BY HERREL HALLMARK

WELL, ONE holiday is over and another is approaching fast. I hope your family had a good Thanksgiving. We are thankful for the many blessings we enjoy in this country.

Sometimes it seems a shame that only one day a year is officially set aside for thanks giving. We should give thanks every day of our

MANY PEOPLE are beginning to put up their Christmas decorations since Thanksgiving is now officially over. Plans for downtown Christmas decorations call for the lights to be hung and plugged in Monday morning.

JUST IN TIME to be considered a type of Christmas present for Cisco will be the opening of the new bank

building. First National Bank is planning to be open for business in its new location on Monday, December

The new building is an addition Cisco should be proud

COLD WEATHER and rain, with some sleet and icy roads, came to the Cisco area Wednesday afternoon and night. By Thursday, the weather had warmed enough to do away with icy roads, but it continued raining Thursday and Friday, with forecasts calling for continued rain through Satur-

Let's hope it does not get cold enough to freeze the wet highways, since there will be lots of people returning home following the holidays.

Lobos Open Basketball Season With 42-39 Win

The Cisco Lobos opened the 1982-83 season with a 42-39 victory over Bangs.

The Lobos rebounded from a 23 to 16 deficit at halftime for the three point victory. Kendall Anderson led the Lobos with 13 points followed by Randall Rattan with ten points. The Lobos tightened down the defense in the second half and shut down the explosive attack of the Dragons.

The Lobos Junior Varsity also rallied from a nine point halftime deficit for a 44 to 38 victory. The Lobos were led by Joe Perry, Johnny Ramirez and Patrick Qualls.

The Lobos and Queens next game will be a return trip to Bangs in Bangs next Tuesday. The Junior Varisty girls will start at 5:00 p.m. followed by the varsity girls and varsity boys. The Lobos and Queens will then return to play in the CJC Classic December 2, 3, 4. The Queens will play at 11:00 a.m. Thursday followed by

have the following divisions: floats, bands, costumes, decorated vehicles, children's decorated vehicles and pets. Anyone interested in

This year's parade will

entering one of these divi-sions is requested to call the Chamber office by noon, Friday, December 3.

Boy Scouts, Girl Scouts are encouraged to enter along with all clubs and Civic League.

Those entering the parade are requested to meet at 9:30 a.m. at the old Hilton Hotel

to be assigned numbers. Santa Claus will make his annual appearance in the parade and will be available afterwards for children's re-

He will also be in town on the nights of December 9 and 16, when local businesses are planning to stay open until 9 p.m. for shopper's conve-

Wranglers Win Over Opponents Tuesday

By Bill Roberts

Cisco Junior College's 1-2 basketball punch worked again Tuesday night in the CJC Gym-and Navarro College and Panola College got the short end of the deal.

The Lady Wranglers opened play with a big revenge win over Navarro, 80-67, while Coach Tommy Collins Wranglers posted a 73-71 victory over Panola.

With a 7-4 record, the Lady Wranglers of Coach Ronnie Hearne opened play Friday in the Western Classic at Snyder against Amarillo. CJC and Amarillo Nov. 4 in the Amarillo Classic with the Panhandle team downing the Lady Wranglers 57-49. Saturday, CJC plays Howard

College. The CJC men led by as much as nine points in the second half but had to hang on for the victory over Panolatheir sixth win at home against only one loss. The Wranglers are now 7-3 for the season. They opened play at 2 p.m. Thanksgiving Day against highly-rated Moberly College of Moberly, Mo., in the Barton County Tournament at Great Bend,

une of the fantasy-adv ever n millions wh stay rooted astonisl movies

of began to pull away with 3:51 left in the first half and led by 15 at halftime, 43-28. The Lady Wranglers pushed the lead to as much as 20 points three times in the second half.

Sophomore center Bruce Coleman pumped in 28 points to boost his season scoring average to 21.5 points a game. He was joined in double figures by freshman David Jones with 18 and guard James Evans with 12. Panola led by one at

halftime, 38-37, but two buckets by Kenneth Hill and one each from Teddy Butler and Jones and six free throws later, CJC led by seven at the 10:11, 55-48.

The opponents pulled even at 5:01, 63-63, but Jones pushed in two buckets and Coleman hit two free throws to push the lead back to six, four free throws at 0:51 and 0:24 kept space with the

Ponies and helped preserve the two-point win.

Wednesday, Dec. 1, to open Northern Junior College Athletic Association play against McLennan Community College. The women will play at 6 p.m. and the men at 8 p.m.

Two College **Students Arrested For Burglary**

Two Cisco Junior College students were arrested early Wednesday morning in connection with the burglary of Cisco High School, reported Police Officer Risa Livingston. Two vending machines at the high school were broken into early Wednesday and money believed taken in the burglary was recovered with the pairs arrest.

Suspects are an 18 year old from Stephenville and a 20 year old from Naples, Texas. Bond was set at \$2,500 each by Justice of the Peace I.W.

Charges against the suspects were to have been filed later in the week.

'Epidemic' Will Be Shown By **War-On-Drugs Committee**

EPIDEMIC! examines re-

cent research on the amount

of youthful alcohol consump-

tion in this country: 90% of

all kids have had at least one

drink, most starting in grade

school or junior high, and two-thirds of our teensgers

are regular drinkers. The deadly combination of drink-

ing and driving is also ex-

plored through the story of

an eighteen-year-old boy

alcohol-related traffic acci-

"Epidemic"

What is it? It's a film portion of a program to which all of Eastland County is invited to attend Saturday, Dec. 4, beginning at 7 p.m. at Siebert Elementary School

Sponsored by the County War-on-Drugs Committee, the program will feature the 27-minute film, a presentation by TANE (Texas Alcohol Narcotic Education), a presentation by M.A.D.D. (Mothers Against Drunk Drivers), and a presentation by County Sheriff John Morren and a County Jail Inmate on the consequences of drug abuse.

There is no admission charge and the public is urged to attend.

The film "Epidemic" is intended for upper elementary, junior high, and high school students, young adults, parents, and all concerned citizens.

