

# HALL OF REMARKS

BY HERREL HALLMARK

AFTER SEVERAL pretty, sunny days, Tuesday morning Cisco was greeted by cloudy skies and some slight precipitation. At least the temperatures are staying fairly warm.

I will be glad when we can turn off our heaters and be comfortable in our homes with neither heating nor cooling needed.

There might be a few days like that this year.

ISN'T IT awful the tragedies which have hit Cisco lately? Our hearts go out to the Lundstrom and Wheeler families and relatives.

In a small town such as Cisco, when something happens to a loved one, most of the people in town know that

person and feel some personal hurt in regards to the family.

Our prayers are with these families, as well as with their friends, and with other persons in Cisco who have some need, either spiritually or physically.

ELECTION TIME is drawing near for Cisco and let's all be sure to get our voting cards ready and make plans to turn out Saturday, April 2 and vote.

## Wrangler Belle Auditions Set For March 20

Auditions for the 1983-84 Wrangler Belles drill team of Cisco Junior College will be held Sunday, March 20, in the gymnasium on the CJC campus. The tryouts will begin at 1:00 p.m. and should be completed by 5:00 p.m.

All girls are invited to audition and no previous experience is necessary. Shorts and tennis shoes should be worn by the girls. A simple routine will be taught to the girls and they will audition in groups.

All Wrangler Belles receive a scholarship, the amount depends on place of residence (on or off campus) and classification.

For more information contact Mrs. Pat Owens at 817/442-2567, extension 121.

## Pre-Testing Set For College LVN Program

Pre-testing for the Cisco Junior College August 1983 Licensed Vocational Nursing program in Cisco will be held Tuesday, March 15 at 8:30 a.m., in the nursing classroom located in the Vocational I building.

Prospective students must be at least 17 years of age and must be in good physical and mental health. Students must be high school graduates or have successfully taken the GED examination establishing high school equivalency.

For full information, interested persons (male or female) may contact Gerald Eint, Vocational Dean or Wanda Wheatley, Program instructor at 442-2567.

## Autos Damaged In Mishap Here

A woman sustained cuts and bruises and two automobiles had extensive damage after a collision on the south access road of I-20 here Monday morning, according to a city police report.

Mrs. Lena Dunigan of Merkel, driver of a 1978 Buick, had a cut on her head that required seven stitches to close. She was treated at the clinic of Dr. Cermin and released.

The Dunigan car was in collision with a 1978 Thunderbird driven by Frankie Sayas of Rising Star. She was not hurt, the police report noted.

A Ted and Rex Wrecker picked up the Buick, the Thunderbird was at Pierce Ford.

## Country Club Will Hold Golf Scramble Sat.

Cisco Country Club will hold a Golf Scramble, Saturday, March 12 at 1:30 p.m.

Entry fee will be \$3.00 for members and \$4.00 for non members. Prizes will be golf balls.

## Services For Steve Wheeler Are Held Wednesday at 11

**STEVE WHEELER**  
Stephen Scott Wheeler, 18-year old Cisco Junior College freshman, died at Bay Memorial Hospital in Panama City, Fla., Sunday night during efforts to save his life after he suffered critical injuries in a scuba diving mishap the day before.

The young student was the son of the Rev. and Mrs.

Stephen Wheeler of Cisco. The Rev. Mr. Wheeler is head of the data processing department at Cisco Junior College and pastor of the United Pentecostal Church. His wife, Diane, is administrator of the Cisco Nursing Center.

Funeral services for the young man were conducted at 11 a.m. Wednesday, March 9, at the United Pentecostal Church with the Rev. O.W. Williams of Lufkin officiating. Burial was to follow graveside services at 2 p.m. Thursday at Forrester Park West Cemetery on Westheimer Street, Houston.

The body was due to arrive late Tuesday and was to lie in state at the church.

The young student had gone on a scuba diving vacation in Florida during the spring break at the college. The accident occurred during scuba diving. The injured youth was flown to the Panama City hospital where

his grandfather, Dr. C.J. Wheeler of Beaumont, and

his parents met him. Death followed surgery. Death was attributed to scuba diving equipment failure.

The Wheeler family has lived here for some 10 years. Steve, who was born July 28, 1964, in Houston, graduated with honors from Cisco High School in the Class of 1982. He was listed in the "Who's Who in American High School Students." He was the only senior in the S.S.E. class for gifted and talented students at Cisco High School.

He played trumpet in the high school band and in his father's church. He played baritone in the band at Cisco Junior College. He was a member of the Cisco Astronomer's Club and was active in sports. He planned to enter the University of Texas as a pre-med student in 1984.

Besides his parents, Steve is survived by his paternal grandfather, his maternal grandmother and one sister, Dea, student at Cisco High School.

## Cisco Livestock Show Is Set For March 11 & 12

The Cisco Livestock Show will be held March 11th and 12th at the county precinct barn on Ave. D.

The annual event is sponsored each year by the Cisco Livestock Show Association. Mr. Doug Fry is president of

## Mrs. Besselaar Still In Hospital

Gertrude Besselaar is still in Hendrick Memorial Hospital room 4121 in Abilene. Along with other problems, she has a persistent infection in her throat which makes it difficult for her to swallow. We do not know when she will get out of the hospital, but want to

## Births

**HOLLY DALE BURNS**  
Dale and Linda Burns are proud to announce the birth of their daughter, Holly Dale. She weighed 8 pounds and 3 1/2 ounces. She was born on February 25, in Congdell Memorial Hospital in Snyder. Holly has a sister named Holli Lynn.

Maternal grandparents are Mr. and Mrs. Bob Hallmark of Cisco.  
Paternal grandparents are Mr. and Mrs. Herbert Shipp of Staton. A great-grandfather is E.G. Hallmark of Cisco.

## Ranger Woman Dies From Auto Injuries

A Ranger woman died as the result of injuries and an Eastland-Gorman man was severely injured in a two-auto crash on Farm-to-Market Road about 8:40 a.m. Tuesday.

Funeral services for Mrs. Ada Doughty, 66, of 516 Austin St., Ranger, are pending at Edwards Funeral Home in Ranger.

Maximiliano G. Garcia, about 50, was being treated for head and shoulder lacerations at Eastland Memorial Hospital.

Investigating Officer DPS Trooper Hernandez reported that the two vehicles collided in the intersection of FM 2214 and FM 571, onto which Mrs. Doughty appeared to be turning.

Patterson Ambulance responded to the scene.

Mr. Garcia was driving a 1970 Ford and Mrs. Doughty was driving a 1977 Buick.

Funeral arrangements will be announced by Edwards Funeral Home.

this group. Ralph Berry will serve as this year's general superintendent, Ross McCaghen will be the paymaster. Handing out the ribbons and prize money will be the FFA Sweetheart, Lucinda Hagan.

All animals must be in place by 6:00 p.m. on Friday. The hog show will start at

7:00 p.m. on Friday night.

Starting at 9:30 a.m. on Saturday will be the goat judging, followed by the sheep, dairy cattle and beef cattle. The judging should be completed by noon. Animals are scheduled to be released from the show at 4:00 p.m. on Saturday.

Mr. Carl Wilson, Albany Ag. Teacher will judge the entire show.

Plans have been made for several golf tournaments to be held at the Cisco Country Club during the coming year, according to a report by Mrs. Letha Stafford, club secretary and chairman of the golf committee.

The first event on the calendar will be the annual Cisco city championship tournament, which will be held April 21-23. Charlie Graham will serve as chairman for the event.

Other events scheduled include the ladies one-day tournament and city championship, May 5; men's par-total-scam, May 7-9; couple's tournament, May 20-22; partnership low ball, June 4-5; and holiday tournament, July 4th weekend.

Plans call for an 18-hole scramble tournament to be held on the second Saturday afternoon of each month, Mrs. Stafford said.

Club officers are Ronnie Ledbetter, president; O.L. Robinson, vice president; and Letha Stafford, secretary. Directors include the officers and Frank Barrett, Dorothy Farnsworth, Ed Wende and Jack Kennedy.

Ed Wende is the chairman of the greens committee and the club house committee, and Mr. Barrett is chairman of the committee in charge

## C&W Musical Set Saturday

The Country and Western Musical will be in Cisco at the Coral Room on Avenue D, Saturday, March 12 about 7:00 p.m. Everybody is invited.

## Doris Lundstrom Found Dead, Husband Is Missing

### Services Are Held Wednesday

Doris Eileen Lundstrom, 27-year old wife of Cisco business man Loyal Lundstrom, was found dead of a gunshot wound in the bedroom of the family home at the Cisco Motel, 708 East 8th Street, at 8:15 a.m. Saturday, March 5.

Police Chief Randy Whittle, who is directing an investigation, reported at a press conference at 6 p.m. Tuesday that Mr. Lundstrom, member of the Cisco city council and mayor pro tem, was being sought for questioning. He had not been seen or heard from since last Thursday afternoon.

Mr. Whittle added that they were not ruling out the possibility that Mr. Lundstrom might have been abducted and was being held. He said that robbery did not appear to be the motive in the case as the bedroom was in order and money was found in the room.

Justice of the Peace A.C. Holder was withholding an official inquest verdict until he received an autopsy report from a Dallas laboratory. The initial report received by Mr. Holder by telephone said that Mrs. Lundstrom died from a shotgun blast to the abdomen and that she probably had been dead between 24 and 48 hours, placing the death time Thursday night.

The body was discovered by the Rev. John Clinton, close family friend, who went to the motel to help a bus patron.

Police Chief Whittle and City Detective Jackie Hobbs

were being assisted in the investigation by the sheriff's department and District Attorney Emory Walton.

