## Books Needed For Annual Auxiliary Fair

### Auxiliary Fair

Books are needed for the Book Fair annually sponsored by the E.L. Graham Hospital Auxiliary. Especially needed for the fair this year are children's books. Please leave your donations at the Chamber of Commerce. The Book Fair will be held the later part of September.

### Registration Set For Pre-School Here

Registration for children, 3½ to 4 years old, at Clamplitt Pre-School will be the week of August 6th, from 9-11 a.m. School opens Sept. 4th with hours from 8 until 12 o'clock. Children must have all immunization shots and T-13 test. For other information, call 442-1000 or go by 504 Front.

### Area Schools Plan Reunion

Saturday, August 4, will be the 64th annual school reunion for the Pioneer, Liberty, Sabanno, Cook, Curtis, Hickman, Gunn, Peak and Crocker schools. The reunion will be held under the old community tabernacle at Pioneer. Registration will begin at 9 a.m. The noon meal will be catered by the Colony Restaurant of Cisco.

## Dinner Theatre 'Spirited' Away By Coward

By Herrel Hallmark

Another super evening of entertainment, with fine performances by the cast, best describes "Blithe Spirit" by Noel Coward, the second of three plays being presented by the Roof Garden Dinner Theatre for the summer of 1984. The final performances of this play will be held Thursday, Friday and Saturday of this week. Reservations may still be made by calling 442-2589, but hurry because the performances fill up fast. The final production this summer will be "Guys and

Dolls," scheduled for August 2-4 and 6-11. A classic of the American musical theatre, "Guys and Dolls" is written by Frank Loesser, Jo Swerling and Alie Burrows. But, back to the current production, your evening of entertainment begins at 7 p.m. with a menu consisting of cornish hens, rice pilaf, peas with pearl onions, tossed salad, dinner rolls, and coffee or tea. Dessert is a delicious slice of Black Forest cake. The meal is catered by ARA Services, Inc., John Rehak, Director. The three-act play takes place in the living room of

the Condomine's house in Kent during the late spring of 1946. The clothing worn on stage and the furnishings of the room set the mood for the 1940's, making the audience feel transported back in time. "Blithe Spirit" has been a smash comedy hit on both London and Broadway stages. In order to gain information for a book he is writing, novelist Charles Condomine invites an eccentric lady medium into his home. Little does Charles or his lovely second wife, Ruth, dream that the seance stag-

ged by the medium will summon back Charles' first wife, now "passed over" for seven years. But the lady from beyond, still beautiful, still mischievous, appears - a wraith who torments Charles by reminding him of their days and nights together. This unusual triangle results in one of the most hilarious and cockeyed plays ever written. The local production is a credit to the original play with fine performances and interpretations of the characters by all those in the cast. As usual, Steven Vincent

seems to steal the show with his excellent portrayal of Charles Condomine, the bewildered husband who must try and appease two women at the same time: his present wife and his deceased wife, whom only he can see or hear. Vincent, a regular of the summer Roof Garden Theatre, has training which includes a BFA from Texas Christian University, an MFA from Oklahoma University, a year of study in London with The Drama Studio, and graduate work at the University of Kansas where he is a Ph.D. candidate.

Credits for Vincent include a stint in New York City with the Provincetown Playhouse, the Drama Committee Repertory, and the New York Theatre Ensemble as well as work with the Creede Repertory Theatre in Colorado. Another regular of the Roof Garden Theatre's summer season is Melissa Holloway, who portrays

Madame Arcati excellently as the eccentric medium. Her actions during the "seances" bring many laughs to the audience. Born in Buffalo, New York, Mrs. Holloway received her BA from Converse College in South Carolina before coming to Texas where she earned her MFA in Scene/ Costume Design and Playwriting from DTC. She has worked as an actress, designer, and playwright with both the Dallas and Oklahoma Theatre Centers. Sharon Miller, summer apprentice, turned in an outstanding portrayal of Edith, the Condomine's maid. Miss Miller provides laughs in her desire to please her employers and also with her facial expressions. Be sure to watch her eyes which seem to express her true feelings about her surroundings. Excellent performances were also turned in by the remaining cast in their respective roles. Betty Hukill por-

trays Ruth Condomine, the present wife of Charles; John Holloway is Doctor Bradman and Laura Jeffcoat performs as his wife; Melanie Taylor "haunts" the stage as Elvira, the deceased wife of Charles. The production staff of "Blithe Spirit" includes Charles Hukill as director; John Holloway, set and light designer/technical director; Missy Holloway and Melanie Taylor, costumers; Christi Terrell, stage manager/assistant director; Katrina Bogle, light board operator; Sherri Ashley, sound operator; Sarah Rice and Wes Wynn, properties/running crew; Johnna Brown, wardrobe; and summer apprentices as the production crew. "Blithe Spirit" is presented through special arrangement with Samuel French, Inc. and is an educational project of the Cisco Junior College Fine Arts Department. Philip Craik, managing director, Wyley M. Peebles, chairman.

