland during February of 1981. Five months later on July 19, 1981, he put his training to use when he saw the apparently lifeless body of Brian being swept downstream by the rushing waters of the Frio River.

On Thursday, October 7, of this year, Mr. Zellman was presented the American Red Cross Certificate of Merit Award at a banquet at Camp Carter. American-Red Cross spokesperson Patty Garner said the award is the highest award that Red Cross gives. "It goes to people who've used skills learned in Red Cross classes to save a life," she said. The award was signed by President Ronald Reagan.

Two days later, on Saturday, October 9, Mr. Zellman received a Meritorious Safety Award from the nationally-known American Petroleum Institute. He also received a gold desk medallion and a lapel pin. These awards were presented at the annual Gulf Truck Rodeo at Tyler, Texas.

Mr. Zellman also received a belt buckle from Gulf Oil Company. A Fort Worth Star-Telegram article gave the following account of Mr. Zellman's actions which resulted in his receiving the awards mentioned.

"Zellman, vacationing with his family at the Double H-Shady Acres camp site in the Central Texas Hill Country, said he rushed to the river bank when he heard screams.

"He arrived to find a group of people frantically trying to save the 8-year-old Brownville resident from drowning.

"Brian's mother, Beverly Graham, said the child had been swimming in the waist-deep water with his two brothers when he got sucked into a whirlpool. The undertow had formed at the mouth of a submerged culvert set beneath a low-water crossing.

"Brian's older brother grabbed him and began screaming for help. When

Brian's father and uncle reached the river, they tried to pull him free, but the whirlpool's pull was too strong, Mrs. Graham said. "Zellman arrived at the opposite shore as the men, needing a bystander's advice, decided to let the boy go, hoping to rescue him when he flowed out of the other side of the culvert.

"The water was rushing pretty fast," Zellman said. "Luckily, Brian was swept into an open culvert and was pushed through to the other side. Zellman said that one of the culverts that lay beneath the road was blocked. If the child had been sucked into it, he doubtless would have died, he said.

"Gene was on the other side (of the river)," Mrs. Graham. He rushed over and grabbed him out of the water and immediately began giving him CPR (cardio pulmonary resuscitation) and just brought him back to life. If he had not been there, my son wouldn't be alive today.

He knew exactly what to do, and he just took command and did it."

"Zellman, a transport driver for Gulf Oil Co. thanked 'the Good Lord' and the safety training he received from Gulf for saving Brian's life.

"I think Gulf did a great thing (in teaching CPR and first aid to employees," said Zellman, who is a resident of Cisco. "I think it's just great training. You never know when it'll come, in handy."

"Zellman said most people become hysterical in the face of an accident, especially if you see a young kid floating down the river like that.

"The thing everybody always tries to do is burp the victim, and that's the wrong thing to do," he said.

"The first thing you want to do is open the air passages. So you tilt the head back to open the passages and then you get oxygen flowing into the lungs."

Cisco Blood Drive Set For October 27

The Cisco Service Club has set Wednesday, Oct. 27, as the date for the first Cisco Blood Drive of the club year. The blood drive will be held on the campus of Cisco Junior College from 9 a.m. to 5 p.m. in the Student Union Building. A team of laboratory technicians from Mary Meek Blood Bank of Hendrick Medical Center of Abilene will be present to take donations. To add a bit of sport, technicians will be dressed in costume in keeping with the Halloween theme.

Regularly scheduled blood drives were begun in our community in September 1979, due to a large debt to the Mary Meek Blood Bank, and to insure an adequate blood supply for Ciscons. Citizens have responded well to the blood drives, and have been commended for their support of the joint rotating project of the Cisco Service Club and the Cisco Civic League.

A blood insurance policy is available for those persons interested. For a pint of blood given, that donor's immediate family will be insured of having blood available to them for one full year, should the need arise.

That donated pint of blood, however, will not count toward credit for Cisco's debt. But for those persons interested in the policy, perhaps at a later date, the donor can donate another pint of blood for credit for Cisco.

All types of blood are needed. There are no longer routinely paid donors, due to Federal Drug Administration legislation. Therefore, blood donors must be solicited on a voluntary basis.

So necessary is this blood, for life itself, every appeal for your continued support is sincerely offered and appreciated. Please be aware of the following when preparing to give blood.

(1) All donors must be age 18 or older. There is no age limit, only that each donor is healthfully able to give blood.

(2) Blood donors should eat as usual, and are encouraged to do so, before giving blood.

(3) No medication should be taken 18 hours prior to donating blood. However, no medication should be deleted without the advice of one's doctor.

(4) Any person who has

Lobos Are Defeated By Anson 24-13, To Take On No. 1 Team

Cisco High School's Lobo Varsity was defeated in a heartbreaker of a game last Friday night in Anson when the Tigers won the District 9-AA contest 24-13.

This week's game in Eastland, against the Mavericks, is a "do or die" situation according to Head

CHS Band Boosters Will Operate Stand

The Cisco High School Lobo Band Boosters Club will be operating the concession stand at this year's Eastland County Fair Oct. 20-23.

One of the reasons for accepting the opportunity to run the concession, according to club concession chairman Twila Lee, is to help raise \$10,000 for the Lobo Band to travel to Houston in April to participate in the Astroworld Band Festival.

Mrs. Lee and the other officers of the club are urging parents of the band members, as well as any interested citizens, to work in the concession at some time during the fair. Hours are 8 a.m. to midnight and anyone interested may contact Mrs. Lee at either 442-4381 during the day or at 442-2686 at night.

All band members are urged to work some time during the fair at the concession booth so that each can have a part in earning the money that will be used by the band for the trip.

Each band family will be asked to contribute to the concession by donating brownies, cupcakes or pies for the four days of the fair. Several members will be calling other members to ask for the donations, according to Mrs. Lee and club president LaNell Anderson.

As mentioned, the cost of the trip is \$10,000—all of which must be raised before April to assure the Lobo Band's participation in the festival.

been sick or had a cold within the last seven days prior to donating blood should not donate blood.

(5) Any person who has had their ears pierced within the last six months, at any place other than a doctor's office, should not donate blood.

(6) Any person who has been in Southeast Asia within the last three years is ineligible to donate blood, due to malaria possibilities.

(7) Any woman who has menstruated in the last three to four days prior to donating blood should not donate.

(8) No woman who is pregnant, or suspects she is should give blood and should not do so until six weeks after termination of pregnancy.

(9) Persons can donate blood every two to three months, with no foreseen problems.

Prospective blood donors are questioned prior to donating blood and are carefully screened. For further information contact Bob Conner, E.L. Graham Memorial Hospital, 442-3951, John Muller, CJC, 442-2567, or Joyce Schaefer, 1982 Chairman of the Cisco Blood Drive, 442-1024.

Remember—no greater contribution can one offer as a gift of life!

Coach Jim Puryear. If the Lobos can defeat Eastland they will advance to the district play-offs; otherwise, their hopes of a play-off berth will probably be gone since another loss would put their district record at 2-2-1.

Lobo fans are encouraged to attend this important game Friday night in Eastland against the Number 1 ranked team in the state. Cisco has the player potential and the ability to win if they can do everything right and not make any mistakes. Kick-off will be at 7:30 p.m.

Junior High and Junior varsity teams will play their games in Cisco this Thursday. The seventh grade game will begin at 5:00 p.m., followed by the eighth and J.V.

Coach Puryear stated, "You don't have to get built up when you are going to play the number one team. The boys know what they will have to do Friday night. We will face up and get after it."

Currently the Lobos' season record stands at 4-2-1 and their district record is 2-1-1. The Lobos have played district games against

Car Caravan Is Planned For Friday's Game

The Cisco High School cheerleaders will lead a car caravan to Eastland for the high school football game Friday night. Anyone interested in participating is asked to meet at the high school at 6:00 p.m. Friday.

The Lobos will meet the Mavericks in football action at 7:30 p.m. Everyone is encouraged to come and join in.

Funeral Mass Is Recited Monday For Gene Abbott

A rosary was held Sunday night for Gene Abbott, 70, manager of the Cisco Chamber of Commerce, at Kimbrough Funeral Home in Cisco. Funeral mass was recited Monday at 2 p.m. at the Holy Rosary Catholic Church of Cisco. The Rev. Jim Miller, pastor, officiated. Burial was in Oakwood Cemetery.

Mr. Abbott died at 9:40 p.m. Saturday in E.L. Graham Memorial Hospital after a short illness.

He was born June 29, 1912, in Cisco. He was a U.S. Army veteran and served in the South Pacific in World War II. He married Catherine Collins on December 25, 1941, in Cisco. He was a member of the Holy Rosary Catholic Church.

An employee of Lone Star Gas Company for 15 years, he was regional manager when he retired in 1970. For the past 12 years, he had been manager of the Cisco Chamber of Commerce.

He also was past president of the Cisco Chamber of Commerce, a member and past president of the West Texas Chamber of Commerce, the West Texas chamber's outstanding chamber manager for 1980, a former member of the Cisco Junior College Board of Regents, a past member of the Cisco Independent School District Board, a past president and member of the

Winters (21-21), Baird (49-20), Albany (43-35) and Anson (13-24).

The Eastland Mavericks remain undefeated for the season as their record now stands at 7-0 for the season and 4-0 for district. In district competition, the Mavericks have played Jim Ned (46-0), Winters (44-6), Baird (54-0) and Albany (41-8).

He also said the coaches and players are disappointed they didn't win their game last Friday in Anson. He said they did some things wrong and made some mistakes which eventually resulted in their loss.

The Lobos do not have anyone on the injured list and the lineup is expected to be the same as last week's.

In last Friday's game, Cisco received the opening kick-off and seemed determined to score on their first possession of the game. They moved the ball from Cisco's 31-yard line to Anson's two-yard line in nine plays making three first downs. On the next play Cisco fumbled the ball and Anson recovered on their own one-yard line.

The Tigers then proceeded to move the ball 99 yards for a touchdown. The scoring drive took 16 plays and seven first downs before Anson crossed the goal-line. The touchdown was made on a six-yard pass from Anson quarterback Jay Baccus to Michael Ruiz. The PAT kick by Sonny Beauchamp was good making the score 7-0 with 1:28 left in the first quarter.

The Lobos received the ensuing kickoff and started their own scoring drive from Cisco's 31-yard line. A pass from Cisco quarterback Randall Rattan to Larry Adams moved the ball to Anson's 31-yard line. A QB

keeper play by Rattan picked up eight yards and a hand-off to Brian Fleming got a first down and placed the ball on Anson's 20-yard line. Jason Potter picked up six yards on the next play and one additional yard on his next carry. A QB keeper play by Rattan gained 14 yards and a touchdown for the Lobos. The PAT kick by Kenneth Preston, with Glen Starr holding the ball, was good tying up the score at 7-7 with 11:53 left in the second quarter.

Anson's next scoring drive came about when Cisco was unable to gain a first down at Anson's 29-yard line. The Tigers took over possession of the ball and proceeded to march downfield in six plays to Cisco's 39-yard line, making two first downs along the way. A handoff to Anson's Jay Ward netted the 39-yard touchdown run with 2:28 left in the second quarter of the first half. The PAT kick by Beauchamp was good making the half-time score 14-7.

In the second half, neither team was able to score in the third quarter but the Lobos scored once in the fourth and Anson scored twice.

The Lobos made their final score in about the middle of the last quarter of play. The scoring drive started on Anson's 49-yard line. Greg Sipe, Fleming, David Seaborn, Adams, Potter and Rattan carried the ball several times each to put the Lobos on Anson's 15-yard line in 10 plays with three first downs. In a third down and eleven yards needed situation, Potter took the pitchback from QB Rattan and scrambled 15 yards for the touchdown. A try for two extra points was stopped short of the goal-line making the score 14-13 in Anson's favor with 6:21 left in the game.

Anson received the ensuing kick-off and started their drive on Cisco's 29-yard line. A pitchback from Anson substitute-QB Beauchamp to Rusty Whitaker moved the ball three yards. QB Baccus came back into the line-up on the next play and he also pitched the ball to Whitaker, who then busted loose for a 74-yard touchdown run. The PAT kick by Beauchamp was again good making the score 21-13 with 5:25 left in the game.

Anson's final scoring drive came about as the result of an intercepted pass by Tiger Baccus at Anson's 42-yard line. He returned the interception to Cisco's 31-yard line before Lobo David Seaborn stopped him.

Anson moved the ball to Cisco's five-yard line in seven plays with one first down. On a fourth down and five yards needed for a touchdown, Anson's Beauchamp kicked a 16-yard field goal which appeared to miss the up-rights, but was ruled good by an official giving Anson the game by the score of 24-13 with 42 seconds left to play.

Defensive standouts for Cisco included Randall Rattan, Franky Seaborn, David Seaborn, Greg Sipe, Brian Fleming, Johnny Ramirez, Bud Wood, Brad Hawari, Mark Petree, Kenneth Preston, Sean Manire and Robert McCulloch.

Standouts on Anson's defense were Jay Baccus, Sonny Beauchamp, Rusty Whitaker, Michael Ruiz, Randy Parker, Kerry Willis, Ralph Blankenship and Robert Simpson.

GENE ABBOTT

Cisco Lions Club, a past post commander of American Legion Post 123 here and a former Salvation Army representative for the Cisco area.

Survivors include his wife; two daughters, Mrs. Anthony Strother of Abilene and Mrs. John Isenhower of Lewisville; five grandchildren; and one brother, Barton, of LaMesa, N.M.

Pallbearers were Ralph Glenn, Winston Heidenheimer, Willis Parker, Dan Dixon, Bob Elliott, Sutton Crofts, H.E. Lawson and Sterling Drumwright.