Mr. Whittle told representatives of Abilene television stations and newspapers Monday night that leads in the case were few. He said that Ray Wallace, Thrift Mart market employee, was the only resident of the motel and he told authorities that he saw or heard nothing unusual.

An "all points bulletin" was released by authorities seeking the whereabouts of Mr. Lundstrom and his 1982 Chrysler New Yorker automobile.

The chief said that Mr. Lundstrom, 59, was not a prime suspect but "we want to talk to him." He added that "he could have been kidnapped or murdered." No weapons were found.

Mrs. Lundstrom, president of the Cisco P-T-O and the mother of five children ages 4 to 9, was last seen by friends at about 10 a.m. Thursday, the chief said. Efforts to telephone the family or the Greyhound Bus Station, which they operated at the motel, brought no answers after noon Thursday, police learned.

Police determined that the Rev. Cliff Reneau and family friends were looking after the Lundstrom children in accordance with arrangements made Thursday by Mr. Lundstrom. Chief Whittle said they had heard various rumors that couldn't be confirmed.

The Lundstroms came to Cisco some 10 years ago when he purchased the motel. They took on the bus station and operated a grave monument business in this region. A notice on the motel door said: "Closed until further notice, Chief of Police, Cisco, Texas."

A representative of the Greyhound Lines was here Monday to pickup undelivered parcels that were sent to Abilene. The bus operations will be handled out of Eastland until further notice, it was reported.

It was understood that the Lundstroms were natives of Minnesota. They visited relatives there last January.

Mr. and Mrs. Fred Oehlke arrived here Monday from their home in Minnesota. They are Mrs. Lundstrom's parents and were with their grandchildren at the Reneau home. Mrs. Lundstrom and family were active in the Church of the Nazarene where she was a Sunday School teacher. Mr. Lundstrom has been a member of the City Council for nearly

DORIS LUNDSTROM

LOYAL LUNDSTROM

two years. He is a member of the Cisco Lions Club.

Funeral services for Mrs. Lundstrom were held at 2 p.m. Wednesday at the First Baptist Church with the Rev. Mr. Reneau officiating. He was to be assisted by the Rev. Walter Little of Abilene. Kimbrough Funeral Home was in charge of arrangements.

Mrs. Lundstrom was born Jan. 26, 1956, at St. Paul, Minn. She is survived by her husband and two sons, Loyal Edward, Jr., and William Christian, and three daughters, Heidi Lynn, Sandra Marie and Julia Christine; five step-children, including Linda Lee Lundstrom of the home, also surviving, along with her parents, Fred and Eileen Oehlke; two brothers Gordon and David Oehlke; three sisters, Marilyn Edgett, Linda Oehlke and Margaret Oehlke; and five step-grandchildren.

Interment will be in Oakwood Cemetery here.

City officials announced Tuesday that City Hall will be closed from 2 to 3 p.m. Wednesday during the Lundstrom funeral.

POLICE CHIEF Randy Whittle, left, was photographed during a press conference at City Hall last Monday night. Shown at right is City Detective Jackie Hobbs. (staff photo)

# Foster Parents - Happiness Homemade

Irvin and Darleen Harbour of Eastland have kept a total of 70 children in their home during their years with the Foster Program. One of the main things they give is love.

(Telegram Staff Photo)

By Viola Payne  
Feature Writer

It is easy to locate the home of the Irvin Harbour family in Eastland. If you happen to be driving down their part of Seaman St. in the early evening, look for a well-lit house with glimpses of children playing. Listen for the sounds of happy voices.

Inside, there are three rockers in the living room. One is for Irvin Harbour and the assorted children who need his attention, one is for his wife Darleen and any child who wants to be rocked, and the other is for some of the older children in the home. These enjoy helping with the younger children too.

Quite often a real blue-colored cat named Smokey joins the group, anxious to get his share of attention. He has lived for quite a while around these Foster Parents - part of a special group with love to share.

Irvin Harbour works in Eastland Memorial Hospital as an X Ray technician. His work at home is different - but just as rewarding. During the past 17 years, while living in several parts of the state, the Harbours have kept a total of around 70 children in their home. Some have stayed a short while; others a long time.

The family moved to Eastland about six months ago, and Mr. and Mrs. Harbour has since worked closely with Child Placement Worker Alice Prichard and the local office of the Department of Human Resources. The Harbours maintain one out of two Eastland County

Foster Parent homes. There is one other home, however, which accepts children in emergency situations.

At this time the Harbours have two foster children in their home. They also have on adopted child and another in the process of adoption. These children range in ages from 3 wks to 13 years. One of the youngsters - a boy not quite three - is legally blind, and has severe health problems. The Harbours are giving him the special care he needs, including taking him for chemotherapy treatments.

Their own two children and another adopted daughter are now young adults, and living in homes of their own. The Harbours also have a grandchild - and that fact is absolute proof that grandparents are looking younger all the time!

Irvin Harbour mentions the town where he grew up - Booker, Texas.

"It's 110 Mi. north Amarillo, about as close to the Oklahoma Panhandle as you can get. There were about 1,000 people in Booker, and I sure didn't hear about the Foster Parent Program as I grew up."

"We actually didn't get involved with anything like this until after we were married and had two children of our own," adds Darleen.

"Irvin was in College in Lubbock, and we were living with our babies in a mobile home.

"I learned about a lady who needed a baby sitter, and agreed to keep the child. I was surprised to learn that she was a Child Placement Worker for that area.

"After she became acquainted with us, she suggested that Irvin and I go into the Foster Child Program. We did - and it has been a part of our lives ever since."

"A very special part," Irvin says. "Being a Foster Parent, to us, means being just like a real parent. The only difference is the temporary part of it.

"The children are like our own - they do everything with us. When we go on trips - they go. We all go to the First Baptist Church together. We talk over decisions which affect the family. And the Holidays together are really great."

"I remember one Christmas," says Darleen, "when I had a call about two new children right that morning - before our presents had been opened. There those children were - leaving their own home on Christmas day.

"We and our children shuffled things around - put their names on presents. Then we rolled out beds for them.

"When a new child is coming, you always fix him a bed. There's nothing worse than to come into some strange place and find nowhere to sleep."

After years of Foster Parenting, the Harbours have begun to see some kind of pattern in things they deal with. "One of the mistaken ideas people get into their heads is that the natural parents of Foster Children don't love them. In most cases, the truth is that the parents love them very much, but cannot handle the problems they are dealing with.

"Our job is to give a stable family atmosphere for the children during a stressful time for their biological families. In some cases, the children will be able to join their families again.

"Of course we miss them when they leave. If we didn't we'd know we weren't giving the children the love they need."

Mrs. Harbour says that more people should be Foster Parents - it is not terribly difficult to be accepted. "A typical home will do, so long as it meets certain basic health standards, and the

Child Placement Worker is assured that the children in the home will have good care. There is some training - not a burdensome amount. The Child Placement worker visits the child each month, to determine how things are going.

"Any interested person should contact Mrs. Prichard, to find out guidelines on keeping children. For it is a very rewarding thing - not just for the child, but for the person who helps him.

"I don't mean to say that things are always easy. Sometimes we take abused children, who have severe problems. They are afraid of every one and every thing.

"It is so wonderful when we see some improvement - when they learn how to trust someone. It is hard to say what this Foster Parent's Program means to me."

She was interrupted by one of the children, a lovely seven year old dark-haired girl. The child tugged at her sleeve, wanting to get in words.

"It means to be loved," she said.

The next day Mrs. Alice Prichard had some more comments on the Foster Parent's Program.

"We need more Foster Homes in Eastland County very badly," she said. "In an average month we handle

around 15 cases of abuse and neglect - about double that of one year ago.

"I believe this is due to several causes, with the leading one being the breakdown of family unit.

"In a number of cases, drugs and alcohol are involved. Then there is the economic situation, with the loss of jobs and means of support. Some families cannot afford to feed the children they have.

"Most children who need Foster Care come from one-

parent families and broken homes. In some cases they are broken by death or illness.

"Whatever the cause, the child suffers. In many cases it makes things even worse for the child to be sent out of the County for care - just as we are having to do with most of our Eastland County children now.

"The Harbours are doing a great job with the children they have. I only wish more people like them would join our Program."

### WORD of GOD

Psalm 4:1-5

Hear me when I call, O God of my righteousness: thou hast enlarged me when I was in distress; have mercy upon me, and hear my prayer.

O ye sons of men, how long will ye turn my glory into shame? How long will ye love vanity, and seek after leasing, Selah.

But know that the Lord hath set apart him that is godly for himself: the Lord will hear when I call unto him.

Stand in awe, and sin not: commune with your own heart upon your bed, and be still. Selah.

Psalm 4:1-4

# Funny Bunny Cookies Aid To Easter Baskets

What to do till the Easter bunny arrives? Make **FUNNY BUNNY COOKIES**

Bunnies, decorated eggs, chicks, springtime weather and colorful baskets filled with goodies. All these things and many more make Easter a day of joy that brings family and friends together. Funny Bunny Cookies, a bright happy treat, is truly a last minute marvel that will brighten up any Easter basket and

delight all who see them. Best of all they're easy to make and you can decorate them with Easter treats you have around the house.

The cookie dough needs to be made ahead and chilled thoroughly to make it easier to slice. Once made, the dough can be refrigerated for a week or more or frozen for up to six months. If frozen, be sure to transfer frozen dough to the refrigerator for at least an

hour or to room temperature for 30 minutes before slicing.

One slice of dough forms the bunny's head. And one simple cut turns another slice into halves to form the bunny's ears.

Decorating begins with an easy powdered sugar frosting, some of which is tinted pink with maraschino cherry juice. Then let the entire family add Funny Bunny's features with gumdrops or jelly beans, licorice ropes

or other colorful candies.