EPIDEMIC! DRUGS AND ALCOHOL is a 27-minute film about the use of mind-altering drugs by young people. Statistics presented show that, among young people, cocaine use has doubled; one in ten high school seniors use "pot" regularly; "angel dust" sends hundreds to the hospital; the use of quaaludes is rising; there are over 50,000 valium overdoses annually; and more kids are drinking and drinking more often than ever

before. The program offers an indepth look at two of the most abused drugs, marijuana and alcohol. Interviews with physicians and psychiatrists bring to light recent medical findings concerning marijuana usage and its suspected effects on the lungs, the memory, and the reproductive system. The film discusses the story of a young man who smoked 'pot" for most of ten years and lost the ability to fully remember his past. Also documented is a study about marijuana smoking in the

King and Queen Lobo Will Be Crowned Dec. 2

King and Queen Lobo LI and their court will be presented Thursday, December 2, at 7:30 p.m. in the Harrell Fine Arts Auditorium on the Cisco

Junior College campus. The nominees for the honor of King and Queen Lobo are chosen by the Senior class. The King and Queen are then elected by the student body of Cisco

High School. Nominees chosen for

Queen Lobo are: Shawn

Fisher, daughter of Mr. and Mrs. Clyde Fisher; Tracy Lane, daughter of Mr. and Mrs. Paul Lane; Tricia Zellman, daughter of Mr. and Mrs. Gene Zellman; Lezlea Hull, daughter of Mr. and Mrs. Fred Hull; and Kim Chambers, daughter of Mr. and Mrs. Van

Lobo are: Brian Fleming, son of Mr. and Mrs. Morgan Fleming; Mark Petree, son of Mr. and Mrs. Joe Petree;

Chambers. Nominees chosen for King

CJC Will Host Annual High School Tournament

Cisco Junior College will host the second annual CJC High School Invitational play at 9:30 p.m. Basketball Tournament beginning Thursday, December 2, with both boys

and girls scheduled to play. The Cisco High School girls team will battle Clyde in the opening game. Tipoff time will be 11 a.m. The Lobo boys also meet Clyde in the 12:30 p.m. game.

At 2 p.m. DeLeon faces Ranger's girls team while the boys meet in a 3:30 p.m.

Baird meets Albany in the 5 p.m. girls game, with the boys from the two schools playing at 6:30 p.m.

Accident Reported

Automobiles driven by Marshal Wadley and Charlie Greenhaw, both of Cisco, were in collision at the intersection of 8th Street and Avenue E last Wednesday afternoon at 1:55 p.m.

Although both cars had a lot of damage, there were no injuries reported.

Rising Star goes against Early's girls at 8 p.m. and the Rising Star-Clyde boys

The second round gets underway at 11 a.m. Friday int he losers bracket with winners bracket play starting at 2 p.m. Third and fourth round play begins Saturday, with a 9:30 a.m. tipoff time.

The girls championship game is set for 6:30 p.m. Saturday, with the boys title game scheduled for 8 p.m.

Public Meeting Set Monday For Parents & Citizens

There will be a public meeting of all interested parents and citizens at the Corral Room Monday, November 29, 1982, at 7 p.m. All parents, ex-students, students and citizens interested in the education and equal treatment of their children are invited to at-

tend.

Jason Potter, nephew of Mr. and Mrs. Benny Gary; Randall Rattan, son of Mr. and Mrs. Cleatus Rattan; and Greg Sipe, son of Rev. and Mrs. Buddy Sipe.

The newly elected king will be crowned by Mr. Mike Turner, Cisco High School principal. The king will then crown the queen.

Other members of the court are representatives, who are chosen by their respective classes, from prekindergarten through Cisco

Junior College.
The Junior Class will present a program for the entertainment of King and Queen Lobo. The program will be "Alice", a mini-musical adaptation of Alice in Wonderland. This musical is full of happy surprises and dialogue. charming Everyone's favorite characters are included in the stage action. The Cisco High Jazz Band will also be a

part of the program. Tickets are two dollars (\$2.00) for adults and one dollar (\$1.00) for students. Tickets are available from members of the Junior Class and will also be available at the door that night.

Railroad Commission Grants Lone Star Gas Rate Increase

The Railroad Commission of Texas Monday approved a \$42.9 million city gate rate increase for Lone Star Gas Company. The increase is the amount agreed to between cities represented by the Texas Municipal League and Lone Star, and is reflected in a settlement agreement presented to the Railroad Commission in public hearing held in September. The Commispercent recovery of the utility's cost of purchased gas.

The revenue increase is less than half of the 100 million originally requested by the company on June 25.

The ruling which took immediate effect raised the base city gate rate charge to \$4.02 for each thousand cubic feet of gas, an increase of 32 cents. The typical residential customer using 6000 cubic feet of gas per month will pay an additional \$1.92. a 6.6 percent increase. Commercial customers consum-

ing 37,000 cubic feet monthly would have a bill increase of \$12.00, a 7.1 percent in-

The city gate rate is the

HOUSE PLANTS

winter it likes to be 59 to 64

copular house plants is the evieria or Snake Plant

rect name is Sanservieria Trifasciata and is a member of the Liliaceae family. The Sanseviera is a native to East Africa and is a rebust plant. It is a warm-loving plant and should be kept in a sunny or light shaded location. In no instance should it be kept too wet. Dry summer type air suits it very well. When kept in a cool place, it whould be watered even less often than usual. As a pot plant, the Sansevieria may

grow to a height of three to

four feet.

Now lets look at the Split Leaf Pholodendron. This plant is a native to Brazil and is one of the most popular of all house plants today. The Philodendron can have enormous leaves reaching two feet across and three feet long. It likes medium to high light near a bright east or south window and prefers a temperature of 65 to 85 degrees. Allow the surface of the potting mixture to dry out between watering and fertilize every two months with a water soluable fertilizer. This plant likes humidity of 25% or more. This is a very spreading plant and can be trained to grow on a toteum

of wires by tieing it. Remember do not over water your plants while they are in the house this winter and feed them not only with fertilizer but also with the proper amount of light.

So long until next week from your garden editor, Ted Brice!