Honorary pallbearers were Jerry Sliton, Ken Russ, J.C. Fletcher, Ronnie Ledbetter, Charles Clark and Marshall Jones.

New inside and out downstairs, upstairs needs to be finished, have already purchased new fixtures for bathroom upstairs, also have new central air and heat ready to install. Sits on plenty of ground and already financed and will pay out in six years. This is a bird's nest on the ground as the owner has to leave town.

Near new, three bedroom brick, this is a very attractive dwelling, it is roomy, they did not skimp on material when it was built, has electric garage door lifts and etc.

Owner lives out of town and needs to sell attractive frame dwelling with lots of room, and very well worth the money.

We have sold several conservative type houses and here is another very livable frame dwelling on paved street, priced to sell.

A place you will like, situated very good and you will like the way it looks with possible owner financing.

One, two-story frame dwelling priced right, good location.

One, two-story brick you will need to see to appreciate.

Another two-story frame that most people would like to own.

Three bedroom brick with extra ground to go with, owner financing.

80 acres very good land, no minerals and priced to sell.

Look, we have 10 to 15 other houses, commercial buildings, mobile homes, you name it, we may have it and cannot afford to advertise them individually.

We are getting the property and we are selling it, so come on in or call.

Senator Bob Glasgow Reports On Constitutional Amendment Four

By Senator Bob Glasgow
AMENDMENT No. 4

"The constitutional amendment authorizing the legislature to provide terms of office not exceed four years for members of governing boards of certain water districts and other conservation and reclamation districts."

This proposed amendment would authorize the legislature to provide by law for members of governing boards of water districts and other conservation and reclamation districts to serve terms not to exceed four years.

The Constitution presently provides that terms of office for governmental officers may not exceed two years unless the Constitution expressly provides for longer terms. There is no provision in the Constitution that provides for directors of water districts to serve terms longer than two years. In recent years elections of members to governing boards of these districts have been characterized by low voter turn-out and large financial costs. This is particularly true of districts that serve primarily rural areas.

ARGUMENTS FOR:

1. Under current constitutional provisions requiring two-year terms for directors, districts are required to hold directors' election every year or every two years. The frequency of these elections places a severe financial burden on some districts, particularly those in rural areas. The adoption of four-year terms would allow districts to reduce substantially the cost of directors' elections by holding the elections less frequently.

2. Voter interest in many water district and other conservation and reclamation district directors' elections is very low. It is alleged that part of this voter apathy results from the frequency of elections. The adoption of the proposed amendment would provide less frequent elections, which would

generate more voter participation.

3. A two-year term is a very short period in which to develop expertise and efficiency on the part of members of a governing board. Adoption of up to four-year terms would allow members to serve long enough to become familiar with the operation of the district and to contribute to more knowledgeable and efficient administration and decision making.

AGAINST:

1. Even though directors' elections may be of considerable expense to a district, the financial cost to the district cannot be as great as the value to the voters and taxpayers of assuring that members of the governing board will be responsive to their needs and desires through frequent elections.

2. There are times when a number of a governing board does not adequately serve this district because of illness, lack of interest, or incompetence. Frequent elections of brief two-year terms provide the voters with a means to assure that those persons unable or unfit to serve on the board can be expeditiously replaced. Adoption of four-year terms will seriously reduce this power of the voters.

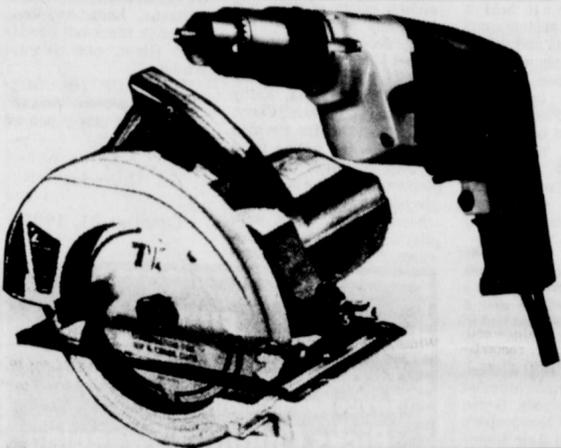

3. Water districts and other conservation and reclamation districts have operated since the turn of the century under the two-year term limitation for directors and do not appear to have suffered any major negative effects as a result of the limitation. Therefore, the adoption of four-year terms would not seem to be vital to continued efficient operation of these districts.

If you're concerned about rising grocery costs, here's something you can do about it.

On November 2, you can make a positive step toward helping hold the line on rising grocery costs. Proposition 3, one of six proposed Constitutional Amendments which will be offered on the ballot, would correct the tax exemption for agricultural machinery and equipment. The effect of passage of this amendment will be to lower production costs for food and fiber. In the long run, this will be a positive step we can take to help hold the line on grocery price increases. For you and for your family, both now and especially in the future, this may be one of the most important votes you'll ever cast.

VOTE FOR 3.
HELP HOLD THE LINE ON YOUR FOOD COSTS!

MRS. ALLEN GENE SARGENT

Kandi Tygelia Mitchell and Allen Gene Sargent Pledge Vows Sept. 25th

Millsap Baptist Church was the setting for the pledging of vows between Kandi Tygelia Mitchell and Allen Gene Sargent. Rev. Bob Cameron officiated at the double ring ceremony which was held Saturday night, September 25, at 7:30 p.m.

Mr. and Mrs. Bernice K. Mitchell of Mineral Wells and Mr. and Mrs. Donny Sargent of Millsap are parents of the bridal couple.

with You."

The church was decorated with a brass arch candelabra holding an arrangement of pink gladiola, pink and burgandy carnations, gypsophila, and springari fern centering the wedding scene. In the background was a pair of heart candelabras and at each side was a spiral candelabra and a seven branch candelabra, all holding pink tapers. In each church window was a lighted hurricane candle arrangement of pink and burgandy flowers. Marking the honor pews were hurricane candelabras holding arrangements of pink and burgandy carnations, gypsophila and springari fern.

Given in marriage by her father, the bride wore an original gown of white bridal satin designed with a fitted bodice featuring an overlay of alecon lace encrusted with seed pearls and crystal beads. It featured a sweetheart neckline and full billowing lace sleeves that gathered to a deep lace cuff encrusted with seed pearls and crystal beads that tapered to a point at the wrist. The full satin skirt was scalloped to an apron effect in back under which the underskirt held rows of pleated organza which formed the long chapel train. Appliques of lace encrusted with seed pearls and crystal beads formed an elaborate design on the apron skirt. Her chapel length veil of bridal illusion was attached to a headpiece of chiffon accented with matching lace, beads and pearls. Her gown and veil was created by Mrs. Faye Willett of Mineral Wells. Her bridal bouquet featured a traditional glass bouquet from Old Mexico accented with pink and burgandy roses, stephanotis, and gypsophila with matching lace streamers. Nestled in her bouquet was a bluebird of happiness and she carried a white Bible attached to the

streamers. Her dress and veil was something new, her penny of 1964 in her shoe was her something old, a necklace belonging to Jan Barley was her something borrowed, and her garter was her something blue.

Attending the bride as maid of honor was Anita Crum and as matron of honor was Sandra Mitchell, sister-in-law of the bride. They wore burgandy formal length gowns fashioned by empire waists and spaghetti straps with lace capes featuring a standup collar and buttons down the back.

Serving as bridesmaids were Toni Holton, Amy Young, Nannette Lehmann, and Alana Sargent, sister of the groom. Their gowns of frost rose were identical to the honor attendants and all carried wicker baskets holding arrangements of pink, burgandy and white flowers with matching lace streamers. They wore matching floral pieces in their hair.

Serving as flower girls were Laura Mitchell, niece of the bride, and Sheila Mitchell, cousin of the bride. They wore long pink dresses which featured a ruffle neckline edged with white lace and a hoop skirt that featured a peek-a-boo effect of ruffles. They carried wicker baskets filled with pink, white and burgandy daisies.

The groom wore a white tuxedo with tails with matching white ruffled shirt and tie. His boutonniere matched the bride's bouquet. Serving as best man was Sam Whitley and Craig Brown as head groomsman. They wore burgandy tuxedos with white ruffled shirts edged with burgandy. Their boutonnieres were fashioned after the groom's.

Serving as groomsmen were Jody Thomas, Sonny Brown, Sammy Medina, and Chris Aparicio. They wore burgandy tuxedos with white ruffled shirts edged in pink

and pink carnation boutonnieres.

Ring bearers were James Mitchell and R.J. Mitchell, nephews of the bride. They wore white tuxedos with matching ruffled shirts and ties, and pink carnation boutonnieres.

Keith Mitchell, Ricky Mitchell, brothers of the bride, and David Roberts, cousin of the groom, served as ushers and candlelighters. They wore burgandy tuxedos with pink ruffled shirts while the fathers of the couple wore silver gray tuxedos with white ruffled shirts. They all wore pink carnation boutonnieres.

Upon entering the church the parents of the bridal couple each lit a single white taper and after the vows the bridal couple took the tapers and together lit the unity candle signifying that they were two who had just become one. Upon leaving, the bride presented the groom's mother with a burgandy rose and a kiss while the groom presented the bride's mother with a rose and kiss.

A formal length gown of frost rose featuring a drape neckline and a pleated skirt was chosen by the mother of the bride, while the groom's mother chose a formal length burgandy dress featuring a fitted bodice with a deep ruffle collar that extended to the waist on one side. They wore corsages of burgandy orchids, pink sweetpeas and gypsophila.

The bride's grandmother, Mrs. Tom Estes chose a gown of frost rose with a formal length pleated skirt and a chiffon overlay at the neck extending to the hipline in back. The groom's maternal grandmother, Mrs. Edward Phillely chose a pink floral formal gown featuring a fitted bodice with a high neck and long sleeves, while his paternal grandmother, Mrs. Al Gene Sargent chose a formal gown of frost rose featuring a drape neckline and softly flowing skirt.

Each grandmother wore a pink and burgandy corsage. A reception was held following in the fellowship hall of the church. The bride's table was skirting in pink taffeta and pink lace with an overlay of white lace. The table held a silver punch bowl with pink punch at one end and at the opposite end, the wedding cake iced in white. The bottom tier was a square decorated with burgandy and pink roses, wild roses, and white daisies with pink centers. A fountain of pink colored water encircled with fresh green ivy was placed on top

of this tier. A three tier heart shaped cake was placed above the fountain. It was decorated with burgandy through the separations and down the sides of the cake. On each side of the large cake was a small two tier heart cake decorated in the same manner with a stairway leading to the large cake. Six miniature couples dressed in pink and burgandy were placed on the stairways. The top wedding ornament displayed a miniature bride and groom framed in a lace heart and a double beaded heart. Nuts and pink and burgandy mints made by the groom's mother were served from silver appointments. The bride's bouquet and two attendant's baskets formed the centerpiece. Serving at this table were Karla Auld, Lisa Auld, cousins of the bride, and Kelly Hoeller.

The groom's table was skirting in burgandy satin with an overlay of white lace. The table held a silver coffee service and the groom's cake which was a chocolate cake decorated with a silhouette of a pickup truck in shades of chocolate. Next to it was a small heart shaped cake displaying a reluctant groom being chased by the bride. The centerpiece was a black pickup with an arrangement of pink and burgandy flowers in the bed of the truck. Serving at this table were Linda Schulte and Karen Sargent, sister of the groom. Also serving in the houseparty were Marguerite Crum, Sandra Starr, Tommie Harris and Sharon Mitchell.

The bride's book was placed on a table in the foyer. It was skirting in pink taffeta and pink lace. It held a ceramic frame holding a picture of the bride and groom and the guests signed with a pink plumed pen and was presided over by Eunice McMichael. Passing out souvenir ribbon bookmarks, matchbooks and rose ricebags held in wicker baskets were Karla Sargent, sister of the groom and Deborah Harris, cousin of the bride.

The bride's going away outfit was a red and black checked taffeta dress with a sweetheart neckline and a black taffeta belt that tied in a large bow in the front. The groom chose blue corduroy slacks and a red western shirt with embroidered flowers on the yoke. Green Oaks Inn was the couple's choice to begin their honeymoon, continued with a trip to Galveston. The couple is now at home at 1206 S.E. 14 Street in Mineral Wells.

The bride is a 1982 graduate of Mineral Wells High School and is employed by Marr's Short Stops of Texas. The groom is a 1981 graduate of Millsap High School and is employed by Mineral Wells News Agency.

Attending from out of town were Mr. and Mrs. A.R. Hastings of Carbon, Mr. and Mrs. Jerry Hastings, Mr. and Mrs. Tom Estes, Mrs. Tommie Harris and Deborah of Cisco, Mr. and Mrs. Edmil Auld and Karla of Burkburnett, Mr. and Mrs. Randy Auld of Clovis, N.M., Mr. and Mrs. Jimmy Robinson of Weatherford, Mr. and Mrs. Edward Phillely of Acton, Mr. and Mrs. Al Gene Sargent, Mr. and Mrs. Willie Hammons of Granbury, Mr. and Mrs. Ricky Mitchell, R.J. and Laura of Orlando, Florida, Keith Mitchell of Ocala, Florida, Nannette Lehmann of Silver Springs, Florida, Mr. and Mrs. LeRoy McInroe and Carol, Mr. and Mrs. Bob Burgess, Bart and Jeanette, Mr. and Mrs. Billy Mitchell and Sheila, Mr. and Mrs. John Roberts, Wesley and David, Peggy Windsor, Mr. and Mrs. Don Coleman, Mr. and Mrs. Don Addison and Mark, Mrs. Elaine Hamrick, Mrs. Mary Smith, Mrs. Robin Martin, Mike Lane, Mr. and Mrs. Charlie Lowrey and Melanie, Teresa Coker, all of Fort Worth, Mr. and Mrs. James Bandy, Linda Scoggins, Michael Martin, all of Arlington, Toni Holton of Irving, Randy Campbell of Perrin, Craig Brown of Brock and Anita Crum of Stephenville.