**OWNERSHIP CHANGE**-Effective July 1, Nimrod Pipe and Supply, Inc., Highway 80 west in Cisco, had a change in ownership. Previous owners of the supply company were Travis Starr, Rick Roark and Walter Hall. Travis Starr is still owner, along with new owners Dean Madison and Ken McCulloch. Nimrod Pipe and Supply employs 16 people as it has for

the past three years. They handle all types of oil-field related supplies and services. Shown in the above photo are: (left to right) Bobby Fink, Chamber of Commerce member; Ken McCulloch, owner; Dean Madison, owner; Travis Starr, owner; Donnie Worley, store manager; Danny Dawdy, office manager; and Randy Speegle, CofC manager. (Staff Photo)

## Water Filter Plant Is Undergoing Tests

Water went through the new filtration plant at Lake Cisco for the first time Monday as construction work on the project was making good progress, City Manager Mike Moore reported. The Monday use of the new filter facilities was the initial test. Plans call for further testing later in the week, Mr. Moore said. "It will be sometime before the filtration plant

will become a regular part of our water facilities," Mr. Moore said. "And it will take time for all lines in the water system to be flushed out and for water customers to begin noticing improvement in their water." The Lake Cisco improvement program is being carried out by Ben Sira & Co., Dallas contractors, and they have 300 working days from last Nov. 15th in which to

complete the work. The filter plant is part of the \$900,000 improvement program in the Sira contract. The new 12-inch water main line has been in use for some time, Mr. Moore said. It has enabled the water department to maintain good pressure. The line runs from College Hill reservoir to the overhead tower in South Cisco. It was built by Joe Fambro Construction Co. of Stephenville. The city manager said that the water department was not pumping as much water to town this year as in the past few years to meet demands. This, Mr. Moore felt, was due in part to conservation efforts on the part of all citizens.

## LL Season Ends As Cisco Loses

### Wende Reunion To Be July 22

The descendants of Daniel and Amelia Wende will be meeting at the Redeemer Lutheran Church in the Parish Hall for a family reunion Sunday, July 22nd. The Wende family originally settled south of Cisco in about the 1890's. There are over 100 family members that have been registered for this reunion and dinner.

The 1984 Little League season came to an end for the Cisco All-Stars as they lost to Coleman's All-Stars by a score of 19-to-11 in a game at Coleman Monday night. Coleman advanced to the second round. Joe Campbell started as the Cisco pitcher but was relieved by Ross Escobedo after the first inning. David Zell, who was behind the plate, may have suffered a broken nose when he was hit by a baseball in pre-game warmup activities.

Members of the Cisco All-Star team were named as follows: Ross Escobedo, Brian Callarman, Brandon Honea, Russell Abbott, Matt Goosen, Craig Mason, Joe Campbell, David Zell, Lance Moore, Ken Roark, Aaron Whitley, Dusty Schaefer, Crystal Jones and Manuel Anaya with Lloyd Moore and Sean Schaefer as alternates. A good crowd from Cisco attended the game.

**CLASSIFIED ADS GET RESULTS**

Lake Cisco's water level is some 15 feet below spillway level and the city has urged residents to practice strict conservation. Virtually no water has been caught in the lake during the past two years of drought conditions. Increased water rates, which are about twice as much as last year, to finance to water improvement program have caused a good many residents to cut back on water usage, Mr. Moore believed.

## New CofC Members

**CUSTER'S CARPET CLEANING & JANITORIAL SUPPLIES** has joined the Chamber of Commerce this week. This new business is located next door to Interiors Unlimited at 108 W. 8th St. in Cisco. Shown in

the above picture are (left to right) Randy Speegle, CofC manager, Bobby Fink, Chamber of Commerce member, Al Custer, owner, Linda Cosart, CofC member and Fred Wheeler, CofC member. (Staff Photo).

**HOTEL MEMORABILIA**-Conrad Hilton's personal affects and business papers are being organized by Dr. Karl Conrad through the Institute for Public History and the Conrad Hilton College of Hotel and Restaurant Management, made possible by a new \$60,000 Hilton Foundation grant. The objects include several signed

footballs from the San Diego, Chargers, which Hilton once owned, carvings from Africa, numerous plaques, costumes from the Knights of Malta, and a dinner bell chime. The bound books above are books of signatures from all of Hilton's employees collected for "This is Your Life." UH photo by Andy Abbott.