The Garden Editor

Ted Brice, the Garden

Since we have moved our inta inside to protect them from the winters cold temperature I am devoting this column to house plants, including information on the three most popular ones. Generally speaking, most house plants are killed by too much T.L.C. (tender leving care). Usually house plants are killed by over wating and NOT under watering. Let's first look at the rubber plnt. The correct name for the rubber plant is Ficus Elastica and it is a member of the Moraceae family. it is a native to Southeast Asia and the Maley Archipelago regions where it grows to a height of 65 to 80 feet. It likes half-shaded and warm places. During the summer it requires a great deal of water and can be kep outside during this time. During the

Another of the more

amount that the company's transmission division is permitted to charge the distribution divisions for gas delivered for sale to residential and commercial customers and for distribution company-used and unaccounted-for gas. The

transmission division buys

gas from producers and transports it to 536 cities and

towns served in Texas by Lone Star Gas Co. The point at which city distribution

systems purchase the gas from the transmission division for customer consumption is the city gate.

ice Storms May Result In Damage To Landscapes

Fall has come and gone, an in its path has left us with the cold of winter. With the arrival of winter comes the chance of ice storms. Aside from the dangerous and unpleasant nature of ice storms they can also be damaging to the landscape.

Ice storms can create havoc with the shade trees in the landscape. By careful pruning and good cultural practices many of the trees can be saved within a year or two the damage will no longer be visable.

The first step is to carefully survey the damage and plan the needed corrective pruning. Damaged limbs should be removed at the point of origin or just above a good side branch. Don't allow stubs to remain unless absolutely necessary.

Sometimes, due to extremely severe damage, it may be necessary to stub back a branch or main trunk. If this becomes necessary, the wound may be painted with a good tree wound dressing obtainable at any garden center or nursery. Continual pruning and attention is necessary under these conditions to prevent a proliferation of sucker growth at the end of the stub. Corrective pruning over a period of years will

overcome this problem. If a trunk of main scaffold branch has split due to the excessive weight of the ice, it is usually best to remove the portion of the trunk that has broken away. Cables and bolts may be used to pull the damaged trunk together but unless done by a professional tree man, the results are seldom satisfactory.

If the bark has been pulled loose along the side of a trunk due to a breaking limb.

be sure to smooth the torn area with a sharp knife or chisel. Do not use house paint or similar material or the oils can damage the growing tissue needed in healing the wound. In fact, recent research has shown that wound dressing is not necessary but may actually hinder healing. A clean, smooth wound will heal with

An application of complete fertilizer should be applied in late fall or winter to be followed in spring with an application of ammonium sulfate or other high nitrogen fertilizers to promote new growth in the storm damaged tree.

Little can be done just prior to the ice storm to prevent damage. Long term training and pruning of young trees to develop a sturdy structure will be helpful. Removal or shortening of limbs with weak crotches in matured trees may avoid severe damage. The ideal angle of lateral limb to main trunk is 90°. The smaller the angle the weaker the crotch is.

For more information contact your local County Extension office.

Gordon Spot the time to set out new trees.

After last year's bag bustin' pecan crop, the crop this year is unusually small. The Texas pecan crop will be around 25 million pounds statewide, about 60 percent below last year. The Oklahoma's crop yield is even less. They are expecting three to five million pounds, compared to last year's official 47 million

Last year produced a bumper pecan crop; therefore, this was expected to be a "light year" since pecans follow alternating heavy and light production year cycles. But, the dry summer and insect preblems in some areas set the crop back further. Some of the trees that overbore last year hardly have any nuts on them now. This is especially true of native pecans.

However, you will see a good supply of high quality pecans at the Eastland Cour ty Pecan Show this week. The show begins Thursday with the entries due by 4:00 p.m. Processing will be done Friday morning and pecans will be judged Friday afternoon. Pecans will be on display until about 11:30 Saturday morning.

Of about 200 important food plants known to us, only a handfull were in this country prior to civilization. These few include pecans, blueberries, wild strawberpies and sunflowers. As time evolved other plant varieties like corn, wheat, peanuts and just about everything else were brought here by the migrating inhabitants.

Among those few native food plants only the pecan is mportant in Eastland Coun-

Airtight Wood Burning Stoves Have Highest Efficiency

COLLEGE STATION--Airtight wood-burning stoves have the highest repeatable energy efficiency, says a wood products specialist with the Texas Agricultural Extension Service, Texas A&M University

cent, which means only 20 to

45 percent of the generated heat is lost up the chimney, says Chuck Stayton of Texas University's Agricultural Research and Extension Center at Over-

required to heat one's home, Stayton points out. Thus, homeowners need to select airtight stoves if fuelwood is to economically compete with fossil fuels.

Wood-burning stoves with catalytic converters can achieve high energy efficiencies, Stayton emphasizes. These units reduce wood gas ignition temperatures from around 1,100 degrees F. to 500 degrees F., which causes more complete combustion in the firebox. Thus, stoves with catalytic converters can achieve energy efficiencies up to 80 percent. They also reduce air pollution and cut creosote formation by 90 percent.

Internal baffling of airtight stoves increases heat transfer, Stayton explains, insuring hot flue gas contact with the stove's outer layer instead of quick exit up the chimney. The longer the hot flue gas contact period, the more heat is transferred from the stove to the home, thereby increasing energy

Wood-burning stoves, fireplace inserts or free standing models are radiant or circulating types. A circulating stove's exposed surfaces are cooler than radiant stoves because of the air space betweeen the combustion chamber and jacket. This makes them safer, particularly for small children. Also, people, furniture and walls can be closer to the stove. However, energy efficiency is similar for both radiant or circulating stoves, Stayton points out.

distribution into the home.

Undefeated Fighter Is Managed By Carbon Man toughest opposition to date in

Undefeated Fort Worth fighter, Jay Strickland, who is managed by Lylia P. Mehaffey of Carbon, Texas, will put his 15-0-1 record on the line Tuesday, November 30, at Billy Bob's Texas when he will face Austin's Steve "Cowboy" Schwan for the Texas light-weight championship. The 12-round bout will be one of six fights on a Sports Associates, Inc. pro boxing card scheduled to begin at 8 p.m. Strickland, a three-times Golden Gloves champion, will be facing the

efficiency.