And you'll be pleased at how easy they are to make a how little time the decorating takes from your busy Easter schedule.

## FUNNY BUNNY COOKIES

- 1 cup Brown sugar
- 1 cup Granulated Sugar
- 1 cup shortening
- 2 eggs
- 1 teaspoon vanilla
- 3½ cups all-purpose flour
- ¼ teaspoon salt
- 1 teaspoon baking soda

1 teaspoon cream of tartar

Cream sugars, shortening, eggs and vanilla until light and fluffy. Combine dry ingredients; stir into creamed mixture. Shape dough into logs two inches in diameter (or pack dough into four, 6-ounce frozen juice cans). Wrap rolls in waxed paper or

foil (if using cans, cover tightly with foil or plastic wrap). Chill at least 6 hours. Then slice dough ¼-inch

thick. Cut one-half of the circles in half. On an ungreased cookie sheet, place two halves on top of a whole circle to form bunny's head and ears. Bake at 375° F. for 7-10 minutes or until lightly browned. Carefully transfer cookies to wire rack; cool completely.

## FROSTING

- 2½ cups Powdered Sugar
- 4 tablespoons milk (approx.)
- 3-4 teaspoons maraschino

cherry juice

Combine Powdered Sugar and milk; stir until smooth. Pour ¼-cup frosting mixture into small bowl. Add cherry juice and mix well for pink tint. Spread top of each cookie with white frosting.

Position licorice ropes for whiskers and gumdrops for eyes and nose. Let white frosting dry about 15 minutes. Carefully spread pink frosting on ears and under nose. Yield: Approx. 28 cookies.

### Putnam News

By Mrs. R.B. Taylor

Typical March weather this past week. We had a nice rain, almost an inch on Friday morning, then on Saturday

a regular West Texas dust storm. The temperature is above normal, thus reducing our gas bills. I hope! The tornado season is on us and we will have to be alert and just hope that they all go somewhere else. Mrs. Hershell Wagley had a rather serious accident

this week. She fell from a ladder and broke several bones in her ankle. She was a patient at Hendrick Hospital several days, but is home now. And does not plan to climb any more ladders in the near future! We are glad to report that Mr. George Weeks is home from Baird Hospital and do-

ing fine. Mrs. Bonnie Farmer of Baird is a patient at Hendrick Hospital at Abilene. Mrs. Myrtle George of Ranger who teaches china painting at Putnam fell and injured her arm. She will not be able to come to Putnam for several weeks. But all china painters remember

that Mary King has a good supply of china, she went to Dallas this week and came home with a lot of new stock. Mrs. Ed (Dorothy) Perkins of Longview, was visiting friends and attended church at Putnam last Sunday. Mr. Perkins was school superintendent of Putnam for several years. Ray Green and sons Donald and Darrel and Cathy of Clyde left Sunday for Ruidosa for a week of vacation and skiing.

Jackie Wolloughby of HSU Abilene filled the pulpit at the Baptist Church Sunday, he was accompanied by his wife. Travis Crutchfield of Cisco was a visitor. Mr. and Mrs. Kevin Brunam of Hobbs, N.M. stopped at Putnam Sunday to visit his grandmother, Ollie Brunam. They were on their way to Dallas to pick up a prisoner. Kevin is with the Sheriff's Dept. at Hobbs.

Mr. Robert Young of Cross Plains visited his sister Mrs. George Weeks and Mr. Weeks Sunday. Also their son Norris of Baird was a visitor. Billy Wagley reports that he has received a letter from Yewell Twilley who is a patient in a Wichita Falls Hospital. Yewell reports that he is improving and has made many friends there. And hopes to be able to come home soon. The Pot Luck dinner given by the Church of Christ and the Baptist Church of Putnam, Sunday was enjoyed by about 50 people from Abilene, Baird and Putnam, and Cisco. Among those at-

tending were Laverne Rutherford, Mrs. Sunderman, Mrs. Yarbrough, Mrs. Richardson, Mrs. Free and Elvise Payne of Baird, Mr. and Mrs. Kim Mussingale, Abilene, Mr. and Mrs. Roddy Reynolds, Elmdale. Mr. and Mrs. T.G. Mobley, Baird. Don't forget this weekend March 12, will be the first weekend for the clean up at the School house in preparation for the Homecoming. So bring your hoes, rakes, lawn mowers and dust rags and come help!

NEW FOR 1983 - ENERGY EFFICIENT MODEL FPCI - 18TM

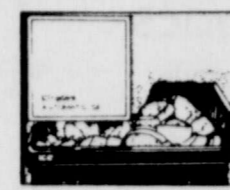

## FRIGIDAIRE REFRIGERATOR-FREEZER

ELECTRICAL SWITCH

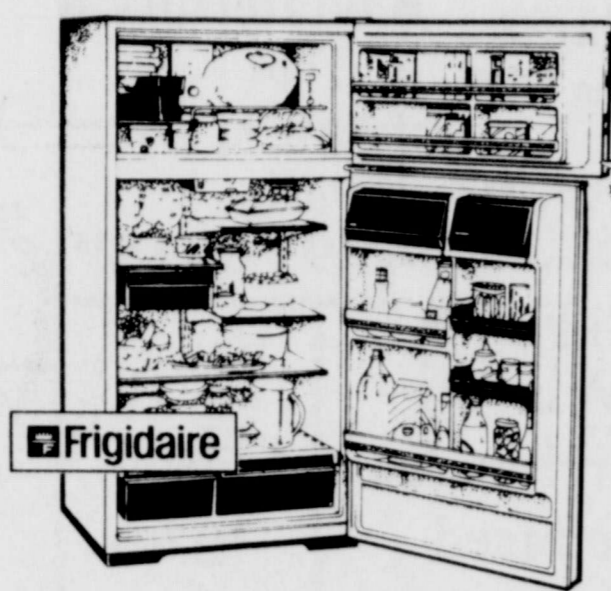

"JUST-A-BIN" DOOR SHELVES

AUTOMATIC ICE MAKER

SPREADERS COMPARTMENT

### FRIGIDAIRE. FOR MORE FEATURES.

This new 18 cubic foot model is designed for today's lifestyle. It's one of the most energy-efficient Frost-Proof models available.

The Automatic Ice Maker eliminates the spilling and filling problems of trying to make enough ice for your family. Available at extra charge.

The Unwrapped Foods Drawer lets you keep special foods you'd rather not wrap - like fancy desserts, cold cut plates, prepared salads - fresh and appetizing for several days.

The Meat Tender Drawer has the Flowing Cold Air feature that keeps most meats fresher, for up to seven days.

"Just-a-bin" Door Shelves move up and down to make it easy to store items of almost any shape or size. And they're removable - so they can go right to the table or food preparation area.

Reversa-Doors let you change from right-swing to left-swing for your easiest arrangement.

Every Frigidaire Refrigerator is built to rigid quality standards. The Quality Track Testing label you'll find on your Frigidaire Refrigerator insures that it passed a demanding inspection before it left the factory, and that you can be sure of years of trouble-free service. Quality. Reliability. Dependability. You can count on it from Frigidaire.

WEST TEXAS UTILITIES COMPANY

# Open an IRA at Olney Savings and make a brilliant deduction.

This year, when you open or add to your Olney Savings Individual Retirement Account, you can receive a \$2000 deduction on your 1982 income tax return. We think that's brilliant. And we think you deserve it.

Whether you're a rancher, farmer, small business owner, doctor, lawyer or whatever, you can benefit from an IRA. Even if you already have a retirement plan where you work, you're still eligible for an IRA.

And you won't have to pay income taxes on the money you invest or on the interest it earns until you retire (when you'll be in a much lower tax bracket). So, come see us soon. Or call and we'll come see you. We'll answer all your brilliant questions about an IRA.

## OLNEY SAVINGS

Formerly United Savings

Come see us soon. Or call and we'll come see you.

Olney, Seymour, Jacksboro, Bridgeport, Necona, Weatherford, Azle, Graham, Archer City, Wichita Falls, Brownwood, Bowie, Vernon, Decatur, Boyd, Truckmarton, Albany, Anson, Coleman and Cisco. Also, Ranger Savings in Ranger, Eastland Savings in Eastland, and Electro Savings in Electro. All Divisions of Olney Savings.

# People n Things

**CISCO IS ABOUT** to get a lot of good advertising, thanks to Mayor Eris Ritchie. His Southwest Enterprises put 35,000 letters in the mail Monday to every high school and junior high school in the USofA. The letters told them about SE's products.

The mailing included a brochure in color. As you might guess, the mailing was a pretty expensive undertaking. In addition to the brochure and other printed matter and the envelopes, there was the matter of postage. SE's business continues to expand, Mr. ER tells us.

A HEADLINE IN the morning newspapers told about thousands being stranded by a big snow in Colorado. There were several thousand of the folks at the Denver airport, and the John McGuires of Cisco saw them all.

The McGuires left a week or so ago for a vacation visit with their daughter Charlotte in Telluride, Colorado. They drove a rental truck there to take some furniture that their daughter had stored in Cisco. They spent the past week enjoying the snow-look at it through a picture window from the warm side.

Early Sunday, Miss McGuire took her parents to a point 75 miles or so west where they caught a plane to Denver that would connect with one to DFW where another plane would take them to Abilene. At the Colorado point, their 10 a.m. flight left several hours late. And at Denver, they were able to board a late flight to DFW. And they finally arrived at Abilene at 1:30 a.m. and in Cisco around 3 a.m.

The McGuires enjoyed their visit in Telluride. And they saw all the snow they wanted to see for several years.