## Grant Received To Organize Conrad Hilton's Personal Papers, Memorabilia

A new Hilton Foundation grant will enable the University of Houston-University Park Conrad N. Hilton College of Hotel and Restaurant Management and the Institute for Public History to plow through more than 20 file cabinets full of Hilton's personal corporate papers

and to provide seed money for the nation's first research center for the history of the hospitality industry. While the foundation donated most of the late hotel magnate's personal papers, and memorabilia to the college, there was no

staff available to organize it, according to Dean Gerald Lattin. The \$60,000 grant will enable Dr. Karl Conrad to organize the papers, conduct interviews with long-term associates of Hilton, and assemble an archive. Conrad is associated with the history department and has

been assistant director of the Institute for International Business Analysis. "This archive will hopefully serve as a springboard for the research center for the entire hospitality industry," Lattin says. "We're not just

**C.T. Harp's To Be Honored On Fiftieth**

Mr. and Mrs. C.T. Harp will be honored Sunday, July 22nd, with a reception honoring their 50th wedding anniversary from 2:00 p.m. until 4:00 p.m. at the Women's Club in Eastland, Texas.

Children of the couple, Mr. and Mrs. Clovis Moore of Midland, and Mr. and Mrs. Dale Squiers of Clyde, will host the celebration. The Harp's three grandchildren and two great-grandchildren will also be present for the occasion.

Mr. Harp was born in Rochelle, Texas on January 18, 1913. Mrs. Harp was born in Erath County on January 19, 1909. They were married July 23, 1934, at Stephenville, Texas. They lived in Stephenville and Fort Worth before coming to Eastland in 1949.

Friends of Mr. and Mrs. Harp are cordially invited to attend this celebration of their golden anniversary.

**New Unrefrigerated Milk Is  
Now Being Introduced**

A new type of milk product geared to today's lifestyles is being introduced in some Texas markets, says a Texas A&M University Agricultural Extension Service nutritionist.

"Ultra high temperature (UHT) milk is real, fresh, fluid Grade A milk that is heated to 280 degrees F, quickly cooled to room temperature and then packaged in a five-layer, aseptic package," explains Dr. Dymple Cooksey.

UHT milk can now be found in the juice section of some grocery stores. "The combination of ultra high temperature processing and aseptic packaging gives the milk an unrefrigerated shelf life of months," she adds.

The UHT process does not involve adding preservatives, and neither the flavor nor the nutritional

value of the milk is changed, says the nutritionist.

What has changed is the convenience. For example, the lowfat white milk could be ideal for one or two-person households or for consumers who use small quantities of milk. Once opened, it will stay fresh twice as long as refrigerated milk, Cooksey notes.

People with busy lifestyles and those who have little time to shop may also find UHT milk a convenience, since it can be stored on a shelf or kept unopened in the refrigerator for months.

UHT milk is also handy to have on hand in case you run out of milk, or for cooking and baking needs, but it's not designed to replace refrigerated milk entirely, she says.

Chocolate, strawberry or orange creme flavored

lowfat UHT milks are available in half pint containers. These flavored milks could be good alternatives to other beverages for children, since they offer essential vitamins, minerals and calcium, advises the nutritionist.

Cooksey believes the availability of UHT milk may mean that more people will use milk for sack lunches, picnics, traveling and other situations where refrigeration is a problem.

It can be carried along just like other non-refrigerated beverages and quick-chilled or served over ice. Or it can be frozen the night before packing it into a lunch box. By noon it will have thawed, and the cold milk will be ready for drinking.

**Record  
Attendance**

**RECORD ATTENDANCE!** The Blazor Workshop is completed and has had record attendance. The training began in June with 15 preparing to take the course. As time progressed we topped that number at one session had 28 attend. Total number present at 4 sessions were 90! In August we will have a follow up session. At this time we will have a brief fashion show of all blazors completed. The ladies had done a fantastic job sewing on corduroy, velvet, linen types and various other fabrics.

This workshop was sponsored by the Texas Agricultural Extension Service and taught by Janet Thomas and Faith Ballard, Eastland Home Economics agents. Be sure to watch for more workshops, soon to come on foods and clothing.

### Protect Trees From Construction Damage By Barricades and Terracing/Retainer

The time to protect existing trees from construction damage is before construction begins. "Once a choice tree begins to suffer from construction damage, little can be done to remedy the situation," says Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service, Texas A&M University System.

Although most injuries are caused by mechanical damage from trucks and other vehicles, soil compaction and changing the soil level can also cause irreparable damage, says the horticulturist.

To protect existing trees, construct a barricade around them to insure that the soil is not disturbed as well as to prevent

mechanical injury to the trunk and branches. When the soil's grade level is raised, it upsets the air and moisture relationship in the soil, smothering root hairs and making roots unable to function.

"As little as 3 inches of heavy soil placed over the root zone of an oak tree will kill it," Janne says.

A simple tile or perforated plastic pipe system, properly installed to drain excess moisture away from the roots, will provide the essential air exchange necessary for normal root growth and development.