Cast iron and steel stoves of identical design (including wall thickness) are almost identical in their ability to store heat for

Schwann. The 23 year old Schwann owns a 13-3 record with five stright victories. Advance tickets are on sale at Billy Bob's and Central Ticket office. Lylia P. is real excited about this fight and would like to encourage boxing enthusiasts to attend this battle of Texas cham-

ADVERTISE

But such stoves are susceptible to corrosion, Stayton notes.

Firebrick or metal liners, placed in the stove's combustion area, reduce the chances of cast iron cracking, steel warping and corrosion. Thick stove walls are less likely to distort, crack or corrode. They have less intense heat spots because heat is more evenly distributed laterally within the wall. Cast iron probably is a better choice for doors and door frames because of less chance of warping and resultant air leaks, believes the specialist.

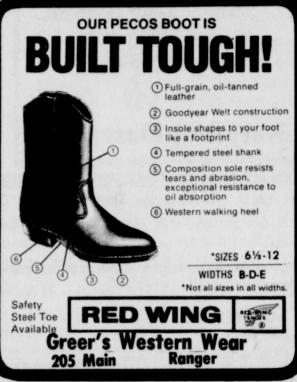

A fireplace stove insert is the most popular woodburning unit sold in Texas, Stayton says. He recommends a blower system if the insert fits well back into the fireplace located on an outside wall. This circulates the heat back into the room rather than losing radiated heat through the outside chimney wall.

Maximum size of the stove insert is determined by the

fireplace opening size. Smaller units can be used in larger fireplaces, with trim hiding the opening left around insert sides. Installation usually is fast and sim-

To determine which stove will best serve the intended purpose, you need to know its heating capability or "power" and its ability to generate steady heat for an extended period (8 to 12 hours) without frequent refueling, says Stayton. Most stoves can generate a wide range of heat outputs by controlling fuel size, fuel species, wood moisture content, air flow and installation details such as exposed stovepipe length. These controls are important, emphasizes the specialist, because they allow one to adjust heat requirements for different seasons and weather changes.

In the final analysis, Stayton advises checking with retail stove dealers and stove owners to help you select the right size unit.

Services For S.E. McRoberts **Are Saturday**

Graveside services for Samuel E. McRoberts, Sr., 77, were at 2 p.m. Saturday at Oakwood Cemetery, directed by Cisco Funeral

Mr. McRoberts died at 6:25 a.m. Thursday at E.L. Graham Memorial Hospital after a brief illness.

He was born December 6, 1904, at Post Oak, Texas. He married Tilma Berg on October 23, 1931, in Frederick, Okla. He worked for Humble Oil Co. and retired in 1969.

Survivors include his wife; two sons, Robert Ray and Samuel E. Jr., both of Lumberton; a brother, Elmo of Amarillo; four sisters, Adele Norman of Denton, Amy Patton and Mary Francis Penhall, both of Richardson and Zela King of DeSoto; 10 grandchildren and six great-grandchildren.

Funeral Services For Dixie Posey Are Sunday

Funeral services for Dixie Mae Posey, 76, of Annona, were at 2 p.m. Sunday, Nov. 21, at Baxelder Baptist Church in Annona.

Mrs. Posey was a patient in the hospital eight weeks before she died.

She was born June 6, 1906, in Idabell, Oklahoma. She lived in Cisco from 1931 until

She was preceded in death by a son, James Posey and husband, E.D. Posey.

Survivors include four sons, Ed Posey of Cisco, Clinton Posey of Clarksville, Jimmy and Allen, both of Annona; two brothers, Ed Jackson of Idabell, Okla., and Thurman Jackson of Winthrop, Ark.; 19 grandchildren; and 13 great-

grandchildren. Pallbearers were grandsons, Robby and Curt Posey, Glenn Posey, Steve Posey, Kevin Posey and Woody

Posey.

Funeral Services For Harvey Frye

Funeral services for Harvey Allen Frye, 86, of Cisco, a retired pipefitter, were at 4 p.m. Saturday at Kimbrough Funeral Home. The Rev. Armo Bentley, pastor of East Cisco Baptist Church, officiated. Burial was in Romney Cemetery south of Cisco.

Mr. Frye died at 12:15 a.m. Thursday at E.L. Graham Memorial Hospital after a brief illness.

He was born February 20. 1896, near Madisonville, He married Bessie Alma Whatley on May 12, 1917, in Cisco. He was an Army veteran, serving in World War I. He was a Baptist. He was retired from civil service in Barstow, Calif., where he was a pipefitter.

Survivors include his wife; a daughter, Mrs. Edith Parker of Fort Worth: three sons, Earl Eugene of Washington, Gerald D. Forrest of Springfield, Mo., and Coy Ray of West Covina. Calif.; nine grandchildren

and 12 great-grandchildren. Pallbearers were Dennis Harris, Gerald Harris, Phillip Schaefer, Wayne Burns, Jack Burk and Ted

who visited here recently is busy with details necessary for him to move to Cisco. Hopefully, everything will be completed for him to move here soon after the first of

THE REV. David W. Adkins, minister of First United Methodist Church, writes a column entitled SCRIBBLES in the weekly church bulletin. We quote from a recent DWA column as follows:

"I was fumbling through the file cabinet the other day and an old newsletter dropped on the floor. Dated Feb. 6, 1980, just four weeks after Brenda and I moved to Cisco, the newsletter article I wrote caught my eye.

answer today was just the same as the answer I gave to the question almost three years ago. Brenda and I love it here in Cisco. We have been met with warmth, openness, and friendliness. People have been so willing to help, to share, and to show that they care. How can you help but love a place like

That was the answer to the first question the young minister raised. How about the second? Here's what he wrote: "I believe there are two things necessary for a church to have a great future. WANT and WILL. A church has to WANT to grow and then be WILLING to do those things necessary for growth.

thankful this holiday season that the church I am a pastor of both WANTS and WILLS to be a great and growing church. That is excite-

County Real Estate

Some elderly residents of older neighborhoods are keeping their independence, maintaining their large homes and making it possible for younger residents to live in the area. These homeowners are converting one or more of their rooms into rental units.

They rent primarily to cut their household expenses, to fight loneliness and to discourage burglaries.