THINGS WERE pretty hectic out at Allsup's Convenience Store last Saturday when we looked in. Jeff Cathey was on the job by himself. And the store had run an ad about three chili dogs for \$1. Jeff had quite a time filling orders for chili dogs, including one for nine, while checking customers, including those buying gasoline. Mr. Wm. E. (Bill) Austin tells us that their recent anniversary sale was a success de luxe. And he's real pleased with a report from his doctor. He went in for a checkup after treatment for a medical problem some months ago. And the doctor was so pleased that he said "come back in a year". The Harold Adlings visited son Bill and family out Lubbock way last week.

WE APPROACHED Mr. Paul Blaine, the retired bread man, the other day to interview him about being a new grandfather. "Have you got four hours to listen," he wanted to know. The Blaines are driving a brand new Olds - one of those fancy ones with wire wheels. The Audy Moores, who live out on West 14th Street, recently enjoyed a stay of some two months in their travel trailer in the Rio Grande Valley. Mr. Ollie Moran tells us that he and son hope to finish building a plant soon, so they can turn out ready mixed concrete for one and all.

COACH ED Pugliese of Munday spent last weekend with home folks. Our scouts report that conditions were a little unsettled out at the home of the Rev. Buddy Sipe and family last week. The cook and maid was ill. The Ted Hales are driving a brand new Ford. Their son Duff and wife, who live over Big D way, recently enjoyed the Mardi Gras in New Orleans.

THE BALMY AND warm weather lately has resulted in goodly numbers of golfers turning out at the Cisco Country Club. We can't remember the golf greens ever being in better condition. Golfer Bennie Nichols shot a 29 for nine holes for the 6th time the other afternoon. He holds the nine-hole record out there with a 28, which he has carded twice. Bennie's best 18-hole score is a 59. There's a scramble golf tournament this coming Saturday afternoon at the CCC. Plans call for scramble tournaments every 2nd Saturday during the coming year.

LETHA STAFFORD, who is one of the golf course's long time best players, tells us that she is helping with a drive to recruit new members. If enough folks are interested, Mrs. Stafford plans to hold a class for golf beginners - women and men. So if you want to take up golf and want some instructions, now's the time. Contact Mrs. Stafford for details about joining the CCC.

## Obituaries .....

**Rosary and Services For Mass Held For Salvador Vasilio Will Be Thurs.**

Rosary was said for Salvador R. Vasilio, 72, of Cisco at 7:30 p.m. Monday at Kimbrough Funeral Home and Mass was at 10:00 a.m. Tuesday at Holy Rosary Catholic Church. Rev. Jim Miller, pastor, officiated. Burial was in Oakwood Cemetery.

Mr. Vasilio died at 4:08 p.m. Saturday at Eastland Memorial Hospital after a short illness.

He was January 1, 1911, in Chihuahua, Mexico, he retired from the T&P Railroad in 1975. He married Natalie Jimenez February 26, 1937, in Eastland. He was a member of the Holy Rosary Catholic Church.

Survivors include his wife; four sons, Arthur, Victor and Apolonio, all of Fort Worth and Luis of Arlington; three daughters, Olivia Herrera, Juanita Sancillo, and Eva Perez, all of Fort Worth; two sisters, Juanita Torres of Phoenix, Ariz., and Feliz Lujan of Sweetwater.

Pallbearers were Emilio Lopez, Howard "Jimbo" Shelton, Joe Flores, Manuel Hernandez, Gilbert Garces and Ross Escobedo.

**Services For J.A. Woodard Are Pending**

Funeral services for Joseph Albert Woodard, 77, a former Cisco resident, were pending Tuesday morning at Cisco Funeral Home.

Mr. Woodard died at 10:00 a.m. Monday at the Swedish Medical Center in Littleton, Colorado.

Survivors include one son, Joseph W. Woodard Jr. of Arlington and one niece, Josephine Harrison of Littleton, Colorado.

## Kendall Anderson Is Chosen To 9-AA All-District Team

Kendall Anderson, son of Mr. and Mrs. Al Anderson, was chosen to the 9AA 1st team all-district team. Kendall, a senior, averaged 17.1 points a game during district play. Kendall led the Lobos to a 14 and 12 record this year.

Five seniors played their last game for the Lobos this year. They are Larry Adams, Greg Sipe, Randall Rattan, Jason Potter, and Kendall Anderson.

### Moran News

**By Mrs. Luke Huskey**

**MORAN CITY ELECTION**  
Two persons will be elected for City Council at the Moran City Council election to be held on Saturday, April 2, 1983. Those whose names will be on the ballot are L.D. Hammons and W.W. (Jack) Moore. Jim Howard will be election Judge.

**MORAN SCHOOL TRUSTEE ELECTION**  
The Moran School Trustee election will be held on Saturday, April 2. Two members will be elected for the Moran School trustees. Barney Tabor and Larry Hudson, whose terms expire, are seeking re-election.

Mrs. Lucy Burton is receiving treatment in the Albany Hospital.

Lynn Harrell of Dallas was greeting friends in Moran one day last week.

**RAIN**  
Moran and community received almost 2 inches of rain last week. A little hail fell, but not enough to do any damage. The rain was very much welcomed.

**A WEDDING**  
Mr. and Mrs. Fred Stovall, Jr. attended the wedding for their son, Mark, and Rebecca Myers in Ada, Oklahoma, Friday night. Others attending from Moran were Dennis Stovall and Jim Redden.

Carrollyn Louder has returned to her home in California after visiting with her mother, Mrs. Carroll Louder, for an extended visit.

Dr. and Mrs. Charles Tandy of Dallas visited with Mrs. C.H. Bridges, last week.

Mrs. Lois Gibbs is visiting her sister, and family in Dallas, this week.

## WORD of GOD

7th Commandment  
Thou shalt not commit adultery.  
Exodus 20:14

Who can find a virtuous woman? for her price is far above rubies.

The heart of her husband doth safely trust in her, so that he shall have no need of spoil.

She will do him good and not evil all the days of her life.

She riseth also while it is yet night, and giveth meat to her household, and a portion to her maidens.

She stretcheth out her hand to the poor; yea, she reacheth forth her hands to the needy.

Proverbs 31:10-12, 15, 20

## Energy Corporation Gets New Gas Well

The Shoaf-Mergner Field gained a new gas producer when the No. 1 Nelson was completed by Command Energy Corp. of Ft. Worth, three miles southeast of Carbon.

On a half-inch choke, the well showed ability to yield up to 76,000 CF gas per day. Location is in a 200-acre lease in Eastland County's H&TC RR Co. Survey, A-859. Command Energy took the hole to 3,494 foot bottom and perforated for production 3,311 to 3,408 feet into the wellbore.

Southeastern Resources Inc. of Rising Star has posted initial production figures for the No. 1 M.K. Courtney "B", new oil well in the JMJ Field, five miles northwest of Eastland.

The well indicated potential for 10 barrels of oil and 490,000 CF casinghead gas on an open choke. With drillsite in an 80-acre lease in Eastland County's H&TC RR Co. Survey, the well had total drilling depth of 4,053 feet. It entered the pay horizon at 3,473 feet and will produce from a set of perforations 3,469 to 3,477 feet into the wellbore.

### Oil Facts

Texas' deepest producer at 26,566 feet is a Wheeler County gas well.

Texas produced 34.4% of U.S. natural gas in 1981.

Some 6.7 trillion cubic feet of Texas' gas was marketed.

Of total Texas gas production, 80% came from 40,153 gas wells and 20% came from 180,941 oil wells in the form of casinghead gas.

In 1981, Texas had 114,788 stripper wells with annual daily production of 3.7 barrels per well.

Texas had 4,209 gas producing companies last year.

A natural gas wildcat has been successfully completed five miles north of Eastland by C.R. Gallagher Jr. of Lubbock. The new Eastland County producer, designated

as the No. 1 Conners, is situated in a 78-acre lease in the H&TC RR Co. Survey, A-297.

It was drilled to total depth of 3,800 feet and will produce

from a perforated interval 1,780 to 1,810 feet.

Showing daily potential to yield 74,000 CF gas on a 3/8 choke, the well was given an absolute open flow rating of

80,000 CFD.

At a location two miles west of Eastland, Chase-Mann Petroleum Inc. of Ft. Worth has completed the No.

1 R.L. Rush, new oil well in the Cameron Two Field.

Drillsite was in a 160-acre lease in Eastland County's H&TC RR Co. Survey, Sec. 47, Blk. 4.