The couple was honored with a bridal shower in the fellowship hall of Millsap Baptist Church on September 16. The bride's chosen colors of pink and burgandy were carried out in the decorations. Hostesses were Marsha Deel, Mary Francis Deel, Sandra Maddox, Gloria Brooks, Kathy Cameron and Chlodell Clary.

The home of Mrs. Herman Petty was the setting for a bridal shower held on September 18. The home was decorated in the bride's chosen colors. Gifts were displayed in the garden room. Serving as hostesses

along with Mrs. Petty were Sandra Starr, Joyce Sims, Marguerite Crum, Inez Light and Carolyn Light.

Putnam News

By Anita Buchanan

The kids in Putnam would like to thank everyone for their donations toward a new slide in the park. A total of \$80.00 has been donated and the kids have earned money doing odd jobs around town. All the material has been donated for the picnic area.

Don't forget the party at the park Saturday beginning at 5 o'clock. Everyone is invited to eat hot dogs and have a good time.

Meda Isenhower was awarded honors by Westbound Water last week in Cisco. We would also like to thank Meda for her many hours she spent helping Putnam get water.

Yea Cookie! Cookie Robinson, dad of Rusty and Burk Robinson, made the only touchdown for Baird at the old timers football game in Baird Saturday night.

Annie Mae Donaway will judge a ceramic show in Eastland this weekend.

L.C. and Charlene Donaway from Albany visited with Annie Mae and Milton over the weekend.

John and Edith Ivie visited Vina Lee Burns in Valley Mills.

Harry Gurney of Abilene visited in the home of Maxy Solomon and Jack Ramsey this weekend.

Anita Buchanan attended a class reunion in Cross Plains over the weekend at the homecoming.

Blayne, Anita and boys visited in Blackwell Sunday with Glenn and Juanita Wooten.

WORDS OF THOUGHT: Life is ten percent what you make it and ninety percent how you take it.

Amana ENERGY SAVING FREEZERS are designed to Save Money on Energy Costs...

- Amana uses 2 1/2" of foam wall insulation instead of the typical 1 1/4".
- AMANA-MATIC contact freezing puts freezing coils on the bottom of each solid aluminum shelf and at the top of the liner. RESULTS: All foods are either on or directly below a prime freezing surface for fast, safe, 0-degree freezing.
- STORE-MORE DOOR With shelves deep enough to hold standard packages upright. Hip-up retainer bars let you store a variety of package sizes.
- Space-Saving cabinets only 28" wide and safety lock with self-ejecting key and adjustable temperature control.

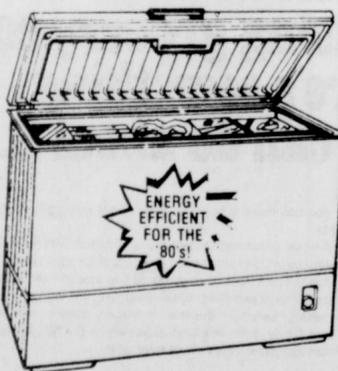

Amana Deepfreeze FOOD FREEZER

Fast, zero-degree food freezing. Freezing coils on all four sides and the bottom make the entire food liner a "fast freeze" compartment. Keeps all foods solidly frozen to preserve their taste, color and texture.

Counterbalanced, self-aligning lid. Stays open by itself for easy food removal. Re-aligns automatically to maintain an airtight seal every time you close it.

Get more value from your food dollar, too. Stock up on food specials, meat sales, frozen food volume bargains. Freeze seasonal foods when they're cheap and plentiful. Store them all in your Amana freezer, and you'll get more value out of every food dollar.

Did Cisco Area Have A History Before 1881?

By Dr. Duane K. Hale
American Indian Institute
University of Oklahoma
Norman, Oklahoma 73037

Town lots were sold May 22, 1881, near the junction of the T&P and Texas Central railroads, marking the beginning of present Cisco, Texas. Many people who live in Cisco today had forefathers who were among Cisco's first residents. All were hardy people, willing to brave the difficulties of frontier life, and should be remembered.

It is difficult, however, to imagine what life in this typical frontier community must have been like one hundred years ago, for few records of everyday life have been made available to us today. We therefore, must admit that much of what we know regarding those early people, comes from reading between the lines. Many of Cisco's emigrants came from East Texas counties, where they had removed a few years earlier from mostly the Southern states; others came from as far away as Germany via the port at Galveston. Regardless of background, we can be sure that the events of the Alamo, only forty-five years earlier, were well-known to most of them. The depredations on the Texas frontier during the 1860s and 1870s by bands of Texas Indians had also reached many Eastern newspapers. At the same time, Texas desperados had been highly publicized—John Wesley Hardin, Sam Bass, Jesse James. Yes, those pioneer Ciscoans must have feared the unknown. It seems ironic that one of the last of these highway men died in July of 1881, the very year Cisco began—his name was Jesse James. And, too, Geronimo, that fearless Apache leader, capitulated in 1886, marking the final surrender of war-like Indians anywhere in the U.S. But many of our forefathers—Cisco's pioneers—could not know the events which would transpire in their first five years' residence in western Eastland county. So hats off to them for their bravery.

But this article is not about the pioneers who started frontier Cisco. There has already been much written, as a result of the centennial committee's activities. This is a story about the belief which has prevailed throughout the history of Cisco, that Spanish miners in some remote period of time traversed much of northern Texas in search of mineral wealth, bringing them to the present Cisco area. Although the search for lost mines and mineral wealth has been thoroughly prosecuted near present Cisco, most of these Anglo-American searches have been kept secret. The fact that little was known about the Cisco region prior to the year 1881, left plenty of

room for the development of romance and legend, and as Longfellow once said, "Where there is no tradition, no history, man has a tendency to develop his own stories and legends." Whether or not the Cisco region was ever explored extensively by anyone, except Indians, prior to 1881, is still mere speculation. We, of course, know that Texas Indians had quite a population in the Cisco area, going back to prehistoric times. Witness the arrowhead collections from the Cisco vicinity gathered by Harry Schaefer, Henry Callaway, G. W. Wilcox, Buddy Dolgener, Wallace Simpson, the Moseleys, and others. Decide for yourself the weight of the evidence for Spanish mining and buried treasure near Cisco, as this story unfolds.

Spanish Treasure
In 1880 a group of Mexicans came from El Paso to the Red Gap area. One claimed his grandfather had been with a group of priests, who had buried a treasure in those hills. They spend several months searching for a large flat rock with a snake carved on it, then left (Cisco Press, Sept. 15, 1929). Silver was actually found in the hills south of Cisco in 1885 (Taylor County News, May 1, 1885). By the year 1890, gold had been discovered and a Mexican had been employed to guide searchers to a lost mine in the area (Ft. Worth Gazette, Nov. 1890). Gold mining machinery arrived in Cisco as late as 1898 (Cisco American, Nov., 1898). Meanwhile ore was discovered near Eastland, and the town of Olden sprang up as a mining community. Little ore was actually found, but the belief that a lost mine existed in or near Cisco continued.

In 1905, an old peg-legged Mexican appeared in Cisco with maps to lost mines nearby. He dug in many places, one of which was near the South Leon, where a wooden peg was sticking out of a huge pecan tree (Lee Lieske, Feb., 1970). About the same time, the Sembritzki Mining Company was formed at Clyde, Texas, where it was believed an old Spanish mine had been discovered. The Abilene Daily Reporter printed in an article in 1909 a story about the old Spanish I.L.P. Mine, abandoned in the year 1731 (Abilene Daily Reporter, June, 1909). Near the site, an intricately carved stone map was found, with the date 1731 on it.

Other marking or carvings on rocks were found near Cisco. Their history is problematic. East of Cisco on the Simpson place, two large arrows were cut, supposedly giving a westerly direction toward the old Joy Drive-In. Just north of the old theater, Earl Henson found a large rock, in his field, with

hieroglyphics cut on it. After he destroyed the rock, a Mexican came from San Angelo seeking the rock, where nearby was said to be seven jackloads of gold (Earl Henson, Feb., 1970).

Another line, leading toward Cisco, came from the South. Near the Sabanna River, south of Okra, were a line of rocks standing on edge spaced several hundred yards apart (Lydon Maynard's father, 1969).

A priest, named Odom from San Antonio, followed a line of markings out of Clyde in the 1940s, toward present Cisco. He dug near the Hart place on the Breckenridge Highway, the Piggly Wiggly farm west of Cisco, and a gap in the hills on the Chesley Ranch, north of Cisco (Yancey McCrae, Jan., 1971). Another priest was following a trail of marks in the late 1920s, north of Putnam (Doc Wagley, August, 1971). Also in the 1920s, a priest came to Cottonwood with a map calling for a 1710 rock, an Indian head rock, and some rocks with the letter "H" on them (John Smith, 1971).

Charlie Kleiner found a map cut on a rock west of Cisco, on the Piggly Wiggly farm; he also found a second map cut on a smaller rock, but no treasure was found (Jodie Woodard, March, 1970). Old man Lovelady dug near the gap in the hills near George Fee's place (George Fee, telephone call, Sept., 1971). Earl Smith found a triangle and a rectangle or rocks on a hill, not far from Canyon Road (Earl Smith, Feb., 1971). Bob Weddington found a cave near Lake Cisco, with strands of silver on the inside; a rattlesnake was carved on a rock nearby. Bob Mancil brought this latter rock to town (Yancey McCrae, 1971).

Also in the 1920s, Cal Ingram found a rock in the mountains, near Cottonwood, with the date "1710" and the name Santanna cut on it, as well as many other hieroglyphics. Cal Ingram and Dick Scrivner, now of Goldthwaite, followed a line north from the last mentioned rock and discovered another rock, near the Pisgah Cemetery. The second rock depicted an Indian chief, looking at his up-lifted hand, along with the date "1829." The search, which was long and tedious, turned back to the Callahan Divide, where a rock was found, which called for a cave with an iron door (Cal Ingram, Oct., 1971). Delmar Gentry reported the discovery of an 80' shaft on Double Mt. Delmar Gentry, Feb., 1971).

Along Sandy Creek, Bud Pascal and his wife camped several months, looking for a buried wagon train and its hidden loot. Nearby was later found a square cut out of a rock, along with the design of a bowie knife.

Outlaw Loot
North of Putnam, was the old Hart double-log cabin (built in 1874)—one of the first houses built in that area. It was built by Sebe Barnes, a member of the Sam Bass gang. Being one of the few houses anywhere around, it was not uncommon for the Hart's to put up strangers for the night. One

such visitor, Green Riddle, a cattle thief, was murdered in the log house one night. Years later a rock was found, with a map cut on its bottom side, near the cabin. It depicted the old well, an old trail running nearby, and a pot-looking thing buried near it (Weldon Kleiner, July, 1971). For years people would come in and dig out the floor of the old cabin (Jack Neumann, June, 1971).

In the same area, Sam Hart looked for years for a bird dog cut on a rock in a pointing position, somewhere along Deep Creek (Fred Hart, July, 1971). It was later discovered west of the Admiral Road (Tom Ramsey, Feb., 1971).

A payroll was robbed from Camp Colorado as it passed along the military road, which ran between East and West Caddo peaks; \$80,000 was reportedly robbed by the Jesse James gang (Cal Ingram, June, 1973). The first King Lobo, Ceedy Grist, was later reported to have committed suicide in the Cottonwood area. He and two other youths were found hanging from a tree. Grist had become interested in the story of the lost payroll, and began searching for it there. It was intimated that people named Cherry there were related to Jesse James.

Lost Sheepman Treasure
An Englishman who had \$104,000 was killed by a Mexican or Indian. The killer took only \$10,000 and buried the rest, making a map so that he could return. It was buried on an island in the river. Onex Estes obtained a copy of the map from a Mexican, who had walked from the coast, looking for the island (Yancey McCrae, Feb., 1971).

Buried in a Well
A banker in Cisco, named Ferguson, used to tell a story about a treasure hidden in a well along Battle Creek (Joe Wood, 1975). A man came with a map to the Cisco region looking for an old rock cut up well near Sandy Creek; this was about 1930 (Tommy Toland, 1981).

Buried under a Large Oak
A story circulated that gold was buried under a large oak tree in the Cisco vicinity. Holes were dug

along Cooper Creek and under many large oak trees there (Holace McKinney, 1969). Others who heard the story dug under the large oak, just west of Arlin Bintl's house (Ernest Hazlewood, 1970). Bob Head dug holes up and down Battle Creek and under many large oaks on the J.D. Isenhower place (Vernon Donaway, 1971).

As late as 1960, the Houston Chronicle carried an article about buried Spanish treasure in Eastland County. Clyde Thompson, a convict, was going to return to find it after he was released. Thompson had reported the discovery of several Spanish skeletons, which had been exposed by the collapse of a creek bank, in 1925.

As Longfellow said, a people without a past, a history, have a tendency to create their own stories and legends. But before all of this is relegated to legend, it must be considered that an old Spanish mine was discovered in the Hog Creek Mountains of Brown County in 1879, with 50 skeletons inside; it was worked in some remote period of history (Fort Worth Daily Democrat, July 24, 1879). This was only 30 miles south of Cisco.

"My thanks to the contributors to this article, most of whom are now deceased."