Terracing will usually provide satisfactory protection if the grade is to be lowered, notes Janne. If space is not available for a broad terrace, a retaining wall bet-

ween the tree and the low grade is effective. Weep holes must be placed in the base of the wall to allow trapped water to drain.

Trenching operations to install new utility services also can be deadly for trees, he points out. If a trench must pass near a tree, make any necessary cuts with a saw or pruning instrument to assure clean cuts. Backfill the trench as soon as possible to prevent excessive drying of exposed roots.

If many roots have been cut or removed, thin out the top of the tree to compensate for the lost roots, suggests the horticulturist. When trimming the tree, be sure to make all cuts back to a lateral branch - don't stub back major limbs.

### C.J.C. Band Camp To Be Aug. 6-10

The Cisco Junior College annual "Drive In Band Camp" will be held on the campus, beginning Monday, August 6, 1984.

Any student who has had at least one year of band or instrumental instruction is eligible to attend the camp.

Courses to be offered this year include theory, rhythm, section rehearsals, full band rehearsals, and possible stage band classes.

The camp will begin with registration at 9:00 a.m. in the band hall on Monday, August 6, and will conclude on Friday afternoon, August 10th. Classes will run from 9:00 until 3:30 each day. Cost of the camp is only \$35 per student, and this includes a noon meal each day.

Instructors will be area band directors and Mr. Tim Jones, who is also camp director. Advanced registration is not required, but full

payment will be due on the first day of classes.

The purpose of the drive in band camp is to help band students prepare for the coming season and to refresh their playing and reading skills after having been off for the summer.

Students ranging from grade 6 through 12 are invited and encouraged to attend this one week session. No beginning instruction will be offered at this time.

## Chicken Barbecuing Time Here

COLLEGE STATION--Texans enjoy backyard barbecuing and eating as much as anybody in the U.S., and chicken barbecue is an all-time favorite.

A few simple steps will enable you to enjoy mouth-watering chicken barbecue to your heart's content, says Dr. James Denton, poultry marketing specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Chicken barbecuing involves four basic steps: First, split the birds in half and sprinkle each half generously with salt and black pepper before placing on the pit, advises Denton. To shorten barbecuing time cut halves into parts.

Second, make sure coals are white hot before putting the chicken on the grill. Any type of cooker can be used, but keep the coals 8 to 12 inches from the cooking rack for best results, says the

specialist.

Another basic step for top-notch chicken barbecue is to use a basting sauce during the cooking process which contains no tomato product or sugar because such sauces burn easily. A basting sauce will keep meat moist and juicy and add a desired flavor. Apply basting sauce and turn chicken halves frequently.

Denton suggests these ingredients for a basting sauce: 1 tablespoon salt, 1 teaspoon black pepper, 1 stick butter or margarine, 2 tablespoons Worcestershire Sauce and a few drops of hot sauce or red pepper. Heat the mix over a low flame until the butter or oleo melts; then add the juice of one lemon (vinegar may be substituted). Next fill the pan with water and heat but do not boil. Spices such as garlic salt or lemon pepper can be added to suit personal preference.

To top off the barbecuing process, apply a finishing sauce to the chicken about the last 20 to 30 minutes before cooking is complete. This is the most critical time during the entire cooking process, emphasizes Denton. Check the meat carefully and turn it frequently to avoid burning the finishing sauce.

Several types of finishing sauce are available and vary from mild to hot. To prepare your own sauce (for 10 chicken halves), use the following: 1 cup cooking oil, 1 cup vinegar, 1 cup catsup, 1/4 cup sugar and 1/2 cup water. Add salt, Worcestershire Sauce, hot sauce, garlic and other seasonings to taste.

Chicken barbecue should be complete in about 1 1/2 to 2 hours. Cooking longer with less heat usually results in the most flavorful, juicy and tender barbecue. Placing the cooking rack closer than 8 inches to the coals will reduce

barbecuing time, but the meat will be drier and less tender, Denton points out.

A test for doneness is to twist the drumstick which is connected to the thigh. If the joint between the thigh and drumstick is loose, the chicken is ready to eat. Another test is to cut into the meat at this joint. The moisture in the joint will run clear if the meat is done.

The fun part of chicken barbecuing is to develop your own secret recipe and cooking style, says Denton. The four basic steps outlined can be varied to suit your style and taste.

One variation is to debone the breast and thigh meat and marinate it overnight in the refrigerator in a mixture of 16 oz. herb-seasoned Italian dressing and 8 oz. picante cause. Cook in the same manner as before while basting with the marinating sauce.

barbecue, Denton suggests using a soy-teriyaki (or Worcestershire) sauce marination for two-to-four hours before cooking.

Most of all, let your imagination be your guide and have fun, says the specialist. Who knows? The world's greatest barbecue chef may be in your own backyard.