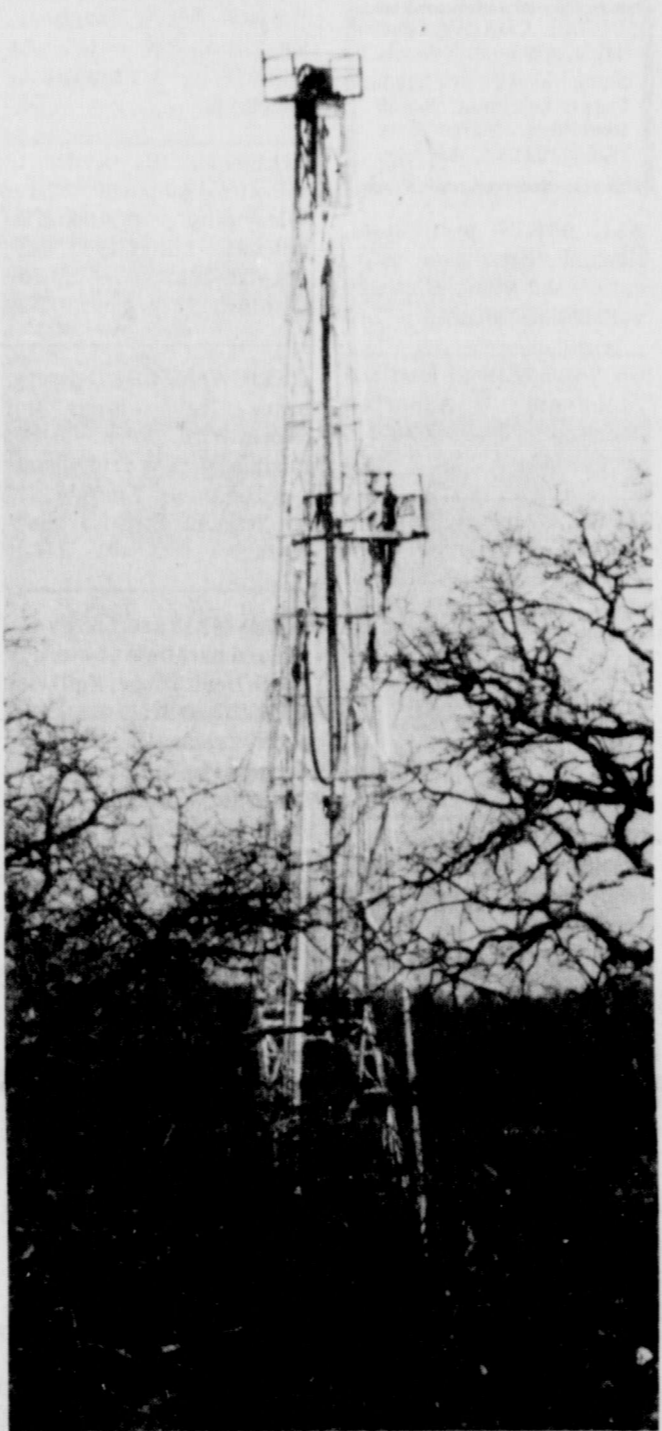

The well showed daily potential for 9 barrels of oil on an open choke. Production will be from an interval 3,798 to 3,800 feet. Well's total depth was 3,916 feet, with top of pay logged at 3,798 feet.

Menique Oil Inc. of Irving

has revealed plans to drill a 1,500-foot developmental well in the East Nimrod Field. The operator has 42-acres leased, with drillsite is Eastland County's H&TC RR Co. Survey, A-254 and has designated the venture as the No. 1-A Henry Schaeffer. Drillsite is four miles northwest of Romney.

at the rate of 21,000 CF of gas per day on a half-inch choke. It was given a 54,000 CFD rating on absolute open flow.

The well bottomed at 3,673 feet and will produce from perforations 3,590 to 3,598 feet into the hole. Drillsite was in a 55-acre lease in Eastland County's S.J. Robinson Survey, A-423.

### Drilling Away

Eastland County has just seen its best exploration month in more than a year. Fourteen new oil wells were brought in with a combined potential totaling 718 barrels of crude per day. In addition, plans were revealed for six new wildcat ventures in the county. Two wells that have been drilling during the past few weeks are located (l) on the Eastland Lake road North of Eastland and (r) on FM Road 101 to Ranger East of Morton Valley. (Staff Photos)

...give little thought to the question of values when we should measure them in terms of personal worth in everything he buys, enjoys or does. For example, some folks will buy real estate without any kind of evidence of title disregarding the fact that the principal value of the purchase is in the title, not in the land itself or the improvements thereon. This kind of thinking costs property owners thousands of dollars annually which could be saved and a part of the savings wisely spent for an abstract of title or title insurance.

# Microwave Ovens Proven To Be Safe

Although the number of microwave ovens in use is at an all time high, many consumers still question their safety.

"Yet the microwave oven is the only product to show zero incidence of injury under the federal government's National Electronic Injury Surveillance System," says Bonnie Piernot, family resource management specialist.

Piernot is with the Texas Agricultural Extension Service, Texas A&M University System.

Consumer doubt about microwave safety is most often due to misunderstanding about the nature of microwave radiation versus ionizing radiation or x-rays, explains Piernot.

Microwaves are a non-ionizing form of energy located between radio waves

and infra-red light in the electromagnetic energy spectrum. We are constantly exposed to low levels of these types of energy without harm.

The body does not store microwaves as it does ionizing radiation. So microwaves do not cause cumulative damage to the tissue.

Overexposure to high intensity microwave energy

can be hazardous. But the Food and Drug Administration requires manufacturers to meet safety standards for the amount of microwaves that can leak from an oven.

According to Piernot, recent research suggests that consumers should be more concerned about the hazards resulting from improper use of a microwave oven. Consumers can, however, easily insure safe use of the ap-

pliance by following these simple guidelines.

A microwave oven should not be used on a two-wire circuit. Using a three-to-two-pin converter plug or cutting off the ground pin creates the risk of serious shock.

Only recommended materials should be used for cleaning the appliance. Abrasive plastic and wire wools can damage the surface of the oven and may eventually cause small burns around the door seal which can lead to increased leakage.

Since a damaged door can leak microwave radiation, all ovens should be placed where the door cannot be harmed by falling or hitting other things. Also, place the oven beyond the reach of young children, because the door edges are sharp for design purposes.

Do not put chemicals into the oven for experiments at home or school.

Have only a qualified technician service the appliance. Internal filters need cleaning after 300-500 hours of operation, which amounts to about two to three years of normal home use. Household handymen run the risk of in-

juries from exposure to high level microwaves by attempting to service or repair an oven themselves.

When in doubt about a potential microwave hazard, Piernot suggests that consumers consult their service manual, or contact their county Extension home economist.

## Gov. White Receives Easter Seal

Today, Governor Mark White was presented the first sheet of the 1983 Easter Seals by the 1982 Texas Easter Seal Poster Child, Jaylee Murr. It has always been a tradition with the Texas

Easter Seal Society that the Governor of the State of Texas does the honor of opening the annual Easter Seal Appeal in this manner.

The Campaign, which begins March 1 and continues through April 30, is highlighted by the National Easter Seal Telethon on March 27, 1983. The Spring Campaign enables the Society and its affiliates to provide therapy, orthopedic equipment, treatment and evaluation to disabled children and adults in Texas. It also helps to fund the Easter Seal Action Line, a toll-free number to call for information and/or assistance.

Jaylee, was born with spina bifida, a birth defect caused by an opening in the spine that fails to close before birth. Jaylee's lower legs and feet are partially paralyzed, and she walks with canes and leg braces. Jaylee has a bright future because of her eagerness to learn and her high intelligence. "Her charming personality makes her a joy to be around", says her parents, Mr. and Mrs. Roddy Murr of Azle, Texas.

The Texas Easter Seal Society urges your support and generosity in its 1983 Spring Campaign to meet the needs of Texas communities and their disabled citizens. For further information about Easter Seal services, call the toll-free number 1-800-492-5555.

# Texas & The Legislature

## Sunset Review

### Senator Bob Glasgow

Probably the most publicized and important topic being considered in the State Legislature this Session is the Sunset review of the Public Utility Commission.

At this time the measures relating to the PUC on the Senate side are in a Subcommittee on State Affairs and should be reported out at any time to the full State Affairs Committee.

There are five measures that are considered the major PUC Sunset bills. They are S.B. 5 by Senator Doggett, S.B. 9 by Senator Mauzy, S.B. 232 by Senator Caperton, S.B. 260 by Senator Parmer and S.B. 548 by Senator Grant Jones.

The most controversial part of each measure is the process of selection of the Commissioners for the Public Utility Commission. The bills by Senators Doggett, Mauzy, Caperton and Parmer call for elected members in various ways while Senator Jones' bill calls for Commissioner to be appointed by the Governor.

Senator Doggett's bill calls for an expansion of the present three commissioners to six who would be elected from six single member districts and serve six year staggered terms.

The measure by Senator Mauzy would expand the membership to nine, and these commissioners would

be elected from nine single member districts. The terms would also be six year staggered terms.

Senator Caperton's bill would retain the present membership of three, and these three would be elected state-wide and serve six year terms.

The measure by Senator Parmer would also retain the present membership of three and would be elected state-wide. Their terms would be for four years.

Senator Jones' measure retains the present membership of three and would be elected state-wide. Their terms would be for four years.

Senator Jones' measure retains the present law by providing for three commis-

sioners who are appointed to six year terms by the Governor with the advice and consent of the Senate.

Another area being considered is the representation of residential ratepayers by public counsel before the PUC. Senator Doggett's bill provides that the Attorney General's office would represent the residential ratepayers.

Senator Caperton's bill provides for a public counsel which is to be funded by charging utilities one-sixth of one percent of its gross receipts. An office of Public Utility Counsel would be created. The chief executive of such office would be appointed by the Governor with the advice and consent of the Senate.

The measure by Senator Parmer provides public counsel to be appointed by the Governor, and the office would operate under the authority of the Governor's office.

Senator Jones' bill would require the Commission to set up a procedure for consumer complaints to be resolved by the Commission.

The measures by Senators Doggett, Caperton and Parmer prohibit automatic fuel adjustment pass-through. Instead, the fuel cost would be considered by the Commission as part of the operating expense.

All of the bills are extremely long and complex. They deal with a variety of the issues including methods considering rate of return and how to deal with construction work in progress.

If any of you would be interested in copies of any of these bills, please write to me at P.O. Box 12068, Austin, Texas 78711.

THURSDAY, MARCH 10, 1983

## Railroad Commission Combats Pollution

AUSTIN—Railroad Commission Chairman Mack Wallace announced a major, three-pronged attack on oilfield pollution in a speech to the Water Quality Committee of the Texas Water Conservation Association here today.