Moran News
by Mrs. Luke Huskey

D.C. Lummus of San Angelo was visiting friends in Moran Monday. Mrs. Tropol Brooks and Mrs. Yvonne Johnson of Odessa are visiting relatives and friends in Moran this week. Mr. and Mrs. J.D. Collinsworth of Andrews visited with relatives and friends in Moran last week. Mr. and Mrs. Monk Offield spent the weekend in Hurst with their children. Myrtle Scott had eye surgery in Fort Worth last week. She is recuperating at the home of her daughter,

Mrs. Jimmie Austin.
A BABY SON
Mr. and Mrs. Artie Wayne Merritt are the proud parents of a baby son born October 9 in the Eastland Hospital. The baby was named Joshua DeWayne and weighed seven pounds and 11 ounces. He was 21 inches long. Paternal grandparents are Mr. and Mrs. Arlen Merritt of Moran and maternal grandparents are Mr. and Mrs. Howard Bradford of Eastland.

HALLOWEEN CARNIVAL
The Moran School Halloween Carnival will be held on Saturday, Oct. 30, at the school building. The usual food booth, cake walks, bingo, hay rides, and other games will be enjoyed by all. Proceeds from the carnival will go to buy various equipment for the students in school. Go to the school for the Halloween carnival, to help support the school and enjoy an evening of fun and fellowship.

WORD of GOD
Fast and Pray
But as for me, when they were sick, my clothing was sackcloth; I humbled my soul with fasting; and my prayer returned into mine own bosom.
Psalms 35:13

- A worthless check written for from \$5⁰⁰ to \$20⁰⁰ could result in a 180-day jail sentence and/or a \$1,000 fine.
- A worthless check written for from \$20⁰⁰ to \$200⁰⁰ could result in a year in jail and/or a \$2,000 fine
- A worthless check written for from \$200 up to \$10,000 could result in a prison sentence of from 2 to 10 years and/or a \$5,000 fine.

Think Before You Write...

IS IT WORTH THE RISK?

Sponsored as a Public Service by Your Local Hometown Newspaper

Floyd Rains, (center), celebrated his 86th birthday at the Senior Citizens Center. Shown with him are his son, Odell and daughter, Rozelle.

Senior Citizens Honor Floyd Rains

A very loyal member of the Senior Citizens program, Floyd Rains, was honored by his family, and the members of the Senior Center.

Mr. Rains has been a citizen of Cisco, or near Cisco, since he was nine years old.

He was born in Jonesboro, Texas, October 16, 1896, came to Merkel when he was six years of age.

Mr. Rains farmed in this area most of his life, and is one of the more outstanding fishermen. He likes to fish,

Lions Club

Choir Meets

Monday Evening

The Lions Club choir met Monday evening. They elected officers as follows: Jana Jeffcoat, president; Sampty Sipe, vice president; Janice Woolley, secretary; Angie Bradford, treasurer; Renee Dillard, reporter; Debbie Endsley and Raiford Rattan, librarians. Section leaders were appointed: soprano I—Kevin Bentley, Cassandra Bradford and Tami Roberts; soprano II—Christy Smith, Shelby Nixon and Dusty Petree. Alto—Belinda Bradford, Kevin Kirk and Jarrod Jeffcoat.

New members of the choir are Jill Reynolds, Janice Woolley, Laurie Cagle, Renee Dillard, Laura Hutchens, Raif Rattan, Mark McGinness, Robert Wages, Sampty Sipe and Jana Jeffcoat.

and had excellent luck, however he would not eat fish.

He has two daughter, who live in this area: Juanita Milford of Morton Valley and Rozelle Gish of Cisco. He has three sons: Odell of Cisco, Wadell of Clyde and Hershell of Fort Worth.

The family furnished birthday cake for the members of the Center.

Members of his family who shared the honors were daughter, Rozelle, son, Odell, and a grandson, Bob by Rains.

Ruth Sunday

School Class Holds Meeting

The Ruth Sunday School Class of the Calvary Baptist Church met in the church fellowship hall for a time of prayer and fellowship.

The meeting was opened with a welcome address and prayer led by Ruby Dunlap.

Marvelene Myers gave an inspirational devotional on the subject, "What is Prayer?"

Following the inspiration time, the group enjoyed a delicious salad luncheon and visiting.

The meeting was closed with a session of prayer.

Those attending were Ruby Dunlap, Marvelene Myers, Era Hamilton, Bobbie Cozart, Ruth Lamb, Effie Lee, Mary Thomas, Lorene Hollingshead, and guests, Lois Phippen and Fay Callaway.

C.J.C. Will Offer Petrol Engineering

Cisco Junior College will offer "Introduction to Petroleum Engineering" in Cisco on October 26, 28, November 2 and 4 from 6:30 to 9:30 p.m. in the Science Hall Lecture Room. "Introduction to Petroleum Engineering" covers the fundamentals of petroleum engineering and is a non-technical course designed to familiarize a person with oilfield practices and terminology.

The instructor for the course is Robert B. Arnot, consultant engineer for W.G. Arnot, Jr. of Breckenridge. Fee for the 12 hour course is \$60.00.

This is an adult education course and all attending will receive a Certificate of Completion with Continuing Education Units. To register or for more information call Mrs. Watts at 817-442-2567 extension 113.

TID BITS

PUBLIC SCHOOL and college students in Eastland County are hearing firsthand about the drug situation, and the straight-from-the-shoulder program is also "touching quite a few adults."

County Sheriff John Morren and a 31-year-old inmate from the Eastland County Jail were program members of the Eastland Lions Club at noon Tuesday, and Criminal District Attorney Emory Walton was speaker for Cisco Junior College students at the same time in Cisco.

The programs have been presented in Elementary, Junior High and High School student bodies in the county, and it's a hard-hitting report on the situation as it really is.

"Don't ever think that there isn't a problem," Sheriff Morren says, "and one of the biggest problems is with adults." He said that after each program in the elementary schools, he's been asked by youngsters: "What do we do when our folks smoke pot?"

The Sheriff said he tells them that if they can't talk to their parents about the problem, they should try to talk to their preacher or their teacher and if they can't do that, they should talk with law enforcement officers. "We try to get someone who can talk to them so that they can get help," he said.

"It makes it hard for lawmen to talk to young people and gain their confidence when they've heard their parents criticize 'the law' so often," Morren said.

Commenting briefly on the circular that's being distributed in the county, Sheriff Morren compared it to terrorists tactics.

"Of the 15 inmates in the County Jail Tuesday morning," he said, "11 are there because of drug-related problems."

"We need everybody's help, and it'll take citizen involvement to whip this thing," Sheriff Morren said.

"If citizens don't get involved," the handsome jail inmate said, "it's going to get a whole lot worse," as he told of his own trail through the drug culture, stating that at one time or the other he'd tried just about every kind of drug there is.

"If only the young experimenters who think they're going to be something great 'with the joint' knew that what they're really only going to get is a scrambled brain and a silly grin on their face."

"It alters the mind and don't let anybody ever tell you that marijuana isn't habit-forming," he said.

"Crystal will make you go out of your mind," the young man said, and he should know: he's been a user and he worked for a dealer as a collector. "Dope and weapons go together."

"I believe alcoholism and drug addiction is a sickness and folks who are on them, need help."

Young people need to realize that "doing drugs" is the same as selling their souls, because that's what it is.

The impressed Lions Club members were warned in closing by the jail-garbed inmate:

"Give the kids a chance. Give 'em a job. Keep 'em busy. Give them an opportunity to enjoy wholesome recreation."

The Cisco Press

City Federation Of Women's Clubs Holds Meet Oct. 11

The City Federation of Women's Clubs met in regular session in the clubhouse on October 11 at 2:00 p.m. A quorum for business was affirmed. A minimum of ten members present with five clubs represented is required. No member can represent more than one club at any one meeting.

Mrs. Arlin Bint, the president, called the meeting to order. Due to the absence of the recording secretary, reading of the minutes was postponed until the December meeting. Mrs. O.L. Stamey was appointed secretary pro tem for the day.

Mrs. M.D. Allison, treasurer, gave a brief report. The president's call for reports from other officers and/or committees resulted in a necessary informal discussion. Records were checked, brought up-to-date and approved. Attention was then given to the Federation's Board of Trustees. According to the Bylaws (Art. IV, section 3), "The Board of Trustees shall consist of one trustee from each member-club and one member-at-large. Each trustee shall be elected by her respective club and the member-at-large by the Executive Board."

The current membership of the Board of Trustees from the member-clubs was announced as follows:

With four (4) year terms (1982-1986): Cisco Music Study Club—Mary Harry Donica; Lake Cisco Extension Homemakers Club—Mrs. F.P. Brown; Twentieth Century Club—Mrs. Irene Cullinan.

With two year terms (1982-1984): Cisco Garden Club—Mrs. Lorena Smith; The Delta Kappa Gamma Society—Mrs. Bernice Carter; First Industrial Arts Club—Mrs. Jewell Cole.

Election of the member-at-large by the Executive Com-

mittee resulted in the selection of Mrs. Kathryn Cole. Her term will extend from April, 1982, to April, 1986.

According to the bylaws (Art. III, Sec. 2), "A member of any member-club of the City Federation is automatically a member of the City Federation." She is

not only welcome to attend any or every meeting of the organization, but is also urged to lend her presence and support on any and/or every possible occasion.

No exclusive occasions are promoted or endorsed by the Federation. Elections within the meetings are by ballot

(secret vote), which is the most democratic method possible. The purpose of the ballot vote is to "Carry out the will of the majority and to protect the rights of the minority."

The Family of Lt. Gov. Bill Hobby says THANKS to the people of Texas

I want to thank you, the people of Texas, for the warm hospitality and friendship you have given my family and me as we have campaigned across the state.

The strength of Texas lies in our respect for one another and our families. Your kindness towards us has sealed that belief.

It is an honor to serve you as Lieutenant Governor. We thank you for this privilege and for your continued support and confidence.

Re-elect
Bill Hobby

... A STRONG
LT. GOVERNOR,
HONESTLY.

It takes 32,000 miles of Lone Star pipeline to deliver the gas you need. Manager of Construction Services Bill Becker is one of more than 4,000 Lone Star specialists who keep this system efficient—and growing.

Lone Star people help keep gas first in efficiency.

Efficiency alone can't solve the problem of rising gas prices.

We're buyers of gas, like you. And deliverers. Gas that cost us 18 cents in 1972 cost \$3.46 in mid-1982. And the cost can go up every month.

However, we can control part of the gas bill you pay. We do it by getting gas from the wellhead to you as efficiently as possible.

It's one of the biggest delivery jobs in the nation. It involves over 4,000 Lone Star people, 32,000 miles of pipeline and a huge investment

in transmission, distribution and processing facilities.

Yet all this accounts for only about 15% of your gas bill. The other 85% is the cost of gas itself.

Efficiency alone can't solve the cost-of-gas problem. But it keeps the problem from compounding.

 Lone Star Gas Company
Gas. First in energy efficiency.

Cats Need Proper Care

AUSTIN-Garfield fans check their newspapers each day for the latest big of outrageousness by the spunky feline. Last winter, a major weekly newsmagazine featured cats as the lead story, and this month a new play opened on

Broadway entitled "Cats." Cats were revered and worshipped by the ancient Egyptians, and historically have been useful in keeping homes and barns free from rodents. As this country's population has shifted from rural to urban, a logical

choice for animal lovers has been to choose a pet that is independent, extraordinarily clean and easily housebroken. For cat lovers the health and well-being of their pet is a paramount concern. While cats are independent creatures, they still need the help of their owners to provide them with the care they need, including veterinary care.

Dr. Fred K. Soifer, president of the Texas Veterinary Medical Association, advises cat owners to seek veterinary care when a kitten is six weeks old.

"Kittens should receive inoculations for distemper, rhinotracheitis and calici at six, eight and 16 weeks of age," said Soifer, a Houston veterinarian who practices companion animal medicine.

Feline distemper is an extremely contagious, often fatal, viral infection. Rhinotracheitis and calicivirus account for 70 per-

cent of infectious respiratory diseases in cats, said Soifer. Prevention of these diseases depends on the responsible owner.

Responsible ownership also includes surgical neutering to prevent unwanted kittens or having to put the kittens to sleep needlessly.

Rabies vaccination is needed at three to four months of age. 1981 Texas Department of Health reports show that rabies was more common in cats than in dogs in Texas for the second time in five years.

Internal parasites are problems in cats as well as in dogs. The tapeworm parasite is transmitted by fleas or from dogs to cats. Vomiting and diarrhea can be symptoms of internal parasitism and prompt veterinary treatment is important. Diligent flea control

can help prevent tapeworm reinfection.

Other diseases common to cats are feline urological syndrome (FUS) and feline leukemia virus (FeLV). In FUS, urinary stones form from minerals in the cat's system and can block or obstruct the urinary system, cause painful irritation or leave the cat unable to urinate. Urinary obstruction can be fatal, warns Soifer.

Regular examination and vaccination can help prevent the complications of FUS in your cat and help spare him the possibilities of illness, fights and auto accidents.

FeLV is a viral disease causing cancer of blood cells and some organs.

"FeLV infection does not always cause cancer, but may render a cat more susceptible to other viral and bacterial diseases," said Soifer.

RJC Offers 2

Medication Aid

Refresher Courses

Two medication aide refresher courses have been set up by Ranger Junior College to help area nursing home employees meet state requirements.