According to Savings and Loan News, the conversions occur most often in older, strictly residential, singlefamily neighborhoods, although some conversions have occurred in multifamily buildings as well.

One survey indicates that 32 percent of the other residents in the area favored these rentals as means of allowing older residents to keep their homes and to keep young people in the neighborhood.

Before undertaking such a rental conversion project, you should review city ordinances and deed restric-

BETTER METHODS NEEDED TO CAPTURE AND STORE WATER

Ponds, "tanks" and other small, man-made reservoirs have been significant factors in the use of Texas rangelands, especially the more arid western regions.

629-2544

Since 1919

GENERAL

INSURANCE

Better to have and not need than to need and not have

629-1116

millions of acres of Texas rangeland could not support domestic livestock. But small reservoirs are not the most efficient means of retaining surface waters on the

Their size has been dictated largely by the fact that they are relatively inexpensive, both in construction cost and land lost to inunda-

As water becomes more precious to Texans, more efficient means of capture, storage and distribution must be found. And as the Texas population grows and water needs expand, the state's water problems will become an important issue to all Texans, regardless of where they live.

APPRAISAL NEEDED FOR ACCURATE PROPER-TY VALUATION

To set a price on the property you are buying or selling, get an appraisal.

An appraisal is a professionally derived opinion of what property will bring in the market.

An appraiser typically uses three approaches to value; first, there is the cost approach or what it would cost to reproduce that property, less depreciation, plus the market value of the land. Second, there is the market comparison approach, or what similar properties have sold for: and third, the income approach which indicates a value estimate for similar rental property.

The appraiser takes into account economic conditions. Then all information is synthesized. The result-an appraisal--is a defensible estimate of market value.

With that information, you will likely avoid the mistake of setting your sales price too low or purchase price too

SUBURB FORMER RESIDENTS MOVING DOWNTOWN

Urban rebirth-a promising housing phenomenon of the 1970s is still very strong in the 1980s, according to a mortgage corporation report on U.S. housing markets.

Young professionals in the housing market for the first time are pioneering and old revitalizing neighborhoods where houses can re renovated. There are

Rental Conversions Popular Among Owners

several reasons for this

Young buyers can afford to purchase urban houses; many revitalization buyers have experienced substantial increases in the value of their property after renovation. Commuting costs cause people to stay close to their jobs in the city; and many buyers are not interested in suburban life.

The report indicates some suburban residents relocated to urban areas. In Dallas, for example, more than 60 percent of the revitalization buyers had previously lived in the suburbs.

PROTECT LEASES RIGHTS OF LANDLORDS AND TENANTS

A lease with your landlord

may be a good idea. Of course, a lease protect the rights of the property owner, but a lease also protects the rights of the tenant and provides answers to many questions apartment

dwellers ask. For, example, is there a late charge if you are late paying the rent and how much is the charge?

Who pays the utility bills, the landlord or you? How many people will be allowed to live in the apartment? Can you have pets?

Most landlords anticipate normal wear on fixtures, fur-

nishings, walls and floors. A walk-through inventory, signed by both parties may be incorporated in the lease. Then, repairs and replacements covered by a

deposit can be documented. These and other items are outlined in the lease. Read it carefully before you sign it. A lease is a legal and binding document

Homemaking Hints

Pecans are now in season and I would like to extend everyone a special invitation to enter the County Pecan Bake Show which will be Friday, December 3rd in the **Eastland County Courthouse** Lobby.

The Pecan Bake Show features an adult and youth division.

The entry classes are cakes, pies, nut breads, cookies, candies, and snacks. All foods entered must contain pecans in the recipe ingredients. No refrigerated items or any food made with a mix will not be accepted.

The entries must be registered and entered on Friday morning, December 3rd from 8:00 a.m. until 11:00 a.m. Judging begins at 11:00 a.m. Recipes should accompany all bake show entries.

Entries in the adult pecan bake show division will be returned to their owners between 4:00 and 5:00 p.m. on Friday, December 3rd. Entries not claimed will be sold to the public and money will go to the Extension Homemaker Council treasury fund.

the Eastland Chamber of Commerce is sponsoring the awards for the bake show.

There will also be a Pecan Centerpiece division. This division will consist of centerpieces and arrangements made with pecans or some part of the pecan plant. There is both adult and youth divisions.

The Pecan Grower's Association sponsors these awards as follows in the centerpiece division: First Place: \$5.00, Second - \$2.50, and Third - \$1.50.

Entries need to be entered by 11:00 a.m. on Friday mor-

ning, December 3rd, and remain in place until noon on Saturday, December 4th. Centerpieces should be original and must have been created during 1982.

Also, the Extension Homemakers members will be sponsoring a coffee and bake sale in the courthouse on Friday, December 3rd. This will be an excellent opportunity to purchase some top quality homemade pies, cakes, and other baked goodies.

RECIPE FOR THE WEEK:

The holiday season is here which means more cooking for your holiday entertaining. The Extension Service office has a wonderful bulletin entitled Holiday Foods. If you would like a free copy, give me a call at 629-2222 or come by the Extension Service office in the courthouse basement. A delicious fruit cake recipe is one of the many recipes featured in this new bulletin.

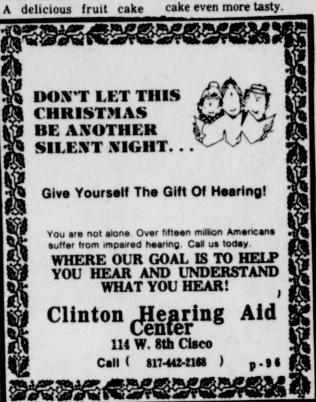

REFRIGERATOR FRUIT CAKE 1 lb. whole pecan halves

1/2 lb. whole English walnuts 1 lb. dates 3/4 lb. candied cherries

1/2 lb. candied pineapple (sliced) 1 can coconut 2 packages vanilla wafers

(71/4-ounce size) 1 can sweetened condensed

Heat milk until warm, then add crushed vanilla wafers. Put a pecan half into each date. Add fruit and nuts to milk mixture. Line loaf pan with wax paper and press into pan. Let set at least 1 week in refrigerator before serving. Serve in thin slices. May use other fruit. One cup candied pears added to this recipe makes the

A Snowman Cake For The Holidays

Add a little animation to your holidays this year with a cheerful Snowman Cake. This personable fellow will delight the children, your holiday guests and satisfy everyone's Christmas sweet tooth. He's easy to make and can be assembled and decorated in less than 30

Best of all, the entire family can be involved in creating this delightful cake. While Mom mixes the batter, the children can grease the bowls, then measure and pour the batter. With a little help, the children can frost the cake and pat the coconut on to resemble snowflakes. Everyone can add a touch of originality to the decorations, from the sparkling eyes and broad grin to the snowman's candy scarf and

The end result is a cake that can easily double as a centerpiece for a party table, as well as a delicious coconut cake for dessert. This might easily be the start of a family tradition.