Wallace said the Commission initiatives include:

—pressing for additional financial and manpower resources from the legislature to aggressively halt pollution,

—asking the legislature to provide stiffer penalties for

pollution related offenses, and

—publicly documenting the Commission's enforcement procedures to raise public awareness of efforts to prevent pollution associated with oil and gas activities.

Additionally, the Commission is proposing that it be empowered to assess administrative fines to a maximum of \$10,000 per day per violation for polluters, Wallace said.

Wallace also spelled out the Commission reaction to

proposals which would prohibit the use of fresh water in enhanced oil and gas recovery operations, saying it supported the idea of prohibiting such use of fresh water where a reasonable alternative is available.

"I personally support such a proposal," he said, "but the Commission also rightfully points out that fresh waters used to enhance the recovery of oil and gas amount to only one-half of one percent of the state's fresh water used for industrial, agricultural, and all other purposes.

"Any bill drafted to allocate the state's fresh waters should cover all uses and all users of fresh water, and not be limited to users associated with oil and gas production which makes up such a small percentage of the overall problem. The members of the Commission, Buddy Temple, Jim Nugent, and myself, all share a strong commitment to the protection of the state's fresh waters," Wallace said.

The Commission's existing pollution control resources are spread too thin both in people and money, according to Wallace, who noted a field staff of 110 must oversee some 300,000 operating wells in the state as well as thousands more which have been abandoned but not properly plugged. The \$330,000 appropriated by

the legislature each year to plus such wells is "simply not adequate" to handle the pollution danger they pose, he said.

"To forcefully attack this problem, the Commission has appeared before both the House Energy Committee and the Senate Finance Committee to request that more than \$2 million be added to the well-plugging fund over the next biennium," Wallace said.

On the personnel side, Wallace said the Commission is asking for more people in its legal enforcement section to centralize processing of well pluggings and pollution matters, work with the Attorney General in court cases, and speed up the hearings process.

"With these additional financial resources," Wallace said, "the state can appreciably escalate its fight to bring under control those who thwart the law and demonstrate little or no regard for the Texas environment."

Wallace told the committee that in addition to the proposed funding increases, the Railroad Commission must have changes in existing law to reduce the pollution threat.

He said Commission-proposed statutory changes would give it authority to plug leaking wells immediately, using state funds, and identify those responsible later. Then, after the problem is corrected, the state could identify the responsible party, seek damages to recover the state's costs, and pursue appropriate penalty actions.

As an added deterrent, Wallace said the Commission is calling for stiffer fines for pollution violations — up to \$10,000 per day per violation — and for the authority to assess administrative fines directly, thus avoiding lengthy and expensive court proceedings while pollution continues.

Wallace said all fines and penalties collected should go directly into the state's well plugging fund. "These monies now go into the state's general revenue fund. But in the Commission's opinion, they should be devoted solely to pollution prevention and control activities associated with oil and gas production," he said.

Another statutory change outlined by Wallace would establish a \$100 fee for filing an application to drill an oil or gas well. He said the Commission has been working on

the language of such a measure for some time and would submit a specific proposal within a week. As with the fines, Wallace said the proceeds from such a fee should remain with the Commission for use in preventing and controlling pollution of the state's fresh water resources.

Wallace also said the Commission will soon publish a manual for the public, spelling out the broad scope of its pollution control procedures—from enforcement letters, to ordering pipeline cutoffs, ceasing production, sealing in wells, and beginning court proceedings.

Summarizing the Commission's aggressive attack on oilfield pollution, Wallace told the committee that what is needed is more money for pollution control, stiffer penalties for violators, and dissemination of clear, concise, thorough information

about how the Commission deters and corrects pollution associated with oil and gas activity.

"The Railroad Commission of Texas has attempted to carry out its legislative mandate to regulate the environmental effects associated with oil and gas exploration, and intends to continue its efforts in the future," Wallace said. "In the last year alone, more than 200 environment en-

forcement cases were referred to the Attorney General's office so that a civil lawsuit could be filed.

"These extensive enforcement actions, in conjunction with the legislative, financial and administrative pollution control proposals mentioned earlier, should put the blade on the Commission's axe handle. We need these additional tools to put the floodlight on polluters."

### Auction's Best

by Fred Tucker

\*1981 Auction Marketing Network

#### IT ALL ADDS UP

The auction action is often quite exciting. Bids are made and items are sold at a rate that sometimes sees an average of 75 to 100 sales per hour.

We're interested in giving you a snappy auction so the bidders will stay interested until the last item is sold.

Properly handling the business transactions on auction day is a real big job. But, our auction clerks are professionals at handling the business end of an auction and you'll appreciate our fine auction accounting system.

Every transaction is recorded in detail by identifying the article, recording the price it brings and identifying the buyer. Receipts for each purchase are given to the buyers. And the seller gets a complete accounting for every transaction that balances with the total gross.

Our auction accounting system meets the approval of Courts of law, attorneys, bank trust departments and you will like it, too. It's another reason that people say "when it comes to buying or selling, AUCTION'S BEST."

## The Garden Editor

Ted Brice

Sweetheart is a strawberry with a medium sized fruit that can be grown by home gardeners directly from seed.

Sweetheart is being introduced for the 1983 season and will be widely available to home gardeners both as seed through mail order catalogs and as started plants from garden centers and nurseries.

Sweetheart is an everbearing strawberry that will produce all over the United States. Seventy percent of all plants will flower and fruit the first year. Home gardeners can expect fruit about 140 days after sowing. Trials in the South showed that Sweetheart continued to produce fruit (although at a reduced rate) throughout the hottest weather. In Pan-American Seed trials Sweetheart produced

as much and more fruit than "Ozark Beauty" which is one of the best-known everbearing strawberries for the home garden. Sweetheart is a perennial, and forms runners like conventionally started plants, and can be overwintered for second season production. If runner production is restricted, Sweetheart, like other strawberries will produce much more fruit.

Sweetheart can be planted in rows in the vegetable garden and treated as an annual. This cuts out the work of providing winter protection and the increased incidence of disease associated with second year plants.

Good Gardening until next week from your Garden Editor, Ted Brice.

### A JOINT PROCLAMATION BY THE GOVERNOR AND THE AGRICULTURE COMMISSIONER OF THE STATE OF TEXAS

WHEREAS, our family farmers and ranchers are the most efficient and productive in the world, and  
WHEREAS, the production, transportation and marketing of agricultural food and fiber is the second largest industry in Texas, generating \$37 billion a year and accounting for one out of every five jobs, and  
WHEREAS, family farmers and ranchers are the source of our agricultural abundance, but are not presently receiving a fair return for their productivity, and

WHEREAS, current market prices for agricultural products actually are far below what it costs to produce those products, putting thousands of Texas farmers and ranchers in imminent danger of foreclosure, through no fault of their own, and  
WHEREAS, every Texan has a direct stake in restoring prosperity to our family farm and ranch system so future generations also can benefit from the unparalleled output of these entrepreneurs,

NOW THEREFORE BE IT RESOLVED, that we, the Governor and the Agriculture Commissioner of the State of Texas, do hereby pledge our offices and our best efforts to the task of cultivating a new prosperity in the Texas farm and ranch economy, and to mark this pledge, we do hereby

PROCLAIM the week of March 18 through March 24 to be

#### TEXAS AGRICULTURE WEEK

and we do further call upon all Texans to consider during this week your own reliance on the three percent of our population that produces the food for the other 97 percent of us, and we do call upon every citizen to support efforts to ensure the survival of these family farmers and ranchers.

# Co. Livestock Show Set

Eastland County 4-H members will have a chance to show more than livestock at the Eastland County Livestock Show, March 16-19. There will be a county 4-H project show which will give 4-H'ers a chance to display and receive recognition for such projects as braided belts, wood-working, leathercrafts, and photography. Each project will be judged and awarded a ribbon. The high point winner in each category will receive a 'Best of Show' ribbon and that project will be entered in the Texas 4-H Project Show, June 6-8, at Texas A&M University.

All projects must be

entered by 6:00 p.m. Wednesday, March 16, in the concession stand building at

the show grounds in Eastland. Entries will be judged Thursday morning.

The public is invited to come by and view the 4-H project show.

## Music Award For Veterans

The Federated Music Clubs of Texas, of which the Cisco Music Club and Eastland Music Club are members, wish to remind the public of the Anne Garrett Award for Veterans.

Five hundred dollars is given annually to veterans whose careers have been interrupted by service in U.S. armed forces.

To apply for the Award, six copies of an application are required, as well as three programs on which applicant appeared - or in which a composition of applicant has been used. A copy of discharge from military service should be included, and six letters of recommenda-

tion showing character, ability, need and potentiality. A recent photo should be included if possible. March 15 is the deadline for applica-

tion. Texas Chairman of the Award is Mrs. Talbot W. Williams, 2070 Hazel, Apt. 7, Beaumont, Texas.

## Ranger Jaycee's To Hold Auction

Consign Your Items Now!!

### Vineyard Offers Free Texas-Bred Grape Cuttings

You know Texas is famous for producing oil and longhorns, but did you know it also has the potential to become a great producer of grapes?

In fact, a Texan was responsible for developing disease resistant rootstocks that are the foundation of the grape industry in the U.S. and France. This Texan, Thomas V. Munson, developed more than 300 varieties of American grapes in his Denison vineyard over 80 years ago. He felt Texas should make grape growing one of its leading industries because it has the right climate and soil for growing his varieties.

The Munson grapes were originally developed as table grapes, but they can produce a high quality wine. While this wine tastes different from the vinifera and French-hybrid wines that many people are used to, Munson proponents feel it is about time Texas developed its own distinct wine, using Munson grapes. Besides, all of Texas can successfully grow Munson grapes, while only West Texas has low enough humidity to grow vinifera.