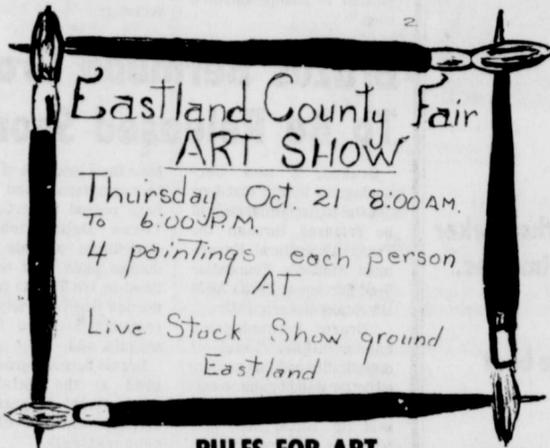

One course will be held Oct. 30 from 8:30 a.m. until 4:30 p.m. at the Golden Age Nursing Home at 320 West 3rd Street in Graham. Tanys James, a registered nurse from Graham, will serve as instructor.

The other course will be held Nov. 6 at the LVN classroom on the campus of Ranger Junior College from 8:30 a.m. until 4:30 p.m. Joyce Speed, a registered nurse from Ranger, will teach this course.

People wishing to enroll in either class may register at 8 a.m. the day of the class. Tuition for either class is \$7.

For more information contact Leonard Marusak, dean of instruction at RJC.

Texas Is The Fastest Growing State

Texas had three million more people in 1981 than in 1977, making it the fastest growing state in the nation.

"It's like the state is a giant magnet pulling people here from everywhere," said Dr. Robert Skrabanek, demographer and sociologist

with the Texas Agricultural Experiment Station, Texas Real Estate Research Center and Texas A&M University Department of Rural Sociology.

"The growth is simply phenomenal; we've never seen anything like this

before," Skrabanek said during the 1982 Town and Country Church Conference at Texas A&M Oct. 4-5.

Why are so many people moving to Texas, and who are they?

"Besides being in the Sunbelt, the Lone Star state has a low unemployment rate and low tax structure (compared to other states)," he pointed out.

In 1960, Texas was the

sixth most populated state, and by 1970 it has become the fourth largest. In 1975, Texas became the third largest state, preceded only by California and New York.

The population has been evenly distributed the past 10 years, Skrabanek noted, with 210 Texas counties showing an increase and only 44 reporting a decrease.

"Big cities like Dallas, Houston and San Antonio are

getting larger, but the real growth is occurring in the suburbs of these cities," he said. "The cities keep growing out and incorporating what were once rural areas."

Rural areas have been consistently gaining in population the past 15 years, Skrabanek said. This comes from factories and industries moving out of big cities and into rural communities, which in turn disperses the population more equally.

In-migration is responsible for much of the population explosion in Texas, he said.

During the 1950s, more than 11,000 people moved to Texas each year, and between 1960-69 an additional 21,000 a year were making Texas their home. In the 1970s, the number had reached 180,000 people a year.

"Even with the depressed economy, Texas is still a bright spot when compared to other states," Skrabanek said. "And I don't expect this pattern to change anytime soon."

Who are the people inhabiting Texas?

"Since the mid 1950s, we've changed from a male-dominated to female-dominated state," he said. "Add to this the fact that women live an average of eight years longer and it's obvious that women are a dominant force in Texas"

The median age in Texas is 28.2 years, compared to 30 years for the nation. This is almost double the median age of 16 in 1800.

"Ethnically, Texas can be divided into three groups," Skrabanek said. "In 1980, the population was 66 percent Anglo, 21 percent Hispanic and 12 percent Black."

Some 200 ministers and laity of rural and small churches attended the annual conference sponsored by the Texas Agricultural Extension Service, Texas Agricultural Experiment Station and Texas A&M's Department of Agricultural Economics and Rural Sociology.

REPORT FROM
SECRETARY OF STATE
DAVID A. DEAN

Elections Update

The Secretary of State Election Central (SSEC) project involving vote tabulation beginning with the November general election is well under way. The formats of the ballots to be reported on election night are in final testing stages. Clerks across Texas have been contacted, and an overwhelming 251 of the 254 clerks will report vote totals to the SSEC on election night. In addition, volunteer election inspectors will be available in many county clerks' offices throughout the State to assist in the reporting of votes to the Secretary of State Election Central. To date, 17 separate news media will be on hand in the Secretary of State's Office on November 2 to receive first-hand vote totals and in turn pass on these most up-to-date totals to the citizens of Texas. In addition, the Associated Press and United Press International will be making results available to the Texas media via their direct computer hookup to the Secretary of State's computer.

All registered voters are reminded that the absentee voting period by personal appearance for the November 2 general election is October 13 through October 29th. Voters should contact their county clerks to confirm the time and location for absentee voting in their county.

On election day, polls will be open from 7:00 a.m. to 7:00 p.m. In Harris and Dallas counties, polls will open one hour earlier at 6:00 a.m. and remain open until 7:00 p.m.

The Elections Division of the Secretary of State's Office will be fully staffed on election day and throughout election night. Any citizen having an election question may call toll-free at 1-800-252-9602. Bilingual assistance will be available.

Texas voters are encouraged to determine and confirm in advance of election day the location of their polling place. A list of polling places by address will no doubt be printed in your local newspaper.

Any citizen observing an election irregularity on election day is encouraged to contact the Elections Division toll-free at 1-800-252-9602. It is the goal of the Secretary of State's Office to have over 300 volunteer election inspectors across the State to assist election officials on election day.

All eligible voters are strongly encouraged to fully exercise their right to vote. The November 2, 1982, general election will determine the outcome of the seven statewide executive offices, up for election and Texans will also vote for several seats on the Supreme Court, Texas Court of Criminal Appeals, for various district and appeals courts posts around the State, and Amendments to the Texas Constitution. In addition, votes will be cast for one U.S. Senator, our 27 Congressmen, and all of our State Senators and Representatives.

Brazos Bermuda Grass To Be Released Soon

Brazos, a new bermudagrass hybrid that tops Coastal in performance, will be released through the Texas Agricultural Experiment Station's Foundation Seed Service at Texas A&M University in early 1983.

"Brazos bermudagrass has a higher level of digestibility and has produced better weight gains in cattle than Coastal bermuda," said Dr. Ethan Holt, professor of forages with the Experiment Station and Texas A&M's Department of Soil and Crop Sciences.

"In grazing trials Brazos has produced 20 to 25 percent higher animal performance than Coastal," Holt noted. "Brazos also has superior nutritional quality (dry matter digestibility) and is adapted to all areas of Texas except the High Plains."

Sprigs of Brazos bermudagrass will be available in limited amounts to qualified growers early next year, Holt said. To be qualified individuals must

have their land free of other bermudagrasses and must have passed inspection by Texas Department of Agriculture officials. Production plots must be certified by the TDA to protect the new Brazos variety from contamination, the forage scientist said.

Brazos bermudagrass was bred at the Oklahoma Agricultural Experiment Station and developed cooperatively by Agricultural Experiment Stations in Texas, Louisiana and Oklahoma. The release is a joint effort of these stations along with the U.S. Department of Agriculture, Agricultural Research Service and Soil Conservation Service.

Individuals interested in obtaining foundation sprigs of the new bermudagrass should contact the Foundation Seed Service, Texas A&M University, College Station, Tex. 77843, and the Texas Department of Agriculture, P.O. Box 12847, Capitol Station, Austin, Tex. 78711. Foundation Seed will provide qualified individuals with planting material information while TDA will furnish information on land inspection requirements for certification, Holt said.

Check Into Our Club.

For a long time at Olney Savings, we've been telling you that, to us, people are worth a lot more than money. And it's more than a saying. It's the basic philosophy behind the way we do business — the way we treat our customers and the services we offer them. With this same feeling we offer you the Olney Savings Check Club.

The Olney Savings Check Club gives you a checking account that pays 5 1/4% interest plus these other special values:

- Accidental Death Insurance with dismemberment. \$10,000 dividend equally on joint account members. Age 70 and over, 50% reduction in coverage. (\$20,000 and \$30,000 plus family coverage available for an additional monthly fee)
- Free personalized carbon copy checks — write as many as you like.
- Free Notary Service
- Free Travelers Checks
- Free Money Orders
- Free Automatic Drafts for Loan Payments

- Free SavPac magazine, the official club publication containing interesting and timely articles of general interest as well as discounts on travel, auto rental, etc. Mailed three times a year to members.
- Insured up to \$100,000 by F.S.L.I.C.

All of these services are yours for only \$5.00 a month (membership fee) and you earn 5 1/4% interest on your checking account.

Fair, Parade & Carnival Make For Exciting Week

The week has finally arrived! The week that everyone has been waiting expectantly for! The carnival sponsored by the Eastland Chamber of Commerce began Tuesday, October 19, and the fair begins Wednesday, October 20, and runs throughout the day, Saturday, October 23, 1982. And to top off the festivities the Eastland County "Oil Show" Parade will be held Saturday morning, October 23, 1982 at 10:00 a.m. in downtown Eastland. Many, many people have been working for weeks on entries for both the parade and the fair, and that is bound to make both of these events a huge success.

Following is a list of all entries received for the parade:

- KVMX-FM 97
- Morgan Building Corp.
- Hood King Motor Co.

Who could ask for more entries? Along with these Mrs. Clements will be speaking, along with Miss Texas, immediately after the parade on the south side the square. And following them will be a performance by the Strategic Air Command Concert Band. Many local and area politicians will be on hand for the parade, along with other dignitaries. Enjoy the week in Eastland, invite your friends, participate in all of the activities, and have a great time!!!!

The first woman in America to own and edit a newspaper was Sarah Porter Hillhouse, in 1802. Her paper was Georgia's The Washington Gazette.

Flag Football Is Now Halfway Thru Season

The flag football is halfway through the season. The standings thus far are Lions 3-0, Cards 1-2, Bears 1-2, Hawks 1-2, Mets 2-1 and Cubs 1-2.

The Mets won their game with the Cubs 25-14 this week, but it was exciting right to the end.

In the first quarter Brad Goosen got loose and ran 25 yards for the first score. Goosen also added two for the extra points on a pass from QB Jay Nixon. The Mets came back with a TD on a quarterback keep by Kelly Cozart. The try for the extra point failed.

The Cubs scored their second TD on a keeper by QB Jay Nixon as he ran 57 yards to paydirt. There was a fumble on the extra point attempt which failed.

Shortly after that, Mets halfback Chris Begley ran 50 yards to give the Mets their second score. Cub Curtis Lacy blocked the extra point. At halftime the score was Cubs 14-Mets 12.

The Mets did not let that discourage them or the fact that the Cubs won last week. In the second half, they came back with two more touchdowns, one on a 98 yard run by Chris Begley and another 40 yard run by Begley. Jim Bob Maples added the extra point. The final score was 25-14.

Outstanding defensive players for the Cubs were:

Joel Prickett who recovered a fumble and Curtis Lacy, Jeremy Davies, Matt Mason and Brad Goosen who got flags. Jay Nixon chalked up 108 yards and averaged 12 yards per carry for the Cubs offense.

Outstanding defensive players for the Mets were: Chris Begley who broke up two passes and recovered a fumble, and got the most flag tackles. Other flag tackles were James Stedum, Gary Mizell, Jimmy Williams, Robert Smith, Jeremy Rhodes, Dave Witt and Jim Bob Maples.

Offensively, Chris Begley got 228 yards rushing and scored 3 TD's.

If the Cards could figure out how to handle speedster Charles Kelsey it might have been a different ball game. He was awesome both offensively and defensively. The Cards lost to the Lions 13-22.

He scored three touchdowns, one on a pass, a 70 yard run, a 55 yard run, caught a pass for extra points. Broke up three pass

plays and got the most flag tackles for his team. However, he was only able to do this through fine teamwork with the whole Lions team. Jeff Roark scored two extra points and Davin Hohertz did an excellent job as quarterback on hitting his mark with passes for TD's and extra points.

Other fine defensive players who got tackles were Davin Hohertz, Jeff Roark, Craig Mason, Ken Drozeski, Phillip Shackelford and Gary Byars.

The Cards really played an excellent game and make the Lions work hard for their win. Matt Goosen scored in the first quarter on a 55 yard run. The pass for Ross Escobedo was no good when Charles Kelsey batted it down. In the second quarter Paul Flores scored for the Cards on a keeper and also added the extra point.

Outstanding defensive players were Ronnie Wilcoxen, Ross Escobedo, Matt Goosen and Paul Flores.

The Hawks got their first

win here Saturday as they edged by the Bears 6-0.

There was no score in the game until late in the third quarter when QB Kody Wallace scored on a 50 yard run.

The Bears had a serious threat going as the game ended but time ran out.

Outstanding defensive players for the Bears were Kevin Sellstrom, who recovered a fumble; Aaron Whitley, Chucky Cochran, Dan Hammond, Doug Witt, Chris Wylie, Kendyll Seabourn, Mitchell Blair, Wade Cozart, Doug Shan and

No. 13. Outstanding defensive players for the Hawks were Kody Wallace, recovered a fumble; Dusty Schaefer, John Mizell, Charles Kelsey and No. 8.

Thanks to the referees, Randy Speegle, Harold Stedum, Benton Lacy, Steve Cozart and Jacky Witt. Thanks also to Al Young for running the concession and to Rick Roark for ice.

People n Things

AFTER CHECKING and double checking, we can report that we know where you can buy gasoline for under 30 cents per gallon—in Ecuador. The gasoline price in Quito, where we are residing temporarily, is 15 sucres per gallon. And a USA dollar will get you about 58 sucres.

The Ecuadoran government owns all of the oil, and Ecuador is a member of OPEC. Venezuela is the only South American country that produces and exports more oil than Ecuador. The posted price for Ecuadoran crude oil is \$32.50 per barrel.