SNOWMAN CAKE 3/4 cup shortening 1 cup Imperial Granulated

½ cup Imperial Brown Sugar

1 teaspoon vanilla ½ teaspoon coconut flavor-

3 eggs

1½ cups all-purpose flour 11/2 teaspoons baking powder 1/2 teaspoon salt 3/4 cup milk

1 (7-ounce) can coconut Cream the first five ingredients well. Add eggs; beat well. Combine dry ingredients; add to creamed mixture alternately with milk, ending with milk.

Grease one 11/2-quart ovenproof mixing bowl, two 3-cup oven-proof mixing bowls and one 5-ounce oven-proof custard cup. Measure 2 cups batter into large bowl. Measure 1 cup batter into two medium bowls. Fill custard cup half full with batter. (Divide any remaining batter between larger bowls.) Bake at 350° for 50 to 55 minutes for large and

medium bowls; 20 to 25 minutes for custard cup. Cool in bowls 10 minutes; turn out onto wire racks and cool completely.

FROSTING 4 cups Imperial Powdered Sugar

5 tablespoons shortening 11/4 teaspoons vanilla 1/2 teaspoon coconut flavor-

½ teaspoon salt Cream 1 cup Imperial Powdered Sugar and next four ingredients. Add milk alternately with remaining powdered sugar. Mix until creamy and smooth. Add more sugar or more milk, if necessary, to make spreading consistency.

TO ASSEMBLE Let cake cool completely. Trim top of largest cake, if necessary, to level. To keep plate clean, arrange four strips of waxed paper around edge of plate.

(Remove after frosting and decorating.) Put largest cake on serving plate, rounded side up. Spread with frosting. Spread a small amount of frosting on flat sides of medium-sized cakes; put frosted sides together to form a ball. Center the ball on the largest cake. Secure with toothpicks or drinking straws, if necessary. Frost all sides.

Place smallest cake on top of ball to form the head. Secure, if necessary, and frost. Gently pat coconut over entire snowman. Decorate with candies: gum-

drops for eyes and buttons, licorice ropes for scarp and mouth, candy canes for arms. Make top-hat from black construction paper.

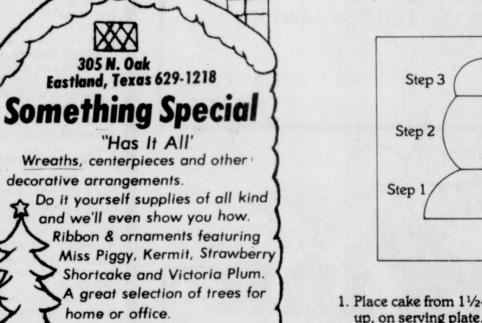

TO SERVE Remove hat, then gently lift off head. (This is enough for one serving.) Carefully cut the center section into wedges and serve. (Remove any toothpicks or drinking straws used to secure snowman.) Cut bottom layer into wedges and serve. Yield: about 12 servings.

Snowman Cake is one of Imperial Sugar's newest recipes. Additional copies of the recipe and information about other free recipes and free cookbooks are available from Imperial Sugar Company, P.O. Box 500, Sugar Land, Texas 77478.

SUGAR LAND-If the promise of a white Christmas looks slim this year, create a snowman cake in your own kitchen. This perky fellow is easy to mix and bakes in oven-proof mixing bowls. And you can assemble and decorate him in less than 30 minutes. If time is short, make the cake one day, wrap securely in plastic wrap and assemble and decorate the next day. Recipe and instructions for making this Imperial Snowman Cake are in the adjoining story. Information about other recipes and free cookbooks are available from Imperial Sugar Company, P.O. Box 500, Sugar Land, 77478.

Landowners Need To Be Aware When Leasing Land For Drilling

Leasing land for oil or gas exploration may seem like a windfall to some landowners, but it's not all a bed of roses. Drilling activities can rape and ravage the land unless certain precautions are taken.

"Landowners need to be aware of what is involved when they lease their land and what oil companies will do in terms of land management, " said Dr. John Sweeten, waste management engineer with the Texas Agricultural Extension Service, Texas A&M University System.

"Proper site preparation and restoration by oil companies is important if landowners want their land to be productive again and not be an eyesore," noted Sweeten. "The keys to the preserve and reuse the top-

He suggusted these land management steps before, during and after drilling

To preserve topsoil during site preparation:

-Remove and stockpile topsoil at the upslope edge or on one side of the drilling pad and working pit.

-Move subsoil downslope to level the drilling pad. -Excavate working pits

and trash pits from the sub--To excavate reserve pits, push topsoil to form end

walls and then subsoil to form side walls. During drilling and immediately thereafter, diligent housekeeping is

necessary to prevent spills of

Oil Facts

Lynn T. Barret drilled Texas' first oil well near Nacogdoches in 1866.

In 1928, Texas forged ahead of Oklahoma to become the leading state in oil production.

Texas' first well was 106 feet deep.

Motorists in Texas were served by 10,916 retail stations last year.

Motorists in Texas consumed 8.2 billion gallons of gasoline last year, second to California.

In 1980, Texas had 119,141 total miles of natural gas pipelines, including 17,356 miles of field and gathering lines; 43,033 miles of transmission lines; and 58,752 miles of distribution

In 1981, Texas had 82,774 miles of oil pipelines, including 20,511 miles of trunklines; 26,300 miles of gathering lines; and 35,963 miles of product lines.