Munson's varieties almost disappeared through lack of a sponsor after he died, but in 1975 the T.V. Munson Memorial Vineyard was established to revive interest in them. Now 60 Munson varieties grow in the vineyard, which is located on the Grayson County College west campus, 1/2-mile west of the intersection of State Highways 1417 and 691 between Sherman and Denison.

Now comes the good news: during winter pruning in February, cuttings of Munson varieties are given away free to the public. To get cuttings, just come to the vineyard during pruning season, or write to Dr. Roy Renfro, Grayson County College, 6101 Grayson Dr., Dept. MG, Denison, TX 75020 for information on obtaining free cuttings by mail.

Some of the most requested varieties are:

Carman, 1883. Vigorous foliage never attacked by leaf-folder or mildew. Very large clusters of black berries of quality superior to Concord.

Champanel, 1893. Growth rampant, very resistant to heat and drought. Does well in any soil, but valuable for black waxy land of the South. Black berries are juicy; acidity unless well ripened, then quite agreeable.

Ellen Scott. Especially valuable to West and Southwest Texas. Large, translucent violet berries are of high quality, mindful of the best foreign grapes.

**Fishing Facts & Fancies**

Fish attractors produce the best results in ponds or lakes containing little or no natural cover, according to Billy Higginbotham, fisheries specialist for the Texas Agricultural Extension Service. As bait fish are attracted to the cover, crappie, bass and catfish follow. Several species of sportfish may use the attractors for shelter and spawning sites.

Brush or tire reefs are the two type of attractors commonly used in Texas. Brush attractors are the oldest and most popular type. Willow tops and discarded Christmas trees make excellent fish habitat when properly anchored. Additional brush is usually needed every two or three years to

keep this type of attractor productive, especially for crappie.

Attractors made of hardwood trees last longer than willow or cedar tops. Limbs can be pruned so the trees are slightly off the bottom, providing relief and structure. Largemouth bass seem to prefer this type attractor.

Tire reefs are constructed by grouping tires together in various configurations. Holes should be drilled in the tires to prevent air pockets and allow the tires to sink easier. A tire reef will last indefinitely without harm to the aquatic environment, Higginbotham says.

Attractors made from a combination of brush and tires often produce excellent results.

Baiting with soured corn or cottonseed cake generally increases the catch of catfish around fish attractors.

Attractors should be placed near underwater points and drop-offs. The size of each attractor is strictly up to the angler, but several small attractors placed at different depths usually give better results than a single

**Attractors Improve Fishing Success**

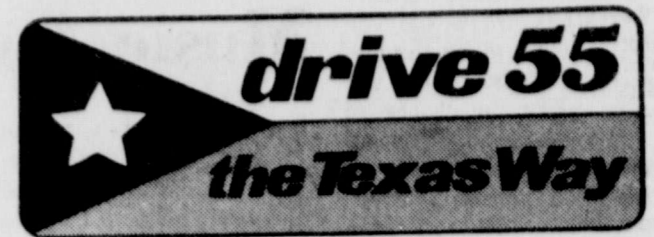

large attractor.

Before placing a fish attractor in a favorite pond or lake, be sure to obtain permission of the owner. For public waters, check with the managing agency to avoid violations of regulations.

While fish attractors do not increase the number of fish in a body of water, they

do concentrate certain species already present.

Therefore, the odds of filling a stringer are much better.

 P.O. Box 12008  
 Austin, Texas 78711  
 512-475-4126

March 12, 13, 19, 20 — 48th Annual Azalea Trail, Houston. Drawing visitors from many states to enjoy beautiful spring blossoms, on view will be the River Oaks Garden Club building and gardens, Bayou Bend House and Gardens, and several private homes and gardens. For tickets and more information: River Oaks Garden Club, 2503T Westheimer, Houston 77098 (713-523-2483).

March 15-20 — "Experience Ireland," St. Patrick's Day Celebration, Dublin. For it's a time of celebration and the wearin' o' the green, in the little town of Dublin, where such events you've never seen. Irish Stew Cook-Off, Leprechaun Contest (for the wee ones) and a 10-km Irish Canter are a bit of the schedule.

There'll be an internationally sanctioned Pre-Olympic Bike Marathon of 120 riders who will race 83 miles to Fort Worth and end up at the "Cowtown Goes Green" celebration. Featured libation will be a non-tippie green champagne concocted by local bottlers (the oldest working Dr. Pepper plant in the world). Highlight will be the unveiling of a portion of the famed Blarney Stone by a representative of the Mayor of Dublin (Ireland). For dates and times: Joann Glenn, Chamber of Commerce, 213T E. Blackjack, Dublin 76446 (817-445-3422).

March 17-27 — The Houston Festival 1983. A non-stop celebration focusing on the arts and set in the streets, museums, theatres, parks and plazas of dynamic, downtown Houston. For complete schedule: The Houston Festival, 1950T W. Gray, Suite 2, Houston 77019 (713-521-9329).

March 18-20 — St. Patrick's Celebration, Shamrock. When George Nichols, sheep rancher, settled in the area he nostalgically recalled his native Erin by naming the post office in his dugout home after the Irish floral emblem. For the 37th time the town pays tribute to its name with plans for a full weekend of entertainment. There'll be a banquet of Irish fare, parade, carnival, old settlers' reunion, Miss Irish Rose pageant and plenty more. On Saturday night, things Irish wind down and C&W takes over at the dance in the National Guard Armory. For a program contact the Chamber of Commerce, Box 588T, Shamrock 79079 (806/256-2501).

March 19 and 26 — Spring Film Festival and Homes Tour, Von Minden Hotel, Schulenberg. Sign up before Feb. 25 for a trip back in time to the 1920s when the Von Minden and the Cozy Theatre were built, and moving pictures were becoming everybody's favorite pastime. Completely restored, the charming hotel has 30 rooms of varying accommodation. The program for each weekend: On Saturday, a bus trip from Houston to Columbus for a historical home tour and lunch, then on to the Von Minden for check in. At 3:30, "Captain Blood," a 1935 swash-buckler with Errol Flynn, Olivia DeHaviland and Basil Rathbone. Following a wine party, dinner at 7:30. At 9, "Dark Victory," a real 30s tear-jerker with Bette Davis, George Brent and Humphrey Bogart. On Sunday, a return trip by bus to Houston at noon. Cost of \$60-75 (per person double occupancy) includes everything — wheels, meals and reels! Reservations and advance payment to Von Minden Hotel, 607T Lyons, Schulenberg 78956 (713-743-3493).

March 19-May 29 (Sat. and Sun.) — Spring Schedule, Texas State Railroad, Rusk and Palestine. Fifty-mile trips in antique trains depart from Victorian depots at 11 a.m. All runs. Adult \$6 round trip and \$4 one way; Child (3-12) \$4 round trip and \$2.50 one way. For schedule and reservations, Texas State Railroad, Box 39T, Rusk 75785 (Toll free 1-800-442-8951 or 214-683-2561).

March 25-27 — April 1-3 — Tyler County Dogwood Festival, Woodville. In addition to the natural beauty of the countryside, visitors to the festival will enjoy two weekends of Western entertainment and Dogwood Queen ceremonies. For information and tickets: Tyler Co. Chamber of Commerce, 507T No. Pine, Woodville 75979.

# State University Reports Murder Trends In Texas

HUNTSVILLE...The murder rate in Texas is increasing almost three times as fast as the population growth rate, according to a recent study by the Criminal Justice Center at Sam Houston State University. While the state's population increased 26.7 percent in the 10 years from 1972-81, the murder rate shot up 69.9 percent. The United States as a whole had an 8.8 percent population increase and 21.6 percent murder rate increase.

"Murder is the ultimate crime," said Colonel Jim Adams, Department of Public Safety director. "It is a crime that touches every citizen of Texas. Many of us know or are related to victims and the rest of us are surely conscious of its threat. Other findings of the study included: •More murders, proportionately, occur in large cities; •Females are much less likely to be murder victims than males; •White males are much less likely to be victims than black males; •Murder is moving up on the list of the top 10 causes of death; •The "lovers' triangle" is

declining as a cause of murder; •Handguns are being used less as murder weapons, with other weapons, knives and other sharp objects being used more; •Murder case disposition and sentencing has changed little in 10 years; •Unless something is done, murder rates will continue to rise faster than population increases. Dr. Raymond H. C. Teske, Jr., director of the Criminal Justice Center's Survey Research Program, said that 80 percent of all Texans live in areas of 50,000 or larger, yet 87.7 percent of the murders occur in such areas.

In 1981, the report says, 18.2 of every 100,000 persons living in urban areas (above 50,000) were victims of murder. The rate for rural areas was 11.3 and for small cities 8.9. A Texan's chance of becoming a murder victim increased dramatically in 10 years. In 1972 one of every 8,118 Texans was murdered; in 1981 one in 5,906. During 1981 a man was almost five times as likely to be murdered as a woman. One in every 3,545 men was a murder victim, and one of every 17,465 women. A black male was eight times more likely to be murdered than a white male...one of every 6,259 white males to one of every 1,241 black males.