YOU SEE a lot of USA automobiles in Ecuador. There are many Ford and Chevy pickups and bigger USA cars. And, of course, small autos are numerous. Ford, General Motors and Chrysler have dealers in Quito and elsewhere in the country.

There are no autos made in Ecuador. You pay about one and a half times the cost of a car in duty when you purchase one from a dealer or ship one into the country.

We talked with a young fellow who moved to Quito from New Jersey to accept a job on a two-year contract. He brought along his 1978 model Jeep. The duty amounted to \$5,000 plus 30 per cent plus five per cent and some other pluses that he didn't understand.

THERE ARE SOME other things that are bargains when you use the local money. At their super market, which is pretty nice, a half gallon of milk costs you about 50 cents. We got a hair cut for about 35 cents. The fare on city buses is about eight cents. You can ride a taxi across town, and Quito is a city of a million or so, for three or four dollars. A dinner at a plush restaurant is from three to five dollars. And the food is good.

SHRIMP GROWING is big business in Ecuador along their Pacific coast country. And would you believe that the know-how has come from Texas A&M University? That's right, and the project is very successful, indeed.

After four or five years, they're growing shrimp in record numbers—extra large and tasty shrimp. Much of their harvest goes to the United States and to Europe. We were told that shrimping has become a major export item for Ecuador.

SNOW AT THE EQUATOR. How does that grab you? On Oct. 3rd, a black cloud came over the mountains and left six or eight inches of snow. It was the first time in many years that snow fell in Quito. They even made snowmen.

This is the rainy season or winter. The temperature seldom goes below 50 degrees. A local man told us the rainy season lasts 13 months each year. That's

what he said.

THEY'RE OBSERVING a holiday on October 12th—Columbus Day. Holidays in Ecuador are about as numerous as in the USA.

WE NOTED in a paragraph above that a hair cut cost us 35 cents. We should have added that you get a substantial discount if your head is bald. Folks like Dr. E.E. Addy and Winston Heidenheimer would appreciate the barbers here.

If you get right down to it, men with little hair deserve consideration. A full head of hair takes a lot more time to cut than those of us who have little more than a fringe on top.

Mildred Foster Jackson Will Exhibit Paintings At CJC

Mildred Foster Jackson of Austin has been selected for the fourth year to exhibit her paintings at Cisco Junior College during the month of October as the artist of the month. Born in Comanche County, she subsequently lived in Callahan, Coleman and Eastland counties. She has been a frequent visitor with friends and relatives in Cisco and several surrounding towns for many years.

In addition to frequent showings in her home studio, she periodically exhibits her paintings at the Municipal Auditorium and several banks in Austin. She will be showing in Wichita Falls in November, and will have a special exhibit in Austin following that.

Mildred's paintings, in oils, include such things as landscapes, flowers, birds, animals, windmills, butterflies and country scenes. One of her special joys is being commissioned to paint memorable scenes from descriptions or photographs.

All artist of the months are directed by Mrs. Oleta Shirley, Cisco Junior College Librarian. The exhibits are open to the public in Maner Memorial Library from 8 a.m. to 5 p.m. and 6 p.m. to 9:30 p.m. Monday through Thursday and 8 a.m. to 4 p.m. Fridays. The public is reminded to watch for continuing exhibits. The November exhibit will feature Mrs. Annetta McNaught of Avoca.

Mae Courtney Will Be Honored On Birthday

Mrs. Mae Courtney will be honored with a birthday party Sunday, October 24, at the American Legion Hall in Cisco. Mrs. Courtney will celebrate her 101 birthday. Family and friends are invited to bring their lunch and eat.

PUBLIC NOTICE

NOTICE TO WATER CUSTOMERS OF HIGH TURBIDITY

Dear Customer: The City of Cisco during the month of August, 1982, supplied water that exceeded the Texas Department of Health's "Drinking Water Standards," which were promulgated as required by the "Safe Drinking Water Act," Public Law 93-523 (US), for

turbidity. The water supplied failed one or more of the following criteria: (1) the monthly average exceeded 1 turbidity unit (TU).

The presence of excessive turbidity or cloudiness in drinking water may interfere with the effectiveness of disinfection of the water. Permitting the turbidity level to exceed the standard may present a risk to the health of persons drinking the water.

However, up to five turbidity units (TU) may be allowed if the supplier can

demonstrate that the higher turbidity does not: (1) interfere with disinfection, (2) prevent maintenance of an effective disinfectant agent throughout the distribution system, (3) interfere with microbiological measurements.

The water system is being studied to correct any high turbidity at any future date.

The notification of the public is in compliance with Texas "Drinking Water Standards" and the "Safe Drinking Water Act," as a means of keeping the public informed.

Roof Garden Dinner Theatre Will Open Season October 28

The award winning Roof Garden Dinner Theatre in

1st Evangelical

Methodist Women

Meet Monday

The EMW of the First Evangelical Methodist Church met Monday night, October 18, at the church. Ramona Nichols presided over the meeting. Wanda Hallmark gave a devotional from Acts 8:5-8. Beth Spangler gave a report on the selling project. A free will offering was taken.

Plans were discussed to organize a retreat for sometime in November. The meeting was closed with prayer.

Those present were Ramona Nichols, Evelyn Clinton, Dollie Cooper, Margaret Hallmark, Beth Spangler, Josie Escobedo, Jana Spangler and Wanda Hallmark.

Precinct Two Will Vote On Bingo Issue

To bingo—or not to bingo! That's apparently going to be the decision for voters in Justice Precinct Two, probably in January.

County Clerk Joann Johnson reports that she will probably certify signatures on a petition asking the vote, at the next Commissioners Court meeting Monday. If all is found to be in order the election will be called for the next-permittable election day, the third Saturday in January.

Voters in Olden, Ranger, Desdemona and Lake Leon vote in Justice Precinct Two. A total of 84 qualified signatures are needed.

Cisco will open its 1982-83 season with "Dark of the Moon," a drama by Howard Richardson and William Berney set among the superstitious mountain folk of the Smokeys. The story is based on the legend of Barbara Allen and is a blend of comedy, serious drama, and fantasy in which music and

dance play an important role. Performances will be given Thursday, Friday and Saturday, October 28, 29 and 30, with dinner served at 7:00 p.m. Tickets are \$8.00 for dinner and show. For reservations call (817)442-2567 during business hours or 442-2589 after 5 p.m. and on weekends.

Barbara Allen (Mary McGrew) and John the Witch Boy (Stan Davis) talk about the rumors calling him a witch in a scene from "Dark of the Moon" for the Roof Garden Dinner Theatre.

The Dark Witch (Arlieta Thomas) and the Fair Witch (Cindy Foster) bargain with Conjur Man (John Scott) for the life of Barbara Allen in a scene from "Dark of the Moon."

OBITUARY

Services For Millard Slaughter Are Tuesday

Funeral services for Millard Slaughter, 75, of Cisco, a retired poultry dealer, were at 10:30 a.m. Tuesday at East Cisco Baptist Church, directed by Cisco Funeral Home. The Rev. Arno Bentley, pastor, officiated, assisted by Bennie Hagan. Burial was in Oakwood Cemetery.

Mr. Slaughter died at 12:15 a.m. Monday at Cisco Nursing Center after a two-month illness.

He was born February 22, 1907, in Eastland County. He married Goldia B. Whisenand on February 21, 1923, in Dublin. A lifelong Eastland County resident, he retired in 1959. He was a member of East Cisco Baptist Church.

Survivors include his wife; two sons, John of Fredericksburg and Jerry of Westminster, Calif.; a brother, Ellis of Corsicana; four sisters, Bill Kirby of Eastland, Gladys Brantley, Verlie Swinson and Minnie Barnett, all of Abilene; four grandchildren and a great-grandchild.

"THERE'S ONE NEAR YOU"

Farm Bureau President Supports Amendment Three

Ernest Reich of Cisco, president of the Eastland County Farm Bureau, has announced support for proposed Constitutional Amendment Three, saying that passage of Proposition Three would be a positive step toward keeping a viable agricultural industry in Texas.

Proposition Three poses to correct a problem caused by a legal interpretation of the tax exemption for agricultural machinery and equipment, and is one of six proposed Constitutional Amendments to be considered by Texas voters on November 2nd.

This equipment is currently taxed inconsistently across the state. A 1982 At-

orney General's opinion held that the statutory exemption is limited in dollar amount and doesn't apply to combined agricultural operations, not even to family groups.

"Any producer of any product must recover the cost of production, including taxes, and show some profit, if he is to stay in business," Mr. Reich said. "Without passage of Proposition Three which would correct the property tax exemption on agricultural machinery

and equipment, some producers may conclude that they cannot afford to remain in business. Then, we'll see a drop in production which will also hurt our local economy."

"Many school districts and most counties do not tax agricultural machinery and equipment at all, while others do. With Proposition Three, we could assure fair, uniform tax treatment for all food producers," he said.

Mr. Reich said that total revenues generated by food and fiber taxes accounts for

less than one-eighth of one percent of all Texas property tax receipts each year.

Addressing the effect of the amendment on school districts, Reich said that schools' revenue losses will be partially offset by increased state aid when this equipment is removed from each school district's state aid formulas. "Statewide, this increased state money will average one-half of the lost revenues and some school districts will actually receive more aid than the revenue they will lose," he said.

"In addition to helping consumers and producers alike, encouraging a healthy agricultural industry in Texas will contribute to the vitality of the state's overall economy, thus increasing overall tax revenues from many other sources," Reich concluded.

The "Vote for 3 Committee" is chaired by State Senator John Wilson (D-LaGrange) and consists of representatives from agricultural groups who have united to support passage of this amendment.

Anita Powell To Hold Art Exhibit In Eastland

Anita Powell, a Mineral Wells resident, will have an art exhibit in the lobby of the Best Western Inn, Eastland, Friday, October 22 through Sunday, October 24.

Ms. Powell studied art under her father, a professional artist and sign painter and is married to an artist but is basically self taught.

She has been painting for a number of years but her art took a new direction in 1980. She has improved and is rapidly becoming one of the most promising artists in the state. Her work is collected throughout Texas, across the United States and in several places around the world.

Recently, she selected several of her finest works to be reproduced and her first lithographs are now available.

Each painting she completes incorporates into it a love and compassion to be shared with others.

Powell travels throughout Texas photographing rural settings to incorporate into

her paintings. Her strong desire to paint the "old home places" is indicative of her love of the past and her feeling of responsibility to capture and preserve our Texas heritage for the future. She is presently doing a painting of the Buddy Aaron home in Eastland.

The public is invited to come by and enjoy her work at the Best Western in Eastland October 22-24.

Children Encouraged To Participate In Fair Events

Come to the fair! Fall is in the air! Good times are there! Youngsters are invited to participate by entering fair events. Each child entering an event will receive a shiny new silver dollar-courtesy of the First National Bank of Cisco.

Willie's Ceramics will give a five dollar gift certificate good on green ware or finished items to each "Best of Show" winner. Also, for each five dollars of purchased items at Willie's Ceramics at the fair, one dollar will be refunded!

The whole family is invited and urged to "come hungry" and eat at the fair. The concession stand will be sponsored by the Cisco Band Boosters Association. This is another money making project to help raise \$10,000 to

send the band to the Houston Music Festival. Hamburgers, nachos, pizza, frito pie, french fries, homemade pies and brownies plus good things to drink will be sold by the Cisco Band Boosters Association. Come to the fair!

Admission to the fairgrounds from 5:00 p.m. until 9:00 p.m. Wednesday thru Friday evening and all day Saturday.

Children thru kindergarten - Free.
Grades one thru kindergarten - 50 cents
High school thru Adult - \$1.00

The County Fair Association has provided free admission tickets to the fair. County schools have distributed tickets and children are urged to use them for free admission.

OILFIELD DISPATCH

Cordova Resources Inc. of Dallas has filed for permit to drill the No. 1 E.C. Clark, a 2,700-ft. developmental well 2.1 miles northeast of Pioneer. Location is in a 100-acre lease in Eastland County's George Glick Survey, A-52. The well is in the North Pioneer Field.

The No. 1-A J.B. Boggs has been finaled by Katlaco Drilling Inc. of Tahoka.

It is a developmental well in the Kleiner Field, one mile north of Cisco. Drillsite is in a 40-acre lease in Eastland County's H&TCRR Survey, Sec. 83, Blk. 4.

Daily potential of 47 barrels of oil and 103,000 cubic feet of casinghead gas was posted with the Railroad

Commission. The well went to a 4,195-ft. bottom, and top of pay zone was logged at 3,480 feet. Production will be from perforations 3,480 to 3,506 feet into the wellbore.

At a location four miles south of Carbon, Morning Star Oil & Gas of Cisco has finaled a new oil producer in Eastland County's P.S. Hardy Survey, A-585.

The well is designated as the No. 1 Ned Morris, pumping oil at the rate of 30 barrels per day on open choke.

Location is in a 40 acre lease in the Eastland Regular (Caddo) Field. Bottomed at 3,600 feet, the well will produce from perforations 2,500 to 2,530 feet into the hole.

An Abilene-based operator has staked location for the No. 1 Johnnie Woods, a developmental well to be located two miles east of

Individual wants to purchase royalty or overrides. Call Jim McMillen 214-233-8752 or Bob Plunk 214-349-4988.

Eastland. With project total depth of 2,000 feet, the well is in a six-acre lease in the Loyce Field, John House Survey, A-159. The operator is Hailey Energy Corp.

Ensourc Inc. of Midland has filed first production figures on a new oil well in the Blind Hog Field. The No. 1 Doyal Lasater showed potential to make 25 barrels of oil and 200,000 cubic feet of casinghead gas per day on a 14/64 choke. Tubing pressure came in at 380 PSI.