The first Texas refinery was built in Corsicana in 1898 by J.S. Cullinan.

1899. It required the casing of productive wells, the plugging of abandoned wells, and the confining of gas to prevent its waste.

The first Texas statute on oil and gas was enacted in

SUNDAY, NOVEMBER 28, 1982

Oil Report

At a location five miles northwest of Eastland, Southeastern Resources Corp. of Rising Star has completed the No. 2 M.K. Courtney "A", new oil well in the JMJ Field.

Drillsite was in a 480-acre lease in Eastland County's HTC RR Co. Survey.

The well showed daily potential for 50 barrels of oil on an open choke. Production will be from an interval 3,515 to 3,522 feet. Well's total depth was 4,058 feet, with top of pay logged at 3,514 feet.

Nimrod Operating Co. of Cisco has posted initial production figures for the No. 3 McCall, new oil well in the Hawk-Eye Field, 1.5 miles southwest of Romney.

The well indicated potential for 42 barrels of oil per day on an open choke. With drilsite in a 30-acre lease in Eastland County's G.A. Mc-Call Survey, the well had total drilling depth of 1,164 feet. It entered the pay

horizon at 1,118 feet and will produce from a set of perforations 1,118 to 1,126 feet into the hole.

Pumping at the rate of 40 barrels of oil per day, the No. 1 J.T. Beggs has been completed in the Eastland Regular Field by Dallasbased Cordova Resources,

Located three miles north of Pioneer, the well is in a 160-acre lease block of Eastland County's ET&RR Survey.

It was drilled to a total depth of 2,520 feet, after entering the pay zone at 2,475 feet. It will produce from a perforated interval of 2,476 to 2.506 feet into the hole.

Caraway Operating Co. of San Angelo has revealed plans to drill a 1,700-foot developmental well in the Eastland Regular Field. The operator has 100-acres leased, with drillsite in Eastland County's H&TC RR Co. Survey and has designated

the venture as the No. 1A R.O. Duncan. Drillsite is seven miles southeast of Eastland.

Buck Wheat Resources, Inc. of Eastland has also revealed plans to drill a 1,200-foot developmental probe in the Hawk-Eye Field, one mile north of Romeny. The well will be located in an 80-acre lease in Eastland County's H&TC Survey and is to be designated as the No. 2 Graham.

The No. 1 Northcutt, a developmental try in Eastland County's Ranger Field, is scheduled to be spudded seven miles northwest of Ranger. With projected total depth of 3,650 feet, the well will be in an 80-acre leasein the HT&B RR Co. Survey. Ridge Oil Co. of Breckenridge is listed as the operator.

B&B Coaches Operating of Ranger has staked location for the No. 1 Collins Estate in Eastland County's Collins Field. It is scheduled for 4.000 feet of hole making. The location is in a 160-acre lease in the A.M. Bearden Survey, about three miles southeast of Eastland.

The No. 1 B.J. Harris is slated to be drilled in the Scranton Field by Sloan Ellis, operator from San With projected total depth of 1,750 feet, it will be spudded in an 80-acre lease of the H&TC RR Survey, 10 miles southwest of Cisco, in Eastland County.

Location has been staked by Beta Production, Inc. of San Angelo for a 1,700-foot developmental probe in Eastland County's H&TCRR Co. Survey, four miles northwest of Carbon. The well is designated as the No. 17 Woods. Drillsite will be in a 167-acre lease in the Eastland Regular Field.

Phoenix Minerals, Inc. of Austin has filed for permit to drill the No. 1 Simpson-Fran and the No. 2 and No. 3 Fran, three 1,500-foot developmental wells in the Midkiff-Hawk-Eye Fields, one mile northwest of Romney. The operations will be in a 6-acre lease in Eastland County's H&TC RR Co. Survey.

The No. 1-A Weldon Lee, a developmental well in the

Eastland Regular Field, is scheduled to be drilled two miles northeast of Rising Star. MWS Producing Co. of Stanton is listed as the operator. Location is in a 40-acre lease in Eastland County's ET RR Survey. Projected total depth is 3,500

En Re Corp. of Cisco has revealed plans to drill two 4,200-foot developmental wells in the DRS Field. The operator has 305 acres in the TE&L Co. survey and 640-acres in the SPR Survey leased, with drillsites in Eastland County, about 10 miles northwest of Cisco. The ventures have been designated as the No. 1 Mitcham I and the No. 4 Mitcham Estate H.

Many Good And Sincere Individuals

.....give little thought to the question of values when we should measure them in terms of personal worth in everything he buys, enjoys or does. For example, some folks will buy real estate without any kind of evidence of title disregarding the fact that the principal value of the purchase is in the title, not in the land itself or the improvements thereon. This kind of thinking costs property owners thousands of dollars annually which could be saved and a part of the savings wisely spent for an abstract of title or title insurance.

Announces Engagement

Ronnie Rich of Eastland and Lee and Eleanor Byars of Greenville would like to announce the engagement of their daughter, Cathy Lynn Rich to Lloyd Keith Voigt. Lloyd is the son of Mr. and Mrs. Max Voigt of Boerne,

The wedding is set for January 15, 1983 at the First Baptist Church in Greenville.

Sunday, November 28, 1982

What a difference electronic flash makes with instant-print cameras...even in broad daylight!

by D. J. HERDA America's Best Read Syndicated Photo

Use Fill for Instant Success

Let's face it. Instant prints are not cheap. Whether Polaroid or Kodak, if you use the newer you pay very near a buck a print. At those prices, who wants to waste film?

Yet, many instant-print photographers do waste film, especially when shooting outdoors at this time of year. Much of that waste is the result of trying to photograph a mid-range subject against a stark white background or bright, clear sky.

Other photographers "half-waste" film by trying to photograph people by dramatic, natural sidelight--when the sun is off to one side of the subject. Sure, sidelighting increases that hard-tocapture three-dimensional effect in a photograph. But it does so by casting roughly half of the subject-the half farthest from the sun-into shadows. And shadows on someone's face aren't necessarily the most flattering shadows of all.

How can you beat the house at its own game? Well, you can start by altering the house rules just a bit. For instance, chances are your instant-print camera has a built-in electronic flash unit. Kodak's Colorburst cameras and Polaroid's 600 Sun cameras are good examples. Why not use that electronic flash even in daylight?