A particularly scary figure for black males aged 30-39 is that in 1981 one of every 573 in that category was murdered. "The data suggest that during the 25 year span from age 20 to age 54 a black male is running an exceedingly high risk of being murdered," said Teske. In the population as a whole, the 20-29 age group was the one most affected by murder (1 in 3,018), with 30-39 next (1 in 3,733), followed by 40-54 (1 in 5,109). The murder statistics were compiled by Teske and Michael Hazlett, a Criminal Justice Center research assistant. They were taken from the Federal Bureau of Investigation and Texas Department of Public Safety Uniform Crime Reporting Bureau reports. That data were compared with statistics from other agencies, such as the Texas Department of Health, for

additional analysis. That comparison, for instance, revealed that in 1972 murder ranked 10th among the leading causes of death in Texas. In 1981 it had climbed to 7th, overtaking early infant death, diabetes and arteriosclerosis. Heart disease was the number 1 killer, followed by cancer, stroke, motor vehicle accidents, all other accidents and influenza and pneumonia. One of the problems in undertaking such a study, Teske said, is that good statistics are often not available. Several of the categories of information have been available only since the DPS began its Uniform Crime Reporting Bureau in 1976. "They have the finest state Uniform Crime Reporting Bureau in the United States," said Teske. "The study illustrates the value and utility of their work. The crime data which they have collected and will collect in years to come should provide policy makers in Texas with a sound basis for decision-making and evaluation." The newest DPS statistics include information on victim/offender. By 1981 the percentage had fallen to 58.1. Homicides during arguments accounted for 39.9 percent of all such crimes in 1976, falling to 34.7 percent in 1981 and was the single greatest factor both years. Categories which showed increases in 1981 were justifiable homicide (3.8 percent of murders, 420 percent increase) and homicides during commission of another crime (13.2 percent; 10.8 percent increase). A circumstance category which showed a decrease was "lovers' triangle" (2.5 percent; 16.8 percent decrease) and one which remained constant was "brawl influenced by alcohol or drugs" (10 percent both years).

Although still accounting for more than half (50.1 percent) of all murders, handguns were decreasing in frequency of use in comparison with other firearms (19.9 percent of weapons used, 17.9 percent increase) and knives or other sharp objects (18.6 percent; 22.9 percent increase). The greatest change in disposition and sentencing came in the number of convicted murderers sentenced to the Texas Department of Corrections. In 1976 61.1 percent were sent to state prison; in 1981 65.5 percent. The average sentence declined slightly from 22 to 21.6 years. Life sentences declined almost 5 percent and death sentences stayed the same at 2 percent. Death sentences were given to 147 persons convicted of murder and none were executed. In the number of murders in cities of 50,000 or more there were few changes in the top 10 cities in six years.

## Health - Wise

Allan R. Magie, Ph.D.M.P.H.

Building emotional barriers, thinking illogically, relating inappropriately to life, the schizophrenic is on a seesaw of behavior, carrying with him the label that identifies his two sides. He's not only himself, he's also a strange, troubled person. Schizophrenia, a group of serious mental disorders, is one of the most common, major mental disturbances. Though schizophrenics tend to withdraw from others and the real world, very few are completely separated from reality. Most are aware of their unusual behavior, and some appear normal most of the time. Contrary to what many believe, the schizophrenic isn't more violent than other people. Even during an attack he is more likely to hurt himself than others.

A number of abnormal behavior patterns are exhibited in schizophrenia. In paranoid schizophrenia the person is convinced he is being persecuted or plotted against. He may feel powerful and important. He may claim to have visions or hear voices which support these irrational convictions. A similar pattern, disorganized schizophrenia, displays bizarre, silly, or infantile behavior. In another form, the schizophrenic will hold a frozen posture for long periods of time, alternating with periods of uncontrolled excitement. Anyone at any age can be affected by schizophrenia. Those under 25 are most often its victims. It rarely strikes for the first time in people over 45. Men seem to be more

susceptible during their twenties and thirties, while women appear most vulnerable during pregnancy, childbirth, and menopause. Though stressful events seem most likely to trigger the condition, there appears no single cause, only contributors. • **Inheritance.** Children of schizophrenics are more likely to develop the same problem. • **Social class.** Lower socioeconomic classes are subjected to more social and economic stress, which contributes to its development. • **Family relations.** Certain family environments don't equip children to deal with complex, changing, or stressful situations. • **Biochemical imbalance.** Some schizophrenics have abnormal chemicals or unusual levels of some chemicals in their systems. Perhaps the odd behavior of the schizophrenic has at some time affected most people. But the severe shifts, the persistent indifference, the constant negative attitude, the suicide threats need to be recognized as early symptoms and treated with careful, professional counseling. The sooner help comes, the more effective that help can be.

**House Of Representatives**

**Jim Parker-District 05**

I wish I could ignore the problem and it would go away but it won't. So this week I will attempt to address the D.W.I. issue.

The pieces of legislation dealing with D.W.I. almost outnumber the sum total of legislators, but can be grouped, generally, under one major heading, that being more stringent application of punitive measures taken against persons convicted under the Act. Perhaps it would be helpful to commence with a little legislative history of the issue.

The 1979 Session passed legislation whereby a person first convicted of drunk driving would, mandatorily, forfeit his driver's license and subjected, additionally, to fines, probation, etc. The effect of the legislation was apparently perceived by the judges across our state as being too harsh, in as much as it inordinately deprived the family breadwinner of means of transportation to and from work. The judges were, of course, not blameless but one can understand how it would be much easier in theory to do serious economic damage to a statistic than to an individual from the judge's community and well-known to him.

Social conscience notwithstanding, the net effect

**The DWI Issue**

was a little item called "deferred adjudication" whereby a judge and prosecutor, in an attempt to avoid the harsh economic aspect of the legislation, agreed to "put off" a finding of guilt or innocence for a "probationary" period of time. If the defendant successfully avoids further difficulty for a required period time, a finding of "not guilty" was ultimately entered and the case dismissed. Two immediate problems were caused, the first being that after dismissal, no record existed of the prior offense, eliminating increases in punishment for subsequent offenses. The second problem occurs when we find it is not at all unusual to have a defendant on deferred adjudication in two, three or more counties at the same time, since county probation departments quite often have little or no communication with other probation departments.

If history is, in fact, our best teacher, then we should probably, before hasty action, inquire as to the possibility and effect of a backlash to the proposed legislation, like we saw to the 1979 legislation. Almost all of the legislation proposed would mandate a jail term for conviction of the offense of D.W.I. I worry whether or not the authorities would, to avoid sending a "good ole boy with

a little drinkin' problem" to jail, simply reduce the charge to public intoxication or some such, and further aggravate the problem. It simply has not been historically shown that more stringent legislation, over the long term, leads to lessening of the problem, in fact, quite the contrary has often proven true. Those fare facts, like them or not.

At issue is another consideration near and dear to the social conscience of those often labeled "liberal", that being that alcoholism is now, even in rural Texas, pretty well recognized as a medical problem rather than one of morality. The argument most often advanced by this faction is that society would be appalled at the incarceration of an epileptic, and is there any real difference? Supposedly, both problems are beyond the sufferer's control.

The very nature of this subject precludes my being able to use any more space in the publication to address the D.W.I. issue this week. With your endurance, I will continue my comments on D.W.I., the "open container" legislation and raising the minimum drinking age in following weeks.

See you next week!

**Correction**

Correction on statement in the March 6, 1983, Ranger Times:

Don Beard, Director of the lab at Ranger General Hospital stated (concerning the blood-alcohol tests) that only a physician can order a blood sample to be made. This is usually done after the law enforcement officers make the request to the physician.

**H & R BLOCK UNCOMPLICATES THE NEW TAX LAW**

This year there are 47 different forms and schedules for income tax filers. The so called short form is now two pages, which call for up to 63 entries and refers you to the instructions more than 10 times. Misinterpreting the instructions could cost you money or cause an IRS inquiry.

The tax act of 1981 affects every taxpayer regardless of income. Your H & R Block tax law helps you save money on your 1982 taxes, and points out changes that could affect your taxes in 1983.

Even the 1040A short form is affected by the tax changes, so no one can afford not to use H & R Block with prices starting at \$7.50 and the average fee last year in dollars was under \$40.00.

Your local H & R Block tax preparers

have been thoroughly trained and brought up to date on the latest tax information for 1982 tax returns. The changes in the tax laws have been studied and analyzed to determine what effect they'll have on your tax return.

Through the personal interview that every H & R Block client gets, you can have peace of mind that every deduction to which you are entitled to will be uncovered.

H & R Block has 2 conveniently located offices. Call today, appointment available.

*Cashback + Discounts on Extras + 11.9% UP TO \$2000.00 Savings*

**Dodge Makes It Easy As One-Two-Three**

**1. Up to \$1000 CASH BACK**

Cash back offers apply to new vehicles delivered by 3/31/83.

Ramcharger	\$1,000
Ram 50	\$300
Ram 150	\$300
Ram 250/350	\$500
Ram 50 ('82 only)	\$500
Ram 150 pickup	\$500
Ram 250/350 pickup	\$500

**2. Up to \$1000 DISCOUNTS**

\$75 to \$1,000 Discounts On Prospector Option Packages.

Prospector option packages contain the kind of equipment truck buyers prefer. They are a tremendous value now during our Dodge Truck Prospector Days. Dollar savings depend, of course, on which pickup or Ramcharger and package you select.\*

**3. 11.9% Annual Percentage Rate Financing**

With 11.9% financing, you could get significant savings over the course of your loan. The difference between 11.9% and a typical bank loan rate of 14.5% over a typical loan period can amount to a very healthy bonus.\*

\*Your dealer has details. Savings based on comparison to list prices of package options if purchased separately.

Except Ramcharger, DEALER CONTRIBUTION MAY AFFECT FINAL PRICE. See participating dealer for details.

\*\*For qualified buyers at participating dealers and lenders. DEALER CONTRIBUTION MAY AFFECT FINAL PRICE. Actual savings depend on amount financed, term of loan, and lending institution. Must order by 2/28 or take delivery from stock by 3/31. Ask for details.