The operator has 160 acres leased, with drillsite in Eastland County's J. Gaffey Survey, A-1004, four miles southwest of Rising Star.

The well will produce from an interval 3,209 to 3,237 feet into the wellbore. Total drilling depth was 3,302 feet.

The No. 7 V.L. Frazier "A" has been finaled by Jako Oil Co. of Texas, operating out of Denton.

It is a developmental well in the Madewell (Crosscut) Field, nine miles southwest of Cisco. Drillsite is in a 105-acre lease in Eastland

County's H&TCRR Survey, A-183.

Daily potential of 21 barrels of oil and 80 barrels of water was posted with the Railroad Commission. The well went to a 1,400-ft. bottom, and top of pay zone was logged at 1,358 feet. Production will be from perforations 1,358 to 1,360 feet into the wellbore.

J.W. Simpson of Graham has revealed plans to drill a 2,000-ft. developmental well in the Eastland Regular Field. The operator has 90 acres leased, with drillsite in the H&TCRR Survey, A-246, and has designated the venture as the No. 1-E Ford. Drillsite is one mile north of Romney.

At a location five miles south of Cisco, Louisiana Crude Oil & Gas of New Orleans has finaled a new oil producer in Eastland County.

The well is designated as the No. 1 Cash-Day. Flowing oil at the rate of eight barrels per day on a 1-in. choke, flowing tubing pressure at 40 PSI.

Location is in a 111-acre lease in the ETRR Survey, Sec. 20, Blk. 2.

Smile Energy of Breckenridge has filed first production figures on a new gas well in the Desdemona Field. The No. 1 Dillinder "D" showed potential to make 150,000 cubic feet of gas per day on a 3/8 choke. Absolute open flow came in at 393,000 CFD.

The operator has 20 acres leased, with drillsite in Eastland County's McLennan County School Land Survey, Sec. 22, six miles north of Gorman.

The well will produce from an interval 3,006 to 3,016 feet into the wellbore. Total drilling depth was 3,439 feet.

A 1,650-ft. developmental well is planned by Supreme Oil Co. of Abilene at a drillsite five miles east of Eastland. The location is in a 106-acre unit in the M-Lennan County School Land Survey, A-367. Well's designation is the No. 4 Lula Lee Canet "A". It is in the Eastland Regular Field.

The No. 1 Glass-Goforth has been finaled by Dallas Sunbelt Oil & Gas of Dallas.

It is a developmental well in the Northwest Ranger Field, seven miles southeast of Ranger. Drillsite is in a 160-acre lease in Eastland County's P.L. Leman Survey.

Daily potential of four barrels of oil and 70,000 CF casinghead gas per day was filed. Production will be from perforations 3,690 to 3,795 feet into the wellbore.

At a location seven miles northwest of Eastland, Dallas Sunbelt Oil & Gas Inc. of Dallas has finaled the No. 1 Ferguson, a wildcard for oil and gas.

The well showed potential for four barrels of oil per day and 200,000 CFD casinghead gas.

Location is in a 40-acre lease in the H&TCRR Survey, Sec. 39. Bottomed at 3,983 feet, the well will produce from perforations 1,692 to 1,702 feet into the hole.

Trenco Inc. of Abilene has filed first production figures on a new oil well in the Eastland Regular Field. The No. 1 Yeager showed potential to make three barrels of oil per day.

Drillsite is in Eastland County's TE&L County Lands Survey, A-3176, seven miles northwest from Cisco. The well will produce from an interval 3,212 to 4,178 feet.

The No. 1 J. Welch has

been finaled by F.W. Burger of Abilene.

It is a developmental well in the Fair (Marble Falls) Field, 10.5 miles south of Ranger. Drillsite is in a 622-acre lease in Eastland County's Harvey Kendrick Survey, A-340.

Daily potential of two barrels of oil was posted with the Railroad Commission. The well went to 3,666-ft. bottom, and top of pay zone was logged at 3,275 feet. Production will be perforations 3,275 to 3,285 feet into the wellbore.

At a location 10 miles south of Ranger, F.W. Burger of Abilene has finaled a new oil producer in the Fair (Marble Falls) Field.

The well is designated as the No. 1-3 E.G. Henderson, pumping oil at the rate of two barrels per day on a 12/64 choke.

Location is in a 108-acre lease in the Harvey Kendrick Survey, A-340. Bottomed at 3,653 feet, the well will produce from perforations 3,307 to 3,311 feet into the hole.

Hico Production Inc. of Denton has filed for permit to drill the No. 1 Oliver Trust, a 1,575-ft. developmental well eight miles southwest of Cisco. Location is in an 80-acre lease in Eastland County's H&TCRR Survey, Sec. 118, Blk. 3. The well is in the Eastland Regular Field.

Dallas Production Inc. of Dallas has filed first production figures on a new gas well in the Belding-Bend Conglomerate Field. The well showed to make 811,000 CF casinghead gas per day on a two inch choke. The operator has 11,825-acres leased, with drillsite in Palo Pinto County's Sec. 9, Blk 3, T&PRR Survey, three miles north of Brad. Designated as the No. 35 Set Ranch, it will produce from an interval 4,232-ft. to 4,242-ft. into the well. Total drilling depth was 4,400 feet. Absolute flow showed 1,110,000 CFD.

At a location eight miles west of Palo Pinto, R.F. Madera of Midland has finaled a new gas producer in Palo Pinto County's Palo Pinto Reg. Field.

The well is designated as the No. 1 Tristate Leasing, flowing gas at the rate of 162,000 CF on a one-inch choke. Absolute flow showed 169,000 CFD.

Location is in a 160-acre lease, in the Sec. 22, Blk. 2, T&P RR Survey. Bottomed at 4,632 feet, the well will produce from perforations 3,636-ft. to 4,177-ft. into the hole.

Chester R. Upham, Jr. of Mineral Wells has filed first production figures on a new gas well in the Tomerlin Field. The well showed potential to make 547,000 CFD on a .375 choke. Absolute open flow showed 760,000 CFD.

The operator has 416 acres leased with drillsite in Palo Pinto County's No. 6, A-963, T&P RR Survey, one mile southeast of Mineral Wells. The well is designated as the No. 2 Airport.

The Oil Boom - A Texas Legend

By Richard Mason
Field Representative
Southwest Collection, Texas
Tech University

It is the type of story that spawns a legend. One lone wildcat defies odds, the opi-

nions of geologists and common sense to open an oil field of outstanding proportions.

And that oilfield whisks the Allies to victory in World War I. Such are the legends of Ranger. The J.H. Mc-

Cleskey well brightened a drought-ridden October 1917 to set the world astir and produce, in the words of one Texas thesis writer, "the greatest oil boom the world has ever known."

Then, in short order, a village of 700 is flooded with people. And in the fields around town, 400 oil wells are drilled in nine months. So go the legends. Talk in the oil patch has always been a curious mixture of fact and fiction.

Imagine for a moment the Ranger of 1919 as a visitor would have seen it. Leaving the train and walking through the passenger depot, our visitor would be greeted by a wall of sound and the sight of people standing along the walls, seated on suitcases or crowded on wooden benches.

Pieces of conversation would reach his ears. A railroad official on the left is saying that the Ranger depot is earning \$750,000 monthly in rail receipts. That sum is greater than the depots in Dallas, Fort Worth or New Orleans, the official says.

Outside the depot traffic and people are everywhere.

Along the rail siding, teamster jockey for position to unload endless lines of box and flatcars which seemed to be overflowing with every conceivable piece of equipment or furniture.

These are a small portion of the estimated 2,000 teams and 1,500 trucks with ferry supplies to the oil patch west and north of town. Some of Ranger's 25 oil supply firms are located across from the tracks and contribute to congestion on the streets.

The streets grow less crowded as the visitor strolls farther into town. Stopping to buy a Ranger Times, the visitor reads that Eastland and Stephens Counties are host to an estimated \$500 million oil industry.

And here on another page is an item denoting that Ranger's five banks now have \$8 million on deposit. The visitor hitches a ride out to the oilfield, marvelling at the many box houses undergoing construction in the remotest sections of the city. A partial tour of the oil field reveals ten truck lines overburdened from production despite the eight gasoline plants in the countryside processing some of the crude.

The teamster offering the ride is an old-timer and informs our visitor that just two years ago, Ranger was home for 700 people, and smiles when the visitor shakes his head in quiet disbelief.

In 1920, the United States

were nearly simultaneous occurrences. For the first time, West Texas attracted interest as an oil-bearing province. The result was astounding.

Historians are just now grappling with the question of petroleum's role in the development of Texas. While most history texts contain several pages on the cattle industry, the significance of petroleum is rarely acknowledged. It has become evident in recent years that Texas petroleum development occurred in a series of cycles during the 20th Century. For lack of a better term, these cycles have been called drilling booms.

And here lies the significance of Ranger. The Ranger pool was first in a series of major discoveries that opened the abundant oil fields of West Texas. Ranger was the watershed event in a drilling boom that lasted from 1910 to 1930.

That boom inched south from Wichita Falls after 1913 and was at first overshadowed by the enormous production in the Oklahoma oil fields. In 1919, however, the first West Texas drilling boom mushroomed in North Central Texas and arced west across the state. Subsequent discoveries were located near Colorado City (1921), Big Lake (1923), and McCamey (1926) while operators were simultaneously uncovering enormous pools in Winkler, Pecos, and Crane Counties as well as the Texas Panhandle.

In the past, chroniclers have examined these booms as individual events. There are accounts of Burkburnett, Breckenridge and Ranger. Yet the foremost significance of the three is their interconnection. These

North Central Texas oil fields does not lie in numbers. Rather, it is a product of effect. In 1917, America was a nation powered by coal. After Ranger, people believed in the future of petroleum. The long range view will show that events in Ranger and West Texas during the 1920 reflects an overall transition in the American economy. Between 1910 and 1930, the United States underwent an energy revolution. The power of coal and wood was discarded for the mobility of petroleum.

Large scale financial enterprise shifted toward the fields of petroleum and

transportation. The automobile arrived en masse on American streets. Large public utilities formed during the 1920s to monopolize the distribution of energy to individual homes.

And it is this grand transition to the modern era that best underlines the significance of events in Ranger. The year 1919, with its incessant rains and exuberant excesses, found Ranger and West Texas poised on the edge of the future. Ranger put West Texas on the oil producers map. Meanwhile, the destiny of the American nation was pivoting in the oil fields of Texas.

transportation. The automobile arrived en masse on American streets. Large public utilities formed during the 1920s to monopolize the distribution of energy to individual homes.

CJC Offers Petroleum Engineering Course

Cisco Junior College will offer "Introduction to Petroleum Engineering" in Cisco on October 26, 28, November 2 and 4 from 6:30-9:30 p.m. in the Science Hall Lecture Room.

"Introduction to Petroleum Engineering" covers the fundamentals of petroleum engineering and is a non-technical course designed to familiarize a person with oilfield practices and terminology. The instructor for the course is Robert B. Arnot, consultant engineer for W.G. Arnot, Jr. of Breckenridge. Fee for the 12 hour course is \$60.00.

This is an adult education course and all attending will receive a Certificate of Completion with Continuing Education Units. To register or for more information call Mrs. Watts at 817/442-2567, extension 113.

A.J. Luna - A Musician Of Note

By Viola Payne
Persons at the Eastland First Baptist Church, during a worship service in September, noticed A.J. Luna step down from the Choir and pick up his saxophone. He took his place in the Church Orchestra, and the mellow tones of his sax blended with other in-

struments in an arrangement he had created. It was obvious that Eastland had gained another accomplished musician.

Music has always been a part of the A.J. Luna family. Luna studied at the Air Force Band School in Washington, D.C., and after graduation spent 20 years

playing with the noted Air Force Band.

He mentions that the Glen Miller's band was the first Air Force Band (Dance Band), during World War II. The organization is still going strong, and is now known as the "Airmen of Note".

Besides the saxophone, Luna plays clarinet, flute,

piano, bass, and writes and arranges music. His wife, Ruby Luna, writes poems and songs. One of the Luna sons - David Nathan, is a student at Eastland Hi. David plays clarinet and baritone horn in the School Band. Another son, Gerry, lives with his wife Geneva in Abilene.

Luna has opened a Music Studio in his home at 205 S. Ostrom, and will teach Band instruments and piano in addition to music theory, harmony, and arranging.

Ruby Luna works with the West Central Home Health Agency, and enjoys it very much. In Kentucky, where the Lunas lived before moving to Eastland June 15, both work for hospitals.

The First Baptist Church of Eastland was a major factor in the Luna's decision to establish their home here. After his retirement from the Air Force in 1969 the family lived in various places, with the last being Paducah, Ky. They had many interesting experiences, but never found a place they really wanted as a permanent home.

In Paducah, however, they became close friends with a retired Baptist minister, and he assisted in their conversion to the Baptist Church. They become dedicated members, and attended Churches even when traveling.

In early summer 1982 the family came to Eastland for a few days, and one Sunday morning Luna went to the First Baptist Church and quietly slipped into the back row. After the service he told his wife:

"We have found a Church home. We will stay in Eastland!"

That night the whole family went to the evening service. After hearing the Pastor's sermon, the wife agreed.

"You are right. We will move to Eastland."

"It looks like we have

finally settled down," says Luna. "And Ruby has 'come home' to be near her mother, Ada Blackstock, of Cisco.

Eastland is only a day's drive from some A.J. Luna's relatives, who live in various parts of New Mexico and the southwest. A.J. was one of nine children in the Jose Luna family of Carlsbad, New Mexico. Jose and Nicha Luna, A.J.'s parents - came to the U.S. from Mexico in 1919, during the Pancho Villa revolution.