When shooting a backlit, shaded, or dimly lit subject against a bright background, like a field of snow or a clear sky, consider electronic flash. Turn the flash unit on, keep the subject near center so the flash unit's "eye" won't be fooled by the brighter exposure of the snow or sky, and shoot. The flash will produce just enough "fill" light to add sparkle to your subject's eyes and

contrast to the shot. And if the backlighting is strong, the halo effect of sun behind hair or furry cap will separate the subject from the background and add drama to

400 West 10th

and Ave. G

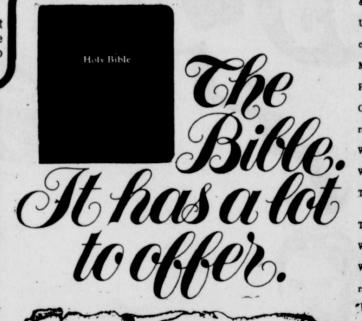

30 Day Special

Nu-Charm Beauty Shop

If you're shooting a sidelit subject whose face is half bathed in light and half cloaked in SX-70 or PR-10 types of color film, chances are darkness, use electronic flash. Again, keep the subject nearly centered so the flash unit gets an accurate light reading off the subject and not off the background. Then just fire and wait for the results. You should end up with plenty of dramatic light off one side of the subject's face, yet just enough fill light to bring the shaded side out of the shadows.

Of course, if you're using a Polaroid Sun camera-the newest in the Polaroid lineup of instant-print machines--you won't have to worry about using electronic flash in daylight, as the flash fires all the time. The results are remarkably, consistently good in a wide range of lighting conditions-the same results you can get with other cameras if you turn the electronic flash on before you shoot.

And, while we're on the subject of instant-print cameras and winter photography, remember that instant prints lose film speed as development temperatures decrease. In other words, the colder the temperature, the less likely you are to get a properly self-developed print. Here, too, you can beat Mother Nature at her own game by taking the ejected, exposed print and placing it in an inside pocket (near your body, under your coat) while it's developing. Your body heat should be just warm enough to produce a sharp, properly developed print in just a matter of minutes. And you'll be lesslikely to end up wasting valuable film.

Eastland Champions Win Championship Game

ARLINGTON-Only champions win championship games and they must defeat champions to do it.

The Eastland Mavericks proved their AA mettle in whipping Pilot Point, 21-20, on Thanksgiving night to capture an undisputed regional title.

They nailed it down for a cardiac crowd in U.T.A.'s Maverick Stadium in the last 17 seconds.

Eastland's finest will move on to the quarter finals next week against the winner of the Olney-South Lake game.

Defeating Pilot Point was sweet for the Mavericks because the Bearcats were the last team to defeat Eastland - last year in the quarter finals.

Eastland's now has a 12-0-1 season, having tied Holliday last week, 7-7, and advancing on first downs.

It was obvious that the entire Maverick squad gave an extra effort Thursday night, never faltering or lagging back, even though they were pinned down close to the end. And guesses are that they did it because they are winners and also because they were doing it as a tribute to the four of their fans who weren't at the game this week.

Eastland dominated the first scoreless quarter and threatened at the 2 yard line but the Bearcats refused to permit the score.

Late in the second with 1:45 left quarterback Jay Hess hit Richard Ferrell from the 25 and scrambled himself to the two where he

handed to James Morton for the first score. Morton booted it true to move Eastland up front at 7-0.

With only 18 seconds before the midway mark, Pilot Point's super talented quarterback Danny David, from a shotgun, found his man in the end zone for six points. David's extra point try went far right and the half ended 7-6, Eastland. Nice but not comfortable.

After the fine band shows (which Eastland won hands down) Pilot Point dominated the scoreless third quarter under the magic guidance of

their quarterback David. Mavericks stubborn defense kept the powerful Bearcats off the scoreboard and Jud Hess got himself an interception.

Hard nosed Mays defense caused a plague of penalties and miscues which finally resulted in a field goal try by Pilot Point that didn't get close. And it was still 7-6, Eastland.

Then the dramatic fourth quarter unfolded. Damon Ruyon couldn't have programmed it any more excitedly.

A pass interference called on Pilot Point gave Ferrell a completed pass on ideal field position. Hess had side stepped all over the field to get it

Morton gained ground and Thomas Sanders picked up a first down. On a fourth and ten later Hess hit Sanders at the one and Morton took it over for six but his P.A.T. failed and the score read 13-6; good but not out of the woods. Four minutes and 15 seconds had elapsed.

Pilot Point put together the drive that moved to the Eastland five with 4:37 left and David ran it over and his kick was true to make the score 13-13. Tied up and the digital score then showed penetrations like this: Pilot Point 5, Eastland 3.

Then with 4:31 left Eastland on its 20 couldn't get untracked in one series, failed to connect, and suffered penalties as quarterback Hess scrambled within one yard of a badly needed first down before the ball went over on downs.

David did his magic and within 2:20 of the end scored again and kicked the extra to push the defending state champions ahead, 20-13.

The faint of heart sighed, but the Mavericks just went to work. They didn't have much time - 2:20. At 9:45 p.m. it looked bleaked.

Hess read it all and then executed it perfectly - into the arms of Owens who caught the extra point pass.

And so at 21-20 the Eastland defense squad stopped two Pilot Point plays in their tracks. Final gun blasted and Eastland fans went wild with their cham-

Understanding Yourself K

'Marriage Blahs' By Dr. Oswald Hoffmann Lutheran Hour Speaker

Marriage, as everybody knows, is not all sweetness and light. There are those days when it seems to be more blah than bloom.

Life with a good marriage acquires new meaning.

Yet marriage is one of God's greatest gifts to humanity. Life with a good marriage acquires new meaning clearer focus, and a kind of divine strength to overcome obstacles which always appear in a lifetime. A go marriage grows better as the

st. Paul gave some good advice for husbands and wives: "Submit yourselves to one another," he said, "out of your reverence for Chairt"

That takes some arranging of priorities. It also takes love. It takes love like the love of Christ, who gave Himself for the life of the world without