At that time there were no restrictions on Border crossings, and the Lunas came across at El Paso. They settled in Carlsbad, where A.J. was born some years later. It was undoubtedly a safer life than existing under various revolutions in the Mexican State of Chihuahua.

A.J. remembers that his father played the guitar, and that the family made up an orchestra composed of various instruments.

"As a kid I used to attend all of those concerts," says Luna. "How I envied the musicians! What a great impression their music made on me.

"What a way to spend your hitch in the army!" I thought. I had an older brother who served with Patton in Europe, and I decided I should do something different with my career."

In High School A.J. Luna lettered in track and boxing, and was a Drum Major in the Band. He also played clarinet in a concert Band.

While in High School he also started his own Band (dance), and in this he played the saxophone.

By that time the war was over, but music still looked promising. After graduation Luna played professionally in Night Clubs for a year, but couldn't forget The Air Force Band. It wasn't surprising that he decided to join the Air Force as a Bandman.

In Sept. 1949 he auditioned for the Air Force Band. Recognizing his talent, Air Force officials sent him to the school in Washington, D.C. for intensive training.

The Air Force Band School was different for his family and New Mexico. But he enjoyed his music studies very much, and excelled in them. After a training period he was placed in a performing Band.

While playing at a U.S.O. dance in Roswell, New Mexico, A.J. Luna met a girl from Moran, Tex. who was named Ruby Lee Holler. It didn't take him long to make up his mind about this young lady. His courtship was short - three days - but the marriage has lasted a long time - 31 years.

The lives of A.J. and Ruby Luna have included adventure, music, and moves to places in different parts of the world. They lived in Anchorage, Alaska, Puerto

Rico, California, Louisiana, Illinois, and New Mexico.

During his years with the Air Force Band Luna played for many functions, including programs for three Presidents. He played the clarinet for President Truman at a Parade in Arlington, Va., for Lyndon Johnson (when Vice President) in Missouri, and President Eisenhower at a ribbon-cutting ceremony at the dedication of a new Freeway.

In Illinois Luna was stationed with Harry James's son, Harry Jr. He also played for other public figures such as Bob Hope, Danny Thomas and Dick Contino.

During the Air Force days, besides her work as a mother and homemaker, Ruby Luna wrote novels, poetry, and songs. She composed 24 songs during the tour of duty in Louisiana. While studying music at the University of California at Sacramento, both of the Lunas teamed up to write songs for Mr. Luna's assignments.

In 1969 Luna decided to retire from the Air Force. The family moved to Reno, Nevada, then to California, to Kentucky and finally to Eastland.

The Luna are pleased about their home here, and want to use their talents to benefit the church and community in every way possible. Luna has a number of

A. J. Luna

ideas on compositions and arrangements which can be presented in future musical programs.

"I'm working on some duets right now," he says.

"There are some good musicians here in Eastland - people who can play almost anything. I'm glad we settled in a place where there is so much music."

Letter To The Editor

Placing HBO available, if desired by persons on the cable service in this area was one thing, but why was it necessary to change the entire set-up just to install one new station?

Ever since this change-over was started, our entire cable service and reception has taken a very drastic change for the worse! Why couldn't HBO have been put on channel 9 on our dials which was already available since we didn't receive correct weather on it anyway

and left our other channels and stations where they were? With all the moving around etc. our reception part of the stations is either very poor or out half of the time, and no program listing is correct now. TV Guide is wrong on most of them, and the programs in the Abilene paper do not correspond with stations or channels we receive on the cable in the Cisco, Eastland, Ranger area.

I presume the customers are expected to just struggle

along with what-ever we find, and chalk this all up to one more service company monopoly policy!

I object to the manner and method the entire matter was handled and rail-roaded over the cable customers. Am wondering how soon a substantial rate increase will be imposed on us for increasing poor cable reception.

Roof Garden Theatre Opens 1982-83 Season

The award winning Roof Garden Dinner Theatre in Cisco will open its 1982-83 season with *Dark of the Moon*, a drama by Howard Richardson and William Berney set among the superstitious mountain folk of the Smokeys. The story is based on the legend of Barbara Allen and is a blend of comedy, serious drama, and

fantasy in which music and dance play an important role. Performances will be given Thursday, Friday, and Saturday, October 28, 29, and 30, with dinner served at 7:00 p.m. Tickets are \$8.00 for dinner and show. For reservations call (817) 442-2567 during business hours or 442-2589 after 5 p.m. and on weekends.

CJC DANCERS—John the Witch Boy (Stan Davis) twirls Barbara Allen (Mary McGrew) at a square dance.

Easter Society Helps To Provide Hearing Aids

The Texas Easter Seal Society, now in its 54th year of service to disabled Texans, also provides help for the hard of hearing.

"We provide for the services of an audiologist, for the hearing aid fitting, the actual equipment and the ear mold. However, the total cost must not exceed financial limits set by the Board of Directors," said Mary Jo Williams, Eastland County Easter Seal representative. "We have a maximum cost limit per patient, so that we may serve many individuals, not just a few."

All service requests must be authorized by a licensed physician and verified by an audiologist certified with the American Speech and Hearing Association.

The Texas Easter Seal Society also provides for the rental or purchase of orthopedic equipment, speech, occupational and physical therapy, and transportation to treatment centers.

For further information concerning services, call Mary Jo Williams or toll-free 1-800-492-5555.

Managing Arthritis Requires Doctor-Patient Teamwork

Managing arthritis requires a team approach and depends as much as the arthritis sufferer as on the doctor.

"Arthritis is a term applied to more than 100 difference diseases, each of which—in some way—affects the joints. Americans spend an estimated \$4 billion each year on arthritis care and relief, making it an extremely costly health problem," explains Dr. Mary Ann Shirer, health education

specialist with the Texas Agricultural Extension Service, Texas A&M University System.

By practicing "self-management," arthritis sufferers can do much to help themselves live a normal life.

"With your doctor's help, decide on a self-management program that best suits your needs," Shirer suggests.

Self-management activities include:

- Breaking the pain/depression/stress cycle through either medication, relaxation techniques, or just keeping your mind busy on other things.

- Exercise—although exercise is vitally important to keep joints flexible, you must also know when not to exercise. If a joint is red and hot, exercise should be limited to minimal movement.

- Protect affected joints from injury and over-exertion by proper lifting techniques, avoiding prolonged periods of maintaining the same joint position, and balancing work with rest to conserve energy and strength.

- Practice good eating habits and maintain ideal body weight. With the exception of gout, there is no concrete scientific evidence that eating or not eating certain foods affects arthritis.

- Many types of heat help arthritis pain. Be careful not to cause burn, however.

- Cold compresses will have numbing effect and give relief from pain for some arthritis sufferers.

- Good posture—whether resting, sleeping, standing, or walking—is vitally important for people with any kind of arthritis.

"Finally, it is important to work closely with your doctor. Since there are many types of arthritis, the first step is an accurate diagnosis. Your local Arthritis Foundation office also can help you in managing arthritis," Shirer says.

Head On

By Ray Boyd
Why Republican

The northeastern liberals who control the democratic party has had a picnic the last twenty years or so. They control the house yet and have just about run the country into bankruptcy.

They got control by catering to the blacks and the South (including Texas) had always voted democratic (because papa did), but got run off and left by the liberal democrats.

If the South (who are not liberal) want to get the government back on the right track, will have to follow the lead of John Connally, bolt the democratic party and vote republican.

We have too many congressman in the South (like Bentsen) who are voting with the liberals on each occasion and he gets on TV and says he is a conservative.

You know, the people of the South have had their head in the sand. How many times are we going to have our noses rubbed in it until we see the light.

Texans especially do not go along with the democratic platform, which (1) is for continued forced busing for racial balance; (2) against constitutional amendment to require a balanced budget; (3) Against right to work law; (4) for deficit spending to increase public sector employment (aquick fix); (5) for federal funded abortions, as well as many other give away programs that never get to the needy.

Let's put conservative people in our government who will get us out of the GIVE AWAY, TAKE AWAY, AND THROW AWAY situations that the democrats have put us in.

ALL I WANT FOR CHRISTMAS IS MY TWO FRONT TEETH!

Remember that song? If you wear dentures, you know how important any two teeth are. If your dentures are chipped, broken, stained, or just don't fit right or feel good, then let us help you get your smile in shape.

We answer questions: "WHY CAN'T I BITE AN APPLE?" You can! If you can't, you need some adjustments. "I CANT AFFORD IT," you say. Yes, you can! We will save you 50% to 75% of your denture cost.

We do relining, repairs, take impressions, cleaning, do adjustments, and replace those old dentures with properly fitting plates. Your dentures should fit as snugly as your wedding ring. Come and see us, we are here to help.

Get your million dollar smile ready for the holidays and get ready to take a big bite out of that holiday turkey, as well as your denture cost!

13940 Peyton No. 110 Dallas, Tx 75240

Throughout the world, American rose hybridizers are recognized as the leaders in the development of superior rose varieties. They have taken the once delicate rose and endowed it with many superior characteristics. Today's top American Roses are easier to grow, require less care, yet produce the most beautiful flowers in all the world. And they are hardy under even the toughest growing conditions.

But every American rose variety isn't equal in its ability to produce superior

growth and blooming without special growing conditions or constant care and attention. Each year the All-American Rose selections committee evaluates newly developed roses which have undergone two years of thorough testing in twenty-five official test gardens throughout the United States. Only roses which have performed exceptionally well and possess superior growth and blooming traits are eligible for the final balloting by the experts on the committee. The winners receive the highly coveted AARS seal.

PEGGY LEE THE 1983 AMERICAN BEAUTY ROSE OF THE YEAR. Introducing the most beautiful pink Hybrid Tea Rose of all time with blooms so enchanting they're like a song that haunts your memory. The big flowers are 4 1/2-5 1/2" across with 30 exceptionally broad petals and are borne in profusion on bushy, upright-spreading, well-branched plants. Abundant medium green foliage. Large, long, pointed, urn-shaped buds. Delightful, delicate fragrance. All-in-all a truly classic rose well

deserving of special recognition as the American Beauty 1983 Rose-of-the-Year. Just like the all-time great entertainer for which this new rose has been named, it is destined to become a special favorite of everyone who truly appreciates style, grace and charm.

MORNING SUN THE AMERICAN BEAUTY 1983 SPECIAL AWARD ROSE. Gardeners are constantly on the search for increased hardiness in a yellow rose...and this winner of American Beauty Rose 1983 Special Award has that special quality - above average hardiness. Its large 40 petal medium yellow flowers are abundant and long-lasting. Glossy foliage and long, low-throned cutting stems add to the special qualities which make Morning Sun especially outstanding for bouquets. The upright bushy plants are robust and disease resistant.

Good Gardening Until Next Week from Your Garden Editor!

Insects—since the time of the earliest settlers—have influenced the types of homes we build, the furnishings we choose, and our housecleaning habits. When the Pilgrims first set up housekeeping in Plymouth Colony, it is almost certain that the knitted shawls and blankets they unpacked were infested with moths.

Early American methods for controlling moths were extremely primitive. Tobacco and cedar twigs were the "moth balls" of the 1700s. It was also thought that tar paper, used to line closets and trunks, would keep moths away. And it was not unusual for the early American housewife to make frequent inspections of clothing and furnishings followed by beating, brushing and sunning those items most susceptible to moths.

Carpet beetles—more abundant and far more voracious than moths—were an even bigger problem to colonists. In addition to eating clothing and furnishings, they enjoyed feeding on feathers, fur, tortoise shell, ivory, hair and bristles.

Recommended remedies for carpet beetles included two thorough housecleanings a year in spring and fall, and frequent rug beatings. Housewives are also counseled to place tar paper under their carpets. When beetles were found in the carpet, a damp cloth was placed over them and ironed

with a hot iron. This generated steam which killed the insects.

The bed may not have been invented if it were not for crawling insects and rodents and the use of canopies and draperies around the beds was not, at first, a decoration but a practical addition to keep out insects. In the 1800s, when it was discovered that mosquitoes carried deadly typhus and other diseases, netting became a standard summer-time accessory for beds, cribs and baby carriages.

Bedbugs were another insect problem faced by the colonists. They often placed the legs of their wooden bedsteads in cups of kerosene to keep bedbugs away. The iron bed became an overnight sensation in the mid-1800s, when early American advertising proclaimed the new bed "entirely free from insects."

Early methods of fly control may seem old-fashioned now, but they were important functions in the home of the colonists. Cooks often used a "shoo-fly chair" to protect themselves and the food they prepared from flies. The chair had a foot treadle

which operated a fringed rod, swinging it back and forth, over the cook's head. It wasn't until the early 1900s that window screens, which first appeared in American in 1881, became a must for every home.

Today, many of the insect problems that faced the colonists are under control. Through use of pesticides, many insect-borne diseases, such as malaria and typhus, can be controlled. However, heavy concentration of population and industry breed conditions that continue to cause insect problems in our everyday lives.

Modern remedies have been carefully developed and researched. Pesticides, such as Diazinon, when properly applied will help keep your home bug free.

To properly spray your home's foundation pay particular attention to corners, door and basement window moldings, and visible cracks and mortar-chinks. Walk around the house spraying the foundation three to four inches above the ground. Also, be sure to wet the soil

border along the foundation wall. The average foundation spraying requires about six gallons of mixture to produce an effective barrier. Methods of insect control have come a long way since early American times. And it's certain that new and better methods will evolve as insects continue to be a part of our lives at home.

Good Gardening Until Next Week From Your Garden Editor, Ted Brice.

An old flame can break your heart.
